## REPORT OF INDEPENDENT ACCOUNTANTS

Lake Local School District  
Stark County  
12077 Lisa Avenue, NW  
Hartville, Ohio 44632

To the Board of Education:

We have audited the accompanying general purpose financial statements of Lake Local School District, Stark County, Ohio, (the District) as of and for the year ended June 30, 2000, as listed in the Table of Contents. These general purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the District, as of June 30, 2000, and the results of its operations and the cash flows of its proprietary fund types for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2000 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The accompanying Schedule of Receipts and Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

LAKE LOCAL SCHOOL DISTRICT  
STARK COUNTY  
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2000

1. Description of the School District and Reporting Entity

The Lake Local School District (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is governed by a five-member board of education (the Board) elected by its citizens. The Board controls the District's five school buildings, bus garage, warehouse, and administration building staffed by administrators, teachers, and non-certified personnel providing educational opportunities to its students.

*The Reporting Entity*

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the general purpose financial statements of the District are not misleading.

The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally entitled to or can otherwise assume the responsibility to finance the deficits of, or provide financial support to the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. The District does not have any component units. The District is associated with organizations which are defined as a jointly governed organization and public entity risk pools. These organizations include the Stark/Portage Area Computer Consortium (SPARCC) and the Stark County Schools Council of Governments Health Benefits Program. These organizations are presented in Notes 10 and 14 to the general purpose financial statements.

The following organizations are not part of the reporting entity and are excluded from the accompanying general purpose financial statements:

1. Description of the School District and Reporting Entity (Continued)

*Non-Public Schools* - Within the District's boundaries, Hartville Christian and Lake Center Christian Schools are operated by religious organizations. Current state legislation provides funding to these schools. The monies are received and disbursed on behalf of the non-public schools by the Treasurer of the District. The accounting of these state monies are reflected as part of the District's Special Revenue Funds.

2. Summary of Significant Accounting Policies

The general purpose financial statements of the District have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as it applies to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Under the guidelines of Governmental Accounting Standards Board (GASB) Statement No 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Units That Use Proprietary Fund Accounting*, the District has elected not to apply Financial Accounting Standards Board (FASB) Statements and interpretations issued after November 30, 1989, to its proprietary activities.

The District's significant accounting policies are described below.

A. Basis of Presentation

*Fund Accounting*

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special restrictions or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities not recorded in the funds because they do not directly affect net available resources. For financial statement presentation purposes, the various funds of the District are grouped into the following generic fund types under the broad fund categories governmental, proprietary, and fiduciary.

A. Basis of Presentation (Continued)

Governmental Fund Types

Governmental funds are those through which most governmental functions of the District are financed. The acquisition, use, and balances of the District's expendable financial resources and the related current liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The following are the District's governmental fund types:

General Fund

The General Fund is the operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources, other than expendable trusts or major capital projects, that are legally restricted to expenditure for specified purposes.

Debt Service Fund

The Debt Service Fund is used to account for financial resources for, and the payment of, general long-term obligation principal, interest, and related costs.

Capital Projects Fund

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by Proprietary Funds.

A. Basis of Presentation (Continued)

Proprietary Fund Types (Continued)

Proprietary Funds are used to account for the District's ongoing activities which are similar to those found in the private sector. The following are the District's Proprietary Fund types:

Enterprise Funds

Enterprise Funds are used to account for District activities that are financed and operated in a manner similar to private business enterprises where the intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Fund

The Internal Service Fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a reimbursement basis.

Fiduciary Fund Types

Fiduciary Funds are used to account for assets not owned by the District, but held for a separate entity.

Expendable Trust Funds

The Expendable Trust Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. The Expendable Trust Funds are accounted for in essentially the same manner as the Governmental Funds.

Fiduciary Fund Types (Continued)

Agency Funds

Agency Funds are used to account for assets held by the District as an agent. Agency Funds are custodial in nature (Assets equal Liabilities) and do not involve measurement of results of operations.

Account Groups

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

*General Fixed Assets Account Group*

This account group is established to account for all fixed assets of the District, other than those accounted for in the Proprietary Funds.

*General Long-Term Obligations Account Group*

This account group is established to account for all long-term obligations of the District except those accounted for in the Proprietary Funds.

