### TWINSBURG CITY SCHOOL DISTRICT

### SUMMIT COUNTY, OHIO

### **AUDIT REPORT**

For the year ended June 30, 2016

Board of Education Twinsburg City School District 11136 Ravenna Road Twinsburg, Ohio 44087

We have reviewed the Independent Auditor's Report of the Twinsburg City School District, Summit County, prepared by Charles E. Harris & Associates, Inc., for the audit period July 1, 2015 through June 30, 2016. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Twinsburg City School District is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

# NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED JUNE 30, 2016

#### **NOTE A - BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Twinsburg City School District (the District's) under programs of the federal government for the year ended June 30, 2016. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

#### NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments* (codified in 2 CFR Part 225), or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

#### **NOTE C - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

#### **NOTE D - FOOD DONATION PROGRAM**

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Twinsburg City School District Summit County 11136 Ravenna Road Twinsburg, Ohio 44087

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Twinsburg City School District, Summit County, (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 21, 2016.

#### Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

### Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Twinsburg City School District Summit County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by Government Auditing Standards Page 2

### Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Twinsburg City School District Summit County 11136 Ravenna Road Twinsburg, Ohio 44087

To the Board of Education:

### Report on Compliance for Each Major Federal Program

We have audited the Twinsburg City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect each of the Twinsburg City School District's major federal programs for the year ended June 30, 2016. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal programs.

#### Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the Twinsburg City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2016.

Twinsburg City School District
Summit County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over
Compliance Required by the Uniform Guidance
Page 2

### Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Twinsburg City School District (the District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 21, 2016. We conducted our audit to opine on the District's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Mrs. Kathryn Powers, Superintendent Mr. Martin Aho, Treasurer Mrs. Jennifer Farthing, Director of Curriculum Mrs. Belinda McKinney, Director of Human Resources Mrs. Denise Traphagen, Director of Pupil Services Mr. Chad Welker, Business Manager

December 21, 2016

To the Citizens and Board of Education of the Twinsburg City School District:

The Comprehensive Annual Financial Report (CAFR) of the Twinsburg City School District, (the School District) for the fiscal year ended June 30, 2016, is hereby submitted. This report, prepared by the Fiscal Office, includes financial statements, supplemental statements, and other financial and statistical information to provide complete and full disclosure of all material financial aspects of the School District for the 2015-2016 fiscal year. This report is presented in compliance with Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments" and is representative of the School District's commitment to provide meaningful information to its stakeholders.

Responsibility for both the accuracy of the data presented, and the completeness and fairness of the presentation, including the disclosures, rests with the School District's management. To the best of our knowledge and belief, the CAFR and enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the School District.

State law requires the School District's financial statements to be subjected to a biennial examination by the Auditor of State of Ohio (Auditor) or an independent auditor contracted by the Auditor unless an annual Federal Single Audit is required. In addition, the law requires the School District to prepare and file, within 150 days following the close of their fiscal period, a financial statement prepared in accordance with generally accepted accounting principles (GAAP) with the Auditor. The financial statements, at a minimum, should be the basic financial statements of the School District and include the notes to those statements. Although not required by law, management of the School District has decided to prepare this CAFR. A further discussion of the audit can be found later in this letter.

This CAFR, which includes an opinion from the Auditor of State, conforms to generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB) and is representative of the School District's commitment to provide meaningful information to the citizens of the School District.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

### Description of the School District

The School District serves an area of approximately 30 square miles. It is comprised of the City of Twinsburg, Twinsburg Township, the Village of Reminderville and a portion of the City of Macedonia. It is located in the Northeast corner of Summit County and is approximately 21 miles southeast of downtown Cleveland and 24 miles northwest of Akron. Residents are from a broad range of socioeconomic and ethnic backgrounds. According to the 2010 Census, the population of the School District was 24,137.

As of October 2016, there were 4,140 students attending the five schools in the School District. They are: Wilcox Primary built in 1960, Bissell Elementary built in 1963, Dodge Intermediate built in 1969, Chamberlin Middle School built in 1958, and Twinsburg High School built in 1999. The School District also owns a central office building built in 1957, a bus garage, a football stadium, and various athletic fields. To date Twinsburg residents have invested over \$75 million in School District buildings, land, furniture, equipment and vehicles.

There has been a steady growth in student population. The 1992-93 enrollment was 2,431 students. Since then the student population has increased well over 75%. However, enrollment projections indicate stagnate student population growth over the next ten years. Projections indicate the School District's student population should flatten at approximately 4,000 students.

### Organization of the School District

The Board of Education of the School District is comprised of five members elected at-large by the citizens of the School District. The Board serves as the taxing authority, contracting body, and policy initiator for the operation of the School District. The Board is responsible for the adoption of the tax budget, the annual operating budget and approves all expenditures of the School District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the law.

The Superintendent is the Chief Executive Officer of the School District and is directly responsible to the Board for all operations within the School District. Effective August 1, 2011, Mrs. Kathryn Powers was hired as Superintendent. Mrs. Powers served as Director of Human Resources with the Brecksville-Broadview Heights City School District from 2008 to 2011 and as the Director of Instruction with the South Euclid-Lyndhurst City School District. Mrs. Powers also served as an elementary and middle school principal. She replaced Mr. Stephen Marlow who served as superintendent from January 2005 until he tendered his resignation at the February 2, 2011 board meeting.

The Treasurer is the Chief Fiscal Officer of the School District and is responsible directly to the Board for all financial operations, investments, custody of School District funds and assets, and serves as Secretary to the Board. Mr. Martin Aho has served in this capacity since July 2002. He has over twenty years of public sector employment experience. After seven years of service with the State Auditor's Office, he was an Assistant Treasurer for three years. He has an MBA from the University of Akron. The Treasurer's office employs four additional staff members.

All other School District employees are responsible to the Superintendent and are employed by the Board upon the recommendation of the Superintendent.

### The Reporting Entity

The School District has reviewed its reporting entity definition in order to insure conformance with the GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No 39 "Determining Whether Certain Organizations are Component Units" and GASB Statement No. 61, "The Financing Reporting Entity: Omnibus an amendment of GASB Statement No. 14 and No. 34." In evaluating how to define the School District for financial reporting purposes, management has considered all agencies, departments and organizations making up the School District (the primary government) and its potential component units.

A complete discussion of the School District's reporting entity is provided I Note 1 to the basic financial statements.

#### Economic Conditions

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the School District operates.

### Local Economy

The City of Twinsburg is an enviable location as part of the metropolitan Cleveland-Akron area. The two entrances to Interstate 480 are in very close proximity to Interstate 271 and Interstate 80 (Ohio Turnpike). The easy access to interstate highways has enabled the vitality of a large industrial park. Located within this park was a Chrysler stamping plant that closed March 2010 and shortly thereafter the buildings were demolished. The property has been cleared and is undergoing redevelopment.

Four State-supported and six private colleges and universities are located within a convenient driving distance from Twinsburg. The Twinsburg Public Library has been nationally recognized when compared to similar size libraries. The Twinsburg Public Library's consistently receives top ratings and has received several number one rating as measured by Hennen's American Public Library Ratings. In 2006 the Library surpassed the circulation milestone of one million items and in 2014 surpassed 1.25 million items. The Library celebrated its 100 birthday on May 2, 2010 and serves a population of just over 20,000.

Twinsburg hosts the Twins Days Festival on the first full weekend of August each year. The Twins Days Festival is the largest annual gathering of twins and multiples in the world! It annually attracts twins, multiples and their families from all over the globe.

Twinsburg City, Twinsburg Township and the Village of Reminderville have experienced a vibrant business sector over the past two decades. Limited growth is expected to continue as land is available for this use. A tax incentive program has assisted the growth. The benefits of such a plan are being realized at this point as most businesses remain in the community.

The School District, like the rest of the nation, continues to feel the impact of the current economic malaise. Property taxes and intergovernmental revenues are closely monitored. The School District considers both of these revenues indicators of the strength or weaknesses of the local economy. In monitoring property tax revenues, the School District takes in account several factors, including tax collections, the values of new construction, foreclosures and reappraisals. Having declined 8% after the mortgage-meltdown-fueled-national-recession; Summit County real estate valuations for the School District have regained some of their pre-meltdown values.

### Long-term financial planning

During these uncertain economic times the administration and Board of Education endeavor to hold down expenditures and continue to examine areas to make future resource reallocations. Our goal is to create dynamic curriculum and learning environments that challenge all students' creative, analytical and critical thinking abilities and skills beyond standardized requirements. Our focus on student achievement has garnered Twinsburg School District numerous Excellent and Excellent with Distinction rating from the Ohio Department of Education.

The litigation now referred to as the "DeRolph Case", began in 1991 ultimately found the State's method of funding school districts to be unconstitutional. Subsequently the Ohio Supreme Court relinquished jurisdiction over the case and directed the Ohio General Assembly to enact a school-funding scheme that is thorough and efficient. Under the guise of education reform, charter schools, online schools in addition to voucher programs deleteriously divert funds from traditional public schools and in most cases perform well below the their public counterpart.

