AUDIT REPORT

FOR THE FISCAL YEAR ENDED JUNE 30, 2010

Dave Yost • Auditor of State

Board of Education
Perry Local School District
4325 Manchester Avenue
Perry, Ohio 44081-9413

We have reviewed the *Independent Auditor's Report* of the Perry Local School District, Lake County, prepared by James G. Zupka, CPA, Inc., for the audit period July 1, 2009 through June 30, 2010. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Perry Local School District is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Dave Yost".

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Board of Education
Perry Local School District
Perry, Ohio

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Perry Local School District, Lake County, Ohio, as of and for the year ended June 30, 2010, which collectively comprise the Perry Local School District, Ohio's basic financial statements and have issued our report thereon dated December 9, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Perry Local School District, Ohio's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Perry Local School District, Ohio's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Perry Local School District, Ohio's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying Schedule of Findings and Questioned Costs as **Findings 2010-1 and 2010-2** that we consider to be significant deficiencies in internal control over financial reporting. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

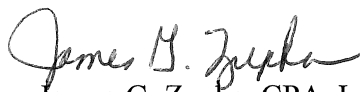

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Perry Local School District, Ohio's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the management of the Perry Local School District, Ohio, in a separate letter dated December 9, 2010.

Perry Local School District, Ohio's response to the findings identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. We did not audit Perry Local School District, Ohio's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the audit committee, management, the Board of Education, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A
DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Education
Perry Local School District
Perry, Ohio

Compliance

We have audited the compliance of Perry Local School District, Lake County, Ohio, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, *Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. The Perry Local School District, Ohio's major federal programs are identified in the Summary of Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Perry Local School District, Ohio's management. Our responsibility is to express an opinion on the Perry Local School District, Ohio's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Perry Local School District, Ohio's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Perry Local School District, Ohio's compliance with those requirements.

In our opinion, the Perry Local School District, Ohio complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of the Perry Local School District, Ohio, is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Perry Local School District, Ohio's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine that auditing procedures for the purpose of expressing our opinion on compliance and to test and report on, internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Perry Local School District, Ohio's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be *material weaknesses*, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Perry Local School District, Ohio, as of and for the year ended June 30, 2010, and have issued our report thereon dated December 9, 2010. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise the Perry Local School District, Ohio's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the audit committee, management, the Board of Education, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**PERRY LOCAL SCHOOL DISTRICT
NOTES TO THE SUPPLEMENTAL SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS - CASH
JUNE 30, 2010**

NOTE 1: **BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Perry Local School District and is presented on the cash basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 2: **NONCASH SUPPORT**

The District receives noncash support in the form of food subsidies from the National School Lunch Program (NSLP), CFDA #10.555. The value of the food subsidies is determined by using the fair market value of the food items as quoted by local food suppliers.

JUNE 30, 2010**

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

Finding No. 2010-1 Significant Deficiency - Capital Assets

Statement of Condition/Criteria

During our review of capital assets, we noted the following:

1. Assets are assigned and given to respective teachers; however, upon physical observation, not all assets can be tracked to the respective teachers. In some instances assets are transferred from one teacher to another without any formal documentation noting that transfer.
2. A few assets physically observed had an incorrect tag number and several fully depreciated assets are being utilized by the District.
3. The District does perform periodic inventory for a few departments each year via e-mail but does not perform physical inventory.
4. Ipods, cameras and MP3 players totaling \$1,488.23 were unaccounted for. Individually these items do not meet the District's capitalization threshold.
5. The District is using the \$5,000 threshold for capitalization of capital assets but this has not been modified in the District's policy.

Cause/Effect

Failure to account for capital assets properly could result in an understatement/overstatement of capital assets on the District's financial statements. Also, this could result in misuse or theft of assets.

Recommendation

We recommend the following in order to strengthen controls over capital assets:

1. The District should record a salvage value of approximately two to five percent of the original cost of its depreciable assets. This change should also be incorporated into the District's capitalization policy. In implementing this change, accumulated depreciation will need to be recalculated and all of the District's depreciable assets will need to be restated in the subsequent year's financial statements properly reflecting the value of the District's capital assets.
2. The District should update its capital asset policy to include procedures (i.e. supporting documentation) for asset transfers to maintain control over custody of its assets.
3. All capital assets should be identified by a proper tag number to maintain the tracking of assets.
4. The District should reflect the GAAP adjustments on its records in order to tie to capital assets per the financial statements.
5. The District should perform a periodic physical inventory on a continuous basis for multiple departments to keep track of its assets.
6. Electronic equipment, which does not meet the District's capitalization threshold, should still be tracked individually due to its accessibility by others who are not assigned such items.

**PERRY LOCAL SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
OMB CIRCULAR A-133 & .505 (CONTINUED)
JUNE 30, 2010**

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

Finding No. 2010-1 Significant Deficiency - Capital Assets (Continued)

District's Response

1. The District continues to utilize items that have fully depreciated and will begin implementing a salvage value to all future items being put into inventory.
2. The District has implemented a new procedure for maintaining assets and tracking their location throughout the buildings. Teachers will now have to check items out and sign for items from the building Audio Visual Coordinator.
3. Tag numbers are assigned by building secretaries as well as central office. If central office does not get proper documentation returned by the building to account for an item that has been purchased, a tag number is sent out to the teacher/staff member to tag the item, and it gets recorded. In these instances, the original tag numbers assigned by the building were used, the tags sent over by the Board office were recorded, and there existed a duplication of tag numbers. We are implementing a verification process to prevent this from happening for future purchases.
4. The District performs regular sampling of physical inventories across the District.
5. As noted in No. 2 above the District will begin tracking such items. Items in the past have not been tracked as Board policy #7450 states, "*For purposes of this policy "equipment" shall mean a unit of furniture or furnishings, an instrument, a machine, an apparatus, or a set of articles which retains its shape and appearance with use, is nonexpendable, costs at least \$1,000 to replace as a single unit and does not lose its identity when incorporated into a more complex unit. When defining supplies for inventory purposes, no items will be counted whose total value is less than \$1,000*". Each item that has been listed did not meet the threshold as defined by Board Policy to tag or track.

Finding No. 2010-2 Significant Deficiency - Credit Card Purchases

Statement of Condition/Criteria

During the year, the District purchased flowers for sick or deceased employees and/or family members of employees. These purchases were approved by the Board and were made at the discretion of the Superintendent. Currently, the District does not have a formal policy on flower purchases.

Also during the year, the District had a few food purchases on the Superintendent's credit card without a stated purpose. Sufficient documentation was not available to determine if the purchases were for District or non-District purchases.

In addition, in the past the Superintendent of the District purchased gift cards that were distributed to the students for their use while on a band trip. The coordinator of the trip or the Superintendent did not account for the number or dollar amount of these gift cards prior to their distribution.

**PERRY LOCAL SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
OMB CIRCULAR A-133 & .505 (CONTINUED)
JUNE 30, 2010**

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

Finding No. 2010-2 Significant Deficiency - Credit Card Purchases (Continued)

Cause/Effect

Without District policy guidelines addressing specific credit card purchases, including support and approval of such purchases, the District has incurred unallowable expenses.

Recommendation

We recommend that the District establish and maintain a written policy on flower purchases to ensure that all purchases are within District guidelines. The Board should review the parameters of the Superintendent's discretion on purchases for reasonableness. In addition, we recommend that documentation supporting purchases state if they are for District or non-District purposes. Only District related purchases are allowable District expenses. We also recommend that the District avoid the use of gift cards but when use is necessary all gift cards be accounted for prior to distribution, including type, quantity, dollar amount, and purpose. This will increase and maintain tracking of such cards and their usage within District guidelines.

District Responses

Although the School District does not have a formal policy on flowers, the District has annually approved that the Superintendent act as the purchasing agent with an authority to expend up to \$15,000 without Board approval provided that purchases are within appropriations. All purchases were subsequently approved after the fact by the Board of Education. All Non-District purchases have been reimbursed by the Superintendent prior to completion of the audit.

3. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

None.

**PERRY LOCAL SCHOOL DISTRICT

Mission Statement

Inspire all students to achieve personal excellence, pursue world-class standards and be self-directed, lifelong learners.

December 9, 2010

Members of the Board of Education and
Residents of the Perry Local Schools

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Perry Local School District (the “School District”) for the fiscal year ended June 30, 2010. This CAFR includes an unqualified (“clean”) opinion from James G. Zupka, CPA, Inc. and conforms to generally accepted accounting principles as applicable to governmental entities. The responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, is with the School District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and are reported in a manner that is designed to present fairly the financial position of the School District for all operations. This report is intended to provide the taxpayers of Perry with the comprehensive financial data in a format that will enable them to gain a transparent understanding of the School District’s financial operations. Copies of the CAFR will be made available to the Perry Public Library, major taxpayers, other interested parties, and on the School District’s web site.

The School District

The Perry Local School District is located in a residential/agricultural suburban community in eastern Lake County approximately thirty-five miles east of Cleveland. The School District is comprised of three separate communities, including Perry Village, Perry Township, and North Perry Village.

