INDEPENDENT ACCOUNTANTS' REPORT

Elida Local School District
Allen County
4380 Sunnydale Avenue
Elida, Ohio 45807

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Elida Local School District, Allen County, Ohio (the School District), as of and for the fiscal year ended June 30, 2012, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

Ohio Administrative Code § 117-2-03 (B) requires the School District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, as discussed in Note 2, the accompanying financial statements and notes follow the modified cash accounting basis. This is a comprehensive accounting basis other than generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, we cannot determine at this time.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Elida Local School District, Allen County, Ohio, as of June 30, 2012, and the respective changes in cash financial position, thereof and the budgetary comparison for the General Fund thereof for the fiscal year then ended in conformity with the accounting basis Note 2 describes.

As stated in Note 18, the School District restated the July 1, 2011 Net Assets balance and Building Fund balance.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 22, 2013, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance, and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

We conducted our audit to opine on the School District's financial statements taken as a whole. Management's Discussion & Analysis includes tables of net assets, change in net assets, and governmental activities. The Schedule of Federal Awards Receipts and Expenditures (the Schedule) is required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These tables and the Schedule provide additional information, but are not part of the basic financial statements. However these tables and the Schedule are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These tables and the schedule were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. Other than the aforementioned procedures applied to the tables, we applied no procedures to any other information in Management's Discussion & Analysis, and we express no opinion or any other assurance on it.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012
UNAUDITED**

The discussion and analysis of the Elida Local School District's (the School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2012, within the limitations of modified cash basis accounting. Readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

Highlights

Key highlights for fiscal year 2012 are as follows:

- In total, net assets decreased \$ 5,865,177. The fund most affected by the decrease in cash and cash equivalents was the Building Fund, which realized 93.5% of the decrease and the General Fund realized 10.2%. The Other Governmental Fund net assets increased by \$112,087 and the Bond Retirement Fund increased by \$101,758.
- The School District's general receipts, those being primarily property taxes and unrestricted state entitlements, were 81 percent of the total cash received during the fiscal year. Dependence on the property taxes and unrestricted state entitlements is significant.

Using the Basic Financial Statements

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the School District's modified cash basis of accounting.

The School District has elected to present its financial statements on a modified cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Basis of accounting is a reference to when financial events are recorded, such as the timing for recognizing revenues, expenses, and the related assets and liabilities. Under the School District's cash basis of accounting, receipts and disbursements and the related assets and liabilities are recorded when they result in cash transactions.

As a result of using the modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion with this report, the reader must keep in mind the limitations resulting from the use of the modified cash basis of accounting.

The statement of net assets and the statement of activities provide information about the cash activities of the whole School District.

Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds, with all other non-major funds presented in total in a single column. For Elida Local School District, the General Fund, Bond Retirement, and Building Fund are the most significant funds.

The notes to the financial statements are an integral part of the basic financial statements and provide expanded explanation and detail regarding the information reported in the statements.

Reporting the School District as a Whole

The statement of net assets and the statement of activities reflect how the School District did financially during fiscal year 2012, within the limitations of modified cash basis accounting. The statement of net assets presents the cash balance of the governmental activities of the School District at fiscal year end. The statement of activities compares cash disbursements with program receipts for each function or program of the School District's governmental activities. A function is a group of related activities designed to accomplish a major service or regulatory program for which the School District is responsible.

Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function draws from the School District's general receipts.

These statements report the School District's cash position and the changes in each position. Factors which contribute to these changes may also include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the statement of net assets and the statement of activities, all of the School District activities are presented as governmental activities. All of the School District's programs and services are reported here including instruction, support services, non-instructional services, food services, extracurricular activities, and capital outlay disbursements.

Reporting the School District's Most Significant Funds

Fund financial statements provide detailed information about the School District's major funds. While the School District uses many funds to account for its financial transactions, the fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, the Bond Retirement Fund and the Building Fund.

Governmental Funds – All of the School District's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year-end for spending in future periods. These funds are reported using the cash basis accounting. The governmental fund financial statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the School District's programs.

The School District as a Whole

This year's financial statements were prepared on the cash basis utilizing the GASB Statement No. 34 format. Table 1 provides a summary of the School District's net assets for fiscal year 2012 compared to fiscal year 2011:

Program receipts only represent 19 percent of total receipts and are primarily represented by restricted intergovernmental receipts, charges for tuition and fees, extracurricular activities, and food service sales. General receipts represent 81 percent of the School District's total receipts. Of the general receipts, 43 percent is the result of unrestricted grants and entitlements, which primarily represents the State foundation resources, property taxes make up 55 percent of the general receipts. Other receipts, such as interest and rent are very insignificant and somewhat unpredictable revenue sources.

The major program disbursements for governmental activities are for instruction, which accounts for 45 percent of all governmental disbursements. Other programs which support the instruction process, including pupils, instructional staff, and pupil transportation account for 10 percent of governmental disbursements. Maintenance of the School District's facilities also represents a significant expense, 7 percent. Therefore, 62 percent of the School District's disbursements are related to the primary functions of providing facilities and delivering education.

