We have reviewed the independent auditor's report of the Eastland Joint Vocational School District, Franklin County, prepared by Michael A. Balestra, CPA, Inc., for the audit period July 1, 1999 through June 30, 2000. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Eastland Joint Vocational School District is responsible for compliance with these laws and regulations.

JIM PETRO Auditor of State

Independent Auditors' Report

Members of the Board Eastland Joint Vocational School District 4300 Amalgamated Place, P.O. Box 419 Groveport, Ohio 43125-0419

We have audited the accompanying general-purpose financial statements of the Eastland Joint Vocational School District, Franklin County, as of and for the year ended June 30, 2000, as listed in the table of contents. These general-purpose financial statements are the responsibility of the Eastland Joint Vocational School District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Eastland Joint Vocational School District, as of June 30, 2000, and the results of its operations and cash flows of its proprietary fund types for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2000 on our consideration of the Eastland Joint Vocational School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements of Eastland Joint Vocational School District, taken as a whole. The accompanying schedule of federal awards expenditures is presented for purpose of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the general-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

Michael A. Balestra, CPA, Inc. Michael A. Balestra, CPA, Inc.

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Eastland Vocational School District (the School District) is a joint vocational school district organized under section 3311.18 of the Ohio Revised Code. The School District provides vocational education for 16 (15 statute and one contracted) school districts serving an eligible student population of 2,071 throughout 786 square miles of central Ohio, including Franklin, Fairfield, Pickaway, Licking, Hocking and Perry counties. A nine-member Board of Education governs the School District, which is supported by a 1.20 mill continuing operating levy passed in 1971 assessed for over 3.4 billion dollar tax duplicate, a 0.8 mill permanent operating levy passed in 1998 and by funds from the State of Ohio Joint Vocational School Foundation Program. The School District fosters cooperative relationships with business and industry, professional organizations, participating school districts, and other interested, concerned groups and organizations to consider, plan, and implement educational programs designed to meet the common needs and interest of students.

Reporting Entity

The School District is a jointly governed organization, legally separate from other organizations. The Board of Education of the School District consists of nine appointed members as follows: three from the Franklin County Educational Service Center, two from the Fairfield County Educational Service Center, and one each from the Pickaway County Educational Service Center, Whitehall City School District, Gahanna-Jefferson City School District, and Reynoldsburg City School District. No school district appoints a voting majority of the Board. None of the school districts that appoint Board Members are financially accountable for the School District.

The reporting entity consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Eastland Joint Vocational School, this includes general operations, food service, adult continuing education and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District has no component units.

Entities which perform activities within the School District's boundaries for the benefit of its residents are excluded from the accompanying financial statements because the School District is not financially accountable for these entities nor are they fiscally dependent on the School District. These entities include the City of Groveport and participating local / city school districts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The School District is associated with an organization which is defined as an insurance purchasing pool. This organization is the Ohio School Boards Association Worker's Compensation Group Rating Plan. This organization is presented in Note 18 to the general purpose financial statements.

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its proprietary activities provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis Of Presentation - Fund Accounting

The School District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special restrictions or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities not recorded in the funds because they do not directly affect net available expendable resources.

For financial statement presentation purposes, the various funds of the School District are grouped into the following generic fund types under the broad fund categories governmental, proprietary and fiduciary.

Governmental Fund Types:

Governmental funds are those through which most governmental functions of the School District are financed. The acquisition, use and balances of the School District's expendable financial resources and the related current liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds.

General Fund - The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditure for specified purposes.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term obligation principal, interest, and related costs.

Proprietary Fund Types:

Proprietary funds are used to account for the School District's ongoing activities which are similar to those found in the private sector. The following are the School District's proprietary fund types:

Enterprise Funds - Enterprise funds are used to account for School District activities that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Internal Service Fund - The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis Of Presentation - Fund Accounting (Continued)

Fiduciary Fund Types:

Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The School District's only fiduciary funds are agency funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Account Groups:

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

General Fixed Assets Account Group - This account group is established to account for all fixed assets of the School District, other than those accounted for in the proprietary finds.

General Long-Term Obligations Account Group - This account group is established to account for all long-term obligations of the School District except those accounted for in the proprietary funds.

B. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary funds operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

The modified accrual basis of accounting is followed for the governmental and agency funds. Under this basis, revenues are recognized in the accounting period when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period for the School District is sixty days after fiscal year end.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available for advance, tuition, student fees and charges for services.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Measurement Focus and Basis of Accounting (Continued)

The School District reports deferred revenues on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Property taxes measurable as of June 30, 2000, and delinquent property taxes, whose availability is indeterminable and which are intended to finance fiscal year 2001 operations, have been recorded as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

The accrual basis of accounting is utilized for reporting purposes by the proprietary fund types. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as deferred revenue.

C. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education. Budgetary allocations at the function and object level within all funds are made by the School District Treasurer.

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Franklin County Budget Commission for rate determination.

Estimated Resources:

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure.

C. Budgetary Process (Continued)

Estimated Resources: (Continued)

On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2000.

Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education at the fund level of expenditure, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant.

The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

Encumbrances:

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds and reported in the notes to the financial statements for proprietary funds.

Lapsing of Appropriations:

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

D. Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the combined balance sheet.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Cash and Cash Equivalents (Continued)

During fiscal year 2000, investments were limited to U. S. Government Securities, repurchase agreements, and STAR Ohio. Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements are reported at cost.

The School District has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during fiscal year 2000. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2000

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2000 amounted to \$586,645, which includes \$90,203 assigned from other School District funds.

For purposes of the combined statement of cash flows and for presentation of the combined balance sheet, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are considered to be cash equivalents.

E. Inventory

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Reported material and supplies inventory is equally offset by a fund balance reserve in the governmental funds which indicates that it does not constitute available expendable resources even though it is a component of net current assets. Inventories of proprietary funds consist of donated food, purchased food, non-food supplies, and school supplies held for resale, and expensed when used.

F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2000, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is recorded in the year in which services are consumed.

G. Fixed Assets and Depreciation

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and the related assets are reported in the general fixed assets account group. Fixed assets utilized in the proprietary funds are capitalized in the fund. All fixed assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five hundred dollars. The School District does not have any infrastructure.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Improvements are capitalized. Improvements to fund fixed assets are depreciated over the remaining useful lives of the related fixed assets. Assets in the general fixed assets account group are not depreciated. Depreciation of furniture and equipment in the proprietary fund types is computed using the straight-line method over an estimated useful life of ten to twenty-five years.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as non-operating revenues in the accounting period in which they are earned and become measurable.

The School District currently participates in several State and Federal programs, categorized as follows:

Entitlements

General Fund

State Foundation Program State Property Tax Relief

Non-Reimbursable Grants

Special Revenue Funds

Career Development

Education Management Information Systems

Other Grants

School Net

Buddy System

Tech Prep

Eisenhower Grant

Adult service Center

Young Women in Science

Learn and Service America

School - To - Work Grant

Kids "N" Camp

Workforce Development

Vocational Education (Perkins)

School Improvement (Venture Capital)

Consumer Economic Education

Adult Basic Education

Innovative Education Program Strategy

Data Communication

Agency Fund

Pell Grant

Reimbursable Grants

General Fund

Vocational Education Travel/Salary

Proprietary Funds

National School Lunch Program

Grants and entitlements received in governmental funds amounted to 39 percent of governmental fund revenue during the 2000 fiscal year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Interfund Assets/Liabilities

Short-term interfund loans are classified as "interfund receivables" and "interfund payables".

J. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy.

For governmental funds, the School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service. The School District records a liability for accumulated unused sick leave for all employees after ten years of current service with the School District. The current portion of unpaid compensated absences is the amount expected to be paid using available expendable resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the general long-term obligations account group. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

K. Accrued Liabilities and Long-term Obligations

In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, compensated absences and contractually required pension contributions that will be paid from the governmental funds are reported as a liability in the general long-term obligations account group to the extent that they will not be paid with current available expendable financial resources. Payments made more than sixty days after year end are considered not to have used current financial resources. Capital leases, long term notes payable, and loans payable are reported as a liability of the General Long-Term Obligations Account Group until due.

Long-term obligations financed by proprietary funds are reported as liabilities in the appropriate funds.

L. Interfund Transactions

Quasi-external transactions are accounted for as revenues and expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

M. Restricted Assets

Restricted assets in the General Fund represent cash and cash equivalents whose use is limited by legal requirements. Restricted assets include amounts required by statute to be set-aside by the School District for the purchase of textbooks, and the creation of a reserve for budget stabilization. See Note 20 for additional information regarding set-asides.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Fund Balance Reserves

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, inventories of supplies and materials, property taxes, textbooks and budget stabilization.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute. The reserve for budget stabilization represents money required to be set-aside by statute to protect against cyclical changes in revenues and expenditures.

