Board of Commissioners Coshocton Metropolitan Housing Authority 823 Magnolia Street Coshocton, Ohio 43812

We have reviewed the *Independent Auditor's Report* of the Coshocton Metropolitan Housing Authority, Coshocton County, prepared by Perry & Associates, Certified Public Accountants, A.C., for the audit period July 1, 2015 through June 30, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Coshocton Metropolitan Housing Authority is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

#### INDEPENDENT AUDITOR'S REPORT

December 23, 2016

Coshocton Metropolitan Housing Authority Coshocton County 823 Magnolia Street Coshocton, Ohio 43812

To the Board of Commissioners:

#### Report on the Financial Statements

We have audited the accompanying financial statements of **Coshocton Metropolitan Housing Authority**, Coshocton County, Ohio (the Authority), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Authority's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

Coshocton Metropolitan Housing Authority Coshocton County Independent Auditor's Report Page 2

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Coshocton Metropolitan Housing Authority, Coshocton County, as of June 30, 2016, and the changes in its financial position and cash flows for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### **Other Matters**

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the Authority's basic financial statements taken as a whole.

The Financial Data Schedule presented on pages 37-38 presents additional analysis as required by the United States Department of Housing and Urban Development and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards also presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is also not a required part of the financial statements.

The schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected the schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### Other Reporting Required by Government Auditing Standards

Very Masociales CAS A. C.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2016, on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2016

#### Unaudited

#### **Management's Discussion and Analysis**

This Management's Discussion and Analysis (MD&A) for the Coshocton Metropolitan Housing Authority (Coshocton MHA) is intended to assist the reader identify what management feels are significant financial issues, provide an overview of the financial activity for the year, and identify and offer a discussion about changes in Coshocton MHA's financial position. It is designed to focus on the financial activity for the fiscal year ended June 30, 2016, resulting changes and currently known facts. Please read it in conjunction with the financial statements found elsewhere in this report.

#### **Overview of the Financial Statements**

The Basic Financial Statements included elsewhere in this report are:

the Statement of Net Position, the Statement of Revenues, Expenses & Changes in Fund Net Position, and the Statement of Cash Flows.

The **Statement of Net Position** is very similar to, and what most people would think of as, a Balance Sheet. In the first half it reports the value of assets Coshocton MHA holds at 6/30/16, that is, the cash Coshocton MHA has, the amounts that are owed Coshocton MHA from others, and the value of the equipment Coshocton MHA owns. In the other half of the report it shows the liabilities Coshocton MHA has, that is, what Coshocton MHA owes others at 6/30/16; and what Net Position (or what is commonly referred to as Equity) Coshocton MHA has at 6/30/16. The two parts of the report are in balance, thus why many might refer to this type of report as a Balance Sheet, in that the total of the assets part equals the total of the liabilities plus net position (or equity) part.

In the statement, the Net Position part is broken out into three broad categories:

Net Investment in Capital Assets, Restricted Net Position, and Unrestricted Net Position.

The balance in Net Investment in Capital Assets reflects the value of capital assets, that is assets such as land, buildings, & equipment, reported in the top part of the statement reduced by the amount of accumulated depreciation of those assets and by the outstanding amount of debt yet owed on those assets.

The balance in Restricted Net Position reflects the value of assets reported in the top part of the statement that are restricted for use by law or regulation, or when the use of those assets is restricted by constraints placed on the assets by creditors.

The balance in Unrestricted Net Position is what is left over of Net Position after what is classified in the two previously mentioned components of Net Position. It reflects the value of assets available to Coshocton MHA to use to further its purposes.

The **Statement of Revenues, Expenses & Changes in Fund Net Position** is very similar to and may commonly be referred to as an Income Statement. It is in essence a report showing what Coshocton MHA earned, that is what its revenues or incomes were, versus what expenses Coshocton MHA had over the same period. And then it shows how the Fund Net Position (or equity) changed because of how the incomes exceeded or were less than what expenses were. It helps the reader to determine if Coshocton MHA had more in revenues than in expenses or viceversa, and then how that net gain or net loss affected the Net Position (or equity). The bottom line of the report, the Ending Total Net Position, is what is referred to in the above discussion of the Statement of Net Position that when added to the liabilities Coshocton MHA has equals the total assets Coshocton MHA has.

### MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2016

### Unaudited

The **Statement of Cash Flows** is a report that shows how the amount of cash Coshocton MHA had at the end of the previous year was impacted by the activities of the current year. It breaks out in general categories the cash coming in and the cash going out. It helps the reader to understand the sources and uses of cash by Coshocton MHA during the year to include a measurement of cash gained or used by operating activities, by activities related to acquiring capital assets, and by activities related to investing activities.

