**NOTES TO FEDERAL AWARDS OF RECEIPTS AND EXPENDITURES SCHEDULE
FISCAL YEAR ENDED JUNE 30, 2014**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards of Receipts and Expenditures Schedule (the Schedule) summarizes activity of the District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first. Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the entitlement amount of the commodities received.

NOTE C – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Gahanna-Jefferson Public School District
Franklin County
160 South Hamilton Road
Gahanna, Ohio 43230

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund and remaining fund information of Gahanna-Jefferson Public School District, Franklin County, Ohio (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 28, 2014.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133 AND ON THE FEDERAL AWARDS OF RECEIPTS AND EXPENDITURES SCHEDULE

Gahanna-Jefferson Public School District
Franklin County
160 South Hamilton Road
Gahanna, Ohio 43230

To the Board of Education:

Report on Compliance for Each Major Federal Program

We have audited the Gahanna-Jefferson Public School District, Franklin County, Ohio (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Gahanna-Jefferson Public School District's major federal programs for the year ended June 30, 2014. The *Summary of Audit Results* in the accompanying schedule of findings identifies the District's major federal programs.

Management's Responsibility

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Gahanna-Jefferson Public School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

Report on Federal Awards Receipts and Expenditure Schedule Required by OMB Circular A-133

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Gahanna-Jefferson Public School District, Franklin County, Ohio (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated November 28, 2014. We conducted our audit to opine on the District's basic financial statements. The accompanying federal awards receipts and expenditures schedule presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements.

The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

TO THE BOARD OF EDUCATION AND CITIZENS OF THE GAHANNA-JEFFERSON CITY SCHOOL DISTRICT:

As Treasurer and Superintendent of the Gahanna-Jefferson City School District (the District), we are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) issued by the District. This CAFR for the year ended June 30, 2014 is prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), and in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using the guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA).

This CAFR is presented in three sections: introductory, financial and statistical. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes management's discussion and analysis, the basic financial statements, notes to the basic financial statements, and supplemental data, as well as the Independent Accountants' Report on the financial statements. The statistical section provides pertinent financial, economic and demographic information, generally presented on a multi-year basis.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Accountants' Report.

The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations.

The Office of the Treasurer is responsible for the accuracy of the data presented and the completeness and fairness of this presentation. We believe the data presented are necessary to enable the reader to acquire the maximum understanding of the District's financial activity.

The District is a public school system and is a fiscally independent political subdivision of the State of Ohio. The District operates one high school, three middle schools and seven elementary schools. The District is located east of Columbus, Ohio in Franklin County and encompasses all of the City of Gahanna, a major portion of Jefferson Township, and smaller portions of the City of Columbus and Mifflin Township. The District and municipal boundaries are not coterminous.

This report includes all funds of the District. The District provides a full range of traditional and nontraditional educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory and vocational levels; a broad range of co-curricular and extracurricular activities; adult and community education offerings; and special education programs and facilities.

In addition to providing these general activities, the District has administrative responsibility for state funds distributed to private schools located within the District boundaries; therefore, in accordance with GASB Statement 24, this responsibility is included in the reporting entity in a special revenue fund. The private schools served are Gahanna Christian Academy, Columbus Academy, St. Matthew School and Shepherd Christian School. While these organizations share operational and services similar with the District, all are separate and distinct entities. Because of their independent nature, none of these organization's financial statements are included in this report.

Economic Condition and Outlook

Approximately 85% of the District's enrolled students reside in the City of Gahanna. Gahanna is a suburban community that has experienced little residential and commercial growth during the past few years. Approximately 95% of the City is developed. Jefferson Township, which until recently had been primarily rural, is now experiencing residential developments. Tax valuation has increased 0.56% from 2012 to 2013.

The District, along with many other public school systems in the state, still faces some difficult situations in the future since the primary funding source is property tax revenues. Ohio law, specifically House Bill 920, limits growth in real estate tax revenues by reducing millage as assessed values increase. This law keeps revenues from each levy relatively constant. Additionally, House Bill 95 and House Bill 66, included tax reductions and eliminated taxes on corporation's personal property for school districts, which ultimately lead to a pronounced shifting of tax burden to residential and agricultural property tax payers. However, House Bill 1, retained the state reimbursement of this revenue through 2013 but, the latest budget bill HB153 eliminates the state reimbursement through the end of fiscal year 2012 instead of through the end of fiscal year 2013. More recently, HB59 reinstated the State direct payment reimbursement for the next two years to the same levels as received in fiscal year 2013. This represents \$2.3 million for our District..

Historically, the community has been supportive of education. This has been demonstrated by the passage of an \$8,250,000 bond issue in May 1994, and, a combined 6.3 mill permanent operating levy and a \$28.5 million bond issue in November 1998. The District issued those bonds during fiscal year 1999. In addition a 6.5 mill permanent operating levy was passed in November 1995 and a 7.9 mill operating levy passed in May of 2006 and most recently a 5.2 mill levy was passed in May of 2011. Management believes that by maintaining continued sound financial management practices, continued quality of program offerings, and the solid working relationship with the community, it is likely that community support will remain strong in the future.

In addition, the Gahanna-Jefferson Board of Education, in February 24, 2012 approved a ground lease for 85 years to Wagenbrenner Development, Inc., for design and construction of 24,000 sq. ft. of new commercial space on the remaining undeveloped land adjacent to Clark Hall. Titled The Commons at Clark Hall, Wagenbrenner is investing about \$5.9 million to create two, one-story retail buildings. This ground lease provides GJPS with an additional annual revenue stream of \$132,000 for the first ten years of the lease agreement. Revenues from this agreement as well as revenues from Clark Hall's first floor leases will help offset the cost of building Clark Hall.

The District and Its Facilities

The District serves an area of 32 square miles in and around the City of Gahanna. It is located in Franklin County, approximately 10 miles east of downtown Columbus, the state capital. The Gahanna-Jefferson

City School District is a suburban district experiencing little or no growth in the last 10 years. Gahanna's population in 2003 was approximately 33,194 residents. During 2013, according the City of Gahanna, population has increased to a little over 34,355.

From school year 2003-04 to school year to 2013-14, the District has experienced a growth in enrollment of 354 students or 5.2%. Projections in the coming years are being projected modestly.

The District's facilities include seven elementary schools (Grades K-5) with 3,165 students, three middle schools (Grades 6 to 8) with 1,760 students, one high school (Grades 9-12) with 2,265 students, for a total of 7,190 students within the District. Other facilities within the District include a maintenance building, a bus garage, an alternative school, the central office and several athletic fields.

Major Initiatives

While Ohio content standards and now the national Core Standards guide teaching and learning in the Gahanna-Jefferson schools, the focus is on the growth and development of the individual student. The Gahanna-Jefferson Graduate Profile, formally introduced during the 2009-10 school year, embodies the skills that are critical for every student in the changing world of the 21st century. The ability to be a responsible community member, collaborative team member, comprehensive problem solver, effective communicator and proficient technology user enhances students' capacity to learn, process and assimilate the content identified in the standards. These skills are essential for the creative, innovative thinking which will drive the changes of the future.

This poster, a symbol of the district's diversity and commitment to the daily focus on these skills, is visible in every classroom, hall and building in the district. Students are assuming more and more responsibility for their learning as they make choices about how they learn and demonstrate their level of understanding.

The practice of frequent, ongoing assessment of daily learning and student understanding is evident throughout the district. Instruction is shaped by student needs that are identified with the evidence and data derived from the daily evaluation of student work. The ultimate goal for every student is the development of thorough understanding and comprehension represented by the ability to coherently articulate or demonstrate a concept.

As technology has exponentially increased the speed of communication across long distances and all languages, making the world smaller and more accessible, so is it changing the ways of teaching and learning. The addition of Clark Hall in August of 2011 has provided additional space for students to collaborate virtually with one another inside the building walls as well as with others across the street, the state, country and world.

Flexibility in the way course credit is earned and the way students learn is evident at Clark Hall and will be replicated throughout the district. It is an exciting time for the students and community of Gahanna as an educational transformation is taking place in response to the changing world in which we live.

Lincoln High School students (primarily juniors and seniors) attend classes on the second and third floors of Clark Hall. The first floor is leased to Eastland-Fairfield Career & Technical Schools, Columbus State Community College, and Education First Credit Union. These unique partnerships not only allow the GJPS to provide a seamless transition from high school into college; but to also finance the cost of construction.

The impact of Clark Hall goes beyond the high school. A strategic partnership with Cisco Systems, Dell and Intel has provided opportunities to upgrade the network infrastructure that has improved connectivity in all district buildings (K-8 levels too), and most importantly, supports a philosophy of broad-scale, K-12 technology usage for students.

