WARREN COUNTY

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FISCAL YEAR ENDED DECEMBER 31, 2009

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the Schedule) reports Warren County's (the County's) federal award programs' disbursements. The schedule has been prepared on the cash basis of accounting.

NOTE B – SUBRECIPIENTS

During fiscal year 2009, the County's Department of Jobs and Family Services subgranted \$344,336 of the Temporary Assistance for Needy Families (93.558) to the Families and Children's First Council to administer the Help Me Grow Program. This amount is included in the total Temporary Assistance for Needy Families amount reported on the Schedule of Expenditures of Federal Awards.

NOTE C - CHILD NUTRITION CLUSTER

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

NOTE D - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) REVOLVING LOAN PROGRAM

The County has a revolving loan fund (RLF) program to provide no-interest loans to CDBG eligible applicants to assist with down payments and closing costs for first time home buyers and for the rehabilitation of private residences and for emergency home repair for CDBG eligible applicants. The federal Department of Housing and Urban Development (HUD) grants money for these loans to the County, passed through the Ohio Department of Development. The Schedule reports loans made and administrative costs as disbursements on the Schedule. Loans repaid are used to make additional loans. Subsequent loans are subject to the same compliance requirements imposed by HUD as the initial loans.

These loans are collateralized by mortgages on the property. Loans are not forgiven unless the property is foreclosed by court order.

Activity in the CDBG revolving loan fund during 2009 is as follows:

Beginning loans receivable balance as of January 1, 2009	\$585,925
Loans made	20,269
Foreclosure	(5,750)
Loan principal repaid	(26,100)
Ending loans receivable balance as of December 31, 2009	\$574,344
Cash balance on hand in the revolving loan fund as of December 31, 2009	\$13,497
Administrative costs expended during 2009	5,340

The table above reports gross loans receivable. Of the loans receivable as of December 31, 2009, the County estimates none to be uncollectible at this time.

NOTE E – HOME IMPROVEMENTS PARTNERSHIPS PROGRAM REVOLVING LOAN PROGRAM

The County has a revolving loan fund (RLF) program to provide no-interest loans to assist with the down payment and closing costs for first time home buyers and for the rehabilitation of private residences. Repayments of loans are used to make additional loans to assist additional low and moderate income household for HOME eligible activities. The federal Department of Housing and Urban Development (HUD) grants money for these loans to the County, passed through the Ohio Department of Development. The Schedule reports loans made and the administrative costs on repaid loans as disbursements on the Schedule. Subsequent loans are subject to the same compliance requirements imposed by HUD as the initial loans.

These loans are collateralized by mortgages on the property. Loans are not forgiven unless the property is foreclosed by court order.

Activity in the HOME revolving loan fund during 2009 is as follows:

Beginning loans receivable balance as of January 1, 2009	\$1,066,049
Loans made	0
Loan principal repaid	(9,574)
Ending loans receivable balance as of December 31, 2009	\$1,056,475
Cash balance on hand in the revolving loan fund as of December 31, 2009	\$96,512
Administrative costs expended during 2009	957

The table above reports gross loans receivable. Of the loans receivable as of December 31, 2009, the County estimates \$28,400 to be uncollectible due to foreclosure in 2010.

NOTE F - MATCHING REQUIREMENTS

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

NOTE G – WORKFORCE INVESTMENT ACT

The County receives Workforce Investment Act (WIA) monies passed through the Ohio Department of Job and Family Services. Warren County, Butler County and Clermont Counties together comprise WIA Area 12. Butler County services as the Fiscal Agent for WIA Area 12.

Auditor of State

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Warren County
406 Justice Drive
Lebanon, Ohio 45036

To the Board of County Commissioners:

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of Warren County, Ohio (the County), as of and for the year ended December 31, 2009, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 18, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of opining on the effectiveness of the County's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2009-001.

We did note certain matters not requiring inclusion in this report that we reported to the County's management in a separate letter dated September 17, 2010.

We intend this report solely for the information and use of the management, the audit committee, the Board of County Commissioners, and federal awarding agencies and pass-through entities and others within the County. We intend it for no one other than these specified parties.

A handwritten signature in black ink that reads "Mary Taylor". The signature is written in a cursive, flowing style.

Auditor of State

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Warren County
406 Justice Drive
Lebanon, Ohio 45036

To the Board of County Commissioners:

Compliance

We have audited the compliance of Warren County, Ohio (the County), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that apply to each of its major federal programs for the year ended December 31, 2009. The summary of auditor's results section of the accompanying schedule of findings identifies the County's major federal programs. The County's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, Warren County complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended December 31, 2009. However, the results of our auditing procedures disclosed other instances of noncompliance with those requirements that, while not affecting our opinion on compliance, OMB Circular A-133 requires us to report. The accompanying schedule of findings lists these instances as Findings 2009-002 through 2009-005.

Internal Control Over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of opining on compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the County's internal control over compliance.

Corporate Centre of Blue Ash / 11117 Kenwood Rd. / Blue Ash, OH 45242
Telephone: (513) 361-8550 (800) 368-7419 Fax: (513) 361-8577
www.auditor.state.oh.us

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, we cannot assure we have identified all deficiencies, significant deficiencies, or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and a deficiency that we consider to be a significant deficiency.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings as items 2009-002, 2009-003 and 2009-005 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a federal program compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings as item 2009-004 to be a significant deficiency.

We also noted matters involving federal compliance or internal control over federal compliance not requiring inclusion in this report, that we reported to the County's management in a separate letter dated September 17, 2010.

Federal Awards Expenditures Schedule

We have also audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of Warren County, Ohio as of and for the year ended December 31, 2009, and have issued our report thereon dated June 18, 2010. Our audit was performed to form an opinion on the financial statements that collectively comprise the County's basic financial statements. The accompanying federal awards expenditures schedule provides additional information as required by OMB Circular A-133 and is not a required part of the basic financial statements. We subjected this information to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the audit committee, management, the Board of County Commissioners, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

Mary Taylor, CPA
Auditor of State

September 17, 2010

(d)(1)(ix)	Low Risk Auditee?	yes

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
 REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2009-001

Finding for Recovery

Warren County began using govdeals.com (“GovDeals”) in 2003 to auction off surplus or outdated County inventory and seized and forfeited property. Billy Fairchild, Warren County Building Services employee, was solely responsible for the entire process of disposing of inventory on GovDeals.

In January 2010, it was discovered that GovDeals sale items were not matching up to the deposits made by Mr. Fairchild. All GovDeals sales from 2004 through the present were reviewed and compared to deposits made to the County Treasury, and a total of \$26,655 was determined to be collected but unaccounted for by Mr. Fairchild.

In accordance with the forgoing facts, and pursuant to Ohio Rev. Code Section 117.28, a finding for recovery for public monies collected but unaccounted for is hereby issued against Billy Fairchild, former Building Services employee, in the amount of \$26,655 and in favor of the following Warren County funds: General Fund in the amount of \$11,218; Engineer Fund in the amount of \$685; Human Services Fund in the amount of \$43; MRDD Fund in the amount of \$2,198; Dog & Kennel Fund in the amount of \$5; Water/Sewer Fund in the amount of \$1,922; Health Department Fund in the amount of \$3,550; Park District Fund in the amount of \$2,255; Drug Task Force Fund in the amount of \$4,443; ETA Fund in the amount of \$330; and the Inmate Commissary Fund in the amount of \$6.

Officials’ Response:

We did not receive a response from the Officials to this finding.

Material Noncompliance/Material Weakness

OMB Circular A-102 establishes consistency and uniformity among Federal agencies in the management of grants and cooperative agreements with State, local, and federally- recognized Indian tribal governments. In order for the State of Ohio to comply with Circular A-102, the Warren County DJFS must provide accurate and timely reports to the State Job and Family Services (JFS).

Ohio Admin. Code Sections 5101:9-7-03, 5101:9-7-03.1, and 5101:9-7-03.2 provide guidance on the financing, cash management, and quarterly reconciliations and closeout procedures. Public Assistance (PA) funds are determined quarterly and disbursed weekly to the County JFS, upon receipt of the county cash draw request for funds. A state expenditure reconciliation report of the PA data subset is prepared quarterly to show a summary of net expenditures and receipts. The county agency is given the opportunity to review the reconciliation reports for accuracy. The quarterly PA fund reconciliation review requirement is intended to correct instances where ODJFS or the county agency discover errors, i.e. incorrect splits of shared costs or wrong allocations, incorrect time study codes, and/or JFS 02827 codes and expenditures. The PA fund is reconciled each quarter based on the final reconciliation reports.

Ohio Admin. Code Section 5101:9-9-21(E) requires that each county family services agency and workforce development agency shall retain financial, programmatic, statistical, and recipient records and supporting documents relating or pertaining to a federal award passed through from ODJFS for a minimum of three years after ODJFS's acceptance of the final closeout expenditure report for that federal award, or applicable ODJFS records retention requirements, whichever is longer, unless otherwise provided by any minimum records retention requirements specified by applicable state or federal law. A county family services agency or workforce development agency may establish a minimum records retention period that exceeds the minimum retention period provided by this paragraph.

Contrary to the requirements detailed above, the Warren County DJFS provided only one cover page of one quarterly reconciliation report to the State, so we were unable to determine if there was compliance with the Reporting Requirements. The Warren County DJFS did not retain the other three quarters of the quarterly reconciliations for calendar year 2009. We were able to determine, using other procedures, that the Forms 02827 reconciled between the County Auditor and Warren County DJFS and to test the transfer system between the two systems (PET or manual).

We recommend that the Warren County DJFS establish and maintain a records retention policy in accordance with the Ohio Administrative Code. We further recommend that they perform and maintain records of quarterly reconciliations with the State DJFS.

Noncompliance/Material Weakness - Federal Schedule Preparation

Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments and Nonprofit Organizations*, Subpart C, §.300(d), states that the auditee is responsible for preparing the Schedule of Expenditures of Federal Awards (SEFA) in accordance with Section .310.

Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments and Nonprofit Organizations*, Subpart C, §.310(b) states, in part, that at a minimum, the schedule shall:

- (1) List individual federal programs by federal agency;
- (2) For federal awards received as a subrecipient, include the name of the pass-through entity and identifying number assigned by the pass-through entity;
- (3) Provide total federal awards expended for each individual federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available;
- (4) Include notes that describe the significant accounting policies used in preparing the schedule;
- (5) If applicable, identify in the schedule the total amount provided to subrecipients from each federal program; and
- (6) If applicable, include in the schedule or a note to the schedule, the value of the federal awards expended in the form of non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end.

Management is responsible for implementing internal control procedures related to drafting the schedule of expenditures of federal awards and related notes that ensure accuracy and completeness and enable management to prevent and detect potential misstatements prior to audit. It is important to note that independent auditors are not part of an entity's internal control structure and should not be relied upon by management to detect misstatements.

Additionally, Appendix VII of the 2009 OMB Compliance Supplement requires State and local governments to identify ARRA Federal expenditures separately from non-ARRA Federal expenditures on the SEFA by CFDA number and inclusion of the prefix "ARRA-" in front of the Program Title name.

**FINDING NUMBER 2009-003
 (Continued)**

When documenting the County's procedures related to drafting the SEFA and related notes, we noted an absence of internal control procedures to ensure accuracy and completeness. This lack of internal controls was further evidenced in our testing of the SEFA and related notes, where we noted the following:

1. Seven of thirty-two programs (CFDA numbers 97.036, 97.039, 97.042, 97.067, 93.778, 93.713, 10.561) were not disclosed on the initial SEFA and were found by audit staff during the audit, totaling a misstatement of \$581,742. Of this amount, \$410,880 was ARRA funding (CFDA numbers 93.778 and 93.713).
2. One of the thirty two programs, the National Emergency Grant, did not provide a CFDA number on the initial SEFA.
3. Disbursements to one subrecipient, Warren County Children's Services, were disclosed twice on the initial SEFA resulting in an overstatement of federal disbursements by \$47,917.
4. Eleven of thirty-two programs on the SEFA (CFDA numbers 14.228, 14.239, 93.778, 93.563, 93.659, 93.658, 10.561, 93.558, 93.575, 93.596, and 93.667) were misstated, due to the various agencies not following guidance or using the wrong reports or amounts, resulting in a net increase in total federal disbursements of \$2,963,000.
5. One program (CFDA number 93.767) with disbursements of \$2,862 was initially reported under the wrong CFDA number (93.778).

The absence of the internal controls that led to these errors is primarily the result of a lack of experience preparing the SEFA and related notes, coupled with a lack of knowledge of the requirements of OMB Circular A-133. Inaccurate completion of the departmental questionnaire for federal expenditures could lead to incorrect reporting of federal expenditures by the County, and possible loss of federal funding.

We recommend that the County's various agencies and departments devise and implement internal control procedures capable of ensuring the accuracy and completeness of the County's SEFA and related notes to prevent these errors from occurring in future periods. Individuals responsible for drafting the questionnaire responses related to preparation of the SEFA must be knowledgeable of the applicable requirements and should complete them with due care and consideration. We also recommend that the various departments monitor receipts and expenditures during the year so that at year end they are able to differentiate between federal and state receipts and expenditures. In addition, information provided by the various departments throughout the County must be accompanied by appropriate supporting documentation (i.e. grant agreements) and traced to the County's general ledger.

Noncompliance/Significant Deficiency - Subrecipient Monitoring

Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments and Nonprofit Organizations*, Subpart B §.210 requires that the awarding agency make subrecipient and vendor determinations.

The Warren County DJFS does not maintain documentation of their determination of whether recipients are “subrecipients” or “vendors”. The contracts that are signed by the County Commissioners and the recipients are not consistent in the wording determining Vendor or Subrecipient status for each different recipient of funds.

In addition, the Warren County DJFS does not have a policy in place as to the assessment of its relationships as those of a subrecipient or of a vendor. Without such a policy in place, there is a risk that the agency will unnecessarily expend resources in treating vendors as subrecipients, or will fail to comply with federal or state requirements with regard to subrecipient relationships. Without a clear understanding of their relationship, the parties may act at variance with the intent of the agreement.

Ohio Admin. Code Section 5101:9-1-88(A) states that the Ohio Department of Job and Family Services (ODJFS), as a recipient of federal funding, is requiring local agencies, as subrecipients, to monitor their subrecipients. The standard monitoring protocol for local agencies in the oversight of subrecipients of federal funding follows the requirements set forth in the office of management and budget (OMB) circular A-133, compliance supplement, part 3, and other applicable federal principles. Subrecipient monitoring is not an audit. Subrecipient monitoring does not test for all areas of compliance, but serves as a means of evaluating those compliance elements that can be monitored to reasonably ensure the credibility of the federal program. This rule does not negate federal, state, or local requirements of the Workforce Investment Act or other specific federal programs.

Ohio Admin. Code Sections 5101:9-1-88(D) through (L) document the requirements and frequency of subrecipient monitoring by the local agency.

In the Technical Assistance Report dated May 7, 2009 for the Federal Grants Management Monitoring Review of the Warren County Public Children Services Agency for State Fiscal Year 2009, ODJFS identified the agency’s contract with Warren County Children’s Services for Help Me Grow as a subrecipient.

Of the five agencies identified by the Warren County DJFS as subrecipients, the Help Me Grow contract was the only one correctly identified. The Warren County DJFS did not monitor the Help Me Grow subrecipient agency as required.

We recommend the Warren County DJFS establish a policy of formally reviewing the proposed relationship between the two parties in regard to any proposed agreement, and after documenting their determination of each relationship, maintain such documentation.

Further, we recommend that the Warren County DJFS follow all of the requirements in Circular A-133 when preparing the contracts for each recipient of funds and properly monitor the subrecipients.

Pass-Through Agency	Ohio Department of Job and Family Services

Material Weakness/Noncompliance – Workforce Investment Cluster

45 CFR § 95.507 requires some form of cost allocation for employees who provide services in more than one federal program area. RMS is the cost allocation process used by the state of Ohio as an alternative to other more cumbersome and time-consuming measurement devices. The process is required by each county department of job and family services (CDJFS), child support enforcement agency (CSEA), public children service agency (PCSA), and combined workforce investment agency (WIA), called “populations”, to accurately determine the administrative costs association with the operation of any one of several state and federally assisted programs. RMS statistically validates the method for determining the percentage of effort expended by a given population on behalf of any variety of specific programs and activities.

Ohio Admin. Code Section 5101:9-7-20(A) states the income maintenance random moment sample (IMRMS), workforce random moment sample (WFRMS), social services random moment sample (SSRMS), and child welfare random moment sample (CWRMS) time studies are designed to measure activity regarding various programs.

Data collected from these time studies are used to calculate allocation statistics used to distribute cost pool expenditures to the appropriate programs. The percentages are used by the Ohio Department of Job and Family Services (ODJFS) to distribute administrative funds reported on the monthly financial statements or certification sheets as detailed in 5101:9-7-29 of the Administrative Code.

Ohio Admin. Code Section 5101:9-7-20(C)(3) states the workforce random moment sample (WFRMS) is designed to identify activities directly related to program functions benefiting one or more workforce investment programs (e.g., adult, youth, dislocated worker). Only stand alone workforce investment areas with positions engaged directly in related program functions are required to participate in the WFRMS time study.

Ohio Admin. Code Section 5101:9-7-20(E) states the county agency or stand alone workforce investment area must assign a RMS coordinator and alternate coordinator(s) to administer each required time study. Each county agency or stand alone workforce investment area determines how many additional alternates are needed based on the location of the sample population, the sample size, available staff time, and/or other pertinent factors. At least one alternate must be selected to complete the RMS process in the coordinator's absence.

