

CITY OF KETTERING, OHIO

COMPREHENSIVE ANNUAL FINANCIAL REPORT

YEAR ENDED DECEMBER 31, 2016

Prepared by:
Department of Finance
Nancy H. Gregory, CPA, Director

Dave Yost • Auditor of State

City Council
City of Kettering
3600 Shroyer Road
Kettering, Ohio 45429

We have reviewed the *Independent Auditor's Report* of the City of Kettering, Montgomery County, prepared by Plattenburg & Associates, Inc., for the audit period January 1, 2016 through December 31, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Kettering is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Dave Yost".

INTRODUCTORY SECTION

CITY OF KETTERING

March 15, 2017

Honorable Mayor, Members of City Council
and Citizens of Kettering, Ohio:

The Comprehensive Annual Financial Report for the City of Kettering for the year ended December 31, 2016, is hereby submitted. Responsibility for the accuracy of the data and the completeness and fairness of the presentation including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The City provides various services including police and fire protection, parks, recreation and cultural arts, street maintenance, planning, zoning and other general governmental services. The City does not maintain utility operations. In addition to general governmental activities, the City oversees the Kettering Volunteer Firefighters Pension Plan, and the activities of the Plan are included in the reporting entity. However, Montgomery County, Greene County, Beavercreek, Centerville, Kettering, Sugarcreek and West Carrollton School Districts, Miami Conservancy District, Miami Valley Regional Transit Authority, Ohio Police and Fire Pension Fund and the Ohio Public Employees Retirement System have not met the established criteria for inclusion in the reporting entity and are excluded from this report. In addition, the City is one of twenty local cities involved in a public entity risk pool, Miami Valley Risk Management Association, Inc. This separate entity does not meet the established criteria for inclusion in the reporting entity and, accordingly is not included in the City's financial report.

HISTORY AND BACKGROUND

Kettering was established as a village in 1952. Three years later, it achieved City status, adopted a Home Rule Charter and approved the Council/Manager form of government. The City of Kettering was named for its most outstanding citizen, Charles F. Kettering, a well-known philanthropist and inventor.

Kettering invented the automotive self-starter, and the "Bug," the world's first robot plane.

The City operates under a Council/Manager form of government with a Mayor and six City Council members elected on a non-partisan basis for a term of four years. Kettering is known as a leader in many areas of municipal government, including financial reporting, traffic system management, police services, parks, recreation and cultural arts programs, intergovernmental cooperation and successfully structured volunteer programs. Kettering citizens are known for their community spirit and involvement. In fact, Kettering is commonly known as the "City of Volunteers."

The quality of living in any city can be measured best by the satisfaction of the residents with the services they receive. In Kettering, people like what they find. A recent survey showed that 97% of residents are satisfied with Kettering as a place to live.

ECONOMIC CONDITION AND OUTLOOK

Our local economy was hit hard by declining employment as a result of the recession, but this downward trend has reversed in the past few years. This has a direct impact on our largest General Fund revenue, income tax. Fortunately the vote of our residents to increase the income tax rate effective January 1, 2007 increased our General Fund significantly during 2007 and 2008. That vote put the City in a better position to weather the financial challenges of the uncertain economy. In addition, the City implemented mandatory filing of municipal income tax for all residents ages eighteen and older. Mandatory filing is effective for tax years beginning January 1, 2012. This move has resulted in the establishment of a more accurate tax base allowing for more efficient follow up and improved delinquency collections.

Although the City was negatively impacted by a decline in employment in the area during the recession, the overall effect was diminished due to the diversity of the employment base. Kettering's business base ranges from some major employers headquartered in Kettering to many midsize companies specializing in technology or professional services down to smaller family owned businesses.

Kettering's largest employers include Kettering Medical Center (KMC), Synchrony Financial, and Reynolds & Reynolds. KMC employs 3,570 and completed construction of a new \$49 million state of the art comprehensive cancer care center on vacant land across the street from the main campus. The new center includes a pedestrian walkway that spans Southern Boulevard connecting the cancer care center to the main hospital. After completion of \$1.5 million of improvements to their facility at the Kettering Business Park (KBP), Synchrony Financial increased employment from 1,450 to 2,000. Reynolds & Reynolds, a fortune 1000 company based in Dayton since 1866, increased employment from 1,150 to 1,350 at its Miami Valley Research Park campus. Other major employers in the city include Kettering City Schools, Limited Brands Inc., a catalogue order center for Victoria's Secret, and a number of engineering firms and computer hardware and software related businesses.

In the areas of new employment, expansion, and redevelopment, there is much to report. Town & Country Shopping Center completed a \$7 million revitalization that included a modern facade, improvements to parking and landscaping, and major building renovations. The center added a new primary anchor tenant TJ MAXX and junior anchors PetCo and Chick-fil-A. Alternate Solutions Health Network purchased a 200,000 sq ft building at KBP and announced a major expansion to bring more than 350 new jobs to Kettering. Xerion Advanced Battery Corporation had its grand opening in 2016 at the Miami Valley Research Park. The high-tech company moved their lab and employees from Illinois and is already planning for an expansion of space and jobs in Kettering to accommodate production. The Carlyle House Assisted Living Community completed expansion of their facility with a new, state of the art care wing specializing in advanced care for residents with memory impairment. NanoSpense, a design and manufacturing company dedicated to improving durability, reliability and functionality of composites using nanotechnology will double their facility size at the Kettering Business Park. Finally, Tenneco, a leading designer, manufacturer and distributor of clean air and ride performance automotive products, announced plans to significantly expand their Kettering plant and double their workforce bringing more than 400 new jobs to the facility.

The City continued implementing a significant capital investment in the construction of four new fire stations. This is part of a strategic planning process that began in 2006 to develop a comprehensive modernization strategy for all aspects of the Fire

Department. A key component of the strategy was addressing the physical facilities with an average age of 42 years. The existing stations were undersized for modern apparatus, void of mixed gender facilities for 24/7 operations, and did not meet ADA requirements. The first two new stations were completed and placed in full operation during 2016. The third station should be operational before the end of 2017. Construction will begin on the fourth and final station during 2017 with all stations fully functioning by 2018. As part of this significant project, the City issued General Obligation debt for \$15.5 million, about half the project cost. In conjunction with the issuance of debt, the City's bond rating was upgraded by Moody's Investors Service from Aa2 to Aa1. Moody's cited the City's strong financial management practices, healthy General Fund reserves and additional liquidity in the Capital Projects Fund, and moderate debt burden as the primary reasons for the upgrade.

Kettering participates in ED/GE, a revenue sharing program that includes about thirty communities in Montgomery County. Money from the program is distributed to the communities for economic development projects after an application for funds is filed and a board of local officials for the communities reviews and approves the projects. The City has benefited significantly in the past from this program and will continue to apply for future funds as eligible opportunities become available. The ED/GE program was to expire after 2010, but a new agreement has extended the program for an additional nine years.

A significant area of emphasis for this organization is long term financial planning. This includes preparation of a five year capital improvement program and a long range financial forecast. Additional practices are discussed under Long Term Financial Policies in the City's 2017 Budget message. These policies include the development each year of a balanced budget where the appropriations for any given year shall not exceed the sum of available cash balances, less reserves, plus revenues to be received during the year. In addition, current year operating expenditures and debt service obligations shall be covered using current year operating revenues. In the area of debt, the City shall not issue long-term debt to pay for current operations. The City's focus on economic development combined with the existing variety of businesses located within Kettering are significant factors affecting the future economic strength of this community. Promoting Kettering as a good place to

do business for new businesses, as well as existing businesses, will continue to be one of our highest priorities.

For a more in-depth analysis of the City's current economic condition, please see the Management Discussion and Analysis (MD&A) portion of the report starting on page 5 of the Financial Section.

ACCOUNTING SYSTEM AND BUDGETARY CONTROL

Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of controls should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management.

Budgetary Controls. The City maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by City Council. Activities of the General Fund, Special Revenue Funds, the Debt Service Fund and the Capital Projects Fund are included in the annual appropriated budget. For more detailed budget information, please see the Notes to the Required Supplementary Information on page 55 of this report.

OTHER INFORMATION

Independent Audit. The basic financial statements of the City of Kettering were audited by Plattenburg & Associates, Inc. Certified Public Accountants. See page 2 of the Financial Section of this report for their unmodified opinion.

Awards. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Kettering, Ohio for its comprehensive annual financial report for the fiscal year ended December 31, 2015. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government

financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The City of Kettering has received a Certificate of Achievement for the last 34 consecutive years (fiscal years ended 1982-2015). We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA. In addition, the City also received the GFOA's Award for Distinguished Budget Presentation for its annual appropriated budget for the fiscal year beginning January 1, 2016. In order to receive this award, the City must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan and as a communications device.

