INDEPENDENT AUDITOR'S REPORT

Cuyahoga County District Board of Health
Cuyahoga County
5550 Venture Drive
Parma, Ohio 44130

To the Board of Trustees:

Report on the Financial Statements

We have audited the accompanying cash basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Cuyahoga County District Board of Health, Cuyahoga County, Ohio, (the District), as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with the cash accounting basis Note 2C describes. This responsibility includes determining that the cash accounting basis is acceptable for the circumstances. Management is also responsible for designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Cuyahoga County District Board of Health, Cuyahoga County, Ohio, as of December 31, 2016, and the respective changes in cash financial position and the respective budgetary comparison for the General Fund and HIV Emergency Relief Project Grants Fund thereof for the year then ended in accordance with the accounting basis described in Note 2C.

Accounting Basis

We draw attention to Note 2C of the financial statements, which describes the accounting basis. The financial statements are prepared on the cash basis of accounting, which differs from generally accepted accounting principles. We did not modify our opinion regarding this matter.

Other Matters

Supplemental Information

Our audit was conducted to opine on the financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

We applied no procedures to Management's Discussion & Analysis as listed in the table of contents. Accordingly, we express no opinion or any other assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 29, 2017, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

Cuyahoga County District Board of Health
Cuyahoga County
Management's Discussion and Analysis
For the Year Ended December 31, 2016
Unaudited

This discussion and analysis of the Cuyahoga County District Board of Health (the District) financial performance provides an overall review of the District's financial activities for the year ended December 31, 2016 within the limitations of the District's cash basis accounting. Readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

Highlights

Key highlights for 2016 are as follows:

- Net position of governmental activities decreased \$149,834 or 2% from 2015 to 2016.
- The District's general receipts are primarily property taxes and grants.

Using the Basic Financial Statements

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the District's cash basis of accounting.

Report Components

The statement of net position and the statement of activities provide information about the cash activities of the District as a whole. Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the District as a way to segregate money whose use is restricted to a particular specified purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the basic financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanation and detail regarding the information reported in the statements.

Basis of Accounting

The basis of accounting is a set of guidelines that determine when financial events are recorded. The District has elected to present its financial statements on the cash basis of accounting per Auditor of State Bulletin 2006-002 and GASB Statement No. 34. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Under the District's cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the cash basis of accounting.

Unaudited

Reporting the District as a Whole

The statement of net position and the statement of activities reflect how the District did financially during 2016, within the limitations of cash basis accounting. The statement of net position presents the cash balances of the governmental activities of the District at year-end. The statement of activities compares cash disbursements with program receipts for each governmental program. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function draws from the District's general receipts.

These statements report the District's cash position and the changes in cash position. Keeping in mind the limitations of the cash basis of accounting, you can think of these changes as one way to measure the District's financial health. Over time, increases or decreases in the District's cash position is one indicator of whether the District's financial health is improving or deteriorating. When evaluating the District's financial condition, you should also consider other nonfinancial factors as well, such as the District's property tax base, the condition of the District's capital assets and infrastructure, the extent of the District's debt obligations, the reliance on non-local financial resources for operations and the need for continued growth in the major local revenue sources such as property tax and local government support.

In the statement of net position and the statement of activities, the District reports:

All of the District's programs and basic services are reported as governmental activities including administration, environmental public health, prevention & wellness, epidemiology, surveillance and informatics, and capital outlay. Grants and property taxes finance most of these activities. Benefits provided through governmental activities are not necessarily paid for by the people receiving them.

Reporting the District's Most Significant Funds

Fund financial statements provide detailed information about the District's major funds – not the District as a whole. The District establishes separate funds to better manage its many activities and to help demonstrate that money that is restricted as to how it may be used is being spent for the intended purpose. Most of the District's activities are reported in the governmental funds which focus on how money flows into and out of those funds and the balances left at year end available for spending in future periods.

Governmental Funds - Most of the District's activities are reported in governmental funds. The governmental funds financial statements provide a detailed view of the District's governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent to finance the District's programs. The District's significant governmental funds are presented on the financial statements in separate columns. The information for nonmajor funds (funds whose activity or balances are not large enough to warrant separate reporting) is combined and presented in total in a single column. The District's major governmental funds are the General and HIV Emergency Relief Project Grants funds. The programs reported in governmental funds are closely related to those reported in the governmental activities section of the entity-wide statements.

