Canal Winchester, OH 43110

We have reviewed the independent auditor's report of the Canal Winchester Local School District, Franklin County, prepared by Ciuni & Panichi, Inc., for the audit period July 1, 1999 through June 30, 2000. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Canal Winchester Local School District is responsible for compliance with these laws and regulations.

Board of Education  
Canal Winchester Local School District  
Canal Winchester, Ohio

We have audited the accompanying general-purpose financial statements of the Canal Winchester Local School District as of and for the year ended June 30, 2000, as listed in the Table of Contents. These general-purpose financial statements are the responsibility of the Canal Winchester Local School District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Canal Winchester Local School District, as of June 30, 2000, and the results of its operations and the cash flows of its proprietary fund types and nonexpendable trust funds for the year then ended in conformity with generally accepted accounting principles

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2000 on our consideration of the Canal Winchester Local School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

**Note 1. Summary of Significant Accounting Policies**

The financial statements of the Canal Winchester Local School District (the District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

**A. Reporting Entity**

The District is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a local district as defined by Section 3311.0 of the Ohio Revised Code. The District operates under an elected Board of Education (5 members) and is responsible for the provision of public education to residents of the District.

Average daily membership (ADM) as of October 1, 1999, was 1,945. The District employed 147 certified employees and 75 non-certificated employees. The District is supervised by the Franklin County Educational Service Center, a separate entity.

The District provides regular, vocational and special instruction. The District also provides support services for the pupils, instructional staff, general and school administration, business and fiscal services, facilities acquisition and construction services, operation and maintenance of plant, student transportation, food services, extracurricular activities and non-programmed services.

The accompanying general purpose financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities and functions for which the District is financially accountable. This report includes all activities considered by management to be part of the District by virtue of Section 2100 of the Codification of Governmental Accounting and Financial Reporting Standards.

Section 2100 indicates that the reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity.

It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization; or (c) is obligated in some manner for the debt of the organization.

**Note 1. Summary of Significant Accounting Policies (continued)**

Management believes the financial statements included in this report represent all of the funds of the District over which the District is financially accountable.

**B. Fund Accounting**

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types."

Governmental Fund Types

Governmental funds are those through which most governmental functions typically are financed. Governmental Fund Types are accounted for on a flow of current financial resources measurement focus. Only current assets and current liabilities are generally included on their balance sheets. Their operating statements present sources (revenues and other financing sources) and uses (expenditures and other financing uses) of "available spendable resources" during the period.

General Fund - This fund is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the bylaws of the District and the laws of the State of Ohio.

Special Revenue Funds - These funds are used to account for the proceeds of specific revenue sources (other than amounts relating to expendable trusts or for major capital projects) that are legally restricted to expenditures for specific purposes.

Debt Service Fund - This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital Projects Funds - These funds are used to account for financial resources to be used for the acquisition or construction of major capital assets or facilities (other than those financed by proprietary and trust funds).

**Note 1. Summary of Significant Accounting Policies (continued)**

Proprietary Fund Types

Proprietary funds are used to account for the District's ongoing activities which are similar to those found in the private sector. The following are the proprietary fund types:

Enterprise Fund - This fund is used to account for the operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenue earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Internal Service Fund - This fund accounts for the financing of services provided by one department or agency to other departments or agencies of the District on a cost reimbursement basis.

Fiduciary Fund Types

Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds. The following are the fiduciary fund types:

Expendable Trust Funds - These funds account for resources, including both principal and earnings, which must be expended according to the provision of a trust agreement. Expendable trust funds are accounted for in essentially the same manner as governmental funds.

Nonexpendable Trust Funds - These funds account for trust principal which may not be expended. Only interest earned on the principal may be used for trust operations. Nonexpendable trust funds are accounted for in essentially the same manner as proprietary funds.

Agency Funds - These funds are purely custodial and thus do not involve measurement of results of operations.

Account Groups

Account Groups are financial reporting devices to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not affect expendable available financial resources. The following are the account groups:

General Fixed Assets Account Group - This account group is used to account for all of the District's fixed assets other than those accounted for in the Proprietary funds.

