INDEPENDENT ACCOUNTANTS' REPORT

Autism Model School
Lucas County
1615 Holland Road
Maumee, Ohio 43537-1622

To the Governing Board:

We have audited the accompanying basic financial statements of Autism Model School, Lucas County, Ohio (the School), as of and for the year ended June 30, 2007, as listed in the table of contents. These financial statements are the responsibility of the School's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of Autism Model School, Lucas County, Ohio, as of June 30, 2007, and the respective changes in financial position and cash flows, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 19, 2008, on our consideration of the School's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

A handwritten signature in black ink that reads "Mary Taylor". The signature is written in a cursive, flowing style.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2007
UNAUDITED**

The discussion and analysis of Autism Model School's (the School) financial performance provides an overall review of the Schools' financial activities for the fiscal year ended June 30, 2007. The intent of this discussion and analysis is to look at the Schools' financial performance as a whole; notes to the basic financial statements and financial statements to enhance their understanding of the Schools' financial performance.

Financial Highlights

- Total Assets were \$313,849.
- Total Liabilities were \$127,208.
- The Change in Net Assets was \$37,271.

Using this Annual Financial Report

This report consists of three parts, the MD&A, the basic financial statements, and notes to those statements. The basic financial statements include a statement of net assets, a statement of revenues, expenses and changes in net assets, and a statement of cash flows.

Reporting the School as a Whole

One of the most important questions asked about the School is, "As a whole, what is the School's financial condition as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities, which appear first in the School's financial statements, report information on the School as whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the School's net assets – the difference between assets and liabilities, as reported in the statement of net assets – as one way to measure the School's financial health or financial position. Over time, increases or decreases in the School's net assets – as reported in the Statement of Net Assets – are indicators of whether its financial health is improving or deteriorating. The relationship between revenues and expenses is the School's operating results. However, the School's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other non-financial factors, such as the quality of the education provided and the safety of the school, to assess the overall health of the School.

The Statement of Net Assets and the Statement of Activities report the activities for the School, which encompass all the School's services, including instruction, support services, community services, and food services. Unrestricted state aid and state and federal grants finance most of these activities.

Total assets increased by \$36,875, which represents a 13.31 percent increase from fiscal year 2006. While cash and cash equivalents increased by \$118,729, total receivables decreased by \$88,425, and prepaid items increased by \$21,580. Cash and cash equivalents increased due to an increase in total intergovernmental revenue by \$201,335 during fiscal year end 2007. Intergovernmental receivable decreased due to the FTE review which resulted in the School receiving additional funds in 2006 and owing funds back to ODE in 2007. Total liabilities decreased by \$396, which represents less than one percent decrease from fiscal year 2006. This decrease was mainly due to the reduction in capital leases outstanding balance. The School's net assets increased by \$37,271, represents a 24.95 percent increase from fiscal year 2006.

State Foundation Basic Aid and Special Education, as a whole, are the primary support for the School, representing 98.07 percent of the operating revenue. Salaries and Fringe Benefits comprise 64.26 percent of operating expenses.

The School had total revenues of \$2,515,494, and total expenses of \$2,478,223. The change in net assets for the year was an increase of \$37,271. This increase is due to an increase of intergovernmental revenue coupled with a decrease of spending in purchased services and materials and supplies during fiscal year end 2007.

Current Financial Issues

The School's financial relationship with the Lucas County Educational Service Center aids in the raising of the quality of financial records and strengthens internal controls. During the 2006-2007 school year, there were approximately 87 students enrolled in the School. The School receives its finances mostly from state aid. Per pupil aid for fiscal year 2007 amounted to \$5,403 per student.

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2007**

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Autism Model School, formerly MODEL Community School (the School) is a nonprofit corporation established pursuant to Ohio Revised Code Chapters 3314 and 1702. The School is an approved tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code. Management is not aware of any course of action or series of events that have occurred that might adversely affect the School's tax-exempt status. The School's objective is to address the needs of students' ages 5 to 11 who are diagnosed with autism or anything within the spectrum of autism disorders. The School, which is part of the State's education program, is independent of any school district and is nonsectarian in its programs, admission policies, employment practices, and all other operations. The School may sue and be sued, acquire facilities as needed and contract for any services necessary for the operation of the School.

