INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Strongsville
Cuyahoga County
16099 Foltz Parkway
Strongsville, Ohio 44149

To the City Council:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Strongsville, Cuyahoga County, Ohio, (the City) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated April 29, 2016, wherein we noted the City adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and also GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the City's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the City's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

April 29, 2016

Members of City Council and
Honorable Citizens of Strongsville, Ohio

We are pleased to submit the Comprehensive Annual Financial Report of the City of Strongsville for the year ended December 31, 2015.

This report enables the City to comply with Ohio Administrative Code Section 117-2-03 (B), which requires reporting on a GAAP (Generally Accepted Accounting Principles) basis, and Ohio Revised Code Section 117.38 which requires cities to file unaudited general purpose external financial statements with the Auditor of State within 150 days of year end.

Management assumes full responsibility for both the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Dave Yost, Auditor of State, has issued an unmodified ("clean") opinion on the City of Strongsville's financial statements for the year ended December 31, 2015. The Independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal, and should be read in conjunction with it.

Profile of the Government

The City of Strongsville is approximately 25 square miles and is located in Cuyahoga County in northeastern Ohio, approximately 23 miles southwest of the City of Cleveland. Strongsville was founded in 1816, became a township in 1818, a village in 1927, and became a city in 1961 under the laws of the State of Ohio. In 2010 the U.S Census Bureau reported that Strongsville had a population of 44,750, up 2 percent from 43,858 in 2000.

The City of Strongsville operates and is governed by its Charter, first adopted by the voters on November 4, 1958. The Charter has been and may be amended by the voters from time to time. A nine-member Charter Review Commission reviews the Charter every five years, and most recently did so in 2013. The City is also subject to some general laws applicable to all cities. Under the State of Ohio Constitution the City may exercise all powers of local self-government and police powers to the extent not in conflict with applicable laws. The Charter provides for a mayor-council form of government.

Legislative authority is vested in a seven member council. Three members are elected at-large, and four members are elected from wards. The Council fixes compensation of City officials and employee's, enacts ordinances and resolutions relating to City services, tax levies, appropriations, borrowing money, licensing and regulating businesses and trades, and other municipal purposes. The presiding officer is the President of Council, who is elected by Council for a one year term. The Charter establishes certain administrative departments and Council may establish additional departments and divisions within departments.

The City of Strongsville's chief executive and administrative officer is the Mayor, who is elected by the voters for a four year term. The Mayor appoints, subject to approval of a majority of the members of Council, the Directors of the City's departments. The Mayor also acts as the Director of Public Safety when there is a vacancy in that position, although currently no such vacancy exists, oversees the enforcement of all laws and ordinances, and executes all contracts, conveyances, evidences of indebtedness, and all other instruments to which the municipality is a party.

The City provides its residents with a full range of municipal services. These services include, among other things, police, fire, emergency medical assistance, recreation and senior programs, building code enforcement, sanitary and storm sewer maintenance, street maintenance and repair, street lighting, traffic signalization, snow removal, refuse disposal, cemetery services and the maintenance of all City lands, buildings and equipment.

The City of Strongsville maintains its legal level of budgetary control at the department level, separated into the categories of Personal Service, Other than Personal Service, and Transfers and Advances. The Finance Director is authorized to allocate appropriations for function and object levels within the same department and category as explained above without prior Council approval, as long as the total appropriation for each department and category does not exceed that of the Council-approved appropriation.

Profile of the City

The City of Strongsville is served by diversified transportation facilities, including two State highways, U.S. Highway 42 and 82, and Interstate Highways I-71 and I-80 (the Ohio Turnpike). It is served by CSX Railroad for freight rail services, Amtrak for passenger rail services located in nearby Cleveland, and is served by passenger and freight air services at Cleveland Hopkins International Airport, located within five miles of the City, and Burke Lakefront Airport located in downtown Cleveland. Public mass transit for the area is provided by the Greater Cleveland Regional Transit Authority.

Within a 30-minute drive from the City are the locations of the Rock and Roll Hall of Fame, Progressive Field, Quickens Loan Arena, FirstEnergy Stadium, the world-class Cleveland Orchestra, the Cleveland Museum of Art, the Natural History Museum, the Western Reserve Historical Society, the Cleveland Playhouse and Karamu House, a multi-racial performing arts center. These and other facilities in the area offer an extensive variety of cultural and educational programs to the residents of Strongsville, as well as professional sports including baseball, basketball and football.

The City of Strongsville owns three parks offering residents a variety of activities to improve health and fitness. The 57-acre Strongsville Recreation Park has three baseball diamonds and tennis courts. Surrarer Park, on the City's east side, has a baseball diamond, tennis courts and a covered pavilion. Volunteer Park, on the City's west side, has six baseball diamonds, a covered picnic area, bocce ball court and horseshoe pits. The Youth Sports Park also on the City's west side has a regulation football field, three youth baseball fields and a covered picnic area. The Strongsville Business & Technology Park, home of the Strongsville Soccer Organization, offers residents many opportunities for fitness related activities. City residents can also take advantage of the Cleveland Metroparks within minutes of home. Located in the City section of the park system are the popular toboggan chutes, Mill Stream Run and a facility for year round recreational activities, the Chalet. Gardenview Horticultural Park is a botanical park located on 16 acres near the south end of the City. Visitors can view more than 500 species of trees and plants.

Economic Development

The City of Strongsville is home to a diverse, growing local economy that maintains a solid tax base through established business parks and a thriving commercial sector. Development in the City of Strongsville has closely followed the City's Comprehensive Master Plan, which was first developed in the early 1960s and has been modified regularly to accommodate changes in the economic climate. As part of that plan, four industrial development areas, totaling over 2,362 acres, have been established within the City featuring large setbacks and ample green space, resulting in a "park-like" atmosphere. A summary of each of the four business parks is listed below:

The Strongsville Business & Technology Park

- 1,693 acres; 70% developed
- 3,422,143 SF of build-out with a 2.16% vacancy rate
- Home to over 70 companies that employ over 3,000 employees
- Ranked as the #1 industrial park in Northeast Ohio by Crain's Cleveland Business (9/2015)
- Over 500 acres of undeveloped, greenfield land available for future industrial development
- Major employers in the park: Momentive Performance Material's Quartz Division, Vitamix, Foundation Software, Clark Reliance's Corporate Headquarters, Sparton Medical Devices, CCL Label, and Eberhard Manufacturing

The Dow Circle Research & Development Park

- 258 acres; 95% developed
- 972,812 SF of build-out with a 0.66% vacancy rate
- Home to over 30 companies that employ over 2,600 employees
- Major employers in the park: Regional Headquarters for Enterprise Rental Car, Lumitex, Akzo Nobel Coatings and PNC Bank's Technology Center

The Progress Drive Business Park

- 325 acres; 96% developed
- 1,508,326 SF of build-out with a 5.99% vacancy rate
- Home to over 40 companies that employ over 2,000 employees
- Ranked as the #8 industrial park in Northeast Ohio by Crain's Cleveland Business (9/2014)
- Major employers in the park: Corporate Headquarters of Atlantic Tool & Die, PPG Industries and Insight/Chemical Services

Park 82

- 86 acres; 100% developed
- 953,450 SF of build-out with 4.17% vacancy rate
- Home to 19 companies that employ over 1,000 employees
- Major employers in the park: Darice Inc., HMI, Intralot and Dealer Tire

Overall, Strongsville's business parks are home to 6,856,731 SF of industrial/high tech build-out with a vacancy rate of 3.07%, as of January 31, 2016.

Job growth within the business parks continued to be robust in 2015. A highlight of several projects within the business parks include:

Akzo Nobel Global RD&I Center

- Company Description:* Research Development & Innovation Center for Industrial Coatings
- Business Park:* Dow Circle Research & Development Park
- Converting 77,500 SF of former warehouse space into high-tech labs
- \$10 million investment

Quadax

- Company Description:* Medical Billing Specialist
- Business Park:* Dow Circle Research & Development Park
- Leased 11,000 SF of office space
- Relocating 72 employees to Strongsville

Solar X

- Company Description:* Sun Glass Distributor
- Business Park:* Strongsville Business & Technology Park
- Leased 28,100 SF of distribution space
- Relocated 50 employees to Strongsville

Clark-Reliance Expansion

- Company Description:* Manufacturer of level indication/filtration products
- Business Park:* Strongsville Business & Technology Park
- 22,676 SF expansion to existing 86,000 SF manufacturing facility
- Expansion includes 11,000 SF, two story office expansion
- \$3.6 million investment

ArtWall

- Company Description:* Online Art Printer/Reproducer
- Business Park:* Strongsville Business & Technology Park
- Leased 33,680 SF facility
- Relocated 35 employees to Strongsville

Automation Manufacturing Solutions

- Company Description:* Designer & Builders of Automated Machine Technologies
- Business Park:* Progress Drive Business Park
- Purchased 15,180 SF manufacturing facility
- Relocated 15 technical manufacturing positions to Strongsville

Kiwi Creative

- Company Description:* Firm specializing in branding, graphic design, and online marketing
- Business Park:* Strongsville Business & Technology Park
- Relocated 10 employees to Strongsville

To facilitate the expansion and attraction of economic development projects, the City utilizes four tax incentive programs:

- **Community Reinvestment Area (CRA) Program**
The City has established nineteen (19) Pre-1994 CRAs within and surrounding Strongsville's business parks. Improvements within these CRAs are granted an exemption from real estate property taxes for 100% of the incremental increase in assessed value for a period of up to 15 years.
- **Strongsville Job/Payroll Creation Incentive Grant Program**
In 2013, the City of Strongsville created a new incentive program designed to attract large end-users with significant payroll to the community. Under the Strongsville Job/Payroll Creation Incentive Grant Program, a company that creates and maintains over \$6 million in new annual payroll within the City is eligible for an annual grant payment based on a percentage of the annual payroll withholding taxes generated by the project.
- **Enterprise Zone Program**
The City's Enterprise Zone Program provides tax incentives in a designated Enterprise Zone to businesses that agree to invest in capital improvements and create or retain jobs. Tax incentives under this program are negotiated and can provide tax abatements of up to 75% for a term of up to ten years, subject to City, County and State approval.
- **Foreign Trade Zone (FTZ)**
The City has seven (7) established FTZs within the City's business parks. FTZs allow companies to defer, reduce, or eliminate US Customs' duties.

In addition to the local tax incentive programs, the City of Strongsville utilizes County programs such as the Storefront Renovation Program and Brownfield Redevelopment Funds, as well as State programs for job creation and workforce development.

Long-Term Financial Planning, Initiatives and Accomplishments

The City's entire bond portfolio is rated Aaa by Moody's Investors Service. This is the highest rating a city can receive, which attests to the City's prudent fiscal management and strong economic health.

In the past eight years, the City has reduced its workforce by forty-two employees net of the new additional hires needed for the new regional dispatch center, and has found innovative ways to further reduce costs without a reduction in services provided to its residents. The City continues to pay down its debt, and took advantage of an advance refunding opportunity in 2015 that resulted in a cash savings of \$701,993 over the remaining life of the bonds.

