INDEPENDENT ACCOUNTANTS' REPORT

Girard City School District
Trumbull County
704 E. Prospect Street
Girard, Ohio 44420

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Girard City School District, Trumbull County, Ohio (the District), as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Girard City School District, Trumbull County, Ohio, as of June 30, 2010, and the respective changes in financial position, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 19, 2011, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the School District's basic financial statements. The federal awards expenditures schedule is required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. We subjected the federal awards expenditures schedule to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Unaudited)

The management's discussion and analysis of the Girard City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2010 are as follows:

- In total, net assets of governmental activities increased \$926,020 which represents a 2.71% increase from 2009.
- General revenues accounted for \$13,727,047 in revenue or 79.59% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$3,519,668 or 20.41% of total revenues of \$17,246,715.
- The District had \$16,320,695 in expenses related to governmental activities; only \$3,519,668 of these expenses was offset by program specific charges for services, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$13,727,047 were adequate to provide for these programs.
- The District's major governmental funds are the general fund, bond retirement and classroom facilities fund. The general fund had \$12,828,951 in revenues and other financing sources and \$12,492,892 in expenditures and other financing uses. During fiscal 2010, the general fund's fund balance increased \$336,059 from \$4,987,299 to \$5,323,358.
- The bond retirement fund had \$1,030,166 in revenues and \$1,016,539 in expenditures. During fiscal 2010, the bond retirement fund's fund balance increased \$13,627 from \$229,708 to \$243,335.
- The classroom facilities fund had \$5,883,200 in revenues and \$13,841,843 in expenditures. During fiscal 2010, the classroom facilities fund's fund balance decreased \$7,958,643 from \$14,021,249 to \$6,062,606.

Using the Basic Financial Statements (BFS)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *statement of net assets* and *statement of activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general, bond, and classroom facilities funds are by far the most significant funds, and the only governmental funds reported as major funds.

Reporting the District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2010?" The statement of net assets and the statement of activities answer this question. These statements include *all assets, liabilities, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net assets and the statement of activities, the governmental activities include the District's programs and services, including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, and food service operations.

The District's statement of net assets and statement of activities can be found on pages 13-14 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page 9. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general, bond, and classroom facilities funds.

Governmental Funds

All of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* than can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the statement of net assets and the statement of activities) and governmental *funds* is reconciled in the basic financial statements. The basic governmental fund financial statements can be found on pages 15-19 of this report.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals. These activities are reported in an agency fund. All of the District's fiduciary activities are reported in separate statements of fiduciary net assets and changes in fiduciary net assets on pages 20 and 21. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 23-52 of this report.

The District as a Whole

The statement of net assets provides the perspective of the District as a whole.

The table below provides a summary of the District's net assets for 2010 and 2009.

| | Net Assets | |
|--|---|---|
| | Governmental Activities <u>2010</u> | Governmental Activities <u>2009</u> |

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Unaudited)

At year-end, capital assets represented 55.35% of total assets. Capital assets include land, construction in progress, land improvements, buildings and improvements, furniture and equipment and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2010, were \$24,857,444. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net assets, \$5,598,920, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net assets is \$4,696,026.

The graph below presents the District's governmental activities assets, liabilities and net assets for fiscal year 2010 and 2009.

The table below shows the change in net assets for fiscal years 2010 and 2009.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Unaudited)

The dependence upon tax and other general revenues for governmental activities is apparent, 77.86% of instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 78.43%. The District's taxpayers and unrestricted grants and entitlements from the State of Ohio are by far the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2010 and 2009.

Governmental Activities - General and Program Revenues

The District's Funds

The District's governmental funds (as presented on the balance sheet on page 15) reported a combined fund balance of \$14,830,869, which is less than last year's total of \$23,832,199. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2010 and 2009.

The decrease in earnings on investments can be attributed to the lower interest rates for fiscal year 2010. Tuition revenue decreased due to a decrease in open enrollment. All other revenue items remained consistent with the prior year. All expenditure items remained consistent with the prior year.

Debt Retirement Fund

The debt retirement fund had \$1,030,166 in revenues and \$1,016,539 in expenditures. During fiscal 2010, the debt retirement fund's fund balance increased \$13,627 from \$229,708 to \$243,335.

Classroom Facilities Fund

The classroom facilities fund had \$5,883,200 in revenues and 13,841,843 in expenditures. During fiscal 2010, the classroom facilities fund's fund balance decreased \$7,958,643 from \$14,021,249 to \$6,062,606. The decrease in fund balance is due to construction expenditures related to the Ohio School Facilities Construction project.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal 2010, the District amended its general fund budget numerous times. For the general fund, final budgeted revenues and other financing sources were \$12,903,482, which is less than the original budgeted revenues and other financing sources estimate of \$13,335,241. Actual revenues and other financing sources for fiscal 2010 were \$12,909,842. This represents a \$6,360 increase from final budgeted revenues.

General fund original appropriations (appropriated expenditures plus other financing uses) of \$12,959,351 were decreased to \$12,935,983 in the final budget. The actual budget basis expenditures and other financing uses for fiscal year 2010 totaled \$12,961,233. This represents a \$25,250 increase over final budgeted appropriations.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Unaudited)

Current Related Financial Activities

The Girard City School District has maintained the highest standards of service to our students, parents and community. Our school system is constantly presented with challenges and opportunities. National, state and local events economically affect the District and the surrounding area. The District continues to review and analyze the impact key factors which figure in the District's financial condition.

The District has carefully managed its general fund budgets in order to optimize the dollars available for educating our students, and to minimize the millage amounts needed periodically from the overtaxed community.

