INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Medina County
144 North Broadway Street
Medina, Ohio 44245

To the County Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Medina County, Ohio, (the County) as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 30, 2014, wherein we noted the County restated its Sewer District Fund and Solid Waste District Fund's net position.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the County's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the County's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Medina County
144 North Broadway Street
Medina, Ohio 44256

To the County Commissioners:

Report on Compliance for Each Major Federal Program

We have audited the Medina County's (the County) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Medina County's major federal programs for the year ended December 31, 2013. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the County's major federal programs.

Management's Responsibility

The County's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the County's compliance for each of the County's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the County's major programs. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, Medina County, Ohio complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended December 31, 2013.

Report on Internal Control Over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the County's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

Report on Federal Awards Expenditures Schedule Required by OMB Circular A-133

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Medina County, Ohio, (the County) as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our unmodified report thereon dated June 30, 2014, wherein we noted the County restated its Sewer District Fund and Solid Waste District Fund's net position. We conducted our audit to opine on the County's basic financial statements. The accompanying federal awards expenditures schedule presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE FISCAL YEAR ENDED DECEMBER 31, 2013

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the Schedule) reports Medina County's (the County's) federal award programs' disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - SUBRECIPIENTS

The County passes certain federal awards received from the Ohio Department of Mental Health and Addiction Services to other governments or not-for-profit agencies (subrecipients). As Note A describes, the County reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the County has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

NOTE C - CHILD NUTRITION CLUSTER

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

NOTE D – FOOD DONATION PROGRAM

The County reports commodities consumed on the Schedule at the fair value. The County allocated donated food commodities to the respective programs that benefitted from the use of those donated food commodities.

NOTE E - MATCHING REQUIREMENTS

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

MEDINA COUNTY

**NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE
FISCAL YEAR ENDED DECEMBER 31, 2013
(Continued)**

NOTE F - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) REVOLVING LOAN PROGRAMS

The County has a revolving loan fund (RLF) program to provide low-interest loans to businesses to create jobs for low to moderate income persons and also to lend money to eligible persons to rehabilitate homes. The federal Department of Housing and Urban Development (HUD) grants money for these loans to the County, passed through the Ohio Development Services Agency. The Schedule reports loans made and administrative costs as disbursements on the Schedule. Subsequent loans are subject to the same compliance requirements imposed by HUD as the initial loans.

These loans are collateralized by mortgages on the property and by other guarantees.

Activity in the CDBG revolving loan fund during 2013 is as follows:

Beginning loans receivable balance as of January 1, 2013	\$127,466
Loans made	-
Loan principal repaid	14,363
Ending loans receivable balance as of December 31, 2013	<u>\$113,103</u>
Cash balance on hand in the revolving loan fund as of December 31, 2013	\$35,131
Administrative costs expended during 2013	-
Other costs expended during 2013	(33,188)
Economic Development Project payments received during 2013	4,649

The table above reports gross loans receivable. Of the loans receivable as of December 31, 2013, the County estimates \$200 to be uncollectible.

NOTE G – MEDICAID DEFERRED PAYMENT

During the calendar year, the County Board of Developmental Disabilities received a settlement for the 2008 Cost Report from the Ohio Department of Developmental Disabilities for the Medicaid Program (CFDA#93.778) in the amount of \$1,756. The Cost Report settlement was for settlement of the difference between the statewide payment rate and the rate calculated based upon actual expenditures for Medicaid services. This revenue is not listed on the County's Schedule of Expenditures of Federal Awards since the underlying expenses occurred in prior reporting periods.

NOTE H – OHIO DEPARTMENT OF MENTAL HEALTH AND ADDICTION SERVICES

Effective July 1, 2013, the Ohio Department of Alcohol and Drug Addiction Services (ODADAS) and the Ohio Department of Mental Health (ODMH) merged to create the Ohio Department of Mental Health and Addiction Services (ODMHAS). All grants passed through ODADAS and ODMH are reported as being passed through the ODMHAS on the County's Schedule of Expenditures of Federal Awards.

Medina County Auditor

MIKE KOVACK

144 North Broadway St. • Medina, Ohio 44256

June 30, 2014

To the Citizens of Medina County
and to The Board of County Commissioners:
the Honorable Patricia G. Geissman,
the Honorable Adam Friedrich, and
the Honorable Stephen D. Hambley,

As Medina County Auditor, I am pleased to present the Comprehensive Annual Financial Report (CAFR) of Medina County for the year ended December 31, 2013. This CAFR conforms to Generally Accepted Accounting Principles (GAAP) as applicable to government entities and is reported as promulgated by GASB Statement No. 34. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rest with the County Auditor. To the best of my knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly and completely the financial position and results of the County's financial activities.

This report enables the County to comply with Ohio Administration Code Section 117-2-03 (B), which requires reporting on a GAAP basis, and Ohio Revised Code Section 117.38 which requires counties reporting on a GAAP basis to file unaudited basic financial statements with the Auditor of State within 150 days of year end.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the object is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complement this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The County of Medina has operated under the Board of County Commissioners since being incorporated in 1818. It is located in the northeastern part of the State, which is considered one of the top growth areas in the State. The County of Medina is empowered to levy a property tax on both real and telephone tangible personal property located within its boundaries. It is also empowered by State statute to extend the boundaries of cities, villages and townships by annexation, which it has done from time to time.

The Board of County Commissioners is required to adopt a final budget by no later than the first day of April of the current year. This annual budget is prepared to the object level within each department for all funds. Any budgetary modification at this level may only be made by resolution of the County Commissioners.

-v-

The County provides its citizens with a wide range of services including general government (both legislative and executive as well as judicial), public safety, public works, human services, health, conservation and recreation, water and sewer services, and solid waste management. A Court of Appeals situated in Summit County serves Medina County. For financial reporting purposes, the County (the primary government) includes all agencies, department and organizations that are not legally separate from the County. The Medina County Alcohol, Drug Addiction, and Mental Health Services Board and the Medina County Board of Developmental Disabilities are included as part of the primary government.

Local Economy

Once you have visited Medina County, you will find it is a community rich in traditions and history, and the kind of area you can move to, become a part of, and stay for a lifetime. One of the many questions residents of Medina County may be asking themselves, responding to our changing County is, “Where have we been and where are we going?”

Medina County is located in northeast Ohio and is part of the greater Cleveland and Akron metropolitan areas. In 2001, the population of the County was 154,630. By 2010, the population had grown to 172,332. The area is 327 square miles. Medina County includes the entire boundaries of three cities, six villages, and seventeen townships.

Medina County has the third lowest poverty level (only 6.6 percent) and has the third highest median household income in Ohio. Medina County is also one of the fastest growing counties out of Ohio’s eighty-eight counties. Much of our growth is due to the proximity to the interstate systems, coupled with our experienced workforce and cooperative business environment. With our continuing growth (14.1 percent from 2000 per the 2010 Census), specifically in the residential sector, we are seeing increased pressures on the County, townships, cities and villages.

The County exhibits a moderate balance between residential/agricultural lands and commercial/industrial lands. Currently, approximately 84 percent of taxes are paid by residential/agricultural owners and 16 percent of taxes are paid by industries.

Medina County is fortunate to have the Medina County Economic Development Corporation (MCEDC) which aggressively acts to ensure a positive and supportive economic outlook in the County. In conjunction with County and local government and business leaders throughout the County, the MCEDC is constantly addressing the issue of growth and the demands it places upon the County services and infrastructure.

Medina County has been successful in attracting industry to the area to help pay for the education and service requirements of our expanding population. The objective of MCEDC is “Quality jobs for quality people in quality industries.” Medina County has been very successful in meeting that objective.

Long-Term Financial Planning

In order to make sound financial decisions now and in the future, the Medina County Board of Commissioners has established principles for budget and financial management. These principles provide guidance for budget development, financial and debt management, and reserves. One-time surpluses may not be used to expand continuing expenditures. Rather, they may be used for one-time expenditures, such as capital projects. County agencies are encouraged to maximize the use of State and Federal revenues so as to help preserve general revenues for other needs.

Relevant Financial Policies

The budget must be structurally balanced so that continuing revenues support continuing expenditures. Budgetary appropriations may not exceed estimated resources, with a balanced budget maintained in each fund. Agency budget requests are submitted in a program-based format in conjunction with strategic business plans outlining the goals for the following year. The County's goal is to maintain a fund balance in the general fund that is 20 percent of total general fund revenues. This balance is to ensure sufficient funds are available for operational purposes should economic factors negatively impact revenue growth. Agencies funded through tax levies are required to maintain expenditures at or below the estimated revenue collections.

The budget is controlled at the object code level within a fund and any changes at this level may only be made by a resolution of the County Commissioners. The budget may be amended or supplemented at any time during the year upon formal action of the Commissioners. Transfers of cash between funds require the Commissioners' authorization. Encumbered appropriation amounts automatically carry over from prior years. The commissioners adopted the County's 2013 operating budget in February 2013. Additional information on the County's budgetary process can be found in Note 2 to the basic financial statements.

Major Initiatives

Current Projects

The County of Medina is nearing completion of its "Moving Ohio Forward" demolition program that has been funded by the Ohio Attorney General's Office. The County received a total of \$545,927 from the State Attorney General for the implementation of local efforts to assist in the revitalization of neighborhoods in the County by removing blighted residential structures. To date, thirty-one houses have been demolished and one final structure is scheduled for demolition.

Due to the 2010 national census results, Medina County Public Transit, operated by the Medina County Board of Commissioners, is transitioning in 2014 from a rural transit system to an urban system. This change has required development and operation of more "fixed route" service and a decrease in emphasis on "demand response" service. New, fixed routes are now operating in the City of Wadsworth for the first time, along with continued fixed route service in the City of Medina and the City of Brunswick. Medina County Public Transit is working diligently to balance the service needs of the residents and riders in the County's less populated areas with less, or restricted, funding availability.

