INDEPENDENT AUDITOR'S REPORT

Oak Hill Union Local School District
Jackson County
205 Western Avenue
Oak Hill, Ohio 45656

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Oak Hill Union Local School District, Jackson County, Ohio (the School District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with the cash accounting basis Note 2 describes. This responsibility includes determining that the cash accounting basis is acceptable for the circumstances. Management is also responsible for designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Oak Hill Union Local School District, Jackson County, Ohio, as of June 30, 2015, and the respective changes in cash financial position and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting basis described in Note 2.

Accounting Basis

Ohio Administrative Code § 117-2-03(B) requires the School District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. We draw attention to Note 2 of the financial statements, which describes the basis applied to these statements. The financial statements are prepared on the cash basis of accounting, which is a basis other than generally accepted accounting principles. We did not modify our opinion regarding this matter.

Other Matters

Supplemental Information

Our audit was conducted to opine on the financial statements taken as a whole.

The Schedule of Federal Awards Receipts and Expenditures (the Schedule) presents additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the financial statements.

The Schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this Schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this Schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and in accordance with auditing standards generally accepted in the United States of America. In our opinion, this Schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

We applied no procedures to Management's Discussion & Analysis or to the schedule of net pension liabilities and pension contributions as listed in the table of contents. Accordingly, we express no opinion or any other assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 8, 2016, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Oak Hill Union Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
Unaudited

The discussion and analysis of Oak Hill Union Local School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2015, within the limitations of the District's cash basis of accounting. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

HIGHLIGHTS

Key financial highlights for the fiscal year 2015 are as follows:

- Net position of governmental activities increased \$588,013.
- General cash receipts accounted for \$11,233,161 or 76 percent of all cash receipts. Program cash receipts in the form of charges for services and sales, grants, and contributions, accounted for \$3,454,707 or 24 percent of total cash receipts of \$14,687,868.
- The District had \$14,099,855 in cash disbursements related to governmental activities; of these cash disbursements, only \$3,454,707 was offset by program specific charges for services and sales, grants, and contributions.

USING THE BASIC FINANCIAL STATEMENTS

This annual report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the District's cash basis of accounting.

REPORT COMPONENTS

The statement of net position and statement of activities provide information about the cash activities of the District as a whole.

Fund financial statements provide a greater level of detail. Funds are created and maintained in the financial records of the District as a way to segregate money whose use is restricted to a particular purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the basic financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanation and detail regarding the information reported in the basic financial statements.

BASIS OF ACCOUNTING

The basis of accounting is a set of guidelines that determine when financial events are recorded. The District has elected to present its financial statements on a cash basis of accounting. This basis of accounting is a basis of accounting other than accounting principles generally accepted in the United States of America. Under the District's cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the cash basis of accounting.

REPORTING THE DISTRICT AS A WHOLE

Statement of Net Position and Statement of Activities

The statement of net position and the statement of activities reflect how the District did financially during 2015, within the limitations of the cash basis of accounting. The statement of net position presents the cash balances and investments of the governmental activities of the District at year end. The statement of activities compares cash disbursements with program receipts for each governmental program. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function draws from the District's general receipts.

These statements report the District's cash position and the changes in cash position. Keeping in mind the limitations of the cash basis of accounting, you can think of these changes as one way to measure the District's financial health. Over time, increases or decreases in the District's cash position is one indicator of whether the District's financial health is improving or deteriorating. When evaluating the District's financial condition, you should also consider other non-financial factors as well such as the District's property tax base, the condition of the District's capital assets and infrastructure, the extent of the District's debt obligations, the reliance on non-local financial resources for operations and the need for continued growth in the major local revenue sources such as property taxes.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial statements provide detailed information about the District's major funds – not the District as a whole. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund and the state share building fund expenses capital projects fund.