Table 3 indicates the total cost of services and the net cost of services for governmental activities. The statement of activities reflects the cost of program services and the charges for services, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax receipts and unrestricted state entitlements. Table 3 presents a comparison between the total cost of services and the net cost for both fiscal years 2012 and 2011.

The dependence upon tax receipts and unrestricted state entitlements is apparent as 77 percent of instruction activities are supported through taxes and other general receipts. However, it should be noted that special instruction activities are largely provided for through program receipts, by 50 percent. This is the result of operating grants and contributions restricted for special instruction purposes.

100 percent of food services were covered by program receipts for fiscal year 2012. This is primarily due to cafeteria sales, and state and federal subsidies and donated commodities for food service. 47 percent of extracurricular activities disbursements are covered by program receipts

The School District's Funds

The School District's governmental funds are accounted for using the modified cash basis of accounting. Total governmental funds (excluding advances in and advances out) had receipts of \$25,849,737 and disbursements of \$31,716,559. The greatest change within governmental funds occurred within the Building Fund as the district is constructing a new high school.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During fiscal year 2012, the School District amended its General Fund budget as needed. Final budgeted receipts are in the amount of \$19,838,145 (excluding advances and other financing sources). The final budget was within .37 percent of actual.

Final disbursements were budgeted at \$20,968,614 (excluding advances) while actual disbursements were \$20,578,194 (excluding advances). The School District was able to keep spending very close to budgeted amounts as demonstrated by the minor changes which occurred.

Actual General Fund disbursements were more than receipts by \$ 813,436.

Debt Administration

At June 30, 2012, the School District's outstanding debt totaled \$35,999,626. For further information regarding the School District's debt, refer to Note 11 to the basic financial statements.

Current Issues

The School District continues to operate in a lean fashion. The School District has concerns on the state budget. The recent cuts to education totaled \$3 billion dollars. The School District placed a ¾% earned income tax levy on the November 2012 ballot. The levy failed and we will return to the voters in May 2013 with a 5.95 mill 5 year emergency levy for operations. We need this levy to put us on sound financial footing. This will be needed to offset the loss of revenue from the inventory tax and state aid.

Other Current Issues Include:

- Funding from the state continues to be an issue
- State aid will be cut to 2003 levels by FY2013 (Loss \$665,000)
- Loss of the inventory tax reimbursement will be harmful to schools(Loss 1.2 million)
- Food service operated in the black by \$74,263
- Drivers Education operated in the black by \$6,839
- Educational supplies purchased totaled \$248,383
- Increased health care will be a concern over the next 2 years
- Permanent improvement expenditures totaled \$366,862

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Elida Local School District (the School District) is organized under Article VI, Section 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by state statute and/or federal guidelines.

The School District is located in a prosperous community within Allen County, consisting of residences and significant office and retail commercial development. The School District is staffed by 106 non-certificated employees and 153 certificated employees who provide services to 2,541 students and other community members.

The reporting entity is composed of the primary government, component units, and other organizations that are included to insure the financial statements are not misleading.

A. Primary Government

The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Elida Local School District, this includes general operations, food service, and student related activities.

B. Component Units

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. The School District is also financially accountable for any organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. Component units also include legally separate, tax-exempt entities whose resources are for the direct benefit of the School District, are accessible to the School District and are significant in amount to the School District.

The Elida Education Foundation, Inc. - (the foundation) was organized under the non-profit corporation law of Ohio to operate exclusively for the benefit of the School District. The foundation receives and administers donations for educational and public charitable purposes for which the School District was formed. The foundation is governed by a five member board of trustees. One trustee shall at all times be a member of the Board of Education, appointed by the Board of Education. One Trustee shall at all times be the Superintendent of the Elida Board of Education and one trustee shall at all times be the Treasurer of the Elida Board of Education. The remaining two Trustees shall be elected at the annual meeting of the Members. Based on the above information, the foundation is a blended component unit of the School District. The School District acts as fiscal agent for the Foundation. Based upon the purpose of the various funds included in the Foundation, a portion of the funds are included with the private purpose trust funds and the remaining funds are included as part of the other governmental funds of the School District. Additional financial information can be obtained from the Treasurer of the School District.

The School District's management believes these financial statements present all activities for which the School District is financially accountable.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012
(Continued)**

1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY (Continued)

The School District participates in three jointly governed organizations and three public entity risk pools. These organizations include the Northwest Ohio Area Computer Services Cooperative (NOACSC), Apollo Joint Vocational School, West Central Ohio Regional Professional Development Center, Northwest Ohio Area Computer Service Cooperative Workers' Compensation Group Rating Program, Allen County Schools Health Benefit Plan, and the Southwestern Ohio Educational Purchasing Council Insurance Program. These organizations are presented in Notes 14 and 15 to the basic financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Note 2.A, these financial statements are presented on a modified cash basis of accounting. This modified cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. Following are the more significant of the School District's accounting policies.