Within the three communities, the School District educates 1,864 students in grades K-12 or 95 percent of all school-age children within its jurisdiction. During the reporting period, the School District is comprised of one high school (grades 9-12), one middle school (grades 6-8), one intermediate school (grades 3-5) and primary school (grades K-2). The four schools are contained in three buildings and are under one roof as part of an interconnected educational campus via a one mile corridor. Beyond the main campus, the School District owns four other school buildings and a maintenance facility. The appraised value of all School District properties (including land improvements, buildings and improvements, furniture and equipment, vehicles, and library and textbooks) is \$48,734,558 (net of depreciation) as of June 30, 2010.

The legislative power of the School District rests with the School District’s Board of Education which is comprised of five members elected on staggered four-year terms. The School District operates in accordance with the rules, regulations, policies, and/or laws provided by the Ohio State Board of Education, the Ohio Department of Education, and Ohio Revised Code.

The Reporting Entity

The School District has reviewed its reporting entity definition in order to insure conformance with the Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*. In evaluating how to define the School District for financial reporting purposes, management has considered its relationship with all departments, boards, and agencies that make up the School District. For the School District, this includes general operations, food service, and student-related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District has no component units.

The School District participates in three jointly governed organizations and is associated with an insurance purchasing pool and a claims servicing pool. These organizations are the Ohio Schools' Council Association, the Lake Geauga Computer Association (LGCA), the Auburn Career Center, the Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP), and the Lake County Council of Governments Health Care Benefits (HCBP) Self Insurance Program. These organizations are presented in Notes 18, 19, and 20 to the basic financial statements.

Organizational Structure

The School District is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally elected Board of Education consisting of five members elected at-large for staggered four-year terms. The School District provides educational services as mandated by State and federal agencies.

The School District is located in Perry Village, Lake County, Ohio, and serves students legally residing in Perry Village, Perry Township, and North Perry Village. The area extends roughly 24 square miles. The School District is staffed by 97 non-teaching personnel, 128 certified/licensed teachers (including tutors), 16 exempt employees, and 9 administrative employees to provide services to 1,864 students, their parents/guardians, and our communities at large. The School District operates two elementary schools (K-5), one middle school (6-8) and one high school (9-12).

Economic Condition and Outlook

Ohio House Bill 920, passed in 1976, provides that the assessed value of residential and commercial property will not be changed more than once every three years, and that the property tax bill of the average homeowner for voted millage will not be increased as a result of reappraisal or readjustment. Due to this, school districts have needed to pursue a cycle of levies to continue revenue growth to cover even inflationary changes to expenses. The result of this legislation limits growth in local revenue.

Since the inception of the Perry Nuclear Power Plant, the School District has not needed to solicit a tax levy from its communities. However, as the power plant converts real property to personal property, and as personal property depreciates, the total valuation of the School District has eroded, and residential landowners have taken on a greater share of the tax burden. Additionally, with the enactment of deregulation legislation in 2001, the School District will lose approximately 40 percent of its revenue or approximately \$10 million in 2017. The School District has been and will continue to be in cost containment and reduction mode as the current economic conditions have reduced property growth to negligible amounts. The School District administration and Board of Education members remain committed to demonstrating financial responsibility to local taxpayers by enacting long-range plans to account for the loss of School District revenue in 2017.

The Ohio legislature passed legislation to reduce tangible property taxes on business equipment and inventory. Effective July 1, 2005, with passage of House Bill 66, tangible property taxes were approved for a two-year phase out. The State of Ohio is providing a reimbursement to school districts to account for such tangible property losses until 2010.

The School District's enrollment has remained relatively stable throughout the last decade, fluctuating only by about three percent, and is projected to remain stable in census data available for the future. As a result, additional revenue from the State of Ohio will be minimal given the current formula utilized to calculate State aid.

School District Local Funding

School District management will carefully control expenses during the coming years to continue to assure that revenues are adequate and spent in a fiscally responsible manner. Since 2005, the financial cycles illustrate that the School District has reduced approximately \$4 million in annual spending as determined from the FY2005 Five-Year Forecast. The School District continued its spending reductions to achieve the Board goal of reducing the per pupil expenditure to approximately \$12,500 for FY2010. Moving forward, in the 2011 school year, we will continue to maintain our cost per pupil goal, while also ensuring that School District expenditures do not exceed revenue generated.

Major Initiatives

The School District completed its analysis of the Center Road facility and concluded that the facility should be auctioned. Receiving no bids on the property, the School Board proceeded with plans to demolish a large portion of the facility and renovate the remaining transportation center. The project is targeted at \$1.3 million and has an anticipated completion date of September 2011.

Ohio Report Card

The Ohio Report Card is issued in early fall of each school year. The report uses data from the previous school year to inform the public of the School District's success or failure on thirty grade-level indicators, student attendance rates, and the School District's graduation rate. The 2010 report card demonstrated that the School District achieved an "Excellent" rating by meeting every indicator. This marks the seventh consecutive year the School District has achieved an "Excellent" rating. School District personnel, parents/guardians, and our communities at large are very proud of the academic achievements of our students.

Federal Projects

The School District files applications for federal funds electronically utilizing the Consolidated Local Plan. This allows the Assistant Superintendent to coordinate the application of the goals of the Comprehensive Continuous Improvement Plan. The School District continues to apply for all federal funds that the School District is eligible to receive. This includes Title I, Title II-A, Title II-D, Title IV, and Title VI-D. The School District adheres to the specific requirements associated to spending the federal dollars received.

Educational Programs and Facilities Improvement

The School District maintains a Permanent Improvement Fund for the purpose of maintaining the School District's facilities and making necessary improvements when and where applicable. As of June 30, 2010, the cash balance of the Permanent Improvement Fund was \$14,541,958. As the School District moves forward, these funds will pay for capital expenses throughout the School District and its facilities.

Financial Information

Internal Accounting and Budgetary Control

In developing the School District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes an automated accounting and payroll system as designed by the State software development team. An internal controls system for capital assets is provided by an outside company. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

Prior to the start of each fiscal year, the Board of Education adopts an appropriation measure for that fiscal year. The Board has the ability to adopt temporary appropriations prior to September 30 if permanent appropriations are not yet available. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor certifies that the Board of Education's appropriation measures, including any supplements or amendments do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board of Education. Budgets are controlled at the fund level. All purchase order requests must be approved by the administrator responsible for that specific budget and the Superintendent before being certified by the Chief Financial Officer. Once completed, necessary funds are encumbered and purchase orders are released to vendors for processing. Requests that exceed the available appropriation are rejected until additional appropriations are secured via authorized budget transfer.

The Perry Board of Education approves all financial reports on a monthly basis.

Financial Condition

The School District prepares financial statements following GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. GASB Statement No. 34 creates basic financial statements for reporting on the School District's financial activities as follows:

Government-wide financial statements - these statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The School District does not have any business-type activities.

Fund financial statements - these statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparisons – these statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of the new reporting model, management, in conjunction with James G. Zupka, CPA, Inc., is responsible for preparing a Management’s Discussion and Analysis of the School District. This discussion follows the Independent Auditor’s Report, providing an assessment of the School District’s finances for 2010 and a comparison to performance in 2009 and analysis of resources available for the future. Because the discussion focuses on major funds, only the internal service fund is discussed briefly in this letter.

Long-term Financial Planning

The Five-Year Forecast of Revenue and Expenditures serves as a financial planning tool and the foundation for academic and business operations of the School District. The forecast provides the Board and community stakeholders with a blueprint addressing the financial needs required to serve the student population. Assumptions are an integral part of the forecast and represent what the School District believes are significant factors impacting the forecast. A key component of the forecast is the timeline for the School District to evaluate revenues and expenditures and the increase or decrease in unreserved fund balances over the next five years. An in-depth review and analysis of the Five-Year Forecast is performed annually.

Relevant Financial Policies

The School District maintains a policy to replace textbooks, technology, necessary supplies, vehicles and maintenance of the School District’s facilities on a regular basis in a cost efficient manner. Such replacement is provided for in both the general and capital projects fund. The Board of Education has maintained a cash position in the Capital Projects fund of at least \$12.5 million to provide for such future issues related to facility maintenance and technology.

Independent Audit

State statute requires the School District to be audited at least every two fiscal years by an independent auditor. An annual audit serves to maintain and strengthen the School District’s accounting and budgetary controls. Independent Auditor, James G. Zupka, CPA, Inc., was selected to render an opinion on the School District’s financial statements as of and for the year ended June 30, 2010. The opinion appears at the beginning of the financial section of this report.

Acknowledgments

The publication of this Comprehensive Annual Financial Report is a significant step toward providing a transparent financial disclosure to the citizens of Perry and raising the professional standards for Perry Local School District’s financial reporting.

Perry Local School District, Lake County

It is the intent of this CAFR to enhance accountability of the School District's finances for the residents and provide School District stakeholders with a perspective of the School District's financial and demographic information.

Special appreciation is expressed to James G. Zupka, CPA, Inc. for assistance in the planning, designing and review of this financial report.

Finally, a sincere appreciation is extended to the five members of the School District's Board of Education for their ongoing support, feedback, and direction in governing the Perry Local School District.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Board of Education
Perry Local School District
Perry, Ohio

The Honorable Mary Taylor
Auditor of State
State of Ohio

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Perry Local School District, Lake County, Ohio, as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Perry Local School District, Ohio's management. Our responsibility is to express opinions on these financial statements based on our audit.

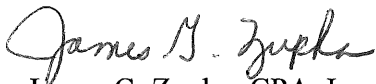

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Perry Local School District, Ohio, as of June 30, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof, and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2010, on our consideration of the Perry Local School District, Ohio's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Perry Local School District, Ohio's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financials statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

James G. Zupka, CPA, Inc.