Governmental Funds Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year-end available for spending in future periods. These funds are reported using the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The governmental fund statements provide a detailed short-term view of the District's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer cash basis financial resources that can be spent in the near future to finance educational programs. Since the District is reporting on the cash basis of accounting, there are no differences in the net position and fund cash balances or changes in net position and changes in fund cash balances. Therefore, no reconciliation is necessary between such financial statements. However, differences will be apparent when comparing gross receipts and disbursements on the fund financial statements to the statement of activities due to transfers and advances netted on the statement of activities. See Note 2 to the basic financial statements in the section entitled government-wide financial statements.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. The District's fiduciary funds are an agency fund which is used to maintain financial activity of the District's student managed activities and a private purpose trust fund which is used to maintain activity for scholarship funds. Agency funds are custodial in nature (assets equal net position) and do not involve measurement of results of operations. Private purpose trust funds are used to account for assets held by the District under a trust agreement for individuals and are therefore not available to support the District's own programs. In accordance with GASB 34, fiduciary funds are not included in the government-wide statements.

THE DISTRICT AS A WHOLE

Recall that the statement of net position provides the perspective of the District as a whole. Table 1 provides a summary of the District's net position for 2015 compared to 2014.

Table 1
Net Position

	Governmental Activities	
	2015	2014
Assets		
Equity in Pooled Cash and Cash Equivalents	\$13,513,266	\$12,925,253
<i>Total Assets</i>	13,513,266	12,925,253
Net Position		
Restricted	4,201,916	3,908,736
Unrestricted	9,311,350	9,016,517
<i>Total Net Position</i>	\$13,513,266	\$12,925,253

Total assets and net position of the District as a whole increased \$588,013. This increase is the result of cash receipts in excess of cash disbursements, which will be further discussed under Table 2.

Table 2 shows the changes in net position for the fiscal years ended June 30, 2015 and 2014.

Table 2
Changes in Net Position

	Governmental Activities	
	2015	2014
Cash Receipts		
Program Cash Receipts:		
Charges for Services and Sales	\$1,023,013	\$952,767

Extracurricular Activities	410,921	352,491
Capital Outlay	411,862	516,858
Debt Service:		
Principal	205,000	205,000
Interest and Fiscal Charges	74,400	74,400
<i>Total Cash Disbursements</i>	<u>14,099,855</u>	<u>13,839,408</u>
<i>Change in Net Position</i>	588,013	73,394
<i>Net Position, Beginning of Year</i>	12,925,253	12,851,859
<i>Net Position, End of Year</i>	<u>\$13,513,266</u>	<u>\$12,925,253</u>

Cash receipts increased \$775,066. The most significant increase in cash receipts was in operating grants and contributions and unrestricted grants and entitlements due to the District receiving more State funding for special education, title I, and general programs in 2015 than in the prior year.

Overall, cash disbursements increased \$260,447, which was primarily the result of an increase in special instruction due to the increase in special education federal funding received for 2015.

The statement of activities shows the cost of program services and the charges for services and sales, grants, and contributions offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of those services supported by tax receipts and unrestricted state entitlements.

THE DISTRICT'S FUNDS

The District's governmental funds are accounted for using the cash basis of accounting. All governmental funds had total cash receipts and other financing sources of \$15,048,522 and cash disbursements and other financing uses of \$14,460,509.

The District's general fund cash fund balance increased by \$294,833 due primarily to an increase in state foundation funding.

The District's state share building fund expenses capital projects fund cash fund balance increased \$4,251 due to interest receipts. There were no disbursements from this fund during 2015.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During 2015, revisions were made to the general fund budget. Receipts and other financing sources increased by \$219,841 from the original to final budget primarily due to tuition and fees receipts that were higher than anticipated.

Oak Hill Union Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2015
Unaudited

Appropriations increased by \$264,947 from the original to final budget primarily due to increases in anticipated disbursements for special instruction and pupil transportation costs. The general fund's ending unobligated cash balance was \$7,597,526.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District does not record capital assets in the accompanying basic financial statements, but records payments for capital assets as disbursements. The District had capital outlay disbursements of \$411,862 during fiscal year 2015.

Debt

Under the cash basis of accounting, the District does not report bonds in the accompanying cash basis financial statements. However, in order to provide information to the readers of this report, we are providing the following detailed information about bonds. At June 30, 2015, the District had \$1,860,000 in bonds for governmental activities. Table 4 summarizes bonds outstanding for governmental activities for the past two years:

Table 4

NOTE 1 – SUMMARY OF THE DISTRICT AND REPORTING ENTITY

Description of the Entity

Oak Hill Union Local School District, Jackson County, Ohio (the District) is a body politic and corporate established to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a local school district as defined by Section 3311.03 of the Ohio Revised Code. The District operates under a locally elected Board form of government consisting of five members elected at-large for staggered four year terms. The District provides educational services as authorized by state and/or local guidelines.

