**NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) reports the Springfield Local School District's (the District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - SUBRECIPIENTS

The District passes certain federal awards received from the Ohio Department of Education to other governments or not-for-profit agencies (subrecipients). As Note A describes, the District reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the District has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals. The amount passed through to subrecipients was \$10,123.

NOTE C - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE D – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Springfield Local School District
Lucas County
6900 Hall Street
Holland, Ohio 43528

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Springfield Local School District, Lucas County, Ohio (the District) as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 18, 2015, wherein we noted the District adopted new accounting guidance in Governmental Accounting Standards Board Standard No. 68, *Accounting and Financial Reporting for Pensions – an amendment to GASB Statement No. 27 and Statement No. 71 Pension Transition for Contributions Made Subsequent to the Measurement Date*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial

statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2015-001.

Entity's Response to Finding

The District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Springfield Local School District
Lucas County
6900 Hall Street
Holland, Ohio 43528

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited Springfield Local School District, Lucas County, Ohio's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the District's major federal program for the year ended June 30, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

In our opinion, Springfield Local School District, Lucas County, Ohio complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2015.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

Report on Federal Awards Receipts and Expenditures Schedule Required by OMB Circular A-133

We have also audited the financial statements of the governmental activities, the major fund and the aggregate remaining fund information of Springfield Local School District, Lucas County, Ohio as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 18, 2015. Our opinion also explained that the District adopted Governmental Accounting Standard Board Statement No. 68 *Accounting and Financial Reporting for Pensions – an amendment for GASB Statement No, 27 and Statement No, 71 Pension Transition for Contributions Made Subsequent to the Measurement Date* during the year. We conducted our audit to opine on the District's' basic financial

Statements. We have not performed any procedures to the audited financial statements subsequent to December 18, 2015. The accompanying federal awards receipts and expenditures schedule presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

FINDING NUMBER 2015-001

Finding for Recovery Repaid Under Audit

Article XX Section K2 of the agreement between the Springfield Local Board of Education and the Springfield Education Association for the period July 1, 2013 through June 30, 2015, sets limits for payments of unused sick leave/severance pay at retirement for certified staff members with less than 10 years of service with the District to be a sum equal to the certified staff member's daily rate of pay at retirement for one-fourth of the total accumulated sick leave days up to a maximum of 140 days, or 35 days total.

Janet King retired in 2015 with 9 years of service with the District and received a severance payment of \$22,641 from the District on June 19, 2015. This payment was based on 59.5 of unused sick leave days. According to the above agreement, her severance payment should have been \$13,674 (35 days at the daily rate of pay at retirement \$390.68) resulting in an overpayment of \$8,967.

In accordance with the forgoing facts, and pursuant to Ohio Rev. Code §117.28, a finding for recovery for public money illegally expended is hereby issued against Janet King, former Springfield Local School District Teacher, in the amount of \$8,967 in favor of the Springfield Local School District General Fund.

On October 27, 2015, Janet King issued a check to the Springfield Local School District in the amount of \$8,967.14. This finding for recovery is considered repaid under audit.

Officials' Response:

Due to a human error with regards to the interpretation of a negotiated agreement, the District overpaid severance for one retiree in fiscal year 2015. This error was corrected by having the retiree remit full payment of the error to the district in the amount that she had been overpaid.

December 18, 2015

Board of Education Members and Citizens of the Springfield Local School District:

As the Treasurer/CFO of the Springfield Local School District (the "District"), I am pleased to submit to you the Comprehensive Annual Financial Report (CAFR) issued by the District. This report provides full disclosure of the financial operation of the District for the fiscal year ended June 30, 2015. This CAFR, which includes an opinion from the State of Ohio Auditor who performed the District's audit, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. The responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. This report will provide the taxpayers of the District with comprehensive financial data in a format which will enable them to gain an understanding of the District's financial affairs. Copies will be made available to the Chamber of Commerce, major taxpayers, the public library, financial rating services, and other interested parties.

The District is located in Northwestern Ohio just south of the Michigan-Ohio border and is comprised of the Village of Holland, Springfield Township, a portion of the City of Toledo, and a portion of the City of Maumee, which are all part of Lucas County. As a suburb of Toledo, Holland/Springfield Township is basically a residential community with a broad service-based economy. Socioeconomic indicators continue to describe Holland/Springfield Township as an affluent community with housing values and income levels well above State and county norms.

The District provides a full range of educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory and vocational levels, and a broad range of co-curricular and extracurricular activities, and special education services. In addition, the District provides state-financed assistance to non-public schools located within its boundaries. This assistance is accounted for in a non-major governmental fund. The District currently serves 3,911 students in grades PreK-12. The District's facilities include four elementary schools, one middle school, one high school and one administrative building. Additional building information can be found in the statistical section of this report.

Statutorily, the District operates under standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code for the purpose of providing educational services authorized by charter and further mandated by State and/or Federal agencies.

A five member Board of Education (the "Board") serves as the taxing authority, contracting body and policy maker for the District. The Board adopts the annual operating budget and approves all expenditures of District monies.

The Superintendent is the chief administrative officer of the District, responsible for both education and support operations. The Treasurer/CFO is the chief financial officer of the District, responsible for maintaining records of all financial matters, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds, and investing idle funds as specified by Ohio law.

Other Board appointed officials include directors of various educational and support services and building principals.

THE REPORTING ENTITY

The District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39 "Determining Whether Certain Organizations are Component Units". In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments, and organizations making up the District (the primary government) and its potential component units. The District has no component units nor is it a component unit of any other governmental entity.

The District participates in certain organizations that are defined as jointly governed organizations. These organizations include the Northwest Ohio Computer Association (NWOCA) and the Penta County Career Center. These organizations are presented in Note 16 to the basic financial statements.

QUALITY IN EDUCATION

The District strives to maintain quality schools that not only reflect the philosophy of a community, but help to maintain property values as well. While the emphasis is on the educational program itself, the District continues to maintain expectations for excellence in our students, staff, and programs. We feel it is appropriate to briefly review some of the District's quality benchmarks that define the foundation upon which the success of our programs are built.