December 9, 2010

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2010

The management's discussion and analysis of the Perry Local School District's (School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2010. The intent of the management's discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the transmittal letter, notes to the basic financial statements, and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2010 are as follows:

- In total, net assets decreased \$498,084 or by 0.6 percent.
- General revenues accounted for \$27,820,656 or 93.4 percent of all revenues. Program specific revenues in the form of charges for services and operating and capital grants and contributions accounted for \$1,951,971 or 6.6 percent of total revenues of \$29,772,627.
- Total assets of governmental activities decreased by \$720,169 as equity in pooled cash and cash equivalents increased by \$2,480,037, and capital assets decreased by \$3,497,211.
- The School District had \$30,270,711 in expenses related to governmental activities; only \$1,951,971 of these expenses were offset by program specific charges for services, grants, or contributions. General revenues (primarily property taxes and grants and entitlements) of \$27,820,656 were inadequate to provide for these programs.
- Among major funds, the general fund had \$27,170,305 in revenues (including other financing sources) and \$24,730,466 in expenditures (including other financing uses). The general fund's fund balance increased to \$16,365,922 from \$13,926,083. The permanent improvement capital projects fund increased its fund balance to \$14,261,089 from \$13,176,543.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Assets* and *Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short term, as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds, with all other nonmajor funds presented in total in one column. In the case of the School District, the general fund is by far the most significant fund with the most activity. Additionally, the permanent improvement capital projects fund is significant due to the savings for future construction projects.

Reporting the School District as a Whole

Statement of Net Assets and Statement of Activities

While this document contains information about the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, “How did we do financially during 2010?” The Statement of Net Assets and Statement of Activities answer this question. These statements include all assets and all liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year’s revenues and expenses regardless of when cash is received or paid.

These two statements report the School District’s net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District’s property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors. On the other hand, financial factors may include the School District’s financial position, liquidity and solvency, fiscal capacity and risk and exposure.

In the Statement of Net Assets and Statement of Activities, the School District’s activities are classified as governmental activities:

- Governmental Activities - Most of the School District’s programs and services are reported here including instruction, supporting services, operation of non-instructional services and extracurricular activities.

Reporting the School District’s Most Significant Funds

Fund Financial Statements

The analysis of the School District’s major funds begins on page 8. Fund financial reports provide detailed information about the School District’s major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District’s most significant funds. The School District’s major governmental funds are the general fund and the permanent improvement fund.

Governmental Funds Most of the School District’s activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District’s general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds The School District maintains one proprietary fund. Internal Service funds are an accounting device used to accumulate and allocate costs internally to the School District’s various functions. The School District uses an Internal Service fund to account for its medical self-insurance program. Because these services benefit governmental functions, they have been included within governmental activities in the government-wide financial statements.

The School District as a Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net assets for 2010 compared to 2009:

Table 1 - Net Assets

	Governmental Activities	
	2010	2009
ASSETS		
Current and other assets	\$ 60,990,228	\$ 58,213,186
Capital assets, net	48,734,558	52,231,769
Total Assets	109,724,786	110,444,955
LIABILITIES		
Current and other liabilities	26,663,685	26,556,665
Long-term liabilities:		
Due within one year	1,137,342	957,499
Due in more than one year	3,606,104	4,115,052
Total Liabilities	31,407,131	31,629,216
NET ASSETS		
Invested in capital assets, net of related debt	47,342,570	50,637,415
Restricted	16,495,320	16,356,389
Unrestricted	14,479,765	11,821,935
Total Net Assets	\$ 78,317,655	\$ 78,815,739

Total assets decreased \$720,169. Equity in pooled cash and cash equivalents increased \$2,480,037 due to the School District's reduction in expenses. Capital assets decreased \$3,497,211 due to annual depreciation of the School District's facilities.

Total liabilities decreased \$222,085. The decreases in the School District's liabilities can mainly be attributed to reductions in long-term liabilities.

Table 2 shows the changes in net assets for fiscal year 2010 and 2009.

Table 2 - Change in Net Assets

	Governmental Activities	
	2010	2009
REVENUES		
Program Revenues:		
Charges for services	\$ 1,061,416	\$ 1,088,078
Operating grants and contributions	817,455	695,602
Capital grants and contributions	73,100	-
Total Program Revenues	1,951,971	1,783,680
General Revenues:		
Property taxes	14,805,151	14,455,059
Grants and entitlements	12,022,905	12,119,566
Investment income	176,980	772,699
All other revenues	815,620	514,017
Total General Revenues	27,820,656	27,861,341
Total Revenues	29,772,627	29,645,021
EXPENSES		
Program Expenses:		
Instruction	16,385,831	16,748,087
Supporting Services:		
Pupil and Instructional Staff	2,802,102	2,564,234
Board of Education, Administration, Fiscal and Business	2,792,428	2,695,990
Operation and Maintenance of Plant	4,287,297	4,255,754
Pupil Transportation	1,276,118	1,479,169
Central	24,042	37,888
Operation of Non-Instructional Services	1,316,950	1,369,461
Extracurricular Activities	1,324,495	1,351,305
Interest and Fiscal Charges	61,448	83,295
Total Expenses	30,270,711	30,585,183
Change in Net Assets	(498,084)	(940,162)
Net Assets - Beginning of Year	78,815,739	79,755,901
Net Assets - End of Year	\$ 78,317,655	\$ 78,815,739

Total revenues increased \$127,606 or 0.4 percent as compared to fiscal year 2009. This increase is mostly related to increases in property taxes, operating and capital grants offset by decreases in unrestricted grants and entitlements and interest income.

Total expenses decreased \$314,472 or 1.0 percent due to conscious district reductions that will assist in offsetting potential decreases in future revenues.

Governmental Activities

The School District has carefully planned its financial future by forecasting its revenue and expenses over the next five years. In May 2010, the School District submitted its revised five-year forecast to the Ohio Department of Education. Based upon the current five-year financial forecast, the School District has adequate operating funds for each of the next five years. However, due to the long term prospect of deregulation settlement money being eliminated in 2017, the School District anticipates the need for additional financial capital before the end of the five-year forecast. Although the School District relies heavily upon local property taxes to support its operations, the School District does actively solicit and receive additional grant and entitlement funds to help offset some costs which made up 40.4 percent of revenues.

The School District's dependence upon property taxes is hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Property taxes made up 49.7 percent of revenues for governmental activities for the School District in fiscal year 2010.

Instruction comprises 54.1 percent of governmental program expenses. Supporting Services for pupils, instructional staff, and business operations encompasses an additional 36.9 percent. The remaining program expenses of 9.0 percent are expensed to facilitate other obligations of the School District, such as non-instructional services, extracurricular activities, and interest and fiscal charges.

The Statement of Activities shows the cost of program services and the charges for services and operating grants and contributions offsetting those services for 2010 and 2009. Table 3 shows the total cost for services for governmental activities and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3 - Governmental Activities

	Total Cost of Services 2010	Total Cost of Services 2009	Net Cost of Services 2010	Net Cost of Services 2009
Instruction	\$ 16,385,831	\$ 16,748,087	\$ (15,729,158)	(16,285,712)
Supporting Services:				
Pupils and Instructional Staff	2,802,102	2,564,234	(2,771,384)	(2,482,493)
Board of Education, Administration, Fiscal, and Business	2,792,428	2,695,990	(2,792,428)	(2,685,990)
Operation and Maintenance of Plant	4,287,297	4,255,754	(4,287,297)	(4,255,754)

Interest and fiscal charges	61,448	83,295	(61,448)	(83,295)
Total cost of service	<u>\$ 30,270,711</u>	<u>\$ 30,585,183</u>	<u>\$ (28,318,740)</u>	<u>\$ (28,801,503)</u>

The dependence upon tax revenues for governmental activities is apparent. 93.6 percent of expenses are supported through taxes and other general revenues. For all governmental activities, general revenue support is over 93.4 percent of total governmental revenues. The community, as a whole, is by far the primary support for the School District's students.

The School District's Funds

Information about the School District's major funds starts on page 14. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$31,583,879 (including other financing sources) and expenditures of \$29,021,799 (including other financing uses). The net change in fund balance for the year in the general fund experienced an increase of \$2,439,839 due to the School District's reduction in expenditures. In the permanent improvement capital projects fund, the net change in fund balance for the year increased \$1,084,546 due to a transfer in from the general fund.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2010, the School District amended its general fund budget numerous times, none significant. Fluctuations among the budget base expenditure categories are due to the School District site-based style of budgeting that is designed to tightly control expenditures but provide flexibility for managers to redirect funds as conditions develop during the year.

For the general fund, final budget basis revenue was \$25,937,990 (including other financing sources), which was slightly lower than the original budget estimate. Overall revenue received by the general fund was more than the final budgetary projections by \$1,391,397 or 5.4 percent. Of this difference, a majority of the amount was due to the School District's conservative estimates of real estate tax revenues and the collection of delinquent taxes.

