Dave Yost • Auditor of State

Board of Education
Perry Local School District
4325 Manchester Ave.
Perry, OH 44081

We have reviewed the *Independent Auditor's Report* of the Perry Local School District, Lake County, prepared by James G. Zupka, CPA, Inc., for the audit period July 1, 2012 through June 30, 2013. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Perry Local School District is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Dave Yost".

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
*GOVERNMENT AUDITING STANDARDS***

Board of Education
Perry Local School District
Perry, Ohio

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Perry Local School District, Lake County, Ohio, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Perry Local School District, Ohio's basic financial statements and have issued our report thereon dated October 23, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Perry Local School District, Ohio's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Perry Local School District, Ohio's internal control. Accordingly, we do not express an opinion on the effectiveness of the Perry Local School District, Ohio's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Perry Local School District, Ohio's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

This purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Perry Local School District, Ohio's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM;
REPORT ON INTERNAL CONTROL OVER COMPLIANCE;
AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY OMB CIRCULAR A-133**

Board of Education
Perry Local School District
Perry, Ohio

Report on Compliance for Each Major Federal Program

We have audited the Perry Local School District, Lake County, Ohio's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on the Perry Local School District, Ohio's major federal program for the year ended June 30, 2013. The Perry Local School District, Ohio's major federal program is identified in the Summary of Auditors' Results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the Perry Local School District, Ohio's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Perry Local School District, Ohio's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the Perry Local School District, Ohio's compliance.

Opinion on Each Major Federal Program

In our opinion, the Perry Local School District, Ohio complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of the Perry Local School District, Ohio, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Perry Local School District, Ohio's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Perry Local School District, Ohio's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Perry Local School District, Ohio, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Perry Local School District, Ohio's basic financial statements. We issued our report thereon dated October 23, 2013, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

**PERRY LOCAL SCHOOL DISTRICT
LAKE COUNTY, OHIO
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
JUNE 30, 2013**

NOTE 1: **BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Perry Local School District and is presented on the cash basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 2: **NONCASH SUPPORT**

The District receives noncash support in the form of food subsidies from the National School Lunch Program (NSLP), CFDA #10.555. The value of the food subsidies is determined by using the fair market value of the food items as quoted by local food suppliers.

Mission Statement

Inspire all students to achieve personal excellence, pursue world-class standards and be self-directed, lifelong learners.

October 23, 2013

Members of the Board of Education and
Residents of the Perry Local Schools

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Perry Local School District (the “School District”) for the fiscal year ended June 30, 2013. This CAFR includes an unmodified (“clean”) opinion from James G. Zupka, CPA, Inc. and conforms to generally accepted accounting principles as applicable to governmental entities. The responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, is with the School District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and are reported in a manner that is designed to present fairly the financial position of the School District for all operations. This report is intended to provide the taxpayers of Perry with the comprehensive financial data in a format that will enable them to gain a transparent understanding of the School District’s financial operations. Copies of the CAFR will be made available to the Perry Public Library, major taxpayers, other interested parties, and on the School District’s web site.

The School District

The Perry Local School District is located in a residential/agricultural suburban community in eastern Lake County approximately thirty-five miles east of Cleveland. The School District is comprised of three separate communities, including Perry Village, Perry Township, and North Perry Village.

Within the three communities, the School District educates 1,780 students in grades K-12 or over 95 percent of all school-age children within its jurisdiction. During the reporting period, the School District is comprised of one high school (grades 9-12), one middle school (grades 5-8) and one primary school (grades K-4). The three schools are contained in three buildings and are under one roof as part of an interconnected educational campus via a one quarter mile corridor. Beyond the main campus, the School District owns two other school buildings, a transportation facility, and a maintenance facility. The appraised value of all School District properties (including land improvements, buildings and improvements, furniture and equipment, vehicles, and library and textbooks) is \$168,989,927 (net of depreciation) as of June 30, 2013.

The legislative power of the School District rests with the School District’s Board of Education which is comprised of five members elected on staggered four-year terms. The School District operates in accordance with the rules, regulations, policies, and/or laws provided by the Ohio State Board of Education, the Ohio Department of Education, and Ohio Revised Code.

The Reporting Entity

The School District has reviewed its reporting entity definition in order to insure conformance with the Governmental Accounting Standards Board Statement No. 61, *The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34*. In evaluating how to define the School District for financial reporting purposes, management has considered its relationship with all departments, boards, and agencies that make up the School District. For the School District, this includes general operations, food service, and student-related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District has no component units.

The School District participates in three jointly governed organizations and is associated with an insurance purchasing pool and a claims servicing pool. These organizations are the Ohio Schools' Council Association, the Lake Geauga Computer Association (LGCA), the Auburn Career Center, the Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP), and the Lake County Council of Governments Health Care Benefits (HCBP) Self Insurance Program. These organizations are presented in Notes 18, 19, and 20 to the basic financial statements.

Organizational Structure

The School District is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally elected Board of Education consisting of five members elected at-large for staggered four-year terms. The School District provides educational services as mandated by State and federal agencies.

The School District is located in Perry Village, Lake County, Ohio, and serves students legally residing in Perry Village, Perry Township, and North Perry Village. The area extends roughly 24 square miles. The School District is staffed by 91 non-teaching personnel, 137 certified/licensed teachers (including tutors), 14 exempt employees, and 10 administrative employees to provide services to the students, their parents/guardians, and our communities at large. The School District operates one elementary school (K-4), one middle school (5-8) and one high school (9-12).

Economic Condition and Outlook

Ohio House Bill 920, passed in 1976, provides that the assessed value of residential and commercial property will not be changed more than once every three years, and that the property tax bill of the average homeowner for voted millage will not be increased as a result of reappraisal or readjustment. Due to this, school districts have needed to pursue a cycle of levies to continue revenue growth to cover even inflationary changes to expenses. The result of this legislation limits growth in local revenue.

Since the inception of the Perry Nuclear Power Plant, the School District has not needed to solicit a tax levy from its communities. However, as the power plant converts real property to personal property, and as personal property depreciates, the total valuation of the School District has eroded, and residential landowners have taken on a greater share of the tax burden. Additionally, with the enactment of deregulation legislation in 2001, the School District was set to lose approximately 40 percent of its revenue or approximately \$10 million in 2017. This outlook changed over the past year as the state budget bill called for an immediate reduction of 2 percent of district resources to this line item for FY2012 and FY2013. This reduction reduces the public utility reimbursement by over \$530,000 in each of these two years. The School District has been and will continue to be in cost containment and reduction mode as the current economic conditions have reduced property growth to negligible amounts.

The School District's enrollment has remained relatively stable throughout the last decade, fluctuating only by about three percent, and is projected to remain relatively stable in census data available for the future. Trends are starting to develop in both the kindergarten and first grade enrollment numbers that signify a reduction to future average daily membership. As a result, additional revenue from the State of Ohio will be minimal given the current formula utilized to calculate State aid.

School District Local Funding

School District management will carefully control expenses during the coming years to continue to assure that revenues are adequate and spent in a fiscally responsible manner. Since 2007, the financial cycles illustrate that the School District has reduced approximately \$7 million in annual spending as determined from the FY2007 Five-Year Forecast. The School District continued its spending reductions to achieve the Board goal of reducing the per pupil expenditure to approximately \$12,500 for FY2010. Moving forward, in the 2014 school year, we will continue to maintain our cost per pupil goal, while also ensuring that School District expenditures do not exceed revenue generated.

Major Initiatives

The School District initiated a planned district-wide technology refresh project in FY2013 and is planning to overhaul the district's 20-year-old technology infrastructure. This will enable the Perry campus to prepare for a student Bring Your Own Device (BYOD) environment into the future. No other major construction initiatives are planned.

Ohio Report Card

The Ohio Report Card is issued in early fall of each school year. The report uses data from the previous school year to inform the public of the School District's success or failure on thirty grade-level indicators, student attendance rates, and the School District's graduation rate. The 2013 report card demonstrated that the School District achieved an "Excellent" rating by meeting every indicator. This marks the ninth consecutive year the School District has achieved an "Excellent" rating. School District personnel, parents/guardians, and our communities at large are very proud of the academic achievements of our students.

Federal Projects

The School District files applications for federal funds electronically utilizing the Consolidated Local Plan. This allows the Director of Curriculum to coordinate the application of the goals of the Comprehensive Continuous Improvement Plan. The School District continues to apply for all federal funds that the School District is eligible to receive. This includes Title I, Title II-A, Title II-D, Title IV, and Title VI-D. The School District adheres to the specific requirements associated to spending the federal dollars received.

Educational Programs and Facilities Improvement

The School District maintains a Permanent Improvement Fund for the purpose of maintaining the School District's facilities and making necessary improvements when and where applicable. As of June 30, 2013, the cash balance of the Permanent Improvement Fund was \$13,013,289. As the School District moves forward, these funds will pay for capital expenses throughout the School District and its facilities.