The District's five-year projections indicate that the natural budget cycle needs will require management to continually look for ways to manage costs in a rising environment. With fiscal prudence the recent fiscal year budgets have been carefully managed in order to minimize the increased costs.

Unstable enrollments caused by alternative educational sources, which do not have the same requirements, deprive the District of needed funds. Open enrollment, community schools, ECOT, and other drains on the dollars available for school operations must be monitored by management and the District.

The District has committed itself to educational excellence for many years. The District is committed to living within its financial means, and working with the community it serves to obtain resources to support the best educational program possible now and into the future.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Mr. Mark Bello, Treasurer, Girard City School District, 704 E. Prospect Street, Girard, Ohio 44420.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2010

Net change in fund balances - total governmental funds \$ (9,006,260)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceed depreciation expense in the current period.

| | | | |
|-------------------------|----|------------|------------|
| Capital asset additions | \$ | 15,699,052 | |
| Depreciation expense | | (498,071) | |
| Total | | | 15,200,981 |

Governmental funds report expenditures for inventory when purchased, however, on the statement of activities they are reported as an expense when consumed. 4,930

Revenues on the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

| | | | |
|---------------------------|--|-------------|-------------|
| Delinquent property taxes | | 103,302 | |
| Intergovernmental revenue | | (5,877,756) | |
| Total | | | (5,774,454) |

Repayment of bond, note and lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net assets. 550,000

Governmental funds report expenditures for interest when it is due. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. The additional interest reported in the statement of activities is due to the following:

| | | | |
|---|--|----------|---------|
| Decrease in accrued interest payable | | 4,481 | |
| Accreted interest on capital appreciation bonds | | (19,226) | |
| Amortization of bond issuance costs | | (10,140) | |
| Amortization of bond premiums | | 35,946 | |
| Amortization of deferred charges on refundings | | (16,907) | |
| Total | | | (5,846) |

Some expenses reported on the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds (43,331)

Change in net assets of governmental activities \$ 926,020

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Girard City School District (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a city school district as defined by the Ohio Revised Code. The District operates under an elected Board of Education (5 members) and is responsible for the provision of public education to residents of the District.

The District is the 330th largest in the State of Ohio (among the 905 public school districts and community schools) in terms of enrollment. The average daily membership (ADM) as of June 30, 2010, was 1,684. The District employed 127 certified employees and 64 non-certified employees.

The District provides regular, vocational and special instruction. The District also provides support services for the pupils, instructional staff, general and school administration, business and fiscal services, facilities acquisition and construction services, operation and maintenance, student transportation, food services, extracurricular activities and non-program services.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) guidance issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following organizations are described due to their relationship to the District:

JOINTLY GOVERNED ORGANIZATION

Northeast Ohio Management Information Network (NEOMIN)

NEOMIN is a jointly governed organization among thirty school districts in Trumbull and Ashtabula Counties. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to the administrative and instructional functions among member districts. Each of the districts supports NEOMIN based upon a per pupil charge.

Superintendents of the participating school districts are eligible to be voting members of the Governing Board which consists of ten members: the Trumbull and Ashtabula County superintendents (permanent members), three superintendents from Ashtabula County school districts, three superintendents from Trumbull County school districts, and a treasurer from each county who must be employed by a participating school district, the fiscal agent or NEOMIN. The degree of control exercised by any participating school district is limited to its representation on the Governing Board. To obtain a copy of NEOMIN's financial statements, write to the Trumbull County Educational Service Center, 6000 Youngstown Warren Road, Niles, Ohio 44446.

INSURANCE PURCHASING POOLS

Ohio School Boards Association Workers' Compensation Group Rating Plan

The District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio School Boards Association Workers' Compensation Group Rating Plan (the Plan) was established through the Ohio School Boards Association (OSBA) as a group purchasing pool.

The Plan's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the Plan. Each year, the participating school districts pay an enrollment fee to the Plan to cover the costs of administering the program.

Trumbull County Schools Employee Insurance Benefits Consortium

The District participates in the Trumbull County Schools Employee Insurance Benefits Consortium (the "Consortium"). This is a shared risk pool comprised of sixteen Trumbull County school districts. The Consortium is governed by an assembly which consists of one representative from each participating school district (usually the superintendent or designee). The assembly elects officers for one year terms to serve as the Board of Directors. The assembly exercises control over the operation of the Consortium. The Consortium's revenues are generated from charges for services.

B. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

General fund - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Classroom facilities fund - The classroom facilities capital projects fund is used to account for financial resources and expenditures related to the school facilities construction project.

Bond retirement fund - The bond retirement fund is used to account for the accumulation of resources and payment of general obligation bond and principal and interest from governmental resources when the government is obligated in some manner for payment.

Other governmental funds of the District are used to account for (a) food service operations; (b) financial resources to be used for the acquisition, construction, or improvement of capital facilities; and (c) grants and other resources whose use is restricted to a particular purpose.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector. The District has no proprietary funds.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's trust funds are private-purpose trusts, which account for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds account for student activities and Bureau of Workers Compensation obligations.

C. Basis of Presentation and Measurement Focus

Government-wide Financial Statements - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

**GIRARD CITY SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the statement of net assets.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The private-purpose trust funds are reported using the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting.

Revenues - Exchange and Nonexchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6).

**GIRARD CITY SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Unearned Revenue and Deferred Revenue - Unearned revenue and deferred revenue arise when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2010, but which were levied to finance fiscal year 2011 operations, and other revenues received in advance of the fiscal year for which they are intended to finance, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met are recorded as deferred.