#### **Coshocton MHA's Business Type Funds**

The financial statements included elsewhere in this report are presented using the Authority-wide perspective meaning the activity reported reflects the summed results of all the programs, or business type funds of Coshocton MHA. Coshocton MHA consists exclusively of Enterprise Funds. The full accrual basis of accounting is used for Enterprise Funds. That method of accounting is very similar to accounting used in the private sector.

Coshocton MHA's programs include the following:

the Low Rent Public Housing program, the Section 8 Housing programs, the Rural Housing program, and the State & Local program.

Under the Low Rent Public Housing program, Coshocton MHA rents dwelling units it owns to low to moderate-income families. Through an Annual Contributions Contract (commonly referred to as an ACC) with HUD, HUD provides an operating subsidy to Coshocton MHA to help support the operations of the program. In addition, HUD provides funds for physical improvements to Coshocton MHA's properties and funds for management improvements through Capital Fund Program grants.

Under the Section 8 Housing Choice Voucher program, Coshocton MHA subsidizes the rents of low to moderate-income families through Housing Assistance Payments contracts when those families rent from private landlords. This is called a tenant-based program because when the tenant family moves, the rental assistance goes with the family to the new rental unit.

Under the Rural Housing program, the US Department of Agriculture provided a low interest loan to Coshocton MHA to finance the construction of the dwelling units and then also provides rental assistance to the low to moderate-income families that rent them from the owner, Coshocton MHA.

Under its Local program, Coshocton MHA operates coin laundry facilities in its Public Housing rental housing developments and assigns 100% of the proceeds against a debt owed to the Public Housing program of the agency.

### MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2016

#### Unaudited

#### **Condensed Financial Statements**

The following is a condensed **Statement of Net Position** compared to the prior year-end. Coshocton MHA is engaged only in business type activities.

Table 1 – Condensed Statement of Net Position Compared to Prior Year (Values Rounded to Nearest Thousand)

	<u>2016</u>		<u>2015</u>
Current Assets	\$ 364,000	\$	316,000
Capital Assets	1,534,000		1,761,000
Deferred Outflows	 144,000	_	32,000
<b>Total Assets &amp; Deferred Outflows</b>	 2,042,000	_	2,109,000
Current Liabilities	140,000		80,000
Long-Term Liabilities	1,149,000		1,099,000
Deferred Inflows	 40,000	_	6,000
Total Liabilities & Deferred Inflows	 1,329,000	_	1,185,000
Net Position:			
Net Investment in Capital Assets	866,000		1,086,000
Restricted Net Position	68,000		45,000
Unrestricted Net Position	 (221,000)	_	(207,000)
Total Net Position	 713,000	_	924,000
Total Liabilities, Deferred Inflows & Net Position	\$ 2,042,000	\$_	2,109,000

For more detailed information see Statement of Net Position presented elsewhere in this report.

Total Net Position decreased from the prior year-end by \$211,000, but to better understand what that means requires a look at the changes in the components of Net Position. The Net Investment in Capital Assets component of Net Position decreased by \$220,000 and closely corresponds to the change in Capital Assets because that is what that component of Net Position represents. This change is discussed more fully in the coming section where we discuss Table 3, Condensed Statement of Changes in Capital Assets.

## MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2016

#### Unaudited

Restricted Net Position increased by \$23,000, primarily to the increase in Restricted Net Position in the agency's Rural Housing Program. In 2015 the USDA permitted the agency to use restricted program resources in the period to reduce an intercompany debt the program had with the Public Housing Program, but when it did Coshocton MHA had to commit to rebuilding the restricted resources in these subsequent years. The increase in the Restricted Net Position in 2016 reflects what restoring of the restricted resources was accomplished in 2016. And Unrestricted Net Position decreased by \$14,000. All programs reported gains from operations (removing the effect of depreciation expense) but those gains were offset by the amount of resources returned to the Restricted Net Position in the Rural Housing Program contributing to the reduction in Unrestricted Net Position.

Current Assets increased from the prior year by \$48,000 (or 15%) and that closely corresponds to the increase in Current Liabilities. Invoices unpaid because of timing issues meant more cash was on hand.

Non-current Liabilities, Deferred Outflow of Resources and Deferred Inflow of Resources all increased sharply, all reflecting increases in balances reported pursuant to GASB 68. GASB 68 is the relatively new accounting standard implemented at 6/30/2015 that requires all governmental entities in Ohio to report what is considered their share of the unfunded pension liability of the state retirement system, in this case the Ohio Public Employees Retirement System (OPERS). By state law all employees of Coshocton MHA are members of OPERS and Coshocton MHA is required to make retirement contributions on behalf of all employees to the OPERS.

The following is a condensed **Statement of Revenues, Expenses & Changes in Net Position**. Coshocton MHA is engaged only in business type activities.