Departmental Focus

Technology

During the 2013–2014 academic year, the Technology Department focused on adding student and staff services made possible by the previous year’s replacement of our aged, unreliable, and limited network infrastructure. Leveraging this investment to gain the fullest possible return on our technology investment for the district students and staff will continue to be a focus in the years to come, as an increasing number of technologies shift from independent *standalone* systems to network-integrated services that can be more cost effectively added by using the existing network; you will see that most the projects listed below are network-based or are dependent upon the network for their operation.

Gahanna-Jefferson is also proud to be among the leaders in using our technological capabilities to take advantage of important new educational opportunities that include Web 2.0 and cloud-based services, social networking for learning, expanded student/staff/community communication options; enhanced student and staff safety, operational efficiency, and effectiveness. Although *Bring Your Own Device (BYOD)* initiatives greatly increase complexity and technology challenges in areas ranging from access to data security, we have embraced BYOD as a way to expand student and staff access to, and use of, available educational opportunities, again in a cost-effective manner.

Below you will find some of the most significant technology projects completed in the Gahanna-Jefferson City School District.

Network-Based Initiatives

While the driver for all technology improvement in schools is to support student learning, the widest impact projects are increasingly network-based both because a solid network core can be leveraged to cost-effectively deliver a range of services that formerly required expensive individual standalone systems in separate buildings, and because networks have become necessary for even the most simple of tasks - such as computers that require a network connection and login before they can be used.

Connectivity Improvements

The District/City fiber partnership has resulted in an increase in campus inter-building connectivity from, in almost every case, 10 Meg to 10 Gig. This increase was necessary to effectively deliver a range of new district technology services, such as a Voice over Internet Protocol (VoIP) phone system.

Security

This now encompasses two areas: security for protection of student/staff data and the network itself, and using the network as a base for systems implemented for the protection of students and staff.

High School Security Cameras

The District replaced the current system with a modern network-based solution that offered high-definition interior and exterior cameras and superior management and operation with Milestone's XProtect software. This replacement was made more cost-effective as it was built on the existing data network, and utilizes existing network resources for data transfer, video storage, and other necessities that formerly required separate hardware systems. Due to the nature of network-based services, this build out will not only serve the needs of the security system also provides a growth path for the anticipated expansion of other network services.

Security, Intrusion Prevention, Antivirus, and Filtering

To address expanding security threats from hacking, bots, malware, and viruses, as well to address steadily increasing challenges in areas such as Internet content filtering, the district has upgraded firewall capabilities. While the improvements put in place here have significantly improved our capabilities, these problem areas are constantly evolving so this is another area that requires constant vigilance, review, and improvement to keep pace with changing threats and continuing expansion will be required in this area.

To maintain software version currency while minimizing cost, the district has moved to a new Microsoft licensing paradigm that includes access to their antivirus package at no additional cost. This package provides protection from viruses and malware, which enabled us to avoid the renewal of a specific AV package and its significant cost.

Business Continuity, Disaster Recovery, and Backup

The implementation of business-class uninterruptable power supplies (UPS) and a generator in the main district data center to continue the delivery of critical services – such as telephony – in the event of an extended power issue have proven to be appropriate and have already prevented multiple instances in which these systems key technology systems would have completely failed throughout the district had these protections not been in place. With the assistance of the district's Maintenance Department, the district's Data Center has also been upgraded to a new "dry" fire suppression system that can extinguish a fire without water, and minimize damage to the hundreds of thousands of dollars' worth of equipment in the data center that a water-based system would cause.

Technology expansion in the district pushed us beyond the capabilities of the existing backup systems, so we have moved from *backup to tape* to *backup to disk* for faster and more effective backups to protect all data in the district – from student work to irreplaceable student information system (SIS) information.

Computers and Tablets

While the district does not have an official replacement cycle on district computers, experience in the past year has shown that a 7-year service cycle is the maximum that is acceptable for staff. The expansion of iPads in the district is also continuing and carts were also purchased to secure and allow the efficient charging and transportation of the tablets. MacBook Pro laptop computers were purchased to help address some ongoing management issues related to these devices.

New Technology Education Lab

Due to fiscal realities, Technology Education is addressed at the middle school level by a teacher who rotates through our school buildings, providing Tech Ed classes in a different school each year. Two of our three middle school buildings now have Tech Ed labs, but the third, where the classes are being held this year, did not have a space sufficient to meet this requirement. To address this need, we have implemented a new 40-seat technology lab in Middle School West.

Bring Your Own Technology / Bring Your Own Device / Bring Your Own Computer

Although this area has developed so quickly that no one seems to be able to agree whether it is called BYOT, BYOD, or BYOC, it is certain that this is an area that is exploding across both education and private-sector environments as everyone strives to address the demand for technology access in fiscally sustainable ways. BYOD took hold in the across the district with the opening of Clark Hall and the realization that although we wanted that building to be a 1:1 environment, the district did not have sufficient funds to make that happen if we had to provide each device for each students. In the last year, the decision to allow students to use devices they already own instead of forcing them to “power down” while in the school buildings has proven to be a good one, and although it is not without its own challenges, the policy of allowing student – and staff – us of equipment they already own has proven to be a valid way to supplement district-provided technology tools.

While the limitations of the district’s network security devices and the range of devices bring brought in by students and staff prevents the delivery of the full range of services available on district-provided laptops, the users’ comfort with their own equipment is making this a negligible concern for users. For adherence with the Child Internet Protection Act (CIPA) and other Federal and State mandates, students using their own devices to access the district network must still enter their district network user ID and password to log in to the district’s firewall, which then applies the filtering and access rules applicable to their role or grade level that are in place when using district-provided equipment.

The network project provided full-building wireless network coverage in every school, this BYOD policy allows staff and students at all grade levels to share in the benefit of this wireless coverage.

Special Projects

To expand emergency communications capabilities in the event of a weather closure, natural disaster, or other event, the district has implemented a new phone caller system. *School Messenger* allows the district to efficiently and effectively communicate with staff and community members to notify them of these events, improving staff and student safety. This system improves on the capabilities of the previous emergency caller, allows calls to be made in a wider range of situations, and does so at a lower annual cost to the district.

Emergency call capabilities have been expanded at the *Point of Rescue* areas at Clark Hall. The intent of these areas is to provide safety and security for those who may be in wheelchairs or have others that may

require assistance in situations in which the elevators do not work, either due to equipment failures or a fire in the building. 911 call capabilities on the new VoIP phone system have also been expanded to better identify call sources when a 911 call is placed so that emergency services are dispatched to the correct location.

Paging at Clark Hall now routes not only through the VoIP phone sets, but also is heard through ceiling speakers to better serve the needs in hallways and large meeting rooms where the phone-based paging could be difficult to hear.

Cafeteria service computers have been replaced to improve the lunch line experience for students.

To conserve energy and reduce energy costs, an automated technology *powerdown system* has been implemented that shuts down computers that have been left on by students or staff. A message appears on equipment that is powered up, warning users that the computer will be shut down in 30 minutes.

Partnership Development

To increase effectiveness and reduce costs, the district continues to develop and expand a range of business, community, vendor, and other partnerships.

One long-standing partnership for the district encompasses both the business and community sectors: the Gahanna-Jefferson Education Foundation. Comprised primarily of community business leaders, the GJEF provides funding for expanded technology purchases. In the past, the GJEF fielded grant funding requests by district teachers to obtain specialty technology such as USB microscopes, sound systems for music programs, and the equipment to create mini-TV studios to enable students to create video morning announcements. Additionally, the "Fund-a-Need" initiative created in 2011 has been very successful over the last four years, which identifies goals shared by both the Curriculum and Technology departments - increasing access to interactive whiteboards and electronic tablets (such as iPads)- as their funding target.

Already noted in this report is the partnership with the City of Gahanna to deliver network services through almost the entirety of our district via fiber optics. Without this partnership, it would have been fiscally impossible to deliver this extraordinarily high level of service to our buildings. With this partnership, we are able to achieve the bandwidth, quality of service level, and other technical requirements necessary to expand our network services to address both current and future needs with a recurring cost that is a fraction of what it would have been using the older leased fiber paradigm.

Financial Information

The District's accounting system is organized on a "fund" basis. Each fund is a separate self-balancing accounting entity. All District funds, except Proprietary Funds and Fiduciary are reported on the modified accrual basis of accounting, whereby revenues are recognized when measurable and available, and expenditures are recognized when the related liability is incurred, except for principal and interest on long-term debt which is recorded when due. Proprietary and Fiduciary funds are accounted for on the full accrual basis of accounting. Both basis of accounting are in accordance with GAAP as applied to governmental units and consistent with GASB Code. Sec. 1600; "Basis of Accounting".