A. Basis of Accounting

Although required by Ohio Administrative Code Sections 117-2-03(B) to prepare its annual financial report in accordance with generally accepted accounting principles (GAAP), the School District chooses to prepare its financial statements and notes in accordance with the modified cash basis of accounting. This basis of accounting is similar to the cash receipts and disbursements basis of accounting. Receipts are recognized when received in cash rather than when earned, and disbursements are recognized when paid rather than when a liability is incurred.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

Budgetary presentations report budgetary expenditures when a commitment is made (i.e. when an encumbrance is approved). Difference between disbursements reported in the fund statements versus budgetary expenditures are due to encumbrances outstanding at the beginning and end of the fiscal year.

These statements include adequate disclosure of material matters, in accordance with the basis of accounting described in the preceding paragraph.

B. Basis of Presentation

The School District's basic financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Governmental activities generally are financed through taxes, intergovernmental receipts or other non-exchange transactions. The statement of net assets presents the cash balance of the governmental activities of the School District at fiscal year-end.

The statement of net assets presents the cash balance of the governmental activities of the School District at fiscal year-end. The statement of activities compares disbursements with program receipts for each function or program of the School District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the government is responsible.

Program receipts include charges paid by the recipient of the program's goods or services, grants and contributions restricted to meeting the operational or capital requirements of a particular program, and receipts of interest earned on grants that are required to be used to support a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on the modified cash basis or draws from the School District's general receipts.

2. Fund Financial Statements

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

C. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the School District are divided into two categories, governmental and fiduciary.

1. Governmental Funds

The School District classifies funds financed primarily from taxes, intergovernmental receipts (e.g. grants), and other non-exchange transactions as governmental funds. The School District's major funds are the General Fund, Bond Retirement Fund, and the Building Fund.

General Fund - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

**ELIDA LOCAL SCHOOL DISTRICT
ALLEN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Bond Retirement Fund – the Bond Retirement Fund is used to account for financial resources collected to retire debt.

Building Fund – The Building Fund is used to account for all financial activity for the purpose of constructing a high school building, constructing additions to, renovating, and improving existing school facilities.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

2. Fiduciary Funds

The fiduciary fund category is split into private purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are not available to support the School District's own programs. The School District's private purpose trust fund accounts for programs that provide college scholarships to students after graduation. Agency funds are custodial in nature. The School District's agency fund accounts for various student-managed activities.

D. Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on cash disbursements plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board at the fund, object level for the General Fund and the fund level for all other funds.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in receipts are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Board.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Expenditures plus encumbrances may not legally exceed appropriations. Encumbrances outstanding at fiscal yearend are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds.

**ELIDA LOCAL SCHOOL DISTRICT
ALLEN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not re-appropriated.

E. Cash and Investments

To improve cash management, cash received by the School District is pooled and invested. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

Investments of the School District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or negative receipts (contra revenue), respectively.

During 2012, the School District invested in nonnegotiable certificates of deposit, mutual funds, municipal bonds, federal agency securities and STAR Ohio. Investments are reported at cost, except for STAR Ohio. STAR Ohio is an investment pool, managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2012.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest receipts credited to the General Fund during fiscal year 2012 was \$14,046, which included \$1,518 assigned from other School District funds.

F. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted assets represent amounts required by State statute to be set aside for the bus purchases and unclaimed monies.

G. Inventory and Prepaid Items

The School District reports disbursements for inventory and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

H. Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

**ELIDA LOCAL SCHOOL DISTRICT
ALLEN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Inter-fund Receivables/Payables

The School District reports advances-in and advances-out for inter-fund loans. These items are not reflected as assets and liabilities in the accompanying financial statements.

J. Accumulated Leave

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the School District's modified cash basis of accounting.

K. Employer Contributions to Cost-Sharing Pension Plans

The School District recognizes the disbursement for employer contributions to cost-sharing pension plans when they are paid. As described in Notes 9 and 10, the employer contributions include portions for pension benefits and for postretirement health care benefits.

L. Long-Term Obligations

The School District's modified cash basis financial statements do not report liabilities for bonds and other long-term obligations. Proceeds of debt are reported when cash is received and principal and interest payments are reported when paid.

M. Inter-fund Transactions

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as inter-fund transfers. Inter-fund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular cash disbursements to the funds that initially paid for them are not presented in the financial statements.

N. Intergovernmental Revenues

Unrestricted intergovernmental revenues received on the basis of entitlement are recorded as receipts when the entitlement is received.

O. Equity Classifications

1. Government-Wide Statements

Equity is classified as net assets, and displayed in separate components:

- a. Restricted net assets** – Consists of net assets with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments, or law through constitutional provisions or enabling legislation. Net assets restricted for other purposes include resources restricted for food service operations, music and athletic programs, and federal and state grants restricted to cash disbursement for specified purposes. The School District's policy is to first apply restricted resources when a cash disbursement is incurred for purposes for which both restricted and unrestricted net assets are available.

(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- b. Unrestricted net assets** – All other net assets that do not meet the definition of “restricted.”

