**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY
GOVERNMENT AUDITING STANDARDS**

Board of Education
Kenston Local School District
Geauga County
17419 Snyder Road
Chagrin Falls, Ohio 44023

We have audited the financial statements of the Kenston Local School District, Geauga County, Ohio, (the District) as of and for the year ended June 30, 2000, and have issued our report thereon dated December 18, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted an immaterial instance of noncompliance that we have reported to the management of the District in a separate letter dated December 18, 2000.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that do not require inclusion in this report, that we have reported to management of the District in a separate letter dated December 18, 2000.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR
FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Education
Kenston Local School District
Geauga County
17419 Snyder Road
Chagrin Falls, Ohio 44023

Compliance

We have audited the compliance of the Kenston Local School District, Geauga County, Ohio, (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2000. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements. In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2000.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses. We noted other matters involving the internal control over federal compliance that do not require inclusion in this report, that we have reported to management of the District in a separate letter dated December 18, 2000.

Schedule of Federal Awards Expenditures

We have audited the general-purpose financial statements of the District as of and for the year ended June 30, 2000, and have issued our report thereon dated December 18, 2000. Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements taken as a whole. The accompanying Schedule of Federal Awards Expenditures is presented for the purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the general-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

This report is intended for the information and use of management, the Board of Education, the audit committee and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Board of Education Members
Kenston Local School District

We are pleased to submit to you the second Comprehensive Annual Financial Report (CAFR) of the Kenston Local School District for the fiscal year ended June 30, 2000. This CAFR includes an opinion from the State Auditor and conforms to generally accepted accounting principles as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the School District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the School District. This report will provide the taxpayers of the Kenston Local School District with comprehensive financial data in a format which will enable them to gain an understanding of the School District's financial affairs. Copies will be made available to the Geauga County Public Library, major taxpayers, financial rating services and other interested parties.

The Comprehensive Annual Financial Report is presented in three sections as follows:

1. The Introductory Section, which contains a Table of Contents, Letter of Transmittal, List of Principal Officials, and an Organizational Chart of the School District.
2. The Financial Section, which begins with the Report of Independent Accountants and includes the General Purpose Financial Statements and Notes that provide an overview of the School District's financial position and operating results, the Combining Statements by Fund Type, and other schedules that provide detailed information relative to the General Purpose Financial Statements.
3. The Statistical Section, which presents social and economic data, financial trends, and the fiscal capacity of the Kenston Local School District.

The School District

The Kenston Local School District (the School District) is located in northeastern Ohio, east of Cleveland. The School District is primarily a “bedroom community” located in the southwest corner of the county adjacent to the Village of Chagrin Falls (Cuyahoga County) and the cities of Solon (Cuyahoga County), Twinsburg (Summit County), and Aurora (Portage County). It is approximately 35 miles southeast of Cleveland, 25 miles west of Youngstown and 20 miles north of Akron.

The School District was created in 1953 when the former Bainbridge and Auburn Local School Districts were consolidated to form the present School District.

Statutorily, the School District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 330.07 and Section 119.01 of the Ohio Revised Code, to provide services mandated by State and or Federal agencies.

Reporting Entity

The Kenston Local School District has reviewed its reporting entity definition in order to insure conformity with the Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*. In evaluating how to define the School District for financial reporting purposes, management has considered its relationship with all departments, boards, organizations, and agencies that make up the School District.

Excluded from the reporting entity because they are fiscally independent of the School District are the townships of Auburn and Bainbridge, the Kenston Parent Teacher Organizations, the Kenston Athletic, Music, and Academic Boosters, and the Kenston Foundation.

The School District is associated with five jointly governed organizations and one public entity risk pool. These organizations are the Auburn Career Center, the Lake Geauga Computer Association, the Auburn-Bainbridge Recreation Board, the Ohio Schools’ Council Association, the East Shore Regional Transportation System, and the Ohio School Boards Association Workers’ Compensation Group Rating Plan. These organizations are presented in Notes 15 and 16 to the combined financial statements.

A complete discussion of the School District’s reporting entity is provided in Note 1 to the general purpose financial statements.

Economic Condition and Outlook

The School District is actively involved with individuals, organizations, and businesses in decision making. The School District maintains regular dialogue with many community organizations, including the Kenston Business Advisory Council. This Council is comprised of residents of the community whose careers cover many facets of the business world. These community members meet every other month with School District administrators to share information and ideas about the School District and the business community. The Superintendent and Treasurer are Council members and, through this Council, maintain school-business communications. Another organization with which the School District is involved is Business in Partners with Education, an organization of real estate developers who contribute a percentage of their new home sales to the Kenston Educational Foundation, which provides enhancement funding for various instructional programs.

While the School District is primarily residential in nature, there are several areas of commercial and industrial development. The commercial development exists primarily to serve the residents of the area. The industrial development is light manufacturing, while the School District partially includes two theme parks, Sea World of Ohio and Six Flags amusement park.

The School District's superintendent participated in a year and a half study and development of a long range defensible zoning plan for Bainbridge Township. Strategies were created to maintain the rural nature of the community and maximize the non-residential development of currently zoned areas. The trustees of both Auburn and Bainbridge Townships meet with the School District's leadership to seek input in the development of long range plans. The trustees of both townships are regular participants in the School District's Business Advisory Council.

Most residents work outside the School District. The businesses with the most employees in the School District are: Stock Equipment Co., Mar-Bal Inc., Custom Materials Inc., the School District, Johnsonite, and Milbar Company.

The funding structure of public education in Ohio is such that school districts receive very little revenue growth as a result of inflationary increases in their tax base. This is a result of House Bill 920, which mandates that any reappraised property increase results in an approximately equal value decrease in millage. As a result, school districts throughout Ohio must place operating funding issues on the ballot at regular intervals to keep pace with inflation and added programming.

As a result of the passage of the School District's net 6.9 mill continuing operating levy in 1997 and conservative fiscal management by the Board and the Administration, the School District's five-year projections indicate that the natural budget cycle needs will require additional operating income in the beginning of fiscal year 2004. Thus, the School District does not project a need to request additional tax support from its voters until calendar year 2003.

Major renovations at Six Flags Amusement Park during calendar year 2000 will increase revenues to the School District beginning in fiscal year 2002. The additional revenues may extend the need for additional operating income post fiscal year 2004.