The final appropriations of \$26,179,982 (including other financing uses and prior year's encumbrances) were \$446,010 lower than the original appropriations. Actual expenditures plus outstanding encumbrances for the year were \$739,305 or 2.8 percent under general fund revised budgetary projections.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2010, the School District had \$48,734,558 invested in land, land improvements, buildings and improvements, furniture and equipment, vehicles, and library and textbooks in governmental activities. Table 4 shows fiscal 2010 balances compared to 2009:

Table 4 - Capital Assets at June 30 (net of depreciation)

	Governmental Activities	
	2010	2009
Land	\$ 1,200,000	\$ 1,200,000
Construction in progress	250,908	-
Land Improvements	1,983,008	2,571,738
Buildings and Improvements	43,697,374	46,691,914
Furniture and Equipment	753,583	860,246
Vehicles	849,685	907,871
Total Capital Assets	\$ 48,734,558	\$ 52,231,769

The primary decrease occurred in buildings and improvements. The decrease was due to the annual depreciation expense related to the buildings and improvements.

During fiscal year 2010, the School District purchased \$343,911 of capital assets. The significant additions to capital assets were made to construction in progress, furniture and equipment, and vehicles. See Note 11 for additional information on capital assets.

Debt

At June 30, 2010, the School District had \$1,457,167 in notes and capital lease outstanding. Table 5 summarizes the School District’s debt outstanding.

Table 5 - Outstanding Debt at Year End

	Governmental Activities	
	2010	2009
2006 Energy Conservation Note	\$ 1,391,988	\$ 1,594,354
Capital Leases	65,179	127,949
Total Outstanding Debt	\$ 1,457,167	\$ 1,722,303

The 2006 energy conservation notes were issued for a ten year maturity life with an interest rate of 3.88 percent per annum. The proceeds were for renovating and otherwise improving energy conservation at the School District’s facilities.

In prior years, the School District obtained a capital lease in the amount of \$188,400, bearing an interest rate of 3.80 percent per annum. This lease will mature in fiscal year 2011. The lease was used to finance the purchase of 200 computers for students.

See Notes 16 and 17 for additional information on long-term debt activity.

School District’s Outlook

The School District has a strong financial position. The Board of Education and the administration closely monitor the School District’s revenues and expenditures in accordance with its financial forecast and the School District’s Continuous Improvement Plan.

The School District’s financial future is not without challenges, though. The nature of school funding in Ohio severely restricts the growth in the School District’s operating revenues and requires the School District to periodically seek additional funds from the taxpayers to offset rising operating costs.

In addition, the problem of limited growth in revenue, school districts are faced with the challenge of losing traditional sources of tax revenue through the Ohio General Assembly legislative actions. In 2003, the Ohio General Assembly passed Amended Substitute House Bill 95 that will phase-out the taxation on business inventories. Once fully implemented, the School District’s operating revenue will be reduced by approximately \$282,000 annually.

In June 1999, the Ohio General Assembly passed Senate Bill 3 to deregulate the electric utility industry in Ohio. Under this legislation, the assessment rate on electric utility property was dramatically reduced but this School District will remain revenue neutral due to the Property Tax Replacement Fund. This fund derives its revenue from a special user's tax on electricity. The School District receives approximately \$10.16 million annually from this fund, however, it will sunset in 2017.

Financial aid from the State of Ohio through the State Foundation Program has not been the major source of operating revenue for the School District. Because the School District is considered a wealthy School District in terms of property values, it receives a relatively small amount of revenue from the State to fund operating expenditures.

As a result of the challenges mentioned above, the School District's administration continues to carefully plan its expenditures to provide adequate resources to meet student needs over the next several years. The administration and the School District's Task Force are currently reviewing all programs and services provided to students with the goal of reducing operating costs.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Lewis Galante, Chief Financial Officer at Perry Local School District, 4325 Manchester Avenue, Perry, Ohio 44081.

**Reconciliation of Total Governmental Fund Balances to
Net Assets of Governmental Activities**

June 30, 2010

Total Governmental Fund Balances \$ 32,840,497

*Amounts reported for Governmental Activities in the Statement of Net Assets
are different because:*

Capital Assets used in Governmental Activities are not financial resources
and, therefore, are not reported in the funds 48,734,558

Other long-term assets are not available to pay for current-period expenditures
and, therefore, are deferred in the funds:

Property Taxes	\$ 957,325	
Intergovernmental	75,339	
Total		1,032,664

Internal Service funds are used by management to charge the costs
of certain activities, such as insurance to individual funds. The assets
and liabilities of the Internal Service fund are included in Governmental
Activities in the Statement of Net Assets. 466,279

Long-term liabilities are not due and payable in the current period and
therefore are not reported in the funds:

General Obligation Notes	(1,391,988)	
Capital Leases	(65,179)	
Retirement Incentive	(359,175)	
Compensated Absences	(2,927,104)	
Accrued Interest Payable	(12,897)	
Total		(4,756,343)

Net Assets of Governmental Activities **\$ 78,317,655**

See accompanying notes to the basic financial statements.

See accompanying notes to the basic financial statements.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Fiscal Year Ended June 30, 2010

Net Change in Fund Balances-Total Governmental Funds \$ 2,562,080

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period.

Capital Outlay	\$ 343,911	
Depreciation	<u>(3,841,122)</u>	
Total		(3,497,211)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Property Taxes	41,445	
Intergovernmental	<u>62,478</u>	
Total		103,923

Repayment of bond principal and capital leases are expenditures in the Governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. 265,136

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in Governmental funds.

Compensated Absences	(258,004)	
Retirement Incentive	321,973	
Accrued Interest	<u>2,740</u>	
Total		66,709

Internal Service funds are used by management to charge costs to certain activities, such as insurance to individual funds. The net revenue (expense) of Internal Service funds are reported in the Governmental Activities. 1,279

Change in Net Assets of Governmental Activities \$ (498,084)

See accompanying notes to the basic financial statements.

Perry Local School District, Lake County

For the Fiscal Year Ended June 30, 2010**

NOTE 1: DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Perry Local School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally elected five-member Board and provides education services as mandated by State or Federal agencies. The Board controls the School District's three instructional facilities, staffed by 97 classified personnel, 128 certified full-time personnel, 16 exempt personnel, and 9 administrative employees to provide services to students and other community members.

Reporting Entity

The School District is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the School District are not misleading. The School District's primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the School District, this includes education, pupil transportation, food service, and maintenance of the School District's facilities.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; (3) the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; (4) or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The reporting entity of the School District has no component units.

The School District participates in three jointly governed organizations, an insurance purchasing pool, and a claims servicing pool. These organizations are the Ohio Schools' Council Association, the Lake Geauga Computer Association, the Auburn Career Center, the Ohio Association of School Business Officials Workers' Compensation Group Rating Program and Lake County Council of Governments Health Care Benefits Self Insurance Program. These organizations are presented in Notes 18, 19, and 20, respectively, to the basic financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its government-wide and proprietary fund financial statements provided they do not conflict with or contradict GASB pronouncements. The School District has the option of consistently implementing FASB Statements and Interpretations issued after November 30, 1989, for both business-type activities and enterprise funds. Since the School District does not have any business-type activities or enterprise funds, the School District has elected not to follow this option. The more significant of the School District's accounting policies are described below.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Basis of Presentation

The School District's financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. As a general rule, the internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. An exception to this general rule is that interfund services provided and used are not eliminated in the process of consolidation.

The statement of net assets presents the financial condition of the governmental activities of the School District at fiscal year-end. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, operating and/or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

Fund financial statements are designed to present financial information of the School District at this more detailed level. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The School District's only internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories of governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The School District's major governmental funds are:

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Fund Accounting (Continued)

General Fund - the general fund is used to account for all financial resources, except those required to be accounted for in another fund. The general fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Permanent Improvement Fund - the permanent improvement fund is used to account for the receipts and expenditures related to the acquisition, construction or renovation of major capital facilities in the School District.

The other governmental funds of the School District account for grants, other resources, and capital projects of the School District whose uses are restricted to a particular purpose.

Proprietary Funds

The proprietary funds focus on the determination of operating income/loss, changes in net assets, financial position, and cash flows and are classified as either enterprise or internal service. The School District only has an internal service fund. The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund accounts for a self-insurance program which provides medical coverage to the School District's employees.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's fiduciary funds include a private purpose trust fund, which accounts for a college scholarship for students, and an agency fund, which accounts for student activities.

C. Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the Statement of Net Assets. The Statement of Activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net assets.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus (Continued)

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fund net assets. The statement of revenues, expenses and changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in total net assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. The proprietary funds and the fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and become available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 8). Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Basis of Accounting (Continued)

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, grants, investment earnings, tuition, and rentals.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2010, but which were levied to finance fiscal year 2010 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the statement of revenues, expenditures, and changes in fund balances as an expenditure with a like amount reported as an intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

E. Equity in Pooled Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled. Monies for all funds are maintained in the account or temporarily used to purchase short term investments. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the financial statements.

During fiscal year 2010, investments were limited to repurchase agreement, U.S. Government Agency notes, U.S. Government Agency Discount notes, money market mutual fund, and STAROhio. Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements with maturities of one year or less are reported at cost.

STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for on June 30, 2010.

Following Ohio statutes, the Board of Education has specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2010 amounted to \$113,738, which includes \$25,814 assigned from other School District funds.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Equity in Pooled Cash and Cash Equivalents (Continued)

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

F. Restricted Assets

Assets are reported as restricted items when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. Restricted assets in the general fund represent amounts required by the State statute to be utilized for school bus purchases. See Note 24 for additional information regarding set-asides.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2010 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

H. Inventory

Inventories of the governmental funds are presented at the lower of cost or market on a first-in, first-out basis and expensed/expensed when used. Inventories consist of donated foods, purchased foods, school supplies held for resale and expendable supplies held for consumption.

