We have reviewed the *Independent Auditors' Report* of The Ohio State University Wexner Medical Center Health System, Franklin County, prepared by KPMG LLP, for the audit period July 1, 2023 through June 30, 2024. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Ohio State University Wexner Medical Center Health System is responsible for compliance with these laws and regulations.

Keith Faber Auditor of State Columbus, Ohio

Independent Auditors' Report

The Board of Trustees of The Ohio State University:

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of The Ohio State University Wexner Medical Center Health System (the "Health System"), a series of departments of The Ohio State University, as of and for the years ended June 30, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the Health System's basic financial statements for the years then ended as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Health System as of June 30, 2024 and 2023, and the changes in its financial position and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Health System and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1, the financial statements of the Health System are intended to present the financial position, the changes in financial position and cash flows of only that portion of The Ohio State University that is attributable to the transactions of the Health System. They do not purport to, and do not, present fairly the financial position of The Ohio State University as of June 30, 2024 and 2023, the changes in its financial position, or its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
 the Health System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

U.S. generally accepted accounting principles require that the *management's discussion and analysis*, schedule of proportionate share of the net pension liability, and the schedule of proportionate share of the net OPEB liability be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2024 on our consideration of the Health System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Health System's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Health System's internal control over financial reporting and compliance.

Columbus, Ohio November 19, 2024

Introduction

The following discussion and analysis provides an overview of the financial position and the activities of The Ohio State University Wexner Medical Center Health System (the "Health System") as of and for the years ended June 30, 2024, 2023, and 2022. This discussion has been prepared by management and should be read in conjunction with the financial statements and the notes thereto, which follows this section.

About The Ohio State University Wexner Medical Center Health System

The Ohio State University Wexner Medical Center (the "Medical Center") is one of the largest and most diverse academic medical centers in the country and the only academic medical center in central Ohio. As a part of the Medical Center, the Health System operates under the governance of The Ohio State University Board of Trustees and is comprised of seven hospitals and a network of ambulatory care locations. The Health System provides a full spectrum of services from primary to quaternary specialized care.

Mission: As one of America's top-ranked academic medical centers, our mission is to improve health in Ohio and across the world through innovations and transformation in research, education, patient care and community engagement.

Key clinical care locations and facilities of the Health System include:

- **University Hospital:** the Health System's flagship hospital is a leader in multiple specialties including organ and tissue transplantation, women and infants, digestive diseases, bariatric surgery and minimally invasive surgery. In addition to having a Level I Trauma Center as designated by the American College of Surgeons, University Hospital is also home to a Level III Neonatal Intensive Care Unit, central Ohio's only adult burn center and the only adult solid organ transplant program in central Ohio.
- Arthur G. James Cancer Hospital and Solove Research Institute ("The James"): the only freestanding cancer hospital in central Ohio and the first in the Midwest, the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute is an international leader in cancer prevention, detection and treatment. The James is one of only 57 comprehensive cancer centers designated by the National Cancer Institute (NCI) and one of only a few institutions nationally funded by the NCI to conduct both phase I and phase II clinical trials on novel anticancer agents sponsored by the NCI.
- **Richard M. Ross Heart Hospital ("The Ross"):** is dedicated to advancing the field of cardiovascular medicine and surgery. The Ross offers comprehensive heart and vascular care spanning every specialty from open heart surgery to electrophysiology, vascular surgery, advanced heart failure care and emergency cardiac care. The Ross is one of the nation's few free-standing facilities devoted entirely to the research of diseases affecting the heart, lungs and blood vessels.
- Harding Hospital: offers counseling services along with the most comprehensive inpatient and outpatient mental health and behavioral health services in central Ohio. Programs are available for adolescents, adults and older adults with complex psychiatric disorders. Harding Hospital's team includes psychiatrists, psychologists, social workers, registered nurses, occupational therapists, recreational therapists, chaplains and licensed counselors.
- **East Hospital:** blends academic medicine with a community-based setting. East Hospital provides a full range of medical and surgical services to patients throughout central Ohio, including orthopedics, general surgery, vascular surgery, plastic surgery, ENT, cardiovascular and pulmonary care, family medicine, general internal medicine, and emergency medicine. Additionally, patients have access to central Ohio's leading alcohol and drug addiction recovery services, a comprehensive wound-healing center with limb preservation program, digestive disease treatment, a full-range of diagnostic services, a sleep disorders center and outpatient oncology services.
- **Dodd Hall:** home to the Health System's nationally recognized and accredited rehabilitation inpatient program, specializing in amputee, cancer, stroke, brain and spinal cord rehabilitation. The

program was the first in Ohio and is dedicated to physical medicine and rehabilitation research, training and treatment.

- **Brain and Spine Hospital:** a leader in brain and spine treatment and research with dedicated units for stroke care, neurotrauma and traumatic brain injuries, spinal cord injuries and spine surgery, epilepsy, chronic pain, acute rehabilitation, neurosurgery and sleep medicine.
- **Ambulatory Services:** offering many specialized health services in numerous convenient locations throughout Ohio. Primary care, sports medicine, orthopedics, mammography, imaging, wound care and other specialties are provided with the compassionate and nationally ranked expert care that is synonymous with The Ohio State University Wexner Medical Center.

In an effort to unify all faculty practices to create a fully integrated, high-performing practice plan (HP3), the faculty practices operated by the Health System moved to OSU Physicians, Inc. (OSUP) in July 2022. The Health System practices included Anesthesiology, Maternal Fetal Medicine, Neurosurgery, Orthopedics, Sports Medicine, and Family and Community Medicine. The impact of the physician integration in 2023 was a reduction to the Health System Operating Revenues of \$224.5 million and Operating Expenses of \$254.0 million. While physician practice operations moved to OSUP, employees supporting these practices remained as employees of the Health System and are leased to OSUP. See NOTE 13 – RELATED PARTY TRANSACTIONS.

The Health System provided services to approximately 60,600 inpatients and 1,694,000 outpatients during fiscal year 2024, 60,700 inpatients and 1,548,000 outpatients during fiscal year 2023, and 58,300 inpatients and 1,516,000 outpatients during fiscal year 2022.

In total, the Health System operates nearly 1,500 inpatient beds and serves as a major tertiary and quaternary referral center for Ohio and the Midwest. The Medical Center delivers superior patient care, quality outcomes, and patient safety and is proud to be celebrating its 32nd consecutive year ranked on the U.S. News & World Report's Best Hospitals list. The Medical Center has 8 nationally ranked specialties out of 15 and four selected as high performing. U.S. News consistently ranks the Ohio State Wexner Medical Center as the top hospital in Columbus. The Medical Center is also rated as high performing in 13 out of 20 common procedures and conditions. Hospitals that earned the high performing rating were significantly better than the national average at successfully treating these common problems. These high rankings demonstrate how the Medical Center is leading the way in life-changing medical research and compassionate, effective patient care.

In 2024, Forbes ranked The Ohio State University Wexner Medical Center as one of America's Best Employers for Diversity. This recognition means Americans who were surveyed see the Medical Center as a top employer for diversity, equity, and inclusion. Forbes also ranked the Medical Center as one of America's Best Large Employers in 2024. This is an exciting recognition, and it means Americans who were surveyed see the Medical Center as a top employer.

The Health System is also proud to be the first in central Ohio to have a hospital achieve Magnet Recognition, one of the highest honors awarded for nursing excellence. The Ross Heart Hospital, University Hospital, Dodd Hall, the Brain and Spine Hospital, and The James are all designated Magnet hospitals.

The Medical Center has more "Top Doctors" than any other central Ohio hospital. Wexner Medical Center physicians were selected by Castle Connolly because they are among the very best in their specialties.

Operating and Financial Highlights

	Fi	Fiscal Year June 30,					
	2024	<u>2023</u>	<u>2022</u>				
Selected Statistics							
Admissions	60,599	60,713	58,320				
Avg. Daily Census	1,248	1,251	1,220				
Outpatient Visits	1,693,526	1,548,271	1,516,137				
Emergency Visits	124,741	120,486	112,995				
Transplants	589	567	572				
Surgeries	58,897	56,040	51,388				

Fiscal year 2024 was a strong year for the Health System. In 2024, Health System inpatient volumes ended the year slightly below the prior year by 0.2% in terms of patient admissions. However, inpatient surgeries surpassed the prior year by 2.7% and length of stay improved by 0.8%. The Health System continued to see strong growth year over year on the outpatient side. Outpatient surgeries were 6.3% ahead of prior year as the organization continued to add additional operating room capacity. Infusion activity experienced a 12.9% increase in outpatient volume in 2024 contributing to the positive results from operations for the system.

In July 2023, the Health System opened The James Outpatient Care. The James Outpatient Care is home to several services and clinics. It is home to the first outpatient cancer surgery facility for the James. Through this unique, state-of-the-art center the James offers comprehensive care in one location to create better outcomes and more hope for the patient, from diagnosis through treatment to survivorship. In partnership with Nationwide Children's Hospital ("Children's"), the facility also includes central Ohio's first Proton Therapy Center that provides children and adults with the latest radiotherapy available. The 385,000-square-foot center is equipped with eight operating rooms, multiple cancer-specific clinics and the Proton Therapy Center. The James Outpatient Care performed 3,375 surgical cases, approximately 1,450 proton treatments, and over 54,000 outpatient visits in its first year of operations.

In September 2019, the Health System, on behalf of the James, entered into a funding and development agreement with Nationwide Children's Hospital to build and operate a Proton Therapy Center for a 30-year minimum term. The costs of the proton therapy project are shared equally by the Health System and Nationwide Children's Hospital. The total cost of the Proton Therapy Center was \$105.0 million and Children's share of the cost was \$52.5 million. The Health System will have full ownership, authority and responsibility for operation of the center. The Health System shall assure that the services of the center are available to pediatric as well as adult patients in the community. In consideration for the construction funding from Children's, the Health System reported the funding from Children's as unearned revenue and will amortize the unearned revenue to operating revenue, on a straight-line basis over the 30-year minimum term starting in December 2023 when the first proton therapy services were provided.

The Health System has major construction projects currently underway including:

New Inpatient Tower – Opening in 2026, the New Inpatient Tower has been designed to deliver unrivaled care in a state-of-the-art hospital that matches the nationally ranked expertise, high-quality patient care and innovative breakthroughs. Reaching 26 stories into the sky, the tower will reflect The Ohio State University's (the "University") land-grant mission of serving the community by providing the very best care for every person, every time. The Inpatient Tower is 1.9 million square feet, includes 820 private rooms, 234 intensive care beds, and 50 elevators. The \$1.79 billion hospital is the largest single facilities project ever undertaken at the University. In 2022, the University issued general receipts bonds and the Health System borrowed \$715.4 million from the University to fund the construction of the New Inpatient Tower. In 2024, the Health System borrowed an additional \$300.0 million to fund the construction. As of June 30, 2024, construction on the Inpatient Hospital Tower was approximately 84% complete.

In February 2024, the Health System announced a transformative gift to support the Inpatient Hospital Tower project. To honor the memory of John F. Wolfe, the Robert F. Wolfe and Edgar T. Wolfe Foundation pledged a \$50.0 million leadership philanthropic commitment to the Medical Center. In recognition, the new tower will have two named spaces — the John F. Wolfe Lobby and the Wolfe Foundation Crossroads.

 Outpatient Care Powell – The new location will join Outpatient Care New Albany and Outpatient Care Dublin as the third facility of a new suburban outpatient care program to provide convenient access to comprehensive healthcare services – including primary and specialty care along with diagnostic and treatment services where people work and live. The \$183.0 million project includes 200,000 square feet and will design and build a five-story medical office building and a two-story ambulatory health center which includes imaging, outpatient rehab/physical therapy, endoscopy and support services.

The Health System's estimated future capital commitments, based on contracts and purchase orders, totaled approximately \$578.5 million at June 30, 2024.

In June 2014, the Health System entered into a master agreement with Nationwide Children's Hospital whereas Children's leases and operates the Neonatal Intensive Care Unit (NICU). Children's will relocate the current NICU operation to the New Inpatient Tower. In July 2023, the Health System and Children's entered into a Memorandum of Understanding to extend the term of the master agreement. The term of the agreement is extended for an additional fifteen years and will expire in 2039. In consideration of the extension of the master agreement, Children's agreed to provide additional payments totaling \$19.0 million to the Health System. The parties also agreed to enter into an amended lease agreement for the New Inpatient Tower space. As of 2024, the Health System has received initial installment payments of \$9.0 million. These amounts were recorded as unearned revenue in the Statement of Net Position. The remaining installment payments are due in 2025 and 2026. The Health System will recognize the revenue as Other Revenue in the Statement of Revenues, Expenses and Changes in Net Position as terms of the agreement are met.