On governmental fund financial statements, receivables that will not be collected within the available period, including delinquent property taxes due at June 30, 2010, are recorded as deferred revenue.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities used during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The District is required by State statute to adopt an annual appropriated cash basis budget for all funds. The specific timetable for fiscal year 2010 is as follows:

1. Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The purpose of this budget document is to reflect the need for existing (or increased) tax rates.
2. By no later than January 20, the Board-adopted budget is filed with the Trumbull County Budget Commission for tax rate determination.

**GIRARD CITY SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

3. Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund. Prior to July 1, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as a basis for the appropriation measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered balances from the preceding year as reported by the District Treasurer. The certificate of estimated resources may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The budget figures, as shown in the accompanying budgetary statement, reflect the amounts set forth in the original and final certificates of estimated resources issued for fiscal year 2010.
4. By July 1, the annual appropriation resolution is legally enacted by the Board of Education at the fund level of expenditures, which is the legal level of budgetary control. State statute permits a temporary appropriation to be effective until no later than October 1 of each year. Although the legal level of budgetary control was established at the fund level of expenditures, the District has elected to present budgetary statement comparisons at the fund and function level of expenditures. Resolution appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals.
5. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.
6. Formal budgetary integration is employed as a management control device during the year for all funds consistent with the general obligation bond indenture and other statutory provisions. All funds completed the year within the amount of their legally authorized cash basis appropriation.
7. Appropriations amounts are as originally adopted, or as amended by the Board of Education through the year by supplemental appropriations, which either reallocated or increased the original appropriated amounts. All supplemental appropriations were legally enacted by the Board prior to June 30, 2010, however, none of these amendments were significant. The budget figures, as shown in the accompanying budgetary statement, reflect the original and final appropriation amounts including all amendments and modifications.
8. Unencumbered appropriations lapse at year end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Expenditures plus encumbrances may not legally exceed budgeted appropriations at the fund level.

F. Cash and Investments

To improve cash management, cash received by the District is pooled in a central bank account. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the basic financial statements.

**GIRARD CITY SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

During fiscal year 2010, investments were limited to overnight repurchase agreements. Except for nonparticipating investments contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investments contracts, such as repurchase agreements, are reported at cost.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. The Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2010 amounted to \$105,433, which includes \$34,725 assigned from other District funds.

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at year end is provided in Note 4.

G. Inventory

On government-wide financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method. On fund financial statements, inventories of governmental funds are stated at cost. Cost is determined on a first-in, first-out basis and is expended when purchased.

Inventory consists of expendable supplies held for consumption, donated food and purchased food.

H. Capital Assets

General capital assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$1,500. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

**GIRARD CITY SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All reported capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| Description | Governmental Activities Estimated Lives |
|----------------------------|---|
| Land improvements | 5 years |
| Buildings and improvements | 25 - 50 years |
| Furniture and equipment | 5 - 20 years |
| Vehicles | 10 years |

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables”. These amounts are eliminated in the governmental activities column on the statement of net assets.

J. Compensated Absences

Compensated absences of the District consist of vacation leave and sick leave to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16, “Accounting for Compensated Absences”, a liability for vacation leave is accrued if a) the employees’ rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination (severance) payments. A liability for sick leave is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for sick leave on employees expected to become eligible to retire in the future, all employees with at least ten years of service were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2010 and reduced to the maximum payment allowed by labor contract and/or statute, plus any additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

**GIRARD CITY SCHOOL DISTRICT
TRUMBULL COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

K. Unamortized Issuance Costs/Bond Premium and Discount/Accounting Gain or Loss

On government-wide financial statements, issuance costs are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Unamortized issuance costs are recorded as a separate line item on the statement of net assets.

Bond premiums are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds.

For bond refunds resulting in the defeasance of the debt reported in the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as an addition to or reduction of the face amount of the new debt.

On the governmental fund financial statements, issuance costs and bond premiums are recognized in the current period. A reconciliation between the bonds face value and the amount reported on the statement of net assets is presented in Note 10.A.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

M. Fund Balance Reserves

The District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, instructional materials, prepayments, property taxes unavailable for appropriation, Bureau of Workers' Compensation (BWC) refunds, debt service and materials and supplies inventory. The reserve for property taxes unavailable for appropriation represents taxes recognized as revenue under GAAP, but not available for appropriation under State statute.

TRUMBULL COUNTY, OHIO**

FOR THE FISCAL YEAR ENDED JUNE 30, 2010
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

N. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents amounts restricted for instructional materials, BWC refunds, food service, public school support and the Martha Holden Jennings fund.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

O. Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets on the balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed. At fiscal year-end, because prepayments are not available to finance future governmental fund expenditures, the fund balance is reserved by an amount equal to the carrying value of the asset on the fund financial statements.

P. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

Q. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. Restricted assets for other purposes include the amount required by State statute to be set-aside for Bureau of Workers' Compensation (BWC) refunds and to create a reserve for instructional materials. See Note 17 for details.

R. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic financial statements.

S. Parochial/Private Schools

Within the District boundaries are the St. Rose parochial school and the Seventh Day Adventist private school. Current state legislation provides funding to these parochial/private schools. These monies are received and disbursed on behalf of the parochial/private schools by the Treasurer of the District, as directed by the parochial/private school. The fiduciary responsibility of the District for these monies is reflected in a nonmajor governmental fund for financial reporting purposes.

T. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. The District did not have any extraordinary items during fiscal year 2010.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2010, the District has implemented GASB Statement No. 51, "Accounting and Financial Reporting for Intangible Assets", GASB Statement No. 53, "Accounting and Financial Reporting for Derivative Instruments", and GASB Statement No. 58, "Accounting and Financial Reporting for Chapter 9 Bankruptcies".