Acknowledgements. A note of sincere appreciation is extended to the many conscientious people who have contributed so much of their time and effort to the preparation of this report. The Finance Department staff, in particular, are to be commended for their commitment to professional excellence as exemplified by the contents of this report. Finally, contributions to the financial condition of the City of Kettering by the Mayor, members of City Council, Assistant City Manager and Department Directors cannot be overemphasized. Their guidance and support represent invaluable factors necessary for the City to continue to manage the financial affairs and reporting requirements of municipal government within the Kettering Community.

Respectfully submitted,

Mark Schwieterman

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor, City Council,
and City Manager
City of Kettering, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Kettering, Ohio (the City) as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and schedules of pension liabilities, pension contributions, changes in pension liability and related ratios, employer contributions, and investment returns listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules and the schedule of bonds and notes and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules and the schedule of bonds and notes are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and the schedule of bonds and notes are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 15, 2017, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited)

Our discussion and analysis of the City of Kettering's financial performance provides an overview of the City's financial activities for the fiscal year ended December 31, 2016.

FINANCIAL HIGHLIGHTS

1. Net position decreased \$175,600 or .1% while unrestricted net position decreased \$5,024,800 or 8.6%.
2. Total revenues increased 8.4% while total expenses increased 7.9%.
3. Operating grants and contributions decreased 21.7% and capital grants and contributions increased 201.6%.
4. Income taxes increased \$3,186,300 or 7.1%.
5. Investment earnings increased \$387,100 or 59.4%.
6. Total costs of services increased by 8.1%, while net costs of services increased by 5.5%.
7. The General Fund reported an increase in fund balance of \$2,020,500.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 12 and 13) provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements start on page 14. For governmental funds, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

Reporting the City as a Whole*The Statement of Net Position and the Statement of Activities*

Our analysis of the City as a whole begins on page 6. One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that help answer this question. These statements include all assets, deferred outflows, liabilities and deferred inflows using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net position and changes in it. You can think of the City's net position — the difference between assets, deferred outflows and liabilities, deferred inflows — as one way to measure the City's financial health. Over time, increases or decreases in the City's net position is one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the City's property tax base, the condition of the City's roads, the condition of the City's neighborhoods, and the reputation of the public schools to assess the overall health of the City.

Reporting the City's Most Significant Funds

Fund Financial Statements

Our analysis of the City's major funds begins on page 9. The fund financial statements begin on page 14 and provide detailed information about the most significant funds — not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, the Finance Director establishes many other funds to help control and manage money for particular purposes or to show that the City is meeting legal responsibilities for using certain taxes, grants, and other money (like grants received from the U.S. Department of Housing and Urban Development). The City's two kinds of funds — governmental and proprietary — use different accounting approaches.

- Governmental funds — Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation at the bottom of the fund financial statements.
- Proprietary funds — The City uses internal service funds (a component of proprietary funds) to report activities that provide supplies and services for the City's other programs and activities. An example of an internal service fund would be the City's Administrative Operations Fund, which accounts for activities of the Vehicle Maintenance Center, the Print Shop, and others. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities.

The City as Trustee

Reporting the City's Fiduciary Responsibilities

The City is the trustee, or fiduciary, for its volunteer firefighters pension plan. It is also responsible for other assets that — because of a trust arrangement — can be used only for the trust beneficiaries. All of the City's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position on page 21. We exclude these activities from the City's other financial statements because the City cannot use these assets to finance its operations. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

THE CITY AS A WHOLE

The largest impact on the City's financial statement in 2016 had absolutely no impact on the City's financial condition; GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27". GASB 68 required the City to recognize a pension liability of over \$68 million. For reasons discussed below, this liability serves only to distort the true financial position of the City. Users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension. The resulting net position would be \$256,244,518, which is \$47 million more than the net position reported.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings

approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the City's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

For 2016 the City produced a .1% decrease in total net position. Revenues generated were \$80.4 million and expenses from all programs were \$80.6 million resulting in a deficit for the year of \$175,600. The unrestricted net position — the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements — decreased \$5,024,800.

Explanations for the larger fluctuations between years are as follows:

- Operating grants and contributions were lower because of decreased Community Development activities.
- Capital grants and contributions were much higher last year because grant funded roadway projects.
- Income taxes were higher due to an improved economy.
- Investment earnings increased due to higher interest rates and the effects of portfolio fair market value changes.

The following two tables present condensed information on Net Position and Changes in Net Position for the year.

NET POSITION

	2016	2015
Current and other assets	\$129,337,358	\$136,305,207
Capital assets	177,330,595	168,256,227
Total assets	<u>306,667,953</u>	<u>304,561,434</u>
Deferred outflows of resources	22,440,574	8,423,123
Long-term debt outstanding	(31,231,773)	(32,511,505)
Net pension liability	(68,767,095)	(52,082,204)
Other liabilities	(8,346,452)	(7,964,501)
Total liabilities	<u>(108,345,320)</u>	<u>(92,558,210)</u>
Deferred inflows of resources	(11,619,611)	(11,107,157)
Net position:		
Net investment in capital assets	150,978,928	145,786,739
Restricted	4,629,490	4,972,499
Unrestricted	53,535,178	58,559,952
Total net position	<u>\$209,143,596</u>	<u>\$209,319,190</u>

CHANGES IN NET POSITION

	2016	2015
Revenues		
Program revenues:		
Charges for services	\$12,444,497	\$11,843,992
Operating grants and contributions	1,712,929	2,188,592
Capital grants and contributions	3,971,051	1,316,827
General revenues:		
Income taxes	47,782,561	44,596,261
Property taxes	6,419,915	6,321,159
Other taxes	3,771,345	3,897,584
Investment earnings	1,038,317	651,249
Other general revenue	3,251,941	3,374,367
Total revenues	<u>80,392,556</u>	<u>74,190,031</u>
Program expenses		
General government	15,634,860	15,594,623
Police	17,158,438	15,855,597
Fire	14,562,573	12,238,987
Public works	14,974,876	14,824,412
Leisure services	17,396,893	15,228,586
Interest on long-term debt	840,510	928,772
Total expenses	<u>80,568,150</u>	<u>74,670,977</u>
Increase (decrease) in net position	(175,594)	(480,946)
Net position beginning	209,319,190	209,800,136
Net position ending	<u>\$209,143,596</u>	<u>\$209,319,190</u>

The following table presents the cost of each of the City's four largest programs – police, fire, public works and leisure services – as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the City's taxpayers by each of these functions.

GOVERNMENTAL ACTIVITIES

	Total Cost of Services		Net Cost of Services	
	2016	2015	2016	2015
Police	\$17,158,438	\$15,855,597	\$17,124,082	\$15,802,411
Fire	14,562,573	12,238,987	12,941,202	10,600,358
Public works	14,974,876	14,824,412	11,009,852	13,511,013
Leisure services	17,396,893	15,228,586	8,565,964	6,958,597
All others	15,634,860	15,594,623	11,958,063	11,520,415
	<u>\$79,727,640</u>	<u>\$73,742,205</u>	<u>\$61,599,163</u>	<u>\$58,392,794</u>

Total costs of services for 2016 increased by \$5,985,400 while net costs of services increased by \$3,206,400. Total costs increased due to fire department overtime, 6 new firefighter positions added during the year and increased performance costs at the Frazee Pavilion. Net costs of services increased by a lesser amount because of increased grant revenue for roadway projects.

The capital asset activity for the year continued at a higher than normal rate. Capital asset additions totaled \$19.7 million compared to \$19.4 million in 2015. 2016's larger additions included over \$6.8 million in new fire stations, 8.8 million in street improvements and \$1.2 million in parks improvements. Total net capital assets for 2016 were \$177,330,595. Of this total, \$13,227,812 was not being depreciated and the capital assets being depreciated totaled \$308,043,249 with accumulated depreciation of \$143,940,466.

At December 31, 2016, the City had various debt issues outstanding, which included \$24,940,000 of general obligation bonds and \$1,073,888 of promissory notes. As of December 31, 2016, the City's net general obligation bonded debt of \$24,252,704 was well below the legal limit of \$111,308,207 and debt per capita equaled \$431.83.

For more detail on capital asset and long-term debt activity, refer to note 7 and note 12 respectively in the Notes to the Basic Financial Statements.

THE CITY'S FUNDS

As the City completed the year, its governmental funds (as presented in the balance sheets on pages 14 and 15) reported a combined fund balance of \$96.8 million, which is 9.3% lower than last year's total of \$106.7 million.

