INDEPENDENT ACCOUNTANTS' REPORT

Northwestern Local School District Clark County 5610 Troy Road Springfield, Ohio 45502

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Northwestern Local School District, Clark County, (the District), as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Northwestern Local School District, Clark County, as of June 30, 2010, and the respective changes in financial position thereof and the budgetary comparison for the General fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 15, 2011, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Northwestern Local School District Clark County Independent Accountants' Report Page 2

Accounting principles generally accepted in the United States of America require this presentation to include Management's discussion and analysis, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The Schedule of Federal Awards Receipts and Expenditures provides additional information required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. The Schedule of Federal Awards Receipts and Expenditures is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This Schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 UNAUDITED

The discussion and analysis of Northwestern Local School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and the basic financial statements themselves to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2010 are as follows:

- Net assets, excluding amounts invested in capital assets net related of debt, were \$2.67 million. Of this amount, \$.62 million is restricted for the School District's capital outlay use.
- General revenues accounted for \$13.51 million in revenue or 77.00 percent of all revenues.
 Program specific revenues in the form of charges for services, grants and contributions accounted for \$4.03 million or 23.00 percent of total revenues of \$17.54 million.
- Assets, excluding capital assets and restricted cash, increased by \$0.73 million including a increases in cash and cash equivalents of \$0.37 million and income taxes receivable of \$0.29 million and a decrease in taxes receivables of \$0.18 million.
- The School District had \$17.25 million in expenses related to governmental activities; only \$4.03 million of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$13.51 million, along with cash balances, were adequate to provide for these programs.
- The General Fund had \$14.48 million in revenues and \$14.32 million in expenditures. The General Fund's balance at the close of the current year was 17.42 percent of the current year's expenditures.
- The School District issued \$28.24 million in debt during the fiscal year. Of this amount \$13.24 million was in short term notes and \$15.00 million long term Qualified School Construction Bonds.

Overview of the Financial Statements

The discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. The School District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements - The *government-wide financial statements* are designed to provide readers with a broad overview of the School District's finances, in a manner similar to private-sector business.

The *statement of net assets* presents information on all the School District's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *statement of activities* presents information showing how the School District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave.)

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 UNAUDITED (Continued)

Both of the government-wide financial statements distinguish functions of the School District that are principally supported by taxes and intergovernmental revenues (*governmental activities*). The government-wide financial statements can be found on pages 11 - 12 of this report.

Fund financial statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the School District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the School District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between the governmental activities statement of net assets and statement of activities.

The School District maintains nineteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and the statement of revenues, expenditures and changes in fund balance for the General Fund and Classroom Facilities Fund which are considered major funds. Data from the other seventeen governmental funds are combined into a single, aggregate presentation.

The School District adopts an annual appropriation budget for all of its governmental funds. Budgetary comparison statements have been provided for the General Fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found on pages 13 - 17 of this report.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the School District's own programs. The accounting used for fiduciary funds is much like that used for governmental funds. The basic fiduciary fund financial statement can be found on page 18 of this report.

Notes to the Basic Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements starts on page 19 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 UNAUDITED (Continued)

Graph 3 shows a breakdown of Fiscal Year 2010 expenses by percentages in the major categories.

The Major Funds

The School District's presentation of the major funds starts on page 13. These funds are accounted for using the modified accrual basis of accounting, focusing on the near term financial resources of the School District. All governmental operating funds had total revenues of \$17.37 million and expenditures of \$18.03 million. The total of other financing sources was \$15.18 million. The net change in fund balance for the year was an increase of \$14.51 million in all funds. The net change was most significant in the Classroom Facilities Fund with an increase of \$14.19 million.

The General Fund recognized \$1.70 million in current liabilities for fiscal year 2010. Accrued salaries and benefits accounted for 71.19% of those liabilities. Property Taxes Receivable accounted for 94.65% of the \$5.99 million receivables in the General Fund.

The Classroom Facilities Fund recognized \$13.56 million in current liabilities for fiscal year 2010. Notes and Interest Payable accounted for 98.36% of those liabilities. Restricted Cash and Cash Equivalents accounted for \$27.74 of the \$27.76 million in assets in the Classroom Facilities Fund.

General Fund Budgetary

Table 4 depicts the change from the original to the final General Fund revenue budget for the fiscal year ended June 30, 2010.

| Other | 1,290,642 | 1,522,520 | | |
| Total Revenues | \$14,072,899 | \$14,477,119 | | |

The original revenue estimates come from the Five Year Forecast approved in October, 2009. The final amount of property taxes includes \$560,633 of real estate tax advances received late in June. The final amount of intergovernmental does not include School Foundation Stabilization Fund (SFSF – 532) of \$410,052. The other variances from the original budget are insignificant.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 UNAUDITED (Continued)

State revenue makes up the majority of the intergovernmental revenue. The other portion is state real estate tax and personal property tax reimbursements.

Other revenues are made up mostly of open enrollment tuition, interest, and other dues and fees.