The District as a Whole

Table 1 provides a comparison of the District's net position for 2016 compared to 2015 on a cash basis:

TABLE 1
Statement of Net Position

	Governmental Activities	
	2016	2015
Assets		
Equity in Pooled Cash and Cash Equivalents	\$7,119,243	\$7,269,077
 Net Position		
Restricted for:		
Other Purposes	701,129	661,028
Unrestricted	6,418,114	6,608,049
 Total Net Position	 \$7,119,243	 \$7,269,077

As mentioned previously, net position of governmental activities decreased \$149,834 or 2% during 2016. This decrease is due primarily to the timing of reimbursement for various grants and fluctuation in grant funding.

Cuyahoga County District Board of Health
Cuyahoga County
Management's Discussion and Analysis
For the Year Ended December 31, 2016
Unaudited

Table 2 reflects the change in net position in 2016 and 2015. A comparative analysis of government-wide data has been presented for years 2016 and 2015.

TABLE 2
Change in Net Position

	Governmental Activities		
	2016	2015	Difference
Receipts			
Program Receipts:			
Charges for Services and Sales	\$4,883,695	\$4,875,846	\$7,849
Operating Grants and Contributions	11,345,752	11,843,805	(498,053)
<i>Total Program Receipts</i>	<u>16,229,447</u>	<u>16,719,651</u>	<u>(490,204)</u>
General Receipts:

Other	254,267	132,886	121,381
Transfers	0	(35,000)	35,000
<i>Total General Receipts</i>	<u>4,575,104</u>	<u>4,412,036</u>	<u>163,068</u>
<i>Total Receipts</i>	<u>20,804,551</u>	<u>21,131,687</u>	<u>(327,136)</u>
Disbursements			
Administration	1,865,293	1,979,607	(114,314)
Environmental Public Health	5,242,274	5,806,570	(564,296)
Prevention & Wellness	12,030,068	11,662,168	367,900
Epidemiology, Surveillance and Informatics	1,617,051	1,550,649	66,402
Capital Outlay	199,699	165,885	33,814
<i>Total Disbursements</i>	<u>20,954,385</u>	<u>21,164,879</u>	<u>(210,494)</u>
Change in Net Position	(149,834)	(33,192)	(116,642)
Net Position, Beginning of Year	<u>7,269,077</u>	<u>7,302,269</u>	<u>(33,192)</u>
Net Position, End of Year	<u><u>\$7,119,243</u></u>	<u><u>\$7,269,077</u></u>	<u><u>(\$149,834)</u></u>

Program receipts of \$16,229,447 in 2016 and \$16,719,651 in 2015 are primarily comprised of grants, environmental permits, fees and licenses, and charges for immunizations, lead testing, health assessments and health education or promotion and seminars. The decrease of \$490,204 in program receipts is primarily due to the timing of reimbursement for various grants and fluctuation in grant funding. Also, program revenues decreased in School Contracts, Immunization Program and Medicaid State reimbursements for various programs.

Cuyahoga County District Board of Health
Cuyahoga County
Management's Discussion and Analysis
For the Year Ended December 31, 2016
Unaudited

General receipts represent 21.99 percent of total receipts in 2016 and 21.01 percent of 2015 receipts. Property taxes make up 16.11 and 15.83 percent of total receipts in 2016 and 2015, respectively. The majority of disbursements come from administration, environmental public health and prevention & wellness disbursements. These three make up 91.33 percent of disbursements in 2016 and 91.89 percent of disbursements in 2015.

Governmental Activities

If you look at the Statement of Activities on page 12, you will see that the first column lists the major services provided by the District. The next column identifies the costs of providing these services. The major program disbursements for governmental activities are for District health programs. The next two columns of the Statement entitled Program Receipts identify amounts paid by people who are directly charged for the service and grants received by the District that must be used to provide a specific service. The Net Receipts (Disbursements) and Change in Net Position column compares the program receipts to the cost of the service. This "net cost" amount represents the cost of the service which ends up being paid from money provided by local taxpayers. These net costs are paid from the general receipts which are presented at the bottom of the Statement.