In 2013 the City received a one-time estate tax distribution of over \$42 million dollars. This estate tax distribution consisted of 2 large estates, one being the largest estate ever settled in Montgomery County Ohio. In the past, The City has relied on revenues derived from Ohio's estate tax to pay for capital improvements in the city. The Ohio General Assembly abolished the estate tax effective in 2013. In prior years, on average, the City received \$3,000,000 per year that was placed in the Capital Projects Fund. Consistent with established policy and past practice of using estate tax revenues to fund capital projects and in response to the abolishment of the estate tax, City Council passed legislation in 2013 to commit the \$40 million to the Capital Projects Fund. The legislation states that the funds are to be expended for future capital improvement projects at a rate of \$3,000,000 per year until the \$40 million is exhausted.

The City's General Fund experienced a \$3,410,266, or 6.1% overall increase in revenues for 2016. At the same time expenditures increased by \$744,400 or 1.8%, and transfers out decreased by \$2,602,300 or 15.2%. The City's General Fund balance increased in 2016 reversing the decline in 2015. The increase in revenues can be attributed primarily to an improving economy and as a result, increased income tax receipts. Transfers out decreased to the Capital Projects Fund due to increased grant funding. Total revenues for the General Fund were \$59.1 million while

total expenditures were \$42.6 million. Transfers to other funds totaled \$14.6 million resulting in the \$2.0 million, or 4.6% increase to the General Fund balance.

Revenues in the Capital Projects fund increased by \$2.1 million or 109%. This increase was due to increased grant revenue for roadway projects. The roadway projects likewise are responsible for the \$2.2 million or 13% increase in capital project expenditures. There were no other material changes to the major funds in 2016.

There was a significant variance between General fund actual expenditures and final budgeted expenditures for "Transfers to other funds". Because of lower than expected expenditures in the Capital Projects Fund, the required transfers were reduced. Capital Project Fund expenditures were lower due to the City planning many new capital projects, which, in hindsight, proved to be an overly optimistic number to accomplish in one year.

As mentioned above, 2016 produced an increase to the General Fund balance. This increase can be attributed primarily to decreased transfers to other funds. The City was fortunate this year to have increased income tax revenues. The improving economy should help to increase future income tax revenues as well as improve property tax valuations in the long run. The City is still dealing with the State's elimination of tangible property tax, the State reducing the local share of sales tax distributions, and finally the State's total elimination of the estate tax in 2013.

CITY OF KETTERING

STATEMENT OF NET POSITION
DECEMBER 31, 2016

Amounts reported for governmental activities in the Statement of Net Position (page 12) are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	176,315,832
Other noncurrent assets are not available to pay for current-period expenditures and therefore are deferred in the funds:	
Income taxes receivable	6,583,699
Grants and other taxes receivable	2,212,005
Internal service funds are used by management to charge the costs of certain activities. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position.	3,071,695
The following noncurrent liabilities are not due and payable in the current period and therefore are not reported in the funds:	
Bonds and notes payable	(26,410,967)
Pensions	(44,963,284)
Vacation and sick leave benefits	(4,381,583)
Accrued interest on bonds payable	(73,030)
Net Position of Governmental Activities	<u>\$209,143,596</u>

(221,181)	368,915	(31,921)	(11,456,453)	(131,099)	(9,950,164)
<u>1,355,009</u>	<u>599,912</u>	<u>1,116,296</u>	<u>52,743,725</u>	<u>3,050,186</u>	<u>106,739,393</u>
<u>\$1,133,828</u>	<u>\$968,827</u>	<u>\$1,084,375</u>	<u>\$41,287,272</u>	<u>\$2,919,087</u>	<u>\$96,789,229</u>
					Net change in Fund Balance - Governmental Funds (\$9,950,164)
Amounts reported for governmental activities in the Statement of Activities (page 13) are different because:					
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets.				Capital outlays	19,472,781
				Depreciation expense	(9,861,402)
In the Statement of Activities, only the gain on the sale of city assets is reported, while in the governmental funds, the proceeds from the sale increase financial resources. The change in net position differ from the change in fund balance by the book value of the asset sold.					(499,093)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.					
				Income taxes receivable	906,549
				Grants receivable	165,344
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces noncurrent liabilities in the Statement of Net Position.					1,547,660
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.					
				Vacation and sick leave benefits	(320,829)
				Interest payable	33,870
				Pensions	(2,920,490)
Internal service funds are used by management to charge the costs of certain activities, to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities. (See page 19)					1,250,180
Change in Net Position on the Statement of Activities					<u>(\$175,594)</u>

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2016**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Kettering, Ohio, (the “City”) is a home rule municipal corporation under the laws of the State of Ohio and operates under its own Charter. The current Charter, which provides for a Council/Manager form of government, was adopted in 1955 and has subsequently been amended.

The City provides various services including police and fire protection, parks, recreation, street maintenance, planning, zoning and other general government services. The City does not maintain any utility or other operations that would require the establishment of enterprise funds.

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) governmental organizations for which the primary government is not financially accountable, but for which the nature and significance of their financial relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, component units can be governmental organizations for which the primary government is not financially accountable, but for which the nature and significance of their financial relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. No separate government units meet the criteria for inclusion as a component unit.

B. Basis of Presentation

Government-Wide Statements: The statement of net position and the statement of activities display information about the primary government, except for its fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange transactions. The City has no business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City’s governmental activities. Direct expenses are those that are specifically associated with a program or a function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the City’s funds, including fiduciary. Separate statements for each fund category – governmental, proprietary and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The City reports the following major governmental funds:

General Fund – This fund is the general operating fund of the City. It should be used to account for and report all financial resources not accounted for and reported in another fund.

Street Maintenance Fund – This fund accounts for the portion of gasoline tax and motor vehicle license fees restricted, committed, or assigned for maintenance of streets.

Parks, Recreation & Cultural Arts Fund – This fund accounts for money restricted, committed, or assigned for the Parks, Recreation & Cultural Arts department programs and activities.

Fraze Pavilion Fund – This fund accounts for moneys restricted, committed, or assigned for the Fraze Pavilion amphitheater operations.

Community Development Fund - This fund accounts for grants received from the Department of Housing and Urban Development (HUD). Grants are restricted for various purposes designated by HUD.

Emergency Medical Fund – This fund accounts for revenues received for emergency medical services. The revenues are committed or assigned for expenditure on fire equipment or structures.

Debt Service Fund – This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

Capital Projects Fund – This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets (other than those financed by proprietary funds).

Additionally, the City reports the following fund types:

Internal Service Funds – The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governments on a cost-reimbursement basis. These goods and services include computer services, vehicle maintenance, office supplies, postage, printing services, building maintenance and health insurance. The City has no unbilled service receivables at year end.

Pension Trust Fund – The fund reports a trust arrangement under which assets are accumulated in order to pay retirement benefits to the City’s volunteer firefighters.

Private Purpose Trust Fund – This fund reports a trust arrangement under which principal and income are used for the education of dependents of deceased police officers.

Agency Funds – These funds account for assets held by the City as an agent for: 1) various local governments collected by the municipal court, 2) payroll withholdings and 3) unclaimed moneys and other miscellaneous activities.

C. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Government-wide, proprietary and fiduciary fund financial statements measure and report all assets (both financial and capital), liabilities, revenues, expenses, gains and losses using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds do not involve the measurement of results of operations and therefore have no measurement focus.

All governmental funds are accounted for using a current financial resources measurement focus and are reported on a modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which, for the City’s purposes, is considered to be 30 days after year end. Revenues considered susceptible to accrual are community development block grants, delinquent property taxes, income taxes, and interest on investments. Property taxes levied before year-end are not recognized as revenue until the next calendar year. The fiscal period for which property taxes are levied at year-end in the State of Ohio is the succeeding calendar year.

Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for interest on unmatured general long-term debt, and on special assessment indebtedness collateralized by special assessment levies, which are recognized when due. Inventory and prepaid expenditures are recorded in the governmental fund types and charged as expenditures when used. A portion of the fund balance is classified as nonspendable in governmental funds for the amount of inventory and prepaid expenditures. When both restricted and unrestricted resources are available for use, it is the government’s policy to use restricted resources first, then unrestricted resources as they are needed. When an expenditure is incurred for purposes for which amounts in any unrestricted fund balance classification could be used it is the government’s policy to use assigned resources first, committed resources second, and then unassigned amounts as they are needed.

D. Pooled Cash and Investments and Investment with Fiscal Agent

All investments are stated at fair value, which are based on quoted market prices.

E. Inventory

Inventory is valued at cost (specific identification method in the internal service funds and FIFO (first-in, first-out) method in the special revenue funds.) Inventories are recorded as expenses/expenditures when used.

