SUPPLEMENTAL REPORTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2015

RYAN JENKINS, TREASURER

Board of Education Pickerington Local School District 90 East Street Pickerington, Ohio 43147

We have reviewed the *Independent Auditor's Report* of the Pickerington Local School District, Fairfield County, prepared by Julian & Grube, Inc., for the audit period July 1, 2014 through June 30, 2015. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Pickerington Local School District is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Pickerington Local School District Fairfield County 90 N. East Street Pickerington, Ohio 43147

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Pickerington Local School District, Fairfield County, Ohio, as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Pickerington Local School District's basic financial statements and have issued our report thereon dated December 28, 2015, wherein we noted as discussed in Note 3, the Pickerington Local School District adopted Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No.* 27 and No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an Amendment of GASB Statement No.* 68.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Pickerington Local School District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the Pickerington Local School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Pickerington Local School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Board of Education Pickerington Local School District

Compliance and Other Matters

As part of reasonably assuring whether the Pickerington Local School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Pickerington Local School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Pickerington Local School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance With Requirements Applicable to The Major Federal Program and on Internal Control Over Compliance Required by *OMB Circular A-133* and the Schedule of Expenditures of Federal Awards

Pickerington Local School District Fairfield County 90 N. East Street Pickerington, Ohio 43147

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited the Pickerington Local School District's compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the Pickerington Local School District's major federal program for the fiscal year ended June 30, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the Pickerington Local School District's major federal program.

Management's Responsibility

The Pickerington Local School District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the Pickerington Local School District's compliance for the Pickerington Local School District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the Pickerington Local School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the Pickerington Local School District's major program. However, our audit does not provide a legal determination of the Pickerington Local School District's compliance.

Opinion on the Major Federal Program

In our opinion, the Pickerington Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the fiscal year ended June 30, 2015.

Board of Education Pickerington Local School District

Report on Internal Control Over Compliance

The Pickerington Local School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the Pickerington Local School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the Pickerington Local School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Pickerington Local School District, Fairfield County, Ohio, as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Pickerington Local School District's basic financial statements. We issued our unmodified report thereon dated December 28, 2015. Our opinion also explained that the Pickerington Local School District adopted Governmental Accounting Standard No. 68 and 71 during the year. We conducted our audit to opine on the Pickerington Local School District's basic financial statements. The accompanying schedule of expenditures of federal awards presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Julian & Grube, Inc. December 28, 2015

December 28, 2015

To the Board of Education and the Citizens of the Pickerington Local School District:

As the Treasurer of the Pickerington Local School District (the "District"), I am pleased to submit to you this Comprehensive Annual Financial Report (CAFR) issued by the District. The CAFR for the fiscal year ended June 30, 2015 is prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association (GFOA).

The Treasurer's Office is responsible for the accuracy of the data presented and the completeness and fairness of this presentation. We believe the data presented is accurate in all material aspects and that all disclosures necessary to enable the reader to acquire the maximum understanding of the District's financial activity are included herein.

The basic financial statements of the District for the fiscal year ended June 30, 2015, were audited by Julian and Grube, whose opinion thereon is included at the beginning of the Financial Section of this report.

In addition to the financial audit, a single audit was performed as required by the Single Audit Act Amendments of 1996 and the provisions of OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations". The single audit report is not included in the CAFR.

This transmittal letter is designed to provide historical information about the District, as well as complement the required Management's Discussion and Analysis (discussed below). Unless noted otherwise, the financial data in this transmittal letter is presented on the modified accrual basis of accounting. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD&A).

The Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE DISTRICT

The District originated in the late 1800's, built its first building in 1907, and is a fiscally independent political subdivision in the State of Ohio. By statute the District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code to provide education services authorized by charter and further mandated by state and/or federal agencies. The District is located in a suburb of Columbus, the state capital, and operated two high schools, two junior high schools, three middle schools, and seven elementary schools as of June 30, 2015. The District had approximately 10,200 students enrolled during the 2014-2015 school year.

The District provides a wide variety of educational and support services as mandated by State statute or public desires. These include regular and vocational instruction, special instructional programs for handicapped and gifted students, student guidance and health services, as well as extracurricular activities. The District has a reputation of academic excellence as measured by student academic results on State-mandated assessments.

An elected five-member Board of Education serves as the taxing authority and policy maker for the District. The Board adopts the annual operating budget, tax budget, and approves all expenditures of District tax monies.

The Superintendent is the Chief Executive Officer of the District, responsible to the Board for total educational and support operations. The Treasurer is the Chief Financial Officer of the District, responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds, and investing idle funds as permitted by Ohio law. Other Board-appointed officials, reporting to the Superintendent, include the Assistant Superintendent, the Director of Human Resources, the Director of Student Services and the building principals.

Internal Control:

In developing and revising the District's accounting and internal control system, consideration is given to the adequacy of internal controls to provide reasonable but not absolute assurance regarding:

- 1. Safeguarding of assets against loss from unauthorized use or disposition; and
- 2. Keeping reliable financial records for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognizes that:

- 1. The cost of a control should not exceed the benefits likely to be derived; and
- The evaluation of costs and benefits required estimates and judgments by management.

Management believes that the District's internal controls adequately meet the above objectives.

Budgetary Controls:

In addition to the internal controls mentioned above, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of all funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the individual fund level of expenditures. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Unencumbered amounts lapse at year-end. A complete description of the District's budgetary process can be found in Note 2.E. to the basic financial statements.

Instructional Organization:

The District provides a wide variety of educational and support services. This includes regular and vocational instruction; special instructional programs for English as a second language ("ELL"), students with disabilities and gifted students; student guidance and health services; as well as extracurricular activities.

While rapid growth in student population in past years has presented many challenges - providing student housing, maintaining appropriate class sizes, and additional efforts to ensure horizontal and vertical articulation of instruction - growth has also provided the District opportunities it otherwise might not have had.

The community has supported the District's housing needs and the need for reorganization has resulted in grade level spans that have improved opportunities for students and enhanced instruction. In 1989, the District approved a bond issue that funded a state-of-the-art high school for 1,800 students. As a result, grades 7 and 8 were relocated to the junior high school (the old high school building) and grade 5 was moved from the elementary buildings to be relocated with the sixth grade, forming a middle school and resulting in the District's present configuration of building spans - K-4, 5-6, 7-8, and 9-12.

In November of 1997, the District passed another bond issue. This issue, coupled with a \$6.7 million interest-free State loan, supported the construction of two new middle schools (grades 5-6) and the renovation of the middle grade facility to serve as an additional elementary school. These two middle schools were built to facilitate the District's teaming program.

August 2001 marked the reopening of our "East Street Facility" (the previous middle school) as Heritage Elementary. This facility housed the District's original K-12 school since 1907. It was closed for one year to enable contractors to complete an extensive renovation that was completed in fiscal year 2002.

Our community's greatest building achievement was passed in November 2000. The District residents passed a \$77.5 million bond issue as well as a 3 mill-operating levy during its first attempt. These dollars were used to construct Pickerington High School North and Lakeview Junior High School, which opened in August of 2003.

The voters approved a \$59.9 million bond issue in fiscal year 2007 for the purpose of constructing a middle school and two elementary buildings. Construction was completed in the summer of 2009. The three new buildings opened on schedule at the beginning of the 2009-10 school year.

In May 2009, the voters approved the extension of a classroom facilities maintenance levy. This approval enabled the District to qualify for \$50 million in State funds from the Ohio School Facilities Commission, which has been used for the renovation of five of the district's oldest school buildings.

The District's two high school facilities have supported enhanced computer usage and instruction, a growing broadcast journalism program, a satellite tech prep program through Eastland-Fairfield Career and Technical Schools, numerous STEM offerings, integrated instruction in algebra, chemistry, English and American history, as well as other program improvements in the arts.

While Pickerington High School Central and Pickerington High School North have well-deserved reputations of being two of the finest public high schools in Ohio, efforts have been made to identify and evaluate ways to better meet the needs and interests of students. Included in these efforts is intervention in reading and math for struggling students, the creation of a conversion community school, mentoring, internships, "double-blocking" of classes to enhance time usage, redefining requirements for honors classes, a review of the graduation requirements, an increase in athletic academic eligibility standards, and a variety of advanced placement course offerings.

STUDENT ACHIEVEMENT

<u>Scholastic Performance</u>: For the fiscal year 2014 (fiscal 2015 unavailable as of the publication of the CAFR), the District compiled the following results on the various components of the state report card:

- ACHIEVEMENT: Performance Index: 85.3% B; Indicators Met: 83.3% B
- GAP CLOSING: Annual Measurable Objectives: 70.6% C
- PROGRESS: Overall Value Added: A; Gifted Value Added: D; Lowest 20% in Achievement Value Added: C; Students with Disabilities Value Added: C
- GRADUATION RATES: 95.4% of Students Graduated in 4 Years: A; 96.5% of Students Graduation in 5 Years: A

Future versions of report cards will also provide grades in the following areas: K-3 Literacy; Financial Data; and Prepared for Success Data.

MAJOR INITIATIVES AND PROGRAM ACCOMPLISHMENTS

<u>Data Analysis:</u> Building Leadership Teams analyze and disaggregate all value-added and achievement results with all teachers of Core Content areas. Data from Ohio Achievement Tests (administered to grades levels 3-8) and the Ohio Graduation Tests are analyzed by grade level, content area, and subgroups including standard, response type and item analysis. Teacher-leaders receive training on using data to inform instructional decisions in the classroom.

The District uses data to implement a Response to Intervention (RTI) model so that students who demonstrate below Reading and Mathematics grade-level skills receive targeted assistance for improvement. Intervention is provided to struggling learners by both the classroom teacher and intervention teacher.

<u>Professional Development</u>: Job-embedded professional learning opportunities are provided to all teaching staff during weekly grade level/content team meetings and State-granted waiver days. Professional development revolves around implementation of the Common Core Standards, using research-based instructional strategies and incorporating 21st Century skills into daily practice. Building Core Teams analyze data to craft Continuous Improvement Plans (CIP). Professional development is provided to teams of teachers based on the instructional needs at the building, grade, or subject level. Instructional Coaches at grades K-12 assist teachers as they meet the needs of all students and implement differentiated instructional practices.

<u>Gifted & Talented Programs</u>: The District currently operates in-house programs for gifted and talented students at each elementary and middle school by delivering a compacted mathematics curriculum. A gifted intervention specialist in each elementary building also allows time for these teachers to act as a gifted resource to all classroom teachers. There are also acceleration/enrichment opportunities for advanced students at the secondary level.

<u>ELL Program</u>: Students in grades K-12 with Limited English Proficiency are provided intervention programs through the Districts' ELL (English Language Learners) teachers. The proficiency of English language is assessed annually through State mandated testing.

<u>Foreign Languages</u>: Eighth (8th) grade students are able to enroll in an elective study of German, Spanish, and French to complete a first year high school credit. American Sign Language is also offered at the high school. These additions have provided District students an opportunity to enroll in a fifth year of foreign language as seniors if they begin their foreign language studies at the junior high level.

<u>High School Credit as an Option for Junior High Students</u>: Junior High students have the option of earning High School credits for Algebra, Honors Algebra, Foreign Language, and Earth Science courses.

Arts Instruction: The District believes in the importance of providing opportunities for all its students to experience and excel in arts education. Music and visual arts teachers provide instruction to students 1-12. Each of our elementary and middle school buildings are served by a Global Integration Team made up of art, music, physical education, and media/technology teachers. All students at the junior high level are enrolled in a creative arts block. Beginning in the sixth grade in middle school, students have the opportunity to enroll in instrumental music (including a strings program). At the junior high this is expanded to include both vocal and instrumental music. Students enroll in visual, vocal and instrumental music and performing arts programs at the high school level.

