BUCKEYE LOCAL SCHOOL DISTRICT

Medina, Ohio

Comprehensive Annual
Financial Report
For the Fiscal Year Ended June 30, 2017

Board of Education Buckeye Local School District 3044 Columbia Road Medina, Ohio 44256

We have reviewed the *Independent Auditor's Report* of Buckeye Local School District, Medina County, prepared by Julian & Grube, Inc., for the audit period July 1, 2016 through June 30, 2017. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Buckeye Local School District is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

December 15, 2017

Board of Education Members Buckeye Local School District

We are pleased to submit to you the Buckeye Local School District's 27th Comprehensive Annual Financial Report (CAFR) for fiscal year ended June 30, 2017. This report was prepared by the Treasurer's Office, conforms to accounting principles generally accepted in the United States of America as they apply to governmental entities and contains an opinion from Julian & Grube, Inc. Responsibility for both the accuracy of the information presented and the completeness and fairness of the presentation, including all disclosures, rests with the school district. To the best of our knowledge and belief, the enclosed data is accurate in all material aspects and is reported in a manner designed to fairly set forth the financial position and results of operations of the school district. This report will provide the taxpayers of Buckeye Local School District with comprehensive financial data in a format that enables them to gain an understanding of district's financial activity.

About Buckeye Local Schools

The School District and Community

The Buckeye Local School District is located west of the city of Medina, and is about 30 miles south of Cleveland. The Buckeye Local School District covers 70.9 square miles. The School District is made up of Litchfield Township, Liverpool Township, York Township and part of Medina City.

On June 12, 1952, the Litchfield, Liverpool, and York Local School Districts consolidated into one school district, to be known as the Buckeye Local School District. At the time of consolidation, there were 781 pupils. Current enrollment is 2,313 with projected enrollment through 2018 to remain constant with little deviation. Buckeye has 248 employees, many of which reside within the district boundaries.

To serve all the pupils of the consolidated district, a high school was built and dedicated on November 24, 1957. In 1973, a new high school was built and the former high school was converted to the Junior High. Litchfield Elementary school was built in Litchfield township in 1978. A new administrative office was built behind the high school in 1990. In 2004, two new elementary buildings (a primary and intermediate) were opened to replace two elementary buildings built in the early 1900's and consolidate all three elementary buildings into one campus. With the opening of the new elementary building complex, Litchfield Elementary closed to instruction in 2005.

Buckeye Local School District has a total property tax rate of 67.90 mills, of which the citizens have voted in 63.60 mills. Of that amount the District has 58.60 mills for operating funds, with an effective millage rate of 20.13 for residential/agriculture and 24.35 on business/other as of January 2016. Additional operating funds not included in the effective millage, include an Emergency levy reaffirmed in November 2016 for 7.6 mills for 10 years for

operating. It was reduced from 7.9 to 7.6 to collect the same amount as originally approved in 2012 for \$3,201,100.00. A bond issue for \$23.7 million was approved in March 2000, for the construction of building additions onto existing structures and the elementary complex, that houses two buildings. The effective millage of the bond issue was 4.7 mills as of June 30, 2001 and has been reduced to 4.0 mills since January 2014 tax billing. Effective January 2004, the Board of Education approved moving one inside mill to the permanent improvement fund.

Educational and Extracurricular Programming

The Buckeye Local School District is an independent school district offering comprehensive educational, extracurricular and co-curricular programs for students preschool thru 12th grade. The academic curriculum includes language arts, world languages, mathematics, science, social studies, music, art, physical education, technology, career and technical education, and life skills. Specific programs for gifted and talented students are provided for grades three through twelve. Students have access to literacy, English as a second language and special education programs. Buckeye students can also attend the Medina County Career Center to gain additional career technical programming skills. This facility is located within the district boundaries. There are no charter, primary, or secondary schools within the district boundaries.

Our high school offers Advanced Placement and College Credit Plus (CCP) courses. CCP provides students an opportunity to earn college credit at no-cost to the student from grades 7-12. High School and Junior High students are able to participate in county led career base programming. Other educational programs include early intervention preschool programs, summer school, and an on-line learning academy for at-risk students.

The Reporting Entity

Buckeye Local School District has reviewed its reporting entity definition in order to ensure conformance with Governmental Accounting Standards Board Statement Number 14, "The Financial Reporting Entity." In evaluating how to define the District for financial reporting purposes, management has considered all funds, departments, boards, organizations, and agencies making up the Buckeye Local School District, the primary government. Numerous entities conduct their activities within the School District's boundaries but these entities have been excluded from the financial statements because they do not meet the definitions. Management has prepared the Management's Discussion and Analysis (MD&A) of the School District. This discussion follows the auditor's opinion, providing a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

Services Provided

The School provides a wide variety of instruction and support services as mandated by state statute or public desire. These services include regular instruction, special instruction, vocational instruction, student guidance services, and extracurricular activities. Support services are necessary to complete the educational process, such as administrative, technical, and other community services. Additional services include uniform school supply sales and a food service operation. Uniform school supply sales consist of workbooks used by the students. Food services provide an opportunity for students to receive a nutritious and balanced meal every day.

Organization of the School

A five-member Board of Education serves as the taxing authority, contracting body, and policy maker for the School District. The Board of Education adopts the annual operating budget, tax budget, and authorizes all expenditures of the School District's tax monies.

The Superintendent is the chief executive officer of the school, responsible to the Board for total education and support services. The Treasurer is the chief financial officer of the School District, responsible to the Board for maintaining all financial records, issuing checks, making investments, paying liabilities, and maintaining the minutes of all Board of Education meetings. All other employees hired with approval of the Board of Education, ultimately report to the Superintendent.

Economic Outlook

Economic Condition and Outlook

Our tax base covers the townships of Liverpool, Litchfield, York and part of Medina City. The three townships are primarily residential and rural. Although the District is fortunate to contain two substantial industrial parks, which provide a large commercial real estate tax base. The School District has not experienced significant growth from new construction in residential real estate as has happened in the past. Buckeye Local School District had been blessed with a large amount of revenue from personal property taxes in the past. In 2005, state lawmakers passed legislation that phased in the elimination of all personal property taxes on equipment except public utility personal property. This legislation was a significant reduction in revenue. It was this revenue from personal property taxes that afforded Buckeye Local the ability to stay off the ballot for additional operating funds. With the passage of this and other legislation that reduced funding to the district, Buckeye had to place an issue on the ballot. Fortunately, the Buckeye community passed ballot issues to provide operating funding to the district. The management team is working diligently to provide the services our community desires and that the state mandates in a fiscally responsible manner.

Historically, Medina county has experienced rapid residential growth in family housing and developments. Recently, the demographics of the community have been changing. School District enrollment has remained constant over the last few years. Rapid rates of new construction within the district have stopped. There is optimism that the planned NEXUS pipeline will bring potentially significant revenue streams to the District. However, the amount and timing of such revenue is purely speculation at this point. In addition, the recent County Auditor's reappraisal of the District's valuation provided for generally increased valuations. The landscape of education is ever-changing and heavily influenced by state mandates for classroom size, academic offerings and special education needs. Our School District will remain challenged to balance mandates and community desires with financial stability and fiscal responsibility.

Internal Controls

Management is responsible for establishing and maintaining internal controls. Internal controls are designed to ensure the assets of the district are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management. Management believes the School District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Long-Term Financial Planning

In order to make sound financial decisions now and in the future, the Buckeye Local School District has established principles for budget and financial management. These principles provide guidance for budget development, financial and debt management, and reserves. One-time surpluses may not be used for continuing expenditures. Rather, they may be used for one-time expenditures such as capital projects. The School District maximizes the use of local, state and federal grants as to help preserve general revenues for other needs. The modified accrual basis fund balance in the general fund is at a deficit. The Board of Education has looked at a policy that will define the minimum level of fund balance that will require a levy to be placed on the ballot.