The District is staffed by 82 certificated employees, 46 non-certificated employees, and 7 administrators who provide services to 1,278 students.

Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For Oak Hill Union Local School District, this includes general operations, food service and student related activities.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. There are no component units of the District. The District is associated with the Gallia-Jackson-Vinton Joint Vocational School District and the South Central Ohio Computer Association Council of Governments, which are defined as jointly governed organizations, and the Ohio School Boards Association Workers' Compensation Group Rating Program which is defined as an insurance purchasing pool. These organizations are presented in Notes 10 and 11.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Accounting

The District's accounts are maintained on the basis of funds, each of which is considered a separate accounting entity. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to specific functions or activities. The operation of each fund is accounted for within a separate set of self-balancing accounts.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Cash disbursements are assigned to the fund from which they are paid. The following are the District's major governmental funds:

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

General Fund – The general fund is the operating fund of the District and is used to account for all financial resources not accounted for and reported in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

State Share Building Fund Expenses Capital Projects Fund – The state share building fund expenses capital projects fund accounts for monies received and expended in connection with contracts entered into by the District and the Ohio School Facilities Commission for the construction and equipping of buildings. The major source of receipts for this fund in years past was grant monies received from the Ohio School Facilities Commission. This fund received interest earnings on cash balances as its sole source of receipts in fiscal year 2015.

The other governmental funds of the District account for grants and other resources, debt service, and capital projects, whose use is restricted to a particular purpose.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are custodial in nature (assets equal net position) and do not involve measurement of results of operations. In accordance with GASB 34, fiduciary funds are not included in the government-wide statements. The District has two fiduciary funds: a private purpose trust fund used to account for college scholarship donations and an agency fund used to account for student activity programs.

Basis of Presentation

The District uses the provisions of GASB 34, for financial reporting on a cash basis, which is a basis of accounting other than accounting principles generally accepted in the United States of America, and GASB 38, for certain financial statement note disclosures. The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net position-cash basis presents the cash basis financial condition of governmental activities of the District at year-end. The statement of activities-cash basis presents a comparison between direct cash disbursements and program cash receipts for each program or function of the District's governmental activities. Direct cash disbursements are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program cash receipts include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Cash receipts which are not classified as program cash receipts are presented as general cash receipts of the District. The comparison of direct cash disbursements with program cash receipts identifies the extent to which each governmental function is self-financing or draws from the general cash receipts of the District.

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

Basis of Accounting

Although required by Ohio Administrative Code Section 117-2-03(B) to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America (GAAP), the District chooses to prepare its financial statements in accordance with the cash basis of accounting. Receipts are recognized when received in cash rather than when earned, and disbursements are recognized when paid rather than when a liability is incurred. Budgetary presentations report budgetary disbursements when a commitment is made (i.e., when an encumbrance is approved). These statements include adequate disclosure of material matters, in accordance with the basis of accounting described above.

As a result of the use of the cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements. Therefore, when reviewing the financial information and discussion within this annual report, the reader should keep in mind the limitations resulting from the use of the cash basis of accounting.

Cash Receipts – Exchange and Non-Exchange Transactions

Cash receipts resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the cash basis when the exchange takes place. On a cash basis, receipts are recorded in the year in which the resources are received.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On a cash basis, receipts from property taxes are recognized in the year in which the taxes are received. Receipts from grants, entitlements and donations are recognized in the year in which the monies have been received.

Cash Disbursements

On the cash basis of accounting, disbursements are recognized at the time payments are made.

Budgetary Process

All funds, other than the agency fund, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on disbursements plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. The Treasurer has been authorized to allocate Board appropriations to the function and object level within each fund.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

The certificate of estimated resources may be amended during the year if projected increases or decreases in receipts are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported in the final column of the budgetary statements reflect the amounts in the amended certificate in effect at the time the final appropriations were passed.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year, including all supplemental appropriations.