Curriculum Development. The District provides a comprehensive K-12 curriculum that includes programs that address intervention, assessment, gifted and special-needs as well as a full complement of college prep coursework. Ongoing review, additions, and revisions are an integral part of the curriculum development. The District continues to assess courses of study to raise expectations for all students and to assess and implement interventions for at-risk students. The K-12 curriculum exceeds national and State standards and is continually assessed to ensure alignment with changing standards. Furthermore, assessment is what drives curriculum. Assessments measure not only student progress, but also the effectiveness of the District's goals and objectives of the curriculum in meeting student needs. Ongoing committees research, pilot, evaluate, and make recommendations for curriculum updates.

Textbooks. Classroom textbooks are selected to mirror State and national standards. Currently, committees in K-12 are researching the viability of electronic textbooks as the District moves forward with new and changing standards in a digital age. The District partnered with a few neighboring districts and received a Straight A grant from the State of Ohio to begin creating small scale electronic textbooks at the high school level.

Technology. All of the schools are part of a fiber optic network that provides District networking capabilities and quick Internet access. The District currently has iPad technology in all K-2 classrooms. The District has worked vigorously to update all computer labs and is starting to build mobile labs for the 3-5 grade levels. Wireless access was recently added to all facilities and upper grade level buildings are allowing students to bring their own devices for education. Most elementary classrooms have been equipped with SmartBoards or a similar interactive technology to enhance the teaching and learning process. In the upper grade levels, classrooms are being fitted with projectors or interactive projectors to enhance the learning experience. Training is a pre-requisite for SmartBoard installation in a classroom to ensure that every teacher can fully utilize the resources this tool offers. The District's middle school is currently utilizing the free software developed by Google for education and has a pilot program of teachers currently using many aspects of the software. The District is also moving forward with district-wide integration of free Google software at all grade levels. New high speed/high capacity switches were recently purchased and are part of a technology plan for adding more devices in the near future. Plans are in place to upgrade the District's technology infrastructure and look at more mobile technologies in the near future.

Class Size. There is an average of 24 students per class in grades K through 5. The class size for grades 6 – 12 is dependent upon the class offered and ranges from 17 – 30 students. This range compares very favorably among comparable districts across the State as well as other districts in the area.

Staff Development. A continuum of multi-faceted opportunities are provided to keep staff current in methodology and technology through District in-service training, university courses, and partnerships with other educational associations and entities.

Comprehensive Support for Special Needs. Through the efforts of many, the District is prepared to meet the needs of all students, but extra attention has been given to ensure that the District provides an outstanding and comprehensive special-needs and gifted program, along with interventions for identified students in specific areas

ECONOMIC CONDITIONS AND OUTLOOK

The District's population has increased slightly over the last five years. The latest tax return data shows the district has approximately 27,110 personal exemptions, correlating closely to the number of district residents. Student population has seen a slightly larger increase over the last few years. Average federal adjusted gross income per tax return is at approximately \$63,895. The District also has a Federally Adjusted Gross Income (FAGI) rank of 98, making Springfield Local Schools one of the wealthier districts in the State of Ohio.

Growth in commercial development has stabilized in the past few years. Commercial real estate transfers and new-construction are starting to pick up pace in the District. The Airport Highway corridor, running right through the middle of District, has seen a large influx of new commercial growth or the reclamation of existing infrastructure. The District welcomed Ohio's first Art Van Furniture store in fiscal year 2013. The Kroger Company opened a new Kroger Marketplace on the Airport Highway corridor in January of 2015. There continues to be growth in chain restaurants in the corridor as well. Hoopla, the leading supplier of digital media content to libraries across the world, started construction on a new facility in Springfield Township in 2015. Building permit data has remained steady, but the estimated value of new construction has increased substantially in the last three years.

The economic condition of the District remains somewhat stable, but the District is remaining ever cautious for the future. This is due mainly to the fact that the District lies in an affluent community with a small commercial tax base, which traditionally eliminates fluctuations in revenue sources due to changes in the business climate. However, with major property valuation reductions established by the Lucas County Auditor, the District continues to face problematic economic situations, due in large part to the reliance on property tax revenues and current economic times. The District was able to pass a much needed \$3.9 million emergency tax levy in May of 2015. This levy will remain in effect for five years.

The State of Ohio continues to make changes to the traditional funding processes. This is due in part to the Ohio Supreme Court declaring the school funding system unconstitutional on four occasions, the "No Child Left Behind Act of 2001" and funding formula revisions shown in House Bill 1 and most recently in House Bill 153. Changes to the funding model continue to evolve under the current Governor's administration. The District also faces reductions in State funding, including the elimination of State Fiscal Stabilization Funds and Public Utility Deregulation Replacement payments, and the phase-out of the Tangible Personal Property reimbursement. The updated funding model has increased transfer payments away from the District and to community/charter schools and educational service centers which has created a negative effect on State reported cost increases to education.

These factors contribute to the increasing burden on the public school districts to compete for tax payer dollars and student enrollment. In recent years, enrollment has remained fairly static and this trend is expected to continue into the foreseeable future.

SIGNIFICANT ACCOMPLISHMENTS/EVENTS FOR THE FISCAL YEAR: 2015

Excellence and Accountability continue to be the underlying theme for the entire District. During the fiscal year 2015, the District continued to build on planning initiatives that drive academic goals for the District. The goals of the District are based on three main considerations:

- Initiative #1: **Increase student learning through high-quality instruction**
- Initiative #2: **Prepare students for the changes in state-mandated testing/curriculum**
- Initiative #3: **Maintain academic excellence and focus on the core value - exceptional without exception**

The focus of the District continues to align with these goals and will be the focus both academically and operationally for the next several years.

