INDEPENDENT ACCOUNTANTS' REPORT

Eaton City School District
Preble County
307 North Cherry Street
Eaton, Ohio 45320

To the Board of Education:

We have audited the accompanying general-purpose financial statements of Eaton City School District, Preble County, Ohio (the District) as of and for the fiscal year ended June 30, 2000, as listed in the table of contents. These general-purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the District, as of June 30, 2000, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 23, 2001, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements of the District, taken as a whole. The accompanying schedule of federal awards expenditures is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general-purpose financial statements. Additionally, the supplemental information schedules listed in the table of contents are presented for purposes of additional analysis and are also not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

EATON CITY SCHOOL DISTRICT, OHIO
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2000

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Eaton City School District, Ohio (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is governed by a locally elected five member Board of Education (the Board) which provides educational services. The Board controls the District's instructional support facilities staffed by approximately 85 non-certified and approximately 231 certified teaching personnel and administrative employees providing education to 2,432 students.

The accompanying general purpose financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "*The Financial Reporting Entity*," in that the financial statements include all organizations, activities, functions and component units for which the District (the reporting entity) is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either the District's ability to impose its will over the organization or the possibility that the organization will provide a financial benefit to, or impose a financial burden on, the District. There were no potential component units that met the criteria imposed by GASB Statement No. 14 to be included in the District's reporting entity. Based on the foregoing, the reporting entity of the District includes the following services: instructional (regular, special education, vocational), student guidance, extracurricular activities, food service, pupil transportation and care and upkeep of grounds and buildings.

Eaton City School District participates in a jointly governed organization, the Southwestern Ohio Computer Association (SWOCA). SWOCA provides the data processing services needed by the participating school districts. D. Russell Lee Vocational School serves as the fiscal agent.

The accounting policies and financial reporting practices of the District conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of its significant accounting policies.

B. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. The various funds are summarized by type in the general purpose financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

The following fund types and account groups are used by the District:

Governmental Funds - These are funds through which most governmental functions typically are financed. The acquisition, use and balances of the District's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of "financial flow" (sources, uses and balances of financial resources). The following are the District's governmental fund types:

General Fund - This fund is the general operating fund of the district and is used to account for all financial resources except those accounted for in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds - These funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes.

Debt Service Fund - This fund is used for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital Projects Funds - These funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than that financed by proprietary funds).

Proprietary Funds - The proprietary funds are accounted for on an "economic resources" measurement focus. This measurement focus provides that all assets and all liabilities associated with the operation of the proprietary funds are included on the balance sheet. Fund equity (i.e., net assets) is segregated into contributed capital and retained earnings components. The proprietary fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Enterprise Funds - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises in which the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Internal Service Fund - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District or to other governments on a cost-reimbursement basis.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Fiduciary Funds

Trust and Agency Funds - These funds are used to account for assets held by a government unit in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. The District maintains an expendable trust fund, a nonexpendable trust fund and two agency funds. The expendable trust fund is accounted for and reported similarly to a governmental fund; the nonexpendable trust fund is accounted for similarly to a proprietary fund. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Account Groups - To make a clear distinction between fixed assets related to specific funds and that of general government and between long-term liabilities related to specific funds and that of a general nature, the following account groups are used:

General Fixed Assets Account Group - This account group is established to account for fixed assets of the District, other than those accounted for in the proprietary funds.

General Long-Term Obligations Account Group - This account group is established to account for all long-term debt and other long-term liabilities of the District except those accounted for in the proprietary funds.

C. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

The modified accrual basis of accounting is followed by the governmental funds and expendable trust and agency funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the District is considered to be 60 days after fiscal year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt which is recognized when due.

Revenue considered susceptible to accrual at year end includes property taxes available for advance, tuition, grants, student fees, and interest on investments.

