
LUCAS COUNTY TRANSPORTATION IMPROVEMENT DISTRICT

A COMPONENT UNIT OF THE COUNTY OF LUCAS, OHIO

Basic Financial Statements

Year Ended December 31, 2016

With Independent Auditors' Report

Dave Yost • Auditor of State

Board of Trustees
Lucas County Transportation Improvement District
1049 S. McCord Road
Holland, Ohio 43528

We have reviewed the *Independent Auditors' Report* of the Lucas County Transportation Improvement District, Lucas County, prepared by Clark, Schaefer, Hackett & Co., for the audit period January 1, 2016 through December 31, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Lucas County Transportation Improvement District is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Dave Yost".

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Lucas County Transportation Improvement District
Holland, Ohio:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Lucas County Transportation Improvement District (the "District"), a component unit of the County of Lucas, Ohio, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Lucas County Transportation Improvement District as of December 31, 2016, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 27, 2017 on our consideration of the Lucas County Transportation Improvement District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Lucas County Transportation Improvement District's internal control over financial reporting and compliance.

LUCAS COUNTY TRANSPORTATION IMPROVEMENT DISTRICT
LUCAS COUNTY, OHIO
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2016
(UNAUDITED)

This discussion and analysis of the Lucas County Transportation Improvement District's financial performance provides an overall review of the District's financial activities for the year ended December 31, 2016. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2016 are as follows:

- The District's net position increased by \$1,268,220.
- During the period, the District generated \$2,431,750 of revenues and incurred expenses of \$1,163,530.

USING THIS ANNUAL REPORT

This annual report consists of two parts – management's discussion and analysis and the basic financial statements. The basic financial statements include two kinds of statements that present different views of the District. These statements are as follows:

1. *The Government-Wide Financial Statements* – These statements provide both long-term and short-term information about the District's overall financial status.
2. *The Fund Financial Statements* – These statements focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All current year revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position (the difference between the District's assets and liabilities) is one way to measure the District's financial health or condition.

Over time, increases or decreases in the District's net position is an indicator of whether its financial health is improving or deteriorating, respectively. The government-wide financial statements of the District reflect the following category for its activities:

Governmental Activities – The District's programs and services are reported as governmental activities and include general government and public works.

LUCAS COUNTY TRANSPORTATION IMPROVEMENT DISTRICT
LUCAS COUNTY, OHIO
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2016
(UNAUDITED)

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

Governmental Funds – All of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements when there are differences. As of December 31, 2016, there were no differences reported between the governmental activities and governmental funds.

DISTRICT SUMMARY

The District as a Whole

The following table provides a summary of the District's Net Position at December 31:

	Governmental Activities	
	(Restated)	
	2016	2015
Current and Other Assets	\$ 1,390,765	\$ 318,268
Total Assets	1,390,765	318,268
Other Liabilities	143,597	339,320
Total Liabilities	143,597	339,320
Net Position:		
Restricted:		
Infrastructure Projects	612,062	-
Unrestricted	635,106	(21,052)
Total Net Position	\$ 1,247,168	\$ (21,052)

LUCAS COUNTY TRANSPORTATION IMPROVEMENT DISTRICT
LUCAS COUNTY, OHIO
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED DECEMBER 31, 2016
(UNAUDITED)

The following table provides a summary of the District's changes in net position for the years ended December 31, 2016 and 2015:

	<u>Governmental Activities</u>	
		(Restated)
	<u>2016</u>	<u>2015</u>
Revenues		
General Revenues:		
Grants and Contributions not		
Restricted to Specific Programs	\$ 75,000	\$ -
Interest	-	7
Program Revenues:		
Charges for Services	6,750	-
Capital Grants and Contributions	<u>2,350,000</u>	<u>286,696</u>
Total Revenues	<u>2,431,750</u>	<u>286,703</u>
Program Expenses		
General Government	29,302	26,728
Public Works	<u>1,134,228</u>	<u>366,696</u>
Total Expenses	<u>1,163,530</u>	<u>393,424</u>
Change in Net Position	1,268,220	(106,721)
Beginning Net Position	<u>(21,052)</u>	<u>85,669</u>
Ending Net Position	<u>\$ 1,247,168</u>	<u>\$ (21,052)</u>

Governmental Activities

During 2016, Net Position of the District's governmental activities increased by \$1,268,220. Grants and contributions not restricted to specific programs of \$75,000 and capital grants and contributions of \$2,350,000 and charges for services of \$6,750 were the result of contracts and intergovernmental agreements with funding partners. Total expenses for the period of \$1,163,530 were related to the administrative cost of operating the District (\$29,302) as well as transportation project engineering and design costs (\$1,134,228) that has been classified as a *Public Works*-type of program expense. Overall, in 2016 the District incurred operational and project-related expenses at a slower pace than it earned related revenues.