The Ohio Legislature enacted in 1976, House Bill 920, severely limiting schools in their funding initiatives. This law prohibits school districts from realizing additional revenue from previously voted millage on the reappraisal of property values due to inflation.

House Bill 95 passed in June 2003 and House Bill 66 passed in June 2005 have eliminated the collection of taxes on tangible personal property. Tangible personal property is the machinery, inventory, furniture and fixtures owned by businesses. As the tax on tangible personal property is terminated, the State will provide limited reimbursements for a short period of time. The flow of these revenues will come via a Commercial Activity Tax. Interestingly, revenues that once flowed from local sources will now flow from the State, appearing as if the State has increased funding to education. The net effect is an overall reduction of revenues to the School District and like many Ohio schools is forced to seek voter-approved levies more frequently.

### Financial Policy

The School District is required by Ohio law to complete a five-year financial forecast annually. The School District completed the forecast in October 2015 as required and updated the forecast in May 2016. The forecast is designed to provide the administration, Board of Education and the public a general indication of a probable future financial position of the School District based on information currently available. The forecast is a critical planning document for the School District, focusing attention on future financial needs while facilitating management's strategic planning. The forecast numbers, and assumptions while made in good faith, *can*, *will and do* change over time and cannot be guaranteed. Just pick up any financial publication and see where XYZ Corporation restates its forecast to reflect market pressures. Events and circumstances frequently do not occur as expected and will significantly alter the outcomes and results of the forecast and assumptions.

The financial forecast of the general fund operations for the next five years demonstrates the School District's eroding financial position. Expenditures exceeded revenues in fiscal years 2011 and 2012. In response the School District adopted an Operational Change Plan beginning fiscal year 2013 reducing expenditures by \$3.2 million paired with a new operating levy. Although the School District has a carry-over cash balance and has made expenditure reductions, negative ending cash balances are projected for the near future. Furthermore, unfavorable State legislative decisions have resulted in fiscal year 2016 School District revenues virtually equaling those received in fiscal year 2007.

### Initiatives and Accomplishments

Across the School District a number of major accomplishments have taken place. The following are examples of those initiatives that directly impact teaching and learning.

#### Instruction

#### > Curriculum

The School District offers eighteen Advanced Placement courses permitting students to earn college level credits. Additionally, Duel Credit, Credit Flex and College Credit Plus options are available to students. Curriculum leaders and teachers have continued to work hard on refining curriculum maps and develop quality formative assessments. The School District continued professional development to ensure coherent and rigorous implementation of the Ohio's Learning Standards and Next Generation Assessments. Professional development opportunities support teacher's use of the data to improve instruction. Additionally, Professional Learning Communities (PLCs) continue to enhance teaching and learning environments.

### > Programs

Many programs support student learning such as Vocal/Orchestra/Band Music Programs, Cub Community Program, Interactive Media Program, Gravellier, RBC Honor Corps, and iLead. The Great Expectations Show Choir has earned numerous Grand Champion awards. In addition, many athletic opportunities exist for student athletes. The girls' basketball team was State Champion in 2011 and 2012. Programs have been designed to facilitate parental involvement in schools. These include Family Focus Nights and Parent Workshops, Veteran's/Grandparents Days, Father's Walk, and Parent-to-Parent Support Group to name a few.

### > Recognition

U.S. News & World Report ranks Twinsburg High School (THS) number 42 out of 741 Ohio high schools in 2016! THS also ranked number 1049 in the U.S. out of more than 21,000 high schools. That is the top 5 percent. Based on their performance on state assessments and how well they prepare students for college.

The Twinsburg City School District is proud to announce that Samuel Bissell Elementary School is one of 329 schools nationally to earn a 2016 National Blue Ribbon Award. National Blue Ribbon Award honors schools on the cutting edge of pioneering innovative educational practices, professional learning communities, project-based learning, social and emotional learning, and positive behavior systems, underscoring your school as a shining example for your community, your state and the nation.

### ➤ All Day Kindergarten

The School District has offered All-Day Kindergarten for many years in an effort to ensure all students are reading at grade level or better as they progress to first grade. This philosophy has been embraced in several recently proposed reform models that have all-day kindergarten as an important piece of the reform model. As a result, 100% of our third grade students met the requirements of the Third Grade Reading Guarantee.

### Student Supports

Positive Behavioral Interventions and Supports (PBIS) is a School District initiative that encompasses preschool through 12th grade. Through PBIS, the School District is promoting positive relationships, clear expectations, while consistently acknowledging and correcting behaviors district wide. The School District's focus is for all students to "Be Safe, Be Respectful, and Be Responsible".

The School District is committed to providing both academic and social services for students in order to support the whole child. This year we were very fortunate to bring to the School District a School-Based Program to support the social and emotional needs of our students

### > Planning

The Board of Education's approved Continuous Improvement Plan was developed with input from various stakeholders. In addition to the overall plan, each building developed its annual goals within the plan. The Plan also includes a mechanism to monitor and update it annually.

### **Plant and Educational Support**

#### > Facilities

All school buildings are in excellent physical condition. A Permanent Improvement levy supports the building maintenance program. This year a local architectural firm made a thorough assessment of all School District facilities; the Facilities Strategic Plan was presented to the Board of Education on June 29, 2016. Twinsburg High School was opened in January 1999 and attached to it is a Fitness Center operated by the City of Twinsburg Parks and Recreation Department. For the start of the 2006-2007 school year an artificial-grass surface was installed at our stadium. It has been positively received by the athletes and community alike. The turf was replaced the summer of 2015.

### ➤ Energy Conservation

A House Bill 264 Energy Conservation Project at the High School was completed in 2011. It has reduced energy consumption by approximately 46% and earned the High School an Energy Star Rating. An energy conservation project at R.B. Chamberlin replacing a boiler and upgrading lighting and HVAC controls was completed in 2015.

### > Technology

All buildings are wired, networked, and have internet access. The School District has approximately 1,400 computers for student and staff use. Other technologies that support education are also available. All staff and Board of Education members have e-mail access. The School District has recently repurposed underutilized space into four new computer labs with two being at Dodge Intermediate and two at the High School.

### Security

The School District has implemented a School District-wide security plan to protect the students and the staff in case of an emergency. All buildings have security equipment and procedures in place. All staff members as well as students in grades 4-12 have been trained in A.L.I.C.E., an intruder response program. The School District staff and area safety forces have participated in safety response drills. Building Welcome Centers and guest access solutions have been installed in all five educational buildings.

#### Buses

The School District has a fleet of 44 buses. The School District has developed a replacement schedule to refresh the fleet over a ten year cycle.

### Financial Information

The management of the School District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the School District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of the control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timeframe. All funds, other than agency funds are required to be budgeted and appropriated. Encompassed in this process expenditures and encumbrances must be within appropriations and appropriations must be with in estimated resources. The level of budgetary control for the School District is at the fund level and at the object level for the general fund.

### Other Information

### **GFOA Certificate of Achievement**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Twinsburg City School District for its comprehensive annual financial report for the fiscal year ended June 30, 2015. This is the sixteenth consecutive year that the School District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized report. The report must satisfy Generally Accepted Accounting Principles and applicable legal requirements

A Certificate of Achievement is valid for one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### **Auditor of State's Award**

The School District has received multiple Auditor of the State of Ohio Awards. Upon the completion of a financial audit, The Auditor of State Award is presented to school districts for the timely filing of the annual financial report in the form of a CAFR. Additionally, the audit report is "clean" and does not contain any findings for recovery, material citations, material weaknesses, significant deficiencies, questioned costs, or Single Audit findings. Fewer than five percent of all Ohio government agencies are eligible for this award.

### Additional Information

For a more in depth discussion of the financial condition of the School District, please refer to the Management's Discussion and Analysis and the Notes to the Basic Financial Statements of the Comprehensive Annual Financial Report.

### Acknowledgements

I wish to express my deepest appreciation and thanks to the individuals who assisted with the preparation of this Comprehensive Annual Financial Report. Its preparation and publication would not have been possible without the cooperation and efforts of the entire staff in the Treasurer's Department and in the buildings. It is with great pride that the Twinsburg City School District presents the 2016 Comprehensive Annual Financial Report to the citizens and taxpayers of the School District.

Finally, we wish to thank the Board of Education where the commitment to excellence begins.