Academically, the District has focused attention on intervention programs for at-risk students in the full K-12 education spectrum. All of the schools have initiated appropriate interventions in alignment with District goals and continuous improvement plans. The high school has expended its college level opportunities for all students through post-secondary option and additional advanced placement (AP) level courses. Work from these initiatives will raise the graduation standards for all District students in the years to come and will keep the District on the leading edge of initiating higher standards for all graduates.

The District worked very hard in fiscal year 2015 to pass a levy to provide financial stability to the district. After two failed attempts in 2014, the District was able to pass a \$3.9 million emergency levy in May of 2015. This money will be used to support the main initiatives of the district. In addition to the levy, the District had a performance audit completed by the Ohio Auditor of State's office. This audit provided many benchmarking opportunities to help compare the District to low cost leaders throughout Ohio public education. In many instances, the Springfield Local School District was at or below the operating costs of the recognized peers.

The District also continues to comply with new standards and mandates from the State and Federal levels, including the No Child Left Behind Act.

MAJOR INITIATIVES FOR THE FUTURE

The District will continue to implement new courses of study in an ongoing effort to meet – and exceed - the national and State standards and the Common Core initiative to affect student outcomes in the retention of the excellence rating on the Ohio Report Card. Part of this effort is the continuation of a more rigorous high school program to better prepare students for the 21st Century workforce. Under the new State Report Card, the District is working hard towards “A” ratings in all categories and at all building levels. The District continues to prepare for full implementation of the online AIR (American Institutes for Research) assessments at many grade levels after the State of Ohio removed the PARCC testing from the state mandates.

Full implementation of the District Leadership Team initiatives will help keep the District focused on student learning through high-quality instruction, efficiency and effectiveness of district operations and vibrant school-community partnerships.

The District is committed to working with the Springfield Schools Foundation to help further implement technology initiatives in the classroom. Through ongoing fundraising opportunities, the Springfield Schools Foundation has been able to help fund grant opportunities for classroom technology and has financially supported large-scale initiatives to bring technology assisted interaction into the classroom. The Foundation is also looking at alternative means to raise funds to further support the District and its educational initiatives.

With the full implementation of these plans and directives, the District will remain poised to retain the full academic excellence and fiscal accountability standards that the community has come to expect of the District.

With the passage of the levy in 2015, the District is able to add additional focus to student achievement that was previously focused on fiscal emergencies. The District mission, goals, and values have been updated to encompass an ever changing student population and a diverse workforce.

LONG-TERM FINANCIAL PLANNING

As part of the District's long-term planning, the Treasurer/CFO prepares a five-year financial forecast. This document provides a snapshot of historical and projected revenues and expense over the next five years and is accompanied by financial assumption notes. The Board of Education reviews this document on a biannual basis for changes that might impact their financial decisions.

FINANCIAL INFORMATION

Internal Accounting and Budgetary Control. The District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Governmental fund operations are presented on the modified accrual basis, whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. The private-purpose trust fund operations are presented on the accrual basis, whereby revenues are recognized when earned, and expenses when incurred.

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from the implementation.

The District utilizes a fully automated accounting system, as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year. Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the first digit object level within the general, debt service and permanent improvement funds and at the fund level for all other funds. All purchase order requests must be approved by the Superintendent and certified by the Treasurer/CFO; necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports, which detail year-to-date expenditures and encumbrances versus the original appropriation, plus any additional appropriations made to date. In addition to interim financial statements, each administrator and school principal has electronic access to daily reports showing the status of the budget accounts for which they are responsible. As an additional safeguard, a blanket bond covers all employees, and a separate, higher limit bond covers certain individuals in policy-making roles.

The basis of accounting, the basis of presentation of the District's various funds, and information on budgetary accounting can be found in Note 2 to the financial statements.

FINANCIAL REPORTING

The basic financial statements for reporting on the District's financial activities are as follows:

Government-wide financial statements: These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by business enterprises. The government-wide statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. The District did not have any business-type activities.

Fund financial statements: These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Fiduciary funds use the accrual basis of accounting.

Schedule of budgetary comparisons: This schedule presents comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The budgetary comparison for the general fund has been presented as required supplementary information and is not considered part of the basic financial statements.

Management is responsible for preparing a Discussion and Analysis (MD&A) of the District. This discussion appears after the Report of Independent Auditors in the financial section of this report. The MD&A provides an assessment of the District's finances for fiscal year 2015. The MD&A is intended to be read in conjunction with this letter of transmittal.

INDEPENDENT AUDIT

Provisions of State statute require the District's financial statements to be subjected to an annual audit by an independent auditor. Those provisions have been satisfied and the opinion of the District's independent auditor is included herein.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all units of local education agencies in Ohio.

AWARDS

GFOA Certificate of Achievement - The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Springfield Local School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2014. The Certificate of Achievement is the highest form of recognition in the area of governmental financial reporting. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report that conforms to program standards. Such a report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to GFOA.

ACKNOWLEDGMENTS

The publication of this report significantly increases the accountability of the District to the taxpayers. This accomplishment would not have been possible without the support and efforts of the staff of the Treasurer's office and various administrators and employees of the District. Assistance of the County Auditor's office staff and other outside agencies made possible the fair presentation of statistical data.

Special appreciation is expressed to Julian & Grube, Inc. who provided technical assistance on this report. Finally, sincere appreciation is extended to the Board of Education for its interest in and support of this project.

Respectfully,

P. Ryan Lockwood III

INDEPENDENT AUDITOR'S REPORT

Springfield Local School District
Lucas County
6900 Hall Street
Holland, Ohio 43528

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Springfield Local School District, Lucas County, Ohio (the District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of Springfield Local School District, Lucas County, Ohio, as of June 30, 2015, and the respective changes in financial position thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during the year ended June 30, 2015, the District adopted Governmental Accounting Standard No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. We did not modify our opinion regarding this matter

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis, required budgetary comparison schedule* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18 2015, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015
UNAUDITED

The management's discussion and analysis of the Springfield Local School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2015 are as follows:

- In total, net position of governmental activities increased \$1,770,782 which represents a 3.79% increase from 2014's restated net position.
- General revenues accounted for \$35,732,678 in revenue or 81.26% of all revenues. Program specific revenues in the form of charges for services and sales and operating grants and contributions accounted for \$8,242,069 or 18.74% of total revenues of \$43,974,747.
- The District had \$42,203,965 in expenses related to governmental activities; \$8,242,069 of these expenses were offset by program specific charges for services and operating grants and contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) were adequate to provide for these programs.
- The District has one major fund: the general fund. The general fund had \$35,921,036 in revenues and \$35,895,336 in expenditures. The general fund's fund balance increased \$25,700 from a deficit of \$1,841,924 to a deficit of \$1,816,224.