The District's Funds

The District's governmental funds reported a combined fund balance of \$1,247,168 at December 31, 2016, which was an increase of \$1,268,220. This increase was the result of the District's funds receiving intergovernmental revenue at a faster pace than project-related expenses were incurred.

FOR THE YEAR ENDED DECEMBER 31, 2016
(UNAUDITED)

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of December 31, 2016, the District reported no capital assets.

Debt

As of December 31, 2016, the District reported no debt.

ECONOMIC FACTORS

As with most infrastructure projects to be undertaken by local governments, the challenge facing the District is the future of both state and federal funding. With careful planning and monitoring of the District's finances and continued cooperation with local, state and federal officials, the District is confident that funding challenges can be overcome to develop, implement and construct the improvements envisioned to improve the prosperity, health, safety, and welfare of the people of Lucas County and the State of Ohio.

CONTACTING THE DISTRICT'S MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. Questions concerning any of the information provided in this report, or requests for additional financial information, should be addressed to the Secretary-Treasurer, Lucas County Transportation Improvement District, 1049 S. McCord Road, Holland, Ohio 43528.

Lucas County Transportation Improvement District
Lucas County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

1. REPORTING ENTITY

The Lucas County Transportation Improvement District (the District) is a body politic and corporate, created for the purpose of financing, constructing, maintaining, repairing, and operating selected transportation projects. The District was specifically created pursuant to Chapter 5540 of the Ohio Revised Code, as amended. The District was created by action of the Board of Lucas County Commissioners on April 22, 2014.

The District is governed by a Board of Trustees that acts as the authoritative and legislative body of the entity. The Board is comprised of seven members of whom five are voting and two are non-voting. Each Board member serves a term of two years and there are no term limits for reappointment. The five voting Board members are appointed by the Board of Lucas County Commissioners. The Speaker of the Ohio House of Representatives and the President of the Ohio Senate each appoint one non-voting member. None of the Board members receive compensation for serving on the Board.

District Officers consist of a Chairman, Vice-Chairman and Secretary-Treasurer, who are elected annually from among the voting members of the Board. The Chairman, Vice-Chairman and Secretary-Treasurer serve at the pleasure of the Board and are subject to removal by an affirmative vote of the majority of the Board at any time. The Chairman's responsibilities are to preside at all meetings of the Board and be the chief officer of the District. The Secretary-Treasurer serves as the fiscal officer of the District.

The District is reported as a component unit of Lucas County, Ohio, as defined by the provisions of GASB statement numbers 14 and 39. As such, its activities are reported within the County's Comprehensive Annual Financial Report.

The District's management believes these financial statements represent all activities for which the District is financially accountable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements - The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government.

Lucas County Transportation Improvement District
Lucas County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function.

Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limitations. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements - During the year the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. As of December 31, 2016, the District did not have any non-major funds to report.

Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There is one category of funds: Governmental.

Governmental Funds - Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The District has the following major governmental funds:

General Fund – Accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Dorr Street & I475/US23 Interchange Fund – Accounts for resources to be used for infrastructure projects in the vicinity of the Dorr Street and I475/US23 Interchange area.

US20A & I475/US23 Interchange Fund – Accounts for resources to be used for infrastructure projects in the vicinity of the US20A and I475/US23 Interchange area.

Briarfield Boulevard, Salisbury Road and Brandyway Lane Area Fund – Accounts for resources to be used for infrastructure projects in the vicinity of the Briarfield Boulevard, Salisbury Road and Brandyway Lane Area.