The School was approved for operation under an amended and restated contract with the Lucas County Educational Service Center (the Sponsor) for a period of one year commencing July 1, 2006. The contract terminates on June 30, 2007, and thereafter, renews annually for one-year terms from July 1 to June 30. This contract was renewed for fiscal year 2008 by the Sponsor. The Sponsor is responsible for evaluating the performance of the School and has the authority to deny renewal of the contract at its expiration or terminate the contract prior to its expiration. The sponsorship agreement states the Treasurer of Lucas County Educational Service Center shall serve as the Chief Financial Officer of the School (see Note 11).

The School operates under the direction of a five-member Governing Board. The Governing Board is responsible for carrying out the provisions of the contract, which include but are not limited to, state-mandated provisions regarding student population, curriculum, academic goals, performance standards, admission standards, and qualifications of teachers. The Governing Board controls the School's two instructional/support facilities staffed by 42 non-certified and 18 certificated personnel who provide services to 87 students.

On August 29, 2006, the Governing Board passed a resolution to officially change the name of MODEL Community School to "Autism Model School".

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to a governmental nonprofit organizations. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its proprietary activities, provided they do not conflict with or contradict GASB pronouncements. The more significant of the School's accounting policies are described below.

A. Basis of Presentation

The School's financial statements consist of statement of net assets; a statement of revenues, expenses, and changes in net assets; and a statement of cash flows. Enterprise fund reporting focuses on the determination of the change in net assets, financial position, and cash flows.

**AUTISM MODEL SCHOOL
LUCAS COUNTY**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2007
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

B. Measurement Focus

Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities are included on the statements of net assets. The statement of revenues, expenses, and changes in net assets presents increases (e.g. revenues) and decreases (e.g. expenses) in net total assets. The statement of cash flow provides information about how the School finances and meets the cash flow needs of its enterprise activities.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The School's financial statements are prepared using the accrual basis of accounting.

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded when the exchange takes place.

Non-exchange transactions, in which the School receives value without directly giving equal value in return, include grants, entitlements, and donations. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the School on a reimbursement basis.

Expenses are recognized at the time they are incurred.

D. Budgetary Process

The contract between the School and its Sponsor prescribes an annual budget requirement in addition to preparing a 5-year forecast, which is to be updated on an annual basis. Chapter 5705.391(A) of the Ohio Revised Code also requires the School to prepare a 5-year forecast, update it annually, and submit it to the Superintendent of Public Instruction at the Ohio Department of Education.

E. Cash and Cash Equivalents

All monies received by the School are accounted for by the School's fiscal agent, the Lucas County Educational Service Center. All cash received by the fiscal agent is maintained in separate accounts in the School's name. Monies for the School are maintained in these accounts or temporarily used to purchase short-term investments.

For the purposes of the statement of cash flows and the presentation on the statement of net assets, investments with original maturities of three months or less at the time they are purchased by the School are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

**AUTISM MODEL SCHOOL
LUCAS COUNTY**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2007
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

During the year ended 2007, the School only had deposits.

F. Intergovernmental Revenues

The School currently participates in the State Foundation Program, the State Poverty-Based Assistance, and the State Special Education Program. Revenues from these programs are recognized as operating revenues in the accounting period in which all eligibility requirements are met.

Grants and entitlements are recognized as non-operating revenues in the accounting period in which all eligibility requirements have been met.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School on a reimbursement basis.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2007, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expense in the year in which services are consumed.

H. Capital Assets

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. Donated capital assets are recorded at their fair market values as of the date received. The School maintains a capitalization threshold of \$500 for furniture and equipment. The School does not possess any infrastructure.

Improvements are capitalized. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful life of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimate Life</u>
Furniture, Fixtures, and Equipment	5 years

I. Net Assets

Net assets represent the difference between assets and liabilities. Invested in Capital Assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets.

