INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Twinsburg City School District Summit County 11136 Ravenna Road Twinsburg, Ohio 44087

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Twinsburg City School District, Summit County, Ohio, (the District) as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 15, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. Therefore, we cannot assure that we have identified all deficiencies, significant deficiencies or material weaknesses. However, as described in the accompanying schedule of findings we identified a certain deficiency in internal control over financial reporting, that we consider a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and timely corrected. We consider finding 2010-001 described in the accompanying schedule of findings to be a material weakness.

www.auditor.state.oh.us

Twinsburg City School District Summit County Independent Accountants' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by Government Auditing Standards Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as finding 2010-001.

We also noted certain matters not requiring inclusion in this report that we reported to the District's management in a separate letter dated February 15, 2011.

The District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

We intend this report solely for the information and use of management, audit committee, Board of Education, and federal awarding agencies and pass-through entities, and others within the District. We intend it for no one other than these specified parties.

Dave Yost Auditor of State

February 15, 2011

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Twinsburg City School District Summit County 11136 Ravenna Road Twinsburg, Ohio 44087

To the Board of Education:

Compliance

We have audited the compliance of Twinsburg City School District, Summit County, Ohio (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of Twinsburg City School District's major federal programs for the year ended June 30, 2010. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Twinsburg City School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of

101 Central Plaza South, 700 Chase Tower, Canton, Ohio 44702-1509

Page 2

opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We also noted a certain matter not requiring inclusion in this report that we reported to the District's management in a separate letter dated February 15, 2011.

Federal Awards Receipts and Expenditures Schedule

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Twinsburg City School District as of and for the year ended June 30, 2010, and have issued our report thereon dated February 15, 2011. Our audit was performed to form an opinion on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The accompanying Federal Awards Receipts and Expenditures Schedule provide additional information required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the basic financial statements. The Schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This Schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the management, audit committee, Board of Education, and federal awarding agencies and pass-through entities, and others within the District. It is not intended for anyone other than these specified parties.

NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE FISCAL YEAR ENDED JUNE 30, 2010

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) reports the Twinsburg City School District's (the District's) federal award programs' receipts and disbursements. The schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C - FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

NONCOMPLIANCE AND MATERIAL WEAKNESS

Ohio Rev. Code Section 5705.10(A) states all revenue derived from the general levy for current expense within the ten-mill limitation, from any general levy for current expense authorized by vote in excess of the ten-mill limitation, and from sources other than the general property tax, unless its use for a particular purpose is prescribed by law, shall be paid into the general fund. Ohio Rev. Code Section 5705.05 and 1981 Op. Atty Gen. No. 81-035 state revenue derived from a general levy for current expenses should not be used to pay debt charges.

Therefore, transfers from the General Fund to a Debt Service Fund, or other fund, to retire debt are not permissible, unless the government can support that such transfers were made without the use of revenue derived from inside millage. Generally, revenues derived from all other sources in the General Fund may be used to retire debt.

\$2,008,130 of general fund levy property taxes was directly receipted into the Bond Retirement Fund rather than the General Fund in order to accelerate debt repayments. The financial statements and District's financial records were adjusted to reflect this revenue in the General Fund.

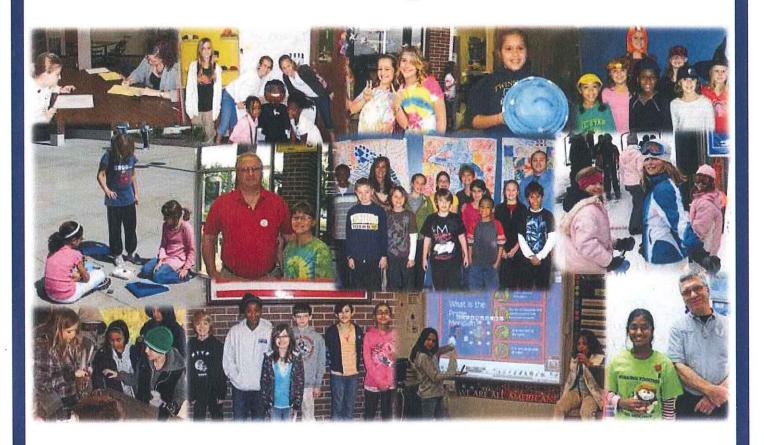

If the District chooses to utilize general fund revenues to subsidize Bond Retirement Fund, such revenue cannot be revenue derived from a general levy. If the District can provide support that such revenues were not revenues derived from inside millage and in accordance with Ohio Rev. Code Section 5705 then a transfer from the General Fund can be made to the Bond Retirement Fund. All transfers from the General Fund require approval by the Board of Education via a Board Resolution in accordance with Ohio Rev. Code Section 5705.14 and 1989 Op. Att'y Gen. No. 89-075.

Official's Response: It was discussed by the Board of Education and it was their intention to transfer funds from the General Fund to pay Debt service. The monthly financial reports showed the additional fund balance in the Debt service fund. However in error, the Board Resolution authorizing the Transfer was made in the subsequent fiscal year Resolution Number 11-062.

3. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

None noted.

Twinsburg City School District

11136 Ravenna Road • Twinsburg, Ohio 44087-1022 Phone: (330) 486-2000 Fax: (330) 425-7216

Mr. Stephen Marlow, Superintendent Mr. Michael Lenzo, Assistant to the Superintendent Mr. Martin Aho, Treasurer Mrs. Susan Buckbee, Director of Curriculum/Staff Development Mrs. Judith Henning, Director of Pupil Personnel

February 15, 2011

To the Citizens and Board of Education of the Twinsburg City School District:

The Comprehensive Annual Financial Report (CAFR) of the Twinsburg City School District, (the School District) for the fiscal year ended June 30, 2010, is hereby submitted. This report, prepared by the Fiscal Office, includes financial statements, supplemental statements, and other financial and statistical information to provide complete and full disclosure of all material financial aspects of the School District for the 2009-2010 fiscal year. This report is presented in compliance with Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments and is representative of the School District's commitment to provide meaningful information to its' stakeholders.

Responsibility for both the accuracy of the data presented, and the completeness and fairness of the presentation, including the disclosures, rests with the School District's management. To the best of our knowledge and belief, the CAFR and enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the School District.

State law requires the School District's financial statements to be subjected to a biennial examination by the Auditor of State of Ohio (Auditor) or an independent auditor contracted by the Auditor unless an annual Federal Single Audit is required. In addition, the law requires the School District to prepare and file, within 150 days following the close of their fiscal period, a financial statement prepared in accordance with generally accepted accounting principles (GAAP) with the Auditor. The financial statements, at a minimum, should be the basic financial statements of the School District and include the notes to those statements. Although not required by law, management of the School District has decided to prepare this CAFR. A further discussion of the audit can be found later in this letter.

This CAFR, which includes an opinion from the Auditor, conforms to generally accepted accounting principals as set forth by the Government Accounting Standards Board (GASB) and is representative of the School District's commitment to provide meaningful information to the citizens of the Twinsburg City School District.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Description of the School District

The School District serves an area of approximately 30 square miles. It is comprised of the City of Twinsburg, Twinsburg Township and portions of the Village of Reminderville and the City of Macedonia. It is located in the Northeast corner of Summit County and is approximately 21 miles southeast of downtown Cleveland and 24 miles northwest of Akron. According to the 2000 Census, the population of the School District was 30,730.

As of October 2010, there were 4,270 students attending the five schools in the School District. They are: Wilcox Primary built in 1960, Bissell Elementary built in 1963, Dodge Intermediate built in 1969, Chamberlin Middle School built in 1958, and Twinsburg High School built in 1999. The School District also owns a central office building built in 1957, a bus garage, a football stadium, and various athletic fields.

There has been a steady growth in student population. The 1992-93 enrollment was 2,431 students. Since then the student population has increased well over 75%. Enrollment projections indicate continued growth over the next ten years. Projections indicate the School District's student population is anticipated to grow in excess of 5,000 students.

