We have reviewed the *Independent Auditor's Report* of the Ohio Valley Regional Development Commission, Pike County, prepared by Millhuff-Stang, CPA, Inc., for the audit period January 1, 2018 through December 31, 2018. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Ohio Valley Regional Development Commission is responsible for compliance with these laws and regulations.

A handwritten signature in cursive script that reads "Keith Faber".

**Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Ohio Valley Regional Development Commission, Pike County, Ohio (the Commission), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Ohio Valley Regional Development Commission, Pike County, Ohio, as of December 31, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

***Emphasis of Matter***

As discussed in Note 14 to the financial statements, during fiscal year 2018, the Commission adopted new accounting guidance in Governmental Accounting Standards Board Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". The 2018 financial statements have been restated due to this implementation. We did not modify our opinion regarding this matter.

***Other Matters***

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of the Commission's proportionate share of the net pension and OPEB liabilities, and the schedule of Commission contributions on pages 4 through 10, and 41 through 43, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Other Information***

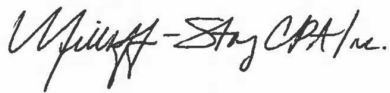

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commission's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated May 30, 2019 on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control over financial reporting and compliance.

## Ohio Valley Regional Development Commission

### *Management's Discussion and Analysis*

*For the Year Ended December 31, 2018*

*(Unaudited)*

---

The discussion and analysis of the Ohio Valley Regional Development Commission's (the Commission) financial performance provides an overall review of the Commission's financial activities for the year ended December 31, 2018. The intent of this discussion and analysis is to look at the Commission's financial performance as a whole. Readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the Commission's financial performance.

### **Financial Highlights**

Key financial highlights for 2018 are as follows:

- Net position of governmental activities decreased by \$23,473.
- General revenue accounted for \$120,213 or 12% of all revenues. Program specific revenues in the form of charges for services, grants, contributions, and interest accounted for \$886,193 or 88% of total revenues of \$1,006,406.
- The Commission had \$856,100 in expenses and \$173,779 in indirect costs related to governmental activities; only \$886,193 of these expenses and indirect costs were offset by program specific charges for services, grants, contributions, and interest. General revenues and beginning net position were sufficient to cover the remainder of the expenses and indirect costs.
- The General Fund, one of the Commission's major funds, had \$121,663 in revenues and \$47,104 in expenditures.

### **Using This Annual Financial Report**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Commission as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities and conditions.

The statement of net position and statement of activities provide information about the activities of the whole agency, presenting both an aggregate view of the Commission's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term, as well as what remains for future spending. The fund financial statements also look at the Commission's most significant funds with all other non-major funds presented in total in one column.

### **Reporting the Commission as a Whole**

#### *Statement of Net Position and Statement of Activities*

While this document contains information about the large number of funds used by the Commission to provide programs and activities for citizens, the view of the Commission as a whole looks at all financial transactions and asks the question, "How did we do financially during 2018?" The statement of net position and the statement of activities answer this question. These statements include all assets, liabilities, and deferred inflows and outflows of resources using the accrual basis of accounting similar to the accounting used by most private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the Commission's net position and changes in net position. This change in net position is important because it tells the reader whether, for the Commission as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the availability of federal and state grant funding, continued support from member governments, and other factors.

**Ohio Valley Regional Development Commission**

*Management's Discussion and Analysis*

*For the Year Ended December 31, 2018*

*(Unaudited)*

---

**Reporting the Commission's Most Significant Funds**

*Fund Financial Statements*

The analysis of the Commission's major funds begins on page 9. Fund financial statements provide detailed information about the Commission's major funds. The Commission uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the Commission's most significant funds. The Commission's major governmental funds are the General Fund, Economic Development Administration-Economic Development District Fund, Appalachian Regional Commission-Local Development District and Regional Work Plan Fund, Local Development District-Workforce Development Fund, ODOT Rural Transportation Planning Organization Fund, Economic Development Administration-Revolving Loan Fund, Appalachian Regional Commission-Revolving Loan Fund, and USDA Revolving Loan Fund. The Commission has only governmental funds.

Governmental Funds – The Commission's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Commission's general operations and the basic services it provides. Governmental fund statements help you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Commission's programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

*Notes to the Basic Financial Statements*

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**The Commission as a Whole**

Recall that the statement of net position provides the perspective of the Commission as a whole. Table 1 provides a summary of the Commission's net position as of December 31, 2018, compared to December 31, 2017.

Table 1  
Net Position

|                                       | 2018        | 2017*     |
|---------------------------------------|-------------|-----------|
| <b>Assets</b>                         |             |           |

Table 1  
Net Position (Continued)

|                                  | 2018        | 2017*       |
|----------------------------------|-------------|-------------|
| <b>Net Position</b>              |             |             |
| Net Investment in Capital Assets | \$573,999   | \$572,999   |
| Restricted                       | 1,378,947   | 1,356,580   |
| Unrestricted (Deficit)           | (554,948)   | (508,108)   |
| Total Net Position               | \$1,397,998 | \$1,421,471 |

\*As restated. See note 14 of the notes to the basic financial statements.

Total assets increased \$185,589. Loans receivable decreased significantly due to principal repayments on existing loans in the amount of \$218,526. There were no new loans issued nor write-offs of existing loans during the year. Cash increased due to the repayments on loans receivable and unspent proceeds from grant programs. Capital assets, net decreased \$13,762 due to depreciation expense, which was partially offset by additions of equipment.

Deferred outflows of resources decreased \$147,177 due to decreases in actuarially-determined amounts related to the Commission's proportionate of the state-wide net pension and OPEB liabilities.

Total liabilities decreased \$79,600. Long-term liabilities decreased \$228,658 due primarily to a decrease in the Commission's proportionate share of the state-wide net pension liability as well as principal payments on the Commission's lease agreement. Current and other liabilities increased by \$149,058 due primarily to increases in accrued wages as well as the recognition of intergovernmental payable, for refunds due to grantors, and grants payable, for job training grants due to subrecipients.

Deferred inflows of resources increased \$141,485 due to increases in actuarially-determined amounts related to the Commission's proportionate of the state-wide net pension and OPEB liabilities.

The net pension liability (NPL) is the largest single liability reported by the Commission at December 31, 2018 and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." For 2018, the Commission adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of these financial statements will gain a clearer understanding of the Commission's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund the plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the Commission's proportionate share of the plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service,
2. Minus plan assets available to pay these benefits.

**Ohio Valley Regional Development Commission**

*Management's Discussion and Analysis*

*For the Year Ended December 31, 2018*

*(Unaudited)*

---

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the “employment exchange” – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the Commission is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement system to provide healthcare to eligible benefit recipients. The retirement system may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer’s promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the Commission’s statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of the plan’s *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

As a result of implementing GASB 75, the Commission is reporting a net OPEB liability and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting. This implementation also had the effect of restating net position at December 31, 2017 from \$1,714,197 to \$1,421,471.