General Long-Term Debt Account Group - This account group is used to account for all of the District's long-term obligations other than those accounted for in the Proprietary Funds.

**C. Measurement Focus/Basis of Accounting**

The modified accrual basis of accounting is followed for Governmental and Expendable Trust Funds. The measurement focus is upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income determination. Under the basis of accounting:

- 1) Only current assets and current liabilities are generally included on their balance sheets.
- 2) Operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.
- 3) Revenues are recognized when they become both measurable and available to finance expenditures for the current period, which for the District is 60 days after year end.
  - a) Revenue accrued at the end of the year may include book fines, fees, interest and tuition.
  - b) Property taxes measurable as of June 30, 2000 and delinquent property taxes, whose availability is indeterminate, and are intended to finance fiscal year 2001 operations, have been recorded as deferred revenues.
- 4) Expenditures are recognized in the period in which the fund liability is incurred with the following exceptions: general long term obligation principal and interest are reported only when due; the current costs of accumulated unpaid vacation and sick leave are reported in the period in which they will be liquidated with available financial resources rather than in the period earned by employees.

The Proprietary Funds are accounted for on the accrual basis of accounting. Revenues are recognized in the period earned and expenses are recognized in the period incurred. Pursuant to GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, the District follows GASB guidance as applicable to proprietary funds and FASB Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements.

Agency fund assets and liabilities are recognized on the modified accrual basis of accounting.

**D. Budget and Budgetary Accounting**

All governmental and proprietary fund types are subject to annual expenditure budgets. The Board follows the procedures outlined below in establishing the expenditure budget data reported in the general purpose financial statements:

- 1) A Tax Budget of estimated cash receipts and disbursements is submitted to the County Auditor, as secretary of the County Budget Commission, by January 20 of each year, for the fiscal year commencing the following July 1st. The Board of Education normally adopts the Tax Budget at its regular board meeting in January.

**Year Ended June 30, 2000**

---

**Note 1. Summary of Significant Accounting Policies (continued)**

- 2) The County Budget Commission certifies its actions to the District by March 1st. As part of this certification, the District receives the Official Certificate of Estimated Resources which states the projected receipts of each fund. During the month of July, this certificate is amended to include any unencumbered balances from the preceding fiscal year.
- 3) An annual appropriation measure must be passed by the Board of Education by October 1st of each year for the period July 1st to June 30th. Unencumbered appropriations lapse at year-end and the encumbered appropriation balance is carried forward to the succeeding fiscal year and need not be reappropriated. The Board of Education usually adopts temporary appropriations at its regular board meeting in June. The Annual Appropriation Resolution is usually adopted at the September regular board meeting. The appropriation measure may be amended or supplemented during the year as new information becomes available. Individual building and/or departments may transfer funds within their budgets upon review and approval of the Treasurer, Superintendent and the Board of Education. Appropriating may not exceed estimated resources and expenditures may not exceed appropriations in any fund at the object level.
- 4) The District prepares its budget on a basis of accounting that differs from generally accepted accounting principles (GAAP). The actual results of operations are presented in the "Combined Statement of Revenues, Expenditures, and Changes in Fund Balances--Budget and Actual--All Governmental Fund Types" in accordance with the budget basis of accounting.

The major differences between the budgetary basis of accounting and GAAP are that:

- a) Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- b) Expenditures are recorded when encumbered (budget basis) as opposed to when the liability is incurred (GAAP basis);
- c) Encumbrances are recorded as the equivalent of expenditures (budget basis) as opposed to a reservation of fund balance for governmental fund types and as note disclosures in the proprietary fund types (GAAP basis); and
- d) For proprietary funds, the acquisition and construction of capital assets are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).

Encumbrances - As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of funds are recorded as the equivalent of expenditures on the budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds.

**E. Cash and Investments**

To improve cash management, cash received by the District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the combined balance sheet. During fiscal year 2000, investments were limited to State Treasury Asset Reserve of Ohio (STAR Ohio), repurchase agreements, certificates of deposit, treasury notes, federal agency securities and banker's acceptances.

Investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase are reported at cost or amortized cost. Except for investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase, investments are reported at fair value which is based on quoted market prices.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2000.

