INDEPENDENT ACCOUNTANTS' REPORT

Walnut Township Local School District
Fairfield County
11850 Lancaster Street
Millersport, Ohio 43046

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Walnut Township Local School District, Fairfield County, Ohio (the District), as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

Ohio Administrative Code §117-2-03(B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, as discussed in Note 2, the accompanying financial statements and notes follow the cash accounting basis. This is a comprehensive accounting basis other than generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, we cannot determine at this time.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Walnut Township Local School District, Fairfield County, Ohio, as of June 30, 2007, and the respective changes in cash financial position and the budgetary comparison for the General Fund thereof for the year then ended in conformity with the basis of accounting Note 2 describes.

As described in Note 3, during the year ended June 30, 2007, the District changed its accounting basis from accounting principles generally accepted in the United States of America to the cash accounting basis. The District has revised its financial presentation comparable to the requirements of Governmental Accounting Standard No.34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 6, 2009, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance, and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's discussion and analysis is not a required part of the basic financial statements but is supplementary information the Governmental Accounting Standards Board requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2007
(UNAUDITED)**

The discussion and analysis of the Walnut Township Local School District's (the District) financial performance provides an overview and analysis of the District's financial activities for the fiscal year ended June 30, 2007. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review our notes to the basic financial statements and the financial statements themselves to enhance their understanding of the District's financial performance.

Financial Highlights

Total assets of the District exceeded its liabilities at June 30, 2007 by \$3,352,890. This balance was comprised of an \$862,109 balance in net asset amounts restricted for specific purposes, and \$2,490,781 in unrestricted net assets.

In total, net assets of governmental activities increased by \$506,735, which represents an 18.14 percent increase from 2006. Net assets of the business-type activities decreased \$2,408 which represents a 4.34 percent decrease from 2006.

General receipts accounted for \$5,924,764 or 85.77 percent of all receipts of governmental activities. Program specific receipts in the form of charges for services and sales, and operating grants and contributions accounted for \$984,208 or 14.25 percent of total receipts of \$6,908,972 for the governmental activities.

The District had \$6,397,139 in disbursements related to governmental activities; only \$984,208 of these disbursements was offset by program specific charges for services and sales, grants and contributions. General receipts (primarily taxes and grants and entitlements) of \$5,924,764 were used to provide for the remainder of these programs.

The District had \$294,615 in disbursements related to business-type activities; \$284,517 of these disbursements was offset by program specific charges for services and sales, and operating grants and contributions.

The District recognizes two major governmental funds: the General and Bond Retirement Funds. In terms of dollars received and spent, the General Fund is significantly larger than all the other governmental funds of the District combined. The General Fund had \$6,215,386 in receipts and \$5,460,052 in disbursements in fiscal year 2007.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are presented following the requirements of GASB Statement No. 34, and are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: the government-wide financial statements, fund financial statements and notes to the basic financial statements.

Reporting the District as a Whole

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector business. The statement of net assets and statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. These statements include assets using the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. This basis of accounting takes into account all of the current year's receipts and disbursements based on when cash is received or paid.

The statement of net assets presents information on the District's cash and net assets. Over time, increases and decreases in net assets are important because they serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. The cause of this change may be the result of several factors, some financial and some not. Nonfinancial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required but unfunded educational programs, and other factors. Ultimately, the District's goal is to provide services to our students, not to generate profits as commercial entities do.

The statement of activities presents information showing how the government's net assets changed during the recent fiscal year. All changes in net assets are reported as cash is received or paid. Thus, receipts and disbursements are reported in this statement for some items that will only result in cash flows in the current fiscal period.

In both of the government-wide financial statements, the District's activities are divided into two distinct kinds of activities: governmental activities and business-type activities.

Governmental Activities

Most of the District's programs and services are reported here including instructional services, support services, extracurricular activities, and debt service. These services are funded primarily by taxes, tuition and fees, and intergovernmental receipts including federal and state grants and other shared receipts.