2. Fund Financial Statements

Governmental fund equity is classified as fund balance. Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The classifications are as follows:

- a. Non-spendable** - The non-spendable classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The “not in spendable form” includes items that are not expected to be converted to cash. In the General Fund non-spendable represents unclaimed money.
- b. Restricted** - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or is imposed by law through constitutional provisions.
- c. Committed** - The committed classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. The committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
- d. Assigned** - Amounts in the assigned classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of Education.
- e. Unassigned** - Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District first applies restricted resources when an expenditure is incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

P. Receipts and Expenditures

In the Statement of Activities, receipts that are derived directly from each activity or from parties outside the School District's taxpayers are reported as program receipts. The School District has the following program receipts: charges for service, operating and capital grants and contributions. All other governmental receipts are reported as general. All taxes are classified as general receipts even if restricted for a specific purpose.

3. COMPLIANCE

Ohio Administrative Code, Section 117-2-03 (B), requires the School District to prepare its annual financial report in accordance with generally accepted accounting principles. However, the School District prepared its financial statements on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The accompanying financial statements omit assets, liabilities, net assets/fund balances, and disclosures that, while material, cannot be determined at this time. The School District can be fined and various other administrative remedies may be taken against the School District.

4. BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of cash, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Change in Fund Balance – Budget and Actual – Budget Basis presented for the general fund is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major difference between the budget basis and the cash basis is that encumbrances are treated as expenditures (budget basis) rather than as assigned fund balance (cash basis). The adjustments necessary to reconcile the cash and budgetary basis statements for the General Fund are as follows:

Change in Fund Balance	
Cash Basis	\$2,192,015
Increase (Decrease) Due To:	
Encumbrances Outstanding at Fiscal Year End (Budget Basis)	<u>(304,461)</u>
Budget Basis	<u><u>\$1,887,554</u></u>

5. DEPOSITS AND INVESTMENTS

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories.

**ELIDA LOCAL SCHOOL DISTRICT
ALLEN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2012
(Continued)**

5. DEPOSITS AND INVESTMENTS (Continued)

Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio).

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited.

An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

At year end, the School District had \$1,600 in un-deposited cash on hand which is included as part of "Equity in Pooled Cash and Cash Equivalents".

5. DEPOSITS AND INVESTMENTS (Continued)

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned to it. Protection of District cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. By law, financial institutions must collateralize all public deposits. The face value of the pooled collateral must equal at least 105 percent of public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year end, the carrying amount of the District's deposits was \$3,044,522 and the bank balance was \$3,421,291. At year end, \$2,664,098 of the School District's bank balance was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the School District's name.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

B. Investments

As of June 30, 2012, the School District had the following investments:

	<u>Carrying Value</u>	<u>Market Value</u>	<u>Maturity</u>	<u>% of Portfolio</u>
Certificate of Deposits	\$1,644,000	\$1,644,000	3 months to 11 months	55.3
Government & Agency Mutual Funds	617,834	617,834	current	20.8
STAR Ohio	711,230	711,230		23.9
Total Carrying Value	<u>\$2,973,064</u>	<u>\$2,973,064</u>		<u>100.0</u>

C. Concentration of Credit Risk

The School District diversifies its investments by security, type, and institution. The table above indicates the percentage of each investment to the total portfolio.

D. Interest Rate Risk

The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. Interest rate risk arises because potential purchases of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The School District's investment policy addresses interest rate risk by requiring that the School District's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations.

E. Credit Risk

STAR Ohio carries a rating of AAA by Standard & Poor's.

5. DEPOSITS AND INVESTMENTS (Continued)

F. Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. None of the School District's investments are subject to custodial credit risk.

The School District has no investment policy dealing with investment custodial risk beyond the requirements of ORC 135.14(M)(2) which states, "Payments for investments shall be made only upon the delivery of securities representing such investments to the treasurer, investing authority, or qualified trustee. If the securities transferred are not represented by a certificate, payment shall be made only upon receipt of confirmation of transfer from custodian by the treasurer, governing board, or qualified trustee."

6. PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis, while the School District's fiscal year runs from July through June. First-half tax distributions are received by the School District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year. Property taxes include amounts levied against all real property, public utility property, and tangible personal (used in business) property located in the School District.

Real property tax receipts received in calendar year 2012 represent the collection of calendar year 2011 taxes. Real property taxes received in calendar year 2012 were levied after October 1, 2011, on the assessed values as of January 1, 2011, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value.

Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax receipts received in calendar year 2012 represent the collection of calendar year 2011 taxes. Public utility real and tangible personal property taxes received in calendar year 2012 became a lien on December 31, 2010, were levied after October 1, 2011, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

Tangible personal property tax revenues received in calendar year 2012 (other than a public utility property) represent the collection of calendar year 2012 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, and furniture and fixtures is no longer levied and collected. The October 2009 tangible personal property tax settlement was the last property tax settlement for general personal property taxes. Tangible personal property taxes received from telephone companies in calendar year 2012 were levied after October 1, 2011, on the value as of December 31, 2011. Payments by multi-county taxpayers are due September. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 3, with the remainder due September 20.