Using these Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *statement of net position* and *statement of activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The District has one major fund: the general fund.

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2015?" The statement of net position and the statement of activities answer this question. These statements include *all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in that net position. This change in net position is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, the governmental activities include the District's programs and services, including instruction, support services, operation and maintenance of facilities, pupil transportation, extracurricular activities, and food service operations.

The District's statement of net position and statement of activities can be found on pages 18-19 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental fund begins on page F 14. Fund financial reports provide detailed information about the District's major fund. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental fund is the general fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the statement of net position and the statement of activities) and governmental *funds* is reconciled in the basic financial statements. The basic governmental fund financial statements can be found on pages F 20 - F 23 of this report.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals or other entities. These activities are reported in agency funds. All of the District's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position on pages F 24 - F 25. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages F 27 - F 63 of this report.

Required Supplementary Information

The Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual (Non-GAAP Budgetary Basis) for the general fund is provided on pages F 66 and F 67 of this report. In addition to the Schedule of Revenues, Expenditures, and Changes in Fund Balance, this report also presents certain required supplementary information concerning the District's net pension liability. The required supplementary information can be found on pages F 68 through F 74 of this report.

The District as a Whole

The statement of net position provides the perspective of the District as a whole.

The table below provides a summary of the District's net position at June 30, 2015 and June 30, 2014. The net position at June 30, 2014 has been restated as described in Note 3.A.

During 2015, the District adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

**SPRINGFIELD LOCAL SCHOOL DISTRICT
LUCAS COUNTY, OHIO**

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015
UNAUDITED

Under the new standards required by GASB 68, the net pension liability equals the District's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2014, from \$9,498,015 to (\$46,664,811).

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2015, the District's liabilities plus deferred inflows of resources exceeded assets plus deferred outflows of resources by \$44,894,029.

At year-end, capital assets represented 35.79% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture and equipment and vehicles. Net investment in capital assets at June 30, 2015, was \$11,346,593. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

Governmental Activities

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 functional expenses still include pension expense of \$2,928,453 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expense of \$2,095,856.

Consequently, in order to compare 2015 total program expenses to 2014, the following adjustments are needed:

Total 2015 program expenses under GASB 68	\$ 42,203,965
Pension expense under GASB 68	(2,095,856)
2015 contractually required contributions	<u>2,994,468</u>

Increase (decrease) in program expenses not related to pension	<u>\$ (2,221,270)</u>

Net position of the District's governmental activities increased \$1,770,782. This increase is primarily a result of the \$3,119,882 decrease in expenses and a \$967,204 increase in property tax revenue and a \$348,202 increase in grants and entitlements. Total governmental expenses of \$42,203,965 were offset by program revenues of \$8,242,069 and general revenues of \$35,812,678. Program revenues supported 19.53% of the total governmental expenses.

The primary sources of revenue for governmental activities are derived from property taxes, payment in lieu of taxes and unrestricted grants and entitlements. These revenue sources represent 80.97% of total governmental revenue. Total governmental revenues increased during the year primarily due to the increase in property tax revenue and unrestricted grants and entitlements. Property tax revenue increased due to an increase in tangible personal property taxes received. The increase in grants and entitlements is primarily due to the current year increase in State foundation funding.

The largest expense of the District is for instructional programs. Instruction expenses totaled \$26,711,635 or 63.29% of total governmental expenses for fiscal year 2015. The District's governmental expenses decreased during the current fiscal year due to a decrease in instruction and support service expenses. These expenses decreased due to a reduction in District staff.

The graph below presents the District's governmental activities revenue and expenses for fiscal years 2015 and 2014.

The dependence upon tax and other general revenues for governmental activities is apparent as 83.52% of instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 80.47%. The District's taxpayers and unrestricted grants and entitlements are the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2015 and 2014.

Total	<u>\$ 35,895,336</u>	<u>\$ 37,855,223</u>	<u>\$ (1,959,887)</u>	(5.18) %

Overall revenues and other financing sources of the general fund increased \$997,171 or 2.86%. The most significant increase was in the area of tax revenue. Tax revenues increased due to an increase in tangible personal property taxes received. An increase in State foundation funding resulted in increased intergovernmental revenues.

Expenditures decreased \$1,959,887 or 5.18%. Instructional and support services decreased \$648,727 and \$1,350,357, respectively, due to a decrease in employee salaries and benefits costs.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2015, the District amended its general fund budget several times. For the general fund, final budgeted revenues and other financing sources were \$36,698,808, which was \$298,154 higher than the original budgeted revenues and other financing sources of \$36,400,654. Actual revenues and other financing sources for fiscal 2015 were \$36,423,274 which was \$275,534 lower than the final budgeted revenues and other financing sources. The decrease in revenues from final budget to actual was due to the amount budgeted for transfers compared to the amount actually transferred.

General fund original appropriations and other financing uses of \$39,406,801 were decreased to \$38,134,495 in the final budget. The actual budget basis expenditures and other financing uses for fiscal year 2015 totaled \$37,356,463, which was \$778,032 lower than the final budgeted appropriations. The decrease in expenditures from final budget to actual was due to the amount budgeted for transfers compared to the amount actually transferred and to the amount budgeted for instruction and support services compared to the amount actual spent.

The budgetary schedule for the general fund has been presented as required supplementary information.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2015, the District had \$18,781,885 invested in land, land improvements, buildings and improvements, furniture and equipment and vehicles. This entire amount is reported in governmental activities.