## INDEPENDENT AUDITOR'S REPORT

Twinsburg City School District Summit County 11136 Ravenna Road Twinsburg, Ohio 44087

To the Board of Education:

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Twinsburg City School District, Summit County, Ohio (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

# Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

Twinsburg City School District Summit County Independent Auditor's Report Page 2

# **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Twinsburg City School District, Summit County, Ohio, as of June 30, 2016, and the respective changes in financial position and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### Other Matter

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Twinsburg City School District Summit County Independent Auditor's Report Page 3

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

This discussion and analysis of Twinsburg City School District's (the School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2016. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

# **Financial Highlights**

Key financial highlights for 2016 are as follows:

- General revenues accounted for \$46,263,476 in revenue or 92.3% of all revenues. Program specific revenues in the form of charges for services, operating grants, contributions and interest accounted for \$3,866,147 or 7.7% of total revenues of \$50,129,623.
- The School District had \$47,006,283 in expenses related to governmental activities; program revenues offset \$3,866,147 of these expenses. \$46,263,476 of general revenues was adequate to provide for these programs resulting in an increase in net position of \$3,123,340.
- Of the total governmental expenses of \$47,006,283, the amount related to instruction amounted to \$28,495,451 or 60.6% of this total.
- The School District had three major governmental funds, the general fund, the bond retirement fund and the permanent improvement fund. The general fund's balance increased \$267,496 to \$33,401,006 at June 30, 2016. The bond retirement's fund balance increased \$86,119 to \$1,931,784 at June 30, 2016. The permanent improvement's fund balance decreased \$229,354 to \$4,150,944 at June 30, 2016.

# **Using this Annual Financial Report**

This annual report consists of a series of financial statements, notes to those statements and the required supplementary information. These statements are organized so the reader can understand Twinsburg City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements present how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

# Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While these statements contain information about a large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and helps answer the question, "How did we do financially during 2016?" These statements include all non-fiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting, takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in this position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's current property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors. In the statement of net position and the statement of activities, the School District's activities are considered to be all governmental activities.

Governmental Activities - Most of the School District's programs and services are reported here including instruction, support services, operation of non-instructional services, extracurricular activities and food service operations.

# Reporting the School District's Most Significant Funds

# Fund Financial Statements

The analysis of the School District's major funds begins on page 11. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general, bond retirement debt service and permanent improvement capital projects funds.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

Recall that the statement of net position provides the perspective of the School District as a whole. Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2016, the School District had an increase in net position of \$3,123,340.

Net investment in capital assets reported on the government-wide statements represents a large component of net position. Capital assets include land, construction in progress, land improvements, buildings and improvements, furniture, fixtures and equipment and vehicles, and are used to provide services to students and are not available for future spending. Although the School District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the School District's net position, \$6,565,026, represents resources that are subject to external restrictions on how the funds may be used. Of the total restricted net position, \$1,919,088 is restricted for debt service payments, \$4,365,324 is restricted for capital projects, \$99,378 is restricted for extracurricular activities, and \$181,236 is restricted for other purposes. Restricted for other purposes for the School District is net position restricted for special revenue funds which are used for educational services.

The School District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting in the statement of net position. The School District's statement of activities prepared on an accrual basis of accounting includes an annual pension expense for its proportionate share of each plan's change in net pension liability not accounted for as deferred inflows/outflows. The net pension liability is the largest single liability reported by the School District at June 30, 2016.

Table 2 shows change in net position for fiscal year 2016 as compared to 2015:

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

#### **Governmental Activities**

Several revenue sources fund our governmental activities with property taxes and State foundation revenues being the largest contributors. Property tax levies generated over \$30.9 million in 2016. The decrease is property tax is due partially to varying amounts available as an advance each year that are recognized as revenue. General revenues from grants and entitlements, such as the school foundation program, generated over \$14.9 million. With the combination of taxes and intergovernmental funding 91.5% of all revenues, the School District monitors both of these revenue sources very closely for fluctuations.

A review of Table 2 reflects that the total cost of instructional services was \$28,495,451 or 60.6% of governmental program expenses. Instructional expenses include activities directly related to the teaching of pupils and the interaction between teacher and pupil. As compared to the prior year, these expenses increased \$1,682,408 or 6.3% mainly due to an increase in regular instruction.

Pupil services and instructional staff include the activities involved in assisting staff and the content and process of teaching pupils. These expenses represent \$3,203,923 of the total governmental program expenses, or 6.8%. These expenses increased from the prior year in the amount of \$276,955, or 9.5% not due to any specific item.

Board of Education, administration, fiscal and business classifications reflect expenses associated with establishing and administering school operation policies, financial operations and activities concerned with purchasing, receiving and maintaining goods and services for the School District. The total cost was \$4,948,415 or 10.5% of governmental program expenses. Expenses of these programs decreased \$180,630, or 3.5%, as compared to fiscal year 2015, driven mostly by decreases in business and board of education expenses.

Operation and maintenance of plant expenses refer to the care and upkeep of the buildings, grounds, equipment and the safety of the School District's operations. The total cost for the operation and maintenance services was \$3,765,911 or 8% of the governmental program expenses.

Pupil transportation expenses are expenses related to the transportation of students to and from school, as well as the service and maintenance of those vehicles. Total transportation cost was \$2,633,294 or 5.6% of the total governmental program expenditures. Expenses for providing this program decreased \$325,699, or 11% as compared to the prior year.

Overall, expenses for governmental activities increased \$908,242 or 1.97% from fiscal year 2015 reported amounts. As seen above, the most significant cause of this increase was due to an increase in instructional services due to an increase in regular instruction.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

In the prior fiscal year, the School District implemented the new accounting standard for pension. As a result of implementing the new accounting standard, the School District is reporting a significant net pension liability and related deferred inflows of resources, which have a negative effect on net position. In addition, the School District is reporting deferred outflows of resources and a reduction of expenses related to pension for this fiscal year, which have a positive impact on net position. This expense amount is the difference between the contractually required contributions and the pension expense resulting from the change in the net pension liability that is not reported as deferred inflows or outflows. These two amounts can be found in the reconciliation of the statement of revenues, expenditures and changes in fund balances of governmental funds to the statement of activities. To further explain the impact of this new accounting standard on the School District's net position, additional information is presented below.

	<u>2016</u>	<u>2015</u>
Net position	\$ (4,460,800)	\$ (7,584,140)
Deferred outflows - pension	(6,490,891)	(4,214,458)
Deferred inflows - pension	4,517,174	10,413,146
Net pension liability	64,953,426	57,656,153
Net position without new standard	\$ 58,518,909	\$ 56,270,701
Impact of new standard on net position end of year	\$ (62,979,709)	\$ (63,854,841)

#### The School District's Funds

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The total revenues for governmental funds were \$50,179,116 and total expenditures were \$49,988,101. Fund balance of the general fund increased by \$267,496 as compared to the 2015 ending balance. For the bond retirement debt service fund, fund balance also increased by \$86,119. The only other major governmental fund, the permanent improvement capital projects fund, fund balance decreased by \$229,354 from the prior year. For all the general and bond retirement major funds the increases in fund balance are primarily due to revenues exceeding current year expenditures. For the permanent improvement major fund the decrease was due to increased expenditures related to the acquisition of capital assets and a decrease in total revenues.

Table 3
Change in Fund Balance

	Fund	Fund	
	Balance	Balance	Increase
	June 30, 2016	June 30, 2015	(Decrease)
General	\$ 33,401,006	\$ 33,133,510	\$ 267,496
Bond retirement	1,931,784	1,845,665	86,119
Permanent improvement	4,150,944	4,380,298	(229,354)
Other governmental	392,353	325,599	66,754
Total	\$ 39,876,087	\$ 39,685,072	<u>\$ 191,015</u>

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

# General Fund

The School District's general fund balance increased by \$267,496 this was due to several factors. The table that follows assists in illustrating the financial activities and fund balance of the general fund.

Table 4
General Fund - Change in Revenue

	2016	2015	Percent
	<u>Amount</u>	<u>Amount</u>	<b>Change</b>
Taxes	\$27,753,636	\$29,299,729	-5.28%
Intergovernmental	14,118,834	14,249,252	-0.92%
Interest	26,313	20,228	30.08%
Tuition and fees	784,487	798,153	-1.71%
Extracurricular activities	183,498	181,066	1.34%
Gifts and donations	770	300	156.67%
Rent	53,374	59,738	-10.65%
Payment in lieu of taxes	63,247	87,564	-27.77%
Miscellaneous	84,725	70,657	19.91%
Total	\$43,068,884	\$44,766,687	

Overall revenues with in the general fund decreased \$1,697,803 for the fiscal year. This is mainly due to a decrease in property tax and intergovernmental revenues for the current fiscal year.

The table that follows assists in illustrating the expenditures of the general fund.