The Board of County Commissioners has retained the services of a professional architect to prepare plans for the next phase of exterior restoration work on the County's Historic Courthouse. It is anticipated that this phase of construction will require an investment of approximately \$400,000, and will allow for restoration and repair of the facility's slate, cornice, and brick work. This project is tentatively scheduled to be publicly bid during the months of June and July. It is estimated that this project phase will be completed by November, 2014.

On May 6, 2014, the voters within the seventeen townships of the County approved a ballot measure that allows for the implementation of a natural gas aggregation program to be operated by the Board of County Commissioners. This initiative is intended to stabilize or possibly decrease the cost of gas for participating consumers. Subsequent to ballot approval, and in order to proceed with the commencement of this program, the County recently initiated a request for proposal process to allow for selection of a supplier of natural gas to service the needs of the approximate sixteen thousand eligible residential and small commercial owners in the townships. It is anticipated that this aggregation program will begin servicing customers in August, 2014.

Future Projects

Medina County, under the direction of its Sanitary Engineer, will be developing an update to its solid waste plan. This document will assist the County in determining and planning for the future of its central processing facility. The facility is the cornerstone of the County's waste management system. It is located on fifty-two acres in Westfield Township and consists of seventy-three thousand square feet, and was constructed by the County in 1993 in order to be in compliance with Ohio's Solid Waste law. All solid waste generated and collected within Medina County is delivered to the central processing facility. Early discussions indicate that a technology upgrade investment of approximately \$2 million will be necessary in the next year or two at the facility to enhance recycling and landfill diversion activities.

The Medina County Sheriff is examining options to upgrade the County's 9-1-1 emergency dispatch system to a "next generation" platform that is internet protocol-based and will enable the department to usher in a new way of handling a broader set of call types. A new system would accommodate texting and the delivery of automatic crash notifications. A next generation 9-1-1 system in Medina County, currently estimated to cost \$800,000, would increase the efficiency of dispatch and emergency response services and be of great benefit to the County's residents.

Department Focus: The Medina County Auditor's Office

Department Focus Auditor Mike Kovack serves as the Chief Fiscal Officer of Medina County. He is responsible for the custody and disbursement of nearly \$500,000,000 in funds received each year by the County. As the guardian of all County funds, the Auditor maintains the official records of all receipts, disbursement and funds available.

Real Estate The Medina County Auditor's Office serves as the assessor of all property within Medina County and, under Ohio law, must view and appraise each of the more than 81,641 parcels of real estate in the County every six years.

Areas of Responsibility Auditor Kovack's Office handles a variety of responsibilities vital to the healthy operation of the County. These responsibilities include:

- *Tax Settlements
- *Presentation of the annual tax budgets of the 50 districts in the County
- *Weights and Measures accuracy

Eligibility for Tax Reductions Auditor Kovack determines the eligibility of homeowners for various tax reductions under the Homestead Exemption Act, Current Agricultural Use Value, forestry and other tax reduction programs. The Auditor's Office makes every effort to keep the residents of the County apprised of the tax reduction programs available.

Boards The Auditor is a voting member of the Budget Commission which is responsible for reviewing and approving the budget for the County, cities, villages, townships and schools. He is a voting member of the Board of Revision which reviews taxpayers' requests for revaluation of real estate. He also serves as the Secretary on the Data Processing Board. This Board oversees the operations of the County Data Center.

Independent Audit

The Independent Accountant, Dave Yost, Auditor of State's Office, has issued an unmodified ("clean") opinion on the Medina County financial statements for year ended December 31, 2013. The Independent Auditor's report is located at the front of the financial section of this report.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Medina County, Ohio, for its comprehensive annual financial report for the year ended December 31, 2012. This marked the twenty-eighth consecutive year that the County has received this award.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility to receive the certificate.

The publication of this CAFR represents an important achievement in the ability of Medina County to provide significantly enhanced financial information and accountability to the citizens of Medina County, its elected officials, county management, and investors. This report continues the aggressive program of the County Auditor's Office to improve the County's overall financial accounting, management, and reporting capabilities.

Acknowledgments

This report would not have been possible without the dedication, determination and high professional standards of Sharon Creswell, Erin Roberts and MaryBeth Guenther.

I would also like to recognize the cooperation of each of the agencies and departments of the County, especially Darryl Kozich, Accounting Manager of the Sanitary Engineer's Office.

In addition, I would like to express my appreciation the Medina County Board of Commissioners for their support in this endeavor, and Christopher Jakab, County Administrator and Scott Miller, Finance Director.

Finally, I would like to acknowledge the invaluable contributions made by Auditor of State Dave Yost, Local Government Services Section.

Sincerely,

MIKE E. KOVACK
Medina County Auditor

INDEPENDENT AUDITOR'S REPORT

Medina County
144 North Broadway Street
Medina, Ohio 44256

To the County Commissioners:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Medina County, Ohio, (the County), as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the County's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Medina County, Ohio, as of December 31, 2013, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund, Achievement Center Fund, ADAMH Board Fund, and Public Assistance Fund, thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the basic financial statements, the County restated its Sewer District Fund and Solid Waste District Fund's net position for a debt related accounting revision. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the County's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2014, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Medina County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2013
Unaudited

The discussion and analysis of Medina County's financial performance provides an overall review of the County's financial activities for the year ended December 31, 2013. The intent of this discussion and analysis is to look at the County's financial performance as a whole. Readers should also review the transmittal letter, financial statements and notes to the basic financial statements to enhance their understanding of the County's financial performance.

Financial Highlights

Key financial highlights for 2013 are:

- During 2013, \$2 million in casino revenue was received by the County. The Board of County Commissioners utilized these receipts to supplement general fund operations, upgrade Sheriff's Office software and hardware, and undertake various building improvements and repairs. The original 2013 budgetary estimate for this revenue source was \$2.3 million. However, competition from racetrack gambling venues, from which counties receive no percentage of proceeds, has reduced the amount wagered in the four Ohio casinos and the corresponding taxes collected and distributed to the counties. Internal budgetary adjustments were implemented by the Board to account for this revenue shortfall.
- In 2013, the County received a combined total of \$3,424,000 from Local Government Fund distributions and casino tax revenue. As recently as 2008, however, the County was receiving in excess of \$4 million from a combination of tangible personal taxes, public utility taxes, and Local Government Funds. It can easily be noted, therefore, that Ohio legislative changes that eliminated or greatly reduced these tax and revenue sharing programs have left the County with less operating dollars, even with the addition of casino revenues.
- The County ended 2013 with a general fund carryover balance that covered approximately 13 percent of total expenditures and other financing uses in the fund on a budget basis. The County continues to be committed to meeting the ongoing service needs of its residents and businesses through prudent budget planning and flexibility.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are prepared and organized so the reader can understand Medina County as a financial whole and entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial conditions.

The *Statement of Net Position* and *Statement of Activities* provide information about the whole County, presenting both an aggregate view of the County's finances and a longer-term view of those finances. Major fund financial statements provide the next level of detail. For government funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The fund financial statements also look at the County's most significant funds with all other nonmajor funds presented in total in one column. In the case of Medina County, the general fund is by far the most significant fund. The achievement center, school sales tax, and public assistance special revenue funds, Medina County sewer district, Medina County water district and solid waste management enterprise funds are also included as major funds.

Reporting the County as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the information about funds used by the County to provide programs and activities for our citizens, the view of the County as a whole looks at all financial transactions and asks the question: "How did we do financially during 2013?" The *Statement of Net Position* and the *Statement of Activities* answer this question; these statements include all (non-fiduciary) assets and deferred outflows of resources and liabilities and deferred inflows of resources using the full accrual basis of accounting similar to the accounting used by private-sector companies. The full accrual basis of accounting method took into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the County's net position and changes in net position. The change in net position is important because it tells the reader whether the financial position of the County as a whole has improved or diminished. To evaluate the overall position of the County, financial information such as changes in the County's tax base, current property tax laws in Ohio restricting revenue growth, and the condition of the County's capital assets will also need to be reviewed.

The *Statement of Net Position* and the *Statement of Activities* are divided into the following categories:

- Assets
- Deferred Outflows of Resources
- Liabilities
- Deferred Inflows of Resources
- Net Position
- Program Revenue and Expenses
- General Revenues
- Net Position Beginning of Year and Year End

Reporting on the County's Most Significant Funds

Fund Financial Statements

The presentation of the County's major funds begins on page 16. Fund financial reports provide detailed information about the County's major funds based on the restrictions on the use of monies. The County has established many funds which account for the multitude of services, facilities and infrastructure provided to our residents. However, these fund financial statements focus on the County's most significant funds. In the case of Medina County, the major funds are the general, achievement center, schools sales tax, public assistance, Medina County sewer district, Medina County water district and solid waste management.

Governmental Funds

Most of the County's activities are reported in the governmental funds which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods. Governmental funds are reported using an accounting method called modified accrual accounting which measures cash and all other financial assets that are expected to be readily converted to cash. The governmental fund statements provide a detailed short-term view of the County's general operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future on services provided to our residents. The relationship (or differences) between governmental activities (reported in the *Statement of Net Position* and the *Statement of Activities*) and governmental funds is reconciled in the financial statements.

Proprietary Funds

The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses several enterprise funds to account for various operations. The County's major enterprise funds are the Medina County sewer district, Medina County water district, and the solid waste management. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. Specifically, the internal service funds account for the medical benefit self-insurance program and the workers' compensation program for employees of the County.

The County as a Whole

The *Statement of Net Position* looks at the County as a whole. Table 1 provides a summary of the County's net position for 2013 compared to 2012.

