REPORT OF INDEPENDENT ACCOUNTANTS

Southeast Local School District
Wayne County
9048 Dover Road
Apple Creek, Ohio 44606

To the Board of Education:

We have audited the accompanying general purpose financial statements of Southeast Local School District, Wayne County, (the District) as of and for the year ended June 30, 2001, as listed in the Table of Contents. These general purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2001, and the results of its operations and the cash flows of its proprietary fund types for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 3 to the general purpose financial statements, the District changed its method of accounting and reporting for certain funds for the year ended June 30, 2001. As discussed in Note 7 to the general purpose financial statements, the District also changed its method of accounting and reporting for certain fixed assets for the year ended June 30, 2001.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2001 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

We performed our audit to form an opinion on the general purpose financial statements of the District, taken as a whole. The accompanying Schedule of Receipts and Expenditures of Federal Awards is presented for additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general purpose financial statements. We subjected this information to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, it is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

Auditor of State

SOUTHEAST LOCAL SCHOOL DISTRICT
WAYNE COUNTY
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2001

1. Description of the School District and Reporting Entity

The Southeast Local School District (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is governed by a five-member board of education (the Board) elected by its citizens and is responsible for the provision of public education to residents of the District. The board oversees the operations of the District's six instructional and support facilities. Average daily membership as of October 1, 2000 was 1,721. The District employed 146 certified and 99 non-certified employees.

The Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the general purpose financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. The District does not have any component units.

Joint Venture

The District participates in a joint venture to operate the Midland Council of Governments (COG), a regional council of governments established to provide efficient and cost effective computer and data processing services to each member. Other participants in the COG include school districts in Ashland, Holmes, and Wayne Counties, and the Wadsworth City School District.

1. Description of the School District and Reporting Entity (Continued)

The COG was established in July of 1993 and is governed by a seven-member Executive Committee, appointed by the COG. The Tri-County Education Service Center serves as fiscal agent for the COG and is responsible for all financial reporting for the COG.

The COG is funded by member fees and state grants. The Executive Committee determines and sets the member fees for all services to the COG. Fees are billed to member districts annually around July 1st. The District paid \$25,770 in fees for 1999-00 and \$25,740 in fees for 2000-01. The District has no equity interest in the COG.

Upon dissolution of the COG, any unclaimed assets remaining on the COG books shall be distributed as follows:

1. All tangible personal property previously loaned or given to the COG that is clearly identified as to ownership shall be returned to the owner member.
2. All remaining tangible personal property shall be sold at public sale in accordance with the ORC 307.12 by sealed bid. The cash proceeds and all remaining assets and other intangibles, including moneys, shall be distributed to the member districts in proportion to the ADM of the district.

Upon withdrawal from the COG, a member shall be released from all obligations and liabilities of the COG except those for which it was a contracting party or for pending claims. The withdrawing member district shall receive any tangible personal property it individually owns and which is housed remotely. Any and all other moneys, grants, and property housed at the data center shall remain that of the COG.

Upon termination/suspension from the COG, a member shall return all equipment or assets owned by the Executive Committee and will be responsible for any loss in state funding to the COG as a result of the termination.

Complete financial statements for the COG can be obtained from the Tri-County Education Service Center, 2534 Burbank Road, Wooster, Ohio 44691.

Jointly Governed Organizations

Wayne County Career Center

The Wayne County Career Center (the Career Center) is a separate body politic and corporate, established by the Ohio Revised Code. The Board of Education is comprised of representatives from the Board of each participating school district independent of the Southeast Local School District. The Board is responsible for approving its own budgets, appointing personnel, and accounting and financing related activities. Students from the Southeast Local School District may attend the Career Center.

Wayne County Schools Council

The District, in conjunction with four other Wayne County school districts, has created the Wayne County Schools Council (the Council) for the purpose of providing a Health Care Benefits program. Other school districts participating in the Council are Dalton Local, Green Local, Northwestern Local, and North Central Local.

