REPORT OF INDEPENDENT ACCOUNTANTS

Board of Education
South Euclid-Lyndhurst City School District
Cuyahoga County
5044 Mayfield Road
Lyndhurst, Ohio 44124

To the Board of Education

We have audited the accompanying general-purpose financial statements of the South Euclid-Lyndhurst City School District, Cuyahoga County, Ohio, (the District) as of and for the year ended June 30, 2000, as listed in the table of contents. These general-purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the South Euclid-Lyndhurst City School District, Cuyahoga County, Ohio, as of June 30, 2000, and the results of its operations and the cash flows of its proprietary fund types and nonexpendable trust funds for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 1, 2000 on our consideration of the Government's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements of the Government, taken as a whole. The accompanying schedule of federal awards expenditures is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

SOUTH EUCLID-LYNDHURST CITY SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
June 30, 2000

NOTE 1 - NATURE OF BASIC OPERATIONS AND DESCRIPTION OF THE ENTITY

The South Euclid-Lyndhurst City School District (District) is a body public and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is governed by a locally-elected five-member Board of Education (Board) and provides educational services as mandated by state and/or federal agencies. This Board controls the District's instructional/support facilities which are staffed by 236 classified and 364 certificated personnel who provide services to students and other community members.

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the District, which includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes for the organization. The District has no component units.

The following entities which perform activities within the District boundaries for the benefit of its residents are excluded from the accompanying financial statements because the District is not financially accountable for these entities nor are these entities fiscally dependent on the District.

Cities of South Euclid and Lyndhurst The city governments are separate body politic and corporate. City officials are elected independent of any District relationships and administer the provision of traditional city services. City Councils act as the taxing and budgeting authority for these city services.

Parent Teacher Association The District is not involved in the budgeting or management and is not responsible for any debt and has no influence over the organization.

The District is associated with two jointly governed organizations, one joint venture, and one public entity risk pool. These organizations are discussed in Note 11, Note 12, and Note 14 to the general purpose financial statements. These organizations are:

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) *MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND BASIS OF PRESENTATION*

The accounts of the District are organized and operated on the basis of funds and account groups. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements. Account groups are a reporting device to account for certain assets and liabilities of the governmental funds not recorded directly in those funds. The District has the following fund types and account groups:

GOVERNMENTAL FUND TYPES

Governmental fund types are used to account for the District's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay obligations of the current period, which is considered to be approximately sixty days. Generally property taxes, although measurable, are not available soon enough after the current period to finance current period obligations, and accordingly, property taxes receivable are reflected as deferred revenue until available. Reimbursements due for federally funded programs are recognized when the corresponding expenditures are made.

Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, since the measurement focus of governmental funds is on decreases in financial resources. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service funds for payment to be made early in the following year. Compensated absences are reported as a fund liability when payment will require the current available financial resources. Allocations of costs, such as depreciation and amortization, are

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

not recognized in the governmental funds. Governmental funds include the following fund types:

General Fund - used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds - used to account for the proceeds of specific revenue sources, other than expendable trusts or major capital projects, that are legally restricted to expenditure for specified purposes.

Debt Service Fund - used to account for the accumulation of resources for the payment of interest and principal on long-term general obligation debt other than those payable from proprietary funds.

Capital Projects Fund - used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary or trust funds.

PROPRIETARY FUND TYPES

Proprietary fund types are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred. Allocations of costs, such as depreciation, are recognized in the proprietary funds. As permitted, the Board has elected to apply only applicable FASB Statements and Interpretations issued on or before November 30, 1989 in its accounting and reporting practices for its proprietary operations unless they contradict/conflict with GASB pronouncements. Proprietary funds include the following fund types:

Enterprise Funds - used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs, including depreciation where applicable, of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the governing body has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Fund - used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, on a cost-reimbursement basis.

SOUTH EUCLID-LYNDHURST CITY SCHOOL DISTRICT
Notes to the General Purpose Financial Statements (continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

FIDUCIARY FUND TYPES

Fiduciary fund types account for assets held by the District in a trustee capacity or as an agent on behalf of others. Fiduciary fund types are as follows:

Expendable Trust Fund - accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting.