Although the City has not adopted a formal minimum fund balance policy, we have always strived to maintain fund balances that would finance at least a minimum of three months (25 percent) of operations. The Finance Department reviews all transactions on an on-going basis, balances bank accounts daily, and works diligently to manage and monitor revenues and expenditures to ensure that adequate fund balances are maintained.

The City's Tax Increment Financing (TIF) Specialist along with the Mayor and Director of Finance, have aggressively pursued the use of TIF Financing as an economic development tool. The City currently has six areas designated as TIF Financing Districts and is waiting for final State approval on nine additional TIF districts. Total TIF revenue collected since the inception of the TIF program has now reached \$7,692,260.

The Earned Benefits Fund which was created in 2012 continues to be funded. This fund will be used to account for the resources set aside for payment of accumulated sick leave and vacation leave balances upon the termination of employment by employees of the City, and for the payment of salaries and wages during a twenty-seven pay year occurring once every eleven years.

The City's Engineering Department has developed a proactive 10-phase Sanitary Sewer Capital Improvement Plan designed to eliminate some 663 of the 850 septic systems in place throughout the City. The first three phases of this plan have been completed at a total construction cost of \$3,366,349 including grant funding from the Ohio Public Works Commission totaling some \$795,976. Loans from the Ohio Water Development Authority were obtained to pay the residents' share of the construction costs, which will be repaid from the proceeds of special assessments levied against the property owners who benefitted from these projects. During 2013, the preliminary surveying and design work began for Phase IV of the 10-phase project with a total of 91 septic systems scheduled to be eliminated. Construction on this Phase of the project is scheduled to begin in early 2016, with a total estimated cost of \$2,021,000, which includes water line and storm sewer upgrades.

In 2015 the City also continued with a sanitary sewer rehabilitation program that began in 2011. This program was designed to help alleviate sewer backups in basements caused by storm water inflow and infiltration into the sanitary sewer system during heavy rains. The process involves pressure testing each joint in a designated public sanitary sewer line. If the joint fails the pressure test, grout is pumped in to seal the joint, and it is tested again to ensure that it has been properly sealed.

The City has continued its commitment to improve infrastructure throughout the City, and to also upgrade its vehicle fleet. Approximately \$3.7 million was spent on roadway projects, concrete replacement and asphalt reconstruction, while a combined \$1.8 million was spent on the replacement of four pickup trucks with plows, four one-ton snow plows, an asphalt hauler box trailer, a sanitary sewer camera truck, a tractor, a gator, nine police vehicles, two Harley Davidson police motorcycles and a new pumper.

The City recently entered into two separate project agreements with the Ohio Department of Transportation. The first project is the repair and resurfacing of a 2.4 mile stretch of Pearl Road from Shurmer Road north to Valley Parkway at a cost of approximately \$2.1 million. Federal funding will provide some eighty percent of the eligible cost of this project, which amounts to \$1,689,200. The second project is the widening of the entrance ramp from State Route 82 eastbound to Interstate Route 71 northbound from one lane to two lanes, designed to alleviate excessive queuing in the State Route 82 curb lane at a cost of approximately \$1,174,000. Federal funding will provide some ninety percent of the eligible cost of the project, which amounts to \$1,056,600.

For more than sixteen years, Strongsville has offered its residents curbside recycling. In 2015, a \$5,000 grant was received to design and distribute the City's Recycling newsletter, "Keeping Strongsville Green". Over 18,000 households now receive the newsletter that promotes the program.

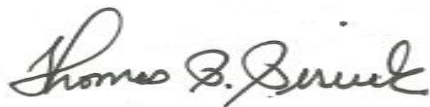

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Strongsville for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2014. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, the City had to publish an easily readable and efficiently organized comprehensive annual financial report that satisfied both generally accepted accounting principles (GAAP) and applicable legal requirements. A certificate is valid for a period of one year only. We believe our current report continues to meet the Certificate of Achievement Program's requirements, and are submitting it to GFOA to determine its eligibility for another certificate.

The successful completion of a report of this scope depends upon the dedicated contributions of many employees. The sincere appreciation of those primarily responsible for the completion of this CAFR is extended to all contributors, but especially those employees in the Department of Finance who have spent their time and energy on various parts of the report, and to the staff from James G. Zupka, Certified Public Accountants, Incorporated, for their assistance in compiling the Comprehensive Annual Financial Report.

In addition we would like to thank the members of Strongsville City Council, for their support in striving for excellence in financial reporting and disclosure.

Respectfully submitted,

Thomas P. Perciak

To the City Council:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Strongsville, Cuyahoga County, Ohio, (the City) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Strongsville, Cuyahoga County, Ohio, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General Fund, Street Construction, Maintenance and Repair Fund, and Fire Levy Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during the year ended December 31, 2015, the City adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and also GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the City's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 29, 2016, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

City of Strongsville, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2015
Unaudited

As management of the City of Strongsville (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2015. We encourage readers to consider the information presented here in conjunction with the additional information contained in the financial statements and the notes thereof.

Financial Highlights

- The City's total assets and deferred outflows of resources exceeded its total liabilities and deferred inflows of resources at the close of 2015 by \$198,496,280.
- The City's total net position increased \$11,543,916 or 6.17 percent in 2015. Net position of the governmental activities increased \$9,642,135, which represents a 7.05 percent increase from 2014. Net position of the business-type activities increased \$1,901,781 or 3.79 percent from 2014.
- The General Fund reported a fund balance of \$15,348,416 at the end of the current fiscal year. The unassigned fund balance for the General Fund was \$12,479,133 or 33.81 percent of the total General Fund expenditures (including transfers out). The General Fund experienced a decrease of \$1,522,930 in its fund balance for the year ended December 31, 2015.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. The statement of net position and statement of activities provide information about the activities of the whole City, presenting both an aggregate view of the City's finances and a longer-term view of those assets. Major fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short term as well as what dollars remain for future spending. The fund financial statements also look at the City's most significant funds with all other nonmajor funds presented in one column.

The *statement of net position* presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the residual being reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

City of Strongsville, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2015
Unaudited

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, security of persons and property, public health services, transportation, community environment, basic utility services, leisure time activities, and interest and fiscal charges. The business-type activities include sanitary sewer services and improvements.

The government-wide financial statements can be found starting on page 19 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on the *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 30 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Street Construction, Maintenance, and Repair Fund, Fire Levy Fund, General Bond Retirement Fund, Pearl Road TIF #1 Fund, and General Capital Improvement Fund, all of which are considered to be major funds. Data from the other 24 governmental funds are combined into a single aggregated presentation.

The basic governmental fund financial statements can be found on pages 22-28 of this report.

Proprietary Funds. The City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its sanitary sewer operations. *Internal Service funds* are an accounting device used to accumulate and allocate costs internally to the City's various functions. The City has one Internal Service Fund to account for workers' compensation coverage.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the sanitary sewer operations as it is considered a major fund and the Internal Service Fund.

City of Strongsville, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2015
Unaudited

The basic proprietary fund financial statements can be found on pages 29-32 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 33 of this report.

Notes to the Basic Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements and can be found on pages 35-80.

Government-wide Financial Analysis

While this document contains information about the funds used by the City to provide services to our citizens, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during 2015?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by the private sector. The accrual basis of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the City's net position and the changes in that position. The change in net position is important because it tells the reader whether, for the City as a whole, the financial position of the City has improved or diminished. However, in evaluating the overall position of the City, non-financial information such as changes in the City's tax base and the condition of capital assets will also need to be evaluated.

The Statement of Net Position and the Statement of Activities are divided into the following categories:

- Assets
- Deferred Outflows of Resources
- Liabilities
- Deferred Inflows of Resources
- Net Position (Assets and Deferred Outflows of Resources minus Liabilities and Deferred Inflows of Resources)
- Program Expenses and Revenues
- General Revenues
- Net Position Beginning and End of Year

* - Restated

During 2015, the City adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

City of Strongsville, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2015
Unaudited

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the City's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the City's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the City is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at December 31, 2014 from \$170,882,117 to \$136,839,342 for Governmental Activities and from \$50,772,687 to \$50,113,022 for Business Type Activities.

City of Strongsville, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2015
Unaudited

Net position may serve over time as useful indicator of a government's financial position. The City's total assets and deferred outflows of resources exceeded its total liabilities and deferred inflows of resources at the close of 2015 by \$198,496,280. Due to the implementation of GASB 68 and the addition of the City's net pension liability of \$40,478,937, the City's unrestricted net position was a negative \$8,950,415 and the governmental activities unrestricted net position was a negative \$18,125,155, respectively. The unrestricted net position of the City's business-type activities was \$9,174,740, with net investment in capital assets accounting for \$42,840,063 or 82.36 percent of the total business-type activities' net position. It is important to note that the unrestricted net position of the City's business-type activities, \$9,174,740, may not be used to fund governmental activities.

The largest portion of the City's total net position (95.83 percent) reflects its investments in capital assets (e.g., land, construction in progress, buildings, land improvements, machinery and equipment, furniture and fixtures, vehicles, and infrastructure), less any related debt used to acquire those assets that is still outstanding along with any related deferred outflows/inflows of resources. The City uses these capital assets to provide services to citizens; therefore, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

Total assets increased from 2014 to 2015 in the amount of \$6,352,527, while the City's total liabilities decreased by \$2,469,536. The increase in assets was primarily due to increases in capital assets along with an increase in cash, that have been set aside to fund certain capital projects in 2016. The decrease in liabilities can be attributed to a decrease in the City's current and other liabilities as a result of paying down the City's notes payable coupled with a reduction of accrued wages, due to the twenty-seventh pay which occurred in 2015 reducing the year end accrual.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for the current year.

Net Position - End of Year	\$ 146,481,477	\$ 136,839,342	\$ 52,014,803	\$ 50,113,022	\$ 198,496,280	\$ 186,952,364

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 functional expenses still include pension expense of \$3,645,735 for Governmental Activities and \$96,555 for Business Type Activities computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expense of \$4,007,402 for Governmental Activities and \$85,570 for Business Type Activities. Consequently, in order to compare 2015 program expenses to 2014, the following adjustments are needed:

City of Strongsville, Ohio

Adjusted 2015 program expenses	57,151,056	6,901,999	64,053,055
Total 2014 program expenses under GASB 27	57,811,840	7,150,206	64,962,046
Decrease in program expenses not related to pension	\$ (660,784)	\$ (248,207)	\$ (908,991)

Governmental Activities

Governmental activities increased the City's net position by \$9,642,135 due to total revenues of \$67,031,902 exceeding total program expenses of \$57,389,767. Several types of revenues fund the City's governmental activities with the City's income tax being the biggest contributor. The income tax rate was 2.00 percent for 2015, the same as the prior year. Both residents of the City and non-residents who work inside the City are subject to the income tax. However, if residents work in a locality that has a municipal income tax, the City has provided a 75.00 percent credit up to 2.00 percent for those who pay income tax to another City. City Council could, by Ordinance, choose to vary that income tax credit and create additional revenues for the City.