A comparison between the total cost of services and the net cost for both the current and prior years is presented in Table 3.

TABLE 3
Governmental Activities

	Total Cost of Services 2016	Net Cost of Services 2016	Total Cost of Services 2015	Net Cost of Services 2015
Administration	\$1,865,293	\$1,865,293	\$1,979,607	\$1,979,607
Environmental Public Health	5,242,274	368,341	5,806,570	163,168
Prevention & Wellness	12,030,068	1,636,759	11,662,168	1,799,108
Epidemiology, Surveillance and Informatics	1,617,051	654,846	1,550,649	337,460
Capital Outlay	199,699	199,699	165,885	165,885
<i>Total</i>	<u>20,954,385</u>	<u>4,724,938</u>	<u>21,164,879</u>	<u>4,445,228</u>

The District has tried to limit its dependence upon property taxes and local subsidies by actively pursuing grants and charging rates for services that are closely related to costs. Only 21.83 percent of the District's costs are supported through property taxes, unrestricted grants and other general receipts.

Cuyahoga County
Management's Discussion and Analysis
For the Year Ended December 31, 2016
Unaudited

The District's Funds

Total governmental funds had receipts of \$20,804,551, and disbursements of \$20,954,385, for 2016 and receipts of \$21,166,687, and disbursements of \$21,164,879 for 2015. From 2015 to 2016, the fund balance of the general fund decreased \$51,831. The decrease in the fund balance of the general fund was primarily due to increases in salaries & fringe benefits caused by the 27th pay that was reflected in 2015. This led to an increase in OPERS and Medicare expenditures. Additional increases were due to the 4% across-the-board salary increases. Timing of salary adjustments to grants for the 27th pay was not reflected in 2015 due to the 27th pay posting on December 31, 2015.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

General fund original receipts were budgeted at \$8,991,944 and final receipts were budgeted at \$8,798,295 while actual receipts were \$9,347,639 for 2016. Original disbursements and other financing uses were budgeted at \$10,038,061, and final disbursements and other financing uses were budgeted at \$9,915,550 while actual disbursements and other financing uses were \$9,399,470 for 2016. Actual receipts were higher than the final budgeted receipts mainly due to increases in fines, licenses and permits, intergovernmental and gifts receipts. Actual disbursements were lower than final budgeted disbursements due to less expenditures than planned, namely administration, environmental public health, prevention & wellness and capital outlay.

Debt and Capital Assets

The District currently has no outstanding debt. The District has chosen not to present capital assets as part of its financial statements. The District does, however, track their capital assets even though they are not presented.

Current Issues

The challenge for all governments is to provide quality services to the public while staying within the restrictions imposed by limited, and in some cases shrinking, funding.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to reflect the District's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to Judy Wirsching, Chief Financial Officer, Cuyahoga County District Board of Health, 5550 Venture Drive, Parma, Ohio 44130.

Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Note 1 – Description of the District and Reporting Entity

The Cuyahoga County District Board of Health, Cuyahoga County, Ohio (the District) is a body corporate and politic established to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District (general health) administers and enforces, within its jurisdiction, all public health and sanitation laws of the State of Ohio. The District provides public health services for the prevention or restriction of disease. In addition to the required programs, the District adopts regulations and provides programs to enable residents of the District to live in a healthy and environmentally safe community. The District is comprised of 36 cities, 19 villages and two townships within Cuyahoga County representing over 850,000 residents. The five-member Board of Trustees is appointed by the District Advisory Council which consists of the President of the Board of County Council, the chief executive of each municipal corporation not constituting a city health district and the chairman of the board of trustees of each township. The Board appoints a Health Commissioner and can hire and fix compensation of employees. The District is dependent upon the County to provide facilities and legal counsel and act as custodian for its funds. The budget is approved by the District which is responsible for fiscal management through its authority to enter into contracts and prepare financial reports. The District is not part of the reporting entity of the County of Cuyahoga.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the Board of Trustees appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. The District is also financially accountable for any organizations for which the District approves the budget, the issuance of debt or the levying of taxes. Component units also include legally separate, tax-exempt entities whose resources are for the direct benefit of the District, are accessible to the District and are significant in amount to the District. The District has no component units.