Table 5 depicts the change from the original to the final general fund expenditure budget for the fiscal year ended June 30, 2010.

| Other | 317,693 | 319,697 | | |
| Total Expenditures | \$14,046,445 | \$14,093,104 | | |

The original budget comes for the Permanent Appropriations adopted in October, 2009. The variances from the original to final budget were insignificant.

Capital Assets

At the end of the year, the School District had \$6,609,260 invested in land, construction in progress, buildings, equipment, and vehicles net of accumulated depreciation. For more detail information about the capital assets, refer to Note 9. Table 6 shows the breakdown of the individual classes for capital assets:

Debt Administration

Although it is not considered a long-term debt obligation, the School District does have a capital lease for \$537,046 (principal and interest) for an addition to Northwestern Elementary. Eight additional classrooms and a gymnasium were added to the school. The lease was originated in 1998, and will be completely paid in December, 2013. For further information on the School District's obligation refer to Note 14 of the financial statements.

On May 26, 2010, the school district sold Qualified School Construction Bonds in the amount of \$15,000,000. The entire principal is due December 1, 2026. The bonds were sold a taxable rate of 5.82%. The United States Treasury will issue checks to the school district to pay 5.50% interest. The net interest cost to the district will be 0.32%.

On February 18, 2010, the school district issued \$13,240,000 in short term notes. These notes are due December 1, 2010 and will be refinanced with Build America Bonds that were sold November 23, 2010.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 UNAUDITED (Continued)

For the Future

State funding is a major issue for the School District. The State of Ohio is now facing a possible major deficit in its budget. The Legislature is discussing spending cuts. In two years the State of Ohio will face a possible major loss in Federal funding in July, 2011. All of these issues could result in large cuts to education funding. The School District is projecting a 10% cut in state funding beginning July, 2011. The funding cuts could very possibly be larger than the projected 10% cuts.

In November, 2009, the voters of the School District approved a new 1% earned income tax. This is additional revenue that started with small collections in April, 2010. In August, 2010, the voters approved a new substitute levy that will replace the expiring emergency levies. Although this is not additional revenue, it does keep the current funding from these levies in place for another six years.

In conclusion, the Northwestern Local School District has committed itself to financial excellence for many years. Before the November, 2009 levy, the last increase in local tax millage was approved in 1992. The School District's system of financial planning, budgeting, and internal financial controls are well regarded. Current economic conditions present possible major challenges. Budget cuts have been made over the last couple years and more cuts will be made in the future as the revenue decreases. The School District plans to continue its sound fiscal management to meet the challenges of the future.

| Total Governmental Fund Balances | \$17,369,854 |
|---|--------------|
| Amounts reported for governmental activities in | |
| the statement of net assets are different because: | |
| Capital assets used in governmental activities are not financial | |
| resources and, therefore, are not reported in the funds. | 6,609,260 |
| Some of the School District's revenues will be collected after fiscal | |
| year-end, but are not available soon enough to pay for the current | |
| period's expenditures and therefore are deferred in the funds. | 727,004 |
| Long-term liabilities are not due and payable in the current period | |

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2010

| Net Change in Governmental Fund Balances | \$14,509,925 |
|---|--------------|
| Amounts reported in governmental activities in the statement of activities are different because: Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which | |
| capital outlays exceeded depreciation in the current period. | 604,320 |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | (14,983,830) |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Northwestern Local School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally elected Board form of government consisting of five members elected at-large for staggered four-year terms. The School District provides educational services as authorized by State statute and/or federal guidelines.

The School District is located in Clark County It is staffed by 75 non-certificated employees, 118 certificated full-time teaching personnel and 10 administrative employees who provide services to 1,877 students and other community members.

The reporting entity is comprised of the School District, component units, and other organizations that are included to ensure that the financial statements of the School District are not misleading. The School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Northwestern Local School District, this includes general operations, food service, preschool, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District has no component units.

The School District is associated with four jointly governed organizations and one insurance purchasing pool. These organizations are discussed in Note 17 to the basic financial statements. These organizations are:

Jointly Governed Organizations:

Miami Valley Educational Computer Association Southwestern Ohio Educational Purchasing Council Southwestern Ohio Instructional Technology Association Clark County Family and Children First Council

Insurance Purchasing Pool:

Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Northwestern Local School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the School District's accounting policies are described below.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the School District. The effects of interfund activity have been removed from these statements. *Governmental activities*, normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program Revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary fund, even though the latter is excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

B. Measurement Focus, Basis Of Accounting, And Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School District considers revenues to be available if they are collected within sixty days of the end of the fiscal period. Expenditures generally are recorded when a liability is expected to be liquidated with expendable, available resources. However, debt expenditures for the capital lease, as well as compensated absences, are recorded only when payment is due.

Property taxes, grants and entitlements, tuition, fees, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered measurable and available only when cash is received by the School District.

1. Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The District employs the use of two categories of funds: governmental and fiduciary.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

The School District reports the following major governmental funds:

The *General Fund* is the School's District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.

The Classroom Facilities Fund is provided to account for monies received and expended in connection with contracts entered into by the school district and the Ohio School Facilities Commission for the constructing and equipping of the School District's new school buildings.