F. Capital Assets

Capital assets include land, improvements to land, buildings, building improvements, machinery, equipment, infrastructure and all other assets that are used in operations and that have initial useful lives expending beyond a single reporting period. Infrastructure is defined as long-lived capital assets that normally are stationary in nature and normally can be preserved for a significantly greater number of years than most capital assets. Examples of infrastructure include roads, bridges and drainage systems.

All capital assets are valued at historical cost, or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair market value at the time received.

When capital assets are purchased, they are capitalized and depreciated in the government-wide statements and the proprietary fund statements. The City capitalizes all assets with a cost of \$10,000 or greater (\$5,000 or greater for federal funded assets) and a useful life of at least two years. The City has capitalized all infrastructure acquired after January 1, 1980. Capital assets are recorded as expenditures of the current period in the government fund financial statements.

Depreciation is calculated using the straight-line method over the estimated useful lives of the assets. Estimated useful lives of the various classes of depreciable capital assets are as follows:

Machinery and Equipment	3-20 years
Buildings and Improvements	15-30 years
Infrastructure	20-40 years

G. Interfund Transactions and Transfers

During the course of normal operations, the City has numerous transactions among funds, most of which are in the form of transfers used to move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The accompanying financial statements generally reflect such transactions as transfers, with the exception of the internal service funds which are used to account for various supplies and services which are then charged back to the appropriate fund on an “as used” basis. The internal service funds record such charges as operating revenues; all other City funds record payments to the internal service funds as operating expenditures.

H. Fund Balance Classifications

Fund balance is reported as restricted when constraints placed on the use of resources are either: a. externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or b. imposed by law through constitutional provisions or enabling legislation.

Fund balance is reported as committed when the City Council enacts legislation requiring specific revenues to be used for a specific purpose. The City Council can modify or rescind that legislation at any time through additional legislation.

Fund balance is reported as assigned when a revenue source is not previously restricted or committed but the Finance Director determines, in the Director’s professional opinion, that the assigning of the revenue is the desire or direction of City Council. This authority is given to the Finance Director through ordinance passed by City Council.

I. Grants and Other Intergovernmental Revenues

All reimbursement-type grants are recorded as intergovernmental receivables and revenues or deferred inflows of resources when the related expenditures are incurred.

J. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension plans report investments at fair value.

K. Use of Estimates

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. POOLED CASH AND INVESTMENTS

The City maintains a cash and investments pool that is available for use by all funds, except the pension trust fund. Each fund type’s portion of this pool is displayed on the Fund Balance Sheets as “Pooled cash and investments.” The deposits and investments of the pension trust fund are held separately from those of other City funds and displayed as “Unallocated insurance contracts.”

Cash and cash equivalents in the internal service funds consist of cash and money market funds, which can be withdrawn without prior notice or penalty.

Deposits: At year-end, the City's bank balance was \$7,954,902. Of this amount, \$4,182,432 was insured; the remaining \$3,772,470 was collateralized with securities held by the pledging financial institution's trust department or agent, but not in the City's name per Ohio Revised Code Section 135.181. This statute requires all financial institutions acting as public depositories to pledge a pool of collateral with a market value of at least 105% of the total amount of public deposits secured. The City has no deposit policy for custodial credit risk.

Investments: All investments are reported at fair value, which is based on quoted market prices. The City's investment policy authorizes investments in obligations of the U.S. Treasury, agencies, and instrumentalities, commercial paper rated, when purchased, A-1 by Standard & Poors Corporation or P-1 by Moody's Commercial Paper Record, corporate bonds rated, when purchased, A or better by Standard & Poors Corporation or Moody's Bond Rating, bankers acceptances issued by banks ranked nationally as being in the top 50 in asset and deposit size, repurchase and reverse repurchase agreements, money market mutual funds whose portfolio consists of authorized investments, and the state treasurer's investment pool (STAR Ohio). The policy states that no more than 20% of the City's investment portfolio will be placed with any particular issuer, and unless matched to a specific cash flow requirement, the City will not invest in securities maturing more than five years from the date of purchase. It has been the City's practice to invest in securities maturing no more than three years from the date of purchase, and to hold all investments until maturity. The City has no investment policy for custodial credit risk.

The City's investments in corporate bonds, listed below, are uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent, but not in the City's name. At year-end, \$2,127,071 of the securities in the corporate bond category below are rated "BAA1", the remaining \$85,832,053 are rated "A" or better. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Star Ohio are valued at Star Ohio's share price which is the price the investment could be sold for on December 31, 2016. STAR Ohio carries a rating of AAAM. All other investment types listed are unrated.

As of December 31, 2016 the City had the following investments and maturities.

<u>Investment Type</u>	<u>Fair Value</u>	<u>Investment Maturities (in Years)</u>			
		<u>Less than 1</u>	<u>1-3</u>	<u>3-6</u>	<u>6-7</u>
Corporate Bonds	\$87,959,124	\$61,906,247	\$26,052,877		
STAR Ohio	5,523,826	5,523,826			
Pension Plan Pooled Invest Fund	2,086,506				\$2,086,506
Total	<u>\$95,569,456</u>	<u>\$67,430,073</u>	<u>\$26,052,877</u>		<u>\$2,086,506</u>

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City has the following recurring fair value measurements as of December 31, 2016:

- Corporate bonds of \$87,959,124 are valued using a matrix pricing model (Level 2 inputs)
- Pooled investment funds (STAR Ohio) of \$5,523,826 and unallocated insurance contracts funds (Volunteer Firefighter Pension) of \$2,086,506 measured at net asset value (NAV).

3. INCOME TAXES

The City levies a 2.25% income tax on substantially all income earned within the City. Additional increases in the income tax rate require voter approval. City residents pay City income tax on income earned outside the City, however; a credit is allowed for income taxes paid to other municipalities.

Employers within the City withhold income tax on employee compensation and remit at least quarterly. Corporations and other individual taxpayers pay estimated taxes quarterly and file an annual declaration.

4. PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the City. Property taxes are levied each December 31 on the assessed value listed as of the prior December 31. Assessed values are established for real property at 35% of true value. Property market values are required to be updated every three years and revalued every six years. A revaluation was completed in 2014.

The property tax calendar is as follows:

Levy date	December 31, 2015
Lien date	December 31, 2015
Tax bill mailed	January 20, 2016
First installment payment due	February 15, 2016
Second installment payment due	July 14, 2016

The assessed values for the City at December 31, 2015 were as follows:

	Assessed Value
	Category
Real Estate	\$1,037,563,750
Public Utility Real Property	16,330
Public Utility Personal Property	22,498,080
Total	<u><u>\$1,060,078,160</u></u>

The County Treasurer collects property taxes on behalf of all taxing districts including the City of Kettering. The County periodically remits to the City its portion of taxes collected. Property taxes may be paid on either an annual or semiannual basis.

5. LOANS RECEIVABLE AND NOTES RECEIVABLE

The City used a portion of the Federal Community Development Block Grant (CDBG) to provide low interest loans for housing rehabilitation, as well as for economic and job development. The loans are payable in installments to 2041. Fund balance has been classified as restricted for the loans receivable at December 31, 2016. CDBG regulations require the City to reinvest loan repayments in permissible CDBG loans or expenditures. The City made several loans from the General Fund for economic development purposes. Fund balance has been classified as nonspendable for the loans receivable at December 31, 2016.

6. INTERFUND TRANSFERS

All transfers for 2016 were out of the General Fund and into all other funds listed on the Statement of Revenues, Expenditures, and Changes in Fund Balances.

7. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2016, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets not being depreciated:				
Land	\$12,959,784		(\$392,065)	\$12,567,719
Right of Way	631,475	\$28,618		660,093
Subtotal	<u>13,591,259</u>	<u>28,618</u>	<u>(392,065)</u>	<u>13,227,812</u>
Capital assets being depreciated:				
Buildings and improvements	66,069,486	6,881,096		72,950,582
Machinery and equipment	20,227,317	1,987,180	(1,746,886)	20,467,611
Infrastructure	206,715,409	10,791,676	(2,882,029)	214,625,056
Subtotal	<u>293,012,212</u>	<u>19,659,952</u>	<u>(4,628,915)</u>	<u>308,043,249</u>
Accumulated depreciation:				
Buildings and improvements	(35,885,066)	(2,017,857)		(37,902,923)
Machinery and equipment	(12,626,550)	(1,406,899)	1,639,719	(12,393,730)
Infrastructure	(89,835,628)	(6,690,214)	2,882,029	(93,643,813)
Subtotal	<u>(138,347,244)</u>	<u>(10,114,970)*</u>	<u>4,521,748</u>	<u>(143,940,466)</u>
Net capital assets being depreciated	<u>154,664,968</u>	<u>9,544,982</u>	<u>(107,167)</u>	<u>164,102,783</u>
Net capital assets	<u>\$168,256,227</u>	<u>\$9,573,600</u>	<u>(\$499,232)</u>	<u>\$177,330,595</u>

*Depreciation expense was charged to governmental functions as follows:

General government	\$655,572
Police	262,636
Fire	757,677
Public works	6,508,112
Leisure services	1,677,405
In addition, depreciation on capital assets held by the City's internal service funds is charged to the various functions based on their usage of the assets.	<u>253,568</u>
Total depreciation expense	<u>\$10,114,970</u>

8. RISK MANAGEMENT

The City is a member of a public entity risk pool, Miami Valley Risk Management Association, Inc. (MVRMA) with nineteen other local cities. This pool covers all property, crime, liability, boiler and machinery, and public official liability up to the limits stated below.