Cash and Cash Equivalents and Investments

Cash and cash equivalents consist of the total of fund cash balances of all funds as of June 30, 2015. District funds are maintained in checking accounts and certificates of deposit. Individual fund balance integrity is maintained through the District's records. Balances of all funds are maintained in these accounts or are temporarily used to purchase certificates of deposit or investments. All interest receipts are reported in the general fund except those specifically related to those funds deemed appropriate according to the School Board's policy. For fiscal year 2015, interest receipts amounted to \$24,269 of which \$19,194 was recorded in the general fund, \$4,251 was recorded in the state share building fund expenses fund, and \$824 was recorded in the private purpose trust fund.

Capital Assets and Depreciation

Capital assets acquired or constructed for the District are recorded as disbursements at the time of acquisition. However, under the cash basis of accounting, capital assets and the related depreciation are not reported on the basic financial statements.

Compensated Absences

Vacation and sick leave benefits are not accrued under the cash basis of accounting as previously described. All leave will either be absorbed by time off from work, or within certain limitations, be paid to the employees.

Long-Term Obligations

In general, bonds, long-term loans, and capital leases are recorded as cash disbursements in the basic financial statements when paid. Long-term obligations are not recorded as liabilities in the basic financial statements under the cash basis of accounting.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education. Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when disbursements are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when disbursements are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net Position

Net cash position represents the cash assets held by the District at year end. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Restricted for other purposes is comprised of net position restricted for state and federal programs. The District applies restricted resources first when a cash disbursement is made for purposes for which both restricted and unrestricted net position is available. As of June 30, 2015, none of the District's restricted net position was restricted by enabling legislation.

Interfund Transactions

Exchange transactions between funds are reported as cash receipts in the seller funds and as cash disbursements in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular cash disbursements to the funds that initially paid for them are not presented on the financial statements. In the government-wide financial statements transfers within governmental activities are eliminated. Flows of cash from one fund to another with a requirement for repayment are reported as advances in and out. Advances between governmental activities are eliminated in the statement of activities.

Pensions

For purposes of measuring the net pension liability, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

NOTE 3 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must be either evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts, including, but not limited to, passbook accounts.

Interim deposits are deposits of interim moneys. Interim moneys are those moneys which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

Interim monies can be invested or deposited in the following securities:

1. United States treasury notes, bills, bonds, or other obligations of or securities issued by the United States treasury or any other obligation guaranteed as to the payment of principal and interest by the United States;
2. Bonds, notes, debentures, or other obligations of or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above, provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. Interim deposits in the eligible institutions applying for interim money as provided in section 135.08 of the Revised Code;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio);
8. Certain bankers' acceptances for a period not to exceed one hundred eighty days and commercial paper notes for a period not to exceed one hundred eighty days in an amount not to exceed twenty-five percent of the interim moneys available for investment at any one time;
9. Linked deposits as authorized by ordinance adopted pursuant to section 135.80 of the Revised Code;

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

10. Commercial paper notes issued by any entity that is defined in division (D) of section 1705.01 of the Revised Code and has assets exceeding five hundred million dollars, and to which notes are rated at the time of purchase in the highest classification established by at least two standard rating services; the aggregate value of the notes does not exceed ten percent of the aggregate value of the outstanding commercial paper of the issuing corporation; the notes mature no later than one hundred eighty days after purchase; and
11. Bankers' acceptances of banks that are members of the federal deposit insurance corporation to which obligations both the following apply: obligations are eligible for purchase by the federal reserve system and the obligations mature no later than one hundred eighty days after purchase.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution. The District maintains a cash pool which is used by all funds.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits: Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. According to state law, public depositories must give security for all public funds on deposit in excess of those funds that are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agency or instrumentality of the federal government. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC, or may pledge a pool of government securities valued at least 105 percent of the total value of public monies on deposit at the institution. The District's policy is to deposit money with financial institutions that are able to abide by the laws governing insurance and collateralization of public funds.

At June 30, 2015, the District's bank balance of \$14,265,899 was either covered by FDIC or collateralized by the financial institution's public entity deposit pool in the manner described above.

NOTE 4- BUDGETARY BASIS FUND BALANCES

The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The statement of receipts, disbursements and changes in fund balance – budget (budgetary basis) and actual for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The following table summarizes the adjustments necessary to reconcile the cash basis and the budgetary basis statements for the general fund.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Net Change in Fund Balance

	General Fund
Cash Basis (as Reported)	\$294,833
Perspective Difference:	
Activity of Funds Reclassified for Cash Reporting Purposes	(55,516)
Encumbrances	(218,552)
Budget Basis	\$20,765

As a part of generally accepted accounting principles, certain funds that are legally budgeted in special revenue funds are considered part of the general fund on a cash basis. This includes the public school support and severance funds. These funds were excluded from the budgetary presentation for the general fund.