3. Fiduciary Fund

Fiduciary fund reporting focuses on net assets and changes in net assets. The District maintains only one fiduciary fund, an agency fund known as the Student Activities Fund. The fund was established to account for revenues generated by student managed activities. The District's agency fund is custodial in nature (assets equal liabilities) and reported on the accrual basis of accounting; however, it does not have a measurement focus.

When both restricted and unrestricted resources are available for use, it is the District's policy to use the restricted resources first, then unrestricted resources as they are needed.

C. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The Board of Education determines the District's legal level of control through passage of the appropriation resolution, which was at the object level for the General Fund and at the fund level for all other funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the Clark County Budget Commission for rate determination.

2. Estimated Resources:

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statement reflect the amounts in the final amended certificate that was in effect at the time the final appropriations were passed by the Board of Education. Prior to year-end, the School District requested and received an amended certificate of estimated resources that reflected actual revenue for the fiscal year.

3. Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education. The Board of Education determines the District's legal level of control through passage of the appropriation resolution, which was at the object level for the General Fund and at the fund level for all other funds. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission. Some revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund must be approved by the Board of Education. The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources.

During the year, nine supplemental appropriations were legally enacted; however, none of them were significant. The budget figures that appear in the statement of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. The Treasurer has been given the authority to further allocate appropriations to objects within each fund and function for funds other than the General Fund. Formal budgetary integration is employed as a management control device during the year for all funds, other than agency funds, consistent with statutory provisions.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Lapsing of Appropriations:

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not re-appropriated.

D. Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled in a central bank account. Monies for all funds are maintained in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the statement of net assets and governmental fund balance sheet.

The School District reports the balance of notes and bond proceeds as "restricted cash and cash equivalents" on the Statement of Net Assets and the Governmental Funds Balance Sheet.

During fiscal year 2010, the School District's investments were limited to funds invested in the State Treasury Assets Reserve of Ohio (STAR Ohio), Federal Home Loan Bank Notes, Federal Farm Credit Bank Notes, Federal Home Loan Mortgage Corporation Notes, Federal National Mortgage Association Notes, Federal Home Loan Mortgage Corporation Discount Notes, Federal National Mortgage Association Discount Notes, Federal Home Loan Bank Discount Notes, First America Treasury Market Fund, and Fifth Third Institutional Money Market Fund.

STAR Ohio is an investment pool managed by the State Treasurer's Office that allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price that is the price the investment could be sold for on June 30, 2010.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2010 amounted to \$20,246 which includes \$14,118 assigned from other funds. The debt service fund, food service special revenue fund, and classroom facilities capital projects fund received \$58, \$39, and \$28,571 respectively, interest. The permanent fund received \$6 interest.

E. Inventory

Inventories of all funds are stated at cost. Cost is determined on a first-in, first-out basis. Inventory consists of expendable supplies held for consumption. The cost of inventory items is recorded as expenditure when purchased. Reported material and supplies inventory is equally offset by a fund balance reserve on the governmental fund balance sheet which indicates that it does not constitute available expendable resources even though it is a component of net current assets.

F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2010, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Capital Assets and Depreciation

Capital assets, which include property, plant, equipment, and vehicles, are reported on the government-wide statements. All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$500. The School District does not have any infrastructure.

Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of capital assets is also not capitalized.

Depreciation of furniture and equipment is computed using the straight-line method over an estimated useful life of ten years, with building improvements being depreciated over twenty years and buildings over fifty years. Improvements to fund capital assets are depreciated over the remaining useful lives of the related assets.

H. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

For governmental funds, the current portion of unpaid compensated absences is the amount normally due for payment during the current year. Matured leave payable in the fund financial statements represents the entire current portion. These amounts are reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The entire liability is reported on the government-wide statement of net assets.

I. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and other long-term obligations are reported on the government-wide financial statements. In general, governmental fund payables and accrued liabilities are reported as obligations of the funds if they will be liquidated with current resources. However, compensated absences are reported as liabilities in the fund financial statements only to the extent they will not be paid with current expendable available financial resources. In general, amounts paid more than sixty days after year-end are considered not to have been paid using current available financial resources.

J. Interfund Transactions

Exchange transactions between funds are reported as revenues in the seller fund and as expenditures in the purchase funds. Flows of cash or goods from one fund to another without requirement for repayment are reported as interfund transfers. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Deferred Revenues

Deferred revenues arise when assets are recognized before revenue recognition criteria have been satisfied.

Property and income taxes for which there is an enforceable legal claim as of June 30, 2010, but which were levied to finance fiscal year 2011 operations, have been recorded as deferred revenues. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenues.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

L. Exchange/Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 6). Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

M. Restricted Assets

Restricted assets in the General Fund are cash and cash equivalents whose use is limited by legal requirements. Restricted assets represent resources required by statute to be set-aside by the School District to create a reserve for budget stabilization. See Note 19 for the calculation of the year-end restricted asset balance and the corresponding fund balance reserve.

N. Fund Balance Reserves

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity that is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, inventory, property taxes, contributions and budget stabilization.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute. The reserve for budget stabilization represents money required to be set-aside by statute to protect against cyclical changes in revenues and expenditures.