Current property taxes measurable at June 30, 2000, and which are intended to finance fiscal 2001 operations, have been recorded as deferred revenues. Delinquent property taxes measurable and available (received within 60 days) and amounts available as an advance on future tax settlements are recognized as revenue at year end. Taxes available for advance and recognized as revenue but not received by the District prior to June 30, 2000 are reflected as a reservation of fund balance for future appropriations. The District is prohibited by law from appropriating this revenue in accordance with ORC Section 5705.35, since an advance of revenue was not requested or received prior to the fiscal year end.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

The accrual basis of accounting is utilized for reporting purposes by the proprietary funds. Revenues are recognized when they are earned and expenses are recognized when incurred.

Pursuant to GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting," the District follows GASB guidance as applicable to proprietary funds and FASB Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements.

D. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year.

All funds other than agency funds are legally required to be budgeted and appropriated; however, only governmental funds are required to be reported. The primary level of budgetary control is at the object level within each department. Budgetary modifications may only be made by resolution of the Board of Education.

1. Tax Budget

By January 15, the Superintendent and Treasurer submit an annual operating budget for the following fiscal year to the Board of Education for consideration and passage. The adopted budget is submitted to the County Auditor, as Secretary of the County Budget Commission, by January 20 of each year for the period July 1 to June 30 of the following fiscal year.

2. Estimated Resources

Prior to March 15, the Board accepts by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during fiscal year 2000.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budgetary Process (Continued)

3. Appropriations

A temporary appropriation measure to control expenditures may be passed on or about July 1 of each year for the period July 1 through September 30. An annual appropriation resolution must be passed by October 1 of each year for the period July 1 through June 30. The appropriation resolution establishes spending controls at the fund, department and object level. The appropriation resolution may be amended during the year as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources as certified. The allocation of appropriations among departments and objects within a fund may be modified during the year with approval of the Board. During the year, several supplemental appropriations were necessary to budget the use of contingency funds. Administrative control is maintained through the establishment of more detailed line-item budgets. The budgetary figures which appear in the "Combined Statement of Revenues, Expenditures, and Changes in Fund Balances-Budget and Actual-All Governmental Fund Types" are provided on the budgetary basis to provide a comparison of actual results to the final budget, including all amendments and modifications.

4. Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for expenditures are encumbered and recorded as the equivalent of expenditures in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. However, on the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities and are reported as reservations of fund balances for governmental funds in the accompanying general purpose financial statements.

5. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be reappropriated.

6. Budgetary Basis of Accounting

The District's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on a cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budgetary Process (Continued)

6. Budgetary Basis of Accounting (Continued)

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the governmental funds:

	Excess (Deficiency) of Revenues and Other Financing Sources Over (Under) Expenditures and Other Financing Uses			
	General Fund	Special Revenue Funds	Debt Service Fund	Capital Projects Funds
GAAP Basis (as reported)	\$318,418	(\$24,519)	(\$54,309)	(\$101,080)

Budget Basis	<u>(\$78,079)</u>	<u>(\$40,371)</u>	<u>(\$55,548)</u>	<u>(\$116,530)</u>

E. Cash and Cash Equivalents

During fiscal year 2000, cash and cash equivalents included amounts in demand deposits, short-term certificates of deposit with original maturities of three months or less, repurchase agreements and the State Treasury Asset Reserve (STAR Ohio). STAR Ohio is a very liquid investment and is reported as a cash equivalent in the general purpose financial statements.

The District pools its cash for investment and resource management purposes. Each fund's cash and cash equivalents on the balance sheet represents the balance on hand as if each fund maintained its own cash account. See Note 4, "Cash and Cash Equivalents."

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the District records all its investments at fair value except for nonparticipating investment contracts (repurchase agreements and certificates of deposit) which are reported at cost. See Note 4, "Cash and Cash Equivalents."

The District had invested funds in the State Treasury Asset Reserve of Ohio during 2000. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2000.

