SANDUSKY CITY SCHOOL DISTRICT ERIE COUNTY

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE FISCAL YEAR ENDED JUNE 30, 2016

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Sandusky City School District (the District) under programs of the federal government for the year ended June 30, 2016. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87 Cost Principles for State, Local, and Indian Tribal Governments (codified in 2 CFR Part 225), or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar state grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE D - FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Sandusky City School District Erie County 407 Decatur Street Sandusky, Ohio 44870-2483

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Sandusky City School District, Erie County, Ohio (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 21, 2016.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Sandusky City School District
Erie County
Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Required by Government Auditing Standards
Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dave Yost Auditor of State

Columbus, Ohio

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Sandusky City School District Erie County 407 Decatur Street Sandusky, Ohio 44870-2483

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited Sandusky City School District, Erie County, Ohio's (the District's) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the District's major federal program for the year ended June 30, 2016. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

One Government Center, Suite 1420, Toledo, Ohio 43604-2246 Phone: 419-245-2811 or 800-443-9276 Fax: 419-245-2484 Sandusky City School District
Erie County
Independent Auditor's Report on Compliance with Requirements
Applicable to the Major Federal Program and on Internal Control Over
Compliance Required By the Uniform Guidance
Page 2

Opinion on the Major Federal Program

In our opinion, Sandusky City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2016.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on the major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the major fund and the aggregate remaining fund information of Sandusky City School District, Erie County, Ohio (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 21, 2016. We conducted our audit to opine on the District's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Members of the Board of Education and Residents of the Sandusky City School District

The Comprehensive Annual Financial Report (CAFR) of the Sandusky City School District (the "District") for the fiscal year ended June 30, 2016 is hereby submitted. This CAFR includes financial statements and other financial and statistical data and conforms to accounting principles generally accepted in the United States of America (GAAP) as they apply to governmental entities. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of costs and benefits requires estimates and judgments by management.

State statute requires an annual audit by independent accountants. The Ohio Auditor of State's office conducted the audit. The audit has been conducted in accordance with generally accepted auditing standards, generally accepted government auditing standards, and include a review of internal controls and test of compliance with Federal and State laws and regulations. The Independent Auditors' Report is included in this CAFR.

As a part of the District's independent audit, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the school district has complied with applicable laws and regulations. The results of the District's independent audit for the fiscal year ended June 30, 2016 provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

This transmittal letter is designed to provide historical information about the District, as well as compliment the required Management's Discussion and Analysis (MD&A). Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements. The District's MD&A, which focuses on the government-wide statements, can be found immediately following the Independent Auditors' Report.

PROFILE OF SANDUSKY CITY SCHOOL DISTRICT

The District ranks as 128th largest by total enrollment among the 612 public school districts in the state and is the largest in Erie County. As of the current school year (2015-2016), the average daily membership (ADM) was 3,877 students. 3,333 of these students attend one of the District's seven schools. District enrollment is expected to remain steady over the next several years.

The District has 448 full and part time employees. The District employs 259 certified staff members and 28 administrators. Additionally, the District employs 5 full-time adult education instructors and 156 full-time and part-time non-teaching staff members.

The District offers a wide variety of educational programs for all segments of the community. Sandusky High School is one of the few comprehensive high schools in Ohio, containing eleven (11) career technical education programs as well as a wide range of college preparatory offerings. Additionally, the adult continuing education program serves nearly 160 adults each year in degree programs. The District provides extensive special education services and offers a kindergarten through twelfth grade accelerated and gifted program. All District kindergarten students attend all-day, everyday kindergarten classes and benefit from a full day of instruction.

A full range of extracurricular programs and activities is available to students beginning with the elementary grades. All District schools have libraries, special purpose rooms, including computer labs and unique curricular offerings designed by the individual building staff and administration.

An active Council of local neighborhood Parent Councils provides for articulation, cooperation, and communication and partnership between parents, community members, and school officials.

The District cooperates with the City of Sandusky Recreation and Parks Department, churches and a number of community and civic organizations in making school facilities available for athletic, recreational and enrichment activities.

Classroom teachers at all levels are supported by specialists in media, guidance, art, instrumental and vocal music, physical education and curriculum development. A comprehensive interscholastic and intramural sports program is offered to students at select grade levels of the District. All elementary schools have full-time media aides and secondary schools are staffed by certified media specialists. School nurses, psychologists, speech therapists, one media coordinator, counselors, specific coordinators for Title I (a federally funded reading and mathematics program), and gifted programs offer direction, support and coordination of services for all students.

Overlapping Governmental Entities

The major political subdivisions or other governmental entities that overlap the territory of the District are listed below. The stated percentage is that percentage of the tax valuation of the overlapping entity that is located within the District.

- 1. A portion (22.61%) of Erie County functions allocated to counties by Ohio law, such as elections, health and human services, and judicial.
- 2. The City of Sandusky (100%) has municipal corporation responsibilities.

Each of these entities operates independently, with its own separate budget, taxing power, and sources of revenue. Both Erie County and the City of Sandusky levy ad valorem property taxes within the ten-mill limitation (subject to available statutory allocation of the 10 mills). The District also acts as fiscal agent for local tax revenues distributed to the Sandusky Library, located within the District's boundaries, with this revenue reported in the agency funds. The District is not considered a component unit of another government.

The District is an active member of the Enterprise Zone Negotiating Committee, along with the City of Sandusky and Erie County. The Enterprise Zone offers tax abatements for real and personal property improvements and additions to businesses located within the city. A number of local companies have been granted partial tax abatements on additions made during the last several years. The City of Sandusky and the District have also benefited from these expansions through additional tax revenues from the unabated portion of valuation increases on the property and from improved economic conditions resulting from growth in employment of city residents.

Employees

A statewide public employee bargaining law applies generally to public employee relations and collective bargaining. The starting salary (2015-2016 school year) for a teacher with a bachelor's degree is \$36,769, and the maximum salary for a teacher with a master's degree plus 24 graduate hours and 23 years of experience is \$77,215.

The District's certificated employees, excluding administration, are members of the Sandusky Education Association (S.E.A.), a labor organization affiliated with the Ohio Education Association. The current contract between the Board of Education and the S.E.A. expires August 31, 2017.

All of the District's support staff employees, including secretarial, custodial, maintenance, transportation, and teacher aides, are represented for bargaining purposes by the Sandusky Non-Teaching Employees Association (S.N.T.E.A.), a labor organization affiliated with the Ohio Education Association. The current S.N.T.E.A. contract expires June 30, 2018.

The District has never experienced any work stoppage or job actions. In the judgment of the Board and administration, labor relations between the District and its employees remain excellent.

Parochial Schools

The District acts as fiscal agent for state funds distributed to parochial schools, with revenue reported in special revenue funds. The Early Childhood Center (Kindergarten Readiness and Preschool), St. Mary Elementary and Jr. High School (K-8) and St. Mary's Central Catholic High School (9-12) are all reported as a single entity under one IRN, are all located within the District and serve students who reside both inside and outside the District. Total enrollment for fiscal year 2015-2016 was 530.

Budgetary Controls

In addition to the internal control structure mentioned above, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of all funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by the Board at the fund level. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control.

Unencumbered amounts lapse at year-end. A complete description of the District's Budgetary Process can be found in the Notes to the Required Supplementary Information.

ECONOMIC CONDITION

Local Economy

The District is located in Erie County, in Northwest Ohio, approximately sixty miles west of Cleveland and sixty miles east of Toledo. All of the District is located within Erie County and falls entirely within the corporate boundaries of the City of Sandusky, which lies on the shores of Sandusky Bay and Lake Erie.

The District is served by diversified transportation facilities including immediate access to four State highways and Interstate 80 (Ohio Turnpike). The District is served by CSX, Norfolk and Southern, and Amtrak Rail Services.