Agency Fund - custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting. These funds are used to account for assets that the government holds for others in an agency capacity.

ACCOUNT GROUPS

The District maintains two account groups as described below:

General Fixed Assets Account Group - used to account for fixed assets acquired for general purposes other than those accounted for in proprietary or trust funds.

General Long-term Obligations Account Group - used to account for the outstanding principal balances of general obligation bonds, debt and other long-term obligations not reported in proprietary funds.

(B) *DEPOSITS AND INVESTMENTS*

To improve cash management, cash received by the District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through District records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the combined balance sheet.

During fiscal year 2000, investments were limited to STAROhio, money market accounts, and repurchase agreements.

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements are reported at cost.

STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on June 30, 2000.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(B) *DEPOSITS AND INVESTMENTS (continued)*

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an original maturity of more than three months that are not made from the pool are considered to be investments.

(C) *RESTRICTED ASSETS*

Restricted assets in the general fund represent cash and cash equivalents set aside to establish a budget stabilization reserve. This reserve is required by State law and can be used only after receiving approval from the State Superintendent of Public Instruction. A related fund balance reserve has also been established.

(D) *RECEIVABLES*

Receivables are reflected at their gross value reduced by the estimated amount that is expected to be uncollectible.

(E) *INVENTORIES AND SUPPLIES*

The costs of inventory items are recognized as expenditures when purchased in the governmental funds and recognized as expenses when used in the enterprise funds. For all funds, cost is determined on a first-in, first-out basis.

Reported inventories in the governmental fund types are equally offset by a fund balance reserve which indicates that they do not constitute available spendable resources even though they are a component of net current assets.

(F) *FIXED ASSETS AND DEPRECIATION*

Fixed assets used in governmental fund types of the District are recorded in the General Fixed Assets Account Group at cost or estimated historical cost if purchased or constructed. Donated fixed assets are recorded at their estimated fair value at the date of donation. Assets in the General Fixed Assets Account Group are not depreciated. Interest incurred during construction is not capitalized on general fixed assets. The District does not possess any infrastructure.

Fixed assets which are used in proprietary fund type activities are capitalized in the respective funds. Fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at estimated fair market value when received. Depreciation is computed using the straight-line method based on the estimated life of 10 years.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(G) *UNPAID COMPENSATED ABSENCES*

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy. The District records a liability for accumulated unused sick leave for employees after 20 years of current service with the District and attaining the age of 40.

For governmental funds, these amounts are recorded in the account "Compensated Absences Payable" in the General Long-Term Obligations Account Group. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

(H) *LONG-TERM LIABILITIES*

Unmatured general long-term liabilities, which are related to governmental fund type operations, are reflected in the General Long-Term Obligations Account Group until due.

(I) *INTERFUND TRANSACTIONS*

Quasi-external transactions are accounted for as revenues and expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers. During the 2000 fiscal year, the District had the following transfer transactions:

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(J) *FUND EQUITY*

The unreserved fund balances for governmental funds represent the amount available for budgeting future operations. The reserved fund balances for governmental funds represent the amounts that have been legally identified for specific purposes. Fund equity reserves are established for encumbrances, inventory, debt, budget stabilization, and property taxes. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute. Unreserved retained earnings for proprietary funds represent the net assets available for future operations.

(K) *TOTAL COLUMNS*

Total columns on the general purpose financial statements are captioned "Totals (Memorandum Only)" because they do not represent consolidated financial information and are presented only to facilitate financial analysis. The columns do not present information that reflects financial position, results of operations, or cash flows in accordance with generally accepted accounting principles. Interfund eliminations have not been made in the aggregation of this data.

(L) *ESTIMATES*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

(A) *BUDGETARY PROCESS*

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are required to be budgeted and appropriated. Throughout the fiscal year, the primary level of budgetary control was at the object code within function level within each fund. As of June 30, 2000, the legal level of control was at the fund level. Budgetary modifications may only be made by resolution of the Board of Education.