The table that follows shows June 30, 2015 balances compared to June 30, 2014:

**Capital Assets at June 30
(Net of Depreciation)**

	Governmental Activities	
	2015	2014
Land	\$ 1,425,358	\$ 1,425,358
Land improvements	3,040,290	3,248,913
Buildings and improvements	12,024,774	12,593,088
Furniture and equipment	1,724,411	1,789,101
Vehicles	567,052	706,407
Total	\$ 18,781,885	\$ 19,762,867

The overall decrease of \$980,982 is the result of depreciation expense of \$1,333,133 exceeding capital asset additions of \$352,151.

See Note 9 to the basic financial statements for detail on the District's capital assets.

Debt Administration

At June 30, 2015, the District had \$43,418 in lease purchase agreement obligations and \$7,495,519 in general obligation bonds outstanding. Of this total, \$1,555,106 is due within one year and \$5,983,831 is due in greater than one year. The following table summarizes the outstanding obligations for fiscal year 2015 compared to 2014.

The table below summarizes the bonds and lease purchase agreement outstanding.

General obligation bonds	<u>7,495,519</u>	<u>9,002,248</u>
Total	<u>\$ 7,538,937</u>	<u>\$ 9,002,248</u>

At June 30, 2015, the District's overall legal debt margin was \$52,401,321 with an unvoted debt margin of \$652,002.

See Note 14 to the basic financial statements for detail on the District's debt administration.

Current Financial Related Activities

The District is a suburban community of 25,000 people in Northwest Ohio. It has a number of retail/commercial businesses that are an important part of the economy. New home construction has slowly started to increase and real estate market conditions are generally seen to be improving. Home foreclosures, while over historic levels in the district lag those of Lucas County in general and Toledo specifically. Property values in the district remain above average when compared to other districts in the State. Per capita income levels also remain above average for comparable districts in Ohio.

The District passed a \$3.9 million emergency levy for operating monies in May of 2015 with collection starting in fiscal year 2016. This levy will run for five years and generate \$3.9 million in additional revenue per year. Additionally, the District also renewed a 1.35 mill permanent improvement levy in November of 2014. This generates approximately \$830,000 in revenue per year to be used for maintaining, equipping and improving facilities within the District. This levy will run for five years through December 31, 2019. The last passage of operating dollars occurred with a successful 3.9 mill operating levy in 2010. This levy was passed on a continuous basis. The District had three failed operating levy attempts leading up to the passage in May of 2015.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 1 - DESCRIPTION OF THE DISTRICT AND REPORTING ENTITY

Springfield Local School District, Lucas County (the District) is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally elected Board form of government consisting of five members elected at-large for staggered four-year terms. The District provides educational services as authorized by state statute and/or federal guidelines.

The District was established in 1881 through the consolidation of existing land areas and school districts. The District serves an area of approximately 25 square miles. It is located in Lucas County, and includes all of the Village of Holland and portions of the cities of Toledo and Maumee, and Monclova, Spencer, and Springfield Townships. It is staffed by 102 non-certified employees and 231 certified full-time teaching personnel who provide services to 3,911 students and other community members. The District currently operates six instructional buildings, one administrative building, and one garage.

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

The following activities are included within the reporting entity:

Parochial Schools - Within the District boundaries, St. Joan of Arc Elementary and St. Johns High School are operated through the Toledo Catholic Diocese; Westside Montessori is operated as a private school. Current State legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial schools. The activity of these State monies by the District is reflected in a special revenue fund for financial reporting purposes.

FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District is associated with four organizations, which are defined as jointly governed organizations or insurance purchasing pools. These organizations include the Northwest Ohio Computer Association, Penta County Career Center, the Ohio School Boards Association (OSBA) Workers' Compensation Group Rating Plan, and the Ohio School Plan. These organizations are presented in Notes 16 and 17 to the basic financial statements.

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

A. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and fiduciary.

Governmental Funds

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets and deferred outflows of resources are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities and deferred inflows of resources are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The general fund is the District's only major governmental fund:

General fund - The general fund is used to account for and report all financial resources, except those required to be accounted for in another fund. The General Fund is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the District account for grants and other resources, capital projects and debt service of the District whose uses are restricted to a particular purpose.

LUCAS COUNTY**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust fund is a private-purpose trust which accounts for scholarship programs for students. Agency funds are custodial in nature (assets net position) and do not involve measurement of results of operations. The student managed activities agency fund accounts for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

B. Basis of Presentation and Measurement Focus

Government-Wide Financial Statements - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

**SPRINGFIELD LOCAL SCHOOL DISTRICT
LUCAS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The private purpose trust fund is reported using the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting on the fund financial statements. Fiduciary funds also use the accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied.

Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Deferred Outflows of Resources and Deferred Inflows of Resources - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources have been reported for the following two items related the District's net pension liability: (1) the difference between expected and actual experience of the pension systems, and (2) the District's contributions to the pension systems subsequent to the measurement date. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2015, but which were levied to finance fiscal year 2016 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

The District also reports a deferred inflow of resources for the net difference between projected and actual earnings on pension plan investments related to the District's net pension liability. This deferred inflow of resources is only reported on the government-wide statement of net position.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities used during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

D. Budgets

The District is required by State statute to adopt an annual appropriated cash basis budget for all funds (except agency funds). The specific timetable for fiscal year 2015 is as follows:

1. Prior to January 15, the Treasurer submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The purpose of this budget document is to reflect the need for existing (or increased) tax rates.
2. By no later than January 20, the board-adopted budget is filed with the County Budget Commission for tax rate determination.
3. Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources, which states the projected revenue of each fund. Prior to July 1, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as a basis for the appropriation measure. On or about July 1, the Certificate is amended to include any unencumbered balances from the preceding year as reported by the District Treasurer. The Certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the final budgeted amount in the budgetary statement reflect the amounts set forth in the final Amended Certificate issued for fiscal year 2015.
4. By July 1, the annual appropriation resolution is legally enacted by the Board of Education at the fund level of expenditures, which are the legal levels of budgetary control. (State statute permits temporary appropriation to be effective until no later than October 1 of each year.)
5. Board adopted appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total expenditures and encumbrances may not exceed appropriations at the legal level of control.
6. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.
7. Formal budgetary integration is employed as a management control device during the year for all funds consistent with the general obligation bond indenture and other statutory provisions. All departments/functions and funds completed the year within the amount of their legally authorized cash basis appropriations.
8. Appropriation amounts are as originally adopted, or as amended by the Board of Education through the year by supplemental appropriations, which reallocated, increased or decreased the original appropriated amounts. The Board legally enacted all supplemental appropriations, during fiscal year 2015.