During 2009, the Warren County Workforce One (County) did not perform any Random Moment Sampling (RMS) using the designated forms. The County used excel spreadsheets for each employee to allocate costs to the various programs. In addition, no one was designated a RMS coordinator or an alternate. Data collected from these RMS time studies are used to calculate allocation statistics used to distribute cost pool expenditures to the appropriate programs. Without this data, the program may allocate the expenditures to the wrong programs. Failure to complete the forms or designate personnel as required are violations of the above requirements and could lead to incorrect reporting of federal expenditures by the County, and possible loss of federal funding.

**FINDING NUMBER 2009-005
(Continued)**

We recommend that the Warren County Workforce One devise and implement internal control procedures capable of ensuring the accuracy and completeness of the RMS process. Individuals responsible for overseeing the RMS process must be knowledgeable of the applicable requirements and should complete them with due care and consideration.

We did not receive a response from officials regarding the findings reported above.

June 18, 2010

To the Citizens of Warren County, Ohio:

I am pleased to submit the Comprehensive Annual Financial Report (CAFR) for Warren County, Ohio (the "County") for the fiscal year ended December 31, 2009. The report has been prepared in conformity with generally accepted accounting principles (GAAP) and guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA).

Introduction

While there is no legal requirement for the preparation of this report, it represents a commitment by Warren County to conform to nationally recognized standards of excellence in financial reporting. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County, especially the County Auditor's Office. To the best of our knowledge and belief, the enclosed data, as presented, is accurate in all material respects, is presented in a manner designed to fairly set forth the financial position and results of operations of the County and includes all disclosures necessary to enable the reader to gain an understanding of the County's financial activity.

The Reporting Entity:

The accompanying basic financial statements comply with the provisions of the Governmental Accounting Standards Board (the "GASB") Statement No. 14, "The Financial Reporting Entity," in that the financial statements include all the organizations, activities and functions of the primary government (the County) and legally separate entities (component unit) for which the County is financially accountable. Production Services Unlimited, an adult workshop, has been included as a discretely presented component unit of the County due to its significant relationship with the County.

A thorough presentation of the County's reporting entity is contained in Note 1 of the basic financial statements.

*Letter of Transmittal
For the Year Ended December 31, 2009*

County Organization and Services:

Warren County is located in the southwestern part of the state, approximately 20 miles north of Cincinnati and 15 miles south of Dayton. It is also located within a day's drive for 65% of the U.S. population. Its 400 square mile area serves a residential population estimated at 158,383 (2000 U.S. Bureau of Census). The County includes 11 townships, 9 villages and 8 cities. The County has only those powers conferred upon it by Ohio statutes. A three member Board of County Commissioners is elected at large in even numbered years for overlapping four-year terms. The Board of County Commissioners serves as the taxing authority, the contracting body, and the chief administrator of public services for the County.

The Board of County Commissioners prepares and adopts the annual operating budget and makes the annual appropriation measure for expenditures of all County funds. In addition to the Board of County Commissioners, the offices of the County Auditor and County Treasurer are included in the category of general government and are of particular importance to the financial affairs of the County.

The County Auditor is elected to a four-year term and serves as the chief fiscal officer for the County and the tax assessor for all political subdivisions within the County. According to state law, a complete reappraisal must be conducted every six years as well as a triennial update every third year between reappraisals. Upon collection by the County Treasurer, the County Auditor is responsible for distributing certain taxes to various political subdivisions including municipalities, villages, townships, school and library districts, special districts and county agencies.

As chief fiscal officer, the County Auditor must certify that funds for all contracts and obligations of the County have been lawfully appropriated and are available or in the process of collection before the contract or obligation is binding upon the County. In addition, the Auditor is also the central disbursing agent, who by the issuance of County warrants distributes funds to creditors in payment of liabilities incurred by the County. The Auditor is also responsible for the County payroll and has other statutory accounting responsibilities. He is, by state law, Secretary of the County Board of Revision and the County Budget Commission and the Administrator and Supervisor of the County Data Processing Board.

The County Treasurer is also elected to a four-year term and is the custodian of all County funds. The Treasurer is responsible for collecting all tax monies, applying payments to the appropriate tax accounts and investing all available idle County funds as specified by Ohio law. The Treasurer is the distributing agent for expenditures authorized by the Board of County Commissioners upon the Auditor's warrant. The Treasurer must submit daily reports showing receipts, payments and balances to the County Auditor. The Treasurer is a member of the County Board of Revision and the County Budget Commission. The Budget Commission plays an important part in the financial administration of the County government, as well as all political subdivisions throughout the County.

The other elected officials serving four year terms are the Prosecuting Attorney who serves as the third and final member of the County Budget Commission, the Clerk of Courts, the Recorder, the Sheriff, the Engineer, the Coroner and two County Court Judges. Five Common Pleas Court Judges are elected to six-year terms.

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2009

The County provides its citizens with a wide range of services that include human and social services, health and community assistance related services, law enforcement, civil and criminal justice system services, road and bridge maintenance and other general and administrative support services. The County also operates a water distribution system, a wastewater collection and treatment system, and a storm water management system which are accounted for as enterprise funds.

Economic Outlook

Population:

Ranked as the 2nd fastest growing County in Ohio, behind Delaware County, north of Columbus, Warren County has experienced a 31% increase in population since the 2000 census of 158,383 persons and an 82% increase in population since 1990. Our population is estimated to rise to 214,209 as we await the results of the 2010 census, making us the 13th largest County in Ohio. Warren County is also ranked as the 98th fastest growing County in the nation out of 3,141 counties. In 2009 Springboro, located in the northern portion of Warren County, was ranked 41st in the top 100 best places to live in the United States.

Warren County has been gaining in population by about 5,000 to 6,000 people annually until the past 3 years when our growth has tapered to 3,000-4,000 annually. Warren County has a 79.9% home ownership rate. That is the highest rate in the Dayton-Cincinnati Region while the State average is 69.8%. Despite our population increase, 62% of the land in Warren County is still in farmland, open/green space, and designated parks.

Education:

Warren County has a top performing education system with a higher percentage of "excellent" school districts than all but two of Ohio's 88 Counties. Serving the area are four universities and six colleges with a combined enrollment in excess of 85,000. Sinclair Community College, centered in Dayton, opened the Warren County Mason Courseview Campus in September of 2007. Through partnerships with other area universities, residents are now in closer proximity to a college campus that offers classes for associate, bachelor and master degrees from Sinclair, University of Cincinnati, Wright State University, Miami University and Wilmington College. The County Commissioners offer a \$10 per credit hour discount to all County residents enrolled at the Sinclair Courseview Campus. As of spring 2010, Sinclair's enrollment had exceeded 1,000 students with continued expectations for growth.

Per Capita Income

Warren County has the 2nd highest per capita income in the state at \$33,524 and the 2nd highest median household income of \$84,177 (the State Median is \$51,430). Warren County's poverty rate as of January 2010 was reported at 3%. However, as of March 2010, Warren County's unemployment reached 10.1%, compared to the State's 11% and the US at 10.2%. As of May 2010 the unemployment rate was 9.2% and improving.

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2009

A summary of Warren County's growth is demonstrated in the following tables:

<u>Year</u>	<u>Number of County Building Permits Issued</u>	<u>Projected Cost</u>
1999	2,356	232,267,756
2000	2,204	210,864,401
2001	2,446	253,755,166
2002	2,414	277,780,036
2003	2,582	297,523,925
2004	2,889	306,680,539
2005	2,761	436,059,744
2006	2,261	394,932,273
2007	1,990	363,240,260
2008	1,472	308,926,694
2009	1,282	200,431,947

Source: Warren County Building Inspection Department

Warren County followed the state and national economic trend of decreased new construction activity. In 2009, assessed values of new construction decreased over all by 35.0%. Warren County's residential new construction decreased 31.1% along with commercial new construction seeing a decline of 52.2%. But surprisingly in this economic environment, industrial new construction increased 141.0% as shown in the following table. On the positive side, despite the down economy, Warren County is still experiencing some new construction.

Warren County New Construction Assessed Values

<u>Tax Year</u>	<u>Residential</u>	<u>Industrial</u>	<u>Commercial</u>	<u>Total</u>
1999	131,663,210	1,956,840	14,448,820	148,068,870
2000	164,996,060	1,788,100	15,204,600	181,988,760
2001	156,540,920	3,086,230	18,040,820	177,667,970
2002	166,345,470	1,205,920	14,659,910	182,211,300
2003	172,025,920	2,100,170	13,153,070	187,279,160
2004	186,940,160	4,390,530	21,936,110	213,266,800
2005	191,779,120	1,844,250	17,258,530	210,881,900

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2009

Communities

Waynesville, located in the northwest part of the County has been recognized by USA Today as “The Antique Capital of the Midwest.” The annual Waynesville Sauerkraut Festival attracts over 300,000 visitors over 3 days in October each year. Caesar Creek State Park is also located near Waynesville. The park consists of 7,940 acres of beautiful terrain and a 2,830 acre lake with 5 boat ramps. The park offers an abundance of trails for horseback riding, mountain biking and hiking. The park also includes a campground with 287 campsites and a 1,400’ beach.

Lebanon is the home of many historic interests in the County. The Golden Lamb, Ohio’s oldest inn, dating from 1803 and boasting an extraordinary guest list of many famous Americans including Henry Clay, Mark Twain, Charles Dickens and eleven Presidents of the United States. The Glendower State Memorial, a Greek Revival Mansion which was constructed in the early nineteenth century, is a showplace of elegant Empire and Victorian furnishings. The Warren County Historical Society Museum, acclaimed as one of the nation's outstanding County museums, has displays of early life of the area, a Shaker exhibit and a library with an unusually fine collection of genealogical information.

Lebanon is known for its many antique stores, specialty shops and its quaint historical atmosphere. Walking tours through historical districts are available throughout the year. Lebanon’s Christmas Festival which features Ohio’s largest Horse Drawn Carriage Parade with 160+ units has become a seasonal favorite attracting 70,000+ for the one-day event. Other Lebanon favorites include the Applefest, Blues Fest, a Scenic Railroad Passenger Train and the Lebanon Raceway that offers spring and fall harness racing with pari-mutuel wagering and simulcasting of the races.

Lebanon also hosts one of the largest YMCA’s in the world and it offers virtually all forms of indoor and outdoor athletic facilities. The 125-acre site includes a facility with meeting rooms, pools, gym, tennis courts, health club facilities and sports fields.

Sales Tax Receipts and the General Fund

While Warren County, at this point, has weathered the Country’s economic crisis, we are starting to feel the effects of declining revenue. For 2010, Warren County continues to be very financially conservative and projected a \$2.4 million decline in General Fund revenue. With the projected decline in revenue the Board of Commissioners asked all General Fund departments and those supported by the General Fund to cut their 2010 budget by 5%. A similar reduction is anticipated for 2011 and if necessary, for 2012.

The County’s 1% sales tax revenues generated \$26,201,290 in 2009. This is a decrease of 1.55% over 2008. This was the second year in a row that sales tax revenue decreased. The current trend through May of 2010 reflects a continuing decrease in sales tax revenues.

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2009

For a period of time, the growth in sales tax revenue allowed the County to gradually phase out its share of property taxes. The County's inside millage entitlement is 2.57 mills per \$1,000 of property tax value. The County reduced its levy in 1997, again in 1999 and further reduced it to zero in 2000. In 2004 the County reinstated 1.50 mills and in 2008 the millage was increased to 2.0 mills and in 2010 the County will begin collecting the full 2.57 mills in an effort to offset the decline of sales tax, investment income and various fees collected by the General Fund.

Travel and Tourism

Warren County, Ohio is an entertaining, energetic, and enriching travel destination, where visitors can experience a wide variety of attractions, events, history and outdoor activities. "Ohio's Largest Playground" isn't just a slogan, it is a promise. Located between Cincinnati and Dayton, visitors can do more in a 30-mile radius than anywhere else in Ohio. It's a big County—come out and play!

Approximately seven miles southeast of Lebanon on the east bank of the Little Miami River is Fort Ancient, a state memorial operated by the Ohio Historical Society. Fort Ancient is a renowned North American archaeological site and features evidence of two outstanding prehistoric American Indian cultures dating back more than 2000 years. Fort Ancient is a designated National Historic Landmark and is on the finalist list for World Heritage Status. The 764-acre memorial park offers a museum, hiking, picnicking, scenic vistas and shelter houses.

Warren County offers bike trails and hiking trails along the Little Miami Scenic River, as well as several canoe liveries that offer a variety of canoe trips. The 70-mile area along the Little Miami River, which is mostly in Warren County, has been designated a Scenic River Area by the federal government. Whether by bike, rollerblade, hiking boot or horseback, the paved and mostly shaded Little Miami Scenic Trail offers a beautiful setting for catching a breath of fresh air.

While Warren County's anchor attraction is most notably Kings Island Amusement Park, we have an abundance of activities to choose from including; TPC Riverbend Golf Course, The Golf Center at Kings Island, The Western and Southern Financial Group Tennis Masters and Women's Open, The Great American Insurance ATP Championship, The American Volleyball Professional Tournaments, LaComedia Dinner Theater, the Beach Waterpark, and the new, 400-room Great Wolf Lodge that brings additional visitors to its year-round indoor water park resort and conference center.

While 2009's economy presented some challenges to the hospitality industry, over all it was a good year, trending just slightly above 2008. With a reported 6.4 million visitors to the area, the regional economic impact of these visitors is \$917 million. Tourism provides 11,029 tourism-related jobs that generate personal income of \$258 million per the biennium Ohio Travel Association report of 2007. The number of tourists and the economic impact continue to hold as the County's leading industry.

Letter of Transmittal
For the Year Ended December 31, 2009

Major Initiatives and Future Outlook

Warren County has several major initiatives in process that will result in a continued strong and vibrant future outlook.

- Our County Engineer's Office worked on over \$4.1 million worth of roadway improvements in 2009 and has an estimated \$68.1 million of scheduled road improvements to be completed in 2010 through 2015. There are an additional \$300 million of roadway improvements identified by the County Engineer that are being prioritized for future years. Noteworthy improvements include (1) Corrections to the Mason-Montgomery Road / Fields-Ertel Road I-71 Interchange area (2) Studies to determine the best way to complete the Western Row Interchange on I-71 (3) Completion of the SR 63 Interchange on I-75, and the continuation of ODOT's improvements to I-75 between I-275 and Dayton.
- The Water and Sewer Department serves as the economic engine providing vital services that drive much of the development within the second fastest growing County in Ohio. Even with the economic downturn, the County strives to provide higher levels of service to a growing population. The County has several major projects underway that will meet the current and future demands for our services. The Water and Sewer Department had approximately 389 new connections to the waterworks system and 247 new connections to the sewer system in 2009. These additional connections bring the total water system connections to 26,563 and the total sewer system connections to 19,034. The County is currently expanding the Lower Little Miami Waste Water Treatment Plant from 7 million gallons per day (mgd) to 12 mgd average daily flow at a cost of \$28 million.
- During the past three years of economic slow down in new development, the County Commissioners have taken this opportunity to review all Growth Management Plans to assure quality development, preservation of open space and new economic resources that sustain a high quality of life. The following documents have all been completely updated: Land Use and Thoroughfare Plans, Subdivision Regulations, Access Management, Storm Water Management, Build-out capacity studies for our roads, water and sewer, Parkland Survey and Master Plan and it is anticipated that a comprehensive re-write of the County's Zoning Code will be completed by the end of 2010.
- As Warren County remains focused on retaining its rural ambience character and quality of life with its growing population, the County Commissioners have helped increase our County Park System by 1,310 acres over the past ten years. In 2009, there were 364 parks (17,711 acres) countywide representing an overall 6% open space of all 400 square miles in our County. Thanks to a partnership with Turtlecreek Township Trustees, Otterbein Home and a grant from Ohio Department of Natural Resources, in 2008, the County made a contribution towards the purchase of a 310 acre park from AK Steel that offers new amenities of boating, fishing, golfing, picnic area and ball fields. When the economy improves, the County is also entertaining the possibility of initiating a countywide Park Levy based on the positive feedback from our recently completed Park Survey. This levy could be shared with local governments that own and operate park land in Warren County to avoid duplication of competing levies. No park levies currently exist in the County.

Letter of Transmittal

For the Year Ended December 31, 2009

- The demand for public services in Warren County continues to grow, driving the need for facilities expansion. Last year the Health and Human Services Building underwent a \$4.4 million dollar renovation. Current projects include \$1.8 million for energy efficiency improvements to the Common Pleas Court building. A future 90,000 square foot expansion to the Common Pleas Court building estimated at \$13.7 million and a 22,000 square foot expansion to the Probate-Juvenile facility estimated at \$5.9 million will likely remain on hold until after 2012.
- The Warren County Jail was doubled in size in 1996 to accommodate 176 prisoners. Overcrowding began in 2000. Some additional renovations and better space utilization allowed an increase of jail beds to accommodate 213. To alleviate overcrowding and lack of jail space, several actions have been taken. The Sheriff has been able to manage his jail population, in coordination with the Judges, through alternative sentencing and early release programs. The Commissioners increased funding to Community Corrections and Pre-Trial Services. Most importantly, the County entered into contract for a minimum of 50 jail beds per day with neighboring Butler County at a cost of \$55 per prisoner per day. With overcrowding continuing, Warren County has not only spent approximately \$1.2 million each of the last two years renting bed space in Butler County but it has also caused a significant increase in inmate transports. To be vigilant in his efforts to manage the jail population and be mindful of our tax dollars, in January 2010, the Sheriff, upon sending a letter of request, has received tentative approval from the Ohio Bureau of Adult Detention to double-bunk some areas of the jail thereby increasing inmate capacity an additional 75-85 inmates. Once the final approval has been met, Warren County will realize a savings of approximately \$1 million per year that has previously been spent on the out-of-county bed space. These aggressive steps are assuring that we maximize the use of space without jeopardizing the safety of personnel and inmates. These efforts are allowing the County more time through a down economy to plan for the permanent construction of a new wing in the next 5-7 years.
- In 2009, the Board of Commissioners remained focused on revitalizing economic development efforts and coordinating with the existing economic development initiatives from our various cities and townships to create more visibility and productivity in new job creation. From 1992 to 2002, our Economic Development office helped bring in more than 20,000 new jobs and realized an average of 350 new business starts annually. 80% of these projects involved manufacturing, research and development or service sector companies who pay high wages and sustain the quality of living we are so proud of in Warren County. In 2009, our Economic Development Department reported the creation of 2,250 new jobs and the retention of 2,552 existing jobs. These jobs involved 9 new companies and the expansions of 25 existing companies. These new jobs represent a \$175.6 million capital investment by the companies. By the end of the first quarter of 2010, the Economic Development Department reported 319 additional new jobs committed to by local companies within the County. Other new projects on the horizon for 2010 give us a very good chance to realize thousands of additional new jobs. Warren County is an active partner with Cincinnati USA and the Dayton Development Coalition for regional development.