Insurance coverage is as follows:

- Property** – \$1,000,000,000 per occurrence
- Crime** - \$2,000,000 per occurrence
- Liability** - \$12,000,000 per occurrence
- Boiler & Machinery** - \$100,000,000 per occurrence
- Public Official Liability** - \$12,000,000 per occurrence

The deductible per occurrence for all types is \$2,500. Pool coverage is \$2,500 - \$350,000 for boiler and machinery, \$2,501 - \$500,000 for crime, \$2,501 - \$250,000 for property, and \$2,501 - \$500,000 for liability. Excess insurance coverage, provided by commercial companies, is the amount in excess of pool coverage to the limits stated above. The City pays an annual premium to MVRMA that is intended to cover administrative expenses and any claims covered by the pool. MVRMA has the ability to require the member cities to make supplemental payments in the event reserves are not adequate to cover claims. An actuarial opinion issued as of December 31, 2016, indicates reserves in excess of anticipated claims.

Workers' compensation is administered by the State of Ohio. The City pays a premium per employee to the State for this coverage.

There were no significant reductions in the above insurance coverages from the prior year in any category of risk. Insurance coverage for each of the past three years was sufficient to cover any claims settlements.

Employee health insurance is provided through a self-insured plan and is accounted for and financed through an internal service fund. The City has purchased commercial stop-loss insurance for individual claims over \$125,000 and annual aggregate claims in excess of 120% of the expected total claims for the year. The health insurance claim liability of \$455,052 recorded at year-end was calculated by the City's health care broker based on the City's claims experience over the past twelve months.

	Beginning of Year Liability	Current Year Claims & Changes in Estimate	Claim Payments	Balance at Year-End
2015	\$479,452	\$5,924,675	\$5,831,737	\$572,390
2016	572,390	5,492,437	5,609,775	455,052

9. PENSION PLAN OBLIGATIONS

Substantially all City employees are covered by one of two pension plans Ohio Police and Fire Pension Fund (OP&F) or Ohio Public Employees Retirement System (OPERS).

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net

pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

OHIO POLICE AND FIRE PENSION FUND (OP&F)

OP&F is a cost-sharing multiple-employer defined benefit pension plan, which provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information, required supplementary information and detailed information about OP&F's fiduciary net position. Interested parties may obtain a copy by making a written request to 140 East Town Street, Columbus, Ohio 43215-5164 or by visiting their website at www.op-f.org.

Plan Description and Plan Benefits:

City full-time police and firefighters upon attaining a qualifying age with sufficient years of service may retire and receive a lifetime monthly pension. OPF offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OPF benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

The Ohio Revised Code provides statutory authority for employee and employer contributions. During 2016, plan members were required to contribute 12.25% of their annual covered payroll. During 2016, the City was required to contribute 19.5% and 24% respectively of annual covered payroll for police officers and firefighters. The City's contractually required contribution to OP&F was \$3,202,381 for 2016.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources:

OP&F's total pension liability was measured as of December 31, 2015, and was determined by rolling forward the total pension liability as of January 1, 2015, to December 31, 2015. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. The City reported a net pension liability of \$41,781,375, consisting of \$19,481,845 for firefighters and \$22,299,530 for police officers, as its proportionate share. The City's

proportion was 0.302839% for firefighters and 0.346639% for police officers. The City recognized \$4,982,669 in pension expense.

The following amounts are reported as deferred outflows and inflows of resources at December 31, 2016:

	<u>Deferred Outflows of Resources</u>	<u>Deferred (Inflows) of Resources</u>
Differences between expected & actual economic experience		(\$117,320)
Employer contributions subsequent to measurement date	\$3,202,381	
Net difference between projected & actual investment earnings	5,712,836	
Changes in proportions & diff in contrib and proportionate share of contrib	2,521,046	
Total	<u>\$11,436,263</u>	<u>(\$117,320)</u>

\$3,202,381 reported as deferred outflows of resources relate to pension resulting from the City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2017. Other amounts reported as deferred outflows and deferred inflows related to pension will be recognized in pension expense as follows:

<u>Year</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred (Inflows) of Resources</u>	<u>Pension Expense</u>
2017	\$2,036,232	(\$22,605)	\$2,013,627
2018	2,036,232	(22,605)	2,013,627
2019	2,036,232	(22,605)	2,013,627
2020	1,696,873	(22,605)	1,674,268
2021	359,927	(22,605)	337,322
Thereafter	68,386	(4,295)	64,091
Total	<u>\$8,233,882</u>	<u>(\$117,320)</u>	<u>\$8,116,562</u>

Actuarial Assumptions:

OP&F's total pension liability as of December 31, 2015 is based on the results of an actuarial valuation date of January 1, 2015, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2015, are presented below:

Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	8.25%
Projected Salary Increases	4.25% - 11.00%
Payroll Increases	3.75%
Inflation Assumptions	3.25%
Cost of Living Adjustments	2.60% and 3.00%

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed January 1, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OPF's target asset allocation as of December 31, 2015 are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash and Cash Equivalents	- %	- %
Domestic Equity	16.00	7.80
Non-US Equity	16.00	8.00
Core Fixed Income *	20.00	5.35
Global Inflation Protected *	20.00	4.73
High Yield	15.00	7.21
Real Estate	12.00	7.43
Private Markets	8.00	10.73
Timber	5.00	7.35
Master Limited Partnerships	8.00	10.75
Total	120.00 %	

* levered 2x

OP&F's Board of Trustees has incorporated the "risk parity" concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

The discount rate used to measure the total pension liability was 8.25%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.25 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

The following chart represents the City's proportionate share in thousands of the net pension liability at the 8.25% discount rate as well as the sensitivity to a 1% increase and 1% decrease in the current discount rate:

	1% Decrease (7.25%)	Current Discount Rate (8.25%)	1% Increase (9.25%)
City's proportionate share of the net pension liability	\$55,104	\$41,781	\$30,495

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

OPERS is a cost-sharing, multiple-employer public employee retirement system comprised of three separate pension plans: the Traditional Pension Plan (TP), the Combined Plan (CO) and the Member-Directed Plan (MD). All public employees in Ohio, except those covered by one of the other state or local retirement systems in Ohio, are members of OPERS. While members may elect the CO and MD, substantially all employees are in the TP; therefore, the following disclosure focuses on the TP.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the TP and CO. Members of the MD do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by state statute per Chapter 145 of the Ohio Revised Code. The Public Employees Retirement System issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (800) 222-7377.

Plan Description and Plan Benefits:

The TP is a defined benefit plan in which a member's retirement benefits are calculated on a formula that considers years of service and final average salary. The pension benefits are funded by both member and employer contributions, and investment earnings on those contributions.

The CP is a defined benefit plan with elements of a defined contribution plan. Under the CP, members earn a formula benefit similar to, but at a factor less than, the TP benefit. This defined benefit is funded by employer contributions and associated investment earnings. Additionally, member contributions are deposited into a defined contribution account in which the member self-directs the investment. Upon retirement or termination, the member may choose a defined contribution retirement distribution that is equal in amount to the member's contributions to the plan and investment earnings (or losses) on those contributions. Members may also elect to use their defined contribution account balances to purchase a defined benefit annuity administered by OPERS.

The MD is a defined contribution plan in which members self-direct the investment of both member and employer contributions. The retirement distribution under this plan is equal to the sum of member and vested employer contributions, plus investment earnings (or losses) on those contributions. Employer contributions and associated investment earnings vest over a five-year period at a rate of 20% per year. Upon retirement or termination, the member may choose a defined contribution retirement distribution, or may elect to use his/her defined contribution account balances to purchase a defined benefit annuity administered by OPERS.

The Board of Trustees, pursuant to Chapter 145, has elected to maintain funds to provide health care coverage to eligible TP and CP retirees and survivors of members. Health care coverage does not vest and is not required under Chapter 145. As a result, coverage may be reduced or eliminated at the discretion of the Board.