Table 5
General Fund - Change in Expenditures by Type

	2016	2015	Percent
<u>Expenditures</u>	<u>Amount</u>	<u>Amount</u>	<b>Change</b>
Instruction	\$ 26,563,292	\$ 25,098,001	5.84%
Support services	14,716,904	14,423,671	2.03%
Extracurricular activities	1,007,096	921,034	9.34%
Debt service	421,187	376,957	11.73%
Total	\$ 42,708,479	\$ 40,819,663	

General fund expenditures increased \$1,888,816 or 4.6 percent from the previous year. The overall increase in expenditures over the prior year is due to an increase in instructional related expenditures specifically regular instruction expenditures.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

#### **Bond Retirement Fund**

The School District's bond retirement fund balance increased by \$86,119 due to current year revenues exceeding current year expenditures. The revenues of the fund are property taxes, calculated by the county fiscal officer, state homestead and rollback money computed as a percentage of the tax due to the fund and miscellaneous. The expenditures of the fund include debt principal and interest payments as well as county fiscal officer fees. The remaining fund balance will be used to make upcoming debt payments as they become due.

# Permanent Improvement Fund

The School District's permanent improvement fund balance decreased by \$229,354 due to expenditures related to the acquisition of capital assets exceeding current year revenues. The revenues of the fund are property taxes, calculated by the county fiscal officer, and state homestead and rollback money computed as a percentage of the tax due to the fund. The expenditures of the fund include capital related expenditures for the acquisition, construction, or improvement of capital facilities.

## General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During fiscal year 2016, the School District amended its general fund budget as expenditure priorities changed according to student, building and operational needs. Budget revisions are presented to the Board of Education for approval.

For the general fund, the final budget basis revenue estimate was \$42,852,398 which was a \$463,930 increase from the original budget estimate of \$42,388,468. This estimate is provided by the County Budget Commission, which changed the estimate based on additional information that became available during the fiscal year. Actual revenue received was \$42,869,256 which was \$16,858 more than final budgeted amounts due to an increase in revenue not known during the budgeting process.

The original expenditure appropriation amount of \$45,500,254 was revised during the fiscal year to a final amount of \$44,065,843. The reduction of \$1,434,411 was necessary with the need to cut operating costs in order to conserve resources to help offset a budget deficit. Actual expenditures were \$392,151 less than final budgeted amounts.

# **Capital Assets and Debt Administration**

#### Capital Assets

At the end of fiscal year 2016, the School District had \$35,576,306 invested in land, construction in progress, land improvements, buildings and improvements, furniture, fixtures and equipment, and vehicles. Table 6 shows fiscal year 2016 balances compared to fiscal year 2015.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

Table 6
Capital Assets, at Fiscal Year End
(Net of Depreciation)

	Governmental Activities					
	<u>2016</u>		<u>2015</u>			
Land	\$ 1,147,310	\$	1,147,310			
Construction in progress	325,722		95,243			
Land improvements	1,442,487		1,101,072			
Buildings and improvements	30,042,079		31,029,809			
Furniture, fixtures and equipment	979,272		995,914			
Vehicles	 1,639,436		1,449,502			
Total capital assets	\$ 35,576,306	\$	35,818,850			

The most significant capital assets during the year were three new school buses, two new vans, a truck with a plow package and several new boilers. The total carrying value of capital assets decreased \$242,544 for the current fiscal year due to current year depreciation expense exceeding capital asset additions. See Note 7 to the basic financial statements for detail on the School District's capital assets.

#### Debt

At June 30, 2016 the School District had \$15,802,184 in bonds and capital leases outstanding with \$2,215,127 due within one year. Table 7 summarizes debt outstanding as of June 30:

Table 7
Outstanding Debt at Fiscal Year End

	Go	Governmental		overnmental
		Activities		Activities
		<u>2016</u>		<u>2015</u>
General obligation bonds	\$	15,603,733	\$	17,859,384
Capital leases		198,451		270,701
Total outstanding	\$	15,802,184	\$	18,130,085

At June 30, 2016, the School District's overall legal debt margin was \$58,440,199 with an unvoted debt margin of \$801,387. The School District bond rating was unchanged during the year. See Notes 13 and 14 to the basic financial statements for detail on the School District's long-term obligations.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2016 Unaudited

# **Current Issues Affecting Financial Condition**

The Board of Education and administration closely monitor its revenues and expenditures in accordance with its financial forecast. The financial future of the School District is not without its challenges. These challenges stem from issues that are at the local and State level. The local challenges will continue to exist, as the School District must rely heavily on property taxes to fund its operations. State level challenges continue to evolve as the State of Ohio determines the outcome of the Ohio Supreme Court case dealing with the unconstitutionality of the State's educational funding system. Although the School District relies heavily on its property taxpayers to support its operations, the community support for the schools is quite strong.

Due to the unsettled issues in the school funding, management is required to plan carefully and prudently to provide the resources to meet student needs over the next several years.

In conclusion, the School District's system of budgeting and internal controls is well regarded. All of the School District's financial abilities will be needed to meet the challenges of the future.

# **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions or need additional financial information, contact Martin Aho, Treasurer, at Twinsburg City School District, 11136 Ravenna Road, Twinsburg OH, 44087-1022.

# Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2016

Net change in fund balances - total governmental funds			\$ 191,015
Amounts reported for governmental activities in the statement of activities are different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the conformation of capital assets is allocated over their estimated useful lives as depreciation expense.  In the current period, these amounts are:	st		
Capital asset additions	\$	1,461,967	
Depreciation expense		(1,684,185)	
Excess of depreciation expense over net capital asset additions			(222,218)
Governmental funds only report the disposal of capital assets to the extent proceeds are received from the			
sale. In the statement of activities, a gain or loss is reported for each disposal.			(20,326)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. These activities consist of:			
Property taxes	\$	(322,463)	
Extracurricular activities		(40)	
Intergovernmental		58,963	
Tuition and fees		(4,580)	
Payment in lieu of taxes		218,646	
Miscellaneous		(19)	
Net change in deferred inflows of resources during the year			(49,493)
Contractually required pension contributions are reported as expenditures in the governmental funds;			
however, the statement of activities reports these amounts as deferred outflows.			3,879,907
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported			
as pension expense in the statement of activities.			(3,004,775)
Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces			
long-term liabilities in the statement of net position.			2,143,764
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:			
Decrease in compensated absences	\$	35,660	
Decrease in accrued interest		6,203	
Amortization of:			
Premium		184,137	
Deferred cost of refunding		(20,534)	
Total additional expenditures			 205,466
Change in net position of governmental activities			\$ 3,123,340

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

# NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# A. Description of the School District

The Twinsburg City School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally elected five-member Board form of government and provides educational services as mandated by state and/or federal agencies. The Board controls the School District's five instructional/support facilities staffed by 214 non-certificated employees and 274 certificated (including administrators) teaching and support personnel that provide services to 4,100 students and other community members.

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting entity for establishing governmental accounting and financial reporting principles.

# B. Reporting Entity

The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, preschool and student-related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organizations' governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organizations' resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization.

Component units may also include organizations that are fiscally dependent on the School District in that the School District approves their budget, the issuance of their debt or the levying of their taxes. Based on the above criteria, the School District had no component units at June 30, 2016.

The School District is associated with the Metropolitan Regional Service Council (MRSC) also known as Northeast Ohio Network for Educational Technology (NEOnet), the Cuyahoga Valley Career Center, and the Ohio Schools Council. These organizations are presented in Note 15 to the basic financial statements.

# C. Basis of Presentation - Fund Accounting

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

# Government-wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund and other interfund activity of governmental funds are eliminated to avoid "doubling up" revenues and expenses of governmental activities. However, the services provided and used are not eliminated in the process of consolidation.

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

# **Fund Financial Statements**

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

# D. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into three categories: governmental, proprietary and fiduciary.

# **Governmental Fund Types:**

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, liabilities and deferred inflows of resources is reported as fund balance. The School District has three major governmental funds:

<u>General Fund:</u> The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

**Bond Retirement Fund:** The bond retirement fund is a debt service fund and is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

<u>Permanent Improvement Fund:</u> The permanent improvement fund is a capital projects fund and is used to account for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary and trust funds.

The other governmental funds of the School District account for grants and other resources whose uses are restricted, committed or assigned to a particular purpose.

# Proprietary Fund Type

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

<u>Internal Service Fund:</u> The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund accounts for revenue received from other funds and the settlement expenses for medical, surgical, prescription drug, and dental and vision claims of School District employees. As of October 1, 2005 the School District is no longer self-insured. There was no current year activity in this fund. Balances remaining are from a prior year.

# Fiduciary Fund Types

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District's only trust fund is a private purpose trust, which accounts for scholarships. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's two agency funds account for student activities managed by the student body and money temporarily held for Ohio High School Athletic Association (OHSAA) tournaments.

# E. Measurement Focus and Basis of Accounting

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All non-fiduciary assets, liabilities, deferred outflows of resources and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (revenues) and decreases (expenses) in total net position.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

<u>Fund Financial Statements</u> All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets, liabilities and deferred outflows and inflows of resources associated with the operation of the fund are included on the statement of net position. The statement of revenues, expenses and changes in fund net position present increases (i.e., revenues) and decreases (i.e., expenses) in net total position.