***Letter of Transmittal
For the Year Ended December 31, 2009***

- In 2009 some new and exciting tourism opportunities include:
 - Kings Island Park's first hyper coaster the Diamondback opened in April. The Diamondback, a \$22 million steel coaster, is the park's tallest, fastest and meanest ride.
 - Women's tennis will advance to a Tier I level at the Lindner Tennis Complex; and become a combined top-level event with men's tennis in 2011. Warren County sports programs will include a national week-end tournament of Australian football, bringing 1,000 players and staff.
 - Ozone Zipline Adventures at YMCA Camp Kern and Fort Ancient State Park opened to the public in the summer of 2009 with the largest zipline tour in the Midwest, and includes some of the longest single zipline runs in the continental U.S. totaling well over 10,000 feet in length, and 170' in height.
 - The Cincinnati Premium Outlet Mall, with 400,000 sq. ft. containing 120 stores, opened at I-75 and Monroe, just west of Lebanon.
 - We anticipate expanded hotel amenities and additional hotel development that will add to visitation and over-night business. Warren County is poised to maintain our leisure travel base. With these new events and new hotel growth, combined with our world-class events and attractions, we anticipate maintaining the strength of tourism in our County.

Financial Information

This is the seventh year the County has prepared financial statements following GASB Statement 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments."

As part of this reporting model, management is responsible for preparing Management's Discussion and Analysis (MD&A) of the County. This discussion appears after the Independent Accountants' Report in the financial section of this report. MD&A provides an assessment of the County's finances for 2009. The analysis focus in the MD&A is on major funds.

Fiduciary Funds

Fiduciary funds account for assets held by Warren County in a trustee capacity or as an agent for individuals, private organizations and other government units. The fiduciary funds which Warren County maintains are agency funds and an Unclaimed Money fund which is a private purpose fund. At December 31, 2009, assets in agency funds totaled \$284,799,346 and assets of the Unclaimed Money fund totaled \$413,906.

***Letter of Transmittal
For the Year Ended December 31, 2009***

Internal Control, Budgetary Control and the Accounting System:

Development of the County's accounting system included substantial consideration of the adequacy of the internal accounting controls. Internal accounting controls are designed to provide reasonable but not absolute assurance that:

1. The County's assets are protected against loss and unauthorized use or disposition; and
2. Reliable financial reports for preparing financial statements and providing accountability for assets are maintained.

The concept of reasonable assurance states that internal controls should be evaluated applying the following criteria:

1. The expense associated with providing the internal controls should not exceed the benefits likely to be derived from their implementation; and
2. The evaluation of the offsetting costs and benefits involves estimates and judgment by the County Administration and members of the Auditor's office.

All internal control evaluations occur within this framework. It is the belief of the administrative and financial management personnel that the County's financial controls adequately safeguard existing assets and provide reasonable assurance of the proper recording of financial transactions.

The Accounting Department of the County Auditor's Office is responsible for the auditing and analysis of all purchase orders and vouchers of the County. Accounting Department personnel review the purchase orders and vouchers to ensure the availability of monies in the proper funds and accounts prior to the certification and payment of approved invoices. The County utilizes a fully automated accounting system as well as an automated system of controls for fixed assets, accounting and payroll. These systems, coupled with the review and examination performed by the County Auditor's Office, ensure that the financial information generated is both accurate and reliable.

Budgetary appropriations for the operation of the County's departments are established through the adoption of the annual appropriation resolution by the Board of County Commissioners. All disbursements and transfers of cash between funds require appropriation authority from the County Commissioners. Budgets are controlled at the object level within the department or organizational unit, by function and by fund. Purchase orders are requested by the department head and encumbered prior to their release to vendors. A computerized certification system allows the Auditor's Office to ascertain the status of appropriations prior to authorizing purchases.

***Letter of Transmittal
For the Year Ended December 31, 2009***

Accounting System and Budgetary Control

The County's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Day-to-day accounting records are maintained on a basis other than GAAP. For financial reporting purposes, the accounting records are converted to the modified and full accrual basis for all applicable funds. On the modified accrual basis, revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. On the full accrual basis, revenues are recognized when measurable and earned; expenses are recognized when incurred.

The Board of County Commissioners adopts the annual budget for the County by March 31. All disbursements and transfers of cash between funds require appropriation authority from the Commissioners. Budgets are controlled at the major object level within a department and fund. All purchase orders must be approved by a majority of the Board of Commissioners, then the necessary funds are encumbered and the purchase order released to the vendor. Those purchase orders which exceed the available appropriation are rejected until additional funds are secured. The accounting system used by the County provides daily updates to expenditure and encumbrance files making available to all users details on year-to-date expenditures and encumbrances versus the original appropriations plus any additional appropriations made to date. These files are used to ascertain the status of a division's appropriation prior to authorizing additional purchases.

The basis of accounting and the presentation of the various funds utilized by Warren County are fully described in Note 1 of the basic financial statements.

Cash Management

The County pools its cash to simplify cash management. All idle monies are invested, with the earnings being paid into the Undivided Interest Agency Fund and then allocated to the General Fund and other qualifying funds as prescribed by Ohio law. The County invests in an account with Star Ohio that allows daily access to funds, and additionally, is endorsed by the Ohio State Treasurer; as well as holding cash in an interest bearing checking account that is collateralized with U.S. government bonds and insured by FDIC. The County Treasurer makes such commitments of County recourse only with federally insured financial institutions. Interest earnings of the County (primary government) in 2009 totaled \$3,464,092.

Risk Management

Warren County is self-insured for employee health care benefits and offers the choice of two medical plans, the "Traditional Plan" requires a \$300 in-network annual per person deductible (\$600 per family) and an annual \$600 out-of-network per person deductible (\$1,200 per family); thereafter, in-network insurance payment is 80% with a 20% co-insurance to a maximum total out-of-pocket in-network of \$1,300 per person (\$2,600 per family), and out-of-network insurance payment is 60% with a 40% co-insurance to a maximum annual out-of-network out-of-pocket of \$4,600 per person (\$9,200 per family). The "HSA Plan" provides 100% in-network coverage once satisfying a \$1,500 annual per person deductible (\$2,300 per family), and an annual \$3,000 out-of-network per person deductible (\$4,600 per family); thereafter, out-of-network payment is 80% with a 20% co-insurance to a maximum annual out-of-network out-of-pocket of \$5,000 per person (\$8,600 per family).

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2009

Excess loss coverage, carried through United of Omaha, becomes effective after \$150,000 per year per specific claim. There is a lifetime maximum coverage per person of \$2,000,000.

Each County department makes monthly payments to the self-insurance fund.

The County contracted with County Risk Sharing Authority (CORSA) to provide for general liability, public officials liability, and auto liability coverage. CORSA was established by the County Commissioner's Association of Ohio in 1987 to provide counties with comprehensive property and liability coverage. Warren County's coverage provides liability limits of \$10,000,000, with a \$2,500 per occurrence deductible. Maximum per occurrence liability limit for CORSA is \$1,000,000, with an additional \$9,000,000 available from excess coverage purchased from St. Paul Travelers and Munich/American RE. Any additional liability incurred in excess of the \$10,000,000 coverage is the responsibility of the County.

Debt Administration

At December 31, 2009, gross general obligation bonds outstanding, excluding debt reported in the enterprise funds, totaled \$3,853,329. Ratios related to the County's debt position are presented below:

Net General Obligation Bonded Debt	\$3,853,329
Net Debt Per Capita	\$24.33
Net Debt to Assessed Value	.060%
Net Debt to Estimated Actual Value	.0227%

The outstanding debt is primarily related to repayment of the proceeds of monies used to construct or renovate water and sewer facilities operated by the County, construction of the County Courts Building Addition and an extension to Justice Drive.

The County maintains an underlying "Aa2" rating from Moody's Investors Service, Inc. All bonds of the County are general obligation debt and are backed by its full faith and credit, except water and sewer bonds, which are backed by revenues of utility billings and the Tax Increment District Revenue Bond, which is secured solely from the revenues generated from the service payments in lieu of taxes.

Other Information

Independent Auditor's Opinion

The County had an independent audit of all funds performed by the State Auditor for the year ended December 31, 2009. The opinion of the Auditor appears in the financial section of this report.

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2009

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Warren County for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2008. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such comprehensive annual financial reports must also satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for one year only. Warren County has received a Certificate of Achievement for the last 18 years (1991 - 2008). We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA for consideration for a Certificate of Achievement for 2009.

Acknowledgments

The publication of this report is a continuation of the level of professionalism the Warren County Auditor's office has strived to attain and it significantly increases the accountability of Warren County government to its taxpayers.

The preparation of this comprehensive annual financial report would not have been possible without the cooperation of the County elected officials and their staffs. I would also like to recognize the following people for their exceptional contribution to this effort.

Robyn Crisenbery, Auditor's Office, Director Financial Operations	
Patti Taulbee, Auditor's Office	Donald J. Schonhardt and Associates, Inc.
Brenda Quillen, Auditor's Office	Gary Browning, Data Processing Director
Marty Edwards, Auditor's Office	

Sincerely,

Nick Nelson,
Warren County Auditor

INDEPENDENT ACCOUNTANTS' REPORT

Warren County
406 Justice Drive
Lebanon, Ohio 45036

To the Board of County Commissioners:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of Warren County, Ohio (the County), as of and for the year ended December 31, 2009, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component unit, Production Services Unlimited, Inc. Other auditors audited those financial statements. They have furnished their report thereon to us and we base our opinion, insofar as it relates to the amounts included for Production Services Unlimited, Inc. on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. The other auditors audited the financial statements of Production Services Unlimited, Inc. in accordance with auditing standards generally accepted in the United States of America and not in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit and the report of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Warren County, Ohio, as of December 31, 2009, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General, Senior Citizens Service Levy and Board of Developmental Disabilities Funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 18, 2010, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

The Management Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining nonmajor fund statements and schedules and statistical tables provide additional information and are not a required part of the basic financial statements. We subjected the combining nonmajor fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical tables to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Mary Taylor, CPA
Auditor of State

June 18, 2010

The discussion and analysis of Warren County's financial performance provides an overall review of the County's financial activities for the year ended December 31, 2009. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the County's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2009 are as follows:

- In total, net assets decreased \$3.8 million. Net assets of governmental activities decreased \$6.3 million, which represents a 2.9% decrease over net assets of 2008. Net assets of business-type activities increased \$2.6 million or 1.2% from net assets of 2008. This increase is primarily attributable to capital contributions received from tap-in fees and private developments.
- General revenues accounted for \$77.1 million in revenue or 52.6% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$69.5 million or 47.4% of total revenues of \$146.6 million.
- The County had \$124.7 million in expenses related to governmental activities; \$41.3 million of these expenses were offset by program specific charges for services, grants or contributions.
- Among major funds, the general fund had \$57.6 million in revenues and \$53.4 million in expenditures. The 2009 revenues were down 3.1% or \$1.8 million from 2008. The expenditures decreased 6.2% or \$3.5 million. The general fund balance at year-end totaled \$24.1 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – *management's discussion and analysis*, the *basic financial statements*, and an optional section that presents *combining statements* for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the County:

These statements are as follows:

The Government-Wide Financial Statements – These statements provide both long-term and short-term information about the County's overall financial status.

The Fund Financial Statements – These statements focus on individual parts of the County, reporting the County's operations in more detail than the government-wide statements.

The financial statements also include notes that provide more detailed data and explain some of the information in the financial statements.

Government-wide Statements

The government-wide statements report information about the County as a whole, including Production Services Unlimited, Inc. the County's discretely presented component unit, using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the County's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the County's net assets and how they have changed. Net-assets (the difference between the County's assets and liabilities) are one way to measure the County's financial health or position.

- Over time, increases or decreases in the County's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the County you need to consider additional nonfinancial factors such as changes in the County's tax base and the condition of County capital assets.

The government-wide financial statements of the County are divided into two categories:

- Governmental Activities – Most of the County's programs and services are reported here including public safety, health, human services, community and economic development and public works.
- Business-Type Activities – These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. All of the County's enterprise activities are reported as business-type activities.

A separately issued audit report containing financial statements is available from Production Services Unlimited, Inc. at 575 Columbus Avenue, Lebanon, Ohio 45036.

Fund Financial Statements

The fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes. The County's major governmental funds are the General Fund, the Senior Citizen's Services Levy Fund, the Board of Developmental Disabilities Fund, and the Special Assessment Fund. The County's major enterprise funds are the Water Fund, Sewer Fund, Storm Water Fund, Sheriff's Fund and the Communications Rotary Fund.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds - The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses five enterprise funds to account for water, sewer, storm water, sheriff, and the communications rotary operations. All five of the enterprise funds are reported as major funds.

Internal Service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County's internal service funds report on County department's vehicle maintenance, gasoline purchases and self-insurance programs for employee medical benefits and workers' compensation.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The County's fiduciary funds are a private purpose trust fund and agency funds.

This space intentionally left blank.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

The table below provides a comparison of 2009 to 2008 for both the Governmental and Business-type activities.

	Governmental Activities		Business-type Activities		Total	
	2009	2008	2009	2008	2009	2008
Current and other assets	\$186,361,520	\$191,332,688	\$38,019,252	\$39,960,292	\$224,380,772	\$231,292,980
Capital assets, Net	95,865,650	95,406,793	195,304,633	192,139,614	291,170,283	287,546,407
Total assets	282,227,170	286,739,481	233,323,885	232,099,906	515,551,055	518,839,387
Long-term debt outstanding	31,359,702	31,654,085	11,913,367	12,406,524	43,273,069	44,060,609
Other liabilities	41,833,945	39,701,911	2,288,455	3,152,123	44,122,400	42,854,034
Total liabilities	73,193,647	71,355,996	14,201,822	15,558,647	87,395,469	86,914,643
Net assets						
Invested in capital assets, net of related debt	89,168,479	86,499,817	184,660,771	181,058,275	273,829,250	267,558,092
Restricted	117,230,738	123,909,039	65,521	69,277	117,296,259	123,978,316
Unrestricted	2,634,306	4,974,629	34,395,771	35,413,707	37,030,077	40,388,336
Total net assets	\$209,033,523	\$215,383,485	\$219,122,063	\$216,541,259	\$428,155,586	\$431,924,744

The net result of a \$6.9 million decrease in Current and Other Assets and a \$3.6 million increase in Capital Assets is a \$3.3 million decrease to Total Assets.

The \$6.9 million Current and Other Assets decrease is in large part due to the decrease in taxes receivable for the Board of Developmental Disabilities (BDD). The tax levy was cut in half in 2008 due to the large cash carryover balance within the BDD funds. This allows taxpayers a temporary tax cut until such time as the BDD cash balances decrease.

The \$3.6 million Capital Assets Net increase resulted from \$10.6 million in net asset additions and \$7.0 million is net asset disposals. The increase in Capital Assets Net was comprised of additional water and sewer lines, infrastructure improvements, communications towers, building renovations and land acquisitions.

Total liabilities increased by \$480,826.

\$117.3 million or 27.4% of net assets in the current year represent resources that are subject to external restrictions on how these assets may be used. \$37.0 million or 8.6% of net assets may be used to meet the County's ongoing obligations to its citizens and creditors and for Water and Sewer activities.

Governmental Activities

Net assets of the County's governmental activities decreased by \$6,349,962.

Expenses overall were up \$8.6 million or 7.4% over 2008. This is attributable to the increased expenses in Human Services of \$3.9 million, Legislative and Executive of \$3.4 million and Public Works of \$1.7 million. Expense decreases in other government types offset the total increase. The Board of Developmental Disabilities (BDD) and Workforce Investments Act (WIA) are the primary reason for the increase in the expenses under the Human Services Government Type. WIA's increased expenses were a result of the Adult Classroom Training for displaced workers and the low income unemployed. BDD's increased expenses were found in the categories of Residential Supported Living, Personal Services, and Contractual Services. Legislative and Executive expense increases resulted from the Real Estate's fund distribution of excess real estate revenues to subdivisions. The Redevelopment Tax Equivalent Fund is responsible for the increase under the Public Works expense. Expenses included infrastructure reimbursements to Clearcreek Township, the County Engineer and Greens of Bunnell Hill Developer.

Shared revenue accounts went relatively unchanged with a decrease of \$212,219 or 1.2% over 2008. Of this amount \$65,201 was a decrease in Motor Vehicle and Gas Tax Revenue and \$147,018 was a decrease in intergovernmental revenue not considered as program revenues which include monies from the state for the 10% rollback on real estate taxes, the 2 ½% homestead rollback, and the personal property tax reimbursement from the commercial activity tax.