O. Fund Designations

The School District designates fund balance to indicate tentative planned expenditures of financial resources. The designations reflect the School District's intentions, are subject to change, and are reported as part of unreserved fund balance. Fund designations are established for budget stabilization.

The designation for budget stabilization represents money set-aside for budget stabilization in excess of statutory requirements.

P. Net Assets

Net assets represent the difference between assets and liabilities in the statement of net assets. Net assets invested in capital assets are calculated, net of accumulated depreciation and reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Q. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

R. Reconciliation Of Government-Wide And Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheets includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this (\$16,415,306) difference are as follows:

| Bonds Payable | (\$15,000,000) |
|--|----------------|
| Premium on Bonds | (157,792) |
| Accrued Interest | (4,667) |
| Capital Lease Payable | (490,000) |
| Compensated Absences | (762,847) |
| Net Adjustment to reduces fund balance - total governmental funds to | |
| arrive at net assets – governmental activities | (\$16,415,306) |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Another element of that reconciliation explains that "capital assets used in governmental activities are not financial resources and, therefore, are not reported in the fund." The details of the \$6,609,260 difference are as follows:

| Capital Assets | \$16,654,203 |
|--|--------------|
| Accumulated Depreciation | (10,044,943) |
| Net Adjustment to increase fund balance – total governmental | |
| funds to arrive at net assets – governmental activities | \$ 6,609,260 |

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The reconciliation states that "Capital additions are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense." The details of this \$604,320 are as follows:

| Current Capital Additions | \$1 | ,052,981 |
|---|-----|-----------|
| Net loss on disposals | | (800) |
| Depreciation Expense | | (447,861) |
| Net Adjustment – capital assets to increase fund balance – total governmental | | |
| funds to arrive at net assets – governmental activities | \$ | 604,320 |

An element of that reconciliation states that "some items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures/revenues in the governmental fund." The details of this \$43,554 are as follows:

| Change in Leave Balances | (\$109,571) |
|--|-------------|
| Net Interest on Bonds | (4,667) |
| Net Issuance Cost | 157,792 |
| Net Adjustment – current financial resources focus to reduce fund balance | |
| total governmental funds to arrive at net assets – governmental activities | \$ 43,554 |

The reconciliation states that "revenues in the statement of activities that do not provide current financial resources are reported as revenues in the funds." The details of this (\$14,983,830) are as follows:

| Deferred Revenue Recognized | \$ 173,962 |
|-----------------------------|----------------|
| Proceeds from Sale of Bonds | (15,000,000) |
| Net Premium | (157,792) |
| Net Adjustment | (\$14,983,830) |

3. ACCOUNTABILITY AND COMPLIANCE

At June 30, 2010, the IDEA VI-B, SFSF, Title I School Improvement, and Title IIA special revenue funds have deficit fund balances of \$16,631, \$2,274, \$4, and \$765 respectively.

The General Fund is liable for any deficit in the IDEA VI-B, SFSF, Title I School Improvement, and Title IIA special revenue funds and provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

4. BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (non-GAAP Basis) and Actual – General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance.

The following tables summarize the adjustments necessary to reconcile the GAAP and budgetary basis statements by fund type:

| Net Change in |
|-----------------|
| Fund Balances - |
| General Fund |

| | General |
|----------------------|-----------|
| GAAP Basis: | \$175,250 |
| Revenue Accruals | 89,751 |
| Expenditure Accruals | 145,535 |
| Encumbrances | (59,677) |
| Budget Basis | \$350,859 |

5. DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable, or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two-year period of designation of depositories.

Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by, but not limited to, time certificates of deposit maturing not more than one year from the date of deposit, or must evidence interim deposits by savings or deposit accounts including passbook accounts.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

5. DEPOSITS AND INVESTMENTS (Continued)

Protection of School District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

State statute permits interim monies to be deposited or invested in the following securities:

- 1. United States treasury notes, bills, bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- Bonds, notes debentures, or any other obligations or security issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuance of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of
 the securities subject to the repurchase agreement must exceed the principal value of the
 agreement by at least two percent and be marked to market daily, and that the term of the
 agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio); and
- 7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred eighty days from the date of purchase in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements."

5. DEPOSITS AND INVESTMENTS (Continued)

A. Deposits

At fiscal year end, the carrying amount of the School District's deposits was \$1,358,562 and the bank balance was \$1,960,641. \$750,000 was insured by federal depository insurance. Based on criteria described in GASB 40, "Deposits and Investment Risk Disclosures", as of June 30, 2010, \$1,210,641 of the School District's bank balance was exposed to custodial credit risk because it was uninsured and uncollateralized with securities held by the pledging financial institution's trust department or agent, but not in the School District's name.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

B. Investments

As of June 30, 2010, the School District had the following investments.

| | | Maturity in Years | |
|---------------------------------|--------------|-------------------|--------------|
| | | Less than One | One to Five |
| Investment Type | Fair Value | Year | Years |
| FHLB Notes | \$15,424,423 | \$ 7,996,227 | \$ 7,428,196 |

| Total Investments | \$30,575,290 | \$16,787,694 | \$13,787,596 |

Interest Rate Risk - The School District has no investment policy that addresses interest rate risk. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and that an investment must be purchased with the expectation that it will be held to maturity.