The municipal income tax revenue for 2015 was \$34,865,591. Of the \$67,031,902 in total program and general revenues, municipal income tax accounts for 52.01 percent of that total. In 2015, the City experienced an increase in municipal income tax revenues when compared to 2014. This increase can be attributed to a variety of factors that are listed below:

- Increase in the prior years' collections received in 2015 (on a cash-basis) - \$474,731 due in part to the continuation of the Federal Tax Information (FTI) program that was implemented by RITA in 2010. This program matches income reported to the IRS with income reported to RITA to determine if taxpayers are reporting all of their income,
- Increase in income tax withholding collections due to the City's economic development and retention efforts which helped backfill vacant warehouse space, resulting in a 97% occupancy rate in the City's business parks.

Property taxes of \$9,658,805 account for 14.41 percent of total revenues; capital grants and contributions account for 10.49 percent of total revenues; operating grants and contributions, and general revenues from grants and entitlements account for 6.16 percent of total governmental revenues; and charges for services, investment earnings, other taxes, payments in lieu of taxes, and all other revenues make up the remaining 16.93 percent.

City of Strongsville, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2015
Unaudited

General revenues from grants and entitlements, such as local government funds, are also revenue generators. The combination of property tax, income tax, and intergovernmental funding, is not sufficient to cover all expenses in the governmental activities. The City monitors its sources of revenues very closely for fluctuations.

In total, the City's governmental activities experienced a 1.14 percent decrease in 2015 program expenses not related to pension (GASB 68) when compared to 2014 expenses. The largest program function for the City is security of persons and property. During 2015, 42.55 percent of all program expenses relate to security of persons and property, which includes Police and Fire protection. The expenses of this program experienced a 2.52 percent decrease from 2014 to 2015. This decrease was partly due to regionalism costs associated with the completion of the City's new regional dispatch center.

The second largest program function of the City is transportation. During 2015, 28.57 percent of program expenses relate to transportation, which includes road repairs and snow removal. The annual depreciation expense that is included in the total transportation expense is \$6,494,891.

Business-Type Activities

The business-type activities of the City, which pertain to the City's sanitary sewer operations, increased the City's total net position by \$1,901,781. This is primarily due to the 2015 revenues exceeding 2014 revenues coupled with 2015 expenses being lower than 2014 expenses. Revenues increased due to a rate increase by the Northeast Ohio Regional Sewer District (NEORS) that the City passes along to the customers the City provides treatment for. New customers are being added to the City's sanitary sewer system resulting from the City's efforts to convert and eliminate septic systems throughout the City.

Financial Analysis of Governmental Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental Funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of December 31, 2015, the City's governmental funds reported an ending combined fund balance of \$31,353,060, an increase of \$2,890,676 in comparison with the prior year. \$11,937,404 of the ending combined fund balance for 2015 constitutes *unassigned fund balance*, which is available for spending at the City's discretion. The remainder of fund balance is *nonspendable, restricted, or committed* to indicate that it is not available for new spending because it is not in spendable form or it has already been restricted or committed by external or internal constraints.

City of Strongsville, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2015
Unaudited

All governmental funds had total revenues of \$60,447,075 and expenditures of \$58,009,306 (not including other financing sources and uses) with revenues exceeding expenditures by \$2,437,769. Total revenues decreased from the previous year primarily due to a decrease in intergovernmental revenue for capital grants for Pearl Road Phase II, the FEMA grant received from the May 12th and 13th, 2014 flooding event and the Assistance to Fire-fighters FEMA grant to aid in the build out of the regional dispatch center. While intergovernmental revenues decreased, Municipal income taxes, Payments in Lieu of Taxes and Charges for Services increased. Municipal income taxes increased from 2014 which can be attributed to the City's strong, diversified commercial tax base that is not reliant upon a small group of employers or a single industry. 2015 also saw an increase in Payments in Lieu of Taxes due to delinquent collections and new development. Additionally, charges for services increased primarily as a result of the additional billings associated with the City's regional dispatch center.

Total governmental funds expenditures decreased as a result of the completion of Pearl Road Phase II in 2014. Investment in roadway projects, concrete replacement and asphalt reconstruction along with drainage structure repairs continued in 2015 along with an investment in vehicles and equipment that included four one-ton snow plow trucks, four pickup trucks with plows, a tractor, asphalt hauler box trailer, nine police vehicles, two motorcycles and a new pumper.

General Fund Analysis

The General Fund is the chief operating fund of the City. At the beginning of the current year, total fund balance for the General Fund was \$16,871,346. General Fund expenditures (including transfers out) for the current year were \$36,913,943, with revenues and other financing sources of \$35,391,013, leaving a fund balance of \$15,348,416, and an unassigned balance of \$12,479,133 in the General Fund.

As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures (including transfers out). The General Fund's unassigned fund balance represents 33.81 percent of total General Fund expenditures (including transfers out) while total fund balance represents 41.58 percent of that same amount. In 2015, the fund balance of the City's General Fund decreased by \$1,522,930 when compared to 2014. The primary reason for this decrease was management's decision to increase amounts transferred out to other funds in order to provide additional resources for the 2016 street maintenance and repair program along with recreation facility and equipment needs. Also, during 2015, municipal income tax revenues experienced an increase of \$1,091,272 while charges for services increased \$448,515 for dispatch fees associated with the addition of the Cities of Berea and Olmsted Falls to the regional dispatch center.

Other Major Governmental Funds Analysis

The City's Street Construction, Maintenance and Repair Fund experienced an increase of \$327,813 in its 2015 fund balance when compared to 2014. This increase was due to an increase in income tax collections, as well as a FEMA State disaster relief reimbursement.

The City's Fire Levy Fund experienced an increase of \$193,899, in its 2015 fund balance when compared to 2014. This increase will be used to fund facilities renovations that will be completed in 2016.

City of Strongsville, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2015
Unaudited

The City's General Bond Retirement Fund experienced an increase of \$826,289 in its 2015 fund balance when compared to 2014. The main contributor to this increase was the premium associated with the 2015 refunding of the callable portion of Series 2006 and 2009 outstanding bonds and the overall lower interest costs; as well as a reduction of transfers of \$302,992 related to the pay down of bond anticipation notes in 2014.

The City's Pearl Road TIF #1 Fund experienced an increase of \$1,617,272 in its 2015 fund balance when compared to 2014. The main contributor to this increase was due to an increase in payments in lieu of taxes due to delinquent collections and a new development; as well as a reduction of transfers of \$1,312,964 related to the pay down of bond anticipation notes in 2014.

The City's General Capital Improvement Fund experienced a decrease of \$703,804 in its 2015 fund balance when compared to 2014. The main contributor to this decrease was a reduction in transfers coupled with an increase in capital outlay expenditures related to road construction projects.

General Fund Budgetary Highlights

The City's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts and disbursements. The most significant budgeted fund is the General Fund. During the course of 2015, the City amended its General Fund budget on various occasions. All recommendations for budget changes come to the Finance Committee of City Council for review before going to the whole Council for ordinance enactment on the change. The City does allow small interdepartmental budget changes that modify line items within departments within the same fund. The General Fund supports many of the City's major activities such as the Police Department, Fire Department, Service Department, and Recreation Department, as well as most legislative and executive activities. The General Fund is monitored closely, looking for possible revenue shortfalls or overspending by individual departments.

For the General Fund, original budgeted revenues (including other financing sources) were \$35,940,561. The final budgeted revenue amount (including other financing sources) was \$38,893,771. This increase was primarily due to an increase in the estimates for municipal income tax, fees licenses and permits, and the repayment of advances. The actual revenues (including other financing sources) were lower than the final budgeted amounts by \$207,866.

Original General Fund budgeted expenditures (including other financing uses) were \$34,808,700 and the final amended budgeted expenditures (including other financing uses) were \$40,185,400. Actual General Fund expenditures (including other financing uses) were \$38,493,997 or 4.21 percent less than the final budgeted amounts. This was most notable in security of persons and property and general government. The favorable variance when comparing actual expenditures to the final budget amounts is due to prudent fiscal management and a conservative budgeting strategy.

Capital Assets and Debt Administration

Capital Assets - The City's investment in capital assets for governmental and business-type activities as of December 31, 2015, amounts to \$237,873,077 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, land improvements, machinery and equipment, furniture and fixtures, vehicles, streets, sidewalks, bridges, traffic signalization, and storm and sanitary sewers.

	Governmental Activities		Business-Type Activities		Total

Major capital asset events during 2015 included the following:

- Total capital assets, net of accumulated depreciation, increased by \$4,015,104;
- Governmental activity capital assets increased by \$4,204,740 (net of accumulated depreciation). This increase is mainly due to a subdivision donation from a developer; and
- Business-type activity capital assets slightly decreased by \$189,636 (net of accumulated depreciation). The decrease was due to current year depreciation expense exceeding capital additions.

Refer to Note 10 of the basic financial statements for more detail on capital asset activity.

Debt - The General Bond Retirement Debt Service Fund is funded primarily with 2.3 mills of the City's inside property tax millage and related intergovernmental revenues, special assessments, and General Fund transfers. At December 31, 2015, the City had \$46,967,518 of long-term bonds and loans outstanding, with \$44,481,273 in governmental activities and \$2,486,245 in business-type activities and is included herein.

	Governmental Activities		Business-Type Activities		Total

Total Outstanding Debt	<u>\$ 44,481,273</u>	<u>\$ 46,597,926</u>	<u>\$ 2,486,245</u>	<u>\$ 2,707,382</u>	<u>\$ 46,967,518</u>	<u>\$ 49,305,308</u>

In a continuing effort to be conscientious about how taxpayer dollars are spent, the City has received the Aaa rating from Moody's Investors Service. This rating was recently reaffirmed by Moody's in conjunction with the 2015 issuance of various purpose refunding debt. Strongsville remains one of the few cities in Ohio to have been awarded this rating.

The City is within all of its legal debt limitations. The Ohio Revised Code provides that the net debt (as defined in the Ohio Revised Code) of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5 percent of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5 percent of the total taxation value of property. The statutory limitations on debt are measured by the ratio of net debt to tax valuation and expressed in terms of a percentage. At December 31, 2015, the City's overall legal debt margin was at \$106,306,216 and the unvoted legal debt margin was at \$35,572,049. The aggregate amount of the City's unvoted debt is also subject to overlapping debt restrictions with other political subdivisions. The actual aggregate amount of the City's unvoted debt is limited to ten mills. This millage is measured against the property values in each overlapping district.

Refer to Notes 14 and 15 of the basic financial statements for more detail on short-term and long-term debt activity.

Economic Factors

The City's elected and appointed officials consider many factors when setting the budget parameters for each year. Budget priorities include; public safety, regionalism, job creation and retention, maintaining infrastructure, and prudent fund balances to protect the City's Aaa bond rating. The City keeps these objectives in mind while diligently monitoring revenues and expenditures on a daily basis. The City continues to practice measures of cost containment and will pursue any grants or donations available to fund operations and specific capital projects.