The Board of Directors is comprised of one representative from each school district. Northwestern Local School District serves as fiscal agent for the Council.

Through the Council, the District offers its employees a health care program through Medical Mutual of Ohio (MMO). Insurance rates are set by MMO, and payment is made to MMO, through the Council's fiscal agent.

Administrative costs are determined annually by the Board of Directors. The fees are paid out of the reserve balance fund, for administrative and consultant fees.

Tri-County Computer Service Association

The District is a member of the Tri-County Computer Service Association (TCSSA), a jointly governed organization which provides computer services to the school districts within the boundaries of Wayne, Holmes, and Ashland Counties. Each District's superintendent serves as a representative on the Board which consists of 20 member districts. However, TCSSA is primarily governed by a five member executive Board which meets monthly to address any current issues.

2. Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as it applies to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Under the guidelines of Governmental Accounting Standards Board (GASB) Statement 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Units That Use Proprietary Fund Accounting, the District has elected not to apply Financial Accounting Standards Board (FASB) Statements and interpretations issued after November 30, 1989, to its proprietary activities. The adoption of this approach to accounting for proprietary activities by the District has required no change from prior years.

The District's significant accounting policies are described below.

A. Basis of Presentation

Fund Accounting

The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special restrictions or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities not recorded in the funds because they do not directly affect net available resources. For financial statement presentation purposes, the various funds of the District are grouped into the following generic fund types under the broad fund categories governmental, proprietary, and fiduciary.

Governmental Fund Types

Governmental funds are those through which most governmental functions of the District are financed. The acquisition, use, and balances of the District's expendable financial resources and the related current liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The following are the District's governmental fund types:

2. Summary of Significant Accounting Policies (Continued)

A. Basis of Presentation (Continued)

General Fund

The General Fund is the operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditure for specified purposes.

Debt Service Fund

The Debt Service Fund is used to account for financial resources for, and the payment of, general long-term obligation principal, interest, and related costs.

Capital Projects Funds

The Capital Projects Funds are used to account for the accumulation of resources to be used for the acquisition or construction of major capital facilities (other than those financed by propriety funds).

Proprietary Fund Types

Proprietary Funds are used to account for the District's ongoing activities which are similar to those found in the private sector. The following are the District's Proprietary Fund types:

2. Summary of Significant Accounting Policies (Continued)

A. Basis of Presentation (Continued)

Enterprise Funds

Enterprise Funds are used to account for District activities that are financed and operated in a manner similar to private business enterprises where the intent of the Board is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where the Board has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Funds

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, on a cost-reimbursement basis.

Fiduciary Fund Types

Fiduciary Funds are used to account for assets held by the District, in a trustee capacity or as an agent on behalf of others. The following are the District's Fiduciary Fund Types:

Expendable Trust Fund

The Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting.

Agency Funds

Agency Funds are used to account for assets held by the District as an agent. Agency Funds are custodial in nature (Assets equal Liabilities) and do not involve measurement of results of operations.

SOUTHEAST LOCAL SCHOOL DISTRICT
WAYNE COUNTY
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies (Continued)

A. Basis of Presentation (Continued)

Account Groups

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

General Fixed Assets Account Group

This account group is established to account for all fixed assets of the District, other than those accounted for in the Proprietary Funds.

General Long-Term Obligations Account Group

This account group is established to account for all long-term obligations of the District except those accounted for in the Proprietary Funds.

B. Measurement Focus and Basis of Accounting

Measurement Focus

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet.

Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital (if applicable) and retained earnings components. Proprietary Fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

SOUTHEAST LOCAL SCHOOL DISTRICT
WAYNE COUNTY
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2001

2. Summary of Significant Accounting Policies (Continued)

B. Measurement Focus and Basis of Accounting (Continued)

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

The modified accrual basis of accounting is followed for the governmental, expendable trust and agency funds. Under this basis, revenues are recognized in the accounting period when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year.

The available period for the District is 60 days after fiscal year end.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: interest, tuition, grants, and student fees.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the modified accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied and the resources are available. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been met and the resources are available.