**SPRINGFIELD LOCAL SCHOOL DISTRICT
LUCAS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

9. Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Cash disbursements plus encumbrances may not legally exceed budgeted appropriations at the fund level.

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance.

E. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the basic financial statements.

During fiscal year 2015, investments were limited to U.S. Government money market funds and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Investments are reported at fair value, which is based on quoted market prices, with the following exception: nonparticipating investment contracts such as nonnegotiable certificates of deposit are reported at cost.

The District has invested funds in STAR Ohio during fiscal year 2015. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2015.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. Investment earnings are credited to funds based on Board Policy and State statute. Interest revenue credited to the General Fund during fiscal year 2015 amounted to \$6,371, which includes \$3,718 assigned from other District funds.

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at year end is provided in Note 4.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

F. Prepaid Items

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets on the balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed.

G. Inventory

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method which means that the cost of inventory items are recorded as an expenditure in the governmental funds when consumed.

Inventory consists of expendable supplies held for consumption, donated food and purchased food.

H. Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$2,500. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. The District does not possess infrastructure.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land Improvements	15 - 20 years
Buildings and Improvements	25 - 40 years
Furniture and Equipment	5 - 20 years
Vehicles	8 - 15 years

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund loans receivable/payable.” These amounts are eliminated in the governmental activities columns on the statement of net position.

On fund financial statements, receivables and payables resulting from short-term interfund loans from the general fund to cover negative cash balances in other governmental funds are classified as “due to/from other funds”. These amounts are eliminated in the governmental activities columns on the statement of net position.

J. Compensated Absences

Compensated absences of the District consist of vacation leave and sick leave liability to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16, “Accounting for Compensated Absences”, a liability for vacation leave is accrued if a) the employees’ rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination (severance) benefits. A liability for severance is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at June 30, 2015, by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for sick leave on employees expected to become eligible to retire in the future, all employees at least 50 years of age with 10 years of service or any age with at least 15 years of service, were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2015 and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. Compensated absences are reported in the governmental funds only if they have matured. These amounts are recorded in the account “compensated absences payable” in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

L. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component “net investment in capital assets,” consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable.

Restricted - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Assigned - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes, but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes. The Board of Education assigns fund balance by resolution. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenues and appropriations in the subsequent year's appropriated budget.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

N. Interfund Transactions

Transfers between governmental activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

O. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

P. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Q. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the District and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during 2015.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles/Restatement of Net Position

For fiscal year 2015, the District has implemented GASB Statement No. 68, "Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27", GASB Statement No. 69 "Government Combinations and Disposals of Government Operations", and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68".

GASB Statement No. 69 establishes accounting and financial reporting standards related to government combinations and disposals of government operations. The Statement improves the decision usefulness of financial reporting by requiring that disclosures be made by governments about combination arrangements in which they engage and for disposals of government operations. The implementation of GASB Statement No. 69 did not have an effect on the financial statements of the District.

GASB Statement No. 68 improves the accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The implementation of GASB Statement No. 68 affected the District's pension plan disclosures, as presented in Note 11 to the financial statements, and added required supplementary information which is presented on pages 63 - 69.

GASB Statement No. 71 improves the accounting and financial reporting by addressing an issue in GASB Statement No. 68, concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

A net position restatement is required in order to implement GASB Statement No 68 and 71. The governmental activities at July 1, 2014 have been restated as follows:

	<u>Governmental Activities</u>
Net position as previously reported	\$ 9,498,015
Deferred outflows - payments subsequent to measurement date	2,928,453
Net pension liability	<u>(59,091,279)</u>
Restated net position at July 1, 2014	<u>\$ (46,664,811)</u>

Other than employer contributions subsequent to the measurement date, the District made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available. The restatement had no effect on fund balances.

B. Deficit Fund Balances

Fund balances at June 30, 2015 included the following individual fund deficits:

<u>Major fund</u>	<u>Deficit</u>
General fund	\$ 1,816,224
 <u>Nonmajor funds</u>	
Food service	194,967
Alternative schools	163
IDEA Part-B	169,029
Title III, limited english proficiency	47
Title I, disadvantaged children	56,186
Improving teacher quality	10,149

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balance resulted from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

**SPRINGFIELD LOCAL SCHOOL DISTRICT
LUCAS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash on Hand

At fiscal year end, the District had \$1,140 in undeposited cash on hand which is included on the financial statements of the District as part of “equity in pooled cash and cash equivalents”.