Relevant Financial Policies

The budget must be structurally balanced so that continuing revenues support continuing expenditures. Budgetary appropriations may not exceed resources, with a balanced budget maintained in each fund.

With the recent reaffirmation of the Emergency levy, the community has provided the School District with the opportunity to provide increased services to the students. Staffing levels have seen a very modest increase to allow for strategic class size reductions. Additionally, there has been an increase in Gifted services to provide another avenue to further provide educational services to a diverse cross section of students. The District's collaboration with the Medina County Career Center has brought new opportunities to students in the areas of science, technology, engineering, arts, and mathematics.

Buckeye's leadership team works diligently to find innovative, collaborative, and cost effective methods to continue to bring programming back to the district in a sustainable manner. The team continues to evaluate the needs of our students and strives to provide opportunities to meet these needs.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Buckeye Local School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2016. This was the 26th consecutive year that the School District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

We are very proud to submit this 27th Comprehensive Annual Financial Report for the School District. This represents our continuing commitment towards professionalism in the financial reporting of the Buckeye Local School District. This report significantly increases the accountability of the School District to the taxpayers.

This report would have not been possible without the help of several people. We would like to thank the Board of Education and the Buckeye staff for their support and assistance in preparing this report. We would like to thank Rea and Associates Inc, for their expertise in making the conversion from cash basis to a modified accrual and accrual presentation.

We are especially grateful to the Treasurer's staff of Tanya Mier and Alicia Shank for their extra effort and willingness to assist in the completion of this report.

Sincerely,

Jennifer Knapp

Independent Auditor's Report

Buckeye Local School District Medina County 3044 Columbia Road Medina, Ohio 44256

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Buckeye Local School District, Medina County, Ohio, as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Buckeye Local School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Buckeye Local School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Buckeye Local School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Buckeye Local School District, Medina County, Ohio, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General fund thereof for the fiscal year then ended in accordance with the accounting principles generally accepted in the United States of America.

Independent Auditor's Report Buckeye Local School District

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the Buckeye Local School District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

Julian & Sube the

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2017, on our consideration of the Buckeye Local School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Buckeye Local School District's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

The discussion and analysis of the Buckeye Local School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the School District's performance as a whole; readers should also review the transmittal letter, the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2017 are as follows:

- Net position increased \$0.7 million, which represents a 17 percent increase.
- Capital assets decreased \$74,628 during fiscal year 2017 due to depreciation and adjustments exceeding acquisitions.
- During the fiscal year, outstanding debt decreased from 16.5 million to \$15.2 million, due to principal payments made fiscal year 2017.

Using this Comprehensive Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the Buckeye Local School District as a whole entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of Buckeye Local School District, the general and debt service funds are the most significant funds.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While the basic financial statements contain the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2017?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and deferred outflows of resources and liabilities and deferred inflows of resources (except fiduciary funds) using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

These two statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio which restrict revenue growth, facility conditions, required educational programs, and other factors.

In the *Statement of Net Position* and the *Statement of Activities*, governmental activities include the School District's programs and services, including instruction, support services, food services and uniform school supplies.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 18. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions; however, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general fund and debt service fund.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Fund The School District maintains one type of proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the School District's various functions. The School District uses an internal service fund to account for its health insurance benefits. Because this service predominately benefits governmental functions, it has been included within the governmental activities in the government-wide financial statements. The proprietary fund financial statements begin on page 23.

Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for some of its scholarship and foundation programs. This activity is presented as a private purpose trust fund. The School District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in an agency fund. The School District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position on pages 26 and 27. These activities are excluded from the School District's other financial statements because the assets cannot be utilized by the School District to finance its operations.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Because of the discussion below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows of resources and subtracting deferred outflows of resources related to pension and the net pension liability to the reported net position. Table 1 provides a summary of the School District's net position for 2017 compared to 2016:

Table 1 Net Position

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

Under the standards required by GASB 68, the net pension liability equals the School District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" - that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the School District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's change in net pension liability not accounted for as deferred inflows/outflows of resources.

At year end, capital assets represented 44 percent of total assets. Capital assets include land, construction in progress, land improvements, buildings and improvements, furniture and equipment and vehicles. Net investment in capital assets was \$10.3 million at June 30, 2017. These capital assets are used to provide services to students and are not available for future spending. Although the School District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the School District's net position, \$2.5 million, represents resources that are subject to external restrictions on how they may be used. The government-wide unrestricted net position is a deficit of \$16.3 million at June 30, 2017, which is primarily created by GASB 68.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

Current and other assets increased \$2.8 million over fiscal year 2016. There was a \$2.1 million increase in cash, primarily due to revenues continuing to outpace expenditures in the general fund. Accounts payable showed an increase of \$1.1 million over fiscal year 2016, due, in part, to bus purchases and HVAC equipment purchases and repairs. Changes in net pension liability, deferred inflows of resources and deferred outflows of resources related to pension are caused by performance of the two state pension systems the School District participates in.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for 2017 and 2016.

Table 2 Changes in Net Position

	Governmental Activities

Debt Service:			
Interest and Fiscal Charges	567,745	694,581	
Total Expenses	27,643,900	23,893,809	
Increase (Decrease) in Net Position	721,875	4,099,156	
Net Position at Beginning of Year	(4,200,918)	(8,300,074)	
Net Position at End of Year	\$ (3,479,043)	\$ (4,200,918)	

Expenses in general showed an increase due to the increase in net pension liability over fiscal year 2016. In addition, expenses not capitalized for HVAC and asphalt repairs account for a portion of the increase in operation and maintenance expenses.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

Pupil Transportation	1,517,119	1,185,297	1,489,213	1,124,790
Central	8,090	15,644	890	8,444
Operation of Non-Instructional Services:				
Food Service Operations	601,353	533,636	106,260	46,014
Community Services	39,991	96,621	(27,665)	16,962
Extracurricular Activities	917,773	816,351	326,609	256,876
Debt Service:				
Interest and Fiscal Charges	567,745	694,581	567,745	694,581
Total Expenses	\$ 27,643,900	\$ 23,893,809	\$ 24,977,251	\$ 21,070,662

The dependence upon general revenues for governmental activities is apparent. 90 percent of governmental activities are supported through taxes and other general revenues; such revenues are 91 percent of total governmental revenues. The community, as a whole, is by far the primary support for the School District students.

Governmental Funds

Information about the School District's major funds starts on page 18. These funds are accounted for using the modified accrual basis of accounting. The net change in fund balances for the fiscal year was an increase of \$1.4 million for all governmental funds.

The general fund's net change in fund balance for fiscal year 2017 was an increase of \$2.2 million over fiscal year 2016. Revenues increased \$0.1 million and expenditures increased \$1.0 million over fiscal year 2016. The increase in expenditures in fiscal year 2017 can be partially attributed to increases in salaries and benefits. The overall increase in fund balance is the result of revenues outpacing expenditures.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

The fund balance of the debt service fund increased \$0.3 million over fiscal year 2016 due to the timing of revenues to cover expenditures.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2017, the School District amended its general fund budget. The School District uses site-based budgeting and budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

For the general fund, actual and final budget basis revenue was \$22.6 million for fiscal year 2017. Original budget basis revenue was \$0.5 million less than final estimates with intergovernmental revenues originally estimated lower.

Actual and final appropriations amounted to \$20.9 million in fiscal year 2017. Original appropriations of \$20.3 million were \$0.6 million less than final appropriations. Final budget basis revenues and appropriations were increased proportionately with resources available.

