Audited Financial Statements

For the Fiscal Year Ended
June 30, 2016

Dave Yost • Auditor of State

Board of Education
Canton City School District
1312 5th Street SW
Canton, Ohio 44707

We have reviewed the *Independent Auditor's Report* of the Canton City School District, Stark County, prepared by Rea & Associates, Inc., for the audit period July 1, 2015 through June 30, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Canton City School District is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Dave Yost".

Independent Auditor's Report

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canton City School District, Stark County, Ohio, (the "School District") as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Canton City School District, Stark County, Ohio, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *management's discussion and analysis, schedule of the school district's proportionate share of the net pension liability and schedule of school district contributions* on pages 5-13, 65 and 66-67, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The schedule of expenditures of federal awards, as required by *Title 2 U.S Code of Federal Regulations Part 200*, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 31, 2017 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016

The discussion and analysis of the Canton City School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the School District's performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2016 are as follows:

- Net position increased \$6,096,510, which represents an 11 percent increase from 2015.
- Capital assets decreased \$7,994,885 during fiscal year 2016.
- During the fiscal year, outstanding debt decreased from \$31,339,031 to \$28,853,585 due to principal payments made by the School District

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the School District as a whole entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position and Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the School District, the general and the debt service funds are by far the most significant funds.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While the basic financial statements contain the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2016?" The *Statement of Net Position* and the *Statement of Activities* answer this question. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

Canton City School District
Stark County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016

These two statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio which restrict revenue growth, facility conditions, required educational programs, and other factors.

In the *Statement of Net Position* and the *Statement of Activities*, governmental activities include the School District's programs and services, including instruction, support services, extracurricular activities, and non-instructional services, i.e., food service operations.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of major funds begins on page 11. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions; however, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general fund and the debt service fund.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Fund The School District maintains one type of proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the School District's various functions. The School District uses internal service funds to account for workers' compensation and warehouse service programs. Because this service predominately benefits governmental functions, it has been included within the governmental activities in the government-wide financial statements. The proprietary fund financial statements begin on page 21.

Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for some of its scholarship programs. This activity is presented as a private purpose trust fund. The School District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in agency funds. The School District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position on pages 24 and 25. These activities are excluded from the School District's other financial statements because the assets cannot be utilized by the School District to finance its operations.

<i>Total Net Position</i>	<u>\$ (48,820,970)</u>	<u>\$ (54,917,480)</u>

During fiscal year 2015, the School District adopted Governmental Accounting Standards Board (GASB) Statement 68, *Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27*, which significantly revises accounting for pension costs and liabilities and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - An Amendment of GASB Statement No. 68*. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Canton City School District
Stark County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the standards required by GASB 68, the net pension liability equals the School District's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the School District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows of resources.

As a result of implementing GASB 68, the School District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting.

Canton City School District
Stark County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016

At year end, capital assets represented 59 percent of total assets. Capital assets include land, buildings and improvements, land improvements, furniture, equipment and vehicles. The net investment in capital assets was \$90,499,028 at June 30, 2016. These capital assets are used to provide services to students and are not available for future spending. Although the School District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the School District's net position, \$26,494,966 represents resources that are subject to external restrictions on how they may be used. The balance of government-wide unrestricted net position is a deficit of \$165,814,964, which was caused by GASB 68.

The School District saw a \$9,956,532 increase in current and other assets. This was caused by an increase in cash due to the results of fiscal year 2016 operations. This was partially offset by a decrease in intergovernmental receivables due to a large Medicaid settlement that was received during fiscal year 2016 that related to prior years. There was a \$7,994,885 decrease in capital assets caused by the disposal of the football stadium.

The \$19,478,028 increase in net pension liability, \$15,276,800 decrease in deferred inflows of resources from pension and \$5,560,002 increase in deferred outflows of resources for pension were primarily caused by changes related to net pension liability during 2016.

This space left blank intentionally.

Canton City School District
Stark County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016

There was a \$1,226,795 increase in operation and maintenance of plant expenses caused by an increase in payroll and benefit related expenses. Food service operations increased \$1,445,652 due to an increase in food and supply purchases. Extracurricular activities expenses saw a \$3,630,391 increase due to the disposal of the football stadium.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

The dependence upon general revenues for governmental activities is apparent. Nearly 76 percent of governmental activities are supported through taxes and other general revenues; such revenues are 77 percent of total governmental revenues. The community, as a whole, is by far the primary support for the School District students.

Governmental Funds

Information about the School District's major funds starts on page 16. These funds are accounted for using the modified accrual basis of accounting.

Canton City School District
Stark County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016

The general fund's net change in fund balance for fiscal year 2016 was an increase of \$9,925,757. This was primarily caused by an increase in state foundation and property tax receipts.

The fund balance of the debt service fund increased \$1,627,687 due to the timing of property tax collections versus debt payments.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2016, the School District did amend its general fund budget. The School District uses site-based budgeting and budgeting systems are designed to tightly control total site budgets but provide flexibility for site management

For the general fund, actual budget basis revenue of \$123,033,580 was higher than the final budget basis revenue by \$6,022,394. This was primarily caused by an increase in intergovernmental revenue due to a Medicaid settlement received by the District. There was no change from original budget revenue to final budget revenue.

Final expenditure appropriations of \$117,843,098 were \$882,243 lower than the actual expenditures of \$118,725,341, as costs were underestimated instruction and student support services throughout the year. There were no significant variances to discuss within other financing sources and uses.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2016, the School District had \$118,352,371 invested in capital assets. Table 4 shows fiscal year 2016 balances compared with 2015.

Table 4
Capital Assets at June 30
(Net of Depreciation)

	Governmental Activities	
	2016	2015

Furniture / Equipment	1,520,691	1,250,838
Vehicles	2,298,659	2,520,315
<i>Totals</i>	\$ 118,352,371	\$ 126,347,256

Canton City School District
Stark County, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2016

The \$7,994,885 decrease in capital assets was attributable to current year depreciation and disposals exceeding additional purchases. This decrease is primarily due to the disposal of the football stadium during fiscal year 2016. The School District transferred the stadium to the Stark County Port Authority as part of a ground lease agreement. The School District retained ownership of the land, which they have leased to the Port Authority. The Port Authority demolished the existing stadium and is constructing a new one. The new stadium will be owned by the Port Authority, and the School District will have rights to use it. See Note 8 for more information about the capital assets of the School District.

Debt

At June 30, 2016, the School District had \$28,853,585 in debt outstanding. See Notes 9 and 10 for additional details. Table 5 summarizes debt outstanding.