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio school funding plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the State's legislature to design a plan to remedy the perceived defects in that system. Declared unconstitutional was the State's "school foundation program" which provided significant amounts of monetary support to the School District. Since the Supreme Court ruling, numerous pieces of legislation have been passed by the State General Assembly in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County has reviewed the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, "...the mandate of the [Ohio] Constitution has not been fulfilled." The Court's majority recognized efforts by the Ohio General Assembly taken in response to the Court's March 24, 1997 decision, however, it found seven "...major areas warrant further attention, study, and development by the General Assembly..." including the State's reliance on local property tax funding, the State's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy

of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took the place of the unconstitutional emergency school loan assistance program.

The Court decided to maintain jurisdiction over these issues and continued the case until at least June 15, 2001.

Major Initiatives

The School District has a comprehensive technology plan that focuses on the training of all staff members and expanding the use of technology into all curricular areas. Additionally, the School District has been very proactive in accessing technology discounts from the Federal E-rate program. The School District is already receiving refunds from the first round of the E-rate program, and applications for rounds two and three have been approved.

Kenston Middle School received Venture Capital Grants in the amount of \$125,000 for each year of the past five years. These monies were used to plan the implementation of team teaching.

The School District received a \$10,000 state grant to implement both district and building level Continuous Improvement Committees in 1999. The School District continues to work endlessly in both assessing various student achievement indicators at all levels and targeting specific areas for annual improvement. To support these improvement initiatives, the School District has continued its curriculum and instruction based Administrative Instructional Council meetings, which received a 1998 BEST Practice Award. Additionally, the School District has been very proactive in offering seminars to administrators dealing with leadership issues such as managing change, developing teacher teams, developing highly effective work environments, and handling conflict.

While the School District continues to offer a variety of staff development activities to its staff, a current evaluation and examination of programs for new teachers is taking place. Input and data from administrators and teachers hired in recent years is being evaluated and incorporated into a more comprehensive plan to be implemented next year.

Roof replacements for school buildings in the School District have been a major initiative for the past three years. The roof replacement projects for the high school building and middle school building were funded with the proceeds from the operating levy that was passed in 1997.

Future Projects

Capital projects will include repairs and renovations to the sewage system and roof at Gardiner Elementary School. A two classroom addition to the middle school is also planned for the summer of 2000.

In 1992, a bond issue was passed which resulted in the construction of a new elementary school, classroom addition on the Kenston Middle School, and the renovation of the Early Learning Center building. Student enrollment increases caused by steady new housing development in both Auburn and Bainbridge Townships have produced "at capacity" or "over capacity" problems at all five school buildings. Enrollment in the School District since 1992 has increased from 2,309 to 3,058 students.

Additional classrooms were added to Gardiner Elementary School and Kenston Middle School to ease the constraints of Kenston's at-capacity school facilities. The next steps in the School District's long range plans is to seek a facility study by the Ohio School Facility Commission. This study will determine the School District's eligibility for state matching funds for future construction projects. A Board resolution to participate in the study was passed at the December 2000 Board of Education meeting.

Approximately five years ago, a Venture Capital Grant was obtained from the Ohio Department of Education to study and develop instructional improvement initiatives. From this grant, the high school implemented a block scheduling program which will begin in August 2000. This project was designed to enhance the learning needs of high school students by having longer class periods with fewer subjects.

Financial Information

Internal Accounting and Budgetary Control

The School District's accounting system is organized on a fund basis. Each fund and account group is a distinct self-balancing accounting entity. Reporting for general governmental operations are presented on the modified accrual basis whereby revenues are recognized when measurable and available and expenditures are recognized when goods and services are received. Reporting of the School District's proprietary operations are presented on the accrual basis whereby revenues are recognized when earned and expenses when incurred.

In developing the School District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes a fully automated accounting system, as well as an automated system of control for fixed assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, insures that the financial information generated is both accurate and reliable. At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the object account level within a function and fund. All purchase order requests must be approved by the Superintendent and certified by the Treasurer; necessary funds are then encumbered and purchase orders are released to vendors. Those requests that exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the School District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date.

Each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible.

The basis of accounting and the various funds and account groups utilized by the School District are fully described in Note 2 of the financial statements. Additional information on the School District's budgetary accounting can also be found in Note 2.

Fiscal Management Improvements

School-based Management and Budgeting System. The School District has established and implemented a school-based management and budgeting system. This system permits budgeting at the school level, with the full participation of each school's principal and assistant principals. The system also generates monthly and year-to-date analytical reports for each location. In addition to enhancing the School District's ability to monitor expenditures and achieve compliance with budgets, these reports serve as a means of evaluating the performance of each school's administrative officials responsibility for exercising spending controls.

School District Graduates

A typical graduate of the School District is well prepared for post-secondary education. A variety of honors, college preparatory and skill level courses are available in academic and vocational disciplines.

The Board has its own student and volunteer operated FM radio station, WKHR. Since 1977, high school students have participated in an educational program operating this non-commercial radio station that serves Geauga, Portage and a portion of Cuyahoga counties. In addition to educational and community service programming, the radio station also reports on athletic and special events.

In the School District, individual and small group instruction laboratories are offered in the areas of writing and mathematics. Ten advanced placement (AP) courses are available. In 2000, 127 students took AP exams. The School District is accredited by the North Central Association and the State of Ohio and has been awarded the National Blue Ribbon Schools award and recognized in Redbook Magazine as one of "America's Best High Schools." Over 90 percent of graduates continue their education at a college, university, or technical school.

Data Accountability and Report Card Legislation

Amended Substitute House Bill 215, the biennial budget bill commencing in October 1997, added data accountability provisions to Section 3301.0714 of the Ohio Revised Code. These provisions authorize the Department of Education to withhold 10 to 20 percent of a school district's funds if the school district does not submit timely and accurate Electronic Management Information Systems (EMIS) data (aggregated demographics on students and staff). Additionally, the bill allows the State Board of Education to suspend/revoke the license of a school district employee found to have willfully reported erroneous, inaccurate, or incomplete data through the information system. The Superintendent and Treasurer must certify the accuracy of all data collected through the EMIS system at the opening of school (October) and close (June/July). The School District has complied with the requirements of this legislation.

Senate Bill 55, the academic accountability legislation passed in the summer of 1997, resulted in the extraction of data from the EMIS database and the publication of a School District "Report Card". The School District met 25 of the 27 performance indicators for the 2001 report card which classifies the School District as a "Continuous Improvement" school.

Statistical Information

General Governmental Functions

The following schedule presents a summary of governmental and similar trust fund revenues for the fiscal years ended June 30, 1999 and 2000, and the amount and percentage of increases and decreases in relation to the prior year's revenues.