Table 2 – Condensed Statement of Revenues, Expenses & Changes in Net Position (Values Rounded to Nearest Thousand)

Revenues	<u>2016</u>			<u>2015</u>
Tenant Revenues - Rents & Other	\$	202,000	\$	193,000
Operating Subsidies & Grants		1,551,000		1,480,000
Capital Grants		10,000		26,000
Investment Income		0		0
Other Revenues		18,000	-	10,000
<b>Total Revenues</b>		1,781,000		1,709,000
Expenses				
Administrative		447,000		450,000
Tenant Services		44,000		39,000
Utilities		122,000		119,000
Maintenance		263,000		233,000
General		76,000		114,000
Housing Assistance Payments		803,000		810,000
Depreciation		237,000	<b>.</b>	242,000
Total Expenses		1,992,000		2,007,000
Net Increase (Decrease) in Net Position	\$	(211,000)	\$	(298,000)

For more detailed information see Combined Statement of Revenues, Expenses and Changes in Net Position presented elsewhere in this report.

## MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2016

#### Unaudited

Revenues overall increased \$72,000 from the prior period, about 4%. The change was concentrated in Subsidies. Notable increases were in the Public Housing and Section 8 Housing Choice Voucher programs. In the past several years HUD had funded those programs at prorations well below100% and in this period the trend of the programs being funded at slightly higher prorations continued.

Overall expenses decreased by \$15,000, a very modest 1% change, but there were notable changes Maintenance Expenses (a 13% increase of \$30,000) and General Expenses (a 33% decrease of \$38,000). In 2015 General Expenses were unusually high because the agency had to record a significant expense related to its participation in an Ohio PHA healthcare pool and actions taken by the pool to change third party administrators. So the 2016 expense is more in line with what is typical. Maintenance Expenses increased. An increase in unit turnarounds at the Parkview North complex and costs preparing the public housing properties for inspections contributed to it.

The following is a condensed **Statement of Changes in Capital Assets** comparing the balance in capital assets at the year-end versus at the end of the prior year.

Table 3 – Condensed Statement of Changes in Capital Assets (Values Rounded to Nearest Thousand)

	<u>2016</u>	<u>2015</u>
Land and Land Rights	\$ 439,000	\$ 439,000
Buildings & Improvements	7,970,000	7,960,000
Equipment	310,000	310,000
Accumulated Depreciation	(7,185,000)	(6,948,000)
Construction in Progress	 0	 0
Total	1,534,000	1,761,000

Capital Assets dropped by about \$227,000 meaning depreciation on assets outpaced additions to capital assets in the period. The agency had minimal capital additions in the period and those were primarily made using the Capital Fund Program grant.

## MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2016

#### Unaudited

The following is a **comparison of debt outstanding** at the year-end versus at the end of the prior year.

Table 4 - Condensed Statement of Changes in Debt Outstanding (Values Rounded to Nearest Thousand)

	<u>2016</u>	<u>2015</u>	
Current Portion of Debt	\$ 8,000	\$	7,000
Long Term Portion of Debt	660,000		667,000
Total	668,000	· <u> </u>	674,000

Debt was reduced by about \$6000 during year-end 2016. That is the result of regular payments on the loan from the US Department of Agriculture made several years ago to enable the agency to develop rental property owned by Coshocton MHA.

#### **Economic Factors**

While there was some relief in this period, budget problems of the Federal government continue to take a significant toll on the agency's ability to administer its programs because the Authority relies on funding from HUD to operate its programs. Funds to administer the Section 8 Housing Choice Voucher program and the Public Housing program have been cut drastically for several years despite that inflationary pressures on expenses remain a constant. That means the agency continues to be forced to make cuts whenever possible. Ultimately this impacts the agency's ability to maintain its properties and level of service to clients of agency programs.

### **Financial Contact**

Questions concerning this report or requests for additional information should be directed to Gregory J. Darr, Executive Director of the Coshocton Metropolitan Housing Authority, 823 Magnolia Street, Coshocton, Ohio, 43812.

The accompanying notes are an integral part of the financial statements.

#### NOTE 1: DESCRIPTION OF THE HOUSING AUTHORITY AND REPORTING ENTITY

#### **Summary of Significant Accounting Policies**

The financial statements of the Coshocton Metropolitan Housing Authority (the Authority) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

#### **Reporting Entity**

The Authority was created pursuant to the Ohio Revised Code Section 3735.27. The Authority contracts with the United States Department of Housing and Urban Development (HUD) to provide low and moderate income persons with safe and sanitary housing through rent subsidies provided by HUD. The Authority depends on the subsidies from HUD to operate.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, in that the financial statements include all organizations, activities, and functions for which the Authority is financially accountable. This report includes all activities considered by management to be part of the Authority by virtue of Section 2100 of the Codification of Governmental Accounting and Financial Reporting Standards.