The private purpose trust fund is reported using the economic resources measurement focus.

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting and the internal service, private purpose trust and agency funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

# Revenue - Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, investment earnings, tuition, grants and entitlements, and student fees.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

# Deferred Outflows/Inflows of Resources

In addition to assets, the statements of net position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources include a deferred charge on refunding reported in the government-wide statement of net position and for pension. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. This amount is related to a debt refunding in the current fiscal year. The deferred outflows of resources related to pension are explained in Note 11.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes and unavailable revenues. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2016, but which were levied to finance year 2017 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as inflows of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 11)

## Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the fund financial statements as intergovernmental revenue and an expenditure of food service operations. In addition, this amount is reported on the statement of activities as an expense with a like amount reported within the "Operating Grants, Contributions and Interest" program revenue account. Unused donated commodities are reported in the account "Inventory held for resale" within the basic financial statements.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

# F. Budgets and Budgetary Accounting

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The primary level of budgetary control is at the object level for the general fund and at the fund level for all other funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The amounts reported as the original budget revenue in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted revenue amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2016. The amounts reported as the original budgeted expenditure amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted expenditure amounts represent the final appropriation amounts passed by the Board during the year.

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

#### G. Cash and Investments

To improve cash management, all cash received by the School District is pooled in a central bank account. Monies for all funds are maintained in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in pooled cash and cash equivalents". During the fiscal year, investments were limited to an overnight repurchase agreement and interest in Star Ohio, the State Treasurer's Investment Pool. Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements and certificates of deposit, are reported at cost. All investments of the School District had a maturity of two years or less.

The School District's investment in the State Treasury Asset Reserve of Ohio (STAR Ohio) is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company and is recognized as an external investment pool by the School District. The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For the fiscal year 2016, there were no limitation or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

The School District maintains segregated accounts for the district managed student activity special revenue fund, which are presented as "Cash and cash equivalents in segregated accounts".

Under existing Ohio statutes, all investment earnings accrue to the general fund except those specifically related to certain trust funds; required by a grant agreement; or when approved by the Board of Education to be recorded in another fund. The Board of Education has passed a resolution to allow interest to also be recorded in other funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

For presentation on the basic financial statements, investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

#### H. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column of the statement of net position.

#### I. Inventory

Within the basic financial statements, inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventories of the food service special revenue fund consist of donated food, purchased food and supplies held for resale. Inventories of supplies are reported at cost, whereas inventories held for resale are reported at lower of cost or market.

#### J. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are imposed by creditors, contributors, grantors, and laws of other governments or by enabling legislation. Restricted assets may include unexpended revenues restricted for the purchase of school buses, and amounts required to be set aside by the School District for the acquisition or construction of capital assets. Restricted assets may also include amounts set aside as a reserve or designated for budget stabilization, which is now optional as determined by the School District. The School District spent all restricted assets in accordance with specific restrictions during the fiscal year, see Note 17.

#### K. Bond Premiums

In governmental fund types, bond premiums are recognized in the current period. On the statement of net position, bond premiums are deferred and amortized over the term of the bonds using the bonds outstanding method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of bonds payable.

#### L. Deferred Charge on Refunding

On the government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt, the gain/loss on the refunding, is being amortized as a component of interest expense. This deferred amount is amortized over the life of the old or new debt, whichever is shorter, using the bonds outstanding method and is presented as deferred outflows of resources on the statement of net position.

#### M. Capital Assets

General capital assets are those assets resulting from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported on the fund financial statements.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

All reported capital assets, other than land and construction in progress, are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	Estimated Lives
Land improvements	5 - 20 years
Buildings and improvements	20 - 50 years
Furniture, fixtures and equipment	3 - 20 years
Vehicles	5 - 10 years

#### N. Net pension liability and pension expense

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

The current accounting standard requires School District's to report their proportionate share of the net pension liability using the earning approach to pension accounting instead of the funding approach as previously used. The funding approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability. Under the new standards, the net pension liability equals the School District's proportionate share of each plan's collective present value of estimated future pension benefits attributable to active and inactive employees' past service minus plan assets available to pay these benefits.

Pension obligations, whether funded or unfunded, are part of the employment exchange. The employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. The unfunded portion of this benefit of exchange is a liability of the School District. However, the School District is not responsible for key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Benefit provisions and both employer and employee contribution rates are determined by State statute. The employee and employer enter the employment exchange with the knowledge that the exchange is limited by law. The pension system is responsible for the administration of the plan.

There is no repayment schedule for the net pension liability. The School District has no control over the changes in the pension benefits, contributions rate, and return on investments affecting the balance of the net pension liability. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statue does not identify the responsible party for the unfunded portion. Due to the unique nature of how the pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### O. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments. The entire compensated absences liability is reported on the government-wide financial statements.

For the governmental fund financial statements, compensated absences (including early retirement incentives) are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The School District did not report matured compensated absences payable for the current fiscal year.

#### P. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the governmental fund financial statements when due.

#### Q. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

<u>Restricted</u> fund balance category includes amounts that can be spent only for the specific purpose stipulated by constitution, external resource providers, or through enabling legislation. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

<u>Committed</u> fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance classifications are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. The purpose constraint that represents the intended use is established by the Board of Education or by their designated official. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the School District or by State statute. The Treasurer is authorized to assign fund balance using encumbrances for planned purchases, provided such amounts have been lawfully appropriated. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget.

<u>Unassigned</u> fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### R. Net Position

Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments. Net position restricted for other purposes primarily includes amounts generated by individual school buildings to supplement co-curricular and extra-curricular programs.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

#### S. Interfund Transactions

Interfund transactions are reported as other financing sources/uses for governmental funds in the fund financial statements. All transfers between governmental funds have been eliminated within the governmental activities column of the statement of net position.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### T. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the School District, these revenues are charges for services for the self-insurance program. Operating expenses are necessary costs incurred to provide the goods or service that are the primary activity of the fund.

#### U. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### **NOTE 2 – FUND BALANCES**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

				Other	Total
		Bond	Permanent	Governmental	Governmental
Fund Balances	General	Retirement	Retirement Improvement		Funds
Restricted for					
Instructional programs	\$ -	\$ -	\$ -	\$ 123,736	\$ 123,736
Special education	-	-	-	265	265
Athletics and music	-	-	-	99,378	99,378
Student intervention	-	-	-	1,205	1,205
Permanent improvements	-	-	4,150,944	-	4,150,944
Building improvements and repairs	-	-	-	194,875	194,875
Debt service payments		1,931,784	<u> </u>	<u> </u>	1,931,784
Total restricted		1,931,784	4,150,944	419,459	6,502,187
Assigned					
Public school support	310,399	-	-	-	310,399
Various purchases on order*	680,786	-	-	-	680,786
Next year's budget	3,055,642				3,055,642
Total assigned	4,046,827				4,046,827
Unassigned (deficit)	29,354,179			(27,106)	29,327,073
Total fund balances	\$ 33,401,006	\$ 1,931,784	\$ 4,150,944	\$ 392,353	\$ 39,876,087

<sup>\*</sup>Purchases on order consist primarily of supplies and purchased services.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### **NOTE 3 - BUDGETARY BASIS OF ACCOUNTING**

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presentation for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues and other sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures and other uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
- 4. Encumbrances are treated as expenditures (budget basis) rather than assigned fund balance (GAAP basis).
- 5. The revenues, expenditures and other financing sources and uses of the general fund include activity that is budgeted within special revenue funds (GAAP basis). However, on the budgetary basis, the activity of the special revenue funds is excluded resulting in perspective differences.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

#### Net Change in Fund Balance

	General
GAAP basis	\$ 267,496
Revenue accruals	(92,415)
Expenditure accruals	73,317
Advances out	(41,000)
Budgeted as part of special revenue fund:	
Revenues	(107,213)
Transfers from general fund	(11,000)
Expenditures	83,376
Encumbrances (Budget Basis)	
outstanding at year end	 (976,997)
Budget basis	\$ (804,436)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### **NOTE 4 - DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing within five years from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be invested in the following obligations provided they mature or are redeemable within five years from the date of settlement, unless the investment is matched to a specific obligation or debt of the School District and the investment is not a commercial paper note, a banker's acceptance or a repurchase agreement:

- 1. United States Treasury bills, notes, bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements for a period not to exceed thirty days in securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in item (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Commercial paper notes, limited to 40% (5% for a single issuer) in total of the interim monies available for investment at any one time and for a period not to exceed two hundred seventy days; and

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

8. Bankers acceptances, limited to 40% of the interim monies available for investment at any one time and for a period not to exceed one hundred eighty days.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

#### Deposits:

Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned. According to state law, public depositories must give security for all public funds on deposit in excess of those funds that are insured by the federal deposit insurance corporation (FDIC) or by any other agency or instrumentality of the federal government. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC, or may pledge a pool of government securities valued at least 105% of the total value of public monies on deposit at the institution. The School District's policy is to deposit money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

The carrying value of the School District's deposits totaled \$318,417. The School District's bank balance of \$512,545 was not exposed to custodial credit risk.