B. Deposits with Financial Institutions

At June 30, 2015, the carrying amount of all District deposits was \$2,590,935. Based on the criteria described in GASB Statement No. 40, “Deposits and Investment Risk Disclosures”, as of June 30, 2015, \$1,937,541 of the District’s bank balance of \$3,282,155 was exposed to custodial risk as discussed below, while \$1,344,614 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the District’s deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions’ trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

C. Investments

As of June 30, 2015, the District had the following investments and maturities:

<u>Investment type</u>	<u>Fair Value</u>	<u>Investment Maturities</u> <u>6 months or less</u>
STAR Ohio	\$ 1,694,690	\$ 1,694,690
U.S. Government money market	<u>201,150</u>	<u>201,150</u>
Total	<u>\$ 1,895,840</u>	<u>\$ 1,895,840</u>

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Interest Rate Risk: Interest rate risk arises potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: STAR Ohio carries a rating of AAAM by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District's U.S. Government money market funds were rated AAAM by Standard and Poor's. The District's investment policy does not address credit risk beyond the adherence to Chapter 135 of the Ohio Revised Code.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2015:

<u>Investment type</u>	<u>Fair Value</u>	<u>% of Total</u>
STAR Ohio	\$ 1,694,690	89.39
U.S. Government money market	<u>201,150</u>	<u>10.61</u>
Total	<u>\$ 1,895,840</u>	<u>100.00</u>

D. Reconciliation of Cash and Investments to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net position as of June 30, 2015:

<u>Cash and investments per note</u>

NOTE 5 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2015 represent the collection of calendar year 2014 taxes. Real property taxes received in calendar year 2015 were levied after April 1, 2014, on the assessed values as of January 1, 2014, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2015 represent the collection of calendar year 2014 taxes. Public utility real and personal property taxes received in calendar year 2015 became a lien on December 31, 2013, were levied after April 1, 2014, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Lucas County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2015, are available to finance fiscal year 2015 operations. The amount available as an advance at June 30, 2015 was \$806,169 in the general fund, \$62,302 in the debt service fund (a nonmajor governmental fund) and \$27,983 in the permanent improvement fund (a nonmajor governmental fund). This amount is recorded as revenue. The amount available for advance at June 30, 2014 was \$821,755 in the general fund, \$74,929 in the debt service fund (a nonmajor governmental fund) and \$30,724 in the permanent improvement fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2015 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

NOTE 6 – PAYMENT IN LIEU OF TAXES

According to State law, Lucas County has entered into an agreement with a property owner under which the County has granted property tax exemptions to the property owner. The property owner has agreed to make payments to the County which reflect all or a portion of the property taxes which the property owner would have paid if their taxes had not been exempted. The agreement requires a portion of these payments to be made to the District. The property owner contractually promises to make these payments in lieu of taxes until the agreement expires.

NOTE 7 - RECEIVABLES

Receivables at June 30, 2015 consisted of property taxes, payment in lieu of taxes, accounts (billings for user charged services and student fees), and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds. A summary of the principal items of receivables reported in the statement of net position follows:

Governmental activities:

Property taxes	\$ 29,144,489

NOTE 10 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2015, the District's insurance coverage was as follows:

<u>Type of Coverage</u>	<u>Liability Limit</u>
Buildings and Contents - replacement cost (\$1,000 deductible)	\$130,782,559
Crime Insurance	100,000
Automobile Liability	6,000,000
Uninsured Motorists	1,000,000
General Liability	
Per Occurrence	6,000,000
Total per Year	8,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in insurance coverage from last year.

For fiscal year 2015, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participants is calculated as one experience and a common premium rate is applied to all participants in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate.

Participation in the GRP is limited to participants that can meet the GRP's selection criteria. The firm of CompManagement Inc., a Sedgwick CMS Company, provides administrative, cost control and actuarial services to the GRP.

NOTE 11 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District’s obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *pension obligation payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description –District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2015, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District’s contractually required contribution to SERS was \$578,635 for fiscal year 2015. Of this amount \$68,443 is reported as pension obligation payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description –District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS’ fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2015, plan members were required to contribute 12 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2015 contribution rates were equal to the statutory maximum rates.

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

The District's contractually required contribution to STRS was \$2,415,833 for fiscal year 2015. Of this amount, \$417,760 is reported as pension obligation payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate share of the net pension liability	\$ 8,535,938	\$ 41,186,787	\$ 49,722,725

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2014, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50

NOTE 11 - DEFINED BENEFIT PENSION PLANS - (Continued)

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
District's proportionate share of the net pension liability	\$ 12,178,247	\$ 8,535,938	\$ 5,472,442

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>

Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	<u>100.00 %</u>	

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2014.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 12 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2015, 0.82 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2015, this amount was \$20,450. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2015, the District's surcharge obligation was \$76,604.

The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$121,634, \$86,104, and \$75,820, respectively. For fiscal year 2015, 88.86 percent has been contributed, with the balance being reported as pension obligation payable. The full amount has been contributed for fiscal years 2014 and 2013.

B. State Teachers Retirement System

Plan Description - The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

**SPRINGFIELD LOCAL SCHOOL DISTRICT

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 12 - POSTEMPLOYMENT BENEFITS - (Continued)

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2015, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$0, \$180,410, and \$172,645 respectively. The full amount has been contributed for fiscal years 2015, 2014 and 2013.

NOTE 13 - EMPLOYEE BENEFITS

A. Compensated Absences

Employees earn vacation at rates specified under State of Ohio law and based on credited service. Classified employees earn 10 to 20 days of vacation per fiscal year, depending upon length of service. Accumulated unused vacation time is paid to classified employees and administrators upon termination of employment.

All employees are entitled to a sick leave credit equal to one and one-quarter days for each month of service (earned on a pro rate basis for less than full-time employees). This sick leave will either be absorbed by time off due to illness or injury or, within certain limitations, be paid to the employee upon retirement. Sick leave may be accumulated up to a maximum of 240 days for classified personnel, 260 days for administrators, and 240 days for certified personnel. Upon retirement, payment is made for up to 30 percent of accrued, but unused sick leave credit to a maximum of 72 days for classified employees and 75 days for certified employees. Upon retirement, payment is made for up to 30.58 percent of accrued, but unused sick leave credit to a maximum of 80 days for 12 month administrative employees and 28.85 percent or 75 days for 10 month administrative employees.

B. Life Insurance

The District provides life insurance and accidental death and dismemberment insurance to most employees through Dearborn National Life Insurance Company.

See Note 11 for details on the net pension liability.