Total assets increased from 2012 to 2013, primarily due to higher cash and cash equivalents due to higher property taxes collected over the prior year and due to the new casino revenue.

Total liabilities decreased mainly due to decreases to accounts payable, intergovernmental payables, contracts payables, claims payables, and long-term debt obligations.

Table 2 shows the changes in net position for the year ended December 31, 2013 as compared to 2012.

Governmental Activities

The overall financial strength of the County remained stable despite the ongoing economic concerns throughout the Country as a whole.

Total governmental activities revenue for the County for 2013 increased from 2012. The increase was primarily due to increases in capital grants and contributions, property taxes, sales taxes, and unrestricted grants and entitlements.

Overall, program revenues decreased from the prior year by \$1.1 million. Charges for services revenue decreased from 2012 to 2013, due to decreased ODOT charges. Operating grants and contributions decreased from the prior year primarily due to fewer ADAMH and workforce development grants. Capital grants and contributions increased over the prior year due to State Issue II grants.

General revenues more than made up for the program revenue decrease with nearly a \$6 million increase from the prior year. The main reasons for the increase in general revenues were due to increases in property taxes and unrestricted grants and entitlements. All general revenue categories increased except for interest earnings.

Total governmental activities expenses for the County for 2013 slightly increased. Health represents the highest expense, then legislative and executive services expenses and public safety expenses are the next two largest. These three, being the major County expense categories, cover the Achievement Center, ADAMH Board, Children's Services, Dog and Kennel, Public Assistance, Sheltered Care and Youth Services, Transportation and the County Sheriff Department activities among others.

Health and human services accounted for \$38,353,883 in expenses out of \$101,915,241 total expenses for the governmental activities; just over half of the monies were covered by direct charges to users of the services and grants. A portion of those charges are for fees charged for septic and solid waste sites and for the collection of license and permit fees throughout the County.

Public safety charges for services include fees for boarding prisoners and for special details.

Business-type Activities

Business-type activities revenues for the County for 2013 decreased from 2012. The decrease was due to decreased operating and capital grants and contributions.

Business-type activities expenses for the County for 2013 decreased from 2012 due to lower personnel, materials and supplies, and interest and fiscal charge expenses.

Of the County's \$101,915,241 in governmental expenses, \$51,023,879 was covered by program revenues consisting of charges for services, operating grants and contributions and capital grants and contributions. The remaining expenses had to be paid from property and sales taxes, property transfer taxes, unrestricted grants, interest and miscellaneous revenues.

The County's Funds

Governmental Funds

Medina County uses fund accounting as mandated by governmental legal requirements. The importance of accounting and reporting using this method is to demonstrate compliance with these finance related requirements.

Information about the County's governmental funds begins on page 16. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$111,206,121 and expenditures of \$104,479,952.

The most significant fund is the general fund with a year-end fund balance of \$8,257,254, which included an unassigned fund balance of \$7,544,859, compared to annual expenditures of \$36,006,208. Revenues exceeded expenditures by \$2,977,561, due to increased sales tax, charges for services, and intergovernmental revenues.

The Achievement Center revenues of \$22,625,379, with the majority being property taxes, allowed for the operations of a school for the developmentally disabled. This fund's operating expenditures increased by \$734,163 to \$19,290,985 for 2013. The large increase in property taxes caused revenues to exceed expenditures in 2013.

Medina County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2013
Unaudited

The school sales tax revenues of \$10,868,663 allowed the fund to increase its fund balance by \$115,994, for a total fund balance of \$1,697,954.

The Public Assistance revenues of \$4,810,805, mostly from State and Federal grants, allowed for the County to run various programs to help those in need. This fund's operating expenditures of \$6,132,366 exceeded revenues due to higher personnel and materials and supplies expenditures in 2013. The general fund transferred revenues to help offset the deficiency.

Business-Type Funds

The County has three business-type activities funds; Medina County Sewer District, Medina County Water District and Solid Waste Management. Total net position increased by \$3,223,268 from 2012 to 2013. The increase is attributed to more charges for services and lower operating expenses.

Long-term liabilities decreased from 2012 to 2013 due to the County incurring less debt in 2013 than in 2012 and making annual debt service payments.

General Fund Budgeting Highlights

The County's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund. During the course of 2013, the County amended its general fund budget several times. At the direction of County Commissioners, all capital projects and requests for capital type purchases must be reviewed and approved individually by the Commissioners, although the County's legal level of control is at the object level for all funds and any budget modifications may only be made by resolution of the County Commissioners.

The general fund supports many major activities such as the sheriff's department, building and planning departments as well as the legislative and most executive activities. Some major capital projects are funded with general fund dollars. By resolution, these funds are transferred from the general fund to capital projects funds where the revenue and expenditures for the capital improvement are tracked and monitored. Although the original appropriations were gradually increased during the year, the County continued to maintain a respectable level of liquidity in the general fund by maintaining unrestricted cash at year end.

During the course of 2013, the County was very conservative about increasing its final budgeted projections. Although the budget commission processed multiple adjustments to both the original estimated revenues and original appropriations, these changes only increased estimated revenues and other sources and appropriations and other uses by \$158,500 and \$518,873, respectively.

Certain revenue line items had increases of actual revenue being brought into the County, as compared to what was projected. For the general fund, final budgeted revenues were \$37,165,086 and actual revenue collections were \$38,257,085. The majority of this increase was due to the receipt of increased property and sales tax revenue. Actual expenditures were \$2,143,866 less than final budgeted appropriations due to the County spending less on personnel and contractual services.

Total capital assets for Medina County as of December 31, 2013, were \$307,275,255, a decrease of \$5,704,699 from 2012. The decrease was due to depreciation amounts being higher than the additions for business-type activities. For additional information see Note 11 to the basic financial statements.

The County Commissioners are committed along with the administration to maintain its capital assets at a condition acceptable to provide the best possible service for all residents.

During the year, \$702,046 in sewer lines and \$755,837 in water lines were donated by developers. Capital contributions also include amounts for tap-in fees.

The administration continues to seek grants for infrastructure projects as well as improving County facilities and services. The County expects to continue to apply for and receive Community Development Block Grant money to help fund various qualifying projects in the future.

Debt

On December 31, 2013, Medina County had total governmental activity general obligation bonded debt outstanding of \$5,122,963. Outstanding special assessment bonds totaled \$540,000. In the event of payment default by the property owner the County would be responsible for the debt service payments. All bonds are backed by the full faith and credit of the County.

During 2013, Medina County's long-term debt decreased. The governmental activities debt obligations decreased by \$932,214 as debt was paid down and having no new issuances in 2013. Business-type activities saw a decrease of \$6,932,061 in long-term debt also due to debt being paid down and having very few new issuances.

The County maintains an "AA" credit rating on its long-term bonds from Standard & Poor's Rating Group and "Aa1" from Moody's Investors Service, Inc. State Statute limits the total amount of debt a governmental entity can issue.

The County has loans outstanding to the Ohio Water Development Authority (OWDA). During 2013, \$7,518,114 was retired during the year and the County had \$301,831 in proceeds. The outstanding balance at year-end was \$74,730,666. The loan proceeds were used for ongoing various improvements to the Westfield Treatment facility and sewer system improvements and replacements. They are being repaid primarily from charges for services from the business-type activities funds and a portion of the debt is also being repaid from special assessments charged to the benefited property owners.

The County has loans outstanding to the Ohio Public Works Commission (OPWC). During 2013, \$60,362 was retired. The outstanding balance at year-end was \$593,155. The loan proceeds were originally used to construct the water loop system and various bridge and road replacements.

For the governmental activities, the general obligation bonds outstanding at December 31, 2013 were \$5,122,963 with \$527,763 being retired during the year and the County had no proceeds. For the business-type activities, general obligation bonds outstanding were fully retired in 2013. All bonds are backed by the full faith and credit of the County.

In addition to the bonded debt, County long-term obligations include compensated absences. Additional information on the County's long-term obligations can be found in Note 16 of the notes to the basic financial statements.

Current Financial Related Activities

The unemployment rate for the County is currently 5.9 percent, which decreased from a year ago. This rate is below the State's unemployment rate of 7.2 percent and below the national average of 6.7 percent.

These factors, along with inflationary trends, were considered in preparing the County's budget for the 2014 year. At the end of the 2013 year, the fund balance in the general fund increased by \$918,982.

*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended December 31, 2013*

Net Change in Fund Balances - Total Governmental Funds \$6,726,169

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.

Capital Assets Additions	2,810,860	
Current Year Depreciation	(2,484,756)	
Total		326,104

Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. (133,794)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Delinquent Property Taxes	(261,005)	
Intergovernmental Revenues	473,284	
Charges for Services	(14,365)	
Special Assessments	(380,111)	
Fines and Forfeitures	317	
Total		(181,880)

Repayment of bond and loan principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 927,943

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.

Accrued Interest	8,166	
Accretion on Bonds	(3,492)	
Amortization of Bond Premium	7,763	
Amortization of Deferred Charge on Refunding	(4,560)	
Total		7,877

Compensated absences expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as an expenditure in governmental funds. (214,064)

The internal service funds used by management to charge the costs of insurance to individual funds are not reported in the entity-wide statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the internal service funds are allocated among the governmental activities.

Change in Net Position	1,887,385	
Internal Balances	(236,740)	
Total		1,650,645

Change in Net Position of Governmental Activities \$9,109,000

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

Note 1 – Reporting Entity

Medina County, Ohio (the County) was created in 1818. The County is governed by a Board of three commissioners elected by the voters of the County. The County Commissioners serve as the taxing authority, the contracting body, and the chief administrators of public services for the County. Other officials elected by the voters of the County that manage various segments of the County's operations are the County Auditor, County Treasurer, Recorder, Clerk of Courts, Coroner, Engineer, Prosecuting Attorney, Sheriff, two Common Pleas Court Judges, a Probate and Juvenile Court Judge, and a Domestic Relations Judge.