No significant fluctuations were noted in other financing sources and uses.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2017, the School District had \$25.0 million invested in capital assets. Table 4 shows fiscal year 2017 balances compared with 2016.

Table 4
Capital Assets at June 30
(Net of Depreciation)

	 Governmental Activities			
	 2017		2016	
Land	\$ 773,495	\$	773,495	
Construction in Progress	0		47,118	
Land Improvements	357,759		490,379

Furniture and Equipment	329,727		402,843	
Vehicles	 878,894		761,332	
Totals	\$ 24,981,958	\$	25,056,586	

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

The \$74,628 decrease in capital assets was attributable to current depreciation and adjustments exceeding acquisitions. See Note 9 for more information about the capital assets of the School District.

Debt

At June 30, 2017, the School District had \$15.0 million in debt outstanding. See Note 12 for additional details. Table 5 summarizes debt outstanding.

For the Future

Life in the Buckeye Local School District is a reflection of Medina County with its agricultural roots, increased commercial and industrial expansion and residential migration from more populated areas. Contributing to the growth and prosperity of the District is the 1,400-acre industrial park located in Liverpool Township. The Liverpool Industrial Park is Medina County's largest industrial park and is home to several corporate headquarters. Shiloh Industries, Inc., located in the industrial park, is the County's tenth largest employer.

While the District's agricultural history of farming is still an important part of the County's economy, it has steadily decreased. Over the last decade nearly four thousand farm acres have been lost in the County and this trend continues.

As the agricultural growth has decreased, residential growth has increased. Housing developments continue to receive approval by the townships. Prices of new homes are in the \$180,000 to over \$500,000 price range. The new developments are attracting retirees, empty nesters, as well as young families to the area. Residential/Agricultural property contributes 80 percent of the School District's real estate valuation.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2017

With the recent reaffirmation of the Emergency levy, the community has provided the District with the opportunity to provide increased services to the students. The District continued its commitment to technology initiatives. Currently the District is in year two of a five-year Instructional Technology Plan. Year two saw additional grades receiving a Chromebook in the 1:1 iniatitive, additional Chromebook carts were placed throughout the District, and MacBook devices were purchased for teachers. The District strategically filled the new Technology Integration Specialist position, who is responsible for assisting staff in implementing technology initiatives. Additionally, the district is making great strides in increasing and improving gifted services for high achieving students and co-teaching situations for struggling students. Under the maganerial leadership, the administration continually evaluates instruction and innovative improvements to instructional delivery and the educational process as a whole. In partnership with local colleges and universities, the College Credit Plus enrollment continues to rise. Many students and families are excited to receive college credit for no adidtional costs to them.

Staffing levels have seen a very modest increase to allow for strategic class size reductions. Additionally, there has been an increase in Gifted services to provide another avenue to further provide educational services to a diverse cross section of students. The District's collaboration with the Medina County Career Center has brought new opportunities to students in the areas of science, technology, engineering, arts, and mathematics.

Buckeye's leadership team works diligently to find innovative, collaborative, and cost effective methods to continue to bring programming back to the district in a sustainable manner. The team continues to evaluate the needs of our students and strives to provide opportunities to meet these needs.

The District is also committed to continued maintenance of our campus. Signficiant improvements were completed to aging HVAC systems throughout the District. Additionally there were structural repairs and cosmetic improvements were completed to all buildings on campus. Paving projects took place at each of the building's parking lots. Additionally three new buses were added to the fleet, allowing aging buses to come off.

Buckeye Local School District has committed itself to financial excellence for many years. The School District has received the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting since 1991.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Jennifer Knapp, Treasurer at Buckeye Local School District, 3044 Columbia Road Medina, Ohio 44256.

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities June 30, 2017

Total Governmental Fund Balances		\$ 13,993,037
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		24,981,958
Other long-term assets are not available to pay for current- period expenditures and therefore are deferred in the funds.		
Grants	\$ 114,173	
Delinquent Property Taxes	84,683	
County Sales Tax	534,455	
Other	16,960	750,271
An internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in		
governmental activities in the statement of net position.		257,242
In the statement of activities, interest is accrued on outstanding bonds, whereas in the governmental funds, an interest expenditure		
is not reported.		(39,792)
In the statement of activities, a gain/loss on refunding is amortized over		
the term of the bonds, whereas in governmental funds a refunding		
gain/loss is reported when bonds are issued.		369,630
The net pension liability is not due and payable in the current period; therefore, the liability and related deferred inflows/outflows are not reported in governmental funds:		
Deferred Outflows - Pension	8,173,562	
Deferred Inflows - Pension	(47,455)	
Net Pension Liability	(35,038,569)	(26,912,462)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the finds.		
in the funds. General Obligation Bonds	(12,240,000)

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Note 1 - Description of the School District

The Buckeye Local School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The School District operates under an elected Board of Education consisting of five members and is responsible for providing public education to residents of the School District.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that financial statements of the School District are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Buckeye Local School District, this includes general operations, food service and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves their budget, the issuance of their debt or the levying of their taxes. The School District has no component units.

The School District participates in three jointly governed organizations and two public entity risk pools. These organizations are the Northeast Ohio Network for Educational Technology, the Ohio Schools' Council, Medina County Career Center, the Schools of Ohio Risk Sharing Authority and the Ohio Association of School Business Officials Workers' Compensation Group Rating Program. These organizations are presented in Notes 14, 15 and 16 to the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The most significant of the School District's accounting policies are described below.

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The internal activities within "activity" types are eliminated to avoid "doubling up" revenues and expenses.

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limitations. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and proprietary fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

General Fund The general fund is the operating fund of the School District and is used to account for financial resources except those required to be accounted for in another fund.

Debt Service Fund The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

The other governmental funds of the School District account for grants and other resources to which the School District is bound to observe constraints imposed upon the use of the resources.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Proprietary Funds Proprietary funds are used to account for the School District's ongoing activities, which are similar to those found in the private sector. The School District's only proprietary fund is an internal service fund.

Internal Service Funds Internal service funds account for the financing of services provided by one department to other departments of the School District on a cost reimbursement basis. The only internal service fund of the School District accounts for a self-insurance program, which provides dental benefits to employees.

Fiduciary Funds Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's private purpose trust fund accounts for scholarships specified in trust agreements. The School District's agency fund accounts for student activity programs.

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All nonfiduciary assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of this fund are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities. The private purpose trust fund uses the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues – **Exchange and Non-Exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within 30 days of year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: property tax advances, tuition, grants, fees and rentals.

Deferred Inflows of Resources and Deferred Outflows of Resources In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding and for pension. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained in Note 10.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes, pension, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2017, but which were levied to finance fiscal year 2018 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue may include delinquent property taxes, intergovernmental grants, and miscellaneous revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position. (See Note 10).

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the object level within each fund. The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original revenue budgeted amounts in the budgetary statement reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final revenue budgeted amounts in the budgetary statement reflect the amounts in the final amended certificate issued during fiscal year 2017.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Cash and Investments

The School District's equity in pooled cash and investments are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

During fiscal year 2017, investments were limited to the State Treasurer's Investment Pool, (STAR Ohio), Federal Home Loan Mortgage, Fannie Mae, First American Government Obligations Money Market, certificates of deposit and repurchase agreements.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, Certain External Investment Pools and Pool Participants. The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For the fiscal year 2017, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

Investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as "equity in pooled cash and investments." Investments with an original maturity of more than three months that are not made from the pool are reported as "investments."