Senate Bill (SB) 343 enacted into law new legislation with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. Members who were eligible to retire under law in effect prior to SB 343 or will be eligible to retire no later than five years after January 7, 2013, comprise transition Group A. Members who have 20 years of service credit prior to January 7, 2013, or will be eligible to retire no later than 10 years after January 7, 2013, are included in transition Group B. Group C includes those members who are not in either of the other groups and members who were hired on or after January 7, 2013.

Benefits in the TP are calculated on the basis of age, final average salary, and service credit. Members in transition Groups A and B are eligible for retirement benefits at age 60 with 5 years of service credit or at age 55 with 25 or more years of service credit. Members in transition Group C are eligible for retirement at age 57 with 25 years of service or at age 62 with 5 years of service. For Groups A and B, the annual benefit is based on 2.2% of final average salary multiplied by the actual years of service for the first 30 years of service credit and 2.5% for years of service in excess of 30 years. For Group C, the annual benefit applies a factor of 2.2%

for the first 35 years and a factor of 2.5% for the years of service in excess of 35. The final average salary represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on an average of the five highest years of earnings over a member's career. Members who retire before meeting the age and years of service credit requirement for unreduced benefit receive a percentage reduction in the benefit amount. The base amount of a member's pension benefit is locked in upon receipt of the initial benefit payment for calculation of annual cost-of-living adjustment.

Benefits in the CP consist of both an age and service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, final average salary, and years of service. Eligibility regarding age and years of service in the CP is the same as the TP. The benefit formula for the defined benefit component of the plan for members in transition Groups A and B applies a factor of 1.0% to the member's final average salary for the first 30 years of service. A factor of 1.25% is applied to years of service in excess of 30. The benefit formula for transition Group C applies a factor of 1.0% to the member's final average salary for the first 35 years of service and a factor of 1.25% is applied to years in excess of 35. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit. The defined contribution portion of the benefit is based on accumulated member contributions, plus or minus any investment gains or losses on those contributions.

MD defined contribution plan benefits are established in the plan documents, which may be amended by the Board. MD and CP members who have met the eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the CP was discussed above. MD participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the MD consists of the member's contributions, vested employer contributions and investment gains and losses resulting from the member's investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. At retirement, members may select one of several distribution options for payment of the vested balance of their individual OPERS accounts. Options include the purchase of a monthly annuity from OPERS (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of the entire account balance, net of taxes withheld, or a combination of these options.

Funding Policy:

The OPERS funding policy provides for periodic employee and employer contributions to all three plans at rates established by the Board, subject to limits set in statute. The rates established for member and employer contributions were approved based upon the recommendations of OPERS' external actuary. All contribution rates were within the limits authorized by the Ohio Revised Code. Member and employer contribution rates, as a percent of covered payroll, were the same for each covered group across all three plans for the year ended December 31, 2016. Plan members were required to contribute 10% of covered payroll. The City's contribution rate was 14% of covered payroll. The City's contractually required contributions to OPERS for 2016 was \$2,987,604.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources:

The net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. The City reported a net pension liability of \$26,624,822 as its proportionate share. The City's proportion was 0.154071% for the TP. The City recognized \$3,776,076 in pension expense.

The following amounts are reported as deferred outflows and inflows of resources at December 31, 2016:

	Deferred Outflows of Resources	Deferred (Inflows) of Resources
Differences between expected & actual economic experience	\$4,829	(\$543,717)
Employer contributions subsequent to measurement date	2,987,604	
Net difference between projected & actual investment earnings	7,871,999	
Changes in proportions & diff in contrib and proportionate share of contrib	72,661	(\$112,363)
Total	<u>\$10,937,093</u>	<u>(\$656,080)</u>

\$2,987,604 reported as deferred outflows of resources relate to pension resulting from the City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2017. Other amounts reported as deferred outflows and deferred inflows related to pension will be recognized in pension expense as follows:

Year	Deferred Outflows of Resources	Deferred (Inflows) of Resources	Pension Expense
2017	\$2,039,338	(\$360,111)	\$1,679,227
2018	2,039,338	(236,082)	1,803,256
2019	2,039,338	(38,888)	2,000,450
2020	1,790,671	(4,277)	1,786,394
2021	8,983	(4,277)	4,706
Thereafter	31,821	(12,445)	19,376
Total	<u>\$7,949,489</u>	<u>(\$656,080)</u>	<u>\$7,293,409</u>

Actuarial Assumptions:

Total pension liability in the December 31, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>Traditional Plan</u>
Investment rate of return	8.00%
Wage inflation	3.75%
Projected salary increases	4.25% - 10.05%
	(includes wage inflation)
Cost-of-living adjustments	3.00% simple
Actuarial Cost Method	Individual Entry Age

Mortality rates are the RP-2000 mortality table projected 20 years using Projected Scale AA. For males, 105% of the combined health male mortality rates were used. For females, 100% of the combined health female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males, 120% of the disable female mortality rates were used, set forward two years. For females, 100% of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit

portfolio includes the investment assets of the TP, the defined benefit component of the CP, the annuitized accounts of the MD and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is .4 percent for 2015.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2015 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	23.00 %	2.31 %
Domestic Equities	20.70	5.84
Real Estate	10.00	4.25
Private Equity	10.00	9.25
International Equities	18.30	7.40
Other investments	18.00	4.59
Total	100.00 %	5.27 %

The discount rate used to measure the total pension liability was 8.0% for the TP. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the TP was applied to all periods of projected benefit payments to determine the total pension liability.

The following chart represents the City's proportionate share in thousands of the net pension liability at the 8% discount rate as well as the sensitivity to a 1% increase and 1% decrease in the current discount rate:

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
City's proportionate share of the net pension liability	\$42,541	\$26,625	\$13,340

VOLUNTEER FIREFIGHTERS PENSION

Principal Life Insurance Company administers a single-employer, defined benefit pension plan for the Volunteer Firefighters. At January 1, 2016, the plan's membership consisted of the following:

Active plan members	11
Inactive plan members entitled to but not yet receiving benefits	32
Retired plan members or beneficiaries currently receiving benefits	78
Total	121

On August 1st, 2010 the City implemented a soft freeze so that no new members could join the pension plan after that date. On October 1st, 2010 the City implemented a hard freeze so that no additional benefits could be earned by existing members after that date. All regular members before August 1st, 2010 of the Volunteer Fire Department are eligible for the plan upon completion of 3 years of continuous service before October 1, 2010. Members may retire at age 55 and receive a monthly benefit, payable for life. The monthly retirement benefit is equal to the sum of \$8.00 multiplied by the number of years of credited service before October 1, 2010 not in excess of 10 years and \$10.00 multiplied by the number of years of credited service before October 1, 2010 in excess of 10 years. Benefits vest at 15% upon 3 years of credited service before October 1, 2010 plus 5% for each additional year before October 1, 2010, up to 100%. Benefits are established by and may be amended by City Ordinance. There are no, nor have there ever been any, COLA's associated with the plan. The pension plan's board consists of all seven, elected City Council members. Contribution requirements are established or may be amended by City Ordinance. The basis for determining contributions is an actuarially determined contribution rate that is calculated each year in the plan's Actuarial Valuation report. City Council, through the annual appropriation ordinance, then decides the actual amount they want to contribute for the year. The City's funding policy is to provide for periodic employer contributions that are designed to accumulate sufficient assets to pay benefits when due. Costs of administering the plan are paid separately by the City and not deducted from plan assets. Active members are not required to contribute. The actuarially determined contribution for the measurement period ending 12/31/15 and the upcoming 12/31/16 period is \$62,062 and \$53,110 respectively. There have been no changes in plan provisions during the measurement period or through the date of this report.

There is no pension plan investment policy. There are no procedures and authority for establishing and amending investment policy decisions and no policies pertaining to asset allocation. There have been no investment policy changes during the reporting period. All plan assets are invested in the Principal Financial Group General Investment Account and this represents 100% of the plan's fiduciary net position as of the measurement date. A money-weighted rate of return expresses investment performance, net of pension plan investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on plan investments for the measurement period of 1/1/15 to 12/31/15 is 3.94%. The actual date and amount of each contribution and benefit payment was used in the calculation of the money-weighted rate of return.

There are no long-term contracts for contributions to the pension plan. There are no allocated insurance contracts excluded from pension plan assets. There are no policies for setting aside reserves that otherwise would be available for existing pensions. The pension plan does not provide for DROP benefits.

The components of the City's net pension liability as of December 31, 2015, determined by an actuarial valuation as of that date, are as follows:

Total pension liability	\$2,456,055
Plan fiduciary net position	<u>2,095,159</u>
Net pension liability	<u>\$360,896</u>
Plan fiduciary net position as a percentage of the total pension liability	85.31%

The City recognized (\$65,011) in pension expense.