6. PROPERTY TAXES (Continued)

The School District receives property taxes from Allen County. The County Auditors periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the counties by June 30, 2012, are available to finance fiscal year 2012 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

The assessed values upon which fiscal year 2012 taxes were collected are:

	2011 Second- Half Collections		2012 First- Half Collections	
	Amount	Percent	Amount	Percent
Real Property:				
Agricultural/Residential	\$351,473,040	98.00%	\$354,828,370	98.00%
Public Utility Property	7,817,260	2.00	8,102,310	2.00
Total Assessed Value	<u>\$359,290,300</u>	<u>100.00%</u>	<u>\$362,930,680</u>	<u>100.00%</u>
Tax rate per \$1,000 of assessed valuation	\$41.34			

7. INTERFUND RECEIVABLES/PAYABLES

At June 30, 2012, the General Fund had unpaid inter-fund cash advances for short term loans, in the amount of \$3,564 to the Title II-A fund, \$3,666 to the Education Jobs fund, \$14,464 to the Race To The Top fund, \$14,581 to the IDEA B Fund, \$74,962 to the Title I fund, \$2,041 to School Improvement Fund and \$4,879 to Title IID Fund. These are expected to be repaid within one year.

The General Fund received a return of advances totaling \$30,908 during 2012, which consisted of \$1,645 from the Mitchell Scholarship Fund (a private purpose trust fund) and \$29,263 from various grant funds.

8. RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2012, the School District contracted through the Southwestern Ohio Education Purchasing Council (Note 15) with various companies for the following insurance coverage:

Property	\$350,000,000
Boiler & Machinery	100,000,000
Automobile Liability	1,000,000
Educator's Legal Liability	1,000,000
General Liability:	
Per Occurrence	1,000,000
Aggregate	3,000,000
Umbrella Coverage	5,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in insurance coverage from the prior fiscal year.

8. RISK MANAGEMENT (Continued)

A. Health Care Benefits

The School District participates in the Allen County Schools Health Benefit Plan (the Plan) (Note 15), a public entity shared risk pool consisting of the school districts within Allen County. The School District pays monthly premiums to the Plan for employee medical and dental benefits. The Plan is responsible for the management and operations of the program. Upon withdrawal from the Plan, a participant is responsible for the payment of all Plan liabilities to its employees, dependents, and designated beneficiaries accruing as a result of the withdrawal.

B. Workers' Compensation

The School District participates in the Northwest Ohio Area Computer Services Cooperative Worker's Compensation Group Rating Program (GRP), and insurance purchasing pool (Note 15). The intent of the GRP is to achieve the benefit of a reduced premium GRP. The worker's compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the Cooperative based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria.

9. DEFINED BENEFIT PENSION PLANS

A. State Teachers Retirement System

Plan Description - The School District participated in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web Site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit Plan (DBP), a Defined Contribution Plan (DCP), and a Combined Plan (CP). The DBP plan offers an annual retirement allowance based on final average salary times by a percentage that varies based on years of service, or an allowance based on member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DCP Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age fifty and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The CP offers features of both the DBP Plan and the DCP. In the CP, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DBP.

The DBP portion of the CP payment is payable to a member on or after age sixty; the DCP portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age fifty. Benefits are established by Chapter 3307 of the Ohio Revised Code.

9. DEFINED BENEFIT PENSION PLANS (Continued)

A DBP or CP member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DCP who become disabled are entitled only to their account balance. If a member of the DCP dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For the fiscal year ended June 30, 2012, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the STRS Ohio upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contribution for pension obligations to STRS Ohio for the fiscal years ended June 30, 2012, 2011, and 2010 were \$1,235,399, \$1,327,215 and \$1,184,232 respectively; 81.34 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010. Contributions to the DCP and CP for fiscal year 2012 were \$10,109 made by the School District and \$7,221 made by the plan members.

B. School Employees Retirement System

Plan Description - The School District participated in the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a stand-alone financial report that may be obtained publicly by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, OH 43215-3746.

Funding Policy – For the fiscal year ended June 30, 2012, plan members are required to contribute 10 percent of their annual covered salary and the School District was required to contribute an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School's District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2012, 12.70 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The School District's required contribution for pension obligations to SERS for the fiscal years ended June 30, 2012, 2011, and 2010 were \$405,973, \$400,596, and \$364,556, respectively; 100 percent has been contributed for fiscal years 2012 and 2011 and 48.36 percent for 2010. The amount for 2010 is being paid in arrearage.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the State Teachers Retirement System or the School Employees Retirement System have an option to choose Social Security or the State Teachers Retirement System/School Employees Retirement System. As of June 30, 2012, two of the Board of Education members have elected Social Security. The Board's liability is 6.2 percent of wages paid.

10. POST EMPLOYMENT BENEFITS

A. State Teachers Retirement System

Plan Description - The School District participated in the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy - Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2012, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The School District's contributions for health care for the fiscal years ended June 30, 2012, 2011, and 2010 were \$88,243, \$96,758, and \$93,390 respectively; 81.34 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

B. School Employees Retirement System

Plan Description - The School District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System (SERS) for classified retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program.