Business-Type Activities

These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses for the goods or services provided. The District food service operations and the sale of school supplies are reported as business activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major funds begins on page 14. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2007
(UNAUDITED)**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objective. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into one of three categories: governmental, proprietary and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Governmental fund financial statements focuses on current inflows and outflows of spendable cash, as well as on balances of spendable cash available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term requirements. These funds are reported using the cash basis of accounting.

Proprietary Funds

Proprietary funds have historically operated as enterprise funds using the same basis of accounting as business-type activities; therefore, these statements will essentially match the information provided in the statements for the District as a whole.

Fiduciary Funds

The District's only fiduciary fund is an agency fund. We exclude these activities from the District's other financial statements because the District cannot use assets to finance its operations. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Fiduciary funds use the cash basis of accounting.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

Recall that the statement of net assets provides the perspective of the District as a whole, showing cash and net assets. Table 1 provides a summary of the District's net assets for 2007 compared to fiscal year 2006:

**Table 1
Net Assets**

Cash and Cash Equivalents increased \$568,935 from fiscal year 2006 due to the receipt of additional income taxes, additional grants, increased rates on invested funds, and conservative spending.

The District's largest portion of net assets is unrestricted assets. Those net assets represent resource that may be used to meet the District's ongoing obligations to its students and creditors.

The remaining balance of \$842,437 is restricted net assets. The restricted net assets are subject to external restrictions on how they may be used.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2007
(UNAUDITED)**

The most significant program disbursements for the District are Regular Instruction, Special Instruction, Operation and Maintenance of Plant, Administration and Pupil Transportation. These programs account for 74.37 percent of the total governmental activities. Regular Instruction, which accounts for 40.59 percent of the total, represents costs associated with providing general educational services. Special Instruction, which accounts for 11.76 percent of the total, represents costs associated with providing educational services for handicapped, disadvantaged and other special needs students. Operation and Maintenance of Plant, which represents 9.44 percent of the total, represents costs associated with operating and maintaining the District's facilities. Administration, which represents 6.93 percent of the total, represents costs associated with the overall administrative responsibility for each building and the District as a whole. Pupil Transportation, which represents 5.65 percent of the total, represents costs associated with providing transportation services for students between home and school and school activities.

The majority of the funding for the most significant programs indicated above is from property taxes, income taxes and grants and entitlements not restricted for specific programs. Property taxes, income taxes and grants and entitlements not restricted for specific programs accounts for 80.63 percent of total receipts for governmental activities.

As noted previously, the net assets for the governmental activities increased \$506,735 or 18.14 percent. This is an increase from last year when net assets increased \$375,186 or 15.51 percent. Total receipts increased \$413,445 or 6.36 percent over last year and disbursements increased \$280,006 or 4.57 percent over last year.

The District had program receipt decreases of \$15,256, as well as an increase in general receipts of \$428,701. The increase in general receipts is mostly due to the District receiving more in property taxes and income taxes during fiscal year 2007.

The total disbursements for governmental activities increased \$280,006 due to an increase in regular instruction, special instruction, and pupil transportation. The majority of the increase is the result of annual salary increases. The remaining difference is due to normal increases in disbursements.

The most significant program disbursements for the District's business-type activities are the Food Service. This program, which accounts for 92.9 percent of the total business-type activities, represents costs associated with food service operations.

Governmental Activities

Over the past several fiscal years, the District has remained in stable financial condition. This has been accomplished through strong voter support and good fiscal management. The District is heavily dependent on property taxes, income taxes and intergovernmental receipts and, like most Ohio schools, is hampered by a lack of revenue growth. Property taxes made up 41.54 percent, income taxes made up 15.56 percent and intergovernmental receipts made up 31.99 percent of the total receipts for the governmental activities in fiscal year 2007.

The Ohio Legislature passed H.B. 920 (1976) and changed the way property taxes function in the State. The overall receipts generated by a levy will not increase solely as a result of inflation until the millage rate has been reduced to 2 mills. The District's operating millage rate is currently at 2 mills and collections do increase/decrease correspondingly with fluctuations in property valuations.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2007
(UNAUDITED)**

The District's income tax receipts consists of a 1.25 percent voted income tax levy. During fiscal year 2007, the District received \$1,074,860, which represents 15.56 percent of the total receipts for the governmental activities.