<u>Technology in Instruction</u>: The District recognizes that technology has become an integral part of education. In addition, technology is a tool to facilitate the 21st Century skills for college and career readiness for all students. A comprehensive District plan embeds technology use into communication, instruction, intervention, data reporting and data analysis.

Technology has continued to advance and the District has made great strides in terms of enhancing instruction by updating existing technological equipment and infrastructure. The District has made a substantial financial commitment to improving the ability for students, teachers and staff to access our network with wireless communication devices (WCDs—iPads, iPods, Droids, etc.) in ways that enhance the instructional process.

Currently, the District is improving communications with parents by providing on-line access to student's academic progress. The District also has a listserv that is utilized by principals and the District Director of Communications to keep parents informed about District news and events. Teachers have technology web pages and are providing on-line information about homework assignments.

The District created a Technology Help Desk that makes technical services for teachers more efficient.

<u>Summer School Opportunities</u>: The District offers a summer intervention program for students who have not met the State's proficient level on the Grade 3 Reading Achievement Assessment. Summer intervention is available for high school students in all content areas in preparation for re-taking the Ohio Graduation Test. High School students have the opportunity to earn Physical Education credit during summer months. The District also offers credit recovery and flexible credit options during the summer.

Intervention is provided for students in grades 1-6 during the regular school day through the Response to Intervention process.

<u>Pickerington Community School:</u> On August 8, 2011, the Pickerington Local School District Board of Education entered into an agreement to sponsor the Pickerington Community School (PCS). PCS is a conversion community school which was created to provide high quality education to its students and contribute to Pickerington's effort to provide quality education options to all children including those at risk of not graduating.

The mission of PCS is to provide its students with a customized and personalized educational experience leading to high school graduation and meaningful post-school employment or successful transition into post-high school education.

PCS is designed as a drop-out prevention/credit recovery high school that serves grades 9-12 and primarily ages 16-21. The focus is on helping students attain the necessary graduation requirements and provide involvement in career and community workforce.

Comprehensive Continuous Improvement Plan: The District annually completes a needs assessment and develops a CCIP (Comprehensive Continuous Improvement Plan) as required by the Ohio Department of Education, Office of Federal Programs in order to receive federal funds, commonly known as "Title" monies. There are two major goals established in this plan for our District: improving student achievement in reading and mathematics, specifically with regards to narrowing the gaps for the following subgroups: students with disabilities; socio-economic status; and racial or ethnic status; and, hiring of teachers who are highly qualified. Strategies and action steps that support this goal are developed to provide a structure for expending funds for the following programs - Title I (Disadvantaged), Title II-A (Improving Teacher Quality), Title III (Limited English Proficient), Title III (Immigrant), Title IV (Safe and Drug-Free Schools), Title VI-B (IDEA - Part B Special Education). The District's current CCIP was approved by the Ohio Department of Education, Office of Federal Programs in July 2013.

Grants Programs: Staff members continue to seek grant funding to increase instructional and professional opportunities. At the end of fiscal year 2015, the District was awarded nearly \$2.1 million in Straight A Grant funds to enhance STEM programming, in the fields of Engineering/Fabrication and Allied Health Pathways, and to enhance mathematical instruction. Furthermore, the Straight A Grant funds were also used to enhance Instructional Leadership practice According to many studies, careers in STEM and mathematical areas will be some of the most vital to our economy in the coming years. The District believes that this programming will ensure that many of its students are adequately prepared to successfully contribute to a highly technical 21st century economy.

Special Education: The District's special education program provides a full continuum of services from kindergarten through 12th grade based on the individual needs of its 1,389 students on Individualized Education Programs (IEPs). Services are provided in all 14 buildings as well as programs outside of the district. These services range from inclusion support to homebound/hospitalization. Some low incidence classrooms are shared across the district requiring some students to be transported outside of their home building in order to receive the services that are offered in those classrooms. These would include resource rooms that typically serve multiple disabilities, emotional disturbance, and cognitive disabilities. The District supports these classrooms through smaller class sizes (based on State requirements), intensive related services support, and the utilization of paraprofessionals in the classrooms. Pickerington has 32 low incidence classrooms that either service the buildings in which they are located or are shared across the District. Each building has at least one special education cross-categorical teacher that serves identified students in the building. Students in special education resource rooms receive a range of services from instruction in a content area to supporting classroom teachers by addressing specific skill deficits a student may have. The District also offers inclusion support in many buildings with its special education teachers. These teachers support and co-teach with regular education teachers in the general education setting without pulling the IEP students from the classroom. Pickerington has 87 teachers that provide cross-categorical resource room services, inclusion support in the regular classroom, or a combination of both.

These classrooms are supported by a well-experienced related services and support staff consisting of six school psychologists, nearly 11 speech therapists, 2.2 occupational therapists, one adaptive physical education teacher, one physical therapist, one assistive technology/visual impairment teacher, one academic/behavior coach, a work-study coordinator, and 55 teaching aides, and instructional paraprofessionals. Some additional services are contracted with other agencies as well. All these classrooms, programs, and personnel are supervised and coordinated on a day-to-day basis by five special education administrators. A special education director oversees all the programs at the district level. Three special education secretaries maintain the special education records and enter critical information into the Education Management Information System (EMIS).

The District contracts with the Fairfield County Educational Service Center to provide special education services to about 121 preschoolers with disabilities. The preschool classrooms may serve up to eight special needs and four typical students in each classroom. The services for preschoolers may be center-based or itinerate based on the needs of the 3-5 year old students. The center-based program supports the students with a variety of related services.

ECONOMIC CONDITION AND OUTLOOK

The District is located primarily in Fairfield County, with a small portion extending into Franklin County. The District covers approximately 37 square miles in and around the City of Pickerington. Located approximately 15 miles from downtown Columbus, Ohio, the District is largely rural/suburban in character and is considered a growing, middle-class suburb of Columbus. The Columbus area has maintained a strong economic climate, even during periods of recession. This is due to the fact that Columbus is the State capital, and is the national headquarters for many corporations and insurance companies. There are also a number of universities in the area which contribute to a stable local economy. This stability has contributed to the growth of the District.

In 1990, the community approved a school district income tax. The income tax has proven to be a strong source of income for the District over the years, and it provides an effective balance to the traditional property tax.

As can be seen in the financial statements, voters have routinely supported the District in its efforts to keep pace with increased student population and increased costs. However, as in many other school districts, the District and residents were negatively impacted by the recession beginning in 2008. The District responded by reducing expenditures and by placing a levy on the ballot to replace decreasing State and local revenues. On November 2, 2010, voters narrowly defeated a replacement operating levy of 8 mills, which would have resulted in a 6.84 mill increase. The levy would have generated approximately \$7.6 million per year. Due to the levy loss, the District implemented substantial budget reductions for fiscal year 2012.

In June 2011, the Board reached a two-year agreement with the Pickerington Education Association which enabled the District to realize substantial savings in salaries and benefits.

On August 2, 2011, District voters approved a new levy of 5.5 mills for a continuing period of time. The levy commenced in tax year 2011 with collections beginning January 2012. This levy generates approximately \$5.95 million per year. The levy proceeds are being used for current operating expenses. The District's leadership believes that the recent budget reductions and the savings from the negotiated agreement with teachers, in combination with the passage of the August 2011 levy, has provided much-improved financial stability for the District for fiscal year 2012 and future years.

Representing 47.2% of general fund revenue, Unrestricted Grants in Aid (a.k.a. State Foundation) is the most critical piece of funding for the District. Similar to the expiring funding formula, the current formula relies heavily on the property valuation per pupil to calculate the state share of formula revenue. This local valuation per pupil is compared to the state average valuation per pupil, and the ratio of these two figures becomes the Valuation Index. A similar calculation is done which computes the ratio of the District's Median Income to the State Median Income, and the resulting calculation is called the District Income Index. For FY16, PLSD's Valuation Index is .7847, meaning that local valuation per pupil is only about 78.47% of the state average valuation per pupil. Additionally, PLSD's Income Index is 1.40, which means that District Median Incomes are about 40% higher than the State Median Income. But because the formula only uses the Income Index to help districts get more state funding, and doesn't use the Income Index to reduce funding due to increased local capacity, only the Valuation Index is used to drive PLSD's state share. Consequently, the state share of formula funding is about 58.39% in FY16. Per the biennium budget, the SSI will stay at 58.39% in FY17. If the funding formula stays the same after FY17, it could rise as high as 60% by the next biennium.

Moreover, another significant piece of the funding formula is Targeted Assistance. This funding computes Local Wealth Per Pupil, using valuation per pupil and federal adjusted gross income per pupil in equal portions. The total Local Wealth Per Pupil is then compared to the Statewide Local Wealth Per Pupil to compute yet another index (the Targeted Assistance Wealth Index). This index is used in conjunction with the Statewide Threshold Local Wealth Per Pupil to add 6 mills of funding times the valuation shortfall from the Threshold, adjusted by the Targeted Assistance Wealth Index, to those schools whose local wealth falls below the threshold wealth value. Because the calculation relies 50% on property valuation, this funding source adds over \$5M in funding to the formula for PLSD.

Finally, although District enrollment figures are up slightly from FY15, the forecasted enrollment figures for FY15 were almost 100 students lower than the actual preliminary enrollment numbers for PLSD for the 15-16 school year. Adding an additional 100 students in FY16 causes each succeeding school year to be about 100 students higher than originally forecasted. Because the District is 'on the formula,' each additional student drives about \$3,540 additional state dollars in FY16, and about \$3,600 additional state dollars in FY17 (60% of the state formula per pupil amounts in each year). This has significantly increased the state funding forecasted for the next 5 fiscal years.

As noted, the District experienced tremendous student population growth during the most recently completed decade (2000-2010), but has experienced a 'leveling-off' over the past couple of years. With the effects of the Great Recession finally beginning to wear off as it relates to housing development, it will be critical for the District to continue to monitor housing growth in the district, especially in light of how student population is so impactful on state formula aid.

In August of 2014, District management met with Moody's to secure rating for a bond refunding. The District secured an Aa2 rating. The Aa2 rating reflects the district's moderately-sized, suburban tax base which benefits from its proximity to the City of Columbus (Aaa stable). Also incorporated in the rating is the district's satisfactory financial position which is expected to remain healthy over the medium term; its above average socioeconomic characteristics; flattening enrollment trends; above average debt burden; and elevated exposure to underfunded pension plans. Moody's re-affirmed the Aa2 rating in November of 2015.

Moody's also identified the following strengths and challenges:

STRENGTHS

- Material tax base growth and/or a strengthening of wealth indices
- Sustained trend of positive operations leading to increases in cash reserves that are maintained
- Moderation of debt ratios and unfunded post-employment liabilities

CHALLENGES

- Material tax base declines and/or a weakening of wealth indices
- Structural operating deficits leading to a narrowing of cash reserves
- Significant increases to the district's debt burden and/or post-employment liabilities

Finally, the Board believes that maintaining a general fund cash balance is necessary in the interest of sound fiscal management. The Board uses the following criteria in determining the level of general fund cash balance:

- The predictability of its revenues and the volatility of its expenditures
- The Board's perceived exposure to significant one-time outlays
- The availability of resources in other funds
- The liquidity of the general fund
- The Board's assigned and committed fund balances.

In all cases, the Board has designated, by formal policy, a cash balance that is not less than 45 days-of normal operating expenses.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Pickerington Local School District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2014. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that this Comprehensive Annual Financial Report for the fiscal year ended June 30, 2015 continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of the CAFR was made possible by the diligence of the Treasurer's staff and the support of the Board of Education. Special thanks go to the Superintendent, Dr. Valerie Browning-Thompson, and the Assistant Treasurer, Mrs. Keltah Houser-Siders, of the District for their input and assistance in this project. In the financial area, as in the instructional area, our goal is to achieve excellence.