I. Capital Assets

All capital assets of the School District are classified as general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five thousand dollars (\$5,000). The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital asset. Depreciation is computed using the straight-line method over the following useful lives:

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets (Continued)

Description	Governmental Activities Estimated Lives
Land Improvements	20 years
Buildings and Improvements	10-50 years
Furniture and Equipment	5-10 years
Vehicles	10 years
Library and Textbooks	6 years

J. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables”. These amounts are eliminated in the governmental activities column of the statement of net assets.

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees’ rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination payment method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The liability is an estimate based on the School District’s past experience making termination payments. The amount is based on accumulated sick leave and employees’ wage rates at fiscal year end, taking into consideration any limits specified in the School District’s termination policy. The School District records a liability for accumulated unused sick leave for classified, certified, and administrative employees within the School District.

The entire compensated absence liability is reported on the government-wide financial statements. On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account “Matured Compensated Absences Payable” in the fund or funds from which the employees who have accumulated the leave are paid.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from the internal service fund is reported on the internal service fund’s financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Accrued Liabilities and Long-Term Obligations (Continued)

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Capital lease obligations are recognized as a liability on the governmental fund financial statements when due.

M. Fund Balance Reserves and Designations

The School District records reservations for portions of fund balance which are legally segregated for specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund balance which is available for appropriation in future periods. Fund balance reserves are established for school bus purchases, encumbrances and property taxes. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute.

N. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The amount restricted for school bus purchases includes state funds received for school bus purchases. The amount restricted for special revenue is mainly due to state and federal grants along with termination benefits and the School District's community fitness center activities.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

O. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are for the self-insurance program. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. All revenues and expenses not meeting these definitions are reported as non-operating.

P. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. As of June 30, 2010, there were no extraordinary or special items.

S. Budgetary Data

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the fund level for all funds. The Treasurer has been given the authority to allocate the Board appropriations to the function and object levels.

Advances in and advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing or increased tax rates. By no later than January 20, the Board-adopted budget is filed with the Lake County Budget Commission for rate determination.

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the amended certificate when the original appropriations were adopted.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

S. Budgetary Data (Continued)

The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2010.

Appropriations

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certification saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any legal level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education. The Board may pass supplemental fund appropriations provided the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. The amounts reported as the original budgeted amounts in the budgetary statements reflect the appropriation in the first complete appropriated budget, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On fund financial statements, encumbrances outstanding at year end are reported as a reservation of fund balance for subsequent year expenditures for governmental funds. A reserve for encumbrances is not reported on government-wide financial statements.

Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

NOTE 3: CHANGES IN ACCOUNTING PRINCIPLES

For fiscal year 2010, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*, GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, GASB Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, GASB Statement No. 56, *Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards*, and GASB Statement No. 58, *Accounting and Financial Reporting for Chapter 9 Bankruptcies*. The implementation of these Statements did not result in any change to the District's financial statements.

NOTE 5: ACCOUNTABILITY AND COMPLIANCE

A. Accountability

Fund balances at June 30, 2010, included the following individual fund deficits:

	<u>Deficit</u>
<u>Special Revenue Funds:</u>	
Food Services	\$13,718
Title I	\$69,294
IDEA Preschool Grant for the Handicapped	\$ 4,115
Improving Teacher Quality	\$18,047

The fund deficits in the special revenue funds resulted from accrued liabilities. The general fund is liable for the deficits in these funds and will provide transfers when cash is required, not when accruals occur.

B. Compliance

Ohio Revised Code §5705.39 states that total appropriations from each fund shall not exceed the total estimated resources (estimated revenues plus unencumbered fund balances).

The following funds had final appropriations exceeding total estimated resources.

	<u>Estimated Revenue Plus Unencumbered Balances</u>	<u>Final Appropriations</u>	<u>Excess</u>
<u>Special Revenue Funds</u>			
Miscellaneous State Grants	\$ 25,098	\$ 30,625	\$ (5,527)
Title V - Innovative Education Programs	(2,223)	-	(2,223)
Miscellaneous Federal Grants	287	1,221	(934)

Management has indicated that the aforementioned compliance violations will be closely monitored to ensure not future violations occur.

NOTE 6: BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (Non-GAAP Budgetary Basis) - for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- B. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- C. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balances (GAAP) basis.

The following table summarizes the adjustments necessary to reconcile the GAAP and budgetary basis statements for the general fund.

Net Change in Fund Balance	
GAAP Basis	\$ 2,439,839
Net Adjustment for Revenue Accruals	159,082
Net Adjustments for Expenditure Accruals	(440,402)
Adjustment for Encumbrances	(269,809)
Budget Basis	\$ 1,888,710

NOTE 7: DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

NOTE 7: DEPOSITS AND INVESTMENTS (CONTINUED)

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury notes, bills, bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty (30) days;
4. Bonds or other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or division (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAROhio);
8. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty (180) days in an amount not to exceed twenty-five (25) percent of the interim monies available for investment at any one time; and
9. Under limited circumstances, corporate debt interest rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District and must be purchased with the expectation that it will be held to maturity.

NOTE 7: DEPOSITS AND INVESTMENTS (CONTINUED)

The following disclosure is based on the criteria described in GASB Statement No. 40, *Deposits and Investments Risk Disclosures*.

Cash on Hand

At June 30, 2010, the School District had \$900 in undeposited cash on hand, which is included on the balance sheet of the School District as part of “Equity in Pooled Cash and Cash Equivalents”.

Deposits

At June 30, 2010, the carrying amount of the School District’s deposits was \$(80,441), and the bank balance was \$235,945. A liability was not recorded for the negative carrying amount of deposits because there was no actual overdraft, due to the “zero balance” nature of the School District’s bank accounts. All of the School District’s bank balances were covered by Federal Depository Insurance.

Custodial credit risk is the risk that, in the event of a bank failure, the School District’s deposit may not be returned. The School District had no deposit policy for custodial risk beyond the requirement of State statute. All deposits, except for deposits held by fiscal and escrow agents, are collateralized with eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits. Such collateral, as permitted by Chapter 135 of the ORC, is held in financial institution pools at Federal Reserve banks, or at member banks of the Federal Reserve system in the name of the respective depository bank, and pledged as a pool of collateral against all of the public deposits it holds, or as specific collateral held at a Federal Reserve bank in the name of the School District. Although the securities were held by the pledging institutions’ trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the School District to a successful claim by the FDIC.

Investments

The School District has a formal investment policy. The School District follows GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, and records all its investments at fair value. At June 30, 2010, fair value was \$21,208 above the School District’s net cost for investments. Fair value is determined by quoted market prices and acceptable other pricing methodologies.

	Average Weighted Maturity	Fair Value	Credit Rating*
Federal Home Loan Bank	1.13 yrs.	\$ 20,230,504	AAA
Federal National Mtg. Assoc.	1.23 yrs.	7,964,929	AAA
Federal Home Loan Mtg.	.98 yr	597,480	AAA
Federal Farmers Credit Corp.	0.81 yr	1,344,379	AAA
Money Market Mutual Fund -			
First American Government	1 day	16,501	AAA
STAROhio	33 days	278,771	AAA
Repurchase Agreement	1 day	4,459,295	N/A
		\$ 34,891,859	

* Credit ratings have been obtained from Standard & Poors

NOTE 7: DEPOSITS AND INVESTMENTS (CONTINUED)

Interest Rate Risk

As a means of limiting its exposure to fair value of losses caused by rising interest rates, the School District's investment policy requires that operating funds be invested primarily in investments so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity. To date, no investments have been purchased with a life greater than two years.

Credit Risk

The credit risks of the School District's investments are in the table above. Ohio law requires that STAROhio maintain the highest rating provided by at least one nationally recognized standard rating service. The School District has no investment policy that would further limit its investment choices.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal Home Loan Bank notes, Federal National Mortgage Association notes, Federal Home Loan Mortgage notes, Federal Farmers Credit Corporation notes, money market mutual fund and repurchase agreement are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty's trust department or agent but not in the School District's name. The School District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk

The School District places no limit on the amount it may invest in any one issuer. The following is the School District's allocation as of June 30, 2010:

	Percentage of Investments
Federal Home Loan Bank	58.0%
Federal National Mtg. Assoc.	22.8%
Federal Home Loan Mtg.	1.7%
Federal Farm Credit Corp.	3.9%
Money Market Mutual Fund -	
First American Government	0.0%
STAROhio	0.8%
Repurchase Agreement	12.8%
	100.0%

NOTE 7: DEPOSITS AND INVESTMENTS (CONTINUED)

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. As of June 30, 2010, the School District had no exposure to foreign currency risk.

NOTE 8: PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar 2010 represents collections of calendar year 2009 taxes. Real property taxes received in calendar year 2010 were levied after April 1, 2009, on the assessed value listed as of January 1, 2009, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are paid annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2010 represents collections of calendar year 2009 taxes. Public utility real and tangible personal property taxes received in calendar year 2009 became a lien December 31, 2008, were levied after April 1, 2009 and are collected in 2010 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar 2010 (other than public utility property) represents the collection of 2010 taxes. Tangible personal property taxes received in calendar year 2010 were levied after April 1, 2010, on the value as of December 31, 2009. The tangible personal property tax is being phased out. The assessment percentage for all property including inventory for 2010 is zero percent. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

The School District receives property taxes from Lake County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2010, are available to finance fiscal year 2010 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property, and tangible personal property taxes which are measurable as of June 30, 2010, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

The amount available as an advance at June 30, 2010, was \$627,079 in the general fund.