O. Contributed Capital

Contributed capital represents resources from other funds, other governments, and private resources provided to proprietary funds that is not subject to repayment. These assets are recorded at their fair market value on the date donated. Depreciation on those assets acquired or constructed with contributed resources is expensed and closed to unreserved retained earnings at year end.

P. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Q. Total Columns on General Purpose Financial Statements

Total columns on the general purpose financial statements are captioned "Totals - (Memorandum Only)" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE 3 - PRIOR YEAR RESTATEMENTS

During fiscal year 1999, the District recorded capital leases as operating leases. Also during the prior year, the School District established a \$500 threshold for capitalized fixed assets. These changes had the following effects on Retained Earnings/Account Group Balance At June 30, 1999.

| | Amount at June 30, 1999 | Restated Amount |
|---|----------------------------|--------------------|
| Enterprise Funds | \$810,537 | \$784,825 |
| General Fixed Assets Account Group | 17,980,784 | 16,437,710 |
| General Long-Term Obligations Account Group | 2,446,984 | 2,497,243 |

NOTE 4 - ACCOUNTABILITY AND COMPLIANCE

A. Accountability

Fund balances/retained earnings at June 30, 2000, included the following individual fund deficits:

| Special Revenue Funds | Amounts |
|------------------------------------|---------|
| Consumer Economic Education | \$951 |
| Career Education | 19,259 |
| Adult Vocational Education | 4,050 |
| Teacher Development | 2,751 |
| Vocational Education Special Needs | 67,656 |
| Subsidy Grant | 11,651 |
| Enterprise Fund | |
| Uniform School Supplies | 41,780 |

The deficits in these funds are due to adjustments for accrued liabilities, and the timing of grant awards. The general fund is liable for these deficits and provides operating transfers when cash is required, not when accruals occur.

NOTE 5 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations and changes in fund balance/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Budget Basis)-All Governmental Fund Types and the Combined Statement of Revenues, Expenses and Changes in Fund Equity - Budget and Actual (Budget Basis) - All Proprietary Fund Types are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and as note disclosures in the proprietary fund types (GAAP basis).
- 4. For proprietary funds, the acquisition and construction of capital assets are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).
- 5. Advances-In and Advances-Out are operating transactions (budget) as opposed to balance sheet transactions (GAAP).

NOTE 5 - BUDGETARY BASIS OF ACCOUNTING (Continued)

The following tables summarize the adjustments necessary to reconcile the GAAP and budgetary basis statements by fund type.

Excess of Revenues and Other Financing Sources Over Expenditures and Other Financing Uses All Governmental Fund Types

| | General | Special Revenue |
|----------------------|-------------|--------------------|
| GAAP Basis | \$3,672,195 | \$221,622 |
| Adjustments: | | |
| Revenue Accruals | 312,725 | (22,412) |
| Expenditure Accruals | (249,792) | 30,798 |
| Advances | (284,783) | 159,283 |
| Encumbrances | (1,556,657) | (198,094) |
| Budget Basis | \$1,893,688 | \$191,197 |

Net Loss/Excess of Revenues Over (Under) Expenses, Advances and Transfers All Proprietary Fund Types

| | Enterprise | Internal Service |
|----------------------------------|------------|------------------|
| GAAP Basis | (\$61,129) | (\$173,819) |
| Adjustments: | | |
| Revenue Accruals | 107,509 | (67,615) |
| Expense Accruals | 177,524 | 7,468 |
| Loss on Disposal of Fixed Assets | 23,934 | 0 |
| Depreciation Expense | 67,846 | 0 |
| Advances | 75,000 | 50,500 |
| Encumbrances | (357,388) | 0 |
| Budget Basis | \$33,296 | (\$183,466) |

NOTE 6 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demand on the treasury. Such monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

NOTE 6 - DEPOSITS AND INVESTMENTS (Continued)

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

- 1. United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal and interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or
 instrumentality, including but not limited to, the federal national mortgage association, federal home loan
 bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage
 association, and student loan marketing association. All federal agency securities shall be direct issuances
 of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bond and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred eighty days
 from the date of purchase in an amount not to exceed twenty-five percent of the interim monies available for
 investment at any one time; and
- 8. Under limited circumstances, debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

NOTE 6 - DEPOSITS AND INVESTMENTS (Continued)

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Cash on Hand At year end, the School District had \$650 in undeposited cash on hand which is included on the balance sheet of the School District as part of "equity in pooled cash and cash equivalents."