Respectfully submitted,

Timothy "Ryan" Jenkins

Independent Auditor's Report

Pickerington Local School District Fairfield County 90 N. East Street Pickerington, Ohio 43147

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Pickerington Local School District, Fairfield County, Ohio, as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Pickerington Local School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Pickerington Local School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Pickerington Local School District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Pickerington Local School District, Fairfield County, Ohio, as of June 30, 2015, and the respective changes in financial position and cash flows thereof and the budgetary comparison for the General thereof for the fiscal year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during the fiscal year ended June 30, 2015, the Pickerington Local School District adopted Governmental Accounting Standard No. 68, Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27 and Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an Amendment of GASB Statement No. 68. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the Pickerington Local School District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 28, 2015, on our consideration of the Pickerington Local School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Pickerington Local School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

The management's discussion and analysis of the Pickerington Local School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2015 are as follows:

- Net position of governmental activities increased \$7,516,935 which represents a 10.65% increase from 2014 as restated in Note 3.A. to the basic financial statements.
- General revenues accounted for \$115,012,383 in revenue or 85.99% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$18,739,185 or 14.01% for total revenues of \$133,751,568.
- The District had \$126,234,633 in expenses related to governmental activities; only \$18,739,185 of these expenses were offset by program specific charges for services and sales, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$115,012,383 were adequate to provide for these programs.
- The District's major governmental funds include the general fund and district bond retirement fund. The general fund had \$111,038,008 in revenues and other financing sources and \$109,507,702 in expenditures and other financing uses. During fiscal year 2015, the general fund's balance increased \$1,530,306 from a balance of \$22,137,522 to a balance of \$23,667,828.
- The district debt service fund had \$44,650,169 in revenues and other financing sources and \$44,798,285 in expenditures and other financing uses. The district debt service fund's balance decreased \$148,116 from \$14,928,895 to \$14,780,779.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the most significant funds are the general fund and district debt service fund which are reported as major funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2015?" The statement of net position and the statement of activities answer this question. These statements include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, the governmental activities include the District's programs and services, including instruction, support services, operation and maintenance, pupil transportation, extracurricular activities, and food service operations.

The District's statement of net position and statement of activities can be found on pages F 18 – F 19 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page F 12. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund and the district debt service fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* than can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the statement of net position and the statement of activities) and governmental *funds* is reconciled in the basic financial statements. The basic governmental fund financial statements can be found on pages F 20 – F 25 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Proprietary Funds

The District maintains a proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District's internal service fund accounts for employee benefits self-insurance. The basic proprietary fund financial statements can be found on pages F26 - F28 of this report.

Reporting the District's Fiduciary Responsibilities

The District acts in a trustee capacity as an agent for individuals. These activities are reported in an agency fund. All of the District's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities on page F 29. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages F30 - F72 of this report.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's net pension liability. The required supplementary information can be found on pages F 73 through F 79 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

During 2015, the District adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions-an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

As a result of implementing GASB 68, the District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2014, from \$80,965,975 to a deficit balance of \$70,608,806.

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2015, the District's liabilities plus deferred inflows of resources exceeded assets plus deferred outflows of resources by \$63,091,871. At fiscal year-end, restricted net position was \$12,892,373.

At fiscal year-end, capital assets represented 59.93% of total assets. Capital assets include land, construction in progress, land and improvements, buildings and improvements, furniture and equipment and vehicles. Net investment in capital assets at June 30, 2015 was \$47,937,548. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$12,892,373, represents resources that are subject to external restriction on how they may be used. Of this amount, \$3,582,543 is restricted for capital projects, \$3,203,116 is restricted for classroom facilities maintenance and \$3,645,002 is restricted for debt service. The remaining balance of unrestricted net position is a deficit of \$123,921,792 which is the result of GASB Statement No. 68, as described in Note 13.

The table below shows the change in net position for fiscal years 2015 and 2014.

Change in Net Position

	Governmental Activities2015	Governmental Activities 2014

Governmental Activities

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 functional expenses still include pension expense of \$7,823,863 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expense of \$5,594,404.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Consequently, in order to compare 2015 total program expenses to 2014, the following adjustments are needed:

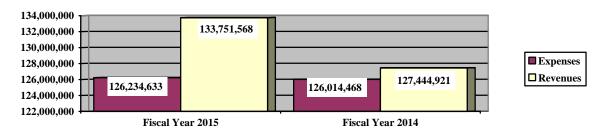

Total 2015 program expenses under GASB 68	\$ 126,234,633
Pension expense under GASB 68	(5,594,404)
2015 contractually required contributions	8,730,022
Adjusted 2015 program expenses	129,370,251
Total 2014 program expenses under GASB 27	126,014,468
Increase in program	
expenses not related to pension	\$ 3,355,783

Net position of the District's governmental activities increased \$7,516,935. Total governmental expenses of \$126,234,633 were offset by program revenues of \$18,739,185 and general revenues of \$115,012,383. Program revenues supported 14.84% of the total governmental expenses. The increase in total governmental expenses can be attributed to the increased costs associated with the new school buildings related to the OSFC project which was recently finished. These schools required additional staffing which created an increase in personal services in the form of employee salaries and wages from the prior year.

The primary sources of revenue for governmental activities are derived from property taxes, school district income taxes, and unrestricted and restricted grants and entitlements from the State of Ohio. These revenue sources represent 85.70% of total governmental revenue.

The graph below presents the District's governmental activities revenues and expenses for fiscal year 2015 and 2014.

Governmental Activities - Revenues and Expenses

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

The dependence upon tax and other general revenues for governmental activities is apparent, as 85.72% of instruction activities are supported through taxes and other general revenues which includes State aid. For all governmental activities, general revenue support is 85.16%. The District's taxpayers and restricted and unrestricted grants and entitlements from the State of Ohio are the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2015 and 2014.

Governmental Activities - General and Program Revenues

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

The District's Funds

The District's governmental funds (as presented on the balance sheet on page F 20) reported a combined fund balance of \$47,206,761, which is more than last year's total of \$46,165,333. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2015 and June 30, 2014.

	Fund Balance June 30, 2015	Fund Balance June 30, 2014	Increase/ (Decrease)	
General	\$ 23,667,828	\$ 22,137,522	\$ 1,530,306	
Bond retirement	14,780,779	14,928,895	(148,116)	
Other governmental	8,758,154	9,098,916	(340,762)	
Total	\$ 47,206,761	\$ 46,165,333	\$ 1,041,428	

General Fund

The following tables show the changes in revenues and expenditures in the general fund from 2015 and 2014.

	2015 Amount	2014 Amount	Increase/ (Decrease)	Percentage Change
Revenues Taxes	\$ 51,125,037	\$ 50,884,091	\$ 240,946	0.47 %
Tuition	551,526	466,186	85,340	18.31 %
Earnings on investments	183,457	108,532	74,925	69.03 %
Intergovernmental	55,722,322	50,661,726	5,060,596	9.99 %
Other revenues	1,935,249	1,791,025	144,224	8.05 %
Total	\$ 109,517,591	\$ 103,911,560	\$ 5,606,031	5.40 %
	2015	2014	Increase/	Percentage
	Amount	Amount	(Decrease)	Change
Expenditures				
Instruction	\$ 63,116,940	\$ 59,049,385	\$ 4,067,555	6.89 %
Support services	37,914,107	35,173,057	2,741,050	7.79 %
Operation of non-instructional services	91,887	92,187	(300)	(0.33) %
Extracurricular activities	1,766,371	1,729,532	36,839	2.13 %
Facilities acquisition and construction	106,450	99,286	7,164	7.22 %
Capital outlay	1,520,417	1,669,919	(149,502)	(8.95) %
Debt service	1,430,010	917,342	512,668	55.89 %
Total	\$ 105,946,182	\$ 98,730,708	\$ 7,215,474	7.31 %

Overall revenues of the general fund increased \$5,606,031 or 5.40%. The most significant increases were in the areas of intergovernmental revenues. Intergovernmental increased \$5,060,596 due to an increase in money received through the state's Foundation Program.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Expenditures of the general fund increased \$7,215,474 or 7.31%. This increase in expenditures is primarily due an increase in instruction expenditures, specifically instruction, from the prior year. These instructional expenditures increased primarily due to an increase in personal services in the form of employee salaries and wages as a result of an increase in employees from the prior year.

District Debt Service Fund

The District's district debt service fund balance decreased \$148,116. This decrease in fund balance is due to the scheduled principal and interest payments on bonds exceeding revenues. The table that follows assists in illustrating the financial activities and fund balance of the district debt service fund.

	2015 Amount	2014 Amount	Increase/ (Decrease)	Percentage Change
Revenues Taxes Intergovernmental	\$ 11,933,107 1,502,937	\$ 12,568,034 1,572,605	\$ (634,927) (69,668)	(5.05) % (4.43) %
Total	\$ 13,436,044	\$ 14,140,639	\$ (704,595)	(4.98) %
Expenditures Support services Debt service	\$ 207,254 13,020,167	\$ 222,668 14,190,800	\$ (15,414) (1,170,633)	(6.92) % (8.25) %
Total	\$ 13,227,421	\$ 14,413,468	\$ (1,186,047)	(8.23) %

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2015, the District amended the general fund's budget. For the general fund, original revenues and other financing sources of \$103,078,358 remained the same for the final budgeted revenues and other financing sources. Actual revenues and other financing sources for fiscal year 2015 were \$106,672,794. This represents a \$3,594,436 increase over final budgeted revenues. In accordance with State statute, estimated revenues are required to be amended if additional amounts are intended to be appropriated.

General fund original appropriations (appropriated expenditures) totaled \$102,592,538. Final appropriations and other financing uses increased \$4,765,491 to a total of \$107,358,029. The actual budget basis expenditures for fiscal year 2015 totaled \$107,350,874, which was \$7,155 less than the final budget appropriations.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Capital Assets and Debt Administration

Capital Assets

At June 30, 2015, the District had \$166,438,330 invested in land, construction in progress, land improvements, buildings and improvements, furniture and equipment and vehicles. This entire amount is reported in governmental activities. The following table shows June 30, 2015 balances compared to June 30, 2014.

Capital Assets at June 30 (Net of Depreciation)

	Governmen	Governmental Activities					
	2015	2014					
Land	\$ 9,185,480	\$ 9,185,480					
Construction-in-progress	971,689	-					
Land improvements	9,901,311	10,499,004					
Building and improvements	143,107,191	149,498,761					
Furniture and equipment	2,579,716	3,019,734					
Vehicles	692,943	574,525					
Total	\$ 166,438,330	\$ 172,777,504					

The overall decrease in capital assets, net of depreciation, of \$6,339,174 is due to depreciation expense of \$8,080,281 exceeding capital additions of \$1,741,107 for fiscal year 2015.

See Note 8 to the basic financial statements for additional information on the District's capital assets.

Debt Administration

At June 30, 2015, the District had \$126,190,997 in general obligation bonds. Of this total, \$8,326,010 is due within one year and \$117,864,987 is due in greater than one year. The District also had \$2,866,287 outstanding for a lease purchase agreements. Of this amount, \$1,348,276 is due within one year and \$1,518,011 is due in greater than one year.

In previous years, the District passed various tax levies, providing for facility improvements and additions to the District's building and debt service on behalf of the public library. The general obligation bonds are scheduled to mature in fiscal year 2035. Payment of principal and interest on the general obligation bonds is being made from the debt service fund.

Outstanding Debt, at Year End

	Governmental Activities 2015	Governmental Activities 2014
General obligation bonds Lease purchase agreement	\$ 126,190,997 2,866,287	\$ 133,353,371 2,685,485
Total	\$ 129,057,284	\$ 136,038,856

See Note 10 to the basic financial statements for additional information on the District's debt administration.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

Current Financial Related Activities

The District has continued to maintain the highest standards of service to students, parents, and community. The District is always presented with challenges and opportunities, which include the increasing demands of State and federal mandates such as No Child Left Behind; the implementation of the national Common Core standards; the implementation of the new Ohio Teacher Evaluation System (OTES); and the implementation of the new Ohio Principal Evaluation System (OPES).