Credit Risk - The Federal Home Loan Bank Notes, Federal Farm Credit Bank Notes, Federal Home Loan Mortgage Corporation Notes, Federal National Mortgage Association Notes, Federal Home Loan Mortgage Corporation Discount Notes, Federal National Mortgage Association Discount Notes, Federal Home Loan Bank Discount Notes carry a AAA rating from Standard and Poor's. The First American Treasury Market fund carries a Aaa rating from Moodys. STAR Ohio carries a AAAm rating from Standard and Poor's. The Fifth Third Government Money Market carries a AAA rating from Standard and Poor's. The School District has no investment policy that would further limit its investment choices.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

5. DEPOSITS AND INVESTMENTS (Continued)

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal National Mortgage Association Notes and the Federal Home Loan Bank Bonds are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty's trust department or agent but not in the School District's name. The School District has no investment policy dealing with investment custodial risk beyond the requirement in state statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Concentration of Credit Risk - The School District places no limit on the amount it may invest in any one issuer. The School District's investment in Federal Home Loan Bank Notes represent 50.45%, Federal Farm Credit Bank Notes represent 3.71%, Federal Home Loan Mortgage Corporation Notes represent 9.81%, Federal National Mortgage Association Notes represent 10.01%, Federal Home Loan Mortgage Corporation Discount Notes represent 5.34%, Federal National Mortgage Association Discount Notes represent 11.95%, Federal Home Loan Bank Discount Notes represent 7.33%, First America Treasury Market Fund represent 0.09%, Fifth Third Institutional Money Market Fund represent 0.79% and STAR Ohio represent 0.52% of the School District's total investments.

Cash and cash equivalents and investments are pooled for balance sheet classification on the basic financial statements because the pool consists of deposits, short-term investments or long-term investments that can be converted to liquid assets.

A reconciliation between the classifications of cash and investments on the fund financial statements and classification per GASB Statement No. 3 is as follows:

| | Cash and Cash Equivalents/Deposits | Investments |
|---|---|---|
| Equity in Pooled Cash and Cash Equivalents – Basic Financial Statements | \$31,933,852 | |

6. PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property located in the School District. Property tax revenue received during calendar 2010 for real and public utility property taxes represents collections of calendar 2009 taxes. Property tax payments received during calendar 2010 for tangible personal property (other than public utility property) is for calendar 2010 taxes.

2010 real property taxes are levied after April 1, 2010, on the assessed value as of January 1, 2010, the lien date. Assessed values are established by State law at thirty-five percent of appraised market value.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at thirty-five percent of true value. 2009 public utility property taxes became a lien December 31, 2009, are levied after April 1, 2010, and are collected in 2010 with real property taxes.

2010 tangible personal property taxes are levied after April 1, 2009, on the value as of December 31, 2009. Collections are made in 2010. Tangible personal property assessments are 12.5 percent of true value for remaining telephone tangible personal property. All other tangible personal property values have been eliminated.

Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20.

The School District receives property taxes from Clark and Champaign Counties. The Clark and Champaign County Auditors periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2010, are available to finance fiscal year 2011 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, personal property and public utility taxes, which became measurable as of June 30, 2010, and for which there is an enforceable claim. Although total property tax collections for the next fiscal year are measurable, only the amounts available as an advance at June 30, were levied to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not levied to finance current year operations. The total amount available as an advance at June 30, 2010 was \$576,896 and is recognized as revenue. \$560,633 was available to the general fund and \$16,263 was available to the permanent improvement capital projects fund.

7. INCOME TAX

The School District levies an income tax of one percent on earnings of one percent on substantially all income earned by School District residents.

Employers with employees based in the state of Ohio are required to withhold income tax on employee compensation and remit the tax to the Ohio Department of Taxation either monthly or quarterly. Individuals may make estimated payments.

Income tax proceeds are to be used to pay General Fund operations of the School District. The proceeds are allocated to the General Fund. Income tax for Fiscal Year 2010 was \$308,628.

8. RECEIVABLES

Receivables at June 30, 2010, consisted of property taxes, income taxes, accounts (student fees), accrued interest, and intergovernmental grants. All receivables are considered collectible in full due.

A summary of the principal items of intergovernmental receivables follows:

10. RISK MANAGEMENT

A. Property and Liability

The School District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2010, the School District contracted with Marsh Insurance for property, general liability, professional and fleet insurance. Coverage provided by Marsh is as follows:

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from last year.

B. Workers' Compensation

For fiscal year 2010, the School District participated in the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP), a workers' compensation insurance purchasing pool (Note 17). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience, and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Integrated Comp Inc. provides administrative, cost control, and actuarial services to the GRP.

11. DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

Plan Description - The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746. It is also posted on SERS at www.ohsers.org under Employers/Audit Resources.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

11. DEFINED BENEFIT PENSION PLANS (Continued)

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2010, 12.78 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2010, 2009, and 2008 were \$327,143, \$194,222, and \$180,304 respectively; 48.66 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

B. State Teachers Retirement System

Plan Description - The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are A member is eligible to receive a retirement benefit at age 50 and made by the member. termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

11. DEFINED BENEFIT PENSION PLANS (Continued)

Funding Policy - For the fiscal year ended June 30, 2010, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2009, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2010, 2009, and 2008 were \$919,652, \$893,140, and \$886,903 respectively; 82.84 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008. Contributions to the DC and Combined Plans for fiscal year 2010 were \$14,231 made by the School District and \$4,083 made by the plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System. As of June 30, 2010, four member of the Board of Education have elected Social Security. The School District's liability is 6.2% of wages paid.

12. POSTEMPLOYMENT BENEFITS

A. School Employee Retirement System

Plan Description – The School District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan, and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746. It is also posted on SERS at www.ohsers.org under Employers/Audit Resources.

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For 2010, 0.46 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2010, this amount was \$35,800.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility, and retirement status.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

12. POSTEMPLOYMENT BENEFITS (Continued)

The School District's contributions for health care for the fiscal years ended June 30, 2010, 2009, and 2008, were \$11,775, \$88,885, and \$82,278, respectively; 48.66 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare Part B Fund. For 2010, this actuarially required allocation was 0.76 percent of covered payroll. The School District's contributions for Medicare Part B for the fiscal year ended June 30, 2010, 2009 and 2008 (first year required disclosure) was \$19,455, \$16,025 and \$12,991, 48.66 percent has been contributed for fiscal year 2010 with 100% for fiscal year 2009 and 2008.

B. State Teachers Retirement System

Plan Description – The School District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2010, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The School District's contributions for health care for the fiscal years ended June 30, 2010, 2009, and 2008 were \$70,742, \$68,703, and \$68,223 respectively; 82.84 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

13. EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn five to twenty-five days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 220 days for classified and 255 days for certified personnel. Upon retirement, payment is made for 25 percent for teachers and 25 percent for other employees of accrued, but unused sick leave credit to a maximum of 55 days for certified employees.

B. Insurance Benefits

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Lincoln Financial. Medical/surgical benefits are provided through Medical Mutual, dental insurance through Core Source, and vision insurances through Vision Service Plan.

14. CAPITAL LEASES - LESSEE DISCLOSURE

The School District has entered into a capitalized lease for an addition to the Elementary School.

The lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the basic financial statements. These expenditures are reported as function expenditures on a budgetary basis.

Capital assets have been capitalized on the statement of net assets in the amount \$1,510,000 and a corresponding liability was recorded. This amount represents the present value of the minimum lease payments at the time of acquisition.

Principal payments in fiscal year 2010 totaled \$120,000.

The following is a schedule of the future long-term minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2010.

| Fiscal Year Ending June 30, | Capital Lease |
|---|---------------|
| 2011 | \$146,195 |
| 2012 | 145,012 |
| 2013 | 148,393 |
| 2014 | 97,446 |
| Total | 537,046 |
| Less: Amount Representing Interest | (47,046) |
| Present Value of Net Minimum Lease Payments | \$490,000 |

The annual debt service requirements to maturity for the capital lease payments are as follows:

| | Governmental Activities | | | |
|-----------------------------|-------------------------|----------|-----------|--|
| Fiscal Year Ending June 30, | Principal | Interest | Total | |
| 2011 | \$125,000 | \$21,195 | \$146,195 | |
| 2012 | 130,000 | 15,012 | 145,012 | |
| 2013 | 140,000 | 8,393 | 148,393 | |
| 2014 | 95,000 | 2,446 | 97,446 | |
| Total | \$490,000 | \$47,046 | \$537,046 | |

15. LONG-TERM LIABILITIES

The changes in the School District's long-term obligations (non-current liabilities) during fiscal year 2010 were as follows:

| | Amount Outstanding 6/30/09 | Additions | Deductions | Amount Outstanding 6/30/010 | Amounts Due in One Year |
|------------------------------|----------------------------------|--------------|------------|-----------------------------------|-------------------------|
| Governmental Activities: | | | | | |

15. LONG-TERM LIABILITIES (Continued)

Capital leases will be paid from the Permanent Improvement Fund. Compensated absences will be paid from the fund from which the employees' salaries are paid.

The School District's overall legal debt margin was \$18,931,903 with an unvoted debt margin of \$210,354 and an energy conservation debt margin of \$1,893,190 at June 30, 2010.

In November, 2009, voters in the School District approved the issuance of bond for the construction of two new school buildings to replace the three buildings currently in use.