	1999 <u>Amount</u>	2000 <u>Amount</u>	Percent <u>of Total</u>	<u>Change</u>	Percent <u>Change</u>

The School District's most significant revenue source is taxes. During fiscal year 2000, there was an increase in this category of \$235,778. This increase is due to new construction of homes and commercial development in the area.

Intergovernmental revenues reflect a \$408,189 increase. A large portion of this increase is due to the change in the state foundation funding formula for county and special education services.

Interest earnings increased \$77,117 due to increased investment opportunities and higher interest rates.

Tuition revenue reflects a \$6,094 decrease. This decrease is due to the changes in the method of billing excess cost throughout the state.

Transportation revenue reflects a \$16,720 increase. This increase is due to the amount of excess cost charged for handicapped transportation.

Miscellaneous revenue increased \$21,080 due to a donation from the Parent Teacher Organization and the Kenston Athletic Association for renovations to the middle school basketball court.

The following schedule presents a summary of governmental and similar trust fund expenditures for the fiscal years ended June 30, 1999 and 2000, and the amount and percentage of increases and decreases in relation to the prior year's expenditures.

Regular Instruction - the School District had a 2.75 percent wage increase approved by the Board during fiscal year 1999. Severance and early retirement incentive payments were made in fiscal year 1999 and 2000.

Special Instruction - the increase in special instruction expenditures are the result of a salary increase, the hiring of additional special education personnel to meet the increases in special education services as required by the Individuals with Disabilities Education Act, attorney fees relating to special education, and higher handicapped tuition costs.

Vocational Instruction - the increase in vocational instruction expenditures are the result of hiring additional personnel.

Other Instruction - the increase in other instruction is reflected in increased special education costs previously changed to county services.

Support Services - Pupils and Instructional Staff - the increases in these areas are due to use of academic tutors, proctors, and aides to promote enhancements to the curriculum.

Support Services - Board of Education - the decrease in expenditures is the result of lower board member compensation.

Support Services - Administration - the decrease in this area is due to the posting of services directly to fiscal and business services rather than administration.

Support Services - Fiscal and Business Services - the increase in these areas are due to the posting of services previously categorized as administrative services.

Operation and Maintenance of Plant Services - the decrease in this area is the result of prior year roof replacements.

Pupil Transportation - the increased costs in pupil transportation were due to the addition of bus runs and the 2.75 percent wage increase.

Central Services - decreased due to decreased spending patterns.

Food Services - the increase in this area is due to severance paid for retirement of the Food Service Director.

Community Services - the decrease in community services is due to changes in printing expenditures and the one-time cost of outsourcing in the prior year.

Extracurricular Activities - the increase in extracurricular activities cost is due to the 2.75 percent increase in wages and the implementation of a longevity increase starting with the 1998-1999 school year.

Capital Outlay - decreased primarily due to decreased spending patterns in equipment.

Financial Highlights

General Fund Balance. The fund balance of the general fund increased from \$4,212,273 at June 30, 1999 to \$4,282,564 at June 30, 2000. This increase is due to increased collections in real estate and personal property taxes and the increase in the state foundation funding formula.

Enterprise Funds. Food service, uniform school supplies, and kindergarten fees are classified as enterprise operations since they resemble those activities found in private industry. Management periodically decides to determine the amount of profit/loss resulting from these operations that are significantly financed from user fees. In total, the enterprise funds had a net loss of \$49,276 for the fiscal year ended June 30, 2000.

General Fixed Assets. The general fixed assets of the School District are used to carry on the main educational and support function of the School District and are not financial resources available for expenditure. The total general fixed assets at June 30, 2000 were \$25,282,713. Such assets are accounted for at historical cost. Depreciation is not recognized on general fixed assets.

Debt Administration. At June 30, 2000, general obligation bonds outstanding totaled \$10,255,000. During fiscal year 2000, \$534,000 of general obligation bonds were retired. As of June 30, 2000, the voted debt margin was \$34,041,972 and the unvoted debt margin was \$492,189. The School District's bond rating is A1A.

Cash Management. The Board of Education has as aggressive cash management program which consists of expediting the receipt of revenues and prudently depositing cash which is insured by the Federal Deposit Insurance Corporation, as well as investing available cash in instruments issued by the United States Treasury, Repurchase Agreements and the State Treasury Asset Reserve of Ohio (STAROhio). The total amount of interest earned was \$521,964 for the year ended June 30, 2000, which was credited directly to the general fund, capital projects fund, all day kindergarten fund, and auxiliary services. The program is beneficial because of access to daily balances which enables the Board of Education to maintain the minimum balance in its accounts and invest its assets.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation, as well as by qualified securities pledged by the institution holding the assets. By law, financial institutions may establish a collateral pool to cover all public deposits. The face value of the pooled collateral must equal at least 110 percent of public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

Risk Management. All employees of the School District are covered by a blanket bond while certain positions in decision/policy making roles are covered by separate, higher bond coverage.

The School District contracts for general liability insurance at \$2,000,000 per occurrence and \$5,000,000 limit per year.

The School District has insurance contracts for fleet insurance, boiler and machinery, crime, property and inland marine coverage. The School District participates in the Ohio Schools Board Association Workers' Compensation Group Rating Program as described in Note 9B.

Pension Plans. All School District employees are covered by the state-wide School Employees Retirement System of Ohio (SERS) or the State Teachers Retirement System (STRS). The School District's employer contributions to both systems are based on a percentage of employees' salaries. State law requires the School District to pay the employer share as determined by each retirement system. See Note 10 to the general purpose financial statements for complete details.

Independent Audit

State statutes require the School District to be subjected to an annual audit by an independent auditor. An annual audit serves to maintain and strengthen the School District's accounting and budgetary controls. Independent Auditor Jim Petro, Auditor of State, was selected to render an opinion on the School District's financial statements as of and for the year ended June 30, 2000. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all governments in Ohio. The School District adopted and has been in conformance with that system beginning with its financial report for the 1979 year.

Awards

GFOA Certificate of Achievement. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Kenston Local School District for its comprehensive annual financial report for the year ended June 30, 1999.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such a report must satisfy both generally accepted accounting principles and applicable legal requirements.

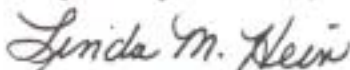

Acknowledgments

The publication of this report significantly increases the accountability of the School District to the taxpayers. This accomplishment would not have been possible without the support and efforts of the staff of the Treasurer's office and various administrators and employees of the School District. Assistance of the County Auditor's office staff and other outside agencies made possible the fair presentation of statistical data.

Special appreciation is expressed to James G. Zupka, CPA, Inc., for assistance in planning, designing and reviewing this financial report.