Financial Information

Internal Accounting and Budgetary Control

In developing the School District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes an automated accounting and payroll system as designed by the State software development team. An internal controls system for capital assets is provided by an outside company. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

Prior to the start of each fiscal year, the Board of Education adopts an appropriation measure for that fiscal year. The Board has the ability to adopt temporary appropriations prior to September 30 if permanent appropriations are not yet available. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor certifies that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board of Education. Budgets are controlled at the fund level. All purchase order requests must be approved by the administrator responsible for that specific budget and the Superintendent before being certified by the Chief Financial Officer. Once completed, necessary funds are encumbered and purchase orders are released to vendors for processing. Requests that exceed the available appropriation are rejected until additional appropriations are secured via authorized budget transfer.

The Perry Board of Education approves all financial reports on a monthly basis.

Financial Condition

The School District prepares financial statements following GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. GASB Statement No. 34 creates basic financial statements for reporting on the School District’s financial activities as follows:

Government-wide financial statements - these statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The School District does not have any business-type activities.

Fund financial statements - these statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparisons – these statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of the new reporting model, management, in conjunction with James G. Zupka, CPA, Inc., is responsible for preparing a Management’s Discussion and Analysis of the School District. This discussion follows the Independent Auditor’s Report, providing an assessment of the School District’s finances for 2013 and a comparison to performance in 2012 and analysis of resources available for the future.

Long-term Financial Planning

The Five-Year Forecast of Revenue and Expenditures serves as a financial planning tool and the foundation for academic and business operations of the School District. The forecast provides the Board and community stakeholders with a blueprint addressing the financial needs required to serve the student population. Assumptions are an integral part of the forecast and represent what the School District believes are significant factors impacting the forecast. A key component of the forecast is the timeline for the School District to evaluate revenues and expenditures and the increase or decrease in unreserved fund balances over the next five years. An in-depth review and analysis of the Five-Year Forecast is performed annually.

Relevant Financial Policies

The School District maintains a policy to replace textbooks, technology, necessary supplies, vehicles and maintenance of the School District’s facilities on a regular basis in a cost efficient manner. Such replacement is provided for in both the general and capital projects fund. The Board of Education has maintained a cash position in the Capital Projects fund of at least \$12.5 million to provide for such future issues related to facility maintenance and technology.

Independent Audit

State statute requires the School District to be audited at least every two fiscal years by an independent auditor. An annual audit serves to maintain and strengthen the School District's accounting and budgetary controls. Independent Auditor, James G. Zupka, CPA, Inc. was selected to render an opinion on the School District's financial statements as of and for the year ended June 30, 2013. The opinion appears at the beginning of the financial section of this report.

Acknowledgments

The publication of this Comprehensive Annual Financial Report is a significant step toward providing a transparent financial disclosure to the citizens of Perry and raising the professional standards for Perry Local School District's financial reporting.

It is the intent of this CAFR to enhance accountability of the School District's finances for the residents and provide School District stakeholders with a perspective of the School District's financial and demographic information.

Special appreciation is expressed to James G. Zupka, CPA, Inc. for assistance in the planning, designing and review of this financial report and the Perry Local School District's Finance Department support staff for researching and compiling data.

Finally, a sincere appreciation is extended to the five members of the School District's Board of Education for their ongoing support, feedback, and direction in governing the Perry Local School District.

Respectfully submitted,

Lewis Galante, Chief Financial Officer

INDEPENDENT AUDITOR'S REPORT

Board of Education
Perry Local School District
Perry, Ohio

The Honorable Dave Yost
Auditor of State
State of Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Perry Local School District, Lake County, Ohio (the District), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Perry Local School District, Ohio, as of June 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Perry Local School District, Ohio's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 23, 2013, on our consideration of the Perry Local School District, Ohio's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Perry Local School District, Ohio's internal control over financial reporting and compliance.

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2013

The management's discussion and analysis of the Perry Local School District's (School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2013. The intent of the management's discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the transmittal letter, notes to the basic financial statements, and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2013 are as follows:

- In total, net position increased by \$458,618 or by 0.6 percent.
- General revenues accounted for \$25,908,339 or 91.9 percent of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$2,286,827 or 8.1 percent of total revenues of \$28,195,166.
- Total assets of governmental activities increased by \$75,063 when compared to prior year. This increase is mainly attributed to increases in the property tax receivable and capital assets offset by decreases in cash and investments and prepaid items. Total liabilities decreased by \$86,024 as contracts payable decreased.
- The School District had \$27,736,548 in expenses related to governmental activities; only \$2,286,827 of these expenses were offset by program specific charges for services, grants, or contributions. General revenues (primarily property taxes and grants and entitlements) of \$25,908,339 were able to provide for these programs.
- Among major funds, the general fund had \$24,488,742 in revenues (including other financing sources) and \$24,764,980 in expenditures (including other financing uses). The general fund's fund balance decreased to \$20,653,223 from \$20,929,461. The permanent improvement capital projects fund decreased its fund balance to \$12,882,125 from \$13,285,938.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* and *Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short term, as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds, with all other nonmajor funds presented in total in one column. In the case of the School District, the general fund is by far the most significant fund with the most activity. Additionally, the permanent improvement capital projects fund is significant due to the savings for future construction projects.

Reporting the School District as a Whole

Statement of Net Position and Statement of Activities

While this document contains information about the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, “How did we do financially during 2013?” The Statement of Net Position and Statement of Activities answer this question. These statements include all assets and all liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year’s revenues and expenses regardless of when cash is received or paid.

These two statements report the School District’s net position and changes in that position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District’s property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors. On the other hand, financial factors may include the School District’s financial position, liquidity and solvency, fiscal capacity and risk and exposure.

In the Statement of Net Position and Statement of Activities, the School District’s activities are classified as governmental activities:

- Governmental Activities - Most of the School District’s programs and services are reported here including instruction, supporting services, operation of non-instructional services and extracurricular activities.

Reporting the School District’s Most Significant Funds

Fund Financial Statements

The analysis of the School District’s major funds begins on page 10. Fund financial reports provide detailed information about the School District’s major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District’s most significant funds. The School District’s major governmental funds are the general fund and the permanent improvement fund.

Governmental Funds Most of the School District’s activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District’s general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds The School District maintains one proprietary fund. Internal Service funds are an accounting device used to accumulate and allocate costs internally to the School District’s various functions. The School District uses an Internal Service fund to account for its medical self-insurance program. Because these services benefit governmental functions, they have been included within governmental activities in the government-wide financial statements.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District’s net position for 2013 compared to 2012:

Table 1 - Net Position

	Governmental Activities	
	2013	2012
ASSETS		
Current and Other Assets	\$ 52,790,081	\$ 52,973,071
Capital Assets, net	42,627,801	42,369,748
Total Assets	95,417,882	95,342,819
LIABILITIES		
Current and Other Liabilities	2,616,915	2,713,866
Long-term Liabilities:		
Due within one year	918,440	815,668
Due in more than one year	3,841,795	3,933,640
Total Liabilities	7,377,150	7,463,174
DEFERRED INFLOWS OF RESOURCES		
Property Taxes	13,377,871	13,675,402
NET POSITION		
Net Investments in		
Capital Assets	41,578,953	41,064,747
Restricted	14,275,857	14,897,927
Unrestricted	18,808,051	18,241,569
Total Net Position	\$ 74,662,861	\$ 74,204,243

Total assets slightly increased \$75,063. Equity in pooled cash, cash equivalents, and investments decreased by \$542,810. Property taxes receivable increased by \$378,130, which can be attributed to a significant increase in delinquencies outstanding. Capital assets increased by \$258,053 due to capital asset additions coupled with the School District change in estimates of accumulated depreciation by implementing salvage values.

Total liabilities slightly decreased \$86,024. The change in the School District’s liabilities can mainly be attributed to a reduction in contracts payable coupled with an increase in the matured compensated absences payable.

Table 2 shows the changes in net position for fiscal year 2013 and 2012.

Table 2 - Change in Net Position

	Governmental Activities	
	2013	2012
REVENUES		
Program Revenues:		
Charges for Services	\$ 1,070,356	\$ 1,147,753

Pupil Transportation	1,600,483	1,404,686
Central	23,572	22,819
Operation of Non-Instructional Services	1,207,468	1,199,916
Extracurricular Activities	1,317,249	1,445,840
Interest and Fiscal Charges	35,878	41,893
Total Expenses	27,736,548	31,527,852
Change in Net Position	458,618	(3,978,826)
Net Position - Beginning of Year	74,204,243	78,183,069
Net Position - End of Year	\$ 74,662,861	\$ 74,204,243

Perry Local School District, Lake County

Total revenues increased by \$646,140 or 2.3 percent as compared to fiscal year 2012. This increase is most noticeable in property taxes and operating grants and contributions.

Total expenses decreased \$3,791,304 or 12.0 percent due to decreases in instruction, pupil and instructional staff, board of education, administration, fiscal, business, and operation and maintenance of plant expenses.

Governmental Activities

The School District has carefully planned its financial future by forecasting its revenue and expenses over the next five years. In May 2013, the School District submitted its revised five-year forecast to the Ohio Department of Education. Based upon the current five-year financial forecast, the School District has adequate operating funds for each of the next five years. Although the School District relies heavily upon local property taxes to support its operations, the School District does actively solicit and receive additional grant and entitlement funds to help offset some costs which made up 42.2 percent of revenues.

The School District's dependence upon property taxes is hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Property taxes made up 52.9 percent of revenues for governmental activities for the School District in fiscal year 2013.