G. Inventory

Inventory is stated at cost (first-in, first-out) in the governmental funds and at the lower of cost or market in the proprietary funds. The costs of inventory items are recorded as expenditures in the governmental and expendable trust funds when purchased and as expenses in the proprietary funds when used.

H. Fixed Assets and Depreciation

The accounting and reporting treatment applied to fixed assets is determined by their ultimate use:

1. Property, Plant and Equipment - General Governmental Purposes

Fixed assets acquired or constructed for general governmental purposes are recorded as expenditures in the governmental funds and are capitalized at cost (or estimated historical cost for assets not purchased in recent years) in the General Fixed Assets Account Group. Contributed fixed assets are recorded at fair market value at the date received. The District does not possess any infrastructure.

General fixed asset values were initially determined by identifying historical costs where such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain fixed assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

The District has elected not to record depreciation in the General Fixed Assets Account Group.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Fixed Assets and Depreciation (Continued)

2. Property, Plant and Equipment - Proprietary Fund

Property, plant and equipment acquired by the proprietary funds are stated at cost (or estimated historical cost for assets not purchased in recent years), including interest capitalized during construction and architectural and engineering fees where applicable. Contributed fixed assets are recorded at fair market value at the date received.

Depreciation has been provided using the straight-line method over the following estimated useful lives:

Description	Estimated Lives (in years)
Machinery, Equipment, Furniture and Fixtures	5-20

I. Long-Term Obligations

Long-term liabilities are being repaid from the following funds:

Obligation	Fund
General Obligation Bonds	General Fund, General Obligation Bond Retirement Fund
Intergovernmental Payable	General Fund
Compensated Absences	General Fund, Food Services Fund

J. Compensated Absences

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences," vacation benefits are accrued as a liability when an employee's right to receive compensation is attributable to services already rendered, and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments at termination or retirement. Administrators and classified staff who work twelve month contracts are granted vacation leave based on length of service and position. Sick leave benefits are accrued as a liability using the termination method. Employees may earn 15 days of sick leave per year up to a maximum of 275 days. Upon retirement, employees will receive one-fourth of the accumulated sick leave up to a maximum of 68.75 days. For governmental funds, that portion of unpaid compensated absences that is expected to be paid using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected in the account "Compensated Absences Payable." The long-term portion of the liability is reported in the General Long-Term Obligations Account Group. Compensated absences are expensed in the proprietary funds when earned and the related liability is reported within the fund.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Pensions

The provision for pension costs is recorded when the related payroll is accrued and the obligation is incurred. Pension liabilities expected to be paid from current available financial resources are recorded as a fund liability. The remaining pension liability, if any, is recorded in the General Long-Term Obligations Account Group for governmental funds.

L. Interfund Transactions

During the course of normal operations, the District has numerous transactions between funds. Interfund transactions are generally classified as follows:

- Operating transfers are reported as “Other Financing Sources and Uses” in the governmental funds, as “Operating Transfers In” by the recipient fund, and “Operating Transfers Out” by the disbursing fund.
- Short-term interfund loans are reflected as interfund loans payable/receivable, while long-term interfund loans (greater than one year in length) are recorded as advances to/from other funds. There were no advances outstanding at fiscal year end.
- Residual Equity Transfers are nonroutine or nonrecurring transfers between funds and are reported as additions to or deductions from the fund equity balance. There were no residual equity transfers during the fiscal year.

Transactions that would be treated as revenues and expenditures/expenses if they involved organizations external to the District are similarly treated when involving other funds of the District.

M. Restricted Assets

Restricted assets in the general fund represent cash and cash equivalents set aside to establish a budget stabilization reserve. This reserve is required by State statute and can be used only after receiving approval from the State Superintendent of Public Instruction. A fund balance reserve has also been established for this amount.

