

COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the year ended December 31, 2010

Members of the Board Ohio Public Employees Deferred Compensation Program 257 East Town Street, Suite 400 Columbus, Ohio 43215

We have reviewed the *Independent Auditors' Report* of the Ohio Public Employees Deferred Compensation Program, Franklin County, prepared by Clark, Schaefer, Hackett & Co., for the audit period January 1, 2010 through December 31, 2010. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Ohio Public Employees Deferred Compensation Program is responsible for compliance with these laws and regulations.

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Ohio Public Employees Deferred Compensation Program

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Dear Chair and Members of the Board:

We are pleased to present the Comprehensive Annual Financial Report for the Ohio Public Employees Deferred Compensation Program (the Program) for the year ended December 31, 2010. The Comprehensive Annual Financial Report was prepared to assist the user in understanding the functions of the Program and how participants use the Program to supplement their retirement income. Program management is responsible for the contents of this presentation. Management's Discussion and Analysis (MD&A) complements this letter of transmittal and should be read in conjunction with it.

The Ohio Revised Code created the Deferred Compensation Board (the Board) to administer the Program for all eligible employees. The Program provides services to more than 199,000 participants from 1,772 State and local governments. The State created the Program as a separate legal entity from the State and does not appoint a voting majority of the Program's governing Board. The Program is self-funded and governed by its own Board. The State does not approve the Program's budget or set Program rates or charges. Therefore, the Program is not part of the State of Ohio reporting entity.

Program History and Overview

The Program first received deferrals in 1976 pursuant to Internal Revenue Code (IRC) Section 457 and Ohio Revised Code Section 148. Any public employee who is eligible to participate in one of the state's statutory retirement systems (including the Cincinnati Retirement System) is eligible to contribute, on a pre-tax basis, a portion of their annual includable compensation. Withdrawals may be made at retirement, death, or termination of employment, or due to certain qualifying unforeseeable emergencies. Participation is strictly voluntary, and the Program is intended to supplement retirement benefits from the other statutory retirement systems.

Economic Conditions and Outlook

During 2008, the one-year return on equities was down 37.0 percent, as measured by the S&P 500. This decline was driven by a global credit crisis that affected all sectors of the stock market. The market decline was responsible for a 17.1 percent decrease in Program assets. In light of the struggling economy, consumer confidence plunged, unemployment rose, and government tax revenues fell.

Expectations for 2009 were uncertain, as the financial markets continued to experience volatility and U.S. unemployment rose. Federal bailout and stimulus packages were implemented to address the credit and financial crises with hopes of calming the markets and restoring the economy. There was a rebound in the markets, and the 2009 one-year return on equities was up 26.6 percent, as measured by the S&P 500. Despite the market success in 2009, the underlying economy remained weak, especially the employment situation in Ohio. Hiring and wage freezes, unpaid furloughs, and lay-offs continued their negative effects on the economy, government budgets, and retirement savings.

Economic conditions continued their slow improvement in 2010, despite another year of strong financial market gains, which reported a one-year return of 15.1 percent, as measured by the S&P 500. Despite two years of positive market performance, the equity markets have not returned to the levels before the 2008 drop. The gains in employment have been slight, and State and Federal spending on unemployment benefits continued to grow. State and local government budgets have been stretched by the loss of tax revenue.

Program activities continue to be challenged by the economic conditions and the retirements of "baby boomers." Despite the slow rebound from negative economic conditions in 2008, there were some positive signs for the Program during 2010, including the following:

- Total year-end assets are \$8.3 billion an increase of 32 percent over two years ago.
- The average participant account balance rose to a record-high of \$41,281, which is 28 percent higher than two years ago.
- The total number of participant accounts rose by 3,882 to 199,945, which is a 3 percent increase over two years ago.
- An additional 8 employers joined the Program, bringing the total number of employers to 1,772, which is a 2 percent increase over two years ago.
- The average annual deferral contribution is \$4,123 per participant, which is 4 percent higher than two years ago.

The Program has established an administrative fund reserve policy to maintain three to twelve months of annual operating expenses in reserve. As of December 31, 2010, the Program had approximately eleven months of operating expenses in reserve and was in good financial shape to face further market fluctuations, which could negatively affect operating revenues.

Major Initiatives

Each year, the editors of *Plan Sponsor* magazine honor employers and plan sponsors who demonstrate leadership in providing supplemental retirement for workers. For 2010, the Ohio Deferred Compensation Program was named the **Public Sector/457 Plan Sponsor of the Year**. *Plan Sponsor* recognized the Program for its in-house recordkeeping, long history of fee disclosure, educational programs, plan features, and communications. The award is a reflection of the Board's strong, ethical leadership and to the collective dedication to serve our participants.

Educational communications to employees is an important ongoing priority to Program staff. Strategic objectives have included the formation of a comprehensive communication plan, development of fee disclosure presentations, and implementation of new technologies. The technology plans include enhancements to the participant, employer, and Board websites.

During 2009, Program staff sought Ohio legislation that would improve its operations. Staff drafted and promoted legislative language with the assistance of the Program Board members who are also members of the Ohio legislature. In July 2009, the Governor signed the proposed bill into law, which includes the following provisions:

- Codified the confidentiality of participant information
- Identified the Treasurer of State as the custodian of the deferred compensation receiving account for payroll deferrals
- Clarified the various investment options that may be offered to Program investors
- Created a mandatory opt-in/opt-out form that requires all newly hired employees of the State of Ohio to make a deferred compensation election.

The Program operated under these new provisions in 2010 and realized increased enrollments by State employees due to the new opt-in/opt-out form. This form has been offered to other non-State employers to encourage employee participation with similar positive results.

Financial Information and the Internal Control Structure

Program management is responsible for the information in this report and for establishing and maintaining a system of internal controls sufficient to provide integrity to all financial information and to permit reporting in conformity with accounting principles generally accepted in the United States of America. We believe that the information presented in this CAFR is accurately and fairly presented in all material respects. Internal controls can provide reasonable, but not absolute assurance that Program objectives will be met. The concept of

reasonable assurance implies a high degree of assurance, constrained by the costs and benefits of establishing incremental control procedures.

The net assets available for benefits and changes in net assets available for benefits of the Program are included as a Pension Fund in the Financial Section of this presentation. The Program reports all financial activity on the accrual basis of accounting. Additions are recorded in the period in which they are earned, and deductions are recorded in the period in which the liability is incurred.

Excess Administration Fund cash is held in money market accounts and certificate of deposits. Cash is held for capital acquisitions and is used to supplement monthly operations if administrative expenses exceed revenues during a given month. Management seeks to maintain sufficient cash reserves to cover three to twelve months of operating expenses.

Program Additions

Additions to Program assets may come from investment income earned on participant accounts, employee contributions, transfers from other plans, and recordkeeping reimbursements. Net investment income of \$655.0 million in 2010 and \$1.0 billion in 2009 combined to offset the investment loss of \$1.4 billion in 2008. Despite the market gains, employment uncertainty negatively affected employee contributions, which declined to \$446 million in 2010 versus \$455 million in 2009. The number of participants actively deferring decreased by 1.0 percent compared to last year-end, as many participants were concerned with market volatility and others were concerned about job security. The number of public employment positions decreased by 1.2 percent compared to 2009. The amount transferred from other retirement plans into the Program rose 31.8 percent between 2010 and 2009.