The District's intergovernmental receipts consist of school foundation basic allowance, homestead and rollback property tax allocation, and federal and state grants. During fiscal year 2007, the District received \$1,561,652 through the State's foundation program, which represents 22.6 percent of the total receipts for the governmental activities. The District relies on this state funding to operate at the current levels of service.

Instruction accounts for 53.37 percent of governmental activities program disbursements. Support services expenses make up 37.11 percent of governmental activities program disbursements. The statement of activities shows the cost of program services and charges for services and grants offsetting those services.

Business-Type Activities

Business-type activities include the food service and uniform school supplies. These programs had program receipts of \$284,517 and disbursements of \$294,615 for fiscal year 2007. Almost 66 percent of those program receipts were from fees for the food service program.

Table 3 shows, the total cost of services and the net cost of services for fiscal year 2007 and comparison to fiscal year 2006. That is, it identifies the cost of these services supported by tax receipts, income tax receipts and unrestricted State entitlements.

FOR THE FISCAL YEAR ENDED JUNE 30, 2007
(UNAUDITED)**

The District's Funds

The District's governmental funds are accounted for using the cash basis of accounting (See Note 2 for discussion of significant accounting policies). All governmental funds had total receipts and other financing sources of \$7,060,305 and disbursements and other financing uses of \$6,553,570.

Total governmental funds fund balance increased by \$506,735. The increase in fund balance for the year was most significant in the General Fund, an increase of \$600,172 reflecting an increase in property and income tax receipts and an increased effort to control spending. The Bond Retirement fund decreased in fund balance by \$100,254, mainly due to the scheduled payments of the District's debt.

The District should remain stable through fiscal year 2009. However, projections beyond fiscal year 2009 show the District may be unable to meet inflationary cost increases in the long-term without additional tax levies or a meaningful change in state funding of public schools as directed by the Ohio Supreme Court.

Budget Highlights - General Fund

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a cash basis for receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of the fiscal year, the District amended its General Fund budget several times. The District uses a modified program-based budget technique that is designed to control program budgets while providing building administrators and supervisors' flexibility for program management.

The District prepares and monitors a detailed cash flow plan for the General Fund. Actual cash flow is compared to monthly and year-to-date estimates, and a monthly report is prepared for top management and the Board of Education.

For the General Fund, the final budget basis receipts were \$6,019,601 representing a \$402,193 or 7.16 percent increase from the original budget estimates. For the General Fund, the final budget basis disbursements were \$6,194,807 representing an increase of \$427,991 from the original budget estimates of \$5,766,816. The final budget reflected a 7.42 percent increase from the original budgeted amount. The difference is the result of low estimates in many of the disbursements on the original budget.

Debt Administration

At June 30, 2007, the District had \$2,650,000 in general obligation debt outstanding with \$240,000 due within one year. Table 4 summarizes the bonds outstanding for fiscal year 2007 compared to fiscal year 2006.

Table 4

Purpose	2007	2006

More detailed information pertaining to the District's long-term debt activity can be found in the notes to the basic financial statements.

Economic Factors

The DeRolf IV decision has not eliminated the dependence on property taxes. The fundamental reliance on property taxes is still inherent with public schools in Ohio. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. Inflation alone will not increase the amount of funds generated by a tax levy. Basically, the mills collected increases thus generating about the same revenue. Taxes made up approximately 67 percent of revenues for governmental activities for the District in fiscal year 2007. Of this 67 percent, 15 percent was School District Income Tax. The District's income tax is a 10 year levy and runs from 2005 through calendar year 2014. The State still has not fixed the funding system although there is hope for some changes as the result of any recommendations from the Governors Blue Ribbon Task Force created as a result of DeRolf IV.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2007**

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Description of the School District

Walnut Township Local School District (the "District") is organized under Article VI, Section 2 and 3 of the Constitution of the State of Ohio. The District provides educational services as authorized by State statute and/or federal guidelines. The District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The Board controls the District's facilities staffed by 36 classified and 48 teaching personnel and 4 administrative employees providing education to approximately 706 students.