Instruction comprises 52.9 percent of governmental program expenses. Supporting Services for pupils, instructional staff, and business operations encompasses an additional 37.9 percent. The remaining program expenses of 9.2 percent are expensed to facilitate other obligations of the School District, such as non-instructional services, extracurricular activities, and interest and fiscal charges.

The Statement of Activities shows the cost of program services and the charges for services and operating grants and contributions offsetting those services for 2013 and 2012. Table 3 shows the total cost for services for governmental activities and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3 - Governmental Activities

	Total Cost of Services 2013	Total Cost of Services 2012	Net Cost of Services 2013	Net Cost of Services 2012
Instruction	\$ 14,676,136	\$ 17,361,518	\$ 14,032,890	\$ 16,956,405
Supporting Services:				
Pupils and Instructional Staff	3,041,938	3,262,191	2,852,556	3,043,252
Board of Education, Administration, Fiscal Services, and Business	2,354,459	2,607,642	2,354,459	2,607,642
Operation and Maintenance of Plant	3,479,365	4,181,347	3,479,365	4,181,347
Pupil Transportation	1,600,483	1,404,686	1,562,993	1,380,007
Central	23,572	22,819	23,572	22,819
Operation of Non-Instructional Services	1,207,468	1,199,916	108,612	224,831
Extracurricular Activities	1,317,249	1,445,840	999,396	1,122,756
Interest and fiscal charges	35,878	41,893	35,878	41,893
Total cost of service	<u>\$ 27,736,548</u>	<u>\$ 31,527,852</u>	<u>\$ 25,449,721</u>	<u>\$ 29,580,952</u>

The dependence upon tax revenues for governmental activities is apparent. 91.8 percent of expenses are supported through taxes and other general revenues. The community, as a whole, is by far the primary support for the School District's students.

The School District's Funds

Information about the School District's major funds starts on page 17. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$29,772,826 (including other financing sources) and expenditures of \$30,373,619 (including other financing uses). The net change in fund balance for the year in the general fund experienced a decrease of \$276,238 due to decreases in property taxes and intergovernmental revenues. In the permanent improvement capital projects fund, the net change in fund balance for the year decreased \$403,813 due to increased capital project expenditures when compared to prior year activity.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2013, the School District amended its general fund budget numerous times, none significant. Fluctuations among the budget base expenditure categories are due to the School District site-based style of budgeting that is designed to tightly control expenditures but provide flexibility for managers to redirect funds as conditions develop during the year.

For the general fund, final budget basis revenue was \$25,716,975 (including other financing sources), which equaled the original budget estimate. Overall revenue received by the general fund was less than the final budgetary projections by \$1,083,800 or 4.3 percent. Of this difference, a majority of the amount was due to the School District's real estate tax revenues and the collection of delinquent taxes couple with intergovernmental revenues being less than anticipated.

The final appropriations of \$25,830,000 (including other financing uses and prior year's encumbrances) were equaled to the original appropriations. Actual expenditures plus outstanding encumbrances for the year were \$1,257,705 or 4.9 percent under general fund revised budgetary projections.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2013, the School District had \$42,627,801 invested in land, land improvements, buildings and improvements, furniture and equipment, and vehicles in governmental activities. Table 4 shows fiscal 2013 balances compared to 2012:

Table 4 - Capital Assets at June 30, (Net of Depreciation)

	Governmental Activities	
	2013	2012
Land	\$ 1,200,000	\$ 1,200,000
Construction in progress	194,796	341,839
Land Improvements	1,829,973	1,407,345
Buildings and Improvements	37,586,993	38,174,352
Furniture and Equipment	979,056	492,369
Vehicles	809,397	753,843
Library and Textbooks	27,586	-
Total Capital Assets	\$ 42,627,801	\$ 42,369,748

The primary increase occurred in furniture and equipment. The overall increase was due to capital asset additions coupled with the School District's change in estimates of accumulated depreciation.

During fiscal year 2013, the School District purchased \$1,885,885 of capital assets. The significant additions to capital assets were made to across the various categories. See Note 11 for additional information on capital assets.

Debt

At June 30, 2013, the School District had \$997,732 in debt outstanding. Table 5 summarizes the School District's debt outstanding.

Table 5 - Outstanding Debt at June 30,

	Governmental Activities	
	2013	2012
2006 Energy Conservation Note	\$ 736,068	\$ 963,162
Capital Leases	261,664	-
Total Outstanding Debt	\$ 997,732	\$ 963,162

The 2006 energy conservation notes were issued for a ten year maturity life with an interest rate of 3.88 percent per annum. The proceeds were for renovating and otherwise improving energy conservation at the School District's facilities.

During fiscal year 2013, the District issued two capital leases for the purchase of various copiers and related equipment. Both leases will mature in fiscal year 2018.

See Notes 16 and 17 for additional information on the School District's long-term debt activity.

School District's Outlook

The School District has a strong financial position. The Board of Education and the administration closely monitor the School District's revenues and expenditures in accordance with its financial forecast and the School District's Continuous Improvement Plan.

The School District's financial future is not without challenges, though. The nature of school funding in Ohio severely restricts the growth in the School District's operating revenues and requires the School District to periodically seek additional funds from the taxpayers to offset rising operating costs.

In June 1999, the Ohio General Assembly passed Senate Bill 3 to deregulate the electric utility industry in Ohio. Under this legislation, the assessment rate on electric utility property was dramatically reduced but this School District will remain revenue neutral due to the Property Tax Replacement Fund. This fund derives its revenue from a special user's tax on electricity. The School District received approximately \$9 million last year from this source.

Financial aid from the State of Ohio through the State Foundation Program has not been the major source of operating revenue for the School District. Because the School District is considered a wealthy School District in terms of property values, it receives a relatively small amount of revenue from the State to fund operating expenditures.

As a result of the challenges mentioned above, the School District's administration continues to carefully plan its expenditures to provide adequate resources to meet student needs over the next several years. The administration and the School District's Task Force are currently reviewing all programs and services provided to students with the goal of reducing operating costs.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Lewis Galante, Chief Financial Officer at Perry Local School District, 4325 Manchester Avenue, Perry, Ohio 44081.

**Reconciliation of Total Governmental Fund Balances to
Net Position of Governmental Activities**

June 30, 2013

Total Governmental Fund Balances \$ 34,407,699

*Amounts reported for Governmental Activities in the Statement of Net Position
are different because:*

Capital Assets used in Governmental Activities are not financial resources
and, therefore, are not reported in the funds 42,627,801

Other long-term assets are not available to pay for current-period expenditures
and, therefore, are unavailable revenue in the funds:

Delinquent Property Taxes	\$ 1,080,041	
Grants	633,861	
Total		1,713,902

Internal Service funds are used by management to charge the costs
of certain activities, such as insurance to individual funds. The assets
and liabilities of the District's Internal Service funds are included in
Governmental Activities in the Statement of Net Position. 679,954

Long-term liabilities, including bonds payable, are not due and payable in
the current period and therefore are not reported in the funds:

General Obligation Notes	(736,068)	
Accrued Interest Payable	(6,260)	
Capital Leases	(261,664)	
Compensated Absences	(3,762,503)	
Total		(4,766,495)

Net Position of Governmental Activities \$ 74,662,861

See accompanying notes to the basic financial statements.

See accompanying notes to the basic financial statements.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Fiscal Year Ended June 30, 2013

Net Change in Fund Balances-Total Governmental Funds \$ (600,793)

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital Outlay	\$	1,885,885	
Depreciation		<u>(1,594,676)</u>	
Total			291,209

In the Statement of Activities, only the loss on the disposal of capital assets is reported, whereas, in the Governmental Funds, the proceeds from the disposals increase financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the capital assets. (33,156)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Delinquent Property Taxes		796,531	
Grants		<u>4,500</u>	
Total			801,031

Other financing sources in the Governmental funds increase long-term liabilities in the Statement of Net Position. These sources were attributed to the inception of capital leases. (287,691)

Repayment of notes and capital lease principal are expenditures in the governmental funds, but the repayments reduce long-term liabilities in the Statement of Net Position. 253,121

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in Governmental funds.

Compensated absences		23,643	
Accrued interest		<u>1,931</u>	
Total			25,574

Internal Service funds are used by management to charge costs to certain activities, such as insurance to individual funds. The net revenue (expense) of the Internal Service fund are reported in the Governmental Activities. 9,323

Change in Net Position of Governmental Activities \$ 458,618

See accompanying notes to the basic financial statements.

Perry Local School District, Lake County

**Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2013**

NOTE 1: DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Perry Local School District (the “School District”) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally elected five-member Board and provides education services as mandated by State or Federal agencies. The Board controls the School District’s three instructional facilities, staffed by 126 classified personnel and 150 certified personnel which provide services to students and other community members.

Reporting Entity

The School District is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the School District are not misleading. The School District’s primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the School District, this includes education, pupil transportation, food service, and maintenance of the School District’s facilities.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization’s governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization’s resources; (3) the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; (4) or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The reporting entity of the School District has no component units.