Organization of the School District

The Board of Education of the School District is comprised of five members elected at-large by the citizens of the School District. The Board serves as the taxing authority, contracting body, and policy initiator for the operation of the School District. The Board is responsible for the adoption of the tax budget, the annual operating budget and approves all expenditures of the School District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the law.

The Superintendent is the Chief Executive Officer of the School District and is directly responsible to the Board for all operations within the School District. In January 2005, Stephen Marlow was hired as the School District Superintendent. Mr. Marlow has served the School District as Middle School Principal and Assistant Superintendent prior to accepting the position as Superintendent. Mr. Marlow is a long time resident of the City of Twinsburg.

The Treasurer is the Chief Fiscal Officer of the School District and is responsible directly to the Board for all financial operations, investments, custody of School District funds and assets, and serves as Secretary to the Board. Martin Aho has served in this capacity since July 2002. He has over eighteen years of public sector employment experience. After seven years of service with the Auditor of State's Office, he was an Assistant Treasurer for three years. He has an MBA from the University of Akron. The Treasurer's office employs three additional staff members.

All other School District employees are responsible to the Superintendent and are employed by the Board upon the recommendation of the Superintendent.

The Reporting Entity

The School District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity," as amended by GASB Statement 39, "Determining Whether Certain Organizations are Component Units." In evaluating how to define the School District for financial reporting purposes, management has considered all agencies, departments and organizations making up the School District (the primary government) and its potential component units.

The School District participates in certain organizations that are defined as jointly governed organizations and public entity risk pools. These organizations include the Cuyahoga Valley Career Center, the Ohio Schools Council, and the Northeast Ohio Network for Educational Technology.

Economic Conditions

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the School District operates.

Local Economy

The City of Twinsburg is an enviable location as part of the metropolitan Cleveland-Akron area. The two entrances to Interstate 480 are in very close proximity to Interstate 271 and Interstate 80 (Ohio Turnpike). The easy access to interstate highways has enabled the growth of an industrial park. Located within this park is a Chrysler stamping plant. This plant is one of the largest employers in Summit County employing approximately 1,100 people. The Twinsburg School District was informed on May 1, 2009, that the Chrysler Stamping Plant located in Twinsburg will be closing March 2010. While the closing was not unexpected in light of the economic difficulties experienced by the US auto industry, the timing of the closing was unforeseen.

Four State-supported and six private colleges and universities are located within a convenient driving distance from Twinsburg. The Twinsburg Public Library has been nationally recognized when compared to similar facilities. The Twinsburg Public Library's top rating was based on fifteen factors as measured by Hennen's American Public Library Rating. In 2006 the Library surpassed the circulation milestone of one million items distributed.

Twinsburg City and Township have experienced strong business growth over the past ten years. The growth is continuing and land is available for this use. A tax incentive program has assisted the growth. The future benefits of such a plan are being realized at this point as most businesses are ending their abatement periods and remaining in the community.

The School District, like the rest of the nation, continues to feel the impact of the current economic meltdown. Property taxes and intergovernmental revenues are closely monitored. The School District considers both of these revenues indicators of the strength or weaknesses of the local economy. In monitoring property tax revenues, the School District takes in account several factors, including tax collections, the values of new construction, foreclosures and reappraisals.

Long-term financial planning

During these uncertain economic times the administration and Board of Education endeavor to hold down expenditures and continue to examine areas to make future resource reallocations. Our goal is to create dynamic curriculum and learning environments that challenge all students' creative, analytical and critical thinking abilities and skills beyond standardized requirements. Our focus on student achievement has garnered Twinsburg School District an Excellent with Distinction rating from the Ohio Department of Education for the third consecutive year.

The litigation now referred to as the "DeRolph Case", began in 1991 ultimately found the State's method of funding school districts to be unconstitutional. Subsequently the Ohio Supreme Court relinquished jurisdiction over the case and directed the Ohio General Assembly to enact a school-funding scheme that is thorough and efficient. The State continues to struggle with satisfying the Supreme Court's ruling.

The Ohio Legislature enacted in 1976, House Bill 920, severely limiting schools in their funding initiatives. This law prohibits school districts from realizing additional revenue from previously voted millage due to reappraisal of property values due to inflation.

House Bill 95 passed in June 2003 and House Bill 66 passed in June 2005 has eliminated the collection of taxes on tangible personal property. Tangible personal property is the machinery, inventory, furniture and fixtures owned by businesses. As the tax on tangible personal property is terminated, the State will provide limited reimbursements to school districts through the foundation program and direct payments. The flow of these revenues will come via a Commercial Activity Tax. Interestingly, revenues that once flowed from local sources will now flow from the State, appearing as if the State has increased funding to education. The net effect is an overall reduction of revenues to the Twinsburg City School District and like many Ohio schools will be forced to seek voter-approved levies more frequently.

In May, 2001 the School District electors approved an emergency tax levy producing \$5 million dollars annually for five years. This emergency levy was recently renewed for ten additional years through collection year 2021. In November 2004, the School District electors approved an emergency levy producing \$4 million. This emergency levy was renewed for ten years through collection year 2020.

Financial policy

The School District is required by Ohio law to complete a five-year financial forecast annually. This School District completed the forecast in October 2010 as required. This document is updated regularly and serves as a financial roadmap for the School District. The forecast is designed to provide the administration, board of education and the public a general indication of a probable future financial position of the School District based on information currently available to the School District. The forecast is a critical planning document for the School District. It is a necessary tool focusing discussion and attention on future financial needs while facilitating management's strategic planning.

Initiatives and Accomplishments

Across the School District a number of major accomplishments have taken place. The following are examples of those initiatives that directly impact teaching and learning.

Instruction

➤ Local Report Card

The School District met 26 out of 26 performance indicators on the 2009-2010 State of Ohio Local Report Card. The School District's performance index score once again exceeded 100, indicating that a large percentage of our students scored in the accelerated and advanced ranges on the Ohio Achievement and Graduation Tests. This year's administration of the Ohio Graduation Test revealed our students passing at high rates in all five areas.

> Excellent with Distinction

The School District has earned this designation for the 2009-2010 report card by being "Excellent" and also exceeds value-added goals for two consecutive years. The School District maintained its "Excellent" performance rating for the fifth year in a row and the seventh time in the past nine years. Sustained focus will be given to our student groups to ensure our School District continues to meet federally mandated adequate yearly progress (AYP) for the State Report Card. The School District has met AYP for the 2009-2010 report. The value-added results are above expected growth for the School District.

> Curriculum

In the 2009-2010 school year the School District continued professional development to ensure coherent and rigorous implementation of the Graded Courses of Study for all content areas. The School District recently implemented Honors Programs at the middle school for science, social studies and language arts. Curriculum leaders and teachers have continued to work hard on refining curriculum maps and develop quality formative assessments. The adopted curriculum aligns closely with the current Ohio Content Standards. This has required augmentation of our faculty's skills in teaching new content and pedagogy. Professional development will be provided to support teachers' use of the data to improve instruction. Additionally, Professional Learning Communities have been formed to enhance teaching and learning environments.

➤ All Day Kindergarten

Governor Ted Strickland proposed a comprehensive reform of the current funding model to a new Ohio Evidence Based Model (OEBM). An important piece of this reform is All Day Kindergarten. The School District has offered All Day Kindergarten for many years in an effort to ensure all students are reading at grade level or higher.

> Programs

Many programs support student learning such as Power of the Pen, Reading Wall of Fame at Wilcox Primary, Vocal/Orchestra/Band Music Programs, Cub Community Program, Mini-PANDA, Interactive Media Program, and RBC Honor Corps and Leadership Council. In addition many athletic opportunities exist for student athletes. Programs have been designed to facilitate parental involvement in the schools. These include Family Focus Night and Parent Workshops, Grandparent and Veteran Days, and Parent-to-Parent Support Group to name a few.

Plant and Educational Support

> Facilities

All school buildings are in excellent physical condition. A Permanent Improvement levy supports the building maintenance program. Twinsburg High School was opened in January 1999. Attached to it is a Fitness Center operated by the City of Twinsburg's Parks and Recreation Department. When the High School was constructed, an additional "Pod" shell was constructed to allow for future expansion. The School District completed the interior of the L-Pod in time for the start of the 2006-2007 school year. Additionally, the artificial-grass surface installed at our athletic stadium has been positively received by the athletes and community alike.