On May 26, 2010, the School District sold Qualified School Construction Bonds in the amount of \$15,000,000. The entire principal is due December 1, 2026. The bonds were sold a taxable rate of 5.82%. The United States Treasury will issue checks to the school district to pay 5.50% interest. The net interest cost to the district will be 0.32%. The amortization schedule with net interest and the sinking fund payment is as follows:

| | Qualified School Construction Bonds | | | |
|--------------------------------|-------------------------------------|-----------|--------------|--|
| Fiscal Year Ending June 30, | Principal | Interest | Total | |
| 2011 | | \$ 48,667 | \$ 48,667 | |

| 2026-2027 | 2,795,000 | 72,000 | 2,867,000 | |
| Totals | \$15,000,000 | \$792,667 | \$15,792,667 | |

16. SHORT TERM NOTES

In November, 2009, voters in the School District approved the issuance of bond for the construction of two new school buildings to replace the three buildings currently in use.

On February 18, 2010, the School District issued \$13,240,000 in short term notes. These notes are due December 1, 2010 and will be refinanced with Build America Bonds.

A summary of the short-term notes transactions for the fiscal year follows:

17. JOINTLY GOVERNED ORGANIZATIONS AND INSURANCE PURCHASING POOL

A. Jointly Governed Organizations

Miami Valley Educational Computer Association - The School District is a participant in the Miami Valley Educational Computer System (MVECA) which is a computer consortium. MVECA is an association of public schools within the boundaries of Clark, Clinton, Fayette, Greene, and Highland Counties and Cities of Springfield, Wilmington, Washington Court House, Xenia, and Hillsboro. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts.

The governing board of MVECA consists of three Superintendents and three Treasurers of member school districts, with three of the four Superintendents and all three Treasurers elected by a majority vote of all member school districts except the Greene County Career Center. The fourth Superintendent is from the Greene County Career Center. The School District paid MVECA \$51,701 for services provided during the year.

Financial information can be obtained from Dean Reineke, who serves as Executive Director, at 330 East Enon Road, Yellow Springs, Ohio 45387.

Southwestern Ohio Educational Purchasing Council -The Southwestern Ohio Educational Purchasing Council (SOEPC) is a purchasing cooperative made up of nearly 126 school districts in 18 counties. The purpose of the cooperative is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC.

One year prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member obligations. Payments to SOEPC are made from the General Fund. During the fiscal year, the School District paid its medical, dental and vision insurances through the SOEPC. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Cooperative, Ken Swink, who serves as Director, at 303 Corporate Center Dr., Vandalia, Ohio 45373.

Southwestern Ohio Instructional Technology Association - The Southwestern Ohio Instructional Technology Association (SOITA) is a not-for-profit corporation formed under Section 1702.01 of the Ohio Revised Code. The purpose of the corporation is to serve the educational needs of the area through television programming for the advancement of educational programs.

The Board of Trustees is comprised of twenty-one representatives of SOITA member schools or institutions. The qualified members within the counties, i.e. Auglaize, Butler, Champaign, Clark, Clinton, Darke, Fayette, Greene, Hamilton, Logan, Mercer, Miami, Montgomery, Preble, Shelby, and Warren. Montgomery, Greene and Butler Counties elect two representatives per area. One at-large non-public representative is elected by the non-public school SOITA members as the state-assigned SOITA service area representative. One at-large higher education representative is elected by higher education SOITA members from within state-assigned SOITA service area.

All member districts are obligated to pay all fees, charges, or other assessments as established by the SOITA. Upon dissolution, the net assets shall be distributed to the federal government, or to a state or local government, for a public purpose. Payments to SOITA are made from the General Fund. During the fiscal year, the School District made no payments to SOITA. To obtain financial information, write to the Southwestern Ohio Instructional Technology Association, Larry Pogue, who serves as Director, at 150 East Sixth Street, Franklin, Ohio 45005.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

17. JOINTLY GOVERNED ORGANIZATIONS AND INSURANCE PURCHASING POOL (Continued)

Clark County Family and Children First Council – The Clark County Family and Children First Council (the Council) is a voluntary association established with the purpose to coordinate and integrate those services within Clark County which are available for families and children and to establish a comprehensive, coordinated, multi-disciplinary, interagency system for the delivery of such services in order to more effectively meet the needs of families and children.

The Board of Trustees is comprised of eighteen representatives of each of the members of the Council, including the Superintendent of the Clark County Educational Service Center, who was appointed by the Superintendents of the Clark County schools. All members are obligated to pay all dues as established by the Council to aid the financing of the operations and programs of the Council. The Northwestern Local School District does not pay any dues since the Clark County Educational Service Center represents the District. Any member withdrawing from the Council must give one hundred eighty days written notice to the Council after formal action of the member's governing board. To obtain financial information, write to the Clark County Family and Children First Council, Marilyn Demma, who serves as Treasurer, at 1345 Lagonda Avenue, Springfield, Ohio 45502.

B. Insurance Purchasing Pool

Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan - The School District participates in the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by an eleven member Executive Committee consisting of the Chairperson, the Vice-Chairperson, a representative from the Montgomery County Educational Service Center, and eight other members elected by majority vote of all member school districts. The Chief Administrator of GRP serves as the coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

18. CONTINGENCIES

Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2010.