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, "Deposits With Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements."

Deposits At fiscal year end the carrying amount of the School District's deposits was (\$223,556) and the bank balance was \$102,818. Of the bank balance \$100,000 was covered by federal depository insurance and \$2,818 was uninsured and uncollateralized. Although the securities serving as collateral were held by the pledging financial institution's trust department in the School District's name and all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the School District to a successful claim by the Federal Deposit Insurance Corporation.

Investments The School District's investments are required to be categorized to give an indication of the level of risk assumed by the School District at fiscal year end. Category 1 includes investments that are insured or registered or for which the securities are held by the School District or its agent in the School District's name. Category 2 includes uninsured and unregistered investments which are held by the counterparty's trust department or agent in the School District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the School District's name. STAR Ohio is an unclassified investment since it is not evidenced by securities that exist in physical or book entry form.

| | Category 1 | Carrying/Fair Value |
|----------------------------|-------------|------------------------|
| Repurchase Agreement | \$0 | \$735,679 |
| STAR Ohio | 0 | 3,828,974 |
| U.S. Government Securities | 8,516,386 | 8,516,386 |
| Total | \$8,516,386 | \$13,081,039 |

The classification of cash and cash equivalents, and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9, "Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting."

NOTE 6 - DEPOSITS AND INVESTMENTS (Continued)

A reconciliation between the classifications of cash and cash equivalents and investments on the combined financial statements and the classifications of deposits and investments presented above per GASB Statement No. 3 is as follows:

| | Cash and Cash Equivalents/ Deposits | Investments |
|----------------------------|---|--------------|
| GASB Statement No. 9 | \$12,858,133 | \$0 |
| Cash on Hand | (650) | 0 |
| Investments: | | |
| Repurchase Agreement | (735,679) | 735,679 |
| STAR Ohio | (3,828,974) | 3,828,974 |
| U.S. Government Securities | (8,516,386) | 8,516,386 |
| GASB Statement No. 3 | (\$223,556) | \$13,081,039 |

NOTE 7 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property located in the School District. Property tax revenue received during calendar 2000 for real and public utility property taxes represents collections of calendar 1999 taxes. Property tax payments received during calendar 2000 for tangible personal property (other than public utility property) are for calendar 2000 taxes.

2000 real property taxes are levied after April 1, 2000, on the assessed value as of January 1, 2000, the lien date. Assessed values are established by State law at thirty-five percent of appraised market value. First half 2000 real property taxes are collected in and intended to finance fiscal year 2001.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at thirty-five percent of true value. 2000 public utility property taxes became a lien December 31, 1999, are levied after April 1, 2000 and are collected in 2001 with real property taxes.

2000 tangible personal property taxes are levied after April 1, 1999, on the value as of December 31, 1999. Collections are made in 2000. Tangible personal property assessments are twenty-five percent of true value.

Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20.

NOTE 7 - PROPERTY TAXES (Continued)

The assessed values upon which fiscal year 2000 taxes were collected are:

| | 1999 Second- Half Collections | | 2000 First Half Collection | |
|--|----------------------------------|---------|-------------------------------|---------|
| | Amount | Percent | Amount | Percent |
| Agricultural/Residential and Other Real Estate | \$3,316,280,590 | 83.40% | \$4,132,663,930 | 86.01% |
| Public Utility | 262,911,830 | 6.61% | 269,497,700 | 5.61% |
| Tangible Personal Property | 396,860,057 | 9.99% | 402,885,343 | 8.38% |
| Total Assessed Value | \$3,976,052,477 | 100.00% | \$4,805,046,973 | 100.00% |
| Tax rate per \$1,000 of assessed valuation | \$2.00 | | \$2.00 | |

The School District receives property taxes from Franklin and Fairfield Counties. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2000 are available to finance fiscal year 2000 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes which became measurable as of June 30, 2000. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2000, was \$762,514 in the General Fund.