Finally, sincere appreciation is extended to the Board of Education for its interest in and support of this project.

Respectfully submitted,

Linda M. Hein

REPORT OF INDEPENDENT ACCOUNTANTS

Board of Education
Kenston Local School District
Geauga County
17419 Snyder Road
Chagrin Falls, Ohio 44023

We have audited the accompanying general-purpose financial statements of the Kenston Local School District, Geauga County, Ohio, (the District) as of and for the year ended June 30, 2000, as listed in the table of contents. These general-purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general-purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Kenston Local School District, Geauga County, Ohio, as of June 30, 2000, and the results of its operations and the cash flows of its proprietary fund types for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2000 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements of the District taken as a whole. The combining and individual fund and account group financial statements and schedules are presented for purposes of additional analysis and are not a required part of the general-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

We did not audit the data included in the statistical section of this report and therefore express no opinion thereon.

A handwritten signature in black ink, appearing to read "Jim Petro".

**KENSTON LOCAL SCHOOL DISTRICT
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2000**

NOTE 1: DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Kenston Local School District (the "School District") operates under a locally-elected board form of government and provides educational services as authorized by state and/or federal agencies. This board controls the School District's 5 instructional support facilities staffed by 265 non-certificated employees and administrative employees, and 222 certificated full-time teaching personnel that provide services to 3,058 students and other community members.

The School District was established through the consolidation of existing land areas and school districts and is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. Under such laws there is no authority for a school district to have a charter or adopt local laws. The legislative power of the School District is vested in the Board of Education, consisting of five members elected-at-large for staggered four year terms.

The School District serves areas of Auburn and Bainbridge townships, located in Geauga County.

Reporting Entity

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, and student related activities.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District has no component units.

NOTE 1: **DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY**
(Continued)

Reporting Entity (Continued)

The School District is associated with an organization which is defined as an insurance purchasing pool. The organization includes the Ohio School Boards Association Worker's Compensation Group Rating Plan. The organization is presented in Note 15 to the general purpose financial statements. The School District is also associated with five jointly governed organizations which include the Auburn Career Center, the Lake Geauga Computer Association, the Auburn-Bainbridge Recreation Board, and the Ohio Schools' Council Association and the East Shore Regional Transportation System. These organizations are presented in Note 16 to the general purpose financial statements.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its proprietary activities provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

A. **Basis of Presentation - Fund Accounting**

The School District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities not recorded in the funds because they do not directly affect net available expendable resources.

A. **Basis of Presentation - Fund Accounting** (Continued)

For financial statement presentation purposes, the various funds of the School District are grouped into the following generic fund types under the broad fund categories governmental, proprietary, and fiduciary.

Governmental Fund Types

Governmental funds are those through which most governmental functions of the School District are financed. The acquisition, use, and balances of the School District's expendable financial resources and the related current liabilities (except those accounted for in proprietary funds and trust funds) are accounted for through governmental funds. The following are the School District's governmental fund types:

General Fund - The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term obligation principal, interest, and related costs.

Capital Projects Funds - The capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds or trust funds).

Proprietary Fund Types

Proprietary funds are used to account for the School District's ongoing activities which are similar to those found in the private sector. The following are the School District's proprietary fund types:

A. **Basis of Presentation - Fund Accounting** (Continued)

Proprietary Fund Types (Continued)

Enterprise Funds - Enterprise funds are used to account for School District operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Funds - Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis.

Fiduciary Fund Types

Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. The School District's fiduciary funds include expendable trust and agency funds. Expendable trust funds are accounted for in essentially the same manner as governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Account Groups

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

General Fixed Assets Account Group - This account group is established to account for all fixed assets of the School District, other than those accounted for in the proprietary or trust funds.

General Long-Term Obligations Account Group - This account group is established to account for all long-term obligations of the School District except those accounted for in the proprietary or trust funds.

B. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types and expendable trust funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

The modified accrual basis of accounting is followed for the governmental, expendable trust, and agency funds. Under this basis, revenues are recognized in the accounting period when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period for the School District is sixty days after fiscal year end.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: investment earnings, tuition, grants, and student fees.

**KENSTON LOCAL SCHOOL DISTRICT
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2000
(CONTINUED)**

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

B. Measurement Focus and Basis of Accounting (Continued)

The School District reports deferred revenues on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Property taxes measurable as of June 30, 2000 and delinquent property taxes, whose availability is indeterminable and which are intended to finance fiscal year 2001 operations, have been recorded as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

The accrual basis of accounting is utilized for reporting purposes by the proprietary fund types. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as deferred revenue.

C. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control is at the object level within each function. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

**KENSTON LOCAL SCHOOL DISTRICT
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2000
(CONTINUED)**

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

C. **Budgetary Process** (Continued)

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. Public hearings are publicized and conducted to obtain taxpayers' comments.

The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. The budget includes proposed expenditures and the means of financing for all funds. By no later than January 20, the Board-adopted budget is filed with the Geauga County Budget Commission for rate determination.

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund.

Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2000.

Appropriations

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund, function, and object level of expenditures, which are the legal levels of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund, or alter object appropriations within functions, must be approved by the Board of Education.

FOR THE FISCAL YEAR ENDED JUNE 30, 2000
(CONTINUED)**

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

C. **Budgetary Process** (Continued)

Appropriations (Continued)

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant. The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

Encumbrances

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Expenditures plus encumbrances may not legally exceed appropriations. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds and reported in the notes to the financial statements for proprietary funds.

Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

D. **Cash and Cash Equivalents**

To improve cash management, all cash received by the School District is pooled in a central bank account. Monies for all funds, including proprietary funds, are maintained in this account or temporarily used to purchase short term investments.

Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the balance sheet. During fiscal year 2000, investments were limited to certificates of deposit, repurchase agreements, U.S. Treasury Notes, and STAROhio. Except

D. **Cash and Cash Equivalents** (Continued)

for STAROhio and U.S. Treasury notes with maturities of more than one year, investments are reported at cost since they are either non-negotiable certificates of deposits, or repurchase agreements with maturity of one year or less. STAROhio and U.S. Treasury notes are reported at fair value, which is based on quoted market prices.

The gain/loss resulting from valuation will be reported within the interest income account on the Statement of Revenues, Expenditures, and Changes in Fund Balance.

STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the state to pool their funds for investment purposes. STAROhio is not registered with SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of The Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on June 30, 2000.

Following Ohio statutes, the Board of Education has specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2000 amounted to \$487,939, which includes \$166,506 assigned from other School District funds.