Program Revenues consists of three categories: 1) Charges for Services, 2) Operating Grants and Contributions, and 3) Capital Grants and Contributions. Charges for Services had an increase of \$882,392. Operating Grants and Contributions increased by \$1.4 million due to increased federal funding for WIA's displaced workers and low income unemployed. Capital Grants and Contributions in total decreased by \$4.5 million. Although Capital Grants and Contributions received a \$1.4 million increase in Federal Housing Loans for the Community and Economic Development function, the Public Works function decreased by \$6.0 million when compared to the previous year. In 2008 Public Works Capital Grants increased \$5.7 million over 2007 as a result of bridges acquired through private developments; an ODNR Grant and additional special assessment receivables. This same peak in grants did not occur in 2009 and resulted in the \$6.0 million decrease in Public Works Capital Grants. Program Revenue decreased overall by \$2.3 million or 5.2% over 2008.

General Tax Revenue accounts for the largest part (47.5%) of the \$118.4 million in total revenues for governmental activities. General Tax revenues decreased \$7.0 million over 2008. The decrease is a direct result of the reduced Board of Developmental Disabilities tax levy. Of the total tax revenue, property tax accounted for \$30,211,196, sales tax accounted for \$26,201,290 and other tax revenue accounted for \$225,448. The percentage change, when compared to 2008 for the three categories were (17.97%), (1.55%) and (10.83%) respectively.

General Other Revenue took the hardest hit with a 66.6% decrease or \$6.9 million. Of this amount, investment earnings decreased \$6.8 million and miscellaneous earnings decreased \$151,972. See more information regarding the decrease in investment earnings on Page 10.

WARREN COUNTY, OHIO

**Management's Discussion and Analysis
For the Year Ended December 31, 2009**

Unaudited

The County's net charges to users of governmental services totaled \$83,403,005. The County's general revenues subsidized \$77,053,043 of this amount and the remaining resulted in a \$6.3 million decrease in net assets.

Revenue Sources	2009	Percent of Total
Shared Revenues	\$16,943,061	14.32%
Program Revenues	41,305,848	34.90%
General Tax Revenues	56,637,934	47.85%
General Other	3,472,048	2.93%
Total Revenue	<u>\$118,358,891</u>	<u>100.00%</u>

Business-Type Activities

Net assets of the business-type activities increased by \$2,580,804. This increase is attributable to capital contributions received from tap-in-fees and private developments. These programs had revenues of \$28,246,672 and expenses of \$25,665,868 for fiscal year 2009. Business activities receive no support from tax revenues and remain self-supporting.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County's governmental funds reported a combined fund balance of \$116,761,088, which is a decrease of \$4.8 million over last year's restated total of \$121,591,130. The schedule below indicates the fund balance and the total change in fund balance as of December 31, 2009 and 2008.

	Fund Balance December 31, 2009	Restated Fund Balance December 31, 2008	Increase (Decrease)
General	\$24,080,551	\$24,941,289	(\$860,738)
Senior Citizens Services Levy	4,829,766	4,034,504	795,262
Board of Developmental Disabilities	43,989,770	47,514,129	(3,524,359)
Special Assessment	1,797,320	1,821,507	(24,187)
Other Governmental	42,063,681	43,279,701	(1,216,020)
Total	<u>\$116,761,088</u>	<u>\$121,591,130</u>	<u>(\$4,830,042)</u>

General Fund – Although the County's General Fund revenues exceeded expenses by \$4.1 million, the General Fund's balance decreased by \$860,738 due to \$5.0 million in transfers out. Children's Services received \$2.2 million in transfers to supplement their operating budget in lieu of seeking a levy to fund their needs. Youth Services Subsidy received \$899,000 in transfers that will also supplement their operating budget. Warren County Transit received \$543,712; the majority is targeted as operating revenue. Various other county departments received the remainder of the transfers.

WARREN COUNTY, OHIO

Management's Discussion and Analysis For the Year Ended December 31, 2009

Unaudited

The tables that follow assist in illustrating the financial activities and balance of the General Fund:

	2009 Revenues	2008 Revenues	Increase (Decrease)
Taxes	\$39,318,322	\$37,965,856	\$1,352,466
Intergovernmental Revenues	5,290,862	5,108,116	182,746
Charges for Services	6,215,124	5,809,302	405,822
Licenses and Permits	13,189	12,117	1,072
Investment Earnings	3,995,406	8,645,710	(4,650,304)
Fines and Forfeitures	308,962	332,648	(23,686)
All Other Revenue	2,422,092	1,501,662	920,430
Total	<u>\$57,563,957</u>	<u>\$59,375,411</u>	<u>(\$1,811,454)</u>

Tax revenues overall increased by 3.56%. The decline in home sales which began in 2006 continued for the fourth year resulting in a 2009 decrease of \$818,484 in the Property Transfer Taxes. Sales Tax revenues decreased \$411,427 or 1.55%. Real Estate Property Taxes increased by \$2.8 million as a result of the increase of the inside millage from the previous 1.5 mills (levied in 2007 and collected in 2008) to 2.0 mills (levied in 2008 and collected in 2009).

While a 54% decrease in investment income is a significant drop (and does have to be dealt with budgetarily), it still continues to measure quite favorably when compared to the on-going national and international financial environment. In 2008, with the near collapse of the financial markets, interest rates dropped by more than 90% (although the county's investment income dropped by only 10%). In 2009, the economy and interest rates continued to trudge along at historically low rates. Therefore, as portions of our investment portfolio continued to "mature" or be "called", it required us to re-invest those funds into the new investments that were being issued at the prevailing historically low interest rates; thereby, continuing to put a downward pressure on the over-all yield of our portfolio. At this point, although interest rates have dropped by more than 90% over-all, our investment income decreased by only 54%, by comparison. This is partially due to steps that were taken in 2006 to revise our investment policy in order to help insulate us from the periodic downturn in interest rates that normally occurs in the interest rate cycle. However, as the economy, financial markets, and interest rates continue to struggle along the current path (and as our investments continue to "mature" or be "called" and have to be re-invested at these low rates), it will continue to pull down our investment income to the point that it eventually matches the current interest rate decline; unless (and depending upon how quickly) the currently forecasted upswing in the interest rate cycle intervenes and prevents that continued decline from occurring.

WARREN COUNTY, OHIO

**Management's Discussion and Analysis
For the Year Ended December 31, 2009**

Unaudited

	2009 Expenditures	2008 Expenditures	Increase (Decrease)
General Government:			
Legislative and Executive	\$19,390,808	\$22,880,477	(\$3,489,669)
Judicial	7,934,795	7,967,638	(32,843)
Public Safety	24,452,958	24,374,434	78,524
Human Services	1,323,874	1,329,396	(5,522)
Community and Economic Development	324,061	381,161	(57,100)
Debt Service:			
Principal Retirement	774	7,849	(7,075)
Interest and Fiscal Charges	10	605	(595)
Total	<u>\$53,427,280</u>	<u>\$56,941,560</u>	<u>(\$3,514,280)</u>

As demonstrated in the above table, expenditure decreases in 2009 were generated across the board. Legislative and Executive expenditures were the primary reason for the overall 6.17% decrease in General Fund expenditures.

In 2009 Legislative and Executive expenditures generated a \$3.5 million decrease when compared to 2008. This is a direct result of several large increases occurring in the prior year. The 2008 increases included a \$1.4 million land purchase involving the Airport Authority, \$1.6 million awarded to the Warren County Parks District toward the purchase and operations of Armco Park, and \$1.1 million in overall personal services. The net result of these large increases in 2008, results in the large decrease during 2009.

Senior Citizens Services Levy Fund - The Senior Citizens Services Levy Fund received revenues from a tax levy totaling \$6.7 million and incurred expenditures for services to senior citizens in the amount of \$5.9 million. The fund balance of \$4.8 million increased by \$795,262 over 2008.

Board of Developmental Disabilities Fund (BDD) - The 2009 revenue for the BDD Fund decreased by \$8.6 million when compared to 2008. This was a direct result of tax levy reduction from 4.0 mills to 2.0 mills. The reduction was done to decrease the large carryover balances held within the funds of BDD. Expenses increased 15% due to the increase in Medicaid waiver services being offered to individuals served in the County. The increases in waiver services necessitates the need for staff to accommodate the administration of the waivers, as well as, an increase in waiver match payments made to the State of Ohio. Although expenses exceeded revenues by \$3.5 million, the fund balance ended at \$44.0 million.

Special Assessment Fund - The Special Assessment Fund received approximately \$2.0 million from special assessment levies, capacity fees and non-participant charges, while expending \$2.0 million in debt service payments. The fund balance decreased by \$24,187.

GENERAL FUND BUDGETARY HIGHLIGHTS

The County's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

For the General Fund, actual revenue in total ended with a negative variance of \$131,759 when compared to the original budgeted estimates. Negative revenue variances of \$1,316,324 in Investment Earnings, \$349,499 in Intergovernmental Revenue and \$50,881 in All Other Revenue were offset by positive revenue variances of \$936,003 in Charges for Services, \$524,601 in Taxes, \$121,229 in Fines and Forfeitures and \$3,112 in License and Permits.

During the course of fiscal year 2009 the County Commissioners approved numerous revisions to the original appropriations. Overall, these changes resulted in an increase of \$1.9 million. However, actual expenditures were less than the final budgeted expenditures by \$4.8 million. The largest variances within the \$4.8 million involved, \$2.2 in Legislative and Executive and \$1.6 million in Public Safety. The largest variance in both these government type expenditures resulted from less spending than originally anticipated in the personal services category.

For twenty consecutive years (1989-2008) the positive variances between the final budget and actual revenues have been a direct result of the County Auditor's decision to conservatively estimate revenues. Although this same conservative approach was used in 2009, actual revenues ended with negative variance of \$131,759 as a direct result of the sharp decline in investment income. It is not the practice of the County or the Budget Commission to revise estimated revenues at year-end to bring the budget in line with actual resources. The General Fund had an adequate fund balance to cover all expenditures. The fund balance was \$5.2 million better than initially projected in the original budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2009 the County had \$291,170,283 net of accumulated depreciation invested in capital assets for its Governmental and Business Type activities. Of this total, \$95,865,650 was related to Governmental Activities and \$195,304,633 was related to the Business-Type activities. When looking at total assets and the accumulated depreciation, we ended 2009 with a \$3.6 million dollar increase in total depreciable capital assets.

General Government's capital assets had additions of \$11,035,058 million. These additions included \$5.0 million in Building, Structures and Improvements, and \$2.7 million in Infrastructure, \$2.2 million in Construction Projects, \$1.0 million in Furniture, Fixtures and Equipment, and the remaining \$46,738 in Land purchases.

WARREN COUNTY, OHIO

Management's Discussion and Analysis For the Year Ended December 31, 2009

Unaudited

Building, Structures and Improvements included a \$4.5 million dollar renovation to our East Street Building, a new \$451,419 Goose Creek 800 MHz Radio and Fire Paging Tower and a new \$128,747 EOC Microwave Tower. Infrastructure additions included \$2.1 million in road improvements and \$610,054 in bridge improvements. The \$2.2 million addition to Construction in Progress involved ten road projects, one bridge project, and five building projects. The majority of the \$1.0 million addition to Furniture, Fixtures, and Equipment, involved the purchase of eighteen new vehicles at \$478,205, and the purchase of additional data processing equipment at \$500,752.

General Government's capital asset disposals totaled \$7,428,183. Of this amount \$5.9 million was reclassified from Construction in Progress to Buildings, Structures and Improvements and Infrastructure. Infrastructure asset disposals totaled \$852,143. Furniture, Fixtures and Equipment disposals totaled \$584,930. The remaining disposals involved \$21,500 in Land and \$64,539 in Buildings, Structures and Improvements.

Business Type's largest increase of \$6.5 million was in Construction in Progress. The increase involved thirteen water projects and three sewer projects. Land Improvements had the second largest increase totaling \$3.7 million. The majority of the land improvements, \$3.1 million, were acquired through capital contributions from private developers. The addition of two lift stations resulted in the \$417,012 increase to Buildings, Structures and Improvements. Furniture, Fixtures and Equipment saw a \$416,937 increase resulting primarily from the purchase of six vehicles and five generators.

Additional information on the County's capital assets can be found in Note 10 and under Capital Assets Used in the Operation of Governmental Funds beginning on Page 205.

The following table summarizes the County's capital assets as of December 31, 2009 and December 31, 2008:

	Governmental Activities		Increase (Decrease)
	2009	2008	
Land	\$7,986,802	\$7,961,564	\$25,238

Debt

At December 31, 2009, the County had general obligation debt outstanding of \$17.5 million in bonds. Of this amount, \$3.8 million comprises debt backed by the full faith and credit of the County and \$13.7 million is special assessment debt for which the County is liable in the event of default by the property owner subject to the assessment. In addition, the County issued Tax Increment District Revenue Bonds in 2009 in the amount of \$2,350,000. The bonds are secured by and payable solely from the revenues generated from the service payments in lieu of taxes. The County also had outstanding principal of \$76,115 in an Ohio Public Works Commission Loan, \$6.0 million of outstanding principal in an Ohio Department of Development Loan (State 166) and \$481,988 in an Ohio Department of Transportation State Infrastructure Bank Loan. The Water enterprise fund had \$6.2 million of Mortgage Revenue Bonds, and \$5.0 million in OWDA Loans outstanding at December 31, 2009.

Governmental Activities long-term liabilities decreased by \$294,383 or .93% during the 2009 fiscal year, and the County's Water and Sewer debt decreased by \$493,157 or 4.0%. The County maintains an underlying "Aa2" rating from Moody's Investors Service, Inc. for general obligation debt. The Mortgage Revenue Bonds are insured by Financial Guarantee Municipal Corp (AGM), formerly named Financial Security Assurance Inc. In November 2009, Moody's issued a press release stating that it had confirmed the "Aa3" insurance financial strength rating of AGM, with a negative outlook.

In addition to the bonded debt, the County's long-term obligations include compensated absences. Additional information on the County's long-term debt can be found in Note 14 of this report.

The County, on September 16, 2009 retired the Armco Park Acquisition Note in the amount of \$1,000,000. Additional information regarding this note can be found in Note 13 of this report.

Totals	<u>\$43,273,069</u>	<u>\$44,060,609</u>

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In 2009, the nation and state's economy continued to decline having a major impact on every form of local government, including Warren County. Warren County has exercised solid financial practices for many years, as can be evidenced by the fact that we are one of only a few counties in the state who did not have to lay off staff to approve a balanced budget for 2009. Warren County, however, no matter how good its development and financial practices, cannot escape the fact that we are inextricably tied to the economic fortunes of our state and our country.

In 2010, total General Fund revenues are anticipated at \$57.2 million, which is 4% less than what was actually received on a cash basis in fiscal year 2009. The General Fund's original budget for appropriations of anticipated expenses for 2010 were \$60.9 million as compared to \$66.7 at the end of 2009. Even though Warren County remains in strong financial shape largely due to consistent conservative budgeting, we are not immune from the effects of the state and national deficits and looming budget cuts. During 2010, 2011 and 2012 the County is focusing on potential State Revenue cuts, reductions in investment income, and continued reductions in sales tax receipts that could affect the County's General Fund balance. Our response to these possibilities include (1) deferring maintenance and capital expenditures (2) containing salary and benefit expenses, (3) minimizing hiring and reviewing vacant positions to see if they can go unfilled, and (4) instituting across the board cuts in budgets of departments and agencies that receive General Fund dollars.

A result of Warren County's location between the two big cities of Dayton and Cincinnati in the southwestern part of Ohio has made it an urban magnet attracting population and new development. Metropolitan Cincinnati's northerly expansion into Warren County, particularly the rapid development along I-71 in the City of Mason, Deerfield Township, Lebanon and South Lebanon has also contributed to Warren County's economic development. Greater Dayton's growth south has prompted strong growth along I-75 in Franklin, Clearcreek Township, Middletown, Monroe and particularly in the City of Springboro. Many of the businesses locating to the County are high technology, research and development and service related industries.

In May 2009, Warren County unveiled a new transload facility in the City of Franklin. This facility will afford companies in the City of Franklin, Carlisle, Warren County and Southwest Ohio the ability to receive raw materials and to ship finished goods to market, thus opening access to small and medium sized manufacturers that otherwise could not utilize the benefits of rail either because of location or capital expense. Funding assistance from the State Controlling Board's Logistics and Distribution Program for \$1.3 million was granted in April 2009 which helps guarantee the success of this endeavor to attract new business and offer existing companies a way to lower their transport costs.

Warren County is credited with being one of the highest "new job" growth counties in the state. In 2009, Warren County's 8.8% annual average unemployment rate was the eleventh lowest in the state. Major layoffs/closures at DHL/ABX, Sumco, SENCORP and NCR and others, along with many smaller separation events, resulted in nearly 10,000 job losses in the SW Ohio region. These events along with the cumulative effect of the previous year's lay-offs resulted in over 9,000 Warren County residents being counted among the unemployed at some point during 2009, according to Ohio Labor Market Information's Civilian Labor Force Estimates. Our Economic Development Department has been working hard to offset those job losses with new jobs. They helped create 2,250 new jobs and retained 2,552 jobs in 2009. The Home Depot Distribution Center has hired approximately 300 people with the expectation of continued slow growth and steady employment. The Cincinnati Premium Outlet Center which opened in August of 2009 has created close to 1,000 new jobs and anticipates additional hiring as more stores lease space at the center. The addition of new companies such as NC Works, as well as the expansion at E-Beam, Armor Metal and Hartz Mountain in 2010, are expected to create 300-600 new positions. Additionally, as existing commercial properties in Warren County are leased out and build to suit requests are more prevalent, there is the potential of an additional 3,000 jobs for the Corridor I-75 industrial development in 2010 and beyond.

While we can't control the national economy, there is much we can do to spark a local recovery. The Board of County Commissioners are intent on remaining focused on economic development and coordinating these efforts with the various cities and townships to create more visibility and productivity in new job creation. As Warren County continues to weather the economic storm that has hit this nation and state, we will work hard to maintain services and planned projects and cut costs where ever possible. We will continue to place emphasis on Economic and Workforce Development.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have questions about this report or need additional financial information contact Nick Nelson, Warren County Auditor, 406 Justice Drive, Lebanon, Ohio 45036.