The School District participates in three jointly governed organizations, an insurance purchasing pool, and a claims servicing pool. These organizations are the Ohio Schools’ Council Association, the Lake Geauga Computer Association, the Auburn Career Center, the Ohio Association of School Business Officials Workers’ Compensation Group Rating Program and Lake County Council of Governments Health Care Benefits Self Insurance Program. These organizations are presented in Notes 18, 19, and 20, respectively, to the basic financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District’s accounting policies are described below.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Basis of Presentation

The School District's financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. As a general rule, the internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. An exception to this general rule is that interfund services provided and used are not eliminated in the process of consolidation.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, operating and/or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

Fund financial statements are designed to present financial information of the School District at this more detailed level. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The School District's only proprietary fund is classified as an internal service fund and is presented in a single column on the face of the proprietary fund financial statements. Fiduciary funds are reported by fund type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories of governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The School District's major governmental funds are:

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (CONTINUED)

B. Fund Accounting (Continued)

General Fund - the general fund is used to account for all financial resources, except those required to be accounted for in another fund. The general fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Permanent Improvement Fund - the permanent improvement fund is used to account for the receipts and expenditures related to the acquisition, construction or renovation of major capital facilities in the School District.

The other governmental funds of the School District account for grants, other resources, and capital projects of the School District whose uses are restricted to a particular purpose.

Proprietary Funds

The proprietary funds focus on the determination of operating income/loss, changes in net position, financial position, and cash flows and are classified as either enterprise or internal service. The School District only has an internal service fund. The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund accounts for a self-insurance program which provides medical coverage to the School District's employees.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in that position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's fiduciary funds include a private purpose trust fund, which accounts for college scholarships for students, and an agency fund, which accounts for student managed activities.

C. Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the Statement of Net Position. The Statement of Activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (CONTINUED)

C. Measurement Focus (Continued)

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflow of resources along with current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets, liabilities, and deferred outflows/inflows of resources associated with the operation of these funds are included on the statement of fund net position. The statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. The proprietary funds and the fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and become available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 8). Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Basis of Accounting (Continued)

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal yearend: property taxes available as an advance, grants, investment earnings, tuition, and rentals.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. As of June 30, 2013, the District did not have any deferred outflows of resources.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2013, but which were levied to finance fiscal year 2014 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as inflows of resources in the period the amounts become available.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the statement of revenues, expenditures, and changes in fund balances as an expenditure with a like amount reported as an intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

E. Equity in Pooled Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled. Monies for all funds are maintained in the account or temporarily used to purchase short term investments. Interest in the pool is presented as “Equity in Pooled Cash and Cash Equivalents” on the financial statements.

During fiscal year 2013, investments were limited to a repurchase agreement, U.S. Government Agency notes, U.S. Treasury note, commercial paper, a money market mutual fund, and STAROhio. Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements with maturities of one year or less are reported at cost.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (CONTINUED)

E. Equity in Pooled Cash and Cash Equivalents (Continued)

STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for on June 30, 2013.

Following Ohio statutes, the Board of Education has specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2013 amounted to (\$56,066), which includes (\$4,893) assigned from other School District funds. GASB Statement No. 31 requires the change in fair value to be reported as revenue. During fiscal year 2013, the change in fair value decreased the District's total investments by \$189,502. This decrease of the change in fair value resulted in the District presenting a negative amount in interest income on the financial statements.

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

F. Restricted Assets

Assets are reported as restricted items when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. Restricted assets in the general fund represent amounts required by the State statute to be utilized for school bus purchases. See Note 23 for additional information regarding set-asides.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2013 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

H. Inventory

Inventories of the governmental funds are presented at the lower of cost or market on a first-in, first-out basis and expended/expensed when used. Inventories consist of donated foods, purchased foods, school supplies held for resale and expendable supplies held for consumption.

I. Capital Assets

All capital assets of the School District are classified as general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported on the fund financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Capital Assets (Continued)

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five thousand dollars (\$5,000). The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset’s life are not capitalized.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital asset. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives
Land Improvements	20 years
Buildings and Improvements	10-50 years
Furniture and Equipment	5-10 years
Vehicles	10 years
Library and Textbooks	6 years

J. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables”. These amounts are eliminated in the governmental activities column of the statement of net position.

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees’ rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination payment method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The liability is an estimate based on the School District’s past experience making termination payments. The amount is based on accumulated sick leave and employees’ wage rates at fiscal year end, taking into consideration any limits specified in the School District’s termination policy. The School District records a liability for accumulated unused sick leave for classified, certified, and administrative employees within the School District.

The entire compensated absence liability is reported on the government-wide financial statements. On the governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account “Matured Compensated Absences Payable” in the fund or funds from which the employees who have accumulated the leave are paid.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (CONTINUED)

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from the internal service fund is reported on the internal service fund's financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Capital lease obligations are recognized as a liability on the governmental fund financial statements when due.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not spendable in form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District's Board of Education. Those committed amounts cannot be used for any other purpose unless the School District's Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts would represent intended uses established by the School District's Board of Education.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In the other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Fund Balance (Continued)

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

N. Net Position

Net Position represents the difference between assets and deferred outflows of resources compared to liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for school bus purchases includes state funds received for school bus purchases.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

O. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are for the self-insurance program. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. All revenues and expenses not meeting these definitions are reported as non-operating.

P. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Q. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates. During fiscal year 2013, the District adjusted depreciable cost of the capital assets by implementing a salvage value. These adjustments were applied to current year's depreciation expense.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (CONTINUED)

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. As of June 30, 2013, there were no extraordinary or special items.

S. Budgetary Data

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the fund level for all funds. The Treasurer has been given the authority to allocate the Board appropriations to the function and object levels.

Advances in and advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing or increased tax rates. By no later than January 20, the Board-adopted budget is filed with the Lake County Budget Commission for rate determination.

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the amended certificate when the original appropriations were adopted.

The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2013.

NOTE 2: **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (CONTINUED)

S. Budgetary Data (Continued)

Appropriations

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certification saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any legal level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education. The Board may pass supplemental fund appropriations provided the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. The amounts reported as the original budgeted amounts in the budgetary statements reflect the appropriation in the first complete appropriated budget, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On fund financial statements, encumbrances outstanding at year end are reported as part of the respective fund balance classification for subsequent year expenditures for governmental funds. Encumbrances outstanding at year end are not reported on government-wide financial statements.

Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

NOTE 3: CHANGES IN ACCOUNTING PRINCIPLES

GASB Statement Number 60, *Accounting and Financial Reporting for Service Concession Arrangements*. The objective of this Statement is to improve financial reporting by addressing issues related to service concession arrangements (SCAs), which are a type of public-private or public-public partnership. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011 and have been implemented by the District.

GASB Statement Number 61, *The Financial Reporting Entity: Omnibus-an amendment of GASB Statements No. 14 and No. 34*. The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2012 and have been implemented by the District.

GASB Statement Number 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The objective of this Statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in the FASB and AICPA pronouncements which does not conflict with or contradict GASB pronouncements. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011 and have been implemented by the District.

GASB Statement Number 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011 and have been implemented by the District.

GASB Statement Number 65, *Items Previously Reported as Assets and Liabilities*. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012 and have been implemented by the District.

Perry Local School District, Lake County

NOTE 4: FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the general fund, permanent improvement fund, and all other governmental funds are presented below:

Fund Balances	General	Permanent Improvement	Other Governmental Funds	Total
<i>Nonspendable</i>				
Prepaid Items	\$ 27,168	\$ -	\$ -	\$ 27,168
Inventories	184,839	-	11,580	196,419
<i>Total Nonspendable</i>	<u>212,007</u>	<u>-</u>	<u>11,580</u>	<u>223,587</u>
<i>Restricted for</i>				
Food Service Operations	-	-	2,126	2,126
Community Fitness Center Operations	-	-	789,061	789,061
Special Levy	-	-	531,687	531,687
Athletics	-	-	89,417	89,417
Information System Improvements	-	-	5,802	5,802
Entry Year Programs	-	-	5,500	5,500
Data Communication	-	-	22,994	22,994
Professional Development	-	-	4,371	4,371
Student Intervention Services	-	-	15,493	15,493
Drug Abuse Education	-	-	2,654	2,654
IDEA Preschool	-	-	1,050	1,050
Capital Improvements	-	-	139	139
School Bus Purchases	58,165	-	-	58,165
Other Grants	-	-	5,821	5,821
Other Purposes	-	-	1,531	1,531
<i>Total Restricted</i>	<u>58,165</u>	<u>-</u>	<u>1,477,646</u>	<u>1,535,811</u>
<i>Committed to</i>				
Termination Benefits	442,840	-	-	442,840
<i>Total Committed</i>	<u>442,840</u>	<u>-</u>	<u>-</u>	<u>442,840</u>
<i>Assigned to</i>				
Capital and Instructional Technology	-	12,882,125	-	12,882,125
FY 2014 Appropriations	1,612,563	-	-	1,612,563
Special Rotary	26,940	-	-	26,940
Public School Support	25,462	-	-	25,462
Purchases on Order	462,235	-	-	462,235
<i>Total Assigned</i>	<u>2,127,200</u>	<u>12,882,125</u>	<u>-</u>	<u>15,009,325</u>
<i>Unassigned (Deficit)</i>	17,813,011	-	(616,875)	17,196,136
Total Fund Balances	<u>\$ 20,653,223</u>	<u>\$ 12,882,125</u>	<u>\$ 872,351</u>	<u>\$ 34,407,699</u>

NOTE 5: ACCOUNTABILITY AND COMPLIANCE

A. Accountability

Fund balances at June 30, 2013, included the following individual fund deficits:

	Fund Balance Deficits
<u>Nonmajor Special Revenue Funds</u>	
IDEA, Part B Special Education	\$ 316,713
Title III - Limited English Proficiency	2,635
Title I, Disadvantaged Children/Targeted Assistance	212,009
Improving Teacher Quality	47,901
Miscellaneous Federal Grants	37,617
	\$ 616,875

The fund deficits in the special revenue funds resulted from accrued liabilities. The general fund is liable for the deficits in these funds and will provide transfers when cash is required, not when accruals occur.