The global outbreak of Covid-19, a new strain of coronavirus that can result in severe respiratory disease, was declared a pandemic by the World Health Organization in March of 2020. After three unprecedented years of managing Covid-19, the Department of Health and Human Services (HHS) declared an end to the public emergency on May 11, 2023, thus ending the pandemic. With a lot of time, energy, and unyielding teamwork during the pandemic, the Health System's financial position remained strong. Health System management took on all additional measures during the pandemic to protect the health of the community and promote the continuity of its mission and will continue to monitor the course of Covid-19 beyond the pandemic.

The Coronavirus Aid, Relief, and Economic Security (CARES) Act – which was enacted March 27, 2020 in response to the Covid-19 outbreak – included provisions to provide support to individuals, companies and non-profit institutions in the form of loans, grants, tax changes and other types of relief. Amounts provided to the Health System under CARES Act grant programs are recognized as non-operating revenues in the Statement of Revenues, Expenses and Changes in Net Position as eligibility requirements are met. As of

2023, the Health System has recognized a total of \$186.4 million of Provider Relief Funds (PRF). No additional PRF was recognized in 2024.

The U.S. Department of Health and Human Services provided accelerated advance payments of Medicare reimbursements to health systems that, in effect, provided an interest free loan for one year, with repayments accomplished by netting the advanced amount against future Medicare claim amounts. The Health System received \$274.9 million under the Medicare Accelerated and Advance Payment Program. These amounts were considered short-term loans and were reported as current liabilities in the Statement of Net Position. As of 2023, the entire \$274.9 million was recouped.

The Health System filed a Request for Public Assistance (RPA) with the Federal Emergency Management Agency (FEMA) for costs associated with emergency protective measures in response to Covid-19. Qualifying activities included purchases of Personal Protective Equipment (PPE), signage and educational materials, reimbursement for nursing overtime labor, purchase of ventilators, as well as standing up testing sites, inpatient surge units, and a field hospital for additional hospital capacity. As of 2024, the Health System has received and recorded \$38.8 million related to Covid-19 cost recovery.

In September 2012, the University entered into a 50-year parking lease and concession agreement with QIC Global Infrastructure (QIC GI). CampusParc LP, a QIC GI affiliate, owns and operates the parking concession on the behalf of QIC GI. Subsequent to the original agreement, the Health System has funded the construction of several new parking facilities to facilitate its growth. In June 2024, QIC GI and other Equity Participants transferred 100% of their equity interests in the lease and concession agreement to Ardian Infrastructure. Upon closing of this transaction, the University and CampusParc LP entered into an amendment of the lease and concession agreement, under which the Health System garages will be included in the parking system subject to the terms of the concession agreement. In consideration for the inclusion of the Health System garages in the parking system, CampusParc made an upfront payment to the Health System of \$70.0 million. The Health System will report the \$70.0 million payment as unearned revenue and will amortize the unearned revenue to operating revenue, on a straight-line basis over the remaining 38-year term of the University parking lease and concession agreement.

In 2022, the Health System implemented GASB Statement No. 87, *Leases*. This standard establishes accounting and reporting for leases, based on the foundational principle that all leases are financings of the right to use an underlying asset for a period of time. Lessees record an intangible right-of-use asset and corresponding lease liability. Lessors record a lease receivable and a corresponding deferred inflow of resources. The standard provides an exception for short-term leases with a maximum possible term of 12 months or less. In 2023, the Health System implemented GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. This standard extends the right-of-use accounting concepts introduced in GASB Statement No. 87 to subscription-based information technology arrangements, or SBITAs. Under GASB 96, governments are required to identify arrangements that qualify as SBITAs and recognize a right-to-use subscription asset, initially measured as the sum of the initial subscription liability amount, payments made to the vendor before commencement of the subscription term, and capitalizable implementation costs. The subscription asset is then amortized over the subscription term.

The Ohio State University reports in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. GASB Statement No. 68 requires governmental employers participating in definedbenefit pension plans to recognize liabilities for plans whose actuarial liabilities exceed the plan's net assets. These liabilities are referred to as net pension liabilities. The University also implements a related accounting standard, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. GASB Statement No. 75 requires employers participating in other postemployment benefit (OPEB) plans to recognize liabilities for plans whose actuarial liabilities exceed the plan's net assets. OPEB benefits consist primarily of post-retirement healthcare. The Health System participates in two multi-employer cost-sharing retirement systems, OPERS and STRS-Ohio, and is required to record a liability for its proportionate share of the net pension and OPEB liabilities of the retirement systems.

In 2024, the Health System's share of OPERS and STRS-Ohio net pension liabilities decreased \$174.3 million to \$1.570 billion at June 30, 2024. OPERS and STRS-Ohio net pension liabilities decreased \$172.5 million and \$1.8 million, respectively, reflecting positive investment returns for both retirement systems.

OPERS realized an 11.26% return on defined benefit plan investments for calendar year 2023. STRS-Ohio realized a 7.55% return for the fiscal year ended June 30, 2023. Deferred outflows related to pensions decreased \$249.5 million, to \$421.1 million at June 30, 2024 while deferred inflows related to pensions increased \$1.4 million to \$5.4 million at June 30, 2024. The changes in pension deferrals relate primarily to OPERS and STRS-Ohio projected vs actual investment returns. These deferrals will be recognized as pension expense in future periods.

In 2024, the Health System's proportionate share of OPEB liabilities for OPERS swung from a net OPEB liability of \$38.1 million to a net OPEB asset of \$55.9 million at June 30, 2024, reflecting positive investment returns. OPERS realized a 13.97% return on its health care investments for calendar year 2023. Deferred outflows related to OPEB decreased \$68.9 million, to \$45.1 million at June 30, 2024, and deferred inflows related to OPEB increased \$19.0 million, to \$32.2 million at June 30, 2024. The changes in OPEB deferrals relate primarily to OPERS projected vs actual investment returns. These deferrals will be recognized as OPEB expense in future periods.

In 2023, the Health System's share of OPERS and STRS-Ohio net pension liabilities increased \$1.259 billion to \$1.744 billion at June 30, 2023. OPERS and STRS-Ohio net pension liabilities increased \$1.255 billion and \$3.5 million, respectively, predominantly reflecting negative investment returns for both retirement systems. OPERS realized a (12.03)% return on defined benefit plan investments for calendar year 2022. STRS-Ohio realized a (3.73)% return for the fiscal year ended June 30, 2022. Deferred outflows related to pensions increased \$504.0 million, to \$670.6 million at June 30, 2023 while deferred inflows related to pensions decreased \$631.7 million to \$3.9 million at June 30, 2023. The changes in pension deferrals relate primarily to OPERS and STRS-Ohio projected vs actual investment returns. These deferrals will be recognized as pension expense in future periods.

In 2023, the Health System's proportionate share of OPERS net OPEB liabilities swung from a net OPEB asset of \$188.7 million to a net OPEB liability of \$38.1 million at June 30, 2023, reflecting a combination of negative investment returns and a reduction in the discount rate used to calculate the total OPEB liability. OPERS realized a (15.51)% return on its health care investments for calendar year 2022. Deferred outflows related to OPEB increased \$113.5 million, to \$114.1 million at June 30, 2023, and deferred inflows related to OPEB decreased \$181.4 million, to \$13.2 million at June 30, 2023. The changes in OPEB deferrals relate primarily to OPERS projected vs. actual investment returns. These deferrals will be recognized as OPEB expense in future periods.

In 2022, the Health System's share of OPERS and STRS-Ohio net pension liabilities decreased \$349.4 million to \$485.6 million at June 30, 2022. OPERS and STRS-Ohio net pension liabilities decreased \$348.3 million and \$1.1 million, respectively, reflecting strong investment returns for both retirement systems. OPERS realized a 15.34% return on defined benefit plan investments for calendar year 2021. STRS-Ohio realized a 29.16% return for the fiscal year ended June 30, 2022. While deferred outflows related to pensions increased \$95.3 million, to \$166.6 million at June 30, 2022 while deferred inflows related to pensions increased \$262.5 million to \$635.7 million at June 30, 2022. The changes in pension deferrals relate primarily to OPERS and STRS-Ohio projected vs actual investment returns. These deferrals will be recognized as pension expense in future periods.

In 2022, the Health System's share of OPERS and STRS-Ohio net OPEB assets increased \$84.0 million, to \$189.1 million at June 30, reflecting strong investment returns. OPERS realized a 14.34% return on its health care investments for calendar year 2021. STRS-Ohio realized a 29.16% return for the fiscal year ended June 30, 2021. Deferred outflows related to OPEB decreased \$51.5 million, to \$0.6 million at June 30, 2022, and deferred inflows related to OPEB decreased \$125.0 million, to \$194.6 million at June 30, 2022. The changes in pension deferrals relate primarily to amortization of prior-year OPERS deferrals for changes in assumptions and expected vs actual experience. These deferrals will be recognized as OPEB expense in future periods.

It should be noted that, in Ohio, employer contributions to the state's cost-sharing multi-employer retirement systems are established by statute. These contributions, which are payable to the retirement systems one month in arrears, constitute the full legal claim on the Health System for pension and OPEB funding. Although the liabilities recognized under GASB 68 and GASB 75 meet the GASB's definition of a liability in its conceptual framework for accounting standards, they do not represent legal claims on the Health

System's resources, and there are no cash flows associated with the recognition of net pension and OPEB liabilities, deferrals and related expense.

Income Before Other Changes in Net Position was \$218.7 million in 2024 compared to \$250.1 million in 2023. The Health System recognized pension expense of \$76.6 million in 2024 and \$123.1 million in 2023 reflecting annual accounting under GASB 68. In comparison, the Health System recognized an OPEB benefit of \$5.7 million in 2024 and \$68.4 million in 2023 reflecting annual accounting under GASB 75. Income Before Other Changes in Net Position for clinical activities was \$285.3 million in 2024, \$301.8 million in 2023, and \$326.9 million in 2022. Income Before Other Changes in Net Position for clinical activities in 2024 includes Medical Center Investments of \$235.4 million reinvested to support clinical research and education, as well as various patient programs at the Medical Center.

	Fiscal Year June 30,							
	2024		024 2023 (in thousands)			2022		
Clinical Activities	\$	285,293	\$	301,796	\$	326,912		
Pension/OPEB		(70,975)		(54,681)		339,575		
Other		4,344		3,024		3,776		
Income Before Other Changes in Net Position	\$	218,662	\$	250,139	\$	670,263		

In fiscal 2024, Other Changes in Net Position includes \$60.1 million of capital contributions for construction of the New Inpatient Tower including the recognition of the \$50.0 million Wolfe gift as well as other capital acquisitions. This compares to \$31.4 million in 2023 and \$30.7 million in 2022. After these changes and including the impact of GASB 68 and GASB 75, the Health System's Net Position increased \$279.6 million and totaled \$3,156.7 million in 2024 compared to \$2,877.1 million in 2023 and \$2,595.3 million in 2022.

Using the Financial Statements

The Health System's financial report includes three financial statements: the Statement of Net Position; the Statement of Revenues, Expenses and Changes in Net Position; and the Statement of Cash Flows. These financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) principles.

Statement of Net Position

The Statement of Net Position represents the financial position of the Health System at the end of the fiscal year and includes all assets and deferred outflows and liabilities and deferred inflows. The difference between total assets and deferred outflows and total liabilities and deferred inflows – Net Position – is one indicator of the current financial condition of the Health System, while the change in Net Position is an indication of whether the overall financial condition has improved during the year. Included in deferred outflows and deferred inflows and deferred in deferred outflows and deferred inflows is the impact of the recognition of GASB 68, GASB 75, GASB 87, and GASB 96.

The Statements of Net Position on June 30, 2024, 2023, and 2022 are summarized as follows:

Cash and cash equivalents on deposit with the University represents the Health System's cash, which is pooled with cash from other operating units within the University. These funds earn interest income at rates established through the University's internal bank program. The Office of Financial Services for the University manages cash, investments, and debt for all the departments within the institution. The Office of Financial Services as a bank to University departments including the Health System providing services that include taking deposits, issuing debt, investing operating funds, and distributing loans. Cash

increased \$128.8 million from 2023 to 2024. The Health System generated \$727.4 million in cash from operations. The Health System spent \$646.3 million in capital purchases as well as \$235.4 on Medical Center Investments and \$138.9 million for debt obligations and interest payments.

Cash decreased \$220.6 million from 2022 to 2023. The decrease in cash for 2023 includes \$750.1 million in capital purchases related to various hospital projects including the construction of the New Inpatient Tower. In addition, the remaining \$79.6 million was recouped under the Medicare Advance Payment Program. To offset the increase in capital spend and recoupment of Medicare Advance, the Health System generated \$465.2 million in cash from operations in 2023 and received \$50.3 million for federal and state stimulus funding for Covid-19 recovery.