WARREN COUNTY, OHIO

***Reconciliation Of The Statement Of Revenues, Expenditures
And Changes In Fund Balances Of Governmental Funds
To The Statement Of Activities
For the Year Ended December 31, 2009***

Net Change in Fund Balances - Total Governmental Funds \$ (4,664,488)

Amounts reported for governmental activities in the statement of activities are different because

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays and capital contributions exceeded depreciation. 916,929

Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the loss on the disposal of fixed assets net of proceeds received. (318,474)

Revenues and transfers in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. (1,914,355)

The issuance of long-term debt (e.g. special assessment bonds, leases) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. 550,464

In the statement of activities, interest is accrued on outstanding bonds and loans, whereas in governmental funds, an interest expenditure is reported when due. (13,676)

Some expenses reported in the statement of activities, such as change in inventory and compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. (413,218)

The Internal Service Funds, which are used to charge the cost of services to individual funds, are not included in the statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the County's Internal Service Funds are allocated among the governmental and business-type activities. (493,144)

Change in Net Assets of Governmental Activities \$ (6,349,962)

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Warren County is a political subdivision of the State of Ohio. The County was formed by an act of the Ohio General Assembly in 1803. The three member Board of County Commissioners is the legislative and executive body of the County. The County's combined financial statements include accounts for all County operations.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "*The Financial Reporting Entity*", in that the financial statements include all organizations, activities and functions of the primary government (the County) and legally separate entities (component units) for which the County is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing board and either the County's ability to impose its will over the organization or the possibility that the organization will provide a financial benefit to or impose a financial burden on the County.

The financial activities of all funds, agencies, boards and commissions for which the County elected officials are financially accountable are reflected in the accompanying financial statements. Based on the foregoing criteria, Warren County (the primary government) has one component unit, Production Services Unlimited, Inc. The reporting entity of the County includes the following services: human and social services, certain health care and community assistance services, civil and criminal justice systems, road and bridge maintenance and general administrative services. In addition, the county operates a water supply, sanitary sewer and storm water system.

Discretely Presented Component Unit - The component unit column on the Statement of Net Assets includes the financial data of the County's component unit, Production Services Unlimited, Inc. (PSU). It is reported in a separate column to emphasize that it is legally separate from the County. PSU is being presented as a part of the County's reporting entity because it would be misleading to exclude them.

PSU is an adult workshop for the clients of the Board of Developmental Disabilities. Warren County has an annual master operating agreement with PSU to subsidize a portion of the operations. PSU contracts with various companies and individuals including the County to provide janitorial services, assembly work, packaging, clerical, and other activities, which are, performed by the workshop participants. Separate financial statements for PSU may be obtained by writing to: Production Services Unlimited, Inc., 575 Columbus Avenue, Lebanon, Ohio 45036.

Related Organizations - Warren County officials appoint a voting majority of the board for the following organizations. The County's accountability for these organizations does not extend beyond making the appointments.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Reporting Entity (Continued)

- *Metropolitan Housing Authority* - The County Commissioners, Probate Court and Common Pleas Court each appoint one member of a five member board.
- *Park District* - The Probate Judge appoints all three members of the Park Board.
- *Warren County Airport Authority* - The County Commissioners appoint all members of a nine-member board.
- *Butler/Clermont/Warren Workforce Policy Board* – The County Commissioners appoint all of the Warren County members of the board. The Policy Board is a regional organization developed as a result of the Workforce Investment Act. The role of the Policy Board is to assess the workforce needs of area employers, assess the employment and training needs of job seekers and to identify fiscal and other available resources to meet current and future workforce needs in the region.
- *Warren County Port Authority* – The County Commissioners appoint all seven members of the board. The role of the board is to enhance, foster, aid, provide or promote the following within Warren County: transportation, economic development, housing, recreation, education, culture and research.

Joint Venture without Equity Interest

Warren County is a member of the Warren/Clinton Counties Recovery Services Board, which is a joint venture between Warren and Clinton Counties. The purpose of the board is to provide aid, support and education for alcohol and drug dependent citizens as well as those who are mentally handicapped. See Note 20 "Joint Venture."

B. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on the basis of funds each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses. The various funds are summarized by type in the basic financial statements. The County uses the following fund types:

Governmental Funds

Governmental funds are those funds through which most governmental functions typically are financed. The acquisition, use and balances of the County's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is on determination of "financial flow" (sources and use and balances of financial resources). The following are the County's major governmental funds:

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

General Fund - represents the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund. The primary revenue sources are sales and use tax, property transfer tax, real estate tax, state and local government fund receipts, investment earnings and charges for service. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the laws of Ohio.

Senior Citizens Service Levy Fund - This fund is used to account for a County-wide tax levy, which provides the source of funding for senior citizen services.

Board of Developmental Disabilities Fund – Formally called Board of Mental Retardation, this fund is used to account for a County-wide property tax levy, Federal and State grants and reimbursements used for care and services for the mentally handicapped and retarded.

Special Assessment Fund – This fund is used to account for revenues received from special assessment collections from annual tax billings, which provide the source of financing for long-term debt incurred for water and sewer line construction.

Proprietary Funds

All proprietary funds are accounted for on an "economic resources" measurement focus. This measurement focus provides that all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Enterprise Funds - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The County's major enterprise funds are:

Water Fund – This fund is used to account for the operation of the County's water service.

Sewer Fund – This fund is used to account for the operation of the County's sanitary sewer service.

Storm Water Fund – This fund is used to account for the operation of the County's Storm Water Management Plan in compliance with the federally mandated National Pollution Discharge Elimination System (NPDES) Phase II program.

Sheriff Fund – This fund is used to account for the policing services provided on a contractual basis to Deerfield Township, South Lebanon and Caesar Creek Litter Control.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Communications Rotary Fund – This fund is used to account for communications maintenance services provided to various county departments and other governmental units. Users are billed for costs incurred.

Internal Service Funds – The four internal service funds operated by the County are the Vehicle Maintenance, Health Insurance, Workers' Compensation Self Insurance and the Gasoline funds. The Vehicle Maintenance fund was created to provide repairs and maintenance to various County departments. The Health Insurance fund is used for claims and administration of the health insurance program for covered County employees and eligible dependents. The Workers' Compensation Self Insurance fund was created to accumulate reserves and process claims for workers' compensation for all functions of county government. The Gasoline fund was created to account for the centralized purchase of gasoline provided to various departments of the County.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. These funds are used to account for assets held by a governmental unit as an agent for individuals, private organizations or other governmental units and therefore not available to support the County's own programs. The County's only trust fund is a private purpose trust that accounts for unclaimed monies. The agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operation. These funds operate on an accrual basis of accounting. Further description of these funds can be found on pages 184 and 185.

C. Basis of Presentation – Financial Statements

Government-wide Financial Statements – The statement of net assets and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government and its discretely presented component unit, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities. Internal Service fund activity is eliminated to avoid "doubling up" revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation – Financial Statements (Continued)

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the County and for each function or program of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

Fund Financial Statements – Fund financial statements report detailed information about the County. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting (Continued)

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which the County considers to be 60 days after year-end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for debt service and expenditures related to compensated absences which are recorded only when due.

Non-exchange transactions, in which the County receives value without directly giving equal value in return, include sales and use taxes, property taxes, grants, entitlements and donations. Revenue from sales and use taxes is recognized in the period in which the income is earned and is available. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied and the revenue is available. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. Revenues considered susceptible to accrual at year-end include interest on investments, and state levied locally shared taxes, including motor vehicle license fees and local government assistance. Other revenues, including licenses, permits, certain charges for services, and miscellaneous revenues are recorded when received in cash, because generally these revenues are not measurable until received.

Special assessment installments and related accrued interest, which are measurable but not available at December 31, are recorded as deferred revenues. Property taxes measurable as of December 31, 2009 but which are not intended to finance 2009 operations and delinquent property taxes, whose availability is indeterminate, are recorded as deferred revenues.

The accrual basis of accounting is utilized for reporting purposes by the government-wide statements, proprietary funds and fiduciary funds. Revenues are recognized when they are earned and expenses are recognized when they are incurred.

Pursuant to GASB Statement No. 20, "*Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting*," the County follows GASB guidance as applicable to proprietary funds and FASB Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements. The County has elected not to apply FASB statements and interpretations issued after November 30, 1989 to its business-type activities and enterprise funds.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year.

All funds, other than agency funds, are legally required to be budgeted and appropriated; however, only the General and Major Special Revenue Funds are required to be reported. The primary level of budget control is at the object level by organizational unit and/or department by function (Public Safety, Public Works, General Government, Debt Service etc.) within a fund. Budgetary modifications may only be made through resolution of the County Commissioners.

1. Tax Budget

By July 15, each County department must submit an annual tax budget for the following fiscal year to the County Commissioners for consideration and passage. The adopted budget is submitted to the County Auditor, as secretary of the County Budget Commission, by July 20th of each year, for the period January 1 to December 31 of the following year.

2. Estimated Resources

The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Budget Commission then certifies its actions to the County by September 1st of each year. As part of the certification process the County receives an official certificate of estimated resources which states the projected receipts by fund. Prior to December 31, the County must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about January 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during 2009.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

3. Appropriations

A temporary appropriations resolution to control expenditures may be passed on or about January 1st of each year for the period January 1 through March 31. An annual appropriations resolution must be passed by April 1st of each year for the period January 1st through December 31st. The appropriations resolution establishes spending controls at the fund, function, organizational unit and/or department, and object level. The appropriations resolution may be amended during the year by resolution of the County Commissioners as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources. During 2009, supplemental appropriations were necessary to budget for unanticipated expenditures. Expenditures may not legally exceed budgeted appropriations at the object level. Administrative control is maintained through the establishment of more detailed line-item budgets. Management may ask the County Commissioners to transfer appropriations within the object level (among line items) for an organizational unit and/or department provided total appropriations for that object and organizational unit and/or department do not exceed amounts established by the County Commissioners. The budgetary figures, which appear on the budgetary statements, are provided on the budgetary basis to provide a comparison of actual results with the final budget, including all amendments and modifications.

4. Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for expenditures are encumbered and recorded as the equivalent of expenditures (budget basis) in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. However, on the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities and are reported as reservations of fund balances for governmental funds in the accompanying basic financial statements.

5. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriations balance is carried forward to the subsequent fiscal year and need not be reappropriated.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

6. Budgetary Basis of Accounting

The County's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major difference between the budgetary basis and the GAAP basis lies in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on the cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting.

A reconciliation of the results of operations for the year from the GAAP basis to the budgetary basis for the general fund and for the major special revenue funds is shown below:

	Net Change in Fund Balances		
	General Fund	Senior Citizens Service Levy Fund	Board of Developmental Disabilities Fund
GAAP Basis (as reported)	(\$855,979)	\$795,262	(\$3,524,359)
Increase (Decrease):			
Accrued Revenues at December 31, 2009 received during 2010	(6,551,180)	(267)	(801,286)
Accrued Revenues at December 31, 2008 received during 2009	6,563,701	13,539	397,754
Accrued Expenditures at December 31, 2009 paid during 2010	2,454,812	1,040,947	690,164
Accrued Expenditures at December 31, 2008 paid during 2009	(2,365,370)	(895,824)	(672,163)
Change in Fair Value, 2009	(638,362)	0	0
Change in Fair Value, 2008	1,756,055	0	0
2009 Prepays for 2010	(183,027)	0	(13,754)
2008 Prepays for 2009	214,688	0	16,631
Interfund Loans Receivable, 2009	(20,000)	0	0
Interfund Loans Receivable, 2008	60,000	0	0
Outstanding Encumbrances	(2,117,370)	(1,691,175)	(1,063,984)
Budget Basis	<u>(\$1,682,032)</u>	<u>(\$737,518)</u>	<u>(\$4,970,997)</u>

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits, the State Treasury Asset Reserve of Ohio (STAR Ohio), and treasury securities. The STAR Ohio, certificates of deposit and treasury securities are considered cash equivalents because they are highly liquid investments or have original maturity dates of three months or less.

The County Treasurer pools cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each had maintained its own cash and investment account. For purposes of the statement of cash flows, the proprietary funds consider their share of equity in STAR Ohio and pooled certificates of deposit to be cash equivalents. See Note 5 "Cash, Cash Equivalents and Investments."

G. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the County records all its investments at fair value, which are based upon quoted market prices. All investment income, including changes in the fair value of investments, are recognized as revenue in the operating statements. The County allocates interest among various funds based upon applicable legal and administrative requirements. See Note 5 "Cash, Cash Equivalents and Investments."

Warren County has invested funds in the STAR Ohio during 2009. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2009. The County also has several liquid asset management accounts. These accounts have been restricted to U.S. Treasury and agency security investments only with the exception of the Fifth Third Liquid Investment Account which can invest up to 25% in commercial paper as long as it is rated A1P1.

H. Inventory of Supplies

Inventory is stated at cost (first-in, first-out) in the governmental funds, and at the lower of cost (first-in, first-out) or market in the proprietary funds. The costs of inventory items are recorded as expenditures in the governmental funds when purchased and expenses in the proprietary funds when used.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Prepaid Water Contract

The County has entered into a contract with Cincinnati Waterworks to provide water to the County that will benefit periods beginning in 2000 until December 31, 2025. This item is recorded as a prepaid water contract in the Water Fund (enterprise) using the consumption method. This will reflect the current asset amount as a prepaid item and the expense in the year in which it is consumed.

J. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2009, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

K. Capital Assets and Depreciation

Capital assets are defined by the County as assets with an initial, individual cost of more than \$10,000.

1. Property, Plant and Equipment - Governmental Activities

Governmental Activities capital assets are those not directly related to the business type funds. These generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost or estimated historical cost for assets not purchased in recent years.

Estimated historical costs for governmental activities capital asset values were initially determined by identifying historical costs when such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

Capital assets include land, construction in progress, land improvements, buildings, structures and improvements, furniture, fixtures and equipment and infrastructure. Infrastructure is defined as long-lived capital assets that normally are stationary in nature and normally can be preserved for a significant number of years. Examples of governmental activities infrastructure include roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems. These assets are reported in the Governmental Activities column of the Government-wide Statement of Net Assets, but they are not reported in the Fund Financial Statements.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Capital Assets and Depreciation (Continued)

2. Property, Plant and Equipment – Business Type Activities

Proprietary funds capital assets are stated at cost (or estimated historical cost), including interest capitalized during construction and architectural and engineering fees where applicable. Contributed capital assets are recorded at fair market value at the date received. Proprietary funds capital assets are similar to Governmental Activities capital assets with the exception of the infrastructure. Proprietary infrastructure consists of water and sewer lines, whereas Governmental Activities infrastructure consists of roads and bridges. These assets are reported in both the Business-Type Activities column of the Government-wide Statement of Net Assets and in the respective funds.

3. Depreciation

All capital assets are depreciated, excluding land and construction in progress. Depreciation has been provided using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Governmental and Business-Type Activities Estimated Lives (in years)</u>
Land Improvements (Water and Sewer Lines)	50
Buildings, Structures and Improvements	20 - 40
Furniture, Fixtures and Equipment	5 - 25
Infrastructure	15 - 100

L. Capitalization of Interest

The County's policy is to capitalize interest for proprietary (enterprise) fund construction projects until the project is substantially completed. Capitalized interest on proprietary fund construction is amortized on a straight-line basis over the estimated useful life of the asset. There was no interest capitalized for proprietary funds during 2009.

M. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the enterprise fund financial statements.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Accrued Liabilities and Long-term Obligations (Continued)

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and long-term notes that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

N. Long-Term Obligations

Long-Term liabilities are being repaid from the following funds:

<u>Obligation</u>	<u>Fund</u>
General Obligation Bonds	Court Building Construction Fund Tax Increment Financing Fund
Mortgage Revenue Bonds	Water Fund
Special Assessment Bonds	Special Assessment Fund
Capital Leases	General Fund Child Support Enforcement Fund
State 166 Loan	Tax Increment Financing Fund
Ohio Public Works Commission Loan	State OPWC Loan Fund
Ohio Water Development Authority Loans	Water Fund
Ohio Department of Transportation Loan	State DOT Loan Fund
Compensated Absences	General Fund Human Services Board of Developmental Disabilities Fund Children's Services Board Fund Water Fund Sewer Fund Storm Water Fund Sheriff Revolving Fund Health Insurance Fund

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

O. Bond Discounts/Issuance Costs

Bond discounts and issuance costs for governmental and proprietary fund types are deferred and amortized over the term of the bonds using the bonds-outstanding method, which approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable, bond premiums are recorded as an increase to the face amount of bonds payable, and issuance costs are recorded as deferred charges.

P. Compensated Absences

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences," vacation and compensatory time are accrued as liabilities when an employee's right to receive compensation is attributable to services already rendered and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments, at termination or retirement. Leave time that has been earned but is unavailable for use as paid time off or as some other form of compensation because an employee has not met the minimum service time requirement, is accrued to the extent that it is considered to be probable that the conditions for compensation will be met in the future.

Sick leave is accrued using the vesting method, whereby the liability is recorded on the basis of leave accumulated by employees eligible to receive termination payments as of the balance sheet date, and on leave balances accumulated by other employees expected to become eligible in the future to receive such payments.

For governmental funds, that portion of unpaid compensated absences that is due and payable as of year end using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected in the account "Compensated Absences Payable." In the government wide statement of net assets, "Compensated Absences Payable" is recorded within the "Due within one year" account and the long-term portion of the liability is recorded within the "Due in more than one year" account. Compensated absences are expensed in the proprietary funds when earned and the related liability is reported within the fund.