The following amounts are reported as deferred outflows and inflows of resources at December 31, 2016:

	Deferred Outflows of Resources	Deferred (Inflows) of Resources
Employer contributions subsequent to measurement date	\$58,317	
Effects of changes in assumptions	0	
Net difference between projected & actual investment earnings	8,901	
Differences between expected and actual experience	0	
Total	<u>\$67,218</u>	

\$58,317 reported as deferred outflows of resources relate to pension resulting from the City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2017. Other amounts reported as deferred outflows and deferred inflows related to pension will be recognized in pension expense as follows:

Year	Deferred Outflows of Resources	Deferred (Inflows) of Resources	Pension Expense
2017	\$2,542		\$2,542
2018	2,542		2,542
2019	2,541		2,541
2020	1,276		1,276
2021	0		0
Total	<u>\$8,901</u>		<u>\$8,901</u>

Actuarial Assumptions:

Total pension liability in the December 31, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return beginning of period	4.25%
Investment rate of return end of period	4.25%
Inflation	2.25%
Projected salary increases	0%
Cost-of-living adjustments	0%
Actuarial Cost Method	Individual Entry Age

Mortality rates are 2015 IRS Prescribed Mortality-Optional Combined Table for Small Plans, male and female. Withdrawal rates are 2003 Society of Actuaries Small Plan Age Table, multiplied by 0.75. Funding policy assumes 100% of the estimated actuarially determined contribution amount is contributed midway during each projection period.

The long-term rate of return on defined benefit investment assets was developed as a weighted average rate based on the target asset allocation of the plan and the Long-Term Capital Market Assumptions (CMA) 2014. The capital market assumptions were developed with a primary focus on forward-looking valuation models and market indicators. The key fundamental economic inputs for these models are future inflation, economic growth and interest rate environment. Due to the long-term nature of the pension obligations, the investment horizon for the CMA 2014 is 20-30 years. In addition to forward-looking models, historical analysis of market data and trends was reflected, as well as the outlook of recognized economists, organizations and consensus CMA for other credible studies. The target allocation for the plan is a 100% Fixed Income asset class with a long-term expected real rate of return equal to 4.25%.

The discount rate used to determine the total pension liability at 12/31/2015 is 4.25%. The plan's fiduciary net position and benefit payments were projected to determine if the plan's fiduciary net position was greater

than or equal to the expected benefit payments for each period from 2015 to 2094. Benefit payments after 2094 are projected to be \$0. The long-term rate of return of 4.25% is used to calculate the actuarial present value of projected payments for each future period when the projected Fiduciary Net Position is greater than the projected expected benefit payments. Otherwise, a municipal bond rate of 3.98% is used. The municipal bond rate is from Barclays Municipal GO Long Term (17+Y) Index, which includes 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher securities, as of the 12/31/2015 measurement date. The discount rate is a single rate that incorporates the long-term rate of return and municipal bond rate as described.

Changes in Net Pension Liability

	Increase (Decrease)		
	Total Pension Liability	Fiduciary Net Position	Net Pension Liability
Balances at 1/1/2015	\$2,606,712	\$2,114,299	\$492,413
Changes for the year:			
Interest	107,064		107,064
Benefit payments	(157,789)	(157,789)	0
Differences between expected and actual experience	(104,423)		(104,423)
Changes in assumptions	4,491		4,491
Employer contributions		58,218	(58,218)
Net investment income		80,431	(80,431)
Net changes	(150,657)	(19,140)	(131,517)
Balances at 12/31/2015	\$2,456,055	\$2,095,159	\$360,896

The following chart represents the net pension liability of the City calculated using the current discount rate of 4.25% as well as the sensitivity to a 1% increase and 1% decrease in the current discount rate:

	1% Decrease	Current	1% Increase
	(3.25%)	Discount Rate (4.25%)	(5.25%)
City's proportionate share of the net pension liability	\$633,680	\$360,896	\$132,611

10. OTHER POST EMPLOYMENT BENEFITS (OPEB)

In addition to the pension benefits described in Note 9, both the Ohio Public Employees Retirement System (OPERS) and the Ohio Police and Fire Pension Fund (OP&F) provide post retirement health care coverage, which meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45. For both systems, the Ohio Revised Code (ORC) permits, but does not mandate, OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in the ORC Chapter 145 for OPERS and Chapter 742 for OP&F.

OHIO POLICE AND FIRE PENSION FUND OPEB

OP&F sponsors a cost-sharing multiple-employer defined post retirement healthcare plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care to retirees, qualifying benefit recipients and their eligible dependents.

The ORC provides the statutory authority requiring public employers to fund post retirement health care through their contributions to OP&F. A portion of each employer's contribution is set aside for the funding of post retirement health care benefits. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5% and 24.0% of covered payroll for police and fire employers, respectively. The ORC states that the employer contribution may not exceed 19.5% and 24.0% of covered payroll for police and fire employers respectively. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under an IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the ORC to the OP&F board of trustees. The board of trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree healthcare benefits. For the year ended December 31, 2016, the employer contribution allocated to the healthcare plan was .5% of covered payroll. The amount of employer contributions allocated to the healthcare plan each year is subject to the trustees' primary responsibility to ensure that pension benefits are adequately funded and also is limited by the provisions of Sections 115 and 401(h). The OP&F board of trustees is authorized to establish requirements for contributions to the healthcare plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. City contributions to OP&F allocated to the healthcare plan for 2014, 2015 and 2016 were \$64,612, \$70,040 and \$75,242 respectively, equal to the required contributions for the year.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164 or by visiting their website at www.op-f.org.

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM OPEB

OPERS administers three separate pension plans, the Traditional Pension Plan (TP), the Member-Directed Plan (MD), and the Combined Plan (CO), all of which are described in note 9. OPERS maintains a cost-sharing multiple employer defined benefit post employment healthcare plan, which provides a medical plan, prescription drug program and Medicare Part B premium reimbursement, to age and service retirees with 10 or more years of qualifying Ohio service credit of both the TP and CO. Members of the MD do not qualify for ancillary benefits, including post employment health care coverage. Health care coverage for disability recipients and qualified survivor benefit recipients is available.

The ORC provides the statutory authority requiring public employers to fund post retirement health care through their contributions to OPERS. A portion of each employer's contribution is set aside for the funding of post retirement health care benefits. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 14.0%. The ORC states that the employer contribution may not exceed 14.0% of covered payroll. Active members do not make contributions to the OPEB Plan.

OPERS post employment healthcare plan was established and is administrated in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of post employment health care benefits. For 2016, the employer contribution allocated to the health care plan was 2.0% for both the TP and CO. The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. City contributions to OPERS allocated to fund post employment benefits for 2014, 2015 and 2016 were \$405,761, \$423,844 and \$426,630 respectively, equal to the required contributions for the year. Changes to the health care plan were adopted in 2012 with a transition plan beginning in 2014. Because of these changes and the recent passage of pension legislation, OPERS expects to be able to consistently allocate 4% of the employer contributions toward the health care fund after the end of the transition period.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by writing OPERS, Attention: Finance Director, 277 East Town Street, Columbus, OH 43215-4642, or by calling (800) 222-7377.

11. LEASES AND CONSTRUCTION COMMITMENTS

There are no operating leases, in which the City is a lessee, in excess of one year. Operating lease payments in 2016 were \$384,777.

Significant commitments and encumbrances at December 31, 2016 included:

Capital Projects Fund \$7,081,000

12. NONCURRENT LIABILITIES

Noncurrent liability activity for the year ended December 31, 2016, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Amounts Due Within One Year
General Obligation Bonds:					
Court Facility Refunding, 1% - 4%	2,170,000		220,000	1,950,000	\$230,000
Court Facility premium	70,443		7,827	62,616	
Recreation & Parks Improvements 3% - 5%	9,160,000		545,000	8,615,000	570,000
Recreation & Parks premium	160,133		11,988	148,145	
Fire Station Improvements, 1% - 4%	14,995,000		620,000	14,375,000	630,000
Fire Station premium	196,668		10,350	186,318	
Total general obligation bonds	<u>26,752,244</u>	<u>0</u>	<u>1,415,165</u>	<u>25,337,079</u>	<u>1,430,000</u>
Net Pension Liability:					
OPERS	18,704,224	10,773,830	2,853,232	26,624,822	
OP&F	32,885,567	11,799,214	2,903,406	41,781,375	
Volunteer Firefighter	492,413		131,517	360,896	
Total net pension liability	<u>52,082,204</u>	<u>22,573,044</u>	<u>5,888,155</u>	<u>68,767,093</u>	
Other:					
Accrued vacation and sick leave benefits	4,522,713	2,844,275	2,546,182	4,820,806	2,844,275
Ohio Public Works Commission Long-Term Promissory Notes, 0-3%	1,236,548		162,660	1,073,888	157,543
Total other	<u>5,759,261</u>	<u>2,844,275</u>	<u>2,708,842</u>	<u>5,894,694</u>	<u>3,001,818</u>
Total noncurrent liabilities	<u>\$84,593,709</u>	<u>\$25,417,319</u>	<u>\$10,012,162</u>	<u>\$99,998,866</u>	<u>\$4,431,818</u>

The accrued vacation and sick leave benefits liability will be liquidated by several of the City's governmental and internal service funds. In the past, approximately 77% has been paid by the General Fund, 7% by the Street Maintenance Fund and the remainder by the other governmental and internal service funds. The City uses the "vesting method" to determine the appropriate liability.