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading.

The primary government of the County consists of all funds, departments, boards and agencies that are not legally separate from the County. For Medina County, this includes the Alcohol, Drug Addiction and Mental Health (ADAMH) Board, the Board of Developmental Disabilities (DD), and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the County in that the County approves the budget, the issuance of debt or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The County has no component units.

The County is associated with certain organizations which are defined as Joint Ventures, Jointly Governed Organizations, Risk Sharing Pool, and Related Organizations. These organizations are presented in Notes 19, 20, 21, and 22 to the basic financial statements. These organizations are:

- Medina County Emergency Management Agency
- Northeast Ohio Areawide Coordinating Agency (NOACA)
- Medina County Family First Council
- North East Ohio Network (NEON)
- Medina County Council of Governments on Drug Enforcement
- County Risk Sharing Authority, Inc. (CORSA)
- Medina County Library District
- Medina Metropolitan Housing Authority (MMHA)

As the custodian of public funds, the County Treasurer invests all public monies held on deposit in the County Treasury. In the case of the separate agencies, boards and commissions listed below, the County serves as fiscal agent, but the organizations are not considered part of Medina County. Accordingly, the activity of the following entities is presented as agency funds within Medina County's financial statements:

- Medina County General Health District
- Medina County Soil and Water Conservation District
- Local Emergency Planning Commission
- Medina County Family First Council
- Medina County Park District
- Emergency Management Agency

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

Note 2 – Summary of Significant Accounting Policies

The financial statements of Medina County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below.

Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities. The activities of the internal service funds are eliminated to avoid "doubling up" revenues and expenses.

The statement of net position presents the financial condition of the governmental and business-type activities of the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for business-type activities of the County. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental activity is self-financing or draws from the general revenues of the County.

Fund Financial Statements During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The combined internal service funds are presented on the face of the proprietary fund statements. Fiduciary funds are reported by type.

Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources is reported as fund balance. The following are the County's major governmental funds:

General Fund The general fund is the operating fund of the County and is used to account for and report all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Ohio.

Achievement Center Special Revenue Fund The achievement center special revenue fund accounts for and reports the operation of a school for the mentally challenged and developmentally disabled. Revenue sources restricted for this purpose are a County-wide property tax levy, Federal and State grants, and subsidies from the Ohio Department of Education and the Ohio Department of Developmental Disabilities.

School Sales Tax Special Revenue Fund The school sales tax special revenue fund accounts for and reports a .5 percent restricted sales tax collection within the County and the distribution of this tax to School Districts within the County.

Public Assistance Special Revenue Fund The public assistance special revenue fund accounts for and reports various restricted Federal and State grants and transfers from the general fund used to provide general relief to eligible recipients, pay for medical assistance and to pay for various social services.

The other governmental funds of the County account for grants and other resources whose use is restricted or assigned to a particular purpose.

Proprietary Funds Proprietary funds focus on the determination of operating income, changes in net position, financial position and cash flows and are classified as enterprise or internal service.

Enterprise Funds Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The County's major enterprise funds are:

Medina County Sewer District Fund The Medina County sewer district fund accounts for sanitary sewer services provided to County individual and commercial users in various parts of Medina County.

Medina County Water District Fund The Medina County water district fund accounts for distribution of treated water to individual and commercial users in various parts of Medina County.

Solid Waste Management Fund The solid waste management fund accounts for revenues generated from the charges for use of the central processing facility for disposal of waste materials. County waste is directed to the facility where recyclables are recovered from the waste stream.

Internal Service Funds The internal service funds accounts for the financing of services provided by one department or agency to other departments or agencies of the County on a cost reimbursement basis. The County's internal service funds accounts for the self-insurance program which provides medical, surgical, prescription drug, and dental benefits to County employees and workers' compensation.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the County's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The County's only fiduciary funds are agency funds which are used to collect and distribute taxes and various State and Federal monies to local governments within the County and to account for funds of the County General Health District, the Soil and Water Conservation District, the Emergency Planning Commission, Family First Council, Emergency Management Agency and the County Park District.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the County are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all the proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fund net position. The statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for the proprietary funds and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within sixty days of year end.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, property transfer fees, grants, entitlements and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the sale occurs. Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 7). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: sales and use tax (See Note 8), interest, federal and state grants and subsidies, state-levied locally shared taxes (including motor vehicle license fees and gasoline taxes), fees and rentals.

Deferred Outflows/Inflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the County, deferred outflows of resources include a deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the County, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2013, but which were levied to finance 2014 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the County, unavailable revenue includes delinquent property taxes, special assessments, charges for services, fines and forfeitures, and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the County Commissioners may appropriate.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

The appropriation resolution is the Commissioners' authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of budgetary control is at the object level within each department for all funds. Any budgetary modifications at this level may only be made by resolution of the County Commissioners.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the County Auditor. The amounts reported as the original and final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate that was in effect at the time the original and final appropriations were passed by the County Commissioners.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations may not exceed estimated resources by fund. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Commissioners during the year, including all supplemental appropriations.

Cash and Investments

To improve cash management, cash received by the County is pooled. Cash balances, except cash held by a fiscal agent or held in segregated accounts are pooled and invested in short-term investments in order to provide improved cash management. Individual fund integrity is maintained through the County's records. Interest in the pool is presented as "equity in pooled cash and cash equivalents".

The general fund made an advance to various special revenue and enterprise funds to eliminate the funds' negative cash balances. These various funds have an interfund payable for the amount of the advance received from the general fund and the general fund has an interfund receivable for the same amount on the balance sheet.

Cash held for the County by a financial institution for the payment of debt principal and interest as they come due is included on the financial statements as "cash and cash equivalents with fiscal agents". The County has segregated bank accounts for monies held separate from the County's central bank account. These amounts are presented as "cash and cash equivalents in segregated accounts" since they are not required to be deposited into the County treasury.

The County utilizes a jointly governed organization (NEON) to service mentally disabled and developmentally disabled residents within the County. The balances in these accounts are presented on the balance sheet as "cash and cash equivalents with fiscal agents" and represents monies held for the County.

During 2013, investments were limited to federal farm credit bank notes, federal home loan bank notes, corporate notes, and municipal notes. Investments are reported at fair value which is based on quoted market prices.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. Interest revenue credited to the general fund during 2013 amounted to \$239,514 which includes \$226,848 assigned from other County funds.

Investments with original maturities of three months or less at the time of purchase and investments of the cash management pool are presented on the financial statements as cash equivalents.

Restricted Assets

Assets are reported as restricted when limitations on their use change in nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws or other governments or imposed by law through constitutional provisions. Restricted assets in the general fund represent money set aside for unclaimed monies.

Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption.

Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. These assets generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and are updated for additions and retirements during the year. The County was able to estimate the historical cost for the initial reporting of infrastructure by backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their fair market values as of the date received. The County maintains a capitalization threshold of \$5,000 with the exemption of land as land is listed regardless of cost. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of proprietary fund capital assets is also capitalized.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacements. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings (includes Sewer and Water plants)	50 years
Improvements, Other than Buildings	50 years
Equipment	3 - 20 years
Bridges	50 years
Roads	5 - 30 years
Culverts	50 years
Signals	15 years
Water Lines	50 years
Sewer Lines	50 years

The County's infrastructure consists of bridges, roads, culverts, signals, water and sewer lines and includes infrastructure acquired prior to December 31, 1980.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, contributions of resources restricted to capital acquisition and construction and tap-in fees to the extent they exceed the cost of connection to the system.

Interfund Balances

On fund financial statements, outstanding interfund loans and unpaid amounts for interfund services are receivables and payables resulting from short-term interfund loans are reported as "interfund receivables/payables." These amounts are eliminated in the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the County will compensate the employees for the benefits through paid time off or some other means. The County records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination method. An accrual for sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the County's past experience of making termination payments.

The entire compensated absences liability is reported on the governmental-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employee who has accumulated unpaid leave is paid.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and long-term loans are recognized as a liability on the governmental fund financial statements when due.

Net Position

Net position represents the difference between all other elements of the statement of net position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes included resources which will be used for general purposes, public safety, public works, and health and human services.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by the highest level formal action (resolution) of the County Commissioners. Those committed amounts cannot be used for any other purpose unless the County Commissioners remove or change the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. These amounts are assigned by the Commissioners. In the general fund, assigned amounts represent intended uses established by the County Commissioners or a County official delegated that authority by County Resolution, or by State Statute. State statute authorizes the County Auditor to assign fund balances for purchases on order provided such amounts have been lawfully appropriated.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are for county sewer, county water, solid waste recycling and self-insurance programs. Operating expenses are necessary costs that have been incurred in order to provide the goods or services that are the primary activity of the funds. Any revenues and expenses not meeting the definitions of operating are reported as non-operating.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental activities are eliminated on the government-wide financial statements.

Internal events that are allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Bond Premium

On the government-wide financial statements, bond premiums are deferred and amortized for the term of the bonds using the straight-line method. Bond premiums are presented as an increase of the face amount of the bonds payable. On governmental fund statements, bond premiums are receipted in the year the bonds are issued.