(B) *BUDGETARY BASIS*

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds.

SOUTH EUCLID-LYNDHURST CITY SCHOOL DISTRICT
Notes to the General Purpose Financial Statements (continued)
June 30, 2000

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing or increased tax rates. By no later than January 20, the Board-adopted budget is filed with the Cuyahoga County Budget Commission for rate determination.

Estimated Resources

The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Commission certifies its actions to the District by March 1. As part of the certification, the District receives the official certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget ensuring that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriation measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. Budget receipts, as shown in the accompanying "Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - All Governmental Fund Types and Expendable Trust Funds (Non-GAAP Budgetary Basis)" do not include July 1, 1999 unencumbered fund balances. However, those fund balances are available for appropriations.

Appropriations

A temporary appropriations measure to control expenditures may be passed on or about July 1 of each year for the period July 1 to September 30. An annual appropriation resolution must be passed by October 1 of each year for the period July 1 to June 30. The appropriation resolution fixes spending authority at the legal level of control and may be amended during the year as new information becomes available provided that total fund appropriations do not exceed current estimated resources, as certified.

Several supplemental appropriation resolutions were legally enacted by the Board during the year. The budget figures, as shown in the accompanying "Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - All Governmental Fund Types and Expendable Trust Funds (Non-GAAP Budgetary Basis)" represent the final appropriation amounts including all amendments and modifications.

SOUTH EUCLID-LYNDHURST CITY SCHOOL DISTRICT
Notes to the General Purpose Financial Statements (continued)
June 30, 2000

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

Encumbrances

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the Non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. The Ohio Revised Code prohibits the sum of expenditures and encumbrances from exceeding appropriations. On the GAAP basis, encumbrances outstanding at year-end for governmental funds are reported as reservations of fund balance for subsequent-year expenditures.

Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated.

Budgetary Reporting

While the District is reporting financial position, results of operations, and changes in fund balance/retained earnings on the basis of generally accepted accounting principles (GAAP basis), the budgetary basis, as provided by law, relies upon accounting for transactions on the basis of cash receipts, disbursements, and encumbrances. Accordingly, the "Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual - All Governmental Fund Types and Expendable Trust Funds (Non-GAAP Budgetary Basis)" is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget and to demonstrate compliance with state statute. The major differences between the budget basis and GAAP basis are that:

- 1) Revenues are recorded when received (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2) Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3) Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and as note disclosures in the proprietary fund types (GAAP basis).
- 4) Proceeds from and principal payment on bond and tax anticipation notes are reported on the operating statement (budget basis) rather than on the balance sheet (GAAP basis).

SOUTH EUCLID-LYNDHURST CITY SCHOOL DISTRICT
Notes to the General Purpose Financial Statements (continued)

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

- 5) The School District repays short-term note debt from the debt service fund (budget basis) as opposed to the fund that received the proceeds (GAAP basis). Debt service fund resources used to pay both principal and interest have been allocated accordingly.

The adjustments necessary to convert the results of operations for the year from the budget basis to the GAAP basis for the governmental funds and Expendable Trust Fund follow:

NOTE 4 - DEPOSITS AND INVESTMENTS

(A) LEGAL REQUIREMENTS

State statutes classify monies held by the District into three categories:

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

NOTE 4 - DEPOSITS AND INVESTMENTS (continued)

Interim deposits are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies can be deposited or invested in the following securities:

- 1) United States Treasury notes, Bills, Bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2) Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3) Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement exceeds the principal value of the agreement by at least two percent and be market to market daily with the term of the agreement not exceeding thirty days;
- 4) Bonds and other obligations of the State of Ohio;
- 5) No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6) The State Treasurer's investment pool (STAR Ohio);
- 7) Certain bankers' acceptance and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and

NOTE 4 - DEPOSITS AND INVESTMENTS (continued)

- 8) Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of South Euclid-Lyndhurst City School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specific dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements."