Reporting Entity

The financial reporting entity consists of the stand-alone government, component units, and other governmental organizations that are included to ensure the financial statements of the District are not misleading or incomplete. The stand-alone government consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the District, this includes general operations, student guidance, extra-curricular activities, educational media, care and upkeep of grounds and buildings, student transportation and food service.

Component units are legally separate organizations for which the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organizations' resources; the District is legally obligated or has otherwise assumed the responsibility to finance the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approved the budget, the issuance of debt, or the levying of taxes. No separate governmental units meet the criteria for inclusion as a component unit.

The District participates in two jointly governed organizations and one insurance purchasing pool. These organizations are the Metropolitan Educational Council, Central Ohio Special Education Regional Resource Center, and the Ohio School Boards Association Workers' Compensation Group Rating Plan. These organizations are presented in Notes 15 and 16 to the basic financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with a comprehensive basis of accounting (OCBOA) other than generally accepted accounting principles as applied to governmental units. Although Ohio Administrative Code Section 117-2-03(B) requires the District's financial report to follow generally accepted accounting principles, the District chooses to prepare its financial statements and notes in accordance with the cash basis of accounting. The District recognizes receipts when received in cash rather than when earned and recognizes disbursements when paid rather than when a liability is incurred. The District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its business-type activities and enterprise funds provided they do not conflict with or contradict GASB pronouncements. The more significant of the District's accounting policies are described below.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

A. Basis of Presentation

The District's basic financial statement consists of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct disbursements and program receipts for each program or function of the District's governmental activities and business-type activities. Direct disbursements are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program receipts include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational requirements of a particular program. Receipts which are not classified as program receipts are presented as general receipts of the District, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each business segment or governmental function is self-financing or draws from the general receipts of the District.

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

B. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with self-balancing set of accounts. The funds of the District fall within three categories: governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the District are financed. Governmental funds focus on the sources, uses, and balances of current financial resources.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2007
(Continued)**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following are the District's major governmental funds:

General Fund- This fund is the operating fund of the District and is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond Retirement Fund- This debt service fund is used to account for the accumulation of resources and payment of general obligation bonds.

The other governmental funds of the District account for grants and other resources of the District whose use is restricted to a particular purpose.

Proprietary Funds

The proprietary fund focus is on the determination of the change in net assets, financial position and cash flows. The District's proprietary funds are classified as enterprise. Enterprise funds may be used to account for any activities for which a fee is charged to external users for goods or services. The proprietary funds of the District account for transactions related to the food service operations and the sale of school supplies.

Fiduciary Fund

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. The District does not have trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's only fiduciary fund is an agency fund which is used to account for student managed activities.

C. Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared measuring receipts and disbursements when cash is received or paid.

Fund Financial Statements

Only cash is included on the balance sheet. The statement of receipts, disbursements and changes in fund balance reports on the sources (i.e., receipts and other financing sources) and uses (i.e., disbursements and other financing uses) of cash.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide, governmental funds, proprietary and fiduciary fund financial statements are prepared using the cash basis of accounting.

E. Budgetary Process

All funds, except the agency fund, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. The District Treasurer has been authorized by the Board to allocate appropriations to the function and object level within the fund.

The certificate of estimated resources may be amended during the year if projected increases or decreases in receipts are identified by the District Treasurer. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during fiscal year 2007 (See Note 4).

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board of Education during fiscal year 2007.

F. Inventory

On the cash-basis of accounting, inventories of supplies and food service items are reported as disbursements when purchased.

G. Cash and Cash Equivalents

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the financial statements.

The District credits interest to the General and Food Service (Enterprise) Funds. Interest revenue credited to the General Fund during fiscal year 2007 amounted to \$218,354, which includes \$60,446 assigned from other District funds.

Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are presented on the financial statements as cash equivalents.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

H. Restricted Assets

Assets are reported as restricted when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors or laws of other governments or imposed by enabling legislation. As of June 30, 2007, the District reported restricted assets in the General Fund which represent cash and cash equivalents set aside for textbooks and instructional materials, and for bus purchases.

I. Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. The financial statements do not report these assets.

J. Interfund Transactions

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Flows of cash from one to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and as non-operating receipts in business-type activities. Repayments from funds for particular disbursements to the funds that initially paid for them are not presented on the financial statements.

K. Compensated Absences

In certain circumstances, such as upon leaving employment, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the District's cash basis of accounting.

L. Long-Term Obligations

These cash basis financial statements do not report liabilities for bonds and other long-term obligations. These statements report proceeds of debt when cash is received and debt service disbursements for debt principal payments.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments.

The District first applies restricted resources when a disbursement is paid for purposes for which both restricted and unrestricted net assets are available.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

N. Fund Balance Reserves and Designations

The District reserves those portions of fund balance which is not available for appropriation or which is legally segregated for a specific future use. Unreserved fund balance indicates that portion of fund balance which is available for appropriation in future periods. Fund balance reserves have been established for encumbrances, textbooks and instructional materials, and bus purchases.

The District has designated monies for future payments of early termination benefits.

O. Operating Receipts and Disbursements

Operating receipts are those receipts that are generated directly from the primary activity of the proprietary funds. For the District, these receipts are charges for services for the food service operations and sale of school supplies. Operating disbursements are necessary costs incurred to provide for goods or services that is the primary activity of that fund. Receipts and disbursements not meeting these definitions are reported as nonoperating.

NOTE 3 - PRIOR PERIOD ADJUSTMENTS

For fiscal year 2007, the District decided to report on the cash basis of accounting, which resulted in prior period adjustments to remove net accrual entries from the June 30, 2006 balances.

	Fund Balances June 30, 2006	Net Accrual Adjustment s	Adjusted Fund Balances June 30, 2006

NOTE 4 - BUDGETARY BASIS OF ACCOUNTING

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance - Budget and Actual - Budgetary Basis presented for the General Fund, is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The only difference between the budgetary basis and the cash basis is that encumbrances are treated as expenditures for all funds (budgetary basis) rather than as a reservation of fund balance.

The following table summarizes the adjustments necessary to reconcile the cash and budgetary basis statements for the General Fund for the year ended June 30, 2007:

**Net Change in Fund Balances (Deficits)/Excess of Revenues and Other Sources
Over (Under) Expenditures and Other Uses**

	General
Cash Basis	\$600,172
Adjustments:	
Encumbrances	(131,365)
Budgetary Basis	\$468,807

NOTE 5 - DEPOSITS AND INVESTMENTS

State law requires the classification of monies held by the District into three categories:

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts including passbook accounts.

Public Depositories must give security for all public funds on deposit. Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public money deposited with the institution.

NOTE 5 - DEPOSITS AND INVESTMENTS - (Continued)

State Statute permits interim monies to be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above, provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to fair value daily, and that the term of agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain bankers' acceptances and commercial paper notes, for a period not to exceed one hundred and eighty days from the date of purchase in an amount not to exceed twenty-five percent of interim moneys available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies depository categories of risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements" and GASB Statement No. 40, "Deposit and Investment Risk Disclosures."

Cash on Hand: At year-end, the District had \$25 in undeposited cash on hand which is included on the financial statements of the District as part of "Equity in Pooled Cash and Cash Equivalents".

NOTE 5 - DEPOSITS AND INVESTMENTS - (Continued)

Deposits: At June 30, 2007, the carrying amount of all the District deposits was \$3,372,664. Based on the criteria described in GASB Statement No. 40, "Deposits and Investments Risk Disclosures", as of June 30, 2007, \$3,204,678 of the District's bank balance of \$3,404,678 was exposed to custodial risk as discussed below, while \$200,000 was covered by Federal Deposit Insurance Corporation.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District's investment policy does not address custodial credit risk for deposits.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on tangible personal property at eighty-eight percent of true value (with certain exceptions) and on real property at thirty-five percent of true value. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year. Tangible personal property assessments are twenty-five percent of true value. The assessed values upon which the fiscal year 2007 taxes were collected are:

	2006 Second - Half Collections		2007 First - Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$103,571,600	92.3%	\$104,955,040	92.2%

NOTE 6 - PROPERTY TAXES - (Continued)

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, state statute permits earlier or later payment dates to be established. Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The District receives property taxes from Fairfield County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2007 are available to finance fiscal year 2007 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

NOTE 7 - INCOME TAX

The District levies a voted tax of 1.25 percent for general operations on the income of residents. The tax became effective on January 1, 2005, and continues for ten years. Employers of residents are required to withhold income tax on compensation and remit the tax to the state. Taxpayers are required to file an annual return. The state makes quarterly distributions to the District after withholding amounts for administrative fees and estimated refunds. Income tax receipts of \$1,074,860 are credited to the General Fund for fiscal year 2007.

NOTE 8 - RISK MANAGEMENT

Property and Liability

The District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2007, the District contracted with Auto-Owner's Mutual Insurance Company for fleet insurance and Harcum-Schuett Insurance Agency, Inc. for liability insurance and inland marine coverage. Coverage's provided are as follows:

Building and Contents-replacement cost (\$2,500 deductible)	\$18,699,364
Inland Marine Coverage (\$250 deductible)	78,855
Automobile Liability	1,000,000
Uninsured Motorists	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant change in coverage from last year.

Workers' Compensation

For fiscal year 2007, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 16). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers compensation experience of the participating school district is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control and actuarial services to the GRP.

NOTE 9 - DEFINED BENEFIT PENSION PLANS

School Employees Retirement System

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing, multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio, 43215-3746 or by calling (800) 878-5853 or by visiting the SERS website at ohsers.org.

NOTE 9- DEFINED BENEFIT PENSION PLANS- (Continued)

Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current rate for the District is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2007, 10.68 percent of annual covered salary was used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board. The District's contributions for pension obligations to SERS for the fiscal years ended June 30, 2007, 2006, and 2005 were \$91,012, \$53,178, and \$85,475, respectively; 37.88 percent has been contributed for fiscal year 2007 and 100 percent for fiscal years 2006 and 2005. \$56,533 representing the unpaid contribution for fiscal year 2007 is recorded as a liability.

State Teachers Retirement System

The District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to the State Teachers Retirement System of Ohio, 275 East Broad Street, Columbus, Ohio 43215-3771 or by calling (614) 227-4090, or by visiting the STRS Ohio web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB Plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a onetime irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

NOTE 9- DEFINED BENEFIT PENSION PLANS- (Continued)

For the fiscal year ended June 30, 2007, plan members were required to contribute 10 percent of their annual covered salary and the District was required to contribute 14 percent. Of the District's contribution, 13 percent was used to fund pension obligations. For fiscal year 2006, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to DB Plan for the fiscal years ended June 30, 2007, 2006, and 2005 were \$367,473, \$321,154, and \$360,100, respectively; 76.64 percent has been contributed for fiscal year 2007 and 100 percent for fiscal years 2006 and 2005. \$85,850 representing the unpaid contribution for fiscal year 2007 is recorded as a liability.

Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2007, three members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

NOTE 10 - POST-EMPLOYMENT BENEFITS

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System of Ohio (STRS Ohio), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly medicare premiums. Benefit provisions and the obligation to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

All STRS Ohio retirees who participated in the DB or combined plans and their dependents are eligible for health care coverage. The STRS Ohio Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. All benefit recipients are required to pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS Ohio funds is included in the employer contribution rate, currently 14 percent of covered payroll. For fiscal year 2007, the STRS Ohio Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. For the District, this amount equaled \$28,267 during fiscal year 2007.

STRS Ohio pays health care benefits from the Health Care Stabilization Fund. The balance in the Fund was \$3.5 billion at June 30, 2006 (the latest information year available). For the year ended June 30, 2006, net health care costs paid by STRS Ohio were \$282,743,000 and STRS Ohio had 119,184 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more years of qualifying service credit, and disability and survivor benefit recipients. All retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based on years of service, medicare eligibility, and retirement status.