Section 2100 indicates that the reporting entity consists of a) the primary government, b) organizations for which the primary government is financially accountable, and c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of a reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity.

It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. The financial benefit or burden relationship exists if the primary government a) is entitled to the organization's resources; b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization; or c) is obligated in some manner for the debt of the organization.

Management believes the financial statements included in this report represent all of the funds of the Authority over which the Authority is financially accountable.

#### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Basis of Presentation**

The Authority's basic financial statements consist of a Statement of Net Position, a Statement of Revenue, Expenses, and Changes in Net Position, and a Statement of Cash Flows.

The Authority uses a single enterprise fund to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

Enterprise fund reporting focuses on the determination of the change in net assets, financial position and cash flows. An enterprise fund may be used for any activity for which a fee is charged to external users for goods and services.

#### **Measurement Focus**

The enterprise fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the Authority are included on the statement of net position. The Statement of Revenues, Expenses and Changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the Authority finances and meets the cash flow needs of its enterprise activity.

#### **Enterprise Fund**

The Authority uses the proprietary fund to report on its financial position and the results of its operations for the Section 8 and public housing programs. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Funds are classified into three categories: governmental, proprietary and fiduciary. The Authority uses the proprietary category for its programs.

The following are the various programs which are included in the single enterprise fund:

#### **Projects - Conventional Public Housing and Capital Fund Programs**

Under the Conventional Public Housing Program, the Authority rents units that it owns to low-income households. The Conventional Public Housing Program is operated under an Annual Contributions Contract (ACC) with HUD, and HUD provides Operating Subsidy to enable the PHA to provide the housing at a rent that is based upon 30 percent of household income. The Conventional Public Housing Program also includes the Capital Fund Program, which is the primary funding source for physical (i.e. capital) and management improvements to the Authority's properties. Funds are provided by formula allocation and based on size and age of the units.

#### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Housing Choice Voucher Program**

Under the Housing Choice Voucher Program, the Authority administers contracts with independent landlords that own the property. The Authority subsidizes the family's rent through a Housing Assistant Payment made to the landlord. The program is administered under an Annual Contributions Contract (ACC) with HUD. HUD provides Annual Contributions Funding to enable the Authority to structure a lease that sets the participants' rent at 30 percent of household income.

#### **Rural Housing Program**

The United States Department of Agriculture provided a low interest loan to the Coshocton Metropolitan Housing Authority to finance the construction of the dwelling units and then also provides rental assistance to the low to moderate-income families that rent them from the owner, Coshocton MHA.

#### **Accounting and Reporting for Nonexchange Transactions**

Nonexchange transactions occur when the Public Housing Authority (PHA) receives (or gives) value without directly giving equal value in return. GASB 33 identifies four classes of nonexchange transactions as follows:

- Derived tax revenues: result from assessments imposed on exchange transactions (i.e., income taxes, sales taxes and other assessments on earnings or consumption).
- Imposed nonexchange revenues: result from assessments imposed on non-governmental
  entities, including individuals, other than assessments on exchange transactions (i.e., property
  taxes and fines).
- Government-mandated nonexchange transactions: occur when a government at one level
  provides resources to a government at another level and requires the recipient to use the
  resources for a specific purpose (i.e., federal programs that state or local governments are
  mandated to perform).
- Voluntary nonexchange transactions: result from legislative or contractual agreements, other than exchanges, entered into willingly by the parties to the agreement (i.e., certain grants and private donations).

PHA grants and subsidies will be defined as a government-mandated or voluntary nonexchange transactions.

GASB 33 establishes two distinct standards depending upon the kind of stipulation imposed by the provider.

- Time requirements specify (a) the period when resources are required to be used or when use may begin (for example, operating or capital grants for a specific period) or (b) that the resources are required to be maintained intact in perpetuity or until a specified date or event has occurred (for example, permanent endowments, term endowments, and similar agreements). Time requirements affect the timing of recognition of nonexchange transactions.
- Purpose restrictions specify the purpose for which resources are required to be used, (i.e., capital grants used for the purchase of capital assets). Purpose restrictions do not affect when a nonexchange transaction is recognized. However, PHAs that receive resources with purpose restrictions should report resulting net assets, equity, or fund balance as restricted.

#### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Cash and Cash Equivalents**

For the purpose of the statement of cash flows, cash and cash equivalents include all highly liquid debt instruments with original maturities of three months or less, and all non-negotiable certificates of deposits regardless of maturity.

#### **Investments**

Investments are restricted by the provisions of the HUD regulations (See Note 3). Investments are valued at market value. Interest income earned in fiscal year ending June 30, 2016 totaled \$149.