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund was \$79,802, which includes \$45,298 assigned from other School District funds. The private purpose scholarship trust fund had investment earnings of \$454.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2017 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year in which services are consumed.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Capital Assets

General capital assets are those assets not specifically related to activities reported in the internal service fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and are updated for additions and retirements during the year. Donated capital assets are recorded at acquisition value. The School District maintains a capitalization threshold of \$5,000. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental Activities
Description	Estimated Lives
Land	N/A
Construction in Progress	N/A
Land Improvements	10 - 20 Years
Buildings and Improvements	10 - 50 Years
Furniture and Equipment	5 - 20 Years
Vehicles	5 - 10 Years

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities column of the statement of net position.

Compensated Absences

Compensated absences are absences for which employees will be paid, such as vacation or sick leave. A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the School District and its employees, is accrued as employees earn the rights to the benefits. Compensated absences that relate to future services or that are contingent on a specific event that is outside the control of the School District and its employees are accounted for in the period in which such services are rendered or such events take place.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

In governmental funds, the liability for unpaid compensated absences is the unused reimbursable leave still outstanding following an employee's resignation or retirement.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the proprietary fund are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences and net pension liabilities that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they have matured and are normally expected to be paid with expendable available financial resources. Bonds and certificates of participation are recognized as a liability on the fund financial statements when due.

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. At June 30, 2017, there was no net position restricted by enabling legislation.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the School District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed or assigned.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the School District Board of Education. The School District Board of Education has, by resolution, authorized the Treasurer to assign fund balance. The School District Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget.

Unassigned – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the School District, these revenues are charges for services for self-insurance programs. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. Revenues and expenses not meeting these definitions are reported as non-operating.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Implementation of New Accounting Principles

For the fiscal year ended June 30, 2017, the School District has implemented Governmental Accounting Standards Board (GASB) Statement No. 77, Tax Abatement Disclosures, GASB Statement No. 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans, GASB Statement No. 80, Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14 and GASB Statement No. 82, Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73.

GASB Statement No. 77 requires disclosure of tax abatement information about (1) a reporting government's own tax abatement agreements and (2) those that are entered into by other governments and that reduce the reporting government's tax revenues. The implementation of this statement did not result in any change in the School District's financial statements as the School District does not have any material GASB Statement No. 77 tax abatements.

GASB Statement No. 78 amends the scope of GASB Statement No. 68 to exclude certain multiple-employer defined benefit pension plans provided to employees of state and local governments on the basis that obtaining the measurements and other information required by GASB Statement No. 68 was not feasible. The implementation of GASB Statement No. 78 did not have an effect on the financial statements of the School District.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

GASB Statement No. 80 amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The implementation of GASB Statement No. 80 did not have an effect on the financial statements of the School District.

GASB Statement No. 82 improves consistency in the application of pension accounting. These changes were incorporated in the School District's fiscal year 2017 financial statements; however, there was no effect on beginning net position/fund balance.

Note 3 – Fund Balance

Fund balance can be classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented as follows:

	General		Debt Service		Other Governmental			
Fund Balance		Fund	Fur	nd	Funds			Total
Nonspendable:								
Prepaids	\$	21,116	\$	0	\$	653		\$ 21,769
Restricted for:								
Debt Service	\$	0	\$ 1,515	5,025	\$	0	9	\$ 1,515,025
Capital Outlay		0		0		366,495		366,495
Special Trust		0		0		41,654		41,654
Other Purposes		0		0		59,688		59,688
Total Restricted		0	1,515	5,025		467,837		1,982,862
Committed to:								
Other Purposes		701		0		0		701
Assigned for:								
Student and Staff Support		109,852		0		0		109,852
Preschool Program		232,970		0		0		232,970
Subsequent Year Appropriations Encumbrances:		1,906,414		0		0		1,906,414
Instruction		119,446		0		0		119,446
Support Services		309,928		0		0		309,928
Total Assigned	- 2	2,678,610		0		0		2,678,610
Unassigned (Deficit)		9,448,903		0		(139,808)	*	9,309,095
Total Fund Balance (Deficit)	\$ 12	2,149,330	\$ 1,515	5,025	\$	328,682	_	\$ 13,993,037

^{*} Unassigned fund balance included the following individual fund deficits:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

]	Deficit Fund		
	<u>F</u>	Balance		
Nonmajor Governmental Funds:				
Food Service Fund	\$	34,682		
Athletic Fund		25,555		
Title VI-B Fund		44,474		
Title I Fund		34,444		

The deficits in these nonmajor governmental funds resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in these funds and will provide transfers when cash is required, not when accruals occur.

Note 4 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual, is presented for the general fund on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures/expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 3. Encumbrances are treated as expenditures (budget) rather than as an assignment or commitment of fund balance (GAAP).
- 4. Some funds are included in the general fund (GAAP), but have separate legally adopted budgets (budget).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement for the general fund.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

GAAP Basis	\$ 2,225,463
Net Adjustment for Revenue Accruals	(189,367)
Net Adjustment for Expenditure Accruals	123,708
Funds Budgeted Elsewhere	116,346
Adjustment for Encumbrances	 (615,190)
Budget Basis	\$ 1,660,960

^{**} As part of Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the public school support fund, the uniform school supplies fund, the creative tax abatement fund and the miscellaneous activities fund.

Note 5 - Deposits and Investments

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts.

Protection of School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies to be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts.
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Custodial credit risk for deposits is the risk that in the event of bank failure, the School District's deposits may not be returned to it. Protection of School District cash and deposits is provided by the Federal Deposit Insurance Corporation, as well as qualified securities pledged by the institution holding the assets. By law, financial institutions must collateralize all uninsured public deposits. The face value of the pooled collateral must equal at least 105 percent of uninsured public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Custodial credit risk for an investment is the risk that in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. These securities, held by the counterparty and not in the School District's name, must be obligations of or guaranteed by the United States and mature or be redeemable within five years of the date of the related repurchase agreement. The School District's policy is to invest money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

Deposits: The carrying value of the School District's deposits was a deficit balance of \$236,444 and the bank balances of the deposits totaled \$50,038. This amount is not shown as a liability due to the nature of the School District bank accounts. The entire bank balance was covered by federal depository insurance.

Investments: As of June 30, 2017, the School District had the following investments:

				Inve	ties		
			Measurement				
Rating	Level	Investment	Amount	0 - 12	13 - 36	Over 36	% Total
N/A	2	Repurchase Agreement	\$ 1,531,556	\$ 1,531,556	\$ 0	\$ 0	9.3%
AAAm	N/A	STAR Ohio	6,468,646	6,468,646	0	0	39.1%
		First American Government					
Aaa	1	Obligation	4,553,876	4,553,876	0	0	27.5%
AA+	2	Federal Home Loan Mortgage	2,118,763	299,346	1,102,196	717,221	12.8%
AA+	2	Fannie Mae	641,926	0	246,748	395,178	3.9%
***	2	Negotiable Certificates of Deposit	1,218,277	898,173	320,104	0	7.4%
			\$16,533,044	\$13,751,597	\$1,669,048	\$1,112,399	100.0%

N/A Ratings not readily available

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above table identifies the School District's recurring fair value measurements as of June 30, 2017. As discussed further in Note 2, the repurchase agreement is reported at cost and STAR Ohio is reported at its share price. All other investments of the School District are valued using quoted market prices (Level 1 and 2 inputs).

Interest Rate Risk: The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. The School District's policy manages its exposure to fair value losses arising from increasing interest rates by limiting the modified duration of its investment portfolio.

STAR Ohio is an investment pool operated by the Ohio State Treasurer. It is unclassified since it is not evidenced by securities that exist in physical or book entry form. Ohio law requires STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The weighted average of maturity of the portfolio held by STAR Ohio as of June 30, 2017, is 46 days.