Major commercial banks with offices within the District include PNC Bank, US Bank, Key Bank, Fifth Third Bank and Civista Bank.

Two daily newspapers serve the District. The District falls within the broadcast area of seven television stations and numerous AM/FM radio stations. One television station is located within the city limits as are two AM/FM radio stations. The District has a cable television license and broadcasts school information on cable Channel 81.

Within commuting distance of the District are numerous public and private two and four-year colleges and universities including Bowling Green State University Firelands Campus, Ashland University, Cleveland State University, Toledo University, Bowling Green State University, Terra

Community College, and Lorain Community College. Bowling Green State University, Terra Community College and Owens Community College utilize District facilities and staff for course offerings to area residents and students.

The District is served with a wide range of recreational offerings through school and City recreation and park programs. One of the things that make the District an attractive place to live is its unique location. It is located on both Sandusky Bay and Lake Erie with over twenty-two (22) miles of shoreline within the city limits. The close association with the water and the inherent access to boating, sailing, fishing, and swimming, etc. gives this District an atmosphere of a coastal city. Lake freighters, ferry boats, commercial fishing boats and pleasure boats are commonplace. The lake and bay along with Cedar Point Amusement Park, many fine golf courses, restaurants, motels, shops, and business enterprises have resulted in a booming tourist trade and have given the District's area the reputation of being one of the premier places in the country to live. The District offers the advantages of a small town, a reasonable cost of living, and excellent medical facilities (including Firelands Regional Medical Center in Sandusky).

The local economy has been in a gradual decline for several years. A number of businesses have closed or left Sandusky, taking with them a significant number of manufacturing jobs. The City's unemployment rate in June of 2016 was 4.9%, compared with state and national unemployment rates of 4.9% and 4.9% respectively.

As further evidence of a struggling economy in Sandusky, according to the U.S. Census Bureau the median family income in the City was \$46,073 in the year 2013, compared with \$48,081 and \$52,250 state and national averages, respectively. Additionally, the median home value in Sandusky in 2000 was \$75,400, compared with \$103,700 and \$119,600 median home values in the state and the nation, respectively.

Long-Term Financial Planning

The District prepares a five-year financial forecast annually for use as a tool for long range planning. The five-year forecast contains projected local and state revenues, spending patterns within each area of the budget, and cash balances in the District's operating fund. The five-year forecast provides early warning signs of potential financial problems.

The District regularly updates the five-year forecast for use as a basis for making financial decisions, including the construction of the annual budget, adjustments to staffing levels, collective bargaining, and the placement of tax levies on the ballot. Specific examples of recent decisions that have resulted in improvements in the District's financial condition include the approval of a 4.9 mill operating levy in 2012, the closure of school buildings due to decreased enrollment which has resulted in the net reduction of paid staff positions, the combination of 7th and 8th grade students into a separate section of Sandusky High School, the successful replacement of a 2.0 mill permanent improvement levy in 2009, the successful renewal of a five-year, \$1.5 million emergency levy in May, 2014, and a successful passage of a bond issue levy in November, 2016 for the construction of new school buildings.

The District continues to monitor its finances, planning for long-term viability and financial responsibility, but the uncertainty of state funding due to consistent changes in the state funding formula and current funding for open enrollment, community and non-public schools, especially scholarship funding, creates a situation where the state funding for the future is unknown and future planning becomes reactionary based on the direction of state policy and legislation.

Major Initiatives for the Year

The District implemented and continued a number of significant programs during the past year to meet student and community needs.

The District continued to invest in technology in the 2015-2016 school year. The District employs a computer technician and an instructional technology facilitator to provide support to District staff. In addition, the District contracts for additional technician services with outside companies.

For the 2014-2015 school year, the Sandusky City School District unveiled its latest drop-out prevention/student retention program, the Sandusky Digital Academy, an alternative high school option. Initial enrollment at the Academy was approximately 100 students and that figure remained steady for the 2015-2016 school year.

Additionally, the District is becoming more engaged in communications with the Ohio School Facilities Commission and is moving in the direction of developing a master facility plan which will help guide our district many years into the future. Current funding proposals for an Ohio School Facilities project include 64% funding from the State of Ohio.

Major Initiatives for the Future

The District will continue to upgrade all areas of technology in the 2016-2017 school year and beyond to meet demands of a global focused 21st century education. Our priority will be to enhance hardware and software upgrades that promote seamless technology integration into our instructional and systemic deliveries.

The Sandusky City School District launched The Great Lakes Visual and Performing Arts Academy for the 2015-2016 school year. The academy will provide students with a variety of personally relevant arts opportunities which will help cultivate the whole child as they discover and develop their unique skills and talents.

The District also rolled out its Global Experience Program which will offer our senior students the opportunity to intern with local businesses, industries, colleges, non-profits and the military in their career choice and Blue Streak University which provided and organized system for our students to complete their high school education while earning college credits with the potential of acquiring up to an associates degree.

The District has instituted a rolling open-enrollment time frame policy and intends to expand awareness of the positive academic programs offered by the District.

RELEVANT FINANCIAL POLICIES

On June 30, 2013, Governor John Kasich signed House Bill 59, the state biennium budget bill for fiscal years 2014-2015. The budget bill limits the total increased funding that will be provided to public school districts to 6.25 percent in fiscal year 2014 and 10.5 percent in fiscal year 2015, both of which impact the Sandusky City School District. Coupled with the funding gain limits, House Bill 59 also introduced new spending mandates and increased deductions from public school districts to fund charter and non-public operations. These funding limits, spending mandates and deduction increases all have to be taken into account in monitoring the operation of the Sandusky City School District and future decisions on pursing additional revenue or expenditure reductions.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Sandusky City School District for its comprehensive annual financial report for the fiscal year ended June 30, 2015. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principals and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The District has also received a Certificate of Excellence in Financial Reporting in School Districts from the Association of School Business Officials (ASBO) for the District's comprehensive annual financial report for the fiscal year ended June 30, 2015. The award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to ASBO to determine its eligibility for another certificate.

The Auditor of State, Dave Yost, awarded the Sandusky City Schools the "Auditor of State Award with Distinction" for FY 2015 for its annual CAFR, timely financial reports in accordance with GAAP and its annual audit report containing no findings for recovery, no material citations, no material weaknesses, no significant deficiencies, no Single Audit findings and no questioned costs.

The preparation of the CAFR on a timely basis was made possible by the dedicated services of the Treasurer's office staff. In addition, we acknowledge the outstanding services of our data processing department in meeting the vast informational requirements. Our consultant, Plattenburg & Associates, Inc. provided us with expert technical assistance in all phases of preparing the report. The assistance of the Erie County Auditor's office in providing information is also appreciated. Finally, we wish to acknowledge the cooperation of the team from Auditor of State, who conducted a thorough audit of our finances.

In closing, without the leadership and support of the Board of Education of the District, preparation of this report would not have been possible.