**AUTISM MODEL SCHOOL
LUCAS COUNTY**

**NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2007
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School or through external restrictions imposed by creditor, grantor, or laws or regulations of other governments. The School applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

J. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activities. For the School, these revenues are primarily foundation and special education payments from the state and sales for food service. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of the School. Revenues and expenses not meeting this definition are reported as non-operating.

K. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Accordingly, actual results may differ from those estimates.

L. Security Deposits

The School entered into a lease for the use of the building for the administration and instruction of the School. Based on the lease agreement, a security deposit was required to be paid at the signing of the agreement. This amount, totaling \$13,345, is held by the lessor. (See Note 9)

3. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that in the event of bank failure, the School will not be able to recover deposits or collateral securities that are in the possession of an outside party. At fiscal year ended June 30, 2007, \$200,021 of the School's bank balances of \$300,021 was exposed to custodial credit risk because those deposits were uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the School's name.

The School had no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secure.

6. RISK MANAGEMENT

A. Insurance Coverage

The School is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2007, the School contracted with Cincinnati Insurance Company for general liability and property insurance and educational errors and omissions insurance.

Commercial General Liability aggregate	1,000,000
Commercial General Liability Personal and Advertising Injury	1,000,000
Business Property	500,000
Director's & Officer's Liability	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. The School owns no property, but leases two facilities located at 1615 Holland Road, Maumee, Ohio and 4848 Dorr Street, Toledo, Ohio. (See Note 9)

B. Worker's Compensation

The School pays the State Worker's Compensation System a premium for employee injury coverage. The premium is calculated by multiplying the monthly total gross payroll by a factor that is calculated by the State.

C. Employee Medical, Dental, Vision, Prescription and Life Benefits

The School contracted through the Lucas County Educational Service Center to provide employee medical, dental, and vision insurance to its employees. The School pays the full amount of the monthly premiums for all selected coverage (medical, dental, and/or vision).

7. DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

The School contributes to the School Employees Retirement System of Ohio (SERS), a cost sharing multiple employer defined benefit pension plan administered by the School Employees Retirement Board. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746, by calling (800) 878-5853 or by visiting the SERS website at ohsers.org.

7. DEFINED BENEFIT PENSION PLANS – (Continued)

For the fiscal year ended June 30, 2007, plan members were required to contribute 10 percent of their annual covered salary and the School was required to contribute an actuarially determined rate. The employer rate for fiscal year 2007 was 14 percent of annual covered payroll; 10.68 percent was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board. The School's required contribution for pension obligations to SERS for the fiscal years ending June 30, 2007, 2006, and 2005, were \$81,330, \$55,487, and \$50,101 respectively; 84.84 percent has been contributed for fiscal year 2007, and 100 percent has been contributed for fiscal years 2006 and 2005. \$12,329 represents the unpaid contribution for fiscal year 2007. The balance outstanding is reflected as an intergovernmental payable.

B. State Teachers Retirement Systems (STRS)

The School contributes to the State Teachers Retirement System of Ohio (STRS Ohio), a cost sharing multiple employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio is a statewide retirement plan for licensed teachers and other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof.

Plan Options – New members have a choice of three retirement plan options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC Plan allows members to allocate all their member contributions and employer contributions equal to 10.5% of earned compensation. The Combined Plan offers features of the DC Plan and the DB. In the Combined Plan, the member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment at a reduced level from regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

DB Plan Benefits – Plan benefits are established under Chapter 3307 of the Revised Code. Any member may retire who has (i) five years of service credit and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the "formula benefit" or the "money-purchase benefit" calculation. Under the "formula benefit," the retirement allowance is based on years of credited service and final average salary, which is the average of the member's three highest salary years. The annual allowance is calculated by using a base percentage of 2.2% multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary.

7. DEFINED BENEFIT PENSION PLANS – (Continued)

The 31st year of earned Ohio service credit is calculated at 2.5%. An additional one-tenth of a percent is added to the calculation for every year of earned Ohio service over 31 years (2.6% for 32 years, 2.7% for 33 years and so on) until 100% of final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5% instead of 2.2%. Under the “money-purchase benefit” calculation, a member’s lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

DC Plan Benefits – Benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 10.5% are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members’ accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member’s designated beneficiary is entitled to receive the member’s account balance.