B. Compliance

1 – Ohio Revised Code §5705.39 states that total appropriations from each fund shall not exceed the total estimated resources (estimated revenues plus unencumbered fund balances).

The following funds had final appropriations exceeding total estimated resources.

	Estimated Resources	Final Appropriations	Excess
<u>Nonmajor Special Revenue Funds</u>			
Entry Year Teachers	\$ 4,800	\$ 5,500	\$ (700)
Data Communication	17,594	22,975	(5,381)
Improving Teacher Quality	61,593	62,824	(1,231)

Management has indicated that appropriations and estimated resources will be closely monitored to ensure no future violations occur.

NOTE 5: **ACCOUNTABILITY AND COMPLIANCE** (CONTINUED)

B. Compliance (Continued)

2 – Ohio Revised Code §5705.41(B) states that actual expenditures from each fund shall not exceed the final appropriations.

The following funds had actual expenditures exceeding final appropriations.

	<u>Final Appropriations</u>	<u>Actual Expenditures</u>	<u>Excess</u>
<u>Nonmajor Special Revenue Funds</u>			
Education Jobs	\$ -	\$ 19,527	\$ (19,527)
IDEA, Part B Special Education	363,935	543,388	(179,453)
Title III - Limited English Proficiency	23,233	27,875	(4,642)
Title I - Disadvantaged Children/Targeted Assistance	233,600	309,679	(76,079)
IDEA Preschool Grant for the Handicapped	10,515	20,922	(10,407)
Improving Teacher Quality	62,824	85,121	(22,297)
Miscellaneous Federal Grants	375,000	395,466	(20,466)

Management has indicated that appropriations and expenditures will be closely monitored to ensure no future violations occur.

3 – Ohio Revised Code §5705.10 states that money paid into a fund must be used only for the purposes for which such fund has been established. A negative fund cash balance indicates that money from one fund was used to cover expenses of another fund.

The following fund reported a negative unencumbered cash balance and did not meet the allowable exceptions permitted by Ohio Revised Code §3315.20:

	<u>Negative Unencumbered Cash Balance</u>
<u>Nonmajor Special Revenue Fund</u>	
Title III - Limited English Proficiency	\$ 25,868

Although this violation was not corrected by year end, management has indicated that cash balances will be closely monitored to eliminate future violations.

NOTE 6: BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (Non-GAAP Budgetary Basis) - for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- B. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- C. Encumbrances are treated as expenditures (budget basis) rather than as a part of restricted, committed, and assigned fund balances (GAAP) basis; and
- D. Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP and budgetary basis statements for the general fund.

Net Change in Fund Balance	
GAAP Basis	\$ (276,238)
Net Adjustment for Revenue Accruals	200,882
Net Adjustments for Expenditure Accruals	410,574
Funds with Separate Legally Adopted Budgets	215,278
Adjustment for Encumbrances	(489,616)
Budget Basis	\$ 60,880

NOTE 7: DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

NOTE 7: DEPOSITS AND INVESTMENTS (CONTINUED)

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury notes, bills, bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty (30) days;
4. Bonds or other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or division (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAROhio);
8. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty (180) days in an amount not to exceed twenty-five (25) percent of the interim monies available for investment at any one time; and
9. Under limited circumstances, corporate debt interest rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District and must be purchased with the expectation that it will be held to maturity.

NOTE 7: DEPOSITS AND INVESTMENTS (CONTINUED)

The following disclosure is based on the criteria described in GASB Statement No. 40, *Deposits and Investments Risk Disclosures*.

Cash on Hand

At June 30, 2013, the School District had \$900 in undeposited cash on hand, which is included on the balance sheet of the School District as part of “Equity in Pooled Cash and Cash Equivalents”.

Deposits

At June 30, 2013, the carrying amount of the School District’s deposits was \$(78,813), and the bank balance was \$332,104. A liability was not recorded for the negative carrying amount of deposits because there was no actual overdraft, due to the “zero balance” nature of the School District’s bank accounts. All of the School District’s bank balances were covered by Federal Depository Insurance.

Custodial credit risk is the risk that, in the event of a bank failure, the School District’s deposit may not be returned. The School District had no deposit policy for custodial risk beyond the requirement of State statute. All deposits, except for deposits held by fiscal and escrow agents, are collateralized with eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits. Such collateral, as permitted by Chapter 135 of the ORC, is held in financial institution pools at Federal Reserve banks, or at member banks of the Federal Reserve system in the name of the respective depository bank, and pledged as a pool of collateral against all of the public deposits it holds, or as specific collateral held at a Federal Reserve bank in the name of the School District. Although the securities were held by the pledging institutions’ trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the School District to a successful claim by the FDIC.

Investments

The School District has a formal investment policy. The School District follows GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, and records all its investments at fair value. At June 30, 2013, fair value was \$132,584 below the School District’s net cost for investments. Fair value is determined by quoted market prices and acceptable other pricing methodologies.

	Average Weighted Maturity	Fair Value	Credit Rating*
Federal Home Loan Bank	0.38 yr	\$ 8,438,296	AA+
Federal National Mtg. Assoc.	2.99 yrs	13,081,438	AA+

		\$ 37,177,457	

* Credit ratings have been obtained from Standard & Poors

NOTE 7: DEPOSITS AND INVESTMENTS (CONTINUED)

Interest Rate Risk

As a means of limiting its exposure to fair value of losses caused by rising interest rates, the School District’s investment policy requires that operating funds be invested primarily in investments so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity. To date, no investments have been purchased with a life greater than three years.

Credit Risk

The credit risks of the School District’s investments are in the previous table. Ohio law requires that STAROhio maintain the highest rating provided by at least one nationally recognized standard rating service. The School District has no investment policy that would further limit its investment choices.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal Home Loan Bank notes, Federal National Mortgage Association notes, Federal Home Loan Mortgage notes, Federal Farm Credit Corp. notes, U.S. Treasury notes, Commercial Paper, money market mutual fund, and repurchase agreement are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty’s trust department or agent but not in the School District’s name. The School District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk

The School District places no limit on the amount it may invest in any one issuer. The following is the School District’s allocation as of June 30, 2013:

	Percentage of Investments
Federal Home Loan Bank	22.7%
Federal National Mtg. Assoc.	35.2%
Federal Home Loan Mtg.	7.8%
Federal Farm Credit Corp.	0.7%
U.S. Treasury Notes	8.2%
Commercial Paper	7.0%
Money Market Mutual Fund - First American Government	0.1%
STAROhio	0.8%
Repurchase Agreement	17.5%
	100.0%

NOTE 7: DEPOSITS AND INVESTMENTS (CONTINUED)

Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. As of June 30, 2013, the School District had no exposure to foreign currency risk.

NOTE 8: PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and certain tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar year 2013 represents collections of calendar year 2012 taxes. Real property taxes received in calendar year 2013 were levied after April 1, 2012, on the assessed value listed as of January 1, 2012, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are paid annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2013 represents collections of calendar year 2012 taxes. Public utility real and tangible personal property taxes received in calendar year 2013 became a lien December 31, 2011, were levied after April 1, 2012 and are collected in 2012 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Lake County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2013, are available to finance fiscal year 2013 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property, which are measurable as of June 30, 2013, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

The amount available as an advance at June 30, 2013, was \$279,868 in the general fund and \$41,804 in the special levy nonmajor special revenue fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

NOTE 8: PROPERTY TAXES (CONTINUED)

The assessed values upon which fiscal year 2013 taxes were collected are:

	2012 Second Half Collections		2013 First Half Collections	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/Residential and Other Real Estate	\$ 282,662,760	63.90%	\$ 261,967,970	63.22%
Public Utility	159,661,790	36.10%	152,386,770	36.78%
Total Assessed Value	<u>\$ 442,324,550</u>	<u>100.00%</u>	<u>\$ 414,354,740</u>	<u>100.00%</u>
 Tax Rate per \$1,000 of Assessed Valuation	 \$ 44.20		 \$ 44.20	

NOTE 9: RECEIVABLES

Receivables at June 30, 2013, consisted of taxes, accounts, accrued interest, and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of Federal funds. All receivables are expected to be collected within one year. The School District had \$723,769 in intergovernmental receivables.