(B) *DEPOSITS*

At fiscal year-end the carrying amount of the District's deposits was \$(1,181,787) and the bank balance was \$303,448, \$244,897 of which was covered by federal depository insurance.

(C) *INVESTMENTS*

The District's investments are categorized below to give an indication of the level of risk assumed by the District at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the District or its agent in the District's name. Category 2 includes uninsured and unregistered investments which are held by the counterparty's trust department or agent in the District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent but not in the District's name. STAROhio is an unclassified investment since it is not evidenced by securities that exist in physical or book entry form.

Statutory provisions require that all securities acquired by the District be held by the District treasurer or deposited with a qualified trustee. Securities acquired under a repurchase agreement must be deposited with such a trustee unless the counterparty is a designated depository of the District for the current period of designation of depositories, in which case the securities may be held in trust by the depository.

The Board approved an Early Retirement Incentive program for certified employees. Participation was open to employees who were at least fifty years old, qualified for retirement with the years purchased by the Board, and agreed to retire within ninety days after notification that credit had been purchased. The credit could not exceed the lesser of two years or one fifth of each member's total Ohio service. The Board did not limit the number of employees participating in the plan in any one year. The District has a retirement incentive program for classified employees, which awards a bonus payment for those meeting the criteria who elect to retire.

NOTE 7 - PROPERTY TAXES

Property taxes include amounts levied against all real, public utility, and tangible personal property located in the District. The Cuyahoga County Auditor is responsible for assessing and remitting these property taxes to the District.

Real property taxes are based on assessed value equal to thirty-five percent of appraisal value. The Cuyahoga County Auditor reappraises real property every six years with a triennial update, which was last completed for 1997. Real property tax, which becomes a lien on the applicable real property, becomes due annually on December 31. However, in Cuyahoga County, real property taxes are billed semi-annually, one year in arrears. The tax rate applied to real property collected in 1999 before certain homestead and rollback reductions, which reductions are reimbursed to the District by the State of Ohio, amounted to \$82.10 per \$1,000 of valuation. The effective rate applied after adjustment for inflationary increases in property values was \$42.40 per \$1,000 of assessed valuation for residential and agricultural real property, and \$50.40 per \$1,000 of assessed valuation for other real property.

Tangible personal property used in business is required to be reported by its owners by April 30 of each year. The property is assessed for tax purposes at varying statutory percentages of cost. The tax rate applied to tangible personal property for the current year ended December 31, 1999 was \$82.10 per \$1,000 of valuation.

NOTE 7 - PROPERTY TAXES (continued)

The property valuation consisted of:

Real Property - 1999	
Residential/Agricultural	\$ 560,606,330
Commercial/Industrial	119,348,880
Tangible Personal Property - 2000	
General	24,481,833
Public Utilities	<u>20,288,030</u>
Total valuation	<u>\$ 724,725,073</u>

Accrued property taxes receivable represent delinquent taxes outstanding and real property, personal property, and public utility taxes which became measurable at June 30, 2000. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current year operations. The receivable is, therefore, offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30 is recognized as revenue. The amount available to the District as an advance at June 30, 2000, was \$1,984,424.

NOTE 8 - PENSION PLANS

(A) *SCHOOL EMPLOYEES RETIREMENT SYSTEM (SERS)*

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost sharing multiple-employer public employee retirement defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available financial report that includes financial statements and required supplementary information for SERS. The report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, and Ohio 43215-3634.

Plan members are required to contribute 9 percent of their annual covered salary and the District is required to contribute at an actuarially determine rate. The current rate is 14 percent of annual covered payroll; 5.5 percent of covered payroll was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board. The District's contributions for pension obligations to SERS for the fiscal years ended June 30, 2000, 1999 and 1998 were \$847,680, \$820,212, and, \$823,980, respectively; 66.67 percent has been contributed for fiscal year 2000 and 100 percent for fiscal year 1999 and 1998. The amount representing the unpaid contribution for fiscal year 2000, \$439,464 is recorded as a liability within the respective funds and the General Long-Term Obligations Account Group.