Program Deductions

During 2010, the amount of participant benefit distributions increased by 21.5 percent over 2009. Much of this increase is attributable to lower distributions in 2009, which were caused by the suspension of required minimum distribution rules in 2009 and a decrease in account values resulting from the equity market declines of 2008. The amounts transferred to other eligible retirement plans, including transfers to defined benefit plans to purchase service credit, increased 49.5 percent in 2010. Administrative expenses in 2010 increased by 3.1 percent over the prior year due, mostly, to higher customer service and health care costs.

Investments

The Program is a self-directed plan, so participants choose the investment options for their current deferrals and balances. The Board has adopted an investment policy to ensure that a sufficient number of suitable, diverse investment options are offered.

The stable value option continues to be the most popular investment choice and accounts for 49.0 percent of all invested assets. The one-year return on stable value investments was 3.6 percent in 2010. Participants can select from 15 mutual fund options, or select a balanced or target date fund to create a diversified portfolio. Investment performance results and related investment expense rates are reported to participants in their annual and quarterly statements, as well as the Program's newsletter and website. A listing of investment options and their performance returns is included in the Investment Section of this report.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) most recently awarded a Certificate of Achievement for Excellence in Financial Reporting to the Ohio Public Employees Deferred Compensation Program for the fiscal year ended December 31, 2009. The Certificate of Achievement is the highest form of recognition for excellence in State and local government financial reporting. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement program requirements, and we are submitting it to the GFOA to determine its eligibility for another Certificate of Achievement.

Auditor of State Award

The Program was presented with the "Making Your Tax Dollars Count Award" by the Ohio Auditor of State for its 2009 Comprehensive Annual Financial Report. The award demonstrates the Program's commitment to careful spending, accurate fiscal reporting, and efficiency.

Independent Auditors

The financial statements of the Program for the years ended December 31, 2010 and 2009 were audited by Clark, Schaefer, Hackett & Co. under contract with the Auditor of State of Ohio.

Acknowledgments

The preparation of this report reflects the combined efforts of the Program's staff under the direction of the Board and its Audit Committee. The purpose of this report is to provide complete and reliable information as a basis for making decisions and as a means for determining responsible stewardship over the assets contributed by participants.

Respectfully submitted,

R. Keith Overly Executive Director

Paul D. Miller, CPA Assistant Director-Finance

2 D. Mll

PLAN SUMMARY

Ohio Revised Code Section 148 established the Ohio Public Employees Deferred Compensation Plan (the Plan), which will at all times comply with the current Internal Revenue Code and Internal Revenue Service Regulations. The Plan is effective as to each eligible employee (i.e. public employees as defined in Section 148.01(A)(1) of the Ohio Revised Code) upon the date he or she becomes an active participant by executing a participation agreement with the employer.

This Plan summary includes all Plan revisions approved by the Board that were effective as of December 31, 2010. Participants should refer to the Plan Document for complete Plan information.

Delegation by Employer - The participating employers have delegated their administrative powers, duties, and responsibilities under the Plan to the Ohio Public Employees Deferred Compensation Board.

Commencement of Participation - Each eligible employee shall be permitted to participate under this Plan. An eligible employee shall elect to participate and become an active participant by executing a participation agreement with their employer. A participation agreement shall specify:

- a. The amount of the active participant's compensation, which the employer and the participant agree to defer, subject to limitations;
- b. The date as of which reduction and deferral of compensation pursuant to the participation agreement shall begin, which date shall be as early as administratively practicable, but no earlier than the first day of the first calendar month following the execution of the participation agreement; and
- c. The investment option(s) selected by the participant.

Maximum and Minimum Deferrals - Normally, the maximum amount that may be deferred by an active participant into the Plan in any Plan year shall not exceed the lesser of (A) \$16,500 for the year 2010, and then indexed as allowed by law in future years or (B) 100 percent of an active participant's includable compensation (as defined by the Internal Revenue Code). In addition, for the year 2010, participants who have attained age 50 may defer an additional \$5,500, which amount may increase in future years as indexed as allowed by law.

Under certain circumstances, participants may defer up to two times the normal annual deferral limit during each of the last three years prior to normal retirement age if the participant contributed less than the maximum amount during earlier years.

The limitations on the maximum amount of deferral above shall be reduced by any amount excluded from the participant's gross income for the Plan year under another Section 457 plan maintained by any employer.

The minimum deferral amount per pay shall be: (a) weekly pay \$7.00, (b) biweekly pay \$15.00, (c) semi-monthly pay \$15.00 or (d) monthly pay \$30.00. A minimum allocation to any investment option shall be \$10.00 per pay, or the full deferral if it is less than \$10.00.

Amendments of Participation Agreements - The election of an eligible employee to participate under the Plan is irrevocable as to all amounts actually deferred under the participation agreement. The participant may, by amendment of the participation agreement or other forms authorized by the administrator, do any of the following: (a) change the specification of any investment option as to the amounts to be deferred in the future; (b) terminate the election to be an active participant; or (c) change the amount of compensation to be deferred. An amendment or termination shall be effective as early as administratively practicable, but not earlier than the first day of the following calendar month.

Exchanges - A participant (or beneficiary, if the participant has died) may make exchanges between investment options. Any such exchange shall be effective at the price next computed following receipt of the exchange request and shall be subject to such restrictions as are established by the Plan administrator. Participants who complete four exchanges in any 45-day period will lose their electronic trading privileges, and be restricted to one mail-in exchange every five days for the following twelve-month period.

Maintenance of Accounts - The Plan administrator shall establish an account for each participant to which shall be credited or charged, as the case may be, amounts deferred under the Plan and any increase or decrease of the account value of the investment options specified in the participation agreement or any amendment thereto. All investment options offered under this Plan must be offered by persons, companies, or entities authorized and duly licensed by the State of Ohio and appropriate Federal agencies regulating such investments to do business in the State of Ohio. The Plan and the employer shall not be responsible for any decrease in value of a participant's account resulting from capital or market changes or any other changes occurring in the investment option or the participant's account. The Plan administrator may from time to time assess reasonable service charges against all or any portion of the deferred amounts or accounts to defray costs associated with the implementation and administration of the Plan.

Crediting of Accounts - Each participant's account shall be credited with amounts authorized for deferral and received by the Plan administrator.

Report - A report of the total amount credited to a participant's account, in such form as the Plan administrator determines, shall be furnished to the participant not more than 60 days after the end of each calendar quarter. All reports to a participant shall be based on the net fair market value of the investment options as of the end of the reporting period, to the extent such values are available to the Plan administrator.

Assets Held in Trust - Plan assets are not the property of participating employees. All Plan assets and income shall be held by the Board in trust on behalf of the employer for the exclusive benefit of participants and their beneficiaries. All assets, whenever contributed to the Plan, are assigned to the trust established by the Board.

Rollovers - Any participant who has separated from service with an employer with which the participant maintained an account under an eligible retirement plan may, upon proper written request, rollover the account value from that account to the participant's Ohio Public Employees Deferred Compensation Plan account.

Any participant who has separated from service with an employer with which the participant maintained an account with the Ohio Public Employees Deferred Compensation Plan may, upon proper written request, rollover the account value from that account directly to another eligible retirement plan.

Service Credit Purchase - Participants may use all or a portion of their account balances as a direct trustee-to-trustee transfer to a governmental defined benefit system, which permits the purchase of permissive service credit or the repayment of service credits.

In-Service Transfers - If an employer offers multiple IRC 457 deferred compensation plans, which meet certain conditions, the Plan will allow participants to move their account balances between plans as an in-service transfer prior to severance from employment.