Internal Controls

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide

reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from their implementation; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary Controls

The District maintains budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the District's Board of Education. Activities of all funds are included in the annual appropriated budget. The level of budgetary control, the level at which expenditures cannot legally exceed the appropriated amount is established at the fund level of expenditure. Additionally, the District maintains an encumbrance system as a useful technique of accomplishing budgetary control. Under encumbrance accounting, purchase orders, contracts, and other commitments for expenditures of funds are recorded in order to reserve that portion of the applicable appropriation.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

Risk Management

The District carries all-risk property insurance, liability and excess insurance. All employees are bonded and medical coverage for employees is provided through a self-insured medical program offered by the District. Additionally, the District moved to being self-insured for workers' compensation during fiscal year 2013.

Independent Auditors

The basic financial statements of the District for the year ending June 30, 2014, were audited by the State Auditor's Office, whose opinion thereon is included at the beginning of the Financial Section of this report.

Certificate of Achievement Program

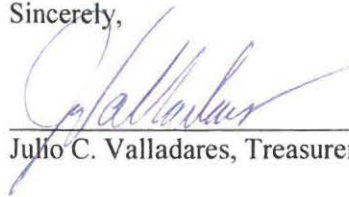

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Board of Education of the Gahanna-Jefferson City School District, Ohio for its comprehensive annual financial report (CAFR) for the fiscal year ending June 30, 2013. The Certificate of Achievement is a prestigious award that recognizes conformance with the highest standards for preparation of state and local government financial reports.

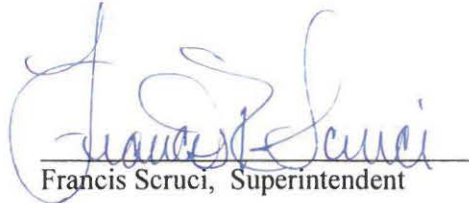

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such CAFR must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements and we are submitting it to the GFOA.

Acknowledgments

The preparation of the Comprehensive Annual Financial Report on a timely basis was made possible by the conscientious efforts of the treasurer's office staff and assistance of other central office administrators and staff. The assistance of the Franklin County Auditor's office in providing information is appreciated. Without the leadership and support of the Board of Education of the District, preparation of this report would not have been possible. Most importantly, we would like to thank the Citizens of the District for the opportunity to continue to improve the professionalism in financial reporting that they expect and deserve.

Sincerely,

INDEPENDENT AUDITOR'S REPORT

Gahanna-Jefferson Public School District
Franklin County

Gahanna, Ohio 43230

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and remaining fund information of Gahanna-Jefferson Public School District, Franklin County, Ohio (the District), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and remaining fund information of Gahanna-Jefferson Public School District, Franklin County, Ohio, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2014, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

GAHANNA-JEFFERSON PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2014
UNAUDITED

As management of the Gahanna-Jefferson Public School District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with the additional information we have furnished in our letter of transmittal, which immediately precedes this analysis.

Financial Highlights

Key financial highlights for 2014 are as follows:

- The assets of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$40.2 million (net position). Of this amount, \$19.1 million (unrestricted net position) may be used to meet the District's ongoing obligations to citizens and creditors.
- The District's total net position increased by \$4.5 million, a 12.6% increase in comparison with the prior fiscal year.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$26.6 million, a decrease of \$1.1 million in comparison with the prior fiscal year. Of this amount, \$4.9 million is available for spending at the District's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned balance for the general fund was \$5.5 million, or 7.0% of total general fund expenditures.
- The District's total general obligation bonded debt decreased \$2.1 million, or 7.0%, in comparison with the prior fiscal year-end.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities/deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

GAHANNA-JEFFERSON PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2014
UNAUDITED

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

These two statements report the District's net position and changes in them. The change in net position provides the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base, current property tax laws, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the District.

In the Statement of Net Position and the Statement of Activities, all of the District's activities are reported as governmental including instruction, support services, community services, non-instructional services and extracurricular activities.

The government-wide financial statements include not only the District itself (known as the primary government), but also a legally separate community school for which the District is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 19-20 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

GAHANNA-JEFFERSON PUBLIC SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2014
UNAUDITED

The District maintains 18 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and building fund, each of which are considered major funds. Data from the other 15 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements and schedules elsewhere in this report.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 21-25 of this report.

Proprietary Funds. Proprietary funds use the accrual basis of accounting; the same as on the entity-wide statements. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various funds. The District uses an internal service fund to account for health and dental claims and premiums. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the governmental-wide financial statements.

The basic proprietary fund financial statements can be found on pages 26-28 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 29-30 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements begin on page 31 of this report.

Other information. The combining and individual fund statements and schedules referred to earlier in begins on page 63 of this report.

Government-Wide Financial Analysis

The table below provides a summary of the District's net position for 2014 and 2013:

	Net Position	
	Governmental Activities	
	2014	Restated 2013
<u>Assets</u>		
Current and Other Assets	\$ 106,238,987	\$ 110,464,496
Capital Assets	46,703,190	43,974,600
Total Assets	152,942,177	154,439,096
Current Liabilities	12,968,718	13,012,565
Long-term Liabilities	39,163,357	42,720,947
Total Liabilities	52,132,075	55,733,512
Deferred Inflows of Resources	60,574,153	62,982,054
Net Investment in Capital Assets	14,463,359	12,030,002
Restricted	6,693,603	6,495,047
Unrestricted	19,078,987	17,198,481
Total Net Position	\$ 40,235,949	\$ 35,723,530

As mentioned earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$40.2 million at the close of the most recent fiscal year.

A large portion of the District's net position (36 percent) reflect its investment in capital assets (e.g., land, buildings, and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position (17 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position (\$19.1 million) may be used to meet the District's ongoing obligations to citizens and creditors.

Net Position at Beginning of Year	35,723,530	38,014,809
Net Position at End of Year	\$ 40,235,949	\$ 35,723,530

Operating grants increased significantly in comparison with the prior fiscal year. This increase is primarily the result of an increase in state funding relating to the Straight A Grant.

Property taxes also increased significantly in comparison with the prior fiscal year. This increase is primarily the result of timing differences in the amount of property taxes advanced, or available to be advanced, at the end of fiscal years 2012, 2013 and 2014.

Total Expenses remained fairly consistent in comparison with the prior fiscal year, increasing less than 1 percent.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at year-end.

The District's governmental funds reported a combined ending fund balance of \$26.6 million, a decrease of \$1.1 million in comparison with the prior fiscal year. Of this amount, \$4.9 million is available for spending at the District's discretion (unassigned fund balance). The schedule below indicates the fund balances and the total change in fund balances as of June 30, 2014 for all major and nonmajor governmental funds.

Funds:	<u>Fund Balance</u> <u>June 30, 2014</u>	<u>Fund Balance</u> <u>June 30, 2013</u>	<u>Increase/</u> <u>(Decrease)</u>
General	\$ 20,122,060	\$ 18,338,539	\$ 1,783,521
Debt Service	3,907,414	3,615,569	291,845
Building	2,212,980	5,000,792	(2,787,812)
Other Governmental	311,750	703,573	(391,823)
Total	<u>\$ 26,554,204</u>	<u>\$ 27,658,473</u>	<u>\$ (1,104,269)</u>

General Fund

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$5.5 million, while total fund balance was \$20.1 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 7.0 percent of total general fund expenditures, while total fund balance represents 25.7 percent of that same amount.

The fund balance of the District's general fund increased by \$1.8 million during the current fiscal year. The details of this increase are as follows:

The table that follows assists in illustrating the revenues of the general fund.

	2014	2013	Change
<u>Revenues:</u>			
Taxes	\$ 53,171,236	\$ 48,218,318	10.3%
Payments in Lieu of Taxes	5,270,828	6,108,467	-13.7%

Total Revenues	<u>\$ 81,587,607</u>	<u>\$ 76,011,843</u>	<u>7.3%</u>

Property taxes increased significantly in comparison with the prior fiscal year. This increase is primarily the result of timing differences in the amount of property taxes advanced, or available to be advanced, at the end of fiscal years 2012, 2013 and 2014.

Intergovernmental revenues also increased significantly in comparison with the prior fiscal year. This increase is primarily the result of an increase in foundation revenue.

The table that follows assists in illustrating the expenditures of the general fund.

	2014	2013	Change
<u>Expenditures:</u>			
Instruction	\$ 50,894,464	\$ 51,635,112	-1.4%

Total Expenditures	<u>\$ 78,256,648</u>	<u>\$ 77,642,301</u>	<u>0.8%</u>

Total Expenditures remained fairly consistent in comparison with the prior fiscal year, increasing less than 1 percent.

Debt Service Fund

The debt service fund has a total fund balance of \$3.9 million, all of which is restricted for the payment of debt service. The net increase in fund balance during the current year was \$291,845. This increase represents the amount in which property tax and related receipts and transfers in from the general fund outstripped the current year debt service requirements.