Sincerely,

Gina Deppert, Treasurer

Eugene T.W. Sanders, Superintendent

Eugene tw Jander

INDEPENDENT AUDITOR'S REPORT

Sandusky City School District Erie County 407 Decatur Street Sandusky, Ohio 44870-2483

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Sandusky City School District, Erie County, Ohio (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Sandusky City School District Erie County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of Sandusky City School District, Erie County, Ohio, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, *required budgetary comparison schedule*, and *schedules of net pension liabilities and pension contributions* listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Sandusky City School District Erie County Independent Auditor's Report Page 3

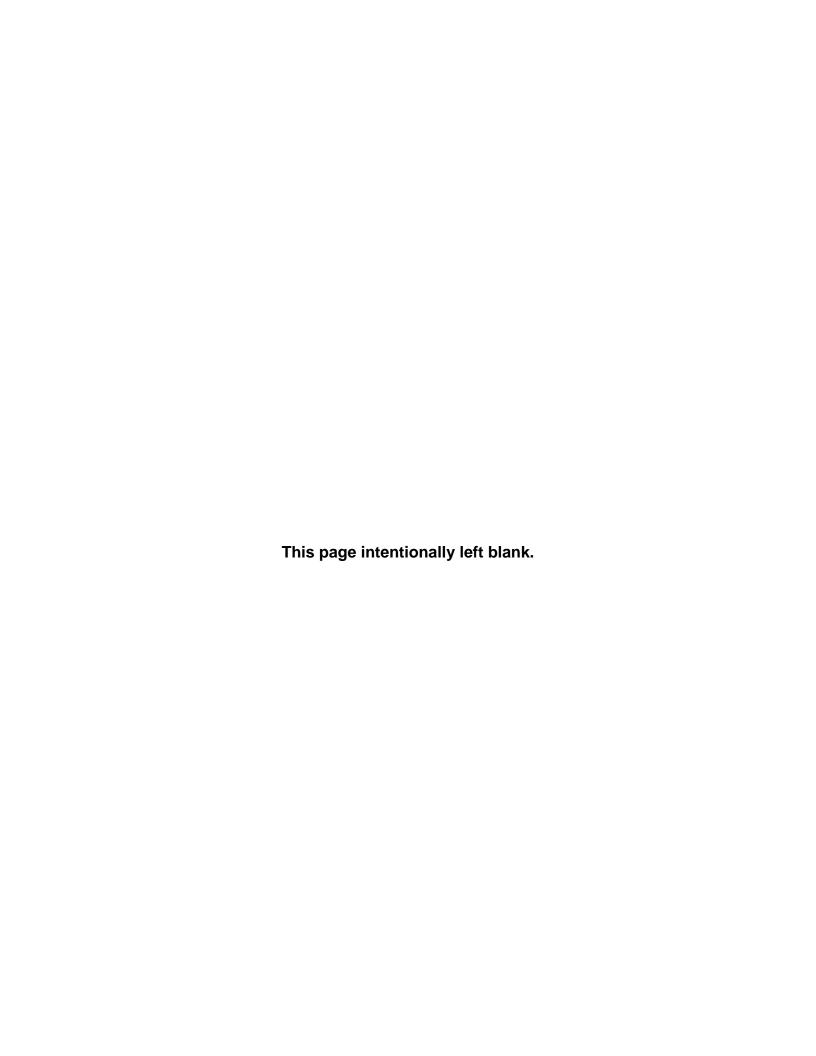

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Dave Yost Auditor of State

Columbus, Ohio

December 21, 2016

Sandusky City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

The discussion and analysis of Sandusky City School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's performance.

Financial Highlights

Key financial highlights for 2016 are as follows:

- Net position of governmental activities increased \$5,391,103 which represents an 12% increase from 2015.
- General revenues accounted for \$43,280,723 in revenue or 77% of all revenues. Program specific revenues in the form of charges for services and sales and grants and contributions accounted for \$12,731,208 or 23% of total revenues of \$56,011,931.
- The District had \$50,620,828 in expenses related to governmental activities; \$12,731,208 of these
 expenses were offset by program specific charges for services and grants or contributions. General
 revenues of \$43,280,723 were also used to provide for these programs.

Overview of the Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The General Fund is the only major fund of the District.

Government-wide Financial Statements

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the questions, "How did we do financially during 2016?" The Government-wide Financial Statements answers this question. These statements include *all assets and deferred outflows of resources* and *liabilities and deferred inflows of resources* using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

Sandusky City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

These two statements report the District's net position and changes in net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Government-wide Financial Statements, the overall financial position of the District is presented in the following manner:

• Governmental Activities – Most of the District's programs and services are reported here including instruction, support services, operation of non-instructional services, extracurricular activities and interest and fiscal charges.

Fund Financial Statements

The analysis of the District's major funds begins on the balance sheet. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

Governmental Funds Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Fund The District maintains one proprietary internal service fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District's internal service fund accounts for self insurance of the District's medical, dental and vision benefits.

Fiduciary Funds Fiduciary Funds are used to account for resources held for the benefits of parties outside the government. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

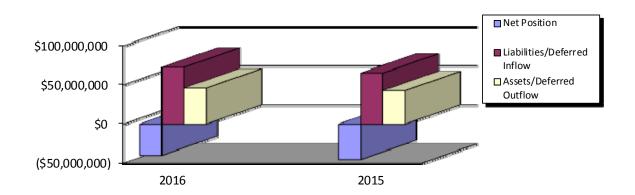

The District as a Whole

As stated previously, the Statement of Net Position looks at the District as a whole. Table 1 provides a summary of the District's net position for fiscal year 2016 compared to fiscal year 2015:

Sandusky City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

Table 1
Net Position

	Governmental Activities		
	2016	2015	
Assets:			
Current and Other Assets	\$35,146,100	\$31,800,305	
Capital Assets	10,808,765	10,888,784	
Total Assets	45,954,865	42,689,089	
Deferred Outflows of Resources:			
Pension	9,889,011	4,226,244	
Total Deferred Outflows of Resources	9,889,011	4,226,244	
Liabilities:			
Other Liabilities	6,730,462	6,297,290	
Long-Term Liabilities	65,897,884	58,935,271	
Total Liabilities	72,628,346	65,232,561	
Deferred Inflows of Resources:			
Property Taxes	15,502,724	16,950,183	
Grants and Other Taxes	34,382	0	
Pension	7,599,165	10,044,433	
Total Deferred Inflows of Resources	23,136,271	26,994,616	
Net Position:			
Net Investment in Capital Assets	10,691,843	10,635,896	
Restricted	2,354,770	2,130,209	
Unrestricted	(52,967,354)	(58,077,949)	
Total Net Position	(\$39,920,741)	(\$45,311,844)	

Sandusky City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2016, the District's liabilities and deferred inflows exceeded assets and deferred outflows by \$39,920,741.

At year-end, capital assets represented 24% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture and equipment and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2016, was \$10,691,843. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$2,354,770 represents resources that are subject to external restriction on how they must be used. The external restriction will not affect the availability of fund resources for future use.

Total assets increased from fiscal year 2015 to fiscal year 2016 mainly because of an increase in equity and cash investments.

Table 2 shows the changes in net position for fiscal years 2016 and 2015.

Net Position - Beginning of Year	(45,311,844)	(50,317,557)
Net Position - End of Year	(\$39,920,741)	(\$45,311,844)

This Space Intentionally Left Blank

Of the total governmental activities revenues of \$56,011,931, \$12,731,208 is from program revenue. This means that the government relies on general revenues to fund the majority of the cost of services provided to the citizens. Of those general revenues, \$20,595,548 (48%) comes from property tax levies and \$21,933,538 (51%) is from state funding. This District's operations are reliant upon its property tax levy and the state's foundation program.

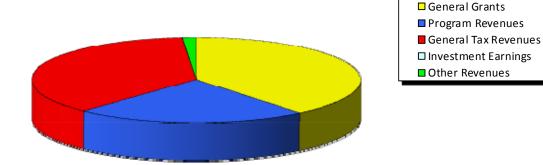

The District revenues are mainly from two sources. Property taxes levied for general and capital projects purposes and grants and entitlements comprised 76% of the District's revenues for governmental activities.

The District depends greatly on property taxes as a revenue source. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenues generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Thus, Ohio districts do not collect additional property tax revenue on the increased value of homes that is due to appreciation and must regularly return to the voters to maintain a constant level of service. Property taxes made up 37% of revenue for governmental activities for the District in fiscal year 2016.

Governmental Activities Revenue Sources

Revenues	2016	Percentage
General Grants	\$21,933,538	39.16%
Program Revenues	12,731,208	22.73%
General Tax Revenues	20,595,548	36.77%
Investment Earnings	19,599	0.03%
Other Revenues	732,038	1.31%
Total Revenue Sources	\$56,011,931	100.00%

Instruction comprises 62.9% of governmental program expenses. Support services expenses were 28.9% of governmental program expenses. All other program expenses including interest expense were 8.2%. Interest expense was attributable to capital lease for copiers.