Table 2 shows the changes in net position for the year ended December 31, 2018, compared to the year ended December 31, 2017.

| Total Revenues                               | 1,006,406   | 998,105     |
| <b>Expenses</b>                              |             |             |
| Economic and Community Development           | 701,590     | 588,445     |
| Transportation Planning                      | 146,263     | 174,680     |
| Return of Grant Funds                        | 0           | 24,759      |
| Indirect Costs                               | 173,779     | 169,061     |
| Debt Service:                                |             |             |
| Interest and Fiscal Charges                  | 8,247       | 8,724       |
| Total Expenses                               | 1,029,879   | 965,669     |
| Change in Net Position                       | (23,473)    | 32,436      |
| Net Position, Beginning of Year              | 1,421,471   | N/A         |
| Net Position, End of Year                    | \$1,397,998 | \$1,421,471 |

Program revenues increased \$5,977. Operating grants, contributions and interest increased due primarily to the new Local Development District-Workforce Development program in 2018, which was partially offset by a decrease in ARC Revolving Loan Program funding. Charges for services decreased due to additional contract services in the prior year that was not provided in 2018. General revenues remained relatively consistent between years.

Economic and community development activities account for 68 percent of total program expenses. These expenses increased due primarily to expenses for the new Local Development District-Workforce Development program. Transportation planning expenses account for 14 percent of total program expenses. These expenses decreased by \$28,417, due to less activity with the program between years. Return of grant funds decreased \$24,759 from the prior year. Indirect costs account for 17 percent of total program expenses. These costs remained relatively consistent between years. Interest expense accounts for the remaining 1 percent of program expenses and also remained relatively consistent between years.

The information necessary to restate the 2017 beginning balances and the 2017 OPEB expense amounts for the effects of the initial implementation of GASB 75 is not available. Therefore, 2017 functional expenses still include OPEB expense of \$4,123 computed under GASB 45. GASB 45 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 75, OPEB expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of OPEB expense. Under GASB 75, the 2018 statements report OPEB expense of \$25,854. Consequently, in order to compare 2018 total program expenses to 2017, the following adjustments are needed:

**Ohio Valley Regional Development Commission**

*Management's Discussion and Analysis*

*For the Year Ended December 31, 2018*

*(Unaudited)*

---

|  |                  |
|--|------------------|
| Total 2018 program expenses under GASB 75        | \$1,029,879      |
| OPEB expense under GASB 75                       | (25,854)         |
| 2018 contractually required contribution         | 0                |
| Adjusted 2018 program expenses                   | <u>1,004,025</u> |
| Total 2017 program expenses under GASB 45        | <u>965,669</u>   |
| Increase in program expenses not related to OPEB | <u>\$38,356</u>  |

**The Commission's Funds**

The Commission's major funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues and other financing sources of \$1,053,019 and expenditures and other financing uses of \$1,002,730, resulting in an increase in total fund balance. The Commission's major funds were the General Fund, Economic Development Administration-Economic Development District Fund, Appalachian Regional Commission-Local Development District and Regional Work Plan Fund, Local Development District-Workforce Development Fund, ODOT Rural Transportation Planning Organization Fund, Economic Development Administration-Revolving Loan Fund, Appalachian Regional Commission-Revolving Loan Fund, and USDA Revolving Loan Fund.

Fund balances remained fairly consistent for all major funds except the General Fund, EDA-Economic Development District Fund, ARC-Local Development District and Regional Work Plan Fund, and Local Development District-Workforce Development Fund. The General Fund balance increased due to a decrease from the prior year in expenditures which was only partially offset by a decrease in revenues between years. There were also fewer transfers out due to less cash match requirements for other grant funds. The EDA-Economic Development District Fund balance decreased due to lesser transfers from the General Fund in addition to increased expenditures between years. The ARC-Local Development District and Regional Work Plan Fund balance decreased due to decreased revenues and increased expenditures. The Local Development District-Workforce Development Fund balance increased due to grant revenues on hand that were not yet paid to subrecipients.

**Capital Assets and Long-Term Debt**

*Capital Assets*

At December 31, 2018, the Commission had \$801,365 invested in land, building and improvements, furniture and equipment. Table 3 shows the December 31, 2018 balances as compared to the December 31, 2017 balances.

Table 3  
Capital Assets  
(Net of Accumulated Depreciation)  
Governmental Activities

|                           | 2018             | 2017             |
|---------------------------|------------------|------------------|
| Land                      | \$62,500         | \$62,500         |
| Building and Improvements | 720,692          | 736,886          |
| Furniture and Equipment   | 18,173           | 15,741           |
| Net Capital Assets        | <u>\$801,365</u> | <u>\$815,127</u> |

Changes in capital assets from the prior year resulted from depreciation expense, additions, and disposals during 2018. See note 6 of the notes to the basic financial statements for more detailed information on the Commission's capital assets.

*Management's Discussion and Analysis*

*For the Year Ended December 31, 2018*

*(Unaudited)*

---

*Long-Term Liabilities*

The Commission has one outstanding capital lease, with a balance of \$227,366 at year-end, \$13,496 due within one year. See notes 11 and 12 of the notes to the basic financial statements for additional information. See note 12 of the notes to the basic financial statements for information on other long-term liabilities.

**Economic Factors**

The Commission is currently operating within its means. However, the Commission's ability to attract administrative and program funds for its projects is heavily dependent upon the federal and state governments and the availability of grant funds. Nearly all of the Commission's funds come from federal and state grants. The Commission operates within a designated twelve-county area of Southern Ohio. Loans made through the revolving loan funds are to businesses within this area. The ability of borrowers to repay these loans is largely contingent upon the business economy in the twelve-county area.

**Contacting the Commission's Financial Management**

This financial report is designed to provide a general overview of the Commission's finances for all those with an interest in the Commission's finances. Questions concerning any information provided in this report or requests for additional financial information should be addressed to Juanita Bragg, Finance Director, 73 Progress Drive, Waverly, Ohio 45690.

*Reconciliation of Total Governmental Fund Balances to  
 Net Position of Governmental Activities  
 December 31, 2018*

---

|  |             |
|--|-------------|
| Fund Balances - Total Governmental Funds | \$1,585,983 |
|--|-------------|

Amounts reported for governmental activities in the statement of net position are different because:

|   |         |
|---|---------|
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. | 801,365 |
|---|---------|

The net pension/OPEB liability is not due and payable in the current period. Therefore, the liability and related deferred inflows/outflows are not reported in governmental funds:

|                           |                  |           |
|---------------------------|------------------|-----------|
| Deferred Outflows-Pension | 124,973          |           |
| Deferred Outflows-OPEB    | 23,255           |           |
| Deferred Inflows-Pension  | (119,623)        |           |
| Deferred Inflows-OPEB     | (25,834)         |           |
| Net Pension Liability     | (434,402)        |           |
| Net OPEB Liability        | <u>(316,005)</u> | (747,636) |

Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds:

|                      |                 |           |
|----------------------|-----------------|-----------|
| Capital Lease        | (227,366)       |           |
| Compensated Absences | <u>(14,348)</u> | (241,714) |

|   |                           |
|---|---------------------------|
| Net Position of Governmental Activities | <u><u>\$1,397,998</u></u> |
|---|---------------------------|

See the accompanying notes to the basic financial statements.