N. Reservations of Fund Balance

Reserves indicate that a portion of fund balance is not available for expenditure or is legally segregated for a specific future use. Fund balances are reserved for debt service, endowments, property taxes, budget stabilization and encumbered amounts which have not been accrued at year end. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles, but not available for appropriation under State statute. The reserve for budget stabilization is required by State statute.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

O. Total Columns on Combined Financial Statements - Overview

Total columns on the “Combined Financial Statements-Overview” are captioned “Memorandum Only” to indicate they are presented only to facilitate financial analysis. Data in these columns does not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles, nor is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE 2 - COMPLIANCE AND ACCOUNTABILITY

Fund Deficits - The fund deficits at June 30, 2000 of \$16,354 in the Chapter One Fund and \$17,331 in the Miscellaneous Federal Grants Fund (special revenue funds) arose from the recognition of expenditures on the modified accrual basis which are greater than expenditures recognized on the budgetary basis. A deficit does not exist under the cash basis of accounting.

NOTE 3 - PRIOR PERIOD ADJUSTMENTS

The June 30, 1999 balance of the General Fixed Asset account group was restated due to an accounting error in the classification of fixed assets. As a result, the General Fixed Asset account group was restated from the balance previously reported of \$8,593,859 to \$8,591,609, a decrease of \$2,250.

The restatement resulted in adjustments to the June 30, 1999 account balance as follows:

General Fixed Asset Account Group	
Balance 6/30/99 (as reported)	\$8,593,859
Fixed Asset Restatement	<u>(2,250)</u>
Balance 6/30/99 (restated)	<u><u>\$8,591,609</u></u>

NOTE 4 - CASH AND CASH EQUIVALENTS

Cash resources of several individual funds are combined to form a pool of cash, cash equivalents and investments.

Statutes require the classification of funds held by the District into three categories. Category 1 consists of “active” funds - those funds required to be kept in a “cash” or “near cash” status for immediate use by the District. Such funds must be maintained either as cash in the District Treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of “inactive” funds - those funds not required for use within the current two year period of designation of depositories. Inactive funds may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

Category 3 consists of “interim” funds - those funds which are not needed for immediate use but, which will be needed before the end of the current period of designation of depositories. Interim funds may be invested or deposited in the following securities:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Interim deposits in eligible institutions applying for interim funds;
- Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions, and
- The State Treasury Asset Reserve of Ohio (STAR Ohio).

NOTE 4 - CASH AND CASH EQUIVALENTS (Continued)

Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the District places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 110% of the carrying value of all public collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Based upon criteria described in GASB Statement No. 3, "Deposits With Financial Institutions, Investments (including Repurchase Agreements) and Reverse Repurchase Agreements," collateral held in single financial institution collateral pools with securities being held by the pledging financial institutions' agent in the pool's name are classified as Category 3.

The Governmental Accounting Standards Board has established risk categories for deposits and investments as follows:

Deposits:

- Category 1 Insured or collateralized with securities held by the District or by its agent in the District's name.
- Category 2 Collateralized with securities held by the pledging financial institution's trust department or agent, in the District's name.
- Category 3 Collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

Investments:

- Category 1 Insured or registered, or securities held by the District or its agent in the District's name.
- Category 2 Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the District's name.
- Category 3 Uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the District's name.

A. Deposits

At year end the carrying amount of the District's deposits was \$3,729,572 and the bank balance was \$3,794,627. Not included in the bank balance is \$360, which represents cash on hand held by the District. Federal depository insurance covered \$463,524 of the bank balance, \$1,295,000 was classified as Category 1 and 2,036,103 was classified as Category 3.

NOTE 4 - CASH AND CASH EQUIVALENTS (Continued)

B. Investments

The District's investments at June 30, 2000 were as follows:

		Carrying Amount	Fair Value
<u>Categorized Investments</u>	<u>Category 2</u>		
Repurchase Agreement	\$130,118	\$130,118	\$130,118
<u>Non-Categorized Investments</u>			
Star Ohio	N/A	1,148,694	1,148,694
Total Investments	\$130,118	\$1,278,812	\$1,278,812

C. Reconciliation of Cash, Cash Equivalents and Investments

The classification of cash, cash equivalents and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9. Certificates of deposit with an original maturity of three months or less are treated as cash equivalents. The classification of cash and cash equivalents (deposits) for purposes of this note are based on criteria set forth in GASB Statement No. 3.