Q. Grants and Other Intergovernmental Revenues

Local governmental fund revenues are recorded as receivables and revenue when measurable and available. Assistance awards made on the basis of entitlement are recorded as intergovernmental receivables and revenues when entitlement occurs. Federal and State reimbursement-type grants for the acquisition or construction of capital assets in Proprietary funds are receivables and capital contributions when the related expenses are incurred.

All other Federal and State reimbursement-type grants are recorded as receivables and revenues when the related expenditures/expenses are incurred.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

R. Restricted Cash and Cash Equivalents with Fiscal Agent

Restricted cash and cash equivalents with fiscal agent reported in the water enterprise fund (Business-Type Activities) represent temporarily restricted assets that will be paid to bond holders upon maturity of the annual coupon.

S. Pensions

The provision for pension costs is recorded when the related payroll is accrued and the obligation is incurred.

T. Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water treatment and distribution, wastewater collection and treatment, policing services to other governments and communications maintenance services. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

U. Special Assessments

The County reports Special Assessment bonds in the governmental activities on the entity wide statement of net assets. These bonds are secured by liens on assessed properties and are also backed by the full faith and credit of the County. Special assessment debt service payments are recorded in the Special Assessment Fund. Capital outlay financed by special assessments are recorded in the Capital Projects Funds.

V. Self-Funded Insurance

The County is self-funded for employee health care, prescription, dental, vision and workers' compensation benefits. The programs are administered by Custom Design Benefits, Express Scripts, Dental Care Plus and Sedgwick Claims Management Services, Inc. which provide claims review and processing services. For health care, prescription, dental and vision each County fund is charged for its proportionate share of covered employees. The County records a liability in claims payable for incurred but unreported claims at year-end based upon an analysis of historical claims and expenses. For workers' compensation each County fund is charged for actual claims paid plus administrative fees based upon number of employees per department.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

W. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

X. Reservations of Fund Balance

Reservations of fund balance or net assets indicate that a portion of the balance is not available for expenditure or is legally segregated for a specific future use. Balances are reserved for inventories of supplies, prepaid items, long-term interfund loans, debt service and encumbered amounts that are not accrued at year end in the governmental funds.

Y. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets net of accumulated depreciation, and net of the outstanding balances of any borrowings related to the acquisition, construction or improvements of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

This space intentionally left blank.

*Notes to the Basic Financial Statements
For the Year Ended December 31, 2009*

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net assets of governmental funds as reported in the government-wide statement of net assets. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

Other long-term assets not available to pay for current-period expenditures:

Unamortized Bond Issuance Costs	\$50,582
Shared Revenues	7,574,572
Interest Revenue	420,455
Special Assessment Revenue	16,714,866
	<hr/>
	\$24,760,475

Long-Term liabilities not reported in the funds:

General Obligation Bonds Payable	\$3,853,329
Special Assessment Bonds Payable	13,657,815
Tax Increment District Revenue Bonds Payable	2,350,000
Loans Payable	6,531,709
Capital Leases Payable	11,044
Accrued Interest on Long-Term Debt	96,874
Retainage Payable	57,611
Compensated Absences Payable	4,884,142
	<hr/>
	\$31,442,524

This space intentionally left blank.

*Notes to the Basic Financial Statements
For the Year Ended December 31, 2009*

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government – wide statement of activities. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

Amount by which capital outlay exceeded depreciation in the current period:

Capital Outlay	\$4,865,357
Capital Contributions	415,640
Depreciation Expense	<u>(4,364,068)</u>
	\$916,929

Governmental revenues not reported in the funds:

Increase in Shared Revenue	\$629,825
Decrease in Interest Revenue	(548,268)
Decrease in Special Assessment Revenue	(1,995,281)
Decrease in Charges for Services	<u>(631)</u>
	(\$1,914,355)

Net amount of long-term debt issuance and bond and lease principal payments:

General Obligation Bond Principal Payments	\$532,891
Special Assessment Bond Principal Payments	1,239,183
Loan Payments	1,132,388
Capital Lease Payments	3,315
Unamortized Bond Issuance Costs	(7,313)
Issuance of Tax Increment District Revenue Bonds	<u>(2,350,000)</u>
	\$550,464

Expenses not requiring the use of current financial resources:

Increase in Compensated Absences Payable	(\$247,664)
Decrease in supplies inventory	<u>(165,554)</u>
	(\$413,218)

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 3 – PRIOR PERIOD ADJUSTMENTS

The Governmental Accounting Standards Board advised that while Tax Increment Financing payments do have similarities to exchange transactions, they are still imposed non-exchange transactions, and not subject to long-term recognition. Because Ohio law subjects them to the same collection process as property taxes, governments should account for them in a manner such as property tax accounting guidance. The result was an decrease in Deferred Revenue and a decrease in Taxes Receivable in the Tax Increment Financing Fund for \$531,849. An error in reporting interest in the General Fund resulted in a decrease to Interest Receivable and a decrease in the General Fund Balance – Undesignated, Unreserved in the amount of \$964,257.

NOTE 4 – DEFICIT FUND EQUITIES

At December 31, 2009 the following funds had deficit fund/net asset balances:

<u>Fund</u>	<u>Deficit</u>
Special Revenue:	
Law Library Resources Fund	\$ 7,468
Capital Project:	
Water Extension Projects Fund	78,757
Sewer Extension Projects Fund	734,180

The fund/net asset deficits arise from the recognition of expenditures on the modified accrual basis/accrual basis, which are greater than expenditures/expenses recognized on the budgetary/cash basis. The deficits do not exist under the cash basis of accounting. The General Fund provides transfers when cash is required, not when accruals occur.

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS

The County Treasurer combines a majority of cash resources of the individual funds to form a pool of cash and investments. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash, Cash Equivalents and Investments." Investments are reported at fair value, which is based on quoted market prices. Ohio law requires the classification of funds held by the County into two categories.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Active monies are public monies determined to be necessary to meet current demand upon the County Treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawn on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the County identified as not required for use of current expenses. Inactive deposits must either be evidenced by certificates of deposit or by savings or deposit accounts including, but not limited to passbook accounts.

Ohio Law permits inactive monies to be deposited or invested in the following:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Bond and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the County;
- Time certificates of deposit or savings or deposit accounts, including, but not limited to, passbook accounts;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions, and
- The State Treasury Asset Reserve of Ohio (STAR Ohio).
- Securities lending agreements in which the County lends securities and the eligible institution agrees to exchange either securities described in (1) or (2) above or cash or both securities and cash, equal value for equal value;

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

- High grade commercial paper in an amount not to exceed 25 percent of the County's total average portfolio;
- Bankers acceptances for a period not to exceed 270 days and in an amount not to exceed 25 percent of the County's total average portfolio.

The County invests in United States Treasury obligations and eligible guaranteed obligations of the United States, the State Treasury Asset Reserve (STAR Ohio), certificates of deposit, commercial paper and mutual funds which are invested exclusively in United States obligations. All investments comply with the limitations with respect to length of maturities contained in Chapter 135 of the Ohio Revised Code (The Uniform Depository Act). The maximum maturity of any investment of the County will be five years. The County interprets the limit on federal guaranteed investments and all legal investments very conservatively.

At December 31, 2009 the County did not own any derivative type investments, interest only investments, collateralized mortgage obligations, commercial paper or reverse repurchase agreements. The County Treasurer has attended special training in all of the investment areas to assure compliance with the strictly conservative philosophy of the County. All investments are transacted with banks the County believes to be reputable or other financial institutions operating in the State of Ohio that are well versed in the statutory restrictions Ohio political subdivisions operate under and also have an understanding of the County investment requirements.

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned. Warren County's policy as it relates to custodial credit risk is to follow the Ohio Revised Code chapter 135 as well as to practice sound financial management principles focusing on diversification of deposits. Protection of County cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the County places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

A. Deposits (Continued)

At year end the carrying amount of the County's deposits was \$33,788,153 and the bank balance was \$39,472,823. Federal depository insurance covered \$2,207,925 of the bank balance and remaining deposits were collateralized as follows: pledged collateral, held in the County's name by the financial institution's trust department, in the amount of \$8,750,000, pooled collateral, consisting of securities held by the Federal Reserve Bank in the name of the pledging financial institution or institution's trust department but not in the County's name, in the amount of \$28,514,898. The County had \$123,490 in undeposited cash on hand at December 31, 2009 which is included as Cash and Cash Equivalents on the balance sheet.

B. Investments

The County's investments are detailed below and are categorized to give an indication of the level of risk assumed as of year end.

	Fair Value	Average Weighted Days to Maturity
Government Sponsored Enterprise Investments	\$126,181,861	853.94
STAR Ohio	7,194,323	0.05
U.S. Treasuries Money Market Fund	1,267,855	0.01
U.S. Treasury Notes	913,743	1.11
County Government Bonds	2,586,816	172.72
Total Investments	<u>\$138,144,598</u>	<u>1,027.83</u>

Interest Rate Risk – The Ohio Revised Code generally limits security purchases to those that mature within five years of settlement date. The current County Investment and Depository Policy has been expanded from its previous three year maturity position to a five year maturity position (mirroring the Ohio Revised Code). This new investment tool allows the County the opportunity to “lock in” a portion of its investments at higher rates for a longer period of time, when interest rates are at their peak during an interest rate cycle.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

B. Investments (Continued)

Credit Risk – The County follows the Ohio Revised Code (ORC) which limits the amount of credit risk it's going to allow any county to become involved in. It accomplishes this by compiling a specific list of investments, to the exclusion of all other investments, which counties are legally allowed to participate in. The County further minimizes its credit risk by placing most of its available funds in obligations of the US Government or its Agencies; STAR Ohio, which is comprised mostly of US Government and Agency obligations and is specifically authorized and endorsed by the Ohio State Treasurer; as well as local bank CD's, which are collateralized by US Government and Agency obligations. The County also invests in Money Market Funds that are invested solely in US Treasuries. Even though Commercial Paper is an ORC authorized investment, because it is associated with higher credit risk, the County has specifically and significantly limited its use in the County's portfolio and at December 31, 2009 did not have any Commercial Paper investments. The County's investments at December 31, 2009 in FFCB, FHLB, FHLMC, FAMCA, FNMA, are rated AAA by Standard and Poor's. Its investment in STAR Ohio is rated AAAM by Standard and Poor's. Obligations of the US Government are explicitly guaranteed by the US Government and are not considered to have credit risk. The investment in Warren County Special Assessment Bonds are rated Aa2 based upon the County's credit rating.

Concentration of Credit Risk – The County places no limit on the amount the County may invest in one issuer. Of the County's total investments, 3.03% are FFCB, 41.76% are FHLB, 21.59% are FHLMC, 23.81% are FNMA, 1.15% are FAMCA, 5.21% are STAR Ohio, 0.92% are US Treasuries Money Market Fund, 0.66% are US Treasury Notes and 1.87% is Warren County Special Assessment Bonds.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party.

C. Component Unit

Cash and cash equivalents in the amount of \$181,827 for the component unit, Production Services Unlimited, Inc. (PSU), are considered active funds for immediate use maintained either as cash or in depository accounts payable or able to be withdrawn on demand. At year-end the carrying amount of PSU deposits was \$181,827 and the bank balance was \$190,889. Federal depository insurance covered \$190,889 of the bank balance.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 6- TAXES

A. Property Taxes

Property taxes include amounts levied against all real, public utility, and tangible personal property located in the County. Taxes from real property (other than public utility) collected during 2009 were levied after October 1, 2008 on assessed values as of January 1, 2008, the lien date. Assessed values are established by the County Auditor at 35% of appraised market value. All property is required to be revalued sexennially with a triennial update. Real property taxes are payable annually or semi-annually. If paid annually, payment is due February 25; if paid semi-annually, the first payment is due February 25, with the remainder payable by July 15. In certain circumstances, state statute permits earlier or later payment dates to be established.

Taxpayers become liable for tangible personal property taxes (other than public utility) on January 1 of the current calendar year. Tangible personal property, such as machinery, equipment, furniture, fixtures and computers are assessed at 25% of its true value on December 31, of the preceding year or last fiscal year end. Inventory assessment beginning in tax year 2002 and the tax year 2003, subtract one percent point from the rate at which the property was required to be listed and assessed the previous year, if the total statewide collection of tangible personal property taxes for the second preceding year exceeded the total statewide collection of this tax for the third preceding year. Inventory assessment for the tax year 2004 and the tax year 2005; subtract an additional percentage point for the rate at which the property was assessed the previous year. The State of Ohio enacted a Commercial Activity Tax (CAT) effective in 2006 and subsequently is phasing out the Tangible Personal Property Tax over the following four years. Local revenues lost are to be reimbursed from the CAT until 2011. Beginning in tax year 2006, for inventory assessment, subtract four and a quarter percentage points from the assessment of the previous tax year, in addition to that, subtract six and a quarter percentage points from the furniture/fixture, computers and machinery/equipment assessments, assessed value equals 18.75% of true value. For inventory and furniture/fixture, computers and machinery/equipment for tax years 2007 and 2008 subtract six and a quarter for each of the remaining tax assessment years from the previous assessment year. New manufacturing equipment for tax years 2006, 2007, and 2008 were exempted from reported taxable values. Taxes were based on the assessed value of the property and the current tax rate for the taxing district where the property was located. As of tax year 2009 Interexchange telephone carriers are the only business subject to the tangible personal property tax. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30, if paid semi-annually, the first payment is due April 30 with the remainder payable by September 20. Under Ohio law, personal property taxes do not attach as a lien on the personal property.

Public utility tangible personal property taxes collected in one calendar year are levied in the preceding year on assessed values as of January 1 of that preceding year, the lien date. Public utility tangible personal property currently is generally assessed at 100% of its true value. Public utility property taxes are payable on the same dates as real property taxes described previously.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 6- TAXES (Continued)

A. Property Taxes (Continued)

Beginning in the tax year 2001, the percentages used to determine the assessed value of electric company personal property used in the production of electricity was reduced from 100% to 25% of true value; taxable transmission and distribution property will continue to be assessed at 88% of true value (50% of true value for rural electric companies). The state is to reimburse local taxing districts for a portion of the revenues lost due to this reduction in tax valuation with proceeds of a new kilowatt-hour excise tax imposed on electricity consumers.

For tax levies which are to produce a given dollar amount each year (such as debt service levies), the reimbursement is to be generally the amount that would have otherwise been collected from the utility property less an amount equal to one-fourth of a mill. For all other non school district tax levies, the State reimbursement is to be, in general, a percentage of the amount that would have otherwise been collected from the utility property, which percentage is to decline from 100% in 2002 to 0% in 2017 and thereafter; all such school district tax levies are to be reimbursed at generally an amount sufficient to produce the same revenues that would have otherwise been collected but taking into account State education aid. Tax levies which were (i) not in effect for the 1998 tax year or (ii) approved by the voters after June 30, 1999 are not eligible for reimbursement by the State.

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portion of the taxes collected with final settlement in June and December for taxes payable in the first and second halves of the year, respectively. The full tax rate of all County operations for the year ended December 31, 2009 was \$5.78 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which the 2008 property tax levy was based totaled \$6,038,685,860 which was comprised of \$5,878,188,780 in real property, and \$160,497,080 in public utility and tangible personal property.

Ohio Law prohibits taxation of property from all taxing authorities in excess of 10 mills of assessed value without a vote of the people. Under current procedure, the County's share is 2.57 mills of assessed value. The County is levying the full 2.57 mills of assessed value.

B. Other Taxes

In addition to property taxes, certain other taxes are recognized as revenue by the County. These taxes include the 1% County levied sales tax, gasoline taxes, property transfer tax and miscellaneous other taxes which have various lien, levy and collection dates.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 7 - RECEIVABLES

Receivables at December 31, 2009, consisted of taxes, interfund, accounts receivable, special assessments, interest, HOME Investment Partnership Program and Community Development Block Grant Program loans and intergovernmental receivables arising from shared revenues. All receivables are considered collectible in full.

NOTE 8 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances are expected to be repaid within one year or less. The following balances at December 31, 2009 represent interfund loans receivable and payable:

	Interfund Loans	
	Receivables	Payables
Governmental Funds:		
General Fund	\$20,000	\$0
Other Governmental Funds	2,825,820	3,677,220
Total Governmental Funds	<u>2,845,820</u>	<u>3,677,220</u>
Proprietary Funds:		
Enterprise Fund:		
Water Fund	97,400	0
Sewer Fund	734,000	0
Total Proprietary Funds	<u>831,400</u>	<u>0</u>
Total Interfund Loans	<u>\$3,677,220</u>	<u>\$3,677,220</u>

Interfund loans purpose is to allow some funds to operate and pay vendors timely with cash while awaiting anticipated revenue. Loans are often used as a means of short-term financing for assessment projects and as a way to cash flow funds that are specifically for reimbursable grants.

This space intentionally left blank.

WARREN COUNTY, OHIO

**Notes to the Basic Financial Statements
For the Year Ended December 31, 2009**

NOTE 8 - INTERFUND RECEIVABLES AND PAYABLES (Continued)

The following balances at December 31, 2009, represent interfund receivables and payables:

	Interfund	
	Due From Other Funds	Due To Other Funds
Governmental Funds:		
General Fund	\$179,052	\$276,715
Board of Developmental Disabilities	0	126,682
Other Governmental Funds	161,292	315,137
Total Governmental Funds	<u>340,344</u>	<u>718,534</u>
Enterprise Funds:		
Water	17,703	24,434
Sewer	3,870	43,929
Storm Water	0	141
Sheriff	0	6,241
Total Enterprise Funds	<u>21,573</u>	<u>74,745</u>
Internal Service Funds	<u>498,994</u>	<u>67,632</u>
Total Interfund Receivables and Payables	<u>\$860,911</u>	<u>\$860,911</u>

Interfund receivables and payables purpose is to account for amounts due between different funds for billings such as postage, telephone, vehicle maintenance, gasoline, drug testing, workers compensation charge-backs and unemployment charge-backs.