NOTE 5 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and tangible personal property (used in business) located in the District. Real property tax receipts received in calendar year 2015 represent collection of calendar year 2014 taxes. Real property taxes received in calendar year 2015 were levied after April 1, 2014, the lien date. Assessed values for real property taxes are established by state law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, state statute permits alternate payment dates to be established.

Public utility property tax receipts received in calendar year 2015 represent collection of calendar year 2014 taxes. Public utility real and tangible personal property taxes received in calendar year 2015 became a lien on December 31, 2013, were levied after April 1, 2014, and are collected in 2015 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The Jackson and Lawrence County Treasurers collect property taxes on behalf of all taxing districts within the Counties. The Jackson and Lawrence County Auditors periodically remit to the taxing districts their portion of the taxes collected.

The assessed values upon which fiscal year 2015 taxes were collected are:

	2014 Second- Half Collections		2015 First- Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$80,460,400	74.40%	\$90,774,940	76.25%
Public Utility	27,681,530	25.60%	28,279,610	23.75%
Total Assessed Value	\$108,141,930	100.00%	\$119,054,550	100.00%
Tax Rate per \$1,000 of Assessed Valuation	\$23.83		\$23.83	

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

NOTE 6 - DEBT OBLIGATIONS

The District's long-term obligations at June 30, 2015 were as follows:

	Beginning Balance June 30, 2014	Additions	Payments	Ending Balance June 30, 2015	Due in One Year
2006 Classroom Facilities Refunding:					
Current Interest, 4.00%	\$1,340,000	\$0	\$0	\$1,340,000	\$205,000
Term, 4.00%	520,000	0	0	520,000	0
Capital Appreciation	30,000	0	30,000	0	0
Accretion	139,364	35,636	175,000	0	0
Total	\$2,029,364	\$35,636	\$205,000	\$1,860,000	\$205,000

On December 27, 1999, the District issued \$3,677,000 in voted general obligation bonds for constructing, renovating, and adding to buildings; furnishing and equipping such buildings; and improving District sites. The debt will be repaid from the debt service fund. On October 11, 2006, the District issued \$2,185,000 in classroom facilities general obligation refunding bonds with an interest rate of 4.00 percent and a maturity date in 2022. The proceeds were used to defease a large portion of the 1999 classroom facilities general obligation bonds. \$65,000 of the refunding bonds was capital appreciation bonds. The capital appreciation bonds matured in fiscal years 2014 and 2015. The maturity amounts of the capital appreciation bonds were \$205,000 in fiscal year 2014 and \$205,000 in fiscal year 2015, for a total of \$410,000. The debt is being repaid from the debt service fund.

The annual requirements to amortize debt outstanding as of June 30, 2015 are as follows:

Year Ending June 30	2006 Classroom Facilities Refunding		
	Principal	Interest	Total
2016	\$205,000	\$74,400	\$279,400
2017	210,000	66,200	276,200
2018	220,000	57,800	277,800
2019	225,000	49,000	274,000
2020	235,000	40,000	275,000
2021-2023	765,000	60,067	825,067
Total	\$1,860,000	\$347,467	\$2,207,467

The District's overall legal debt margin was \$9,955,940 with an unvoted debt margin of \$119,055 at June 30, 2015.

NOTE 7 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During 2015, the District contracted with the Ohio School Plan (OSP) for property and various other insurance coverages.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

General liability is protected by OSP with a \$2,000,000 single occurrence limit and a \$4,000,000 aggregate with no deductible. Vehicle and property coverages are also provided by OSP. Vehicle liability had a \$2,000,000 combined single limit of liability. Property insurance had a \$34,276,935 limit. Settled claims have not exceeded any aforementioned commercial coverage in any of the past three years. There have been no significant reductions in coverage from the prior fiscal year.

For fiscal year 2015, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 11). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "equity pooling fund." This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Comp Management, Inc. provides administrative, cost control and actuarial services to the GRP. Each year, the District pays an enrollment fee to the GRP to cover the costs of administering the program.