NOTE 8: PROPERTY TAXES (CONTINUED)

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which fiscal year 2010 taxes were collected are:

	2009 Second Half Collections		2010 First Half Collections	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/Residential and Other Real Estate	\$ 302,457,170	65.81%	\$ 297,018,260	64.08%
Public Utility	156,680,560	34.09%	166,246,910	35.87%
Tangible Personal Property	<u>472,480</u>	<u>0.10%</u>	<u>236,240</u>	<u>0.05%</u>
Total Assessed Value	<u>\$ 459,610,210</u>	<u>100.00%</u>	<u>\$ 463,501,410</u>	<u>100.00%</u>
 Tax Rate per \$1,000 of Assessed Valuation	 \$ 44.20		 \$ 44.20	

NOTE 9: RECEIVABLES

Receivables at June 30, 2010, consisted of taxes, accounts, accrued interest, and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of Federal funds. All receivables are expected to be collected within one year. The School District had \$347,907 in intergovernmental receivables.

NOTE 10: LAKE COUNTY SCHOOL FINANCING DISTRICT

The Board of Education of the Lake County School District has, by a resolution adopted February 6, 1990, pursuant to Section 3311.50 of the Ohio Revised Code, created a county school financing district known as the Lake County School Financing District (the "Financing District") for the purpose of levying taxes for the provision of the following specified educational programs and services by the school districts that are part of the Financing District: the provision of necessary personnel, materials, supplies, and transportation for instruction in language arts, social studies, mathematics, fine and practical arts, health and physical education, science, and business education.

The Board of Education of the Lake County School District acts as the taxing authority of the Financing District pursuant to Section 3311.50 of the Ohio Revised Code. The Financing District receives settlements of taxes levied and distributes them within ten days to each of the member district's proportionate share of that tax settlement. Each member district's proportionate share is a fraction, the numerator being member district's total pupil population and the denominator being the aggregate pupil population of all member districts as of that date. Taxes collected by the Financing District available to the School District at June 30 are recorded as receivables and revenue for the current fiscal year. Uncollected taxes outstanding received by the Financing District within 60 days after the fiscal year are recorded as a receivable and deferred revenue for they are measurable but not available to the School District. The total receivable is included in the account "Taxes Receivable".

NOTE 11: CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2010, was as follows:

	Balance June 30, 2009	Additions	Deletions	Balance June 30, 2010
<u>Governmental Activities</u>				
<i>Capital Assets, not being depreciated:</i>				
Land	\$ 1,200,000	-	-	\$ 1,200,000
Construction in Progress	-	250,908	-	250,908
Total Capital Assets, not being depreciated	1,200,000	250,908	-	1,450,908
<i>Capital Assets, being depreciated:</i>				
Land Improvements	11,745,484	-	-	11,745,484
Building and Improvements	95,428,450	-	-	95,428,450
Furniture and Equipment	2,592,472	16,803	-	2,609,275
Vehicles	2,250,031	76,200	-	2,326,231
Library and text books	919,543	-	-	919,543
Total Capital Assets, being depreciated	112,935,980	93,003	-	113,028,983
<i>Less Accumulated Depreciation:</i>				
Land Improvements	(9,173,746)	(588,730)	-	(9,762,476)
Building and Improvements	(48,736,536)	(2,994,540)	-	(51,731,076)
Furniture and Equipment	(1,732,226)	(123,466)	-	(1,855,692)
Vehicles	(1,342,160)	(134,386)	-	(1,476,546)
Library and text books	(919,543)	-	-	(919,543)
Total Accumulated Depreciation	(61,904,211)	(3,841,122)	-	(65,745,333)
Total Capital Assets being depreciated, Net	51,031,769	(3,748,119)	-	47,283,650
Governmental Activities' Capital Assets, Net	\$ 52,231,769	\$ (3,497,211)	\$ -	\$ 48,734,558

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$ 3,508,799
Vocational	8,526
Support Services:	
Instructional Staff	1,438
Administration	8,215
Operation and Maintenance of Plant	47,584
Pupil Transportation	120,566
Operation of Non-Instructional Services:	
Food Services	8,065
Extracurricular Activities:	
Sport Oriented Activities	137,929
Total Depreciation Expense	\$ 3,841,122

NOTE 12: **RISK MANAGEMENT**

A. Property and Liability

The School District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The School District is a member of the Ohio Schools Council Insurance Company property and fleet insurance purchasing group. On behalf of member school districts, the Ohio Schools Council prepares specifications and solicits quotations from insurance companies. The School District fleet was insured with the Ohio School Plan since April, 2008 with a \$1,000,000 liability limit per loss. The Ohio School Plan also carried the property insurance (which includes inland, marine, earthquake and crime), and also covered the boilers and machinery.

Additionally, since school districts are not protected by the doctrine of sovereign immunity, the School District contracted with the Ohio School Plan (through the Ohio School Boards Association/Nationwide Ohio Educational Liability Insurance program) for coverage with limits of liability of \$2,000,000 per claim and \$2,000,000 aggregate to insure the School District, the Board, all Board members, all administrators, certified and classified employees and volunteers.

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from last year.

B. Workers' Compensation

For fiscal year 2010, the School District participated in a Group Rating Program (GRP), an insurance purchasing pool (Note 19). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP.

A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley UniComp provides administrative, cost control and actuarial services to the GRP. Each year the School District pays an enrollment fee to the Plan to cover costs of administering the program.

C. Employee Insurance Benefits

The School District provides medical coverage to employees through premium payments to the Lake County Council of Governments Health Care Benefits Program (see Note 20 for further details).

NOTE 13: **PENSION PLANS**

A. State Teachers Retirement System

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost sharing, multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad Street, Columbus, Ohio 43215-3771, by calling toll-free 1-888-227-7877, or by visiting the STRS Ohio website at www.strsoh.org.

Plan Options - New members have a choice of three retirement plan options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC Plan allows members to allocate all their member contributions and employer contributions equal to 10.5 percent of earned compensation amount various investment choices. The Combined Plan offers features of the DC Plan and the DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund a defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the DB Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

DB Plan Benefits – Plan benefits are established under Chapter 3307 of the Ohio Revised Code. Any member may retire who had (i) five years of service credit and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the “formula benefit” or the “money-purchase benefit” calculation. Under the “formula benefit,” the retirement allowance is based on years of credited service and final average salary, which is the average of the members’ three highest salary years. The annual allowance is calculated by using a base percentage of 2.2 percent multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31st year of earned Ohio service credit is calculated at 2.5 percent with an additional one-tenth of a percent added to the calculation for every year over 31 years (2.6 percent for 32 years, 2.7 percent for 33 years and so on) until 100 percent of the final average salary is reached. For members with 35 or more years of Ohio contributing services, the first 30 years will be calculated at 2.5 percent instead of 2.2 percent. Under the “money-purchase benefit” calculation, a member’s lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

DC Plan Benefits - Benefits are established under Sections 3307.80 to 3307.89 of the Ohio Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 10.5 percent are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. Employer contributions into members’ accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the members’ designated beneficiary is entitled to receive the members’ account balance.

NOTE 13: **PENSION PLANS (CONTINUED)**

A. State Teachers Retirement System (Continued)

Combined Plan Benefits - Member contributions are allocated to investments selected by the member, and employer contributions are used to fund a defined benefit payment. Plan members' defined benefit is determined by multiplying 1 percent of the members' final average salary by the members' years of service credit. The defined benefit portion of the Combined Plan payment is payable to members on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or equivalent lump-sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3 percent of the original base amount for DB Plan participants.

The DB and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

A DB or Combined Plan member with five or more years' credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up \$2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

For fiscal year ended June 30, 2009 (the latest information available), members were required to contribute 10 percent of their annual covered salary and the District was required to contribute 14 percent. Member and employer contributions were established by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers provided by Chapter 3307 of the Ohio Revised Code. Of the 14 percent contributed by the District, 13 percent was the portion used to fund pension obligations.

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2010, 2009, and 2008 were \$1,262,544, \$1,250,217, and \$1,329,860, respectively; 87.80 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008. Member and employer contributions actually made for the Defined Contribution and Combined Plan participants will be provided upon written request.

NOTE 13: **PENSION PLANS (CONTINUED)**

B. School Employees Retirement System

Plan Description - The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement, disability, and survivor benefits; annual cost-of-living adjustments; and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report can be obtained by contacting SERS, 300 E. Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free 1-800-878-5853. It is also posted on SERS' website at www.ohsers.org under *Employer/Audit Resources*.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (the Pension Trust Fund, the Death Benefits Fund, the Medicare Part B Fund, and the Health Care Fund) of the System. For fiscal year ending June 30, 2010, the allocation to pension and death benefits is 12.78 percent. The remaining 1.22 percent of the 14.00 percent employer contribution rate is allocated to the Health Care and the Medicare Part B funds. The District's required pension contributions to SERS for the years ended June 30, 2010, 2009, and 2008 were \$521,395, \$361,722, and \$376,877, respectively; 94.68 percent has been contributed for fiscal year 2010 and 100 percent for fiscal year 2009 and 2008.