In conclusion, the implementation of GASB Statement No. 68 requires the reader to perform additional calculations to determine the City's Total Net Position at December 31, 2015 without the implementation of GASB Statement No. 68. This is an important exercise, as the State Pension Systems (OPERS & OP&F) collect, hold and distributes pensions to our employees, not the City of Strongsville. These calculations are as follows:

See accompanying notes to the basic financial statements

Other Governmental Funds	Total Governmental Funds	<i>Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2015</i>	
\$ 1,501,757	\$ 9,483,617	Net Change in Fund Balances-Total Governmental Funds	\$ 2,890,676
-	34,299,444	<i>Amounts reported for Governmental Activities in the Statement of Activities are different because:</i>	
-	166,683	Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays and donations exceeded depreciation in the current period.	
338,386	338,386	Capital outlay	\$ 6,379,419
-	810,366	Infrastructure donations	6,315,368
312,761	2,149,150	Depreciation	<u>(8,429,101)</u>
1,188,234	5,238,151	Total	4,265,686
4,255	85,319	In the Statement of Activities, only the loss on the disposal of capital assets is reported, whereas, in the Governmental Funds, the proceeds from the disposals increase financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the capital assets.	
143,546	1,346,835		(60,946)
67,528	727,321	Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.	
4,055,523	5,344,116	Delinquent property taxes	175,188
600	10,060	Municipal income taxes	566,147
-	125,257	Special assessments	(126,521)
34,028	322,370	Intergovernmental	(404,641)
<u>7,646,618</u>	<u>60,447,075</u>	Charges for services	<u>32,272</u>
		Total	242,445
2,793,040	23,275,603	Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows	
326,317	634,356		3,768,691
4,894,901	5,168,978	Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.	
96,455	1,584,455		(4,007,402)
209,056	2,374,351	Repayment of bond principal and the refunding of debt are expenditures in the Governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.	
207,254	10,023,595		10,134,272
69,978	4,377,994	Other financing sources in the Governmental funds increase long-term liabilities in the Statement of Net Position. These sources were attributed to the issuance of an OPWC loan and refunding debt.	
2,287,732	6,379,419		(8,143,346)
120,000	2,455,000	Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in Governmental funds.	
6,000	1,529,895	Compensated absences	411,388
-	205,660	Accrued interest on bonds	14,944
<u>11,010,733</u>	<u>58,009,306</u>	Amortization of bond premiums	244,644
<u>(3,364,115)</u>	<u>2,437,769</u>	Amortization of deferral on refunding	<u>(118,917)</u>
46,811	87,960	Total	<u>552,059</u>
175,888	175,888	Change in Net Position of Governmental Activities	<u>\$ 9,642,135</u>
-	7,635,000		
-	332,458		
-	(7,778,399)		
5,445,049	15,424,345

Notes to the Basic Financial Statements

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015

Note 1 – Description of the City and Reporting Entity

The City of Strongsville, Cuyahoga County, Ohio (City) was incorporated under the laws of the State of Ohio in 1958. The City operates under and is governed by a Mayor/Council form of government in accordance with the general laws of the State of Ohio. In addition, the City may exercise all powers of local self-government under the Ohio Constitution, to the extent not in conflict with the applicable general laws of Ohio.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. This definition of reporting entity is found in GASB Statement No. 14, *The Financial Reporting Entity* as amended by GASB Statement No. 61, *The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and 34*.

The City's primary government consists of all funds, departments, boards, and agencies that are not legally separate from the City. The City provides the following services as authorized by its Charter: police and fire protection, road maintenance and repair, snow removal, traffic signalization, street lighting, storm and sanitary sewers, waste collection and general administrative services. None of these services are provided by legally separate organizations; therefore, these operations are included in the primary government. The operation of each of these activities is directly controlled by Council through the budgetary process.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and 1) the City is able to significantly influence the programs or services performed or provided by the organization; or 2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units may also include organizations which are fiscally dependent on the City in that the City approves the budget, the issuance of debt, or the levying of taxes. The reporting entity of the City does not include any component units.

The City's financial statements include all organizations, activities, and functions for which the City is financially accountable.

Also, the City is associated with five jointly governed organizations that are further described in Note 18.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

A. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements - The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. As a general rule, the activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses. An exception to this general rule is that interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the City that are governmental and those that are considered business-type.

The statement of net position presents the financial condition of the governmental and business-type activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business-type activity is self-financing or draws from the general revenues of the City.

Fund Financial Statements - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and proprietary fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

B. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources compared to liabilities and deferred inflows of resources is reported as fund balance. The following are the City's major governmental funds:

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

General Fund – This fund is used to account for all financial resources, except for those required to be accounted for in another fund. Major revenue sources of this fund include: municipal income taxes, charges for services, local government assistance funds; and to a lesser degree, various fees, licenses and permits, property taxes, and fines and forfeitures. This fund is the primary operating fund of the City.

Street Construction, Maintenance, and Repair (SCMR) Fund - This fund is required by the Ohio Revised Code to account for revenue from the state gasoline tax and motor vehicle registration fees. The Ohio Revised Code requires that 92.50 percent of these revenues be used for the maintenance and repair of streets within the City. As provided in the Codified Ordinance Section 880.34, this fund is credited with one-sixth of the proceeds realized from the first 1.50 percent (referred to as the Base Tax) of the 2.00 percent municipal income tax. Operating deficiencies are subsidized by an operating transfer from the General Fund.

Fire Levy Fund - This fund is used to account for the proceeds of two voted property tax levies (gross and effective millage are 3.50 and 3.496, respectively, for tax year 2014/collection year 2015) approved for the purpose of providing and maintaining a full-time Fire Department. Transfers from the General Fund are necessary to cover the operating costs in excess of operating revenues.

General Bond Retirement Fund – This fund accounts for the proceeds of a 2.30 mill inside property tax levy, a 0.5 mill voted (Library) property tax levy, and the proceeds of various special assessments levied against the benefitting property owners to accumulate resources for the payment of principal, interest and fiscal charges on general obligation and special assessment debt.

Pearl Road TIF #1 Fund - This fund accounts for the receipt of service payments in lieu of taxes (PILOTs) that are legally restricted for the payment of public improvements described in City ordinance. The general area affected by this TIF is Pearl Road between Route 82 and Boston Road and the area along Route 82 between Pearl and Howe Roads.

General Capital Improvement Fund – This fund accounts for the Cable TV Franchise fees and other resources that are used to construct, equip and furnish the capital assets used by the various departments of the city, as well as for various infrastructure projects.

The other governmental funds of the City account for grants and other resources whose use is restricted, committed, or assigned to a particular purpose.

Proprietary Funds - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as either enterprise or internal service.

Enterprise Funds - Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The City's only enterprise fund is the Sanitary Sewer Fund which accounts for sewer construction projects and sanitary sewer services provided to the residential and commercial users in the City.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Internal Service Funds - Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis. The City's only internal service fund is the Workers' Compensation Reserve Fund. This fund accounts for the accumulation of funds to pay workers' compensation claims.

Fiduciary Funds - Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: *pension trust funds*, *investment trust funds*, *private-purpose trust funds*, and *agency funds*. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. The City has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The City's agency funds account for the activities of the Mayor's court and for deposits received from contractors and developers which will be refunded upon successful completion of the projects.

C. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the City are included on the Statement of Net Position. The Statement of Activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total net position.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources along with current liabilities and deferred inflows of resources generally are included on the Balance Sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources along with all liabilities and deferred inflows of resources associated with the operation of these funds are included on the Statement of Net Position. The Statement of Revenues, Expenses, and Changes in Fund Net Position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The Statement of Cash Flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; proprietary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Revenues - Exchange and Nonexchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within forty-five days of year end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements, and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned. Revenue from property taxes is recognized in the year for which the taxes are levied (see Note 8). Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: income tax, state-levied locally shared taxes (including gasoline tax and motor vehicle license tax), fines and forfeitures, interest, grants and entitlements, fees, and rentals.

Deferred Outflows/Inflows of Resources - In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources are reported on the government-wide statement of net position for a deferral on refunding and for pension. A deferral on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 12.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes, payments in lieu of taxes, pension and unavailable revenues. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of December 31, 2015, but which were levied to finance year 2016 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes delinquent property taxes (\$398,627), income taxes (\$4,768,972), intergovernmental grants (\$1,623,421), special assessments (\$209,915), and charges for services (\$160,529). These amounts are deferred and recognized as inflows of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 12).

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Cash and Cash Equivalents

To improve cash management, cash received by the City is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the City's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

Investments are reported at fair value which is based on quoted market prices. Non-participating contracts such as non-negotiable certificates of deposits are reported at cost.

During 2015, The City's investments were limited to non-negotiable and negotiable certificates of deposits, United States Agency debt securities and money market mutual funds.

The City's policy is to hold investments until maturity or until market values equal or exceed cost.

Following Ohio statutes, the City has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2015 amounted to \$38,702, which includes \$30,351 assigned from other City funds.

The City has segregated bank accounts for monies held separate from the City's central bank account. These interest bearing depository accounts are presented on the financial statements as "cash in segregated accounts" since they are not required to be deposited into the City's treasury.

Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the City are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

F. Receivables

Receivables at December 31, 2015, consist of municipal income taxes, property taxes, other local taxes, amounts due from other governments, accounts (billings for user charged services), and special assessments. All are deemed collectible in full.

G. Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental funds when consumed. Inventories of the proprietary funds are expensed when used.

Inventory consists of expendable supplies held for consumption.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2015, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

I. Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of \$5,000. The City's infrastructure consists of roads, bridges, sanitary sewers, storm sewers, culverts, sidewalks, and traffic signals. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of proprietary fund capital assets is also capitalized.

All capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>	<u>Business-Type Activities Estimated Lives</u>
Land Improvements	15-20 years	15-20 years
Buildings	50 years	50 years
Furniture and Fixtures	7-10 years	7-10 years
Machinery and Equipment	5-20 years	5-20 years
Vehicles	3-6 years	3-6 years
Infrastructure	25-50 years	50 years

J. Interfund Balances

On fund financial statements, outstanding interfund loans and unpaid amounts for interfund services are reported as "Interfund receivables/payables." Interfund balance amounts are eliminated in the Statement of Net Position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. Leave time that has been earned but is unavailable for use as paid time off, or as some other form of compensation, because an employee has not met the minimum service time requirement, is accrued to the extent that it is considered to be probable that conditions for compensation will be met in the future.