Expenses increased from 2015 to 2016 mainly due to the District increasing their instruction and support services in 2016 when compared to 2015. Revenues increased from 2015 to 2016 mainly due to an increase in program revenues received in 2016.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3
Governmental Activities

	Total Cost of Services		Net Cost o	of Services
	2016	2016 2015		2015
Instruction	\$31,824,045	\$31,501,248	(\$24,008,183)	(\$26,712,016)
Support Services:				
Pupil and Instructional Staff	4,486,975	4,187,470	(3,373,024)	(3,330,143)
School Administrative, General				
Administration, Fiscal and Business	4,451,490	4,237,611	(4,378,099)	(4,036,087)

Pupil Transportation	1,997,595	1,688,292	(1,712,030)	(1,638,319)
Central	524,488	390,519	(511,888)	(361,302)
Operation of Non-Instructional Services	3,039,467	2,725,322	85,605	51,557
Extracurricular Activities	1,111,967	1,129,613	(887,754)	(932,933)
Interest and Fiscal Charges	23,994	24,129	(23,994)	(24,129)
Total Expenses	\$50,620,828	\$48,979,418	(\$37,889,620)	(\$40,013,068)

The District's Funds

The District has one major governmental fund: the General Fund. Assets of the general fund comprised \$28,225,767 (87%) of the total \$32,290,106 governmental funds' assets.

General Fund: Fund balance at June 30, 2016 was \$6,714,115 an increase in fund balance of 4,648,437 from 2015. The primary reason for the increase in fund balance was the District having an increase in property and other taxes, and intergovernmental monies received when compared to 2015.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2016, the District amended its general fund budget at times, however none were significant. The District's budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. During the course of the year, the District revised the budget in an attempt to deal with unexpected changes in revenues and expenditures.

For the General Fund, the final budgeted revenue was \$45,695,334 and the original budgeted revenue was \$44,865,454. The difference was \$829,880. Of this difference, most was due to underestimating taxes and intergovernmental revenue. The final budgeted expenditures was \$42,897,031 and the original budgeted expenditures was \$43,199,142. The difference was \$302,111. Of this difference, most was due to the over estimates in instruction expenses and support services.

The District's ending unobligated actual fund balance for the General fund was \$7,181,577.

Capital Assets and Long-Term Obligations

Capital Assets

At the fiscal year end, the District had \$10,808,765 invested in land, land improvements, buildings and improvements, furniture and equipment, and vehicles. Table 4 shows fiscal year 2016 balances compared to fiscal year 2015:

Table 4
Capital Assets at Year End
(Net of Depreciation)

	Governmental Activities		
	2016	2015	
Land	\$2,639,184	\$2,639,184	
Land Improvements	187,061	201,885	
Buildings and Improvements	5,892,033	5,975,042	
Furniture and Equipment	1,058,244	1,089,859	
Vehicles	1,032,243	982,814	
Total Net Capital Assets	\$10,808,765	\$10,888,784	

Overall, capital assets decreased due to current fiscal year depreciation plus deletions being more than current fiscal year additions.

See Note 8 in the notes to the basic financial statements for further details on the District's capital assets.

Long-Term Obligations

At June 30, 2016, the District had \$116,922 in capital leases outstanding, \$116,922 due within one year. Table 5 summarizes capital lease outstanding.

Sandusky City School District, Ohio Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 (Unaudited)

Table 5				
Outstanding	Debt	at	Year	End

	Governmental Activities	
	2016 2015	
Capital Leases	\$116,922	\$252,888

See Notes 9 - 10 in the notes to the basic financial statements for further details on the District's outstanding debt.

For the Future

The District is projecting and continues to project general fund cash reserves over the next 5 fiscal years. The District has experienced increases in state revenue from the Ohio Department of Education. Sandusky City Schools is projected to receive maximum amount of revenue with continued gain limitations permitted. The funding limits, continued spending mandates, and deduction increases are all taken into consideration for the overall operation of the Districts. The management team will monitor line 6.01 of the five year financial forecast to ensure revenues continue to align within expenditures.

The Sandusky City School District passed a bond issue levy in November, 2016 for the construction of new school buildings.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Treasurer, Gina Deppert at gdeppert@scs-k12.net, (419) 984-1005 or, Sandusky City School District, 407 Decatur Street, Sandusky, Ohio 44870.

Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital asset additions as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of the difference between capital asset additions and depreciation in the current period.		
Capital assets used in governmental activities Depreciation Expense	581,286 (606,279)	
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. The amount of the proceeds must be removed and the gain or loss on the disposal of capital assets must be recognized. This is the		(24,993)
amount of the difference between the proceeds and the gain or loss.		(55,026)
Governmental funds report district pension contributions as expenditures. However in the Statement of Activites, the cost of pension benefits earned net of employee contributions is reported as pension expense.		
District pension contributions	3,792,816	
Cost of benefits earned net of employee contributions	(3,082,720)	710,096
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		. 23,223
Delinquent Property Taxes	(626,116)	
Intergovernmental	135,880	(490,236)
Repayment of capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term		
liabilities in the statement of net position.		135,966
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Compensated Absences		(178,023)
The internal service fund used by management to charge back costs to individual funds is not reported in the entity-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.

Note 1 - Description of the School District

The Sandusky City School District (the "District") is located in northern Erie County and is within the corporate boundaries of the City of Sandusky, which lies on the shores of Sandusky Bay and Lake Erie. The District serves an area of approximately 15 square miles.

The District is organized under Sections 2 and 3, Article VI of the Constitution of the State of Ohio. Under such laws, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the District is vested in the Board of Education, consisting of five members elected at large for staggered four-year terms.

The District ranks as the 128th largest by total enrollment among the 612 public school districts in the State. It currently operates 2 pre K-6 elementary schools, 3 K-6 elementary schools, 1 middle school and 1 comprehensive high school. The District employs 156 non-certified employees, 259 certified employees, 5 full-time adult education instructors and 28 administrators, to provide services to approximately 3,877 students in grades pre-K through 12, 164 adult education students and various community groups.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

Reporting Entity

The reporting entity has been defined in accordance with the appropriate GASB Statement. The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary governments financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

The following organizations are described due to their relationship to the District:

Jointly Governed Organization

Northern Ohio Educational Computer Association (NOECA) – The District participated in NOECA, a computer consortium. NOECA is an association made up of various public school districts formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The NOECA Board of Directors consists of representatives from each county in which participating school districts are located, the chairman of each of the operating committees and a representative from the fiscal agent. The District paid \$2,100 to NOECA in fiscal year 2016 for services provided. Financial information can be obtained from Betty Rando who serves as Director, 219 Howard Drive, Sandusky, Ohio 44870.

Related Organization

<u>Sandusky Public Library</u> – The Sandusky Public Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the District for operational subsidies. Although the District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Sandusky Public Library at 114 W. Adams Street, Sandusky, Ohio 44870.

Public Entity Risk Pool

<u>Workers' Compensation</u> – The District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio Association of School Business Officials Workers' Compensation Group Rating Plan (GRP) was established through the Ohio Association of School Business Officials (OASBO) as a group purchasing pool.

The Executive Director of the OASBO, or his designee, serves as coordinator of the GRP. Each year, the participating school district pays an enrollment fee to the GRP to cover the costs of administering the program.

Fund Accounting

The District uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district activities or functions. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category is divided into separate fund types.

Governmental Funds

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the District's only major governmental fund:

<u>General Fund</u> - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Other governmental funds of the District are used to account for (a) the accumulation of resources for, and payment of, general long-term debt principal, interest and related costs; (b) financial resources to be used for the acquisition, construction, or improvement of capital facilities; and (c) for grants and other resources whose use is restricted to a particular purpose.