^{***} Fully insured under FDIC

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Credit Risk: The School District's investments in the federal agency securities that underlie the School District's repurchase agreement were rated Aaa by Moody's Investor Services. The School District's policy on Credit Risk allows only for those investments as stated within the Ohio Revised Code.

Concentration of Credit Risk: The School District places no limit on the amount the School District may invest in any one issuer.

Note 6 – Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2017 represents collections of calendar year 2016 taxes. Real property taxes received in calendar year 2017 were levied after April 1, 2016, on the assessed value listed as of January 1, 2016, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2017 represents collections of calendar year 2016 taxes. Public utility real and tangible personal property taxes received in calendar year 2017 became a lien December 31, 2015, were levied after April 1, 2016 and are collected in 2017 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Medina County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2017, are available to finance fiscal year 2017 operations. The amount available as an advance at June 30, 2017 in the general, debt service and permanent improvement funds were \$1,345,100, \$183,750, and \$45,930, respectively. The amount available for advance at June 30, 2016, in the general, debt service and permanent improvement funds were \$1,159,380, \$152,090, and \$38,020, respectively. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2017 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow of resources.

The assessed values upon which the fiscal year 2017 taxes were collected are:

	2016 Seco	ond	2017 First		
	Half Collect	tions	Half Collections		
	Amount	Percent	Amount	Percent	
Real Estate Public Utility Personal Property	\$ 414,780,430 17,011,700	96.06% 3.94%	\$ 452,050,000 18,183,600	96.13% 3.87%	
	\$ 431,792,130	100.00%	\$ 470,233,600	100.00%	
Tax rate per \$1,000 assessed valuation	\$ 67.90		\$ 67.90		

Note 7 - Receivables

Receivables at June 30, 2017, consisted of taxes, interfund and intergovernmental. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

During 2007, the voters of Medina County passed a one-half percent sales tax to be used for capital improvements at all school districts within Medina County. Collection began in October 2007 for a period of 30 years. Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. Sales tax is distributed to the school districts of Medina County based on what is essentially a per pupil distribution formula. A receivable is recognized at year end for an estimated amount to be received based on calendar year 2017 County appropriations yet to be received as of June 30, 2017.

Note 8 - Interfund Activity

Transfers

During the year, the general fund transferred \$15,544 to the food service fund and \$105,401 to the athletics fund to cover deficits in the funds.

Advances

The general fund advanced \$4,068 to other nonmajor governmental funds to cover expenditures until expected revenues were received. All interfund loans will be repaid in fiscal year 2018 with monies to be received from reimbursable expenditures incurred during fiscal year 2017. Interfund balances between governmental funds are eliminated on the government-wide statement of net position.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Note 9 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2017, was as follows:

	Balance 7/1/2016	Additions Reductions		Adjustments *	Balance 6/30/2017	
Governmental Activities						
Capital Assets, not being depreciated:

Fiscal	14,895
Operation and Maintenance of Plant	60,561
Pupil Transportation	118,404
Food Service Operations	63,062
Extracurricular Activities	7,394
Total Depreciation	\$ 1,087,273

Note 10 – Defined Benefit Pension Plans

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the School District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before	Eligible to Retire on or after
	August 1, 2017*	August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or
		Age 57 with 30 years of service credit
Actuarially Reduced	Age 60 with 5 years of service credit	Age 62 with 10 years of service credit; or
Benefits	Age 55 with 25 years of service credit	Age 60 with 25 years of service credit

^{*}Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first 30 years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS'

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2017, the allocation to pension, death benefits, and Medicare B was 14 percent. SERS did not allocate any employer contributions to the Health Care Fund for fiscal year 2017.

The School District's contractually required contribution to SERS was \$355,624 for fiscal year 2017. Of this amount, \$35,849 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation was 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. Members are eligible to retire at age 60 with five years of qualifying service credit, or at age 55 with 26 years of service, or 31 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy — Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2017, plan members were required to contribute 14 percent of their annual covered salary. The School District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2017 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was \$1,372,397 for fiscal year 2017. Of this amount, \$227,360 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

The net pension liability was measured as of July 1, 2016, and the total pension liability used to calculate the net pension liability was determined by an independent actuarial valuation as of that date. The School District's employer allocation percentage of the net pension liability was based on the employer's share of employer contributions in the pension plan relative to the total employer contributions of all participating employers. Following is information related to the proportionate share and pension expense:

	STRS		SERS		Total	
Proportionate Share of the Net		_				_
Pension Liability	\$	29,146,580	\$	5,891,989	\$	35,038,569
Proportion of the Net Pension Liability:						
Current Measurement Date		0.08707486%		0.08050180%		
Prior Measurement Date		0.08211909%		0.07674320%		
Change in Proportionate Share	0.00495577%		0.00375860%			
Pension Expense	\$	2,723,341	\$	639,067	\$	3,362,408

Deferred outflows/inflows of resources represent the effect of changes in the net pension liability due to the difference between projected and actual investment earnings, differences between expected and actual actuarial experience, changes in assumptions and changes in the School District's proportion of the collective net pension liability. The deferred outflows and deferred inflows are to be included in pension

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

expense over current and future periods. The difference between projected and actual investment earnings is recognized in pension expense using a straight line method over a five year period beginning in the current year. Deferred outflows and deferred inflows resulting from changes in sources other than differences between projected and actual investment earnings are amortized over the average expected remaining service lives of all members (both active and inactive) using the straight line method. Employer contributions to the pension plan subsequent to the measurement date are also required to be reported as a deferred outflow of resources.

At June 30, 2017, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	STRS		SERS		Total
Deferred Outflows of Resources					
Differences between Expected and					
Actual Experience	\$	1,177,662	\$ 79,470	\$	1,257,132
Net Difference between Projected and					
Actual Earnings on Pension Plan Investments		2,419,948	486,005		2,905,953
Changes of Assumptions		0	393,322		393,322
Changes in Proportion and Differences between					
School District Contributions and Proportionate					
Share of Contributions		1,728,411	160,723		1,889,134
School District Contributions Subsequent to the					
Measurement Date		1,372,397	 355,624		1,728,021
Total Deferred Outflows of Resources	\$	6,698,418	\$ 1,475,144	\$	8,173,562
Deformed Inflores of Description					
Deferred Inflows of Resources					
Changes in Proportion and Differences between					
School District Contributions and Proportionate					
Share of Contributions	\$	0	\$ 47,455	\$	47,455

\$1,728,021 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	STRS		SERS		Total	
Fiscal Year Ending June 30:						
2018	\$ 1,050,571	\$	276,734	\$	1,327,305	
2019	1,050,569		276,388		1,326,957	
2020	1,979,172		379,237		2,358,409	
2021	 1,245,709		139,706		1,385,415	
	\$ 5,326,021	\$	1,072,065	\$	6,398,086	

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2016, are presented below:

Wage Inflation 3.00 percent

Future Salary Increases, including Inflation 3.50 percent to 18.20 percent

COLA or Ad Hoc COLA 3.00 percent

Investment Rate of Return 7.50 percent net of investment expense, including inflation

Actuarial Cost Method Entry Age Normal (Level Percent of Payroll)

Mortality rates among active members were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period ending July 1, 2010 to June 30, 2015. The assumed rate of inflation, payroll growth assumption and assumed real wage growth were reduced in the June 30, 2016 actuarial valuation. The rates of withdrawal, retirement and disability updated to reflect recent experience and mortality rates were also updated.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

Discount Rate The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

				Current		
	1% Decrease (6.50%)		Discount Rate (7.50%)		1% Increase (8.50%)	
School District's Proportionate Share		_				_
of the Net Pension Liability	\$	7,800,626	\$	5,891,989	\$	4,294,380

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75 percent

Projected Salary Increase 12.25 percent at age 20 to 2.75 percent at age 70

Investment Rate of Return 7.75 percent, net of investment expenses, including inflation Cost-of-Living Adjustments 2 percent simple applied as follows: for members retiring before

(COLA) August 1, 2013, 2 percent per year; for members retiring August 1, 2013,

or later, 2 percent COLA commences on the fifth anniversary of the retirement date

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and no set back from age 90 and above.