The District participates in the Public Entities Pool of Ohio (PEP), a public entity risk pool. This organization is presented in Note 8 to the basic financial statements.

The District's management believes these financial statements present all activities for which the District is financially accountable.

Note 2 – Summary of Significant Accounting Policies

As discussed further in Note 2.C, these financial statements are presented on a cash basis of accounting. This cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. Following are the more significant of the District's accounting policies.

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

A. Basis of Presentation

The District's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government. The statements distinguish between those activities of the District that are governmental and those that are considered business-type. Governmental activities generally are financed through taxes, intergovernmental receipts or other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The District has no business-type activities.

The statement of net position presents the cash balances of the governmental activities of the District at year end. The statement of activities compares disbursements with program receipts for each of the District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the District is responsible. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on a cash basis or draws from the District's general receipts.

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

B. Fund Accounting

The District uses fund accounting to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Funds are used to segregate resources that are restricted as to use. The funds of the District are divided into two categories, governmental and fiduciary.

Cuyahoga County District Board of Health
Cuyahoga County

Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Governmental Funds

Governmental funds are financed primarily from taxes, intergovernmental receipts (e.g. grants), and other nonexchange transactions. Monies are assigned to the various governmental funds according to the purposes for which they may or must be used. The following are the District's major governmental funds:

General Fund - The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

HIV Emergency Relief Project Grants Fund - This fund receives federal grant money to provides HIV- related services to those living with HIV who do not have sufficient health care coverage or financial resources for coping with HIV disease. Program goals include reducing new HIV infections, increasing access to care and improving health outcomes for people living with HIV, and reducing HIV-related health disparities and health inequities. Program services include core medical as well as support services.

The other governmental funds of the District account for the proceeds of all other grants whose uses are restricted to expenditures for specific health related purposes.

Fiduciary Funds

The fiduciary funds category is split into four classifications: pension trust funds, investments trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are not available to support the District's own programs. The District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds accounts for: Employee Benefits - Deposits held for an employee flexible benefit account, and for deposits held from payroll deductions to cover the portion of the Health Insurance premiums that are paid by the CCBH employees. In addition, the Lead Abatement fund accounts for deposits held as matching funds to be used toward the total construction costs relative to lead hazard control interventions. Funds are paid by homeowners and/or city funded programs, and released to contractor upon completion of remediation.

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

C. Basis of Accounting

The District's financial statements are prepared using the cash basis of accounting. Except for modifications having substantial support, receipts are recorded in the District's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred. Any such modifications made by the District are described in the appropriate section in this note.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued liabilities and the related expenses) are not recorded in these financial statements.

D. Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the district may appropriate. The appropriations resolution is the District Board's authorization to spend resources and sets limits on cash disbursements plus encumbrances at the level of control set by statute. The legal level of control has been established at the object level for all funds. The County Budget Commission must also approve the annual appropriation measure. Grant funds are appropriated one time and the appropriations carryover from year to year until the grant is closed. For the general fund, unencumbered appropriations lapse at year-end.

ORC Section 5705.28(C) (1) requires the District to file an estimate of contemplated revenue and expenses with the municipalities and townships within the District by about June 1 (forty-five days prior to July 15). The County Office of the Fiscal Officer cannot allocate property taxes from the municipalities and townships within the District if the filing has not been made.

ORC Section 3709.28 establishes budgetary requirements for the District, which are similar to ORC Chapter 5705 budgetary requirements. On or about the first Monday of April the District must adopt an itemized appropriation measure. The appropriation measure, together with an itemized estimate of revenues to be collected during the next fiscal year, shall be certified to the County Budget Commission. Subject to estimated resources, the District Board may, by resolution, transfer appropriations from one appropriation item to another, reduce or increase any item, create new items, and make additional appropriations or reduce the total appropriation. Such appropriation modifications shall be certified to the County Budget Commission for approval.

The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts submitted to the County Budget Commission when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the changes to the grant awards in effect at the time final appropriations were passed by the District Board.

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the District Board during the year.

E. Cash and Investments

As required by Ohio Revised Code, the County Treasurer is custodian for the District's cash. The District's assets, except cash held in a segregated account, are held in the County's cash and investment pool, and are valued at the County Treasurer's reported carrying amount. Individual fund integrity is maintained through the District's records. Deposits and investments disclosures for the County as a whole may be obtained from the County.