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than 3 months that are not purchased from the pool are reported as investments.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

E. **Restricted Assets**

Restricted assets in the general fund represent cash and cash equivalents set aside to reflect statutory restrictions on their use. By State statute monies must be set aside to create a textbook subsidy reserve, capital improvement reserve, and a budget stabilization reserve. The reserve for budget stabilization also includes a refund received in fiscal year 1998 from the Bureau of Workers' Compensation, which State statute required to be included in this reserve. See Note 20 for the calculations of the year-end restricted asset balance and the corresponding fund balance reserves.

F. **Inventory**

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items are recorded as an expenditure in the governmental fund types when purchased. Reported material and supplies inventory is equally offset by a fund balance reserve in the governmental funds which indicates that it does not constitute available expendable resources even though it is a component of net current assets. Inventories of proprietary funds consists of donated food, purchased food, and school supplies held for resale and are expensed when used.

G. **Fixed Assets and Depreciation**

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and the related assets are reported in the general fixed assets account group. Fixed assets utilized in the proprietary funds are capitalized in the fund. All fixed assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five hundred dollars. The School District does not have any infrastructure.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

G. **Fixed Assets and Depreciation** (Continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of general fixed assets is also not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the fund fixed assets.

Assets in the general fixed assets account group are not depreciated. Depreciation of furniture and equipment in the enterprise funds is computed using the straight-line method over an estimated useful life of five to twenty years.

H. **Intergovernmental Revenues**

For governmental funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available. Reimbursement types grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as non-operating revenues in the accounting period in which they are earned and become measurable.

I. Compensated Absences

In conformity with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*, the vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for classified, certified, and administrative employees after eight years of current service with the School District.

For governmental funds, the current portion of unpaid compensated absences is the amount expected to be paid using available expendable resources. These amounts are recorded in the account "Compensated Absences Payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the general long-term obligations account group. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

J. Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, claims and judgments, compensated absences, contractually required pension contributions, and special termination benefits that will be paid from governmental funds are reported as a liability in the general long-term obligations account group to the extent that they will not be paid with current available expendable financial resources. Payments made more than 60 days after year end are generally considered not to have been paid with current available financial resources. Bonds and capital leases are reported as a liability of the general long-term obligations account group until due.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Continued)

J. **Accrued Liabilities and Long-Term Obligations** (Continued)

Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate proprietary funds.

K. **Fund Balance Reserves**

The School District records reservations for portions of fund equity which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves are established for encumbrances, inventories, property taxes, prepaids, and budget stabilization. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute.

L. **Contributed Capital**

Contributed capital represents resources from other funds, other governments, and private sources provided to proprietary funds that is not subject to repayment. These assets are recorded at their fair market value on the date donated. Depreciation on those assets acquired or constructed with contributed resources is expensed and closed to unreserved retained earnings at year end.

M. **Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

N. **Total Columns on General Purpose Financial Statements**

Total columns on the general purpose financial statements are captioned "Total - (Memorandum Only)" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles.

Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE 3: **ACCOUNTABILITY**

Fund balances at June 30, 2000 included the following fund deficits:

Internal Service Fund:	
Special Rotary	\$ 20,223

This fund's deficit earnings are due to adjustments for accrued liabilities. The general fund is liable for the deficit in this fund and will provide operating transfers when cash is required, not when accruals occur.

NOTE 4: **BUDGETARY BASIS OF ACCOUNTING**

While the School District is reporting financial position, results of operations, and changes in fund balances/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual - All Governmental Fund Types and Similar Trust Fund and the Combined Statement of Revenues, Expenses, and Changes in Fund Equity - Budget (Non-GAAP Basis) and Actual - All Proprietary Fund Types are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and GAAP basis are that:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- B. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).

KENSTON LOCAL SCHOOL DISTRICT

NOTE 4: **BUDGETARY BASIS OF ACCOUNTING** (Continued)

- C. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and as note disclosures in the proprietary fund type (GAAP basis).
- D. For proprietary funds, the acquisition and construction of capital assets are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).

The following tables summarize the adjustments necessary to reconcile the GAAP and budgetary basis statements by fund type:

NOTE 5: **DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury notes, bills, bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be directly issuances of federal government agencies or instrumentalities;

NOTE 5: **DEPOSITS AND INVESTMENTS** (Continued)

3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds or other obligations of the State of Ohio;
5. No-loan money market mutual funds consisting exclusively of obligations described in division (1) or division (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; and
6. The State Treasurer's investment pool (STAROhio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred eighty days in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Historically, the District has not purchased these types of investments or issued these types of notes. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investment to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Cash on Hand

At fiscal year end, the School District had \$702 in undeposited cash on hand, which is included on the balance sheet of the School District as part of "Equity in Pooled Cash and Cash Equivalents".

NOTE 5: **DEPOSITS AND INVESTMENTS** (Continued)

The following information classifies deposits and investments by categories of risk as defined in GASB Statement 3, *Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements*.

Deposits

At June 30, 2000, the carrying amount of the School District's deposits was \$729,154 and the bank balance was \$1,067,419. Of the bank balance, \$246,577 was covered by Federal Depository Insurance and \$820,842 was uninsured and uncollateralized. Although the securities serving as collateral were held by the pledging financial institution's trust department in the School District's name and all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements would potentially subject the School District to a successful claim by the Federal Deposit Insurance Corporation.

Investments

GASB Statement No. 3 requires the School District's investments be categorized to give an indication of the level of risk assumed by the School District at fiscal year end. Category 1 includes investments that are insured or registered or for which the securities are held by the School District or its agent in the School District's name. Category 2 includes uninsured and unregistered investments which are held by the counterparty's trust department or agent in the School District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the School District's name.

The School District invests in the State Treasury Asset Reserve of Ohio (STAROhio), which is not classified by degree of credit risk, since they are not evidenced by securities that exist in physical or book entry form.

NOTE 6: **PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the School District. Property tax revenue received during calendar 2000 for real and public utility property taxes represents collections of calendar 1999 taxes. Property tax payments received during calendar 2000 for tangible personal property (other than public utility property) is for calendar 2000 taxes.

2000 real property taxes are levied after April 1, 2000, on the assessed value listed as of January 1, 2000, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2000 real property taxes are collected in and intended to finance fiscal year 2001.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2000 public utility property taxes became a lien December 31, 1999, are levied after April 1, 2000, and are collected in 2001 with real property taxes.

NOTE 6: **PROPERTY TAXES** (Continued)

2000 tangible personal property taxes are levied after April 1, 2000 on the value as of December 31, 1999. Collections are made in 2000. Tangible personal property assessments are 25 percent of true value.