NOTE 8 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability

For fiscal year 2015, Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date—an Amendment of GASB Statement No. 68" were effective. These GASB pronouncements had no effect on beginning net position/fund balance as reported June 30, 2014, as the net pension liability is not reported in the accompanying financial statements. The net pension liability has been disclosed below.

Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Plan Description - School Employees Retirement System (SERS)

Plan Description – District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit
* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.		

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2015, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District’s contractually required contribution to SERS was \$223,472 for fiscal year 2015.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS’ fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at www.strsoh.org.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five year of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2015, plan members were required to contribute 12 percent of their annual covered salary. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2015 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$688,404 for fiscal year 2015.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Net Pension Liability

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share:

	SERS	STRS	Total
Proportionate Share of the Net			
Pension Liability	\$2,422,370	\$11,355,208	\$13,777,578
Proportion of the Net Pension			
Liability	0.047864%	0.046684%	

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2014, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target		Long Term Expected	
	Allocation		Real Rate of Return	
Cash	1.00	%	0.00	%
US Stocks	22.50		5.00	
Non-US Stocks	22.50		5.50	
Fixed Income	19.00		1.50	
Private Equity	10.00		10.00	
Real Assets	10.00		5.00	
Multi-Asset Strategies	15.00		7.50	
Total	100.00	%		

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	Current		
	1% Decrease (6.75%)	Discount Rate (7.75%)	1% Increase (8.75%)
District's proportionate share of the net pension liability	\$3,456,002	\$2,422,370	\$1,552,996

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males’ ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS’ investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS’ fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2014.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
District's proportionate share of the net pension liability	\$16,256,218	\$11,355,208	\$7,210,603

NOTE 9 - POSTEMPLOYMENT BENEFITS

School Employees Retirement System

In addition to a cost-sharing, multiple-employer defined benefit pension plan, the School Employees Retirement System of Ohio (SERS) administers a post-employment benefit plan.

Health Care Plan

Ohio Revised Code 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The Ohio Revised Code provides the statutory authority to fund SERS' post-employment benefits through employer contributions. Active members do not make contributions to the post-employment benefit plans.

The Health Care Fund was established under, and is administered in accordance with, Internal Revenue Code 105(e). Each year after the allocation for statutorily required pensions and benefits, the Retirement Board allocates the remainder of the employer 14 percent contribution to the Health Care Fund to be used to subsidize the cost of health care coverage. For the year ended June 30, 2015, the health care allocations was 0.82 percent. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. By statute no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2015, the minimum compensation level was established at \$20,450. The surcharge, added to the unallocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. For the District, contributions assigned to health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$39,702, \$26,916, and \$23,193, respectively, which is equal to the required amounts for those years.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending upon the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial report of SERS' Health Care plan is included in its comprehensive annual financial report. The report can be obtained on SERS' website at www.ohsers.org under employers/audit resources.

State Teachers Retirement System

STRS Ohio administers a pension plan that is comprised of: a Defined Benefit Plan, a self-directed Defined Contribution Plan, and a Combined Plan that is a hybrid of the Defined Benefit Plan and Defined Contribution Plan.

Ohio law authorizes STRS Ohio to offer a cost-sharing, multiple-employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums.

Pursuant to Chapter 3307 of the Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent comprehensive annual financial report by visiting www.strsoh.org or by requesting a copy by calling toll-free 1-888-227-7877.

Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14 percent employer contribution rate, 0 percent of covered payroll was allocated to post-employment health care for the year ended June 30, 2015. For the years ended June 30, 2014 and 2013, 1 percent of covered payroll was allocated to post-employment health care. The 14 percent employer contribution rate is the maximum rate established under Ohio law. For the District, these amounts equaled \$0, \$49,629, and \$52,485 for fiscal years 2015, 2014 and 2013, respectively, which is equal to the required amounts for those years.

NOTE 10 – JOINTLY GOVERNED ORGANIZATIONS

South Central Ohio Computer Association Council of Governments

The District is a participant in the South Central Ohio Computer Association Council of Governments (SCOCA COG) which is an information technology center. SCOCA COG is a council of governments providing information technology services to 59 public education entities, 60 non-public education entities, 2 private schools, and multiple public libraries from 23 Ohio counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of SCOCA COG consists of two representatives from each county elected by majority vote of all charter member school districts within each county, two treasurers elected by majority vote of all charter member school districts, and one representative from the fiscal agent. The District paid SCOCA COG \$151,221 for services provided during the year. Financial information for SCOCA COG can be obtained from their fiscal office located at Pike County Career Technology Center, P.O. Box 577, 175 Beaver Creek Road, Piketon, Ohio 45661.