GASB Statement No. 51 addresses accounting and financial reporting standards for intangible assets, which are assets that lack physical substance, are nonfinancial in nature, and have an initial useful life extending beyond a single reporting period. Examples of intangible assets include easements, water rights, computer software, patents, and trademarks. GASB Statement No. 51 improves the quality of financial reporting by creating consistency in the recognition, initial measurement, and amortization of intangible assets. The implementation of GASB Statement No. 51 did not have an effect on the financial statements of the District.

GASB Statement No. 53 addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments. Derivative instruments are financial arrangements used by governments to manage specific risks or to make investments. Common types of derivative instruments include interest rate and commodity swaps, interest rate locks, options, swaptions, forward contracts, and futures contracts. The implementation of GASB Statement No. 53 did not have an effect on the financial statements of the District.

GASB Statement No. 58 establishes accounting and financial reporting guidance for governments that have petitioned for protection from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. GASB Statement No. 58 requires governments to remeasure liabilities that are adjusted in bankruptcy when the bankruptcy court confirms a new payment plan. The implementation of GASB Statement No. 58 did not have an effect on the financial statements of the District.

B. Deficit Fund Balances

Fund balances at June 30, 2010 included the following individual fund deficits:

| <u>Nonmajor governmental funds</u> | <u>Deficit</u> |
|------------------------------------|----------------|
| Management information systems | \$ 14 |
| Poverty aid | 199 |
| Miscellaneous State grants | 12,794 |
| Education stabilization fund | 1,429 |
| Title VI-B | 3,785 |
| Drug-free school grants | 6,373 |
| Reducing class size | 3,792 |

The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances are the result of adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (State Treasury Asset Reserve of Ohio (STAR Ohio));
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one-hundred-eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Deposits with Financial Institutions

At June 30, 2010, the carrying amount of all District deposits was \$8,963,775, exclusive of the \$9,378,035 repurchase agreement included in investments below. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2010, \$8,243,078 of the District's bank balance of \$8,993,078 was exposed to custodial risk as discussed below, while \$750,000 was covered by the FDIC.

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

B. Investments

As of June 30, 2010, the District had the following investments and maturities:

| <u>Investment type</u> | <u>Fair value</u> | <u>Investment Maturity</u> 6 months or less |
|------------------------|---------------------|---|
| Repurchase agreement | \$ 9,378,035 | \$ 9,378,035 |
| Total | <u>\$ 9,378,035</u> | <u>\$ 9,378,035</u> |

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: The District's investments in the federal agency securities that underlie the repurchase agreement, were rated AAA and Aaa by Standard & Poor's and Moody's Investor Services, respectively.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the District's \$9,378,035 investment in repurchase agreements, the entire balance is collateralized by underlying securities that are held by the investment's counterparty, not in the name of the District. Ohio law requires the market value of the securities subject to repurchase agreements must exceed the principal value of securities subject to a repurchase agreement by 2%. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2010:

| <u>Investment type</u> | <u>Fair value</u> | <u>% of total</u> |
|------------------------|---------------------|-------------------|
| Repurchase Agreement | \$ 9,378,035 | 100.00 |
| Total | <u>\$ 9,378,035</u> | <u>100.00</u> |

C. Reconciliation of Cash and Investments to the Statement of Net Assets

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net assets as of June 30, 2010:

| <u>Cash and investments per note</u> | |
|---|----------------------|
| Carrying amount of deposits | \$ 8,963,775 |
| Investments | <u>9,378,035</u> |

| Governmental activities | \$ 18,022,613 |
| Private-purpose trust funds | 260,023 |
| Agency funds | <u>59,174</u> |
| Total | <u>\$ 18,341,810</u> |

NOTE 5 - INTERFUND TRANSACTIONS

A. Interfund balances at June 30, 2010 as reported on the fund statements, consist of the following individual interfund loans receivable and payable:

| <u>Receivable fund</u> | <u>Payable fund</u> | <u>Amount</u> |
|------------------------|----------------------------|------------------|
| General | Nonmajor governmental fund | <u>\$ 29,657</u> |

The primary purpose of the interfund balance is to cover costs in specific funds where revenues were not received by June 30. The interfund balances will be repaid once the anticipated revenues are received. The interfund balance is expected to be repaid within one year. Interfund balances between governmental funds are eliminated on the government-wide financial statements.

B. Interfund transfers for the fiscal year ended June 30, 2010, consisted of the following, as reported on the fund financial statements:

| <u>Transfers from</u> | <u>Transfers to</u> | <u>Amount</u> |

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund transfers between governmental funds are eliminated for reporting in the statement of activities.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property, public utility property, and certain tangible personal (used in business) property located in the District. Real property tax revenues received in calendar year 2010 represent the collection of calendar year 2009 taxes. Real property taxes received in calendar year 2010 were levied after April 1, 2009, on the assessed values as of January 1, 2009, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2010 represent the collection of calendar year 2009 taxes. Public utility real and tangible personal property taxes received in calendar year 2010 became a lien on December 31, 2008, were levied after April 1, 2009, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

Tangible personal property tax revenues received in calendar year 2010 (other than public utility property) represent the collection of calendar year 2010 taxes levied against local and inter-exchange telephone companies. Tangible personal property taxes received from telephone companies in calendar year 2010 were levied after October 1, 2009, on the value as of December 31, 2009. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

The District receives property taxes from Trumbull County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2010, are available to finance fiscal year 2010 operations. The amount available as an advance at June 30, 2010 was \$29,256 in the general fund, \$7,503 in the bond retirement debt service fund and \$1,445 in the permanent improvement fund (a nonmajor governmental fund). This amount is recorded as revenue. The amount available for advance at June 30, 2009 was \$17,633 in the general fund, \$4,265 in the bond retirement debt service fund and \$895 in the permanent improvement fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

NOTE 6 - PROPERTY TAXES - (Continued)

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2010 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to unearned revenue.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been deferred.