**Ohio Valley Regional Development Commission**  
*Reconciliation of the Statement of Revenues, Expenditures and Changes in  
Fund Balances of Governmental Funds to the Statement of Activities  
For the Year Ended December 31, 2018*

---

Net Change in Fund Balances - Total Governmental Funds \$50,289

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

|                         |          |
|-------------------------|----------|
| Capital Asset Additions | 15,426   |
| Depreciation            | (29,188) |

Repayments of capital lease principal are expenditures in the governmental funds, but the repayments reduce liabilities in the statement of net position and do not result in an expense in the statement of activities. 14,762

Contractually required contributions are reported as expenditures in governmental funds. However, the statement of net position reports these amounts as deferred outflows. 57,424

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability are reported as pension/OPEB expense in the statement of activities. (132,243)

Some expenses reported in the statement of activities do not require the use of current financial resources when due.

|                                  |    |
|----------------------------------|----|
| Decrease in Compensated Absences | 57 |
|----------------------------------|----|

|   |            |
|---|------------|
| Change in Net Position of Governmental Activities | (\$23,473) |
|---|------------|

See the accompanying notes to the basic financial statements.

## Ohio Valley Regional Development Commission

Notes to the Basic Financial Statements

For the Year Ended December 31, 2018

---

### **Note 1 – Summary of Significant Accounting Policies**

#### **Reporting Entity**

The Ohio Valley Regional Development Commission (the Commission) is a regional planning and economic development agency which coordinates federal, state and local resources to encourage development in 12 southern Ohio counties: Adams, Brown, Clermont, Fayette, Gallia, Highland, Jackson, Lawrence, Pike, Ross, Scioto and Vinton.

Established in 1967 as a not-for-profit corporation, the Commission was designated by the State of Ohio in 1977 as a Regional Planning and Development Organization under Ohio Revised Code Section 1702.01, et. seq., and Section 713.21. The Commission also serves as a Local Development District for the Appalachian Regional Commission; an Economic Development District for the U.S. Department of Commerce, Economic Development Administration; and a Regional Transportation Planning Organization for the Ohio Department of Transportation.

The Commission is governed by a Full Commission of more than 167 officials who meet semi-annually. Members include representatives of county and local governments, social agencies, minorities and the private sector. The aggregate membership from each county is referred to as a County Caucus.

Routine oversight of the Commission is provided by an Executive Committee with representation from all 12 member counties from both the public and private sectors, including the mayor or an elected representative from one city in each county in the region having at least 5,000 population within the region based on the latest decennial U.S. Census; and the business, education and minority community. The Executive Committee's monthly meetings are open to the public.

The Commission receives financial support from a combination of federal and state grants and local service contracts. Member counties also pay annual contributions to the Commission, with contributions based on each county's estimated population according to the Bureau of the Census.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity," as amended by GASB Statement No. 39 "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus-An Amendment to GASB Statements No. 14 and 34." The financial statements include all organizations, activities, and functions that comprise the Commission. Component units are legally separate entities for which the Commission (the primary government) is financially accountable. Financial accountability is defined as the ability to appoint a voting majority of the organization's governing body and either (1) the Commission's ability to impose its will over the organization or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the Commission. Using these criteria, the Commission has no component units.

#### **Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

##### *Government-Wide Financial Statements*

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as *general revenues*.

## Ohio Valley Regional Development Commission

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

Government-wide financial statements are prepared using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

### *Fund Financial Statements*

During the fiscal year, the Commission segregates transactions related to certain Commission functions or activities into separate funds (projects) in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Commission at this more detailed level. The focus of governmental fund financial statements is reporting on major funds rather than reporting by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Commission considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when payable from current resources.

Grants and entitlements and interest associated with the current fiscal period are all considered being susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered measurable and available only when the Commission receives cash.

### Fund Accounting

The Commission uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The Commission only uses governmental funds.

### Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, liabilities, and deferred inflows and outflows of resources is reported as fund balance.

The Commission reports the following major governmental funds:

*General Fund* – The General Fund is used to account for all financial resources of the Commission except those required to be accounted for in another fund. The General Fund balance is available to the Commission for any purpose provided it is expended or transferred according to the general laws of Ohio and the bylaws of the Commission.

*Economic Development Administration-Economic Development District Fund* – This fund accounts for an Economic Development District grant to provide funding for the Commission for serving as the area's economic development district.

*Appalachian Regional Commission-Local Development District and Regional Work Plan Fund* – This fund accounts for an Appalachian Regional Commission grant used to provide funding for the Commission serving as a Local Development District for the region.

## Ohio Valley Regional Development Commission

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

*Local Development District-Workforce Development Fund* – This fund accounts for grant revenue from the Ohio Development Services Agency for the purpose of administering regional job training programs.

*ODOT Rural Transportation Planning Organization Fund* – This fund accounts for resources from the Ohio Department of Transportation to fund an RTPO program to enhance project prioritization and improve the overall statewide transportation planning process by strengthening its preexisting partnerships with rural planning agencies.

*Economic Development Administration-Revolving Loan Fund* – This fund accounts for loans which offer gap financing for small businesses seeking to start up or expand in the district. Initial funding for the revolving loan fund came from grants from the Economic Development Administration.

*Appalachian Regional Commission-Revolving Loan Fund* – This fund offers gap financing for small businesses seeking to start up or expand in the district. Initial funding for the revolving loan fund came from grants from the Appalachian Regional Commission.

*USDA RD Revolving Loan Fund* – This fund offers gap financing for small businesses seeking to start up or expand in the district with a focus on natural resources-based businesses. Initial funding for the revolving loan fund came from grants from the US Department of Agriculture, Rural Development to the Ohio Valley Resource Conservation and Development Council (OVRC&D). Upon closure of OVRC&D the Commission assumed the grant monies and loans from OVRC&D.

The other governmental funds of the Commission account for grants and other resources whose use is restricted to a particular purpose.

### **Revenues – Exchange and Non-exchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Commission, available means expected to be received within 60 days of fiscal year-end.

Nonexchange transactions, in which the Commission receives value without directly giving equal value in return, include grants and donations. On an accrual basis, revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the Commission must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the Commission on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

### **Expenses/Expenditures**

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable.