The District reports deferred revenues on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Property taxes measurable as of June 30, 2001, and delinquent property taxes, whose availability is indeterminable and which are intended to finance fiscal year 2002 operations, have been recorded as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

WAYNE COUNTY
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2001

2. Summary of Significant Accounting Policies (Continued)

B. Measurement Focus and Basis of Accounting (Continued)

Basis of Accounting

The accrual basis of accounting is utilized for reporting purposes by the proprietary fund types. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized at the time they are incurred.

On the accrual basis of accounting, revenue from nonexchange transactions, such as grants, entitlements and donations, is recognized in the fiscal year in which all eligibility requirements have been met. The proprietary funds receive no revenue from property taxes.

C. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the Tax Budget, the Certificate of Estimated Resources, and the Appropriation Resolution, all of which are prepared on the budgetary basis of accounting. The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the fund level for the district. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

Tax Budget

Prior to January 15, of the preceding year, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing or increased tax rates. By no later than January 20, the Board adopted budget is filed with the Wayne County Budget Commission for tax rate determination.

WAYNE COUNTY
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies (Continued)

C. Budgetary Process (Continued)

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2001.

Appropriations

Upon receipt from the County Auditor of an Amended Certificate of Estimated Resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the Annual Appropriation Resolution must be legally enacted by the Board of Education at the fund level of expenditures, which is the legal level of budgetary control. Although the legal level of budgetary control was established at the fund level of expenditures, the District has elected to present budgetary statement comparisons at the fund and function level of expenditures. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The Appropriation Resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund, or alter object appropriations within functions, must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent Certificate of Estimated Resources. During the year, several supplemental appropriations were legally enacted.

2. Summary of Significant Accounting Policies (Continued)

C. Budgetary Process (Continued)

Appropriations (Continued)

The budget figures, which appear in the statements of budgetary comparisons, represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all District funds, consistent with statutory provisions.

Encumbrances

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Expenditures plus encumbrances may not legally exceed appropriations. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent year end expenditures of governmental funds.

Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

D. Cash and Cash Equivalents

To improve cash management, all cash received by the District is pooled at various banks. Monies for all funds, including proprietary funds, are maintained in these accounts or temporarily used to purchase short term investments. Individual fund integrity is maintained through District records. Each fund's interest in the pool is presented as "Cash, Cash Equivalents and Investments" on the balance sheet. During fiscal year 2001, investments were limited to STAR Ohio.

For purposes of the combined statement of cash flows and for presentation on the Combined Balance Sheet, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents.

SOUTHEAST LOCAL SCHOOL DISTRICT
WAYNE COUNTY
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies (Continued)

D. Cash and Cash Equivalents (Continued)

The District has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during 2001. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2001.

E. Inventory

Inventories are valued at cost (first in, first out) and are determined by physical count. Inventory in Proprietary Funds consist of expendable supplies held for consumption and food service items held for resale. The cost has been recorded as an expense at the time individual inventory items were consumed. Donated commodities which are still on hand at year end are recorded as deferred revenue.

F. Fixed Assets and Depreciation

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and the related assets are reported in the General Fixed Assets Account Group. Fixed assets utilized in the proprietary funds are capitalized in those funds. All fixed assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$1,000. The District does not have any infrastructure.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

Assets in the General Fixed Assets Account Group are not depreciated. Depreciation of furniture and equipment in the Enterprise Fund is computed using the straight-line method over estimated useful lives of 8 to 20 years.

2. Summary of Significant Accounting Policies (Continued)

G. Restricted Assets

Restricted assets in the General Fund represents cash and cash equivalents set aside to establish a BWC refund reserve. This reserve is required by State statute. During FY 2001, the District set aside the amounts required by state statute. Fund balance reserve has also been established.

H. Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as nonoperating revenues in the accounting period in which they are earned and become measurable. The District currently participates in various state and federal programs categorized as follows:

I. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future, in accordance with the provisions of Governmental Accounting Standards Board Statement No. 16, Accounting for Compensated Absences. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy.