The criteria for determining vested vacation and sick leave benefits are derived from negotiated agreements and State laws. Employees earn vacation and sick leave at different rates depending upon length of service and type of employment. Vacation leave is recognized when earned. All full-time City employees earn vacation at varying rates based upon length of service. An employee's vacation leave balance will carry over into the next fiscal year if it is not used. Upon retirement, termination, lay-off or death, employees or their estate are paid accumulated vacation leave. Full-time employees earn sick leave at a rate of 4.60 hours per 80 hours of service up to a maximum of 120 hours per year. Staff firefighters earn sick leave at a rate of 12 hours per month up to a maximum of 144 hours per year. Unused sick leave shall accumulate without limit. Upon retirement, employees can be paid varying amounts of their unused sick leave balance based on criteria contained in union agreements and the City's codified ordinances. Beginning in 2013, some employees having 25 or more years of service with the City may annually elect to convert to cash up to one-half of the value of their accumulated sick leave balance that exceeds 1,000 hours.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

L. Pensions

For purposes of measuring the net pension liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

M. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and long-term loans are recognized as a liability on the governmental fund financial statements when due.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

N. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are not spendable in form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (ordinance) of the City’s Council. Those committed amounts cannot be used for any other purpose unless the City’s Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts would represent intended uses established by City Council.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In the other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

O. Net Position

Net Position is the residual amount when comparing assets and deferred outflows of resources to liabilities and deferred inflows of resources. The net investment in capital assets component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

The restricted component of net position is reported when there are limitations imposed on their use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The government-wide statement of net position reports \$17,214,931 of the restricted component of net position, none of which is restricted by enabling legislation. The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted components of net position are available.

P. Grants and Intergovernmental Revenues

Federal grants and assistance awards made on the basis of entitlement periods are recorded as intergovernmental receivables and revenues when entitlement occurs. Federal reimbursement-type grants are recorded as intergovernmental receivables and revenues in the period when all applicable eligibility requirements have been met and the resources are available.

Q. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for sewer services and the interfund charges of the workers' compensation program. Operating expenses are necessary costs that have been incurred in order to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating.

R. Contributions of Capital

Contributions of capital in governmental and proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

S. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditure/expenses to the funds that initially paid for them are not presented on the financial statements.

T. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Administration and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during 2015.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

U. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

V. Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount Council may appropriate. The appropriations resolution is Council's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Council. The legal level of control has been established by Council at the personal service and other expenditure level for all funds. Budgetary modifications may only be made by resolution of the City Council at the legal level of control.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Finance Director. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during 2015.

Encumbrances - Encumbrances outstanding at year end represent the estimated amount of expenditures that will ultimately result if unperformed contracts in process (for example, purchase orders and contracted services) are completed. Encumbrances outstanding at year end are reported as part of restricted, committed, or assigned fund balance for subsequent year expenditures in the governmental funds. The City had no outstanding encumbrances at December 31, 2015.

Lapsing of Appropriations - At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Council during the year.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Note 3 – Changes in Accounting Principles and Restatement of Net Position

For year 2015, the City implemented the Governmental Accounting Standards Board (GASB) Statement No. 68, “Accounting and Financial Reporting for Pensions” and GASB Statement No. 71, “Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68.” GASB 68 established standards for measuring and recognizing pension liabilities, pension asset, deferred outflows of resources, deferred inflows of resources and expense/expenditure. The implementation of this pronouncement had the following effect on net position as reported December 31, 2014:

	Governmental Activities	Business Type Activities
Net Position as of December 31, 2014	\$ 170,882,117	\$ 50,772,687
Adjustments:		
Net Pension Liability	(37,693,972)	(756,651)
Net Pension Asset	5,462	431
Deferred Outflow - Payments Subsequent to Measurement Date	3,645,735	96,555
Restated Net Position December 31, 2014	\$ 136,839,342	\$ 50,113,022

Other than employer contributions subsequent to the measurement date, the City made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available.

Note 4 – Accountability

Fund balances at December 31, 2015 included the following individual fund deficits:

	Deficit
Major Governmental Fund:	
Pearl Road TIF #1	\$ 513,512
Total Major Governmental Funds	513,512
Nonmajor Governmental Funds:	
Westwood Commons TIF	28,217
Total Nonmajor Governmental Funds	28,217
Total Governmental Funds:	\$ 541,729

The General Fund is liable for any deficits in these funds and provides transfers when cash is required not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities in accordance with generally accepted accounting principles (GAAP).

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Note 5 – Budgetary Basis of Accounting

While the City is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP basis), the budgetary basis as provided by law is based upon accounting for transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual presented for the General Fund and the major special revenue funds are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are:

- Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- Encumbrances are treated as expenditures (budget basis) rather than as a part of restricted, committed, and assigned fund balances (GAAP basis);
- Some funds are included in the General Fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund and the major special revenue funds.

	<u>General</u>	<u>Street Construction, Maintenance and Repair</u>	<u>Fire Levy</u>
Net Change in Fund Balance - GAAP Basis	\$ (1,522,930)	\$ 327,813	\$ 193,899
Net Adjustment			
Revenue Accruals	3,904,348	106	-
Expenditure Accruals	(1,724,121)	(180,181)	(217,429)
Funds with Separate Legally Adopted Budgets	<u>(465,389)</u>	<u>-</u>	<u>-</u>
Net Change in Fund Balance - Budgetary Basis	<u>\$ 191,908</u>	<u>\$ 147,738</u>	<u>\$ (23,530)</u>

City of Strongsville, Ohio
Notes to the Basic Financial Statements

Note 6 – Fund Balance

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Street Construction, Maintenance & Repair	Fire Levy	General Bond Retirement	Pearl Road TIF #1	General Capital Improvement	Other Governmental Funds	Total Governmental Funds
<i>Nonspendable</i>

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Note 7 - Deposits and Investments

State statutes classify monies held by the City into three categories:

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the City Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are deposits that Council has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts. Interim monies may be deposited or invested in the following securities:

1. United States Treasury notes, bills, bonds, or other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any Federal government agency or instrumentality including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All Federal agency securities shall be direct issuances of Federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and that the term of the agreement must not exceed 30 days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) and (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; and,
6. The State Treasury Asset Reserve of Ohio (STAR Ohio).

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

The City may also invest any monies not required to be used for a period of 6 months or more in the following:

1. Bonds of any municipal corporation, village, county, township, or other political subdivision of this State, as to which there is no default of principal, interest, or coupons; and,
2. Obligations of the City.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within 5 years from the date of purchase, unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payments for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Cash on Hand

At December 31, 2015, the City had \$9,477 in undeposited cash on hand, which is included on the balance sheet of the City as part of "Equity in Pooled Cash and Cash Equivalents."

Deposits

At December 31, 2015, the carrying amount of the City's deposits was \$19,805,556 (including \$13,000,000 in certificates of deposit and \$62,804 in cash in segregated accounts of the court). Based on criteria described in GASB Statement No. 40, *Deposits and Investments Risk Disclosures*, as of December 31, 2015, \$13,128,703 of the City's bank balance of \$20,250,266 was covered by Federal Depository Insurance and \$7,121,563 was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the City's name.

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. The City's policy is to place deposits with major local banks approved by the City Council. All deposits are collateralized with eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits. Such collateral, as permitted by Chapter 135 of the Ohio Revised Code, is held in financial institution pools at Federal Reserve banks, or at member banks of the Federal Reserve system in the name of the respective depository bank, and pledged as a pool of collateral against all of the public deposits it holds, or as specific collateral held at a Federal Reserve Bank in the name of the City.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Investments

The City has a formal investment policy. The City follows GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, and records all its investments at fair value. As of December 31, 2015, fair value was \$99,860 below the City's net cost for investments. Fair value is determined by quoted market prices and acceptable other pricing methodologies.

Interest Rate Risk

As a means of limiting its exposure to fair value of losses caused by rising interest rates, the City's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase, and that the City's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt obligations. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

Credit Risk

The City has no investment policy that would further limit its investment choices other than the limitations imposed by the Ohio Revised Code. See the table below for the credit ratings of the City's investments provided by Standard and Poor's.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee. The City's investment in negotiable certificates of deposit were fully insured by Federal depository insurance.

Concentration of Credit Risk

The City places no limit on the amount it may invest in any one issuer.

As of December 31, 2015, the City had the following investments and investment maturities:

<u>Investment Type</u>	<u>Fair-Value</u>	<u>Credit Rating (*)</u>	<u>Investment Maturities</u>		
			<u>(in Years)</u>		
			<u><1</u>	<u>1-3</u>	<u>3-5</u>
U.S. Agencies Debt Securities	\$ 11,168,013	AA+	\$ -	\$ 2,986,315	\$ 8,181,698
Money Market Mutual Fund	47,074	N/A	47,074	-	
Negotiable Certificate of Deposits	4,688,236	N/A	-	2,720,317	1,967,919
Total Investments	\$ 15,903,323		\$ 47,074	\$ 5,706,632	\$ 10,149,617

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Reconciliation of Cash and Investments per the Note to the Statements

The following is a reconciliation of cash and investments as reported in the note above to cash and investments reported on the statement of net position as of December 31, 2015.

<u>Cash and Investments per Note</u>	
Investments	\$15,903,323
Carrying Amount of Deposits	19,805,556
Cash on Hand	<u>9,477</u>
Total Cash and Investments per Note	<u>\$35,718,356</u>
<u>Cash and Investments per Statements</u>	
Governmental Activities	\$28,726,748
Business-Type Activities	6,310,611
Agency Funds	<u>680,997</u>
Total Cash and Investments per Statements	<u>\$35,718,356</u>

Note 8 - Receivables

Receivables at December 31, 2015, consisted primarily of municipal income taxes, property and other local taxes, intergovernmental receivables arising from entitlements and shared revenues, special assessments, and accounts (billing for utility services). No allowance for doubtful accounts has been recorded because uncollectible amounts are expected to be insignificant.

Property Taxes

Property taxes include amounts levied against all real and public utility property, and tangible personal (used in business) property located in the City. Taxes collected on real property (other than public utility) in one calendar year are levied in the preceding calendar year on assessed values as of January 1 of that preceding year, the lien date. Assessed values for real property are established by State law at 35 percent of appraised market value. All property is required to be reevaluated every six years. The latest update was completed in 2015 with the next reappraisal being scheduled in 2018. Public utility real and tangible personal property tax collected in one calendar year is levied in the preceding calendar year on assessed values determined as of December 31 of the year preceding the tax collection year, the lien date. Public utility tangible personal property currently is assessed by varying percentages of true value; public utility real property taxes are assessed at 35 percent of true value. 2015 public utility property taxes which became a lien at December 31, 2014, are levied after October 1, 2015, and are collected in 2016 with real property taxes.

The 2014 assessed value upon which the 2015 tax receipts were based on was \$1,414,683,340. The full tax rate for all City operations applied to taxable property for the year ended December 31, 2014, was \$9.8 per \$1,000 of assessed valuation.

Real and public utility property taxes are payable annually or semi-annually. If paid annually, payment is due December 31. If paid semi-annually, the first payment is due December 31, with the remainder payable by June 30. Under certain circumstances, State Statute permits earlier or later payment dates to be established.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Public Utility tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The County Treasurer collects property tax on behalf of all taxing districts within the County. The County Fiscal Officer periodically remits to the taxing districts their portions of the taxes collected.

Municipal Income Taxes

The City's municipal income tax of 2.0 percent is levied on gross salaries, wages and other personal service compensation earned by residents both in and out of the City and on the earnings of nonresidents (except certain transients) earned in the City. This tax also applies to net income of business organizations within the City. Residents of the City are granted a 75 percent credit up to 2.0 percent of the income taxes paid to another municipality.