The Board of Education and administration closely monitor the District's revenues and expenditures in accordance with its financial forecast. Overall, the District continues to perform at the highest level determined by the State of Ohio, which is measured by a defined set of proficiency criteria, including Ohio Achievement Test results, Ohio Graduation Test results, attendance rates and graduation rate.

As in past years, the District still depends heavily upon state funding, which comprised 47.2% (for the 2014-2015 school year) of total District general fund revenue. In the spring of 2015, the 131st Ohio General Assembly passed HB64, the new biennial budget for fiscal years 2016 and 2017. The Governor signed the budget in July of 2015. Similar to HB59 (the budget bill enacted by the 130th Ohio General Assembly covering fiscal years 2014 and 2015), HB64 provides fairly substantial increases to state funding over the 2016-2017 biennium. The District is forecasting a total increase of \$3.695 million in total state formula funding over the 2016-2017 biennium. As in past school funding formulas, the new funding formula enacted by HB64 relies heavily on the Valuation Index (the total valuation per pupil in the District as compared to the average total valuation per pupil for the entire state of Ohio). Due in large part to the drastic growth of student population in the most recently completed decade (2000-2010), and because the District's property base is almost 90% residential/agricultural property values, PLSD's Valuation Index is forecasted to increase the state's share of District formula aid to over 60%, which results in year-over-year state aid increases of nearly \$1.778 million in the first year of the biennial budget ('15-16 school year over the '14-15 school year), and \$1.917 million in the second year of the biennial budget ('16-17 school year over the '15-16 school year). It will be critical for the District to continue to monitor and analyze this vitally important revenue stream.

As noted, Pickerington experienced tremendous student population growth during the most recently completed decade (2000-2010), but has experienced a 'leveling-off' over the past couple of years. With the effects of the Great Recession finally having subsided, it will be critical for the District to continue to monitor housing growth in the District, especially in light of how student population is so impactful on state formula aid. Based on current information being provided by the City of Pickerington and Violet Township, there are potentially 1,000 new single-family dwellings in various stages of planning/development that could exist within the next 5-7 years.

The District also completed negotiations with each of its bargaining units (the Pickerington Education Association, and the Pickerington Support Staff Association) in the summer of 2015. The District agreed to the following wage increases with each bargaining unit:

- Pickerington Education Association, three (3) year contract—2015-2016, 2.75% base increase; 2016-2017, 2.25% base increase; 2017-2018, 2.25% base increase.
- Pickerington Support Staff Association, two (2) year contract—2015-2016, 3% base increase; 2016-2017, 2% base increase.

The District also achieved savings in health care costs by moving all employees to a 20% contribution (up from 15%) towards health insurance premiums. Though this does help to mitigate Board costs towards premiums, the overall cost (employee plus employer share) of health insurance continues to rise. With the implementation of the Cadillac Tax in 2018, the District must address the fact that it is on pace to eclipse the Cadillac Tax thresholds.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

At this time, the District is still analyzing the effects of the Cadillac Tax, but may have to begin forecasting for its effects within the budget cycle.

Technology has continued to advance and the District has made great strides in terms of enhancing instruction by updating existing technological equipment and infrastructure. Due to the aforementioned increases in state funding, the District has made a substantial financial commitment to improving the ability for students, teachers and staff to access our network with wireless communication devices (WCDs—iPads, iPods, Droids, etc.) in ways that enhance the instructional process.

Over the past 8-10 years, District voters have also been very supportive of the District's operational and capital needs. The following levy history provides the reader with insight into how that support has manifested itself at the ballot box:

- The District passed a 5 mill replacement levy on November 6, 2007, for a continuing period of time. The tax collections, which began January 2009, are used for current operating expenses.
- On March 4, 2008, District voters approved a 7.9 mill renewal levy, for a continuing period of time. The
 levy commenced in tax year 2009 with collections beginning January 2010. The levy proceeds are used for
 current operating expenses.
- In May 2009, District residents approved the extension of a 0.5 mill classroom facilities maintenance levy. This levy generates approximately \$400,000 per year, which is restricted for the maintenance of the District's facilities. The renewal of this levy enabled the District to qualify for over \$50 million in state funds from the Ohio School Facilities Commission. These funds are being used to renovate the District's five oldest school buildings.
- On November 2, 2010, voters narrowly defeated a replacement operating levy of 8 mills, which would have resulted in a 6.84 mill increase. The levy would have generated approximately \$7.6 million per year. The levy was needed by the District due to state and local revenue losses and increasing costs.
- On August 2, 2011, District voters approved a new levy of 5.5 mills, for a continuing period of time. The levy commenced in tax year 2011 with collections beginning January 2012. This levy generates approximately \$5.95 million per year. The levy proceeds are used for current operating expenses.

In response to the failed levy issue on November 2, 2010, the District implemented substantial budget reductions for fiscal year 2012. Additionally, in June 2011, the Board reached a two-year agreement with the Pickerington Education Association (PEA) which enabled the District to realize substantial savings in salaries and benefits.

Finally, the Board believes that maintaining a general fund cash balance is necessary in the interest of sound fiscal management. The Board uses the following criteria in determining the level of general fund cash balance:

- The predictability of its revenues and the volatility of its expenditures
- The Board's perceived exposure to significant one-time outlays
- The availability of resources in other funds
- The liquidity of the general fund

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2015 (UNAUDITED)

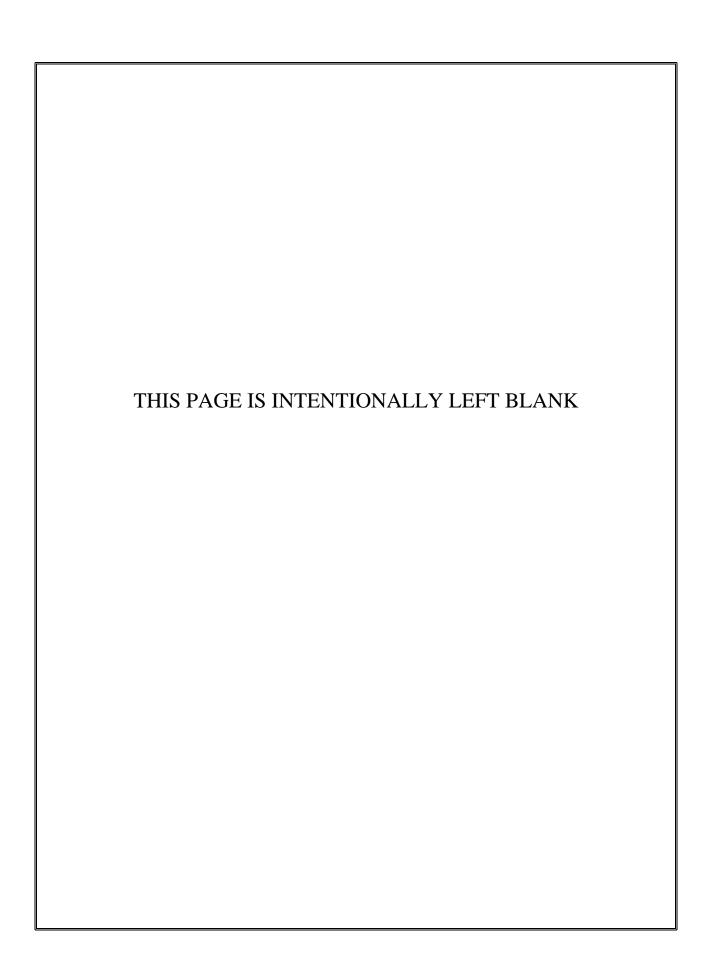

• The Board's assigned and committed fund balances.

In all cases, the Board has designated, by formal policy, a cash balance that is not less than 45 days of normal operating expenses.

In total, the District's leadership believes that with the recent budget reductions; effective management of the negotiations process; the passage of recent levies; and significant increases in state funding as provided by state formula aid; and the adoption of a formal cash balance policy has provided much-improved financial stability for the District for fiscal year 2016 and future years.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Ryan Jenkins, Treasurer of Pickerington Local School District at 90 East Street, Pickerington, Ohio 43147 or email him at ryan_jenkins@plsd.us.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2015

Net change in fund balances - total governmental funds		\$ 1,041	,428
Amounts reported for governmental activities in the statement of activities are different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.			
Capital asset additions Current year depreciation Total	\$ 1,741,107 (8,080,281)	(6,339	,174)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.			
Property taxes Earnings on investments Intergovernmental	(504,866) 18,130 (408,746)	<u>-</u>	
Total Repayment of bond and lease-purchsase principal is an expenditure in the		(895	5,482)
governmental funds, but the repayment reduces long-term liabilities on the statement of net position. Principal payments during the year were: Bonds Capital leases Total	7,503,290 1,339,615	8,842	2,905
Issuance of refunding bonds and lease purchase transactions are recorded as other financing sources in the funds; however, in the statement of activities, they are not reported as other financing sources as they increase liabilities on the statement of net position. Refunding Bonds Lease purchase Total	(27,875,000) (1,520,417)		i,417)
Payment to refunded bond escrow agent for the retirement of bonds is an other financing use in the governmental funds but the payment reduces long-term liabilities on the statement of net position. Deferred charges related to bond refundings are amortized over the life of the issuance in the statement of estimation. The following refunding transportions.			
in the statement of activities. The following refunding transactions occurred during the year:		31,570	,864
Premiums on bonds related to the issuance of bonds are amortized over the life of the issuance in the statement of activities.		(3,339	,125)
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of activities reports these amounts as deferred outflows.		8,730	,022
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.		(5,594	-,404)
		(Contin	ued)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2015

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in additional interest being reported in the statement of activities: Decrease in accrued interest payable Accreted interest on capital appreciation bonds Amortization of bond premiums Amortization of deferred charges	\$ 21,535 (585,916) 425,172 (354,225)	
Total		\$ (493,434)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		(595)
An internal service fund used by management to charge the costs of insurance to individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal		
service fund is allocated among the governmental activities.	-	3,389,347
Change in net position of governmental activities	<u>-</u>	\$ 7,516,935

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Pickerington Local School District (the "District") was organized in the late 1800's and is an independent political subdivision of the State of Ohio. The District is not reported as a Component Unit in any other governmental unit. The District is governed by a five-member Board of Education (the "Board") elected by the citizens of the District.

The District employs 352 non-certified, 630 certified and 62 administrative employees to provide services to approximately 10,224 students and community groups. The District provides regular, vocational and special instruction. The District also provides support services for the pupils, instructional staff, general and school administration, business and fiscal services, facilities acquisitions and construction services, operation and maintenance of plant, student transportation, food services, extracurricular activities and non-programmed services.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "<u>The Financial Reporting Entity</u>" as amended by GASB Statement No. 39, "<u>Determining Whether Certain Organizations Are Component Units</u>" and GASB Statement No. 61, "<u>The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34</u>". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following organizations are described due to their relationship to the District:

RELATED ORGANIZATION

Pickerington Community School

The Pickerington Community School (the "School") is a non-profit 501(c)(3) corporation established pursuant to Ohio Revised Code Chapters 1702 and 3314 to establish a conversion school in Pickerington Local School District addressing the needs of students between sixteen and twenty-one years of age who have dropped out of high school or are at risk of dropping out due to poor attendance, disciplinary problems, or suspensions. The School operates under the direction of a three-member Board of Directors appointed by the District. Separately issued financial statements can be obtained from the Treasurer of the School, Ryan Jenkins at 7800 Refugee Road, Pickerington, Ohio 43147 or email at ryan jenkins@plsd.us.