- A. In 2004, the District issued General Obligation School Improvement Refunding Bonds totaling \$6,140,000. The bonds were issued in 2004 and matured in December 2014. The interest rate at June 30, 2012 was 6.125 percent for the general obligation bonds. The final maturity date of these bonds was December 1, 2014.
- B. On September 1, 2004, the District issued general obligation bonds (Series 2004 School Improvement Refunding Bonds) to currently refund the callable portion of the School Improvement General Obligation Bonds (principal \$7,215,000; interest rate 5-5.25 percent). The refunded debt is considered defeased and accordingly has been removed from the statement of net position.

The reacquisition price exceeded the net carrying amount of the old debt by \$130,342. This amount is netted against the old debt and amortized over the remaining life of the refunded debt. The carrying amount as of June 30, 2015 was \$8,126.

- D. On February 1, 2008, the District issued general obligation bonds (Series 2008 School Improvement Refunding Bonds) to currently refund the callable portion of the 2004 School Improvement General Obligation Bonds (principal \$3,710,000; interest rate 4.58 percent). The refunded debt is considered defeased and accordingly has been removed from the statement of net position.

The refunding bonds outstanding are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Payments of principal and interest relating to these liabilities are recorded as expenditures in the debt service fund (a nonmajor governmental fund). The source of payment is derived from a current tax levy.

F. Lease-Purchase Agreement

On June 4, 2015, the District entered into a lease-purchase agreement with TCF Equipment Finance for the purpose of acquiring a new mower. The \$55,602 in proceeds are to be repaid over five years. Principal and interest payments related to this lease-purchase agreement are made from the permanent improvement fund (a nonmajor governmental fund).

Principal and interest requirements to retire the lease-purchase obligation at June 30, 2015 follows:

G. The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2015, are a voted debt margin of \$52,401,321 (including available funds of \$1,121,097) and an unvoted debt margin of \$652,002.

NOTE 15 - SET-ASIDES

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

NOTE 16 - JOINTLY GOVERNED ORGANIZATIONS

A. Northwest Ohio Computer Association

The District is a participant in the Northwest Ohio Computer Association (NWOCA). NWOCA is an association of public school districts within the boundaries of Defiance, Fulton, Henry, Lucas, and Williams counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts.

The NWOCA Assembly consists of a superintendent from each participating school district and a representative from the fiscal agent. The Assembly elects the Council. NWOCA is governed by a Council chosen from two representatives from each of the five counties in which the member school districts are located and the representative from the member school district serving as fiscal agent for NWOCA. The degree of control exercised by any participating school district is limited to its representation of the Board. Financial information can be obtained from the Treasurer at 22-900 State Route 34, Archbold, Ohio 43502.

B. Penta County Career Center

The Penta County Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the sixteen participating school districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information write to the Penta County Career Center, Carrie J. Herringshaw, who serves as Treasurer, at 30095 Oregon Road, Perrysburg, Ohio 43551.

NOTE 17 - INSURANCE POOLS

A. OSBA Workers' Compensation Group Rating Plan

The District is a member of the OSBA Workers' Compensation Group Rating Program established in April 1991. The program was created by the Ohio Schools Boards Association as a result of the Workers' Compensation group rating plan as defined in 4123.29, Ohio Revised Code. The group-rating plan will allow school districts to group together to potentially achieve a lower premium rate than they may otherwise be able to acquire as individual employers.

B. Ohio School Plan

The District participates in the Ohio School Plan (the "Plan"), an insurance purchasing pool established under Section 2744.081 of the Ohio Revised Code. The Plan is an unincorporated nonprofit association of its members which enables the participants to provide for a formalized joint insurance purchasing program for maintaining adequate insurance protection and provides risk management programs and other administrative services. The Plan's business and affairs are conducted by a fifteen member board consisting of superintendents, treasurers, the president of Harcum-Schuett Insurance Agency, Inc., and a member of Hylant Group, Inc. Hylant Group, Inc. is the Plan's administrator and is responsible for processing claims. Harcum-Schuett Insurance Agency serves as the sales and marketing representative which establishes agreements between the Plan and its members. Financial information can be obtained from Harcum-Schuett Insurance Agency, 246 East Sycamore Street, Columbus, Ohio 43206.

NOTE 18 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

**SPRINGFIELD LOCAL SCHOOL DISTRICT
LUCAS COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 18 - CONTINGENCIES - (Continued)

B. Litigation

The District is involved in certain litigation and claims that arise in the ordinary course of business. Management and its legal counsel periodically review the probable outcome of pending claims and proceedings, the costs and expenses reasonably expected to be incurred, the availability and limits of the District's insurance coverage, and the District's accruals for uninsured liabilities. While the ultimate legal and financial liability with respect to the claims and proceedings cannot be estimated with certainty, management believes, based on its reviews and experience to date, that any liability in excess of amounts covered by insurance will not have a material effect on the District's financial statements.

C. Foundation Funding

District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional Districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

NOTE 19 - OTHER COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end are reservations of fund balance for subsequent-year expenditures and may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

<u>Fund Type</u>	<u>Year-End Encumbrances</u>
General	\$ 659,605
Other governmental	<u>488,445</u>
Total	<u>\$ 1,148,050</u>

NOTE TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The schedule of revenues, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis); and,
- (e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

	<u>General fund</u>
Budget basis	\$ (933,189)
Net adjustment for revenue accruals	(119,928)
Net adjustment for expenditure accruals	337,498
Net adjustment for other sources/uses	(5,566)
Funds budgeted elsewhere	45,352
Adjustment for encumbrances	701,533
GAAP basis	\$ 25,700

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the public school support fund.

FIDUCIARY FUND DESCRIPTIONS

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust and agency funds. Private purpose trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve the measurement of results.

Private-Purpose Trust Fund

Scholarship Fund

A fund provided to account for monies set aside from endowments for scholarships for students enrolled in the District. The principal and income from such a fund may be expended.

Agency Funds

District Agency Fund

This fund reflects resources that belong to the student bodies of the various schools, accounting for sales and other revenue

Student Managed Activities Fund

This fund accounts for those student activity programs which have student participation in the activity and have students involved in the management of the program.