Actuarial assumptions used in the June 30, 2016, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long Term Expected
Asset Class	Allocation	Real Rate of Return*
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	100.00 %	7.61 %

^{*10-}year annualized geometric nominal returns, which include the real rate of return and inflation of 2.50 percent and does not include investment expenses. The total fund long-term expected return reflects diversification among the asset classes and therefore is not a weighted average return of the individual asset classes.

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2016. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2016. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2016.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	Current						
	1% Decrease		D	Discount Rate		1% Increase	
		(6.75%)		(7.75%)		(8.75%)	
School District's Proportionate Share							
of the Net Pension Liability	\$	38,733,437	\$	29,146,580	\$	21,059,502	

Changes Between Measurement Date and Report Date In March 2017, the STRS Board adopted certain assumption changes which will impact their annual actuarial valuation prepared as of June 30, 2017. The most significant change is a reduction in the discount rate from 7.75 percent to 7.45 percent. In April 2017, the STRS Board voted to suspend cost of living adjustments granted on or after July 1, 2017. Although the exact amount of these changes is not known, the overall decrease to School District's net pension liability is expected to be significant.

Note 11 - Postemployment Benefits

School Employees Retirement System

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2017, SERS did not allocate any employer contributions to the Health Care fund. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2017, this amount was \$23,500. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2017, the School District's surcharge obligation was \$44,072.

For fiscal years 2016 and 2017, SERS did not allocate employer contributions to the Health Care fund. The School District's contributions for health care for the fiscal year ended June 30, 2015, was \$60,902. The full amount has been contributed for fiscal year 2015.

State Teachers Retirement System

Plan Description – The School District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal years 2017, 2016 and 2015, STRS did not allocate any employer contributions to post-employment health care; therefore, the School District did not contribute to health care in the last three fiscal years.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Note 12 – Long Term Obligations

The changes in the School District's long-term obligations during the year consist of the following:

	Outstanding 7/1/2016	C		Outstanding 6/30/2017	Due in One Year
Governmental Activities: General Obligation Bonds: 2007 Bond Refunding					
School Facilities Construction/Improvement Premium on Refunding Bonds 2010 Bond Refunding	\$ 5,775,000 285,481	\$ 0 0	\$ 465,000 30,051	\$ 5,310,000 255,430	\$ 490,000 0
School Facilities Construction/Improvement Premium on Refunding Bonds 2013 School Facilities Refunding	5,540,000 301,419	0	465,000 33,491	5,075,000 267,928	475,000 0

2007 General Obligation Bond Refunding

On September 6, 2007, the School District issued \$7,625,000 in general obligation bonds with an average interest rate of 4.21 percent to advance refund \$7,625,000 of outstanding School Facilities Construction and Improvement Bonds, 2000. The bond proceeds consisted of bond principal and \$550,932 of premium. The net proceeds of \$7,439,548 (after payment of \$185,452 in underwriting fees, insurance, and other issuance costs) were deposited into an irrevocable trust with an escrow agent to provide for future debt payments of the portion of school facilities construction and improvement bonds refunded.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

As a result of this issue, a portion of the school facilities construction and improvement bonds are considered to be defeased and the liability has been removed. The School District advance refunded these bonds to reduce total debt service payments over the following 18 years by \$644,279 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$458,580.

2010 General Obligation Bond Refunding

In November 2010 the School District issued \$7,182,700 in refunded general obligation bonds. The proceeds of the bonds were used to refund \$7,185,000 of the School District's outstanding School Facilities Construction and Improvement Bonds, Series 2001. The bonds were issued for a 16 year period with final maturity at December 1, 2026. At the date of the refunding, \$7,518,175 (including premium and after underwriting fees) was deposited in an irrevocable trust to provide for all future payments on the refunded bonds. As of June 30, 2017, \$5,140,000 of these bonds are considered defeased.

These refunding bonds were issued with a premium of \$502,365, which is reported as an increase to bonds payable. The amounts are being amortized to interest expense over the life of the bonds using the straight-line method since the results are not significantly different from the bonds outstanding or effective interest methods. The issuance resulted in a difference between the cash flows required to service the old debt and the cash flows required to service the new debt of \$333,175. The issuance resulted in an economic gain of \$495,309.

2013 General Obligation Bond Refunding

In April, 2013 the School District issued \$2,529,995 in refunded general obligation bonds. The proceeds of the bonds were used to refund \$2,530,000 of the School District's outstanding School Facilities Construction and Improvement Bonds, Series 2002. The bonds were issued for a 13 year period with final maturity at December 1, 2025. At the date of the refunding, \$2,584,593 (including premium and after underwriting fees) was deposited in an irrevocable trust to provide for all future payments on the refunded bonds. As of June 30, 2017, \$1,890,000 of these bonds are considered defeased.

These refunding bonds were issued with a premium of \$148,438, which is reported as an increase to bonds payable. The amounts are being amortized to interest expense over the life of the bonds using the straight-line method since the results are not significantly different from the bonds outstanding or effective interest methods. The issuance resulted in a difference between the cash flows required to service the old debt and the cash flows required to service the new debt of \$369,983. The issuance resulted in an economic gain of \$327,887.

All general obligation bonds will be paid from property taxes in the debt service fund. Obligations related to employee compensation will be paid from the fund benefitting from their service. Compensated absences have been paid from the general and the food service funds in prior years.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2017 are as follows:

	General Obligation Bonds					
Fiscal Year Ending June 30,	Principal	Interest				
2018	\$ 1,150,000	\$ 452,371				
2019	1,210,000	402,252				
2020	1,265,000	353,971				
2021	1,305,000	306,218				
2022	1,350,000	255,937				
2023 - 2027	5,960,000	471,634				
	\$ 12,240,000	\$ 2,242,383				

Note 13 – Capitalized Leases

Certificate of Participation

During fiscal year 2010, the School District entered into a lease-purchase agreement for construction of an addition to the elementary school. The School District is leasing the project site from Stifel, Nicolaus & Company, Inc. Stifel, Nicolaus & Company, Inc. assigned The Bank of New York Mellon Trust Company N.A. as Trustee, transferring rights, title and interest in the project to the Trustee. The School District is acting as an agent for the lessor, and is constructing the facilities from the proceeds provided by the lessor. As part of the agreement, The Bank of New York Mellon Trust Company N.A. deposited \$3,500,000, with a fiscal agent for the construction project. The Bank of New York Mellon Trust Company N.A. has sold certificates of participation in the building lease. The School District will make annual lease payments to The Bank of New York Mellon Trust Company N.A. Interest rates range between 3.1 percent and 5.0 percent.

The Certificates maturing on and after January 15, 2018 are subject to redemption prior to maturity, at any time on or after July 15, 2017, in whole upon the exercise by the School District of its option to purchase the project facilities pursuant to the lease or in whole or in part in connection with the refunding of Certificates, at the redemption price of 100 percent of the principal amount redeemed, plus interest accrued to the redemption date.