Deferred Charge on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the effective interest method and is presented as deferred outflows of resources on the statement of net position.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 – Change in Accounting Principle and Restatement of Prior Year Net Position

Change in Accounting Principle

For 2013, the County has implemented Governmental Accounting Standard Board (GASB) Statement No. 61, “The Financial Reporting Entity: Omnibus, an amendment of GASB Statements No. 14 and No. 34.” GASB Statement No. 61 modifies existing requirements for the assessment of potential component units in determining what should be included in the financial reporting entity, the display of component units’ presentation, and certain disclosure requirements. The implementation of this statement did not result in any change in the County’s financial statements.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

Restatement of Prior Year Net Position

During 2013, it was determined that the MRF Equipment OWDA loan was reported in the sewer district fund rather than the solid waste management fund. This restatement had the following effect on beginning business-type net position at December 31, 2012:

	Medina County Sewer District	Medina County Water District	Solid Waste Management	Total
Net Position at December 31, 2012	\$115,231,734	\$61,797,564	\$9,477,806	\$186,507,104
OWDA MRF Equipment Loan	938,860	0	(938,860)	0
Restated Net Position at December 31, 2012	<u>\$116,170,594</u>	<u>\$61,797,564</u>	<u>\$8,538,946</u>	<u>\$186,507,104</u>

Note 4 – Accountability and Compliance

Accountability

The County had negative cash fund balances in the following funds indicating that revenue from other sources were used to pay obligations of these funds, contrary to Ohio Revised Code Section 5705.10:

Special Revenue Funds:

Community Development Block Grant	(\$5,007)
Community Oriented Policing Services	(289)
Demolition	(5,100)
Ohio Criminal Justice Service	(23,312)
Safe Communities	(8,674)
Title VI-D	(26,564)
Transportation Program	(271,975)
Victim Assistance	(10,158)

Debt Service Fund:

Special Assessment Bond Retirement	(34,176)
------------------------------------	----------

Capital Projects Fund:

County Capital Improvements	(209,000)
-----------------------------	-----------

Internal Service Fund:

Self Insurance Healthcare	(541,774)
---------------------------	-----------

These cash deficits are a result of monies being expended with the expectation that the County will be reimbursed during 2014.

Although these cash deficits were not corrected by year end, management has indicated that cash will be closely monitored to prevent future violations.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

Fund Balance and Net Position Deficits

The following funds had a deficit fund balance or net position as of December 31, 2013:

<i>Special Revenue Funds:</i>	
Community Development Block Grant	(\$60,010)
Demolition	(2,100)
Ohio Criminal Justice Service	(31,507)
Title VI-D	(28,042)
Transportation Program	(132,352)
<i>Debt Service Fund:</i>	
Special Assessment Bond Retirement	(461,322)
<i>Capital Projects Fund:</i>	
County Capital Improvements	(253,814)
<i>Internal Service Fund:</i>	
Self Insurance Healthcare	(1,322,388)

The deficits resulted from the recognition of accrued liabilities. The general fund is responsible to cover deficit fund balances by means of a transfer. However, this is done when cash is needed rather than when accruals occur.

At December 31, 2013, the employee health insurance internal service fund had a deficit net position, which management is currently analyzing the operations of this fund to determine appropriate action to alleviate the deficit.

Compliance

Contrary to Ohio Revised Code Section 5705.39, the Medina County Water District had original and final appropriations in excess of certified available resources by \$3,192,063 and \$3,197,224, respectively.

Contrary to Ohio Revised Code Section 5705.41(B), the State Issue II fund had expenditures plus encumbrances in excess of final appropriations in capital outlay by \$260,798.

Although the budgetary violations were not corrected by year end, management has indicated that these will be closely monitored to ensure no future violations.

Note 5 – Budgetary Basis of Accounting

While reporting financial position, results of operations and changes in fund balance/net position on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statements of Revenues, Expenditures and Changes in Fund Balances- Budget (Non-GAAP Basis) and Actual are presented in the basic financial statements for the general fund and major special revenue funds.

The major differences between the budget basis and the GAAP basis are:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Investments are reported at fair value (GAAP) rather than cost (budget).
3. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
4. Outstanding year end encumbrances are treated as expenditures (budget) rather than as restricted, committed or assigned fund balance (GAAP).

Adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund and major special revenue funds are as follows:

	Net Change in Fund Balance			
	General	Achievement Center	School Sales Tax	Public Assistance
GAAP Basis	\$918,982	\$3,334,394	\$115,994	(\$3,791)
Net Adjustment for Revenue Accruals	(818,693)	131,908	(40,855)	2,727
Beginning Fair Value Adjustment for Investments	50,331	0	0	0
Ending Fair Value Adjustment for Investments	41,678	0	0	0
Net Adjustment for Expenditure Accruals	(140,726)	140,469	83,152	(2,364)
Encumbrances	(811,453)	(455,693)	0	(185,851)
Budget Basis	<u>(\$759,881)</u>	<u>\$3,151,078</u>	<u>\$158,291</u>	<u>(\$189,279)</u>

Note 6 – Deposits and Investments

Monies held by the County are classified by State Statute into two categories, active and inactive. Active monies are public monies determined to be necessary to meet current demand upon the County treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Protection of the County's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

Monies held by the County, which are not considered active, are classified as inactive. Inactive monies may be deposited or invested in the following securities provided a written investment policy has been filed with the Ohio Auditor of State:

1. United States Treasury Bills, bonds, notes, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to payment of principal and interest by the United States, or any book entry, zero-coupon United States treasury security that is a direct obligation of the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bond and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the County;
5. Time certificates of deposits or savings or deposit accounts, including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that these investments are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio);
8. Securities lending agreements in which the County lends securities and the eligible institution agrees to simultaneously exchange similar securities or cash, equal value for equal value;
9. Up to twenty-five percent of the County's average portfolio in either of the following:
 - a. Commercial paper notes in entities incorporated under the laws of Ohio or any other State that have assets exceeding five hundred million dollars rated at the time of purchase, which are rated in the highest qualification established by two nationally recognized standard rating services, which do not exceed ten percent of the value of the outstanding commercial paper of the issuing corporation and which mature within 270 days after purchase;
 - b. Bankers acceptances eligible for purchase by the Federal Reserve System and which mature within 180 days after purchase.
10. Fifteen percent of the County's average portfolio in notes issued by U.S. corporations or by depository institutions that are doing business under authority granted by the U.S. provided that the notes are rated in the second highest or higher category by at least two nationally recognized standard rating services at the time of purchase and the notes mature within two years from the date of purchase.

11. No-load money market mutual funds rated in the highest category at the time of purchase by at least one nationally recognized standard rating service consisting exclusively of obligations guaranteed by the United States, securities issued by a federal government agency or instrumentality, and/or highly rated commercial paper.
12. One percent of the County's average portfolio in debt interests rated at the time of purchase in the three highest categories by two nationally recognized standard rating services and issued by foreign nations diplomatically recognized by the United States government.

Reverse repurchase agreements, investments in derivatives, and investments in stripped principal or interest obligations that are not issued or guaranteed by the United States are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Other than corporate notes, commercial paper, and bankers acceptances, an investment must mature within five years from the date of settlement unless matched to a specific obligation or debt of the County. Investments must be purchased with the expectation that they will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial credit risk is the risk that in the event of bank failure, the County's deposits may not be returned to it. Protection of the County's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution, by surety company bonds or by a single collateral pool established by the financial institution. In accordance with Chapter 135 of the Ohio Revised Code, any public depository receiving deposits pursuant to an award of County funds shall be required to pledge security for repayment of all public monies. The County has no investment policy dealing with deposit custodial risk beyond the requirement in State statute that requires securities purchased pursuant to this division shall be delivered into the custody of the Treasurer or an agent designated by the Treasurer.

At year-end, the carrying amount of the County's deposits was \$81,026,957 and the bank balance was \$83,273,326. Of the uninsured bank balance of \$49,968,768, all was collateralized with securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

At December 31, 2013, the County's Achievement Center Special Revenue Fund had a cash balance of \$1,079,618 with NEON, a jointly governed organization (See Note 20). The money is held by NEON in a pooled account which is representative of numerous entities and therefore cannot be classified by risk under GASB Statement 40. Any risk associated with the cash and cash equivalents and investments with NEON as a whole may be obtained from their audit report. To obtain financial information, write to the North East Ohio Network, 5121 Mahoning Avenue, Suite 102, Austintown, Ohio 44515-1895.

Investments

Investments are reported at fair value. As of December 31, 2013, the County had the following investments:

Investment Type	Maturity in Years		Total
	Less than 1	3-4	
Federal Farm Credit Bank Notes	\$1,997,700	\$1,999,400	\$3,997,100
Federal Home Loan Bank Notes	4,000,000	0	4,000,000
Corporate Notes	501,921	0	501,921
Municipal Notes	1,916,630	0	1,916,630
Total	\$8,416,251	\$1,999,400	\$10,415,651

Interest Rate Risk As a means of limiting its exposure to fair value losses caused by rising interest rates, the County's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the County's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

Custodial Credit Risk For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County has no investment policy dealing with investment custodial credit risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Credit Risk The Federal Farm Credit Bank Notes and Federal Home Loan Bank Notes carry a rating of AAA by Standard & Poor's. The County has no investment policy that addresses credit risk.

Concentration of Credit Risk The County places no limit on the amount it may invest in any one issuer. The following is the County's allocation at December 31, 2013:

Investment Type	Percentage
Federal Farm Credit Bank Notes	38.38 %
Federal Home Loan Bank Notes	38.40
Municipal Notes	18.40

Note 7 – Property Taxes

Property taxes include amounts levied against all real and public utility property located in the County. Property tax revenue received during 2013 for real and public utility property taxes represents collections of 2012 taxes.

2013 real property taxes were levied after October 1, 2013, on the assessed value as of January 1, 2013, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2013 real property taxes are collected in and intended to finance 2014.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2013 public utility property taxes which became a lien December 31, 2012, are levied after October 1, 2013, and are collected in 2014 with real property taxes.