Building Fund

The building fund has a total fund balance of \$2.2 million, a \$2.8 million decrease in comparison with the prior fiscal year. This decrease is the result the District spending the bond proceeds on capital projects offset by the issuance of debt.

General Fund Budgetary Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund. Budgetary information is presented only for the general fund in the financial statements.

The District's final estimated revenues and other financing sources budgeted amounts were increased by \$933,754, compared to the original amounts. The increase was mainly the result of an increase in intergovernmental revenues from the State. The District's final appropriations and other financing uses budgeted amounts were decreased by \$2.5 million, compared to the original amounts.

There was no variance between final budgeted amounts and actual amounts.

Debt Administration

At fiscal year-end, the District's general bonded debt totaled \$28.0 million, a decrease of \$2.1 million in comparison with the prior fiscal year. This decrease represents the amount in which current year principal reductions totaling \$2.8 million, exceeded new debt, totaling \$700,000.

See note 10 to the basic financial statements for additional information on long-term obligations.

Capital Assets

At fiscal year-end, the District had \$46.7 million (net of accumulated depreciation) invested in land, buildings and improvements, improvements other than buildings, equipment, vehicles, and textbooks, an increase of \$2.7 million in comparison with the prior fiscal year. This increase represents the amount in which current year additions of \$5.5 million exceeded current year depreciation of \$2.8 million and disposals of \$9,591.

See note 9 to the basic financial statements for additional information on Capital Assets.

Economic Conditions and Outlook

Like most municipal entities, the City of Gahanna's financial condition was impacted by the national economic downturn of the last few years. However, calendar year 2011 was the beginning of economic recovery in Gahanna. While revenues have been in flux due to the economic downturn, the City has maintained a fund balance in excess of its mandatory emergency reserve. The administration and Council are working together to effectively manage the City's resources and plan strategically for the future. As the City enters 2015 and beyond, maintaining a conservative fiscal approach will continue to be crucial for Gahanna in order for the City to provide excellent services to businesses and residents within available resources.

The extension of the new Tech Center Drive and bridge project over I-270 has improved access to the existing 295 businesses and over 5,000 employees in the immediate area while positioning new land for development with the potential to double the number of employees in the area and spur additional investments along South Hamilton Road and in the region. An extended day hotel with 220 units was built representing not only an estimated investment of about \$20 million, but also adds a long term tax revenue stream for Gahanna-Jefferson Public Schools in the neighborhood of over \$337,000. Other infrastructure improvements around Tech Center Drive are on the horizon to increase competitiveness necessary to attract higher quality commercial users

Since the District's approval of a ground lease to Wagenbrenner Development in January of 2012 for design and construction of 24,000 square feet of new commercial space on the remaining underdeveloped land adjacent to Clark Hall titled "The Clark Commons, the District is now reaping the benefits of not only receiving a revenue stream through the annual ground lease payment of \$132,000, but also generating tax revenues of approximately \$100,000 annually.

The developer invested over \$6 million to build two single stories mixed retail buildings to house 9 to 12 retailers. Construction started in February 2012 and turned it to the tenants for fit out in July 2012. Some tenants open for business in November 2012, and the last tenant was operating in late April 2013. The mixed retail buildings houses commercial "class A" facilities such as Rusty Bucket, and Panera to mention a few. Currently tenancy is at 100 percent occupancy.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

Net Change in Fund Balances - Total Governmental Funds \$ (1,104,269)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Depreciation Expense	(2,818,452)
Capital Outlay	5,556,633
Net effect of capital assets sales and disposals	(9,591)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.

Property Taxes - Delinquent	251,149
Payment in Lieu of Taxes	35,508
Due From Other Governments	64,501
Interest	(3,445)

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

Issuance of Bonds	(700,000)
Bond and Note Principal Repayments	3,341,237
Capital Appreciation Bond Accretion and Amortization of Bond Discount	(27,942)
Inception of Capital Lease	(345,585)
Capital Lease Principal Repayments	613,714

GAHANNA-JEFFERSON PUBLIC SCHOOL DISTRICT
FRANKLIN COUNTY, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

NOTE 1 – DESCRIPTION OF THE SCHOOL DISTRICT

The Gahanna Jefferson Public School District (the “District”) is located in Franklin County, Ohio. The District operates under a locally-elected, five member Board form of government and provides educational services as authorized or mandated by state and/or federal agencies. This Board controls the District’s thirteen instructional/support facilities staffed by 254 non-certificated employees, 527 certificated full-time teaching personnel, 31 administrators and 6 psychologists. The District provides services to 7,190 students and other community members.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No.14, “The Financial Reporting Entity” as amended by GASB Statement No. 39, “Determining Whether Certain Organizations Are Component Units” and GASB Statement No. 61, “The Financial Reporting Entity: Omnibus”. The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization’s governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization’s resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. The District had no component units for the fiscal year ended June 30, 2014.

JOINTLY GOVERNED ORGANIZATIONS

The Metropolitan Educational Council (MEC) is an association of public school districts within the boundaries of Franklin, Delaware, Union, Pickaway, Madison and Fairfield counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. The governing board of MEC consists of one representative from each of the member school districts. Financial information can be obtained from Sue Ward, who serves as fiscal officer, at 2100 Citygate Drive, Columbus, Ohio 43219. Payments to MEC during the fiscal year totaled to \$175,602.

The District is a member of the Eastland-Fairfield Career and Technical School (School), a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the participating district’s elected boards, which possesses its own budgeting and taxing authority. Financial information can be obtained from Dawn Lemley, who serves as Treasurer, at 4300 Amalgamated Place, Groveport, Ohio 43125. There were no payments to the School during the fiscal year.

UNDIVIDED INTEREST IN JOINT OPERATIONS

On February 21, 1996, a contract was entered into between the District and the City of Gahanna (City), a separate legal entity, to construct and operate a vehicle maintenance facility. Based on the terms of the agreement, the entities equally bore the cost related to the construction of the maintenance facility. In exchange for 4.699 acres of land that the City deeded to the District, the City received a credit of \$187,960 toward their share of the cost related to construction. The land was recorded in the District's governmental activities in fiscal year 1996. In 2000, the District's share of construction costs, totaling \$1,234,694, was recorded in the District's governmental activities as a capital asset. Each entity is responsible for managing the operations of their portion of the vehicle maintenance facility.

PUBLIC ENTITY RISK POOLS

The Ohio School Boards Association Workers' Compensation Group Rating Plan (the Plan) is a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Plan was established through the Ohio School Boards Association (OSBA) as a group purchasing pool. The intent of the plan is to achieve the benefit of a reduced premium for the District by virtue of its grouping with other participants in the plan. The workers' compensation experience of the District is still used to calculate an individual premium rate, but a discount is given to the District for being part of the group. The Sheakley Group provides administrative services to the plan.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary governmental is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods or services provided by a given program and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The District has no enterprise funds.

FOR THE FISCAL YEAR ENDED JUNE 30, 2014

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, basis of accounting and financial statement presentation

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis.

Governmental fund financial statements are prepared using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available for advance, investment earnings, tuition, grants and student fees.

Deferred Outflows/Inflows of Resources – In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenses/expenditure) until then. The District currently has no deferred outflows of resources.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2014, but which were levied to finance fiscal year 2015 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District, unavailable revenue includes delinquent property taxes, intergovernmental revenues, and interest income. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

FRANKLIN COUNTY, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Expenditures/Expenses – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the Statement of Revenues, Expenditures and Changes in Fund Balance as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of cost, such as depreciation and amortization, are not recognized in governmental funds.

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to specific District functions or activities. There are three categories of funds: governmental, proprietary and fiduciary. The District currently has all three types of funds.

GOVERNMENTAL FUNDS - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the District's governmental funds:

MAJOR GOVERNMENTAL FUNDS

General Fund – The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Building Fund – The building fund is used to account for financial resources related to special bond funds in the District. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs for acquiring capital facilities, including real property.

OTHER GOVERNMENTAL FUNDS - Other Governmental Funds of the District are used to account for grants and other resources whose use is restricted to a particular purpose.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

OTHER FUND TYPES

Internal Service Funds – Funds provided to account for money received from other funds as payment for providing medical, hospitalization, life, dental and workers’ compensation insurance. Payments are made to a third party administrator for claims payments, claims administration and stop-loss coverage.

Fiduciary Funds - Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. This includes the following funds:

Private Purpose Trust Fund – A trust fund accounts for money which has been set aside for scholarship purposes from which the income may be expended in accordance with the related trust agreements, but the principal stays intact.

Agency Fund – A fund used for activities that are purely custodial in nature (asset equal liabilities) and thus do not involve measurement of results of operations. The District’s has two agency funds to account for student managed activities and an employee flexible spending plan.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. However, the activity for interfund services in the internal service fund are consolidated with the Governmental Activities on the government-wide financial statements.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operation. The principal operating revenues of the District’s internal service fund are charges for sales and services. Operating expenses for internal service fund includes the claims and administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

D. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District’s records. Each fund’s interest in the pool is presented as “Cash and Cash Equivalents” on the basic financial statements. The District has a segregated bank account for the health self-insurance internal service fund held separate from the District’s central bank account.