## **Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

### **Cash, Cash Equivalents, and Investments**

To improve cash management, all cash received by the Commission is pooled, with exceptions required by grant agreements. Monies for most funds are maintained in this pool. Individual fund integrity is maintained through the Commission's records. Interest in the pool is presented at "equity in pooled cash and cash equivalents" on the financial statements.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the Commission are presented on the financial statements as "investments." The Commission had no investments as of December 31, 2018.

The Scioto County Treasurer holds cash on behalf of the Commission within its cash and investment pool from which the Commission may withdraw in accordance with its by-laws. This balance is reported as "cash with fiscal agents" on the financial statements. Scioto County held \$0 in cash for the Commission as of December 31, 2018.

### **Prepaid Items**

Payments made to vendors for services that will benefit periods beyond December 31, 2018 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

### **Restricted Assets**

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted assets on the financial statements represent cash balances that are required to be segregated from the Commission's cash and cash equivalent pool by grant agreements.

### **Interfund Transactions**

During the course of normal operations, the Commission has transactions between funds. On the governmental funds balance sheet, receivables and payables resulting from short-term interfund loans are classified as an "interfund receivable" or an "interfund payable". These amounts are eliminated on the statement of net position.

The statements report transfers between funds as revenues in the seller funds and as expenditures in the purchasing funds. Subsidies from one fund to another without requirement for repayment are reported as interfund transfers. Governmental funds report interfund transfers as other financing sources/uses. The statements do not report repayments from funds responsible for particular disbursements to the funds initially paying the costs. Transfers among governmental activities are eliminated in the government-wide statement of activities.

### **Intergovernmental Revenues**

For governmental funds, intergovernmental revenues, such as contributions awarded on a nonreimbursement basis, are recorded as receivables and revenues when measurable and available.

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

**Capital Assets**

General capital assets consist primarily of land, building and improvements, office furnishings, and equipment, and generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The Commission maintains a capitalization threshold of \$5,000. The Commission does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

All reported capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| <u>Description</u>        | <u>Useful Lives</u> |
|---------------------------|---------------------|
| Building and Improvements | 50 years            |
| Furniture and Equipment   | 5 years             |

**Fund Balances**

Fund balance is divided into five classifications based primarily on the extent to which the Commission is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

*Nonspendable* – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

*Restricted* – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

*Committed* – This fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Commission's Board. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

*Assigned* – Amounts in the assigned fund balance classification are intended to be used by the Commission for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts would represent intended uses established by the Commission's Board.

## **Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

*Unassigned* – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In the other governmental funds, the unassigned classification is used only to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The Commission applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

### **Net Position**

Net position represents the difference between assets, liabilities, and deferred inflows and outflows of resources in the statement of net position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are legal limitations imposed on their use by Commission legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The Commission applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available. None of the Commission's restricted net position is restricted by enabling legislation.

### **Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

### **Deferred Inflows/Outflows of Resources**

In addition to assets, the statement of net position and balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Commission has deferred outflows of resources related to pensions and other postemployment benefits, which are further discussed in notes 4 and 5.

In addition to liabilities, the statement of net position and balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Commission has deferred inflows of resources related to pensions and other postemployment benefits, which are further discussed in notes 4 and 5.

### **Unearned Revenue**

The Commission reports unearned revenue on the government-wide and fund financial statements when monies have been received prior to being earned. The Commission reported no unearned revenue at December 31, 2018.

### **Budgetary Process**

Although a legal budget is not required, nor is a budgetary statement, budgets for expenditure of federal grants are submitted to and approved by the federal government agencies at the time the grants are awarded.

## Ohio Valley Regional Development Commission

### *Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

The Commission's annual budget is a management tool that assists its users in analyzing financial activity for its fiscal year ended December 31st.

The Commission's primary funding sources are federal and state grants which have grant periods that may or may not coincide with the Commission's fiscal year. These grants normally are for a twelve-month period; however, they can be awarded for periods shorter or longer than twelve months.

Because of the Commission's dependency of federal and state budgetary decisions, revenue estimates are based upon the best available information as to potential sources of funding. The Commission's annual budget differs from that of most local governments in two respects: (1) the uncertain nature of grant awards from other entities and (2) conversion of grant budgets to a fiscal year basis.

The resultant annual budget is subject to constant change within the fiscal year due to:

- Increases/decreases in actual grant awards from those estimates;
- Changes in grant periods;
- Unanticipated grant awards not included in the budget; and
- Expected grant awards that fail to materialize.

Management utilizes budgets for monitoring financial activity, but budgets are not formally approved by the Board. Therefore, budgetary comparison schedules are not presented.

### **Cost Allocation**

Uniform Guidance (2 CFR 200) provides for the establishment of cost pools which are to be distributed over the benefiting activity in some rational and equitable manner. The concept of indirect costs is introduced and defined as follows in Uniform Guidance (2 CFR 200): "Indirect costs are those (a) incurred for a common or joint purpose benefiting more than one cost objective, and (b) not readily assignable to the cost objective specifically benefited without effort disproportionate to the results achieved."

Uniform Guidance (2 CFR 200) also provides options for the allocation of indirect costs accumulated in an indirect cost pool.

The Commission chose the direct salary cost method because management has determined that this is the most equitable allocation method. Management and administrative salaries and indirect costs are allocated to the various programs using the actual rate as determined by the method shown in the Commission's cost allocation plan. The Commission's indirect cost rate for 2018 was 41.3029%.

### **Compensated Absences**

The Commission reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences" as interpreted by Interpretation No. 6 of the GASB, "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements".

Vacation time benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported in the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The Commission had no matured compensated absences payable at December 31, 2018.

## **Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

### **Accrued Liabilities and Long-term Obligations**

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources, and are reported as obligations of the funds. However, claims and judgments, compensated absences and net pension and OPEB liabilities that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Leases are recognized as a liability on the fund financial statements when due.

### **Pensions/Other Postemployment Benefits (OPEB)**

For purposes of measuring the net pension/OPEB liability, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

### **Note 2 – Deposits and Investments**

The deposits and investments of the Commission are governed by provisions of the Ohio Revised Code. In accordance with these statutes, only financial institutions located in Ohio are eligible to hold public deposits. The statutes also permit the Commission to invest monies in certificates of deposit, savings accounts, money market accounts, the State Treasurer's investment pool (STAR Ohio) and obligations of the United States government or certain agencies thereof. The Commission may also enter into repurchase agreements with any eligible depository for a period not exceeding 30 days. Public depositories must give security for all public funds on deposit. Deposits are either insured by the Federal Deposit Insurance Corporation; collateralized by securities specifically pledged by the financial institution to the Commission, or collateralized through the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. Repurchase agreements must be secured by the specific government securities upon which the repurchase agreements are based. These securities must be obligations of or guaranteed by the United States and mature or be redeemable within five years of the date of the related repurchase agreement. The market value of the securities subject to a repurchase agreement must exceed the value of the principal by 2 percent and be marked to market daily. State law does not require that securities maintained for public deposits and investments be held in the Commission's name. The Commission is prohibited from investing in any financial instrument, contract, or obligation whose value or return is based upon or linked to another asset or index, or both, separate from the financial instrument, contract, or obligation itself (commonly known as a "derivative"). The Commission is also prohibited from investing in reverse repurchase agreements.