The full tax rate for all County operations for the year ended December 31, 2013, was \$7.07 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2013 property tax receipts were based are as follows:

<u>Category</u>	<u>Assessed Value</u>
Real Estate	
Residential/Agricultural	\$3,723,990,570
Other Real Estate	736,871,530
Tangible Personal Property	
Public Utility	<u>99,869,580</u>
Total Valuation	<u><u>\$4,560,731,680</u></u>

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portion of the taxes collected. Collections of the taxes and remittance of them to the taxing districts are accounted for in various agency funds of the County. Property taxes receivable represents real and tangible personal property taxes, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2013, and for which there is an enforceable claim. In governmental funds, the portion of the receivable not levied to finance 2013 operations is offset to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

Note 8 – Sales and Use Tax

In 1971, the County Commissioners by resolution imposed a one-half of one percent tax on all retail sales, except sales of motor vehicles, made in the County, and on the storage, use, or consumption in the County of tangible personal property, including automobiles, not subject to the sales tax. During 2007, the voters of the County passed an additional one-half percent tax to be used for capital improvements at all school districts within the County. Collection began in October 2007. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies to the Office of Budget and Management the amount of the tax to be returned to the County. The Tax Commissioner's certification must be made within forty-five days after the end of each month. The Office of Budget and Management then has five days in which to draw the warrant payable to the County.

Proceeds of the sales tax are credited to the general and achievement center funds. Proceeds of the school sales tax are credited to the school sales tax special revenue fund. A receivable is recognized at year end for amounts that will be received from sales which occurred during 2013.

Note 9 – Receivables

Receivables at December 31, 2013, consisted of property taxes, sales taxes, interest, loans, special assessments, accounts (billings for user charged services, including unbilled utility services) and intergovernmental receivables arising from grants, entitlements and shared revenues. All receivables are considered collectible in full, including accounts receivable which, if delinquent, may be certified and collected as special assessment, subject to foreclosure for nonpayment. All receivables except property taxes, loans and special assessments are expected to be collected within one year. Property taxes, although ultimately collectable, include some portion of delinquencies that will not be collected within one year.

Special assessments expected to be collected in more than one year amount to \$3,866,287 in the special assessment bond retirement fund. The amount of delinquent special assessments outstanding at year-end is \$263,851.

Loans expected to be collected in more than one year amount to \$143,141 in the revolving loan program special revenue fund.

A summary of the principal items of intergovernmental receivables follows:

<i>Governmental Activities:</i>	
Homestead and Rollback	\$1,954,684
Motor Vehicle License Registration	1,226,522
Achievement Center Grants and Subsidies	1,097,912

Demolition Program Grants and Subsidies	5,100
<i>Total Governmental Activities</i>	<u><u>\$9,213,645</u></u>

Receivables and payables on the County's financial statements are recorded to the extent that the amounts are determined significant and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables,

Medina County, Ohio

collectability. Using this criterion, the County has elected not to record child support arrearages within the special revenue and agency fund types. These amounts, while potentially significant, are not considered measurable, and because collections are often significantly in arrears, the County is unable to determine a reasonable value.

Note 10 – Federal Food Stamp Program

The County's Department of Job and Family Services (Welfare) distributes, through contracting issuance centers, federal food stamps to entitled recipients within Medina County. The receipt and issuance of these stamps have the characteristics of federal "grants"; however, Job and Family Services merely acts in an intermediary capacity. Therefore, the inventory value of these stamps is not reflected in the accompanying financial statements as the only economic interest related to these stamps rests with the ultimate recipient. No activity was reported in 2013 due to the installation of an automated system.

Note 12 – Defined Benefit Pension Plans

Ohio Public Employees Retirement System

Plan Description – The County participates in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the Member-Directed Plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan. Under the Combined Plan, OPERS invests employer contributions to provide a formula retirement benefit similar in nature to, but less than, the Traditional Pension Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the Member-Directed Plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost-of-living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/investments/cafr.shtml>, writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy – The Ohio Revised Code provides statutory authority for member and employer contributions and currently limits the employer contribution to a rate not to exceed 14 percent of covered payroll for state and local employer units and 18.1 percent of covered payroll for law enforcement and public safety employer units. Member contribution rates, as set forth in the Ohio Revised Code, are not to exceed 10 percent of covered payroll for members in State and local divisions. The Ohio Revised Code authorizes OPERS to calculate member contribution rates for public safety employees and limits the law enforcement rate to the public safety rate plus an additional percentage not to exceed two percent. For the year ended December 31, 2013, members in state and local divisions contributed 10 percent of covered payroll while public safety and law enforcement members contributed 12 percent and 12.6 percent, respectively. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the Traditional Pension Plan. For 2013, member and employer contribution rates were consistent across all three plans.

The County's 2013 contribution rate was 14 percent, except for those plan members in law enforcement or public safety, for whom the County's contribution was 18.1 percent of covered payroll. The portion of employer contributions used to fund pension benefits is net of post-employment health care benefits. For 2013, the portion of employer contribution allocated to health care was 1 percent for members in the Traditional Plan and the Combined Plan. Effective January 1, 2014, the portion of employer contributions allocated to health care increased to 2 percent. Employer contribution rates are actuarially determined.

The County's required contributions for pension obligations to the Traditional Pension and Combined Plans for the years ended December 31, 2013, 2012, and 2011 were \$6,655,548, \$5,102,107, and \$5,117,223, respectively. For 2013, 97.82 percent has been contributed with the balance being reported as an intergovernmental payable. The full amount has been contributed for 2012 and 2011. Contributions to the Member-Directed Plan for 2013 were \$138,537 made by the County and \$98,955 made by plan members.

State Teachers Retirement System

Plan Description – The County participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 20.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Ohio Revised Code Chapter 3307.

A DB or Combined Plan member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board. For the fiscal year ended June 30, 2013, plan members were required to contribute 11 percent of their annual covered salaries. The County is required to contribute 14 percent; 13 percent is the portion used to fund pension obligations.

The County's required contributions for pension obligations to STRS Ohio for the years ended December 31, 2013, 2012, and 2011 were \$140,534, \$132,372, and \$155,901, respectively. For 2013, 75.59 percent has been contributed with the balance being reported as an intergovernmental payable. The full amount has been contributed for 2012 and 2011. There were no contributions made by the County and plan members to the DC and Combined Plans for fiscal year 2013.

Note 13 – Postemployment Benefits

Ohio Public Employees Retirement System

Plan Description – Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan – a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

OPERS maintains a cost-sharing multiple-employer defined benefit post-employment health care plan for qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage. The plan includes a medical plan, prescription drug program and Medicare Part B premium reimbursement.

In order to qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The Ohio Revised Code permits, but does not mandate, OPERS to provide health care benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report which may be obtained by visiting <https://www.opers.org/investments/cafr.shtml>, writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy – The post-employment health care plan was established under, and is administrated in accordance with, Internal Revenue Code 401(h). The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through contributions to OPERS. A portion of each employer’s contribution to OPERS is set aside for the funding of post-retirement health care.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2013, state and local employers contributed at a rate of 14 percent of covered payroll, and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code.

Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of post-employment health care benefits. For 2013, the portion of employer contributions allocated to health care for members in the Traditional Plan and the Combined Plan was 1 percent. Effective January 1, 2014, the portion of employer contributions allocated to health care was raised to 2 percent for both plans, as recommended by the OPERS Actuary.

The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided, by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. Active members do not make contributions to the post-employment health care plan.

The County’s contributions allocated to fund post-employment health care benefits for the years ended December 31, 2013, 2012, and 2011 were \$499,653, \$1,979,558, and \$1,985,372, respectively. For 2013, 97.82 percent has been contributed with the balance being reported as an intergovernmental payable. The full amount has been contributed for 2012 and 2011.

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under SB 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4 percent of the employer contributions toward the health care fund after the end of the transition period.

State Teachers Retirement System

Plan Description – The County contributes to the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians’ fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2013, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to post-employment health care. The County’s contributions for health care for the years ended December 31, 2013, 2012, and 2011 were \$10,810, \$10,182, and \$11,992, respectively. For 2013, 75.59 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal year 2012 and 2011.

Note 14 – Risk Management

Property and Liability

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During 2013, the County contracted with County Risk Sharing Authority, Inc. (CORSA), a risk sharing pool (See Note 21), for liability and property insurance, medical/professional liability at the County Home and Jail, and coverage of foster parents. Coverage provided by CORSA is as follows:

	<u>Limits of Coverage</u>
General Liability	\$1,000,000
Law Enforcement Professional Liability	1,000,000
Automobile Liability	1,000,000
Errors and Omissions	1,000,000
Excess Liability	5,000,000
Property	302,055,365
Equipment Breakdown	100,000,000
Crime	1,000,000
County Home Medical Liability	2,000,000
Jail Medical Liability	1,000,000
Foster Parents	6,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

On December 1, 2008, the County was approved for self-insured status by the Bureau of Workers' Compensation and began to administer its own workers' compensation program (the program). The County has established a workers' compensation internal service fund to account for assets set aside for claim settlements and related liabilities associated with the program. Liabilities of the fund are reported when an employee injury has occurred, it is probable that a claim will be filed under the program, and the amount of the claim can be reasonably estimated. The County utilizes the services of Sedgwick Claims Management Services, the third party administrator, to review, process, and pay employee claims. The County also maintains excess insurance coverage which would pay the portion of claims that exceed \$500,000 per occurrence for all employees.