NOTE 10 - POST-EMPLOYMENT BENEFITS - (Continued)

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For fiscal year 2006, employer contributions to fund health care benefits were 3.32 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2006, the minimum pay has been established at \$35,800; however, the surcharge is capped at 2 percent of each employer's SERS salaries. For the District, the amount to fund health care benefits, including surcharge, equaled \$39,285 during the 2007 fiscal year.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for health care reserve is 150 percent of annual health care expenses. Expenses for health care at June 30, 2006 (the latest information available) were \$158,751,207. At June 30, 2006, SERS had net assets available for payment of health care benefits of \$295.6 million. SERS has 59,492 participants currently receiving health care benefits.

NOTE 11 - OTHER EMPLOYEE BENEFITS

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees, and administrators who are contracted to work 260 days per year, earn ten to twenty days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers and administrators who work less than 260 days per year do not earn vacation time. Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to 260 days for the Superintendent, 220 days for the Treasurer, 220 days for teachers, and 220 days for classified employees. Upon retirement, all employees receive one-fourth of the total sick leave accumulation.

Insurance Benefits

The District provides health, drug, and dental insurance for all eligible employees through Medical Mutual of Ohio. The District pays medical and drug monthly premiums for staff for family and single coverage. The District pays the total monthly premium for dental insurance coverage for family and single employees. The District does not provide vision insurance to its employees. The District provides life insurance and accidental death and dismemberment insurance to most employees through Medical Mutual of Ohio. Premiums are paid from the same funds that pay employees' salaries.

	Nonmajor Special Revenue Funds	Nonmajor Enterprise Funds	Total
General	\$151,333	\$5,098	\$156,431
Total	\$151,333	\$5,098	\$156,431

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and (2) use unrestricted receipts collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 13 - LONG-TERM OBLIGATIONS

Changes in the governmental activities long-term obligations of the District during fiscal year 2007 were as follows:

	Issue Date	Interest Rate	Principal Outstanding July 1, 2006	Additions	Deletions	Principal Outstanding June 30, 2007	Due in One Year
Governmental Activities							
General Obligation Bonds	1985	9.25%	\$230,000	\$0	\$115,000	\$115,000	\$115,000
General Obligation Bonds	1995	5.77%	2,650,000	0	115,000	2,535,000	125,000
Total Government Activities			\$2,880,000	\$0	\$230,000	\$2,650,000	\$240,000

The \$2,880,000 of outstanding general obligation bonds relate to two projects. The first project was approved in 1985, for which bonds were issued for the purpose of an addition, improving and equipping the high school building and improving the site thereof. The bonds mature December 2007, and are in full compliance with the general laws of the State of Ohio, particularly Sections 133.01 to 133.48, inclusive, of the Revised Code and Section 133.09 thereof. The issue has an outstanding balance of \$115,000 with an interest rate of 9.25%.

The second bond issue outstanding relates to a project approved in 1995, for which bonds were issued for the purpose of renovating, repairing and improving school facilities and constructing a media/computer lab addition to the high school and improving the site thereof. These bonds mature in December 2020, and are in full compliance with the general laws of the State of Ohio, particularly Sections 133.01 to 133.48, inclusive, of the Revised Code and Section 133.09 thereof. The issue has an outstanding balance of \$2,535,000 with an interest rate of 5.77%.

Principal and interest requirements, which are paid out of the Debt Service Fund, to retire general obligation debt outstanding at June 30, 2007, are as follows:

Fiscal Year June 30	Principal	Interest	Total
2008	\$240,000	\$158,614	\$398,614
2009	130,000	145,390	275,390
2010	135,000	137,175	272,175
2011	145,000	128,495	273,495
2012	155,000	119,195	274,195
2013-2017	905,000	438,495	1,343,495
2018-2021	940,000	120,590	1,060,590
Total	<u>\$2,650,000</u>	<u>\$1,247,954</u>	<u>\$3,897,954</u>

The District's overall legal debt margin was \$7,596,275 with an unvoted debt margin of \$113,847 at June 30, 2007.