From time to time the City has issued Industrial Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial

statements. At year-end there was one Industrial Revenue Bond series outstanding, with an aggregate principal amount payable of \$3.52 million.

The annual requirements to pay principal and interest on noncurrent obligations at December 31, 2016, are as follows:

	General Obligation Bonds		Promissory Notes	
	Principal	Interest	Principal	Interest
2017	\$1,430,000	\$826,968	\$157,543	\$7,977
2018	1,475,000	772,668	158,580	6,939
2019	1,525,000	728,818	159,645	5,874
2020	1,560,000	685,818	160,738	4,780
2021	1,605,000	643,330	161,861	3,658
2022-2026	8,260,000	2,461,244	275,521	4,348
2027-2031	6,115,000	1,009,813		
2032-2034	2,970,000	195,000		
	<u>\$24,940,000</u>	<u>\$7,323,659</u>	<u>\$1,073,888</u>	<u>\$33,576</u>

The Ohio Revised Code (ORC) provides that the total net debt (as defined in the ORC) of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5% of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5% of the total taxation value of property. At December 31, 2016 the City had a legal debt margin for total debt of \$87,055,503 and a legal debt margin for unvoted debt of \$42,814,740.

13. CONTINGENT LIABILITIES

The City is the defendant in various lawsuits and subject to various claims over which litigation has not commenced. Although the outcome of these matters is not presently determinable, in the opinion of the Law Director the resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City participates in several federally assisted programs that are subject to program compliance audits by the grantors or their representatives. A single financial and compliance audit of the city has been completed with no findings for recovery. The grantor agencies, at their option, may perform economy and efficiency audits, program results audits or conduct monitoring visits. Such audits and visits could lead to reimbursement to the grantor agencies. Management believes such reimbursements, if any, would be immaterial.

14. NEGATIVE FUND NET POSITION

The Administrative Operations Internal Service Fund ended the year with a negative net position of \$863,565. This negative net position is a result of the implementation of GASB Statement No. 68. The requirements of GASB 68 make it unlikely that this fund will ever have a positive fund balance.

15. GASB IMPLEMENTATIONS

In 2016 the City implemented GASB Statement No. 72, “Fair Value Measurement and Application”, GASB Statement No. 73, “Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68”, GASB Statement No. 76, “The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments”, GASB Statement No. 77, “Tax Abatement Disclosures”, and GASB Statement No. 79, “Certain External Investment Pools and Pool Participants”.

**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED DECEMBER 31, 2016**

1. BUDGETS AND BUDGETARY ACCOUNTING

An annual budget for all governmental fund types covering the period January 1 through December 31 of the following year showing estimated revenues and expenditures is submitted to the County Auditor as Secretary of the County Budget Commission. The budget is passed by City Council, after public hearings are held, by July 15 of each year, and submitted to the County Budget Commission by July 20 of each year.

The County Budget Commission certifies its actions relative to the annual budget to the City by September 1. As part of this certification, the City receives an official certificate of estimated resources which states the projected receipts by fund. On or about January 1, this certificate is amended to include any unencumbered fund balances from the preceding year. Prior to December 31, the City must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations ordinance.

A temporary appropriations ordinance to control expenditures may be passed on or about January 1 of each year for the period January 1 through March 31. An annual appropriations ordinance must be passed by April 1 of each year for the period January 1 to December 31. The appropriations ordinance generally controls expenditures at the level of personal services, operating expenditures and capital outlay on a department level, except for the state highway fund, cemetery fund, police pension fund, DESC (Defense Electronics Supply Center) reuse fund, special safety grants and programs fund, community development fund, emergency medical fund and the capital projects fund which are controlled at the fund level. The City Manager has the authority to amend appropriations within the department at the levels of personal service, operating expenditures and capital outlay; amendments above this level require council approval. The ordinance may be amended or supplemented by Council during the year as required. Amendments to the appropriations ordinance made during the year were not material in relation to the original appropriations. Total expenditures in any fund do not exceed the estimated resources for that fund. Unencumbered appropriations lapse at year-end, while encumbered amounts are reappropriated in the following year's budget. The Finance Director in conjunction with the annual budgeting process estimates revenues. However, these estimates are not included or required in the budget ordinance.

The City, being a home rule municipal corporation, has adopted, through ordinance, GAAP (generally accepted accounting principles) as its budgetary basis.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary control in the governmental funds. Encumbrances outstanding at year-end are reported as restricted, committed or assigned fund balance for subsequent year expenditures.

Total net position	\$157,442,927	\$167,248,379	\$175,811,302	\$186,335,559	\$198,924,517	\$207,530,942	\$252,755,268	\$254,412,007	\$209,319,190	\$209,143,596

Note: Accounting standards require that net position be reported in three components in the financial statements: net investment in capital assets; restricted; and unrestricted. Net position is considered restricted when (1) and external party, such as the state or federal government, places a restriction on how the resources may be used, or (2) enabling legislation is enacted by the city.

(1) Net (expense)/revenue is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program is supported with its own fees and program-specific grants versus its reliance upon funding from taxes and other general revenues. Numbers in parentheses indicate that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program. Numbers without parentheses mean that program revenues were more than sufficient to cover expenses.

Source: City of Kettering, Ohio, Finance Department

The City levies a 2.25% income tax on substantially all income earned within the City. Additional increases in the income tax rate require voter approval. City residents pay City income tax on income earned outside the City, however; a credit is allowed for income taxes paid to other municipalities. Employers within the City withhold income tax on employee compensation and remit at least quarterly.

DIRECT AND OVERLAPPING DEBT
DECEMBER 31, 2016

Jurisdiction	Debt Outstanding	Percentage Applicable to City of Kettering ¹	Amount Applicable to City of Kettering
City of Kettering	\$26,410,968	100.0%	\$26,410,968
Overlapping debt:			
Kettering City School District	68,569,000	90.2%	61,849,238
Montgomery County	20,000,000	11.7%	2,340,000
Beavercreek Local School District	86,557,000	0.8%	692,456
Total overlapping debt	175,126,000		64,881,694
Total direct and overlapping debt	\$201,536,968		\$91,292,662

Source: Individual jurisdictions.

(1) The percentage of overlapping debt applicable is estimated using assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's assessed value that is within the City's boundaries and dividing it by each unit's total assessed value.

Individual jurisdictions with immaterial amounts of overlapping debt are excluded from this table.

CITY OF KETTERING, OHIO
Notes to the Schedule of Expenditures of Federal Awards
December 31, 2016

NOTE 1 - GENERAL:

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal award programs of the City of Kettering, Ohio (the City). The City's reporting entity is defined in Note 1(a) to the City's basic financial statements. All federal awards received directly from federal agencies, as well as federal awards passed through other government agencies are included on the Schedule. The information in this schedule is presented in accordance with the requirements of 2 CFR 200, Subpart F. The City did not elect to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 2 - BASIS OF ACCOUNTING:

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting.

NOTE 3- RELATIONSHIP TO BASIC FINANCIAL STATEMENTS:

Grant expenditures are reported in the City's major and non-major special revenue funds.

NOTE 4- SUBRECIPIENTS:

The City was a pass-through entity of CDBG funds to two subrecipients, Miami Valley Fair Housing Board for \$32,000, and HomeOwnership Center of Greater Dayton for \$30,000.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Mayor, City Council,
and City Manager
City of Kettering, Ohio

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Kettering, Ohio (the City), as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated March 15, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND
ON INTERNAL CONTROL OVER COMPLIANCE AND REPORT ON SCHEDULE OF EXPENDITURES OF
FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE**

Honorable Mayor, City Council,
and City Manager
City of Kettering, Ohio

Report on Compliance for Each Major Federal Program

We have audited the City of Kettering, Ohio's (the City) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended December 31, 2016. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2016.

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements

that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated March 15, 2017, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.