NOTE 9 - TRANSFERS

The following balances at December 31, 2009 represent transfers in and transfers out:

Fund	Transfer In	Transfer Out
Governmental Funds:		
General Fund	\$0	\$4,992,656
Other Governmental Funds	5,769,621	776,965
Total Transfers	<u>\$5,769,621</u>	<u>\$5,769,621</u>

The principal purpose for interfund transfers is to provide additional funding for current operations of certain Special Revenue funds, to segregate money for construction of capital assets and to pay government obligation debt.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 10 - CAPITAL ASSETS (Continued)

B. Business-Type Activities Capital Assets (Continued)

Construction in Progress:

Construction in progress in the enterprise funds for costs incurred as of December 31, 2009 total \$29,225,680. This amount is comprised of the following projects:

Grandin Road Water OWDA	\$18,440,048
Lower Little Miami WWTP	3,080,227
Robinson Vale/Shaker Water Line	2,601,204
Various Other Water Projects	4,669,084
Various Other Sewer Projects	435,117
Total Construction in Progress	<u>\$29,225,680</u>

The Water and Sewer Department strives to stay ahead of the demands for water and sewer services in Warren County. With new development practically coming to a halt the last couple of years, it has given the Warren County Water and Sewer Department a chance to make much needed upgrades to some aging facilities. The following projects are in the various stages of engineering or construction.

Improvements are substantially complete at the newly named Richard A. Renneker Water Treatment Plant located on Grandin Road. The improvements increased capacity from 6.0 million gallons per day (mgd) to 9.0 mgd with the ability to expand to 12.0 mgd in the future. Prior to completion, the plant was running at capacity in the summer months. There are a few punch list items that need to be addressed.

The County is upgrading the Lower Little Miami Waste Water Treatment Plant first built in 1976 and upgraded in 1990 (Phase 1) and again in 1995 (Phase 2). The purpose of this project is to allow the County to expand this facility from the current 7.3 mgd average daily flow (adf) capacity to 12 mgd adf. Peak hourly flow capacity will also increase from 25.2 mgd to 48 mgd. Bids for construction, electrical, HVAC and plumbing were awarded in the total amount of \$27.0 million dollars. Total Engineering costs are estimated to be around \$5.0 million.

Approximately 22,700 feet of 24-inch Class 52 ductile iron waterline is being constructed along Robinson Vail Road and Shaker Roads to improve water flow distribution within the Franklin-Clearcreek water system. Total estimated costs are \$2.9 million dollars.

Bid documents were prepared by the Water and Sewer Department for the painting of the 1.5 million gallon hydropiller elevated tank (Snider Elevated Tank) constructed in 1990. Painting of the tank is substantially complete and total costs are estimated to be \$1.1 million dollars.

Construction of the Thornton Grove Sewer Improvement, consisting of 2,800 feet of 8-inch gravity sanitary sewers, will allow the elimination of the Thornton Grove Lift Station. This project is substantially complete with costs estimated at \$458,100.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 11 - DEFINED BENEFIT PENSION PLANS

All of the County's full-time employees participate in one of two separate retirement systems which are cost-sharing multiple employer defined benefit pension plans.

A. Ohio Public Employees Retirement System (the "OPERS")

The following information was provided by the OPERS to assist the County in complying with GASB Statement No. 27, "*Accounting for Pensions by State and Local Government Employers.*"

All employees of the County, except teachers at the Board of Developmental Disabilities, participate in the OPERS, a multiple-employer public employee retirement system. OPERS administers three separate pension plans. The Traditional Pension Plan is a cost sharing, multiple employer defined benefit pension plan. The Combined Plan is also a cost sharing, multiple employer defined benefit pension plan where employer contributions are invested by OPERS to provide a formula retirement benefit similar in nature to the Traditional Pension Plan and member contributions are self-directed and accumulate retirement assets equal to the value of member contributions plus any investment earnings. The Member-Directed Plan is a defined contribution plan in which the member invests both member and employer contributions to accumulate retirement assets equal to the value of contributions plus any investment earnings. The OPERS provides retirement, disability, survivor and death benefits and annual cost-of-living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post employment health care coverage. Chapter 145 of the Ohio Revised Code provides statutory authority to establish and amend benefits. The Ohio Public Employees Retirement System issues a stand-alone financial report that includes financial statements and required supplementary information for the OPERS. Interested parties may obtain a copy by making a written request to 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-6705 or 1-800-222-7377.

The Ohio Revised Code provides statutory authority for employee and employer contributions. For 2009, member and employer contribution rates were consistent across all three plans. The employee contribution rate for employees other than law enforcement is 10%. Law enforcement officers in the County Sheriff's department contribute 10.1% of covered salary. The 2009 employer contribution rate for local government employer units was 14% of covered payroll. Of this amount, 7% was used to fund the pension and 7% to fund health care for the period January 1 through March 31, 2009. For the period April 1 through December 31, 2009, 8.5% was used to fund the pension and 5.5% was used to fund health care. For law enforcement, the employer rate was 17.63% of covered payroll. Of this amount, 10.63% was used to fund the pension and 7% to fund health care for the period January 1 through March 31, 2009. For the period April 1 through December 31, 2009, 12.13% was used to fund the pension and 5.50% was used to fund the health care. The contribution requirements of plan members and the County are established and may be amended by the Ohio Public Employees Retirement Board. The County's contribution to the OPERS for the years ending December 31, 2009, 2008, and 2007 were \$6,761,444, \$6,591,038, and \$6,253,795 respectively, for employees of the County and \$1,052,171, \$1,047,410, and \$974,394 respectively, for law enforcement officers, which were equal to the required contributions for each year.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)

A. Ohio Public Employees Retirement System (the “OPERS”) (Continued)

The OPERS provides post employment health care benefits to age and service retirants under the Traditional Pension and Combined Plans with ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and qualified survivor benefit recipients is also available. The health care coverage provided by the OPERS is considered an Other Post Employment Benefit (OPEB) as described in GASB Statement No. 12. A portion of each employer's contribution to the OPERS is set-aside for the funding of post retirement health care.

The Ohio Revised Code provides statutory authority requiring public employers to fund post employment health care through their contributions to the OPERS. The portion of the 2009 employer contribution rate (identified above) for employees other than law enforcement that was used to fund health care for the period of January 1 through March 31, 2009 was 7% of covered payroll which amounted to \$801,472. For the period of April 1 through December 31, 2009, 5.5% was used to fund health care which amounted to \$1,697,147. For law enforcement employees, 7% of employer contributions of covered payroll was used to fund health care for the period January 1 through March 31, 2009 which amounted to \$95,066 and 5.5% was used to fund health care for the period of April 1 through December 31, 2009 which amounted to \$253,585.

The significant actuarial assumptions and calculations relating to post employment health care benefits were based on the OPERS latest actuarial review performed as of December 31, 2008. An entry age normal actuarial cost method of valuation is used in determining the present value of OPEB. The difference between assumed and actual experience (actuarial gains and losses) becomes part of unfunded actuarial accrued liability. All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used. Under this approach assets are adjusted annually to reflect 25% of unrealized market appreciation or depreciation on investment assets annually, not to exceed a 12% corridor. The investment assumption rate for 2008 was 6.5%. An annual increase of 4.0% compounded annually, is the base portion of the individual pay increase assumption. This assumes no change in the number of active employees. Additionally, annual pay increases, over and above the 4.0% base increase, were assumed to range from 0.50% to 6.3%. Health care costs were assumed to increase at the projected wage inflation rate plus an additional factor ranging from .50% to 3% for the next 6 years. In subsequent years (7 and beyond) health care costs were assumed to increase 4.0% (the projected wage inflation rate).

Benefits are advanced-funded on an actuarially determined basis. At year-end 2009, the number of active contributing participants in the Traditional Pension and Combined Plans totaled 357,584. The number of active contributing participants for both plans used in the December 31, 2008 actuarial valuation was 356,388. The actuarial value of the OPERS net assets available for OPEB at December 31, 2008 is \$10.7 billion. The actuarially accrued liability and the unfunded actuarial accrued liability, based on the actuarial cost method used, were \$29.6 billion and \$18.9 billion, respectively.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)

A. Ohio Public Employees Retirement System (the “OPERS”) (Continued)

OPERS adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. In addition to the HCPP, OPERS has taken additional action to improve the solvency of the Health Care Fund in 2005 by creating a separate investment pool for health care assets. As an additional component of the HCPP, local government member and employer contribution rates increased on January 1 of each year from 2006 to 2008 and law enforcement employer contribution rates will increase over a six year period beginning January 1, 2006 with a final rate increase on January 1, 2011. These rate increases allowed additional funds to be allocated to the health care plan.

B. State Teachers Retirement System of Ohio (STRS of Ohio)

The teachers who work for the Board of Developmental Disabilities participate in the State Teachers Retirement System of Ohio (STRS), a cost-sharing, multiple employer retirement system administered by the State Teachers Retirement Board.

STRS administers three separate pension plans. The Defined Benefit Plan is a cost sharing multiple-employer defined benefit pension plan. Benefits are established under Chapter 3307 of the Revised Code. The Defined Contribution Plan allows the member to allocate the member and employer contributions among various investment choices. Plan benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. The Combined Plan allows members to allocate their contributions to their selected investment choices and the employer contributions are used to fund a defined benefit payment. STRS provides basic retirement benefits, disability, survivor and health care benefits based on eligible service credit to members and beneficiaries. Members of the Defined Contribution plan are not eligible for health care benefits. STRS issues a stand-alone financial report that includes financial statements and required supplementary information for the STRS of Ohio. Interested parties may obtain a copy by making a written request to STRS Ohio, 275 E. Broad Street, Columbus, Ohio 43215-3371 or by calling (614) 227-4090, or by visiting the STRS Ohio Web site at www.strsoh.org.

The Ohio Revised Code provides statutory authority for County and employee contributions. The contribution requirements of plan members and the County are established and may be amended by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. For fiscal year ended June 30, 2009, 13% was the portion of County contribution used to fund pension obligations. The County’s contributions to the STRS of Ohio for the years ending December 31, 2009, 2008 and 2007 were \$29,185, \$28,373, and \$28,700 which were equal to the required contributions for each year.

**Notes to the Basic Financial Statements
For the Year Ended December 31, 2009**

NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System of Ohio (STRS of Ohio) (Continued)

STRS provides access to health care coverage to retirees who participated in the Defined Benefit or Combined Plans and their dependents. Coverage includes hospitalization, physicians' fees, prescription drugs, and partial reimbursement of monthly Medicare Part B premiums. Pursuant to the Revised Code, the State Teachers Retirement Board has discretionary authority over how much, if any, of the health care cost will be absorbed by STRS. All benefit recipients are required to pay a portion of the health care cost in the form of a monthly premium.

Benefits are funded on a pay-as-you-go basis through an allocation of employer contributions to a health care stabilization fund equal to 1% of covered payroll for 2009. The balance of the Health Care Stabilization Fund was \$2.7 billion at June 30, 2009. For the fiscal year ended June 30, 2009, the net health care costs paid by STRS were \$298,110,000. There were 129,659 eligible benefit recipients. The portion of the 2009 employer contribution rate (identified above) that was used to fund health care for fiscal year 2009 was 1.0% of County covered payroll which amounted to \$292.

NOTE 12 - COMPENSATED ABSENCES

The costs of vacation and sick leave benefits are recorded as they are earned. Employees earn vacation leave at varying rates based upon length of service. Sick leave is accumulated at a rate of four and six tenths hours per eighty hours of bi-weekly service and pro-rated for hours less than eighty. Sick leave is cumulative without limit.

At December 31, 2009, the County's accumulated, unpaid compensated absences amounted to \$5,636,723. Of this amount, \$4,955,805 is recorded as Governmental Activities on the Entity Wide Statement of Net Assets (\$341,440 is reported as due within one year), \$680,918 is recorded as Business-type activities (\$44,449 is reported as due within one year).

At December 31, 2009 the liability recorded as Governmental Activities within the Statement of Net Assets representing unpaid vacation time, sick leave and compensatory time was as follows:

	<u>Hours</u>	<u>Balance</u>	<u>Amount Due Within One Year</u>
Vacation Time	114,426	\$2,672,016	\$173,107
Sick Time	87,132	2,217,510	168,333
Compensatory Time	<u>3,334</u>	<u>66,279</u>	<u>0</u>
Total	<u>204,892</u>	<u>\$4,955,805</u>	<u>\$341,440</u>

WARREN COUNTY, OHIO

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 13 – NOTES PAYABLE

The County has pledged its full faith and credit as collateral for the general obligation notes. In 2009 the outstanding \$1,000,000 Armco Park Acquisition Bond Anticipation Note was retired from revenue received by a grant from the Ohio Division of Natural Resources. Ohio law permits the issuance and renewal of bond anticipation notes such that the notes may remain outstanding for twenty years consecutively before such notes must be retired either from available funds of the County or from the proceeds of bonds issued to redeem the anticipation notes. If such notes and renewal of such notes remain outstanding for a period in excess of five years, any such period in excess of five years must be deducted from the permitted maximum maturity of the bonds anticipated. Furthermore, a certain portion of the principal amount of such notes must be retired in the amounts and at the times that would have been required for the payment of principal maturities on the bonds anticipated as if the bonds had been issued at the expiration of the initial five year period.

	Balance January 1, 2009	Issued	(Retired)	Balance December 31, 2009
Primary Government General Obligation Note:				
2.00% Armco Park Acquisition Note	\$1,000,000	\$0	(\$1,000,000)	\$0
Total Notes Payable	<u>\$1,000,000</u>	<u>\$0</u>	<u>(\$1,000,000)</u>	<u>\$0</u>

NOTE 14 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS

General obligation bonds are secured by the County's ability to levy a voted or unvoted property tax within limitations of Ohio law. The 1991 G.O. Building Project debt, issued for various county building improvements, will be retired from the debt service fund utilizing a portion of the 1/2% additional sales tax levied in 1992.

Special assessment debt service is financed by property tax assessments to affected property owners. However, the County is ultimately responsible for the debt service if the assessments are not collected. Delinquent special assessments related to outstanding special assessment bonded debt at year end was \$73,992. Special assessment bonds will be retired with proceeds of collections of special assessment receivables in the related debt service funds.

The 2005 Tax Increment Financing (TIF) Refunding Bond was issued as a general obligation bond. The TIF was originally issued to finance water system improvements in the county, including expanding the Deerfield-Hamilton Water Treatment Plant and to expand and upgrade the Lower Little Miami Wastewater Treatment Plant.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 14 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS (Continued)

A State 166 Loan was issued in lieu of additional TIF bonds to assist with infrastructure costs in conjunction with the building of the Procter & Gamble Health Care Research Center. The State 166 Loan accrued interest monthly from March of 1994 through February of 2008. The annual accrued interest amount was added to State 166 Loan Payable. The first payments on the State 166 Loan debt began in March of 2008.

Both the TIF Bond and the State 166 Loan are being retired from the debt service fund utilizing payments in lieu of taxes received from Procter and Gamble. A service agreement with Procter and Gamble provides for minimum annual payments sufficient to satisfy the TIF Bond and the State 166 Loan debt service requirements.

The 2009 Tax Increment District Revenue Bonds were issued to finance the Greens of Bunnell Hill Project. The project involved the purchase of certain streets consisting of a portion of Sandlewood Street, a portion of Scotch Pine Drive, Black Walnut Drive, Ponderosa Court, Juniper Court and Boxwood Court and to reimburse both the County Engineer and Clearcreek Township for the cost of public improvement expenditures made to the site. The Bonds are secured by and payable solely from the revenues generated from the service payments in lieu of taxes generated pursuant to section 5709.77 of the Ohio Revised Code.

The 2000 Ohio Public Works Commission interest-free loan was used to cover costs incurred for the Columbia Road Reconstruction Project. The loan will be retired from the debt service fund over ten years by funding provided by the County Engineer.

In 2006, Warren County entered into a loan agreement with the Ohio Department of Transportation as partial funding for its local share of the construction of the US 22 Road Widening Project. The total original loan amount of \$1,406,261 carries a 3% interest rate. The loan payments began in 2008. The loan will be retired in 2010 through funding provided by the County Engineer.

The 2002 Waterworks System Revenue Refunding Bond is currently the only Revenue Bond of the Water System. Revenue bond trust indentures require the County Water and Sewer Funds to maintain minimum debt service coverage ratios. The minimum coverage ratio required for the fiscal year 2009 was 120%. The bond coverage ratio for the fiscal year, based upon operating revenue and investment income and operating expenses excluding depreciation, was 289% for the Water Fund. The Sewer Fund did not have any debt outstanding in 2009. The ratio for the Water Fund increased to 519% when the calculation includes the tap-in fees collected from customers connecting to the existing water system.

In 2005, the Water Department entered into a reimbursing loan agreement with the Ohio Water Development Authority (OWDA) for the expansion of the Deerfield Hamilton Water Supply and Treatment Plant. The loan amount is \$5,000,138 and carries a 2% interest rate. The loan payments will not begin until 2010.

This OWDA loan, along with the remaining water revenue bond will be retired from the revenues generated by the water fund.

Under the Uniform Bond Act of the Ohio Revised Code, the County has the capacity to issue \$56.53 million of additional unvoted general obligation debt.

WARREN COUNTY, OHIO

The principal amount of the County's special assessment debt outstanding at December 31, 2009 of \$13,657,815 is general obligation debt (backed by the full faith and credit of the County). This debt is being retired with the proceeds from special assessments levied against benefited property owners. The County is obligated to repay the debt irrespective of the amount of special assessments collected from property owners. The fund balance of \$1,797,320 in the Special Assessment Debt Service Fund at December 31, 2009 is reserved for the retirement of outstanding special assessment bonds.