Proprietary Funds

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The District has no enterprise funds. The following is a description of the District's internal service fund:

<u>Internal Service Fund</u> - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the district, or to other governments, on a cost-reimbursement basis. The internal service fund of the District accounts for a self-insurance program which provides medical, dental and vision benefits to employees.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into two classifications: private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District has two trust funds; a private purpose trust fund which accounts for scholarship programs for students and an endowment fund. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The agency funds are used to account for student activities and for the fiscal agent activity of the Sandusky Public Library.

Basis of Presentation

<u>Government-wide Financial Statements</u> - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

The proprietary fund type is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of the proprietary fund are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's internal service fund is charges for services. Operating expenses for the internal service fund include claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Private-purpose trust funds are reported using the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting on the fund financial statements. Proprietary and fiduciary funds also use the accrual basis of accounting.

<u>Revenues - Exchange and Nonexchange Transactions</u> – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

<u>Deferred Outflows / Inflows of Resources</u> - In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. The deferred outflows of resources related to pension are reported on the government-wide statement of net position, see Note 12 for explanation.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, grants and other taxes, and pension. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance year 2017 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Deferred inflows of resources related to pension are reported on the government-wide statement of net position, see Note 12 for explanation.

<u>Expenses/Expenditures</u> - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities used during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Equity in Pooled Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the financial statements.

During fiscal year 2016, investments were limited to shares of common stock and negotiable Certificates of Deposit (CDs).

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements and non-negotiable certificates of deposit, are reported at cost.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. The Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2016 amounted to \$11,877, \$7,722 credited to other governmental funds.

While common stock is not an allowable investment according to Ohio Statute, the District has been endowed with gifts of stock to its private-purpose trust fund. No public funds were used to acquire the stock. At the time the common stock was endowed to the District its value was \$3,882,450. The amount of common stock available for expenditure is reported in net position available in trust for scholarships on the statement of fiduciary net position. A committee has been created to authorize the spending of the investment income.

For presentation on the financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at year end is provided in Note 4.

Capital Assets

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also capitalized.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives (with an estimated 10% salvage value):

Description	Estimated Lives
Land Improvements	25 years
Buildings & Improvements	25 - 100 years
Furniture & Equipment	3 - 20 years
Vehicles	5 - 15 years

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column on the Statement of Net Position.

As a general rule the effect of interfund (internal) activity has been eliminated from the government-wide statement of activities. The interfund services provided and used are not eliminated in the process of consolidation.

Compensated Absences

Compensated absences of the District consist of vacation leave and sick liability to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16 "Accounting for Compensated Absences", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. A liability for Certified staff sick leave is based on a policy whereby an employee who was hired prior to July 1, 1989 is compensated upon retirement for the greater of (1) sixty five (65) days of sick leave pay regardless of the employee's sick leave balance, or (2) 25% of accrued but unused sick leave up to a maximum of 75 days, plus 10% of all unused sick leave over 300 days. Employees hired on or after July 1, 1989 are eligible for sick leave pay only as in (2) above. A liability for Classified staff sick leave is based on a policy whereby 25% of accrued but unused sick leave up to a maximum of 75 days, plus 10% of all unused sick leave over 300 days is compensated. This liability exists for employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future and is reported as a component of "future retirement obligation" in the basic financial statements.

The District has entered into a First Opportunity Retirement Incentive (FORI) whereby, upon election, a Classified employee reaching their first year of retirement eligibility (with a minimum age of 60 years or 30 or more years of service with a minimum of five (5) years in district employment) is entitled to receive an additional 30 days of sick leave pay or 12% of their unused sick leave balance, whichever is

greater. A Certified employee reaching their first year of retirement eligibility (with a minimum age of 65 years or 30 or more years of service with a minimum of five (5) years in district employment) is entitled to receive an additional 30 days of sick leave pay or 12% of their unused sick leave balance, whichever is greater. The corresponding liability for the FORI has been recorded for employees who have elected to retire under the terms of the FORI and is reported as a component of "future retirement obligation" in the governmental fund balance sheet and as a component of long-term liabilities in the statement of net position. Amounts for FORI represent liabilities at June 30, 2016 on the fund financial statements.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2016 and reduced to the maximum payment allowed by labor contract and/or statute, plus any additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the internal service fund are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, and future retirement obligations that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Capital leases and contractually required pension obligations are recognized as a liability in the fund financial statements when due.

Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that can be used only for the specific purposes imposed by a formal action (board resolution) of the District's Board of Education. The Board of Education is the highest level of decision making authority for the District. Those committed resources cannot be used for any other purpose unless the District's Board of Education removes or changes the specified use by taking the same type of action (board resolution) it employed to previously commit those resources.

Assigned – resources intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In the general fund, assigned amounts are intended to be used for specific purposes as approved through the District's formal purchase order procedure by the Superintendent and the Treasurer. The adoption of the board appropriation resolution is the established policy, which gives the authorization to assign resources for a specific purpose.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts which had been restricted, committed or assigned for said purposes.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net Position

Net position represents the difference between assets, deferred outflows of resources, and liabilities, deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents the amount restricted for auxiliary service funds established to support District programs.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Of the District's \$2,354,770 in restricted net position, none were restricted by enabling legislation.

Parochial Schools

Within the District boundaries, St. Mary's, Saints Peter and Paul and Holy Angels Elementary Schools and St. Mary's Central Catholic High School are operated through the Toledo Catholic Diocese. Current State legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial school. These activities are reported as a governmental activity of the District.

Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the District, these revenues are charges for services for self-insurance programs. Operating expenses are claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating.

Note 3 - Accountability

Fund balances at June 30, 2016 included the following individual fund deficits:

Fund	Deficit
Other Governmental Funds:	
Public School Preschool	\$1,309
Title VI B	9,322
Vocational Education	16,272

The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

Note 4 – Equity in Pooled Cash and Investments

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits with Financial Institutions

As of June 30, 2016, \$16,439,895 of the District's bank balance of \$16,942,746 was exposed to custodial credit risk as discussed below, while \$502,851 was covered by FDIC.

Investments

As of June 30, 2016, the District had the following investments and maturities:

		Weighted Average
	Fair Value	Maturity (Years)
Negotiable CDs	\$685,975	0.58
Stock	4,015,639	0.00
	\$4,701,614	
Portfolio Weighted Average Maturity		0.09

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the District's recurring fair value measurements as of June 30, 2016. All investments of the District are valued using quoted market prices (Level 1 inputs).

Interest Rate Risk: The Ohio Revised Code general limits security purchases to those that mature within five years of the settlement date. Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The District's investment policy addresses interest rate risk by requiring the consideration of market conditions and cash flow requirements in determining the term of an investment.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Credit Risk: The District's stocks were rated ranging from AA- to D, Aa3 to C and AA to C by Standard & Poor's, Moody's Investor Services and Fitch Ratings, respectively. The District's corporate bonds were rated BB- and CCC by Moody's Investor Services and were rated Ba2 and Ca by Standard & Poor's.

Concentration of Credit Risk: The District's investment policy addresses concentration of credit risk by requiring investments to be diversified to reduce the risk of loss resulting from over concentration of assets in a specific issue or specific class of securities. The following table includes the percentage of each investment type held by the District at June 30, 2016:

	Fair Value	% of Total	
Negotiable CDs Stock	\$685,975 4,015,639	14.59% 85.41%	
Stock	\$4,701,614	100.00%	

Note 5 - Interfund Transactions

Interfund transactions at June 30, 2016, consisted of the following transfers in and transfers out, and interfund payables and receivables:

	Transfers		Interfund	
	In Out		Receivable	Payable
General Fund	\$0	\$15,935	\$45,997	\$0
Other Governmental Funds	16,513	578	0	45,997
Total All Funds	\$16,513	\$16,513	\$45,997	\$45,997

Interfund balance/transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budget authorizations; to segregate and to return money to the fund from which it was originally provided once a project is completed.