19. SET-ASIDE CALCULATIONS AND FUND RESERVES

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years. The School District is also required to set aside money for budget stabilization to the extent of Workers' Compensation refunds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2010 (Continued)

19. SET-ASIDE CALCULATIONS AND FUND RESERVES (Continued)

The following cash basis information describes the change in the year-end set-aside amounts for textbooks, capital acquisition, and budget stabilization. Disclosure of this information is required by State statute.

| | Textbooks | Capital Acquisition | Budget Stabilization |
|--|-------------|---------------------|----------------------|
| Set-aside Cash Balance as of June 30, 2009 | (\$565,017) | | \$39,318 |
| Current Year Set-aside Requirement | 295,658 | \$295,658 | |
| Current Year Offsets | | (220,301) | |
| Qualifying Disbursements | (179,355) | (82,671) | |
| Totals | (\$448,714) | (\$ 7,314) | \$39,318 |
| Reserve Balance Carried Forward to FY 2010 | (\$448,714) | | |
| Restricted Cash as of June 30, 2010 | | | \$39,318 |

Although the School District had qualifying disbursements during the year that reduced the capital acquisition and textbook set-aside amounts to below zero. The extra amounts for textbooks/instructional materials may be used to reduce the set-aside requirements in future fiscal years.

20. SUBSEQUENT EVENTS

On November 23, 2010, \$13,240,000 in Build America Bonds were sold to finance the redemption the short term notes. The bonds carry a net interest rate of 4.21 percent after the rebate is applied. The bonds will mature on December 1, 2038 and will be repaid from the debt service fund.

21. CONTRACTUAL COMMITMENTS

The school district had major outstanding contracts related to school construction. The following estimated amounts remain on these contracts as of June 30, 2010:

| STAN Engineering | Commissioning Agent | \$ 121,904 |
|------------------------------|------------------------|------------|
| SHP | Architectural Services | 2,323,476 |
| Jackson Drilling | Geothermal Testing | 7,750 |

NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES FOR THE FISCAL YEAR ENDED JUNE 30, 2010

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports the Northwestern Local School District's (the District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Northwestern Local School District Clark County 5610 Troy Road Springfield, Ohio 45502

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Northwestern Local School District, Clark County, (the District) as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 15, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. Therefore, we cannot assure that we have identified all deficiencies, significant deficiencies or material weaknesses. However, as described in the accompanying schedule of findings we identified a certain deficiency in internal control over financial reporting, that we consider a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and timely corrected. We consider finding 2010-001 described in the accompanying schedule of findings to be a material weakness.

Northwestern Local School District Clark County Independent Accountants' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note a certain matter not requiring inclusion in this report that we reported to the District's management in a separate letter dated February 15, 2011.

We intend this report solely for the information and use of the management, Board of Education, and federal awarding agencies and pass-through entities and others within the District. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Northwestern Local School District Clark County 5610 Troy Road Springfield, Ohio 45502

To the Board of Education:

Compliance

We have audited the compliance of Northwestern Local School District (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of Northwestern Local School District's major federal programs for the year ended June 30, 2010. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Northwestern Local School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

Northwestern Local School District Clark County Independent Accountants' Report On Compliance With Requirements Applicable To Each Major Federal Program And On Internal Control Over Compliance Required by OMB Circular A-133 Page 2

Internal Control Over Compliance (Continued)

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We noted a matter involving federal compliance or internal control over federal compliance not requiring inclusion in this report, that we reported to the District's management in a separate letter dated February 15, 2011.

We intend this report solely for the information and use of the management, Board of Education, others within the District, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

Northwestern Local School District Clark County Schedule of Findings Page 2

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2010-001

Material Weakness: Major Fund Presentation

GASB Pronouncement Number 34 defines a major fund as those with total assets, liabilities, revenues, or expenditures of that individual governmental or enterprise fund are at least ten percent of the corresponding element total for all funds of that category or type and the same element that met the ten percent criterion is at least five percent of the corresponding element total for all governmental plus enterprise funds combined. Funds that meet both of these criteria are required to be reported separately from Other Governmental Funds in the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

The District's Classroom Facilities Fund met the above criteria to qualify as a major fund, but the District did not report it as a major fund in its financial statements. The required adjustments are as follows:

- Reduction of \$27,765,037 in Assets to Other Governmental Funds and an increase of the same amount to the Classroom Facilities Fund.
- Reduction of \$13,566,280 in Liabilities to Other Governmental Funds and an increase of the same amount to the Classroom Facilities Fund.
- Reduction of \$14,198,757 in Fund Balances to Other Governmental Funds and an increase of the same amount to the Classroom Facilities Fund.
- Reduction of \$184,009 in Revenues to Other Governmental Funds and an increase of the same amount to the Classroom Facilities Fund.
- Reduction of \$829,814 in Expenditures to Other Governmental Funds and an increase of the same amount to the Classroom Facilities Fund.
- Reduction of \$14,844,562 in Other Financing Sources to Other Governmental Funds and an increase of the same amount to the Classroom Facilities Fund.

The accompanying financial statements have been adjusted to reflect the changes noted above.

The District should review its financial statements to ensure all funds are properly presented as major funds. Failure to do so could result in financial statements that may be misleading and provide inaccurate information to the Board of Education and District management in decision making.