Patient accounts receivable, net represents amounts due from third-party payors and patients after allowances for discounts and bad debts. As of the end of the 2024 fiscal year, patient accounts receivable net increased \$132.2 million compared to 2023, reflecting the overall increase in inpatient and outpatient volume as well as higher infusion activity. As of the end of the 2023 fiscal year, patient accounts receivable net increased \$6.4 million compared to 2022.

Inventories include medical supply, pharmaceutical drugs, and information technology equipment. Prepaids include preventive maintenance contracts on medical and information technology equipment. Additionally, other receivables represent amounts due from nonpatient activity, reference labs, and other revenue from Nationwide Children's Hospital management of the Neonatal Intensive Care Unit. As of the end of the 2024 fiscal year, inventory, prepaids, and other receivables totaled \$256.1 million. This compares to \$241.0 million in 2023 and \$191.6 million in 2022. The growth in inventory for 2024 is a result of increases in operating room supplies and pharmaceuticals related to the opening of The James Outpatient Care. Other receivables totaled \$128.0 million in 2024 and decreased \$6.5 million compared to 2023. In accordance with GASB 87, other receivables also include the current portion of lease receivable in the amount of \$9.5 million in 2024 and \$10.0 million in 2023. The current portion of lease receivable represents what will be recorded as lease revenue in the next fiscal year.

	<u>2024</u>	<u>2023</u> (in thousands)			<u>2022</u>
Current Liabilities		•	-		
Accounts payable and accrued expenses	\$ 291,895		278,854		351,778
Medicare Advance Payment Program	_		_		79,601
Accrued salaries & benefits	83,215		73,197		71,400

Total Current Liabilities	\$ 494,179	\$	446,649	\$	612,505

Current liabilities represent obligations that are due within one year and consist primarily of accounts payable and accrued expenses, accrued salaries and benefits, compensated absences, current portion of principal debt payments, and third-party payor settlements.

Accounts payable and accrued expenses increased \$13.0 million or 4.7% from 2023 to 2024. The increase is primarily driven by expense accruals related to the timing of payment for medical supplies, pharmaceuticals, and services.

Accounts payable and accrued expenses decreased \$72.9 million or 20.7% from 2022 to 2023. The decrease includes the recognition of the \$16.8 million allowance for 2021 Provider Relief Funds as well as \$15.0 million reduction of accrued expenses related to HP3. Additionally, accounts payable and accrued expenses include a reduction of \$39.7 million related to the timing of payment for capital projects.

Accrued salaries and benefits represents the days in the month the Health System has accrued for salaries and benefits after the most recent bi-weekly payroll. Accrued salaries and benefits increased \$10.0 million or 13.7% from 2023 to 2024.

Unexpended bond proceeds and other long-term investments

As of the end of 2024, unexpended bond proceeds include \$5.9 million of interest income earned on the general receipt bonds that will be used for construction costs in the upcoming year. The Health System has used all of the general receipt bonds issued by the University and allocated to the Health System for construction of the New Inpatient Tower.

Other long-term investments is comprised of funds set aside for future capital expansion projects and research initiatives to support clinical care and the academic mission of the Medical Center.

	<u>2024</u>	<u>(in</u>	<u>2023</u> thousands)	<u>2022</u>

Unrealized Gain	104,552		70,852		58,242	
Long-Term Investment Pool	\$ 593,934	\$	560,234	\$	430,631	

The Health System has an investment interest in the University's Long-Term Investment Pool to support capital projects, research initiatives, clinical care, and the academic mission. The Long-term investment pool – Cost Value increased \$117.0 million from 2022 to 2023 as a result of the Health System transferring additional operating cash and reinvesting Interest Income earnings back into the pool. The cost value of the Long-term investment pool in 2024 was \$489.4 million. The Health System recorded net increases or unrealized gains of \$33.7 million and \$12.6 million in the market value of investments in 2024 and 2023, respectively. The Health System recorded a \$26.3 million unrealized loss in the market value of investments during fiscal year 2022.

Capital Assets

	<u>2024</u> <u>2023</u> (in thousands)			<u>2022</u>
Capital Assets - Net				
Property, Plant, and Equipment	\$ 4,216,166	\$	3,710,424	\$ 3,402,504
Construction In Progress	1,534,443		1,402,536	1,010,380
Accumulated Depreciation	(2,199,421)		(1,977,909)	(1,820,404)
Lease Assets	89,752		92,545	78,653
Capital Assets - Net	\$ 3,640,940	\$	3,227,596	\$ 2,671,133

Property, plant, and equipment increased in 2024 primarily due to the completion of The James Outpatient Care in the Carmenton innovation district. This project included outpatient operating rooms, interventional radiology rooms, pharmacy, central Ohio's first proton therapy treatment facility in partnership with

Nationwide Children's Hospital, and other services. Continued updates to existing ambulatory locations, strategic Information Technology initiatives, and other equipment purchases also contributed to the increase from prior year. Construction in progress growth continues due to the costs associated with the New Inpatient Tower, regional ambulatory sites, and other facility improvements including equipment expenses.

The growth in property, plant, and equipment in 2023 is primarily due to the completion of the new outpatient care ambulatory facility in Dublin, the opening of the Pelotonia Research Center, the purchase of land for a future ambulatory site in Powell, updates to existing ambulatory locations, and other strategic Information Technology initiatives. Construction in progress growth continued as a result of the costs associated with the New Inpatient Tower, regional ambulatory sites, and other facility improvements including equipment expenses.

GASB 87 established the foundational principle that all leases are financings of the right to use an underlying asset for a period of time. The Health System recorded a lease asset in the amount of \$55.4 million in 2024, \$59.1 million in 2023 and \$60.0 million in 2022. GASB 96 extends the right-of-use accounting concepts introduced in GASB Statement No. 87 to subscription-based information technology arrangements, or SBITAs. The Health System recorded a SBITA asset in the amount of \$34.4 million in 2024, \$33.4 million in 2023 and \$18.7 million in 2022.

The growth in property, plant, and equipment in 2022 is primarily due to the completion of the new outpatient care ambulatory facility in New Albany, building purchases of the Eye and Ear Institute (EEI) as well as the Stefanie Spielman Comprehensive Breast Center (SSCBC), renovation of a faculty office building, and the relocation of Cannon Drive for future expansion. Construction in progress growth continues because of the costs associated with the New Inpatient Tower, regional ambulatory sites, and other facility improvements including equipment expenses.

Other Non-current Assets and Non-current Liabilities

The Health System has an equity investment interest in MedFlight, a community-based air ambulance/intensive care transport authority as well as an investment interest with partial ownership in Madison County Hospital, a community hospital. The change in investment balance reflects the Health System's total equity interest in these investments. Long-term receivables and other non-current assets totaled \$14.6 million in 2024. The Health System operates a program to assist community-based hospital systems gain access to the Epic electronic medical record via a hosting relationship to better serve the needs of the client's community. Long-term receivables and other non-current assets include an \$8.0 million receivable which represents payments due to the Health System for implementation and maintenance for the Epic hosting agreement with multiple community hospitals. Long term receivables and other non-current assets also include endowment assets of \$8.9 million in 2024, \$8.1 million in 2023, and \$7.7 million in 2022. The Health System is a lessor for various noncancellable leases of real estate. In accordance with GASB 87, long-term lease receivable recorded by the Health System was \$155.8 million in 2024, \$160.1 million in 2023, and \$84.3 million in 2022. The increase in long-term lease receivable from 2022 to 2023 is primarily related to the opening of Outpatient Care Dublin.

			-	-

Total Other Non-Current Liabilities	\$ 1,906,975	\$	2,027,334	\$	718,259

Third-party payor settlements consist of future settlements of current and previous years Medicare and Medicaid cost reports, OIG audits, Managed Care payor audits of charges and payments and prior years charging and billing issues. The change in third-party payor settlements from 2022 to 2024 reflects management's estimate for previous years Medicare and Medicaid cost report settlements and Medicare Cost Report final settlements. Compensated absences reflect the liability for earned but unused vacation and the potential payment of ill time upon an employee's termination or retirement. The change in compensated absences from 2022 to 2024 is a result of the utilization of vacation and ill time by the workforce. In accordance with GASB 87, the Health System has recorded a long-term lease liability of \$33.5 million in 2024, \$36.1 million in 2023, and \$39.2 million in 2022. In accordance with GASB 96, the Health System has recorded a long-term lease liability of \$13.9 million in 2024, \$15.8 million in 2023 and \$7.6 million in 2022. Unearned revenue for the Health System totaled \$122.8 million in 2024, \$37.4 million in 2023, and \$18.6 million in 2022. Unearned revenue includes \$46.1 million of funding from Nationwide Children's Hospital for construction funding on the proton therapy center as well as \$67.5 million for the upfront payment for the parking agreement, and \$9.0 million related to the additional payments from Nationwide Children's Hospital related to the NICU.

Net Position

Net Position represents the residual interest in the Health System's assets and deferred outflows after liabilities and deferred inflows are deducted. The composition of the Health System's Net Position at June 30, 2024, 2023 and 2022 is summarized as follows:

	<u>2024</u>	<u>2023</u> (in thousands)			<u>2022</u>
Net Position					
Invested in capital assets, net of related debt	\$ 2,180,392	\$	2,032,008	\$	1,828,160
Restricted, nonexpendable	8,861		8,063		7,743
Restricted, expendable	73,405		30,924		24,131
Unrestricted	894,010		806,111		735,221
Net Position	\$ 3,156,668	\$	2,877,106	\$	2,595,255

Net investment in capital assets are the Health System's capital assets net of accumulated depreciation and outstanding principal balances of debt obtained for acquiring, constructing, and improving those assets. Net Position is further categorized into Restricted-Nonexpendable, Restricted-Expendable, and Unrestricted. Please see the Notes to the Financial Statements for further definition. In 2024, Net Position totaled \$3,156.7 million, an increase of \$279.6 million compared to 2023 due to higher surgical volumes, increased outpatient volumes, and growth in infusion activity. Included in the change in Net Position is a \$76.6 million pension expense related to GASB 68 as well a \$5.7 million OPEB benefit related to GASB 75.

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position represents the Health System's results of operations. A comparison of revenues, expenses and changes in net position for the years ended June 30, 2024, 2023 and 2022 is as follows:

	Fiscal Year June 30,					
	<u>2024</u>		<u>2023</u>		<u>2022</u>	
		<u>(in</u>	thousands)

Increase in Net Position	\$ 279,562	\$	281,851	\$	701,029	
Net Position - Beginning of Year	 2,877,106		2,595,255		1,894,226	
Net Position - End of Year	\$ 3,156,668	\$	2,877,106	\$	2,595,255	

Operating Revenues

In 2024, total operating revenues grew \$460.6 million or 10.4% over the prior fiscal year. Total surgical volume increased 5.1% and total outpatient activity increased 9.4% compared to 2023. Infusion activity for the Health System grew 12.9%. Case mix index which measures inpatient acuity was up 3.0% compared to the prior year. Additionally, improved payor mix led to higher net revenue for the system. Operating revenues also included a \$12.3 million increase for the Specialty Retail Pharmacy from 2023 to 2024.

In 2023, total operating revenues grew \$258.8 million or 6.2% over the prior fiscal year. Inpatient surgical volume increased 3.1% while outpatient surgical volume increased 12.3% compared to 2022. The Health System's oncology and non-oncology infusion sites grew 10.8%. Outpatient Care Dublin recorded approximately 83,300 new visits in 2023. Operating revenues also included a \$24.6 million increase for the Specialty Retail Pharmacy from 2022 to 2023.

Approximately 84.8% of total operating revenues are from patient care activities, slightly up from 84.6% in 2023. Other Operating Revenues include revenue from reference labs, cafeteria operations, rental agreements, and other non-patient services. In addition, the integration of HP3 created a leased staffing arrangement for salaries and benefits of Health System employees supporting the transitioned practices. OSUP reimbursed the Health System for these employee salaries and benefits which were recorded in Other Operating Revenues under the Health System. HP3 revenue totaled \$60.7 million in 2024 compared to \$75.5 million in 2023. Due to the increasing complexity and significantly growing number of specialty oral and self-administered pharmaceuticals available for cancer and non-cancer patients, the Health System operates a Specialty Retail Pharmacy dedicated to improving patient care by easing the challenges of managing medications. The Specialty Retail Pharmacy contributed \$286.0 million to Health System operating revenues in 2024, \$273.7 million in 2023, and \$249.1 million in 2022. Other Operating Revenues also includes a portion of the revenue shared with Nationwide Children's Hospital for the management of the Neonatal Intensive Care Unit located at the Health System. The goal of this managed unit is to standardize the care and quality outcomes of all the neonatal patients in Central Ohio. The NICU contributed \$17.5 million of operating revenues in 2024, \$17.5 million in 2023, and \$17.3 million in 2022.