The District has a segregated bank account for monies held separate from the County's central bank account. This amount is presented as "cash and cash equivalents in segregated accounts" since it is not required to be deposited into the County treasury.

F. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation.

G. Inventory and Prepaid Items

The District reports disbursements for inventories and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

H. Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

I. Accumulated Leave

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the District's cash basis of accounting.

J. Employer Contributions to Cost-Sharing Pension Plans

The District recognizes the disbursement for their employer contributions to cost-sharing pension plans when they are paid. As described in Notes 9 and 10, the employer contributions include portions for pension benefits and for postretirement health care benefits.

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

K. Long- Term Obligations

The District's cash basis financial statements do not report liabilities for bonds or other long-term obligations. Proceeds of debt are reported when the cash is received and principal and interest payments are reported when paid. Since recording a capital asset when entering into a capital lease is not the result of a cash transaction, neither an other financing source nor a capital outlay expenditure are reported at inception. Lease payments are reported when paid.

L. Net Position

Net position are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The government-wide statement of net position reports \$701,129 of restricted net position, none of which is restricted by enabling legislation. Net position restricted for other purposes include resources restricted for special District programs. The District's policy is to first apply restricted resources when an obligation is incurred for purposes for which both restricted and unrestricted net position are available.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable- The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. The District did not have any nonspendable fund balances.

Restricted- Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

Committed- The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of the District. Those committed amounts cannot be used for any other purpose unless the District removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, the committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the District, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District did not have any committed fund balances.

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Assigned- Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the District or a District official delegated that authority by resolution, or by State Statute. The District did not have any assigned fund balances.

Unassigned- Unassigned fund balance is the residual classification for the general fund and include amounts not contained in the other classifications (restricted, committed, and or assigned). In other governmental funds, the unassigned classification is used only to report a deficit balance.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amount are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

The District Fund balance is classified as restricted or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds.

N. Interfund Transactions

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular disbursements to the funds that initially paid for them are not presented in the financial statements.

Note 3 – Change in Accounting Principle

In 2016, the District implemented the following Governmental Accounting Standards Board (GASB) Statements:

GASB Statement No. 77, Tax Abatement Disclosures, This Statement requires disclosure of tax abatement information about the reporting government's own tax abatement agreements and those that are entered into by other governments and that reduce the reporting government's tax revenues. For financial reporting purposes, tax abatement is defined as resulting from an agreement between a government and an individual or entity in which the government promised to forgo tax revenues and the individual or entity subsequently takes specific action to contribute to the economic development or other benefits of the government. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2015 and have been implemented by the District. The implementation of this Statement did not result in any change in the District's 2016 financial statements.

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Note 4- Budgetary Basis of Accounting

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budget Basis presented for the General fund and HIV Emergency Relief Project Grants special revenue funds are prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget.

Note 5 – Accountability

Fund balances at December 31, 2016, included the following individual fund deficits:

Major Fund:	
HIV Emergency Relief Project Grants	\$839,712
Non-Major Funds:	
Healthy Homes/Lead Prevention Program	44,719
Teen Pregnancy Prevention	211,622
Injury Prevention	215,364
Public Health Infrastructure	47,396
West Nile Virus	55,400
Child and Family Health Services	62,387
Newborn Home Visiting	137,978

The fund deficits in the above funds resulted from interfund liabilities due to timing issues with the reimbursement of expenses for various grants. The general fund is liable for the deficits in these funds and will provide advances when cash is required, not when the liability occurs.

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Note 6 – Deposits and Investments

As required by Ohio Revised Code, the Cuyahoga County Office of the Fiscal Officer is the fiscal agent of the District. The District's cash pool, used by all funds, is deposited with the Cuyahoga County Treasurer. The cash pool is commingled with Cuyahoga County's cash and investment pool and is not identifiable as to demand deposits or investments. All collections are remitted to the Cuyahoga County Treasurer for deposit and all disbursements are made by warrants prepared by the Cuyahoga County Office of the Fiscal Officer drawn on deposits held in the name of Cuyahoga County. Deposits and deposit risk and investments and investment risk are presented in the December 31, 2016 Cuyahoga County Comprehensive Annual Financial Report. The fund balances are expressed in cash equivalents. Cash equivalents are available for immediate expenditure or liquid investments which are immediately marketable, have negligible credit risk, and mature within three months. The carrying amount of cash on deposit with the Cuyahoga County Treasurer at December 31, 2016 was \$7,118,406. The District also had fully collateralized immunization and Agency funds with year-end balances of \$187 and \$69,458, respectively, and petty cash of \$650.