Election of Benefit Payment Date - (a) Participant - Upon severance from employment, a participant may elect a date to begin receiving benefit payments from the Plan. Benefit payments may begin after verification of severance, receipt of final deferral, and completion of the Withdrawal Election Form. Payments must begin no later than December 31 of the year in which the participant reaches age 70½. If the participant has not had a severance from employment as of this date, then payments must begin no later than December 31 of the year in which the participant has a severance from employment.

(b) Beneficiary - If a participant or spousal beneficiary dies before his or her account has been exhausted, then the remaining account balance shall be paid to the designated beneficiary. The beneficiary shall have the right to elect a benefit option, subject to the following limitations. (1) If a participant dies on or after the required minimum distribution date, payments shall continue to be paid to the beneficiary at least as rapidly as they were being paid to the participant. (2) If a participant dies before the required minimum distribution date, the beneficiary may choose a payment option subject to the following requirements: (a) if the beneficiary is the participant's surviving spouse, distribution may be delayed until December 31 of the year in which the participant would have reached age 70½, or (b) if the beneficiary is someone other than the surviving spouse, distribution of the account must begin by December 31 of the year following the participant's death, or (c) if the beneficiary is not a person, such as a trust or estate, the entire account must be distributed by the end of the calendar year which contains the fifth anniversary of the participant's death. (3) If a spousal beneficiary dies after the participant, but before the full account value is distributed, any remaining account value will be paid to the spousal beneficiary's designated beneficiaries in a lump-sum payment.

Election of Benefit Payment Options - All distributions are subject to the requirements of IRC Sections 457(d) and 401(a)(9) and the regulations there under. The Plan administrator will annually determine if the participant's or beneficiary's annual distributions meet their minimum distribution requirements and adjust the amount, if necessary, to comply with these provisions.

Initial benefit payment elections and subsequent changes will be effective only if made on forms provided or in the manner prescribed by the Plan administrator and received by the date determined by the Plan administrator. Purchased annuity benefit payments options may not be changed once payments have begun. No benefit payment option shall be available which is not provided for on the benefit payment election form provided by the Plan administrator or is not permitted by the Plan document. Benefit payments are taxable income to participants and beneficiaries in the year of distribution and are subject to the applicable tax withholding rules.

Require Elections for Benefit Payment Date and Option - (a) Participant - If a participant does not choose a benefit payment date, benefit payments shall begin by December 31 of the year the participant reaches age 70½. Benefits shall be paid for a fixed time period over the maximum number of years allowed by the required minimum distribution tables.

(b) Beneficiary - If a spousal beneficiary of a participant who dies before the required minimum distribution date does not elect a benefit payment date, benefit payments shall begin by December 31 of the year the participant would have reached age 70½. If a non-spousal beneficiary of a participant does not choose a benefit payment date, benefit payments shall begin by December 31 of the year

following the participant's death. Benefits shall be paid for a fixed time period for the maximum number of years allowed by the required minimum distribution tables.

Emergency Withdrawals - A participant may request an unforeseeable emergency withdrawal by submitting that request in writing on the approved form to the Plan administrator's staff. If the request is denied, a request for review of the staff determination may be made in writing. If this review fails to confirm a claim of unforeseeable emergency, an appeal may be made in writing to the Board's Unforeseeable Emergency Appeals Committee. The decision of the Appeals Committee may be appealed to the Ohio Public Employees Deferred Compensation Board. The decision of the Board shall be final and not subject to further appeal. If at any time a request for withdrawal is approved, the Plan administrator may thereupon distribute so much of the participant's account as is necessary to provide the amount approved to meet the unforeseeable emergency.

Acceleration - If upon a participant's separation from service and the Board's receipt of the last deferral, the participant's account value is less than \$1,000, the Plan administrator may accelerate the payment of benefits otherwise due in the future and pay to such participant the full account value in a lump sum less the required tax withholding.

Qualified Domestic Relations Order - The Plan administrator shall comply with the provisions of a domestic relations order which the Plan administrator determines to constitute a Qualified Domestic Relations Order, as defined by the Internal Revenue Code. The Plan permits distributions at any time to an alternative payee under a Qualified Domestic Relations Order.

Small Balance Distribution - A participant may elect a small balance distribution if their account value is \$5,000 or less, the full value of the account is to be distributed, the participant has not deferred into the Plan for two years, the participant agrees not to recommence deferrals to the Plan for one year, and there has been no prior distribution under this Plan provision.

Benefit Payment Options - The following benefit payment options are available under the Plan. Definitions of each are provided on the benefit payment election form.

- 1. Payments of an annual percent.
- 2. Payments of a dollar amount
- 3. Systematic withdrawals for a fixed time period
- 4. Partial lump sum payout
- 5. Lump sum payout

Designation of Beneficiaries - At any time after commencing participation in the Plan, a participant or spousal beneficiary may designate a beneficiary or joint annuitant for any benefits which the participant or spousal beneficiary is entitled to receive under the Plan and which are unpaid at the time of the participant's death, on a form filed with and accepted by the Plan administrator. If a participant or spousal beneficiary dies without having a proper beneficiary form completed and on file, the benefits payable on or after the date of death shall be paid to the fiduciary of the probate estate; provided, however, that if the Plan administrator does not receive notice that a fiduciary has been appointed and qualified within 90 days after the death, payment may be made to those persons entitled to receive the property under intestacy laws of the jurisdiction of their residence at the time of the participant's death.

If a non-spousal beneficiary dies while receiving Plan benefits, any remaining benefits which the non-spousal beneficiary is entitled to receive under the Plan and which are unpaid at the time of the beneficiary's death shall be paid in a lump sum amount determined under each applicable investment option to the fiduciary of the beneficiary's probate estate; provided, however, that if the Plan administrator does not receive notice that a fiduciary has been appointed and qualified within 90 days after the death of the beneficiary, payment shall be made to those persons entitled to receive the beneficiary's property under the intestacy laws of the jurisdiction of the beneficiary's residence at the time of death.

If a trust is named as beneficiary, satisfactory evidence must be furnished to the Plan that the trust is the only beneficiary qualified to receive payment. The Plan will be fully discharged of liability for any action taken by the trustee and for all amounts paid to the trustee. In all dealings with the trust, the Plan will be fully protected against the claims of every other person. The Plan will not recognize a change in the trust as beneficiary unless the change is documented on forms provided by the Plan administrator.

Designation Forms - A participant may change any beneficiary or joint annuitant at any time by filing with the Plan administrator a dated change of beneficiary form or joint annuitant form. These designations shall be on forms provided by the Plan administrator and shall be effective on the date filed with and accepted by the Plan administrator. Any change of joint annuitant must be made prior to commencement of annuity payments.

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

Ohio Public Employees Deferred Compensation Board Columbus, Ohio

We have audited the accompanying statements of plan net assets of the Ohio Public Employees Deferred Compensation Program (the Program) as of December 31, 2010 and 2009, and the related statements of changes in plan net assets for the years then ended. These financial statements are the responsibility of the Program's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net assets of the Ohio Public Employees Deferred Compensation Program as of December 31, 2010 and 2009, and the changes in plan net assets for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated May 20, 2011, on our consideration of the Program's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 20 to 23 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the Program's basic financial statements. The supplementary information on pages 44 to 48, the introductory section on pages 4 to 17, the investment section on pages 50 to 53, and the statistical section on pages 55 to 59 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all materially respects in relation to the basic financial statements taken as a whole. The introductory section, the investment section, and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

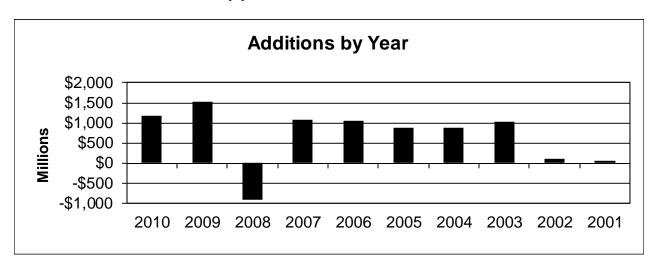

Management of the Ohio Public Employees Deferred Compensation Program offers this narrative overview of the financial statements contained in this Comprehensive Annual Financial Report. The financial statements consist of the Statements of Plan Net Assets and the Statements of Changes in Plan Net Assets. All assets and liabilities associated with the Program's operations are included on the Statement of Plan Net Assets. The Program's revenues and expenses are reported on the Statement of Changes in Plan Net Assets. Additional information is presented in the Notes to the Financial Statements and the Supplemental Information Schedules.