JOINTLY GOVERNED ORGANIZATIONS

META Solutions

The District is a participant in META Solutions which is a computer consortium that was the result of a merger between Tri-Rivers Educational Computer Association (TRECA) and the Metropolitan Educational Council (MEC). META Solutions develops, implements and supports the technology and instructional needs of schools in a cost-effective manner. META Solutions provides instructional, core, technology and purchasing services for its member districts. The Board of Directors consists of the Superintendents from eight of the member districts. Financial information can be obtained from Scott Armstrong, who serves as Chief Financial Officer, 100 Executive Drive, Marion, Ohio 43302.

Eastland-Fairfield Career and Technical Schools (Career Center)

The Career Center is a jointly governed organization. The District's Board of Education appoints one member of the seven-member Board of Education of the Career Center. However, the financial statements of the Career Center are not included within the District's reporting entity, as the District cannot impose its will and there is no financial benefit, financial burden relationship or related-party transactions between the District and the Career Center.

PUBLIC ENTITY RISK POOLS

Ohio SchoolComp Workers' Compensation Group Retrospective Rating Plan

The district participates in a group retrospective rating plan for workers' compensation as established under Section 4123-17-73 of the Ohio Administrative Code. The Ohio SchoolComp Group Retrospective Rating Plan was established through the Ohio School Boards Association (OSBA) and the Ohio Association of School Business Officials (OASBO).

The Executive Directors of the OSBA and OASBO, or their designees, serve as coordinators of the group retrospective rating program. Each year, the participating school districts pay an enrollment fee to the program to cover the costs of the administering the program.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Ohio School Plan

The School District belongs to the Ohio School Plan (the "Plan"), a non-assessable, unincorporated non-profit association providing a formalized, jointly administered self-insurance risk management program and other administrative services to Ohio's public educational entities ("Members"). Pursuant to Section 2744.081 of the Ohio Revised Code, the Plan is a separate legal entity. The Plan provides property, liability, automobile, violence and other coverages, modified for each Member's needs. The Plan pays judgments, settlements and other expenses resulting from covered claims that exceed the Member's deductible. The complete audited financial statements for the Ohio School Plan are available at the Plan's website, www.ohioschoolplan.org.

B. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as fund balance. The following are the District's major governmental funds:

<u>General fund</u> - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>District debt service fund</u> - The District debt service fund is used to account all debt activity except the debt associated with the library which is accounted for in another nonmajor debt service fund.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets, (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects and (c) financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The following is the District's proprietary fund:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>Internal service fund</u> - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District or to other governments, on a cost-reimbursement basis. The internal service fund of the District accounts for a self-insurance program which provides health, life and dental benefits to employees.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds accounts for student activities and amounts held for individuals and organizations.

C. Basis of Presentation and Measurement Focus

The District's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

<u>Government-wide Financial Statements</u> - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The internal service fund activity is eliminated to avoid "doubling up" revenues and expenses.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. The internal service fund is presented in a single column on the face of the proprietory fund statements. Fiduciary funds are reported by fund type.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current deferred outflows of resources, current liabilities and current deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of this fund are included on the statement of fund net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's internal service fund are charges for services. Operating expenses for the internal service fund include claims. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Agency funds do not report a measurement focus as they do not report operations.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

<u>Revenues - Exchange and Nonexchange Transactions</u> - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from income taxes is recognized in the fiscal year in which the underlying exchange transaction occurred (See Note 17). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, income taxes, interest, tuition, grants, student fees and rentals.

<u>Deferred Outflows of Resources and Deferred Inflows of Resources</u> - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources have been reported for the following two items related the District's net pension liability: (1) the difference between expected and actual experience of the pension systems, and (2) the District's contributions to the pension systems subsequent to the measurement date. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2015, but which were levied to finance fiscal year 2016 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

The District also reports a deferred inflow of resources for the net difference between projected and actual earnings on pension plan investments related to the District's net pension liability. This deferred inflow of resources is only reported on the government-wide statement of net position.

<u>Expenses/Expenditures</u> - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported as an expenditure with a like amount reported as intergovernmental revenue.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the fund level of expenditures. Any budgetary modifications at this level may only be made by resolution of the Board of Education. Although the legal level of control has been established at the fund level of expenditures, the District has elected to present the budgetary statement for the general fund at the fund and function level of expenditures in the basic financial statements.

<u>Tax Budget</u> - Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The purpose of this budget document is to reflect the need for existing or increased tax rates. By no later than January 20, the Board-adopted budget is filed with Fairfield County Budget Commission for rate determination.

<u>Estimated Resources</u> - By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to July 1, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the original and final certificates of estimated resources issued during the fiscal year.

<u>Appropriations</u> - Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at the legal level of control. Any revisions that alter the fund level must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, all supplemental appropriations were legally enacted.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budget amounts reflect the first appropriation for that fund covering the entire fiscal year, including amounts automatically carried over from prior year. The amounts reported in the budgetary statement represent the original appropriation amounts passed by the Board that covered the entire fiscal year and the final appropriation amounts passed by the Board during the year, including all amendments.

F. Cash and Investments

To improve cash management, cash received by the District other than cash with fiscal agent or cash in segregated accounts is pooled. Monies for all funds, excluding the internal service fund, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the financial statements.

During fiscal year 2015, investments were limited to negotiable and nonnegotiable certificates of deposits (CDs), U.S. Treasury note, money market mutual fund, Federal Home Loan Bank (FHLB) Securities, Federal Farm Credit Bank (FFCB) Securities, Federal Home Loan Mortgage (FHLM) Securities, Federal National Mortgage Association (FNMA) Securities and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as nonnegotiable certificates of deposit, are reported at cost.

The District has invested funds in STAR Ohio during fiscal year 2015. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2015.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund or the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2015 amounted to \$183,457, which includes \$89,620 assigned from other District funds.

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments that are not part of the cash management pool with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at year end is provided in Note 4.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

G. Inventory

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. On the fund financial statements, inventories are accounted for using the consumption method.

On the fund financial statements, reported material and supplies inventory is equally offset by a nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food and purchased food. Donated commodities are valued at entitlement value.

H. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and deductions during the fiscal year. Donated capital assets are recorded at their fair market values as of the date received. During fiscal year 2015, the District maintained a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Covernmental

Governmentar
Activities
Estimated Lives
20 years
25 - 50 years
5 - 20 years
6 - 10 years

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "due to/from other funds". These amounts are eliminated in the governmental activities column on the statement of net position.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

J. Issuance Costs/Bond Premiums and Discounts and Accounting Gain or Loss on Debt Refunding

On the governmental fund financial statements, issuance costs, bond premiums, bond discounts, and charges from debt refunding are recognized in the current period.

On the government-wide financial statements, issuance costs are recognized in the current period and are not amortized. Bond premiums and discounts are amortized over the term of the bonds using the straight-line method. Unamortized bond premiums are presented as an addition to the face amount of the bonds reported on the statement of net position. Unamortized bond discounts are presented as a reduction to the face amount of the bonds reported on the statement of net position. The reconciliation between the bonds face value and the amount reported on the statement of net position is presented in Note 10.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred outflow of resources.

K. Compensated Absences

Compensated absences of the District consist of vacation leave and sick leave to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination (severance) payments. A liability for sick leave is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for sick leave on employees expected to become eligible to retire in the future, all employees with at least 15 years of service at any age were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at the balance sheet date, and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. The expenditures and liabilities related to these obligations are recognized in the governmental funds when they mature, for example, as a result of employee resignations and retirements. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the internal service fund are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and lease-purchase obligations are recognized as a liability on the fund financial statements when due.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable.

<u>Restricted</u> - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned amounts include all remaining amounts that are not classified as nonspendable and are neither restricted nor committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

N. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents amounts restricted for food services and school trusts fund (nonmajor governmental funds).

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

P. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic financial statements.

Q. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. The District had no extraordinary or special items during the fiscal year.

R. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2015, the District has implemented GASB Statement No. 68, "<u>Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27</u>", GASB Statement No. 69 "<u>Government Combinations and Disposals of Government Operations</u>", and GASB Statement No. 71, "<u>Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68</u>".

GASB Statement No. 69 establishes accounting and financial reporting standards related to government combinations and disposals of government operations. The Statement improves the decision usefulness of financial reporting by requiring that disclosures be made by governments about combination arrangements in which they engage and for disposals of government operations. The implementation of GASB Statement No. 69 did not have an effect on the financial statements of the District.

GASB Statement No. 68 improves the accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The implementation of GASB Statement No. 68 affected the District's pension plan disclosures, as presented in Note 13 to the financial statements, and added required supplementary information which is presented after the notes to the basic financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

GASB Statement No. 71 improves the accounting and financial reporting by addressing an issue in GASB Statement No. 68, concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities.

A net position restatement is required in order to implement GASB Statement No 68 and 71. The governmental activities at July 1, 2014 have been restated as follows:

	Governmental
	Activities
Net position as previously reported	\$ 80,965,975
Deferred outflows - pension	7,823,863
Net pension liability	(159,398,644)
Net position at July 1, 2014	\$ (70,608,806)

The restatement had no effect on fund balances.

B. Deficit Fund Balances

Fund balances at June 30, 2015 included the following individual fund deficits:

Nonmajor funds	Deficit
Race to the top	\$ 3,329
IDEA Part-B	70,174
Title I	173,024
Miscellaneous federal grant	13

The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio):
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one-hundred-eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

A. Cash with Fiscal Agent

At fiscal year-end, \$21,881 was on deposit with Huntington National Bank for matured bonds and interest payable. These funds are included in the total amount of "Deposits with Financial Institutions" below.

B. Cash in Segregated Accounts

At fiscal year-end \$120,366 was maintained in a depository account that the District established for funds related to retainage set-aside for construction projects. This depository account is included in total amount of "Deposits with Financial Institutions" below.

C. Deposits with Financial Institutions

At June 30, 2015, the carrying amount of all District deposits, including \$6,512,417 in non-negotiable certificates of deposit, was \$38,721,350. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2015, \$26,429,590 of the District's bank balance of \$45,231,657 was exposed to custodial risk as discussed below, while \$18,802,067 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

D. Investments

As of June 30, 2015, the District had the following investments and maturities:

		Investment Maturities				
		6 months or	7 to 12	13 to 18	19 to 24 Greater than	
Investment type	Fair Value	less	months	months	months 24 months	
FFCB	\$ 2,530,643	\$ 1,245,413	\$ -	\$ - \$	- \$ 1,285,230	
FHLM	3,822,676	-	725,987	-	750,229 2,346,460	
FNMA	4,145,562	-	701,688	-	793,478 2,650,396	
FHLB	1,336,705	-	-	-	- 1,336,705	
U.S. Treasury note	1,001,328	-	1,001,328	-		
Money market mutual funds	6,268	6,268	-	-		
Negotiable CD's	3,003,410	-	3,003,410	-		
STAR Ohio	1,396,670	1,396,670			<u> </u>	
Total	\$ 17,243,262	\$ 2,648,351	\$ 5,432,413	<u>\$ -</u> <u>\$</u>	1,543,707 \$ 7,618,791	

The weighted average maturity of investments is 1.84 years.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: The District's investments in federal securities and U.S. Treasury note were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. The money market mutual fund and negotiable CDs were not rated. Standard & Poor's has assigned STAR Ohio an AAAm money market rating. Ohio Law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District has no investment policy dealing with credit risk.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The FFCB, FHLB, FHLM and FNMA securities, U.S. Treasurery note and negotiable CDs are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent, but not in the District's name. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2015:

Investment type	Fair Value	% of Total
FFCB	\$ 2,530,643	14.68
FHLM	3,822,676	22.17
FNMA	4,145,562	24.04
FHLB	1,336,705	7.75
U.S. Treasury note	1,001,328	5.80
Money market mutual fund	6,268	0.04
Negotiable CD's	3,003,410	17.42
STAR Ohio	1,396,670	8.10

E. Reconciliation of Cash and Investments to the Financial Statements

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the financial statements as of June 30, 2015:

Cash and investments per note	
Carrying amount of deposits	\$ 38,721,350
Investments	 17,243,262
Total	\$ 55,964,612

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 5 - INTERFUND TRANSACTIONS

Cash and investments per financial statements

 Governmental activities
 \$ 55,768,604

 Agency funds
 196,008

 Total
 \$ 55,964,612

A. Interfund transfers for the year ended June 30, 2015, consisted of the following, as reported on the fund financial statements:

<u>Transfers from the general fund to:</u>	<u>Amount</u>
Internal service fund	\$ 2,012,513
Nonmajor governmental funds	1,549,007
<u>Transfers from nonmajor governmental fund to:</u>	
Nonmajor governmental funds	626,699
	\$ 4,188,219

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

Transfers out of the nonmajor governmental fund to the nonmajor governmental fund was to move the classroom facilities balance to the building fund in accordance with the OSFCC.