Table 5
Outstanding Debt at Year End

	Governmental Activities	
	2016	2015
General Obligation Bonds	\$ 21,145,000	\$ 23,295,000
Energy Conservation Bonds	6,728,636	6,728,636
Lease Obligations	979,949	1,315,395
<i>Total</i>	\$ 28,853,585	\$ 31,339,031

Current Issues

The School District faces two issues moving forward. Declining enrollment continues to be a top priority. Students and families electing to choose educational opportunities at competing community schools or simply moving out of the district are the primary reasons for declining enrollment.

The other issue the School District faces is the continuing decline in assessed valuation of real property within district boundaries. Declining valuations result in less local property tax collections on existing levies and impacts millage rates of future levies placed on the ballot.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Jeff Gruber, Treasurer of Canton City School District, 1312 5th Street SW, Canton, Ohio 44707-4798.

Reconciliation of Total Governmental Fund Balances to
Net Position of Governmental Activities
June 30, 2016

Total Governmental Fund Balances		\$ 25,290,555
 <i>Amounts reported for governmental activities in the statement of net position are different because:</i>		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		118,352,371
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds.		
Intergovernmental	\$ 5,026,593	
Accounts	80,335	
Property Taxes	10,600,412	15,707,340
The net pension liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in the governmental funds.		
Deferred Outflows - Pension	17,196,241	
Deferred Inflows - Pension	(13,053,936)	
Net Pension Liability	(175,940,794)	(171,798,489)
An internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.		(315,242)
In the statement of activities, interest is accrued on outstanding bonds, whereas in the governmental funds, an interest expenditure is not reported.		(93,486)
In the statement of activities, a gain/loss on refunding is amortized over the term of the bonds, whereas in governmental funds a refunding gain/loss is reported when bonds are issued.		883,511
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.		
General Obligation Bonds	(21,145,000)	
Energy Conservation Bonds	(6,728,636)	
Bond Premium	(1,432,648)	
Capital Lease Obligation	(979,949)	
Healthcare Termination Benefits	(2,036,419)	
Compensated Absences	(4,524,878)	(36,847,530)
<i>Net Position of Governmental Activities</i>		\$ (48,820,970)

Canton City School District
Stark County, Ohio
*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2016*

Net Change in Fund Balances - Total Governmental Funds	\$	11,150,608
 <i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.		
Capital Asset Additions	\$ 958,643	
Current Year Depreciation	<u>(5,205,608)</u>	(4,246,965)
 Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.		
		(3,747,920)
 Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Property Taxes	346,832	
Accounts	80,335	
Intergovernmental	<u>(1,557,247)</u>	(1,130,080)
 Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.		
Bonds	2,150,000	
Capital Leases	<u>335,446</u>	2,485,446
 Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.		
		10,004,553
 Except for amount reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.		
		(8,645,779)
 In the statement of activities, interest is accrued on outstanding bonds, and bond premium and gain/loss on refunding are amortized over the term of the bonds, whereas in governmental funds, an interest expenditure is reported when bonds are issued.		
Accrued Interest Payable	7,372	
Amortization of Premium on Bonds	289,875	
Amortization of Refunding Loss	<u>(200,040)</u>	97,207
 The internal service fund used by management to charge the costs of insurance to individual funds is not reported in the district-wide statement of activities. Governmental expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.		
		47,903
 Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Compensated Absences	(325,337)	
Healthcare Termination Benefits	<u>406,874</u>	<u>81,537</u>
 <i>Change in Net Position of Governmental Activities</i>	 \$	 <u><u>6,096,510</u></u>

See accompanying notes to the basic financial statements.

For the Fiscal Year Ended June 30, 2016

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Canton City School District (the “School District”) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The School District operates under a locally elected five-member Board of Education and is responsible for the provision of public education to residents of the School District. The Board oversees the operations of the School District’s twenty-four instructional/support facilities.

Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, *The Financial Reporting Entity* as amended by GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units* and GASB Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34*. The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization’s Governing Board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization’s resources; or (3) the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government’s financial statements incomplete or misleading. Based upon the application of these criteria, the School District has no component units. The basic financial statements of the reporting entity include only those of the School District (the primary government).

The following organizations are described due to their relationship to the School District:

JOINTLY GOVERNED ORGANIZATION

Canton Joint Recreation District - The School District appoints two of the five members of the Canton Joint Recreation District (the “CJRD”). The CJRD manages recreational activities within the City of Canton at facilities owned by either the City of Canton or the School District. The CJRD hires and fires its own staff and does not rely on the School District to finance deficits. The School District is not financially accountable for the CJRD nor is the CJRD financially dependent upon the School District. The CJRD serves as its own budgeting, taxing and debt issuance authority. Complete financial statements can be obtained from the Canton Joint Recreation District at 1101 Market Avenue, Canton, Ohio 44702.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

PUBLIC ENTITY RISK POOL

The Stark County Schools Council of Government (the “COG”) is governed by an assembly which consists of one representative from each participating school district (usually the superintendent or designee). The assembly elects officers for one-year terms to serve as the Board of Directors. The assembly exercises control over the operation of the COG. All COG’s revenues are generated from charges for services. The COG has a Health Benefits Program, which is a shared risk pool comprised of various entities, most of which are school districts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the School District’s accounting policies are described below.

A. Fund Accounting

The School District uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district activities or functions. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category is divided into separate fund types.

Governmental Funds Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance.

The following are the School District’s major governmental funds:

General fund The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt service fund The debt service fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest and certain long-term obligations from governmental resources when the government is obligated in some manner for payment.

Other governmental funds of the School District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets and (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Proprietary Fund Type Proprietary funds are used to account for the School District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The School District has no enterprise funds. The following is a description of the School District's internal service funds.

Internal service funds - The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the School District, or to other governments, on a cost-reimbursement basis. The internal service funds of the School District are used to account for workers' compensation and warehouse service programs.

Fiduciary Fund Type Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into two classifications: private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District's only trust fund is a private-purpose trust which accounts for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency funds account for student activities and School District agency services.

B. Basis of Presentation

Government-wide Financial Statements - The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements - Fund financial statements report detailed information about the School District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and deferred outflows of resources, current liabilities and deferred inflows of resources, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Private-purpose trust funds are reported using the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting on the fund financial statements. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues - Exchange and Nonexchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Deferred Inflows of Resources and Deferred Outflows of Resources - In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding and for pension. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes, pension, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance fiscal year 2017 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue may include delinquent property taxes, intergovernmental grants, and miscellaneous revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 13).