The claims liability of \$45,167 reported in the fund at December 31, 2013, is based on an estimate by the County Auditor's Office and Sedgwick Claims Management Services. The claims liability reported in the workers' compensation internal service fund at December 31, 2013, is based on the requirements of GASB statement No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Changes in the fund's claims liability amount for 2012 and 2013 were:

Year	Balance at Beginning of Year	Current Year Claims	Claim Payments	Balance at End of Year
2012	\$36,376	\$144,034	\$162,478	\$17,932
2013	17,932	174,577	147,342	45,167

Insurance Benefits

The County established a limited risk management program in 1987 for employee health insurance benefits. A third party administrator, Medical Mutual of Ohio, reviews and pays all claims on behalf of the County. During 2013, depending on the type of coverage the employee selects, the monthly premium paid by the County ranged from \$245 to \$431 for single coverage, from \$595 to \$1,000 for single plus one coverage, and from \$945 to \$1,568 for family coverage. Employee contributions ranged from \$13 to \$47 for single coverage, from \$31 to \$111 for single plus one coverage, and from \$50 to \$174 for family coverage. An excess coverage insurance policy covers individual claims in excess of \$175,000 and aggregate claims in excess of \$7,909,892.

The liability for unpaid claims costs of \$777,865 reported in the fund at December 31, 2013, was estimated by the third party administrator and is based on the requirements of GASB No. 30 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Interfund premiums are based primarily upon the insured funds' claims experience.

Changes in the fund's claims liability amount in 2012 and 2013 were:

Year	Balance at Beginning of Year	Current Year Claims	Claims Payments	Balance at End of Year
2012	\$1,377,329	\$10,460,681	\$9,930,788	\$1,907,222
2013	1,907,222	7,547,505	8,676,862	777,865

Note 15 – Compensated Absences

County employees earn vacation and sick leave at varying rates depending on length of service and department policy. All accumulated, unused vacation time is paid upon separation if the employee has at least one year of service with the County. Vacation time may not exceed two years' accrual without the approval of management. Upon retirement or death, unused sick leave up to a maximum of 960 hours is paid at varying rates depending on length of service.

Special assessment debt will be paid from the proceeds of special assessments levied against benefited property owners. In the event that a property owner would fail to pay the assessment, payment would be made by the County. General obligation bonds and OWDA loans reported in the enterprise funds will be paid from charges for services revenue in the enterprise funds. General obligation bonds will be retired from the general obligation debt service fund, using general property tax revenue.

All bonded debt is a general obligation supported by the full faith and credit of the County. OWDA and OPWC loans grant neither security nor property interest to OWDA or OPWC in any property of the County, and do not pledge the general credit of the County.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

The County has pledged future water revenues net of expenditures to repay OWDA and OPWC loans. These loans are payable solely from net revenues and are payable through 2035. Annual principal and interest payments on these loans are expected to require 129 percent of net revenues and 61 percent of total revenues. The total principal and interest remaining to be paid on the loans is \$48,958,652. Principal and interest paid for the current year were \$4,868,535, total net revenues were \$3,786,376, and total revenues were \$7,919,823.

The County has pledged sewer revenues net of expenditures to repay OWDA and OPWC loans. All the debt is payable solely from net revenues and is payable through 2029. Annual principal and interest payments on the OWDA loans are expected to require 196 percent of net revenues and 33 percent of total revenues. The total principal and interest remaining to be paid on the debt is \$39,590,102. Principal and interest paid for the current year were \$4,705,217, total net revenues were \$2,472,043, and total revenues were \$14,393,607.

The County has pledged future solid waste revenues net of expenditures to repay OWDA loans. All the debt is payable solely from net revenues and is payable through 2014. Annual principal and interest payments on the OWDA loans are expected to require 66 percent of net revenues and 13 percent of total revenues. The total principal and interest remaining to be paid on the debt is \$455,080. Principal and interest paid for the current year were \$1,069,050, total net revenues were \$1,631,773, and total revenues were \$8,231,460.

Compensated absences will be paid from the fund from which the employee is paid. These funds include the general, achievement center, ADAMH, auto and gas, child support enforcement agency, computer, community safety awareness, dog and kennel, DRETAC, drug enforcement, office for older adults, Ohio criminal justice service, public assistance, real estate, safe communities, title VI-D, transportation program, workforce development, sewer, water, and solid waste funds.

During 2009, the County issued \$4,865,000 in general obligation refunding bonds at interest rates varying from 2 percent to 5 percent. Proceeds were used to refund \$3,670,000 of the outstanding county facilities improvements, prosecutor's renovations, and department of human services bonds to take advantage of lower interest rates. On December 31, 2013, \$2,310,000 of the defeased bonds are still outstanding. The bonds were issued at a \$53,505 premium and issuance costs were \$116,035.

The term bonds for the general obligation refunding bonds were issued for a 20 year period with a final maturity at December 1, 2029. The bonds are being retired from the general obligation bond retirement fund.

The term portions of the 2009 general obligation refunding bonds are subject to mandatory redemption requirements. The term bonds maturing on December 1, 2020, 2022, 2024, and 2029, respectively, will be subject to mandatory redemption, pursuant to mandatory sinking fund requirements at a redemption price of 100 percent of the principal amount redeemed plus interest accrued to the redemption date, on December 1 in each of the years and in the principal amounts set forth as follows:

The County has entered into contractual agreements for construction loans from the Ohio Water Development Authority (OWDA). Under the terms of these agreements, the OWDA will reimburse, advance or directly pay the construction costs of approved projects. The OWDA will capitalize administrative costs and construction interest and then add them to the total amount of the final loan.

Medina County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2013

Lines of credit have been established with the Ohio Water Development Authority in the amount of \$7,053,801 for various water, sewer, and solid waste projects. Since the loan repayment schedule has not yet been finalized, a repayment schedule is not included in the schedule of debt service requirements. Until a final repayment schedule is available, the County is paying based on estimates.

The balance of these loans is as follows:

	Balance December 31, 2013	Lines of Credit

The Ohio Revised Code provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors shall never exceed one percent of the total assessed valuation of the County. The Code further provides that the total voted and unvoted net debt of the County less the same exempt debt shall never exceed a sum equal to three percent of the first \$100,000,000 of the assessed valuation, plus one and one-half percent of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000, plus two and one-half percent of such valuation in excess of \$300,000,000.

The effects of the debt limitations described above at December 31, 2013, are an overall debt margin of \$107,337,590 and a margin on unvoted debt of \$40,426,615.

Note 17 – Conduit Debt Obligations

From time to time, the County has issued Healthcare Revenue Bonds to provide financial assistance to health care organizations and Economic Development Bonds for the private-sector entities for the acquisition and construction of facilities deemed to be in the public interest. Servicing these debts is the sole obligation of the entities which received the debt proceeds. Neither the County, the State, nor any political subdivision thereof, is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2013, \$202,415,000 of these bonds had been issued. Of the \$93,255,000 issued after December 31, 1995, \$58,540,000 was still outstanding.

Note 18 – Contingent Liabilities

Grants

The County has received Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the County Commissioners believe such disallowances, if any, will be immaterial.

Litigation

Several claims and lawsuits are pending against the County. The amount of the liability, if any, cannot be reasonably estimated at this time.

Note 19 – Joint Venture

The County participates in the Medina County Emergency Management Agency which is a statutorily created political subdivision of the State. The Agency is a joint venture among the County, three cities, seventeen townships and six villages all located wholly within the County. Of the nine member board, the County appoints four members. The degree of control exercised by any participating government is limited to its representation on the board. The Agency establishes a program for emergency management that includes development of an emergency operations plan and is applicable to all political subdivisions that have entered into the County-wide agreement. Continued existence of the Agency is dependent on the County's continued participation; however, the County does not have an equity interest in the Agency. The Agency is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit to or burden on the County. In 2013, the County contributed \$63,675 to the Agency. Complete financial statements can be obtained from the Emergency Management Agency, Medina, Ohio.

Note 20 – Jointly Governed Organizations

Northeast Ohio Areawide Coordinating Agency (NOACA)

Northeast Ohio Areawide Coordinating Agency (NOACA) was created by the County Commissioners of Cuyahoga, Geauga, Lake, Lorain and Medina Counties and is responsible for transportation and environmental planning in the five County region. NOACA is controlled by 45 members including the three Medina County Commissioners. The Board exercises total control over the operation of the agency including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the board. During 2013, the County contributed \$58,633 to NOACA.

Medina County Family First Council

The mission of the Medina County Family First Council (Council) is dedicated to strengthening the Medina County community by coordinating and supporting health, human, and social services. The Council is made up of approximately 42 individuals from various organizations including 10 from the County. The Council's Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. During 2013, the County did not contribute to the Council.

North East Ohio Network (NEON)

NEON is a council of governments formed to provide a regional effort in administering, managing and operating programs for certain individuals with developmental disabilities. Participating counties include Medina, Trumbull, Columbiana, Geauga, Lake, Mahoning, Portage, Ashtabula, Lorain, Summit, Wayne, Richland and Stark Counties. NEON operation is controlled by their board which is comprised of the superintendents of Developmental Disabilities of each participating County. NEON's Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. During 2013, NEON received sufficient revenues from State grant monies and no additional funds were needed from the participants. (See Note 6 for information on the County's cash balance on hand at NEON).

Medina County Council of Governments on Drug Enforcement

The Medina County Council of Governments on Drug Enforcement was formed to provide the necessary planning, cooperation, direction, and administration to help combat drug abuse and illegal drug trafficking and related crimes within the County. The Council is comprised of multiple levels of government within the County. The Council's Board exercises total control over the operations of the organization including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the Board. The governing board consists of two County commissioners, one representative from the cities of Brunswick, Medina, and Wadsworth, one village representative chosen by a caucus of the villages, and three township representatives chosen by a caucus of the townships. The governing board's duties are to adopt and amend bylaws, propose and initiate studies and polices, resolve questions, make an annual report, review and amend the Council's budget, and approve the employment and termination of the Council's staff. The Council also has an operating board, which consists of the County sheriff, the chiefs of police from the cities of Brunswick, Medina, and Wadsworth, one village chief of police chosen by a caucus of all village chiefs of police, and two township chiefs of police chosen by a caucus of all township chiefs of police. The operating board's duties are to approve studies and plans for activities related to the Council, handle routine matters and expenditures within the authorized budget, submit minutes of its proceedings to the governing board, appoint special committees, propose a budget to the governing board, submit recommendations to employ or terminate staff to the governing board, and handle disciplinary matters. During 2013, the County did not contribute any funding to the Council.