All transfers made in fiscal year 2015 were in accordance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

B. Due from and to other funds at June 30, 2015 consisted of the following individual amounts, as reported in the fund financial statements:

Due to general fund from:	Amount
Race to the top	\$ 3,329
IDEA, Part B	15,466
Title III - limited english proficiency	8,548
	<u>\$ 27,343</u>

The purpose of this amount due from and to other funds is to cover negative cash balances in nonmajor special revenue governmental funds. The District may maintain negative cash balances in nonmajor special revenue funds if two criteria are met: (1) the general fund must have available and unencumbered funds to cover the negative amounts; and (2) a reimbursement request must have been submitted by the fiscal year-end. The District has met these two requirements.

The amounts due to and from other funds will be repaid once the anticipated revenues are received. Amounts due from and to other funds between governmental funds are eliminated on the government-wide financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2015 represent the collection of calendar year 2014 taxes. Real property taxes received in calendar year 2015 were levied after April 1, 2014, on the assessed values as of January 1, 2014, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2015 represent the collection of calendar year 2014 taxes. Public utility real and personal property taxes received in calendar year 2015 became a lien on December 31, 2013, were levied after April 1, 2014, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Fairfield and Franklin Counties. The County Auditors periodically advance to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2015, are available to finance fiscal year 2015 operations. The amount available as an advance at June 30, 2015 was \$2,828,806 in the general fund, \$987,934 in the District debt service fund and \$32,297 in the classroom facilities maintenance fund (a nonmajor governmental fund). This amount is recorded as revenue. The amount available for advance at June 30, 2014 was \$2,013,819 in the general fund, \$703,086 in the District debt service fund and \$22,955 in the classroom facilities maintenance fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2015 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 6 - PROPERTY TAXES - (Continued)

The assessed values upon which the fiscal year 2015 taxes were collected are:

	2014 Second 2015			2015 First		
	Half Collections			Half Collection	ons	
	-	Amount	Percent	-	Amount	Percent
Agricultural/residential						
and other real estate	\$	1,085,034,410	98.30	\$	1,096,505,620	98.27

General		\$72.20			72.20	
Bond		12.00			12.00	
Facilities maintenance		0.50			0.50	

NOTE 7 - RECEIVABLES

Receivables at June 30, 2015 consisted of taxes, payment in lieu of taxes, accounts, accrued interest and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds. A summary of receivables reported on the statement of net position follows:

Governmental activities:

Property taxes	\$ 47,659,606
Income taxes	6,711,880
Payment in lieu of taxes	139,767
Accounts	10,620
Accrued interest	37,554
Intergovernmental	927,035
Total	<u>\$ 55,486,462</u>

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within one year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 8 - CAPITAL ASSETS

Governmental capital asset activity for the fiscal year ended June 30, 2015, was as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 9 - LEASE PURCHASE AGREEMENT - LESSEE DISCLOSURE

During fiscal year 2007, the District entered into a lease-purchase agreement with Fifth Third Bank. This lease meets the criteria of a lease-purchase as defined by GAAP, which defines a lease-purchase generally as one which transfers benefits and risks of ownership to the lessee. This lease was used to construct a bus/maintenance facility. At June 30, 2014, capital assets acquired by lease purchase have been capitalized under buildings and improvements in the amount of \$1,670,122. Accumulated depreciation of \$267,216 has been booked as of June 30, 2015 leaving a book value of \$1,402,906. Lease-purchase payments have been reflected as debt service expenditures from the general fund. Principal and interest payments totaled \$97,849 and \$56,037, respectively.

During fiscal year 2013, the District entered into a lease-purchase agreement for the purchase of copiers. This lease meets the criteria of a lease-purchase as defined by GAAP, which defines a lease-purchase generally as one which transfers benefits and risks of ownership to the lessee. At June 30, 2015, capital assets acquired by lease purchase have been capitalized under furniture and equipment in the amount of \$925,275. Accumulated depreciation of \$462,638 has been booked as of June 30, 2015 leaving a book value of \$462,637. Lease-purchase payments have been reflected as debt service expenditures from the general fund. Principal and interest payments totaled \$178,969 and \$23,111, respectively.

During fiscal year 2014 and the current fiscal year, the District entered into a lease-purchase agreement with Apple, Inc. These leases meet the criteria of a lease-purchase as defined by GAAP, which defines a lease-purchase generally as one which transfers benefits and risks of ownership to the lessee. This lease was used to acquire various Apple products for students including iPads and computers. At June 30, 2015, these items acquired by lease purchase totaled \$3,009,534 and have not been capitalized due to each item being under the capitalization threshold. Lease-purchase payments have been reflected as debt service expenditures from the general fund. Principal payments totaled \$1,062,797.

The following is a schedule of the future long-term minimum lease payments required under the lease-purchase agreements and the present value of the minimum lease payments as of June 30, 2015.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 10 - LONG-TERM OBLIGATIONS

A. General Obligation Bonds

The District has several general obligation bond issues outstanding. These bonds were issued for general governmental activities, specifically; construction, and/or renovation of school buildings, and construction of a public library. These general obligation bonds are direct obligations of the District for which its full faith, credit and resources are pledged and payable from taxes levied on all taxable property in the school district. Accordingly, such unmatured obligations of the District are accounted for on the statement of net position. Payments of principal and interest relating to these bonds are recorded as expenditures in the District's District debt service fund. Public library refund bonds are being repaid from the library debt service fund (a nonmajor governmental fund).

The following is a summary of the District's general obligation bonds outstanding at June 30, 2015:

	Balance			Balance
	June 30, 2014	<u>Additions</u>	Reductions	June 30, 2015

<u>Series 2001 General Obligation Bonds</u> - On November 1, 2001, the District issued \$77,499,893 in general obligation bonds to provide for constructing, furnishing and equipping a new high school building, new junior high school building, with related facilities, appurtenances, and site improvements thereto, and acquiring land for school purposes. A portion of the current interest bonds was refunded by the Series 2006 refunding general obligation bonds. The remaining current interest bonds were retired in fiscal year 2010.

At June 30, 2015, the remaining issue is comprised of capital appreciation bonds, par value \$3,817,112. In fiscal year 2015, capital appreciation bonds of \$2,120,542 matured with accreted interest of \$1,969,458 (total accreted value at maturity was \$4,090,000). The remaining capital appreciation bonds mature on December 1, 2015 through 2016. The capital appreciation bonds have effective interest rates ranging from 5.14% to 5.15% and mature at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The accreted value at maturity of the remaining capital appreciation bonds is \$7,930,000. A total of \$3,732,878 in accreted interest on the capital appreciation bonds has been included on the statement of net position at June 30, 2015.

<u>Series 2002 Refunding General Obligation Bonds</u> - On November 1, 2002, the District issued general obligation bonds (Series 2002 library improvement refunding bonds) to currently refund the callable portion of the Series 1992 library improvement general obligation bonds (principal \$1,880,000; interest rate 3.7%). The refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

The refunding issue is comprised of both current interest bonds, par value \$1,840,000, and capital appreciation bonds, par value \$40,000. The average interest rate on the current interest bonds is 3.08%. The capital appreciation bonds mature each December 1, 2015 and 2016 (stated interest 13.95%) at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The accreted value at maturity of the capital appreciation bonds is \$235,000. Total accreted interest of \$166,950 has been included on the statement of net position.

The reacquisition price exceeded the net carrying amount of the old debt by \$37,600. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Interest payments on the current interest bonds are due on June 1 and December 1 each year. The final maturity stated on the current interest bonds was December 1, 2014. The Capital appreciation bonds of \$40,000, deferred charges of \$3,856 and unamortized premiums of \$9,023 are not included in the calculation of net invested in capital assets, net of related debt because the proceeds of these bonds were not used to purchase capital assets held by the District.

<u>Series 2004 Refunding General Obligation Bonds</u> - On May 1, 2004, the District issued general obligation bonds (Series 2004 Refunding Bonds) to advance refund the callable portion of the Series 1994 current interest general obligation bonds (principal \$7,500,000; interest rate 5.21%). The issuance proceeds of \$7,799,399 were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

The refunding issue is comprised of both current interest bonds, par value \$7,355,000 and capital appreciation bonds, par value \$144,994. The average interest rate on the current interest bonds is 4.0%. The capital appreciation bonds mature December 1, 2016 (stated interest rate 14.60%) at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The accreted value at maturity of the capital appreciation bonds is \$845,000. Total accreted interest of \$539,818 has been included on the statement of net position at June 30, 2015.

The current interest bonds were funded in the amount of \$3,450,000 with proceed from the series 2014 refunding bonds.

The reacquisition price exceeded the net carrying amount of the old debt by \$299,399. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Interest payments on the current interest bonds are due on June 1 and December 1 each year. The final maturity stated in the issue is December 1, 2019.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

<u>Series 2006 Refunding General Obligation Bonds</u> - On February 26, 2006, the District issued general obligation bonds (Series 2006 Refunding Bonds) to advance refund the callable portion of the Series 1999 current interest general obligation bonds (principal \$15,425,000; interest rate of 3.10% to 5.0%) and the Series 2001 current interest general obligation bonds (principal \$52,355,000; interest rate 3.0% to 5.25%). The issuance proceeds of \$67,779,907 were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

The refunding issue is comprised of both current interest bonds, par value \$62,670,000, and capital appreciation bonds, par value \$5,109,907. The average interest rate on the current interest bonds is 4.0%. The capital appreciation bonds mature December 1, 2017, December 1, 2018 and December 1, 2019 (stated interest rate 9.55%) at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The accreted value at maturity of the capital appreciation bonds is \$16,780,000. Total accreted interest of \$7,029,338 has been included on the statement of net position.

The reacquisition price exceeded the net carrying amount of the old debt by \$2,934,793. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Interest payments on the current interest bonds are due on June 1 and December 1 each year. The final maturity stated on the current interest bonds is December 1, 2028.

<u>Series 2007 General Obligation Bonds</u> - On February 8, 2007, the District issued general obligation bonds in the amount of \$59,900,000. The issue is comprised of serial and term bonds with interest rates ranging from 4.00% to 5.00%. The bonds will be retired from the District debt service fund with revenue generated from a 3.8 mil tax levy. The bonds will be used for the purpose of constructing, furnishing and equipping two new elementary schools and a new middle school as well as renovating and repairing existing facilities and buildings and upgrading computer technology.

Interest payments on the current interest bonds are due on June 1 and December 1 each year. The final maturity stated in the issue is December 1, 2034. At June 30, 2015, there was \$121,195 in unspent proceeds of the Series 2007 general obligation bonds.

The current interest bonds were refunded in the amount of \$26,125,000 with proceeds from the series 2014 refunding bonds.

<u>Series 2014 Refunding General Obligation Bonds</u> - On August 20, 2014, the District issued general obligation bonds (Series 2014 Refunding Bonds) to advance refund the callable portion of the Series 2007 current interest general obligation bonds (\$24,670,000) and series 2004 current interest bonds (\$3,450,000). The issuance proceeds of \$27,875,000 were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position.