NOTE 10: LAKE COUNTY SCHOOL FINANCING DISTRICT

The Board of Education of the Lake County School Financing District has, by a resolution adopted February 6, 1990, pursuant to Section 3311.50 of the Ohio Revised Code, created a county school financing district known as the Lake County School Financing District (the "Financing District") for the purpose of levying taxes for the provision of the following specified educational programs and services by the school districts that are part of the Financing District: the provision of necessary personnel, materials, supplies, and transportation for instruction in language arts, social studies, mathematics, fine and practical arts, health and physical education, science, and business education.

The Board of Education of the Lake County School Financing District acts as the taxing authority of the Financing District pursuant to Section 3311.50 of the Ohio Revised Code. The Financing District receives settlements of taxes levied and distributes them within ten days to each of the member district's proportionate share of that tax settlement. Each member district's proportionate share is a fraction, the numerator being member district's total pupil population and the denominator being the aggregate pupil population of all member districts as of that date. Taxes collected by the Financing District available to the School District at June 30 are recorded as receivables and revenue for the current fiscal year. Uncollected taxes outstanding received by the Financing District within 60 days after the fiscal year are recorded as a receivable and deferred inflow of resources for they are measurable but not available to the School District. The total receivable is included in the account "Property Taxes Receivable".

NOTE 11: CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2013, was as follows:

	Balance June 30, 2012	Additions	Deletions	Balance June 30, 2013
<u>Governmental Activities</u>				
<i>Capital Assets, not being depreciated:</i>

Furniture and Equipment	(2,176,400)	(276,230)	46,381	(2,406,249)
Vehicles	(1,653,259)	(202,760)	426,025	(1,429,994)
Library and text books	(919,543)	-	27,586	(891,957)
<i>Total Accumulated Depreciation</i>	<u>(72,061,200)</u>	<u>(1,594,676)</u>	<u>525,946</u>	<u>(73,129,930)</u>
Total Capital Assets being depreciated, Net	<u>40,827,909</u>	<u>438,252</u>	<u>(33,156)</u>	<u>41,233,005</u>
Governmental Activities' Capital Assets, Net	<u>\$ 42,369,748</u>	<u>\$ 633,048</u>	<u>\$ (374,995)</u>	<u>\$ 42,627,801</u>

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$ 1,063,077
Support Services:	
Instructional Staff	27,702
Administration	1,695
Fiscal Services	6,973
Business	1,255
Operation and Maintenance of Plant	58,317
Pupil Transportation	333,149
Operation of Non-Instructional Services:	
Food Services	72,957
Community Services	621
Extracurricular Activities:	
Sport Oriented Activities	28,930
Total Depreciation Expense	<u>\$ 1,594,676</u>

NOTE 12: RISK MANAGEMENT

A. Property and Liability

The School District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The School District is a member of the Ohio Schools Council Insurance Company property and fleet insurance purchasing group. On behalf of member school districts, the Ohio Schools Council prepares specifications and solicits quotations from insurance companies. The School District fleet was insured with the Ohio School Plan since April, 2008 with a \$1,000,000 liability limit per loss. The Ohio School Plan also carried the property insurance (which includes inland, marine, earthquake and crime), and also covered the boilers and machinery.

Additionally, since school districts are not protected by the doctrine of sovereign immunity, the School District contracted with the Ohio School Plan (through the Ohio School Boards Association/Nationwide Ohio Educational Liability Insurance program) for coverage with limits of liability of \$3,000,000 per claim and \$5,000,000 aggregate to insure the School District, the Board, all Board members, all administrators, certified and classified employees and volunteers.

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from last year.

B. Workers' Compensation

For fiscal year 2013, the School District participated in a Group Rating Program (GRP), an insurance purchasing pool (Note 19). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP.

A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley UniComp provides administrative, cost control and actuarial services to the GRP. Each year the School District pays an enrollment fee to the Plan to cover costs of administering the program.

C. Employee Insurance Benefits

The School District provides medical coverage to employees through premium payments to the Lake County Council of Governments Health Care Benefits Program (see Note 19 for further details).

NOTE 13: **PENSION PLANS**

A. State Teachers Retirement System

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost sharing, multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad Street, Columbus, Ohio 43215-3771, by calling toll-free 1-888-227-7877, or by visiting the STRS Ohio website at www.strsoh.org.

Plan Options - New members have a choice of three retirement plan options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC Plan allows members to allocate all their member contributions and employer contributions equal to 10.5 percent of earned compensation among various investment choices. The Combined Plan offers features of the DC Plan and the DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund a defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the DB Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

DB Plan Benefits – Plan benefits are established under Chapter 3307 of the Ohio Revised Code. Any member may retire who has **(i)** five years of service credit and attained age 60; **(ii)** 25 years of service credit and attained age 55; or **(iii)** 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the “formula benefit” or the “money-purchase benefit” calculation. Under the “formula benefit,” the retirement allowance is based on years of credited service and final average salary, which is the average of the member’s three highest salary years. The annual allowance is calculated by using a base percentage of 2.20 percent multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31st year of earned Ohio service credit is calculated at 2.50 percent with an additional one-tenth of a percent added to the calculation for every year over 31 years (2.60 percent for 32 years, 2.70 percent for 33 years and so on) until 100.00 percent of the final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.50 percent instead of 2.20 percent. Under the “money-purchase benefit” calculation, a member’s lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

DC Plan Benefits - Benefits are established under Sections 3307.80 to 3307.89 of the Ohio Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 10.50 percent are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. Employer contributions into members’ accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the members’ designated beneficiary is entitled to receive the members’ account balance.

NOTE 13: **PENSION PLANS** (CONTINUED)

A. State Teachers Retirement System (Continued)

Combined Plan Benefits - Member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment. A member's defined benefit is determined by multiplying 1.00 percent of the member's final average salary by the member's years of service credit. The defined benefit portion of the Combined Plan payment is payable to members on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or equivalent lump-sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3.00 percent of the original base amount for DB Plan participants.

The DB and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

A DB or Combined Plan member with five or more years' credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up \$2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

For fiscal year ended June 30, 2012 (the latest information available), members were required to contribute 10.00 percent of their annual covered salary and the School District was required to contribute 14.00 percent. Member and employer contribution rates were established by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10.00 percent for members and 14.00 percent for employers provided by Chapter 3307 of the Ohio Revised Code. Of the 14.00 percent contributed by the School District, 13.00 percent was the portion used to fund pension obligations.

The School District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2013, 2012, and 2011 were \$1,342,421, \$1,288,066, \$1,257,051, respectively; 86.60 percent has been contributed for fiscal year 2013 and 100 percent for fiscal years 2012 and 2011. Member and employer contributions actually made for the Defined Contribution and Combined Plan participants will be provided upon written request.

NOTE 13: **PENSION PLANS (CONTINUED)**

B. School Employees Retirement System

Plan Description - The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement, disability, and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report can be obtained on SERS' website at www.ohsers.org under *Employer/Audit Resources*.

Funding Policy - Plan members are required to contribute 10.00 percent of their annual covered salary and the School District is required to contribute 14.00 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund) of the System. For fiscal year ending June 30, 2013, the allocation to pension and death benefits is 13.10 percent. The remaining 0.90 percent of the 14.00 percent employer contribution rate is allocated to the Health Care and Medicare B funds. The School District's pension and death benefits contributions to SERS for the years ended June 30, 2013, 2012, and 2011 were \$563,429, \$541,296, \$457,578, respectively; 95.63 percent has been contributed for fiscal year 2013 and 100 percent for fiscal year 2012 and 2011.

NOTE 14: **POST-EMPLOYMENT BENEFITS**

A. State Teachers Retirement System

Plan Description – STRS Ohio administers a pension plan that is comprised of: a Defined Benefit Plan; a self-directed Defined Contribution Plan, and a Combine Plan that is a hybrid of the Defined Plan and the Defined Contribution Plan.

Ohio law authorizes STRS Ohio to offer a cost-sharing, multiple employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums.

Pursuant to 3307 of the Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent *Comprehensive Annual Financial Report* by visiting www.strsoh.org or by requesting a copy by calling toll-free 1-888-227-7877.

NOTE 14: **POST-EMPLOYMENT BENEFITS (CONTINUED)**

A. State Teachers Retirement System (Continued)

Funding Policy - Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14.00 percent employer contribution rate, 1.00 percent of covered payroll was allocated to post-employment health care for years ended June 30, 2012, 2011 and 2010 (the latest information available). The 14.00 percent employer contribution rate is the maximum rate established under Ohio law. For the fiscal years ended June 30, 2013, 2012, and 2011, the School District's contributions to post-employment health care were \$103,263, \$99,082, \$96,696, respectively; 86.60 percent has been contributed for 2013 and 100 percent for fiscal years 2012 and 2011.

B. School Employees Retirement System

Plan Description – In addition to a cost-sharing multiple-employer defined benefit pension plan described in Note 13, SERS administers two postemployment benefit plans.

Medicare Part B Plan - The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code (ORC) 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B monthly premium for calendar year 2013 was \$104.90 for most participants, but could be as high as \$335.70 per month depending on their income. SERS' reimbursement to retirees was \$45.50.

The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal year 2013, the actuarially required allocation is 0.74 percent. For the fiscal years ended June 30, 2013, 2012, and 2011, the School District's contributions to the Medicare Part B Plan were \$31,827, \$31,966, \$29,446, respectively; 95.63 percent has been contributed for fiscal year 2013 and 100 percent for fiscal years 2012 and 2011.