All capital assets acquired by the lease have been capitalized as buildings and improvements in the amount of \$3,500,000 with accumulated depreciation of \$630,000. Principal payments in fiscal year 2017 totaled \$240,000. Payments will be made on the lease from the county sales tax fund.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Bus Lease

In fiscal year 2016, the School District entered into a lease for four buses. These leases meet the criteria of a capital lease as they transfer benefits and risks of ownership to the lessee.

The assets being acquired have been capitalized in the governmental activities in the amount of \$322,132, which is the present value of the minimum lease payments at the inception of each lease. They are all classified as vehicles with accumulated depreciation of \$48,321. Payments will be made on the lease from the county sales tax fund.

The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2017.

	(Certificate	
		of	
Year	Pa	articipation	 Buses
2018	\$	339,774	\$ 83,480
2019		343,899	83,480
2020		342,371	0
2021		340,409	0
2022		342,869	0
2023 - 2024		679,400	 0
Total Minimum Lease Payments		2,388,722	166,960
Less Amount Representing Interest		378,722	 5,941
Present Value of Minimum			
Lease Payments	\$	2,010,000	\$ 161,019

Note 14 – Jointly Governed Organizations

Northeast Ohio Network for Educational Technology (NEOnet)

The Northeast Ohio Network for Educational Technology (NEOnet) is a jointly governed organization among 41 school districts (public and private). The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. Each of these schools supports NEOnet based upon a per pupil charge dependent upon the software package utilized. The NEOnet assembly consists of a superintendent or designated representative from each participating school district and a representative from the fiscal agent. NEOnet is governed by a Board of Directors chosen from the general membership of the NEOnet Assembly. The Board of Directors consists of a representative from the fiscal agent, the chairman of each of the operating committees, and at least three at-large Assembly members. During the fiscal year 2017 the School District contributed \$71,754 to NEOnet. Financial information can be obtained by contacting the Fiscal Officer at 700 Graham Road, Cuyahoga Falls, OH 44221.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Ohio Schools' Council (OSC)

The Ohio Schools' Council (OSC) is a jointly governed organization comprised of 72 school districts. The jointly governed organization was formed for the purpose of promoting cooperative agreements and activities among its members in dealing with problems of mutual concern such as a media center, gas consumption, food service, and insurance. Each member provides operating resources to OSC via a monthly administrative fee and an actual usage charge, except for insurance.

The OSC assembly consists of a superintendent or designated representative from each participating school district and the fiscal agent. OSC is governed by a Board of Directors chosen from the general membership. The degree of control exercised by any participating school district is limited to its representation on the Board. Financial information can be obtained by contacting the Treasurer at the Ohio Schools' Council at 6393 Oaktree Boulevard Suite 377, Independence, Ohio 44131.

Medina County Career Center

The Medina County Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board, consisting of one representative from each participating school district's elected board, which possesses its own budgeting and taxing authority. Accordingly, the Medina County Career Center is not part of the District and its operations are not included as part of the reporting entity. The Career Center provides vocational programs for District high school students. Financial information can be obtained by contacting the Treasurer at the Medina County Career Center, 1101 West Liberty Street, Medina, Ohio 44256.

Note 15 – Risk Management

Property and Liability

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2017 the School District participated in the Ohio Schools Council's property and fleet insurance program that contracted with the Schools of Ohio Risk Sharing Authority (SORSA) for all coverage.

Settled claims have not exceeded this commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year.

Workers' Compensation

The School District participates in the Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Dental Insurance

The School District operates and manages employee dental benefits on a self-insured basis. The School District pays monthly contributions that are placed in a common fund from which eligible claims are paid for employees and their covered dependents.

The claims liability was estimated to be \$16,665 at June 30, 2017. This is based on the requirements of GASB Statement No. 30 which requires a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses.

The changes in the fund's claim liability amount in fiscal years 2016 and 2017 were:

	В	alance		Current		Claim	E	Balance
]	July 1	Ye	ar Claims	P	ayments	J	une 30
2016	\$	8,138	\$	142,957	\$	146,331	\$	4,764
2017	\$	4,764	\$	167,937	\$	156,036	\$	16,665

Health and Prescription Insurance

The School District has contracted to provide medical/surgical and prescription benefits for its employees and their covered dependents. The School District provides vision insurance benefits and also provides life insurance and accidental death and dismemberment insurance to employees.

Note 16 - Risk Sharing Pool

The School District participates in the Schools of Ohio Risk Sharing Authority (SORSA), a risk sharing pool with over 113 members. SORSA is a 100 percent member-owned, non-profit insurance risk pool owned and governed by the school district members. SORSA is governed by a Board of Directors comprised of representatives of school districts that participate in the program.

SORSA has agreements with several separate organizations whereby each provides certain administrative, executive, accounting, marketing, underwriting, claim settlement, legal council and other services to SORSA and its members. Pursuant to participation agreements with SORSA, each member school district agrees to pay all funding rates associated with the coverage elected. This coverage includes comprehensive general liability, property insurance and automobile liability insurance. To obtain a copy of the SORSA financial statements, write the SORSA Executive Director at 8050 North High Street, Suite 160, Columbus, Ohio 43235-6483.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

Note 17 – Contingencies

Grants

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2017, if applicable, cannot be determined at this time.

Litigation

The School District is susceptible to claims and lawsuits, however it is the opinion of the School District and its council that there are no significant liabilities anticipated in excess of insurance coverage.

School Foundation

School district foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2017 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2017 financial statements is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of, the School District.

Note 18 - Set-Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year end set-aside amount for capital acquisition. Disclosure of this information is required by State statute.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2017

	Capital Improvement Reserve			
Set Aside Reserve Balance June 30, 2016	\$	0		
Current Year Set-Aside Requirement Current Year Qualifying Expenditures		393,110 (627,890)		
Total	\$	(234,780)		
Balance Carried Forward to Fiscal Year 2018	\$	0		
Set Aside Reserve Balance June 30, 2017	\$	0		

Although the School District had current year qualifying expenditures during the fiscal year that reduced the set-aside amount to below zero, this amount may not be used to reduce the set aside requirement for future years. The negative balance is, therefore, not presented as being carried forward to future years.

Note 19 – Commitments

Encumbrances

The School District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed or assigned classifications of fund balance. At year end, the School District's commitments for encumbrances in the governmental funds were as follows:

Fund	 Amount		
General Fund Nonmajor Governmental Funds	\$ 433,831 55,658		
	\$ 489,489

⁽¹⁾ Information prior to 2014 is not available.

The amounts presented for each fiscal year were determined as of the measurement date, which is the prior fiscal year.

Notes:

School Employees Retirement System (SERS)

Changes of Benefit Terms: None.

Changes of Assumptions: Amounts reported in 2017 reflect an adjustment of the rates of withdrawal, retirement and disability to more closely reflect actual experience and the expectation of retired life mortality was based on RP-2014 Blue Collar Mortality Tables and RP-2000 Disabled Mortality Table. The following reductions were also made to the actuarial assumptions:

- Discount rate from 7.75% to 7.50%
- Assumed rate of inflation from 3.25% to 3.00%
- Payroll growth assumption from 4.00% to 3.50%
- Assumed real wage growth from 0.75% to 0.50%

Combining Statements for
Nonmajor Governmental Funds
and
Individual Fund Schedules for
Governmental Funds

Buckeye Local School District

Combining Statements – Nonmajor Funds

Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific sources (other than amounts relating to expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. With the implementation of GASB No. 54, the public school support, uniform school supplies and creative tax abatement special revenue funds and certain special cost centers of the special trust special revenue fund (referred to as the miscellaneous activities fund) have been classified with the general fund for GAAP reporting purposes. However, these funds have their own legally adopted budgets. As a result, an Individual Fund Schedules of Revenues, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Basis) and Actual have been presented for these funds. The title of each special revenue fund is descriptive of the activities accounted for therein. The special revenue funds are:

Local Grants Fund - This fund accounts for funds received to promote community involvement and volunteer activities between the school and community.