### **Cash with Fiscal Agents**

The Scioto County Treasurer holds cash on behalf of the Commission within its cash and investment pool from which the Commission may withdraw in accordance with its by-laws. The amount held by the Scioto County Treasurer at December 31, 2018 was \$0.

### **Deposits**

Custodial credit risk for deposits is the risk that in the event of bank failure, the Commission will not be able to recover deposits or collateral securities that are in the possession of an outside party. The bank balance of \$1,047,903 at December 31, 2018 was covered by either federal depository insurance or OPCS.

The Commission has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

Eligible securities pledged to the Commission and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State

**Note 3 – Operating Leases**

In July 2016, the Commission entered into a lease agreement for a Xerox Work Center copier. The terms of this lease call for 60 monthly payments of \$495 beginning in August 2016 and ending July 2021. Additionally, the equipment can be purchased at fair market value at the end of the lease. The total paid to Xerox for this lease for 2018 was \$5,935.

In November 2016, the Commission entered into a lease agreement with Pitney Bowes for a postage machine. The terms of the lease call for 60 monthly payments of \$163. The total lease expense for 2018 was \$1,948.

Future minimum lease payments are:

|       |                 |
|-------|-----------------|
| 2019  | \$7,891         |
| 2020  | 7,891           |
| 2021  | <u>5,256</u>    |
| Total | <u>\$21,038</u> |

**Note 4 – Defined Benefit Pension Plan**

**Net Pension Liability**

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the Commission’s proportionate share of the pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of the pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the Commission’s obligation for this liability to annually required payments. The Commission cannot control benefit terms or the manner in which pensions are financed; however, the Commission does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). The retirement system may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement system to amortize unfunded liabilities within 30 years. If the amortization period

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

exceeds 30 years, the retirement system’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require, the retirement system to provide health care to eligible benefit recipients.

The proportionate share of the plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

**Plan Description – Ohio Public Employees Retirement System (OPERS)**

*Plan Description* - Commission employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit/defined contribution pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS’ fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information, including requirements for reduced and unreduced benefits):

| <b>Group A</b>   | <b>Group B</b>   | <b>Group C</b>   |
|--|--|--|
| Eligible to retire prior to January 7, 2013 or five years after January 7, 2013  | 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013  | Members not in other Groups and members hired on or after January 7, 2013  |
| <b>State and Local</b>   | <b>State and Local</b>   | <b>State and Local</b>   |
| <b>Age and Service Requirements:</b><br>Age 60 with 60 months of service credit or Age 55 with 25 years of service credit                        | <b>Age and Service Requirements:</b><br>Age 60 with 60 months of service credit or Age 55 with 25 years of service credit                              | <b>Age and Service Requirements:</b><br>Age 57 with 25 years of service credit or Age 62 with 5 years of service credit                          |
| <b>Traditional Plan Formula:</b><br>2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30 | <b>Traditional Plan Formula:</b><br>2.2% of FAS multiplied by years of service for the first 30 years and 2.5% service for the first 30 years and 2.5% | <b>Traditional Plan Formula:</b><br>2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35 |
| <b>Combined Plan Formula:</b><br>1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30     | <b>Combined Plan Formula:</b><br>1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30           | <b>Combined Plan Formula:</b><br>1% of FAS multiplied by years of service for the first 35 years and 1.25% for service years in excess of 35     |

Final average salary (FAS) represents the average of the three highest years of earnings over a member’s career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member’s career.

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a traditional plan benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment of the defined benefit portion of their pension benefit. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the purchase of a monthly defined benefit annuity from OPERS (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options.

*Funding Policy* - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

| <i>Statutory Maximum Contribution Rates</i> | <u>2018</u>   | <u>2017</u>   |
|---|---------------|---------------|
| Employer                                    | 14.0 %        | 14.0 %        |
| Employee*                                   | 10.0 %        | 10.0 %        |
| <br><i>Actual Contribution Rates</i>        |               |               |
| Employer:                                   |               |               |
| Pension**                                   | 14.0 %        | 13.0 %        |
| Post-employment Health Care Benefits**      | 0.0           | 1.0           |
| Total Employer                              | <u>14.0 %</u> | <u>14.0 %</u> |
| Employee                                    | <u>10.0 %</u> | <u>10.0 %</u> |

\*Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.

\*\*These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The Commission's contractually required contribution was \$57,424 for 2018.

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

The net pension liability for OPERS was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Commission's proportion of the net pension liability was based on the Commission's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share of the Commission's defined benefits pension plan and pension expense:

|   |                            |
|---|----------------------------|
| Proportionate Share of the Net Pension Liability: |                            |
| Current Measurement Date                          | 0.00276900%                |
| Prior Measurement Date                            | <u>0.00293900%</u>         |
| Change in Proportionate Share                     | <u><u>-0.00017000%</u></u> |
| Proportionate Share of the:                       |                            |
| Net Pension Liability                             | \$434,402                  |
| Pension Expense                                   | 106,389                    |

At December 31, 2018, the Commission reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   |                         |
|---|-------------------------|
| <i>Deferred Outflows of Resources</i>   |                         |
| Differences between expected and actual experience  | \$442                   |
| Changes of assumptions  | 51,914                  |
| Changes in proportion and differences between Commission's contributions and proportionate share of contributions | 15,193                  |
| Commission contributions subsequent to the measurement date   | <u>57,424</u>           |
| Total Deferred Outflows of Resources  | <u><u>\$124,973</u></u> |
| <i>Deferred Inflows of Resources</i>  |                         |
| Differences between expected and actual experience  | \$8,560                 |
| Net difference between projected and actual earnings on pension plan investments                                  | 93,261                  |
| Changes in proportion and differences between Commission contributions and proportionate share of contributions   | <u>17,802</u>           |
| Total Deferred Inflows of Resources   | <u><u>\$119,623</u></u> |

\$57,424 reported as deferred outflows of resources related to pension resulting from Commission contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

|                          |                          |
|--------------------------|--------------------------|
| Year Ending December 31: |                          |
| 2019                     | \$42,323                 |
| 2020                     | (15,419)                 |
| 2021                     | (50,173)                 |

| Total                    | <u><u>(\$52,074)</u></u> |

**Actuarial Assumptions**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2017 using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2017 are presented below.

|   |  |
|---|--|
| Wage Inflation  | 3.25 percent   |
| Future Salary Increases, including inflation<br>COLA or Ad Hoc COLA | 3.25 to 10.75 percent including wage inflation<br>Pre-1/7/2013 retirees: 3 percent, simple<br>Post-1/7/2013 retirees: 3 percent, simple<br>through 2018, then 2.15% simple |
| Investment Rate of Return   | 7.5 percent  |
| Actuarial Cost Method   | Individual Entry Age   |