Gallia-Jackson-Vinton Joint Vocational School District

The Gallia-Jackson-Vinton Joint Vocational School (Joint Vocational School) is a jointly governed organization providing vocational services to its six participating school districts. The Joint Vocational School is governed by a Board of Education comprised of nine members appointed by the participating schools. The board controls the financial activity of the Joint Vocational School and reports to the Ohio Department of Education and the Auditor of State of Ohio. The continued existence of the Joint Vocational School is not dependent on the District's continued participation and no equity interest exists. To obtain financial information, write to the Gallia-Jackson-Vinton Joint Vocational School, P.O. Box 157, Rio Grande, Ohio 45674.

NOTE 11 – INSURANCE PURCHASING POOL

Ohio School Boards Association (OSBA) Workers’ Compensation Group Rating Program

The District participates in the Ohio School Boards Association Workers’ Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP’s business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

NOTE 12 – STATUTORY SET-ASIDES

The District is required by state law to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year-end and carried forward to be used for the same purposes in future fiscal years. The following information describes the change in the year-end set-aside amounts for capital acquisition. Disclosure of this information is required by the state.

	Capital Acquisition
Set-Aside Balance as of June 30, 2014	\$0
Current Year Set-Aside Requirement	216,992
Current Year Offsets	(82,643)
Qualifying Disbursements	(134,349)
Set-Aside Balance Carried Forward to Further Fiscal Years	\$0
Set-Aside Balance as of June 30, 2015	\$0

The District had offsets during the year that reduced the set-aside amount to zero in the capital acquisition set-aside. The carryover amount in the capital acquisition set-aside is limited to the balance of the offsets attributed to bond or tax levy proceeds. The District is responsible for tracking the amount of the bond proceeds that may be used as an offset in future periods, which was \$3,699,460 at June 30, 2015.

NOTE 13 – CONTINGENCIES

Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2015, if applicable, cannot be determined at this time.

Litigation

The District is not currently party to legal proceedings.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

NOTE 14 – INTERFUND ACTIVITY

Interfund Transfers

Transfers made during the year ended June 30, 2015 were as follows:

	Transfers In	Transfers Out
Major Fund	\$0	\$249,200
General		
Non-Major Funds		
Permanent Improvement	225,000	0
Food Service	24,200	0
<i>Total</i>	\$249,200	\$249,200

Transfers were made from the general fund to the permanent improvement non-major capital projects fund to provide funds for ongoing projects and to the food service non-major special revenue fund to subsidize operations.

Interfund Advances

Advances made during the year ended June 30, 2015 were as follows:

	Advance In	Advance Out
Major Fund	\$111,454	\$0
General		
Non-Major Funds		
Early Childhood	0	9,843
Advance Placement Network	0	1,578
IDEA B	0	22,126
Title I	0	47,389
Preschool	0	604
Title II-A	0	6,566
Rural Education	0	23,348
<i>Total Non-Major Funds</i>	0	111,454
<i>Total</i>	\$111,454	\$111,454

Advances from various non-major special revenue funds to the general fund are to repay advances from the prior year.

NOTE 15 – COMPLIANCE

Although required by Ohio Administrative Code Section 117-2-03(B) to prepare its financial report in accordance with accounting principles generally accepted in the United States of America (GAAP), the District chooses to prepare its financial statements and notes in accordance with the cash basis of accounting. This is not in compliance with Ohio law.

Oak Hill Union Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2015

NOTE 16 - FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on the fund balance for the major governmental funds and all other governmental funds are presented below:

	General	State Share Building Fund Expenses	Non-Major Governmental Funds	Total Governmental Funds
Restricted for				
Food Service Operations	\$0	\$0	\$25	\$25
Other Purposes	0	0	26,618	26,618
Construction	0	1,420,091	124,324	1,544,415

NOTE 17 – CONTRACT COMMITMENT

The District had a bus purchase contract with Edwin H. Davis & Son Inc. in the amount of \$156,252 outstanding at June 30, 2015.