PROGRAM ADDITIONS

In a defined contribution plan, participants choose how much to defer from their pay and which investment options are appropriate for them. The average annual participant deferral was \$4,123 in 2010, near the historic high set in 2009. Investment performance can significantly affect Program additions, and positive market performance in 2010 and 2009 offset the market losses recorded in 2008.

<u>2010</u>	<u>2009</u>	<u>2008</u>
\$655,048,164	\$1,027,337,744	(\$1,429,112,572)
445,634,894	454,645,326	456,547,715
68,956,446	52,323,859	54,418,725
5,295,739	4,315,025	5,446,752
\$1,174,935,243	\$1,538,621,954	(\$912,699,380)
	\$655,048,164 445,634,894 68,956,446 5,295,739	\$655,048,164 \$1,027,337,744 445,634,894 454,645,326 68,956,446 52,323,859 5,295,739 4,315,025

The graph below shows the ten-year history of total additions. Employee contributions have generally trended up over this period, but are down slightly over the past two years. Investment earnings (or losses) have created the large fluctuations in total additions by year.

PROGRAM DEDUCTIONS

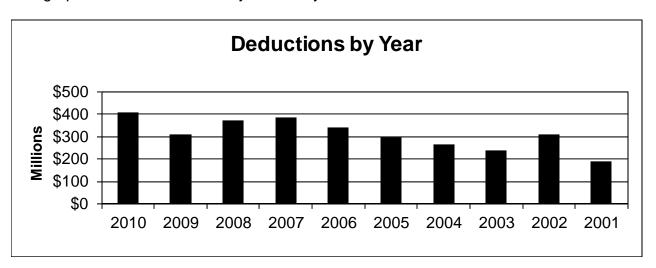

The general trend over the past ten years has been increasing total deductions due to higher withdrawals for benefit distribution and greater transfers to other retirement plans. The increase is due to more people taking distributions (retirement of baby-boomers) and greater amounts withdrawn (higher account balances resulting from positive market performance).

This upward trend took a pause in 2009, as both distributions and transfers showed a slight decrease. The financial market declines of 2008 dropped participant account values in 2009, and coupled with federal tax law changes that suspended the required annual distributions for those over age 70½, encouraged participants to lower their distribution requests in 2009. With higher account values and restoration of the required annual distribution in 2010, total deductions increased and were in line with the long-term trends.

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Distributions to participants	\$237,403,473	\$195,441,510	\$211,339,256
Transfers to other plans	161,420,823	107,995,835	154,784,361
Other deductions	8,772,552	8,515,384	8,603,889
Total Deductions	\$407,596,848	\$311,952,729	\$374,727,506

Transfers to other plans in 2010 increased by 49.5 percent over 2009, due largely to the rebound in participant account values. Compared to 2008 results, 2010 transfers were up only 4.3 percent, which reflects how the 2009 transfer data differed from the ten-year trend. Other deductions are primarily administrative expenses, which increased only 2.0 percent between 2008 and 2010.

The graph below shows the ten-year history of total deductions.

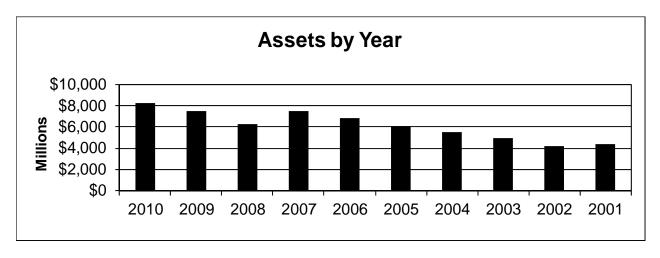

NET PROGRAM ASSETS

Total net assets available for Program benefits at December 31, 2010 increased 10.2 percent compared to 2009, primarily due to net investment income. Excluding investment gains, total additions exceeded total deductions by more than \$112 million, indicating that the Program is still a growing and viable plan. Program liabilities are generally unpaid operating expenses at year-end and trade settlement payments due for investments purchased on the final business day of the year.

<u>2010</u>	<u>2009</u>	<u>2008</u>
258,674,888	\$7,491,041,250	\$6,262,239,833
4,601,614	4,306,371	2,174,179
254,073,274	\$7,486,734,879	\$6,260,065,654
_		
767,338,395	\$1,226,669,225	(\$1,287,426,886)
′	258,674,888	258,674,888 \$7,491,041,250 4,601,614 4,306,371 254,073,274 \$7,486,734,879

As demonstrated by the graph below, total Program assets generally show a steady increase over the past ten years, representing an improvement to the overall financial position of the Program. After several years of positive market performance in the middle of this decade, a market downturn cycle was inevitable. However, the severity of the 2008 market downturn was one of historic proportions, leading to a considerable loss of Program assets. The financial markets have rebounded in 2009 and 2010, which offset the assets lost in 2008.

PROGRAM ACTIONS

The Program continues to emphasize the importance of competitive fees to participants. One proactive step towards lowering investment management fees was the transition from the A share class to the Advisor share class of the Templeton Foreign fund on July 16, 2010. This transition maintained the same investment strategy, but reduced the annual fees from 1.19 percent to 0.94 percent, which saves participants more than \$300,000 annually.

The Ohio Auditor of State is responsible for contracting for the independent audit of the Program's annual financial statements. The previous five-year contract expired with the audit of the December 31, 2009 statements. During 2010, Program staff worked with the Auditor's staff to publicly bid out the next audit contract term. Based on the results of the bidding process, the firm of Clark, Schaefer, Hackett & Co. was retained to annually audit the financial statements for the years ended December 31, 2010 through December 31, 2014.

In February 2009, the Program's administrative office relocated to a different space in downtown Columbus. In June 2009, the Program's Service Center relocated from a Columbus suburb to office space across the hall from the Program. The combined office space will save occupancy costs, create work efficiencies, and improve service to participants, because the new offices are within walking distance of most of the other statewide public employee retirement systems' offices.

STATEMENTS OF PLAN NET ASSETS

As of December 31, 2010 and 2009

	2010	2009
Assets:		
Investments:		
Stable value option	\$4,018,806,182	\$3,830,880,344
Mutual funds	3,880,354,337	3,401,471,201

Plan net assets - end of year	\$8,254,073,274	\$7,486,734,879

The accompanying notes are an integral part of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

1. General Description of the Program:

The following description of the Ohio Public Employees Deferred Compensation Program (the Program) is provided for general information only. Participants should refer to the Plan Document for complete information.