> Technology

All buildings are wired, networked, and have Internet access. The School District has approximately 1,100 computers for student and staff use. Other technologies that support education are also available. Many classrooms have smart board technologies. All staff and Board of Education members have e-mail access. The School District utilized State and Federal Grant monies to enhance the technology.

Security

The School District has implemented a School District-wide security plan to protect the students and the staff. All buildings have security equipment and procedures.

> Planning

- Continuous Improvement Plan The Board of Education's approved Continuous Improvement Plan was developed with input from various stakeholders of the School District. In addition to the overall plan, each building developed its annual goals within the plan. It also includes a mechanism to monitor and update it annually.
- Enrollment Projections In 2004, Fanning, Howey, and Associates, Inc., completed enrollment projections for the School District. Enrollment projections are reviewed and updated as needed and are used to guide the School District's planning.

O Strategic Planning –The School District engaged a Strategic Planning process. The process sought input from all stakeholder groups on issues of concern. These issues were academic excellence, shared financial responsibility, safety, student services and opportunities, communications, and quality fiscal assets. A Vision, a Mission Statement and a set of common Beliefs were developed. Continuing the process, six Goals along with action steps and a time line were produced. The Strategic Plan received Board of Education approval May 7, 2008.

Financial Information

The management of the School District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the School District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of the control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

Other Information

Auditor of State's Award

Auditor of State Mary Taylor's office has presented Twinsburg City School District officials with the "Making Your Tax Dollars Count" award for years 2007-2009. Fewer than five percent of all Ohio government agencies are eligible for this award. Certain criteria must be met to receive the "Making Your Tax Dollars Count" award. Standards are the entity must complete and submit a Comprehensive Annual Financial Report, there must be no findings, or issues, present in their most recent audit report, and there must be no other financial concerns involving the entity.

"I'm pleased to recognize Twinsburg City School District's commitment to properly account for the tax dollars they spend," said Taylor. "The community should be proud of their commitment to financial accountability."

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Twinsburg City School District for its comprehensive annual financial report for the fiscal year ended June 30, 2009. This was the 10th consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Additional Information

For a more in depth discussion of the financial condition of the Twinsburg City School District, please refer to the Management's Discussion and Analysis and the Notes to the Basic Financial Statements of the Comprehensive Annual Financial Report.

Acknowledgements

I wish to express my deepest appreciation and thanks to the individuals who assisted with the preparation of this Comprehensive Annual Financial Report. Its preparation and publication would not have been possible without the cooperation and efforts of many dedicated individuals. These include the staff in the Treasurer's Department, the administration and the proficient staff in each building. It is with great pride that the Twinsburg City School District presents the 2010 Comprehensive Annual Financial Report to the citizens and taxpayers of the School District.

Finally, we wish to thank the Board of Education where the commitment to excellence begins.

Respectfully Submitted.

Presented to

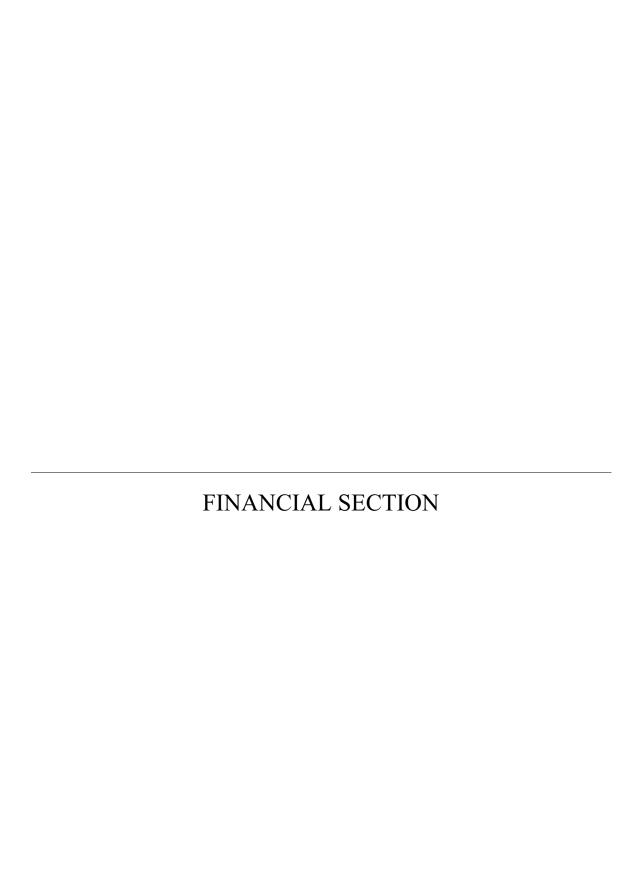

Twinsburg City School District Ohio

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT ACCOUNTANTS' REPORT

Twinsburg City School District Summit County 11136 Ravenna Road Twinsburg, Ohio 44087

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Twinsburg City School District, Summit County, Ohio (the District), as of and for the year ended June 30, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Twinsburg City School District, Summit County, Ohio, as of June 30, 2010, and the respective changes in financial position thereof and the budgetary comparison for the General fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 15, 2011, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Twinsburg City School District Summit County Independent Accountants' Report Page 2

Accounting principles generally accepted in the United States of America require this presentation to include Management's discussion and analysis as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund schedules, and the statistical section information provide additional analysis and are not a required part of the basic financial statements. The financial section's combining statements and individual fund schedules are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These statements and schedules were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Dave Yost Auditor of State

February 15, 2011

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2010 Unaudited

This discussion and analysis of Twinsburg City School District's (the School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2010 are as follows:

- General revenues accounted for \$43,834,060 in revenue or 90.7% of all revenues. Program specific revenues in the form of charges for services, operating and capital grants, contributions and interest accounted for \$4,516,325 or 9.3% of total revenues of \$48,350,385.
- The School District had \$48,251,017 in expenses related to governmental activities; program revenues offset \$4,516,325 of these expenses. \$43,834,060 of general revenues was available to provide for these programs resulting in an increase in net assets of \$99,368. The main reason for the current year increase in net assets is due to current year revenues exceeding current year expenses.
- Of the total governmental expenses of \$48,251,017, the amount related to instruction amounted to \$25,292,086 or 52.4% of this total.
- The School District had two major governmental funds, the general fund and the bond retirement debt service fund. The general fund's balance decreased \$246,863 from \$28,723,937 as of June 30, 2009 to \$28,477,074 at June 30, 2010. The debt service's fund balance decreased \$256,950 from \$1,812,530 at June 30, 2009 to \$1,555,580 at June 30, 2010.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Twinsburg City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net assets and statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements present how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2010 Unaudited

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While these statements contain information about a large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and helps answer the question, "How did we do financially during 2010?"

These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting, takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's current property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net assets and the statement of activities, the School District's activities are considered to be all governmental activities.

Governmental Activities - Most of the School District's programs and services are reported here including instruction, support services, operation of non-instructional services, extracurricular activities and food service operations.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 8. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general and bond retirement debt service funds.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds is reconciled in the financial statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2010 Unaudited

The School District as a Whole

Recall that the statement of net assets provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net assets for 2010 compared to 2009.

Table 1 Net Assets

	Governmental Activities					
	Restated					
		<u>2010</u>		<u>2009</u>		
Assets						
Current and other assets	\$	66,220,849	\$	59,067,920		
Capital assets, net of depreciation	_	39,994,715		41,759,259		
Total assets		106,215,564		100,827,179		
Liabilities						
Current and other liabilities		30,646,948		23,285,333		
Long-term liabilities:						
Due within one year		2,691,981		2,731,234		
Due in more than one year		26,636,855		28,670,200		
Total liabilities		59,975,784		54,686,767		
Net Assets						
Invested in capital assets, net of debt		14,090,880		14,221,195		
Restricted		6,112,893		5,891,737		
Unrestricted		26,036,007		26,027,480		
Total net assets	\$	46,239,780	\$	46,140,412		

Over time, net assets can serve as a useful indicator of a government's financial position. At June 30, 2010, the School District's assets exceeded liabilities by 46,239,780.