For the District, all investment earnings accrue to the General Fund, Special Revenue Funds, Capital Projects Funds, Expendable and Non-Expendable Trust Funds as authorized by board resolution. Interest income earned in fiscal year 2000 totaled \$513,487.

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

**F. Taxes Receivable**

The financial statements reflect taxes receivable as of June 30, 2000. GAAP permits the recognition of revenue from any property tax assessment in the fiscal period levied, provided the funds are "available." "Available" means then due, or past due and receivable within the current period or expected to be collected soon thereafter. While these taxes have been assessed, the majority are not due at June 30, 2000 and accordingly have been recorded as deferred revenue in the accompanying financial statements. Taxes that become delinquent remain recorded in deferred revenue until they are determined to be uncollectible.

**G. Inventories**

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventories are determined by physical count. The cost of the governmental fund type inventories are recorded as expenditures when purchased (purchase method) rather than when consumed. Inventories of proprietary funds consist of donated food, purchased food, and general supplies, and are expended when used.

**H. Prepaid Items**

Payments made to vendors for services that will benefit periods beyond June 30, 2000, are recognized under the nonallocation method. The nonallocation method of prepayments and deferrals is consistent with the basic governmental concept that only expendable financial resources are reported by a specific governmental fund. Payments for the prepaid items or deferrals are fully recognized as an expenditure in the year of payment. Under the nonallocation method no asset for the prepayment or deferral is created, and no expenditure allocation to future accounting periods is required.

**I. Fixed Assets**

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the general fixed assets account group. Fixed assets utilized in the proprietary funds are capitalized in the respective fund. All purchased fixed assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated fixed assets are valued at their estimated fair market value on the date received. Assets are disposed in accordance with District policy and guidelines. The District capitalizes all proprietary assets and governmental assets over a threshold of \$500, and those assets who by quantity have a material value. The District does not have any infrastructure.

The costs of normal maintenance and repairs, that do not add to the value of the asset or materially extend asset lives, are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

Assets in the general fixed assets account group are not depreciated. Depreciation of equipment and furnishings in the proprietary fund types is computed using the straight-line method over an estimated useful life of the assets varying from eight to twenty years.

**J. Intergovernmental Revenues**

For governmental funds, intergovernmental revenues, such as grants awarded on a non-reimbursement basis and entitlements, are recorded as receivables and revenues when measurable and available.

Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as non-operating revenues in the accounting period in which they are earned and become measurable.

The District currently participates in several State and Federal programs, categorized as follows:

Entitlements:

General Fund

State Foundation Program  
Homestead and Rollback Tax Relief Subsidy  
School Bus Funding

**K. Short-Term Interfund Receivables/Payables**

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds." Short-term interfund loans are classified as "interfund receivables/payables." At June 30, 2000, the District had \$642,919 in "Due to Other Funds" and \$3,384 in "Interfund Receivables/Payables."

**L. Advances to Other Funds**

Non-current portions of long-term interfund loan receivables are reported as advances and are offset equally by a fund balance reserve account which indicates that they do not constitute expendable available financial resources and therefore are not available for appropriation. At June 30, 2000 the District had no long-term interfund loans.

**Note 1. Summary of Significant Accounting Policies (continued)**

**M. Compensated Absences**

The District accounts for compensated absences in accordance with GASB Statement No. 16. Sick leave and other compensated absences with similar characteristics are accrued as a liability based on the sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments, as well as other employees who are expected to become eligible in the future to receive such payments. To calculate the liability, these accumulations are reduced to the maximum amount allowed as a termination payment. Accruals for those employees who are expected to become eligible in the future are based on assumptions concerning the probability that individual employees or class or group of employees will become eligible to receive termination payments. All employees with fifteen or more years of service were included in the calculation of the long-term compensated absences accrual amount.

Vacation leave and other compensated absences with similar characteristics are accrued as a liability as the benefits are earned by the employees if both of the following conditions are met: 1.) The employees' rights to receive compensation are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the employer and employee; and 2.) It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

For governmental funds, the District records a liability for accumulated unused vacation and sick leave when earned. The current portion of these unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the general long-term debt account group. In proprietary funds, compensated absences are expensed when earned with the amount reported as a fund liability.