The assessed values upon which the fiscal year 2010 taxes were collected are:

| | 2009 Second Half Collections | | 2010 First Half Collections | |
|---|---------------------------------|----------------------|--------------------------------|----------------------|
| | <u>Amount</u> | <u>Percent</u> | <u>Amount</u> | <u>Percent</u> |

NOTE 7 - RECEIVABLES

Receivables at June 30, 2010 consisted of taxes and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of general funds. A summary of the principal items of receivables reported on the statement of net assets follows:

Governmental activities:

| | |
|-------------------|----------------------------|
| Taxes | \$ 5,828,251 |
| Intergovernmental | <u>1,571,028</u> |
| Total | <u>\$ 7,399,279</u> |

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within the subsequent year.

NOTE 9 - CAPITALIZED LEASE - LESSEE DISCLOSURE

In prior years, the District entered into a capitalized lease for building improvements through the Girard Community Improvement Corporation. This lease agreement met the criteria of a capital lease as defined by FASB Statement No. 13, “Accounting for Leases”, which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. These expenditures are reported as function expenditures on the budgetary statements.

Capital assets consisting of building improvements have been capitalized in the amount of \$1,855,000. This amount represents the present value of the minimum lease payments at the time of acquisition. A corresponding liability is recorded in the government-wide financial statements. Accumulated depreciation as of June 30, 2010 was \$445,200, leaving a current book value of \$1,409,800. Principal and interest payments in fiscal year 2010 totaled \$100,000 and \$47,250, respectively, paid by the general fund.

The following is a schedule of the future long-term minimum lease payments required under the capital lease and the present value of the future minimum lease payments as of June 30, 2010:

| <u>Fiscal Year Ending June 30,</u> | <u>Amount</u> |

Compensated absences: Compensated absences will be paid from the fund from which the employees' salaries are paid, which is primarily the general fund.

Capital lease obligation: The District issued a capital lease for community improvement in prior years. The capital lease was issued in June 1998, in the amount of \$1,855,000 and matures in June 2018. See Note 9 for more details.

B. Construction Bonds

Construction bonds were issued in December 1999, which bear interest rates ranging from 4.60% to 7.00%, for construction of the Intermediate School and mature December 2019. These bonds are general obligations of the District, for which its full faith and credit is pledged for repayment. Principal and interest payments are made from the bond retirement fund, a nonmajor governmental fund. During fiscal year 2006, the callable portion of the bonds was advance refunded. The final payment on the non-callable bonds of \$235,000 was made during fiscal year 2010.

C. Refunding Bonds

On June 6, 2006 the District issued general obligation bonds (refunding bonds - series 2006) to advance refund the callable portion of the construction bonds - series 1999 (principal \$3,370,000). Issuance proceeds totaling \$3,598,240 were deposited with an escrow agent and were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net assets. The refunding issue is comprised of current interest term bonds, par value \$3,250,000. These bonds are general obligations of the District, for which its full faith and credit is pledged for repayment. Payments of principal and interest on the refunding bonds will be made from the bond retirement fund, a nonmajor governmental fund.

The reacquisition price exceeded the net carrying amount of the old debt by \$228,240. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

D. Classroom Facilities and School Improvement Bonds

On December 27, 2007, the District issued general obligation bonds (classroom facilities and school improvement bonds - series 2007) in order to fund the local share and required locally funded initiatives under the Classroom Facilities Assistance Program of the Ohio Schools Facilities Commission (OSFC). These bonds are general obligations of the District, for which its full faith and credit is pledged for repayment. The bonds will be paid from the bond retirement fund, a nonmajor governmental fund. The source of payment is derived from the District's property tax bond levy.

The issue is comprised of both current interest bonds, par value \$8,870,000, and capital appreciation bonds, par value \$129,997. The interest rates on the current interest bonds range from 3.50% to 4.40%. The capital appreciation bonds mature on December 1, of 2020, and 2021 (stated interest rate of 12.075%) at a redemption price equal to 100% of the principal plus accreted interest to the redemption date. The accreted value at maturity for the capital appreciation bonds is \$630,000. A total of \$43,807 in interest has been accreted on the capital appreciation bonds as of June 30, 2010.

Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final stated maturity of the current interest bonds is December 1, 2035.

At June 30, 2010, \$5,948,443 of proceeds from this bond issue are unspent.

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

F. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2010, are a voted debt margin of \$1,564,973 (including available funds of \$243,335) and an unvoted debt margin of \$145,796.

NOTE 11 - OTHER EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and state laws. Only administrative and support personnel who are under a full contract (260 days) are eligible for vacation time.

Classified employees earn five to twenty five days of vacation per year, depending upon length of service. Any vacation time which is unused as of the employee's anniversary date, is expired and not available for use in a subsequent year unless approved by the Superintendent. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Each employee earns sick leave at the rate of one and one-fourth days per month. Sick leave shall accumulate during active employment on a continuous year-to-year basis.

For classified employees, retirement severance is paid to each employee retiring from the District at a per diem rate of the annual salary at the time of retirement if the employee has been employed by the District for a minimum of ten consecutive years at the time of retirement. Any employee receiving retirement severance pay shall be entitled to a dollar amount equivalent to one-fourth of all accumulated sick leave credited to that employee up to fifty days.

