INDEPENDENT AUDITORS' REPORT

The Retirement Board
State Teachers Retirement System of Ohio, and
The Honorable Dave Yost, Auditor of State

Report on Schedules

We have audited the accompanying schedule of employer allocations of State Teachers Retirement System of Ohio (STRS Ohio), as of and for the year ended June 30, 2014, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense as of and for the year ended June 30, 2014 and the net pension liability as of June 30, 2013 (specified column totals), included in the accompanying schedule of pension amounts by employer of STRS Ohio, and the related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the schedule of pension amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

The Retirement Board

The Honorable Dave Yost, Auditor of State

entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities for STRS Ohio as of and for the year ended June 30, 2014 and net pension liability as of June 30, 2013, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of STRS Ohio as of and for the year ended June 30, 2014, and our report thereon, dated December 8, 2014, expressed an unmodified opinion on those statements.

Restriction on Use

Our report is intended solely for the information and use of the management of STRS Ohio, The Retirement Board, Ohio STRS employers, and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 26, 2015, on our consideration of STRS Ohio's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering STRS Ohio's internal control over financial reporting.

**Note 1 — Nature and Organization of the Pension Plan
State Teachers Retirement System of Ohio**

The following brief description of State Teachers Retirement System of Ohio (STRS Ohio) is provided for general information purposes only. Users of this report should refer to the June 30, 2014, STRS Ohio *Comprehensive Annual Financial Report* for more information.

Plan Membership — STRS Ohio is a cost-sharing multiple employer statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio (the state) or any school, college, university, institution or other agency controlled, managed and supported, in whole or part, by the state or any political subdivision thereof. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries.

Pension Benefits — New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective Aug. 1, 2015, the calculation will be 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by 2% of the original base benefit. For members retiring Aug. 1, 2013, or later, the first 2% is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or at age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective Aug. 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 and five years of service on Aug. 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5% of the 14% employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5% of the 14% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS Ohio plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS Ohio bearing the risk of investment gain or loss on the account. STRS Ohio therefore has included all three plan options in the GASB 68 schedules of employer allocations and pension amounts by employer.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least 10 years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Contributions — Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. Through June 30, 2014, the employer rate was 14% and the member rate was 11% of covered payroll. The statutory employer rate for fiscal 2015 and subsequent years is 14%. The statutory member contribution rate increased by one percent July 1, 2014, and will be increased one percent each year until it reaches 14% on July 1, 2016.

Note 2 — Measurement Focus and Basis of Accounting

The schedules are presented in accordance with the provisions of the Governmental Accounting Standards Board (GASB), which is the nationally accepted standard setting body for establishing accounting principles generally accepted in the United States of America for governmental entities. As prescribed by GASB, the schedules are reported using the economic resources measurement focus and the accrual basis of accounting.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of STRS Ohio and additions to/deductions from STRS Ohio's fiduciary net position have been determined on the same basis as they are reported by STRS Ohio. For this purpose, benefit payments (including refunds of member contributions) are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

Note 3 — Net Pension Liability

The net pension liability of \$24,323,460,773 was measured as of July 1, 2014, and the total pension liability used to calculate the net pension liability was determined by an independent actuarial valuation as of that date. Each respective employer proportionate share of the net pension liability is based on the employer's share of employer contributions in the pension plan relative to the total employer contributions of all participating STRS Ohio employers. Employer contributions were determined based on the employer rate and total member contributions from employer payroll reports for the year ended June 30, 2014.

The net pension liability as of July 1, 2013, was \$28,973,947,372 and the total pension liability used to calculate the net pension liability was determined by an independent actuarial valuation as of that date. Employers can use the same proportionate share as of and for the year ended June 30, 2014, to determine their proportionate share of the net pension liability as of June 30, 2013.

Note 4 — Deferred Outflows and Deferred Inflows

Deferred outflows and deferred inflows represent the effect of changes in the net pension liability due to the difference between projected and actual investment earnings, differences between expected and actual actuarial experience, changes in assumptions and changes in the employer's proportion of the collective net pension liability and are to be included in pension expense over current and future periods. The difference between projected and actual investment earnings is recognized in pension expense using a straight line method over a five year period beginning in the current year. Deferred inflows and deferred outflows resulting from changes in sources other than differences between projected and actual investment earnings are amortized over a five year period for fiscal year 2014 using a straight line method over the average of the expected remaining service lives of all employees

(both active and inactive) provided with pension benefits. Employer contributions to the pension plan subsequent to the measurement date are also required to be reported as a deferred outflow of resources.

Note 5 — Actuarial Assumptions

The total pension liability in the July 1, 2014, actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	12.25% at age 20 to 2.75% at age 70
Investment rate of return	7.75%, net of investment expenses
Cost-of-living adjustments	2% simple applied as follows: for members retiring before Aug. 1, 2013, 2% per year; for members retiring Aug. 1, 2013, or later, 2% COLA paid on fifth anniversary of retirement date

Mortality Rates — Rates are based on the RP-2000 Combined Mortality Table (Projection 2022–Scale AA) for Males and Females. Males’ ages are set back two years through age 89 and no set back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and no set back from age 90 and above.

Experience Studies — Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study effective July 1, 2012.

Investment Return Assumptions — The 10 year expected real rate of return on pension plan investments was determined by STRS Ohio’s investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and long-term expected real rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>10-Yr Expected Real Rate of Return (Geometric)</u>
Domestic Equity	31%	8.00%
International Equity	26%	7.85%
Alternatives	14%	8.00%
Fixed Income	18%	3.75%
Real Estate	10%	6.75%
Liquidity Reserves	1%	3.00%
Total	100%	

Discount Rate — The discount rate used to measure the total pension liability was 7.75% as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with the rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS Ohio’s fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75% was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2014.

Sensitivity of Net Pension Liability to Changes in the Discount Rate — The following table presents the net pension liability as of June 30, 2014, calculated using the current period discount rate

Sensitivity of Net Pension Liability to Changes in the Discount Rate — The following table presents the net pension liability as of June 30, 2014, calculated using the current period discount rate assumption of 7.75%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75%) or one percentage point higher (8.75%) than the current assumption (dollars in thousands).

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
Net Pension Liability	\$34,821,686	\$24,323,461	\$15,445,495

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Retirement Board
State Teachers Retirement System of Ohio, and
The Honorable Dave Yost, Auditor of State

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the schedule of employer allocations and the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense as of and for the year ended June 30, 2014 and the net pension liability as of June 30, 2013 (specified column totals), included in the schedule of pension amounts by employer of State Teachers Retirement System of Ohio (STRS Ohio), and have issued our report thereon dated June 26, 2015.

Internal Control Over Financial Reporting

Management of the STRS Ohio is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audits, we considered STRS Ohio's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer, but not for the purpose of expressing an opinion on the effectiveness of STRS Ohio's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of STRS Ohio's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audits we did

The Retirement Board
State Teachers Retirement System of Ohio, and
The Honorable Dave Yost, Auditor of State

not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether STRS Ohio 's schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of STRS Ohio's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering STRS Ohio's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