Lucas County Transportation Improvement District
Lucas County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Measurement Focus

Governmental-Wide Financial Statements - The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the Statement of Net Position. The Statement of Activities presents increases (e.g. revenues) and decreases (e.g. expenses) in total net position.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. As of December 31, 2016, the District did not have any non-major funds to report.

All Governmental funds are accounted for using a *flow of current financial resources* measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds. As of December 31, 2016, no such reconciliation is presented as government-wide net position equals the governmental funds' aggregate fund balance.

Classification of Fund Balance

In accordance with GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions," the District's fund balance is divided into five classifications based primarily on the extent to which the District must observe constraints imposed upon the use of its governmental-fund resources. The classifications are as follows:

1. **Nonspendable**

The District classifies fund balance as *nonspendable* when amounts are not in spendable form or are legally or contractually required to be maintained intact.

2. **Restricted**

Fund balance is restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

Lucas County Transportation Improvement District
Lucas County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

3. Committed

The District's Board can *commit* amounts via formal action (resolution). The District must adhere to these commitments unless the District's Board amends the resolution. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed to satisfy contractual requirements.

4. Assigned

Assigned fund balances are intended for specific purposes but do not meet the criteria to be classified as *restricted* or *committed*. Governmental funds other than the general fund report all fund balances as *assigned* unless they are restricted or committed. In the General Fund, *assigned* amounts represent intended uses established by the District's Board or by State Statute.

5. Unassigned

Unassigned fund balance is the residual classification for the General Fund and includes amounts not included in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Basis of Accounting

The basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue and in the presentation of expenses versus expenditures, however, there were no differences between the accrual and modified accrual basis of accounting for this period.

Revenues - Exchange and Non-Exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of the fiscal year-end.

Lucas County Transportation Improvement District
Lucas County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include grants, entitlements and donations. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Unearned Revenue - Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

At December 31, 2016, the District reported unearned revenue of \$20,250 related to project management fees collected and received, but not yet earned.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable.

Cash and Cash Equivalents

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the balance sheet and statement of net position.

Capital Assets

The District reports no capital assets. Title to assets maintained by the District as part of project related expenditures will transfer to the County or State upon project completion.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, government fund payables and accrued liabilities that are incurred and are paid in a timely manner with current financial resources are reported as obligations of the funds. Long-term loans are recognized as a liability on the government fund financial statements when due.

Lucas County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

Interfund Transactions

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and eliminated in the Statement of Activities. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements.

Net Position

Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on its use either through constitutional provision, enabling legislation, or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

3. EQUITY IN POOLED CASH AND CASH EQUIVALENTS

Monies held by the District are classified by State statute into three categories.

Active deposits are public deposits necessary to meet current demands upon the District. Active deposits must be maintained either as cash by the District, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the District has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies that are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Lucas County Transportation Improvement District
Lucas County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2016

The District has an Investment Policy that authorizes the Secretary-Treasurer to make investments of available monies from the funds of the District in securities as authorized by State law. These include:

- Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for payment of principal and interest thereon but does not include stripped principal or interest obligations of such obligations;
- Bonds, notes, debentures, or any other obligations or securities directly issued by a Federal government agency or instrumentality;
- Interim deposits in Board-approved depositories;
- Bonds and other obligations of the State;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullet points above and repurchase agreements secured by such obligations, provided such investments are made only through banks and savings and loan institutions authorized by R.C. 135.03;
- The State Treasury Asset Reserve (STAR Ohio).

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. Protection of District cash and deposits is provided by the Federal Deposit Insurance Corporation as well as qualified securities pledged by the institution holding the assets. Ohio law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the District places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105 percent of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

As of December 31, 2016, the District's bank balance of \$1,390,765 is either covered by FDIC or collateralized by the financial institution's public entity deposit pool in the manner described above.

4. INTERFUND ACTIVITY

In order to provide funding for current project expenditures, during 2016, the District advanced \$500,000 out of the General Fund into the Dorr Street & I475/US23 Interchange Capital Project Fund. This advance was still outstanding as of December 31, 2016, and is not expected to be repaid within one year.

Additionally, during 2016, the General Fund transferred \$80,000 to the Briarfield Boulevard, Salisbury Road and Brandyway Lane Area Capital Project Fund to retire an outstanding advance of \$80,000 that existed between the two funds.