Health Care Plan – ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plan from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

NOTE 14: **POST-EMPLOYMENT BENEFITS (CONTINUED)**

B. School Employees Retirement System (Continued)

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code § 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14.00 percent contribution to the Health Care Fund. For the year ended June 30, 2013, the health care allocation is 0.16 percent. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2.00 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.50 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2013, the minimum compensation level was established at \$20,525. The surcharge, added to the unallocated portion of the 14.00 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contributions assigned to health care for the years ended June 30, 2013, 2012 and 2011 were \$64,229, \$86,035, \$114,674, respectively; 95.63 percent has been contributed for fiscal year 2013 and 100 percent for fiscal years 2012 and 2011.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports of SERS' Health Care and Medicare B plans are included in its Comprehensive Annual Financial Report. The report can be obtained on SERS' website at www.ohsers.org under *Employers/Audit Resources*.

NOTE 15: **OTHER EMPLOYEE BENEFITS**

A. Compensated Absences

The criteria for determining vacation, personal, and sick leave benefits are derived from negotiated agreements and State laws. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers and other nine month employees do not earn vacation time. Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Upon retirement, an employee is paid for up to 50 percent of accumulated sick days up to a maximum of 270 accumulated sick days. New negotiated agreements with staff will phase this percentage down to 25 percent over the next year.

NOTE 16: LONG-TERM OBLIGATIONS

Changes in long-term obligations of the School District during fiscal year 2013 were as follows:

	Principal Outstanding June 30, 2012	Additions	Reductions	Principal Outstanding June 30, 2013	Due in One Year
Governmental Activities					
<u>General Obligation Notes</u>					
2006 Energy Conservation Note, \$2,156,818, 3.88%	\$ 963,162	\$ -	\$ 227,094	\$ 736,068	\$ 235,990
<u>Other Long-term Obligations</u>					
Capital Leases (See Note 17)	-	287,691	26,027	261,664	54,704
Compensated Absences	3,786,146	580,301	603,944	3,762,503	627,746
Total Governmental Activities	<u>\$ 4,749,308</u>	<u>\$ 867,992</u>	<u>\$ 857,065</u>	<u>\$ 4,760,235</u>	<u>\$ 918,440</u>

On March 30, 2006, the School District entered into a 10-year installment payment agreement with Citimortgage, Inc. for \$2,156,818, bearing interest at the rate of 3.88 percent per annum. The proceeds were used for the purpose of renovating and otherwise improving energy conservation at the School District's facilities. The annual debt service payments are paid out of the permanent improvement capital projects fund.

The School District's compensated absences liability will mainly be retired from the general fund. Several other special revenue funds will be responsible for a portion of the liability.

The School District entered into two capital leases during fiscal year 2013. These leases will be paid out of the general fund. Further information is provided in Note 17.

Principal and interest requirements to retire general obligation debt outstanding as of June 30, 2013 are as follows:

Year Ending June 30,	General Obligation Notes		
	Principal	Interest	Total
2014	\$ 235,990	\$ 26,293	\$ 262,283
2015	245,236	17,047	262,283
2016	254,842	7,441	262,283
Total	<u>\$ 736,068</u>	<u>\$ 50,781</u>	<u>\$ 786,849</u>

NOTE 17: CAPITAL LEASES

The School District entered into two capital leases for various copiers and related equipment, in the total amount of \$287,691. These leases qualify as capital leases for accounting purposes and, therefore have been recorded at the present value of the future minimum lease payments as of the lease inception dates for the governmental activities in the statement of net position. Corresponding capital assets have been recorded for the same amount and no depreciation expense was charged during the fiscal year. These leases will be repaid from the general fund. For the governmental funds' statement of revenues, expenditures, and changes in fund balance, the lease payments have been reclassified from the functional expenditures to principal and interest expenditures.

The future minimum lease payments required under the remaining capital leases are as follows:

Year Ending <u>June 30,</u>	Governmental Activities
2014	\$ 58,584
2015	58,584
2016	58,584
2017	58,584
2018	36,933
Total	<u>271,269</u>
Less: Amounts representing interest	(9,605)
Present value of minimum	
Lease payments	<u><u>\$ 261,664</u></u>

NOTE 18: JOINTLY GOVERNED ORGANIZATIONS

A. Ohio Schools' Council Association

The Ohio Schools' Council Association (Council) is a jointly governed organization among one hundred twenty-one school districts. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board meets monthly September through June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. In fiscal year 2013, the School District paid \$1,263 to the Council. Financial information can be obtained by contacting Dr. David A. Cottrell, the Executive Director of the Ohio Schools' Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

NOTE 18: JOINTLY GOVERNED ORGANIZATIONS (CONTINUED)

A. Ohio Schools' Council Association (Continued)

The School District participates in the Council's prepaid natural gas program. The Council provides participating school districts the ability to purchase natural gas at reduced rates, if the school districts will commit to participating for a twelve year period. There are currently 137 districts in the Program. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

The School District also participates in the Council's electric purchase program. The Council provides 238 school districts and 11 MR/DD boards in the First Energy territory (Cleveland Electric Illuminating, Ohio Edison, Toledo Edison) the ability to purchase electricity at reduced rates if the school district committed to participating in either a thirty-six month (Cleveland Electric Illuminating Company) or a forty-four month (Ohio Edison and Toledo Edison) program beginning either May 1, 2005 or January 1, 2006 and ending December 31, 2009. Each month, the Council invoices participants based on estimated usage that was determined when the program was established. Each September, these estimated payments are compared to their actual usage for the year (July to June). Refund checks are issued to districts that consumed less than their projected usage of electrical energy and districts that over-consumed are invoiced.

B. Lake Geauga Computer Association

The Lake Geauga Computer Association (the LGCA) is a jointly governed organization that was formed for the purpose of providing computer services for accounting, grading, scheduling, EMIS, and other applications to its eighteen member school districts. Each of the districts supports LGCA based upon a per pupil charge. The School District contributed \$70,935 to LGCA during fiscal year 2013. The Executive Committee (Governing Board) consists of the superintendents and treasurers of the member school districts. The degree of control exercised by any participating school district is limited to its representation on the Governing Board. LGCA's continued existence is not dependent on the School District's continued participation. LGCA is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit or burden on the School District. Financial information can be obtained by contacting the Treasurer at the Geauga County Educational Service Center, who serves as the fiscal agent, at 470 Center Street, Chardon, Ohio 44024.

C. Auburn Career Center

The Auburn Career Center is a joint vocational school district which is a jointly governed board appointment organization among eleven school districts. Each participating school district appoints one member to the Auburn Career Center's Board of Education. The students of each participating school district may attend classes offered at the vocational facility. Each participant's control over the operation of the Auburn Career Center is limited to its representation on the Board. The Auburn Career Center receives 1.5 mills of the School District's property tax, which is paid to the Auburn Career Center directly by Geauga County. No other contribution by the School District is required. Continued existence of the Auburn Career Center is not dependent on the School District's continued participation. Financial information can be obtained from 8140 Auburn Road, Painesville, Ohio 44077.

NOTE 19: INSURANCE PURCHASING POOL

The School District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP) was established through the Ohio Association of School Business Officials (OASBO) as a group purchasing pool. The Executive Director of the OASBO, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

NOTE 20: CLAIMS SERVICING POOL

The School District participates in the Lake County Council of Governments Health Care Benefits (HCBP) Self Insurance Program, a claims servicing pool comprised of nine Lake County school districts organized under Chapter 167 of the Ohio Revised Code. Each school district has a representative on the assembly (usually the superintendent or a designee). Each member pays an administrative fee to the pool. The plan's business and affairs are conducted by a five-member Board of Directors elected by the HCBP's assembly. The assembly elects officers for one-year terms to serve on the Board of Directors. The School District pays a monthly contribution, which is placed in a common fund from which claim payments are made for all members. The Council is a separate and independent entity governed by its own set of bylaws and constitution. All assets and liabilities are the responsibility of the Council. The program is operated as a full indemnity program with no financial liability (other than the monthly premiums) or risk to the School District. The Council shall pay the run out of all claims for a withdrawing member. Any member which withdraws from the Council pursuant to the program agreement shall have no claim to the Council's assets.

NOTE 21: CONTINGENCIES

A. Grants

The School District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2013, if applicable, cannot be determined at this time.

B. Litigation

The School District is party to legal proceedings. The School District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

NOTE 22: INTERFUND TRANSACTIONS

A. Interfund Receivables and Payables

The composition of interfund balances as of June 30, 2013, is as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Nonmajor Governmental Funds	\$ 565,358

On the fund financial statements, the general fund reported an interfund receivable and the nonmajor governmental funds reported interfund payables of \$565,358. The general fund provided loans to the nonmajor governmental funds in the amount of \$565,358 to eliminate negative cash balances. The general fund covered the cash deficits in the nonmajor governmental funds until funds are received from the grantor. The School District anticipates receiving reimbursements from the grantor shortly after year-end.

B. Interfund Transfers

During fiscal year 2013, the general fund transferred \$39,000 to the food services fund to subsidize the food service operations, \$52,000 to the district managed district managed activity fund to subsidize services provided, and \$2,000,000 to the permanent improvement fund to assist in funding for capital improvements made throughout the School District.