#### **Receivables - Net of Allowance**

Bad debts are provided on the allowance method based on management's evaluation of the collectability of outstanding tenant receivable balances at the end of the year. The allowance for doubtful accounts at June 30, 2016 was \$12,320.

#### **Prepaid Expenses**

Payments made to vendors for services that will benefit periods beyond June 30, 2016, are recorded as prepaid expenses using the consumption method. A current asset for the amount is recorded at the time of the purchase and expense is reported in the year in which the services are consumed.

#### **Inventory**

The Authority's inventory is comprised of maintenance materials and supplies. Inventory is valued at cost and uses the first-in, first-out (FIFO) flow assumption in determining cost.

The consumption method is used to record inventory. Under this method, the acquisition of materials and supplies is recorded initially in inventory accounts and charges as expenditures when used. There was no allowance for obsolete inventory at June 30, 2016.

#### **Capital Assets**

Capital assets are stated at cost and depreciation is computed using the straight-line method over an estimated useful life of the assets. The cost of normal maintenance and repairs, that do not add to the value of the asset or materially extend the asset life are expensed as incurred. The Authority's capitalization policy is \$1,000. The following are the useful lives used for depreciation purposes:

Buildings and Improvements 15-40 years Furniture and Equipment 3-7 years

#### **Due From/To Other Programs**

On the basic financial statements, inter-program receivables and payables listed on the FDS are eliminated.

#### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A summary of changes in inter-company Accounts Receivable and Accounts Payable:

	Balance				E	Balance
	6/	30/2015	C	hange	6/	30/2016
Public Housing Due From Section 8 HCV	\$	95,555	\$	(1,890)	\$	93,665
Public Housing Due From Other Federal Program 1		21,215		24,485		45,700
Total Due From	\$	116,770	\$	22,595	\$	139,365

#### **Due From/To Other Programs**

In fiscal year-end 2012, the Authority adopted a plan to repay the inter-company accounts payable between the Other Federal Program 1 (the Parkview North Property) and the Public Housing program. In fiscal year-end 2014 the Board adopted a resolution acknowledging the 2012 repayment plan and authorizing the Executive Director of the Authority to make payments from the Parkview North property to the Public Housing program to achieve the goal of the 2012 plan. The 2012 plan called for the repayment to be completed at some point in calendar year 2016.

#### **Accrued Liabilities**

All payables and accrued liabilities are reported in the basic financial statements.

#### **Compensated Absences**

The Authority accounts for compensated absences in accordance with GASB Statement No. 16. Sick leave and other compensated absences with similar characteristics are accrued as a liability based on the sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments. To calculate the liability, these accumulations are reduced to the maximum amount allowed as a termination payment. All employees who meet the termination policy of the Authority for years of service are included in the calculation of the compensated absences accrual amount.

Vacation leave and other compensated absences with similar characteristics are accrued as a liability as the benefits are earned by the employees if both the following conditions are met: 1) The employees' rights to receive compensation are attributable to services already rendered and are not contingent on a specific event that is outside the control of the employer and employee, 2) It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

In the proprietary fund, the compensated absences are expensed when earned with the amount reported as a liability.

#### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The following is a summary of changes in the compensated absence liability.

	Balance			Balance	Due Within
	06/30/21015	Increases	Decreases	6/30/2016	One Year
Compensated Absences	\$ 65,021	\$ 24,761	\$ (38,892)	\$ 50,890	\$ 0

#### Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is recorded as restricted when there are limitations imposed on their use by internal or external restrictions.

#### **Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the Authority, these revenues are tenant revenues, operating grant from HUD and other miscellaneous revenue.

Operating expenses are those expenses that are expended directly for the primary activity of the proprietary fund. For the Authority, these expenses are administrative, utilities, maintenance, PILOT, insurance, depreciation, bad debt and housing assistance payments.

### Capital Grant

This represents grants provided by HUD that the Authority spends on capital assets.

#### **Budgetary Accounting**

The Authority annually prepares its program budgets as prescribed by the Department of Housing and Urban Development and Department of Agriculture. These budgets are adopted by the Board of the Housing Authority and submitted to the Federal agencies, as applicable.

#### **Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### **Pensions**

For purposes of measuring the net position liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position on the pension plans, and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

#### **Deferred Outflows/Inflows of Resources**

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenses/expenditure) until then.

For the Authority, deferred outflows of resources are reported on the government-wide statement of net position for pension. The deferred outflows of resources related to pension are explained in Note 6.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the Authority, deferred inflows of resources include pension. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 6)

#### NOTE 3: **DEPOSITS AND INVESTMENTS**

#### **Deposits**

State statutes classify monies held by the Authority into three categories:

- A. Active deposits are public deposits necessary to meet demands on the treasury. Such monies must be maintained either as cash in the Authority's Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.
- B. Inactive deposits are public deposits that the Authority has identified as not required for use within the current two-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.
- C. Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the Authority's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by collateral held by the Authority, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

#### NOTE 3: **DEPOSITS AND INVESTMENTS** (Continued)

At fiscal year end June 30, 2016, the carrying amount of the Authority's deposits totaled \$295,208 and its bank balance was \$298,409. Based on the criteria described in GASB Statement No. 40, *Deposits and Investments Risk Disclosures*, as of June 30, 2016, \$289,409 was covered by the Federal Depository Insurance Corporation.