**N. Contributed Capital**

Contributed capital is recorded in proprietary funds that have received capital grants or contributions from developers, customers or other funds. The assets are recorded at their fair market value on the date contributed. Depreciation on those assets acquired or constructed with contributed resources is expensed and closed to unreserved retained earnings at year end. Reserves represent those portions of fund equity not appropriate for expenditure or legally segregated for a specific future use. Designated fund balances represent tentative plans for future use of financial resources. At June 30, 2000, the District had \$301,998 in contributed capital.

**O. Long-Term Obligations**

Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

**Note 1. Summary of Significant Accounting Policies (continued)**

**P. Interfund Transactions**

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Non-recurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

**Q. Restricted Assets**

Restricted assets in the general fund represent cash and cash equivalents set aside to establish a budget stabilization reserve. This reserve is required by State statute and can be used only after receiving approval from the State Superintendent of Public Instruction. A fund balance reserve has also been established.

**R. Fund Balance Reserves**

Reserved Fund Balances indicate that portion of fund equity which is not available for current appropriation or is legally segregated for a specific use. Fund Balances are reserved for encumbrances, debt, endowment, budget stabilization and future appropriations.

The unreserved portions of fund equity reflected for the Governmental Funds are available for use within the specific purposes of those funds. The reserve for endowment is for the non-expendable principal of the trust funds.

**S. Memorandum Only - Total Columns**

Total columns on the general purpose financial statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

**T. Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Note 3. Cash and Investments**

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts. Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts, including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public money deposited with the institution.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;

**Note 3. Cash and Investments (continued)**

2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;

4. Bond and other obligations of the State of Ohio;

5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;

6. The State Treasurer's investment pool (STAR Ohio); and

7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty days from the date of purchase in an amount not to exceed twenty-five percent of the interim moneys available for investment at any one time.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, *Deposits With Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements*.

**Deposits:** At year end, the carrying amount of the District's deposits was (\$23,304) and the bank balance was \$100,116. Of the bank balance:

1. \$100,000 was covered by Federal Depository Insurance Corporation (FDIC); and

2. \$116 was uninsured and uncollateralized. Although all state statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

**Investments:** The District's investments are required to be categorized to give an indication of the level of risk assumed by the District at year end. Category 1 includes investments that are insured or registered or for which the securities are held by the District or its agent in the District's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the District's name. STAR Ohio is an unclassified investment since it is not evidenced by securities that exist in physical or book entry form.

**Note 4. Property Tax**

Property taxes are levied, assessed and collected on a calendar year basis. They include amounts levied against all real, public utility, and tangible personal property located in the District. Taxes collected on real property (other than public utility) in one calendar year are levied in the preceding calendar year on assessed values as of January 1 of that preceding year, the lien date. Assessed values are established by the Franklin County Auditor at 35% of appraised market value. All property is required to be revalued every six years. The last revaluation for the District was completed in 1993, an update was done in 1998. The next revaluation is scheduled for 2000. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31. If paid semi-annually, the first payment is usually due February 14, with the remainder payable June 20.

Taxes collected from tangible personal property (other than public utility) in one calendar year are levied in the prior calendar year on assessed values during and at the close of the most recent fiscal year of the taxpayer that ended on or before December 31 of that calendar year. Tangible personal property used in business (except for public utilities) is currently assessed for taxation purposes at 25% of its true value. Amounts paid by multi-county taxpayers may pay annually or semi-annually, the first payment is due April 30, with the remainder payable by September 28.

Public utility real and public utility personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Real property is assessed at 35% of market value and personal property is assessed at 100% of market value. Public utility property taxes are payable on the same dates as real property taxes described previously.

The Franklin County Treasurer collects property tax on behalf of the District. The Franklin County Auditor remits the collected taxes to the District. Tax settlements are made each March and August for real property taxes and each June and October for personal property.

Taxes available for advance and recognized as revenue, but not received by the District prior to June 30, are reflected as a reservation of fund balance; \$681,469 at June 30, 2000. The District is prohibited by law from appropriating the property taxes recognized as revenue in accordance with Ohio Revised Code Section 5705.35 since an advance of tax revenue was not received by the end of the fiscal year.