For certified employees, retirement severance is also paid to each employee retiring from the District at a per diem rate of the annual salary at the time of retirement. The dollar amount of severance pay is calculated based on the following; an employee who has zero years through 29 years of service will receive twenty-five percent of the employee's accumulated sick leave at the time of his/her retirement, up to a maximum of fifty-three days. Employees who have thirty or more years of teaching service shall qualify for twenty-five percent of their accumulated current sick leave upon retirement up to a maximum of sixty-five days.

NOTE 11 - OTHER EMPLOYEE BENEFITS - (Continued)

B. Insurance Benefits

The District provides life insurance and accidental death and dismemberment insurance in the amount of \$50,000 to certified employees. For classified employees, group term life insurance is provided in the amount of \$50,000 employees under contract for thirty-five hours or more per week, \$20,000 for classified employees under contract for twenty to thirty-four hours per week, and \$10,000 for employees working less than twenty hours per week.

C. Early Retirement Incentive

The District offers an early retirement incentive for certified employees. Certified employees who are eligible to retire under the provisions of the State Teachers Retirement System of Ohio (STRS Ohio) may qualify for this retirement incentive. The District will purchase service credit from STRS Ohio for the employee. Four employees accepted the early retirement incentive in fiscal year 2009 and were paid in fiscal year 2010.

NOTE 12 - RISK MANAGEMENT

A. Comprehensive

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The District has addressed these various types of risk by purchasing a comprehensive insurance policy through commercial carriers.

General liability insurance was maintained in the amount of \$1,000,000 for each occurrence and \$2,000,000 in the aggregate and general liability coverage for employee dishonesty bonds was maintained in the amount of \$20,000 with no deductible.

The District maintains fleet insurance in the amount of \$1,000,000 for any one accident or loss.

The District maintains replacement cost insurance on buildings and contents, which includes boiler and machinery, in the amount of \$30,715,500 with a \$1,000 deductible. Other property insurance includes \$10,000,000 for the boiler and machinery with a \$1,000 deductible.

\$20,000 performance bonds are maintained for the Superintendent, Treasurer and Board President. All performance bonds are maintained by the United States Fidelity and Guaranty Company through the Griffith Agency.

B. Group Health and Dental Insurance

The District provides life insurance and accidental death and dismemberment insurance to its employees. Coverage is \$50,000 for all certified and administrative staff, \$50,000 for all non-union full time classified staff, \$150,000 for the Superintendent, and \$500,000 coverage for the Treasurer. Coverage is provided through the Medical Life Insurance Company. Coverage is not less than \$50,000 per union classified employee with coverage provided by the Medical Life Insurance Company.

NOTE 12 - RISK MANAGEMENT - (Continued)

For fiscal year 2010, the District contracted with the Trumbull County Schools Employee Insurance Benefits Consortium to provide employee medical/surgical benefits. The Trumbull County Schools Employee Insurance Benefits Consortium is a shared risk pool comprised of sixteen Trumbull County school districts. Rates are set through an annual calculation process. The District pays a monthly contribution into a common consortium fund from which claim payments are made for all participating school districts. Claims are paid for all participants regardless of claims flow. The Board of Directors has the right to return monies to an exiting district subsequent to the settlement of all expenses and claims.

Dental, prescription drug, and vision coverage are also provided through Coresource for family coverage and individual coverage. The District also offers a health maintenance plan to its employees through MetLife Insurance Company.

Post employment health care is provided to plan participants or their beneficiaries through the respective retirement systems discussed in Note 14. As such, no funding provisions are required by the District.

C. OSBA Group Workers Compensation Group Rating Plan

The District participates in the Ohio School Boards Association (OSBA) Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 2.A). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participants is calculated as one experience and a common premium rate is applied to all participants in the group. Each participant pays its workers' compensation premium to the state based on the rate for its GRP tier rather than its individual rate. Total savings are then calculated and each participants performance is compare to the overall savings percentage of the GRP. Participation in the GRP is limited to participants that can meet the GRP's selection criteria. The firm of CompManagement, Inc. provides administrative, cost control and actuarial services to the GRP.

NOTE 13 - PENSION PLANS

A. School Employees Retirement System

Plan Description - The District contributes to the School Employees Retirement System (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement, disability, survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under *Employers/Audit Resources*.

NOTE 13 - PENSION PLANS - (Continued)

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2010, 12.78 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2010, 2009 and 2008 were \$232,143, \$156,961 and \$158,179, respectively; 49.50 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

B. State Teachers Retirement System of Ohio

Plan Description - The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For fiscal year 2010, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

NOTE 13 - PENSION PLANS - (Continued)

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2010, 2009 and 2008 were \$910,046, \$898,736 and \$877,994, respectively; 83.35 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008. Contributions to the DC and Combined Plans for fiscal year 2010 were \$41,681 made by the District and \$29,772 made by the plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the SERS/STRS Ohio have an option to choose Social Security or the SERS/STRS Ohio. As of June 30, 2010, certain members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

NOTE 14 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Plan Description - The District participates in two cost-sharing, multiple employer postemployment benefit plans administered by the School Employees Retirement System (SERS) for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Chapter 3309.69 of the Ohio Revised Code. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B premium for calendar year 2009 was \$96.40 and SERS' reimbursement to retirees was \$45.50. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under *Employers/Audit Resources*.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For 2010, 0.46 percent of covered payroll was allocated to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the statewide SERS-covered payroll for the health care surcharge. For fiscal year 2010, the actuarially determined amount was \$35,800.