Underground Storage Tank Fund - This fund accounts for the financial responsibility rules of the State Fire Marshall to cover insurance deductible.

Athletics Fund - This fund accounts for gate receipts and other revenues from athletic events and costs of the School District's Athletic Program.

Data Communications Fund – This fund accounts for State monies that provide for equipment and other costs associated with the development of data communication systems.

Agriculture Education 5th Quarter Fund – This fund accounts for a state-funded grant targeting year-round instruction. It was developed to assist local schools and career centers provide supplemental resources to ensure delivery of summer instruction and to develop student entrepreneurial activity and work experience through organized activities and supervised agricultural experience (SAE). No budget is being presented for this fund.

School Buildings Incentives Fund – This fund accounts for monies awarded to school buildings of a school district with great improvement in proficiency testing by the State. This money is to be used for building teams for continuous improvement.

Title VI-B Fund - This fund accounts for Federal monies to assist schools in identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels.

Title I Fund - This fund accounts for Federal revenues to implement a variety of programs intended to provide supplemental instruction for children of low income families identified as educationally disadvantaged.

Buckeye Local School District

Combining Statements – Nonmajor Funds

Nonmajor Special Revenue Funds (continued)

Preschool Handicapped Fund - This fund accounts for Federal monies that provide for the cost of developing a public preschool.

Improving Teacher Quality Fund – This fund accounts for Federal monies used for reduction of class size in grades kindergarten through third.

Food Service Fund – This fund accounts for financial activity related to the food service operations of the School District.

Special Trust Fund – This fund accounts for monies held by the School District in a trustee capacity for individuals and/or private organizations that benefit the student body or the local community.

Miscellaneous Activities Fund – This group of special cost centers accounts for financial activities related to preschool, summer programs, book fairs and other miscellaneous activities.

Uniform School Supplies Fund – This fund accounts for financial activity related to the purchase and sale of school supplies as adopted by the Board of Education for use within the School District.

Public School Support Fund – This fund accounts for school site sales revenue and expenditures for field trips, assemblies and any other activity costs approved by board resolutions.

Creative Tax Abatement Fund – This group of special cost centers accounts for monies received from local businesses in lieu of taxes.

Buckeye Local School District

Combining Statements – Nonmajor Funds

Nonmajor Capital Projects Funds

Capital Projects Funds are used to account for financial resources used for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary funds.

Permanent Improvement Fund - This fund accounts for all transactions related to the acquiring, constructing, or improving of such permanent improvements as are authorized by Chapter 5705, Revised Code.

County Sales Tax Fund – This fund accounts for county sales tax charged in Medina County, collected by State of Ohio (1/2 %) distributed back to Medina County which distributes back to the Medina County school districts on a per pupil basis. This money can only per used for capital projects for the individual districts.

Buckeye Local School District

Internal Service and Fiduciary Funds

Internal Service Fund

Self Insurance Fund- This fund accounts for the self-insurance program which provides dental benefits to employees.

Fiduciary Funds

Scholarship Private Purpose Trust Fund - This fund accounts for donations to be used for scholarships. The income may be expended, but the principal must remain intact.

Agency Fund - This fund reflects resources that belong to the student bodies of various schools, accounting for sales and other revenue generating activities.

Statistical Section

This part of the Buckeye Local School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the School District's overall financial health.

<u>Contents</u>	Page(s)
Financial Trends These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.	S-2 - S-11
Revenue Capacity These schedules contain information to help the reader assess the School District's most significant local revenue source, the property tax.	S-12 - S-17
Debt Capacity These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	S-18 - S-22
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place.	S-23 - S-24
Operating Information These schedules contain service data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	S-25 - S-30

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

NOTE:

With the implementation of GASB No. 54 for fiscal year 2011, there have been minor classifications of funds (example special revenue funds consolidated with general fund for GAAP purposes). Prior year year amounts have not been adjusted to reflect this change.

With the implementation of GASB No. 68 in fiscal year 2015, the calculation of pension expense has changed, however, government-wide expenses for 2014 and prior fiscal years were not restated to reflect this change.

(1) Real estate value is assessed at 35% of actual value.

⁽²⁾ Public utility personal is assessed at 88% of actual value and general business tangible personal property was assessed in previous years at 25% for machinery and equipment and 23% for inventories. General business tangible personal property tax was phased out beginning 2006. Both types of general business tangible personal property were assessed at 12.5% for 2007, 6.25% for 2008 and zero for 2009 and thereafter.

⁽¹⁾ State reimbursement of rollback and homestead exemptions are included.

Note: The Medina County Treasurer collects property taxes on a calendar-year basis, therefore, the above data has been presented on a calendar-year basis. The County does not identify delinquent collections by the year for which the tax was levied. As a result, the percent of total collections to tax levy could exceed 100% in any given year. The School District needs more time to work with the County to obtain this information.

- (1) Ohio Bond Law sets a limit of 9% for voted debt and 1/10 of 1% for unvoted debt. All School District debt subject to the limitation is voted.
- (2) Beginning in fiscal year 2006, HB 350 changed the assessed valuation utilized in the legal debt margin calculation to exclude tangible personal property as well as railroad and telephone tangible property.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS:

- (A) OAKS did not assign pass-through numbers for fiscal year 2017.
- (B) This schedule includes the federal award activity of the Buckeye Local School District under programs of the federal government for the fiscal year ended June 30, 2017 and is prepared in accordance with the cash basis of accounting. The information on this schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Buckeye Local School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Buckeye Local School District.
- (C) The Food Donation Program is a non-cash, in kind, federal grant. Commodities are reported at the entitlement value.
- (D) Commingled with state and local revenue from sales of lunches; assumed expenditures were made on a first-in, first-out basis.
- (E) CFR 200.414 allows a non-federal entity that has never received a negotiated indirect cost rate to charge a de minimis rate of 10% of modified total direct costs to indirect costs. The District has not elected to use the 10% de minimus indirect cost rate.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Buckeye Local School District Medina County 3044 Columbia Road Medina, Ohio 44256

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Buckeye Local School District, Medina County, Ohio, as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Buckeye Local School District's basic financial statements and have issued our report thereon dated December 15, 2017.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Buckeye Local School District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the Buckeye Local School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Buckeye Local School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Board of Education Buckeye Local School District

Compliance and Other Matters

As part of reasonably assuring whether the Buckeye Local School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Buckeye Local School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Buckeye Local School District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Independent Auditor's Report on Compliance With Requirements Applicable to the Major Federal Program and on Internal Control Over Compliance and Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Buckeye Local School District Medina County 3044 Columbia Road Medina, Ohio 44256

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited the Buckeye Local School District's compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Buckeye Local School District's major federal program for the fiscal year ended June 30, 2017. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the Buckeye Local School District's major federal program.

Management's Responsibility

The Buckeye Local School District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the Buckeye Local School District's compliance for the Buckeye Local School District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the Buckeye Local School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the Buckeye Local School District's major program. However, our audit does not provide a legal determination of the Buckeye Local School District's compliance.

Opinion on the Major Federal Program

In our opinion, the Buckeye Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the fiscal year ended June 30, 2017.

Board of Education Buckeye Local School District

Report on Internal Control Over Compliance

The Buckeye Local School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the Buckeye Local School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the Buckeye Local School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Buckeye Local School District as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Buckeye Local School District's basic financial statements. We issued our unmodified report thereon dated December 15, 2017. We conducted our audit to opine on the Buckeye Local School District's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.