5. COMPLIANCE AND ACCOUNTABILITY

The General Fund provides advances and transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur. At December 31, 2016 (using the current financial resource measurement focus), the Dorr Street & I475/US23 Interchange Capital Project Fund had a deficit fund balance of \$128,979.

6. SHORT-TERM INTERGOVERNMENTAL ADVANCE

During 2015, the District received a \$300,000 short-term advance (pursuant to an intergovernmental agreement with the Lucas County Board of County Commissioners) in order to move forward with certain projects undertaken by the District. The proceeds from the short-term advance were needed to immediately begin certain projects. This short-term advance was fully retired in 2016.

7. CONTRACTUAL COMMITMENTS

As of December 31, 2016, the District had open, unpaid contractual commitments related to engineering and design work of approximately \$2,287,000.

8. RISK MANAGEMENT

The District has obtained commercial insurance for the following risks:

- General Liability
- Public Officials Liability
- Crime

There have been no claims resulting from these risks since the inception of the District. Additionally, there have been no significant changes in coverage during the year.

9. SUBSEQUENT EVENTS

The District evaluated the effects subsequent events would have on the financial statements through the date of the auditors' report, which is the date the financial statements were available for issuance. As a result of this evaluation, no events requiring disclosure were noted.

10. PRIOR PERIOD ADJUSTMENT

The December 31, 2015 net position of the District, and fund balances reported in the General Fund and US20A & I475/US23 Interchange Fund, have been restated. The restatement was necessary as an intergovernmental payable that was previously recorded in the General Fund was overstated by \$74,433 and an intergovernmental payable of \$32,689 in the US20A & I475/US23 Interchange Fund was unrecorded. A summary of the restatement activity at December 31, 2015 is as follows:

	Governmental Activities	
Net Position as Previously Reported	\$ (62,796)	
Prior Period Adjustment	41,744	
Net Position, Restated	\$ (21,052)	
	General Fund	US20A & I475/US23 Interchange Fund
Fund Balance as Previously Reported	\$ 17,204	\$ -
Prior Period Adjustment	74,433	(32,689)
Fund Balance, Restated	\$ 91,637	\$ (32,689)

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Lucas County Transportation Improvement District
Holland, Ohio:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Lucas County Transportation Improvement District, a component unit of the County of Lucas, Ohio, (the "TID") as of and for the year ended December 31, 2016 and the related notes to the financial statements, which collectively comprise the TID's basic financial statements and have issued our report thereon dated April 27, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the TID's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the TID's internal control. Accordingly, we do not express an opinion on the effectiveness of the TID's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described as finding 2016-001 in the accompanying schedule of findings that we consider to be a material weakness.

f. 419.243.9264

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the TID's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

TID's Response to the Finding

The TID's response to the finding identified in our audit is described in the accompanying schedule of findings. The TID's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Toledo, Ohio
April 27, 2017

LUCAS COUNTY TRANSPORTATION IMPROVEMENT DISTRICT
Schedule of Findings
Year Ended December 31, 2016

Finding 2016-001 – Audit Adjustment and Prior Period Adjustment

Condition: We identified a misstatement in the financial statements for the year under audit that was not initially identified by the TID's internal control over financial reporting. Furthermore, the TID determined its 2015 financial statements were misstated and corrected the financial statements with a prior period adjustment. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A deficiency in operation exists when a properly designed control does not operate as designed. In this case, the internal controls over the preparation and review of the TID's financial statements did not operate as designed and we consider this a material weakness.

Throughout the year, the TID maintains its books and records on the cash basis of accounting and converts its financial statements at year-end to generally accepted account principles (GAAP). As part of our audit, a material adjustment to the statements was identified related to proper cutoff of accounts payable. The TID's prior period adjustment was necessary as an intergovernmental payable that was previously recorded in the General Fund was overstated and an intergovernmental payable for the US20A & I475/US23 Interchange Fund was unrecorded.

Recommendation: We recommend the TID enhance its internal controls over financial reporting with steps such as management analysis of the financials compared to prior years to ensure the preparation of reliable financial statements in conformity with generally accepted accounting principles.

Management's Response: Management concurs and will modify management analysis to include the recommendation. Management will enhance the internal control review process by incorporating management analysis of financial statements to ensure reliable financial statements.