	Cash and Cash Equivalents	Investments
Per Combined Balance Sheet	\$5,008,384	\$0
Investments:		
Repurchase Agreement	(130,118)	130,118
STAR Ohio	(1,148,694)	1,148,694
Per GASB Statement No. 3	\$3,729,572	\$1,278,812

NOTE 5 - PROPERTY TAXES

Property taxes include amounts levied against all real estate and public utility property, and tangible personal property used in business and located in the District. Real property taxes (other than public utility) collected during 2000 were levied after October 1, 1999 on assessed values as of January 1, 1999, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be reappraised every six years and equalization adjustments made the third year following reappraisal. The last revaluation was completed in 1993, and equalization adjustments were made in 1996. Real property taxes are payable annually or semi-annually. The first payment is due January 20, with the remainder payable by June 20.

Taxes collected from tangible personal property (other than public utility) in one calendar year are levied in the prior calendar year on assessed values during and at the close of the most recent fiscal year of the taxpayer, and at the tax rates determined in the preceding year. Tangible personal property used in business (except for public utilities) is currently assessed for ad valorem taxation purposes at 25 percent of its true value. Amounts paid by multi-county taxpayers are due September 20 of the year assessed. Single county taxpayers may pay annually or semi-annually, the first payment is due April 30; with the remainder payable by September 20.

NOTE 5 - PROPERTY TAXES (Continued)

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property is currently assessed at 100 percent of its true value. Public utility property taxes are payable on the same dates as real property described previously.

The County Treasurer collects property taxes on behalf of all taxing districts in the County including Eaton City School District. The County Auditor periodically remits to the District its portion of the taxes collected. The assessed value upon which the fiscal year 2000 receipts were based are:

	1999 Second Half Collections	2000 First Half Collections
Agricultural/Residential and Other Real Estate	\$152,714,520	\$186,999,540
Public Utility Personal	13,037,010	13,024,110
Tangible Personal Property	35,474,630	34,735,720
Total Assessed Value	<u>\$201,226,160</u>	<u>\$234,759,370</u>
Tax rate per \$1,000 of assessed valuation	\$35.78	\$35.68

NOTE 6 - RECEIVABLES

Receivables at June 30, 2000 consisted of taxes, interest, accounts receivable and intergovernmental receivables.

NOTE 7 - INTERFUND BALANCES

NOTE 10 - DEFINED BENEFIT PENSION PLANS

All of the District's full-time employees participate in one of two separate retirement systems which are cost-sharing multiple employer defined benefit pension plans.

A. School Employees Retirement System of Ohio (SERS of Ohio)

All non-certified employees of the District, with minor exceptions, performing duties that do not require a certificate issued by the Ohio Department of Education are eligible to participate in the School Employees Retirement System of Ohio, a cost-sharing multiple employer public employee retirement system.

The SERS of Ohio provides retirement and disability benefits, annual cost-of-living adjustments and survivor benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. The SERS of Ohio issues a stand-alone financial report that includes financial statements and required supplementary information for the SERS of Ohio. Interested parties may obtain a copy by making a written request to SERS, 45 North Fourth Street, Columbus, Ohio 43215-3634 or by calling (614) 222-5853.

The Ohio Revised Code provides statutory authority for District and employee contributions of 14% and 9% respectively. The contribution rates are determined actuarially, and are established and may be amended, up to statutory amounts, by the School Employees Retirement Board (Retirement Board) within the rates allowed by State statute. The required employer contribution rate is allocated to basic retirement benefits and health care by the Retirement Board. At June 30, 2000, 5.5% was allocated to fund the pension benefit and 8.5% to fund health care. The District's contributions to the SERS of Ohio for the years ending June 30, 2000, 1999, and 1998 were \$257,826, \$242,862, and \$220,548, respectively, which were equal to the required contributions for each year.