B. Measurement Focus and Basis of Accounting

*Measurement Focus*

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Fund Types and the Expendable Trust Funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the combined balance sheet.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
FOR THE YEART ENDED JUNE 30, 2000  
(CONTINUED)

2. Summary of Significant Accounting Policies (Continued)

B. Measurement Focus and Basis of Accounting (Continued)

*Measurement Focus (Continued)*

Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All Proprietary Funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is shown as retained earnings. Proprietary Fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

*Basis of Accounting*

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

The modified accrual basis of accounting is followed for the Governmental, Expendable Trust, and Agency Funds. Under this basis, revenues are recognized in the accounting period when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year.

2. Summary of Significant Accounting Policies (Continued)

B. Measurement Focus and Basis of Accounting (Continued)

The available period for the District is sixty days after fiscal year end. In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: interest, tuition, grants, and student fees.

The District reports deferred revenues on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Property taxes measurable as of June 30, 2000, and delinquent property taxes, whose availability is indeterminable and which are intended to finance fiscal year 2001 operations, have been recorded as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the Governmental Funds.

The accrual basis of accounting is utilized for reporting purposes by the Proprietary Fund Types. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized at the time they are incurred. Unused donated commodities in the Enterprise Fund at year end are reported as deferred revenue.

C. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the Certificate of Estimated Resources, and the Appropriation Resolution, all of which are prepared on the budgetary basis of accounting. The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified by the County Auditor.

All funds, other than Agency Funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the function level for the General Fund and the fund level for all other funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

STARK COUNTY  
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2000

2. Summary of Significant Accounting Policies (Continued)

C. Budgetary Process (Continued)

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing or increased tax rates. By no later than January 20, the Board adopted budget is filed with the Stark County Budget Commission for rate determination.

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final Amended Certificate issued during fiscal year 2000.

C. Budgetary Process (Continued)

Appropriations

Upon receipt from the County Auditor of an amended Certificate of Estimated Resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual Appropriation Resolution must be legally enacted by the Board of Education at the fund and function for the General Fund and the fund level for all other funds which are the legal levels of budgetary control. Prior to the passage of the Annual Appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The Appropriation Resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund, or alter object appropriations within functions, must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent Certificate of Estimated Resources.

The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts.

Formal budgetary integration is employed as a management control device during the year for all funds other than Agency Funds, consistent with statutory provisions.

Encumbrances

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Expenditures plus encumbrances may not legally exceed appropriations. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent year end expenditures of Governmental Funds.

*Lapsing of Appropriations*

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

D. Cash and Cash Equivalents

To improve cash management, cash received by the District is pooled. Monies for all funds, including Proprietary Funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "cash, cash equivalents and investments" on the combined balance sheet.

During fiscal year 2000, investments were limited to STAR Ohio

The District has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during 2000. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2000.

Following Ohio Statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest credited to the General, Special Revenue, Capital Projects, and Enterprise Funds during fiscal year 2000 amounted to \$300,052, \$3,135, \$1,239,828, and \$4,387.

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents.

E. Inventory

Inventories are valued at cost (first in, first out) and are determined by physical count. Inventories in Governmental Funds consist of expendable supplies held for consumption. The cost has been recorded as an expenditure at the time individual inventory items were purchased. Inventory in Proprietary Funds consist of expendable supplies held for consumption and food service items held for resale. The cost has been recorded as an expense at the time individual inventory items were consumed.

F. Fixed Assets and Depreciation

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in Governmental Funds, and the related assets are reported in the General Fixed Assets Account Group. Fixed assets utilized in the Proprietary Funds are capitalized in those funds. All fixed assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$500. The District does not have any infrastructure.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Assets in the General Fixed Assets Account Group are not depreciated. Depreciation of furniture and equipment in the Enterprise Fund is computed using the straight-line method over estimated useful lives of eight to twenty years.

G. Intergovernmental Revenues

For Governmental Funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as nonoperating revenues in the accounting period in which they are earned and become measurable. The District currently participates in various state and federal programs categorized as follows:

H. Interfund Assets and Liabilities

Receivables and payables resulting from transactions between funds for services provided or goods received are classified as "Interfund Receivable" or "Interfund Payable". Long-term interfund loans are recorded as reservation of fund balance to indicate that they do not constitute available expendable resources since they are not a component of net current assets. The District did not have any long-term advances at year end.

I. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future, in accordance with the provisions of Governmental Accounting Standards Board Statement No. 16, *Accounting for Compensated Absences*. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's severance policy.

For Governmental Funds, the District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service. The District records a liability for accumulated unused sick leave for both classified and certified employees once they meet the eligibility requirements for retirement from one of the State retirement systems.

The current portion of unpaid compensated absences is the amount expected to be paid using available expendable resources. These amounts are recorded in the account "Compensated Absences Payable" in the fund from which the employees are paid. The remainder is reported in the General Long-Term Obligations Account Group. In Proprietary Funds, the entire amount of compensated absences is reported as a fund liability.

J. Accrued Liabilities and Long-Term Obligations

In general, Governmental Fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, claims and judgments, compensated absences, contractually required pension contributions, and special termination benefits that will be paid from governmental funds are reported as a liability in the General Long-Term Obligations Account Group to the extent that they will not be paid with current available expendable financial resources. Bonds, capital leases, and long-term loans are reported as a liability of the General Long-Term Obligations Account Group until due. Long-term debt and other obligations financed by Proprietary Funds are reported as liabilities of those funds.

K. Interfund Transactions

Quasi-external transactions are accounted for as revenues and expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/ expenses initially made from it that are properly applicable to another fund are recorded as expenditures/ expenses in the reimbursing fund and as reductions of expenditures/ expenses in the fund that is reimbursed. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

L. Fund Balance Reserves

The District records reservations for portions of fund equity which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves are established for encumbrances, property taxes, budget stabilization and materials and supplies inventory. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriations under State statute.

M. Total Columns on General Purpose Financial Statements

Total columns on the general purpose financial statements are captioned "Total-(Memorandum Only)" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with Generally Accepted Accounting Principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in aggregation of this data.

N. Restricted Assets

Restricted assets in the General fund represents cash and cash equivalents set aside to establish a budget stabilization reserve. This reserve is required by the State statute and can be used only after receiving approval from the State Superintendent of Public Instruction. A fund balance reserve has also been established. See Note 17 for the calculation of the year-end restricted asset balance and the corresponding fund balances reserves.

O. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

3. Budgetary Basis of Accounting

While the District is reporting financial position, results of operations, and changes in fund balance/retained earnings on the basis of Generally Accepted Accounting Principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Combined Statement of Revenues, Expenditures, and Changes in Fund Balances, Budget -Actual (Budgetary Basis) - All Governmental Fund Types and Similar Fiduciary Fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the Budgetary basis and GAAP basis are that:

1. Revenues are recorded when received in cash (Budgetary basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (Budgetary basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditure equivalents for all funds (Budgetary basis) rather than as a reservation of fund balance for Governmental Fund Types (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the Budgetary and GAAP basis statements by fund type.

4. Deposits and Investments

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by Certificates of Deposit maturing no later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

4. Deposits and Investments (Continued)

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts.

Protection of District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies to be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; and

6. The State Treasurer's investment pool (STAR Ohio).

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements.

Deposits: At year end, the carrying amount of the District's deposits was \$(216,794) and the bank balance was \$175,440. Of the bank balance, \$100,000 was covered by federal depository insurance and \$75,440 was uninsured and uncollateralized. Although all statutory requirements for the deposits of money had been followed, non compliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

Investments: The District's investment in STAR Ohio, an investment pool operated by the Ohio State Treasurer, is unclassified since it is not evidenced by securities that exist in physical or book entry form. Investments at June 30, 2000 consisted only of STAR Ohio, which had a carrying and fair value of \$32,666,696.

5. Property Taxes

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied after April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on tangible personal property at 88 percent of true value. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year. Tangible personal property assessments are 25 percent of true value.

5. Property Taxes (Continued)

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The District receives property taxes from Stark County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2000, are available to finance fiscal year 2000 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes which became measurable as of June 30, 2000. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to a deferred revenue for that portion not intended to finance current year operations. The amount available to the District as an advance at June 30, 2000, was \$422,210 and \$103,910 in the General and Debt Service Funds, respectively.

Tax Anticipation Notes were received and paid off during the year for a note proceed of \$26,390,000 and Proceeds from Bonds of \$26,389,945.