NOTE 18 – ENCUMBRANCE COMMITMENTS

At June 30, 2015, the District had significant encumbrance commitments in the governmental funds as follows:

Major Fund	
General	\$218,552
Non-Major Fund	
Athletics	14,759
<i>Total</i>	<u>\$233,311</u>

NOTE 19 – NEW GASB PRONOUNCEMENTS

For fiscal year 2015, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 68, “Accounting and Financial Reporting for Pensions” and GASB Statement No. 71, “Pension Transition for Contributions Made Subsequent to the Measurement Date—an Amendment of GASB Statement No. 68.”

GASB Statement No. 68 replaces the requirements of GASB Statements No. 27 and 50 related to pension plans administered through trusts or similar arrangements. This Statement requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability, and to more comprehensively and comparably measure the annual costs of pension benefits. This Statement also adds revised and new note disclosures and required supplementary information.

GASB Statement No. 71 amends Statement No. 68 related to transition provisions for certain pension contributions made to defined benefit pension plans prior to implementation of Statement No. 68 by employers and nonemployer contributing entities. The provisions of this Statement should be applied simultaneously with the provisions of Statement No. 68.

These pronouncements had no effect on beginning net position/fund balance as reported at June 30, 2014.

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FISCAL YEAR ENDED JUNE 30, 2015**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) reports the School District's federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

NOTE C - FOOD DONATION PROGRAM

The School District reports commodities consumed on the Schedule at the fair value. The School District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Oak Hill Union Local School District
Jackson County
205 Western Avenue
Oak Hill, Ohio 45656

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Oak Hill Union Local School District, Jackson County, Ohio (the School District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated February 8, 2016, wherein we noted the School District uses a special purpose framework other than generally accepted accounting principles.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and, accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matter we must report under *Government Auditing Standards* which is described in the accompanying Schedule of Findings as item 2015-001.

Entity's Response to Findings

The School District's response to the Finding identified in our audit is described in the accompanying Schedule of Findings. We did not audit the School District's response and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO ITS MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Oak Hill Union Local School District
Jackson County
205 Western Avenue
Oak Hill, Ohio 45656

To the Board of Education:

Report on Compliance for Its Major Federal Program

We have audited the Oak Hill Union Local School District's, Jackson County, Ohio (the School District), compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the Oak Hill Union Local School District's major federal program for the year ended June 30, 2015. The *Summary of Auditor's Results* in the accompanying Schedule of Findings identifies the School District's major federal program.

Management's Responsibility

The School District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the School District's compliance for the School District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the School District's major program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Its Major Federal Program

In our opinion, the Oak Hill Union Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2015.

Report on Internal Control Over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

<i>(d)(1)(viii)</i>	Dollar Threshold: Type A/B Programs	Type A: > \$ 300,000 Type B: all others
<i>(d)(1)(ix)</i>	Low Risk Auditee?	No

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2015-001

Noncompliance

Ohio Rev. Code § 117.38 provides that each public office shall file a financial report for each fiscal year. The Auditor of State may prescribe forms by rule or may issue guidelines, or both, for such reports. If the Auditor of State has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office. Ohio Admin. Code § 117-2-03 further clarifies the requirements of Ohio Rev. Code § 117.38.

Ohio Admin. Code § 117-2-03(B) requires the District to file its annual financial report pursuant to generally accepted accounting principles. However, the District prepared its financial statements in accordance with standards established by the Auditor of State for governmental entities not required to prepare annual reports in accordance with generally accepted accounting principles.

OAK HILL UNION LOCAL SCHOOL DISTRICT
JACKSON COUNTY

SCHEDULE OF FINDINGS
OMB CIRCULAR A -133 § .505
JUNE 30, 2015
(Continued)

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS (Continued)**

FINDING NUMBER 2015-001 (Continued)

Noncompliance – Ohio Rev. Code § 117.38 (Continued)

The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time. Pursuant to Ohio Rev. Code § 117.38, the District may be fined and subject to various other administrative remedies for its failure to file the required financial report.

The School District should take the necessary steps to ensure that its annual financial report is prepared in accordance with generally accepted accounting principles.

Officials' Response:

District officials do not believe that preparing financial statements in accordance with generally accepted accounting principles is cost-beneficial.

3. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

None.