The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligation to contribute are established by SERS based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting the School Employees Retirement System, 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each fiscal year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For fiscal year 2012, 0.55 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2012, this amount was \$44,494.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The School District's contributions for health care for the fiscal years ended June 30, 2012, 2011, and 2010 were \$15,949, \$44,555, and \$13,122 respectively; 100 percent has been contributed for fiscal years 2012 and 2011 and 48.36 percent for 2010. The amount for 2010 is being paid in arrearage.

10. POST EMPLOYMENT BENEFITS (Continued)

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2012, this actuarially required allocation was 0.75 percent of covered payroll. The School District's contributions for Medicare Part B for the fiscal years ended June 30, 2012, 2011, and 2010 were \$21,749, \$23,680, and \$21,679 respectively; 100 percent has been contributed for fiscal years 2012 and 2011 and 48.36 percent for 2010. The amount for 2010 is being paid in arrearage.

11. DEBT

A. Debt Obligations

The changes in the School District's long-term obligations during fiscal year 2012 were as follows:

	Interest Rate	Balance 6/30/11	Additions	Reductions	Balance 6/30/12	Due Within One Year
General Long Term Obligations						
OSFC General Obligation Bonds						
Serial Bond	3-4%	\$10,950,000		\$1,065,000	\$ 9,885,000	\$1,095,000

High School General Obligation Bonds – On September 4, 2008, the School District issued serial bonds in the amount of \$12,320,000, term bonds in the amount of \$25,160,000 and capital appreciation bonds in the amount of \$769,986 for a total of \$38,249,986 in voted general obligation bonds for constructing a high school.

The serial bonds maturing after December 1, 2019, are subject to redemption at the option of the School District, either in whole or in part, in such order as the School District shall determine, on any interest payment date on or after December 2019, at 100 percent of the principal amount redeemed plus accrued interest to the redemption date.

The term bonds maturing on December 1, 2027, are subject to mandatory sinking fund redemption, in part by lot, pursuant to the terms of the mandatory sinking fund redemption requirements of the School District. The mandatory redemption is to occur on December 1, 2027 in the amount of \$6,225,000, at a redemption price equal to 100 percent of the principal amount redeemed accrued interest to the redemption date.

The term bonds maturing on December 1, 2036 are subject to mandatory sinking fund redemption, in part by lot, pursuant to the terms of the mandatory sinking fund redemption requirements of the School District. The mandatory redemption is to occur on December 1, 2036 (with the balance of \$18,935,000 to be paid at stated maturity on December 1, 2036).

The capital appreciation bonds will mature in fiscal years 2020 thru 2023. The maturity amount for the bonds is \$5,820,000. For fiscal year 2012, the total accretion was \$184,640.

Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2012, were as follows:

The interest on the capital appreciation bonds represents the accretion of the deep-discounted bonds from the initial value at the time of issuance to their value at final maturity.

12. SET ASIDE REQUIREMENTS

The School District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year-end. These amounts must be carried forward and used for the same purposes in future years.

The following cash basis information identifies the changes in fund balance reserves for capital improvements during fiscal year 2012.

	<u>Capital Improvements</u>
Balance June 30, 2011	
Current Year Set Aside Requirement	\$425,429
Qualifying Offset – Permanent Improvement Levy	(357,548)
Qualifying Expenditures	(45,411)
Prior Year Offset from Bond Proceeds	(22,740)
Totals	<u>\$ 0</u>
Amount Carried Forward to Fiscal Year 2012	<u>\$ 0</u>

Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end. These amounts must be carried forward and used for the same purposes in future years. Effective July 1, 2011, the textbook set-aside laws have been repealed. For capital acquisitions, a portion of this extra amount which represents proceeds from bonds, \$12,320,000, may be used to reduce the set-aside requirements for future years.

14. JOINTLY GOVERNED ORGANIZATIONS

A. Northwest Ohio Area Computer Services Cooperative

The Northwest Ohio Area Computer Services Cooperative (NOACSC) is a jointly governed organization among forty-seven school districts. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. Each of the governments of these schools supports NOACSC based upon a per pupil charge dependent upon the software package utilized. The NOACSC Assembly consists of a representative from each participating school district and the superintendent from the fiscal agent. The Board of Directors consists of the superintendent from the fiscal agent, the two Assembly members from each county in which participating school districts are located. The degree of control exercised by any participating school district is limited to its representation of the Board. Financial information can be obtained by contacting Northwest Ohio Area Computer Services Cooperative, at 645 South Main Street, Lima, Ohio 45804.

B. Apollo Joint Vocational School

The Apollo Joint Vocational School is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the participating school districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information write to the Apollo Joint Vocational School, 3325 Shawnee Road, Lima, Ohio 45806.