Note 7 – Property Taxes

The cities, villages and townships that receive services from the District, contribute to the operations of the District. The County Office of the Fiscal Officer assesses each subdivision their share of the operating cost, which is calculated by the District and received through property tax collections. When the County Office of the Fiscal Officer disburses property tax to the subdivision, the appropriate deduction is made on the subdivision settlement and transmitted to the District.

Note 8 – Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is a member of the Public Entities Pool of Ohio (PEP), a risk-sharing pool available to Ohio local governments. The Pool provides property and casualty coverage for its members. York Risk Pooling Services, Inc. (YORK) functions as administrator of PEP and provides underwriting, claims loss control, risk management, and reinsurance services for PEP. PEP is a member of the American Public Entity Excess Pool (APEEP), which is also administered by YORK. Member governments pay annual contributions to fund PEP. PEP pays judgments, settlements and other expenses resulting from covered claims that exceed the members' deductibles.

The Pool's membership increased from 499 members in 2015 to 520 members in 2016.

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Financial Position

PEP's financial statements (audited by other accountants) conform with generally accepted accounting principles, and reported the following assets, liabilities and retained earning at December 31, 2016 and 2015:

	2016	2015
Assets	\$42,182,281	\$38,307,677
Liabilities	(13,396,700)	(12,759,127)
Net Position	\$28,785,581	\$25,548,550

The casualty Coverage assets and retained earning above include approximately \$11.5 million of unpaid claims to be billed to approximately 520 member governments in the future, as of December 31, 2016. PEP will collect these amounts in future annual contributions billings when PEP's related liabilities are due for payment. The District's share of unpaid claims collectible in future years is approximately \$99,212. This payable includes the subsequent year's contribution due if the District terminates participation.

The Pool uses reinsurance and excess risk-sharing arrangements to reduce its exposure to loss. These agreements permit recovery of a portion of its claims from reinsurers and a risk-sharing pool; however, they do not discharge the Pool's primary liability for such payments. The Pool is a member of American Public Entity Excess Pool (APEEP), which is also administered by York Risk Pooling Services, Inc. (YORK). APEEP provides the Pool with an excess risk-sharing program. Under this arrangement, the Pool retains insured risks up to an amount specified in the contracts. (At December 31, 2016 the Pool retained \$350,000 for casualty claims and \$100,000 for property claims). The Board of Directors and YORK periodically review the financial strength of the Pool and other market conditions to determine the appropriate level of risk the Pool will retain.

Year	Contributions to PEP
2013	\$41,991
2014	42,909
2015	49,797
2016	49,606

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Note 9- Defined Benefit Pension Plans

Plan Description - The District employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. District employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional pension plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (800) 222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A	Group B	Group C
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final average salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Note 9- Defined Benefit Pension Plans (continued)

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Funding Policy – The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State and Local
2016 Statutory Maximum Contribution Rates	
Employer	14.0 %
Employee	10.0 %
 2016 Actual Contribution Rates	
Employer:	
Pension	12.0 %
Post-employment Health Care Benefits	2.0 %
Total Employer	14.0 %
 Employee	 10.0 %

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The District's contractually required contribution was \$1,011,433 for year 2016.

Cuyahoga County District Board of Health
Cuyahoga County

Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Note 10- Postemployment Benefits

Ohio Public Employees Retirement System

Plan Description – Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan is a cost sharing, multiple employer defined benefit pension plan; the Member-Directed Plan is a defined contribution plan; and the Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains two cost-sharing multiple-employer defined benefit post-employment health care trusts, which fund multiple health care plans including medical coverage, prescription drug coverage, deposits to a Health Reimbursement Arrangement and Medicare Part B premium reimbursement, to qualifying benefit recipients of both the Traditional Pension and the Combined plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-employment health care coverage, age and service retirees under the Traditional Pension and Combined Plans must have twenty or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement No. 45. Please see the Plan Statement in the OPERS 2015 CAFR for details.