9. Compensated Absences

The criteria for determining vacation and sick leave components derives from negotiated agreements and State laws. Classified employees earn ten to twenty-five days of vacation per fiscal year, depending upon the length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at a rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 290 days for all personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit up to a maximum of 46 days for those employees with ten or more years of service, and 61 days for those employees with twenty or more years of service to the Board of Education. Additionally, \$10 is paid for each day of sick leave accumulated above 200 days, up to the maximum allowed.

For certificated employees who retired during the fiscal year, an additional retirement incentive payment of \$10,000 per person will be paid in January 2001.

10. Risk Management

*Comprehensive* - The District is exposed to various risks of loss related to torts, theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2000, the District contracted with Indiana Insurance (the Malcolm Insurance Group) for property and fleet insurance and inland marine coverage. Liability insurance is handled through Nationwide (Harcum-Hyre) Insurance Agency. Coverage provided by these carriers is as follows:

Building and Contents-replacement cost (\$1,000 deductible) \$38,404,206

Inland Marine Coverage (\$100 deductible) Coverage based on items listed.

Automobile Liability - \$1,000,000

General Liability - \$2,000,000/ each occurrence \$5,000,000/ aggregate

Settled claims have not exceeded this commercial coverage in any of the past three years.

*Workers Compensation* - For fiscal year 2000, the District participated in a program with the Stark County Board of Education to obtain workers' compensation coverage. This program is administered by CompManagement, Inc. The experience of each of the participating school districts is calculated as one experience rate and applied to all participants in the program. Premiums paid to the State are based GRP. Each participant pays its workers' compensation premium to the State's Bureau of Workers' Compensation based on this calculation. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the program. A participant will then either receive money from or be required to contribute to the program. This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the program. Participation in the program is limited to school districts that can meet its selection criteria.

*Health Insurance* - The District is a participant in the Stark County Schools Council of Government (COG) for the purpose of obtaining benefits at a reduced premium for health care. The program for health care is administered by Mutual Health Services Company and Aultcare. Payments are made to the COG for the monthly attachment point, monthly stop-loss premiums, and administrative charges. The fiscal officer of the COG is the Treasurer of the Stark County Educational Service Center. The fiscal agent pays Mutual Health Services and Aultcare monthly for the actual amount of claims processed, the stop-loss premium, and the administrative charges.

11. Defined Benefit Pension Plans

A. School Employees Retirement System

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215.

Plan members are required to contribute 9 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The contribution rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits: for fiscal year 1999, 7.7 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board. The District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2000, 1999 and 1998 were \$380,435, \$357,684, and \$337,704, respectively. 51% has been contributed for the fiscal year 2000 and 100% for fiscal years 1999 and 1998. \$187,662 representing the unpaid contribution for the fiscal year 2000, is recorded as a liability within the respective funds and the General Long-Term Obligations Account Group.

B. State Teachers Retirement System

The District also contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

B. State Teachers Retirement System (Continued)

Plan members are required to contribute 9.3 percent of their annual covered salary and the District is required to contribute 14 percent; 8 percent was the portion used to fund pension obligations. For fiscal year 1999, the portion used to fund pension obligations was 6 percent of covered payroll. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers.

The District's required contributions for pension obligations to STRS for the fiscal years ended June 30, 2000, 1999, and 1998 were \$1,218,954, \$1,215,096, and \$1,183,860, respectively. 83% has been contributed for the fiscal year 2000 and 100% for the fiscal years 1999 and 1998. \$202,848 representing the unpaid contribution for the fiscal year 2000, is recorded as a liability within the respective funds.

12. Post Employment Benefits

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State Statute. Both systems are funded on a pay-as-you-go basis.

The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefits recipients pay a portion of the health care costs in the form of a monthly premium. By Ohio law, the cost of coverage paid from the STRS funds shall be included in the employer contributions rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 1999, the STRS Board allocated employer contributions equal to 8 percent of covered payroll to the Health Care Reserve Fund. For the District, this amount equaled \$718,002.

STRS pays health care benefits from the Health Care Reserve Fund. The balance in the Health Care Reserve Fund at year end was \$2.783 million. For the fiscal year ended June 30, 1999 (the latest information available), eligible benefit recipients totaled 95,796 and net health care costs paid by STRS were \$249,929,000

12. Post Employment Benefits (Continued)

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, disability, and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

For this fiscal year, employer contributions to fund health care benefits were 4.98 percent of covered payroll, an increase from 4.21 percent for fiscal year 1998. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 1999, the minimum pay has been established at \$12,400. The surcharge rate added to the unallocated portion of the 14 percent employer contribution provides for maintenance of the asset target level for the health care fund.