The assessed values upon which fiscal year 2000 taxes were collected are:

	1999 Second Half Collections		2000 First Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$ 389,537,360	91.07%	\$ 455,644,940	92.58%
Public Utility	15,580,050	3.64%	14,089,740	2.86%
Tangible Personal Property	22,608,970	5.29%	22,453,900	4.56%
 Total Assessed Value	\$ 427,726,380	100.00%	\$ 492,188,580	100.00%
 Tax Rate per \$1,000 of Assessed Valuation	\$ 77.30		\$ 77.30	

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits earlier or later payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The School District receives property taxes from Geauga County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2000 are available to finance fiscal year 2001 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

NOTE 6: **PROPERTY TAXES** (Continued)

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including Kenston Local School District. The County Auditor periodically remits to the School District its portion of taxes. Accrued property taxes receivable represent delinquent taxes outstanding and real property, personal property, and public utility taxes which became measurable as of June 30, 2000. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2000 was \$1,604,300 and is recognized as revenue, \$1,456,100 was available to the general fund, and \$148,200 was available to the debt service fund.

NOTE 7: **RECEIVABLES**

Receivables at June 30, 2000 consisted of taxes, accounts (rent, billings for user charged services, and student fees), and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables follows:

NOTE 9: RISK MANAGEMENT

A. Property and Liability

The School District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During the fiscal year 2000, the School District contracted with Crum and Forster Insurance for fleet and liability insurance, Travelers Insurance for boiler and machinery, and Crum and Forster Insurance for crime, property, and inland marine coverage. Coverages provided were as follows:

B. **Worker's Compensation**

For fiscal year 2000, the School District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 15). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates McDonald and Co. provides administrative, cost control, and actuarial services to the GRP.

C. **Employee Insurance Benefits**

The School District provides medical/surgical and dental insurance to employees through a self-insurance internal service fund. The School District is a member of a claims servicing pool in which monthly payments are paid to the fiscal agent who in turn pays the claims on the School District's behalf. The claims liability of \$172,102 reported in the internal service fund at June 30, 2000 is based on an estimate provided by the third party administrator and the requirements of Government Accounting Standards Board Statement No. 10 which requires that a liability for unpaid claim costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses (GASB 30). Changes in claims activity for the past two fiscal years are as follows:

	Balance at			Balance at

NOTE 10: **DEFINED BENEFIT PENSION PLANS**

A. **School Employees Retirement System**

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215-3634.

NOTE 10: **DEFINED BENEFIT PENSION PLANS** (Continued)

A. **School Employees Retirement System** (Continued)

Plan members are required to contribute 9 percent of their annual covered salary and the School District is required to contribute an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligation with the remainder being used to fund health care benefits; for fiscal year 2000, 5.5 percent of annual covered salary was the portion used to fund pension obligations. For fiscal year 1999, 7.7 percent was used to fund the pension obligations. The contribution requirements of plan members and employers are established and may be amended up to a statutory maximum amount by SERS' Retirement Board. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2000, 1999, and 1998, were \$447,655, 415,773, and \$387,710, respectively; 63 percent has been contributed for fiscal year 2000 and 100 percent for the fiscal years 1999 and 1998. \$163,541, representing the unpaid contribution for fiscal year 2000, is recorded as a liability within the respective funds and in the general long-term obligations account group.

B. **State Teachers Retirement System**

The School District participates in the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple-employer public employee retirement system. STRS provides retirement and disability benefits, annual cost-of-living adjustments, and death and survivor benefits to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available stand alone financial report that includes financial statements and required supplementary information for STRS. That report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3371.

For the fiscal year ended June 30, 2000, plan members are required to contribute 9.3 percent of their annual covered salaries. The School District is required to contribute 14 percent; 6 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14

percent for employers. The School District's required contributions for pension obligations to STRS for the fiscal years ended June 30, 2000, 1999, and 1998, were \$1,453,144, \$1,354,962, and \$1,259,174, respectively; 82 percent has been contributed for fiscal year 2000 and 100 percent for the fiscal years 1999 and 1998. \$266,785, representing the unpaid contribution for fiscal year 2000, is recorded as a liability within the respective funds.

C. **Social Security System**

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose social security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2000, all members of the Board of Education have elected social security. The Board's liability is 6.2 percent of wages paid.

NOTE 11: **POSTEMPLOYMENT BENEFITS**

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS) and to retired non-certificated employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

All STRS benefit recipients and sponsored dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2000, the STRS Board allocated employer contributions equal to 8 percent of covered payroll to the Health Care Reserve Fund. For the School District, this amount equaled \$830,368 for fiscal year 2000.

NOTE 11: **POSTEMPLOYMENT BENEFITS** (Continued)

STRS pays health care benefits from the Health Care Reserve fund. At June 30, 1999 (the latest information available) the balance in the fund was \$2.783 million. For the year ended June 30, 1999, net health care costs paid by STRS were \$249,929,000 and STRS had 95,796 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than 25 years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2000, employer contributions to fund health care benefits were 8.5 percent of covered payroll, an increase of 2.2 percent for fiscal year 2000. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2000, the minimum pay has been established as \$12,400. For the School District, the amount to fund health care benefits, including surcharge, during the 2000 fiscal year equaled \$319,744.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care for the fiscal year ended June 30, 1999 (the latest information available), were \$126,380,984 and the target level was \$189.6 million. At June 30, 1999, SERS had net assets available for payment of health care benefits of \$188.0 million. SERS has approximately 51,000 participants currently receiving health care benefits.

Vacation Leave

Only administrative and school support personnel accumulate annual vacation leave. Accumulated unused vacation time is paid upon termination of employment. School support personnel accumulate annual vacation leave as follows:

<u>Completed Service</u>	<u>Vacation Leave</u>
After 1 year	2 weeks
5 thru 9 years	3 weeks
10 thru 19 years	4 weeks
20 or more years	5 weeks

Administrative personnel accumulate 20 days vacation leave and the Superintendent and Treasurer accumulate 27 days vacation leave. As of June 30, 2000, the District recorded, as a fund liability, a vacation leave liability of \$42,099 and \$104,384 in the General Long-Term Obligation Account Group.

Sick Leave

Each professional staff member is entitled to fifteen (15) days sick leave with pay for each year under contract. The sick leave accrues at the rate of one and one fourth (1-1/4) days for each calendar month under contract. Sick leave is cumulative to 235 days. An employee is paid a severance benefit equal to 25 percent of the value of their accumulated sick leave, calculated at current wage rates, upon retirement with the balance being forfeited.