The Ohio Revised Code gives SERS the discretionary authority to provide postretirement health care to retirees and their dependents. Coverage is made available to service retirees with ten or more years of qualifying service credit, disability and survivor benefit recipients. Members retiring on or after August 1, 1989 with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75% of the premium. The portion of the 2000 employer contribution rate (identified above) that was used to fund health care for the year 1999 was 8.5%. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between minimum pay and the member's pay, prorated for partial service credit. For fiscal year 2000, the minimum pay has been established as \$12,400. The amount contributed to fund health care benefits, including the surcharge amounted to \$207,590.

Health care benefits are financed on a pay-as-you-go basis. The number of retirees and covered dependents currently receiving benefits is approximately 51,000. The target level for the health care reserve is 150% of annual health care expenses. Expenses for health care at June 30, 1999 (the latest information available) were \$126,380,984 and the target level was \$189.6 million. Net assets available for payment of benefits at June 30, 1999 was \$188.0 million.

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System of Ohio (STRS of Ohio)

All certified employees of the District are eligible to participate in the State Teachers Retirement System of Ohio, a cost-sharing multiple employer public employee retirement system.

The STRS of Ohio provides retirement and disability benefits, annual cost-of-living adjustments and survivor benefits based on eligible service credit to plan members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. The STRS of Ohio issues a stand-alone financial report that includes financial statements and required supplementary information for the STRS of Ohio. Interested parties may obtain a copy by making a written request to STRS, 275 East Broad Street, Columbus, Ohio 43215-3771 or by calling (614) 227-4090.

The Ohio Revised Code provides statutory authority for District and employee contributions of 14% and 9.3%, respectively. The contribution requirements of plan members and the District are established and may be amended by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. At June 30, 2000, 6% was allocated to fund the pension benefit and 8% to fund health care. The District's contributions to the STRS of Ohio for the years ending June 30, 2000, 1999, and 1998 were \$883,512, \$889,884, and \$831,408, respectively, which were equal to the required contributions for each year.

STRS provides postemployment health care benefits to retirees and their dependents. Coverage includes hospitalization, physician fees, prescription drugs and reimbursement of monthly Medicare premiums. All benefit recipients and sponsored dependents are eligible for health care coverage. Pursuant to the Revised Code, the State Teachers Retirement Board has discretionary authority over how much, if any, of the health care cost will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium.

Benefits are funded on a pay-as-you-go basis through an allocation of employer contributions, equal to 2% of covered payroll, to a Health Care Reserve Fund. However, for the fiscal year ended June 30, 2000, the board allocated employer contributions equal to 8% of covered payroll to the Health Care Reserve Fund, which amounted to \$504,864 for the District. The balance of the Health Care Reserve Fund was \$2.783 billion at June 30, 1999 (the latest information available). For the fiscal year ended June 30, 1999, the net health care costs paid by STRS were \$249,929,000. There were 95,796 eligible benefit recipients.

NOTE 11 - COMPENSATED ABSENCES

The District provides a liability for accumulated unpaid sick leave and vacation time benefits when earned by employees. Accrued employee benefits for governmental funds not currently due and payable at year end are recorded in the General Long-Term Obligations Account Group. At June 30, 2000, the total accumulated unpaid sick and vacation time recorded in the General Long-Term Obligations Account Group was:

	<u>Sick Leave</u>	<u>Vacation</u>	<u>Total</u>
Liability	\$841,120	\$35,240	\$876,360

The portion attributable to the enterprise funds has been recorded within the respective fund and is not included in the figures presented above.