Note 6 - Property Taxes

Real property taxes collected in 2016 were levied after April 1, 2015 on the assessed values as of January 1, 2015, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. A re-evaluation of real property is required to be completed no less than every six years, with a statistical update ever third year. The most recent re-evaluation was completed in 2015.

Public utility personal property taxes received in calendar year 2016 were levied after April 1, 2015, on the value as of December 31, 2014. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

Real property taxes are payable annually or semi-annually. In 2016, if paid annually, payment was due by January 20th. If paid semi-annually, the first payment (at least 1/2 amount billed) was due January 20th with the remainder due on June 20th.

The County Auditor remits portions of the taxes collected to all taxing districts with periodic settlements of real and public utility property taxes in February and August. The District records billed but uncollected property taxes as receivables at their estimated net realizable value.

On a full-accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, personal property and public utility taxes which became measurable at June 30, 2016. Delinquent property taxes collected within 60 days are included as a receivable and tax revenue as of June 30, 2016 on the fund statements. The entire amount of delinquent taxes receivable is recognized as a revenue on the government-wide financial statements. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is available to finance current year operations. The receivable is, therefore, offset by a credit to deferred inflows of resources for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2016, was \$3,844,127 for General Fund and \$175,574 for Other Governmental Funds and is recognized as revenue.

The assessed values upon which the fiscal year 2016 taxes were collected are:

	Amount
Agricultural/Residential and Other Real Estate	\$434,803,970
Public Utility Personal	24,933,580
Total	\$459,737,550

Note 7 – Receivables

Receivables at June 30, 2016 consisted of taxes, accounts (billings for user charged services and student fees), intergovernmental grants and entitlements, and interfund are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds, with the possible exception of accounts receivable related to the District's adult education services.

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within the subsequent year.

This Space Intentionally Left Blank

Note 8 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2016, was as follows:

	Beginning Balance	Additions	Deletions	Ending Balance
Governmental Activities	Dalance	Additions	Defetions	Datatice
Capital Assets, not being depreciated:				
Land	\$2,639,184	\$0	\$0	\$2,639,184
Capital Assets, being depreciated:				
Land Improvements	372,158	0	0	372,158
Buildings & Improvements	15,687,097	236,565	56,159	15,867,503
Furniture & Equipment	3,019,374	138,389	4,157	3,153,606
Vehicles	2,550,090	206,332	107,943	2,648,479
Totals at Historical Cost	24,267,903	581,286	168,259	24,680,930
Less Accumulated Depreciation:				
Land Improvements	170,273	14,824	0	185,097
Buildings & Improvements	9,712,055	279,499	16,084	9,975,470
Furniture & Equipment	1,929,515	165,847	0	2,095,362
Vehicles	1,567,276	146,109	97,149	1,616,236
Total Accumulated Depreciation	13,379,119	606,279	113,233	13,872,165
Governmental Activities Capital Assets, Net	\$10,888,784	(\$24,993)	\$55,026	\$10,808,765

Depreciation expense was charged to governmental functions as follows

Instruction:

Regular	\$320,235
Special	10,051
Vocational	7,849
Adult	649
Support Services:	
School Administration	15,182
Fiscal	495
Operations and Maintenance	33,652
Pupil Transportation	129,089
Central	43,193
Operation of Non-Instructional Services	31,111
Extracurricular Activities	14,773
Total Depreciation Expense	\$606,279

39

Note 9 - Capital Leases - Lessee Disclosure

At various times, the District entered into capitalized leases for copiers. These lease agreements meet the criteria of capital lease. A capital lease generally is an agreement which transfers the benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. These expenditures are reported as function expenditures on the budgetary statements.

Capital assets consisting of equipment have been capitalized in the amount of \$793,500. These amounts represent the present value of the minimum lease payments at the time of acquisition. Principal payments in fiscal year 2016 totaled \$135,966 paid by the general fund.

The following is a schedule of the future long-term minimum lease payments required under capital lease and the present value of the future minimum lease payments as of June 30, 2016:

Fiscal Year	
Ending June 30	Payment
2017	\$137,555
Total Minimum Lease Payments	\$137,555
Amount Representing Interest	(20,633)
Present Value of Minimum Lease Payments	\$116,922

Note 10 - Long-Term Obligations

The changes in the District's long-term obligations during the year consist of the following:

	Beginning Balance	Issued	Retired	Ending Balance	Due In One Year
Governmental Activities:					
Net Pension Liability:					
STRS	\$46,114,268	\$9,069,408	\$2,907,695	\$52,275,981	\$0
SERS	9,322,814	1,926,276	690,049	10,559,041	0
Total Net Pension Liability	55,437,082	10,995,684	3,597,744	62,835,022	0
Capital Leases	252,888	0	135,966	116,922	116,922
Total Long Term Debt	252,888	0	135,966	116,922	116,922
Compensated Absences	3,245,301	616,798	916,158	2,945,941	461,534
Total Governmental Activities	\$58,935,271	\$11,612,482	\$4,649,868	\$65,897,885	\$578,456

Net Pension Liability related to employee compensation will be paid form the fund benefitting from their service and capital lease payments will be paid from the general fund.

Compensated absences and the future retirement obligation will be paid from the fund from which the employee is paid. The payments will be made from the general fund and various other governmental funds.

Note 11 - Risk Management

Comprehensive

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2016, the District has contracted with Indiana Insurance Company to provide insurance coverage in the amounts below.

Limits of Coverage	Coverage	Deductible
General Liability		
Each Occurrence	\$1,000,000	\$2,500
Aggregate	2,000,000	0
Fleet:		
Comprehensive/Collision	1,000,000	1,000
Umbrella Liability and Fleet	3,000,000	10,000
Buildings and Contents	107,470,878	10,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There was no significant reduction in coverage from the prior fiscal year.

Health Benefits

The District has established a risk management fund (an internal service fund) to account for and finance its uninsured risks of loss. Under this program, the risk management fund provides coverage for up to a maximum of \$175,000 for each health benefits claim. The District purchases commercial insurance for claims in excess of coverage provided by the fund and for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

All funds of the District participate in the program and make payments to the Risk Management Fund based on actuarial estimates of the amounts needed to pay claims and actual amounts needed to pay fixed costs (premiums for stop-loss coverage and medical conversion and administrative fees and services).

The claims liability of \$657,195 reported in the basic financial statements at June 30, 2016, is based on an estimate provided by the third party administrator and the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred, but not reported claims, be accrued at the estimated ultimate cost of settling the claims. The claims liability is expected to be paid in the next fiscal year. Changes in claims activity for the current and previous fiscal years are as follows:

	Beginning	Current Year	Claims	Balance
	Balance	Claims	Payments	End of Year
2016	\$572,234	\$4,871,550	\$4,786,589	\$657,195
2015	1,005,000	3,691,786	4,124,552	572,234

Workers' Compensation Rating Program

The District participates in the Ohio Association of School Business Officials Workers' Compensation Group Rating Plan (GRP), a public entity risk pool (Note 2). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. Participants in the GRP are placed on tiers according to their loss history. Participants with low loss histories are rewarded with greater savings than participants with higher loss histories. Each participant pays its workers' compensation premium to the state based on the rate for its GRP tier rather than its individual rate. Participation in the GRP is limited to school districts than can meet the GRP's selection criteria. The firm of Sheakley UniService, Inc. provides administrative, cost control, assistance with safety programs, and actuarial services to the GRP.