Custodial credit risk is the risk that in the event of bank failure, the Authority will not be able to recover the deposits. All deposits are collateralized with eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at the Federal Reserve Banks or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the Authority.

#### **Investments**

In accordance with the Ohio Revised Code and HUD investment policy, the Authority is permitted to invest in certificates of deposit, savings accounts, money market accounts, certain highly rated commercial paper, obligations of certain political subdivision of Ohio and the United States government and its agencies, and repurchase agreements with any eligible depository or any eligible dealers. Public depositories must give security for all public funds on deposit. Repurchase agreements must be secured by the specific qualifying securities upon which the repurchase agreements are based.

The Authority is prohibited from investing in any financial instruments, contracts, or obligations whose value or return is based or linked to another asset or index, or both, separate from the financial instrument, contract, or obligation itself (commonly known as a derivative). The Authority is also prohibited from investing in reverse purchase agreements.

*Interest Rate Risk* - The Authority does not have a formal investment policy that limits investments as a means of managing its exposure to fair value losses arising from increasing interest rates. However, it is the Authority's practice to limit its investments to three years or less.

*Credit Risk* - HUD requires specific collateral on individual accounts in excess of amounts insured by the Federal Deposit Insurance Corporation. The Authority's depository agreement specifically requires compliance with HUD requirements.

Concentration of Credit Risk - The Authority places no limit on the amount that may be invested with any one issuer.

The Authority had no investments at June 30, 2016.

### NOTE 3: **DEPOSITS AND INVESTMENTS** (Continued)

	6/30/20

Total Accumulated Depreciation		(6,948,273)		(236,760)		1		(7,185,032)
Depreciable Assets, Net		1,322,478		(227,284)		1		1,095,195
Total Capital Assets, Net	\$	1,761,016	\$	(227,284)	\$	1	\$	1,533,733

#### NOTE 5: **RISK MANAGEMENT**

The Authority maintains comprehensive insurance coverage with private carriers for health, real property, building contents and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. Workers' compensation benefits are provided. There was no significant reduction in coverage and no settlements exceeded insurance coverage during the past three years.

### NOTE 6: **DEFINED BENEFIT PENSION PLAN**

#### Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the Authority's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the Authority's obligation for this liability to annually required payments. The Authority cannot control benefit terms or the manner in which pensions are financed; however, the Authority does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

#### NOTE 6: **DEFINED BENEFIT PENSION PLAN** (Continued)

Plan Description – Ohio Public Employees Retirement System (OPERS)

**Plan Description** – Authority employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plan. The traditional pension plan is a cost-sharing, multiple-employer defined pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contributions features. While members (e.g. Authority employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosures focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <a href="https://www.opers.org/financial/reports.shtml">https://www.opers.org/financial/reports.shtml</a>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A  Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	Group B 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Group C  Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements:  Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula:  2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

#### NOTE 6: **DEFINED BENEFIT PENSION PLAN** (Continued)

#### Plan Description – Ohio Public Employees Retirement System (OPERS)

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State	
	and Local	
2015 Statutory Maximum Contribution Rates		
Employer	14.0 %	
Employee	10.0 %	
2015 Actual Contribution Rates		
Employer:		
Pension	12.0 %	
Post-employment Health Care Benefits	2.0	
Total Employer	14.0 %	
Employee	10.0 %	

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Authority's contractually required contribution was \$39,923 for the fiscal year ending June 30, 2016.

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on the Authority's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

#### NOTE 6: **DEFINED BENEFIT PENSION PLAN** (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Proportionate Share of the Net	
Pension Liability	\$421,946
Proportion of the Net Pension	
Liability	0.002436%
Pension Expense	\$59,287
ange in Proportionate Percentage from Prior Year	.000405%

At June 30, 2016, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

### **Deferred Outflows of Resources**

Net difference between projected and actual earnings on pension plan investments	\$124,026
Authority contributions subsequent to the	•0.404
measurement date	20,494
Total Deferred Outflows of Resources	\$144,520
Deferred Inflows of Resources	
Differences between expected and	
actual experience	\$8,153
Changes in proportion and differences	
between City contributions and proportionate	
share of contributions	32,229
Total Deferred Inflows of Resources	\$40,382

\$20,494 reported as deferred outflows of resources related to pension resulting from Authority contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