Employees meet the eligibility requirements for retirement with either: **a)** twenty-five years of service and age 55 or over, **b)** five years of service and age 60 or over, or **c)** any age with thirty years of service. As of June 30, 2000, the District recorded \$24,074 as a fund liability and \$1,484,879 in the general long-term obligations account group for sick pay-related severance benefits.

B. Life Insurance

The School District provides life insurance and accidental death and dismemberment insurance to most employees through the Educational Employees Life Insurance Trust Company in the amount of \$25,000 for certified central office and administrators, \$15,000 for non-teaching employees working 6 or more hours per day, and \$10,000 for non-teaching employees working at least 4 hours but less than 6 hours per day.

C. Severance Retirement Incentive

The School District's Board of Education adopted an early retirement incentive program to be effective June 26, 1998 through June 25, 1999. Participation was open to employees who were at least 55 years old and had at least 10 consecutive years of service with the Board. Participation is limited to a maximum of five percent of those certified employees who are members of the State Teachers Retirement System as of July 1, 1998. A certified employee who is eligible to participate in the plan during the period June 26, 1998 through June 25, 1999 must be currently employed by the Board, has attained the age of at least 50, notifies the Board in writing between March 15 and April 15, 1998 of their intention to retire no later than June 25, 1999, agrees to retire and does in fact retire within 90 days after receipt of notice from STRS that service credit has been purchased by the Board, and retires no later than June 25, 1999. The early retirement incentive liability is reflected in the compensated absences fund liability as of June 30, 2000 for \$143,419.

The Board shall purchase, on behalf of an employee, one year of service credit from STRS. Any teacher who retires by August 1, 1998 will receive a severance pay incentive of 1-1/4 times, equal to his/her severance pay and will be payable July 5, 1999. Any teacher who retires by August 1, 1999 will receive a severance pay incentive of 1-1/4 times equal to his/her severance pay and will be payable July 5, 2000.

As of June 30, 2000, the School District also recorded \$19,570 as compensated absences fund liability for those employees who retired during the 1999-2000 school year.

NOTE 13: LONG-TERM OBLIGATIONS

The changes in the School District's long-term obligations during fiscal year 2000 were as follows:

	Principal Outstanding 6/30/99	Additions	Outstanding Deductions	Principal 6/30/00
School Improvement Bonds 1992 - 4.9% to 6.5%	\$ 8,520,000	\$ 0	\$ (260,000)	\$ 8,260,000
General Obligation Bonds 1986 - 7.125%	2,050,000		0	1,845,000

Compensated Absences	1,618,927		(30,664)	1,588,263
Total General Long-Term Obligations	\$ 12,587,505	\$ 198,427	\$ (743,242)	\$ 12,042,690

All bonds outstanding are general obligations of the District to which the full faith and credit of the School District is pledged for repayment. Accordingly, such unmatured obligations of the School District are accounted for in the general long-term obligation account group. Payments of principal and interest relating to the liabilities of the School Improvement and General Obligation Bonds are recorded as expenditures in the debt service fund. Payments of principal and interest relating to the liability of the Bus Bond is recorded as expenditures in the general fund.

Compensated absences and the pension obligation will be paid from the fund from which the employees' salaries are paid.

The District's voted legal debt margin was \$34,041,972, with an unvoted debt margin of \$492,189 at June 30, 2000.

NOTE 15: PUBLIC ENTITY RISK POOL

Ohio School Boards Association Workers' Compensation Group Rating Plan

The School District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program.

Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

NOTE 16: JOINTLY GOVERNED ORGANIZATIONS

Auburn Career Center

The Auburn Career Center is a joint vocational school district which is a jointly governed board appointment organization among eleven school districts. Each participating school district appoints one member to the Auburn Career Center's Board of Education. The students of each participating school district may attend classes offered at the vocational facility. Each participant's control over the operation of the Auburn Career Center is limited to its representation on the Board. Continued existence of the Auburn Career Center is not dependent on the School District's continued participation. Financial information can be obtained from 8140 Auburn Road, Painesville, Ohio 44077.

Lake Geauga Computer Association

The Lake Geauga Computer Association (the LGCA) is a jointly governed organization that was formed for the purpose of providing computer services for accounting, grading, scheduling, EMIS, and other applications to its eighteen member school districts. Each of the districts supports LGCA based upon a per pupil charge. The Executive Committee (Governing Board) consists of the superintendents and treasurers of the member school districts. The degree of control exercised by any participating school district is limited to its representation on the Governing Board. LGCA's continued existence is not dependent on the School District's continued participation. LGCA is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit or burden on the School District. Financial information can be obtained from 8140 Auburn Road, Painesville, Ohio 44077.

Auburn-Bainbridge Recreation Board

The Auburn-Bainbridge Recreation Board is a jointly governed organization of the School District. The Board of Education appoints two members of the six member commission. The School District's Treasurer acts as the fiscal agent for the administrative payroll of the Board. The School District makes no financial contributions to the Board, but it does provide the use of its facilities and land. The School District's control is limited to its representation on the governing board. The Board's continued existence is not dependent on the School District's continued participation. The Board is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit or burden on the School District. Financial information on the Board can be obtained from Mary Ann Miller, 17425 Snyder Road, Chagrin Falls, Ohio 44023.

Ohio Schools' Council Association

The Ohio Schools' Council Association (Council) is a jointly governed organization among eighty-three school districts. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to the member districts. Each district supports the Council by paying an annual participation fee. The Council's Board consists of seven superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. In fiscal year 2000, the School District paid \$168,778 to the Council. Financial information can be obtained by contacting Albert G. Vasek, the Executive Secretary of the Ohio Schools Council at 155 Center Road, Bedford, Ohio 44146.

The School District participates in the Council's electric purchase program which was implemented during fiscal year 1998. This program allows school districts to purchase electricity at reduced rates, if the school districts will commit to participating for an eight year period. The participants make monthly payments based on estimated usage. Each June these estimated payments are compared to their actual usage for the year and any necessary adjustments are made.

Energy Acquisition Corporation, a non-profit corporation with a self-appointing board issued \$119,140,000 in debt to purchase eight years of electricity from Cleveland Electric Illuminating Company (CEI) for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, the district is required to repay the savings to CEI and CEI will refund the remaining prepayment related to that participant to Energy Acquisition Corporation.