The full tax rate at the fiscal year ended June 30, 2000 for operations was \$47.10 per \$1,000 of assessed valuation. The assessed values of real and tangible personal property on which the fiscal year 2000 taxes were collected were as follows:

Real Property-Commercial/Industrial	\$ 31,208,080
Real Property-Residential/Agricultural	169,155,930
Real Property-Public Utilities	20,110
Personal Property-General	16,855,800
Personal Property-Public Utilities	<u>23,247,050</u>

**Note 5. Income Tax**

The District levies a voted tax of .75 percent for general operations on the income of residents and of estates. The tax was effective on January 1, 1991, and is a continuing tax. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the District after withholding amounts for administrative fees and estimated refunds. Income tax revenue is credited to the General Fund.

**Note 6. Receivables**

Receivables at June 30, 2000 consisted of taxes, accounts (miscellaneous), and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current guarantee of Federal funds.

A summary of the principal items of Intergovernmental Receivables follows:

**Note 8. Defined Benefit Pension Plans**

A. School Employees Retirement System

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State Statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand alone financial report that includes financial statements and required supplementary information for SERS. The report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215-3634 or by calling (614) 222-5853.

Plan members are required to contribute 9 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The District's contributions for pension obligations to SERS for the fiscal years ended June 30, 2000, 1999, and 1998 were \$232,044, \$153,924, and \$128,874, respectively; 44 percent has been contributed for fiscal year 2000 and 100 percent for fiscal years 1999 and 1998. \$144,765 representing the unpaid contribution for fiscal year 2000, including the surcharge, is recorded as a liability within the respective funds and the general long-term obligations account.

B. State Teachers Retirement System

The District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771, or by calling (614) 227-4090.

Plan members are required to contribute 9.3 percent of their annual covered salary and the District is required to contribute 14 percent. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The District's contributions for pension obligations to STRS for the fiscal years ended June 30, 2000, 1999, and 1998 were \$904,896, \$714,012 and \$583,500, respectively; 83 percent has been contributed for fiscal year 2000 and 100 percent for fiscal years 1999 and 1998. \$150,817 representing the unpaid contribution for fiscal year 2000, is recorded as a liability within the respective funds.

C. Social Security

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System /State Teachers Retirement System. As of June 30, 2000, three members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

**Note 9. Postemployment Benefits**

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired classified employees and their dependents through the School Employees Retirement System (SERS). Coverage includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State Statute. Both systems are funded on a pay as you go basis.

All STRS benefit recipients and sponsored dependents are eligible for health care coverage. Pursuant to the Revised Code (R.C.) the STRS Board has discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 1999, the STRS Board allocated employer contributions equal to 8 percent of covered payroll to the Health Care Reserve Fund. For the District, this amount equaled \$517,083 for fiscal year 2000. STRS pays health care benefits from the Health Care Reserve Fund. The balance in the Health Care Reserve Fund was \$2.783 billion at June 30, 1999 (the latest information available). For the year ended June 30, 1999, net health care costs paid by STRS were \$249,929,000 and STRS had 95,796 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, disability, and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

For the fiscal year ended June 30, 1999, employer contributions to fund health care benefits were 6.3 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2000, the minimum pay has been established at \$12,400. The surcharge rate added to the unallocated portion of the 14 percent employer contribution rate provides for maintenance of the asset target level for the health care fund. For the District, this amount equaled \$133,163 during the 2000 fiscal year.

The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care at June 30, 1999, (the latest information available) were \$126,380,984 and the target level was \$189.6 million. At June 30, 1999, the Retirement System's net assets available for payment of health care benefits was \$188.0 million. The number of participants currently receiving health care benefits is approximately 51,000.

**Note 10. Compensated Absences**

The criteria for determining vested vacation and sick leave components are derived from negotiated agreements and State laws. Only administrative and support personnel who are under a full year contract (11 and 12 months) are eligible for vacation time. The administrators accumulate vacation based upon the following schedule:

Eleven Month Administrators		Twelve Month Administrators	
Years Service	Vacation Days	Years Service	Vacation Days
0-15	15	0-15	20
16-beyond	20	16-beyond	25

One to ten days may be carried over per year without Board approval up to a total of 35 days. Additional days carried over require Board approval.