For governmental funds, the District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service. The District records a liability for accumulated unused sick leave for both classified and certified employees once they meet the eligibility requirements for retirement from one of the State retirement systems. The current portion of unpaid compensated absences is the amount expected to be paid using available expendable resources. These amounts are recorded in the account "Compensated Absences Payable" in the fund from which the employees are paid. The remainder is reported in the General Long-Term Obligations Account Group. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

2. Summary of Significant Accounting Policies (Continued)

J. Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, claims and judgments, compensated absences, contractually required pension contributions, and special termination benefits that will be paid from governmental funds are reported as a liability in the General Long-Term Obligations Account Group to the extent that they will not be paid with current available expendable financial resources. Bonds, capital leases, compensated absences, and long-term loans are reported as a liability of the General Long-Term Obligations Account Group until due. Long-term debt and other obligations financed by proprietary funds are reported as liabilities those funds.

K. Interfund Transactions

Quasi-external transactions are accounted for as revenues and expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures/ expenses in the fund that is reimbursed. Nonrecurring on nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

L. Fund Balance Reserves

The District records reservations for portions of fund equity which are legally segregated for specific future use of which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity, which is available for appropriation in future periods. Fund equity reserves are established for encumbrances, property taxes, and budget stabilization. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute.

M. Total Columns on General Purpose Financial Statements

Total columns on the general purpose financial statements are captioned "Total-(Memorandum Only)" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in aggregation of this data.

N. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

3. Accountability

A. Change in Accounting Principle

GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions," was implemented during fiscal year 2001. This statement pertains to the financial reporting of certain types of revenue received by the District for which no value is given in return, including derived tax revenues, imposed nonexchange transactions, government-mandated nonexchange transactions, and voluntary nonexchange transactions. The adoption of this statement had no effect on fund balances/retained earnings as previously reported by the District at June 30, 2000.

B. Restatement of Prior Year Fund Balances

An adjustment was made to move the Emergency Levy Fund from the Special Revenue Fund to the General Fund. In addition, an expendable trust fund was reported that was not reported in the prior year. This caused the beginning fund balances in the General and Expendable Trust Funds to be increased and the Special Revenue Fund to decrease.

	General Fund	Special Revenue Fund	Expendable Trust Fund
Beginning Fund Balance, as previously reported	\$ 2,110,464	\$ 834,333	\$ -
Adjustment	<u>505,390</u>	<u>(505,390)</u>	<u>8</u>
Beginning Fund Balance, Restated	<u>\$ 2,615,854</u>	<u>\$ 328,943</u>	<u>\$ 8</u>

In addition, fund balances at the beginning of year changed, due the changes noted above and restating the balances to the unencumbered beginning fund balances on the budgetary basis financial statements as follows:

Beginning fund balance, restated	<u>\$ 3,189,233</u>	<u>\$ 735,086</u>	<u>\$ 148,299</u>	<u>\$ 8</u>

C. Compliance

Contrary to 7 C.F.R. Part 210.2 and Ohio Rev. Code Section 3315.01, the District did not allocate interest to the Food Service Enterprise Fund nor was a resolution adopted to allocate interest to funds other than the General Fund.

Contrary to Ohio Rev. Code Section 5705.41(D), the District did not certify the availability of funds for certain expenditures prior to incurring the obligation.

4. Budgetary Basis of Accounting

While the District is reporting financial position, results of operations, and changes in fund balance/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Combined Statement of Revenues, Expenditures and Changes in Fund Balances, Budget -Actual (Budgetary Basis) - All Governmental Fund Types is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the Budgetary basis and GAAP basis are that:

1. Revenues are recorded when received in cash (Budgetary basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (Budgetary basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditure equivalents for all funds (Budgetary basis) rather than as a reservation of fund balance for governmental fund types (GAAP basis).