The School District also participates in the Council's prepaid natural gas program which was implemented during fiscal year 2000. This program allows school districts to purchase natural gas at reduced rates, if the school districts will commit to participating for a twelve year period. The participants make monthly payments based on estimated usage. Each month these estimated payments are compared to their actual usage and any necessary adjustments are made.

The City of Hamilton, a municipal corporation and political subdivision duly organized and existing under the laws of the State of Ohio, issued \$89,450,000 in debt to purchase twelve years of natural gas from CMS Energy Corporation for their participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, the district is entitled to recover that amount, if any, of its contributions to the operating fund which are not encumbered for its share of program administrative costs.

East Shore Regional Transportation System

East Shore Regional Transportation System (ESRTS) is a jointly governed organization that was formed for the purpose of providing a transportation system for the handicapped children in the sixteen (16) member school districts. The transportation committee (governing board) consists of the superintendents of the member school districts. The degree of control exercised by any participating school district is limited to its representation of the governing board. ESRTA is not accumulating significant financial resources or experiencing fiscal distress, which would cause additional financial benefit or burden on the School District. Financial information can be obtained by writing the fiscal agent, Kirtland Board of Education, 9152 Chillicothe Road, Kirtland, Ohio 44094.

NOTE 17: **CONTINGENCIES**

A. **Grants**

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2000.

B. **Litigation**

The School District is party to legal proceedings. The School District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

NOTE 18: **CONSTRUCTION AND OTHER COMMITMENTS**

As of June 30, 2000, the School District had an unpaid commitment of \$280,250 with respect to roof replacement and Middle School addition. Of this amount, \$92,300 is recorded as an accounts payable in the Capital Projects Fund.

NOTE 19: **SCHOOL FUNDING**

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio School Funding Plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the State's legislature to design a plan to remedy the perceived defects in the system. Declared unconstitutional was the State's "School Foundation Program" which provides significant amounts of monetary support to the School District. During the fiscal year ended June 30, 2000, the School District received \$3,823,439 of School Foundation support for all of its general fund.

NOTE 19: **SCHOOL FUNDING** (Continued)

Since the Supreme Court ruling, numerous pieces of legislation have been passed by the State General Assembly in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County has reviewed the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, "...the mandate of the [Ohio] Constitution has not been fulfilled." The Court's majority recognized efforts by the Ohio General Assembly taken in response to the Court's March 24, 1997, decision, however, it found seven "...major areas warrant further attention, study, and development by the General Assembly..." including the State's reliance on local property tax funding, the state's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took the place of the unconstitutional emergency school loan assistance program.

The Court decided to maintain jurisdiction over these issues and continued the case at least until June 15, 2001.

As of the date of these financial statements, the School District is unable to determine what effect, if any, this ongoing litigation will have on its future State funding under this program and on its financial operations.

NOTE 20: **SET ASIDE REQUIREMENTS**

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years. Amounts are also to be set aside if the School District's base amount used for the yearly set-aside calculation increases three percent or more from the prior year. This amount is to be included in the budget stabilization reserve.

The following cash basis information describes the changes in the amounts set aside for textbooks and instructional materials, capital improvements, and budget stabilization from the end of the prior year to the end of the current year.

KENSTON LOCAL SCHOOL DISTRICT

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to account for revenues from specified sources which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the District's Special Revenue Funds follow:

Public School Support - this fund is used for the general support of the school building, staff, and students.

Venture Capital - this fund is to support the proposed change in the organizational testing and scheduling for middle school and high school.

Student Activity - this fund accounts for revenues from athletic events and all costs (except supplemental coaching contracts) of the District's athletic program.

Auxiliary Services - this fund accounts for state funds for the purchase of science and math materials, as well as psychological and other supplemental services at the parochial schools within the District.

Disadvantaged Pupil Aid Program - this fund accounts for monies used for state defined disadvantaged programs such as drop-out, HeadStart, and reading recovery.

Teacher Development - the purpose of this fund is to provide assistance to school districts for the development of in-service programs.

Educational Management Information System - funds provided by the State of Ohio to be used solely for costs associated with the requirements of the education management information system required by Senate Bill 140.

SchoolNet Professional Development - this fund was established to provide training for teachers to become practitioners. They will develop lesson labs related to proficiency outcomes.

Instructional Materials Subsidy - this fund accounts for State monies provided to purchase various instructional materials and supplies.

Ohio Reads Grant - this fund was established to provide funds to be utilized to improve reading skills for students in grades K-3. These funds will be used for salaries, benefits, supplies, and purchased services associated with this program.

Safe School Help Line - funds provided by the Ohio Department of Education to install phone help lines for student safety.

KENSTON LOCAL SCHOOL DISTRICT

SPECIAL REVENUE FUNDS

Education for Economic Security - this fund was established to improve the skills of teachers in instruction of mathematics and science. These federal funds are used for in-service training, instructional materials, and workshops.

Title VI-B - the purpose of this federal program is to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least-restrictive, alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Title I - the purpose of this federal program is to provide financial assistance to state and local education agencies to meet the special needs of educationally deprived children.

Title VI - this fund accounts for federal revenues which support the implementation of a variety of programs such as computer education, gifted and talented programs, and in-service and staff development.

Drug-Free Schools Grant - this fund accounts for federal revenues to implement programs to educate and encourage students to live lives free of drug dependency.

FCC E Rate - this fund was established to provide districts a rebate on their telecommunication services. Money will be paid from the federal government directly to the provider, who will in turn reimburse the district. The funds will be used for future telecommunication services.

Learn and Serve Grant - the purpose of this program is to provide individual instruction to first and second grade students in the academic area of reading math with the assistance of a trained group of adult volunteers using appropriate service learning activities.

KENSTON LOCAL SCHOOL DISTRICT

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of services provided by one department to other departments of the government or to other districts on a cost reimbursement basis.

Special Rotary - this fund provides for the purchase of services and equipment by internal persons and organizations.

Rate Stabilization - this fund is to account for the receipt and expenditure of funds for medical and dental claims for employees.

FIDUCIARY FUNDS

Fiduciary funds are used to account for assets when a governmental unit is functioning either as a trustee or an agent for another party. Because the governmental unit is functioning in a fiduciary capacity, the authority to employ, dispose of, or otherwise use the assets is determined not by a legislative body or oversight board but by the public laws and private agreements that create the trustee or agency relationship.

Expendable Trust Fund

Scholarship - this fund is used to account for assets held by a governmental unit in a trustee capacity as an agent for individuals, private organizations or other governmental units with specific trust agreements as to how the fund will be disbursed.

Agency Fund

Student Activities - this fund accounts for resources that belong to the student bodies of the various schools, accounting for sales and other revenue generating activities.