The City utilizes the Regional Income Tax Agency (RITA) to collect and administer its local income tax. Employers within the City are required to withhold income tax on employee earnings and remit the tax to RITA at least quarterly. Corporations and other individual taxpayers are also required to pay their estimated tax at least quarterly and file a final return annually. The tax is collected by RITA and remitted to the City on the 1st and 10th business days of each month.

Municipal income taxes are allocated by City ordinance as follows: 16.67 percent of the first 1.50 percent of the total of 2.00 percent of the City income tax is credited to the Street Construction, Maintenance and Repair Fund with the remainder credited to the General Fund.

Special Assessments

Special assessments include assessments for debt obligations. Special assessments for debt obligations are levied against specific property owners who primarily benefitted from the project.

Special assessments are payable by the timetable and in the manner stipulated in the assessing ordinance and are a lien from the date of the passage of the ordinance.

The City's assessments include sidewalk repair, sewer maintenance, sewer rehabilitation, paving and curbing, and water main tap-ins which are billed and collected by the County Fiscal Officer.

The County Fiscal Officer periodically remits these collections to the City. Special assessments collected in one calendar year are levied and certified in the preceding calendar year. Since all assessment collections are remitted to the City outside of the available period, the entire amount has been deferred on the fund financial statements.

At December 31, 2015, governmental and business-type activities reported special assessments receivable in the amounts of \$209,915 and \$1,330,033, respectively. Of these amounts reported, delinquent special assessments for governmental and business-type activities are \$120 and \$7,442, respectively.

City of Strongsville, Ohio
Notes to the Basic Financial Statements

Intergovernmental Receivables

A summary of the principal items of intergovernmental receivables follows:

	Amount
Governmental Activities:	
Local Government	\$ 262,749
Homestead and Rollback	595,712
Gasoline Tax	768,034
Auto Registration	169,052
Public Utility Reimb. and Commercial Activity Tax	117,786
Payment in Lieu of Taxes	1,413,124
Other	306,250
<i>Total Governmental Activities Intergovernmental Receivables</i>	<i>\$ 3,632,707</i>

Payments in Lieu of Taxes

In accordance with State law, the City has established six tax incremental financing districts within the City, under which the City has granted property tax exemptions and agreed to construct certain infrastructure improvements. The property owners have agreed to make payments to the City to help pay the costs of the infrastructure improvements. The amount of those payments would generally reflect all or a portion of the property taxes which the property owners would have paid if the property had not been declared exempt. The property owners' contractual promise to make these payments in lieu of taxes generally continues until the cost of the improvement has been paid or the agreement expires, whichever comes first.

Note 9 – Interfund Balances and Transfers

As of the year ended December 31, 2015, interfund balances are as follows:

	Receivable	Payable
Governmental Activities:		
<u>General</u>	\$ 155,907	\$ -
 Capital Projects Fund:		
Pearl Road Capital Improvement	-	155,907
Total	\$155,907	\$155,907

The amount payable to the General Fund relates to a working capital loan made to the Pearl Road Capital Improvement Fund. This loan will be repaid in 2016.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Transfers made during the year ended December 31, 2015 were as follows:

TRANSFERS IN	TRANSFERS OUT				
	Governmental Activities				
	Major Funds			Nonmajor Fund	
	General	General Bond Retirement	Pearl Road TIF #1	Royalton Road TIF	Total

Total Governmental Activities	<u>\$ 15,272,849</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 151,496</u>	<u>\$ 15,424,345</u>

Transfers made from the General Fund to various other funds provided additional resources for current operations. All transfers were made in accordance with Ohio Revised Code Sections 5705.14, 5705.15, and 5705.16. Transfers between governmental funds are eliminated on the governmental activities' statement of activities.

During 2015, GAAP transfers were required to reflect the pay down of Bond Anticipation Notes in the amount of \$150,000 and related interest of \$1,496. These transfers were necessary to record the retirement in the proper governmental funds.

Note 11 – Risk Management

Commercial Insurance

The City maintains comprehensive insurance coverage with private carriers for real property, building contents, vehicles, and general liability risks including public officials' liability.

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During 2015, the City contracted with The Fedeli Group to manage its insurance coverage through Travelers Insurance Companies as follows:

Type of Coverage	Coverage Limits		Deductible
	Per Occurrence	Aggregate	
Commercial and Personal Property Coverage			
(Includes Boiler and Machinery Coverage)	\$109,867,574		\$5,000
Ancillary Equipment (Rented)	\$150,000		\$1,000
Earthquake Damage	\$1,000,000		\$50,000
Flood Damage	\$1,000,000		\$50,000/\$100,000
Inland Marine	\$3,069,812		\$1,000
Crime Coverage			
Theft, Disappearance and Destruction	\$25,000		\$1,000
Employee Dishonesty	\$100,000		\$1,000
Forgery and Alteration	\$25,000		\$1,000
Computer Fraud	\$100,000		\$1,000

Miscellaneous			
Umbrella Coverage	\$10,000,000		\$10,000
Cyber Liability	\$1,000,000		\$10,000

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

The City also carries flood insurance through the National Flood Insurance Plan (NFIP). A portion of the City has been mapped and designated an “A” area (an area close to a river, lake, or stream) by the Federal Emergency Management Agency, and thus the City is eligible to purchase coverage of \$500,000 for both Building and Contents with a \$1,250 deductible.

The City continues to carry commercial insurance for other risks of loss, including employee health and life insurance. There has been no significant reduction in insurance coverages from coverages in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverage limits in any of the past five fiscal years.

Workers’ Compensation

The City has established a formal self-insurance program for liabilities arising from the City’s participation in the Ohio Bureau of Workers’ Compensation Individual Retrospective Rating Plan that covers workers’ compensation claims occurring between January 1, 2006 to December 31, 2014. In 2015, the City chose to be a state funded risk, paid a premium of \$184,332 and transferred all risk to the Ohio Bureau of Workers’ Compensation for calendar year 2015. The City made the change because the premium of \$184,332 was one half of what it would have been because the Bureau offered a fifty percent transition credit as they are transitioning to prospective billing. This exposure is accounted for in the Workers Compensation Reserve Internal Service Fund, which is responsible for collecting interfund premiums from other City funds and departments, and paying claim settlements.

The claims liability of \$1,351,251 reported in the fund at December 31, 2015, is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claim, be reported. The estimate was not affected by incremental claims adjustment expense and does not include other allocated or unallocated claims adjustment expense. Changes in the fund’s claims liability amount in 2014 and 2015 were as follows:

	Balance at Beginning of Year	Current Year Claims and Changes in Estimates	Claim Payments	Balance at End of Year
2014	\$ 1,067,597	\$ 231,955	\$ 41,168	\$ 1,258,384
2015	1,258,384	137,787	44,920	1,351,251

City of Strongsville, Ohio
Notes to the Basic Financial Statements

Note 12 – Defined Benefit Pension Plans

Net Pension Liability

The net pension liability/(asset) reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the City’s obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS’ traditional plan.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS' CAFR referenced above for additional information):

Group A	Group B	Group C
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 62 with 5 years of service credit or Age 57 with 25 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

	State and Local
2015 Statutory Maximum Contribution Rates	
Employer	14.0 %
Employee	10.0 %
 2015 Actual Contribution Rates	
Employer:	
Pension	12.0 %
Post-employment Health Care Benefits	2.0
Total Employer	14.0 %
Employee	10.0 %

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City’s contractually required contributions was \$1,402,168 for 2015.

Plan Description – Ohio Police & Fire Pension Fund (OPF)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OPF), a cost-sharing, multiple-employer defined benefit pension plan administered by OPF. OPF provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OPF issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OPF fiduciary net position. The report may be obtained by visiting the OPF website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OPF may retire and receive a lifetime monthly pension. OPF offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member’s average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OPF benefits for at least one year may be eligible for a cost-of-living allowance adjustment.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Police	Firefighters
2015 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee:		
January 1, 2015 through July 1, 2015	11.50 %	11.50 %
July 2, 2015 through December 31, 2015	12.25 %	12.25 %
 2015 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	0.50	0.50
 Total Employer	 19.50 %	 24.00 %
 Employee:		
January 1, 2015 through July 1, 2015	11.50 %	11.50 %
July 2, 2015 through December 31, 2015	12.25 %	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OPF was \$2,469,009 for 2015.

Pension Liabilities, Pension Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability and asset for OPERS was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OPF's total pension liability was measured as of December 31, 2014, and was determined by rolling forward the total pension liability as of January 1, 2014, to December 31, 2014. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Following is information related to the proportionate share:

	OPERS Traditional Pension Plan	OPERS Combined Pension Plan	OPF Police	OPF Fire	Total
Proportionate Share of the Net Pension Liability/(Asset)	\$10,591,350	(\$21,623)	\$14,291,279	\$ 15,596,308	\$40,457,314
Proportion of the Net Pension Liability/Asset	0.087814%	0.05616%	0.2758712%	0.3010628%	
Pension Expense	1,156,370	14,368	1,394,390	1,527,844	4,092,972

At December 31, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS	OPF Police	OPF Fire	Total
Deferred Outflows of Resources				
Differences between expected and actual experience	\$566,442	\$615,941	\$672,186	\$1,854,569
City contributions subsequent to the measurement date	1,402,168	1,168,468	1,300,541	3,871,177
Total Deferred Outflows of Resources	<u>\$1,968,610</u>	<u>\$1,784,409</u>	<u>\$1,972,727</u>	<u>\$5,725,746</u>
Deferred Inflows of Resources				
Net difference between projected and actual earnings on pension plan investments	<u>\$192,667</u>	<u>\$0</u>	<u>\$0</u>	<u>\$192,667</u>

\$3,871,177 reported as deferred outflows of resources related to pension resulting from City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending December 31:	OPERS	OPF Police	OPF Fire	Total
2016	\$54,973	\$153,985	\$168,047	\$377,005
2017	54,973	153,985	168,047	\$377,005
2018	126,463	153,985	168,047	\$448,495
2019	140,826	153,986	168,045	\$462,857

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Wage Inflation	3.75 percent
Future Salary Increases, including inflation	4.25 to 10.05 percent including wage inflation
COLA or Ad Hoc COLA	3 percent, simple
Investment Rate of Return	8 percent
Actuarial Cost Method	Individual Entry Age

The total pension asset in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Wage Inflation	3.75 percent
Future Salary Increases, including inflation	4.25 to 8.05 percent including wage inflation
COLA or Ad Hoc COLA	3 percent, simple
Investment Rate of Return	8 percent
Actuarial Cost Method	Individual Entry Age

Mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 6.95 percent for 2014.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2014 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	23.00 %	2.31 %
Domestic Equities	19.90	5.84
Real Estate	10.00	4.25
Private Equity	10.00	9.25
International Equities	19.10	7.40
Other investments	18.00	4.59
Total	<u>100.00 %</u>	<u>5.28 %</u>

Discount Rate The discount rate used to measure the total pension liability was 8 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the City's proportionate share of the net pension liability calculated using the current period discount rate assumption of 8 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (7 percent) or one-percentage-point higher (9 percent) than the current rate:

City's proportionate share of the net pension liability/(asset)	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
Traditional Pension Plan	\$19,485,048	\$10,591,350	\$3,100,712
Combined Plan	\$2,808	(\$21,623)	(\$40,997)

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Actuarial Assumptions – OPF

OPF’s total pension liability as of December 31, 2014 is based on the results of an actuarial valuation date of January 1, 2014, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OPF’s actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2014, are presented below:

Valuation Date	January 1, 2014
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.25 percent
Projected Salary Increases	4.25 percent to 11 percent
Payroll Increases	3.75 percent
Inflation Assumptions	3.25 percent
Cost of Living Adjustments	2.60 percent and 3.00 percent

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed January 1, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OPF’s target asset allocation as of December 31, 2014 are summarized below:

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash and Cash Equivalents	- %	(0.25) %
Domestic Equity	16.00	4.47
Non-US Equity	16.00	4.47
Core Fixed Income *	20.00	1.62
Global Inflation Protected *	20.00	1.33
High Yield	15.00	3.39
Real Estate	12.00	3.93
Private Markets	8.00	6.98
Timber	5.00	4.92
Master Limited Partnerships	8.00	7.03
Total	<u>120.00 %</u>	

* levered 2x

OPF's Board of Trustees has incorporated the "risk parity" concept into OPF's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate The total pension liability was calculated using the discount rate of 8.25 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.25 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.25 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.25 percent), or one percentage point higher (9.25 percent) than the current rate.