Note 21 – Risk Sharing Pool

The County Risk Sharing Authority, Incorporated, (CORSA) is a risk sharing pool made up of 65 counties in Ohio. CORSA was formed as an Ohio nonprofit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverage provided by CORSA. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of CORSA are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured

Medina County, Ohio

For the Year Ended December 31, 2013

by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County does not have an equity interest in CORSA. The County's payment for insurance to CORSA in 2013 was \$528,244.

Note 22 – Related Organizations

Medina County Library District

The County Commissioners are responsible for appointing a voting majority of the Medina County Library District Board; however, the County cannot influence the Library's operation nor does the Library represent a potential financial benefit or burden on the County. The County serves in a ministerial capacity as the taxing authority for the Library. Once the Library determines to present a levy to the voters, including the determination of its rate and duration, the County must place the levy on the ballot. The Library may issue debt and determines its own budget. The Library did not receive any funding from the County during 2013.

Medina Metropolitan Housing Authority

The Medina Metropolitan Housing Authority (“MMHA”) is a legally separate body politic. The majority of the MMHA board is appointed by Medina County. The MMHA board is composed of five representatives who include: one member appointed by the Medina County Court of Common Pleas Judge; one member appointed by the Medina County Probate Court Judge; one member appointed by the Medina County Commissioners; and two members appointed by the Mayor of the City of Brunswick. The County is not able to impose its will on the MMHA and no financial benefit and/or burden relationship exists. The MMHA is responsible for approving its own budget, appointing personnel and accounting and finance related activities. The general purpose of the MMHA is to provide decent, safe, and sanitary housing for qualified persons within the County. During 2013, the County contributed \$10,000 to the operation of the MMHA.

Note 23 – Interfund Activity

Interfund Balances

During 2013, the general fund had an interfund receivable in the amount of \$1,673,563. This represents advances to offset deficit cash. The remaining balances of \$216,540 resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting records, and (3) payments between funds are made. All are expected to be paid within one year.

Interfund Transfers

Interfund transfers for the year ended December 31, 2013, consisted of the following:

Transfer To	Transfer From
	General Fund
Public Assistance	\$1,317,770
Other Governmental Funds	740,809
Total	\$2,058,579

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; to move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to provide additional resources for current operations or debt service; to repay another fund for that fund's share of project expenditures; and to return money to the fund from which it was originally provided once a project is completed.

Note 24 – Significant Commitments

Contractual Commitments

At December 31, 2013, the County had contractual commitments relating to the Old Courthouse clock tower restoration project with a total commitment of \$342,007, with \$90,565 remaining. The amount remaining on this contract was encumbered at year-end.

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

Governmental Funds:

General	\$811,453
Achievement Center	455,693
Public Assistance	185,851

Fund Descriptions - Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than amounts relating to major capital projects) that are legally restricted to expenditure for specified purposes.

Auto and Gas Tax Fund - To account for and report restricted revenue derived from motor vehicle licenses and gasoline tax and from interest. Expenditures are restricted by State law to County road and bridge repair and improvement programs.

Child Support Enforcement Fund - To account for and report receipts of Federal and State grants as well as the restricted revenue and expenditures incurred in the processing and enforcement of court ordered child support payments.

Children's Services Fund - To account for and report revenue from the State government and expenditures restricted for subsidized adoptions and for support of children in the custody of the County Department of Job and Family Services as prescribed under the State Children's Services Subsidy Grant Program.

Community Development Block Grant Fund - To account for and report restricted revenue from the Federal government and expenditures as prescribed under the Community Development Block Grant Program.

Community Housing Improvement Fund - To account for and report local, State and Federal restricted monies used for the assistance of qualified individuals.

Community Oriented Policing Services Fund - To account for and report restricted State monies collected and expensed for services through the Sheriff's Office.

Community Safety Awareness Fund - To account for and report local, State and Federal monies restricted to provide training to the community and youth professionals in the area.

Computer Fund - To account for and report charges for services and local, State and Federal restricted monies used to purchase and update computer equipment and programs.

County Home Fund - To account for and report restricted taxes and donation monies received for the operation of the County Home.

Courthouse Security Fund - To account for and report restricted charges for services and grant monies received to upgrade courtroom security.

Demolition Fund - To account for and report restricted grant monies received to demolish blighted properties within the County

Ditch Maintenance Fund - To account for and report restricted special assessment revenues which will be used to provide irrigation ditches and maintain existing ditches within the County.

Dog and Kennel Fund - To account for and report the sale of dog tags and fine collections restricted for the dog warden's operations.

(continued)

Fund Descriptions - Nonmajor Governmental Funds (continued)

Nonmajor Special Revenue Funds (continued)

DRETAC Fund - To account for and report five percent of all restricted certified delinquent real estate taxes, personal property taxes and assessments used for the purpose of collecting delinquent property taxes, personal property taxes and special assessments.

Drug Enforcement Fund - To account for and report the operations of the County's drug education and enforcement activities. Restricted revenue sources are a County-wide property tax levy and Federal and State grants.

Indigent Guardianship Fund - To account for and report the restricted charges for service used for the defense of persons unable to provide their own defense.

Juvenile Detention Center Donations Fund - To account for and report the restricted charges for services donated for use by the Detention Center for programs and expenditures.

Marriage License Fund - To account for and report the portion of marriage license restricted revenue used to provide financial assistance for the victims of domestic violence.

Office for Older Adults Fund - To account for and report restricted revenues from the Federal government, transfers from the general fund, and expenditures for the County's older adults as prescribed under the Title III-B and III-C grant programs.

Ohio Criminal Justice Service Fund - To account for and report restricted State monies used for specific equipment purchases for the Sheriff's Office.

Port Authority Fund - To account for and report the restricted intergovernmental monies used for revenue and expenditures incurred by the County Port Authority.

Real Estate Assessment Fund - To account for and report restricted State-mandated, County-wide real estate appraisals that are funded by charges to the County's political subdivisions.

Revolving Loan Program Fund - To account for and report restricted loans made by the County to local businesses and the subsequent repayment of these loans.

Safe Communities Fund - To account for and report local, State and Federal restricted monies used to provide information and awareness to the community.

ADAMH Board Fund - To account for and report restricted Federal and State grants and transfers from the general fund that are expended by the Alcohol, Drug and Mental Health Board, primarily to pay the costs of contracts with local mental health agencies that provide services to the public at large.

Shelter Care and Youth Services Fund - To account for and report restricted State grants used to fund programs to enable youth to remain in the community rather than being placed in State institutions. These programs include the New Horizons Shelter Care Home, foster care programs and others.

Sheriff Donations Fund - To account for and report the restricted monies donated for use by the Sheriff's Office and the Jail.

Title VI-D Fund - To account for and report restricted court costs expended on specific charges associated with the Juvenile Court.

Fund Descriptions – Fiduciary Funds

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations or other governments and are therefore not available to support the County's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations.

Agency Funds

Local Government-Shared Revenue Fund - To account for the collection of shared revenues within the State of Ohio that represent a portion of State income taxes, State sales taxes, and corporate franchise taxes. These monies are apportioned to various local governments on a monthly basis.

Property Taxes Fund - To account for the collection of property taxes, homestead and rollback, manufactured homes taxes and special assessments collected from real estate owners. These taxes and special assessments are periodically apportioned to local governments in the County, including Medina County itself.

County Levied Taxes Fund - To account for the collection of taxes levied on estates, cigarettes, and lodging within the County and the distribution of this tax to local governments and the State.

Courthouse Agency Fund - To account for the receipt and expenses of various court monies that do not run through the County's accounting system.

Emergency Management Fund - To account for the fund controlled by Disaster Services, as established by Section 5915.07, Revised Code, for which the County Auditor is fiscal agent. Money is received from a federal grant to be used for maintaining an emergency management services department.

Medina County General Health District Fund - To account for revenues and expenses for the Health District for which the County serves as fiscal agent.

Medina County Park District Fund - To account for the activities of the park board, which include the receipt of grant monies and or the acquisition, expansion and maintenance of County park land and park facilities.

Payroll Fund - To account for the net payroll, payroll taxes, social security/medicare, and other related payroll deductions accumulated from the governmental, proprietary, and fiduciary funds for distribution to employees, other governmental units and private organizations.

Recorder Housing Fund - To account for monies collected to pay for prisoner housing during their stay in the County jail system.

Child Support Enforcement Agency Fund - To account for the collection of alimony and child support payments and the distribution of these monies to the court-designated recipients.

Note: The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

The County's basic property tax rate may be increased only by a majority vote of the County's residents.

Real property tax rates for voted levies are reduced so that inflationary increases in value do not generate additional taxes.

Overlapping rates are those of local and county governments that apply to property owners within the County.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax was phased out beginning in 2006.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.

Note:

The County's current reporting system does not track delinquency tax collections by tax year. Outstanding delinquencies are tracked in total by the date the parcel is first certified delinquent. Penalties and interest are applied to the total outstanding delinquent balance. The presentation will be updated as new information becomes available.

(1) State reimbursement of rollback and homestead exemptions are included.

(2) Penalties and interest are included, since by Ohio law they become part of the tax obligation as assessment occurs.