NOTE 8 - RECEIVABLES

Receivables at June 30, 2000, consisted of property taxes, accounts, interfund, intergovernmental grants, and charges for services. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables follows:

| | Amounts |
|-----------------------------|----------|
| Enterprise Funds: | |
| Federal and State Subsidies | \$29,772 |

NOTE 9 - FIXED ASSETS

A summary of the changes in general fixed assets during fiscal year 2000 follows:

| Asset Category | Balance at June 30, 1999 Additions I | | Deletions | Balance at June 30, 2000 |
|-----------------------------------|--|-----------|-----------|--------------------------------|
| Land | \$449,800 | \$0 | \$0 | \$449,800 |
| Buildings and Improvements | 12,335,146 | 30,282 | 0 | 12,365,428 |
| Furniture, Fixtures and Equipment | 3,436,768 | 756,427 | 475,778 | 3,717,417 |
| Vehicles | 215,996 | 0 | 0 | 215,996 |
| Construction in Progress | 0 | 64,550 | 0 | 64,550 |
| Totals | \$16,437,710 | \$851,259 | \$475,778 | \$16,813,191 |

A summary of the enterprise funds' fixed assets at June 30, 2000 follows:

| Furniture and Equipment | \$763,981 |
|--------------------------------|-----------|
| Less: Accumulated Depreciation | (545,273) |
| Net Fixed Assets | \$218,708 |

NOTE 10 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year 2000, the School District contracted with Nationwide Insurance Company for liability insurance and property insurance and with Auto-Owners Insurance Company for fleet insurance

Coverages provided by these companies are as follows:

| Building and Contents (\$1,000 deductible) | \$34,697,901 |
|--|--------------|
| Automobile Liability (\$1,000 deductible) | 1,000,000 |
| General Liability (\$1,000 deductible) | |
| Per occurrence | 2,000,000 |
| Aggregate | 5,000,000 |

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant reduction of coverage from the prior year.

For fiscal year 2000, the School District participated in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 18). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP.

NOTE 10 - RISK MANAGEMENT (Continued)

A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control and actuarial services to the GRP.

Medical/surgical and dental insurance is offered to employees through a self-insurance internal service fund. The program is administered by R. E. Harrington Company, which provides claims review and processing services. The School District has purchased specific stop-loss benefits covering cost above the \$25,000 individual retention mark to a maximum lifetime reimbursement of \$975,000.

The liability for unpaid claims costs of \$40,536 reported in the internal service fund at June 30, 2000 is based on the requirements of Governmental Accounting Standards Board Statements No. 10, which requires that a liability for claims be reported if information prior to issuance of the financial statements indicated and the amount of the loss can be reasonably estimated. Estimates were calculated by using the actual claims reports for a 90 day period following the balance sheet date. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claims adjustment expenses. Changes in claims activity for the past two fiscal years are as follows:

| | Balance at Beginning of Year | Current Year Claims | Claims Payments | Balance at End of Year |
|------|------------------------------|------------------------|-----------------|------------------------|
| 1999 | \$34,959 | \$427,274 | \$429,165 | \$33,068 |
| 2000 | 33,068 | 768,456 | 760,988 | 40,536 |

NOTE 11 - DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 45 N. Fourth Street, Columbus, Ohio 43215-3634.

Plan members are required to contribute 9 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2000, 5.5 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2000, 1999, and 1998 were \$70,076, \$99,795 and \$159,011, respectively; 36.32 percent has been contributed for fiscal year 2000, and a 100 percent for fiscal years 1999 and 1998. \$44,627 representing the unpaid contribution for fiscal year 2000 is recorded as a liability within the respective funds and the general long-term obligations account group.

NOTE 11 - DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System

The School District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system. STRS provides retirement and disability benefits, annual cost-of-living adjustments, and death and survivor benefits to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information for STRS. That report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3371.

For the fiscal year ended June 30, 2000, plan members were required to contribute 9.3 percent of their annual covered salaries. The School District was required to contribute 14 percent; 6 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The School District's required contributions for pension obligations to STRS for the fiscal years ended June 30, 2000, 1999, and 1998 were \$341,035, \$365,046 and \$551,318, respectively; 81.79 percent has been contributed for fiscal year 2000 and 100 percent for fiscal years 1999 and 1998. \$62,115 represents the unpaid contribution for fiscal year 2000 and is recorded as a liability within the respective funds.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2000, three members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

NOTE 12 - POSTEMPLOYMENT BENEFITS

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are on a pay-as-you-go basis.

All STRS benefit recipients and sponsored dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2000, the STRS Board allocated employer contributions equal to 8 percent of covered payroll to the Health Care Reserve Fund. For the School District, this amount equaled \$454,713 for fiscal year 2000.