The Program is a voluntary defined contribution pension plan established pursuant to Ohio Revised Code (ORC) Section 148. Under the Program provisions, any public employee within Ohio (as defined in Section 148.01(A)(1) of the Code) is eligible to contribute into the Program, through payroll deductions, any amount up to the maximum permitted under Section 457 of the Internal Revenue Code. Amounts contributed by employees are deferred for Federal and State income tax purposes until such amounts are distributed by the Program. As of December 31, 2010 and 2009, there were 1,772 and 1,764 respectively, State and local governments actively participating in the Program.

Plan assets are not the property of the participating employees. All Plan assets and income are held by the Board in trust on behalf of the employers for the exclusive benefit of participants and their beneficiaries. All assets, whenever contributed to the Plan, are assigned to the trust established by the Board.

As of December 31, 2010, Program participants have the following investment options:

- A stable value option administered by the Program. Funds are managed and invested by Deutsche Asset Management (Deutsche), Goode Investment Management, Inc. (Goode), JP Morgan Investment Advisors (JP Morgan), Nationwide Life Insurance Company (Nationwide), Pyramis Global Advisors Trust Company (Pyramis), and State Street Bank and Trust (State Street).
- Mutual funds managed by Dodge & Cox Funds (Dodge & Cox), Fidelity Investment Company (Fidelity), First Pacific Advisors (FPA), Hartford Investor Services Company (Hartford), Janus Equity Funds (Janus), PIMCO Funds (PIMCO), Franklin Templeton Funds (Templeton), and The Vanguard Group, Inc. (Vanguard).
- Target date collective trust funds managed by BlackRock Institutional Trust Company (BlackRock). Until December 2009, these funds were managed by Barclays Global Investors NA (Barclays), when Barclays and BlackRock merged into one company.

 Universal life and whole life insurance contracts underwritten by Ohio National Life Insurance Company (Ohio National). Effective January 1, 1989, these life insurance contracts were no longer offered as new investment options available to participants.

Participants may withdraw the value of their deferred account upon termination of employment, retirement, disability, or unforeseeable financial emergency. Participants may select various payout options including lump sum payments or payments over various periods. If a purchased annuity option was selected, the payments may be actuarially determined.

At termination of employment or retirement, participants investing in universal and whole life insurance contracts may continue to make premium payments directly to the insurance carrier, or they may receive the cash surrender value of the contract less any applicable surrender charges. In the case of the death of a participant, the face value of the insurance contract is payable to their beneficiary as taxable ordinary income.

2. Summary of Significant Accounting Policies:

Organization:

The Ohio Revised Code Section 148.02 created the Deferred Compensation Board to administer the Program for all eligible employees. However, under the criteria set forth in governmental accounting standards, the Program is not considered a component unit of the State of Ohio, because of the following:

- The Program is a separate legal entity.
- The State does not appoint a voting majority of the Program's Board.
- The State does not approve the Program budget or set Program rates or charges.
- The Program provides services to Ohio local governments as well as to the State of Ohio.

The Ohio Deferred Compensation Board is comprised of the members of the Ohio Public Employees Retirement System (OPERS) Board, a member of the Ohio Senate, and a member of the Ohio House of Representatives. The two members from the Ohio General Assembly must be of different political parties and are appointed by their respective leadership. Seven members of the OPERS Board are elected by the groups they represent: retired employees (2), State employees, municipal employees, county employees, non-teaching employees of State colleges and universities, and miscellaneous employees. The four statutory Board members are the Director of the Ohio Department of Administrative Services and investment experts appointed by the Governor of Ohio, Treasurer of State, and Ohio General Assembly.

Basis of Accounting and Measurement Focus:

The activities of the Program are accounted for as a Pension Fund, and follow the accrual basis of accounting and reporting for defined contribution plans recommended by the Governmental Accounting Standards Board. The Program is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the Program's operations are included on the statement of plan net assets. Activities of the Program are accounted for in two funds, which are combined for the purpose of financial reporting:

Program Fund: The Program Fund reflects all employee contributions, earnings or losses on investments and distributions to participants.

Administration Fund: The Administration Fund is used to account for customer service and administrative costs incurred by the Board. The Administration Fund recovers the costs of its operations through fees charged to the Program Fund and from recordkeeping reimbursements from certain investment providers.

Stable Value Option:

The Program administers the Stable Value Option, which is the stable value investment option offered to participants. As of December 31, 2010, the Program has stable value funds invested with six different managers. The Program determines the quarterly interest rate credited to participants by calculating the net weighted average return of the portfolios. The Program is also responsible for calculating daily account balances, disbursing funds for benefit payments and processing investment exchanges.

The investment pools of the Stable Value Option include portfolios managed by Deutsche, Goode, JP Morgan, Nationwide, Pyramis, and State Street. The Program's investment policy specifies investment guidelines, including asset class, credit rating, portfolio diversification and duration. The Deutsche portfolio maintains a cash reserve account to buffer the invested pools from daily cash flows into and out of the Stable Value Option.

Funds invested in the portfolios are covered by guarantee agreements with banks and insurance companies. These agreements provide the formulas for determining the quarterly interest rate earned by the stable value investment portfolio and provide for benefit withdrawals at the guaranteed value.

Investments Valuation:

Investments of the Stable Value Option are valued at contract value, which represents contributions received, plus the interest credited, less applicable charges and amounts withdrawn.

Mutual fund investments are valued at the share prices of mutual funds as reported by the fund providers, which represent contributions received, plus appreciation (depreciation) of the underlying portfolio, less applicable charges and amounts withdrawn.

Collective trust fund investments are valued at the unit prices of the collective trust funds as reported by the fund providers, which represent contributions received, plus appreciation (depreciation) of the underlying portfolio, less applicable charges and amounts withdrawn.

Assets held for purchased annuities are valued at amounts reported by Nationwide, which are actuarially determined. These amounts represent reserves established by Nationwide and are based on actuarial assumptions as to anticipated mortality, withdrawals, and investment yield. Nationwide periodically adjusts and updates these assumptions.

Life Insurance Contracts:

As previously disclosed, universal and whole life insurance options are no longer available as new investment options. The cash value before surrender charges or other assessments of existing policies was \$930,500 and \$1,039,600 at December 31, 2010 and 2009, respectively. Premiums paid for these policies are expensed when made. The amount of life insurance in force was \$6,457,900 and \$6,665,100 at December 31, 2010 and 2009, respectively.

Stable Value Income:

Stable value income was recorded as earned for each of the investment components of the Stable Value Option. The gross crediting rates for each portfolio were adjusted quarterly and ranged from 2.69 percent to 4.76 percent during 2010, and from 3.19 percent to 4.86 percent during 2009.

The assets held for purchased annuities were credited interest based on reserve assumptions used by Nationwide at the participant's annuitization date. These annuitization rates ranged from -2.5 percent to 4.4 percent during 2010, and from -1.6 percent to 5.5 percent during 2009.

Net Gain or Loss on Invested Funds:

Mutual and collective trust fund investment income or loss consists of dividends and capital gains paid, and appreciation or depreciation on the funds.

Historical Trend Information:

Unaudited historical trend information designed to provide information about the Program's progress is presented in the accompanying Statistical Section of this presentation.

Property and Equipment:

Property and equipment of the Board are stated at cost less accumulated depreciation. Depreciation on property and equipment is calculated using the straight-line method over the estimated useful lives of the assets.

Board Employees' Deferred Compensation Benefits:

All employees of the Board are eligible to participate in the Program, which it administers. The Deferred Compensation Board employees' assets in the Program were valued at fair value and are included as plan net assets.

Reclassifications:

Certain prior year amounts may have been reclassified to conform to the current year's presentation.