5. Deposits and Investments

State statutes classify monies held by the District into three categories. Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing no later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts

5. Deposits and Investments (Continued)

Interim monies may be invested in the following obligations:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal or interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and that the term of the agreement must not exceed 30 days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain bankers' acceptance and commercial paper notes for a period not to exceed 180 days in an amount not to exceed 25% of the interim monies available for investment at any one time; and
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

5. Deposits and Investments (Continued)

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements.

Deposits: At year end, the carrying amount of the District's deposits was \$14,897 and the bank balance was \$131,291. Of the bank balance:

1. \$120,880 was covered by federal depository insurance; and
2. \$10,411 was uninsured and unregistered as defined by GASB although it was secured by collateral held by third party trustees, pursuant to section 135.181 Ohio Revised Code, in collateralized pools securing all public funds on deposit with specific depository institutions; these securities not being in the name of the District. Although all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements would potentially subject the District to a successful claim by the FDIC.

Investments: The District's Investments are categorized below to give an indication of the level of custodial credit risk assumed by the District at fiscal year end. Category 1 includes investments that are insured or registered or for which the securities are held by the District or its agent in the District's name. Category 2 includes insured and unregistered investments which are held by the counterparty's trust department or agent in the District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the District's name. The District's investment in STAR Ohio, an investment pool operated by the Ohio State Treasurer, is unclassified since it is not evidenced by securities that exist in physical or book entry form.

6. Property Taxes

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied after April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on tangible personal property at 88 percent of true value. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year. Tangible personal property assessments are 25 percent of true value.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The District receives property taxes from Wayne, Holmes, and Stark County. These County Auditors periodically advance to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2001, are available to finance fiscal year 2001 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes which became measurable as of June 30, 2001. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to a deferred revenue for that portion not intended to finance current year operations. The amount available to the District as an advance at June 30, 2001, was \$705,530.

7. Fixed Assets

A summary of the changes in the General Fixed Asset Account Group during the fiscal year is as follows:

	Balance 7/1/00	Additions	Disposals	Balance 6/30/01
Land and Land Improvements	\$ 375,143	\$ 283,363	\$ -	\$ 658,506

Totals	<u>\$8,345,440</u>	<u>\$ 480,653</u>	<u>\$(216,148)</u>	<u>\$8,609,945</u>

During fiscal year 2001, the District elected to change its method of accounting and reporting for certain fixed assets. Accordingly, the District will no longer capitalize the value of its textbooks and library books. As a result, the balance in the general fixed asset account group at June 30, 2000 was decreased by \$726,868 to \$8,345,440. There was no significant construction in progress at June 30, 2001. In addition, vehicles which were previously reported in "furniture, fixtures and equipment," are reported separately.

A summary of the Enterprise Funds' fixed assets at June 30, 2001 is as follows:

Furniture, Fixtures and Equipment	\$ 294,754
Less: Accumulated Depreciation	<u>(225,806)</u>
Net Fixed Assets	<u>\$ 68,948</u>

A reappraisal of the District's fixed assets was performed as of March 23, 2001. Addition and disposal amounts reflect adjustments for the reappraisal and additions and disposals from March 23, 2001 through June 30, 2001.

8. Long-Term Debt and Other Obligations

Debt outstanding at June 30, 2001 consisted of the following:

TOTAL	<u>\$ 669,238</u>	<u>\$ 716,912</u>

Long-term debt and other obligations at June 30, 2001 and the related transactions for the year are summarized as follows:

	Balance 7/1/00	Additions	Reductions	Balance 6/30/01
G.O. Bonds Payable	\$ 700,000	\$ -	\$ 120,000	\$ 580,000
G.O. Notes Payable	625,091	-	85,368	539,723
Compensated Absences Payable	398,457	56,490	-	454,947

Capital Lease Payable	<u>11,148</u>	<u>-</u>	<u>3,406</u>	<u>7,742</u>
Total	<u>\$ 1,824,121</u>	<u>\$72,538</u>	<u>\$ 208,774</u>	<u>\$1,687,885</u>

All obligations outstanding are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Accordingly, such unmatured obligations of the District are accounted for in the General Long-Term Obligations Account Group. Payments of principal and interest relating to these liabilities are recorded as expenditures in the Debt Service Fund when due and payable.

9. Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn 10 to 20 days of vacation per fiscal year, depending upon the length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

9. Compensated Absences (Continued)

Teachers, administrators, and classified employees earn sick leave at a rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 248 days for all personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit up to a maximum of 59 days for both classified and certified employees.

10. Risk Management

Comprehensive - The District is exposed to various risks of loss related to torts, theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2001, the District contracted with private carriers for property and fleet insurance, liability insurance, and inland marine coverage. Coverage provided by these carriers is as follows:

Building and Contents-replacement cost - \$21,367,935 (\$1,000 deductible)

Inland Marine Coverage - \$1,072,235 (\$50-\$1,000 deductible)

Automobile Liability - \$1,000,000 (\$100 deductible)

Uninsured Motorists - \$1,000,000

General Liability - \$5,000,000 aggregate/\$1,000,000 per occurrence

Settled claims have not exceeded this commercial coverage nor has there been any significant reduction in coverage in any of the past three years.

Workers Compensation - The District participates in the Ohio School Board Association Workers' Compensation Program (GRP), an insurance purchasing pool. The workers' compensation experience of the participating districts is calculated as one experience and a common premium rate is applied to all districts in the GRP. The GRP is intended to achieve the benefit of a reduced premium by virtue of its grouping and representation with other participants in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. The total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant, will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control and actuarial services to the GRP. Each year, the District pays an enrollment fee to the GRP to cover the costs of administering the program.

Self-Insurance - The District is self-insured only for its dental insurance program. Premiums are paid into the Self-Insurance Fund by all other funds and are available to pay claims, claims reserves, and administrative costs of the program. A stop loss insurance contract with a private insurance carrier, covers aggregate stop loss in excess of 120% of expected claims. Interfund premiums are based primarily upon the insured funds' claims experience and are reported as quasi-external interfund transaction.

11. Defined Benefit Pension Plans

A. School Employees Retirement System

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan, administered by the School Employees Retirement Board. SERS provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is established by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available financial report that includes financial statements and required supplementary information for SERS. The report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215-3634.

Plan members are required to contribute 9 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The contribution rate is 14 percent of the annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2001, 2000, and 1999 were \$210,992, \$195,326, and \$183,726, respectively. 43% has been contributed for the fiscal year 2001 and 100% for fiscal years 2000 and 1999. \$120,984 representing the unpaid contribution for the fiscal year 2001, is recorded as a liability within the respective funds and the General Long-Term Obligations Account Group.

11. Defined Benefit Pension Plans (Continued)

B. State Teachers Retirement System

The District also contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

Plan members are required to contribute 9.3 percent of their annual covered salary and the District is required to contribute 14 percent; 9.5 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The District's required contributions for pension obligations to STRS for the fiscal years ended June 30, 2001, 2000, and 1999 were \$818,584, \$766,914, and \$736,382, respectively. 85% has been contributed for the fiscal year 2001 and 100% for the fiscal years 2000 and 1999. \$124,748 representing the unpaid contribution for the fiscal year 2001, is recorded as a liability within the respective funds.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2001, three members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

12. Post Employment Benefits

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State Statute. Both systems are funded on a pay-as-you-go basis.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS

12. Post Employment Benefits (Continued)

For STRS, all benefit recipients are required to pay a portion of health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from the STRS funds shall be included in the employer contribution rate, currently 14 percent of covered payroll. The board currently allocates employer contributions equal to 8% percent of covered payroll to the Health Care Reserve Fund for which payments for health care benefits are paid. The balance in the Health Care Reserve Fund at year end was \$3.419 billion at June 30, 2000 (the latest information available). For the fiscal year ended June 30, 2000 (the latest information available), eligible benefit recipients totaled 99,011 and net health care costs paid by STRS were \$283,137,000.