STRS pays health care benefits from the Health Care Reserve Fund. At June 30, 1999, (the latest information available) the balance in the Fund was \$2,783 million. For the year ended June 30, 1999, net health care costs paid by STRS were \$249,929,000 and STRS had 95,796 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

NOTE 12 - POSTEMPLOYMENT BENEFITS (Continued)

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2000, employer contributions to fund health care benefits were 8.50 percent of covered payroll, an increase from 6.30 percent for fiscal year 1999. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, prorated for partial service credit. For fiscal year 2000, the minimum pay was established at \$12,400. For the School District, the amount contributed to fund health care benefits, including the surcharge, during the 2000 fiscal year equaled \$121,165.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of the annual health care expenses. Expenses for health care for the fiscal year ended June 30, 1999 (the latest information available), were \$126,380,984 and the target level was \$189.6 million. At June 30, 1999, SERS had net assets available for payment of health care benefits of \$188.0 million. SERS has approximately 51,000 participants currently receiving health care benefits.

NOTE 13 - EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vested vacation and sick leave components are derived from negotiated agreements and State laws. Eligible classified employees earn ten to twenty days of vacation per year, depending upon length of service. Teachers do not earn vacation time. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment.

Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 255 days for all personnel. Upon retirement, payment is made for one-fourth of their accrued, but unused sick leave credit to a maximum of 60 days for all personnel.

B. Other Employee Benefits

The School District provides life insurance and accidental death and dismemberment insurance to most employees through various life insurance companies. Medical and dental insurance is provided by the School District to all employees through a self-insurance program.

NOTE 14 - CAPITAL LEASES

In prior years, the School District entered into a capitalized lease for copiers and equipment. The lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the combined financial statements for the governmental funds. These expenditures are reported as function expenditures on the budgetary statements.

General fixed assets consisting of copiers and equipment have been capitalized in the general fixed assets account group in the amount of \$50,260. This amount represents the present value of the minimum lease payments at the time of acquisition. A corresponding liability was recorded in the general long-term obligations account group. Principal payments in fiscal year 2000 totaled \$14,094 in the general fund.

The following is a schedule of the future long-term minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2000.

NOTE 14 - CAPITAL LEASES (Continued)

| Fiscal Year Ending June 30 | General Long-Term Debt Account Group |
|---|--------------------------------------|
| 2001 | \$19,586 |
| 2002 | 19,586 |
| 2003 | 2,012 |
| Total | 41,148 |
| Less Amount Representing Interest | (5,018) |
| Present Value of Minimum Lease Payments | \$36,166 |

NOTE 15 - LONG-TERM OBLIGATIONS

The changes in the School District's long-term obligations during the fiscal year 2000 were as follows:

| | Principal Outstanding 6/30/99 | Additions | Deductions | Principal Outstanding 6/30/00 |
|--|-------------------------------------|-----------|------------|-------------------------------------|
| 1987 Vocational Loan - 0% | \$803,477 | \$0 | \$133,914 | \$669,563 |
| 1994 Equipment Loan - 0% | 24,480 | 0 | 24,480 | 0 |
| 1994 Construction Loan - 0% | 335,384 | 0 | 31,940 | 303,444 |
| Total Long Term Loans | 1,163,341 | 0 | 190,334 | 973,007 |
| 1995 Energy Conservation Notes - 6.5% | 720,000 | 0 | 120,000 | 600,000 |
| Intergovernmental Payable | 0 | 67,826 | 0 | 67,826 |
| Capital Leases | 50,260 | 0 | 14,094 | 36,166 |
| Compensated Absences | 563,643 | 723,006 | 563,643 | 723,006 |
| Total General Long-Term Obligations | \$2,497,243 | \$790,832 | \$888,070 | \$2,400,005 |

In fiscal year 1995, the School District issued \$1,200,000 in unvoted general obligation notes for the purpose of providing energy conservation measures for the School District, under the authority of Ohio Revised Code Sections 133.06(G) and 3313.372. The note were issued for a ten year period with a final maturity date in fiscal year 2005. These notes are paid from the debt service fund.

NOTE 15 - LONG-TERM OBLIGATIONS (Continued)

In fiscal year 1987, the School District received an interest free, 15 year loan in the amount of \$3,749,555, for the purpose of construction of school facilities. In fiscal year 1994, the School district received additional interest free loans in the amounts of \$479,120 and \$244,800, for building construction and equipment, respectively. The equipment loan was retired during fiscal year 2000, while the construction loan will be retired in fiscal year 2010. These loans are paid from general fund revenues.