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

D. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the alternate tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

Tax Budget On October 25, 2005, the Stark County Budget Commission voted to waive the requirement that school districts adopt a tax budget as required by Section 5705.28 of the Ohio Revised Code, by January 15th and the filing by January 20th. The Budget Commission now requires an alternate tax budget be submitted by January 20th, which no longer requires specific Board approval.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Estimated Resources By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to July 1, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate of estimated resources in effect when the final appropriations were passed by the Board of Education.

Appropriations Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, at the fund level, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at any level of control. Any revisions that alter the level of budgetary control must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, all supplemental appropriations were legally enacted.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board of Education during the fiscal year.

Lapsing of Appropriations At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not re-appropriated.

E. Cash and Investments

To improve cash management, cash received by the School District is pooled. Monies for all funds, including proprietary and fiduciary funds, are maintained in this pool. Individual fund integrity is maintained through the School District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the financial statements.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

During fiscal year 2016, investments were limited to federal agency securities, repurchase agreements, corporate bonds, U.S. money market mutual funds and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements, are reported at cost.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2016.

Under existing Ohio statute, interest earnings are allotted to the general fund unless the Board of Education has, by resolution, specified funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2016 amounted to \$130,915, which includes \$53,102 assigned from other School District funds. Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the School District's investment account at fiscal year-end is provided in Note 4.

F. Inventory

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expended/expensed when used. Inventories are accounted for using the consumption method, which means that the cost of inventory items are recorded as expenditures in the governmental funds when consumed.

On the fund financial statements, reported material and supplies inventory is equally offset by nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food and purchased food.

G. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$5,000 for its general capital assets.

The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Land Improvements	20 years
Buildings/Improvements	25 - 50 Years
Furniture/Equipment	5 - 20 Years
Vehicles	6 - 10 Years

H. Interfund Balances

Short-term interfund loans used to cover negative cash balances in funds are classified as “Interfund Receivables/Payables.” These amounts are eliminated in the governmental column of the Statement of Net Position.

Long-term interfund loans (advances) are classified as “advances from other funds” and “advances to other funds.” These amounts are eliminated in the governmental column of the Statement of Net Position.

I. Compensated Absences

Compensated absences of the School District consist of vacation and sick leave liabilities to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the School District and the employee.

In accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*, a liability for vacation leave is accrued if a) the employees’ rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. A liability for sick leave is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for sick leave on employees expected to become eligible to retire in the future, all employees age fifty or greater with at least ten years of service were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2016 and reduced to the maximum payment allowed by labor contract and/or statute, plus any additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account “matured compensated absences payable” in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

J. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, net pension liability and health care reimbursement arrangement obligations that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and capital leases are recognized as a liability in the fund financial statements when due.

K. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

L. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes, but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the School District Board of Education. The Board of Education has by resolution authorized the Treasurer to assign fund balance. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

M. Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents amounts restricted for a special trust fund.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

N. Parochial Schools

Within the School District boundaries are various parochial schools operated through the Catholic Diocese. Current state legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the School District, as directed by the parochial school. The fiduciary responsibility of the School District for these monies is reflected in a special revenue fund (a non-major governmental fund) for financial reporting purposes.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

O. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

P. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. See Note 10 for further detail on restricted assets related to the energy conservation bond sinking fund deposits with escrow agent.

Q. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are charges for services and fees for workers' compensation and warehouse service programs. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. All revenues not related to operating activities have been reported as nonoperating revenue.

R. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the basic financial statements.

Interfund activity between governmental funds is eliminated in the statement of activities.

S. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. During fiscal year 2016, the School District did not have extraordinary or special items.

T. Bond Premiums

Bond premiums are amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds. On the governmental fund financial statements, bond premiums are recognized in the year of issuance.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

U. Implementation of New Accounting Principles

For the fiscal year ended June 30, 2016, the School District has implemented Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*, GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68*, and *Amendments to Certain Provisions of GASB Statements 67 and 68*, GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* and GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*.

GASB Statement No. 72 clarifies the definition of fair value for financial reporting purposes, establishes general principles for measuring fair value, provides additional fair value application guidance, and enhances disclosures about fair value measurements. These changes were incorporated in the School District's fiscal year 2016 note disclosures; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 73 establishes requirements for defined benefit pensions that are not within the scope of GASB Statement No. 68 as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also clarifies the application of certain provisions of GASB Statements 67 and 68. The implementation of GASB Statement No. 73 did not have an effect on the financial statements of the School District.

GASB Statement No. 76 reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. The implementation of GASB Statement No. 76 did not have an effect on the financial statements of the School District.

GASB Statement No. 79 addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The implementation of GASB Statement No. 79 did not have an effect on the financial statements of the School District.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

NOTE 3 – ACCOUNTABILITY AND COMPLIANCE

A. Accountability

The following funds had a deficit fund balance as of June 30, 2016:

	Deficit
<i>Non-major Special Revenue Funds:</i>	
District Managed Student Activity	\$ 127,363
Public Preschool	170,867
Alternative School	7,894
Adult Basic Education	70,823
Race to the Top	4,025
Title III	4,532
Carl Perkins Grant	95,462
Title I, School Improvement Stimulus	278,899
Title I, Disadvantaged Children	1,054,981
IDEA	21,509
Improving Teacher Quality	186,695
Miscellaneous Federal Grants	116,095

The general fund is liable for any deficits in the non-major governmental funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities. The deficits in the non-major governmental funds will be eliminated by future intergovernmental revenues not recognized under GAAP at June 30.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts. Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts. Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio and STAR Plus);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed forty percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, corporate note interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within 5 years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

According to State law, public depositories must give security for all public funds on deposit. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by FDIC, or may pledge a pool of government securities valued at least 105 percent of the total value of uninsured public monies on deposit at the institution. Repurchase agreements must be secured by the specific government securities upon which the repurchase agreements are based. These securities must be obligations of or guaranteed by the United States and mature or be redeemable within 5 years of the date of the related repurchase agreement. State law does not require security for public deposits and investments to be maintained in the School District's name. During fiscal year 2016, the School District and public depositories complied with the provisions of these statutes.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

A. Cash and Investments with Escrow Agent

At fiscal year-end, \$2,242,878 was invested with an escrow agent for required sinking fund deposits relating to the School District's energy conservation bonds. These funds are not included in "deposits with financial institutions" or "investments" below.

B. Deposits with Financial Institutions

At June 30, 2016, the carrying amount of all School District deposits was \$6,623,870 exclusive of the \$8,460,000 repurchase agreement included in investments below. Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, as of June 30, 2016, \$6,388,963 of the School District's bank balance of \$6,890,449 was exposed to custodial risk as discussed below, while \$501,486 was covered by the FDIC.