NOTE 14: **POST-EMPLOYMENT BENEFITS**

A. State Teachers Retirement System

Plan Description - Ohio law authorizes STRS to offer a cost-sharing, multiple employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums.

Pursuant to 3307 of the Ohio Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All benefit recipients, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent *Comprehensive Annual Financial Report* by visiting www.strsoh.org or by requesting a copy by calling toll-free 1-888-227-7877.

Funding Policy - Under Ohio law funding for post-employment health care may be deducted from employer contributions. Of the 14 percent employer contribution rate, 1 percent of covered payroll was allocated to post-employment health care for years ended June 30, 2009, 2008 and 2007 (the latest information available). For the fiscal years ended June 30, 2010, 2009, and 2008, the District's contributions to post-employment health care were \$97,119, \$96,171, and \$102,297, respectively; 87.80 percent has been contributed for 2010 and 100 percent for fiscal years 2009 and 2008.

NOTE 14: **POST-EMPLOYMENT BENEFITS (CONTINUED)**

B. School Employees Retirement System

Plan Description – In addition to the cost-sharing multiple-employer defined benefit pension plan described in Note 13, SERS administers two post-employment benefit plans, the Medicare Part B Plan and the Health Care Plan as permitted by Ohio Revised Code (ORC) Sections 3309.69 and 3309.375.

Medicare Part B Plan - The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code Section 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B monthly premium for calendar year 2010 was \$96.40 for most participants, but could be as high as \$353.60 per month depending on their income. SERS' reimbursement to retirees was \$45.50.

The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare Part B Fund. For fiscal year 2010, the actuarially required allocation is .76 percent. For the fiscal years ended June 30, 2010, 2009, and 2008, the District's contributions to the Medicare Part B Plan were \$31,006, \$29,845, and \$27,155, respectively; 94.68 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

Health Care Plan – ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plan from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employers' 14 percent contribution to the Health Care Fund. For the year ended June 30, 2010, the health care allocation is .46 percent. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS covered payroll for the health care surcharge. For fiscal year 2010, the minimum compensation level was established at \$35,800. The surcharge, added to the unallocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The District's contributions assigned to health care for the years ended June 30, 2010, 2009 and 2008 were \$78,633, \$226,689, and \$237,789, respectively

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

NOTE 14: POST-EMPLOYMENT BENEFITS (CONTINUED)

B. School Employees Retirement System (Continued)

The financial report of SERS' Health Care and Medicare B plans are included in its *Comprehensive Annual Financial Report*. The report can be obtained by contacting SERS, 300 E. Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll-free (800) 878-5853. It is also posted on SERS' website at www.ohsers.org under *Employers/Audit Resources*.

NOTE 15: OTHER EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation, personal, and sick leave benefits are derived from negotiated agreements and State laws. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers and other nine month employees do not earn vacation time. Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Upon retirement, an employee is paid for up to 50 percent of accumulated sick days up to a maximum of 270 accumulated sick days.

B. Retirement Incentive Plan

The School District offered employees participation in a one-time two-year Early Retirement Incentive Plan (the Plan). Participation was open to eligible employees under the State Teachers Retirement System (STRS) and the School Employees Retirement System (SERS). The Plan allows the School District to pay the cost, as determined by STRS and SERS, of two years of eligible service credit for each eligible employee. To participate in the Plan, each eligible employee had to submit an irrevocable letter of resignation to the School District during the period February 1, 2009 through February 28, 2009, specifying the employee's date of retirement effective between June 8, 2009 and June 12, 2010. Seventeen eligible employees elected to participate in the Plan. As of the fiscal year end 2010, the Plan liability is \$455,662, of which \$96,487 is recorded as a short-term liability. The liability will be paid out of the funds in which the respective employees are paid.

NOTE 16: LONG-TERM OBLIGATIONS

Changes in long-term obligations of the School District during fiscal year 2010 were as follows:

	Principal Outstanding June 30, 2009	Additions	Reductions	Principal Outstanding June 30, 2010	Due in One Year
Governmental Activities					
<u>General Obligation Notes</u>					
2006 Energy Conservation Note, \$2,156,818, 3.88%	\$ 1,594,354	\$ -	\$ 202,366	\$ 1,391,988	\$ 210,294
<u>Other Long-term Obligations</u>					
2008 Capital Lease, \$188,400	127,949	-	62,770	65,179	65,179
Retirement Incentive	681,148	28,722	350,695	359,175	359,175
Compensated Absences	2,669,100	716,389	458,385	2,927,104	502,694
Total Other Long-term Obligations	<u>3,478,197</u>	<u>745,111</u>	<u>871,850</u>	<u>3,351,458</u>	<u>927,048</u>
Total Governmental Activities	<u>\$ 5,072,551</u>	<u>\$ 745,111</u>	<u>\$ 1,074,216</u>	<u>\$ 4,743,446</u>	<u>\$ 1,137,342</u>

NOTE 16: LONG-TERM OBLIGATIONS (CONTINUED)

On March 30, 2006, the School District entered into a 10-year installment payment agreement with Citimortgage, Inc. for \$2,156,818, bearing interest at the rate of 3.88 percent per annum. The proceeds were used for the purpose of renovating and otherwise improving energy conservation at the School District's facilities. The annual debt service payments are paid out of the permanent improvement capital projects fund.

In fiscal year 2008, the School District obtained a capital lease in the amount of \$188,400, bearing an interest rate of 3.80 percent per annum. This lease will mature in fiscal year 2011. The lease was used to finance the purchase of 200 computers for students. The annual debt service payments are paid out of the general fund.

A significant amount of the retirement incentives will be paid out of the general fund and compensated absences will be paid from the general fund and the termination benefits special revenue fund.

Principal and interest requirements to retire general obligation debt outstanding as of June 30, 2010 are as follows:

Year Ending June 30,	Principal	Interest	Total
2011	\$ 210,294	\$ 51,989	\$ 262,283
2012	218,532	43,751	262,283
2013	227,094	35,189	262,283
2014	235,990	26,293	262,283
2015	245,236	17,047	262,283
2016	254,842	7,441	262,283
Total	<u>\$ 1,391,988</u>	<u>\$ 181,710</u>	<u>\$ 1,573,698</u>

NOTE 17: CAPITAL LEASE OBLIGATION

The School District has a lease agreement for 200 computers, in the amount of \$188,400. This lease qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of inception date for the governmental activities in the statement of net assets. Though the computer lease agreement qualifies as a capital lease, each computer individually does not exceed the School District's capitalization threshold and will not be capitalized on the government-wide statements.

The future minimum lease payments required under the remaining capital lease are as follows:

Fiscal Year Ending June 30,	Governmental Activities
2011	\$ 67,042
Total	67,042
Less: Amount representing interest	(1,863)
Present value of minimum lease payments	<u>\$ 65,179</u>

NOTE 18: JOINTLY GOVERNED ORGANIZATIONS

A. Ohio Schools' Council Association

The Ohio Schools' Council Association (Council) is a jointly governed organization among one hundred twenty-one school districts. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board meets monthly September through June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. In fiscal year 2010, the School District paid \$1,311 to the Council. Financial information can be obtained by contacting Dr. David A. Cottrell, the Executive Director of the Ohio Schools' Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

The School District participates in the Council's prepaid natural gas program. The Council provides participating school districts the ability to purchase natural gas at reduced rates, if the school districts will commit to participating for a twelve year period. There are currently 137 districts in the Program. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

The School District also participates in the Council's electric purchase program. The Council provides 238 school districts and 11 MR/DD boards in the First Energy territory (Cleveland Electric Illuminating, Ohio Edison, Toledo Edison) the ability to purchase electricity at reduced rates if the school district committed to participating in either a thirty-six month (Cleveland Electric Illuminating Company) or a forty-four month (Ohio Edison and Toledo Edison) program beginning either May 1, 2005 or January 1, 2006 and ending December 31, 2009. Each month, the Council invoices participants based on estimated usage that was determined when the program was established. Each September, these estimated payments are compared to their actual usage for the year (July to June). Refund checks are issued to districts that consumed less than their projected usage of electrical energy and districts that over-consumed are invoiced.

B. Lake Geauga Computer Association

The Lake Geauga Computer Association (the LGCA) is a jointly governed organization that was formed for the purpose of providing computer services for accounting, grading, scheduling, EMIS, and other applications to its eighteen member school districts. Each of the districts supports LGCA based upon a per pupil charge. The School District contributed \$47,621 to LGCA during fiscal year 2010. The Executive Committee (Governing Board) consists of the superintendents and treasurers of the member school districts. The degree of control exercised by any participating school district is limited to its representation on the Governing Board. LGCA's continued existence is not dependent on the School District's continued participation. LGCA is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit or burden on the School District. Financial information can be obtained by contacting the Treasurer at the Geauga County Educational Service Center, who serves as the fiscal agent, at 470 Center Street, Chardon, Ohio 44024.

NOTE 18: JOINTLY GOVERNED ORGANIZATIONS (CONTINUED)

C. Auburn Career Center

The Auburn Career Center is a joint vocational school district which is a jointly governed board appointment organization among eleven school districts. Each participating school district appoints one member to the Auburn Career Center's Board of Education. The students of each participating school district may attend classes offered at the vocational facility. Each participant's control over the operation of the Auburn Career Center is limited to its representation on the Board. The Auburn Career Center receives 1.5 mills of the School District's property tax, which is paid to the Auburn Career Center directly by Geauga County. No other contribution by the School District is required. Continued existence of the Auburn Career Center is not dependent on the School District's continued participation. Financial information can be obtained from 8140 Auburn Road, Painesville, Ohio 44077.