Compensated absences and the intergovernmental payable will be paid from the fund from which the employees' salaries are paid. Capital leases are paid from the general fund.

The School District's overall legal debt margin was \$431,481,221 with an unvoted debt margin of \$4,805,047, and an Energy Conservation debt margin of \$42,245,423 at June 30, 2000.

Principal and interest requirements to retire loans outstanding at June 30, 2000 are as follows:

| | Principal | Interest | Total |
|-----------|-------------|-----------|-------------|
| 2001 | \$285,854 | \$37,050 | \$322,904 |
| 2002 | 285,854 | 29,250 | 315,104 |
| 2003 | 285,854 | 21,450 | 307,304 |
| 2004 | 285,854 | 13,650 | 299,504 |
| 2005 | 285,854 | 5,850 | 291,704 |
| 2006-2010 | 143,737 | 0 | 143,737 |
| Total | \$1,573,007 | \$107,250 | \$1,680,257 |

NOTE 16 - INTERFUND ACTIVITY

As of June 30, 2000, receivables and payables that resulted from various interfund transactions were as follows:

| Fund Type/Fund | Interfund Receivables | Interfund Payables | |
|------------------------------------|--------------------------|-----------------------|--|
| General Fund | \$296,434 | \$0 | |
| Special Revenue Funds: | | | |
| Other Grant | 0 | 16,500 | |
| Consumer Economic Education | 0 | 2,400 | |
| Consumer Education | 0 | 21,894 | |
| Teacher Development | 0 | 2,750 | |
| Other State Grants | 0 | 30,000 | |
| Vocational Education Special Needs | 0 | 81,689 | |
| Adult Vocational Education | 0 | 4,050 | |
| Subsidy Grant | 0 | 11,651 | |
| Total Special Revenue Funds | 0 | 170,934 | |
| Enterprise Fund: | | | |
| Uniform School Supplies | 0 | 75,000 | |
| Internal Service Fund: | | | |
| Employee Benefit | 0 | 50,500 | |
| Total All Funds | \$296,434 | \$296,434 | |

NOTE 17 - SEGMENT INFORMATION FOR ENTERPRISE FUNDS

The School District maintains four enterprise funds to account for the operations of food service, uniform school supplies, rotary and adult education. The table below reflects in a summarized format the more significant financial data relating to the enterprise funds of the Eastland Joint Vocational School as of and for the fiscal year ended June 30, 2000.

NOTE 17 - SEGMENT INFORMATION FOR ENTERPRISE FUNDS (Continued)

| | Food Service | Uniform School Supplies | Rotary | Adult Education | Total Enterprise Funds |
|--------------------------------|-----------------|-------------------------------|----------|--------------------|------------------------------|
| Operating Revenues | \$192,930 | \$234,437 | \$26,167 | \$1,517,002 | \$1,970,536 |
| Depreciation Expense | 46,415 | 0 | 0 | 21,431 | 67,846 |
| Operating Income (Loss) | (109,569) | (43,940) | 6,539 | (524,684) | (671,654) |
| Donated Commodities | 23,625 | 0 | 0 | 0 | 23,625 |
| Federal and State Subsidies | 15,574 | 0 | 0 | 598,260 | 613,834 |
| Operating Transfers | 0 | 0 | (3,000) | 0 | (3,000) |
| Net Income (Loss) | (71,032) | (43,940) | 3,539 | 50,304 | (61,129) |
| Fixed Asset Additions | 1,300 | 0 | 0 | 16,692 | 17,992 |
| Net Working Capital | 152,351 | (41,780) | 56,736 | 677,650 | 844,957 |
| Total Assets | 204,407 | 43,996 | 56,911 | 1,009,834 | 1,315,148 |
| Total Equity | 165,205 | (41,780) | 56,736 | 848,541 | 1,028,702 |
| Encumbrances | (23,227) | (36,030) | (1,019) | (297,113) | (357,389) |

NOTE 18 - INSURANCE PURCHASING POOL

The School District participates in The Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

NOTE 19 - STATE SCHOOL FUNDING DECISION

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio school funding plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the State's legislature to design a plan to remedy the perceived defects in that system. Declared unconstitutional was the State's "school foundation program", which provides significant amounts of monetary support to the School District. During the fiscal year ended June 30, 2000, the School District received \$3,333,892 of school foundation support for its general fund.