(B) *STATE TEACHERS RETIREMENT SYSTEM (STRS)*

The District contributes to the State Teachers Retirement System of Ohio (STRS), a cost sharing multiple-employer public employee retirement system by the State of Ohio. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. That report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771, or by calling (614) 227-4090.

Plan members are required to contribute 9.3 percent of their annual covered salary and South Euclid-Lyndhurst City School District is required to contribute at an actuarially determine rate. The current rate is 14 percent of annual covered payroll; 6 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The School District's contributions for pension obligations to STRS for the years ended June 30, 2000, 1999 and 1998 were \$2,494,188, \$2,722,884 and, \$2,698,440, respectively; 82.14 percent has been contributed for fiscal year 2000 and 100 percent for fiscal year 1999 and 1998. The amount representing the unpaid contribution for fiscal year 2000, \$373,508 is recorded as a liability within the respective funds.

NOTE 9 - POSTEMPLOYMENT BENEFITS

(A) *SCHOOL EMPLOYEES RETIREMENT SYSTEM (SERS)*

The Ohio Revised Code gives SERS the discretionary authority to provide postretirement health care to retirees and their dependents. Coverage is made available to service retirees with ten or more years of qualifying service credit, disability, and survivor benefit recipients.

Members retiring on or after August 1, 1989, with less than twenty-five years of service credit, must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75% of the premium.

After the allocation for basic benefits, the remainder of the employer's contribution is allocated to providing health care benefits. At June 30, 2000, the allocation rate was 8.5%. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal 2000, the minimum pay has been established as \$12,400. The surcharge rate added to the unallocated portion of the 14 percent employer contribution rate provides for maintenance of the asset target level for the health care fund.

Health care benefits are financed on a pay-as-you-go basis.

Notes to the General Purpose Financial Statements (continued)

NOTE 9 - POSTEMPLOYMENT BENEFITS (continued)

(A) *SCHOOL EMPLOYEES RETIREMENT SYSTEM (SERS) (continued)*

The target level for the health care reserve is 150% of annual health care expenses. Expenses for health care at June 30, 1999 were \$126,380,984 and the target level was \$189.6 million. At June 30, 1999, the Retirement System's net assets available for payment of health care benefits was \$188 million, at cost. The number of participants currently receiving health care benefits is approximately 51,000. The portion employer contributions that were used to fund postemployment benefits was \$451,940.

(B) *STATE TEACHERS RETIREMENT SYSTEM (STRS)*

The State Teachers Retirement System (STRS) provides comprehensive health care benefits to retirees and their dependents. Coverage includes hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. All benefit recipient and sponsored dependents are eligible for health care coverage. Pursuant to the Ohio Revised Code (ORC), the State Teachers Retirement Board (Board) has discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. All benefit recipients are required to pay a portion of the health care cost in the form of a monthly premium.

The ORC grants authority to STRS to provide health care coverage to benefit recipients, spouses, and dependents. By Ohio law, the cost of the coverage paid from STRS funds shall be included in the employer contribution rate; currently 14% of covered payroll.

The Board for the fiscal year ended June 30, 2000 currently allocates employer contributions equal to 8% of covered payroll to the Health Care Reserve Fund from which payments for health care benefits are paid. The School District amount allocated to this fund equaled \$1,425,250 for fiscal year 2000. The balance in the Health Care Reserve Fund was \$2,783 million at June 30, 1999. The Health Care Reserve Fund allocation for the year ended June 30, 2000 will be 8% of covered payroll. For the year ended June 30, 1999, the net health care costs paid by STRS were \$249,929,000. There were 95,796 eligible benefit recipients.

NOTE 11 - JOINTLY GOVERNED ORGANIZATIONS

The Lake-Shore North-East Ohio Computer Association (LNOCA) is a jointly governed organization among fourteen School Districts. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. Each of the governments of the schools supports LNOCA based upon a per pupil charge dependent upon the software package utilized. The LNOCA assembly consists of a superintendent or designated representative from each participating school district and a representative from the fiscal agent. LNOCA is governed by a Board of Directors chosen from the general membership of the LNOCA Assembly. The Board of Directors consists of a representative from the fiscal agent, the chairman of each of the operating committees, and at least one Assembly member from each county in which participating school districts are located. The degree of control exercised by any participating school district is limited to its representation on the Board. Financial information can be obtained by contacting LNOCA, 7800 Wall Street, Valley View, Ohio 44104.