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2017, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio is 16.82% for 2017.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2017 and the long-term expected real rates of return:

| Asset Class            | Target<br>Allocation | Weighted Average<br>Long-Term Expected<br>Real Rate of Return<br>(Arithmetic) |
|------------------------|----------------------|---|
| Fixed Income           | 23.00 %              | 2.20 %  |
| Domestic Equities      | 19.00                | 6.37  |
| Real Estate            | 10.00                | 5.26  |
| Private Equity         | 10.00                | 8.97  |
| International Equities | 20.00                | 7.88  |
| Other Investments      | 18.00                | 5.26  |
| Total                  | <u>100.00 %</u>      | <u>5.66 %</u>   |

*Discount Rate* The discount rate used to measure the total pension liability was 7.5 percent for the traditional plan and combined plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Commission's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate* The following table presents the Commission's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.5 percent, as well as what the Commission's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.5 percent) or one-percentage-point higher (8.5 percent) than the current rate:

|  | 1% Decrease<br>(6.50%) | Current<br>Discount Rate<br>(7.50%) | 1% Increase<br>(8.50%) |
|--|------------------------|-------------------------------------|------------------------|
| Commission's proportionate share<br>of the net pension liability | \$771,388              | \$434,402                           | \$153,458              |

**Note 5 – Defined Benefit OPEB Plan**

**Net OPEB Liability**

The net OPEB liability reported on the statement of net position represents a liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

The net OPEB liability represents the Commission's proportionate share of the OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of the OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the Commission's obligation for this liability to annually required payments. The Commission cannot control benefit terms or the manner in which OPEB are financed; however, the Commission does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement system may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of the plan's unfunded benefits is presented as a long-term net OPEB liability on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

**Plan Description – Ohio Public Employees Retirement System (OPERS)**

*Plan Description* – The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' CAFR referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

*Funding Policy* - The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2018, state and local employers contributed at a rate of 14.0 percent of earnable salary. This is the maximum employer contribution rate permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 1.0 percent during calendar year 2017. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2018 decreased to 0 percent for both plans. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2018 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Commission's contractually required contribution was \$0 for 2018.

**OPEB Liabilities, OPEB Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources**

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2016, rolled forward to the measurement date of December 31, 2017, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. The Commission's proportion of the net OPEB liability was based on the Commission's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share:

|  |                           |
|--|---------------------------|
| Proportionate Share of the Net OPEB Liability: |                           |
| Current Measurement Date                       | 0.002910%                 |
| Prior Measurement Date                         | <u>0.002939%</u>          |
| Change in Proportionate Share                  | <u><u>-0.0000290%</u></u> |
| Proportionate Share of the:                    |                           |
| Net OPEB Liability                             | \$316,005                 |
| OPEB Expense                                   | 25,854                    |

At December 31, 2018, the Commission reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

**Deferred Outflows of Resources**

|  |                        |
|--|------------------------|
| Differences between expected and actual experience | \$246                  |
| Changes of assumptions                             | <u>23,009</u>          |
| Total Deferred Outflows of Resources               | <u><u>\$23,255</u></u> |

**Deferred Inflows of Resources**

|   |                        |
|---|------------------------|
| Net difference between projected and actual earnings on OPEB plan investments                                   | \$23,540               |
| Changes in proportion and differences between Commission contributions and proportionate share of contributions | <u>2,294</u>           |
| Total Deferred Inflows of Resources   | <u><u>\$25,834</u></u> |

\$0 reported as deferred outflows of resources related to OPEB resulting from Commission contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending December 31:

|       |                         |
|-------|-------------------------|
| 2019  | \$4,136                 |
| 2020  | 4,136                   |
| 2021  | (4,966)                 |
| 2022  | <u>(5,885)</u>          |
| Total | <u><u>(\$2,579)</u></u> |

**Actuarial Assumptions**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2016, rolled forward to the measurement date of December 31, 2017. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2017, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio is 15.2 percent for 2017.

The allocation of investment assets with the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2017 and the long-term expected real rates of return:

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

| Asset Class                  | Target Allocation | Weighted Average Long-Term Expected Real Rate of Return (Arithmetic) |
|------------------------------|-------------------|--|
| Fixed Income                 | 34.00 %           | 1.88 %   |
| Domestic Equities            | 21.00             | 6.37   |
| Real Estate Investment Trust | 6.00              | 5.91   |
| International Equities       | 22.00             | 7.88   |
| Other investments            | 17.00             | 5.39   |
| Total                        | 100.00 %          | 4.98 %   |

*Discount Rate* A single discount rate of 3.85 percent was used to measure the OPEB liability on the measurement date of December 31, 2017. A single discount rate of 4.23 percent was used to measure the OPEB liability on the measurement date of December 31, 2016. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.50 percent and a municipal bond rate of 3.31 percent. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

*Sensitivity of the Commission's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate* The following table presents the Commission's proportionate share of the net OPEB liability calculated using the single discount rate of 3.85 percent, as well as what the Commission's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.85 percent) or one-percentage-point higher (4.85 percent) than the current rate:

|  | 1% Decrease<br>(2.85%) | Current<br>Discount Rate<br>(3.85%) | 1% Increase<br>(4.85%) |
|--|------------------------|-------------------------------------|------------------------|
| Commission's proportionate share of the net OPEB liability | \$419,826              | \$316,005                           | \$232,014              |

*Sensitivity of the Commission's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate* Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2018 is 7.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.25 percent in the most recent valuation.

|   | <u>1% Decrease</u> | <u>Current Health Care<br/>Cost Trend Rate<br/>Assumption</u> | <u>1% Increase</u> |
|---|--------------------|---|--------------------|
| Commission's proportionate share<br>of the net OPEB liability | \$302,349          | \$316,005   | \$330,110          |

**Note 6 – Capital Assets**

Capital asset activity for the Commission for the year ended December 31, 2018 was as follows:

|  | <u>Balance<br/>12/31/17</u> | <u>Additions</u> | <u>Disposals</u> | <u>Balance<br/>12/31/18</u> |
|--|-----------------------------|------------------|------------------|-----------------------------|
| Nondepreciable Capital Assets:         |                             |                  |                  |                             |
| Land                                   | \$62,500                    | \$0              | \$0              | \$62,500                    |
| Total Nondepreciable Capital Assets    | 62,500                      | 0                | 0                | 62,500                      |
| Capital Assets, Being Depreciated:     |                             |                  |                  |                             |
| Building and Improvements              | 809,708                     | 0                | 0                | 809,708                     |
| Furniture and Equipment                | 103,329                     | 15,426           | (13,535)         | 105,220                     |
| Total Capital Assets Being Depreciated | 913,037                     | 15,426           | (13,535)         | 914,928                     |
| Less Accumulated Depreciation For:     |                             |                  |                  |                             |
| Building and Improvements              | (72,822)                    | (16,194)         | 0                | (89,016)                    |
| Furniture and Equipment                | (87,588)                    | (12,994)         | 13,535           | (87,047)                    |
| Total Accumulated Depreciation         | (160,410)                   | (29,188)         | 13,535           | (176,063)                   |
| Total Capital Assets Being Depreciated | 752,627                     | (13,762)         | 0                | 738,865                     |
| Total Capital Assets, Net              | \$815,127                   | (\$13,762)       | \$0              | \$801,365                   |

\$2,694 of depreciation expense was allocated to transportation planning expense on the statement of activities. The remainder was allocated to economic and community development expense.