3. Tax Status:

The Program is an eligible deferred compensation program as defined by Section 457 of the Internal Revenue Code. Accordingly, any amount of compensation deferred under the Program and any income attributable to the amounts so deferred shall be included in the taxable income of the participant only for the taxable year in which such compensation or other income is paid or otherwise made available to the participant or his beneficiary.

4. Employee Contributions:

Participant contributions receivable and held for investment represent amounts withheld from participants but not remitted to the investment providers at year-end. The Program maintains a bank account for the purpose of consolidating the deposit of all participant contributions. Contributions are subsequently remitted to the investment providers as designated by the participants. Funds deposited but not remitted to the investment providers were \$5,423,765 and \$4,754,196 at December 31, 2010 and 2009, respectively.

5. Cash:

The Board's policy is to invest excess Administrative Fund cash in bank checking and money market accounts, certificates of deposit, or issues of the U.S. Government and its agencies, all with maturities of two years or less. The Program also may invest in StarOhio, an investment pool managed by the State Treasurer's Office that allows governments within the State to pool their funds for investment purposes. StarOhio is not registered with the Securities Exchange Commission as an investment company, but does operate in a manner similar to Rule 2a-7 of the Investment Company Act of 1940. Investments in StarOhio are valued at StarOhio's share price, which is the price the investment could be sold for on December 31, 2010.

At December 31, 2010 and 2009, the bank cash balances were \$9,155,699 and \$8,326,183 respectively. The bank balances were insured up to \$250,000 by the Federal Deposit Insurance Corporation. The remaining bank deposits are covered by collateral held in the name of the Program's pledging financial institution, as required by State statue.

6. Program Investments:

A summary of Program investments is as follows:

	Decembe	December 31, 2010	
	Carrying Value	Fair Value	
0.11.771.0.6	#4.040.000.400	# 4.404.070.000	
Stable Value Option	\$4,018,806,182	\$4,181,872,033	
Mutual Funds	3,880,354,337	3,880,354,337	
Collective Trust Funds	310,106,678	310,106,678	
Purchased Annuities	29,522,094	29,522,094	
Total Investments	\$8,238,789,291	\$8,401,855,142	
	December 31, 2009		
	Decembe	er 31, 2009	
	December Carrying Value	er 31, 2009 Fair Value	
Stable Value Option			
Stable Value Option Mutual Funds	Carrying Value	Fair Value	
•	Carrying Value \$3,830,880,344	Fair Value \$3,883,911,113	
Mutual Funds	\$3,830,880,344 3,401,471,201	Fair Value \$3,883,911,113 3,401,471,201	

Stable Value Option:

At December 31, 2010, investments in the JP Morgan and Nationwide separate account portfolios are held in custody for the Program. The quoted market prices of these investments have been used for disclosure purposes. Funds invested by Deutsche, Pyramis, State Street, and Goode are in commingled bond funds and are disclosed at fair value.

The investments of the Stable Value Option portfolio are governed by an investment policy enacted by the Deferred Compensation Board. That policy permits investments in U.S. Government, U.S. Government Agency, mortgage backed, asset backed, and corporate debt securities.

The Program has entered into liquidity guarantee agreements with banks and insurance companies to fund any withdrawals for benefit payments at book value. The Stable Value Option book value represents participant contributions plus earnings based on guaranteed rates of return. As of December 31, 2010, the fair value of the Stable Value Option assets exceeded the carrying value by \$163 million or 4.1 percent. The Program expects the carrying and fair values of the Stable Value Option assets to converge over time through changing market cycles and amortization of these differences in future crediting rates.

One result of the 2008 global financial and credit crisis is the continued strain on capacity within the stable value wrap market. Some financial institutions no longer offer wrap products, and the remaining institutions have generally required higher fees and adopted less risky investment strategies. The Program's wrap providers remain in place, however, at significantly higher fees, which reduce the net crediting rate paid to stable value investors.

A summary of the fair value of investments in the Stable Value Option by investment manager at December 31, 2010 and 2009 is as follows:

	<u>2010</u>	<u>2009</u>
Deutsche Asset Management	\$1,533,721,282	\$1,424,175,960
Nationwide Life Insurance Co.	693,404,804	636,975,487
State Street Bank and Trust	685,994,088	647,016,821
JP Morgan Investment Advisors	677,121,764	630,729,412
Pyramis Global Advisors	530,561,941	488,099,319
Goode Investment Management	61,068,154	56,914,114
Total Fair Value	4,181,872,033	3,883,911,113
Total Carrying Value	4,018,806,182	3,830,880,344
Difference	\$163,065,851	\$53,030,769

<u>Credit Risk</u> – The Program's investment policy requires the average quality of the Stable Value Option structure to be A-/A3 or better and restricts the amount of investments in securities rated below BBB/Baa3 to ten percent or less of assets. In addition, no holding may be rated lower than B/B2 and no more than one percent of Stable Value Option assets will be invested in any single high yield (below BBB) issuer.

As of December 31, 2010, the overall average credit quality of the Stable Value Option portfolio was AA. The quality ratings of the Stable Value Option investments in fixed-income securities as determined by Standard & Poor's and/or Moody's (nationally recognized statistical rating organizations) as of December 31, 2010 are shown in the table below. Investments in U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk.

Credit <u>Rating</u>	Fair <u>Value</u>	Percentage of Portfolio
AAA	\$805,914,332	19.3%
AA	2,558,029,811	61.2%
Α	408,839,643	9.8%
BBB	138,254,560	3.3%
ВВ	6,173,634	0.1%
B and below	24,555,658	0.6%
•		
Subtotal	3,941,767,638	94.3%
U.S. Government Securities	240,104,395	5.7%
Total Stable Value Investments	4,181,872,033	100.0%

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. The Program's investment policy segments the Stable Value Option into three different categories; a liquidity buffer, a fixed maturity schedule, and an open maturity structure. Within the liquidity buffer, the Stable Value Option will primarily invest in short-term investment funds or money market instruments, but may also invest in high-quality buffer stable value contracts that provide same day liquidity for withdrawals. The investments within the fixed maturity schedule will normally pursue a passive laddered maturity structure, whereby the dollar-weighted duration of the structure will be no more than 3.5 years. The underlying portfolios within the open market structure will be kept within +/- 20.0 percent of the duration of the Barclays Capital Aggregate Bond Index or the Barclays Capital Intermediate Aggregate Bond Index.

The segmented time distribution reflects fixed-income maturities over different time intervals. The longer the maturity, the more the value of the investment will fluctuate with interest rate changes. The following table shows the maturity of the Stable Value Option investments segmented by time period.

Investment	Less than <u>1 Year</u>	1-5 <u>Years</u>	6-10 <u>Years</u>	More than 10 Years	<u>Total</u>
Commingled Bond Funds	\$0	\$2,558,623,580	\$2,355,967	\$0	\$2,560,979,547
Mortgage Obligations	47,582,714	594,384,400	33,137,874	15,474,159	690,579,147
Money Market Mutual Funds	332,212,210	0	0	0	332,212,210
Corporate Bonds	19,320,865	197,035,247	77,185,828	24,158	293,566,098
U.S. Government Securities	17,413,894	181,652,391	40,884,276	153,834	240,104,395
U.S. Government Agency Securities	18,659,134	42,591,925	2,630,368	549,209	64,430,636
Total Stable Value Investments	\$435,188,817	\$3,574,287,543	\$156,194,313	\$16,201,360	\$4,181,872,033

The Stable Value Option investments include collateralized mortgage obligations (CMO) and asset-backed securities (ABS). These types of securities are purchased for their predictable cash flow characteristics and for favorable yields compared to similar investments. However, these investment vehicles are based on cash flows from interest and principal payments from the underlying investments that are sensitive to prepayments, which may result from a decline in interest rates. At December 31, 2010 the Program had investments in CMO and ABS totaling \$610 million and \$20 million, respectively.