The refunding issue is comprised of current interest bonds with an interest rate of 1.00% to 5.00%. The reacquisition price exceeded the net carrying amount of the old debt by \$3,450,864. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

Interest payments on the current interest bonds are due on June 1 and December 1 each year. The final maturity stated on the current interest bonds is December 1, 2028.

B. The following is a summary of the future debt service requirements to maturity for the general obligation bonds:

Fiscal Year		Cı	urrent Interest Bonds				Capit	tal A	Appreciation 1	3on	ds	
Ending June 30,	_	Principal	_	Interest	_	Total	_	Principal	_	Interest	_	Total

2020		2,730,000		2,369,919		5,099,919		1,547,963		4,047,036		5,594,999
2021 - 2025		38,535,000		15,143,382		53,678,382		-		-		-
2026 - 2030		34,670,000		7,177,456		41,847,456		-		-		-
2031 - 2035		16,725,000	_	1,836,318	_	18,561,318	_		_		_	
Total	\$	105,610,000	\$	39,055,998	\$	144,665,998	\$	9,112,013	\$	16,677,987	\$	25,790,000

The difference in the amount due in the schedule below in Note 10.C. and the amortization schedule above is \$11,468,984 which is the amount of capital appreciation bond accreted interest that has been recognized as of June 30, 2015.

- THIS SPACE IS INTENTIONALLY LEFT BLANK -

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

C. Long-term liabilities at June 30, 2014 have been restated to include the net pension liability (see Note 3.A. for detail). During the fiscal year 2015, the following changes occurred in governmental activities long-term obligations:

	Restated Balance			Balance	Amounts
	Outstanding			Outstanding	Due in

<u>Lease-purchase Obligations</u> - The District entered into lease-purchase obligations for the acquisition of a bus/maintenance facility, copiers and Apple iPads and computers. See Note 9 for details.

Net Pension Liability - See Note 13 for detail on the net pension liability.

<u>Compensated Absences</u> - Compensated absences will be paid from the fund which the employees' salaries are paid which, for the District, is primarily the general fund and food service fund (a nonmajor governmental fund).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

D. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property and personal property owned or leased by a railroad company and used in railroad operations.

The Ohio Revised Code further provides that when a Board of Education declares a resolution that the student population is not adequately served by existing facilities and that insufficient capacity exists within the 9 percent limit to finance additional facilities, the State Department of Education may declare that District a "special needs" District. This permits the incurrence of additional debt based upon projected 5-year growth of the school district's assessed valuation. The District was determined to be a "special needs" District on March 28, 1996 and confirmed on October 5, 2000 and again in October, 2006. In addition, the unvoted net debt of a school district cannot exceed 0.1 percent of the total assessed value of property. On June 30, 2015, the District had no unvoted debt.

E. State Loans

In 1979 and in 1999, respectively, the District received a \$2,500,000 and \$6,780,000 interest-free loan from the State of Ohio for the construction of classroom facilities. As of September 2000, S.B. 272 forgives the debt on State loan repayment. Under S.B. 272, districts like Pickerington, which are in the upper half of all Ohio districts in terms of assessed valuation per pupil, no longer are required to pay the State one-half of the half-mill being collected in connection with state-financed classroom facilities projects. S.B. 272 instead requires that all of the half-mill be retained by the school district and applied to repair and maintenance of the district's State projects. Since the District is not required to repay these State loans, no obligation is reported on the statement of net position.

NOTE 11 - OTHER EMPLOYEE BENEFITS

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified eleven and twelve month employees hired prior to April 1, 2011 earn twelve to twenty days of vacation per year, with a maximum accrual of 24 to 40 days, depending upon length of service. Classified eleven and twelve month employees hired after to April 1, 2011 earn ten to twenty days of vacation per year, with a maximum accrual of 20 to 40 days, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers do not earn vacation time.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 11 - OTHER EMPLOYEE BENEFITS - (Continued)

Non-administrative employees earn sick leave at the rate of one and one-fourth days per month. Upon retirement, payment is made for twenty-five percent of the total sick leave accumulation, up to a maximum accumulation of 65 days for certificated staff with a minimum of five years with the District; and 61 days for classified employees with a minimum of five years with the District. An employee receiving such payment must meet the retirement provisions set by STRS Ohio and SERS.

Administrative twelve month employees earn fifteen to twenty-five days of vacation per year, with a maximum accrual of 45 to 60 days, depending upon length of service. Administrative employees earn sick leave at a rate ranging from one and one-third days per month to one and two-thirds days per month, depending upon the number of contractual days worked. Upon retirement, payment is made for twenty-five percent of the total sick leave accumulation, up to a maximum accumulation of 82 days for administrative employees with a minimum of five years of service with the District. Accumulated unused vacation time is paid to administrative employees upon termination of employment.

NOTE 12 - RISK MANAGEMENT

A. Property and Liability

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District participated in the Ohio School Plan Program beginning July 1, 2008. The following is the District's insurance coverage through the group purchasing program described in Note 2.A.:

Total policy coverage - includes the following:	
Property limit (\$1,000 deductible) per occurrence	\$368,726,866
Boiler and Machinery (\$1,000 deductible) per occurrence	100,000,000
Automobile liability (\$1,000 deductible)	4,000,000
Medical payments	5,000
Public Employee Dishonesty per occurrence	100,000
General school district liability:	4 000 000
Per occurrence	4,000,000
Total per aggregate	6,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in insurance coverage from the prior year.

The dental insurance benefit is a fully funded plan in which the Board picks up no more than \$55.00 of the monthly premium, with employees paying the additional cost on a monthly basis through payroll deductions.

Post employment health care is provided to plan participants or their beneficiaries through the respective retirement systems discussed in Note 14.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 12 - RISK MANAGEMENT - (Continued)

B. Ohio SchoolComp Workers' Compensation Group Retrospective Rating Plan

For policy year 2015, the district participated in the Ohio SchoolComp Worker's Compensation Group Retrospective Rating Plan, a voluntary performance-based incentive program offered jointly by the Ohio Schools Boards Association (OSBA) and the Ohio Association of School Business Officials (OASBO) (Note 2.A.). The intent of the program is to reward participants that are able to keep their claims costs low. Districts continue to pay their individual premium directly to the Ohio Bureau of Workers' Compensation (BWC). Districts will then have future premium adjustments (refunds or assessments) at the end of each of the three evaluation periods. For the 2015 program, the evaluation periods will be 12/31/2016, 12/31/2017 and 12/31/2018. Refunds or assessments will be calculated by the Ohio BWC, based on the pro-rata share of the districts individual premium compared to the overall program premium.

Participation in the Group Retrospective Rating Plan is limited to school districts that can meet the programs selection criteria. The firm of CompManagement, Inc. provides administrative, cost control and actuarial services to the program.

Beginning January 1, 2016, the Ohio Bureau of Worker's Compensation will move to prospective billing. The according to the BWC, switch to the industry standard of prospective billing should provide many benefits, including:

- o An overall base-rate reduction of 4 percent for public employers;
- o Allowing BWC to better forecast the level of premium required to be collected each policy year;
- o Opportunities for more flexible payment options (up to 12 monthly installments);
- o Better opportunities for BWC to provide quotes online or via the phone;
- o Increased ability for BWC to detect employer non-compliance and fraud.

C. Employee Medical, Dental and Prescription Insurance

The District is self-insured for its medical, dental, and prescription drug coverage. Premiums are paid into the self-insurance fund and are available to pay claims and administrative costs. A stop-loss insurance contract with a private insurance carrier covers specific liability claims in excess of \$250,000 per employee.

The claims liability of \$805,000 reported in the internal service fund at June 30, 2015 is based on an estimate provided by the third party administrator and the requirements of Governmental Accounting Standards Board Statement No. 30 which requires that a liability for unpaid claim costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses.

Changes in the fund's claims liability for 2015 is listed below:

	Balance a	at					
	Beginnin	g	C	Current	Claims	В	alance at
	of Year	_	_(Claims	Payment	En	d of Year
2015	\$	-	\$ 1	1,535,658	\$ (10,730,658)	\$	805,000

Note: The District began its self-insurance program in fiscal year 2015; therefore, two years of information is not applicable.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *pension and postemployment benefits payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description –District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)

Age and service requirements for retirement are as follows:

	Eligible to	Eligible to
	Retire on or before	Retire after
	August 1, 2017 *	August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

^{*} Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2015, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$1,640,469 for fiscal year 2015. Of this amount \$113,168 is reported as pension and postemployment benefits payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description –District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2015, plan members were required to contribute 12 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2015 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$7,089,553 for fiscal year 2015. Of this amount, \$1,233,156 is reported as pension and postemployment benefits payable payable.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportionate share of the net	\$ 20,091,468	\$ 113,995,642	\$ 134,087,110
pension liability Proportion of the net pension	\$ 20,091,408	\$ 113,993,042	\$ 134,067,110
liability	0.39699100%	0.46866539%	
Pension expense	\$ 1,172,450	\$ 4,421,954	\$ 5,594,404

At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
Deferred outflows of resources			
Differences between expected and			
actual experience	\$ 171,000	\$ 1,097,456	\$ 1,268,456
District contributions subsequent to the			
measurement date	1,640,469	7,089,553	8,730,022
Total deferred outflows of resources	\$ 1,811,469	\$ 8,187,009	\$ 9,998,478
Deferred inflows of resources			
Net difference between projected and			
actual earnings on pension plan investments	\$ 3,260,905	\$ 21,089,626	\$ 24,350,531
Total deferred inflows of resources	\$ 3,260,905	\$ 21,089,626	\$ 24,350,531

\$8,730,022 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2016	\$ (772,476)	\$ (4,998,043)	\$ (5,770,519)
2017	(772,476)	(4,998,043)	(5,770,519)
2018	(772,476)	(4,998,043)	(5,770,519)
2019	(772,477)	(4,998,041)	(5,770,518)
Total	\$ (3,089,905)	\$ (19,992,170)	\$ (23,082,075)

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2014, are presented below:

Wage Inflation

Future Salary Increases, including inflation

COLA or Ad Hoc COLA

Investment Rate of Return

Actuarial Cost Method

3.25 percent

4.00 percent to 22 percent

3 percent

7.75 percent net of investments expense, including inflation

Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
Total	100.00 %	

Discount Rate - The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	Current			
	1% Decrease (6.75%)		scount Rate (7.75%)	1% Increase (8.75%)
District's proportionate share				
of the net pension liability	\$ 28,664,583	\$	20,091,468	\$ 12,880,775

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75 percent

Projected salary increases 2.75 percent at age 70 to 12.25 percent at age 20

Investment Rate of Return 7.75 percent, net of investment expenses 2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

	Target	Long-Term Expected	
Asset Class	Allocation	Real Rate of Return	
Domestic Equity	31.00 %	8.00 %	
International Equity	26.00	7.85	
Alternatives	14.00	8.00	
Fixed Income	18.00	3.75	
Real Estate	10.00	6.75	
Liquidity Reserves	1.00	3.00	
Total	100.00 %		

Discount Rate - The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2014.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	Current				
	1% Decrease	Discount Rate		1% Increase	
	(6.75%)		(7.75%)	(8.75%)	
District's proportionate share					
of the net pension liability	\$ 163,197,190	\$	113,995,642	\$ 72,387,689	

NOTE 14 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2015, 0.82 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2015, this amount was \$20,450. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2015, the District's surcharge obligation was \$218,607.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 14 - POSTEMPLOYMENT BENEFITS - (Continued)

The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$303,234, \$199,970, and \$176,124, respectively. For fiscal year 2015, 93.51 percent has been contributed, with the balance being reported as pension and postemployment benefits payable. The full amount has been contributed for fiscal years 2014 and 2013.

B. State Teachers Retirement System

Plan Description – The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2015, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$0, \$487,440, and \$460,121 respectively. The full amount has been contributed for fiscal years 2015, 2014 and 2013.