NOTE 12 - LONG-TERM DEBT AND OTHER OBLIGATIONS

Detail of the changes in the bonds, intergovernmental payable, and compensated absences of the District for the year ended June 30, 2000 is as follows:

	<u>Balance</u> <u>June 30, 1999</u>	<u>Issued</u> <u>(Retired)</u>	<u>Balance</u> <u>June 30, 2000</u>

2004	160,000	90,123	250,123
2005	165,000	79,219	244,219
2006 - 2010	665,000	245,700	910,700
2011 - 2012	<u>335,000</u>	<u>24,660</u>	<u>359,660</u>
Totals	<u>\$1,870,000</u>	<u>\$782,033</u>	<u>\$2,652,033</u>

NOTE 13 – OPERATING LEASE

The District is the lessee for an operating lease with Ancillary Medical Investments, Inc. for school administration space. The general leasing agreement states that the lessee agrees to pay the lessor, monthly in advance, for 12 months, a monthly payment of \$800. Current rental costs for the fiscal year ended June 30, 2000, were \$7,200 with the remainder of \$2,400 payable in fiscal year 2001.

NOTE 14 – STATUTORY RESERVES

The District is required by state law to set aside certain general fund revenue amounts, as defined, into various reserves. During the fiscal year ended June 30, 2000, the reserve activity (cash-basis) was as follows:

	Textbook Reserve	Capital Acquisition Reserve	Budget Stabilization Reserve	Total
Set-aside Cash Balance as of June 30, 1999	\$0	\$0	\$140,049	\$140,049
Current Year Set-Aside Requirement	292,901	292,901	0	585,802
Current Year Offset Credits	0	0	0	0
Qualifying Disbursements	<u>(298,511)</u>	<u>(292,901)</u>	<u>0</u>	<u>(591,412)</u>
Total	<u>(\$5,610)</u>	<u>\$0</u>	<u>\$140,049</u>	<u>\$134,439</u>
Cash Balance Carried Forward to FY 2001	<u>(\$5,610)</u>	<u>\$0</u>	<u>\$140,049</u>	<u>\$134,439</u>
Amount Restricted for Textbooks				\$0
Amount Restricted for Capital Acquisition				0
Amount Restricted for Budget Stabilization				140,049
Total Restricted Assets				<u>\$140,049</u>

The District had qualifying disbursements and offsets during the fiscal year that reduced the textbook/instructional materials set-aside amount below zero. The amounts of offsets and qualifying disbursements for capital improvements were limited to those necessary to reduce the year end balance to zero. The extra amount for textbook/instructional materials may be used to reduce the set-aside requirements in future fiscal years. The total reserve balance for the budget stabilization set-aside at the end of the fiscal year was \$140,049.

NOTE 15 - SEGMENT INFORMATION FOR ENTERPRISE FUNDS

The District maintains three Enterprise Funds to account for the operation of Food Services, Uniform School Supply Sales and a Rotary Fund. The key financial information for the year ended June 30, 2000 for these enterprise activities is as follows:

	Food Services	Uniform School Supply	Rotary	Total
Operating Revenues	\$355,863	\$119,801	\$259	\$475,923
Depreciation Expense	8,278	0	0	8,278

Total Equity	110,027	15,411	2,606	128,044

NOTE 16 - RISK MANAGEMENT

A. Public Entity Risk Pool

Preble County Schools Regional Council of Governments - Eaton City School District participates in the Preble County Regional Council of Governments (COG). The Preble County Schools Regional Council of Governments, a public entity risk pool, was formed by five local school districts and the Preble County Educational Service Center to provide medical benefits to school district participants at a lower rate than if the individual districts acted independently. Each district pays a monthly premium to the fund trustee for insurance coverage which is provided by Community Mutual. The premium is based on what an insurer estimates will cover the costs of all claims for which the insurer is obligated. If the District's losses exceed its premiums, there is no individual supplemental assessment, if the District's losses are low, it will not receive a refund. Therefore, the health insurance risks have been transferred to the COG.