#### Investments:

As of June 30, the School District had the following investments and maturities:

	Fair		
<u>Investment type</u>	<u>Value</u>	<u>Maturity</u>	<u>Rating</u>
Repurchase agreements	\$ 35,780,000	Daily	$AA+$ $^{(1)}$
STAR Ohio	 2,377,382	48.6 <sup>(2)</sup>	AAAm (1)
	\$ 38,157,382		

<sup>(1)</sup> Standard and Poor's rating

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the School District's recurring fair value measurement as of June 30, 2016. As previously discussed Star Ohio is reported at its net asset value. All other investments of the School District are valued using quoted market prices (Level 1 inputs).

<sup>(2)</sup> Days (Average)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

All interest is legally required to be placed in the general fund, the food service and public support special revenue funds and the scholarships private purpose trust fund. Interest revenue credited to the general fund during fiscal year 2016 amount to \$26,313, which includes \$4,484 assigned from other School District funds.

Custodial credit risk for an investment is the risk that in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's \$35,780,000 investment in repurchase agreements is to be secured by the specific government sponsored securities upon which the repurchase agreements are based. These securities, held by the counterparty and not in the School District's name are a Federal Home Loan Mortgage Corporation (FHLMC) bond. These securities must be obligations of or guaranteed by the United States and mature or be redeemable within five years of the date of the related repurchase agreement. The School District's policy is to invest money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

*Interest rate risk* is the possibility that changes in interest rates will adversely affect the fair value of an investment. The School District's investment policy does not address limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit risk* is the possibility that an issuer or other counterparty to an investment will not fulfill it obligation. Standard and Poor's has assigned STAR Ohio an AAAm rating. The School District's investment policy requires certain credit ratings for some investments as allowed by state law.

#### **NOTE 5 - PROPERTY TAX**

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used for public utilities) located in the School District. Real property tax revenue received in calendar 2016 represents collections of calendar year 2015 taxes. Real property taxes received in calendar year 2016 were levied after April 1, 2015, on the assessed value listed as of January 1, 2015, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2016 represents collections of calendar year 2015 taxes. Public utility real and tangible personal property taxes received in calendar year 2016 became a lien December 31, 2014, were levied after April 1, 2015 and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Summit County. The County Fiscal Officer periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2016, are available to finance fiscal year 2017 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2016 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes.

The amount available as an advance at year-end was \$6,278,443 in the general fund, \$447,392 in the bond retirement debt service fund and \$382,268 in the permanent improvement capital projects fund, and is recognized as revenue on the fund financial statements.

On the accrual basis, collectible delinquent property taxes have been recorded as revenue on the statement of activities.

The assessed values upon which the fiscal year 2016 taxes were collected are:

		2015		2014
Property Category	<u>A</u> :	Assessed Value		ssessed Value
Real Property				
Residential and agricultural	\$	564,864,660	\$	554,729,190
Commercial, industrial				
and minerals		218,257,290		218,170,140
Tangible Personal Property				
Public utilities		18,265,210		17,870,400
Total	\$	801,387,160	\$	790,769,730

#### **NOTE 6 - RECEIVABLES**

Receivables at year-end consisted of taxes, accounts (tuition and excess costs), interfund, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs, and the current year guarantee of federal funds. The general fund reported an intergovernmental receivable for \$60,104 for State Employees Retirement refunds and the special revenue funds recorded intergovernmental receivables for state and federal grants the amount of \$164,947.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

## **NOTE 7 - CAPITAL ASSETS**

Capital asset activity for the fiscal year ended June 30, 2016 was as follows:

Governmental Activities	<u>Ju</u>	Balance ine 30, 2015		Increases	<u>D</u>	ecreases_	<u>Jı</u>	Balance une 30, 2016
Capital assets, not being depreciated:	\$	1,147,310	\$	_	\$	_	\$	1,147,310
Construction in progress	Ψ	95,243	Ψ	648,157	Ψ	(417,678)	Ψ	325,722
Total capital assets, not being								
depreciated		1,242,553		648,157		(417,678)		1,473,032

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

Depreciation expense was charged to governmental functions as follows:

Instruction:	<u>Amount</u>
Regular	\$ 1,355,453
Vocational	324
Support services:	
Instructional staff	1,630
Administration	62,735
Operation and maintenance of plant	135,092
Pupil transportation	106,991
Central	989
Extracurricular activities	 20,971
	\$ 1,684,185

#### NOTE 8 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at June 30, 2016 consisted of the following:

	Interfund		Interfund	
	Re	<u>ceivable</u>	Ī	Payable Payable
General fund	\$	41,000	\$	-
Nonmajor governmental funds				41,000
Totals	\$	41,000	\$	41,000

All balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, or (3) payments between funds are made. As of June 30, 2016, all interfund loans outstanding are anticipated to be repaid in fiscal year 2017.

Transfers are used to (1) move revenues from the fund that statue or budget requires to collect them to the fund that statue or budget requires to expend them, (2) move receipts restricted to debt service from the fund collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund transfers for the year ended June 30, 2016, consisted of the following:

Transfers from general fund to:

Nonmajor governmental funds
\$ 92,909

Transfers made during the current fiscal year to and from the general fund were to reclassify old advances as transfers from various funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### **NOTE 9 – ACCOUNTABILITY**

As of June 30, 2016, several funds had deficit fund balances. These deficits were caused by the application of GAAP; namely in the reporting of various liabilities attributable to the fiscal year. These deficit balances will be eliminated by anticipated future intergovernmental revenues or other subsidies not recognized and recorded at June 30. The following funds had deficit balances:

<u>Fund</u>	<u>Amount</u>
Food service	\$ 12,666
Title VI-B	760
Title I	13,680

#### **NOTE 10 - RISK MANAGEMENT**

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. There have been no settlements paid in excess of insurance nor has insurance coverage been significantly reduced in the past three years.

The School District maintains a self-insurance fund (an internal service fund) to account for and finance its employee health benefits plan. As of October 1, 2005 the School District is no longer self-insured. They now purchase commercial insurance for all School District employees.

The School District has contracted with the Stark County Schools Council of Governments (COG) to provide medical/surgical, dental, vision, life insurance and accidental death and dismemberment insurance for its employees and their covered dependents. Established in 1987, the COG is a shared risk pool comprised of eighty-five member school districts, educational service centers, libraries, colleges and related agencies. Although, the School Districted has contracted with the COG they do not have a controlling vote since they are not located within Stark County. The employer participants pay monthly contributions that are placed in a common fund from which eligible claims and expenses are paid for employees and their covered dependents. This plan contains a stop-loss provision of \$500,000 per participant and an aggregate stop-loss provision of over \$200 million. Premium contributions are determined annually in a manner that ensures the pool is funded up to the aggregate stop loss attachment point. Premium holidays may be declared by the COG to ensure reserves do not exceed thirty percent.

The School District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### NOTE 11 – DEFINED BENEFIT PENSION PLANS

#### **Net Pension Liability**

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions between an employer and its employees of salaries and benefits for employee services. Pensions are provided to an employee on a deferred-payment basis as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the School District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

#### A. School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <a href="www.ohsers.org">www.ohsers.org</a> under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

Eligible to
Retire on or before

August 1, 2017 \*

Eligible to
Retire on or after
August 1, 2017

Full benefits Age 65 with 5 years of service credit; or

Any age with 30 years of service credit

Age 67 with 10 years of service credit; or

Age 57 with 30 years of service credit

Actuarially reduced benefits Age 60 with 5 years of service credit

Age 55 with 25 years of service credit

Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2016, the allocation to pension, death benefits, and Medicare B was 14 percent. No allocation was made to the Health Care Fund.

The School District's contractually required contribution to SERS was \$897,600 for fiscal year 2016. Of this amount \$91,788 is reported as an intergovernmental payable.

#### B. State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <a href="https://www.strsoh.org">www.strsoh.org</a>.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service.