The Health System participates in the Care Innovation and Community Improvement Program (CICIP). CICIP was developed to increase alignment of quality improvement strategies and goals between the State, Managed Care Organizations (MCO), and both public and nonprofit hospital agencies. The Health System recognized \$70.7 million in Other Operating Revenues related to CICIP in 2024 compared to \$84.5 million in 2023, and \$89.1 million in 2022.

	Fiscal Year June 30,						
		<u>2024</u> <u>2023</u> (in thousands)				<u>2022</u>	
Revenues			<u>tu</u>	<u>i inousunus</u>			
Net patient service revenue less provision for bad debts	\$	4,161,491	\$	3,757,576	\$	3,641,873	
Other Operating Revenues		743,167		686,442		543,386	
Total Operating Revenue	\$	4,904,658	\$	4,444,018	\$	4,185,259	

Net Patient Service Revenue reflects charges to patients for clinical services provided, net of contractual allowances and other discounts, and provision for bad debts, charity and denials. Most patients have insurance coverage which pays for those services (third party payors). Most reimbursement rates from third party payors are at a substantial discount from patient charges.

The major third party payors are The Center for Medicare and Medicaid Services (CMS) -- Medicare - the federal program for the aged and disabled and Medicaid – the state program covering various underserved constituents and Managed Care – healthcare coverage typically provided by employers.

Medicare pays most inpatient and outpatient care on prospectively determined case rates. Additional payments are made to the Health System for medical education, caring for low-income patients, transplant costs, and cases with unusually high cost of care. The James is one of eleven cancer hospitals nationwide exempt from the prospective payment system. Medicare reimburses The James reasonable inpatient costs of care (subject to per case limit – Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) limit. The final payments for The James inpatient services are determined through annual cost reports. Medicare pays The James for outpatient services at costs discounted by a payment to cost factor (PCR) each year. In 2024, outpatient costs were paid at 89% PCR.

The Health System has estimated and recorded settlement amounts for all unsettled Medicare and Medicaid cost reports through June 30, 2024. In the opinion of management, adequate provisions have been made for such settlements. The Health System records changes in estimates upon receiving interim or final settlements related to prior year cost reports and regulation changes and are recorded in net patient service revenue.

Subject to income and asset levels, Medicaid pays for care under its Programs for Children, Families, and Pregnant Women; Aged Blind and Disabled program; and premium assistance for dual eligible Medicare enrollees. Medicaid pays for inpatient and outpatient services on prospectively determined rates with provisions for cases incurring unusually high costs. The James, as an exempt hospital for Medicare, is reimbursed for inpatient and outpatient services based upon Medicaid's predetermined percent of charges with no cost report settlement.

Contracts with Managed Care organizations are negotiated and include several different payment methods. Many of the contracts are case based or per diem for inpatients, with a combination of case rates and percent of charges for outpatients. Managed Care organizations may also offer plans to Medicare and Medicaid beneficiaries. These plans typically pay negotiated rates, but usually on a basis consistent with traditional Medicare or Medicaid plans. The State of Ohio mandates patients eligible for Programs for Children, Families, Pregnant Women, and eligible under the Aged, Blind and Disabled Program enroll in a Medicaid Managed Care plan.

The Health System also has contractual relationships with other payors and provides much of the acute care needs for The Ohio Department of Corrections. The Health System also provides care for various Bureau of Worker's Compensation managed care payors, other state and federal agencies. Effective July

1, 2013, corrections/inmates under 21 or over 64 years are covered under Medicaid. Previously, the Health System was reimbursed directly through the Ohio Department of Corrections. As of July 1, 2013, any pregnant inmate is covered by Medicaid for inpatient services. The remaining inmate population shifted to Medicaid for inpatient health coverage on January 1, 2014.

The Health System provides care to patients without insurance. It participates in Ohio's Hospital Care Assurance Program which provides for free care to patients whose income levels are below 100% of the Federal Poverty Level (FPL) Guidelines. The Health System also provides sliding scale charity discounts for self-pay patients up to 400% of the FPL.

Payor Mix for the Health System has seen a slight shift from Medicaid and Medicare to Managed Care. The Payor Mix for the 2024, 2023 and 2022 fiscal years are as follows:

	Fis		
<u>Payor Mix</u>	<u>2024</u>	<u>2023</u>	<u>2022</u>
Managed Care	38.6 %	36.9 %	37.3 %
Medicare	40.2	40.8	39.1
Medicaid	16.7	17.7	18.8
Self Pay	1.8	1.6	1.4
Other	2.7	3.0	3.4
	100.0 %	100.0 %	100.0 %

Operating Expenses

A comparison of operating expenses for the three years ended June 30, 2024, 2023 and 2022 is summarized as follows:

	Fiscal Year June 30,					
	<u>2024</u>		<u>2023</u>		<u>2022</u>	
	(in thousands)					
Expenses						
Salaries and benefits	\$ 1,877,595	\$	1,730,058	\$	1,654,822	
Supplies and drugs	1,502,265		1,330,794		1,202,397	
Purchased services	643,437		547,474		472,366	
Depreciation	253,782		217,436		199,591	
Pension expense (benefit)	76,639		123,103		(182,154)	
OPEB (benefit)	(5,664)		(68,422)		(157,421)	
Other expenses	152,805		148,264		134,179	
Total Operating Expenses	\$ 4,500,859	\$	4,028,707	\$	3,323,780	

Operating expenses increased \$472.2 million or 11.7% from 2023 to 2024 highlighting strong volumes for the system. Additionally, the healthcare industry continued to face rising costs related to labor shortages, inflationary pressure, and throughput challenges. The increase in operating expenses is primarily attributed to increases in medical supplies and drugs as well as salaries and benefits. Total pension and OPEB expense recognized in 2024 by the Health System including employer contributions totaled \$246.8 million. Total pension and OPEB expense related to GASB 68 accruals, and \$5.7 million OPEB benefit related to GASB 75 accruals.

Salaries and benefits grew \$147.5 million or 8.5% from 2023 to 2024 and includes significant costs for premium and incentive pay reflecting labor shortages and the challenging environment around hiring nursing and clinical care positions. Supplies and drugs increased \$171.5 million or 12.9%. The increase in supplies was a result of the growth in surgeries and outpatient procedural volumes as well as inflationary impacts felt across the Health System. The growth in drugs is due to increased volumes in chemotherapy

at The James as well as increased volumes at Health System ambulatory infusion sites. Additionally, drug costs increased at the Specialty Retail Pharmacy as a result of higher prescription volumes in 2024. Purchased services grew \$96.0 million or 17.5% in 2024 reflecting increased utilities, advertising, operational program support, as well as maintenance costs associated with information technology and clinical care systems.

Adjusted for activities (measuring both inpatient and outpatient activity), total operating expense increased 5.2% from 2023 to 2024. The Health System employed 15,700 full time equivalent employees (FTEs) in 2024, 14,900 in 2023 and 14,400 in 2022.

Non-Operating Revenue and Expenses

The Health System incurred a total of \$44.0 million in interest expense in 2024 with the majority paid to the University to service debt incurred on behalf of the Health System. The Health System incurred a total of \$46.6 million in 2023 and \$44.6 million in 2022.

The Health System has an investment interest in the University's Long-Term Investment Pool to support capital projects, research initiatives, clinical care, and the academic mission of the Medical Center. Income from investments in 2024 includes a \$33.7 million unrealized gain and \$18.2 million of interest income related to the Long-Term Investment Pool. This compares to a \$12.6 million unrealized gain and \$16.5 million of interest income in 2023 and a \$26.3 million unrealized loss and \$10.8 million of interest income in 2022.

Income Before Other Changes in Net Position

Income Before Other Changes In Net Position was \$218.7 million in 2024 compared to \$250.1 million in 2023 and \$670.3 million in 2022. Income Before Other Changes in Net Position in 2024 includes Medical Center Investments of \$235.4 million reinvested to support clinical research and education, as well as various patient programs at the Medical Center. Impacts to Income Before Other Changes in Net Position include pension expense of \$76.6 million in 2024 compared to \$123.1 million of pension expense in 2023 and a pension benefit of \$182.2 million in 2022. This reflects the annual accounting for GASB 68. OPEB benefit was \$5.7 million in 2024 compared to \$68.4 million in 2023 and \$157.4 million in 2022, reflecting annual accounting for GASB 75. Additionally, the decrease in Income Before Other Changes in Net Position for 2024 reflects higher premium and incentive pay as a result of staffing challenges and higher supply cost due to inflationary growth with medical supplies and drugs.

Other Changes in Net Position

The Health System's other changes in net position include capital contributions of \$60.1 million in 2024, \$31.4 million in 2023, and \$30.7 million in 2022 for hospital projects and capital acquisitions.

Statement of Cash Flows

The Statement of Cash Flows provides additional information about the Health System's major sources and uses of cash. A comparison of cash flows for the three years ended June 30, 2024, 2023 and 2022 is summarized as follows:

	Fiscal Year June 30,					
	2024			<u>2023</u>		<u>2022</u>
			<u>(ir</u>	<u>thousands)</u>		
Cash Flows						
Receipts from patients and third-party payors	\$	4,049,680	\$	3,640,890	\$	3,421,803
Payments to and on behalf of employees		(1,932,484)		(1,800,403)		(1,717,815)
Payments to vendors for supplies and services		(1,988,790)		(1,811,168)		(1,601,661)
Other operating activities		599,036		435,921		455,228
Net cash provided by operating activities		727,442		465,240		557,555
Net cash used in non-capital financing activities		(231,500)		(158,858)		(145,678)
Net cash used in capital and related financing activities		(465,955)		(854,197)		(148,574)
Net cash provided (used) by investing activities		98,787		327,183		(518,173)
Net Increase (Decrease) in Cash and Cash Equivalents	5	128,774		(220,632)		(254,870)
Cash and Cash Equivalents - Beginning of Year	\$	958,811	\$	1,179,443	\$	1,434,313
Cash and Cash Equivalents - End of Year	\$	1,087,585	\$	958,811	\$	1,179,443

Net cash provided by operating activities in 2024 totaled \$727.4 million compared to \$465.2 million in 2023 and \$557.6 million in 2022 reflecting strong activity from operations. Net cash used in non-capital financing activities totaled \$231.5 million in 2024 which includes \$235.4 million of investments paid for research, education, and programs at the Medical Center offset by \$2.4 million of federal and state stimulus recovery as a result of the impact of Covid-19 on the Health System clinical operation. Net cash used in capital and related financing activities totaled \$466.0 million in 2024, which includes \$646.3 million of capital asset purchases as well as \$300.0 million of funds borrowed from the University by the Health System related to bonds issued for the construction of the New Inpatient Tower. Net cash provided by investing activities totaled \$98.8 million in 2024. The Health System received \$58.4 million of interest income in 2024 compared to \$29.6 million of interest income in 2023.

Future Direction

Healthcare at The Ohio State University Wexner Medical Center Health System is driven by the mission to improve health in Ohio and across the world through innovation and transformation in research, education, patient care and community engagement. The Health System is continuing its vision to push the boundaries of discovery and knowledge, solve significant health problems and deliver unparalleled care. The Medical Center has developed a multifaceted strategic plan focused on talent and culture, research, education, health and well-being, and resource stewardship. This plan will advance the Academic Health Care goal and will continue the Health System's history of success.

The James Outpatient Care opened in July 2023. The center provides collaborative outpatient care for a variety of cancers and is home to the first outpatient cancer surgery facility. The center is home to central Ohio's first proton therapy center. Outpatient Care Powell is scheduled to open in 2026 and the new location will join Outpatient Care New Albany and Outpatient Care Dublin as the third facility of a new suburban outpatient care program to provide convenient access to comprehensive healthcare services including primary and specialty care along with diagnostic and treatment services where people work and live. These comprehensive facilities are a continuation of a suburban outpatient care program that supports growth in the region and excellence in academic health. Additionally, the New Inpatient Tower is scheduled to open in early 2026 and will be a 1.9 million square foot facility and the largest single facilities project ever

undertaken at The Ohio State University. The new tower will enhance research, clinical training and patient care.

The Health System will continue to create an innovative healthcare delivery model to deliver high value care with an unparalleled patient experience and access. As a leading academic medical center, The Ohio State University Wexner Medical Center Health System will change how patients receive care. The Health System has a critical role in both meeting the most complex care needs of the community and also keeping the community and individuals healthy. This role can only be filled by an academic medical center such as The Ohio State University Wexner Medical Center.

By pushing the boundaries of discovery and knowledge, The Ohio State University Wexner Medical Center will solve significant problems and deliver unparalleled care. The Medical Center embodies the Buckeye Spirit in everything we do through our shared values of Inclusiveness, Determination, Empathy, Sincerity, Ownership, and Innovation. The Health System will continue to be proactive in responding to all challenges and opportunities of the healthcare environment and expects to build upon its unmatched healthcare delivery model and growth in financial position and operating results during the upcoming year.