This space intentionally left blank.

C. Conduit Debt Obligations

In order to provide financial assistance to private sector entities for the acquisition and construction of commercial and industrial facilities deemed to be in the public interest, the County has, from time to time, issued conduit debt. This debt is secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Ownership of the acquired facilities transfers to the private sector entity served by the bond issuance upon repayment of the bonds. Neither the County, the State nor any other political subdivision thereof is obligated in any manner for the repayment of the bonds. Accordingly, the conduit debt is not reported as liabilities in the accompanying financial statements.

As of December 31, 2009 there were thirteen (13) series of conduit debt outstanding. The aggregate principal amount payable for these series issued prior to January 1, 1996, could not be determined; however, their original issue amounts totaled \$15,150,000. Issue amounts for conduit debt issued after January 1, 1996 are monitored and currently have an outstanding principal debt totaling \$96,353,402 which brings the total conduit debt to \$111,503,402.

WARREN COUNTY, OHIO

**Notes to the Basic Financial Statements
For the Year Ended December 31, 2009**

NOTE 15 - CAPITAL LEASES

In prior years, the County has entered into capital leases for copiers and a postage machine. Equipment acquired by lease has been capitalized in the government-wide statements governmental activities in the amount of \$25,621. The County's future minimum lease payments under lease obligations, which have been capitalized as of December 31, 2009, are as follows:

<u>Year Ending December 31,</u>	<u>Capital Leases</u>
2010	\$3,574
2011	3,574
2012	3,574
2013	<u>2,085</u>
Minimum Lease Payments	12,807
Less amount representing interest at the County's incremental borrowing rate of interest	<u>(1,763)</u>
Present value of minimum lease payments	<u><u>\$11,044</u></u>

NOTE 16 - CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

As of December 31, 2009, the County had the following significant construction projects that will be financed through Water and Sewer Surplus Revenues and General Fund Revenues:

<u>Projects</u>	<u>Remaining Construction Commitment</u>	<u>Expected Date of Completion</u>
Lower Little Miami WWTP	\$27,728,749	2012
Courts Bldg Construction	<u>1,480,698</u>	2012
Total	<u><u>\$29,209,447</u></u>	

NOTE 17 - RELATED PARTY TRANSACTION

Warren County provided salaries for administration, supervision, and facilities to Production Services Unlimited, Inc. (PSU), a discretely presented component unit of Warren County. PSU reported \$641,176 for these contributions, recording revenue and expenses at cost or fair market value, as applicable (the reported number is from 2008 and is the most recent number available).

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 18 - CONTINGENCIES

The County is a party to various legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects. The County's management is of the opinion that the ultimate disposition of the various claims and legal proceedings will not have a material, adverse effect on the County's financial position.

The County participates in a number of Federal and State assisted grant programs. The significant programs are the Waiver Day Habilitation, Title XIX Medical Assistance Program, State Homeland Security Program, Community Development Block Grant, Youth Services-Out of Home Placement Grant and the Workforce Investment Act. These programs are subject to financial and compliance audits by grantors or representatives. The County believes that disallowed claims, if any, will not have material adverse effect on the County's financial position.

NOTE 19 - RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The County Risk Sharing Authority, Inc. (CORSA) is a risk sharing pool made up of sixty-six counties in Ohio. CORSA was formed as an Ohio nonprofit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the various specified insurance coverage provided by CORSA. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of the Corporation are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County does not have an equity interest in CORSA.

Insurance coverage stayed the same as coverage in the prior year. Settled claims during the last eight years have not exceeded commercial insurance coverage.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 19 - RISK MANAGEMENT (Continued)

The County has a group health insurance program for employees and their eligible dependents. Premiums are paid into an internal service fund by all funds having compensated employees, based upon an analysis of historical claims experience, the desired fund balance and the number of active participating employees. The monies paid into the Health Insurance Fund (internal service fund) are available to pay claims and administrative costs. The plan is administered by a third party administrator, Custom Design Benefits, who monitors all claim payments. Excess loss coverage, carried through United of Omaha, becomes effective after \$150,000 per year per specific claim. There is a lifetime maximum coverage per person of \$2,000,000.

The total claims liability of \$1,594,953 comprised of Board of Developmental Disabilities (BDD) and County health insurance, reported (at face value) within the BDD Fund (major special revenue) and the Health Insurance Fund (internal service) at December 31, 2009 is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Both funds are reported within the governmental activities on the entity wide statements.

Changes in each of the fund's claims liability amount in 2009 were:

	<u>Balance at December 31, 2008</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Balance at December 31, 2009</u>
BDD				
2008	\$3,188	\$95,686	(\$94,564)	\$4,310
2009	4,310	142,125	(127,020)	19,415
County:				
2008	\$1,148,024	\$9,538,838	(\$9,290,935)	\$1,395,927
2009	1,395,927	11,023,568	(10,843,957)	1,575,538

NOTE 20 - JOINT VENTURE

Warren/Clinton Counties Recovery Services Board

Warren County is a member of Mental Health Recovery Services of Warren and Clinton Counties (MHRS), a joint venture between the two county entities and is the local Alcohol, Drug Addiction, and Mental Health Services (ADAMHS) Board as defined by the Ohio Revised Code. The mission of MHRS is to share hope and caring to achieve recovery from mental illness, alcoholism, and drug addiction.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2009***

NOTE 20 - JOINT VENTURE (Continued)

MHRS is governed by an 18-member board of directors, four of which are appointed by the Ohio Department of Mental Health (ODMH) and four by the Ohio Department of Alcohol and Drug Addiction Services (ODADAS). The remaining ten members are appointed by the Warren County Commissioners and the Clinton County Commissioners. MHRS' main sources of revenue are grants and other allocations from the two state departments previously named and a property tax levy in both counties.

MHRS contracts with independent, nonprofit agencies to provide services and programs. The Warren County Auditor and Treasurer maintain MHRS's financial records. Financial statements and the Single Audit Report of Examination are on file and can be obtained by writing to the Warren County Auditor's Office, 406 Justice Drive, Lebanon, Ohio 45036. Pursuant to Section 340.016 of the Ohio Revised Code, any withdrawing county would be required to submit a comprehensive plan that provides for the equitable adjustment and division of debts and obligations of the Joint County District to the State Director of Mental Health.

A summary of the unaudited cash basis financial information for the year ended December 31, 2009 is presented below:

Warren/Clinton Counties Recovery Services			
Assets	\$11,345,669	Revenues	\$16,272,037
Fund Equity	\$11,345,669	Expenses	\$15,802,884
		Net Income	<u>\$469,153</u>

*COMBINING AND INDIVIDUAL FUND
STATEMENTS AND SCHEDULES*

*THE FOLLOWING COMBINING STATEMENTS AND SCHEDULES INCLUDE
THE MAJOR AND NONMAJOR GOVERNMENTAL FUNDS, INTERNAL
SERVICE FUNDS AND FIDUCIARY FUNDS.*

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than amounts relating to major capital projects) that are legally restricted to expenditures for specified purposes.

Motor Vehicle and Gasoline Tax Fund

To account for monies received by the County for state gasoline tax and vehicle registration fees used for County road and bridge repair and improvements programs. Expenditures for township road and bridge work are reimbursed by the townships.

Human Services Fund

To account for various Federal and State grants and reimbursements as well as transfers from the General Fund used for human services programs.

Dog and Kennel Fund

This fund is used to account for fees collected for defraying the cost of administering the registration program, for compensation of the county dog wardens, deputy pound keepers and staff and for the payments of animal claims.

Permissive Tax Fund

To account for municipal motor vehicle permissive tax revenues from the State used for County road and bridge repair and improvement programs.

Real Estate Assessment Fund

To account for State mandated County-wide tax assessing expenses that are funded by charges to the political subdivisions located within the County.

Children's Services Board Fund

To account for various Federal and State grants and reimbursements used for County child care and adoption programs.

Youth Services Subsidy Fund

To account for revenues from the State for the purpose of maintaining a restitution program for juvenile offenders administered by the juvenile court.

Delinquent Real Estate Tax and Assessment Fund

This fund accounts for five percent (5%) of all certified delinquent taxes and assessments collected by the County Treasurer. These funds are used for the collection of delinquent property taxes and assessments and are appropriated one half to the County Treasurer and one half to the County Prosecuting Attorney.

(Continued)

Special Revenue Funds

Certificate of Title Administration Fund

To account for revenues and expenditures of the Clerk of Courts vehicle title registration operations.

Warren County Solid Waste District Fund

To account for assessed disposal fees from a privately owned and operated landfill and to implement reduction, reuse and recycling techniques.

Workforce Investment Act Fund

To account for grants from the Federal Government for employment and training needs of area job seekers.

Pass Through Grants Fund

To account for Federal or State grants that are passed through Warren County to other grant sub-recipients.

Child Support Enforcement Fund

To account for revenues from 2% poundage fees, fines, Federal and State grants and other similar revenue sources, and to account for legally restricted expenditures used for the collection and protection of support payments made and owed to parents and children.

Emergency Management Fund

To account for Federal and State funds used to assist the County, local government and the public in preparedness and recovery during emergency or disaster situations.

Community Development Fund

To account for Federal and State grants and expenditures as prescribed under the Community Development Block Grant Program.

Court Computerization Fund

To account for additional fees which could be charged by the different courts for computerization of the court and the office of the clerk of each court.

County Court Special Projects Fund

To account for revenues from fines and costs pursuant to section 1907.24(B)(1) of the Ohio Revised Code to be used for special projects of the County Court for more efficient operation.

County Transit Fund

To account for Federal and State grant proceeds used for capital and operating expenditures of the County's transit system.

(Continued)

Special Revenue Funds

Other Special Revenue Fund

To account for revenues from: fees, taxes, fines, Federal and State grants, licenses and other similar revenue sources, and to account for legally restricted expenditures for specific purposes. The following funds, when compared to combined Special Revenue Fund totals, comprise less than 10% in each of the categories of assets, liabilities, revenues and expenditures:

- Law Library Resources Fund – Modified Accrual Basis Only**
- Veteran’s Memorial Fund**
- Federal Emergency Management Agency (FEMA) Fund**
- Common Pleas Mental Health Grant Fund**
- Domestic Shelter Fund**
- Crime Victim Grant Fund**
- Prosecutor Grants Fund**
- County Court Probation Department Fund**
- Donations Fund**
- Municipal Victim Witness Fund**
- Job Training Partnership Act Fund**
- Community Corrections Fund**
- Sheriff Grants Fund**
- Indigent Guardianship Fund**
- Indigent Driver Fund**
- Drug Law Enforcement Fund**
- Law Enforcement Fund**
- Treatment Alternative to Street Crime (TASC) Grant Fund**
- Hazardous Materials Emergency Fund**
- Enforcement and Education Fund**
- Rehabilitation Grants Fund**

Debt Service Funds

Debt Service Funds are used to account for retirement of the County's general obligation and special assessment bonds

Court Building Construction Fund

To account for the bond anticipation note which provided the source of financing for the construction of a new County Courts Building in a prior period. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

Tax Increment Financing Fund

To account for revenue received from payments in lieu of taxes from Proctor and Gamble collected during annual tax billings, which provide the source of financing for long-term debt incurred for water and sewer line construction.

State Ohio Public Works Commission (OPWC) Loan Fund

To account for Ohio Public Works Commission loan which provided the source of financing for the reconstruction of Columbia Road in a prior period. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

(Continued)

Debt Service Funds

State Department of Transportation (DOT) Loan Fund

To account for the County Engineer's repayment of principal and interest for a DOT loan which provided financing for a portion of the US 22 Road Widening Project.

Tax Increment District Revenue Bond Fund

To account for revenue received from payments in lieu of taxes from property owners of the Greens of Bunnell Hill Project. Payments collected during annual tax billings provide the source of revenue for the long-term debt payments incurred for this project.

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds.

County Road Projects Fund

To account for Ohio Public Works Commission Grants and the related County share of financing to repair and construct various County roads.

Water Extension Projects Fund

To account for the bond anticipation note which provided the source of financing for construction of water line extensions in various areas of the County to be financed by special assessments from property owners.

Sewer Extension Projects Fund

To account for the bond anticipation note which provided the source of financing for construction of sewer line extensions in various areas of the County to be financed by special assessments from property owners.

County Construction Projects Fund

To account for the bond anticipation note which provided the source of financing for the Justice Drive Street Extension and various improvements to County buildings.

Airport Construction Fund

To account for the grant anticipation financing of the extension and resurfacing of a runway at the County airport.

Redevelopment Tax Equivalent Fund

To account for expenses and sources of financing for public improvements to the Greens of Bunnell Hill Incentive District.

Permanent Fund

The Permanent Fund is used to account for the financial resources that are legally restricted in that only the earnings, not the principal, may be used to support the County's programs.

Scheurer - Smith Trust Fund

To account for restricted private sector contributions whose earnings are earmarked for education of the children of the Mary Haven Center.

Internal Service Funds

The internal service funds are used to account for the financing of goods or services provided by one department to other departments of the County on a cost-reimbursement basis.

Vehicle Maintenance Fund

To account for vehicle maintenance services provided to various County departments and other governmental units. Users are billed for costs incurred.

Health Insurance Fund

To account for claims and administration of the health insurance program for covered County employees and eligible dependents. County departments are billed according to the employee's family or marital status.

Workers' Compensation Self Insurance Fund

To account for the accumulation and allocation of costs associated with self-insured workers' compensation costs incurred by the county.

Gasoline Fund

To account for the centralized purchase of gas and corresponding charge backs to departments and other government units based on use.

Fiduciary Funds

The Agency Funds are used to account for assets held by the County as an agent for individuals, private organizations, other governments and/or other funds.

Agency Funds

Employees Retirement Fund

To account for the accumulation of the employer's share of contributions until remitted to State OPERS.

Townships, Corporations, Schools, Special Districts, Libraries Fund

To maintain and account for distributions of various revenue sources to subdivisions within the County.

Undivided Water and Sewer Revenue Fund

To account for the undivided water and sewer billing deposits to be distributed to the Water and Sewer Funds.

Payroll Fund

To maintain and account for the accumulation of payroll withholdings until payment is remitted to third parties.

Undivided General Tax, Tangible Personal Tax, County Lodging Tax, Advance Estate Tax Fund

These various and separate funds maintain and account for the accumulation and disbursement of taxes for real property, intangible property, estate tax and hotel lodging tax.

Local Government Fund

To maintain and account for the accumulation and disbursement of State revenue sharing monies.

Gasoline Tax Fund

To maintain and account for the accumulation and disbursement of gasoline tax collections.

Motor Vehicle License Fund

To maintain and account for the accumulation and disbursement of automobile license and registration fee collection.

Trailer Tax Fund

To maintain and account for the accumulation and disbursement of mobile home tax collections.

(Continued)

Agency Funds

Undivided Interest Fund

To maintain and account for the accumulation and disbursement of the County's investment earnings.

Non-Entity Holdings Fund

To account for funds held for various separate agencies, boards and commissions where the County serves as fiscal agent only.

Clerk of Courts, Common Pleas Court-Probate Court, Child Support Enforcement Agency, County Court, Juvenile Court, Prosecuting Attorney, Sheriff and Engineer Fund

These various and separate funds maintain and account for court fees, alimony, child support, restitution, boarding home fees, donations, funds held in escrow and other similar resources and uses. These funds are held in segregated cash accounts outside of the County treasury.

Other Agency Funds

To maintain and account for resources and uses for taxes, escrowed monies, licenses, estates and similar revenue sources. The following funds represent the less significant agency funds of the County.

Undivided Trailer Tax	Undivided Drug Task Force Seizures
Cigarette Tax	Massie Wayne Capacity Fees
Undivided Wireless 911 Government Assist	Non-Participant Rotary
Real Estate Advance	Forfeited Land
Law Library	Housing Trust Authority
Life Insurance	Undivided Auction Proceeds
State	Recorder's Escrow Rotary
Miami Conservancy District	Undivided Indigent Fees
Ohio Elections Commission	Water Department
Sewer Rotary	Dog and Kennel

Statistical Section

STATISTICAL TABLES

This part of the County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the county's overall financial health.

Contents

Financial Trends	S 2 – S 13
These schedules contain trend information to help the reader understand how the County's financial position has changed over time.	
Revenue Capacity	S 14 – S 25
These schedules contain information to help the reader understand and assess the factors affecting the County's ability to generate its most significant local revenue sources, the property tax and the sales tax.	
Debt Capacity	S 26 – S 35
These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.	
Economic and Demographic Information	S 36 – S 39
These schedules offer economic and demographic indicators to help the reader understand the environment within which the County's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	
Operating Information	S 40 – S 57
These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	
Sources Note:	
Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

(1) Additional Information on the various bond issues can be found in Note 14.

(2) Gross revenues include operating revenues plus interest income.

(3) Direct operating expenses include operating expenses less depreciation.

(4) Tap-in fees are the initial fee to new customers for connection to the existing system and are accounted for as nonoperating revenues - capital contributions - tap in fees. The Bond Council for the County is of the opinion that tap-in fees should be included in the calculation for enterprise revenue bond coverage.

(5) In 2005 both the Water and Sewer TIF bonds were refunded. The principal amount of the refunding portion is not reflected in the 2005 principal payment amount when calculating coverage.

Sources:

(1) Warren County Office of Economic Development

(a) Data starting in 2000 may be higher/lower than expected due to a change in how companies reported business information from previous years. NAICS codes were utilized for 2000-2008, creating some differences in reporting categories and patterns. Employment Distribution by Occupation Statistics are reflective of January of each year. In 2009 information was gathered from the Employment & Wage Industry Tool, Ohio Dept. of Job and Family Service.

(2) US Department of Commerce, Bureau of Economic Analysis information is only available through 2008 for the presentation of 2009 statistics, the County is using the latest information available.