### Year Ending December 31:

2017	\$12,255
2018	14,238
2019	29,084
2020	28,067
Total	\$83,644

#### NOTE 6: **DEFINED BENEFIT PENSION PLAN** (Continued)

#### **Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Wage Inflation
Future Salary Increases, including inflation
COLA or Ad Hoc COLA

Investment Rate of Return Actuarial Cost Method 3.75 percent
4.25 to 10.05 percent including wage inflation
Pre 1/7/2013 retirees: 3 percent, simple;
Post 1/7/2013 retirees: 3 percent, simple
through 2018, then 2.8 percent, simple
8 percent
Individual Entry Age

Mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur

#### NOTE 6: **DEFINED BENEFIT PENSION PLAN** (Continued)

Actuarial Assumptions – OPERS (Continued)

on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 0.4 percent for 2015.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2015 and the long-term expected real rates of return:

		Weighted Average				
		Long-Term Expected				
	Target	Real Rate of Return				
Asset Class	Allocation	(Arithmetic)				
Fixed Income	23.00 %	2.31 %				
Domestic Equities	20.70	5.84				
Real Estate	10.00	4.25				
Private Equity	10.00	9.25				
International Equities	18.30	7.40				
Other investments	18.00	4.59				
Total	100.00 %	5.28 %				

Discount Rate The discount rate used to measure the total pension liability was 8 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the Authority's proportionate share of the net pension liability calculated using the current period discount rate assumption of 8 percent, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (7 percent) or one-percentage-point higher (9 percent) than the current rate:

	Current				
	1% Decrease	Discount Rate	1% Increase		
	(7.00%)	(8.00%)	(9.00%)		
Authority's proportionate share					
of the net pension liability	\$672,263	\$421,946	\$210,811		

#### NOTE 7: **POST-EMPLOYMENT BENEFITS**

#### A. Plan Description

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan—a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan—a defined contribution plan; and the Combined Plan—a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains two cost-sharing multiple-employer defined benefit post-employment health care trusts, which fund multiple health care plans including medical coverage, prescription drug coverage, deposits to a Health Reimbursement Arrangement and Medicare Part B premium reimbursements, to qualifying benefit recipients of both the Traditional Pension and the Combined plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including OPERS sponsored health care coverage.

In order to qualify for health care coverage, age-and-service retirees under the Traditional Pension and Combined plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45. Please see the Plan Statement in the OPERS 2014 CAFR for details.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <a href="https://www.opers.org/financial/reports.shtml#CAFR">https://www.opers.org/financial/reports.shtml#CAFR</a>, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

#### **B.** Funding Policy

The Ohio Revised Code provides the statutory authority requiring public employers to fund health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2015 and 2016, State and Local employers contributed at a rate of 14.0% of earnable salary. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

#### NOTE 7: **POST-EMPLOYMENT BENEFITS** (Continued)

### B. Funding Policy (Continued)

OPERS maintains three health care trusts. The two cost-sharing, multiple-employer trusts, the 401(h) Health Care Trust and the 115 Health Care Trust, work together to provide health care funding to eligible retirees of the Traditional Pension and Combined plans. The third trust is a Voluntary Employee's Beneficiary Association (VEBA) that provides funding for a Retiree Medical Account for Member-Directed Plan members. Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 2.0% during calendar year 2015. As recommended by OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2016 remained at 2.0% for both plans. The Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited to the VEBA for participants in the Member-Directed Plan for 2015 was 4.5%. The portion of actual Authority contributions for the year ended June 30, 2016, 2015, and 2014, which were used by OPERS to fund post-employment benefits were \$6,654, \$6,941, and \$5,179, respectively.

#### NOTE 8: LONG-TERM DEBT

The Authority is obligated on a mortgage payable to the United States Department of Agriculture-Rural Development, which matures in November 2040. The date of the loan was October 30, 1990 for the amount of \$744,314 with an interest rate of 9 percent. Rural Development requires monthly installments of \$1,579. This monthly installment represents discounted monthly payments of \$4,068 of which is subsidized by the U.S. Department of Agriculture - Rural Development.