The Ohio Schools Council (Council) is a jointly governed organization among eighty-three school districts. This jointly governed organization was formed to bring quality products and services at the lowest possible cost to the member districts. Each district supports the council by paying an annual participation fee. The council's Governing Board consists of seven superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. In fiscal year 2000, the District paid \$800 to the Council for membership fees. Financial information can be obtained by contacting Albert G. Vasek, the Executive Secretary of the Ohio Council at 155 Center Road, Bedford, Ohio 44146.

The School District participates in the Council's electric purchase program which was implemented during fiscal year 1998. This program allows school districts to purchase electricity at reduced rates, if the school districts will commit to participating for an eight year period. The participants make monthly payments based on estimated usage. Each June these estimated payments are compared to their actual usage for the year and any adjustments are made.

Energy Acquisition Corp., a non-profit corporation with a self-appointing board, issued \$119,140,000 in debt to pre-purchase eight years of electricity from the Cleveland Illuminating Company (CEI) for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, they are required to repay the savings to CEI and CEI will refund the remaining pre-payment related to that participant to Energy Acquisition Corp.

The School District also participates in the Council's prepaid natural gas program which was implemented during fiscal year 2000. This program allows school districts to purchase natural gas at reduced rates, if the school districts will commit to participating for a twelve year period. The participants make monthly payments based on estimated usage. Each month these estimated payments are compared to their actual usage and any necessary adjustments are made.

The City of Hamilton, a municipal corporation and political subdivision duly organized and existing under the laws of the State of Ohio, issued \$89,450,000 in debt to purchase twelve years of natural gas from CMS Energy Corporation for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, the district is entitled to recover that amount, if any, of its contributions to the operating fund which are not encumbered for its share of program administrative costs.

NOTE 12 – JOINT VENTURE

The South Euclid-Lyndhurst Recreation commission (SELREC) is a joint venture that is jointly owned and operated by the Cities of South Euclid and Lyndhurst, and the District for the purpose of operating playgrounds, playing fields, and indoor recreation centers. Each of these governments supports SELREC through funds that are appropriated in their budgets.

The operation of SELREC is controlled by a nine member board consisting of the following: one member appointed by the mayor of the City of South Euclid and one member appointed by the mayor of the City of Lyndhurst, three members that are residents of the City of South Euclid, three members that are residents of the City of Lyndhurst, and one member that is a resident of the District and that lives in either the City of South Euclid or the City of Lyndhurst (jointly appointed by the mayors of the Cities of South Euclid and Lyndhurst). The District, the City of South Euclid, and the City of Lyndhurst have an ongoing financial responsibility because the continued existence of the joint venture depends on their contributions. The District has no explicit and measurable equity interest in SELREC. Financial information may be obtained by contacting the Treasurer of the South Euclid-Lyndhurst City School District at 5044 Mayfield Road, Lyndhurst, Ohio 44124.

NOTE 13 - CONTINGENCIES

(A) GRANTS

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2000.

(B) LITIGATION

The District is party to legal proceedings. The District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the District.

NOTE 14 - RISK MANAGEMENT

(A) *GENERAL RISK*

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors, and omissions, injuries to employees, and natural disasters. The District has addressed these various types of risk by purchasing a comprehensive insurance policy through commercial carriers.

General liability insurance is maintained in the amount of \$1,000,000 for each occurrence and \$5,000,000 in the aggregate.

The District maintains fleet insurance in the amount of \$1,000,000 for any one accident or loss.

The District maintains replacement cost insurance on buildings and contents in the amount of \$87,899,660.

(A) *GENERAL RISK (continued)*

Settled claims have not exceeded coverage within the last three years. There has not been a significant reduction in coverage from the prior years.