Note 12 - Defined Benefit Pension Plans

Net Pension Liability

Pensions are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

Plan Description - School Employees Retirement System (SERS)

Plan Description – District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to	Eligible to
	Retire on or before	Retire on or after
	August 1, 2017 *	August 1, 2017
Full Benefits	Any age with 30 years of service credit Age 65 with 5 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

^{*} Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service, and 2.5 percent for years of service credit over 30 or \$86.00 multiplied by the years of service credit. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 14.00 percent. None of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$922,824 for fiscal year 2016. Of this amount \$170,191 is reported as accrued wages and benefits.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement increased effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who

become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$2,869,992 for fiscal year 2016. Of this amount \$491,144 is reported as accrued wages and benefits.

Net Pension Liability

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share:

	SERS	STRS	Total
Proportionate Share of the Net			
Pension Liability	\$10,559,041	\$52,275,980	\$62,835,021
Proportion of Net Pension			
Prior Measurement Date	0.18421100%	0.18958761%	
Proportion of the Net Pension			
Current Measurement Date	0.18504840%	0.18915164%	
Change in Proportionate Share	0.00083740%	-0.00043597%	
Pension Expense	665,823	2,377,148	3,042,971

At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

This Space Intentionally Left Blank

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$169,659	\$2,384,146	\$2,553,805
Net difference between projected and actual earnings on pension plan investments	790,142	2,624,141	3,414,283
Changes in employer proportion and differences between contributions and proportionate share of contributions	125,650	2,457	128,107
District contributions subsequent to the measurement date	922,824	2,869,992	3,792,816
Total Deferred Outflows of Resources	\$2,008,275	\$7,880,736	\$9,889,011
Deferred Inflows of Resources Net difference between projected and			
actual earnings on pension plan investments Changes in employer proportion and differences	\$1,133,120	\$6,403,390	\$7,536,510
between contributions and proportionate share of contributions Changes in employer proportionate share of	6,878	(19,618)	(12,740)
net pension liability	(43,936)	119,331	75,395
Total Deferred Inflows of Resources	\$1,096,062	\$6,503,103	\$7,599,165

\$3,792,816 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2017	(\$113,041)	(\$879,553)	(\$992,594)
2018	(113,041)	(879,553)	(992,594)
2019	(113,840)	(879,550)	(993,390)
2020	203,661	1,143,840	1,347,501
Total	(\$136,261)	(\$1,494,816)	(\$1,631,077)

46

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage Inflation
3.25 percent

Future Salary Increases, including inflation
COLA or Ad Hoc COLA
Investment Rate of Return
Actuarial Cost Method
3.25 percent
4 percent to 22 percent
3 percent
7.75 percent net of investments expense, including inflation
Entry Age Normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
Total	100.00 %	

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	Current		
	1% Decrease Discount Rate 1% In		
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share			
of the net pension liability	\$14,641,596	\$10,559,041	\$7,121,194

Actuarial Assumptions - STRS

The total pension liability in the July 1, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses, including inflation
Cost-of-Living Adjustments	2 percent simple applied as follows: for members retiring before
(COLA)	August 1, 2013, 2 percent per year; for members retiring August 1, 2013,
	or later, 2 percent COLA paid on fifth anniversary of retirement date.

48

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	Current		
	1% Decrease	1% Increase	
	(6.75%)	(7.75%)	(8.75%)
District's proportionate share			
of the net pension liability	\$72,615,280	\$52,275,981	\$35,076,069

Note 13 - Post Employment Benefits

School Employees Retirement System

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2016, 0.00 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2016, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2016, the District's surcharge obligation was \$93,289.

The District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$0, \$148,421, and \$9,259, respectively. The full amount has been contributed for fiscal years 2016, 2015, and 2014.

State Teachers Retirement System

Plan Description – The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2016, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$0, \$0, and \$191,539, respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

Note 14 – Contingencies

School District Funding

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional school districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the school districts, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015 or June 30, 2016 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

Grants

The District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements, and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2016, if applicable, cannot be determined at this time.

Litigation

The District is not currently a party to any legal proceedings.

Note 15 - Statutory Reserves

The District is required by State law to set-aside certain general fund revenue amounts, as defined by statute, into various reserves. These reserves are calculated and presented on a cash basis. During the fiscal year ended June 30, 2016, the reserve activity was as follows:

	Capital
	Acquisition
Set Aside Reserve Balance as of June 30, 2015	\$0
Current Year Set Aside Requirements	552,814
Qualified Disbursements	(1,080,775)
Set Aside Reserve Balance as of June 30, 2016	(\$527,961)
Restricted Cash as of June 30, 2016	\$0

Although the District had offsets and qualifying disbursements during the year that reduced the setaside amounts below zero for the capital acquisition reserve, this extra amount may not be used to reduce the set-aside requirement for future years. The negative amount is therefore not presented as being carried forward to the next fiscal year.

Note 16 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

This Space Intentionally Left Blank

		Other	
Fund Balances	General	Governmental Funds	Total
Nonspendable:	General	i uiius	Total
Perpetual Care	\$0	\$10,000	\$10,000
Prepaids	30,961	3,452	34,413

Encumbrances (assigned) will be used for instruction, support services and capital improvements throughout the District.

Note 17 – Construction and other Commitments

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

<u>Description</u>	Remaining <u>Commitment</u>
General	\$459,489
Other Governmental - Permanent Improvement	383,377
All Other Governmental	137,362

Note 18 - Implementation of New Accounting Principles

For the fiscal year ended June 30, 2016, the District has implemented Governmental Accounting Standards Board (GASB) Statement No. 72, Fair Value Measurement and Application, GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68, GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments and GASB Statement No. 79, Certain External Investment Pools and Pool Participants.

GASB Statement No. 72 clarifies the definition of fair value for financial reporting purposes, establishes general principles for measuring fair value, provides additional fair value application guidance, and enhances disclosures about fair value measurements. These changes were incorporated in the District's fiscal year 2016 note disclosures; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 73 establishes requirements for defined benefit pensions that are not within the scope of GASB Statement No. 68 as well as for the assets accumulated for purposes of providing those pensions. In addition, it establishes requirements for defined contribution pensions that are not within the scope of Statement 68. It also clarifies the application of certain provisions of GASB Statements 67 and 68. The implementation of GASB Statement No. 73 did not have an effect on the financial statements of the District.

GASB Statement No. 76 reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. The implementation of GASB Statement No. 76 did not have an effect on the financial statements of the District.

GASB Statement No. 79 addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The implementation of GASB Statement No. 79 did not have an effect on the financial statements of the District.

Note 19 – Subsequent Event

On November 8, 2016 the District passed a bond issue levy for the construction of new school buildings.

See accompanying notes to the required supplementary information.

Note 1 - Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriations resolution and the certificate of estimated resources which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the Board of Education may appropriate. The appropriation resolution is Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Board. The legal level of control has been established by Board at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education. During the course of fiscal year 2016, the District amended its budget at several times, however none were significant.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the fiscal year 2016.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Board during the year. At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not appropriated.

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balances — Budget and Actual (Non-GAAP Budgetary Basis) presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- Encumbrances are treated as expenditures for all funds (budget basis) rather than as an assignment of fund balance for governmental fund types and expendable trust funds (GAAP basis).

Sandusky City School District, Ohio Notes to the Required Supplementary Information For The Year Fiscal Ended June 30, 2016

- 4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.
- 5. Some funds are reported as part of the general fund (GAAP basis) as opposed to the general fund being reported alone (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

Net Change in Fund Balance

	General
GAAP Basis	\$4,648,437
Revenue Accruals	(2,061,763)
Expenditure Accruals	635,798
Transfers (Out)	15,935
Advances In	632
Advances (Out)	(45,998)
Encumbrances	(439,993)
Funds Budgeted Elsewhere	3,602
Budget Basis	\$2,756,650

This Space Intentionally Left Blank

COMBINING STATEMENTS AND INDIVIDUAL FUND SCHEDULES

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

Debt Service Fund

The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in the debt service fund. The District has only one Debt Service Fund for fiscal year 2016.