The following is a summary of changes in long-term debt for the year ended June 30, 2016:

		Balance					I	Balance	Due	Within
Description	06	5/30/21015	A	ditions	De	eletions	6	/30/2016	On	e Year
Loan Payable	\$	675,221	\$	-	\$	(7,285)	\$	667,936	\$	7,969
Net Pension Liability		342,656		79,290		-		421,946		-
Compensated Absences		65,021		24,761		(38,892)		50,890		_
Total	\$	1,082,898	\$	104,051	\$	(46,177)	\$	1,140,772	\$	7,969

#### NOTE 8: **LONG-TERM DEBT** (Continued)

Discounted debt maturities for the period after June 30, 2016 are estimated as follows:

Maturity	Principal	Interest		
Date	Amount	Amount	Total	
2017	\$ 7,969	\$ 59,790	\$ 67,759	
2018	8,716	59,043	67,759	
2019	9,533	58,226	67,759	
2020	10,428	57,331	67,759	
2021	11,406	56,353	67,759	
2022-2026	75,235	263,562	338,797	
2027-2031	117,794	221,003	338,797	
2032-2036	184,428	154,369	338,797	
2037-2040	242,427	51,243	293,670	
Total	\$ 667,936	\$ 980,920	\$ 1,648,856	

#### NOTE 9: **RESTRICTED NET POSITION**

The Authority had the following restricted net position at June 30, 2016:

Parkview North Replacement Reserve	\$ 67,702
Total Restricted Net Position	\$ 67,702

#### NOTE 10: **CONTINGENCIES**

#### **Grants**

Amounts grantor agencies pay to the Authority are subject to audit and adjustments by the grantor, principally the federal government. Grantors may require refunding any disallowed costs or excess reserve balances. Management cannot presently determine amounts grantors may disallow or recapture. However, based on prior experience, management believes any such disallowed claims or recaptured amounts would not have a material adverse effect on the overall financial position of the Authority at June 30, 2016.

#### Litigations

In the normal course of operations, the Authority may be subject to litigations and claims. At June 30, 2016, the Authority was not aware of any such matters.

# COSHOCTON METROPOLITAN HOUSING AUTHORITY COSHOCTON COUNTY, OHIO NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2016 (CONTINUED)

#### NOTE 11: 2003 INSPECTOR GENERAL REPORT

#### **Inspector General Audit**

The financial data schedule submitted to REAC included a non-current receivable in the Low Rent Program and an offsetting liability in the State and Local program in the amount of \$453,930 related to an audit finding identified in a 2003 report by the Inspector General's Office. In accordance with generally accepted accounting principles, these amounts are not reflected in the agency wide financial statements because they are inter-agency receivables and payables. In addition management believes it is not likely that the receivable will ever be fully collected and the payable will ever be fully repaid. This information was reflected on the financial data schedule submitted to REAC as instructed by HUD.

Coshocton MHA signed a repayment agreement with HUD related to this amount due to the Public Housing program. The agreement specifies that laundry income the PHA collects will be applied against the amount to be paid back to the Public Housing program. Based on this arrangement, it will take well over 100+ years for the liability to be satisfied.

The amount applied to the balance during the audit period was \$1,469.

	Payment	
Balance	Made in

## COSHOCTON METROPOLITAN HOUSING AUTHORITY COSHOCTON COUNTY, OHIO NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED JUNE 30, 2016

#### NOTE 1: PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards is a summary of the federal grant activity of the Authority. This Schedule has been prepared on the accrual basis of accounting as required by accounting principles generally accepted in the United States of America. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this Schedule may differ from amounts presented in or used in the preparation of the basic financial statements.

#### NOTE 2: SUMMARY OF SIGINIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The Authority has elected to not use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

December 23, 2016

Coshocton Metropolitan Housing Authority Coshocton County 823 Magnolia Street Coshocton, Ohio 43812

To the Board of Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the **Coshocton Metropolitan Housing Authority**, Coshocton County, (the Authority) as of and for the year ended June 30, 2016, and the related notes to the financial statements, and have issued our report thereon dated December 23, 2016.

#### Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the Authority's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Authority's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Independent Auditor's Report on Internal Control
Over Financial Reporting and on Compliance and
Other Matters Required by *Government Auditing Standards*Page 2

#### Compliance and Other Matters

As part of reasonably assuring whether the Authority's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

#### Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

December 23, 2016

ed Public Accountants, A.C.

Coshocton Metropolitan Housing Authority Coshocton County 823 Magnolia Street Coshocton, Ohio 43812

To the Board of Commissioners:

#### Report on Compliance for the Major Federal Program

We have audited the **Coshocton Metropolitan Housing Authority's** (the Authority) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Coshocton Metropolitan Housing Authority's major federal program for the year ended June 30, 2016. The *Summary of Audit Results* in the accompanying schedule of audit findings identifies the Authority's major federal program.

#### Management's Responsibility

The Authority's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to opine on the Authority's compliance for the Authority's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the Authority's major program. However, our audit does not provide a legal determination of the Authority's compliance.

Coshocton Metropolitan Housing Authority
Coshocton County
Independent Auditor's Report on Compliance with Requirements
Applicable to the Major Federal Program and on Internal Control
Over Compliance Required by the Uniform Guidance
Page 2

#### Opinion on the Major Federal Program

In our opinion, the Coshocton Metropolitan Housing Authority complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2016.

#### Report on Internal Control Over Compliance

The Authority's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the Authority's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on the major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