(B) *WORKERS' COMPENSATION-PUBLIC ENTITY RISK POOL*

The District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the Ohio School Boards Associates (OSBA). The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control, and actuarial services to the GRP.

(C) *HEALTH INSURANCE*

The District provides life insurance and accidental death and dismemberment insurance to its employees. The District has elected to provide employee medical/surgical benefits and dental through Medical Mutual of Ohio, a fully funded program.

NOTE 15 - STATE SCHOOL FUNDING PROGRAM

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio school funding plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the State's legislature to design a plan to remedy the perceived defects in that system. Declared unconstitutional was the State's "school foundation program", which provides significant amounts of monetary support to this District. During the fiscal year ended June 30, 2000, the District received \$4,536,842 of school foundation support for its general fund.

Since the Supreme Court Ruling, numerous pieces of legislation have been passed by the Ohio General Assembly in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County has reviewed the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State has appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, "... the mandate of the Ohio Constitution has not been fulfilled." The Court's majority recognized efforts by the Ohio General Assembly taken in response to the Court's March 24, 1997 decision, however, it found seven "...major areas warrant further attention, study, and development by the General Assembly...,""including the State" reliance on local property tax funding, the state's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took the place of the unconstitutional emergency school loan assistance program.

The Court decided to maintain jurisdiction over these issues and continued the case at least until June 15, 2001.

As of the date of these financial statements, the School District is unable to determine what effect, if any, this ongoing litigation will have on its future state funding under this program and on its financial operations.

NOTE 17 – STATUTORY RESERVES

Substitute House Bill 412, as amended, required the District to “set aside” certain percentages of defined revenues for (1) textbook and instructional material purchases, (2) capital and maintenance expenditures, and (3) to establish a budget reserve. It also required five year budget projections, amended the fiscal watch and fiscal emergency statutes, created a state school district solvency fund, and amended “spending reserve” provisions. During the fiscal year June 30, 2000, the reserve activity (Cash-basis) was as follows:

	<u>Textbook Reserve</u>	<u>Maintenance Reserve</u>	<u>Stabilization Reserve</u>	<u>Total</u>
Set-Aside Cash Balance 7/1/99	\$ 0	\$ 0	\$ 181,027	\$ 181,027
Current Year Requirement	816,200	816,200	353,712	1,986,112
Qualifying Disbursements	<u>(1,034,754)</u>	<u>(1,032,672)</u>	<u>0</u>	<u>(2,067,426)</u>
Total	<u>\$ (218,554)</u>	<u>\$ (216,472)</u>	<u>\$ 534,739</u>	<u>\$ 99,713</u>
Balance to Carry Forward	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 534,739</u>	
Amount to Restrict				<u>\$ 534,739</u>

Although the District had qualifying disbursements during the year that reduced the set-aside amounts below zero, these extra amounts may not be used to reduce the set-aside requirements of future years, except for textbooks. Negative amounts are therefore not presented as being carried forward to the next fiscal year.

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY
GOVERNMENT AUDITING STANDARDS**

Board of Education
South Euclid-Lyndhurst City School District
Cuyahoga County
5044 Mayfield Road
Lyndhurst, Ohio 44124

To the Board of Education:

We have audited the financial statements of the South Euclid-Lyndhurst City School District, Cuyahoga County, Ohio, (the District) as of and for the year ended June 30, 2000, and have issued our report thereon dated December 1, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted an immaterial instance of noncompliance that we have reported to management of the District in a separate letter December 1, 2000.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal controls over financial reporting that do not require inclusion in this report, that we have reported to management of the District in a separate letter December 1, 2000.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR
FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Education
South Euclid-Lyndhurst City School District
Cuyahoga County
5044 Mayfield Road
Lyndhurst, Ohio 44124

To the Board of Education:

Compliance

We have audited the compliance of the South Euclid-Lyndhurst City School District, Cuyahoga County, Ohio, (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2000. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2000.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over federal compliance that do not require inclusion in this report, that we have reported to management of the District in a separate letter December 1, 2000.

This report is intended for the information and use of management, the Board, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