NOTE 23: SET-ASIDE REQUIREMENTS

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the changes in the fiscal year end set-aside amounts for capital acquisition. Disclosure of this information is required by State statute.

	Capital Improvements Reserve
Set-Aside Reserve Balance, as of June 30, 2012	\$ -
Current Year Set-Aside Requirements	297,547
Qualifying Disbursements	(2,690,184)
Total	\$ (2,392,637)
Set-Aside Balance, as of June 30, 2013, and carried forward to future fiscal years	\$ -

NOTE 23: SET-ASIDE REQUIREMENTS (CONTINUED)

Although the School District had qualifying disbursements during the year that reduced the capital improvements set-aside amount below zero, these extra amounts may not be used to reduce the set-aside requirement in future fiscal years.

In addition to the above statutory reserves, the School District also received monies restricted for school bus purchases. As of June 30, 2013, the amount restricted for school bus purchases presented in the governmental funds was \$58,165.

NOTE 24: OTHER COMMITMENTS

The School District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end are components of fund balance for subsequent year expenditures and may be reported as part of restricted, committed, or assigned classifications of fund balance. As of June 30, 2013, the School District's commitments for encumbrances in the governmental funds were as follows:

	Encumbrances <u>Outstanding</u>
General	\$ 462,235
Permanent Improvement	843,631
Nonmajor Governmental	<u>34,255</u>
Total	<u><u>\$ 1,340,121</u></u>

**COMBINING STATEMENTS OF
INDIVIDUAL FUND SCHEDULES**

Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for an report the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are restricted or committed for specified purposes other than debt service or capital projects. A description of the School District's nonmajor special revenue funds follow:

Food Service - This fund accounts for the provision of food service to the School District.

Uniform School Supplies - This fund accounts for the purchase of necessary supplies, materials, or other school related items above those items provided for general instruction, paid for by students. As a result of the School District's implementation of GASB Statement No. 54, this fund has been combined with the General Fund on the governmental fund financial statements. This fund is a separate legally adopted budget and has not been combined with the General Fund on the budgetary statement and schedules.

Special Rotary – This fund accounts for field trip collections within the School District. As a result of the School District's implementation of GASB Statement No. 54, this fund has been combined with the General Fund on the governmental fund financial statements. This fund is a separate legally adopted budget and has not been combined with the General Fund on the budgetary statement and schedules.

Public School Support - This fund is used for the general support of the school building, staff, and students. As a result of the School District's implementation of GASB Statement No. 54, this fund has been combined with the General Fund on the governmental fund financial statements. This fund is a separate legally adopted budget and has not been combined with the General Fund on the budgetary statement and schedules.

Other Grants – This fund accounts for monies received to promote community involvement and to support activities between the School District and community.

Special Enterprise – This fund accounts for the operation of the Community Fitness Center funded through charges for services from families and corporations.

Special Levy – This fund accounts for the taxes levied by the Lake County School Financing District for the provision of the following specified educational programs and services by the school districts that are part of the Financing District: the provision of necessary personnel, materials, supplies, and transportation for instruction in language arts, social studies, mathematics, fine and practical arts, health and physical education, science, and business education.

Termination Benefits – This fund accumulates monies to pay termination benefits to eligible employees. As a result of the School District's implementation of GASB Statement No. 54, this fund has been combined with the General Fund on the governmental fund financial statements. This fund is a separate legally adopted budget and has not been combined with the General Fund on the budgetary statement and schedules.

District Managed Student Activity - This fund is used to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund includes all athletic programs, except supplemental coaching contacts, and accounts for revenues and costs of the School District's athletic programs.

Management Information Systems - This fund is used to account for revenue provided by the State of Ohio to be used solely for costs associated with the requirements of the education management information system required by Senate Bill 140.

Entry Year Teachers - This fund is used to implement entry-year programs pursuant to Division (T) of Section 3317.024 of the Ohio Revised Code.

Data Communication - This fund is used to account for money appropriated for Ohio Educational Computer Network Connections.

School Net Professional Development - This fund was established to provide training for teachers to become practitioners. This fund is provided to account for a limited number of professional development subsidy grants.

Summer School Intervention - This fund accounts for summer intervention services satisfying criteria defined in Division (E) of Section 2318.608 of the Ohio Revised Code.

Miscellaneous State Grants - This fund is used to account for various monies received from state agencies which are not classified elsewhere. A separate special cost center must be used for each grant and approved by the Auditor of State.

Education Jobs – This fund was established to provide compensation and benefits and other expenses, such as support services necessary to retain existing employees, to recall or rehire former employees, and to hire new employees, in order to provide early childhood, elementary or secondary educational and related services.

IDEA, Part B Special Education of Handicapped Children - The purpose of this Federal program is to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least-restrictive, alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Title III – Limited English Proficiency – The purpose of this Federal program is to provide funds to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

Title I - Disadvantaged Children/Targeted Assistance - This fund is used to provide financial assistance to state and local educational agencies to meet the special needs of educationally deprived children.

Drug-Free Schools Grant - This fund provides funds to local educational agencies and consortia of these agencies to establish, operate, and improve local programs of drug abuse prevention, early intervention, rehabilitation referral, and education in elementary and secondary schools, and to engage in development, training, technical assistance, and coordination activities.

IDEA – Preschool Grant for the Handicapped – The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

Improving Teacher Quality - This fund is used to account for monies to hire additional classroom teachers in grades 1 through 3 so that the number of students per teacher will be reduced.

Miscellaneous Federal Grants - This fund is used to account for various monies received through state agencies from the Federal government or directly from the Federal government. This program is to provide individual instructions to first and second grade students in the academic area of reading and math, with the assistance of a trained group of adult volunteers using appropriate service training activities.

Nonmajor Capital Projects Fund

Capital Projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets (other than those financed by proprietary funds). Following is a description of the nonmajor capital projects funds:

School Net - This fund is used to account for monies received by the State of Ohio for the purpose of purchasing computers for K-4 grades.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurement of results of operations.

Private Purpose Trust Fund

Private Purpose Trust Scholarship - This fund accounts for scholarships provided to students.

Agency Fund

Student Activities Fund - This fund reflects resources that belong to the student bodies of the various schools, accounting for sales and other revenue generating activities.

Imelda - Grade 8

Morgan - Grade 12

Perry Local School District, Lake County, Ohio
Comprehensive Annual Financial Report
For the Fiscal Year Ended June 30, 2013

Statistical Section

This part of the School District’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District’s overall financial health.

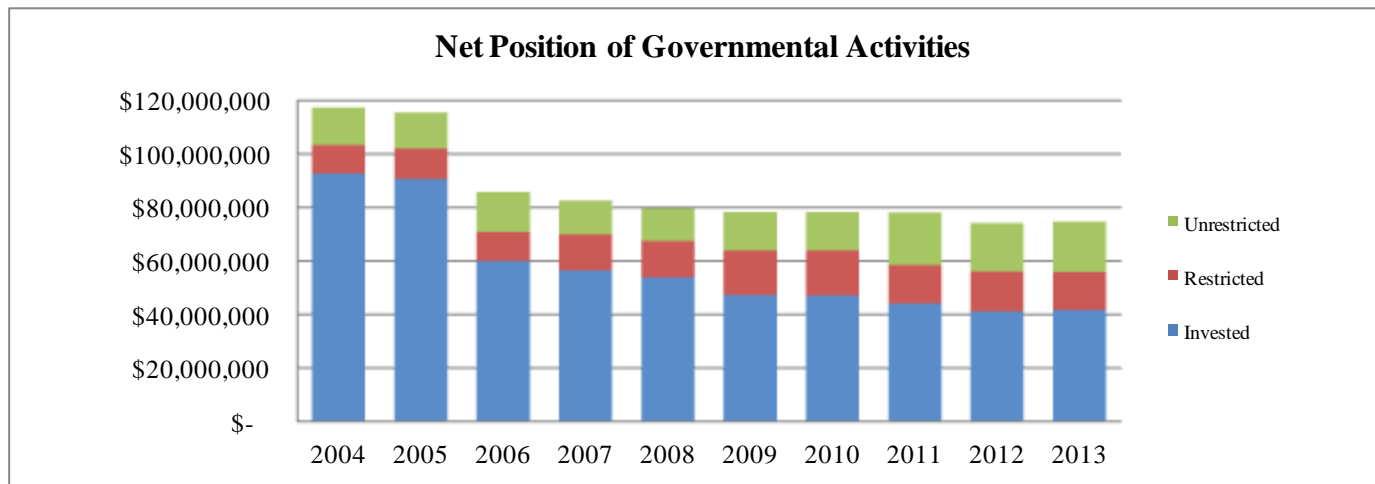

<u>Contents</u>	<u>Page(s)</u>
Financial Trends These schedules contain trend information to help the reader understand how the School District's financial position and well-being have changed over time.	S2-S11
Revenue Capacity These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local revenue source, the property tax.	S12-S18
Debt Capacity These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	S19-S23
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	S24-S25
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	S26-S35

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax is being phased out beginning in 2006. The listing percentage is 18.75 percent for 2006, 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.