<sup>\*</sup> Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement increased effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 11.5 percent of the 13 percent member rate goes to the DC Plan and 1.5 percent goes to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. Effective July 1, 2016 the statutory maximum employee contribution rate was increased to 14 percent. For the fiscal year ended June 30, 2016, plan members were required to contribute 13 percent of their annual covered salary. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2016 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was \$2,982,307 for fiscal year 2016. Of this amount \$437,474 is reported as an intergovernmental payable.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the net pension			
liability - prior measurement date	0.220615%	0.1911363%	
Proportion of the net pension			
liability - current measurement date	0.212381%	<u>0.1911735</u> %	
Change in proportionate share	- <u>0.008234</u> %	0.000037%	
Proportionate share of the net			
pension liability	\$12,118,654	\$52,834,772	\$64,953,426
Pension expense	\$598,284	\$2,406,491	\$3,004,775

At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred outflows of resources			
Differences between expected and			
actual experience	\$ 195,133	\$ 2,408,599	\$ 2,603,732
Changes in proportionate share and difference			
between School District contributions			
and proportionate share of contributions	-	7,252	7,252
School District contributions subsequent to the			
measurement date	897,600	2,982,307	3,879,907
Total deferred outflows of resources	\$ 1,092,733	\$ 5,398,158	\$ 6,490,891
Deferred inflows of resources			
Net difference between projected and			
actual earnings on pension plan investments	\$ 401,530	\$ 3,799,819	\$ 4,201,349
Changes in proportionate share and difference			
between School District contributions and			
proportionate share of contributions	315,825		315,825
Total deferred inflows of resources	\$ 717,355	\$ 3,799,819	\$ 4,517,174

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

\$3,879,907 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Fiscal			
<u>Year</u>	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
2017	\$ (246,721)	\$ (855,680)	\$ (1,102,401)
2018	(246,721)	(855,680)	(1,102,401)
2019	(247,643)	(855,680)	(1,103,323)
2020	 218,863	 1,183,072	 1,401,935
Total	\$ (522,222)	\$ (1,383,968)	\$ (1,906,190)

#### **Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2015, are presented below:

Wage inflation

Future salary increases, including inflation

COLA or Ad Hoc COLA

Investment rate of return

Actuarial cost method

3.25 percent

4 percent to 22 percent

3 percent

7.75 percent net of investments expense, including inflation

Entry age normal

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset	Target	Long term expected
<u>class</u>	<u>allocation</u>	real rate of return
Cash	1.00 %	0.00 %
US stocks	22.50	5.00
Non-US stocks	22.50	5.50
Fixed income	19.00	1.50
Private equity	10.00	10.00
Real assets	10.00	5.00
Multi-asset strategies	15.00_	7.50
Total	100.00 %	

**Discount Rate** The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

		Current	
	1% Decrease	discount rate	1% Increase
	(6.75%)	(7.75%)	(8.75%)
School District's proportionate			
share of the net pension liability	\$ 16,804,219	\$12,118,654	\$8,173,023

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### **Actuarial Assumptions - STRS**

The total pension liability in the June 30, 2015, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75 percent

Projected salary increases 2.75 percent at age 70 to 12.25 percent at age 20

Investment rate of return 7.75 percent, net of investment expenses

Cost-of-living adjustments 2 percent simple applied as follows: for members retiring before

(COLA) August 1, 2013, 2 percent per year; for members retiring August 1, 2013,

or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2015, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

Asset	Target	Long term expected				
<u>class</u>	<u>allocation</u>	real rate of return				
<b></b>	21.00.07	0.00				
Domestic equity	31.00 %	8.00 %				
International equity	26.00	7.85				
Alternatives	14.00	8.00				
Fixed income	18.00	3.75				
Real estate	10.00	6.75				
Liquidity reserves	1.00	3.00				
Total	100.00 %					

**Discount Rate** The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2015. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2015. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2015.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

		Current	
	1% Decrease	discount rate	1% Increase
	<u>(6.75%)</u>	<u>(7.75%)</u>	<u>(8.75%)</u>
School District's proportionate			
share of the net pension liability	\$ 73,391,484	\$52,834,772	\$35,451,006

#### **NOTE 12 – POSTEMPLOYMENT BENEFITS**

#### A. School Employees Retirement System (SERS)

The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at <a href="www.ohsers.org">www.ohsers.org</a> under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2016, there was no allocation of covered payroll allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2016, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS covered payroll for the health care surcharge. For fiscal year 2016, the School District's surcharge obligation was \$104,778.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

The School District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$104,778, \$163,752, and \$110,381, respectively. For fiscal year 2016, 0 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2015 and 2014.

#### B. State Teachers Retirement System (STRS)

Plan Description – The School District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting <a href="https://www.strsoh.org">www.strsoh.org</a> or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2016 and 2015, STRS did not allocate any employer contributions to post-employment health care. The School District's contributions for health care for the fiscal years ended June 30, 2016, 2015, and 2014 were \$0, \$0, and \$191,390 respectively. The full amount has been contributed for fiscal years 2016, 2015 and 2014.

#### NOTE 13 - BONDED DEBT AND OTHER LONG-TERM OBLIGATIONS

The changes in long-term obligations of the School District during the fiscal year were as follows:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

	Balance July 1	Additions	<u>Deletions</u>	Balance June 30	Due within one year
Governmental Long-term Obligation	<u>s</u>				•

SERS	11,165,200	953,454		12,118,654	
Total net pension liability	57,656,153	7,297,273		64,953,426	
Total governmental					
long-term obligations	\$ 78,268,326	\$ 7,716,082	<u>\$ (2,782,370)</u>	\$ 83,202,038	\$ 2,581,861

<u>General Obligation Bonds</u>: General obligation bonds are direct obligations of the School District for which its full faith and credit are pledged for repayment. General obligation bonds are to be repaid from voted and unvoted general property taxes. Property tax monies will be received in and the debt will be repaid from the bond retirement debt service fund.

In fiscal year 2014, the School District issued \$14,525,000 in general obligation bonds to be used for the refunding of a portion of the 2004 School Facilities Refunding Bonds. The 2013 School Facilities Refunding Bonds proceeds consisted of bond principal and \$1,131,062 of premium. The net proceeds of \$15,507,360 (after payment of underwriting fees, insurance, and other issuance costs) was deposited in an irrevocable trust with an escrow agent to provide for future debt service payments of the portion of the 2004 School Facilities Refunding Bonds refunded. As a result, the bonds are considered to be defeased and the liability is not reported by the School District. The difference between the reacquisition price and the net carrying amount of the old debt is reported as a deferred outflow of resources on the Statements of Net Position. The premium of the new debt was significant and is amortized over the life of the new bonds using the bonds outstanding method of amortization. The School District advance refunded the School Facilities Refunding Bonds to reduce their total debt service payments over the next eight years and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$929,271.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

On April 13, 2004, the School District issued \$27.8 million in general obligation bonds which include serial and capital appreciation bonds with interest rates varying between 2.0-5.0% to refund \$27.8 million of outstanding School Improvement Bonds with an average interest rate of 5.8%. The final amount of the 2004 capital appreciation bonds was \$2,124,925. The net proceeds of the refunding bonds were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments of the portion of the bonds refunded. As a result, the bonds are considered to be defeased and the liability is not reported by the School District. All of the old bonds that were advance refunded were called and subsequently redeemed.

On August 23, 2010, the School District issued \$2,592,180 in energy conservation improvement bonds at an interest rate of 5.375%. These improvement bonds were issued to fund energy conservation related projects within the School District. The bonds and interest are to be repaid by the general fund. The bonds are Qualified School Construction Bonds (QSCB's) whereas the interest paid on the bonds has been 95.07% subsidized by the federal government. The federal government will remit the interest paid by the School District through a direct pay reimbursement.

On November 19, 2014, the School District issued \$753,519 in energy conservation improvement bonds at an interest rate of 3.60%. These improvement bonds were issued to fund energy conservation related projects within the School District. The bonds and interest are to be repaid by the general fund.

<u>Compensated absences:</u> Sick leave benefits will be paid from the fund from which the person is paid. In prior years this fund has primarily been the general fund.

The School District pays pension obligations related to employee compensation from the fund benefitting from their service. In prior years this fund has primarily been the general fund.

Principal and interest requirements to amortize all bonds and notes outstanding at June 30, 2016 are as follows:

	2013 School Facilities			2010 Energy Conservation			2014 Energy	Coı	servation

<sup>\*\*</sup>included \$446,997 of direct pays from the federal government

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

#### NOTE 14 - CAPITALIZED LEASES - LESSEE DISCLOSURE

During a prior fiscal year, the School District entered into a capitalized lease agreement for the acquisition of copiers. The terms of each agreement provide options to purchase the equipment. Capital lease payments have been reclassified and are reflected as debt service expenditures in the fund financial statements of the general fund. These expenditures are reflected as program/function expenditures on a budgetary basis.

Capital assets acquired by the lease have been capitalized as equipment in the amount of \$416,019, which is equal to the present value of the future minimum lease payments at the time of acquisition. Principal payments in the current fiscal year totaled \$72,250.

The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the minimum lease payments at year-end.