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided in Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or by calling (614) 222-5601 or (800) 222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post-retirement health care coverage. Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2016, State and Local employers contributed at a rate of 14.00 percent of earnable salary and Public Safety and Law Enforcement employers contributed at 18.10 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

OPERS maintains three health care trusts. The two cost-sharing, multiple-employer trusts, the 401(h) Health Care Trust and the 115 Health Care trust, work together to provide health care funding to eligible retirees of the Traditional Pension and Combined Plans. The third trust is a Voluntary Employee's Beneficiary Association (VEBA) that provides funding for a Retiree Medical Account for Member-Directed Plan members. Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 2.00 percent during calendar year 2015. As recommended by the OPERS' actuary, the portion of employer contributions allocated to health care beginning January 1, 2016 remained at 2.00 percent for both plans.

The Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care benefits provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited to the VEBA participants in the Member-Directed Plan for 2015 was 4.50 percent.

Cuyahoga County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Note 10- Postemployment Benefits (continued)

In March 2016, OPERS received two favorable ruling from IRS allowing OPERS to consolidate all health care assets into the 115 Trust. Transition to the new health care trust structure occurred during 2016. OPERS Combining Statements of Changes in Fiduciary Net Position for the year ended December 31, 2016, will reflect a partial year of activity in the 401(h) Trust and VEBA Trust prior to the termination of these trusts as of end of business day June 30, 2016, and the assets and liabilities, or net position, of these trusts being consolidated into the 115 Trust on July 1, 2016. The District's contributions allocated to fund postemployment benefits for 2016, 2015 and 2014 were \$168,494, \$168,849 and \$157,732, respectively. The full amount has been contributed for 2016, 2015, and 2014.

Note 11 – Operating Lease

The District entered into an operating lease with MailFinance, Inc. in April 2014, for the purpose of leasing a mailing system for 63 months. This is a non-cancelable lease that is paid annually. The District paid total rental cost of \$2,657 in 2016.

Note 12 – Interfund Transfers

Interfund transfers for the year ended December 31, 2016, consisted of the following:

Transfers To	Transfers from General
<i>Nonmajor Governmental Funds:</i>	
Public Health Infrastructure	\$38,744
Healthy Homes/Lead Prevention Program	10,310
Creating Healthy Communities	2,015
<i>Nonmajor Governmental Funds Subtotal</i>	\$51,069

The transfers from the general fund to the non-major special revenue funds for \$51,069 were made to support programs and projects in those funds.

Cuyahoga County District Board of Health
Cuyahoga County
Notes to the Schedule of Expenditures of Federal Awards
2 CFR 200.510(b)(6)
For the Year Ended December 31, 2016

Note 1 – Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Cuyahoga County District Board of Health (the District's) under programs of the federal government for the year ended December 31, 2016. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position of the District.

Note 2 – Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87 *Cost Principles for state, Local and Indian Tribal Governments* (codified in 2 CFR Part 225), or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 3 – Subrecipients

The District passes certain federal awards received from the U.S. Department of Health and Human Services, the U.S. Department of Housing and Urban Development, the U.S. Department of Agriculture, the State Department of Health and the State Department of Transportation to other governments or not-for-profits agencies (subrecipients). As Note 2 describes, the District reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the District has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

Note 4 – Matching Requirements

Certain Federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Cuyahoga County District Board of Health
Cuyahoga County
5550 Venture Drive
Parma, Ohio 44130

To the Board of Trustees:

We have audited in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the cash-basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Cuyahoga County District Board of Health, Cuyahoga County, (the District) as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated September 29, 2017, wherein we noted the District uses a special purpose framework other than generally accepted accounting principles.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Cuyahoga County District Board of Health
Cuyahoga County
5550 Venture Drive
Parma, Ohio 44130

To the Board of Trustees:

Report on Compliance for Each Major Federal Program

We have audited the Cuyahoga County District Board of Health's compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect each of the Cuyahoga County District Board of Health's major federal programs for the year ended December 31, 2016. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal programs.

Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Cuyahoga County District Board of Health complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended December 31, 2016.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