**Note 7- Risk Management**

The Commission is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Commission maintains commercial insurance covering each of the above risks of loss.

During 2018, the Commission contracted with Western Reserve for building, business personal property insurance, business automobiles, liability and medical expense coverage. Business personal property is insured with varying coverage dependent upon the specific property.

The office building is insured up to \$800,459. The Commission also has a fire legal liability limit of \$50,000 in place. Business personal property coverage is insured up to \$161,000.

Business automobiles are insured up to \$1,000,000 per accident. Liability and medical coverage has a \$1,000,000 per occurrence and \$2,000,000 aggregate limit.

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

Professional and general liability is protected by the Old Republic Insurance Company with a \$1,000,000 single occurrence and aggregate limit with a \$5,000 deductible per claim.

The Commission pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. The rate is calculated based on accident history and administrative costs.

Management believes that the coverage is adequate to preclude any significant uninsured risk exposure to the Commission. Settled claims have not exceeded coverage in any of the last three years. There has not been a significant reduction in coverage from the prior year.

**Note 8- Deferred Compensation**

Commission employees may participate in the Ohio Public Employees Deferred Compensation Plan. The Plan was created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. The Plan permits deferral of compensation until future years. According to the Plan, deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency.

**Note 9 – Contingencies**

**Grants**

The Commission receives financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the Commission at December 31, 2018.

**Litigation**

The Commission is not currently party to legal proceedings.

**Note 10 – Interfund Activity**

The Commission had the following interfund receivables and payables at December 31, 2018.

|   | <u>Receivables</u> | <u>Payables</u> |
|---|--------------------|-----------------|
| <i>Major Funds:</i>                                   |                    |                 |
| General   | \$54,018           | \$0             |
| EDA-Economic Development District                     | 0                  | 954             |
| ARC-Local Development District and Regional Work Plan | 0                  | 16,600          |
| ODOT Rural Transportation Planning Organization       | 0                  | 32,935          |
| EDA-Revolving Loan                                    | 0                  | 7               |
| USDA Revolving Loan                                   | 0                  | 951             |
| <br><i>Nonmajor Fund:</i>                             |                    |                 |
| EDA-OU-OVRDC Bobcat Network                           | 0                  | 2,571           |
| Total All Funds                                       | <u>\$54,018</u>    | <u>\$54,018</u> |

Interfund receivables and payables exist because obligations of other funds were paid by the General Fund in anticipation of receipt of grants or other funds after year-end.

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

The Commission had the following interfund transfers during the year ended December 31, 2018.

|   | Transfers Out   | Transfers In    |
|---|-----------------|-----------------|
| <i>Major Funds:</i>                                   |                 |                 |
| General   | \$46,613        | \$0             |
| EDA-Economic Development District                     | 0               | 32,820          |
| ARC-Local Development District and Regional Work Plan | 0               | 28              |
| ODOT Rural Transportation Planning Organization       | 0               | 13,765          |
| Total All Funds                                       | <u>\$46,613</u> | <u>\$46,613</u> |

The General Fund provided funds to the EDA-Economic Development District Fund, ARC-Local Development District and Regional Work Plan Fund, and ODOT Rural Transportation Planning Organization Fund as matching funds in accordance with grant agreements.

**Note 11 – Capital Leases – Lessee Disclosure**

The Commission entered into a lease purchase agreement on November 27, 2012 to finance the construction of a building. The proceeds from this lease were received in 2013 in the amount of \$300,000. The lease meets the criteria of a capital lease.

Capital lease payments have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. Principal payments in 2018 totaled \$14,762.

The following is a schedule of the future long-term minimum lease payments required under the capital lease and the present value of the minimum lease payments as of December 31, 2018.

| <u>Fiscal Year Ending December 31,</u>  |                  |
|---|------------------|
| 2019                                    | \$21,239         |
| 2020                                    | 21,239           |
| 2021                                    | 21,239           |
| 2022                                    | 21,239           |
| 2023                                    | 21,239           |
| 2024-2028                               | 106,195          |
| 2029-2032                               | <u>72,926</u>    |
| Total Minimum Lease Payments            | 285,316          |
| Less: Amounts Representing Interest     | <u>(57,950)</u>  |
| Present Value of Minimum Lease Payments | <u>\$227,366</u> |

**Note 12 – Long-Term Liabilities**

Changes in the Commission’s long-term obligations during 2018 were as follows:

|                                 | Amount<br>Outstanding<br>12/31/17* | Additions       | Deductions         | Amount<br>Outstanding<br>12/31/18 | Due Within<br>One Year |
|---------------------------------|------------------------------------|-----------------|--------------------|-----------------------------------|------------------------|
| <i>Governmental Activities:</i> |                                    |                 |                    |                                   |                        |

**Ohio Valley Regional Development Commission**

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

\*As restated. See note 14.

The capital lease obligation will be paid from various funds in accordance with the Commission’s cost allocation plan. Compensated absences will be paid from the funds from which employees’ salaries are paid. The Commission pays obligations related to employee compensation from the fund benefitting from their service.

**Note 13 – Fund Balances**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the Commission is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

|                                      | General   | EDA-<br>EDD | ARC-<br>LDDRWP | LDD-WD   | ODOT<br>RTPO |

**Note 14 – New Accounting Pronouncements/Restatement of Beginning Net Position**

For the fiscal year ended December 31, 2018, the Commission was required to implement Governmental Accounting Standards Board Statements No. 75, “Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions,” No. 85, “Omnibus 2017,” and No. 86, “Certain Debt Extinguishment Issues.”

GASB Statement No. 75 replaces the requirements of GASB Statement No. 45, “Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.” Among other things, Statement No. 75 requires governments to report a liability on the face of the financial statements for the OPEB that they provide and requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary

*Notes to the Basic Financial Statements*

*For the Year Ended December 31, 2018*

---

information about their OPEB liabilities. The Commission implemented GASB 75, which resulted in expanded note disclosures and required supplementary information, restatement of beginning net position, and recognition of additional deferred inflows and outflows of resources and liabilities.