All investments are reported at fair value, which is based on quoted market prices.

During the fiscal year, the District has invested funds in the State Treasury Asset Reserve of Ohio (STAROhio). STAROhio is an investment pool managed by the State Treasurer’s office, which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio’s share price, which is the price the investment could be sold for on the last day of the fiscal year.

GAHANNA-JEFFERSON PUBLIC SCHOOL DISTRICT
FRANKLIN COUNTY, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Ohio Revised Code authorizes the District to invest in United States and State of Ohio bonds, notes, money market and other obligations; bank certificates of deposit; banker's acceptances; commercial paper notes rated prime and issued by United States corporations; and STAROhio. It is management's policy to invest in all of the above types of investments.

Under existing Ohio statutes, all investment earnings are assigned to the general fund except those specifically related to certain trust funds, unless the Board of Education specifically directs interest to be recorded in other funds. Interest revenue credited to the general fund during fiscal year 2014 amounted to \$39,267.

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

E. Inventory and Prepaid Items

All inventories are valued at cost using the first in, first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. At fiscal year-end, inventory consists of donated food and purchased food and supplies held for resale.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

F. Capital Assets

General capital assets are those related to government activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by proprietary funds are reported on both statement types.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District's capitalization threshold is \$5,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an assets life are not.

All reported capital assets except land and construction in progress are depreciated. The District currently does not possess any infrastructure. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>

G. Interfund Balances

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds.

On fund financial statements, receivables and payables resulting from short-term interfund loans between governmental funds are classified as “interfund receivable/payable.” Advances to/from other funds are long-term advances made between governmental funds that are not expected to be repaid within one year. These amounts are eliminated in the governmental activities column on the statement of net position. The District did not have any advances in fiscal year 2014.

H. Compensated Absences

GASB Statement No. 16, “Accounting for Compensated Absences”, specifies the method used to accrue liabilities for leave benefits. Vacation benefits are accrued as a liability as the benefits are earned if the employees’ rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that is probable that benefits will result in termination payments. The liability is an estimate based on the District’s past experience of making termination payments. The total liability for vacation and severance payments has been calculated using pay rates in effect at fiscal year-end, and reduced to the maximum payment allowed by labor contract and/or statute, plus any additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements.

GAHANNA-JEFFERSON PUBLIC SCHOOL DISTRICT
FRANKLIN COUNTY, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Unearned Revenue

Under both the accrual and modified accrual basis of accounting, revenue may be recognized only when it is earned. If assets are recognized in connection with a transaction before the earnings process is complete, those assets must be offset by a corresponding liability for unearned revenue.

J. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term debt are reported in the government-wide financial statements as well as the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, and contractually required pension contributions that will be paid from governmental funds (typically the General fund) are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

K. Fund Balance

In accordance with Governmental Accounting Standards Board Statements No. 54, Fund Balance Reporting, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories were used:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted – Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – Fund balance is reported as committed when there are resources constrained for specific purposes that are internally imposed by formal action (resolution) of the government at the highest level of decision making authority, Board of Education.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria as restricted or committed. Although no specific resolution has been made, the District Board of Education authorizes the Treasurer to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year’s appropriated budget.

GAHANNA-JEFFERSON PUBLIC SCHOOL DISTRICT

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when disbursements are incurred for purposes for which both restricted and unrestricted (committed, assigned and unassigned) fund balance is available. The District considers assigned and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

L. Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes represent restricted grants and contributions held at fiscal year-end. The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

M. Bond Premiums

On government-wide financial statements, bond premiums are deferred and amortized over the term of the bonds using the straight line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds. On the governmental fund financial statements, bond premiums are recognized in the current period.

N. Extraordinary and Special Items

Extraordinary items are transactions of events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. During the fiscal year, the District did not incur any transactions that would be classified as an extraordinary item or special item.

O. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

P. Budgetary Calendar

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budget documents within an established timetable. The major documents prepared are the Tax Budget, the Certificate of Estimated Resources, and the Appropriations Resolution, all of which are prepared on the budgetary cash basis of accounting. All funds, except for agency funds, are required to be budgeted and appropriated. The legal level of budgetary control is at the fund level for all funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with legal restriction that the appropriations cannot exceed estimated resources, as certified. The amount reported as the original budgeted revenues in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted revenues in the budgetary statement reflect the amounts in the amended certificate that was in effect at the time the final appropriations were passed by the Board of Education. The amounts reported as the original budgeted expenditures reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted expenditures represent the final appropriation amounts passed by the Board during the year.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Fund Balance Deficits

Fund balances at fiscal year-end included the following individual deficits:

<u>Fund Name</u>	<u>Deficit Balance</u>
Straight A Grant	\$ (191,481)
Other State Grants	(8,457)
IDEA-B	(231,871)
Title I School Improvement	(294)
Title III	(4,690)
Title I	(126,429)
Title II-A	(14,344)

These funds complied with Ohio state law, which does not permit a cash basis deficit at fiscal year-end. These deficits are the result of accruals resulting from the application of GAAP. The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim moneys are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies to be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time: and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

NOTE 4 - DEPOSITS AND INVESTMENTS (CONTINUED)

Protection of District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Deposits with Financial Institutions

At fiscal year-end, the carrying amount of the District deposits was \$13,618,977 (excluding \$300 maintained in petty cash) and the bank balance was \$14,073,788. Of the District's bank balance, \$9,385,255 was covered by federal deposit insurance while the remaining \$4,688,533 was exposed to custodial risk, as discussed below. Of the carrying amount, \$21,039 represents cash restricted for unspent funds received from the State for bus purchases.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

B. Investments

At fiscal year-end, the District had the following investments and maturities:

Investment Type	Standard & Poor's Rating	Fair Value	Percent of Total	Investment Maturities	
				Within 1 Year	More than 1 Year
STAR Ohio	AAA	\$ 635,712	9.28%	\$ 635,712	\$ -

NOTE 4 - DEPOSITS AND INVESTMENTS (CONTINUED)

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the District's investment policy limits investment portfolio maturities to five years or less, unless matched to a specific obligation or debt of the District. All investments outstanding at fiscal year-end mature within five years.

Credit Risk: The District does not have a formal investment policy limiting credit risk.

Concentration Risk: The District places no limit on the amount that may be invested in any one issuer.

C. Reconciliation of Deposits and Investment to the Statement of Net Position

The following is a reconciliation of deposits and investments as reported above to cash and cash equivalents reported on the statement of net position at fiscal year-end:

Investments (summarized above)	\$ 6,858,684
Carrying Amount of Deposits	13,618,977
Petty Cash	300
Less: Fiduciary Cash and Investments	(508,270)
Total Cash and Cash Equivalents on Statement of Net Position	<u><u>\$ 19,969,691</u></u>

NOTE 5 - INTERFUND TRANSACTIONS

Interfund balances at fiscal year-end, as reported on the fund financial statements, consist of the following individual interfund receivables and payables:

Fund	Receivable	Payable
General Fund	\$ 352,235	\$ 35,731
Other Governmental Funds	-	354,586
Internal Service	38,082	-
Totals	<u><u>\$ 390,317</u></u>	<u><u>\$ 390,317</u></u>

The purpose of the General Fund interfund receivable and \$352,235 of the Other Governmental Funds payable is the result of short-term interfund loans made by the General Fund while the other funds await grant reimbursement. The Internal Service Fund receivable, General Fund Payable, and \$2,351 of the Other Governmental Funds payable is the result of Workers Compensation Premiums on wages earned but not yet paid that are due to the self-insurance fund.

During the fiscal year, the General Fund transferred \$1,893,023 to the Debt Service Fund. Interfund transfers between governmental funds are eliminated for reporting in the statement of activities.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar 2014 represents collections of calendar year 2013 taxes. Real property taxes received in calendar year 2014 were levied after April 1, 2014, on the assessed value listed as of January 1, 2014, the lien date. Assessed values for real property taxes are established by state law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, state statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2014 represents collections of calendar year 2013 taxes. Public utility real and tangible personal property taxes received in calendar year 2014 became a lien December 31, 2013, were levied after April 1, 2014 and are collected in 2014 with real property taxes.

Accrued property tax receivable includes real property, public utility property and tangible personal property taxes which are measurable at fiscal year-end and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue. On a full accrual basis, collectible delinquent property taxes have been reported as a receivable and revenue, while on a modified accrual basis the revenue has been reported as a deferred inflow of resources.