C. Investments

As of June 30, 2016, the School District had the following investments and maturities:

Investment Type	Measurement Amount	Investment Maturities in Months			Percent of Total
		0 - 12	13 - 36	Over 36	
Federal Farm Credit					
Bank (FFCB) Notes	\$ 2,556,872	\$ 249,917	\$ 2,056,082	\$ 250,873	9.03%
Federal National Mortgage					
Association (FNMA) Notes	2,787,147	0	1,485,318	1,301,829	9.84%
Federal Home Loan Bank (FHLB) Notes	3,168,054	500,505	2,134,763	532,786	11.18%
Federal Home Loan Mortgage					
(FHLM) Notes	2,085,261	0	1,329,740	755,521	7.36%
U.S. Government Money Market	46,741	46,741	0	0	0.17%
U.S Treasury Notes	1,003,205	0	501,155	502,050	3.54%
Commercial Paper	534,577	534,577	0	0	1.89%
Corporate Bonds	2,060,480	0	0	2,060,480	7.27%
Repurchase Agreements	8,460,000	8,460,000	0	0	29.87%
STAR Ohio	5,623,088	5,623,088	0	0	19.85%
Total Investments	\$ 28,325,425	\$ 15,414,828	\$ 7,507,058	\$ 5,403,539	100.00%

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the School District's recurring fair value measurements as of June 30, 2016. As discussed further in Note 2, the repurchase agreement is reported at cost and STAR Ohio is reported at its share price. All other investments of the School District are valued using quoted market prices (Level 1 inputs).

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Custodial Credit Risk For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District has no investment policy dealing with investment custodial risk beyond the requirement in the State statute that prohibits payment for the investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Interest Rate Risk As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the School District's investment policy requires that operating funds be invested primarily in short-term investments maturing within one year from the date of purchase and that the School District's investment portfolio be structured so that the securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

Credit Risk The federal agency securities, federal agency securities underlying the School District's repurchase agreement, U.S. Government money market mutual fund and the U.S. treasury notes were rated AA+ and Aaa by S&P Global Ratings and Moody's Investor Services, respectively. The corporate bonds are rated AAA by Moody's Investor Services and commercial paper is rated A-1 by S&P Global Ratings. STAR Ohio is an investment pool operated by the Ohio State Treasurer. It is unclassified since it is not evidenced by securities that exist in physical or book entry form. Ohio law requires STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The weighted average of maturity of the portfolio held by STAR Ohio as of June 30, 2016, is 49 days and carries a rating of AAAM by S&P Global Ratings. The School District has no investment policy dealing with investment credit risk beyond the requirements in state statutes.

Concentration of Credit Risk The School District places no limit on the amount the School District may invest in any one issuer. The previous table includes the percentage to total of each investment type held by the School District at June 30, 2016.

NOTE 5 - INTERFUND TRANSACTIONS

A. Interfund Transfers

During the fiscal year, the general fund transferred \$140,237 to the debt service fund for the payment of debt and \$470,000 to the athletic fund to provide additional resources for current operations. Interfund transfers between governmental funds are eliminated in the statement of activities.

B. Interfund Receivable/Payable

Interfund balances at June 30, 2016 consist of a \$945,357 payable from the other governmental funds to the general fund. The primary purpose of the interfund balance is to cover costs in the fund where revenues were not received by June 30. This interfund balance will be repaid once the anticipated revenues are received. These advances are expected to be repaid within one year. Interfund loans between governmental activities are eliminated on the statement of net position.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

C. Advances to/from Other Funds

Long-term advances outstanding at June 30, 2016 represents \$1,093,575 and \$1,768,043 owed to the debt service and classroom facilities maintenance funds, respectively, by the general fund.

The School District credited Half Mill-Equalization payments from the State of Ohio to the general fund in fiscal years 2009 – 2015 instead of the classroom facilities maintenance fund. Tangible Personal Property Tax Loss Reimbursement payments from the State of Ohio were also credited to the general fund in fiscal years 2006 – 2015. These errors were identified during the fiscal year 2015 audit. Amounts relating to fiscal year 2015 errors were adjusted in the fiscal year 2015 financial statements. The errors for 2006 – 2014 amounts are being repaid over a five year period beginning in fiscal year 2016.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2016 represents collections of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed value listed as of January 1, 2015, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2016 represents collections of calendar year 2015 taxes. Public utility real and tangible personal property taxes received in calendar year 2016 became a lien December 31, 2014, were levied after April 1, 2015 and are collected in 2016 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Stark County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2016, are available to finance fiscal year 2016 operations. The amount available as an advance at June 30, 2016 in the general, bond retirement and permanent improvement funds was \$1,368,037, \$169,762, and \$56,935, respectively. The amount available for advance at June 30, 2015, in the general, bond retirement and permanent improvement funds was \$1,252,842, \$269,582, and \$52,080, respectively. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2016 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow of resources.

The assessed values upon which the fiscal year 2016 taxes were collected are:

	2015 Second- Half Collections		2016 First- Half Collections	
	Amount	Percent	Amount	Percent
Real Estate	\$ 498,040,210	90%	\$ 497,557,090	90%
Public Utility Personal Property	53,201,620	10%	53,959,130	10%
Total	\$ 551,241,830	100%	\$ 551,516,220	100%
Full Tax Rate per \$1,000 of assessed valuation	\$ 80.90		\$ 76.40	

NOTE 7 - RECEIVABLES

Receivables at June 30, 2016 consisted of property taxes, accounts, interfund and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current fiscal year guarantee of Federal funds. All receivables, except property taxes, are expected to be collected within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

NOTE 8 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2016, was as follows:

	Balance 6/30/2015	Additions	Reductions	Balance 6/30/2016
Governmental Activities				
<i>Capital Assets, not Being Depreciated</i>				
Land	\$ 5,916,100	\$ 0	\$ 0	\$ 5,916,100

Central	18,811
Operation of Non-Instructional Services	
Food Service Operations	400,232
Extracurricular Activities	110,568
<i>Total Depreciation</i>	<u>\$ 5,205,608</u>

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

NOTE 9 - CAPITALIZED LEASES - LESSEE DISCLOSURE

In prior fiscal years, the School District entered into capital lease agreements for the acquisition of a stadium scoreboard and various stadium improvements. A new lease was entered into with Huntington during fiscal year 2015 for 15 new buses. These leases meet the criteria of a capital lease as defined by generally accepted accounting principles, which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee at the conclusion of the lease term. Capital lease payments have been reclassified and are reflected as debt service expenditures in the basic financial statements.