NOTE 14 - POSTEMPLOYMENT BENEFITS - (Continued)

Active members do not contribute to the postemployment benefit plans. The Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care (including surcharge) for the fiscal years ended June 30, 2010, 2009, and 2008 were \$41,517, \$104,579 and \$102,991, respectively; 49.50 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For fiscal year 2010, this actuarially required allocation was 0.76 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2010, 2009, and 2008 were \$13,805, \$12,951 and \$11,397, respectively; 49.50 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

B. State Teachers Retirement System of Ohio

Plan Description - The District contributes to the cost sharing, multiple employer defined benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy - Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2010, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2010, 2009, and 2008 were \$70,004, \$69,134 and \$67,538, respectively; 83.35 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

NOTE 15 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures, and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);

NOTE 15 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to a reservation of fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis); and,
- (d) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

| | <u>General Fund</u> |
|---|---------------------|
| Budget basis | \$ (51,391) |
| Net adjustment for revenue accruals | 28,905 |
| Net adjustment for expenditure accruals | 179,569 |
| Net adjustment for other sources/uses | (96,799) |
| Adjustment for encumbrances | 275,775 |
| GAAP basis | \$ 336,059 |

NOTE 16 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

B. Litigation

The District is a party to legal proceedings seeking damages or injunctive relief generally incidental to its operations and spending projects. The District management is of the opinion that disposition of the claim and legal proceedings will not have a material effect, if any, on the financial condition of the District.

NOTE 17 - STATUTORY RESERVES

The District is required by State law to set-aside certain general fund revenue amounts, as defined by statute, into various reserves. These reserves are calculated and presented on a cash basis. During the fiscal year ended June 30, 2010, the reserve activity was as follows:

| | <u>Textbooks/ Instructional Materials</u> | <u>Capital Acquisition</u> | <u>BWC Refunds</u> |
|---|---|--------------------------------|------------------------|
| Set-aside balance as of June 30, 2009 | \$ 304,173 | \$ - | \$ 95,565 |
| Current year set-aside requirement | 280,651 | 280,651 | - |
| Offsets | - | (392,964) | - |
| Qualifying disbursements | <u>(175,413)</u> | <u>(241,247)</u> | <u>-</u> |
| Total | <u>\$ 409,411</u> | <u>\$ (353,560)</u> | <u>\$ 95,565</u> |
| Balance carried forward to fiscal year 2011 | <u>\$ 409,411</u> | <u>\$ -</u> | <u>\$ 95,565</u> |

Monies representing BWC refunds that were received prior to April 10, 2001, have been shown as a restricted asset and reserved fund balance in the general fund since allowable expenditures are restricted by State statute. The District is still required by State law to maintain the textbooks/instructional materials reserve and the capital acquisition reserve.

Although the District had qualifying disbursements during the year that reduced the set-aside amounts below zero for the capital acquisition reserve, this extra amount may not be used to reduce the set-aside requirement for future years. The negative amount is therefore not presented as being carried forward to the next fiscal year.

A schedule of the governmental fund restricted assets at June 30, 2010 follows:

| | |
|---|-------------------|
| Amount restricted for BWC refunds | \$ 95,565 |
| Amount restricted for textbooks/instructional materials | <u>409,411</u> |
| Total restricted assets | <u>\$ 504,976</u> |

**NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE
FISCAL YEAR ENDED JUNE 30, 2010**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the Schedule) reports the Girard City School District's (the District's) federal award programs' receipts and disbursements. The schedule has been prepared on the cash basis of accounting.

NOTE B – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective programs that benefitted from the use of those donated food commodities.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Girard City School District
Trumbull County
704 E. Prospect Street
Girard, Ohio 44420

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Girard City School District, Trumbull County, (the District) as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements and have issued our report thereon dated May 19, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note certain matters not requiring inclusion in this report that we reported to the District's management in a separate letter dated May 19, 2011.

We intend this report solely for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities, and others within the District. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Girard City School District
Trumbull County
704 E. Prospect Street
Girard, Ohio 44420

To the Board of Education:

Compliance

We have audited the compliance of the Girard City School District, Trumbull County (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of Girard City School District's major federal programs for the year ended June 30, 2010. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

As described in finding 2010-02 in the accompanying schedule of findings and questioned costs, the District did not comply with requirements regarding allowable costs/cost principals applicable to its Title I major federal program. Compliance with this requirement is necessary, in our opinion, for the District to comply with requirements applicable to this program.

In our opinion, except for the noncompliance described in the preceding paragraph, the Girard City School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2010.

The results of our auditing procedures disclosed instances of noncompliance with those requirements that, while not affecting our opinion on compliance, OMB Circular A-133 requires us to report. The accompanying schedule of findings and questioned costs lists these instances as Findings 2010-01 through 2010-03.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, we cannot assure we have identified all deficiencies, significant deficiencies, or material weaknesses. However, as discussed below, we identified a certain deficiency in internal control over compliance that we consider to be a material weakness and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2010-02 to be a material weakness.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a federal program compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2010-01 and 2010-03 to be significant deficiencies.

The District's responses to the findings we identified are described in the accompanying schedule of findings and questioned costs. We did not audit the District's responses and, accordingly, we express no opinion on them.

We noted matters involving federal compliance or internal control over federal compliance not requiring inclusion in this report, that we reported to the District's management in a separate letter dated May 19, 2011.

We intend this report solely for the information and use of the management, Board of Education, others within the entity, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

3. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

1. State Fiscal Stabilization Fund - Period of Availability

| | |
|------------------------------------|--|
| Finding Number | 2010-01 |
| CFDA Title and Number | State Fiscal Stabilization Fund - 84.394 |
| Federal Award Number / Year | SFSF / 2010 |
| Federal Agency | U.S. Department of Education |
| Pass-Through Agency | Ohio Department of Education |

QUESTIONED COST, NONCOMPLIANCE and SIGNIFICANT DEFICIENCY

34 CFR 80.23 states where a funding period is specified, a grantee may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is permitted, in which case the carryover balances may be charged for costs resulting from obligations of the subsequent funding period. A grantee must liquidate all obligations incurred under the award not later than 90 days after the end of the funding period (or as specified in a program regulation) to coincide with the submission of the annual Financial Status Report. The Federal agency may extend this deadline at the request of the grantee.