NOTE 1 – ORGANIZATION

The Ohio State University Wexner Medical Center Health System (the "Health System" or the "System") operates under the governance of The Ohio State University Board of Trustees (the "Board of Trustees"). The Health System is comprised of a series of departments representing the financial activities of University Hospital, East Hospital, Brain and Spine Hospital, Richard M. Ross Heart Hospital, Harding Hospital, Dodd Rehabilitation Hospital, Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and various Ambulatory Clinics and Outreach Sites. As a series of departments of The Ohio State University (the "University"), the Health System is included in the financial statements of the University and is exempt from federal and state income tax as an integral part of the State of Ohio. The University is subject to the unrelated business income tax for activities that are not related to their tax-exempt purposes.

The Health System is an operating unit of The Ohio State University Wexner Medical Center ("OSUWMC") which also includes the College of Medicine, Office of Health Sciences, OSU Physicians ("OSUP"), and the OSU Health Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The preparation of these financial statements is in conformity with generally accepted accounting principles in the United States of America as prescribed by the Governmental Accounting Standards Board ("GASB").

The financial statements of the Health System have been prepared on the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when an obligation has been incurred. The Health System reports as a special purpose government entity engaged primarily in business type activities, as defined by GASB. Business type activities are those that are financed in whole or in part by fees charged to external parties for goods or services.

New Accounting Pronouncements:

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. This Statement requires that liabilities for compensated absences be recognized for leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if the leave is attributable to services already rendered, the leave accumulates, and the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. The Statement is effective for fiscal years beginning after December 15, 2023 (FY2025).

In December 2023, the GASB issued Statement No. 102, *Certain Risk Disclosures*. This Statement requires governments to disclose significant concentrations or constraints that could affect the level of service governments provide or their ability to meet obligations as they come due. Concentrations are defined as a lack of diversity related significant inflows or outflows of resources. Constraints are defined as limitations imposed on a government by an external party or by formal action of the government's highest level of decision-making authority. The Statement is effective for fiscal years beginning after June 15, 2024 (FY2025).

In June 2024, the GASB issued Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential to decision making and assessing a government's accountability. The Statement includes provisions related to the presentation of Management's Discussion and Analysis, the presentation of proprietary fund statements of revenues, expenses and changes in net position and the presentation of major component unit information and is effective for fiscal years beginning after June 15, 2025 (FY2026).

Health System management is currently assessing the impact that implementation of GASB Statements No. 101, 102 and 103 will have on the Health System's financial statements.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires that management make estimates and assumptions regarding the reported amounts. The most significant areas requiring estimates relate to accounts receivable allowances for contractual adjustments and bad debts, third-party payor settlement liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

In particular, laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates related to these programs could change by a material amount in the near term.

Net Position:

Net Position is categorized as:

- Net investment in capital assets: Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets, including lease liabilities.
- Restricted:

<u>Nonexpendable</u> – Net position subject to externally-imposed stipulations that they be maintained in perpetuity and invested for the purpose of generating present and future income, which may either be expended or added to the principal by the University for the benefit of the Health System. These assets primarily consist of the Health System's permanent endowments.

<u>Expendable</u> – Net position whose use by the Health System is subject to externally-imposed stipulations that can be fulfilled by actions of the Health System pursuant to those stipulations or that expire by the passage of time.

Unrestricted: Net position that is not subject to externally-imposed stipulations. Unrestricted net position
may be designated for specific purposes by action of management or the Board of Trustees or may
otherwise be limited by contractual agreements with outside parties.

The Health System first applies resources in restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position are available.

Cash and Cash Equivalents on Deposit with the University:

Cash and cash equivalents of \$1,087,585 at June 30, 2024 and \$958,811 at June 30, 2023 consist primarily of petty cash, demand deposit accounts, money market accounts, savings accounts and investments with original maturities of 90 days or less. Such investments consist primarily of U.S. Government obligations, U.S. Agency obligations, repurchase agreements and money market funds. Health System cash is pooled with other operating units within the University and earns interest income at rates established through the University's internal bank program.

Patient Accounts Receivable and Estimated Payables to Third-Party Payors:

A substantial portion of the Health System's revenue is received from governmental payors: Medicare and Medicaid. Payments from these payors are based on a combination of prospectively determined rates and retrospectively settled amounts. Many of the payment calculations require the use of estimates until the cost reports are audited and reach a final settlement. Final settlement of the amount due to the Health System or payable to the payors are subject to the laws and regulations governing the federal and state programs and post-payment audits may result in further adjustments by the payors. Provisions for anticipated adjustments have been made in the financial statements. Certain adjustments and payment

rates of third parties in previously settled cost reports are being appealed. Any recoveries are recognized in the financial statements as adjustments to prior year settlements at the time the appeals are resolved.

The Health System also enters into contractual relationships with managed care organizations and other third party payors to provide services to plan beneficiaries. These relationships may include services provided to Medicare beneficiaries under Medicare Advantage programs and to Medicaid beneficiaries under Medicaid Managed Care programs. Many of the agreements with Medicare, Medicaid, and third-party payors provide for payment at amounts different from established prices. A summary of the significant payment arrangements with major third-party payors follows:

Medicare:

The Medicare program reimburses the Health System for services provided to its beneficiaries. The Ohio State University Hospital, The Richard M. Ross Heart Hospital, and Ohio State East Hospital reimbursement for inpatient services are based on a prospective payment system (PPS) that utilizes Medicare Severity Diagnostic Related Groups (MS-DRGs). These payment rates vary according to the patient classification system established by the Center for Medicare and Medicaid Services (CMS). OSU Harding is paid under PPS for Medicare Inpatient Psychiatric facilities. Medicare reimburses the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute on a Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) basis, subject to certain reasonable cost limits. Outpatient services for all business units are paid prospectively on pre-determined fee schedules or Ambulatory Payment Classifications (APCs). In addition, The James receives Hold Harmless payments up to a published payment to cost ratio (PCR). The program's share of Graduate Medical Education, Paramedical training, and Solid Organ Transplant costs are reimbursed outside of MS-DRGs on a combination of prospective and cost-based methodologies. Reimbursement for these items is made at a tentative rate with a final settlement determined after submission of annual cost reports by the Health System, and audits thereof, by Medicare.

Medicaid:

Inpatient acute care services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge based upon All Patient Refined Diagnostic Related Groups (APR-DRGs). These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. This is applicable for every business unit except the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute. Outpatient services are paid prospectively on pre-determined fee schedules except the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute. Inpatient capital costs are paid based on an Ohio Department of Medicaid published hospital specific rate. Effective July 1, 2014, there is no cost report settlement, although Medicaid Cost reports continue to be required.

The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute is reimbursed for inpatient and outpatient beneficiary care at Ohio Department of Medicaid published rates with final cost settlement via cost reports through September 30, 2014. Thereafter, cost settlement no longer applies. Effective January 1, 2014, new regulations under the Patient Protection and Affordable Care Act allow states to extend coverage to additional eligible enrollees. Medicaid expansion continues to be an effort to secure health insurance coverage for Ohio's working poor.

Other:

The Health System has entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basic payment to the Health System under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

Settlements:

The Health System has estimated and recorded settlement amounts for all unsettled Medicare and Medicaid cost reports through June 30, 2023. In the opinion of management, adequate provisions have been made for such settlements. The Health System records changes in estimates upon receiving interim or final settlements related to prior year cost reports. The most recent settled cost report for The Ohio State

University Hospital for Medicare was for fiscal year ended June 30, 2020 and June 30, 2018 for Medicaid. The most recent settled cost report for the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute for Medicare was fiscal year ended June 30, 2022 and June 30, 2018 for Medicaid.

In addition to cost report settlements, government and managed care payors are increasingly retroactively reviewing claims for medical necessity, inpatient/outpatient status, charge accuracy, documentation, provider-based requirements and non-allowable charges. Annual audits are completed related to HCAP payments. Electronic Health Records payment audits are also being completed by CMS and the Office of the Inspector General (OIG) to assure accuracy of payments in prior years for both Medicare and Medicaid. The Health System reserves include amounts to cover potential recoveries related to these audits.

Contributions and Pledges Receivable:

The University receives pledges and bequests of financial support from corporations, foundations and individuals, including amounts relating to capital expansion and patient care activities of the Health System. Contributions and pledges receivable are recorded as current assets in the Health System's financial statements. Revenue is recognized when a pledge representing an unconditional promise to pay is received and all eligibility requirements have been met. In the absence of such promise, revenue is recognized when the gift is received. In accordance with GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, endowment pledges are not recorded as assets until the related gift is received.

Inventories:

Inventories for the Health System consist primarily of pharmaceutical drugs, operating room supplies, personal protective equipment, and information technology equipment, and are valued at the lower of cost or market, with the cost determined on a FIFO (first-in/ first-out) basis.

Other Long-term Investments:

Other Long-term Investments are funds set aside for future capital improvements, third party settlements, debt repayments and research initiatives. Control of these assets is maintained by the Health System who may, at its discretion, subsequently use the assets for other purposes not related to current operations with Medical Center Board of Directors' approval.

These funds are invested in the Ohio State University investment pool. The Health System receives interest based on rates established by the University's internal bank program.

The University's investment policy authorizes the University to invest non-endowment funds in the following investments:

- Obligations of the US Treasury and other federal agencies and instrumentalities
- Municipal and state bonds
- Certificates of deposit
- Repurchase agreements
- Mutual funds and mutual fund pools
- Money market funds

Other Long-term Investments consisted of the following at June 30, 2024 and 2023:

		<u>2023</u>		
Funds held for capital replacement	\$	91,925	\$	91,925
Funds held for debt retirement		28,031		28,031
Funds held for research initiatives		20,000		20,000
Total	\$	139,956	\$	139,956

Operating Funds and Endowments in University Long-Term Investment Pool:

Amounts invested in the Ohio State University Long-Term Investment Pool are reported at fair value in accordance with GASB Statement No. 31, Accounting and Reporting for Certain Investments and for External Investment Pools as amended by GASB Statement 72, Fair value Measurement and Application. These funds are managed by the Investment Office of the University, which commingles the funds with other University related organizations. Earned investment income by a fund is based on the moving average of its monthly market value percentage to the overall pool.

Endowment Funds:

All University endowments are invested in the University's Long-Term Investment Pool and are invested and administered according to University policy. Certain endowment fund assets, namely funds relating to the Health System capital expansion and patient care activities, have been recorded in the Health System's financial statements based upon the concurrent determination that the underlying activities are to be recorded by the Health System. Each named Health System fund is assigned a number of shares in the University Long-Term Investment Pool based on the value of the gifts, income to principal transfers, or transfers of operating funds to the named fund. Annual distributions from the funds are computed using the share method of accounting for pooled investments. Health System endowment fund assets are included in long term receivables and other assets on the Statement of Net Position, and totaled \$8,861 and \$8,063 at June 30, 2024 and 2023, respectively.

For donor restricted endowments, the Uniform Prudent Management of Institutional Funds Act (UPMIFA), as adopted in Ohio, permits the Board of Trustees to appropriate an amount of realized and unrealized endowment appreciation as deemed prudent. The UPMIFA, as adopted in Ohio, establishes a 5% safe harbor of prudence for funds appropriated for expenditure. Net realized and unrealized appreciation, after the spending rule distributions, is retained in the Long-Term Investment Pool, and the associated net position is generally classified as restricted-expendable.

Equity method investments:

Equity method investments are recorded using the equity method of accounting.

Capital Assets:

Capital assets are long-life assets in the service of the Health System and include land, buildings, improvements, equipment and software. The Health System applies capitalization thresholds for items with a cost of \$5 or more and a useful life of at least two years as capital assets. Groups of like items less than \$5 individually but exceeding \$5 in total may be considered a capital asset when associated with new construction or renovation. Capital asset acquisitions are recorded at cost or at acquisition value at date of donation. Depreciation is recorded on a straight-line basis over the estimated useful life of the assets applying a half-year convention. The life of buildings ranges from 5-40 years, for equipment the range is 2-20 years, and for leasehold improvements the range is 3-16 years. The Health System uses guidelines established by the American Hospital Association to assign estimated useful lives to fixed equipment and inventoried equipment. Interest expense incurred on borrowed funds during the period of construction of capital assets is expensed as a component of the cost of acquiring those assets.