	1% Decrease (7.25%)	Current Discount Rate (8.25%)	1% Increase (9.25%)
City's proportionate share of the net pension liability	\$41,339,054	\$29,887,587	\$20,191,676

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015

Note 13 – Post-Employment Benefits

Ohio Public Employees Retirement System

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans; the Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan is a defined contribution plan; and the Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan.

OPERS maintains two cost-sharing multiple-employer defined benefit post-employment health care trusts, which fund multiple health care plans including medical coverage, prescription drug coverage, deposits to a Health Reimbursement Arrangement and Medicare Part B premium reimbursement, to qualifying benefit recipients of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including OPERS sponsored health care coverage.

In order to qualify for post-employment health care coverage, age and service retirees under the Traditional Pension and Combined Plans must have ten or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement No. 45. Please see the Plan Statement in the OPERS 2014 CAFR for details.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided in Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting www.opers.org/investments/cafr.shtml, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling (614) 222-5601 or (800) 222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post-retirement health care coverage. Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2015, State and Local employers contributed at a rate of 14.00 percent of earnable salary and Public Safety and Law Enforcement employers contributed at 18.10 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

OPERS maintains three health care trusts. The two cost-sharing, multiple-employer trusts, the 401(h) Health Care Trust and the 115 Health Care trust, work together to provide health care funding to eligible retirees of the Traditional Pension and Combined Plans. The third trust is a Voluntary Employee's Beneficiary Association (VEBA) that provides funding for a Retiree Medical Account for Member-Directed Plan members. Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 2.00 percent during calendar year 2015. As recommended by the OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2016 remained at 2.00 percent for both plans. The Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care benefits provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited to the VEBA participants in the Member-

City of Strongsville, Ohio
Notes to the Basic Financial Statements

(Continued)

Directed Plan for 2015 was 4.50 percent. The City's actual employer contributions for December 31, 2015, 2014 and 2013 which were used to fund post-employment benefits were \$236,898, \$222,065, and \$106,461, respectively; 100 percent has been contributed for 2015, 2014 and 2013.

Ohio Police and Fire Pension Fund

Plan Description - The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored health care program, a cost-sharing multiple-employer defined benefit post-employment health care plan administered by OP&F. OP&F provides health care benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-retirement health care coverage for any person who receives or is eligible to receive a monthly service, disability, or statutory survivor benefit or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement No. 45.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, OH 43215-5164. That report is also available on OP&F's website at www.op-f.org.

Funding Policy - The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.50 percent and 24.00 percent of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.50 percent of covered payroll for police employer units and 24.00 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under an IRS Code Section 115 trust and one for Medicare Part B reimbursements administered as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 Trust and the Section 401(h) account as the employer contribution for retiree health care benefits. The portion of employer contributions allocated to health care was 0.50 percent of covered payroll from January 1, 2015 thru December 31, 2015. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of the Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

The City's contributions to OP&F which were allocated to fund post-employment health care benefits for police and firefighters were \$30,653 and \$27,582 for the year ended December 31, 2015, \$30,396 and \$26,796 for the year ended December 31, 2014, and \$215,635 and \$182,984 for the year ended December 31, 2013, respectively. The full amount has been contributed for 2015, 2014 and 2015.

Note 14 – Short-Term Notes Payable

The City's note activity, including the amount outstanding and the interest rate, is as follows:

	Balance 1/1/2015	Additions	Deletions	Balance 12/31/2015
Governmental Activities:

In 2015, the City issued \$1,800,000 in Various Purpose Improvement Notes. Note proceeds of \$1,000,000 were used to retire the 2013 Street Improvement Notes that matured in 2015. New notes in the amount of \$800,000 were issued in 2015 for the 2015 street program. These notes will mature on October 13, 2016. The original proceeds the 2013 Street Improvement Note was not used for capital related activities. The proceeds from the 2015 Street Improvement Note will be used for capital related activities. As of December 31, 2015, the City has unspent proceeds of \$126,205.

The notes are backed by the full faith and credit of the City and mature within one year. The note liabilities are reflected in the funds which received the proceeds. The premium and issuance costs are recorded in the General Bond Retirement Fund.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

The Ohio Water Development Authority (OWDA) loans are revenue obligations (not general obligations) of the City, payable from the revenue of the systems that are improved with the OWDA loans and from special assessments that relate to those improvements. The OWDA does not require that the City generate “coverage” (revenues in excess of the amounts needed for system operations and loan payments), nor does the OWDA require the creation or funding of any reserve funds. The OWDA loans will be paid from the Sanitary Sewer Fund. The Ohio Public Works Commission (OPWC) loan will be paid from the General Bond Retirement Fund. General obligation bonds will be paid from the General Bond Retirement Fund and Pearl Road TIF #1 Fund. Special assessment bonds will be paid from the proceeds of special assessments levied against benefitted property owners paid from the General Bond Retirement Fund. In the event that a property owner would fail to pay the assessment, payment would be made by the City. Workers’ Compensation claims will be paid from the Workers’ Compensation Reserve Fund (refer to Note 11 for further information). The compensated absences liability will primarily be paid from the General Fund.

In July 2013, the City entered into a loan agreement with the Ohio Public Works Commission (OPWC) for a zero percent interest loan for the Pearl Road Widening project. In 2015 the City made its final drawdown on the loan for a total amount of \$2,172,730. The twenty-year loan will be repaid with forty semi-annual payments of \$54,318 commencing July 1, 2016. The loan will be repaid from the General Bond Retirement Fund.

Current Defeased Debt

On October 22, 2015, the City issued \$7,635,000 in bonds for the purpose of refunding the callable portion of the City’s outstanding various purpose improvement bonds, series 2006 and series 2009. The refunding bonds were issued to refund those bonds at a lower overall interest cost. The advance refunding met the requirements of an in-substance debt defeasance and the bonds were removed from the City’s government-wide financial statements. The aggregate debt service on the Series 2006 and 2009 bonds were \$9,974,462 versus \$9,272,469 for the refunding bonds. As a result of the advance refunding, the City’s cash savings attributable to this refunding transaction was \$701,993. The present value of the difference between the two debt streams using the arbitrage yield was \$650,648 which constitutes the economic gain on the transaction. As of December 31, 2015, the amount of defeased debt outstanding but removed from the government-wide financial statements amounted to \$6,990,000.

Prior Years’ Debt Defeasance

In prior years, the City has defeased various bond issues by creating separate irrevocable trust funds. New debt has been issued and the proceeds have been used to purchase U.S. Government securities that were placed in the irrevocable trust fund. The investment and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the City’s government-wide financial statements. As of December 31, 2015, the amount of defeased debt (related to the 2014 refunding) outstanding but removed from the government-wide financial statements amounted to \$ 5,550,000.

Total	\$2,486,245	\$536,656

Note 16 – Construction Commitments and Operating Lease

As of December 31, 2015, the City had the following significant commitments with respect to capital-related projects:

	<u>Remaining Construction Commitment</u>
<u>Special Revenue Fund</u>	
Pebblebrook Culvert	\$ 12,474
<u>Capital Project Fund</u>	
Concrete Road Program Phase III	53,970
<u>Enterprise Fund</u>	
Bowman Drive Sewer Replacement	533,100
W. 130th Street Pump Station	460,450
Total Government-wide Construction Commitments	\$ 1,059,994

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

Operating Lease

In September 2002, the City entered in a 15 year lease agreement for the use of portions of a privately owned ice rink facility. The lease expires on August 31, 2017 and the City has the option to renew the lease at that time. Based on accounting for leases, this lease is accounted for as an operating lease. Operating leases do not give rise to property rights or lease obligations. During 2015, expenditures for the operating lease totaled \$275,000.

The following is a schedule of future minimum rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of December 31, 2015.

<u>Year Ending December 31,</u>	<u>Amount</u>
2016	\$ 275,000
2017	206,250
Total	<u>\$ 481,250</u>

Note 17 – Contingent Liabilities

There are several lawsuits pending in which the City is involved. City management estimates that the potential claims against the City not covered by insurance resulting from such litigation would not materially affect the financial statements of the City.

Under the terms of federal and state grants, periodic audits are required and certain expenditures may be questioned as not appropriate under the terms of the grants. Such audits could lead to reimbursement to the grantor agencies. City management believes disallowances, if any, will be immaterial.

Note 18 - Jointly Governed Organizations

Southwest General Health Center

The Southwest General Health Center is an Ohio nonprofit corporation providing health services. The Health Center is a jointly governed organization among the communities of Berea, Brook Park, Columbia Township, Middleburg Heights, Olmsted Falls and Strongsville.

The Health Center is governed by a Board of Trustees consisting of the following: one member of the legislative body from each of the political subdivisions, one resident from each of the political subdivisions who is not a member of the legislative body, three persons who are residents of any of the participating political subdivisions, and the president and the vice president of the medical staff. The legislative body of each political subdivision elects their own member to serve on the Board of Trustees of the Health Center.

The Board exercises total control over the operation of the Health Center including budgeting, appropriating, contracting and designating management. Each City's control is limited to its representation on the Board. In 2015, the City of Strongsville contributed \$326,317 to the Health Center. Financial information may be obtained by writing to the Southwest General Health Center, 18697 Bagley Road, Middleburg Heights, Ohio 44130-3497.