The assessed values upon which fiscal year 2014 taxes were collected are:

	2013 Second Half		2014 First Half	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/Residential and Other Real Estate	\$ 1,357,814,000	98.09%	\$ 1,364,238,000	98.00%

NOTE 7 – PAYMENTS IN LIEU OF TAXES

The District has entered into several Compensation Agreements with other local government entities resulting in the receipt of payments in lieu of taxes. The Compensation Agreements relate to the use of property tax abatements to encourage economic development. The District receives payments in lieu of taxes for projects at Broad Street, Easton, Creekside and other locations. For these projects, the District is to receive payments equal to the amount that the District would otherwise have received as real property tax payments derived from the improvements, absent the passage of the agreement. The District receives the payments directly from the County which collects the amounts for the agreements.

The District also receives payments in lieu of taxes from the City of Columbus, who has declared improvements to certain parcels of real property for the Stelzer-Stygler Community Reinvestment Area 100 percent exempt from property taxes. The District is to receive 46 percent of real property tax payments derived from the improvements had the exemption not been declared for improvements before March 25, 2002. For projects completed after March 25, 2002, the District will receive payments of 58 percent of real property tax payments derived from the improvements had the exemption not been declared and 50 percent of tax collected for New Employee payroll attributable to employment at each such project.

The District also receives payments in lieu of taxes from the City of Gahanna, whereas the City of Gahanna has declared improvements to certain parcels of real property within the City 100 percent exempt from property taxes. The District is to receive 50 percent of the amount of income taxes levied and collected by the City on employee payroll for that year, not to exceed 100 percent of the real property taxes foregone by the District for that year.

NOTE 8 – LEASE AGREEMENTS

In August 2011, the District opened Clark Hall, a state-of-the-art learning facility that serves as an extension to the nearby Lincoln High School. In addition, the District entered into the following agreements related to Clark Hall.

Eastland-Fairfield Career and Technical School (EFCTS) - In May 2010, the District and EFCTS entered into a build-out, use and operations agreement granting EFCTS the right to occupy and use approximately 8,403 square feet of space in the Clark Hall Building from the District. The term of the agreement is for fifteen years, commencing on the earlier of the date of substantial completion of additional improvements and delivery of the premises in such condition to EFCTS, or the date on which EFCTS first occupies and uses the premises for its normal educational operations.

As part of the consideration for the rights granted to EFCTS under this agreement, EFCTS contributed \$1,251,472 towards the cost of completion of the base improvements. This contribution will serve as base rent for the term of the agreement. In addition, EFCTS agreed to pay the cost of additional improvements to the premises as may be necessary (beyond the base improvements) to finish, equip, furnish, and otherwise prepare the premises for EFCTS's initial occupancy and use. As of fiscal year-end, the District has received \$912,531 from EFCTS for additional improvements made.

Columbus State Community College (CSCC) - In January 2011, the District and CSCC entered into a lease agreement allowing CSCC to lease approximately 10,958 square feet of space. The lease term is for three years once the building is first occupied by CSCC. The annual rent payments will be \$162,398, \$166,781 and \$171,712 for the three year period.

Education First Credit Union (Education First) - In June 2011, the District and Education First entered into a lease agreement allowing Education First to lease approximately 200 square feet of space. The lease term is for five years once the building is first occupied by Education First. The annual rent payments will be \$8,118, \$8,362, \$8,613, \$8,871 and \$9,137 for the five year period.

On February 24, 2012, the District entered into a ground lease agreement with Wagenbrenner Development, Inc., for design and construction of 24,000 square feet of new commercial space on the remaining undeveloped land adjacent to Clark Hall titled "The Clark Commons". The term of the lease is for a period of 85 lease years commencing on the date on which the tenant commenced construction. The minimum rent payable under the lease, per annum, for the first ten lease years is \$132,000. The minimum rent payable will be adjusted every 10th lease year of the term.

1993 Refunding Bonds

In fiscal year 1993, the District issued \$13,790,160 in general obligation bonds with a net interest cost of 6.40% for the purpose of financing construction of Blacklick Elementary. These bonds matured on 12/01/2013. Principal payments on the general obligation bonds were made from the debt service fund in the amount of \$500,000 during the fiscal year. The source of revenue to retire the bonds was derived from voted property tax levies recorded in the debt service fund. At fiscal year-end, the outstanding balance represents capital appreciation bonds (CAB) as the District has paid off the balance of serial bonds. The amount of interest added (accrued) to the principal value outstanding during the fiscal year was \$12,346.

2005 Refunding Bonds

In fiscal year 2006, the District issued \$9,119,993 in general obligation bonds with a net interest cost of 4.15% for the purpose of completing a refund of 1999 Bonds for the purpose of reducing interest payments. Principal payments on the general obligation bonds were made from the debt service fund in the amount of \$755,000 during the fiscal year. The source of revenue to retire the bonds was derived from voted property tax levies recorded in the debt service fund. The amount of defeased debt outstanding at fiscal year-end is \$0. At fiscal year-end, the outstanding balance of capital appreciation bonds (CAB) is \$901,040. The amount of interest added (accrued) to the principal value outstanding during the fiscal year was \$36,262.

NOTE 10 - LONG-TERM OBLIGATIONS (CONTINUED)

During fiscal year 2006, the District issued general obligations refunding bonds to advance refund a portion of general obligation issues from 1999 series. The advance refunding reduced cash flows required for debt services by \$512,286 over the next 14 years.

2007 Bus Purchase Bonds

On December 6th, 2007, the District issued \$1,200,000 in general obligation bonds for the purpose of acquiring school buses. The maturity date for the bonds is December 01, 2017 with a net interest cost of 3.65%. The proceeds of the bonds issued were reported in the capital project/building fund (a nonmajor governmental fund). During the fiscal year, a payment of \$125,000 in principal was made.

2009 Refunding Bonds

In fiscal year 2009, the District issued \$6,380,000 in general obligation bonds with a net interest cost of 3.00% for the purpose of completing a refund of 1999 Bonds for the purpose of rolling over notes issued in September 2008 that were used for the purchase of land for a new High School learning center. Principal payments on the general obligation bonds will be made from the debt service fund during the fiscal year in the amount of \$945,000. The source of revenue to retire the bonds was derived from voted property tax levies recorded in the debt service fund. As a result of the advance refunding, the District reduced its total debt service requirements by \$513,093, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new (debt) of \$407,313.

During fiscal year 2009, the District issued general obligation refunding bonds (series B) to advance refund a portion of general obligation issues from 1999 series building. The amount of defeased debt outstanding at fiscal year-end is \$0.

2010 Learning Center Bonds

On February 16, 2010, the District also issued \$14,682,770 in Learning Center Bonds for the purpose of school facilities construction in the Ohio School Facilities Commission program. The Series 2010A Bonds were issued in the amount of \$2,435,000 with interest costs increasing each year from 3.65 to 4.15 percent. The bonds were issued at a discount in the amount of \$34,897. This discount will be amortized over the life of the bond, on a straight-line basis. The amount of amortized discount for 2014 was \$1,938. The bonds mature on December 1, 2028.

The Series 2010B Bonds were issued in the amount of \$6,500,000 with interest costs increasing each year from 5.04 to 6.10 percent. This issuance was issued as Build America Bonds with the District receiving payments from the federal government for interest payments. In fiscal year 2013, the District issued general obligations refunding bonds to advance refund Series 2010B. The advance refunding reduced cash flows required for debt services by \$430,564 over the next 15 years for net present value savings of \$347,113.

The Series 2010C Bonds were issued in the amount of \$5,747,770 with interest costs 1.50 percent. This issuance was issued as Qualified School Construction Bonds. During the fiscal year, an amount of \$383,185 was paid off of the principal leaving an outstanding balance of \$4,215,030 at fiscal year-end. The bonds mature on February 16, 2025.

2013 Energy Conservation and Refunding Bonds

On June 27, 2013, the District issued \$10,795,000 in Energy Conservation Bonds for the purpose of purchasing and installing energy conservation measures. The Series 2010A Bonds were issued in two parts for Series A with interest costs ranging from 1.50 to 4.00 percent. The 2013A-1 Bonds were issued in the amount of \$3,265,000 while the 2013A-2 Bonds were refunding bonds issued in the amount of \$6,395,000. The issuance refunded the 2010B Learning Center Bonds. The bonds were issued at a premium in the amount of \$339,067. This premium will be amortized over the life of the bond, on a straight-line basis. The amount of amortized premium for 2014 was \$22,604. The bonds mature on December 1, 2028. As a result of the advance refunding, the District reduced its total debt service requirements by \$430,564, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new (debt) of \$347,113.

The Series 2013B Bonds were issued in the amount of \$1,135,000 with interest costs increasing each year from 0.55 to 1.65 percent. This issuance was Taxable Energy Conservation Bonds and will be used to fund energy projects of the District.