Capital assets, net of related debt reported on the government-wide statements represents a large component of net assets. Capital assets include land, land improvements, buildings and improvements, furniture, fixtures and equipment and vehicles, and are used to provide services to students and are not available for future spending. Although the School District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the School District's net assets, \$6,112,893, represents resources that are subject to external restrictions on how the funds may be used. Of the total restricted net assets, \$1,518,941 is restricted for debt service payments, \$3,313,853 is restricted for capital projects, \$24,711 is restricted for food services, \$14,748 is restricted for school supplies, \$93,677 is restricted for extracurricular activities, \$118,313 is restricted for adult education, \$824,594 is restricted for community services and \$204,056 is restricted for other purposes.

Restricted for other purposes for Twinsburg City School District are net assets restricted for special revenue funds which are used for educational services.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2010 Unaudited

Governmental Activities

Several revenue sources fund our governmental activities with property taxes and State foundation revenues being the largest contributors. Property tax levies generated over \$27 million in 2010. The property tax revenue decreased \$10,028,051 from the prior year primarily due to phase out of the tangible personal property taxes. General revenues from grants and entitlements, such as the school foundation program, generated over \$15.7 million. With the combination of taxes and intergovernmental funding 90.1% of all revenues, the School District monitors both of these revenue sources very closely for fluctuations.

A review of Table 2 reflects that the total cost of instructional services was \$25,292,086 or 52.4% of governmental program expenses. Instructional expenses include activities directly related to the teaching of pupils and the interaction between teacher and pupil. As compared to the prior year, these expenses increased \$505,641, or 2.04%.

Pupil services and instructional staff include the activities involved in assisting staff and the content and process of teaching pupils. These expenses represent \$5,318,311 of the total governmental program expenses, or 11.02%. These expenses increased over the prior year in the amount of \$907,950, or 20.6% due to an increase in instructional staff.

Board of Education, administration, fiscal and business classifications reflect expenses associated with establishing and administering school operation policies, financial operations and activities concerned with purchasing, receiving and maintaining goods and services for the School District. The total cost was \$4,837,102 or 10.0% of governmental program expenses. Expenses of these programs increased \$119,129, or 2.5%, as compared to fiscal year 2009, driven mostly by increases in administration expenses.

Operation and maintenance of plant expenses refer to the care and upkeep of the buildings, grounds, equipment and the safety of the School District's operations. The total cost for the operation and maintenance services was \$5,011,765 or 10.4% of the governmental program expenses.

Pupil transportation expenses are expenses related to the transportation of students to and from school, as well as the service and maintenance of those vehicles. Total transportation cost was \$2,885,379 or 6.0% of the total governmental program expenditures. Expenses for providing this program increased \$85,330, or 3.05% as compared to the prior year.

Overall, expenses for governmental activities increased \$1,728,593 or 3.71% from fiscal year 2009 reported amounts. As seen above, the most significant cause of this increase was due to an increase in instruction costs associated with the activities directly related to the teaching of pupils and the interaction between teacher and pupil and the increases in costs associated with the hiring of additional staff members.

For fiscal year 2010, instruction: other, was broken down into a more specific category and is now being reported as instruction: student intervention services and instruction: other. A comparative analysis will be presented in future years when prior year information is available.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2010 Unaudited

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

The School District's Funds

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The total revenues for governmental funds were \$48,144,362 and total expenditures were \$48,681,948. Fund balance of the general fund decreased by \$246,863 as compared to the 2009 ending balance. A decrease in property taxes was the main reason for this decrease during the current fiscal year. For the bond retirement debt service fund, which is the only other major fund, fund balance decreased \$256,950, which was primarily due to a decrease in debt service payments as compared to fiscal year 2009.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2010 Unaudited

General Fund

The School District's general fund balance decreased by \$246,863 this was due to several factors. The table that follows assists in illustrating the financial activities and fund balance of the general fund.

Table 5
General Fund - Change in Revenue

	2010	2009	Percent
	<u>Amount</u>	<u>Amount</u>	<u>Change</u>
Taxes	\$ 23,920,511	\$ 32,999,861	-27.51%
Intergovernmental	14,270,556	13,537,780	5.41%
Interest	68,432	312,289	-78.09%
Tuition and fees	377,423	395,527	-4.58%
Rent	70,692	91,808	-23.00%
Payment in lieu of taxes	187,451	50,261	272.96%
Miscellaneous	35,022	44,062	-20.52%
Inception of capital lease	<u> </u>	476,349	0.00%
Total	\$ 38,930,087	\$ 47,907,937	

The property tax revenue decreased \$9,079,350 primarily due to phase out of the tangible personal property taxes. Tuition and fees decreased by \$18,104 due to a decrease in student fees and extracurricular activity fees. Intergovernmental revenues increased by \$732,776 for fiscal year ending June 30, 2010.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2010 Unaudited

The table that follows assists in illustrating the expenditures of the general fund.

Table 6
General Fund - Change in Expenditures by Type

	2010	2009	Percent
<u>Expenditures</u>	<u>Amount</u>	<u>Amount</u>	Change
Instruction	\$22,718,164	\$22,674,055	0.19%
Support services	15,423,304	14,945,007	3.20%
Extracurricular activities	809,620	832,819	-2.79%
Capital outlay	-	476,349	0.00%
Debt service	225,862	246,431	-8.35%
Total	\$39,176,950	\$39,174,661	

Expenditures increased \$2,289 over the prior year. This increase is not related to any one particular area.

Bond Retirement Debt Service Fund

The School District's bond retirement debt service fund balance decreased by \$256,950 due to a decrease in debt service expenditures for the fiscal year. The revenues of the fund are property taxes, calculated by the county fiscal officer, and state homestead and rollback money computed as a percentage of the tax due to the fund. The expenditures of the fund include debt principal and interest payments as well as county fiscal officer fees. The remaining fund balance will be used to make upcoming debt payments as they become due.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During fiscal year 2010, the School District amended its general fund budget as expenditure priorities changed according to student, building and operational needs. Budget revisions are presented to the Board of Education for approval.

For the general fund, the final budget basis revenue estimate was \$44,828,921 which was a \$5,174,896 increase from the original budget estimate of \$39,654,025. This estimate is provided by the County Budget Commission, which changed the estimate based on additional information that became available during the fiscal year. Actual revenue received was \$45,523,536 which was \$694,615 more than final budgeted amounts primarily due to property taxes revenues.

The original expenditure appropriation amount of \$42,305,269 was revised during the fiscal year to a final amount of \$40,124,767. The reduction of \$2,180,502 was necessary with the need to cut operating costs in order to conserve resources to help offset a budget deficit. The actual expenditures fell below the final budgeted expenditure amount by 0.48%.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2010 Unaudited

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2010, the School District had \$39,994,715 invested in land, land improvements, buildings and improvements, furniture, fixtures and equipment, and vehicles. Table 4 shows fiscal year 2010 balances compared to fiscal year 2009.

Table 7
Capital Assets, at Fiscal Year End
(Net of Depreciation)

	Governmental Activities						
	<u>2010</u>		<u>2009</u>				
Land	\$ 1,147,310	\$	1,147,310				
Construction in progress	-		7,400				
Land improvements	1,191,476		1,400,366				
Buildings and improvements	35,422,481		36,866,246				
Furniture, fixtures and equipment	1,078,033		1,329,201				
Vehicles	 1,155,415		1,008,736				
Total capital assets	\$ 39,994,715	\$	41,759,259				

The most significant purchases during the year were for four new school buses and a window improvement project. The School District also had an appraisal done during the current fiscal year which changed the classification of several assets and the carrying values and lives of the capital assets of the School District. The total carrying value of capital assets decreased \$1,764,544 due to the recognition of current year depreciation expense. See Note 6 to the basic financial statements for detail on the School District's capital assets.