In Ohio, the period of availability for the State Fiscal Stabilization (SFSF) funds began on July 1, 2009; obligations occurring prior to this date are not allowable.

The District charged \$65,782 in salaries for elementary school teachers to the SFSF fund for pay periods obligated during the fiscal year 2009 school year. We therefore are questioning \$65,782 of the SFSF expenditures.

We recommend that the District institute policies and procedures to ensure that federal awards are charged only with expenditures obligated within the period of availability.

2. Time and Effort Logs and Semi-annual Certification – Allowable Costs/Cost Principals

| | |
|------------------------------------|---|
| Finding Number | 2010-02 |
| CFDA Title and Number | Title I – 84.010 Special Education-IDEA Part B - 84.027 and 84.391 |
| Federal Award Number / Year | CCC1S1 / 2010 2010 |
| Federal Agency | U.S. Department of Education |
| Pass-Through Agency | Ohio Department of Education |

QUESTIONED COST, NONCOMPLIANCE and MATERIAL WEAKNESS

A State Educational Agency (SEA) or Local Educational Agency (LEA) that consolidates Federal administrative funds under Sections 9201 or 9203 of ESEA (20 USC 7821 or 7823) is not required to keep separate records by individual program. The SEA or LEA may treat the consolidated administrative cost objective as a “dedicated function.”

Time-and-effort requirements with respect to consolidated administrative funds vary under different circumstances:

1. According to OMB Circular A-87 (codified in 2 CFR 225), Attachment B, Paragraph 8.h.(3), an employee who works solely on a single cost objective (i.e., the consolidated administrative cost objective) must furnish a semi-annual certification that he/she has been engaged solely in activities. The certifications must be signed by the employee or a supervisory official having first-hand knowledge of the work performed by the employee.
2. According to OMB Circular A-87 (codified in 2 CFR 225), Attachment B, paragraphs 8.h.(4), (5), and (6), an employee who works in part on a single cost objective (i.e., the consolidated administrative cost objective) and in part on a Federal program whose administrative funds have not been consolidated or on activities funded from other revenue sources must maintain time and effort distribution records documenting the portion of time and effort dedicated to:
 - a. The single cost objective, and
 - b. Each program or other cost objective supported by non-consolidated Federal funds or other revenue sources.

The salaries for the five full time Title I instructors were charged to the District’s Title I fund, while the time worked by the three part-time instructors was charged to the District’s Title I and General funds. Total salaries charged to the Title I Fund for these employees for fiscal year 2010 was \$404,927. We were informed by the Title I Coordinator that there were not semi-annual certifications done by any Title I instructors. We therefore are questioning \$404,927 of the Title I expenditures.

The salaries for two full time Title VI-B instructors were charged to the District’s Title VI-B fund, while the time worked by one part-time instructor was charged to the District’s Title VI-B and General funds. Total salaries charged to the Title VI-B Fund for these employees for fiscal year 2010 was \$48,287. We were informed by the Title VI-B Coordinator that there were not semi-annual certifications done by any Title VI-B instructors. We therefore are questioning \$48,287 of the Title VI-B expenditures. ARRA monies made up \$40,521 of this amount.

We recommend that applicable District employees complete the semi-annual certifications and time and effort logs in accordance with OMB Circular A-87 (codified in 2 CFR 225), and that upon completion of these documents that the employee and supervisor sign the form documenting the hours worked for the federal program.

3. State Fiscal Stabilization Fund Full Time Equivalents Reported - Reporting

| | |

| Finding Number | 2010-03 |
| CFDA Title and Number | State Fiscal Stabilization Fund - 84.394 |
| Federal Award Number / Year | SFSF / 2010 |
| Federal Agency | U.S. Department of Education |
| Pass-Through Agency | Ohio Department of Education |

NONCOMPLIANCE AND SIGNIFICANT DEFICIENCY

Public Law 111-5, American Recovery and Reinvestment Act of 2009 (ARRA), Section 1512 (c) states, in part, not later than 10 days after the end of each calendar quarter, each recipient that received recovery funds from a Federal agency shall submit a report to that agency that contains (D) an estimate of the number of jobs created and the number of jobs retained by the project or activity. Further, **Office of Management and Budget Memo M-09-21 dated June 22, 2009, Section 2.1**, states, in part, the recipient reports are required to include estimates on jobs created or retained.

The **Ohio Department of Education’s American Recovery and Reinvestment Act Reporting Guidance** states the Ohio Department of Education (ODE), as a prime recipient of ARRA funding, is required to report quarterly to the federal government data on ARRA programs. ODE distributes ARRA funds to local education agencies (LEAs) as sub recipients and must collect quarterly data from LEAs to meet the reporting requirements associated with ARRA funding. Among the items to be reported, ODE requires districts receiving ARRA funds to complete a quarterly survey reporting estimates of jobs created or retained and a brief description of those jobs.

The District used \$467,479 of State Fiscal Stabilization Fund money to pay the salaries of 18 teachers in fiscal year 2010, however, the District reported zero full time equivalent positions created or retained on the quarterly surveys submitted to ODE.

Not submitting accurate full time equivalent position figures to ODE prevents the ODE from reporting accurate figures to the federal government.

We recommend the District institute policies and procedures to ensure accurate figures are reported on the ODE quarterly survey.

Official’s Response: The District did not provide any formal written responses, but did address how the findings will be corrected in the Corrective Action Plan.