The target level for the health care reserve is 125 percent of annual health care expenses. For the fiscal year ended June 30, 1999 (the latest information available), net health care costs paid by SERS were \$111,900,575 and the target level was \$139.9 million. Net assets available for payment as of June 30, 1999 by the Retirement System were \$160.3 million, at cost. The number of participants currently receiving health care benefits is approximately 50,000. The portion of the District's contributions that were used to fund postemployment benefits was \$252,014.

14. Jointly Governed Organization

The District is a member of the Stark-Portage Area Computer Consortium (SPARCC), a jointly governed organization which provides computer services to school districts within the boundaries of Stark and Portage counties. Each district's superintendent serves as a representative on the Board consisting of approximately 31 member districts. SPARCC is primarily governed by a five member executive Board which is made up of two representatives from Stark County, two from Portage County, and a Treasurer. The Board meets monthly to address current issues.

15. Contingencies and Commitments

*Federal and State Assistance*

During the fiscal year, the District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2000.

*School Funding Decision*

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio school funding plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the State's legislature to design a plan to remedy the perceived defects in that system. Declared unconstitutional was the State's "school foundation program," which provides significant amounts of monetary support to this District. During the fiscal year ended June 30, 2000, the District received \$8,347,784 of school foundation support.

Since the Supreme Court's ruling, numerous pieces of legislation have been passed by the State General Assembly in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County has reviewing the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, "... the mandate of the Ohio Constitution has not been fulfilled." The Court's majority recognized efforts by the Ohio General Assembly taken in response to the Court's March 24, 1997, decision, however, it found seven "... major areas warrant[ing] further attention, study, and development by the General Assembly..." including the state's reliance on local property tax funding, the state's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took the place of the unconstitutional emergency school loan assistance program.

15. Contingencies and Commitments (Continued)

*School Funding Decision (Continued)*

The Court decided to maintain jurisdiction over these issues and continued the case at least until June 15, 2001

As of the date of these financial statements, the District is unable to determine what effect, if any, this ongoing litigation will have on its future State funding under this program and on its financial operations.

16. Capital Lease

In October of 1997, the District entered into a capital lease agreement with Vision Impact Capital for equipment. The lease, which meets the criteria for capitalization under the Statement of Financial Accounting Standards No. 13, "Accounting for Leases", was recorded as an acquisition in the General Fixed Asset Account Group and as a liability in the General Long-Term Obligations Account Group. Principal payments during the fiscal year totaled \$37,354 in the General Fund.

The lease is for a term of 10 years and has an interest rate of 6.5 percent. Obligations under this lease and the net present value of the minimum lease payments at June 30, 2000 are as follows:

The following is a schedule of future minimum lease payments required under capital leases that have initial terms in excess of one year as of June 30, 2000:

17. Statutory Reserves

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purpose in future years. The District is also required to set aside money for budget stabilization. Set-aside requirements for fiscal year 2000 are as follows:

	<u>Textbooks</u>	<u>Capital Acquisition</u>	<u>Budget Stabilization</u>	<u>Totals</u>
Set-Aside Cash Balance as of June 30, 1999	\$ -	\$ -	\$231,992	\$ 231,992

**REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE AND ON  
INTERNAL CONTROL REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Lake Local School District  
Stark County  
12077 Lisa Avenue, NW  
Hartville, Ohio 44632

To the Board of Education:

We have audited the general purpose financial statements of Lake Local School District, Stark County, Ohio, (the District) as of and for the year ended June 30, 2000, and have issued our report thereon dated December 11, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Compliance**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

However, we noted certain immaterial instances of noncompliance that we have reported to management of the District in a separate letter dated December 11, 2000.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

However, we noted other matters involving the internal control over financial reporting that do not require inclusion in this report, that we have reported to management of the District in a separate letter dated December 11, 2000.

**REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER  
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Lake Local School District  
Stark County  
12077 Lisa Avenue, NW  
Hartsville, Ohio 44632

To the Board of Education:

**Compliance**

We have audited the compliance of Lake Local School District, Stark County, Ohio, (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2000. The District's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2000.

### **Internal Control Over Compliance**

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