Governmental activities capital assets consisting of stadium improvements and buses have been capitalized in the amount of \$1,358,760. This amount represents the present value of the future minimum lease payments at the time of acquisition. Accumulated depreciation was \$304,305 as of June 30, 2016, leaving a current book value of \$1,054,455. A corresponding liability is recorded on the statement of net position. Principal and interest payments in the 2016 fiscal year totaled \$335,446 and \$17,921, respectively. Lease payments for the buses are reported as debt service payments of the general fund. Lease payments for the stadium improvements have been deferred and will resume in fiscal year 2018.

The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the future minimum lease payments as of June 30, 2016 follows:

			Governmental Activities
			Capital Leases
Fiscal year ending June 30,	2017	\$	353,367
	2018		432,981
	2019		79,614
	2020		79,614
	2021		94,064
Minimum lease payments			1,039,640
Less: amount representing interest at the School's incremental borrowing rate of interest			(59,691)
Present value of net minimum lease payments		\$	979,949

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

NOTE 10 - LONG-TERM OBLIGATIONS

The changes in the School District's long-term obligations during the fiscal year consist of the following:

	Outstanding 6/30/2015	Additions	Reductions	Outstanding 6/30/2016	Amounts Due in One Year
Governmental Activities:					
<i>General Obligation Bonds</i>					
Current Interest - 2013	\$ 14,345,000	\$ 0	\$ (2,145,000)	\$ 12,200,000	\$ 2,235,000
Unamortized Bond Premium	1,306,295	0	(241,162)	1,065,133	0
Serial Bonds, Series 2015, \$8,950,000 @ 3.2%	8,950,000	0	(5,000)	8,945,000	5,000

Compensated absences will be paid from the fund from which the employee is paid which, for the School District, is primarily the general fund and the food service fund (a non-major governmental fund). The healthcare reimbursement arrangement payable will be paid from the general fund. The School District pays obligations related to employee compensation from the fund benefitting from their service (see Note 12). The general obligation and energy conservation bonds will be paid from the bond retirement fund.

See Note 9 for detail on the School District's capital lease obligations.

Series 2013 General Obligation Refunding Bonds On May 8, 2013, the School District issued Series 2013 general obligation refunding bonds to advance refund \$14,600,000 of Series 2005 current interest bonds. The issuance proceeds were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position. The principal balance outstanding of the defeased bonds was \$12,430,000 at June 30, 2016.

The refunding issue is comprised of current interest bonds, par value \$14,585,000. The average interest rate on the current interest bonds is 5.00 percent.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The reacquisition price exceeded the net carrying amount of the old debt by \$1,517,000. This amount is being netted against the new debt and amortized over the remaining life of the refunding debt. This advance refunding was undertaken to reduce total debt service payments over the next 8 years by \$687,000 and resulted in an economic gain of \$643,000.

Interest payments on the current interest bonds are due on June 1 and December 1 each year. The final maturity stated of the issue is December 1, 2020.

The following is a summary of the future debt service requirements to maturity for the Series 2013 general obligation refunding bonds:

Fiscal Year	Series 2013 Current Interest Bonds		
	Principal	Interest	Total
2017	\$ 2,235,000	\$ 479,872	\$ 2,714,872
2018	2,335,000	380,932	2,715,932
2019	2,440,000	277,552	2,717,552
2020	2,540,000	169,736	2,709,736
2021	2,650,000	57,373	2,707,373
	\$ 12,200,000	\$ 1,365,465	\$ 13,565,465

Series 2015 General Obligation Refunding Bonds On April 14, 2015 the School District issued Series 2015 general obligation refunding bonds in the amount of \$8,950,000 to refund \$9,005,000 of the Series 2005 current interest bonds. The issuance proceeds were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net position. The refunded bonds were called on June 1, 2015.

The refunding issue is comprised of serial bonds, par value \$8,950,000. The average interest rate on the current interest bonds is 5.00 percent.

These refunding bonds were issued with a premium of \$426,647, which was recorded as revenue. The issuance resulted in a difference between the cash flows required to service the old debt and the cash flows required to service the new debt of \$1,484,599. The issuance resulted in an economic gain of \$1,347,934.

Interest payments on the current interest bonds are due on June 1 and December 1 each year. The final maturity stated of the issue is December 1, 2023.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The following is a summary of the future debt service requirements to maturity for the Series 2015 general obligation refunding bonds:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017	\$ 5,000	\$ 286,240	\$ 291,240
2018	5,000	286,080	291,080
2019	5,000	285,920	290,920
2020	5,000	285,760	290,760
2021	5,000	285,520	290,520
2022-2023	<u>8,920,000</u>	<u>577,040</u>	<u>9,497,040</u>
	<u>\$ 8,945,000</u>	<u>\$ 2,006,560</u>	<u>\$ 10,951,560</u>

Energy Conservation Bonds On December 14, 2010, the School District issued \$6,728,636 in energy conservation bonds (federally taxable qualified school construction bonds). The proceeds of these bonds were used for building improvements intended to increase the energy efficiency of the School District's buildings. These bonds bear an annual interest rate of 5.43 percent, mature on December 1, 2025 and will be paid from the debt service fund. The School District is required to make mandatory sinking fund deposits (consisting of cash and/or U.S. Treasury obligations) on December 1, in the following years and in the following amounts (in each case equal to the value of any cash deposits, plus the stated principal value at maturity of any U.S. Treasury obligations plus any interest to be paid thereon through and including the maturity date):

December 1 of year	<u>Amount Due</u>	<u>Amount Deposited</u>
2011	\$ 448,576	\$ 448,576
2012	448,575	448,575
2013	448,575	448,575
2014	448,575	448,576
2015	448,575	448,576
2016	448,576	0
2017	448,576	0
2018	448,576	0
2019	448,576	0
2020	448,576	0
2021	448,576	0
2022	448,576	0
2023	448,576	0
2024	448,576	0
2025	<u>448,576</u>	<u>0</u>
	<u>\$ 6,728,636</u>	<u>\$ 2,242,878</u>

The amount deposited is reported as a restricted asset on the basic financial statements.