NOTE 14- STATUTORY SET ASIDES

The District is required by State statute to annually set aside in the General Fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future fiscal years. Effective April 10, 2001, Senate Bill 345 eliminated the Statutory requirement for a budget reserve; however, the amount of the budget reserve funded with workers' compensation refunds or rebates may only be used to offset a budget deficit or certain other expenditures as directed by the Board of Education.

NOTE 14- STATUTORY SET ASIDES - (Continued)

The following cash basis information describes the change in the fiscal year end set aside amounts for textbook, capital improvement, and budget stabilization. Disclosure of this information is required by State statute.

	Textbook & Instructional Materials	Capital Improvement	Budget Stabilization
Set Aside Balances Carried Forward as of June 30, 2006	\$46,359	\$33,301	\$50,684
Current Year Set Aside Requirement	108,499	108,499	0
Qualifying Disbursements	(89,122)	(173,077)	(50,684)
Set Aside Reserve Balances at June 30, 2007	\$65,736	(\$31,277)	\$0
Set Aside Balances Carried Forward to Fiscal Year 2008	\$65,736	\$0	\$0

The District had qualifying disbursements during the year that reduced the budget stabilization and capital improvement set aside amounts to zero and below zero. For the textbook and instructional materials set-aside, if expenditures exceed current year or accumulated set aside requirements, or if the actual reserve cash balance exceeds the set aside requirements, the excess may be carried forward to offset future textbook set aside requirements.

NOTE 15- JOINTLY GOVERNED ORGANIZATIONS

Metropolitan Education Council (MEC)

MEC is a not for profit educational council whose primary purpose and objective is to contribute to the educational services available to school districts in Franklin County and surrounding areas by cooperative action membership. The governing board consists of a representative from each of the Franklin County districts. Districts outside of Franklin County are associate members and each county selects a single district to represent them on the governing board. MEC is its own fiscal agent. The District does not have an ongoing financial interest in or ongoing financial responsibility for MEC. MEC provides computer services to the District.

Central Ohio Special Education Regional Resource Center (COSERRC)

COSERRC is a not for profit Council of Governments of various school districts in Central Ohio. The District participates in services that assist the District in complying with mandates for educating children with disabilities. There is no financial commitment made by the District. COSERRC is not dependent upon the continued participation of the District and the District does not maintain an equity interest in or financial responsibility for COSERRC.

NOTE 16- INSURANCE PURCHASING POOL

The District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the Ohio School Boards Association (OSBA). The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

NOTE 17 - CONTINGENCIES

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2007.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Walnut Township Local School District
Fairfield County
11850 Lancaster Street
Millersport, Ohio 43046

To the Board of Education:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Walnut Township Local School District, Fairfield County, Ohio (the District) as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 6, 2009, wherein we noted the District uses a comprehensive accounting basis other than generally accepted accounting principles. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinion on the financial statements, but not to opine on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the District's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the District's internal control will not prevent or detect a material financial statement misstatement.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all internal control deficiencies that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

We noted a certain matter that we reported to the District's management in a separate letter dated February 6, 2009.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matter that we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2007-001.

We did note a certain noncompliance or other matter not requiring inclusion in this report that we reported to the District's management in a separate letter dated February 6, 2009.

The District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

We intend this report solely for the information and use of management and Board of Education. We intend it for no one other than these specified parties.

**SCHEDULE OF FINDINGS
JUNE 30, 2007**

**FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2007-001

Noncompliance Finding - Ohio Administration Code

Ohio Admin. Code Section 117-2-03(B) requires the District to prepare its annual financial report in accordance with Generally Accepted Accounting Principles (GAAP).

For the year ended June 30, 2007, the District' financial statements and footnotes were prepared on the cash basis of accounting, which is a comprehensive accounting basis other than GAAP.

The accompanying financial statements omit and notes omit assets, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time. The District may be fined and various other administrative remedies may be taken against the District.

We recommend the District prepare its financial statements in accordance with the GAAP.

Official's Response:

District officials made a financial decision not to report on GAAP. Given the size of the District, the cost to report on GAAP exceeds the benefit.