NOTE 19: INSURANCE PURCHASING POOL

The School District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP) was established through the Ohio Association of School Business Officials (OASBO) as a group purchasing pool. The Executive Director of the OASBO, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

NOTE 20: CLAIMS SERVICING POOL

The School District participates in the Lake County Council of Governments Health Care Benefits (HCBP) Self Insurance Program, a claims servicing pool comprised of nine Lake County school districts organized under Chapter 167 of the Ohio Revised Code. Each school district has a representative on the assembly (usually the superintendent or a designee). Each member pays an administrative fee to the pool. The plan's business and affairs are conducted by a five-member Board of Directors elected by the HCBP's assembly. The assembly elects officers for one-year terms to serve on the Board of Directors. The School District pays a monthly contribution, which is placed in a common fund from which claim payments are made for all members. The Council is a separate and independent entity governed by its own set of bylaws and constitution. All assets and liabilities are the responsibility of the Council. The program is operated as a full indemnity program with no financial liability (other than the monthly premiums) or risk to the School District. The Council shall pay the run out of all claims for a withdrawing member. Any member which withdraws from the Council pursuant to the program agreement shall have no claim to the Council's assets.

NOTE 21: CONTINGENCIES

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2010.

NOTE 21: CONTINGENCIES (CONTINUED)

B. Litigation

The School District is party to legal proceedings. The School District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

NOTE 22: STATE SCHOOL FUNDING DECISION

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State’s school funding plan. The decision reaffirmed earlier decisions that Ohio’s current school funding plan is unconstitutional. The Supreme Court relinquished jurisdiction over the case and directed “...the Ohio General Assembly to enact a school funding scheme that is thorough and efficient...”. The School District is currently unable to determine what effect, if any, this decision will have on its future State funding and its financial operations.

NOTE 23: INTERFUND RECEIVABLES, PAYABLES, TRANSFERS

The composition of interfund balances as of June 30, 2010, is as follows:

A. Interfund Receivables/Payables

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Nonmajor Governmental Funds	\$ 322,273

On the fund financial statements, the general fund reported an interfund receivable and the nonmajor governmental funds reported interfund payable of \$322,273. The general fund provided loans to the nonmajor governmental funds in the amount of \$322,273. These loans from the general fund were made to eliminate the negative cash balances in the idea, part B special education, education of handicapped children fund, the title I – disadvantaged children/targeted assistance fund, the idea preschool grant for the handicapped fund, and the improving teacher quality fund. The general fund provided temporary funding for the nonmajor governmental funds until funds are received from the grantor. These loans will be repaid within one year.

B. Interfund Transfers

<u>Transfers Out</u>	<u>Transfers In</u>		<u>Total</u>
	<u>Permanent Improvement Fund</u>	<u>Nonmajor Governmental Funds</u>	
General Fund	\$ 1,800,000	\$ 380,000	\$ 2,180,000
Nonmajor Governmental Fund	-	479	479
Totals	\$ 1,800,000	\$ 380,479	\$ 2,180,479

The general fund transfers to the permanent improvement fund and the nonmajor governmental funds were made to provide additional resources for current operations. On the government-wide financial statements, these transfers were eliminated since they were within the governmental activities.

NOTE 24: SET-ASIDE REQUIREMENTS

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years. In prior years, the School District was also required to set aside money for budget stabilization.

The following cash basis information describes the changes in the fiscal year end set-aside amounts for textbooks, capital acquisition, and budget stabilization. Disclosure of this information is required by State statute.

	Textbooks & Instructional Materials Reserve	Capital Improvements Reserve
Set-Aside Reserve Balance, as of June 30, 2009	\$ (6,752,871)	\$ -
Current Year Set-Aside Requirements	307,636	307,636
Qualifying Disbursements	(297,876)	(392,496)
Total	\$ (6,743,111)	\$ (84,860)
 Set-Aside Balance, as of June 30, 2010, and carried forward to future fiscal years	 \$ (6,743,111)	 \$ -

The School District had qualifying disbursements during the fiscal year that reduced the textbook set-aside amount below zero. This amount may be used to reduce the set-aside requirements for future years. Although the School District had qualifying disbursements during the year that reduced the capital improvements set-aside amount below zero, these extra amounts may not be used to reduce the set-aside requirement in future fiscal years.

In addition to the above statutory reserves, the School District also received monies restricted for school bus purchases. As of June 30, 2010, the amount restricted for school bus purchases presented in the governmental funds was \$58,165.

**COMBINING STATEMENTS OF
INDIVIDUAL FUND SCHEDULES**

Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specific purposes. A description of the School District's nonmajor special revenue funds follow:

Food Service - This fund accounts for the provision of food service to the School District.

Uniform School Supplies - This fund accounts for the purchase of necessary supplies, materials, or other school related items above those items provided for general instruction, paid for by students.

Special Rotary – This fund accounts for field trip collections within the School District.

Public School Support - This fund is used for the general support of the school building, staff, and students.

Other Grants – This fund accounts for monies received to promote community involvement and to support activities between the School District and community.

Special Enterprise – This fund accounts for the operation of the Community Fitness Center funded through charges for services from families and corporations.

Termination Benefits – This fund accumulated funds to pay termination benefits to eligible employees.

District Managed Student Activity - This fund is used to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund includes all athletic programs, except supplemental coaching contacts, and accounts for revenues and costs of the School District's athletic programs.

Management Information Systems - This fund is used to account for revenue provided by the State of Ohio to be used solely for costs associated with the requirements of the education management information system required by Senate Bill 140.

Entry Year Teachers - This fund is used to implement entry-year programs pursuant to Division (T) of Section 3317.024 of the Ohio Revised Code.

Data Communication - This fund is used to account for money appropriated for Ohio Educational Computer Network Connections.

School Net Professional Development - This fund was established to provide training for teachers to become practitioners. This fund is provided to account for a limited number of professional development subsidy grants.

Ohio Reads Grant - This fund was established to provide funds to improve reading outcomes, especially on the fourth grade reading proficiency test, and for volunteer coordinators in public school buildings, for education service centers for costs associated with volunteer coordination, for background checks for volunteers, to evaluate the Ohio Reads Program, and for operating expenses associated with administering the program.

Summer School Intervention - This fund accounts for summer intervention services satisfying criteria defined in Division (E) of Section 2318.608 of the Ohio Revised Code.

Miscellaneous State Grants - This fund is used to account for various monies received from state agencies which are not classified elsewhere. A separate special cost center must be used for each grant and approved by the Auditor of State.

IDEA, Part B Special Education, Education of Handicapped Children - The purpose of this Federal program is to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least-restrictive, alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

School District Fiscal Stabilization – The purpose of this Federal program is to support and restore state funding for elementary, secondary, post-secondary education and as applicable early childhood programs.

Title III – Limited English Proficiency – The purpose of this Federal program is to provide funds to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

Title I - Disadvantaged Children/Targeted Assistance - This fund is used to provide financial assistance to state and local educational agencies to meet the special needs of educationally deprived children.

Title V – Innovative Education Programs - This fund is used to consolidate various programs into a single authorization of grants to states for the same purposes set forth in the provisions of law as specified in the authorization section, to be used in accordance with the educational needs and priorities of the state and local agencies.

Drug-Free Schools Grant - This fund provides funds to local educational agencies and consortia of these agencies to establish, operate, and improve local programs of drug abuse prevention, early intervention, rehabilitation referral, and education in elementary and secondary schools, and to engage in development, training, technical assistance, and coordination activities.

IDEA – Preschool Grant for the Handicapped – The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

Improving Teacher Quality - This fund is used to account for monies to hire additional classroom teachers in grades 1 through 3 so that the number of students per teacher will be reduced.

Miscellaneous Federal Grants - This fund is used to account for various monies received through state agencies from the Federal government or directly from the Federal government. This program is to provide individual instructions to first and second grade students in the academic area of reading and math, with the assistance of a trained group of adult volunteers using appropriate service training activities.

Nonmajor Capital Projects Fund

Capital Projects funds are used to account for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). Following is a description of the nonmajor capital projects funds:

School Net - This fund is used to account for monies received by the State of Ohio for the purpose of purchasing computers for K-4 grades.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations.

Private Purpose Trust Fund

Private Purpose Trust Scholarship - This fund accounts for scholarships provided to students.

Agency Fund

Student Activities Fund - This fund reflects resources that belong to the student bodies of the various schools, accounting for sales and other revenue generating activities.

Perry Local School District, Lake County, Ohio
Comprehensive Annual Financial Report
For the Fiscal Year Ended June 30, 2010

Statistical Section

This part of Perry Local School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

<u>Contents</u>	<u>Page(s)</u>
Financial Trends These schedules contain trend information to help the reader understand how the School District's financial position and well-being have changed over time.	S2-S11
Revenue Capacity These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local revenue source, the property tax.	S12-S18
Debt Capacity These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	S19-S23
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	S24
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	S25-S35

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The School District implemented GASB Statement 34 in fiscal year 2003; schedules presenting government-wide information include information beginning in that fiscal year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax is being phased out beginning in 2006. The listing percentage is 18.75 percent for 2006, 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.