GASB Statement No. 85 addresses issues found during the application of: 1) blending a component unit in circumstances in which the primary government is a business-type activity reporting in a single column for financial statement presentation; 2) reporting amounts previously reported as goodwill and “negative” goodwill; 3) classifying real estate held by insurance entities; 4) measuring certain money market investments and participating interest-earning investment contracts at amortized cost; 5) timing of the measurement of pension and other postemployment benefits (OPEB) liabilities and related expenditures recognized in financial statements prepared using the current financial resources measurement focus; 6) recognizing on-behalf payments for pensions or OPEB in employer financial statements; and 7) simplifying certain aspects of the alternative measurement method for OPEB. These changes were incorporated in the Commission’s fiscal year 2018 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 86 provides guidance for transactions in which cash and other monetary assets acquired with only existing resources, that is, resources other than the proceeds of refunding debt, are placed in an irrevocable trust for the sole purpose of extinguishing debt. Under Statement No. 7, “Advance Refundings Resulting in Defeasance of Debt,” government entities must consider debt to be considered defeased in substance when the debtor irrevocably places cash or other monetary assets acquired with refunding debt proceeds in a trust to be used solely for satisfying scheduled payments of both principal and interest of the defeased debt. Statement No. 86 generally follows the same requirements as Statement No. 7 when a government places cash and other monetary assets acquired with only existing resources in an irrevocable trust to extinguish the debt. However, in financial statements using the economic resources measurement focus, governments should recognize any difference between the reacquisition price (the amount required to be placed in the trust) and the net carrying amount of the debt defeased in substance using only existing resources as a separately identified gain or loss in the period of the defeasance.

Except as noted above, none of these Statements had an impact on the Commission’s financial statements or note disclosures. The implementation of GASB Statement No. 75 had the following effects on beginning net position.

|  |                    |
|--|--------------------|
| Net Position, As Reported, December 31, 2017 | \$1,714,197        |
| Restatements:                                |                    |
| GASB 75 Implementation:                      |                    |
| Deferred Outflows of Resources               | 4,123              |
| Net OPEB Liability                           | <u>(296,849)</u>   |
| Net Position, As Restated, January 1, 2018   | <u>\$1,421,471</u> |

Other than employer contributions subsequent to the measurement date, the Commission made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available.

The notes to the schedule of expenditures of federal awards are an integral part of this schedule.

**Ohio Valley Regional Development Commission**  
*Notes to the Schedule of Expenditures of Federal Awards*  
*For the Year Ended December 31, 2018*

---

**NOTE 1 - BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Ohio Valley Regional Development Commission (the Commission) under programs of the federal government for the year ended December 31, 2018. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Commission, it is not intended to and does not present the financial position or changes in net assets of the Commission.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments* (codified in 2 CFR Part 225) or the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be or may be limited as to reimbursement. The Commission has elected not to use the 10-percent de minimis indirect cost rate as allowed under Uniform Guidance.

**NOTE 3 - LOAN PROGRAMS WITH CONTINUING COMPLIANCE REQUIREMENTS**

The Commission has established a revolving loan program to provide low-interest loans to businesses to create jobs in the region. The Appalachian Regional Commission (ARC) and Economic Development Administration (EDA) have granted money for these loans to the Commission. The initial loan of this money is recorded as a disbursement on the accompanying schedule. Loans repaid, including interest, are used to make additional loans. Such subsequent loans are subject to certain compliance requirements imposed by the grantors. Such loans are included as expenditures on the schedule.

In 2016 the Commission took over the revolving loan program from Ohio Valley Resource Conservation & Development Council (OVRC&D) who had decided to end operations. This loan program was funded by the United States Department of Agriculture, Rural Development, Rural Business Enterprise Grant (USDA RD RBEG).

Collateral for these loans is determined on a case-by-case basis, but includes mortgages on the real estate and liens on business equipment and inventory.

2018 revolving loan fund expenditures are based upon the following calculations, per ARC, EDA, and USDA RD guidance

|  |       |
|--|-------|
| <b>US Dept. of Agriculture, Rural Development (USDA RD) CFDA #10.351</b> |       |
| Outstanding loan balance at the beginning of year                        | \$ -  |
| New loans disbursed during year  | -     |
| Total expended on eligible admin. costs                                  | 14    |
|  | \$ 14 |

*For the Year Ended December 31, 2018*  
(Continued)

| <b>Economic Development Administration (EDA) CFDA #11.307</b>      | <u><b>Total EDA</b></u> | <u><b>Federal Share</b></u> |
|--|-------------------------|-----------------------------|
| Outstanding loan balance at the end of year                        | \$ 200,209              | \$ 150,157                  |
| Cash and investment balance in the RLF at the end of year          | 302,264                 | 226,698                     |
| Administrative expenses paid out of the RLF income during the year | 3,602                   | 2,702                       |
|  | <u>\$ 506,075</u>       | <u>\$ 379,557</u>           |

*Federal Share Calculation:*

|  |            |
|--|------------|
| sum of all EDA dollars from all grantee's RLF awards     | \$ 300,000 |
| sum of all project dollars from all grantee's RLF awards | 400,000    |
| Federal share  | 75%        |

**Appalachian Regional Commission (ARC) CFDA #23.011**

|   |                   |
|---|-------------------|
| Outstanding loan balance at the beginning of year | \$ 496,472        |
| New loans disbursed during year                   | -                 |
| Total expended on eligible admin. costs           | <u>6,320</u>      |
|   | <u>\$ 502,792</u> |

**NOTE 4 - MATCHING REQUIREMENTS**

Certain Federal programs require that the Commission contribute non-Federal funds (matching funds) to support the Federally-funded programs. The Commission has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

**Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards***

Independent Auditor's Report

Executive Board  
Ohio Valley Regional Development Commission  
73 Progress Drive  
Waverly, Ohio 45690

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Ohio Valley Regional Development Commission, Pike County, Ohio (the Commission) as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated May 30, 2019, wherein we noted the Commission adopted new accounting guidance in Governmental Accounting Standards Board Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" and restated beginning net position as a result of this implementation.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Commission's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

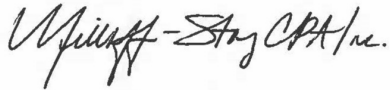

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance For Each Major Federal Program and on Internal Control Over Compliance  
Required by the Uniform Guidance**

Independent Auditor's Report

Executive Board  
Ohio Valley Regional Development Commission  
73 Progress Drive  
Waverly, Ohio 45690

**Report on Compliance for Each Major Federal Program**

We have audited Ohio Valley Regional Development Commission's (the Commission) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the Commission's major federal program for the year ended December 31, 2018. The Commission's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for the Commission's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Commission's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Commission's compliance.

**Opinion on Each Major Federal Program**

In our opinion, the Commission complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2018.

### **Report on Internal Control Over Compliance**

Management of the Commission is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Commission's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