Fiscal	Lease			
<u>Year</u>	<u>P</u>	<u>ayments</u>		
2017	\$	84,989		
2018		84,989		
2019		42,494		
Total minimum lease payments		212,472		
Less: amount representing interest		(14,021)		
Total	\$	198,451		

#### **NOTE 15 - JOINTLY GOVERNED ORGANIZATIONS**

The Metropolitan Regional Service Council (MRSC) is the computer service organization or Information Technology Center (ITC) used by the School District. MRSC is also known as Northeast Ohio Network for Educational Technology (NEOnet), which is the name used exclusively prior to their reorganization from a consortium to a council of governments. The superintendent from each member entity is appointed to the legislative body of MRSC known as the assembly. The assembly elects a board of directors consisting of nine members. These members comprise the managerial body of the council and meet at least five times yearly. The operations of MRSC are under the control of the board of directors and the executive director. The purpose of the MRSC is to develop and employ a computer system efficiently and effectively for the needs of the member school districts. All members are required to pay fees, charges and assessments as charged. The School District does not maintain an ongoing financial interest or an ongoing financial responsibility. During fiscal year 2016, the School District contributed \$114,824 to MRSC. This contribution includes purchases of software and related items as well as payment for services. Financial information can be obtained by contacting the fiscal agent at 700 Graham Road Cuyahoga Falls, Ohio 44221.

Cuyahoga Valley Career Center is a vocational school district which is a separate body politic and corporate, established by the Ohio Revised Code (ORC) to provide vocational and special education needs of the students. The school accepts non-tuition students from the School District as a member school; however, it is considered a separate political subdivision and is not considered to be part of the School District.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

The Ohio Schools Council (Council) is a jointly governed organization among 201 school districts, educational service centers, joint vocational school districts, and developmental disabilities boards in 35 northern Ohio counties. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to the member districts. Each district supports the Council by paying an annual participation fee. The Council's Board consists of nine superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. During fiscal year 2016 the School District paid \$148,864 and \$21,422 to the Council in the form of membership fees, insurance and natural gas purchases, respectively. Financial information can be obtained by contacting William Zelei, the Executive Director of the Ohio Schools Council at 6393 Oak Tree Blvd., Suite 377, Independence, Ohio 44131.

#### **NOTE 16 - CONTINGENCIES**

#### **Grants**

The School District received financial assistance from Federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2016, if applicable, cannot be determined at this time.

In the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2016.

#### **School Foundation Adjustments**

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Traditional school districts must comply with minimum hours of instruction, instead of minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the School District, which can extend past the fiscal year end. As of the date of this report, ODE has not yet finalized the impact of enrollment adjustments to the June 30, 2016 Foundation funding for the School District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the School District.

#### **NOTE 17 - STATUTORY RESERVES**

The School District is required by the state law to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. The School District may replace using general fund revenues with proceeds from various sources (offsets), such as bond or levy proceeds related to the acquisition, replacement, enhancement, maintenance or repair of permanent improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future fiscal years.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2016

Although the School District had current year offsets during the fiscal year that reduced the set-aside amount to below zero for the capital maintenance reserve, this amount may not be used to reduce the set aside requirement for future years. This negative balance is, therefore, not presented as being carried forward to future years.

The following information describes the change in the year-end set-aside amounts for capital maintenance.

		Capital
	M	<b>I</b> aintenance
		Reserve
Set-aside cash balance as of		
June 30, 2015	\$	-
Current year set-aside requirement		702,012
Current year offset		(1,968,944)
Total	\$	(1,266,932)
Balance carried forward to future years	\$	-

#### NOTE 18 – CONSTRUCTION COMMITMENTS/ENCUMBRANCES

As of June 30, 2016, the School District has construction commitments for a paving and drainage and roof replacement in the amount of \$116,444 and \$224,000.

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. The School District had outstanding encumbrances at June 30, 2016 in the following funds:

General fund	\$ 981,537
Permanent improvement	818,331
Other governmental funds	 79,463
Total encumbrances at year end	\$ 1,879,331

# **Combining Statements and Individual Fund Schedules**

### Nonmajor Special Revenue Funds

The special revenue funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes. The title of each special revenue fund is descriptive of the activities accounted for therein. A description of the School District's nonmajor special revenue funds follows:

#### Food Service

To account for all revenues and expenditures restricted to the provision of food services, including breakfast and lunch, for the School District students and staff.

#### Miscellaneous Local Grants

To account for funds received from private organizations that are restricted for specific purposes.

#### **District Managed Student Activity**

To account for those student activity programs which are restricted for student participation in the activity, but do not have student management of the programs. This fund includes athletic programs as well as band, cheerleaders, drama clubs, and other similar types of activities.

#### **Management Information Systems**

To account for state funds restricted to assist the School District in implementing a staff, student, and financial reporting system as mandated by the Omnibus Education Reform Act of 1989.

#### **Data Communications**

To account for revenues restricted from the State to be used to install and provide support costs for data communication links to connect any school to the local A-site.

#### **Alternative Schools**

To account for alternative educational programs for existing and new at-risk and delinquent youth. Programs shall be focused on youth in one or more of the following categories: those who have been expelled or suspended, those who have dropped out of school or who are at risk of dropping out of school, those who are habitually taunt or disruptive, or those on probation or on parole from a Department of Youth Services' facility.

#### Miscellaneous State Grants

To account for monies restricted from state agencies which are not classified elsewhere.

#### Title VI-B

To account for federal funds restricted for the provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels; assist in the training of teachers, supervisors and other specialists in providing educational services to the handicapped.

#### Title III

To account for federal funds restricted to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

#### Title I

To account for federal funds restricted for services provided to meet special educational needs of educationally deprived children.

#### **EHA Preschool Grant**

To account for federal funds restricted for the improvement and expansion of services for handicapped children ages three through five years.

#### **Improving Teacher Quality**

To account for monies restricted to hire additional classroom teachers in grades one through three, so that the number of students per teacher will be reduced.

# Nonmajor Capital Projects Funds

Capital project funds are established to account for financial resources that are restricted, committed, or assigned to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds). The capital projects funds are:

#### Building

To account for restricted receipts and expenditures related to all special bond funds in the School District.

#### Replacement

A fund provided to account for restricted monies used in the rebuilding, restoration or improvement of property which has been totally or partially destroyed due to any cause. Such property may have become unfit for use necessitating its demolition in whole or in part, and may require repair or restoration before it can again be used.

Individual Fund Schedules of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Basis) and Actual Governmental Funds – Major and Nonmajor

### Major General Fund

The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

#### Funds being reported as part of the general fund

The following funds are legally budgeted as separate special revenue funds but are being reported as part of the general fund for GAAP reporting purposes.

#### <u>Uniform School Supplies</u>

To account for the purchase and sale of school supplies as adopted by the Board of Education for resale to students of the School District.

#### **Adult Education**

To account for all revenues and expenditures related to the provision of credit and non-credit classes to the general public.

### Public School Support

To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

	Final Budget	Actual	Variance with Final Budget Positive (Negative)

# **Statistical Section**

This part of the School District's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

<u>Contents</u>	Page(s)
Financial Trends  These schedules contain trend information to help the reader understand how the School District's financial position has changed over time.	S2 - S13
Revenue Capacity  These schedules contain information to help the reader understand and assess the factors affecting the School District's ability to generate its most significant local revenue source.	S14 - S18
Debt Capacity  These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	S19 - S23
Economic and Demographic Information  These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	S24 - S25
Operating Information  These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	S26 - S31

**Sources:** Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property including public utility real property is 35% of estimated true value. The assessed value of public utility personal property ranges from 0% of true value for railroad property to 85% for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25% for machinery and equipment. General business inventory tangible personal property tax was phased out beginning in 2006. The listing percentages during the phase out were 18.75% for 2006, 12.5% for 2007, 6.25% for 2008 and zero for 2009. Beginning in 2007, House Bill 66 switched telephone companies from being public utilities to general business taxpayers and began a four year phase out of the tangible personal property tax on local and inter-exchange telephone companies. No tangible personal property taxes were levied or collected in 2009 from general business taxpayers (except telephone companies whose last year to pay tangible personal property tax was in 2010).

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, the 2 1/2% and the homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property was eliminated.

<sup>(1)</sup> Includes homestead exemptions and rollback of locally assessed taxes which is reimbursed by the State and reported as intergovernmental revenue.

<sup>(2)</sup> The 2016 information cannot be presented because all collections have not been made by June 30, 2016.

<sup>(3)</sup> The County does not identify delinquent tax collections by tax year.

<sup>(4)</sup> The County's current reporting system does not track delinquent tax collections by tax year. Outstanding delinquencies are tracked in total by the date the parcel is first certified delinquent. Penalties and interest are applied to the total outstanding delinquent balance. The presentation will be updated as new information becomes available.

<sup>\*</sup> Graduation rates have new calculation rate in 2012
Beginning with the 2011-2012 Local Report Card, the Ohio Department of Education implemented changes that affect the manner in which the graduation rate is reported.
The graduation rate disclosed in the new Local Report Card represents a 4-year longitudinal graduation rate that takes into consideration the amount of time it takes an incoming freshman to successfully complete high school.