Net Patient Service Revenue:

Net Patient service revenue is reported at the estimated net realizable amounts from patients, third party payors, and others for services rendered, including estimated and retroactive settlements. Net patient service revenue for the years ended June 30, 2024 and 2023 are summarized as follows:

	<u>2024</u>	<u>2023</u>		
Total patient service revenue	\$ 13,063,917	\$	11,396,212	
Contractual allowances and other discounts	(8,871,677)		(7,619,834)	
Provision for bad debts	 (30,749)		(18,802)	
Net patient service revenue less provision for bad debts	\$ 4,161,491	\$	3,757,576	

Additionally, net patient service revenue is reported net of contractual allowances and other discounts and excludes provision for bad debts. Net patient service revenue amounts recognized from major payor sources (based on primary payor) for fiscal 2024 and 2023, respectively, are as follows:

Payor	<u>2024</u>		<u>2023</u>	
Medicare	\$ 1,220,204	29.1 %	1,089,511	28.8 %
Medicaid	660,386	15.7 %	561,840	14.9 %
Managed Care	2,304,160	55.0 %	2,117,984	56.1 %
Anthem	857,472		771,736	
United Healthcare	538,047		472,839	
MMO	233,762		222,748	
Aetna	209,709		201,573	
Other	465,170		449,088	
Self Pay	7,490	0.2 %	7,043	0.2 %
Total	\$ 4,192,240	100.0 %	3,776,378	100.0 %

Charity Care:

The Health System provides medical care to all patients regardless of their ability to pay. In addition, the Health System provides services intended to benefit the under-served, the uninsured and the underinsured. Because the Health System does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenues or patient accounts receivable.

The total cost of charity care provided is determined using a ratio of costs to gross charges calculation. The total cost of charity care is adjusted by support received under the Health Care Assurance Program (HCAP) to arrive at net cost of charity care. HCAP is administered by the State of Ohio to help hospitals cover a portion of the costs of providing charity care.

The cost of providing charity care for the fiscal years 2024 and 2023 are as follows:

	<u>2024</u>		<u>2023</u>	
Total cost of charity care	\$	83,859	\$	63,443
Less Health Care Assurance Program support		(24,556)		(2,347)
Net cost of charity care	\$	59,303	\$	61,096

Other Revenue:

Other Revenue is composed of items such as reference labs, cafeteria operations, rental agreements, specialty retail pharmacy operations, Neonatal Intensive Care Unit, HP3 staff lease agreement, and other sources.

Estimated Medical Liability Costs:

The Health System recognizes medical liability contributions paid to the University's Self Insurance Program as a period expense. See NOTE 8 - SELF INSURANCE PROGRAM – MEDICAL LIABILITY.

High-Performing Practice Plan:

In an effort to unify all faculty practices to create a fully integrated, high-performing practice plan (HP3), the faculty practices operated by the Health System moved to OSU Physicians, Inc. (OSUP) in July 2022. The Health System practices included Anesthesiology, Maternal Fetal Medicine, Neurosurgery, Orthopedics, Sports Medicine, and Family and Community Medicine. In accordance with GASB Statement No. 69 *Government Combinations and Disposals of Government Operations*, the impact of the physician integration in 2023 was a reduction to the Health System Operating Revenues of \$224,500 and Operating Expenses of \$254,000.

NOTE 3 – COVID-19 AND CARES ACT ASSISTANCE

The Covid-19 pandemic had a significant impact on the activities and results of Health System operations. Health System expenses were significantly impacted due to staffing shortages that drove up salary cost related to premium pay and agency spend. The global supply chain challenges caused inflationary pressure with medical supplies and capital project costs. The Department of Health and Human Services (HHS) declared an end to the public emergency on May 11, 2023, thus ending the pandemic.

Health Care Provider Relief Funds:

In response to the impact on the healthcare environment from the coronavirus pandemic, the Coronavirus Aid, Relief, and Economic Security (CARES) Act became law on March 27, 2020. It included provisions to support healthcare providers and patients in the form of grants, payments for uninsured patients, and changes to Medicare and Medicaid payments, among other types of relief. The CARES Act provided \$100 billion to the Public Health and Social Services Emergency Fund to establish a Provider Relief Fund. As of 2023, the Health System has recognized a total of \$186,394 of Provider Relief Funds. These amounts provided to the Health System under CARES Act grant programs were recognized as non-operating revenues in the Statement of Revenues, Expenses and Changes in Net Position as eligibility requirements were met.

Medicare Advance Payment Program:

The CARES Act expands the Medicare Accelerated and Advance Payment Program. An accelerated or advance payment was intended to provide necessary funds for the disruption in claims submission and/or claims processing. These expedited payments can also be offered in circumstances such as national emergencies or natural disasters to accelerate cash flow to the impacted healthcare providers and suppliers. The Health System received advance payments under this program totaling \$274,915. Amounts provided under the Medicare Accelerated and Advance Payment Program are considered short-term loans and are reported as current liabilities in the Statement of Net Position. As of June 2023, CMS has recouped the entire \$274,915 related to the Medicare Accelerated and Advance Payment Program and the Health System has no outstanding liabilities related to the program.

FEMA Public Assistance Program:

The Health System filed a Request for Public Assistance (RPA) with FEMA for costs associated with Emergency Protective Measures in response to Covid-19. Qualifying activities included purchases of PPE, signage and educational materials, reimbursement for nursing overtime labor, purchase of ventilators, as

well as standing up testing sites, surge units, and a field hospital for additional hospital capacity. As of 2024, the Health System has received and recorded \$38,827 related to Covid-19 cost recovery. These amounts provided to the Health System from FEMA were recognized as non-operating revenues in the Statement of Revenues, Expenses and Changes in Net Position as eligibility requirements were met and the FEMA projects were obligated.

NOTE 4 – LONG-TERM INVESTMENT POOL

Since fiscal year 2017, the Health System has transferred a total of \$436,697 to the University, for investment in the University's Long-Term Investment Pool. In addition, certain endowment funds, namely funds relating to the Health System capital expansion and patient care activities, have been recorded in the Health System's financial statements beginning in fiscal year 2012 based upon the concurrent determination that the underlying activities are to be recorded by the Health System.

The pool consists of 6,436 Board authorized funds and 230 pending funds. Each named fund in the Long-Term Investment Pool is assigned a number of shares, based on the value of the original gift amounts, income-to-principal transfers or transfers of operating funds to that named fund. The pool is invested in a diversified portfolio of equities, fixed income securities and alternative investment funds. The pool operates with a long-term investment goal of preserving and maintaining the real purchasing power of the principal while allowing for the generation of a predictable stream of annual distribution to support the Health System's mission.

The University holds investments in limited partnerships, such as hedge, private equity, venture capital and other alternative investment funds, which are measured at net asset value provided by the management of these limited partnerships. The purpose of this alternative investment class is to increase portfolio diversification and reduce risk due to the low correlation with other asset classes. Investments in these limited partnerships are measured based on the University's proportional share of the net asset value of the total fund. Because these investments are not readily marketable, the estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for the investments existed, and such differences could be material.

Annual distributions to named funds in the Long-Term Investment Pool are computed using the share method of accounting for pooled investments. The annual distribution per share is 4.5% of the average market value per share of the Long-Term Investment Pool over the most recent five-year period.

As of June 30, 2024, the original cost and additions of the Health System's operating investments in the pool was \$489,382 and the market value of the Health System's operating investments in the pool was \$593,934. As of June 30, 2023, the original cost and additions of the Health System's operating investments in the pool was \$489,382 and the market value of the Health System's operating investments in the pool was \$560,234.

NOTE 5 – CAPITAL ASSETS

University Bonds

The amounts disclosed in the table above as University Bonds represent funds borrowed from the University by the Health System. The amounts borrowed relate to bonds issued by the University, whereby the related proceeds from the bonds have been borrowed by the Health System to finance various capital projects. The interest rates and repayment terms of the funds borrowed by the Health System are subject to the agreement between the University and the Health System.

The University issued general receipts bonds (2023, 3.84% through 2054) in 2024 and the Health System borrowed an additional \$300,000 from the University. The University issued general receipts bonds (2021,

2.85% through) in 2022 and the Health System borrowed \$715,395 from the University. The general receipts bonds are currently funding the construction of the New Inpatient Tower.

Scheduled principal and interest payments on long-term debt based on scheduled maturities for the next five years and in subsequent five-year periods are as follows:

	 Principal	Interest	Total
2025	\$ 79,429	50,065	129,494
2026	77,502	46,693	124,195
2027	79,784	43,346	123,130
2028	83,271	39,853	123,124
2029	83,953	36,226	120,179
2030-2034	271,483	136,855	408,338
2035-2039	156,048	103,908	259,956
2040-2044	182,431	77,526	259,957
2045-2049	213,380	46,577	259,957
2050-2054	 177,483	12,203	189,686
	\$ 1,404,764	593,252	1,998,016

NOTE 7 – LEASES AND SUBSCRIPTION-BASED IT ARRANGEMENTS

Health System as Lessee and Subscription-Based IT Arrangements

The Health System is a lessee for various noncancellable leases of real estate and equipment. The Health System also has noncancellable subscription Information Technology (IT) arrangements (similar to a lease) for the right-to-use information technology hardware and software (subscription IT arrangements). Lease assets and subscription IT assets are reported with capital assets. Lease and subscription IT liabilities are reported as lease liability in the Statement of Net Position.

Lease and subscription IT asset activity for year ended June 30, 2024 is summarized as follows:

		Beginning Balance		Additions	Remeasuremen	te	Deductions		Ending Balance
Lease assets:		Dalarice		Additions	Remeasuremen	13	Deductions		Dalarice
Real estate	\$	70.947	\$	2,609	\$ —	\$	492	\$	73,064
Equipment	Ψ	1.092	Ψ	2,005	Ψ	Ψ		Ψ	1,092
Total lease assets		72,039		2,609	_		492		74,156
Less accumulated amortization - lease assets:		. 2,000		2,000			102		1,100
Real estate		12,696		5,823	_		173		18,346

Health System as Lessor

The Health System is lessor for various noncancellable leases of real estate. Lease-related revenues recognized by the Health System for the years ended June 30, 2024 and 2023 are as follows:

	2024	2023
Lessor Disclosures		
Lease revenue	\$ 13,314	\$ 14,208
Interest revenue	 7,425	7,150
	\$ 20,739	\$ 21,358

NOTE 8 - SELF INSURANCE PROGRAM – MEDICAL LIABILITY

On July 1, 2003, the Health System joined with Ohio State University Physicians, Inc., a component unit of The Ohio State University, to establish a self-insurance fund for professional and patient general liability claims (Fund II). The fund covers the hospitals and the employed physicians, including eligible providers employed by Ohio State University Physicians, Inc. and its Single Member Limited Liability Companies and their Sub Limited Liability Companies created prior to July 1, 2013. Previous to July 1, 2003, the Health System was self-insured through the University's established self-insurance fund for professional and patient general liability (Fund I). Effective November 1, 2022, Fund I was dissolved and the remaining liabilities were transferred to Oval Limited. A Loss Portfolio Transfer Assumption Agreement was executed, and a premium was paid to Oval Limited to accept the remaining liabilities. After the premium and expenses were paid, the Fund I was closed and the remaining Fund I assets were transferred to the Health System during fiscal year 2023. The assets and liabilities of both funds are included in the University's financial statements but are not included in the Health System financial statements as a result of the retained risk. being held by the University. The estimated liability and the related contributions are based upon an independent actuarial determination as of June 30, 2024. The medical liability contribution expense is recorded as period expense for the Health System. There was no medical liability contribution expense for fiscal years 2024 and 2023.

The University has also established a pure captive insurer (Oval Limited) that provides excess liability coverage over retained Fund I and Fund II liabilities. Effective November 1, 2022, Oval Limited provides coverage with limits of \$4,000 per loss event and various annual aggregate limits for the residual obligations of the Health System's liability of its employed staff and physicians from 1976 to 2003. Fund II retains \$4,000 per loss event with various annual aggregate limits and a \$2,000 buffer layer in excess of this retention. Effective July 1, 2023, Oval Limited provides coverage with limits of \$100,000 per loss event and in the aggregate. The risk written for fiscal years 2024 and 2023 are fully reinsured by a combination of reinsurance companies each of which has a minimum AM Best rating of A.

Oval Limited assets and liabilities are included in the University's financial statements but are not included in the Health System financial statements, as a result of the retained risk being held by the University. Annual contributions from the Health System are recorded as period expense. There were no contributions to Oval in fiscal years 2024 and 2023.

There has not been a settlement in the past two fiscal years which exceeded the combined limits provided by Fund I or Fund II and Oval Limited. The Health System has not made any additional contributions in the last two years beyond its actuarially determined and Self Insurance Board approved funding levels.

NOTE 9 - RETIREMENT PLANS

Health System employees are covered by one of three retirement systems. Health System faculty is covered by the State Teachers Retirement System of Ohio (STRS Ohio). Substantially all other employees are covered by the Public Employees Retirement System of Ohio (OPERS). Employees may opt out of STRS Ohio and OPERS and participate in the Alternative Retirement Plan (ARP) if they meet certain eligibility requirements.

STRS Ohio and OPERS offer statewide cost-sharing multiple-employer defined benefit pension plans. STRS Ohio and OPERS provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. In addition, the retirement systems provide other postemployment benefits (OPEB), consisting primarily of healthcare. Benefits are established by state statute and are calculated using formulas that include years of service and final average salary as factors.