Classified employees earn ten to twenty days of vacation per year, depending upon length of service. Classified employees may carry one to ten days over per year without Board approval to a total of twenty days. Additional days carried over require Board approval.

The classified personnel accumulate vacation based on the following schedule:

Years Service	Vacation Days
0-5	10
6-10	12
11-15	15
16-beyond	20

Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment.

Each employee earns sick leave at the rate of one and one-fourth days per month. Sick leave shall accumulate during active employment on a continuous year-to-year basis. Maximum sick leave accumulation for all employees is 210 days.

For all employees, retirement severance is paid to each employee retiring from the District at a per diem rate of the annual salary at the time of retirement if the employee has been employed by the District for a minimum of ten consecutive years at the time of retirement. Any employee receiving retirement severance pay shall be entitled to a dollar amount equivalent to one-fourth of all accumulated sick leave credited to that employee up to forty-five days. The District's liability for Compensated Absences at June 30, 2000, is \$536,014.

For certified and classified employees, separation severance is paid to each employee upon resignation from the District at a per diem rate of the annual salary at the time of retirement if the employee has been employed by the District for a minimum of fifteen consecutive years at the time of retirement.

Any employee receiving separation severance pay shall be entitled to a dollar amount equivalent to one-fourth of all accumulated sick leave credited to that employee up to forty-five days.

**Note 11. Risk Management**

A. General Risk

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The District has addressed these various types of risk by purchasing a comprehensive insurance policy through commercial carriers.

General liability insurance is maintained in the amount of \$1,000,000 for each occurrence and \$5,000,000 in the aggregate. The District maintains fleet insurance in the amount of \$1,000,000 for any one accident or loss.

The District maintains replacement cost insurance on buildings and contents in the amount of \$32,274,620.

B. Workers' Compensation-Public Entity Risk Pool

The District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect and the Immediate Past President of the Ohio School Boards Association (OSBA). The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control and actuarial services to the GRP.

C. Health Insurance

The District has established an internal service "self-insurance" fund, in conjunction with a formalized risk management program, in an effort to minimize risk exposure and control claims and premium costs. This self-insurance fund was established for the purpose of accumulating balances sufficient to self-insure basic medical, dental, vision, and prescription drug coverage and permit excess umbrella coverage for claims over a pre-determined level. Board and employee premium contributions are determined by negotiated agreement. Amounts are paid into this fund from the General Fund, Lunchroom Fund, and certain Special Revenue Funds (Grants). Claims payments are made on an as-incurred basis, thus no "reserve" remains with the insurance carrier. Effective July 1, 1997, the District terminated the independent carrier full indemnity insurance for basic medical, and prescription drug coverage and joined the South Central Ohio Insurance Consortium. The District maintains an independent self-insurance fund for dental coverage.

**Note 11. Risk Management (continued)**

Expenses for claims are recorded as other expenses when it is probable that an asset has been impaired or a liability has been incurred and the amount of loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. Liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time are reported at their present value using expected future investment assumptions as determined by the third party administrator. These liabilities are reported at their present value of \$182,575, at June 30, 2000.

A summary of changes in self-insurance claims for the year ended June 30, 2000:

	<u>2000</u>	<u>1999</u>
Claim Liabilities at Beginning of Year	\$ 116,767	\$ 89,214
Incurred Claims	962,381	803,825
Claims Paid	<u>(896,573)</u>	<u>(776,272)</u>
Claim Liabilities at End of Year	<u>\$ 182,575</u>	<u>\$ 116,767</u>

SCOIC currently includes six member school districts. Contributions are determined by the consortium's board of directors and are remitted monthly to the consortium's fiscal agent, who then pays all incurred claims. Thus actual cash "reserves" are held by the fiscal agent.

Professional Risk Management, Inc., a third party administrator, services all health/medical claims submitted by employees. An excess coverage insurance policy covers individual claims in excess of \$40,000 and \$2,000,000 lifetime maximum, per employee consortium wide.