Combined Plan Benefits – The member allocates Member contributions, and employer contributions are used to fund a defined benefit payment. A member’s defined benefit is determined by multiplying 1% of the member’s final average salary by the member’s years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

Eligible faculty of Ohio’ public colleges and universities may choose to enroll in either STRS Ohio or an alternative retirement plan (ARP) offer by their employer. Employees have 120 days from their employment date to select a retirement plan.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for a money-purchase benefit or a lump-sum payment in addition to the original retirement allowance.

Benefits are increased annually by 3% of the original base amount for Defined Benefit Plan participants.

The Defined Benefit and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependent. Coverage under the current program includes hospitalization, physicians’ fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio Law health care benefits are not guaranteed.

7. DEFINED BENEFIT PENSION PLANS – (Continued)

A Defined Benefit or Combined Plan member with five or more years' credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the Defined Benefit Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC, or Combined Plans. Various other benefits are available to members' beneficiaries.

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contributions rate are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers.

For the fiscal year ended June 30, 2007, plan members were required to contribute 10 percent of their annual covered salaries. The School was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. The School's required contribution for pension obligations for the fiscal years ended June 30, 2007, 2006, and 2005 were \$82,185, \$68,153, and \$71,034, respectively; 83.69 percent has been contributed for fiscal year 2007 and 100 percent has been contributed for fiscal years 2006 and 2005. \$13,404 represents the unpaid contribution for fiscal year 2007. The balance outstanding is reflected as an intergovernmental payable.

STRS Ohio issues a stand-alone financial report. Copies of STRS Ohio 2006 Comprehensive Annual Financial Report will be available after January 1, 2007. Additional information or copies of STRS Ohio's 2006 Comprehensive Annual Financial Report can be requested by writing to STRS Ohio, 275 E. 8. POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

The Ohio Revised Code gives SERS the discretionary authority to provide postretirement health care to retirees and their dependents. Coverage is made available to service retirees with ten or more years of qualifying service credit, disability and survivor benefit recipients. Effective January 1, 2005, all retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based on years of service, Medicare eligibility and retirement status. A safety net is in place for retirees whose household income falls below federal poverty levels. Premiums are reduced by 50% for those who apply.

After the allocation for basic benefits, the remainder of the employer's 14% contribution is allocated to providing health care benefits. At June 30, 2007, the healthcare allocation is 3.32 percent. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2007, the minimum pay was established at \$35,800. The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund.

8. POSTEMPLOYMENT BENEFITS – (Continued)

Health care benefits are financed on a pay-as-you-go basis. The target level for the health care reserve is 150% of annual health care expenses, before premium deduction. Net health care costs for the year ending June 30, 2006 (the latest information available), were \$158,751,207. The target level for the health care fund is 150% of the projected claims less premium contributions for the next fiscal year. As of June 30, 2006, the value of the health care fund was \$295.6 million, which is about 221% of next year's projected net health care costs of \$158,776,151. On the basis of actuarial projections, the allocated contributions will be insufficient, in the long term, to provide for a health care reserve equal to at least 150% of estimated annual net claim costs. The number of recipients currently receiving health care benefits is approximately 59,492.

The Retirement Board allocates employer contributions to the Health Care Stabilization Fund from which health care benefits are paid. For fiscal year June 30, 2007, the Board allocated employer contributions equal to 3.32 percent of covered payroll and adding the surcharge due to the Health Care Reserve Fund. For the School, the amount to fund health care benefits, including surcharge, equaled \$31,711 for the fiscal year ended June 30, 2007.

B. State Teachers Retirement System

STRS Ohio provides access to health care coverage to retirees who participated in the Defined Benefit or Combined Plans and their dependents. Coverage under the current plan includes hospitalization, physicians' fees prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Pursuant to the Revised Code (R.C.) the State Teachers Retirement Board (the Board) has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All benefit recipients pay a portion of the health care cost in the form of a monthly premium.