The Plan is governed by an administrative committee consisting of the superintendent from each participating district. The degree of control exercised by any participating school district is limited to its representation on the committee.

B. Other Insurance

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. During fiscal year 2000 the District contracted with Nationwide Insurance Company for various insurance coverages, as follows:

<u>Insurance Provider</u>	<u>Coverage</u>	<u>Deductible</u>
Nationwide Insurance Company	Automobile	\$250 Comprehensive; \$250 Collision
Nationwide Insurance Company	General Liability	\$1,000

There has been no significant reduction in insurance coverages from coverages in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverages in any of the past three fiscal years.

Workers' compensation claims are covered through the District's participation in the State of Ohio's program. The District pays the State Workers' Compensation System a premium based upon a rate per \$100 of payroll. The rate is determined based on accident history and administrative costs.

NOTE 17 - JOINTLY GOVERNED ORGANIZATION

The Southwest Ohio Computer Association (SWOCA) is a jointly governed organization among a three county consortium of school districts. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. Each of the governments of these schools supports SWOCA based upon a per pupil charge dependent upon the software package utilized. SWOCA is governed by a Board of Directors consisting of the superintendents and treasurers of member school districts. The degree of control exercised by any participating school district is limited to its representation on the Board. The Board consists of one representative from each of the participating 29 school districts.

NOTE 18 - CONTINGENCIES**A. Grants**

The District receives financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2000.

B. Litigation

The District is not a party to various legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects as of June 30, 2000.

C. State School Funding

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio school funding plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the State's legislature to design a plan to remedy the perceived defects in the system. Declared unconstitutional was the State's "school foundation program," which provides significant amounts of monetary support to the School District. During the fiscal year ended June 30, 2000, the School District received \$5,857,451 of school foundation support for its general fund.

Since the Supreme Court ruling, numerous pieces of legislation have been passed by the State General Assembly in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County reviewed the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, "...the mandate of the [Ohio] Constitution has not been fulfilled." The Court's majority recognized efforts by the Ohio General Assembly taken in response to the Court's March 24, 1997, decision, however, it found seven "...major areas warrant further attention, study, and development by the General Assembly..." including the State's reliance on local property tax funding, the State's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took the place of the unconstitutional emergency school loan assistance program. The Court decided to maintain jurisdiction over these issues and continue the case at least until June 15, 2001. As of the date of these financial statements, the School District is unable to determine what effect, if any, this ongoing litigation will have on its future State funding under this program and on its financial operations.

**NOTES TO SCHEDULE OF FEDERAL AWARDS EXPENDITURES
JUNE 30, 2000**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of federal awards expenditures is a summary of the activity of the District's federal award programs. The Schedule has been prepared on a cash basis of accounting.

NOTE B - FOOD DISTRIBUTION

Nonmonetary assistance is reported in the Schedule at the fair market value of the commodities received and disbursed. Monies are commingled with State grants. It is assumed federal monies are expended first. At June 30, 2000, the District had no significant food commodities in inventory.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY GOVERNMENT AUDITING STANDARDS

Eaton City School District
Preble County
307 North Cherry Street
Eaton, Ohio 45320

To the Board of Education:

We have audited the financial statements of Eaton City School District, Preble County, Ohio (the District) as of and for the fiscal year ended June 30, 2000 and have issued our report thereon dated February 23, 2001. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we have reported to management of the District in a separate letter dated February 23, 2001.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that do not require inclusion in this report that we have reported to management of the District in a separate letter dated February 23, 2001.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR
FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH OMB CIRCULAR A-133**

Eaton City School District
Preble County
307 North Cherry Street
Eaton, Ohio 45320

To the Board of Education:

Compliance

We have audited the compliance of Eaton City School District, Preble County, Ohio (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to its major federal program for the fiscal year ended June 30, 2000. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the fiscal year ended June 30, 2000.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of the Audit Committee, management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