In accordance with GASB Statements Nos. 68 and 75, employers participating in cost-sharing multipleemployer plans are required to recognize a proportionate share of the collective net pension and OPEB liabilities of the plans. Although changes in the net pension and OPEB liabilities generally are recognized as expense in the current period, certain items are deferred and recognized as expense in future periods. Deferrals for differences between projected and actual investment returns are amortized to pension expense over five years. Deferrals for employer contributions subsequent to the measurement date are amortized in the following period (one year). Other deferrals are amortized over the estimated remaining service lives of both active and inactive employees (amortization periods range from 2 to 11 years).

Defined Benefit Pension and OPEB Plans - Year Ended June 30, 2024

The collective net pension liabilities of the retirement systems and the Health System's proportionate share of these liabilities as of June 30, 2024 are as follows:

	 STRS-Ohio	OPERS	Total
Net pension liability - all employers	\$ 21,534,938 \$	25,861,873 \$	
Proportion of the net pension liability - Health System	0.021 %	6.054 %	
Proportionate share of net pension liability	\$ 4,543 \$	1,565,562 \$	1,570,105

The collective net OPEB assets of the retirement systems and the Health System's proportionate share of these assets as of June 30, 2024 are as follows:

	 STRS-Ohio	OPERS	Total
Net OPEB asset - all employers	\$ (1,944,862) \$	(902,524) \$	
Proportion of the net OPEB asset - Health System	0.021 %	6.189 %	
Proportionate share of net OPEB asset	\$ (410) \$	(55,860) \$	(56,270)

Deferred outflows of resources and deferred inflows of resources for pensions were related to the following sources as of June 30, 2024:

	STRS-Ohio	OPERS
	STRS Ohio health care plans include creditable prescription drug coverage. For the year ended June 30, 2023, STRS Ohio received \$100.5 million in Medicare Part D government reimbursements.	an HRA, similar to Medicare-enrolled retirees.
Cost-of-Living Adjustments (COLAs)	Effective July 1, 2017, the COLA was reduced to 0%.	Once a benefit recipient retiring under the Traditional Pension Plan has received benefits for 12 months, current law provides for an annual COLA. The COLA is calculated on the member's base pension benefit at the date of retirement and is not compounded. Members retiring under the Combined Plan receive a COLA on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, current law provides for a 3% COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the adjustment will be based on the average percentage increase in the Consumer Price Index, capped at 3%.
Contribution Rates	Employer and member contribution rates are established by the Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The employer and member contribution rates are 14% of covered payroll. Under Ohio law, funds to pay health care costs may be deducted from employer contributions. For the year ended June 30, 2023, no employer allocation was made to the health care fund.	Employee and member contribution rates are established by the OPERS Board and limited by Chapter 145 of the Ohio Revised Code. For 2022, employer rates for the State and Local Divisions were 14% of covered payroll (and 18.1% for the Law Enforcement and Public Safety Divisions). Member rates for the State and Local Divisions were 10% of covered payroll (13% for Law Enforcement and 12% for Public Safety).
Measurement Date	June 30, 2023	December 31, 2023 (OPEB is rolled forward from December 31, 2022 actuarial valuation date)
Actuarial Assumptions	Valuation Date: June 30, 2023 for pensions and OPEB Actuarial Cost Method: Individual entry age Investment Rate of Return: 7.00% Inflation: 2.50% Projected Salary Increases: Varies by service from 2.5% to 8.5% Cost-of-Living Adjustments: 0% effective July 1, 2017 Payroll Increases: 3.00% Health Care Cost Trends: -11.95% to 7.50% initial; 4.14% ultimate in 2043	Valuation Date: December 31, 2023 for pensions; December 31, 2022 for OPEB Actuarial Cost Method: Individual entry age Investment Rate of Return: 6.9% for pensions; 6.0% for OPEB Inflation: 2.75% Projected Salary Increases: 2.75% - 10.75% Cost-of-Living Adjustments: Pre-1/7/2013 Retirees: 3.00% Simple Post-1/7/2013 Retirees: 2.30% Simple through 2024, then 2.05% Simple Health Care Cost Trends: 5.50% initial; 3.50% ultimate in 2038
Mortality Rates	For healthy retirees the post-retirement mortality rates are based on the Pub- 2010 Teachers Healthy Annuitant	Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for

	STRS-Ohio	OPERS
Date of Last	Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP- 2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.	State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables. December 31, 2020
Experience Study		
Investment Return Assumptions	The 10 year expected real rate of return on defined benefit pension and health care plan investments was determined by STRS Ohio's investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and long-term expected real rate of return for each major asset class are summarized as follows: Asset Class Milocation Domestic Equity 26.0% Domestic Equity 20.0% Asset Class 10.0% Target Return* Domestic Equity 22.0% 100% 5.75% Real Estate 10.0% 1.00% 5.75% Liquidity Reserves 1.0% 1.00% 1.00%	The long term expected rates of return on defined benefit pension and health care investment assets were determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. The following table displays the Board-approved asset allocation policy for defined benefit pension assets for 2023 and the long-term expected real rates of return. the following table displays the Board-approved asset allocation policy for defined benefit pension assets for 2023 and the long-term expected real rates of return. Defined Benefit Pension and OPEB Plans - Year Ended June 30, 2023

The collective net pension liabilities of the retirement systems and the Health System's proportionate share of these liabilities as of June 30, 2023, are as follows:

	_	STRS-Ohio	OPERS	Total
Net pension liability - all employers	\$	22,230,126 \$	29,296,534 \$	
Proportion of the net pension liability - Health System		0.029 %	5.933 %	
Proportionate share of net pension liability	\$	6,347 \$	1,738,042 \$	1,744,389

The collective net OPEB liabilities (assets) of the retirement systems and the Health System's proportionate share of these liabilities (assets) as of June 30, 2023, are as follows:

	 STRS-Ohio	OPERS	Total
Net OPEB (asset) liability - all employers	\$ (2,589,333) \$	630,519 \$	
Proportion of the net OPEB (asset) liability - Health System	0.029 %	6.040 %	
Proportionate share of net OPEB (asset) liability	\$ (739) \$	38,085 \$	37,346

Deferred outflows of resources and deferred inflows of resources for pensions were related to the following sources as of June 30, 2023:

	STRS-Ohio	OPERS	Total
Deferred Outflows of Resources:			
Differences between expected and actual experience	\$ 81	\$ 60,987	\$ 61,068
Changes in assumptions	757	19,639	20,396
Net difference between projected and actual earnings on pension plan investments	221	515,711	515,932
Changes in proportion of university contributions	9	133	142
Employer contributions subsequent to the measurement date	527	72,494	73,021
Total	\$ 1,595	\$ 668,964	\$ 670,559
Deferred Inflows of Resources:			
Differences between expected and actual experience	\$ 24	2,648	2,672
Changes in assumptions	569	_	569
Changes in proportion of university contributions		687	687
Total	\$ 593	\$ 3,335	\$ 3,928

Deferred outflows of resources and deferred inflows of resources for OPEB were related to the following sources as of June 30, 2023:

	STRS-Ohio	OPERS	Total
Deferred Outflows of Resources:			
Differences between expected and actual experience	\$ 11	\$ —	\$ 11
Changes in assumptions	31	37,199	37,230
Net difference between projected and actual earnings on OPEB plan investments	13	76,778	76,791
Changes in proportion of university contributions	_	24	24
Total	\$ 55	\$ 114,001	\$ 114,056
Deferred Inflows of Resources:			
Differences between expected and actual experience	\$ 111	9,493	9,604

	STRS-Ohio	OPERS
	in Medicare Part D government reimbursements.	
Cost-of- Living Adjustments (COLAs)	Effective July 1, 2017, the COLA was reduced to 0%.	Once a benefit recipient retiring under the Traditional Pension Plan has received benefits for 12 months, current law provides for an annual COLA. The COLA is calculated on the member's base pension benefit at the date of retirement and is not compounded. Members retiring under the Combined Plan receive a COLA on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, current law provides for a 3% COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the adjustment will be based on the average percentage increase in the Consumer Price Index, capped at 3%.
Contribution Rates	Employer and member contribution rates are established by the Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The employer and member contribution rates are 14% of covered payroll. Under Ohio law, funds to pay health care costs may be deducted from employer contributions. For the year ended June 30, 2022, no employer allocation was made to the health care fund.	Employee and member contribution rates are established by the OPERS Board and limited by Chapter 145 of the Ohio Revised Code. For 2022, employer rates for the State and Local Divisions were 14% of covered payroll (and 18.1% for the Law Enforcement and Public Safety Divisions). Member rates for the State and Local Divisions were 10% of covered payroll (13% for Law Enforcement and 12% for Public Safety).
Measurement Date	June 30, 2022	December 31, 2022 (OPEB is rolled forward from December 31, 2021 actuarial valuation date)

	STRS-Ohio	OPERS
Actuarial Assumptions	Valuation Date: June 30, 2022 for pensions and OPEB Actuarial Cost Method: Individual entry age Investment Rate of Return: 7.00% Inflation: 2.50% Projected Salary Increases: Varies by service from 2.5% to 8.5% Cost-of-Living Adjustments: 0% effective July 1, 2017 Payroll Increases: 3.00% Health Care Cost Trends: 7.50% to 9.00% initial; 3.94% ultimate in 2042	Valuation Date: December 31, 2022 for pensions; December 31, 2021 for OPEB Actuarial Cost Method: Individual entry age Investment Rate of Return: 6.9% for pensions; 6.0% for OPEB Inflation: 2.75% Projected Salary Increases: 2.75% - 10.75% Cost-of-Living Adjustments: Pre-1/7/2013 Retirees: 3.00% Simple Post-1/7/2013 Retirees: 3.00% Simple through 2023, then 2.05% Simple Health Care Cost Trends: 5.50% initial; 3.50% ultimate in 2036
Mortality Rates	For healthy retirees the post-retirement mortality rates are based on the Pub- 2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.	Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.
Date of Last Experience Study	June 30, 2021	December 31, 2020
Investment Return Assumptions	The 10 year expected real rate of return on defined benefit pension and health care plan investments was determined by STRS Ohio's investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and long-term expected real rate of return for each major asset class are summarized as follows:	The long term expected rates of return on defined benefit pension and health care investment assets were determined using a building-block method in which best- estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. The following table displays the Board- approved asset allocation policy for defined

		position and future contributions were
		sufficient to finance health care costs
		through 2054. As a result, the long-term
		expected rate of return on health care
		investments was applied to projected costs
		through the year 2054, and the municipal
		bond rate was applied to all health care
		costs after that date.

	STRS-Ohio	OPERS
Changes in Assumptions Since the Prior Measurement Date	Pensions and OPEB – Demographic assumptions related to mortality, retirement, turnover, pension payment form election, OPEB participation and salary increases were updated based on the actuarial experience study for the period from July 1, 2015 through June 30, 2021.	Pensions – There were no changes in assumptions since the prior measurement date of December 31, 2021. OPEB – Healthcare trends and the discount rate were updated since the prior measurement date of December 31, 2020.
Benefit Term Changes Since the Prior Measurement Date	Pensions – The pension plan was amended to implement one-time 3% COLA in fiscal year 2023 and to eliminate age 60 requirement for unreduced retirement effective August 1, 2026. OPEB – The health care program was amended for the 2023 plan year to increase subsidy level for health care premiums, modify Medicare Part B reimbursements and adjust certain co- pays and out-of-pocket limits.	Pensions – There were no changes in benefit terms since the prior measurement date of December 31, 2021. OPEB – On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and pre- Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for pre- Medicare retirees with monthly allowances, similar to the program for Medicare retirees.

Defined Contribution Plans

ARP is a defined contribution pension plan. Full-time administrative and professional staff and faculty may choose enrollment in ARP in lieu of OPERS or STRS Ohio. Classified civil service employees hired on or after August 1, 2005 are also eligible to participate in ARP. ARP does not provide disability benefits, annual cost-of-living adjustments, post-retirement health care benefits or death benefits to plan members and

beneficiaries. Benefits are entirely dependent on the sum of contributions and investment returns earned by each participant's choice of investment options.

OPERS also offers a defined contribution plan, the Member-Directed Plan (MD). The MD plan does not provide disability benefits, annual cost-of-living adjustments, post-retirement health care benefits or death benefits to plan members and beneficiaries. Benefits are entirely dependent on the sum of contributions and investment returns earned by each participant's choice of investment options.

STRS Ohio also offers a defined contribution plan in addition to its long established defined benefit plan. All employee contributions and employer contributions at a rate of 11.09% are placed in an investment account directed by the employee. Disability benefits are limited to the employee's account balance. Employees electing the defined contribution plan receive no post-retirement health care benefits.