NOTE 15 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis); and,
- (d) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 15 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

	G	eneral fund
Budget basis	\$	(678,080)
Net adjustment for revenue accruals		899,332
Net adjustment for expenditure accruals		(1,592,384)
Net adjustment for other sources/uses		1,519,998
Funds budgeted elsewhere		(746,323)
Adjustment for encumbrances	_	2,127,763
GAAP basis	\$	1,530,306

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the uniform school supplies fund, the public school support fund, the other grant fund, the insurance fund and the termination benefits fund.

NOTE 16 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

B. Litigation

The District is involved in no material litigation as either plaintiff or defendant.

C. Foundation Funding

District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional Districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 17 - SCHOOL DISTRICT INCOME TAX

The District currently benefits from a 1% income tax, which is assessed on all residents of the District. In 2015, the District income tax generated \$15,672,186 in revenue on the accrual basis of accounting. The District apportions all the proceeds to the general fund.

NOTE 18 - SET-ASIDES

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

	_	pital vements
Set-aside balance June 30, 2014	\$	-
Current year set-aside requirement	1,6	590,772
Current year offsets	(4	142,472)
Prior year offset from bond proceeds	(1,2	248,300)
Total	\$	
Balance carried forward to fiscal year 2016	\$	
Set-aside balance June 30, 2015	\$	

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 19 - OTHER COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

	,	Year-End				
<u>Fund</u>	En	cumbrances				
General	\$	1,586,607				
Nonmajor governmental funds		1,239,520				
Total	\$	2,826,127

Changes in assumptions: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal year 2014 and 2015. See the notes to the basic financial statements for the methods and assumptions in this calculation.

MAJOR FUND DESCRIPTIONS

General

The general fund is used to account for resources traditionally associated with a school district which are not required legally or by sound financial management to be accounted for in another fund. These activities include, but are not limited to, general instruction, pupil services, operation and maintenance of facilities, student transportation, and administration

Since there is only one general fund and the legal level of budgetary control is not greater than that presented in the basic financial statements, thus no additional financial statements are presented here.

District Debt Service

The District debt service fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest and certain long-term obligations from governmental resources when the government is obligated in some manner for payment. It is also used to account for the accumulation of resources and payment of general obligation bonds payable, as required by Ohio Law.

PICKERINGTON LOCAL SCHOOL DISTRICT COMBINING STATEMENTS - NONMAJOR FUNDS

Nonmajor Special Revenue Funds

The special revenue funds are used to account for the proceeds of specific revenue sources (other than amounts relating to expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. The title of each special revenue fund is descriptive of the activities accounted for therein. The nonmajor special revenue funds are:

Food Services

This fund is used to record financial transactions related to food service operations.

School Trusts

This fund is used to account for trust agreements in which principal and income are used to support District programs.

Facilities Maintenance

A fund provided to account for proceeds for State Building Assistance repayment.

Student Activity

A fund provided to account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund includes the athletic programs and the drama program.

Data Communication

A fund provided to account for money for Ohio Educational Computer Network Connections.

Summer School Subsidy

A fund to account for the student intervention services.

Alternative Schools

A fund to account for the alternative educational programs for existing and new at-risk and delinquent youth.

Straight A

This fund accounts for grant monies received through the Straight A Programs which are restricted for projects that will provide for advancement in student achievement, achieve spending reductions in the five-year forecast or allow a greater share of resources to be utilized in the classroom.

Miscellaneous State Grants

To account for state grants not classified elsewhere.

Race to the Top

A fund provided to account for federal funds received from the Race to the Top grant.

Title VI - B

A fund which accounts for Federal funds used in the identification of handicapped children, development of procedural safeguards, implementation of least-restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at preschool elementary, and secondary levels.

Title III

This fund is used to account for Federal funds to provide educational services and to meet special education needs of non-English speaking children.

PICKERINGTON LOCAL SCHOOL DISTRICT COMBINING STATEMENTS - NONMAJOR FUNDS

Nonmajor Special Revenue Funds (Continued)

Title I

To account for funds which are to: 1) establish or improve programs designed to meet the special needs of migratory agricultural workers or migratory fishers' and 2) enable State education agencies to coordinate their state migrant education programs and local projects with similar programs and projects in other states, including the transfer of school records or other information about migratory children.

IDEA Part B Grant

To account for a federal grant aimed to assist in providing an appropriate public education to all children with disabilities.

Title VI - R

To account for a federal grant aimed to reducing class sizes throughout the District.

Miscellaneous Federal Grants

To account for federal grants not classified elsewhere.

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis). These funds are not included in the combining statements for the nonmajor special revenue funds since they are reported in the general fund (GAAP basis); however, the budgetary schedules for these funds are presented in this section.

Uniform School Supplies

This fund accounts for the purchase and sale of school supplies for use in the District. Profits derived from such sales are used for school purposes or activities connected with the school.

Public School Support

A fund provided to account for special local revenue sources, other than taxes or expendable trusts (i.e., profits from vending machines) that are assigned to expenditures for specified purposes. Such expenditures may include curricular and extra-curricular related purchases.

Other Local Grants

This fund is used to account for the proceeds of specific revenue sources, except for state and federal grants that are assigned to expenditures for specified purposes.

Self Insurance

A fund provided to account for former involvement related to dental benefits associated through OME-RESA.

Termination Benefits

A fund provided to account for accumulated cash for the payment of termination benefits.

PICKERINGTON LOCAL SCHOOLS COMBINING STATEMENTS - NONMAJOR FUNDS

Nonmajor Debt Service Fund

Debt service funds are used to account for the accumulation of resources and payment of general obligation bond principal and interest and certain long-term obligations from governmental resources when the government is obligated in some manner for payment. It is also used to account for the accumulation of resources and payment of general obligation notes payable, as required by Ohio Law. The nonmajor debt service fund is:

Library Debt Service

A fund used to account for the accumulation of resources and payment of general obligation bond principal and interest and certain long-term obligations related to the public library.

Since there is only one nonmajor debt service fund, only the budgetary schedule is presented for the nonmajor debt service fund.

PICKERINGTON LOCAL SCHOOLS COMBINING STATEMENTS - NONMAJOR FUNDS

Nonmajor Capital Project Funds

Capital project funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds). The nonmajor capital project funds are:

Permanent Improvement

To account for the acquisition, construction, or improvement of capital facilities.

Building

To account for the acquisition and construction of capital facilities including real property.

Classroom Facilities

The classroom facilities fund is used to account for financial resources and expenditures related to the school facilities construction project fund.

PICKERINGTON LOCAL SCHOOLS COMBINING STATEMENTS - PROPRIETARY FUND

Proprietary Fund Description

Internal service funds account for the financing of goods or services provided by one department or agency of the District to other departments or agencies on a cost-reimbursement basis. Charges are intended to recoup the total cost of such services.

Self Insurance

The internal service fund accounts for operations of the District's self-insurance program for medical, dental and perscription drug benefits.

PICKERINGTON LOCAL SCHOOLS COMBINING STATEMENTS - FIDUCIARY FUNDS

Fiduciary Funds

The agency fund is used to account for assets held by the government as an agent for individuals, private organizations, other governments and/or other funds.

Agency Funds

District Agency

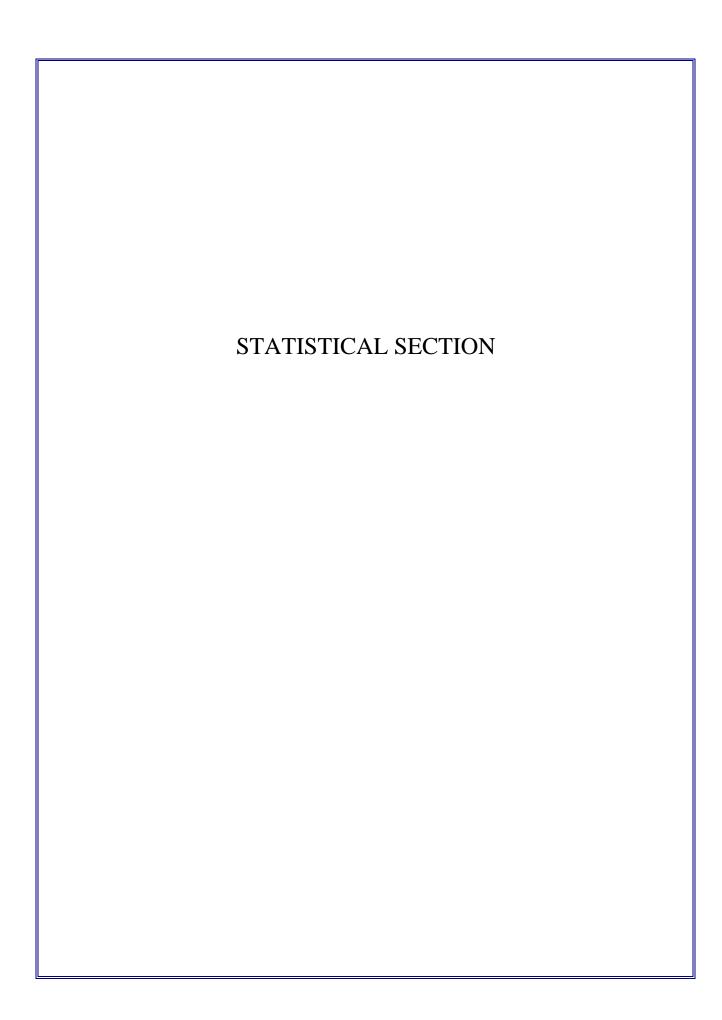

A fund used to account for those assets held by a school district as an agent for individuals, private organization, other governmental units, and/or funds. Agency funds could include a central payroll account and funds for a teacher or a parent-teacher organization.

Student Activity

An agency fund provided to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer and faculty advisor.

Source: Fairfield County Auditor and District financial records

Note: Ohio Bond Law sets a limit of 9% for voted debt and 1/10 of 1% for unvoted debt. House Bill 530 became effective on March 30, 2006, which excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations.

(A): On March 28, 1996, the District was determined to be a "special needs" district, meaning the District was permitted to exceed the voted debt limitation. This status was confirmed on October 5, 2000 and October 2006.

Voted Debt Margins are determined without reference to applicable monies in the District's debt service fund.

Source: District records, including square footage and capacity data provided by a recent study perfromed by Ohio School Facilities Commission (OSFC) and enrollment data from the head counts performed for the SF-3 Average Daily Membership calculations.

Notes: Year of original construction is in parentheses.

In cases in which enrollment numbers are larger than capacity, the District has utilized portable classrooms, which are not included in square footage or capacity amounts. Renovations have been made to several buildings over the years; however, related changes in square footage and capacity are not available. The District has presented the current square footage and capacity figures as of the study performed by OSFC.

⁽¹⁾ Heritage Elementary operates as a "swing" building. Heritage accommodated middle school students during school years 1996-2000, K-4 students for school years 2002-2003, K-5 students for school year 2005 and K-6 students for school year 2006.
(2) During school year 2001 Heritage was closed for renovations.

2007	94,554,987	94,489,579	10,016	3.01%	689
2006	85,965,745	89,821,383	9,723	5.31%	658

Sources: District records and the Ohio Department of Education

Note: Cost per pupil, teacher/pupil ratios and attendance rates have been presented on the "Educational Indicators - Last Ten Fiscal Years" table on page S 34.

⁽¹⁾ Debt Service totals have been excluded.

⁽²⁾ Enrollment figures are taken from historical EMIS fall enrollment data, excluding preschool students. These figures are not consistent with the actual head counts of students used to calculate State funding because those head counts include community school students.

CLERK'S CERTIFICATION

This is a true and correct copy of the report which is required to be filed in the Office of the Auditor of State pursuant to Section 117.26, Revised Code, and which is filed in Columbus, Ohio.

CLERK OF THE BUREAU

Susan Babbitt