Since the Supreme Court ruling, numerous pieces of legislation have been passed by the State legislature in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County has reviewed the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State appealed the decision made by the Court of Common Please to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, "...the mandate of the [Ohio] Constitution has not been fulfilled."

NOTE 19 - STATE SCHOOL FUNDING DECISION (Continued)

The Court's majority recognized efforts by the Ohio General Assembly taken in response to the Court's March 24, 1997, decision, however, it found seven "...major areas warrant further attention, study, and development by the General Assembly...", including the State's reliance on local property tax funding, the state's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took the place of the unconstitutional emergency school loan assistance program.

The Court decided to maintain jurisdiction over these issues and continued the case at least until June 15, 2001.

As of the date of these financial statements, the School District is unable to determine what effect, if any, this ongoing litigation will have on its future State funding under this program and on its financial operations.

NOTE 20 - SET-ASIDE CALCULATIONS AND FUND RESERVES

The School District is required by State statute to annually set aside in the General Fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year end or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years. The School District is also required to set aside money for budget stabilization.

The following cash basis information describes the change in the fiscal year end set aside amounts for textbooks, capital acquisition, and budget stabilization. Disclosure of this information is required by State statute.

| | Textbooks | Capital Acquisition | Budget Stabilization |
|---|-----------|------------------------|-------------------------|
| Set-aside Reserve Balance as of June 30, 1999 | \$40,445 | \$0 | \$161,294 |
| Current Year Set-aside Requirement | 317,327 | 317,327 | 105,776 |
| Current Year Offsets | 0 | 0 | 0 |
| Qualifying Disbursements | (261,918) | (1,309,394) | 0 |
| Set-aside Reserve Balance as of June 30, 2000 | \$95,854 | \$0 | \$267,070 |

Although the School District had qualifying disbursements during the year that reduced the capital acquisition set-aside amount to below zero, the capital acquisition negative amount is not presented as being carried forward to the next fiscal year. The total reserve balance for the three set-asides at the end of the fiscal year was \$362,924.

Eastland Joint Vocational School District Notes to the General Purpose Financial Statements For the Fiscal Year Ended June 30, 2000

NOTE 21 - CONTINGENCIES

Grants:

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2000.

Litigation:

The School District is currently party to legal proceedings. The School District's management is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

EASTLAND JOINT VOCATIONAL SCHOOL DISTRICT FRANKLIN COUNTY JUNE 30, 2000

NOTES TO SCHEDULE OF FEDERAL AWARDS EXPENDITURES

NOTE A - - SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of federal awards expenditures is a summary of the activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - - FOOD DISTRIBUTIONS

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. Monies are commingled with State grants. It is assumed federal monies are expended first. At June 30, 2000, the District had no significant food commodities in inventory.

NOTE C - GUARANTEED STUDENT LOANS

Nonmonetary assistance is reported in the schedule at the dollar amount of guaranteed student loans disbursed.

Report on compliance and on internal control over financial reporting based on an audit of financial statements performed in accordance with *Government Auditing Standards*

Members of the Board Eastland Joint Vocational School District 4300 Amalgamated Place, P.O. Box 419 Groveport, Ohio 43125-0419

We have audited the general-purpose financial statements of the Eastland Joint Vocational School District, Franklin County, as of and for the year ended June 30, 2000, and have issued our report thereon dated December 8, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Eastland Joint Vocational School District's general-purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of general purpose financial statement amounts. However, providing and opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Eastland Joint Vocational School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information of the audit committee, management, members of the Board, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on compliance with requirements applicable to each major program and internal control over compliance in accordance with OMB circular A-133

Members of the Board Eastland Joint Vocational School District 4300 Amalgamated Place, P.O. Box 419 Groveport, Ohio 43125-0419

Compliance

We have audited the compliance of the Eastland Joint Vocational School District with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to its major federal program for the year ended June 30, 2000. Eastland Joint Vocational School District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of Eastland Joint Vocational School District's management. Our responsibility is to express an opinion on Eastland Joint Vocational School District's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular a-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Eastland Joint Vocational School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Eastland Joint Vocational School District's compliance with those requirements.

In our opinion, Eastland Joint Vocational School District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2000.

Internal Control Over Compliance

The management of Eastland Joint Vocational School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Eastland Joint Vocational School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Members of the Board
Eastland Joint Vocational School District
Groveport, Ohio 43125-0419
Report on compliance with requirements applicable to each major program and internal control over compliance in accordance with OMB circular A-133
Page 2

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information of the audit committee, management, members of the Board, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