**Note 14. Jointly Governed Organization**

Metropolitan Educational Council - MEC is a not for profit educational council whose primary purpose and objective is to contribute to the educational services available to school districts in Franklin County and surrounding areas by cooperative action membership. MEC is established under the Ohio Revised Code chapter 167 as a regional council of governments. The governing board of MEC consists of a representative from each of the Franklin County districts. Districts outside of Franklin County are associate members and each county selects a single district to represent them on the governing board. MEC is its own fiscal agent. MEC provides computer services to the District.

The District has an equity interest that is explicit and measurable in that the joint venture agreement stipulates that the participants have a future claim to the net resources of MEC upon dissolution. MEC is not accumulating significant financial resources nor is it experiencing fiscal stress that may cause an additional financial benefit to or burden on members in the future.

Financial information can be obtained from the offices of the Director, Metropolitan Educational Council, 6100 Channingway Blvd., Columbus, Ohio.

South Central Ohio Insurance Consortium - The South Central Ohio Insurance Consortium (SCOIC) is a Regional Council of Governments organized under Ohio Revised Code Chapter 167. The SCOIC's primary purpose and objective is establishing and carrying out a cooperative health program for its member organizations. The governing board consists of the superintendent or other designee appointed by each of the members of the SCOIC. The District does not have an ongoing financial interest in or ongoing financial responsibility for the SCOIC other than claims paid on behalf of the District for District employees.

**Note 15. Fund Deficits**

Retained Earnings:

Retained Earnings at June 30, 2000, included the following individual fund deficits:

Enterprise Fund: Lunchroom Fund (\$113,583)

Internal Service Fund: Employee Benefit Self-Insurance (\$137,691)

These deficits are a result of recognition of accruals. The general fund is liable for any deficit in the funds and provides operating transfers when cash is required, not when accruals occur.

**Note 16. School Funding Decision**

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio school funding plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the State's Legislature to design a plan to remedy the perceived defects in the system. Declared unconstitutional was the State's "school foundation program," which provides significant amounts of monetary support to the District. During the fiscal year ended June 30, 2000, the District received \$3,976,316 of school foundation support for its General Fund.

The Court declared the Classroom Facilities Program unconstitutional, because, in the Court's opinion, the program had not been sufficiently funded by the State. The Classroom Facilities Program provided money to build schools and furnish classrooms. As of June 30, 2000, the District had received a total of \$3,816,425 under this program.

Since the Supreme Court ruling, numerous pieces of legislation have been passed by the State General Assembly in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County reviewed the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, "...the mandate of the [Ohio] Constitution has not been fulfilled." The Court's majority recognized efforts by the Ohio General Assembly taken in response to the Court's March 24, 1997, decision, however, it found seven "...major areas warrant further attention, study, and development by the General Assembly...", including the State's reliance on local property tax funding, the state's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took the place of the unconstitutional emergency school loan assistance program.

The Court decided to maintain jurisdiction over these issues and continued the case at least until June 15, 2001.

As of the date of these financial statements, the District is unable to determine what effect, if any, this ongoing litigation will have on its future State funding under these programs and on its financial operations.

**Note 17. Contingencies**

A. Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2000.

B. Litigation

The District is not a party to any legal proceedings seeking damages or injunctive relief generally incidental to its operations and pending at June 30, 2000.

**Note 18. Statutory Reserves**

The District is required by state law to set aside certain general fund revenue amounts, as defined, into various reserves. During the fiscal year ended June 30, 2000, the reserve activity was as follows:

	Textbook Acquisition	Capital Acquisition	Budget Stabilization	Total

Canal Winchester, Ohio

We have audited the financial statements of the Canal Winchester Local School District as of and for the year ended June 30, 2000, and have issued our report thereon dated October 31, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Canal Winchester Local School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted one immaterial instance of noncompliance that we have reported to management of Canal Winchester Local School District in a separate letter dated October 31, 2000.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Canal Winchester Local School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted another matter involving the internal control over financial reporting that does not require inclusion in this report, that we have reported to management of Canal Winchester Local School District in a separate letter dated October 31, 2000.

This report is intended solely for the information and use of the Canal Winchester Local School District's Board of Education, the Canal Winchester Local School District's Business Advisory Commission, and is not intended to be and should not be used by anyone other than these specified parties.