For SERS, coverage is made available to service retirees with 10 or more fiscal years of qualifying service credit, disability, and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than 25 years of service credit must pay a portion of their premium for health care. The portion is based on years of service, up to a maximum of 75 percent of the premium. For this fiscal year, employer contributions to fund health care benefits were 9.8 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2001, the minimum pay was established at \$12,400. The surcharge rate added to the unallocated portion of the 14 percent employer contribution provides for maintenance of the asset target level for the health care fund. For the fiscal year ended June 30, 2000 (the latest information available), net health care costs paid by SERS were \$140,696,340 and the target level was \$211.0 million. Net assets available for payment as of June 30, 2000 by the Retirement System were \$252.3 million.

The number of participants currently receiving health care benefits is approximately 50,000. The portion of the District's contributions that were used to fund postemployment benefits was \$127,355.

Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2001.

School Funding Decision

On September 6, 2001, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision identified aspects of the current plan that require modification if the plan is to be considered constitutional, including:

- A change in the school districts that are used as the basis for determining the base cost support amount. Any change in the amount of funds distributed to school districts as a result of this change must be retroactive to July 1, 2001, although a time line for distribution is not specified.
- Fully funding parity aid no later than the beginning of fiscal year 2004 rather than fiscal year 2006.

School Funding Decision (Continued)

The Supreme Court relinquished jurisdiction over the case based on anticipated compliance with its order.

In general, it is expected that the decision would result in an increase in State funding for most Ohio school districts. However, as of November 30, 2001, the Ohio General Assembly is still analyzing the impact this Supreme Court decision will have on funding for individual school districts. Further, the State of Ohio, in a motion filed September 17, 2001, asked the Court to reconsider and clarify the parts of the decision changing the school districts that are used as the basis for determining the base cost support amount and the requirement that changes be made retroactive to July 1, 2001.

On November 2, 2001, the Court granted this motion for reconsideration. The Court may re-examine and redetermine any issue upon such reconsideration.

As of the date of these financial statements, the District is unable to determine what effect, if any, this decision and the reconsideration will have on its future State funding and on its financial operations.

15. Statutory Reserves

The District is required by State law to set aside in the General Fund revenue amounts, as defined by Statute, into various reserves. These reserves are calculated and presented on a cash basis. During the fiscal year ended June 30, 2001, the reserve activity was as follows:

	<u>Textbooks</u>	<u>Capital Acquisition</u>	<u>Budget Stabilization</u>

Cash Balance Carried Forward to FY 2002	<u>\$(161,843)</u>		<u>\$ 55,070</u>

Although the District has qualified disbursements during the year that reduced the set-aside amounts below zero for the capital acquisition reserve, this extra amount may not be used to reduce the set-aside requirement of future years. The negative amount is therefore not presented as being carried forward to the next fiscal year.

16. Subsequent Event

On August 20, 2001, the Board approved the purchase of land (48.22 acres @ \$8,100 per acre) from the estate of Harvey E. Hochstetler. The land is adjacent to school property. On September 18, 2001, check #56960 was issued to Heartland Title Agency, in the amount of \$392,000 (including closing costs, title fees, etc.). The District has no immediate plans for the property's use.

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Receipts and Expenditures of Federal Awards (the Schedule) is a summary of the activity of the District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B - FOOD DISTRIBUTION

Non-monetary assistance is reported in the Schedule at the fair market value of the commodities received and disbursed. Monies are commingled with state grants. It is assumed federal monies are expended first. At June 30, 2001, the District had no significant food commodities in inventory.

**REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE AND ON
INTERNAL CONTROL REQUIRED BY *GOVERNMENT AUDITING STANDARDS***

Southeast Local School District
Wayne County
9048 Dover Road
Apple Creek, Ohio 44606

To the Board of Education:

We have audited the general purpose financial statements of Southeast Local School District, Wayne County, (the District) as of and for the year ended June 30, 2001, and have issued our report thereon dated December 11, 2001, which indicated the District changed its methods of accounting and reporting for certain fixed assets and certain funds. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance that are required to be reported under *Government Auditing Standards* which are described in the accompanying Schedule of Findings as items 2001-10985-001 and 2001-10985-002.