2014 Stadium Facility Construction and Improvement Note

On May 27, 2014, the District borrowed \$700,000 for the purpose of construction, improvement, furnishings, and equipping of stadium bleacher facilities, with related site improvements. The note will be paid from the debt service fund and has an interest rate of 3.00 percent. The note has a term of 180 months. Payments in the amount of \$4,835 are due on the 27th of every month with the final payment due on May 27, 2029.

The following is a summary of future annual debt service requirements for maturity for the general obligation bonds:

Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation use in determining the District’s legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District’s legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at fiscal year-end are voted debt margin of \$125,288,980 and an unvoted debt margin of \$1,392,100.

2010 Certificates of Participation

On February 1, 2010, the District entered into a ground lease agreement with Gahanna-Jefferson Education Foundation (Foundation) whereas the District leases a parcel of land to the Foundation, and subsequently constructs school facilities on the land, and the Foundation, in turn, subleases the land, and leases the constructed school facilities to the District.

On February 16, 2010, the District issued \$6,565,000 in certificates of participation for the purpose of school facilities construction in the Ohio School Facilities Commission program. The maturity date for the bonds is December 1, 2021 with interest costs increasing each year from 1.42 to 5.54 percent. The proceeds of the bonds issued were reported in the capital project/building fund.

The Certificates of Participation evidence a proportionate interest in the base rent to be paid by the District under the ground lease agreement. Base rent payments will be recorded as expenditures in the debt service fund.

The following is a summary of future base rent payments for the certificates of participation:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>

Compensated Absences

Compensated absences represent accumulated vacation and an estimated severance liability for employees both eligible to retire and those expected to become eligible in the future. The entire compensated absences balance is reported on the entity-wide financial statements. For governmental fund financial statements, the compensated absences are reported only to the extent they have matured and will be paid with current financial resources. The noncurrent portion of the liability is not reported. For proprietary funds, the entire amount of compensated absences is reported as fund liability.

Compensated absences will be paid from the general fund for governmental funds, and from the fund that employee’s salaries are paid for proprietary funds.

NOTE 11 – CAPITAL LEASE OBLIGATIONS

The District has entered into several lease agreements as lessee for financing the acquisition of equipment. The lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of future minimum lease payments as of the inception date. The assets acquired through these capital leases had a book value of \$1,111,019 (\$2,568,675 cost less \$1,457,657 accumulated depreciation) at June 30, 2014. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2014, were as follows:

NOTE 12 – RISK MANAGEMENT

A. Comprehensive

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the fiscal year, the District purchased insurance coverage from Ohio Casualty. Coverage provided by Ohio Casualty is as follows:

General Liability Coverage

Bodily Injury and Property Damage Limit (each offense)	\$1,000,000
General Aggregate Limit	\$2,000,000
Products-Completed Operations Aggregate Limit	\$2,000,000

Employer’s Liability – Stop Gap Coverage

Bodily Injury By Accident – Each Accident	\$1,000,000
Bodily Injury By Disease	\$1,000,000
Bodily Injury By Disease – Each Employee	\$1,000,000
Aggregate Limit	\$2,000,000

School Leaders Errors and Omissions Liability Coverage

Each Wrongful Act	\$1,000,000
Aggregate Limit	\$1,000,000

Employee Benefits Liability Coverage

Each Offense Limit	\$1,000,000
Aggregate Limit	\$3,000,000

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There has been no significant reduction in insurance coverage from the prior fiscal year.

B. Employee Group Life, Medical, Dental and Vision Insurance

The District maintains an internal service “self-insurance” health insurance fund in connection with formalized risk management programs in an effort to minimize risk exposure and control claims and premium costs. The District, effective July 1, 2000, contracted with United HealthCare to be the third party administrator for the District’s health insurance program. The District pays 80% of the monthly premiums for a family plan and 90% for a single plan. The District provides dental insurance to employees through Delta Dental. The Board pays 100% of the monthly premium for dental insurance.

A claims liability of \$538,553 at fiscal year-end in the self-insurance internal service fund reflects an estimate of incurred but unpaid claims liability. This liability was estimated by a third party based on claims experience. The District has purchased stop loss coverage for individual employee claim amounts exceeding \$175,000. Unpaid claims at year-end are recorded as current claims payable because they would be due within 60 days from the end of the fiscal year.

C. Workers’ Compensation

The District maintains an internal service “self-insurance” workers’ compensation insurance fund in connection with formalized risk management programs in an effort to minimize risk exposure and control claims and premium costs. A claims liability of \$6,583 at fiscal year-end in the workers’ compensation self-insurance internal service fund reflects an estimate of incurred but unpaid claims liability. This liability was estimated by a third party based on claims experience. The District, effective January 1, 2014, contracted with Hunter consulting Co. to be the third party administrator for the District’s insurance program. The District has purchased stop loss coverage for individual employee claim amounts exceeding \$450,000.

NOTE 13 – PENSION PLANS

A. School Employees Retirement System

Plan Description - The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability, and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. The School Employees Retirement System issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report can be obtained on SERS’ website at www.ohsers.org under Employer/Audit Resources.

Funding Policy - Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS’ Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund) of the System. For fiscal year ending June 30, 2014, the allocation to pension and death benefits is 13.1%. The remaining .90% of the 14% employer contribution rate is allocated to the Health Care and Medicare B Funds. The District’s contributions for pension obligations to SERS for the fiscal years ended June 30, 2014, 2013, and 2012, were \$1,051,286, \$1,133,797 and \$1,058,052, respectively, 64 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013, and 2012. The District’s unpaid contribution for fiscal year 2014 has been recorded as a liability in the appropriate funds.

B. State Teachers Retirement System

Plan Description - The District contributes to the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio is a statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio or any school, college, university, institution or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling toll-free 1-888-227-7877 or by visiting the STRS Ohio Web site at www.strsoh.org.

Plan Options – New members have a choice of three retirement plan options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC plan allows members to allocate all their member contributions and employer contributions equal to 10.5% of earned compensation among various investment choices. The Combined Plan offers features of the DC Plan and the DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund a defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the DB Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

DB Plan Benefits – Plan benefits are established under Chapter 3307 of the Revised Code. Any member may retire who has (i) five years of service credit and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the “formula benefit” or the “money-purchase benefit” calculation. Under the “formula benefit”, the retirement allowance is based on years of credited service and final average salary, which is the average of the member’s three highest salary years. The annual allowance is calculated by using a base percentage of 2.2% multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31PstP year of earned Ohio service credit is calculated at 2.5%. An additional one-tenth of a percent is added to the calculation for every year of earned Ohio service over 31 years (2.6% for 32 years, 2.7% for 33 years and so on) until 100% of final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5% instead of 2.2%. Under the “money-purchase benefit” calculation, a member’s lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

DC Plan Benefits – Benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 10.5% are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members’ accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member’s designated beneficiary is entitled to receive the member’s account balance.

NOTE 13 – PENSION PLANS (CONTINUED)

Combined Plan Benefits – Member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment. A member’s defined benefit is determined by multiplying 1% of the member’s final average salary by the member’s years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or equivalent lump-sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3% of the original base amount for DB Plan participants.

The DB and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalization, physicians’ fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

A DB or Combined Plan member with five or more years’ credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members’ beneficiaries.

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 11% for members and 14% for employers. Contribution requirements and the contributions actually made for the fiscal year ended June 30, 2014, were 11% of covered payroll for members and 14% for employers.

The District’s required contributions for pension obligation to STRS Ohio for the fiscal year ended June 30, 2014, 2013 and 2012 were \$5,607,995, \$5,573,296, and \$5,443,314, respectively; 86 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013 and 2012. The District’s unpaid contribution for fiscal year 2014 has been recorded as a liability in the appropriate funds.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by SERS or STRS have an option to choose Social Security. At fiscal year-end, two members of the Board of Education have elected Social Security. The Board’s liability is 6.2 percent of wages paid.

NOTE 14 – OTHER POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Postemployment Benefits – In addition to a cost-sharing multiple-employer defined benefit pension plan the School Employees Retirement System of Ohio (SERS) administers two cost-sharing, multiple employer postemployment benefit plans.

Medicare Part B Plan – The Medicare B plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code (ORC) 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B monthly premium for calendar year 2014 was \$104.90 for most participants, but could be as high as \$335.70 per month depending on their income. SERS' reimbursement to retirees was \$45.50.

The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal year 2014, the actuarially required allocation is .76%. The District's contributions for the years ended June 30, 2014, 2013 and 2012 were \$60,991, \$64,047, and \$62,483, respectively, 64 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013 and 2012.

Health Care Plan – ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund. For the year ended June 30, 2014, the health care allocation is .14%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. State law provides that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2013, the minimum compensation level was established at \$20,250. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contributions assigned to health care, including the surcharge, for the years ended June 30, 2014, 2013, and 2012 were \$129,245, \$139,246, and \$166,103, respectively, 64 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013 and 2012.