Debt

At June 30, 2010 the School District had \$26,881,642 in bonds (including unamortized bond premium and bond accretion), notes and capital leases outstanding with \$2,271,049 due within one year. Table 8 summarizes debt outstanding as of June 30:

Table 8

Total outstanding	\$	26,881,642	\$	29,151,334		

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2010 Unaudited

At June 30, 2010, the School District's overall legal debt margin was \$50,400,188 with an unvoted debt margin of \$836,919. The School District bond rating was unchanged during the year. See Notes 12 and 13 to the basic financial statements for detail on the School District's long-term obligations.

Current Issues Affecting Financial Condition

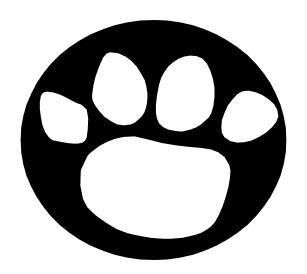

The Board of Education and administration closely monitor its revenues and expenditures in accordance with its financial forecast. The financial future of the School District is not without its challenges. These challenges stem from issues that are at the local and State level. The local challenges will continue to exist, as the School District must rely heavily on property taxes to fund its operations. State level challenges continue to evolve as the State of Ohio determines the outcome of the Ohio Supreme Court case dealing with the unconstitutionality of the State's educational funding system. Although the School District relies heavily on its property taxpayers to support its operations, the community support for the schools is quite strong.

Due to the unsettled issues in the school funding, management is required to plan carefully and prudently to provide the resources to meet student needs over the next several years.

In conclusion, the School District's system of budgeting and internal controls is well regarded. All of the School District's financial abilities will be needed to meet the challenges of the future.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions or need additional financial information, contact Martin Aho, Treasurer, at Twinsburg City School District, 11136 Ravenna Road, Twinsburg OH, 44087-1022.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of the School District

The Twinsburg City School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally elected five-member Board form of government and provides educational services as mandated by state and/or federal agencies. The Board controls the School District's five instructional/support facilities staffed by 275 non-certificated employees and 294 certificated (including administrators) teaching and support personnel that provide services to 4,221 students and other community members.

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting entity for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board Statements and Interpretations issued on or before November 30, 1989, to its government wide activities provided they do not conflict with or contradict GASB pronouncements. Following are the more significant of the School District's accounting polices.

B. Reporting Entity

The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, preschool and student-related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organizations' governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organizations' resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization.

Component units may also include organizations that are fiscally dependent on the School District in that the School District approves their budget, the issuance of their debt or the levying of their taxes. Based on the above criteria, the School District had no component units at June 30, 2010.

The School District is associated with the Northeast Ohio Network for Educational Technology (NEOnet), the Cuyahoga Valley Career Center, and the Ohio Schools' Council. These organizations are presented in Note 14 to the basic financial statements.

25 (Continued)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

C. Basis of Presentation - Fund Accounting

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund and other interfund activity of governmental funds are eliminated to avoid "doubling up" revenues and expenses of governmental activities. However, the services provided and used are not eliminated in the process of consolidation.

The statement of net assets presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

D. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into three categories: governmental, proprietary and fiduciary.

Governmental Fund Types:

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The School District has two major governmental funds:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

<u>General Fund</u>: The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Bond Retirement Fund:</u> The bond retirement fund is a debt service fund and is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Proprietary Fund Type

Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

<u>Internal Service Fund:</u> The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund accounts for revenue received from other funds and the settlement expenses for medical, surgical, prescription drug, and dental and vision claims of School District employees. As of October 1, 2005 the School District is no longer self-insured. There was no current year activity in this fund. Balances remaining are from prior year activity.

Fiduciary Fund Types

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District's only trust fund is a private purpose trust, which account for scholarships. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's most significant agency fund reports resources that belong to the student bodies of the various schools.

E. Measurement Focus and Basis of Accounting

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All non-fiduciary assets and liabilities associated with the operation of the School District are included on the statement of net assets. The statement of activities presents increases (revenues) and decreases (expenses) in total net assets.

<u>Fund Financial Statements</u> All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

27 (Continued)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the fund are included on the statement of net assets. The statement of revenues, expenses and changes in fund net assets present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

The private purpose trust fund is reported using the economic resources measurement focus.

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting and the internal service, private purpose trust and agency funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenue - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, investment earnings, tuition, grants and entitlements, and student fees.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2010, but which were levied to finance fiscal year 2011 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On the governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the fund financial statements as intergovernmental revenue and an expenditure of food service operations. In addition, this amount is reported on the statement of activities as an expense with a like amount reported within the "Operating Grants, Contributions and Interest" program revenue account.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

F. Budgets and Budgetary Accounting

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The primary level of budgetary control is at the object level for the general fund and at the fund level for all other funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The amounts reported as the original budget revenue in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted revenue amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2010. The amounts reported as the original budgeted expenditure amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted expenditure amounts represent the final appropriation amounts passed by the Board during the year.

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

G. Cash and Investments

To improve cash management, all cash received by the School District is pooled in a central bank account. Monies for all funds are maintained in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in pooled cash and cash equivalents". During the fiscal year, investments were limited to nonnegotiable certificates of deposit, overnight repurchase agreements and interest in Star Ohio, the State Treasurer's Investment Pool. Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements and certificates of deposit, are reported at cost. All investments of the School District had a maturity of two years or less.

29 (Continued)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

Under existing Ohio statutes, all investment earnings accrue to the general fund except those specifically related to certain trust funds; required by a grant agreement; or when approved by the Board of Education to be recorded in another fund. The Board of Education has passed a resolution to allow interest to also be recorded in other funds.

For presentation on the basic financial statements, investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

H. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column of the statement of net assets.

I. Inventory

Within the basic financial statements, inventories are presented at cost on a first-in, first-out basis and are expensed when used.

Inventories of the food service special revenue fund consist of donated food, purchased food and supplies held for resale.

J. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are imposed by creditors, contributors, grantors, and laws of other governments or by enabling legislation. Restricted assets may include unexpended revenues restricted for the purchase of school buses, and amounts required to be set aside by the School District for the purchase of textbooks or for the acquisition or construction of capital assets. Restricted assets may also include amounts set aside as a reserve or designated for budget stabilization, which is now optional as determined by the School District. The School District spent all restricted assets in accordance with specific restrictions during the fiscal year. See Note 16 for the calculation of the year-end restricted asset balance and the corresponding fund balance reserves.

K. Deferred Charges and Bond Premiums

In governmental fund types, bond premiums and issuance costs are recognized in the current period. On the statement of net assets, bond premiums and issuance costs are deferred and amortized over the term of the bonds using the bonds outstanding method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of bonds payable, whereas issuance costs are recorded as deferred charges.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

L. Capital Assets

General capital assets are those assets resulting from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. The School District's policy is not to capitalize interest costs incurred as part of construction.

All reported capital assets, other than land, are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	Estimated Lives
Land improvements	5 - 20 years
Buildings and improvements	20 - 50 years
Furniture, fixtures and equipment	3 - 20 years
Vehicles	5 - 10 years

M. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments. The entire compensated absences liability is reported on the government-wide financial statements.

For the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid.

N. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the governmental fund financial statements when due.

31 (Continued)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

O. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments. Net assets restricted for other purposes primarily include amounts generated by individual school buildings to supplement co-curricular and extracurricular programs.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

P. Interfund Transactions

Interfund transactions are reported as other financing sources/uses for governmental funds in the fund financial statements. All transfers between governmental funds have been eliminated within the governmental activities column of the statement of net assets.

Q. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the School District, these revenues are charges for services for the self-insurance program. Operating expenses are necessary costs incurred to provide the goods or service that are the primary activity of the fund.

R. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

S. Fund Balance Reserves

The School District records reservations for portions of fund balances, which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriations or expenditures. Unreserved fund balance indicates the portion of fund balances that are available for appropriation in future periods. Fund balance reserves are established for encumbrances and inventory.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

NOTE 2 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presentation for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues and other sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures and other uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as a reservation of fund balance (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

Net Change in Fund Balance

	<u>General</u>		
GAAP Basis	\$	(246,863)	
Revenue Accruals		6,593,449	
Expenditure Accruals		(298,355)	
Encumbrances (Budget Basis)			
Outstanding at year end		(458,178)	
Budget Basis	\$	5,590,053	

NOTE 3 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

33 (Continued)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be invested in the following obligations provided they mature or are redeemable within five years from the date of settlement:

- 1. United States Treasury bills, notes, bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements for a period not to exceed thirty days in securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in item (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain bankers' acceptances and commercial paper notes in an amount not to exceed 25% of the interim monies available for investment at any one time and for a period not to exceed one hundred eighty days; and
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

<u>Deposits</u>:

For the fiscal year ended June 30, 2010, the School District did not report "Equity in pooled cash and cash equivalents (restricted)" on the balance sheet. This amount would represent a reserve (see Note 16).

Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned. According to state law, public depositories must give security for all public funds on deposit in excess of those funds that are insured by the federal deposit insurance corporation (FDIC) or by any other agency or instrumentality of the federal government. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC, or may pledge a pool of government securities valued at least 105% of the total value of public monies on deposit at the institution. The School District's policy is to deposit money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

The carrying value of the School District's deposits totaled \$18,586,172 and the bank balances of the deposits totaled \$18,955,313. Of the bank balance, \$14,750,000 was exposed to custodial credit risk. This amount was uninsured and collateral is held by the Federal Reserve Bank, and not in the School District's name.

Investments:

As of June 30, the School District had the following investments and maturities:

	Fair		
<u>Investment type</u>	<u>Value</u>	<u>Maturity</u>	Rating
Repurchase agreements	\$ 16,940,000	Daily	AAA (1)
STAROhio	 2,363,185	56 ⁽²⁾	AAAm (1)
	\$ 19,303,185		

⁽¹⁾ Standard and Poor's rating

STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the Securities Exchange Commission as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on June 30, 2010.

All interest is legally required to be placed in the general fund, the food service, public support and auxiliary services special revenue funds, the endowment permanent fund and the scholarships private purpose trust fund. Interest revenue credited to the general fund during fiscal year 2010 amount to \$68,432, which includes \$7,153 assigned from other School District funds.

35 (Continued)

⁽²⁾ Days (Average)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

Custodial credit risk for an investment is the risk that in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's \$16,940,000 investment in repurchase agreements is to be secured by the specific government sponsored securities upon which the repurchase agreements are based. These securities, held by the counterparty and not in the School District's name are a Federal National Mortgage Association (FNMA) bond, a Federal Home Loan Mortgage Corporation (FHLM) bond and a Federal Home Loan Bank (FHLB) bond. These securities must be obligations of or guaranteed by the United States and mature or be redeemable within five years of the date of the related repurchase agreement. The School District's policy is to invest money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

Interest rate risk is the possibility that changes in interest rates will adversely affect the fair value of an investment. The School District's investment policy does not address limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk is the possibility that an issuer or other counterparty to an investment will not fulfill it obligation. Standard and Poor's has assigned STAROhio an AAAm rating. The School District's investment policy requires certain credit ratings for some investments as allowed by state law.

NOTE 4 - PROPERTY TAX

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility and tangible personal (used in business) property located within the School District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35% of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed at 35% of true value and public utility tangible personal property currently is assessed at varying percentages of true value. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year. In prior years, tangible personal property was assessed at 25% of true value for capital assets and 23% of true value for inventory. The tangible personal property tax was phased out – the assessment percentage for all property including inventory for 2009 was 0%.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternative payment dates to be established.

Tangible personal property tax revenues received in calendar year 2010 (other than public utility property) represent the collection of calendar year 2010 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, and furniture and fixtures is no longer levied and collected. Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

The School District receives property taxes from Summit County. The County Fiscal Officer periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the county by year-end are available to finance the current fiscal year operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property and public utility taxes, which became measurable as of year-end. Although total property tax collections for the next fiscal year are measurable, only a portion of the amount available as an advance at year-end is intended to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at year-end was \$2,620,740 in the general fund, \$237,523 in the bond retirement debt service fund and \$177,171 in the permanent improvement capital projects fund and is recognized as revenue on the fund financial statements. The School District receives payments in lieu of certain tax payments as a result of negotiated tax abatement agreements. On the accrual basis, collectible delinquent property taxes have been recorded as revenue on the statement of activities.

The assessed values upon which the current fiscal year taxes were collected are:

		2009		2008			
Property Category	<u>As</u>	ssessed Value	As	Assessed Value			
Real Property Residential and agricultural Commercial, industrial	\$	587,973,030	\$	583,328,830			
and minerals		248,945,910		250,721,040			
Tangible Personal Property							
General		800,870		1,637,876			
Public utilities		12,965,370		12,279,780			
Total	\$	850,685,180	\$	847,967,526			

NOTE 5 - RECEIVABLES

Receivables at year-end consisted of taxes, accounts (tuition and excess costs), accrued interest and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs, and the current year guarantee of federal funds. Special revenue funds recorded intergovernmental receivables for state and federal grants and reimbursements in the amount of \$174,531.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

NOTE 6 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2010 was as follows:

Governmental Activities	Balance June 30, 2009	<u>Increases</u>	Decreases	Balance June 30, 2010
	·	· <u> </u>	<u> </u>	
Capital assets, not being depreciated:

depreciated, net	40,604,549	(1,749,553)	(7,591)	38,847,405
Governmental activities capital				
assets, net	\$ 41,759,259	\$ (1,749,553)	\$ (14,991)	\$ 39,994,715

Following the close of the fiscal year, an appraisal was conducted on the School District's capital assets. This appraisal resulted in a reclassification of assets and a change in estimate in the amount of \$10,974. The change in estimate is reflected in the current year increases in accumulated depreciation.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

Depreciation expense was charged to governmental functions as follows:

Instruction:	<u>Amount</u>
Regular	\$ 1,141,331
Special	60,668
Vocational	712
Support services:	
Instructional staff	211,503
Administration	164,732
Operation and maintenance of plant	261,885
Pupil transportation	161,264
Central	173,329
Operation of food services	58,469
Extracurricular activities	 134,203
	\$ 2,368,096

NOTE 7 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at June 30, 2010 consisted of the following:

	In	iterfund	Ir	nterfund
	Re	<u>ceivable</u>	<u>F</u>	Payable Payable
General fund	\$	46,493	\$	-
Nonmajor governmental funds		27,501		73,994
Totals	\$	73,994	\$	73,994

All balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, or (3) payments between funds are made. As of June 30, 2010, all interfund loans outstanding are anticipated to be repaid in fiscal year 2011.

NOTE 8 – ACCOUNTABILITY

As of June 30, 2010, several funds had deficit fund balances. These deficits were caused by the application of GAAP; namely in the reporting of various liabilities attributable to the fiscal year. These deficit balances will be eliminated by anticipated future intergovernmental revenues or other subsidies not recognized and recorded at June 30. The following funds had deficit balances:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

	1	<u>Amount</u>
Nonmajor special revenue funds:		
Alternative schools	\$	7,583
Miscellaneous state grants		5,638
Title VI-B		109,571
Title I school improvement stimulus		16,202
Title I		55,112
EHA preschool grant		4,161
Nonmajor capital projects fund:		
Building		113,878

NOTE 9 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. There have been no settlements paid in excess of insurance nor has insurance coverage been significantly reduced in the past three years.

In prior years, the School District established a self-insurance fund (an internal service fund) to account for and finance its employee health benefits plan. Under this program, the self-insurance fund provided coverage for up to an annual maximum of \$1,000,000 for each health benefits claim, capped at \$3,000,000 annually for all claims. The School District purchased commercial insurance for claims in excess of coverage provided by the fund. Settled claims did not exceed this commercial coverage, nor have there been any significant reductions in coverage in any of the past three fiscal years. As of October 1, 2005 the School District is no longer self-insured. They now purchase commercial insurance for all School District employees.