<u>Concentration of Credit Risk</u> – The Program's investment policy precludes investments in any one corporate issuer from exceeding 5 percent and restricts total investment in any single industry group to no more than 20 percent of the Stable Value Option's assets.

Mutual Funds:

Shares of mutual funds are priced at the net asset value as calculated by the fund provider. A summary of year-end investments as of December 31, 2010 and 2009 is as follows:

	Mutual Funds - 2010			Mutual Funds - 2009		
•	Shares				Shares	
		Share	Owned		Share	Owned
	Fair Value	Price	(1,000's)	Fair Value	Price	(1,000's)

Collective Trust Funds:

A target date fund is a single investment option that provides a diversified mix of investments (equities, fixed income, REITS, commodities, etc.). The fund initially invests aggressively and then becomes more conservative over time, as the portfolio ages and nears the retirement date within the fund name. Beginning in 2002, the Program offered the LifePath target date options offered by Barclays. In October 2006, target date investments in Barclays mutual funds were moved into Barclays collective trust funds. At the same time, the Program removed the Barclays name from the investment option name within Program communications. This change to a private-label name gave participants access to the same quality professional managers, but at a lower cost.

In August 2009, the LifePath investments were again moved, this time from Barclays actively-managed target date funds to their passively-managed target

date funds. This change was made to lower fees and lower market risk for these investors. At the same time, the Program began offering the LifePath funds in five-year increments to provide greater selection and make it easier for investors to pick the most appropriate fund for them. In December 2009, Barclays and BlackRock merged with the resulting entity taking the BlackRock name.

Shares of collective trust funds are priced at the net asset value as calculated by the fund provider. A summary of year-end investments as of December 31, 2010 and 2009 is as follows:

	Collective Trust Funds - 2010		Collective Tru	ust Fun	<u>ds - 2009</u>	
		<u>Share</u>	Shares Owned		<u>Share</u>	Shares Owned
	Fair Value	Price	(1,000's)	Fair Value	<u>Price</u>	(1,000's)
BlackRock Investments:						
LifePath Retirement	53,979,011	11.12	4,854	35,031,382	10.03	3,493
LifePath 2015	17,425,520	10.62	1,641	3,488,593	9.49	368
LifePath 2020	108,084,271	10.41	10,383	80,238,521	9.22	8,703
LifePath 2025	6,791,935	10.22	665	1,485,347	9.00	165
LifePath 2030	76,432,383	10.04	7,613	55,974,659	8.78	6,375
LifePath 2035	3,445,164	9.87	349	331,981	8.60	39
LifePath 2040	40,188,962	9.71	4,139	29,350,063	8.42	3,486
LifePath 2045	1,452,096	9.56	152	132,136	8.26	16
LifePath 2050	2,307,336	9.56	241	581,632	8.22	71
Total BlackRock	\$310,106,678			\$206,614,314		

Program management has made an effort to utilize cost-effective target date options. The historic annual investment expense ratios on the LifePath options offered through the Program are:

Date To	Annual Expense Ratio
October 24, 2006	0.85%
December 31, 2006	0.50%
December 31, 2007	0.43%
December 31, 2008	0.40%
August 28, 2009	0.45%
December 31, 2010	0.25%
Forward	0.24%
	October 24, 2006 December 31, 2006 December 31, 2007 December 31, 2008 August 28, 2009 December 31, 2010

Purchased Annuities:

Assets held for purchased annuities are valued at amounts reported by Nationwide, which are actuarially determined. Investments in purchased annuities were \$29,522,094 and \$33,739,143 at December 31, 2010 and 2009, respectively.

7. Investment Expenses:

Investment manager, custodian, and book value guarantee fees are charged against the assets within the Stable Value Option portfolios. Pooled investment income exceeded management expenses within the State Street stable value portfolio in 2009. In late-2009, the investment strategy of the Pyramis portfolio was modified to exclude all high-yield fixed income investments, resulting in lower ongoing investment management fees.

Select mutual fund investments require participants to hold these investments for specified periods or the participant is assessed a redemption fee by the fund. Since 2006, the Program has collected and remitted redemption fees to the mutual funds to benefit the remaining investors of the fund.

Fees associated with the Program investment options are shown below:

	2010	2009
Stable Value - Book Value Guarantee Fees:	\$5,095,327	\$4,564,887
Stable Value - Management/Custodial Fees:		
JP Morgan Investment Advisors	1,329,228	1,267,619
Deutsche Asset Management	1,059,927	976,789
Nationwide Life Insurance Co.	839,448	770,778
Pyramis Global Advisors	558,491	766,433
State Street Bank and Trust	99,361	(415,539)
Goode Investment Management	96,456	86,116
Total Stable Value Investment Expenses	9,078,238	8,017,083
Total Mutual Fund Redemption Fees	154,395	122,598
Total Investment Expenses	\$9,232,633	\$8,139,681

8. Recordkeeping Income:

Certain mutual fund investment providers compensate the Program for performing recordkeeping responsibilities. The reimbursement rates vary by mutual fund provider. In addition, the Program collects a recordkeeping fee on all investment balances in the Stable Value Option, which effectively reduces the net crediting rate earned by investors. This annualized fee was 0.10 percent in 2010 and 2009, and this fee was reduced to 0.09 percent in 2011.

In 2009 and 2010, the Program collected a 0.10 percent annualized recordkeeping fee on all investment balances in the collective trust fund options. Effective January 1, 2011, this fee changed to 0.09 percent.

Total recordkeeping revenues collected by the Program were \$9,479,120 and \$8,236,711 for the years ended December 31, 2010 and 2009, respectively.

The Administration Fund may also recover some administrative costs through charges made to participant accounts in the Program Fund. A charge a \$2.00 per quarter may be made to each participant account. The quarterly fee has been selectively suspended, whenever the Program does not need the administrative revenue. Due to positive reserve funding, the \$2.00 quarterly administrative fee to participants has been suspended since the fourth quarter of 2006.

9. Customer Service Expense:

The Program has contracted with Nationwide Retirement Solutions (NRS) to provide enrollment, education, and customer service to all eligible employees and participants. NRS has 15 employees who provide group and individual meeting opportunities, while visiting employer worksites throughout the State. NRS has 30 employees at their Service Center, who provide participants with call center, walk-in, and administrative support services. In addition, NRS provides an interactive website and automated phone system for both service and educational purposes.

In connection with the office relocation in 2009, the Program renegotiated the terms and extended the contract with NRS through June 30, 2014. Fees paid to NRS were \$5,536,845 and \$5,358,995 for the years ended December 31, 2010 and 2009, respectively.

10. Vacation and Sick Leave:

As of December 31, 2010 and 2009, the Program had accrued \$186,267 and \$253,209 respectively, for unused vacation and sick leave for full-time employees of the Board. At termination or retirement, employees are entitled to full compensation for all unused vacation time. With two years or more of employment prior to termination, employees are entitled to 50 percent payment of unused sick leave at termination.

11. Leases:

In 2009, the Board signed a ten-year lease agreement for office space. The new office space allowed the Board's administrative offices and Service Center offices to move into one facility, realize savings in net occupancy costs, and achieve operational efficiencies. The Board relocated the administrative offices in February 2009, and the Service Center offices relocated in June 2009. Base rental payments for this new operating lease were \$260,800 and \$228,924 during 2010 and 2009 respectively, which are allocated to administrative rent and customer service expenses in these financial statements.