The R.C. grants authority to STRS Ohio to provide health care coverage to eligible benefit recipients, spouses and dependents. By Ohio Law, health care benefits are not guaranteed and the cost of the coverage paid from STRS Ohio funds shall be included in the employer contribution rate, currently 14% of covered payroll.

The Retirement Board allocates employer contributions to the Health Care Stabilization Fund from which health care benefits are paid. For fiscal year June 30, 2007, the Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Reserve Fund. The balance in the Health Care Stabilization Fund was \$3.5 billion as of June 30, 2006. For the School, this amount equaled \$5,887 for the fiscal year ended June 30, 2007.

For the fiscal year ended June 30, 2006 (the latest information available) net health care costs paid by STRS Ohio were \$282,743,000. There were 119,184 eligible benefit recipients.

9. OPERATING LEASE

The School has renewed an operating lease for the period September 1, 2005 through August 31, 2007 with "TEM Enterprises, Inc." to lease a school facility. Payments made totaled \$62,594 for the fiscal year ended 2007. Per the lease agreement, a security deposit of \$5,185 was required to be paid at the signing of the agreement and is held by the lessor.

Subsequently the School has not renewed the lease with TEM Enterprises and is operating on a month to month basis.

On August 22, 2005, the School revised a lease with 4848 Dorr LTD to lease additional space at 4848 Dorr Street. The lease period is from August 22, 2005 and terminates August 21, 2007. Payments made totaled \$100,080 for fiscal year 2007. Per the lease agreement, a security deposit of \$8,160 was required to be paid at the signing of the agreement and is held by the lessor.

The School has subsequently renewed this lease with 4848 Door LTD for an additional three year period commencing on August 22, 2007, and terminating on August 21, 2010. Rent will be paid in the amount of \$109,200 annually for three years payable in monthly installments of \$9,100.

The following is a schedule of the future minimum payments required under the operating lease as of June 30, 2007:

Fiscal Year Ending June 30:	TEM Lease	4848 Dorr Lease	Total
2008	\$ 10,432	\$ 16,680	\$ 27,112

10. CAPITAL LEASE

In August of 2005, the School entered into a capital lease agreement for two copiers with MT Business Technologies, Inc. The lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lease. The capital lease has been recorded at the present value of the future minimum lease payments as of inception date. Payments made totaled \$3,169 for the year.

The following is a schedule of the future minimum lease payments required under the capital lease and present value of the minimum lease payment as of June 30, 2007.

Fiscal Year Ending June 30,	Principal	Interest
2008	\$ 3,470	\$ 611
2009	3,798	281
2010	1,005	15
Total	\$ 8,273	\$ 907

11. FISCAL AGENT

The sponsorship agreement states the Treasurer of the Lucas County Educational Service Center shall serve as the Chief Fiscal Officer of the School. As part of this agreement, the School shall compensate the Lucas County Educational Service Center two percent (2%) of the per pupil allotment paid to the School from the State of Ohio. A total contract payment of \$51,725 was paid during the year, and a liability in the amount of \$3,613 was accrued as a liability for the year ended June 30, 2007.

The Treasurer shall perform all of the following functions while serving as the Chief Fiscal Officer of the School:

- Maintain custody of all funds received by the School in segregated accounts separate from the Sponsor or any other Community School's funds;
- Maintain all books and accounts of the School;
- Maintain all financial records of all state funds of the School and follow State Auditor procedures for receiving and expending state funds;
- Assist the School in meeting all financial reporting requirements established by the Auditor of Ohio;
- Invest funds of the School in the same manner as the funds of the Sponsor are invested, but the Treasurer shall not commingle the funds with any of the Sponsor or any other community school; and
- Pay obligations incurred by the School within a reasonable amount of time, not more than 14 calendar days after receipt of a properly executed voucher signed by the Chief Administrative Officer of the School so long as the proposed expenditure is within the approved budget and funds are available.