14. JOINTLY GOVERNED ORGANIZATIONS (Continued)

C. West Central Ohio Regional Professional Development Center (the Center)

The Center is a jointly governed organization among the school districts located in Allen, Auglaize, Hancock, Hardin, Mercer, Paulding, Putnam and Van Wert counties. The jointly governed organization was formed for the purpose of establishing an articulated, regional structure for professional development, in which school districts, the business community, higher education and other groups cooperatively plan and implement effective professional development activities than are tied directly to school improvement, and in particular, to improvements to instructional programs.

The Center is governed by a board made up of 52 representatives of the participating school districts, the business community, and two institutions of higher learning whose term rotates every two years. The degree of control exercised by any participating school district is limited to its representation on the Board. Financial information may be obtained by contacting Hancock County Educational Service Center, 604 Lima Avenue, Findlay, Ohio 45840-3087.

15. GROUP INSURANCE PURCHASING POOLS

A. Northwest Ohio Area Computer Service Cooperative Workers' Compensation Group Rating Program

The School District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Group Rating Plan was established through the Northwest Ohio Area Computer Service Cooperative as a group insurance purchasing pool. The GRP's business and affairs are conducted by a twenty-five member Board of Directors consisting of two representatives from each county elected by a majority vote of all charter member schools within each county plus one representative from the fiscal agency A-site. The treasurer of Findlay City Schools serves as coordinator of the program. Each year, the participating Districts pay an enrollment fee to cover the costs of administering the program.

B. Allen County Schools Health Benefit Plan

The School District participates in the Allen County Schools Health Benefit Plan (the plan), a public entity shared risk pool consisting of the school districts within Allen County. The Trust is organized as a Voluntary Employee Benefit Association under 26 U.S.C. Section 501(c)(9) and provides medical, accident and other benefits to the employees of the participating school districts.

Each participating school district's superintendent is appointed to a Board of Trustees which advises the Trustee, Allied Benefit Systems, concerning aspects of the administration of the Trust. Each school district decides which plans offered by the Board of Trustees will be extended to its employees. Participation in the Trust is by written application subject to the acceptance by the Board of Trustees and payment of the monthly premium. Financial information can be obtained from Brian Rockhold who serves as chairman, at the Allen County Educational Service Center, 1920 Slabtown Rd, Lima, Ohio 45804.

C. Southwestern Ohio Educational Purchasing Council Insurance Programs (SOEPC)

The School District participates in a public entity shared risk pool of thirty-two school districts. The SOEPC Insurance Program provides for property, fleet and liability insurance coverage. The Program's business and affairs are conducted by an Executive Council of seven participation school administrators. Participation in the Program is by written application subject to acceptance by the Executive Council and the payment of an annual premium. The Administrator of the program is Public Entity Marsh which coordinates the management, administration, claims management, and actuarial studies of the Program. Insurance premiums are paid to the Purchasing Council. Financial information can be obtained from Public Entity Marsh, 525 Vine Street, Cincinnati, Ohio 45202.

17. CONTINGENCIES

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2012, if applicable, cannot be determined at this time.

**NOTES TO THE SCHEDULE OF FEDERAL RECEIPTS AND EXPENDITURES
FOR THE FISCAL YEAR ENDED JUNE 30, 2012**

NOTE A -- SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) summarizes activity of the School District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B -- CHILD NUTRITION CLUSTER

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

NOTE C -- FOOD DONATION PROGRAM

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the entitlement value of the commodities received.

At June 30, 2012, the School District had no significant food commodities in inventory.

NOTE D -- MATCHING REQUIREMENTS

Certain Federal programs require that the School District contribute non-Federal funds (match funds) to support the Federally-funded programs. The School District has complied with the matching requirements. The expenditure of non-Federal matching funds is not included in the Schedule.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Elida Local School District
Allen County
4380 Sunnydale Avenue
Elida, Ohio 45807

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Elida Local School District, Allen County, (the School District) as of and for the fiscal year ended June 30, 2012, which collectively comprise the School District's basic financial statements and have issued our report thereon dated February 22, 2013, wherein we noted the School District uses a comprehensive accounting basis other than generally accepted accounting principles and restated Net Assets and Fund Balance. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of opining on the effectiveness of the School District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. Therefore, we cannot assure that we have identified all deficiencies, significant deficiencies or material weaknesses. However, as described in the accompanying schedule of findings we identified certain deficiencies in internal control over financial reporting, that we consider material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and timely corrected. We consider findings 2012-01 and 2012-02 described in the accompanying schedule of findings to be material weaknesses.

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matter we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings item 2012-03.

We also noted certain matters not requiring inclusion in this report that we reported to the School District's management in a separate letter dated February 22, 2013.

The School District's responses to the findings identified in our audit are described in the accompanying schedule of findings. We did not audit the School District's responses and, accordingly, we express no opinion on them.

We intend this report solely for the information and use of management, audit committee, Board of Education, and federal awarding agencies and pass-through entities, and others within the School District. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Elida Local School District
Allen County
4380 Sunnydale Avenue
Elida, Ohio 45807

To the Board of Education:

Compliance

We have audited the compliance of Elida Local School District (the School District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the School District's major federal programs for the fiscal year ended June 30, 2012. The *summary of auditor's results* section of the accompanying schedule of findings identifies the School District's major federal programs. The School District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to opine on the School District's compliance based on our audit.