Future scheduled minimum lease payments (base rental expense) under the new office operating lease at December 31, 2010 are as follows:

Year-ending	
December 31	<u>Amount</u>
2011	\$260,800
2012	260,800
2013	260,800
2014	277,779
2015	281,175
2016 - 2019	890,388

12. Property and Equipment:

Property and equipment at December 31 are summarized as follows:

	Estimated Useful Life	<u>2010</u>	2009
Furniture and fixtures	7 years	\$249,976	\$249,976
Office equipment	5 years	132,907	115,627
Computer equipment	3 years	126,724	126,724
Leasehold Improvements	7 years	46,551	46,551
		556,158	538,878
Less accumulated depreciation and amortization		(330,842)	(275,201)
Property and Equipment, Net		\$225,316	\$263,677

13. Insurance:

The Program is exposed to various risks of loss related to theft of, damage to, and destruction of assets; injuries to employees; and court challenges to fiduciary decisions. To cover these risks, the Program maintains commercial insurance and holds fidelity bonds on its employees. As required by State law, the Program is registered and insured through the State of Ohio Bureau of Workers' Compensation for injuries to employees. No insurance settlements exceeded coverages in the past three years, and there was no significant reduction in coverage amounts from the prior year.

The Program is self-insured under a professionally administered plan for general health and hospitalization employee benefits. The Program maintains specific stop loss coverage per employee for annual medical benefits in the amount of \$250,000 for both 2010 and 2009. The Program also maintains lifetime maximum stop loss coverage per employee for medical benefits in the amount of \$2,500,000 for both 2010 and 2009. The outstanding claims liability was \$62,400 and \$8,400 as of December 31, 2010 and 2009 respectively.

14. Pension Plan:

All Board employees are required to participate in a contributory retirement plan administered by the Ohio Public Employees Retirement System (OPERS).

A. Plan Description

OPERS administers three separate pension plans: the Traditional Pension Plan – a cost-sharing, multi-employer defined benefit plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing, multi-employer defined benefit plan that has elements of both a defined benefit and defined contribution plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost-of-living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits.

In addition, OPERS maintains a cost-sharing, multi-employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program, and Medicare Part B premium reimbursement to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage, but they have access to a retiree medical account.

In order to qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

The authority to establish and amend benefits for both the pension plans and the post-employment health care coverage is provided in Chapter 145 of the Ohio Revised Code. The ORC permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by writing OPERS, 277 East Town Street, Columbus OH 43215-4642, or by calling 614-222-5601.

B. Funding Policy

The Ohio Revised Code provides statutory authority for member and employer pension contributions, as well as requiring public employers to fund post-retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post-retirement health care benefits.

For 2010, member contribution rates were 10.0 percent. Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2010, the employer contribution rate for State and local employers was consistent across all three plans at 14.0 percent of covered payroll, the maximum contribution percentage currently permitted by the ORC.

OPERS' Post-Employment Health Care plan was established under, and is administered in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of post-employment health care benefits. For 2010, the employer contribution allocated to the health care plan was 5.5 percent of covered payroll for the period January 1, 2010 through February 28, 2010, and 5.0 percent for the period March 1, 2010 through December 31, 2010. The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

C. Program Contributions

The rates stated above, are the contractually required contribution rates for OPERS. The Program's contributions to OPERS for the years ending December 31, 2010, 2009, and 2008, were \$179,600, \$175,600 and \$160,700 respectively, equal to the required contributions for each year. The portion of the employer contribution that was used to fund post-employment benefits for the years ending December 31, 2010, 2009, and 2008, was \$65,200, \$73,900 and \$83,300 respectively, equal to the required contributions for each year.

D. OPERS Retirement Board Implements its Health Care Preservation Plan

The Health Care Preservation Plan (HCPP) adopted by the OPERS Retirement Board on September 9, 2004, was effective January 1, 2007. Member and employer contribution rates increased as of January 1, 2006, January 1, 2007, and January 1, 2008, which allowed additional funds to be allocated to the health care plan.

15. Eliminations:

The Administration Fund recovers some customer service and administrative costs through charges made to the Program Fund. Charges of \$4,183,391 and \$3,921,686 were made during 2010 and 2009, respectively, for this purpose, including \$366,727 and \$341,718 payable to the Administrative Fund as of December 31, 2010 and 2009, respectively. These inter-fund charges and payables were eliminated in the Combining Schedule of Plan Net Assets and the Combining Schedule of Changes in Plan Net Assets.

16. Pending Litigation:

The Program was named lead plaintiff in a national class action lawsuit against Pilgrim Baxter & Associates (Pilgrim) that seeks to recover funds lost due to Pilgrim's alleged breach of fiduciary duties. Pilgrim has been sued in federal court and charged with civil fraud by the U.S. Securities and Exchange Commission after revelations surfaced that fund executives had engaged in significant "market timing" activities. The Program had offered the PBHG Growth Fund as a mutual fund investment option to participants from July 1, 1997 through February 25, 2004. Any recovery from this action will be distributed according to the Program's Litigation/Settlement Proceeds Policy, which may include distributions to participants, increase to participant's account values, or using the recovery to reduce Program net operating expenses. Program management is of the opinion that ultimate settlement of such lawsuit will not result in a material impact on the Program's financial position.

SUPPLEMENTAL COMBINING SCHEDULE OF PLAN NET ASSETS

Total Mutual Fund Redemption Fees	154,395	122,598
Total Investment Expenses	\$9,232,633	\$8,139,681

Investment manager, custodian, and book value guarantee fees are charged against the assets within the Stable Value Option portfolios. Pooled investment income exceeded management expenses within the State Street stable value portfolio in 2009.

Select mutual fund investments require participants to hold these investments for specified periods, or the participant is assessed a redemption fee by the fund. Since 2006, the Program has collected and remitted redemption fees to the mutual funds to benefit the remaining investors of the fund.

INVESTMENT SECTION

INVESTMENT SUMMARY

The Program is a self-directed plan, allowing participants to choose the investment options for their current deferrals and balances. The Board has adopted an investment policy that ensures that a sufficient number of suitable, diverse investment options are offered to participants. Independent professionals manage all investments, and the Program does not maintain any in-house investment staff, so the Program does not incur any direct investment expenses.

The following table shows the investment fee rates charged against each investment option as of December 31, 2010, as well as the average mutual fund fee for the same category of asset (according to *Morningstar*). The performance returns reported to participants have been reduced by these investment expenses. The Stable Value Option fees are directly paid by the Program, so those fees are included in the financial statements and footnotes.

STATISTICAL SECTION

STATISTICAL INFORMATION

The objective of the Statistical Section is to provide the financial statement users with historical perspective, context, and detail to assist in using the information in the financial statements and the notes to the financial statements to better understand and assess the Ohio Public Employees Deferred Compensation Program's economic condition. The schedules in the Statistical Section show financial trend information that assists users in understanding how the Ohio Public Employees Deferred Compensation Program's financial position has changed over time. The financial trend schedules presented are:

- Changes in Net Assets
- Employee Participation and Deferral Trends
- Number of Employers Contributing
- Principle Contributing Employers
- Benefit Payments

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Ohio Public Employees Deferred Compensation Board Columbus, Ohio

We have audited the financial statements of the Ohio Public Employees Deferred Compensation Program (the Program), as of and for the year ended December 31, 2010, and have issued our report thereon dated May 20, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Program's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Program's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Program's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Program's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.