Combined Plans

STRS Ohio offers a combined plan with features of both a defined contribution plan and a defined benefit plan. In the combined plan, employee contributions are invested in self- directed investments, and the employer contribution is used to fund a reduced defined benefit. Employees electing the combined plan receive post-retirement health care benefits.

OPERS also offers a combined plan. This is a cost-sharing multiple-employer defined benefit plan that has elements of both a defined benefit and defined contribution plan. In the combined plan, employee contributions are invested in self-directed investments, and the employer contribution is used to fund a reduced defined benefit. Employees electing the combined plan receive post-retirement health care benefits. OPERS provides retirement, disability, survivor and post-retirement health benefits to qualifying members of the combined plan.

Summary of Employer Pension and OPEB Expense

Total employer contributions for pensions for the years ended June 30, 2024 and 2023 were \$175,851 and \$162,663, respectively. There were no contributions associated with OPEB. For the years ended June 30, 2024 and 2023, the Health System recognized pension and OPEB expense of \$246,827 and \$217,343, respectively. Pension and OPEB expenses are allocated to institutional functions on the Statement of Revenues, Expenses and Other Changes in Net Position.

Both STRS Ohio and OPERS issue separate, publicly available financial reports that include financial statements and required supplemental information. These reports may be obtained by contacting the two organizations.

NOTE 10 – COMPENSATED ABSENCES

Health System employees earn vacation and sick leave on a monthly basis. Classified civil service employees may accrue vacation benefits up to a maximum of three years credit. Administrative and professional staff and faculty may accrue vacation benefits up to a maximum of 240 hours. For all classes of employees, any earned but unused vacation benefit is payable upon termination.

Sick leave may be accrued without limit. However, earned but unused sick leave benefits are payable only upon retirement from the University with ten or more years of service with the State. The amount of sick leave benefit payable at retirement is one fourth of the value of the accrued but unused sick leave up to a maximum of 240 hours.

The Health System accrues a sick leave liability for those employees who are currently eligible to receive termination payments as well as other employees who are expected to become eligible to receive such payments. This liability is calculated using the "termination payment method" which is set forth in Appendix C, Example 4 of the GASB Statement No. 16, *Accounting for Compensated Absences*. Under the termination method, the Health System calculates a ratio, Sick Leave Termination Cost per Year Worked that is based on the Health System's actual historical experience of sick leave payouts to terminated employees. This ratio is then applied to the total years-of-service for current employees.

Certain employees (primarily classified civil service) may receive compensatory time in lieu of overtime pay. Any unused compensatory time must be paid to the employee at the time of termination or retirement.

See the roll forward of compensated absences activity as included in Note 11 – OTHER NON-CURRENT LIABILITIES.

NOTE 11 – OTHER NON-CURRENT LIABILITIES

Other non-current liability activity for the years ending June 30, 2024 and 2023 is summarized as follows:

	2024

NOTE 12 – CONCENTRATIONS OF CREDIT RISK

The Health System grants credit without collateral to its patients, most of whom are local residents and are insured under third party payor agreements. The mix of hospital accounts receivable from patients and third-party payors at June 30, 2024 and 2023 is summarized as follows:

	Fiscal Year June 30,						
Payor - Receivables	<u>2024</u>	<u>2023</u>					
Managed Care	59 %	59 %					
Medicare	26 %	25 %					
Medicaid	14 %	15 %					
Self Pay	1 %	1 %					
Total	100 %	100 %					

NOTE 13 – RELATED PARTY TRANSACTIONS

The Ohio State University

The Health System purchases employee benefits, utilities, mail services, and construction project management services from the University. Additionally, the Health System pays university overhead, which includes such services as payroll processing, public safety, auditing, and insurance. University overhead charged to the Health System is recorded in Other expenses and was \$65,400 and \$60,858 for the years ended June 30, 2024 and June 30, 2023, respectively. The Health System provides healthcare services to OSU employees enrolled in OSU sponsored health insurance programs. The Health System collected \$130,520 for healthcare services as of June 30, 2024 and \$116,100 in 2023. This is reflected in Net patient service revenue.

The Health System has an investment interest in the University's Long-Term Investment Pool to support capital projects, research initiatives, clinical care, and the academic mission. The Long-term investment pool. As of June 30, 2024, the original cost and additions of the Health System's operating investments in the pool was \$489,382 and the market value of the Health System's operating investments in the pool was \$593,934.

OSU Physicians

The Health System leases patient management, accounting and billing software and related hardware to OSU Physicians, Inc. (OSUP). OSUP provides patient account management and insurance billing services for the Health System based physician practices. The Health System also contracts with certain OSUP LLCs to provide physician services to some of the Health System based physician practices. The Health System based physician practices. The Health System based physician practices. The Health System provides single patient billing services to OSUP for patient responsibility after insurance has paid. Health System amounts due to OSUP totaled \$4,743 as of June 30 2024, and \$4,850 as of June 30, 2023. Health System amounts due from OSUP totaled \$21,554 as of June 30, 2024 and \$38,766 as of June 30, 2023.

In July 2022 the faculty practices operated by the Health System moved to OSUP. The Health System practices included Anesthesiology, Maternal Fetal Medicine, Neurosurgery, Orthopedics, Sports Medicine, Family and Community Medicine. In accordance with GASB Statement No. 69 *Government Combinations and Disposals of Government Operations*, the impact of the physician integration was a reduction to the Health System Operating Revenues of \$224.5 million and Operating Expenses \$254.0 million. Employees supporting these practices remained as employees of the Health System and are leased to OSUP. In FY24 OSUP paid the Health System \$60.7 million for leased employees related to HP3 and \$75.5 million in FY23. The Health System recorded this in Other Revenue.

College of Medicine

The Health System transfers funds to the College of Medicine for support of programs and research which are recorded as Medical Center investments. Medical Center investments totaled \$235,433 for fiscal year 2024 and \$229,502 for fiscal year 2023 and are reflected as Other Changes in Net Position.

Oval

The University has a pure captive insurer (Oval Limited) that provides excess coverage over Fund II. Oval Limited assets and liabilities are included in the University's financial statements, but are not included in the Health System financial statements, as a result of the retained risk being held by the University. Annual contributions from the Health System are recorded as period expense. There were no contributions to Oval in fiscal year 2024 and 2023. See NOTE 8 - SELF INSURANCE PROGRAM – MEDICAL LIABILITY

MedFlight

The Health System has an investment interest in MedFlight, a community-based air ambulance/intensive care transport which is recorded as equity method investments. The investment reflects the Health System's equity interest of \$6,209 for fiscal year 2024 and \$6,982 for fiscal year 2023.

OSU Mount Carmel Health Alliance

The Health System has an investment interest with Mount Carmel for a partial ownership in Madison County Hospital which are recorded as equity method investments. The investment reflects the Health System's equity interest of \$9,100 for fiscal year 2024 and \$13,209 for fiscal year 2023.

NOTE 14 – CAPITAL PROJECT COMMITMENTS

At June 30, 2024, the Health System is committed to future contractual obligations for capital expenditures of approximately \$578,544 from internal and other sources.

NOTE 15 – CONTINGENCIES

The Health System is a party in a number of legal actions. Management is of the opinion that the liability, if any, for these legal actions will not have a material adverse effect on the Health System's future financial position, results from operations, or cash flows.

NOTE 16 – COMPLIANCE

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs.

The estimated Medicare and Medicaid cost report settlements recorded at June 30, 2024 could differ from actual settlements based upon results of the cost report audits discussed in NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUTING POLICIES. Changes in Medicare and Medicaid programs and the reduction of funding levels could have a material adverse impact on the Health System.

NOTE 17 – SUBSEQUENT EVENTS

The Health System evaluated subsequent events through November 19, 2024, the date the financial statements were issued. All material matters are disclosed in the footnotes to the financial statements.

THE OHIO STATE UNIVERSITY WEXNER MEDICAL CENTER HEALTH SYSTEM NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED) (in thousands)

STRS-Ohio – Pensions:

Changes of benefit terms. The plan was amended in May 2023 to establish one-time 1% COLA increase effective on the anniversary of a benefit recipient's retirement date during Fiscal Year 2024 for participants who retired prior to July 1, 2019; and to add unreduced retirement benefits to those with 34 Years of Service, which extends through Fiscal Year 2028. Amounts reported in 2023 reflect plan amendments to provide a one-time 3% COLA for fiscal year 2023 and to eliminate age 60 requirement for unreduced retirement effective August 1, 2026. Amounts reported in 2019 reflect a reduction in the COLA rate to 0%, effective July 1, 2017.

Changes of assumptions. Amounts reported in 2023 reflect updates to demographic assumptions related to mortality, retirement, turnover, pension payment form election and salary increases, based on the actuarial experience study for the period from July 1, 2015 through June 30, 2021. Amounts reported in 2022 reflect an adjustment of the discount rate from 7.45% to 7.00%. Amounts reported in 2018 also reflect an adjustment of mortality assumptions based on the use of the RF-2014 Annuitant Mortality Table rather than the RP-2000 Combined Mortality Table. Amounts reported in 2017 reflect an adjustment of the discount rate from 7.45%.

OPERS – Pensions:

Changes of assumptions. During 2023 Ohio General Assembly passed bill HB 33 allowing OPERS to consolidate Combined and Traditional Defined Benefit Plans at the discretion of OPERS. OPERS Board voted to consolidate the plans effective January 1, 2024. Amounts reported in 2022 reflect an adjustment of the discount rate from 7.20% to 6.90%. Amounts reported in 2019 reflect an adjustment of the discount rate from 7.50% to 7.20%. Amounts reported in 2017 reflect an adjustment of the discount rate from 8.00% to 7.50%. Amounts reported in 2017 also reflect an updated healthy and disabled mortality assumptions, based on the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

STRS-Ohio – OPEB:

Changes of benefit terms. The plan was amended as of June 30, 2023 to increase the subsidy percentage for non-Medicare retirees from 2.2% to 2.5% effective January 1, 2023; to remove the freeze on the non-Medicare subsidy base premium effective January 1, 2024; and to remove the 6% cap on the year over year increase in Medicare subsidy effective January 1, 2024. Amounts reported in 2023 reflect health care program changes for the 2023 plan year to increase subsidy level for health care premiums, modify Medicare Part B reimbursements and adjust certain co-pays and out-of-pocket limits. Amounts reported in 2020 reflect postponement of the Medicare Part B monthly reimbursement elimination date to January 1, 2021. Amounts reported in 2019 reflect adoption of a new premium subsidy plan for 2019 and future years that is intended to extent the fund's solvency to 2047. Amounts reported in 2019 also reflect postponement of the Medicare Part B monthly reimbursements for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements, beginning January 2019.

Changes of assumptions. Amounts reported in 2024 reflect updated healthcare trends related to emerging claims and recovery experience as well as benefit changes effective January 1, 2024. Amounts reported in 2023 reflect updates to demographic assumptions related to mortality, retirement, turnover, pension payment form election, OPEB participation and salary increases, based on the actuarial experience study for the period from July 1, 2015 through June 30, 2021. Amounts reported in 2022 reflect an adjustment of the discount rate from 7.45% to 7.00%. Amounts reported in 2019 reflect an adjustment of the discount rate from 4.13% to 7.45%. Amounts reported in 2018 reflect an adjustment of the discount rate from 3.26% to 4.13%. Amounts reported in 2018 also reflect an adjustment of mortality assumptions based on the use of the RF-2014 Annuitant Mortality Table rather than the RP-2000 Combined Mortality Table.

THE OHIO STATE UNIVERSITY WEXNER MEDICAL CENTER HEALTH SYSTEM NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (UNAUDITED) (in thousands)

OPERS – OPEB:

Changes of benefit terms. Amounts reported in 2021 reflect several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes, which were approved by the OPERS Board on January 15, 2020, are effective January 1, 2022 and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances.

Changes of assumptions. Amounts reported in 2024 reflect an adjustment of the discount rate from 5.22% to 5.70% and changes in healthcare trend rates. Amounts reported in 2023 reflect an adjustment of the discount rate from 6.00% to 5.22%. Amounts reported in 2021 reflect an adjustment of the discount rate from 3.16% to 6.00%. Amounts reported in 2020 reflect an adjustment of the discount rate from 3.96% to 3.16%. Amounts reported in 2019 reflect an adjustment of the discount rate from 3.85% to 3.96%.

KPMG LLP Suite 500 191 West Nationwide Blvd. Columbus, OH 43215-2568

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

The Board of Trustees of The Ohio State University:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of The Ohio State University Wexner Medical Center Health System (the "Health System"), a series of departments of The Ohio State University, which comprise the Health System's statement of net position as of June 30, 2024, and the related statements of revenues, expenses, and changes in net position and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated November 19, 2024, which included an emphasis of matter paragraph concerning the scope of the Health System's financial statement presentation as discussed in Note 1 of the financial statements.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Health System's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Health System's internal control. Accordingly, we do not express an opinion on the effectiveness of the Health System's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Health System's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