B. State Teachers Retirement System

Plan Description - The District contributes to the cost-sharing, multiple employer postemployment benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by writing 275 E. Broad St., Columbus, OH 43215-3371, by calling 1-888-227-7877, or by visiting the STRS Ohio web site at www.strsoh.org.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2014, STRS Ohio allocated employer contributions equal to 1% of covered payroll to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2014, 2013, and 2012 were \$431,384, \$428,715, and \$418,716, respectively; 86 percent has been contributed for fiscal year 2018 and 100 percent for fiscal years 2013 and 2012.

FRANKLIN COUNTY, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

NOTE 15 - STATUTORY RESERVES

The District is required by state law to set-aside certain general fund revenue amounts, as defined by statute, into various reserves. These reserves are calculated and presented on a cash basis. During the current fiscal year, the reserve activity was as follows:

	Capital Acquisition	Budget Stabilization
Set-aside cash balance as of July 1, 2013	\$ -	\$ 1,000,303
Current fiscal year set-aside requirement	1,204,153	-
Qualifying Disbursements	(4,825,003)	-
Total	(3,620,850)	1,000,303
 Set-aside balance at June 30, 2014	 \$ -	 \$ 1,000,303

The District had qualifying disbursements during the year that reduced the set-aside amounts below zero for the textbook and capital acquisition reserves. This extra amount may be used to reduce the set-aside requirement in future fiscal years. Although Senate Bill 345 eliminated the required budget stabilization set-aside effective April 10, 2001, the District has opted to maintain their designation to offset any budget deficit the District may experience in future fiscal years.

NOTE 16 –ENCUMBRANCES

The District encumbers funds with purchase orders to assign funds for those purchases of goods and services. Outstanding encumbrances in the General Fund, Building Fund, and Other Governmental Funds as of fiscal year end were \$1,486,821, \$1,069,782, and \$1,208,432, respectively.

NOTE 17 - CONTINGENCIES

A. Grants - The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. This also encompasses the Auditor of State’s ongoing review of student attendance data. The District was not sampled however, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2014, if applicable, cannot be determined at this time.

B. Litigation - There are currently a few matters in litigation with the District as defendant. It is the opinion of management that the potential claims against the District not covered by insurance would not materially affect the financial statements.

GAHANNA-JEFFERSON PUBLIC SCHOOL DISTRICT
FRANKLIN COUNTY, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

NOTE 18 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance in accordance with GAAP, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The Statement of Revenue, Expenditures, and Changes in Fund Balance – Budget and Actual (Non-GAAP Budgetary Basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to a reservation of fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis).
- (d) Advances-In and Advance-Out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the General Fund is as follows:

Net Change in Fund Balance

	<u>General Fund</u>
Budget Basis	\$ (2,604,938)
Adjustments (net):	
Public Support Fund Change	(21,583)
Rotary Fund Change	30,730
Revenue Accruals	1,746,778
Expenditure Accruals	917,541
Encumbrances	1,486,823
Interfund Transactions	228,170
GAAP Basis	\$ 1,783,521

With the implementation of GASB Statement No. 54, *Fund Balance Reporting*, the District’s Public School Support Fund and Special Rotary Fund, no longer meets the special revenue fund type criteria for reporting in the fiscal year-end external financial statements. As such, these funds are presented as part of the District’s General Fund in the year-end financial statements. The budgetary comparison information in the fiscal year-end financial statements is the legally adopted budget for the general fund, without modification for the funds no longer meeting the special revenue criteria.

GAHANNA-JEFFERSON PUBLIC SCHOOL DISTRICT
FRANKLIN COUNTY, OHIO
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

NOTE 19 – CHANGES IN ACCOUNTING PRINCIPLES

For fiscal year ending June 30, 2014, the District has implemented the following:

GASB Statement No. 66 “Technical Corrections – 2012 - an Amendment of GASB Statements No. 10 and No. 62” resolves conflicting guidance that results from the issuance of GASB Statements No. 54 and No. 62. This Statement also amends GASB Statement No. 10 by removing the provision that limits fund-based reporting of an entity’s risk financing activities to the general fund and the internal service fund type. This Statement also amends GASB Statement No. 62 to clarify how to apply GASB Statement No. 13 and results in guidance that is consistent with GASB Statement No. 48. The implementation of this statement did not have an effect on the financial statements of the District.

GASB Statement No. 70 “Accounting and Financial Reporting for Nonexchange Financial Guarantees” enhances comparability of financial statements by requiring consistent reporting by those governmental entities that extend nonexchange financial guarantees and by those governmental entities that receive nonexchange financial guarantees. The implementation of this statement did not have an effect on the financial statements of the District.

NOTE 20 – RESTATEMENT OF PRIOR YEAR BALANCES

During fiscal year 2014, the District increased its capitalization threshold from \$1,000 to \$5,000. The effect of this change is reported as a direct adjustment to beginning net position to restate those amounts to what they would have been. This change had no effect on fund balances.

The effect of the change in capitalization threshold is as follows:

Net Position, June 30, 2013	\$ 37,861,411
Depreciable Capital Assets	(2,137,881)
Restated Net Position, July 1, 2013	\$ 35,723,530

NOTE 21 – SUBSEQUENT EVENT

In August 2014, the District entered into a three-year lease agreement for equipment with Mobilease-Modular Space Inc. for a double size modular unit to address the student population growth due to the fact that the District brought in the preschool program for the school year 2014-2015. The lease calls for a one time delivery payment of \$58,439 and monthly payment of \$5,698 for a total amount of \$205,128 with the district having the option to purchase the modular unit for \$1 at the end of the term.

AND INDIVIDUAL FUND SCHEDULES**

GAHANNA JEFFERSON PUBLIC SCHOOL DISTRICT

COMBINING STATEMENTS AND INDIVIDUAL FUND SCHEDULES

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Building Fund – A fund used to account for the revenues and expenditures related to all special bond funds in the District. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs for acquiring capital facilities, including real property.

Non-major Governmental Funds

Non-major Governmental Funds are established to account for revenues from specific sources, which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the District's Non-major Governmental Funds follows:

Public School Support - A fund used to account for specific local revenue sources, other than taxes or expendable trusts (i.e., profits from vending machines) that are restricted to expenditures for specified purposes approved by the board resolution. Such expenditures may include curricular and extra-curricular related purchases. This fund is for budgetary purposes only.

Food Service - A fund used to record financial transactions related to the District's food service operation.

Special Rotary Fund – A rotary fund provided to account for the transactions made in connection with supplemental education classes and the job-training program. Receipts include, but are not limited to, tuition from patrons and students and income from outside clients for production work. Expenditures include salaries and supplies. This fund is for budgetary purposes only.

Community Recreation – A rotary fund to account for monies received and expended in connection with the community Parks and Recreation summer camp program, which is intended to be self-sustaining.

Other Local Grants – A fund held by the District in a trustee capacity to be used as requested by the donating individual/agency.

District Managed Activities - A fund used to account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund includes the athletic programs, the drama program, etc.

Auxiliary Services - A fund used to account for monies, which provide services and materials to pupils attending non-public schools within the District.

Teacher Development - A fund used to account for monies received and expended for the development of in-service programs.

Data Communication - A fund used to account for monies received in order for the District to obtain access to the Ohio Educational Computer Network.

Straight A - A fund used to account for state grants received for innovative projects under the Straight A grant.

GAHANNA JEFFERSON PUBLIC SCHOOL DISTRICT

COMBINING STATEMENTS AND INDIVIDUAL FUND SCHEDULES

Other State Grants - A fund used to account for state grants received from miscellaneous state organizations.

IDEA-B - A fund used to account for federal funds used in the identification of handicapped children, development of procedural safeguards, implementation of least-restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Title I School Improvement – A fund to help schools improve the teaching and learning of children failing, or most at risk of failing to meet challenging State academic achievement standards.

Title III- A fund used to account for federal funds for limited English proficiency.

Title I - A fund used to account for federal funds used to meet the special needs of educationally deprived children.

Title II-A - A fund used to account for grants for improving teacher quality.

Other Federal Grants - A fund used to account for various monies received through state agencies from the federal government or directly from the federal government, which are, not classified elsewhere.

(2) House Bill No. 66 was signed into law on June 30, 2005. House Bill No. 66 phased out the tax on tangible personal property of general businesses, telephone and telecommunications companies, and railroads. The tax on general business and railroad property was eliminated in calendar year 2009, and the tax on telephone and telecommunications property will be eliminated by calendar year 2011. The tax is phased out by reducing the assessment rate on the property each year. The bill replaces the revenue lost by the District due to the phasing out of the tax. In calendar years 2006-2010, the District will be fully reimbursed for the lost revenue. In calendar years 2011-2017, the reimbursements will be phased out.