The School District does not report a claims liability in the fund as of June 30, 2010, based on the provisions of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

The School District has contracted with Stark County Schools Insurance Consortium (SCSIC) to provide medical/surgical, dental, life insurance and accidental death and dismemberment insurance for its employees and their covered dependents. The SCSIC is a shared risk pool comprised of fourteen school districts that provide public education within Stark County. The districts pay monthly contributions that are placed in a common fund from which eligible claims and expenses are paid for employees of participating school districts and their covered dependents. Claims are paid for all participants regardless of claims flow. This plan contains a stop-loss provision of \$300,000 per participant and an aggregate stop-loss provision of \$146,198,738.

Premium contributions are determined annually based on the claims experience of the individual district. Premiums can be increased or decreased by up to 20% of the prior year's contribution. Member districts may become liable for additional contributions to fund the liability of the pool. In the event of termination, all participating school districts' claims would be paid without regard to their individual account balances. The SCSIC Board of Directors has authority to return monies to an exiting school district subsequent to the settlement of all claims and expenditures.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

The School District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

NOTE 10 – DEFINED BENEFIT PENSION PLANS

A. School Employee Retirement System

Plan Description - The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund and Health Care Fund) of the system. For fiscal year 2010, 12.78 percent of annual covered salary was the portion used to fund pension and death benefits. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2010, 2009 and 2008 were \$1,026,636, \$713,414 and \$577,504 respectively; 50 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

B. State Teachers Retirement System

Plan Description - The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code. A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For the fiscal year ended June 30, 2010, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2009, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2010, 2009 and 2008 were \$2,692,137, \$2,623,563 and \$2,178,837 respectively; 83 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008. Contributions to the DC and Combined Plans for fiscal year 2010 were \$73,051 made by the School District and \$52,179 made by the plan members.

NOTE 11 – POSTEMPLOYMENT BENEFITS

A. School Employee Retirement System

Plan Description – The School District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For 2010, 0.46 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2010, this amount was \$35,800.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The School District's contributions for health care for the fiscal years ended June 30, 2010, 2009 and 2008 were \$136,029, \$453,896 and \$348,436 respectively; 84 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2010, this actuarially required allocation was 0.76 percent of covered payroll. The School District's contributions for Medicare Part B for the fiscal years ended June 30, 2010, 2009 and 2008 were \$61,052, \$58,863 and \$41,611 respectively; 50 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

B. State Teachers Retirement System

Plan Description – The School District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2010, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The School District's contributions for health care for the fiscal years ended June 30, 2010, 2009 and 2008 were \$207,087, \$201,813 and \$167,603 respectively; 83 percent has been contributed for fiscal year 2010 and 100 percent for fiscal years 2009 and 2008.

NOTE 12 - BONDED DEBT AND OTHER LONG-TERM OBLIGATIONS

The changes in long-term obligations of the School District during the fiscal year were as follows:

		Balance <u>July 1</u>		Additions		<u>Deletions</u>		Balance June 30				Due within one year
Governmental Long-term Obligation	<u>1S</u>

<u>General Obligation Bonds:</u> General obligation bonds are direct obligations of the School District for which its full faith and credit are pledged for repayment. General obligation bonds are to be repaid from voted and unvoted general property taxes. Property tax monies will be received in and the debt will be repaid from the bond retirement debt service fund.

On April 13, 2004, the School District issued \$27.8 million in general obligation bonds which include serial and capital appreciation bonds with interest rates varying between 2.0-5.0% to refund \$27.8 million of outstanding School Improvement Bonds with an average interest rate of 5.8%. The final amount of the 2004 capital appreciation bonds was \$2,124,925. The net proceeds of the refunding bonds were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments of the portion of the bonds refunded. As a result, the bonds are considered to be defeased and the liability is not reported by the School District. As of June 30, 2010, all of the old bonds that were advance refunded were called and subsequently redeemed.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

<u>Long-term Note:</u> Long-term notes are direct obligations of the School District for which its full faith and credit are pledged for repayment. Long-term notes are to be repaid from voted and unvoted general property taxes. Property tax monies will be received in and the debt will be repaid from the general fund.

In 2003, the School District issued \$1,251,000 in energy conservation notes, as part of an Ohio Association of School Business Officials (OASBO) financing program, with an interest rate of 5.00% for the purpose of paying the costs of installations, modifications and remodeling of school buildings to conserve energy and improving a related loan agreement.

<u>Compensated absences:</u> Sick leave benefits will be paid from the fund from which the person is paid. In prior years this fund has primarily been the general fund.

Principal and interest requirements to amortize all bonds and notes outstanding at June 30, 2010 are as follows:

	2003	3 Various Improv	eme	nt Refunding		2003 OASBO Note

NOTE 13 - CAPITALIZED LEASES - LESSEE DISCLOSURE

In 2009, the School District entered into a lease agreement for twenty two copiers. The terms of each agreement provide options to purchase the equipment. Each lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13 "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the fund financial statements of governmental funds. These expenditures are reflected as program/function expenditures on a budgetary basis.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

Capital assets acquired by lease have been capitalized as equipment in the amount of \$476,349, which is equal to the present value of the future minimum lease payments on the government-wide financial statements. Principal payments in the current fiscal year totaled \$72,804.

The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the minimum lease payments at year-end.

Fiscal		Lease
Year	<u>P</u>	ayments
2011	\$	109,608
2012		109,608
2013		109,608
2014		157,243
Total minimum lease payments		486,067
Less: amount representing interest		(82,522)
Total	\$	403,545

NOTE 14 - JOINTLY GOVERNED ORGANIZATIONS

The Northeast Ohio Network for Educational Technology (NEOnet) is the Computer Service Organization or Information Technology Center (ITC) used by the School District. NEOnet is an association of public school districts in a geographic area determined by the Ohio Department of Education. The Metropolitan Regional Service Council acts as the fiscal agent for the consortium. The purpose of the consortium is to develop and employ a computer system efficiently and effectively for the needs of the member Boards of Education. All school districts in the consortium are required to pay fees, charges and assessments as charged. NEOnet is governed by a board made up of superintendents (or designees) from all of the participating school districts. An elected Executive Board consisting of nine members of the governing board is the managerial body of the consortium and meets on a monthly basis. The School District does not maintain an ongoing financial interest or an ongoing financial responsibility. During fiscal year 2010, the School District contributed \$128,621 to NEOnet. This contribution includes purchases of software and related items as well as payment for services. Financial information can be obtained by contacting the fiscal agent at 420 Washington Avenue, Suite 200, Cuyahoga Falls, Ohio 44221.

Cuyahoga Valley Career Center is a vocational school district which is a separate body politic and corporate, established by the Ohio Revised Code (ORC) to provide vocational and special education needs of the students. The school accepts non-tuition students from the School District as a member school; however, it is considered a separate political subdivision and is not considered to be part of the School District.

The Ohio Schools' Council Association (Council) is a jointly governed organization among 121 school districts. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to the member districts. Each district supports the Council by paying an annual participation fee. The Council's Board consists of seven superintendents of the participating districts whose term rotates every year.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

The degree of control exercised by any school district is limited to its representation on the Board. During fiscal year 2010 the School District paid \$393,725 and \$118,082 to the Council in the form of gas purchases and membership fees and insurance, respectively. Financial information can be obtained by contacting David Cottrell, the Executive Directive/Treasurer of the Ohio Schools' Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

NOTE 15 - CONTINGENCIES

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2010.

NOTE 16 - STATUTORY RESERVES

The School District is required by State statute to annually set-aside monies for the purchase of textbooks and other instructional materials, and for capital improvements. The amounts set-aside may be reduced by offset credits, which are monies received and restricted for the same specific purpose. Although the School District had qualifying disbursements during the year that reduced the set-aside amounts below zero, these extra amounts may not be presented as being carried forward to the next fiscal year for the capital maintenance reserve. Amounts not spent by year-end or reduced by offset credits must be held in cash at year-end and carried forward to be used for the same purposes in future years.