The School District receives a reimbursement from the United States Treasury equal to 100 percent of the lesser of the interest payments on the energy conservation bonds or the federal tax credits that would have otherwise been available to the holders of the energy conservation bonds. The School District records this reimbursement as federal intergovernmental revenue in the debt service fund.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The following is a summary of future debt service requirements to maturity for the energy conservation bonds:

December 1 of year	Energy Conservation Bond		
	Principal	Interest	Total
2017	\$ 0	\$ 365,365	\$ 365,365
2018	0	365,365	365,365
2019	0	365,365	365,365
2020	0	365,365	365,365
2021	0	365,365	365,365
2022-2026	6,728,636	1,644,142	8,372,778
	\$ 6,728,636	\$ 3,470,967	\$ 10,199,603

Retirement Incentive Program and Health Care Reimbursement Arrangement The School District has offered a retirement incentive plan (RIP) to certified teaching staff. Severance payments for teachers electing to retire under the RIP shall be paid in two equal installments with each installment paid on or about January 15 of the first and second calendar years following the retirement. A liability for severance payments due under the RIP has been recorded on the fund financial statements as a component of “compensated absences payable” and on the government-wide statement of net position as a component of “long-term liabilities.”

In addition to severance payments, employees electing to retire under the RIP are entitled to a health care reimbursement arrangement (HRA) established by the School District for the benefit of the retiring teachers and their spouses. Under the HRA, retiring teachers will receive payments, by year, in varying amounts between \$500 to \$5,300 which will be deposited by the School District into a separate account established for the retired employee and their spouse. The HRA is effective until January 15, 2015 or until the retiree and his or her spouse become deceased. The amounts deposited to a retiree’s account may be carried forward over to subsequent years and shall not be subject to forfeiture, except upon the death of both the retiree and his or her spouse. The remainder of the liability has been recorded on the government-wide statement of net position as a component of “long-term liabilities.” The total estimated liability under the HRA at June 30, 2016 was \$2,036,419 of which \$587,413 is expected to become due within one year. A total of 197 employees have retired under the HRA as of June 30, 2016. The total HRA liability was calculated based upon required payments under the HRA for each applicable employee.

Legal Debt Margin The Ohio Revised Code provides that voted net general obligation debt of the School District shall never exceed 9 percent of the total assessed valuation of the School District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1 percent of the property valuation of the School District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1 percent of the property valuation of the School District. The assessed valuation used in determining the School District’s legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the School District’s legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2016 are a voted debt margin of \$35,282,914 (including available funds of \$6,791,454) and an unvoted debt margin of \$551,516.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

NOTE 11 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

A. Comprehensive

The School District maintains comprehensive insurance coverage with private carriers for liability, real property, building contents and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. In addition, real property contents are 100 percent coinsured. The School District has obtained coverage from commercial insurance carriers. The following is a description of the School District's insurance coverage:

Coverage	Limits of Coverage	Deductible
General Liability:		
Each occurrence	\$ 1,000,000	\$ 0
Aggregate	2,000,000	0
Building and contents	451,423,623	10,000
Fleet:		
Liability	1,000,000	0
Uninsured motorist	1,000,000	0
Comprehensive	Actual Cash Value	250
Collision	Actual Cash Value	500
Umbrella liability	10,000,000	10,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from the prior year.

B. Shared Risk Pool

The School District is a participant in the Stark County Schools Council of Government (the "COG") for the purpose of obtaining benefits at a reduced premium for health care benefits. The School District's insurance program for health care, through the COG, is administered by Mutual Health Services Company. Payments are made to the COG for monthly attachment point, monthly stop-loss premiums, and administrative charges. The fiscal agent of the COG is the Stark County Educational Service Center. The Treasurer of the Stark County Educational Service Center pays Mutual Health Services monthly for the actual amount of claims processed, the stop-loss premium, and the administrative charges.

C. Workers' Compensation Program

The School District has participated in the Ohio Bureau of Workers' Compensation (Bureau) Retrospective Rating Plan since 1989, except for 1993 and 1997. The alternative rating program requires the School District to pay only administrative charges to the Bureau, and in turn, the School District assumes the responsibility of paying all claims incurred during the policy period for up to ten years. After the tenth year, the Bureau will assume any existing claim for its duration. The School District will be charged an actuarial amount for the claims transferred to the Bureau. The School District's stop-loss coverage through the plan is limited to \$300,000 per claim stop-loss coverage with an annual aggregate.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The School District’s workers’ compensation trust internal service fund pays for all claims, claim reserves and administrative costs of the program. The workers’ compensation trust internal service fund generates revenues by charging each fund a percentage rate determined by the Bureau for the payroll during the reporting period. The claims liability is recorded based on an actuarial determination of future claims, review of five years of claim liabilities and claim payment trends including the settlement to the Bureau after the tenth year. Changes in claims activity for the past two fiscal years are as follows:

		Balance at Beginning of Year		Claims		Payments		Balance at End of Year
2015	\$	182,788	\$	454,773	\$	158,148	\$	479,413
2016	\$	479,413	\$	92,145	\$	124,983	\$	446,575

The Ohio Bureau of Workers’ Compensation uses the Micro Insurance Reserving Analysis (MIRA) to estimate the reserves (liability) for future costs. The MIRA reserve (liability) can vary between years as it is based upon numerous factors which estimate the future cost of a particular claim at that point in time.

NOTE 12 - COMPENSATED ABSENCES

Employees earn vacation at rates specified under State of Ohio law and based on credited service. Teachers and some administrators do not earn vacation time. Administrators, clerical, technical, and maintenance and operations employees with one or more years of service are entitled to vacation ranging from 5 to 30 days. Employees with less than one year of service earn one vacation day per month worked, not to exceed 10 days. Unused vacation is not cumulative to the next year.

All employees are entitled to a sick leave credit equal to one and one-quarter days for each month of service (earned on a pro rata basis for less than full-time employees) up to 15 days per year. This sick leave will either be absorbed by time off due to illness or injury or, within certain limitations, be paid to the employee upon retirement. The amount paid to an employee upon retirement is limited to one-quarter of the accumulated sick leave for the first 120 days, one-fifth of sick leave for days between 121 - 285 and an additional 2 days for an employee with greater than 285 days accumulated.

NOTE 13 – DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The net pension liability represents the School District’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District’s obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017*	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

*Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 14 percent. SERS did not allocate any employer contributions to the Health Care Fund for fiscal year 2016.