Regional Income Tax Agency

In 1971, thirty-eight municipalities joined together to organize a Regional Council of Governments (RCOG) to administer tax collection and enforcement concerns facing the cities and villages. The first official act of the RCOG was to form the Regional Income Tax Agency (RITA). Today RITA serves as the income tax collection agency for 248 municipalities throughout the State of Ohio. The City was one of the original members of RCOG. Financial information may be obtained by writing to RITA, 10107 Brecksville Road, Brecksville, Ohio, 44141.

Southwest Council of Governments

The Southwest Council of Governments helps foster cooperation between municipalities in areas affecting health, safety, welfare, education, economic conditions, and regional development. The Council's Board is comprised of one member from each of the participating cities. The Board exercises total control over the operation of the Council including budgeting, appropriating, contracting, and designating management. Budgets are adopted by the Board. Each City's degree of control is limited to its representation on the Board. The Council has established two subsidiary organizations, the Hazardous Material Response Team ("HAZMAT"), which provides hazardous material protection and assistance, and the Southwest Enforcement Bureau, which provides extra assistance to cities in the form of a SWAT team. In 2015, the City of Strongsville contributed \$15,000 to the Council. Financial information may be obtained by writing to the Finance Director of the City of Berea, at 11 Berea Commons, Berea, Ohio 44017.

Northeast Ohio Public Energy Council

The City is a member of the Northeast Ohio Public Energy Council (NOPEC). NOPEC is a regional council of governments formed under Chapter 167 of the Ohio Revised Code. NOPEC was formed to serve as a vehicle for communities wishing to proceed jointly with an aggregation program for the purchase of energy. NOPEC is currently comprised of over 200 communities who have been authorized by ballot to purchase energy on behalf of their citizens. The intent of NOPEC is to provide energy at the lowest possible rates while at the same time insuring stability in prices by entering into long-term contracts with suppliers to provide energy to the citizens of its member communities. NOPEC is governed by a General Assembly made up of one representative from each member community. The representatives from each county then elect one person to serve on the eleven-member NOPEC Board of Directors. The Board oversees and manages the operation of the aggregation program. The degree of control exercised by any participating government is limited to its representation in the General Assembly and on the Board. Financial information should be directed to NOPEC, 31360 Solon Road, Suite 33, Solon, Ohio 44139.

Southwest Regional Communications

The Southwest Regional Communications is a jointly-governed organization between the City and seven other communities. Formed as a Regional Council of Governments as permitted under Ohio Revised Code Section 167.01, the intent of the Southwest Regional Communications is to establish, own, operate, maintain, and administer, a regional communications network for public safety and public service purposes for the mutual benefit of the participating communities. This organization is controlled by a governing body consisting of each participating community's mayor or his/her delegate or representative. The degree of control exercised by any member is limited to its representation on the governing board.

City of Strongsville, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2015
(Continued)

All members agree to contribute the sums of money on a shared basis as agreed per the requirements set forth in the Articles of Understanding. In accordance with GASB Statement No. 14 and amended by GASB Statement No. 61, the City does not have an equity interest in the organization. Financial information may be obtained by writing to the Finance Director of the City of Brook Park, at 6161 Engle Road, Brook Park, Ohio 44142 or by calling 216-433-1300.

Combining Statements

Fund Descriptions – Nonmajor Governmental Funds

Non-Major Special Revenue Funds

Special Revenue funds are established to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. A description of the City's special revenue funds follows:

Police Pension Fund - This fund accounts for the revenue from property taxes levied and expenditures relative to payment of the City's share (19.50 percent) of the current police pension liability to the Ohio Police & Fire Pension Fund. The Ohio Revised Code requires that the City levy 0.3 mills of property tax annually for the partial payment of this liability. The remaining liability is financed by a transfer from the General Fund.

State Highway Maintenance Fund - This fund accounts for a percentage of the revenue from the City's share of State gasoline taxes and motor vehicle registration fees. State law requires that these taxes be used for maintenance and repair of the state highways within the City.

Motor Vehicle License Tax Fund - This fund accounts for the additional \$5 tax levied upon the vehicles registered within the City to be used specifically for the maintenance of public roads and highways within the City.

Emergency Vehicle Fund - This fund accounts for the revenues generated by the charges for emergency medical services to be used for the acquisition of emergency medical service vehicles, or any other equipment related to or required for emergency medical services operations, and any other public safety related vehicles or equipment utilized at the time of and in conjunction with calls for emergency medical services.

Fire Pension Fund - This fund accounts for the revenue from property taxes levied and expenditures relative to payment of the City's share (24.00 percent) of the current fire pension liability to the Ohio Police & Fire Pension Fund. The Ohio Revised Code requires that the City levy 0.3 mills of property tax annually for the partial payment of this liability. The remaining liability is financed by a transfer from the General Fund.

Clerk of Courts Computerization Fund - This fund accounts for the revenue received from court costs assessed under the authority of Ohio Revised Code Section 1901.261(b) by the Mayor's Court on the filing of each cause of action or appeal, certificate of judgment or modifications of judgment for the purpose of procuring or maintaining computer systems of the office of the clerk of the Mayor's Court.

Drainage Levy Fund - This fund accounts for the revenue received from a voted property tax levy (gross millage 0.4, effective millage 0.4 for tax year 2013/collection year 2014) approved for the purpose of constructing, reconstructing and renovating storm sewers and storm drainage facilities.

FEMA Grant Fund - This fund accounts for a Federal Grant passed through the City of Olmsted Falls to the City of Strongsville, as well as a grant from the Cuyahoga County 9-1-1 Consolidation Shared Services Fund to create and equip a new regional emergency dispatch center that includes the City of Strongsville as well as the cities of North Royalton, Olmsted Falls and Berea.

Multi-Purpose Complex Fund – This fund accounts for the revenue received from various recreation/senior membership and user fees. Transfers are made from the General Fund to provide additional resources.

Fund Descriptions – Nonmajor Governmental Funds

Non-Major Special Revenue Funds (continued)

Southwest General Hospital Levy Fund - This fund accounts for the revenue received from a voted property tax levy (gross millage 1.0, effective millage 0.193252 for tax year 2013/collection year 2014) approved for the use, maintenance and support of Southwest General Hospital by the residents of Strongsville.

Law Enforcement Federal Seizure Fund - This fund accounts for seized and/or forfeited cash and tangible property received from the United States government that was relinquished in accordance with the Comprehensive Drug Penalty Act of 1984 to be used by local law enforcement.

Law Enforcement State Seizure Fund - This fund accounts for seized and/or forfeited cash and tangible property received from the Cuyahoga County Common Pleas Court with the State of Ohio, which was relinquished in accordance with Section (D) (1) to (8) of Ohio Revised Code Section 2933.41. Eighty percent of the seizure or forfeiture is to be used by local law enforcement while the remaining twenty percent is forwarded to the Cuyahoga County Prosecuting Attorney's Office.

Law Enforcement Drug Fine Fund – This fund accounts for all fines imposed and bail forfeited by an individual convicted of certain drug offenses to be used by local law enforcement.

Law Enforcement DWI/DUI Fund - This fund accounts for fines and penalties received for DWI/DUI violations. These funds are to be used for costs incurred in enforcing DWI/DUI laws, incarceration costs and public education.

Tree Fund - This fund accounts for various fees and permits charged pursuant to City Ordinances for the purpose of planting, replacing, maintaining, protecting and promoting trees within the City.

Community Diversion Fund - This fund accounts for the revenue received from the Juvenile Court Division of the Cuyahoga County Court of Common Pleas. The purpose of this program is to divert local youth who are juvenile offenders of misdemeanor and status offenses from formal court action and to utilize community resources to ameliorate the situations.

Earned Benefits Fund - This fund accounts for the revenue set-aside by City Council used for the payment of accumulated sick and vacation leave balances upon the termination of employment by employees of the City and to provide funds for the payment of salaries and related fringes during a twenty-seven pay per year per Ohio Revised Code Section 5705.13. Due to the implementation of GASB Statement No. 54, this fund was combined with the General Fund on the governmental fund financial statements but remained a separate fund in the budgetary schedules because it has a separate legally adopted budget.

Nonmajor Debt Service Funds

Debt Service funds are established to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest and to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. A description of the City's debt service fund follows:

Royalton Road TIF Fund – This fund accounts for the revenue received by Service Payments in Lieu of Taxes (PILOTs) that are legally restricted for the payment of the public improvements described in Ordinance 2008-220. The general area affected by this TIF is north of Route 82 and Howe Road intersection.

Fund Descriptions – Nonmajor Governmental Funds

Pearl Road TIF #2 Fund – This fund accounts for the revenue received by Service Payments in Lieu of Taxes (PILOTs) that are legally restricted for the payment of the public improvements described in Ordinance 2010-196. The general area affected by this TIF is Pearl Road between Route 82 and Boston Road.

Pearl Road TIF #3 Fund – This fund accounts for the revenue received by Service Payments in Lieu of Taxes (PILOTs) that are legally restricted for the payment of the public improvements described in Ordinance 2011-191. The general area affected by this TIF is Pearl, Royalton, Howe and Prospect Roads.

Westwood Commons TIF Fund – This fund accounts for the revenue received by Service Payments in Lieu of Taxes (PILOTs) that are legally restricted for the payment of the public improvements described in Ordinance 2015-195. The City will reimburse the Developer for the public infrastructure improvements that directly benefit the City, its residents and the property. The area affected by this TIF is the northeastern corner of Pearl Road and Westwood Drive. Budget was not adopted in 2015 due to no cash activity.

Giant Eagle TIF Fund – This fund accounts for the revenue received by Service Payments in Lieu of Taxes (PILOTs) that are legally restricted for the payment of the public improvements described in Ordinance 2013-250. The general area affected by this TIF is Pearl and Royalton Roads. Budget was not adopted in 2015 due to no cash activity.

Non-Major Capital Project Funds

Capital Project funds are established to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. A description of the City's capital project funds follows:

Recreation Capital Improvement Fund – This fund accounts for resources restricted for recreation improvements. Resources include federal, state, and local grants, dedicated building fees and debt proceeds.

Pearl Road Capital Improvement Fund - This fund accounts for federal, state, and local grants, loan proceeds and other resource used to make major improvements to Pearl Road.

Fund Descriptions – Fiduciary Funds

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. Agency funds are purely custodial (assets equals liabilities) and thus do not involve measurement of results of operations.

Agency Funds

Bond Escrow Fund – This fund is used to account for the receipt of refundable deposits required of contractors, builders, residents or others to insure compliance with various City ordinances.

Mayor's Court Fund – This fund is used to account for the receipt of fines collected through the Mayor's Court established by the Ohio Revised Code and City ordinances.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax was phased out beginning in 2006. For collection year 2006 both types of general business tangible personal property were assessed at 18.75 percent. The percentage was 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.

(1) State reimbursement of rollback and homestead exemptions are included along with payments in lieu of taxes from Cuyahoga County.

Note: The County is aware of the requirement to report delinquent tax collections by levy year rather than by collection year. The County's current computer system tracks levy amounts by either current levy or delinquent levy. Once amounts become part of the delinquent levy, the ability to track information by levy year is lost. The County is looking at options to provide this information in the future.