During the fiscal year ended June 30, 2010, the reserve activity was as follows:

	-	Γextbook		
		Reserve	Maintenance Reserve	<u>Total</u>
Set-aside cash balance as of				
June 30, 2009	\$	(135,166)	\$ -	\$ (135,166)
Current year set-aside requirement		723,479	723,479	1,446,958
Qualifying disbursements		(688,214)	(1,492,778)	 (2,180,992)
Total	\$	(99,901)	\$ (769,299)	\$ (869,200)
Balance carried forward to future years	\$	(99,901)		\$ (99,901)

NOTE 17 - NEW ACCOUNTING AND REPORTING STANDARDS

In June 2007, the GASB issued Statement No. 51, "Accounting and Reporting for Intangible Assets." This statement establishes accounting and financial reporting requirements for intangible assets to reduce inconsistencies thereby enhancing the comparability of accounting and financial reporting of such assets among state and local governments. The School District has considered the implications of this statement and has determined that it has no impact on the financial statements or note disclosures for the current period.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

In June 2008, the GASB issued Statement No. 53, "Accounting and Financial Reporting for Derivative Instruments." This statement enhances the usefulness and comparability of derivative instrument information reported by state and local governments. This Statement provides a comprehensive framework for the measurement, recognition, and disclosure of derivative instrument transactions. The School District has considered the implications of this statement and has determined that it has no impact on the financial statements or note disclosures for the current period.

In December 2009, the GASB issued Statement No. 58, "Accounting and Financial Reporting for Chapter 8 Bankruptcies." This statement establishes accounting and financial reporting guidance for governments that have petitioned for protections from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. The School District has considered the implications of this statement and has determined that it has no impact on the financial statements or note disclosures for the current period.

NOTE 18 – RESTATEMENT OF NET ASSETS/FUND BALANCE

Following the close of the prior fiscal year, the School District changed how an endowment gift of \$10,000 and its related accumulated investment earnings of \$6,572 were being reported. Therefore, the fund balance at June 30, 2009 has been reclassified and is now being reported as a private purpose trust fund.

The following table summarizes these adjustments to fund balances and net assets and shows restated beginning balances:

				D 1	C	Other	
	General		F	Bond Retirement		Funds	 Total
Fund Balances, June 30, 2009 Fund reclassification	\$	28,723,937	\$	1,812,530	\$	4,281,462 (16,572)	\$ 34,817,929 (16,572)
Restated Fund Balances, June 30, 2009	\$	28,723,937	\$	1,812,530	\$	4,264,890	\$ 34,801,357

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2010

NOTE 19 – SUBSQUENT EVENT

The School District received \$2,592,180 from the State of Ohio in the form of Qualified School Construction Bonds (QSCB) following the close of the fiscal year. The QSCB's allow school districts to borrow funds interest free for renovation, repair, construction or land acquisition.

Combining Statements and Individual Fund	Schedules

Combining Statements and Individual Fund Schedules

Nonmajor Special Revenue Funds

The special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes. The title of each special revenue fund is descriptive of the activities accounted for therein. A description of the School District's nonmajor special revenue funds follows:

Food Service

To account for all revenues and expenditures related to the provision of food services, including breakfast and lunch, for the School District students and staff.

<u>Uniform School Supplies</u>

To account for the purchase and sale of school supplies as adopted by the Board of Education for resale to students of the School District.

Adult Education

To account for all revenues and expenditures related to the provision of credit and non-credit classes to the general public.

Miscellaneous Local Grants

To account for funds received from private organizations that are restricted for specific purposes.

Public School Support

To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

District Managed Student Activity

To account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund includes athletic programs as well as band, cheerleaders, drama clubs, and other similar types of activities.

Teacher Development

To account for state revenues used to assist teachers in gaining new skills and becoming familiar with new teaching methodologies.

Management Information Systems

To account for state funds provided to assist the School District in implementing a staff, student, and financial reporting system as mandated by the Omnibus Education Reform Act of 1989.

Data Communications

To account for revenues received from the State to be used to install and provide support costs for data communication links to connect any school to the local A-site.

Alternative Schools

To account for alternative educational programs for existing and new at-risk and delinquent youth. Programs shall be focused on youth in one or more of the following categories: those who have been expelled or suspended, those who have dropped out of school or who are at risk of dropping out of school, those who are habitually taunt or disruptive, or those on probation or on parole from a Department of Youth Services' facility.

Poverty Aid

To account for monies appropriated for poverty based assistance as part of the state foundation system.

Miscellaneous State Grants

To account for monies received from state agencies which are not classified elsewhere.

Title VI-B

To account for federal funds for the provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels; assist in the training of teachers, supervisors and other specialists in providing educational services to the handicapped.

State Fiscal Stabilization

To account for federal funds provided to support and restore funding for elementary, secondary, and postsecondary education and, as applicable, early childhood education programs and services.

Title II Technology

To account for federal funds used for professional development and improving student achievement through the use of advanced technology in elementary and secondary schools.

<u>Title I School Improvement Stimulus</u>

To account for federal funds provided to help schools improve the teaching and learning of children failing, or most at risk of failing to meet challenging State academic achievement standards.

Title III

To account for federal funds received to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

Title I

To account for federal funds for services provided to meet special educational needs of educationally deprived children.

Title V

To account for federal funds to provide programs for at-risk students; instructional materials to improve the quality of instruction; programs of professional development; programs to enhance personal excellence of students and student achievement.

Drug Free School Grant

To account for federal funds for the establishment, operation and improvement programs of drug abuse prevention, early intervention, rehabilitation referral and education in schools.

EHA Preschool Grant

To account for federal funds used for the improvement and expansion of services for handicapped children ages three through five years.

Improving Teacher Quality

To account for monies to hire additional classroom teachers in grades one through three, so that the number of students per teacher will be reduced.

Miscellaneous Federal Grants

To account for federal revenues received through state agencies from the federal government or directly from the federal governments which are not classified elsewhere.

Major Debt Service Fund

The debt service fund is used to account for the accumulation of resources and the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the government is obligated in some manner for the payment. It is also used to account for the accumulation of resources and the payment of general obligation notes payable, as required by Ohio Law.

Nonmajor Capital Projects Funds

Capital project funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds). The capital projects funds are:

Permanent Improvement

To account for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary and trust funds.

Building

To account for the receipts and expenditures related to all special bond funds in the School District.

Replacement

A fund provided to account for monies used in the rebuilding, restoration or improvement of property which has been totally or partially destroyed due to any cause. Such property may have become unfit for use necessitating its demolition in whole or in part, and may require repair or restoration before it can again be used.

Statistical Section

This part of the School District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

<u>Contents</u>	Page(s)
Financial Trends These schedules contain trend information to help the reader understand how the School District's financial position has changed over time.	S2 - S13
Revenue Capacity These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local revenue source.	S14 - S19
Debt Capacity These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	S20 - S24
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	S25 - S26
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	S27 - S33

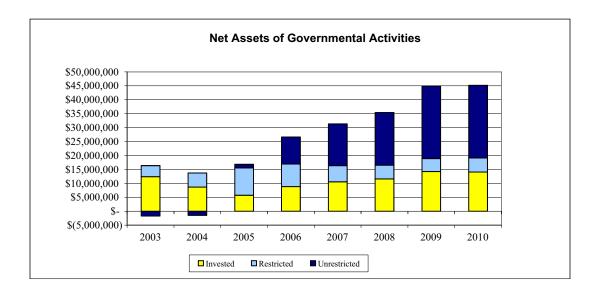

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The School District implemented GASB Statement 34 in fiscal year 2003; schedules presenting government-wide information include information beginning in that fiscal year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of public utility personal property ranges from 25% of true value for railroad property to 88% for electric transmission and distribution property. General business tangible personal property was assess in previous years at 25% for machinery and equipment. General business inventory tangible personal property tax is being phased out beginning in 2006. The listing The assessed value of real property (including public utility real property is 35% of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. percentage is 18.75% for 2006, 12.5% for 2007, 6.25% for 2008 and zero for 2009. The tangible personal property values associated with each year are the values that, when multiplied amounts generated by multiplying the assessed values by the applicable rates would be reduced by by the applicable rates, generated the property tax revenue billed in that year. For real property, the the 10%, the 2 1/2% and the homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.