The School District's contractually required contribution to SERS was \$2,431,254 for fiscal year 2016. Of this amount, \$232,807 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was \$7,573,298 for fiscal year 2016. Of this amount, \$1,258,065 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>STRS</u>	<u>SERS</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability	\$ 145,289,422	\$ 30,651,372	\$ 175,940,794
Proportion of the Net Pension Liability	0.52570477%	0.53716880%	
Pension Expense	\$ 6,443,229	\$ 2,202,550	\$ 8,645,779

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>STRS</u>	<u>SERS</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between expected and actual experience	\$ 6,634,057	\$ 493,073	\$ 7,127,130
Changes in proportion	0	64,558	64,558
School District contributions subsequent to the measurement date	<u>7,573,299</u>	<u>2,431,254</u>	<u>10,004,553</u>
Total Deferred Outflows of Resources	<u>\$ 14,207,356</u>	<u>\$ 2,988,885</u>	<u>\$ 17,196,241</u>
Deferred Inflows of Resources			
Net difference between projected and actual earnings on pension plan investments	\$ 10,654,575	\$ 1,006,592	\$ 11,661,167
Changes in proportion	<u>1,392,769</u>	<u>0</u>	<u>1,392,769</u>
Total Deferred Inflows of Resources	<u>\$ 12,047,344</u>	<u>\$ 1,006,592</u>	<u>\$ 13,053,936</u>

\$10,004,553 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	<u>STRS</u>	<u>SERS</u>	<u>Total</u>
Fiscal Year Ending June 30:			
2017	\$ (2,771,141)	\$ (345,347)	\$ (3,116,488)
2018	(2,771,141)	(345,347)	(3,116,488)
2019	(2,771,141)	(347,677)	(3,118,818)
2020	<u>2,900,136</u>	<u>589,410</u>	<u>3,489,546</u>
	<u>\$ (5,413,287)</u>	<u>\$ (448,961)</u>	<u>\$ (5,862,248)</u>

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22.00 percent
COLA or Ad Hoc COLA	3.00 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
	100.00 %	

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact, the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$ 42,502,439	\$ 30,651,372	\$ 20,671,797

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected Salary Increase	2.75 percent at 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2.00 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year, for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males’ ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS’ investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
	100.00 %	

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS’ fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2015.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent) or one percentage point higher (8.75 percent) than the current rate:

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
School District's proportionate share of the net pension liability	\$ 201,817,966	\$ 145,289,422	\$ 97,486,106

NOTE 14 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2016, SERS did not allocate any employer contributions to the Health Care Fund. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2016, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge.

The School District's contributions for health care (including surcharge) for the fiscal years ended June 30, 2016, 2015, and 2014 were \$283,651, \$421,212 and \$274,728, respectively. For fiscal year 2016, 90 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2015 and 2014.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

B. State Teachers Retirement System

Plan Description – The School District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians’ fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2016, STRS did not allocate any employer contributions to post-employment health care. The School District’s contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$0, \$0, and \$550,760, respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

NOTE 15 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non GAAP Basis) and Actual - general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as restricted, committed or assigned fund balance (GAAP basis).
4. Some funds are included in the general fund (GAAP), but have separate legally adopted budgets.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund are as follows:

Net Change in Fund Balance	
GAAP Basis	\$ 9,925,757
Net Adjustment for Revenue Accruals	(13,688)
Net Adjustment for Expenditure Accruals	(1,800,898)
Funds Budgeted Elsewhere **	6,819
Adjustment for Encumbrances	<u>(5,375,006)</u>
Budget Basis	<u>\$ 2,742,984</u>

** As part of Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the special trust, rotary, adult education, recreation and public school support funds.

NOTE 16 - SET-ASIDES

The School District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year. The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

	Capital Improvements
Set-aside Restricted Balance as of June 30, 2015	\$ 0
Current Year Set-aside Requirement	1,547,396
Current Year Offsets	(1,148,545)
Prior Year Offset from Bond Proceeds	<u>(398,851)</u>
Totals	<u>\$ 0</u>
Balance Carried Forward to Fiscal Year 2017	<u>\$ 0</u>
Set-aside Restricted Balance as of June 30, 2016	<u>\$ 0</u>

During fiscal year 2001, the School District issued \$46,705,413 in capital related school improvement bonds. During fiscal year 2011, the School District issued \$6,728,636 in capital related energy conservation bonds. These proceeds may be used to reduce the capital improvements set-aside to zero for future years. The School District is responsible for tracking the amount of the bond proceeds that may be used as an offset in future periods, which was \$39,606,626 at June 30, 2016.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

NOTE 17 - FISCAL CAUTION

The School District was placed in fiscal caution on March 22, 2007 by the Department of Education (ODE). On May 21, 2007, the School District and ODE outlined a plan to address the fiscal caution. As a result, the School District made reductions in personnel and expenditures and closed several buildings.

NOTE 18 – CONTINGENCIES AND COMMITMENTS

A. Grants

The School District receives significant financial assistance from numerous Federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds; however, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the School District at June 30, 2016.

B. Litigation

The School District is a party to legal proceedings seeking damages or injunctive relief generally incidental to its operations and spending projects. The School District management is of the opinion that disposition of the claim and legal proceedings will not have a material effect, if any, on the financial condition of the School District.

C. School District Funding

School district Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional school districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the school districts, which can extend past the fiscal year end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015 or June 30, 2016 Foundation funding for the School District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the School District.

Canton City School District
Stark County, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2016

D. Encumbrances

The School District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At fiscal year-end, the School District's commitments for encumbrances in the governmental funds were as follows:

Fund	Amount
General	\$ 4,324,203
Debt Service	56,218
Nonmajor Governmental	392,066
	\$ 4,772,487

NOTE 19 - FUND BALANCE

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

	General	Debt Service Fund	Other Governmental Funds	Total
Nonspendable for:				
Materials and Supplies Inventory	\$ 105,463	\$ 0	\$ 18,192	\$ 123,655
Restricted for:				
Debt Service	0	6,791,454	0	6,791,454
Capital Outlay	0	0	6,131,063	6,131,063
Facilities Maintenance	0	0	5,091,835	5,091,835
Food Service Operations	0	0	5,264,510	5,264,510
Other Purposes	0	0	1,595,060	1,595,060
Total Restricted	0	6,791,454	18,082,468	24,873,922
Assigned for:				
Public School Support	210,129	0	0	210,129
Other Purposes	875,334	0	0	875,334
Encumbrances:				
Instruction	1,346,660	0	0	1,346,660
Total Assigned	2,432,123	0	0	2,432,123
Unassigned	0	0	(2,139,145)	(2,139,145)
<i>Total Fund Balance (Deficit)</i>	<i>\$ 2,537,586</i>	<i>\$ 6,791,454</i>	<i>\$ 15,961,515</i>	<i>\$ 25,290,555</i>

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Canton City School District, Stark County, Ohio (the "School District") as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated January 31, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2016-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The School District's Response to Findings

The School District's response to the findings identified in our audit is described in the accompanying corrective action plan. The School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Canton, OH 44707

Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance Required by the Uniform Guidance

Report on Compliance for Each Major Federal Program

We have audited the Canton City School District's, Stark County, Ohio (the "School District") compliance with the types of compliance requirements described in the OMB *Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2016. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2016-002. Our opinion on each major federal program is not modified with respect to these matters.