Capital Projects Funds

The Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Permanent Fund

The Permanent fund should be used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for the purposes that support the reporting government's programs – that is, for the benefit of the government or its citizenry. The Permanent fund does not include private-purpose trust funds, which should be used to report situations in which the government is required to use the principal or earnings for the benefit of individuals, private organizations, or other governments. The District has only one Permanent Fund for fiscal year 2016.

NONMAJOR SPECIAL REVENUE FUNDS

Fund Descriptions

Adult Education - The adult education is used to account for educational opportunities offered on a tuition basis to adults living within the community. This fund is split between a special revenue fund and the general fund for GAAP reporting purposes. The special revenue portion only accounts for grant monies the District received and spent during the fiscal year and is included in the Nonmajor Special Revenue Funds - Combining Balance Sheet and the Combining Statement of Revenues, Expenditures and Changes in Fund Balance. The Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual (Non-GAAP Budgetary Basis) is shown combined (not split between the special revenue fund and general fund) and is included in the Other General Funds section.

Other Grants - A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

Special Trust - A fund used to account for trust agreements in which the principal and income is used to support District programs.

District Managed Student Activity - A fund used to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

Auxiliary Services - A fund used to account for monies which provide services and materials to pupils attending non-public schools within the school district.

Public School Preschool - A fund used to assist school districts in paying the cost of preschool programs for three and four year olds.

SchoolNet OneNet - A fund used to account for state funds related to the District's SchoolNet OneNet program.

Straight A Grant - To account for state funded grant monies that support the implementation of innovative ideas and practices in Ohio's schools.

Able/Job Grant - A fund established to provide assistance to welfare recipients to fund employment. The school district collaborates with the Department of Human Services in preparing participants for the work force by providing them with skills, development, work experience and placement.

NONMAJOR SPECIAL REVENUE FUNDS

Fund Descriptions

Adult Basic Education - A fund used to account for the Federal monies used to provide programs in reading, writing and math competency for adults who have not earned a high school diploma.

Title VI B - A fund used to account Federal monies which assist states in the identification of handicapped children, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Vocational Education - Provision of funds to boards of education, teacher training institutions, and the state administering agency for cooperating in development of vocational education programs in the following categories: secondary, post-secondary, adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, construction of area vocational schools, ancillary services, research, advisory committees, and work-study projects, including sex equity grants. Funds are administered by the Ohio Department of Education, Division of Vocational and Career Education.

Basic Educational Opportunity Grant - Provision of funds to assist in making available the benefits of post-secondary education to qualified students.

Title I - A fund used to account for funds which are to: 1) establish or improve programs designed to meet the special educational need of migratory children of migratory agricultural workers or migratory fishers' and 2) enable State education agencies to coordinate their state migrant education programs and local projects with similar programs and projects in other states, including the transfer of school records of other information about migratory children.

EHA Preschool Grant - The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for the handicapped children ages three (3) through five (5) years.

Improving Teacher Quality - A fund used to account for monies to hire additional classroom teachers in grades one through three so that the number of students per teacher will be reduced.

Food Service - A fund used to account for all revenues and expenditures related to food service operations.

NONMAJOR SPECIAL REVENUE FUNDS

Fund Descriptions

Education Foundation - A fund used to account for the proceeds of any bequest, gift, or endowment given to the school district for the Education Foundation Fund or given without conditions or limitations; or, for the proceeds of a transfer from the General Fund of up to one-half of one per cent of the total estimated appropriations included in the school district's tax budget; or, in the case of a county board of education, an amount not to exceed one-half of one percent of the funds received by the county board pursuant to Section 3317.11 of the Revised Code. All boards of education must receipt any interest earnings on the principal of the Education Foundation Fund into the Fund. Monies in the Fund shall be expended only by resolution adopted by a majority of the members of the board for operating or capital costs of any existing or new and innovative program designed to enhance or promote education within the district, such as scholarships for students or teachers.

Title I School Improvement - A fund used to account for grant monies to help raise the achievement of students in the District.

Title III Limited English Proficiency - A fund used to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency. These programs provide structured English language instruction, with respect to the years of study to which the program is applicable, and instruction in the child's native language to the extent necessary to allow a child to achieve competence in English. The instruction must incorporate the cultural heritage of these children and of other children in American society. The instruction must be, to the extent necessary, in al courses or subjects of study which will allow a child to meet grade promotion and graduation standards.

NONMAJOR DEBT SERVICE FUND

Fund Description

Debt Service Fund - The Debt Service Fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in the debt service fund. The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance for the Debt Retirement Fund has been included in the Nonmajor Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures and Changes in Fund Balance. The Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual (Non-GAAP Budgetary Basis) follows this page.

NONMAJOR CAPITAL PROJECT FUNDS

Fund Descriptions

Permanent Improvement - A fund used to account for all transactions related to the acquiring, constructing, or improving of such permanent improvements as are authorized by chapter 5705, Revised Code.

Replacement - A fund used to account for monies used in the rebuilding, restoration or improvement of property which has been totally or partially destroyed due to any cause. Such property may have become unfit for use necessitating its demolition in whole or in part, and may require repair or restoration before it can again be used.

NONMAJOR PERMANENT FUND

Fund Description

Permanent Fund - The Permanent fund should be used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for the purposes that support the reporting government's programs – that is, for the benefit of the government or its citizenry. The Permanent fund does not include private-purpose trust funds, which should be used to report situations in which the government is required to use the principal or earnings for the benefit of individuals, private organizations, or other governments. The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance are included in the Nonmajor Governmental Funds Combining Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance. The Schedule of Revenues, Expenditures and Changes in Fund Balance Budget and Actual (Non-GAAP Budgetary Basis) follows this page.

OTHER GENERAL FUNDS

With the implementation of GASB Statement No. 54, certain funds that the District prepares legally adopted budgets for no longer meet the definition to be reported as Special Revenue funds and have been included with the General Fund in the governmental fund financial statements. The District has only presented the budget schedules for these funds.

Fund Descriptions

Public School Support - A fund used to account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sale of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

Adult Education - A fund used to account for transactions made in connection with adult education classes. Receipts include, but are not limited to, tuition from patrons and students, and reimbursement from the State Department of Education. Expenditures include supplies, salaries and textbooks.

NONMAJOR FUNDS

Fiduciary Funds

Fiduciary fund types are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental unites and/or other funds.

Scholarship Trust (Private Purpose Trust) - A fund used to account for monies set aside from endowments for scholarships for students enrolled in the District. The principal and income from such a fund may be expended.

Endowment (Private Purpose Trust) - A fund used to account for monies set aside from endowments for scholarships for students enrolled in the District. The income from such a fund may be expended, but the principal must remain intact.

District Agency (Agency Fund) - A fund used to account for those assets held by a school district as an agent for individuals, private organization, other governmental units, and/or other funds.

Student Managed Activity (Agency Fund) - A fund used to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

STATISTICAL SECTION

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

CONTENTS

<u>FINANCIAL TRENDS:</u> These schedules contain trend information to help the reader understand how the District's financial position has changed over time.

<u>REVENUE CAPACITY:</u> These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local revenue source(s), the property tax.

<u>DEBT CAPACITY:</u> These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.

<u>ECONOMIC AND DEMOGRAPHIC INFORMATION:</u> These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

<u>OPERATING INFORMATION:</u> These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.

<u>SOURCES</u>: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

(1) - Assessed values shown in this schedule will not agree to amounts in the notes to the financial statements, since the schedules are shown on a calendar year basis, which is consistent with the method county auditors maintain this information.

Note: The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for everything except inventories, which are assessed at 23 percent. Property is assessed annually.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue to be received in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed. House Bill 66 phased out tangible personal property with the last collection during 2010. Telephone personal property was assessed at 10% for 2009, 5% for 2010, and eliminated in 2011.