We also noted certain immaterial instances of noncompliance that we have reported to management of the District in a separate letter dated December 11, 2001.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

However, we noted other matters involving the internal control over financial reporting that do not require inclusion in this report, that we have reported to the management of the District in a separate letter dated December 11, 2001.

This report is intended for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Southeast Local School District
Wayne County
9048 Dover Road
Apple Creek, Ohio 44606

To the Board of Education:

Compliance

We have audited the compliance of the Southeast Local School District, Wayne County, (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2001. The District's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2001.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

FINDING NUMBER 2001-10985-001

7 C.F.R. Part 210.2 defines revenue as, “all monies received by or accruing to the nonprofit school food service in accordance with the State agency’s established accounting system, including but not limited to, children’s payments, earnings on investments, other local revenues, state revenues, and Federal cash reimbursements.” The inclusion in this definition of a “State agency established accounting system” does not allow for State policy which violates these federal regulations. State agencies may require specific accounting systems, but such systems may not direct food service funds, including the interest earned on such funds, away from the school food service account.

Ohio Rev. Code Section 3315.01 states the Board of Education of any School District may adopt a resolution requiring the Treasurer of the District to credit the earnings made on the investment of the principal of the moneys specified in the resolution to the fund from which the earnings arose or any other fund of the District as the Board specifies in its resolution. Otherwise the earnings must be credited to the General Fund.

In addition, Auditor of State Bulletin 99-002, dated February 2, 1999, clarifies the proper allocation of food service interest stating any interest earned on the cash balance of a food service fund, whether those funds originated from federal, state, or local sources (including transfers or advances from other funds to temporarily assist the operation of the food service program), must be credited to that fund.

During our audit, we noted that the District did not allocate interest to the Food Service Fund. In addition, interest was allocated to funds other than the General Fund. There was no resolution in effect which addressed the allocation of interest. By utilizing a proportionate allocation based on month end fund cash balances, it was determined \$4,798 should have been allocated to the Food Service Enterprise Fund.

Although these adjustments are reflected in the accompanying financial statements, the District has not recorded them in their books and records until after the audit period.

We recommend the Board adopt a resolution specifying the funds in which interest may be allocated.

FINDING NUMBER 2001-10985-002

Ohio Rev. Code Section 5705.41 (D), provides that no subdivision or taxing unit shall make any contract or give any order involving the expenditure of money unless there is attached thereto a certificate of the fiscal officer of the subdivision that the amount required to meet the obligation has been lawfully appropriated for such purpose and is in the treasury or in the process of collection to the credit of an appropriate fund free from any previous encumbrances. This certificate need be signed only by the subdivision’s fiscal officer. Every contract made without such a certificate shall be void, and no warrant shall be issued in payment of any amount due thereon.

This section also provides for two exceptions to the above requirements:

1. Then and Now Certificates - If no certificate is furnished as required, upon receipt of the fiscal officer’s certificate that a sufficient sum was, both at the time of the contract or order and at the time of the certificate, appropriated and free of any previous encumbrances, the Board may authorize the issuance of a warrant in payment of the amount due upon such contract or order by resolution within 30 days from the receipt of such certificate.

FINDING NUMBER 2001-10985-002 (Continued)

2. If the amount involved is less than \$1,000, the Treasurer may authorize payment through a Then and Now Certificate without affirmation of the Board, if such expenditure is otherwise valid.

During the audit period, 22% of the expenditures tested were not certified by the Treasurer prior to incurring the obligation. It was also found that neither of the two exceptions above were utilized for the items found to be in non-compliance. The Treasurer should certify the availability of funds prior to incurring the obligation and also implement the use of so called Then and Now certificates and Blanket Certificates as further means to certify funds pursuant to Ohio Rev. Code Section 5705.41.