The School District's response to the noncompliance finding identified in our audit is described in the accompanying corrective action plan. The School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Canton City School District
Independent Auditor's Report on Compliance for Each Major Federal
Program and Report on Internal Control Over Compliance and
Report on Schedule of Expenditures of Federal Awards
Required by the Uniform Guidance
Page 3 of 3

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However we did identify a deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2016-002 that we consider to be a significant deficiency.

The School District's response to the internal control over compliance finding identified in our audit is described in the accompanying corrective action plan. The School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The accompanying notes are an integral part of this schedule.

**Canton City School District
Stark County, Ohio**

**Notes to the Schedule of Expenditures of Federal Awards
2 CFR 200.510(b)(6)
For the Fiscal Year Ended June 30, 2016**

Note A – Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Canton City School District (the School District) under programs of the federal government for the year ended June 30, 2016. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the School District.

Note B – Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The School District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note C - Child Nutrition Cluster

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the Government assumes it expends federal monies first.

Note D – Food Donation Program

The School District reports commodities consumed on the Schedule at fair value. The School District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

Note E - Federal Direct Student Loan Program

The School District participates in the William D. Ford Federal Direct Loan Program. The School District originates the loans which are then funded through the U.S. Department of Education.

Federal Subsidized Loans	\$269,380
Federal Unsubsidized Loans	432,349
Federal Plus Loans	<u>2,824</u>
Total Federal Direct Student Loans	<u>\$704,553</u>

**Canton City School District
Stark County, Ohio**

**Notes to the Schedule of Expenditures of Federal Awards (Continued)
2 CFR 200.510(b)(6)
For the Fiscal Year Ended June 30, 2016**

Note F – Transfers between Program Years

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The District transferred the following amounts from 2016 to 2017 programs:

<u>Program Title</u>	<u>CFDA Number</u>	<u>Amt. Transferred</u>
IDEA-B Special Education	84.027	\$ 113,027

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

Finding Number: 2016-001

Significant Deficiency – Ohio Facilities Construction Commission Agreed-Upon Procedure Report

Criteria: Pursuant to *Government Auditing Standards* paragraph 4.05, “auditors should evaluate whether the audited entity has taken appropriate corrective action to address findings and recommendations from previous engagements that could have a material effect on the financial statements or other financial data significant to the audit objectives. When planning the audit, auditors should ask management of the audited entity to identify previous audits, attestation engagements, and other studies that directly relate to the objectives of the audit, including whether related recommendations have been implemented. Auditors should use this information in assessing risk and determining the nature, timing, and extent of current audit work, including determining the extent to which testing the implementation of the corrective actions is applicable to the current audit objectives.”

Condition: On January 21, 2009, an Independent Public Accountant issued an Agreed-Upon Procedures (AUP) report for the purpose of assisting the Ohio Facilities Construction Commission (OFCC) in gaining assurance the School District was in compliance with the laws and regulations related to the OFCC Project. The AUP report contained eight findings that required corrective action. Based on discussions with School District management and review of the findings and accounting records, no corrective action has been taken by the School District.

Cause: The report was acquired by the audit staff directly from OFCC. The School District was unaware of the existence of the AUP report and the required corrective action until fiscal year 2015.

Effect: According to OFCC officials, the OFCC project will not be closed until sufficient corrective action has occurred. Corrective action could result in immaterial adjustments to the project fund cash balances.

Recommendation: We recommend the School District review the AUP report and take sufficient and appropriate corrective action.

Management’s Response: See Corrective Action Plan

Stark County, Ohio
Schedule of Findings and Questioned Costs (Continued)
2 CFR Section 200.515
June 30, 2016

3. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS
--

Finding Number: 2016-002

Federal Programs: Student Financial Aid Cluster- Federal Direct Loan Program

CFDA Number: 84.268

Federal Award Number/Year: 2016

Federal Agency: U.S Department of Education

Significant Deficiency/ Non Compliance - Eligibility

Criteria: Federal regulation 34 CFR 685.200(a)(v)(2)(i) states that a direct subsidized loan borrow must:

1. Demonstrate financial need in accordance with title IV, part F of the Act; and
2. In the case of a first-time borrower as defined in paragraph (f)(1)(i) of this section, not have met or exceeded the limitations on the receipt of direct subsidized loans described in paragraph (f) of this section.

Condition: During testing it was noted that the District does not have proper controls in place to ensure all estimated financial assistance was properly identified for the calculation of financial need. However, our testing did not identify any over-awarding of financial aid.

Cause: The District does not have procedures in place to ensure all financial assistance is properly identified and accounted for in the calculation of financial need to determine financial aid award packaging.

Effect: The result of this issue increases the risk that subsidized loans could be awarded based upon inaccurate financial need calculations.

Recommendation: We recommend the District establish procedures to ensure the calculation of estimated financial assistance and financial need are performed in accordance with Title IV guidelines. We also recommend the staff assigned to administer Title IV funds attend regular trainings to remain current with all regulations.

School District's Response: See Corrective Action Plan.

June 30, 2016

Finding Number	Planned Corrective Action	Anticipated Completion Date	Responsible Contact Person
2016-001	The School District was unaware of the existence of the Agreed-Upon Procedure report until it was brought to our attention during the audit for the year ended June 30, 2015. OFCC notified the School District in September 2016 of their plan to move forward and engage a CPA firm to perform the project close-out reconciliation. The CPA firm selected is the same firm that issued the Agreed-Upon Procedure report. OFCC further disclosed that any lingering issues would be resolved through the project close-out reconciliation. The CPA firm will perform a financial reconciliation between the School District's financial records and the records from the construction manager. All requested financial reports have been provided by the School District to the CPA firm. The CPA firm is in the process of collecting the remaining records from the construction manager. The project close-out reconciliation will be performed at no cost to the School District or project funds. At this time, the School District deems no action to be necessary until further instruction is provided by OFCC as part of the project close-out.	6/30/2017	Jeff Gruber Jeremy Norden
2016-002	The Financial Aid Coordinators incorporated students' expected financial contribution/financial need in their financial aid needs analysis form that will be used to determine financial aid for each student. They have implemented this updated form immediately.	1/31/17	Dave Novelli