12. PURCHASED SERVICES

For the year ended June 30, 2007, purchased service expenses were payments for services rendered by various vendors, and are as follows:

<u>PURCHASED SERVICES</u>	
Professional and Technical Services	\$ 555,568
Property Services	177,426
Travel Mileage/Meeting Expense	2,415
Communications	25,906
Utilities	33,663

13. CONTINGENT LIABILITIES

A. Grants

The School received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the School. However, in the opinion of management, any such disallowed claims will not have an adverse material effect on the overall financial position of the School at June 30, 2007.

B. School Funding

The Ohio Department of Education reviews enrollment data and full-time equivalency (FTE) calculations made by the schools. These reviews ensure the schools are reporting accurate student enrollment data to the State, upon which state foundation funding is calculated. For fiscal year 2007, the review has resulted in an overpayment made to the school in the amount of \$23,394. This amount has been accrued on the financial statements as an intergovernmental payable.

C. Litigation

A lawsuit entitled *Beverly Blount-Hill, et al. v. State of Ohio, et al.*, Case #: 3:04CV197 was filed in the U.S. District Court, Southern District of Ohio, Western Division in October 2004. The suit alleges that the funding provisions of the Ohio Community School Act, O.R.C. Section 3314, violate both the Ohio and Federal constitutions. If the funding scheme is determined to be unconstitutional, it could have financial ramifications for all community/charter schools. The case is still currently pending, and the effect of this suit, if any, on Autism Model School cannot presently be determined.

14. SUBSEQUENT EVENTS

The School entered into an operating lease agreement on November 1, 2007, with 4848 Dorr to rent the house next to the School facility. The terms of the lease states the lease will commence on November 22, 2007, and terminate on August 21, 2010. Rent will be paid in the amount of \$59,400 for the thirty-three month term payable in monthly installments of \$1,800.

The School has also entered into an agreement with the Christ Community Church to rent space for their Clay Center school location. The agreement states the School will pay \$300 per month for September and October of 2007 payable by the 6th of the month. Then payments will be \$75 per week beginning after October 31, 2007, on a week by week basis for as long as the School utilizes the space.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Autism Model School
Lucas County
1615 Holland Road
Maumee, Ohio 43537-1622

To the Governing Board:

We have audited the basic financial statements Autism Model School, Lucas County, (the School) as of and for the year ended June 30, 2007, which collectively comprise the School's basic financial statements and have issued our report thereon dated February 19, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinion on the financial statements, but not to opine on the effectiveness of the School's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the School's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a certain deficiency in internal control over financial reporting that we consider a significant deficiency.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the School's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the School's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

We consider the following deficiency described in the accompanying schedule of findings to be a significant deficiency in internal control over financial reporting: 2007-001.

One Government Center / Suite 1420 / Toledo, OH 43604-2246
Telephone: (419) 245-2811 (800) 443-9276 Fax: (419) 245-2484
www.auditor.state.oh.us

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the School's internal control will not prevent or detect a material financial statement misstatement.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and accordingly, would not necessarily disclose all significant deficiencies that are also material weaknesses. However, we believe the significant deficiency described above is also a material weakness.

We noted a certain matter that we reported to the School's management in a separate letter dated February 19, 2008.

Compliance and Other Matters

As part of reasonably assuring whether the School's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We intend this report solely for the information and use of the audit committee, management, governing board, and the School's sponsor. We intend it for no one other than these specified parties.

Mary Taylor, CPA
Auditor of State

**SCHEDULE OF FINDINGS
JUNE 30, 2007**

**FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2007-001

Material Weakness

Financial Reporting

The School should have procedures in place to prevent or detect material misstatements for the accurate presentation of the School's financial statements and related disclosures. Errors were identified in calculating and posting journal entries to the financial statements during the GAAP conversion process, resulting in six material audit adjustments totaling \$163,689.

The failure to record financial activity on the financial statements could result in material misstatements and inaccurate financial reporting.

We recommend due care be exercised in the calculation and preparation of the financial statements. Further, we recommend the School implement review procedures to detect material financial statement errors.

Officials Response:

The School did not respond to this finding.