Our compliance audit followed auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the School District's compliance with these requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with these requirements.

In our opinion, the Elida Local School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the fiscal year ended June 30, 2012.

Internal Control Over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We noted matters involving federal compliance or internal control over federal compliance not requiring inclusion in this report, that we reported to the School District's management in a separate letter dated February 22, 2013.

We intend this report solely for the information and use of the audit committee, management, Board of Education, others within the School District, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2012-01

Material Weakness – Maintaining Adequate Active Deposits for Each Fund

The School District should maintain adequate deposits in each fund to meet the current operating demands. With this in mind, the year-end fund balances reported on the financial statements should relate to the corresponding various bank account or investment account balances at year-end. The School District's Building Fund had designated deposit and investments in accounts with various financial institutions in the amount of \$2,754,450. The balance of these accounts exceeded the \$2,051,934 reported balance in the Building Fund at June 30, 2012 by \$702,516. This shortage occurred as the result of the School District recording expenditures in the Building Fund and paying the obligation from the active pooled deposits of other funds instead of liquidating the designated deposits and investments.

Failure to maintain sufficient active deposits for each fund could result in active deposits from other funds being utilized to cover the deficiency. This practice could result in the illegal expenditure of restricted money and may potentially create a misstatement of the financial statements by not recognizing this loan as an advance.

The School District should assess the cash flow needs of the building fund and then liquidate investments in a manner to meet these cash flow requirements.

OFFICIALS' RESPONSE: By having the funds reside longer in the building fund, the School District received more interest income (as the building fund had greater returns).

FINDING NUMBER 2012-02

Material Weakness – Accuracy of Financial Reporting

The School District should have procedures in place to help assure the proper presentation of financial balances and activity. The School District's compilation had the following errors:

- The Building Fund beginning fund balance and Government Type Activity Net Assets were overstated by \$307,012 due to overstatement of interest earned in prior years on the Building Fund investments as the result of recording accrued interest on investments.
- Building Fund interest receipts were overstated by \$33,747 as the result of recording accrued interest on investments.
- Building Fund deposits in a separate checking account were classified as Equity in Pooled Cash and Cash Equivalents instead of Cash and Cash Equivalents.
- Building Fund money held with escrow agents was classified as Equity in Pooled Cash and Cash Equivalents with Escrow Agents instead of Cash and Cash Equivalents with Escrow Agents.
- Building Fund bank fees in the amount of \$1,360 were reported as Issuance Costs instead of Support Services – Fiscal.
- Other Governmental Funds Operation of Non-Instructional Services disbursements in the amount of \$175,951 were reported as Community Services disbursements.
- General Fund Gifts and Donations in the amount of \$86,673 were reported as Miscellaneous Receipts instead of Gifts and Donations.
- The Unclaimed Money Fund balance in the amount of \$26,563 was presented as Non-spendable Net Assets instead of Unrestricted Net Assets on the Statement of Net Assets.
- General Fund encumbrances, in the amount of \$508,941, were reported as Net Assets Restricted for Other Purposes instead of Unrestricted Net Assets on the Statement of Net Assets.

**FINDING NUMBER 2012-02
(Continued)**

- General Fund money restricted for a bus purchase, in the amount of \$40,534, was reported as Assigned Fund Balance instead Restricted Fund Balance. On the Statement of Net Assets this amount was reported as Unrestricted Net Assets instead of Restricted Net Assets.
- Program receipts in the amount of \$680,093 were not properly classified on the Statement of Activities

The accompanying financial statements have been adjusted to correct these reporting errors. In addition, the accounting records have been adjusted to eliminate accrued interest.

The School District should utilize governmental accounting resources, such as GASB implementation guides or those found on the Auditor of State web site, to help improve financial reporting.

OFFICIALS' RESPONSE: The School District saves \$5,000 per year by compiling the financial statements in house.

FINDING NUMBER 2012-03

Noncompliance Citation

Ohio Rev. Code Section 117.38 provides that each public office shall file a financial report for each fiscal year. The Auditor of State may prescribe forms by rule or may issue guidelines, or both, for such reports. If the auditor of state has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office. Ohio Administrative Code Section 117-2-03 further clarifies the requirements of Ohio Rev. Code Section 117.38.

Ohio Adm. Code Section 117-2-03 (B) requires all school districts to file annual financial reports in accordance with generally accepted accounting principles (GAAP). The School District prepared its financial statements in accordance with the cash accounting basis. The accompanying financial statements omit assets, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time. Pursuant to Ohio Rev. Code Section 117.38 the School District may be fined and subject to various other administrative remedies for its failure to file the required financial report.

To help provide the users with more meaningful financial statements, the School District should prepare their financial statements according to Generally Accepted Accounting Principles.

OFFICIALS' RESPONSE: The School District saves approximately \$8,000-\$10,000 each year by filing cash basis statements.
