Independent Auditors' Reports on Internal Controls and Compliance and Schedule of Expenditures of Federal Awards

June 30, 2018

Board of Education Beavercreek City School District 3040 Kemp Road Beavercreek, OH 45431

We have reviewed the *Independent Auditor's Report* of Beavercreek City School District, Greene County, prepared by Clark, Schaefer, Hackett & Co., for the audit period July 1, 2017 through June 30, 2018. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Beavercreek City School District is responsible for compliance with these laws and regulations.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Education Beavercreek City School District 3040 Kemp Road Beavercreek, Ohio 45431

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Beavercreek City School District (the "District"), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 14, 2018, wherein we noted the District adopted the provisions of GASB Statement No. 75 for the year ended June 30, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Board of Education Beavercreek City School District 3040 Kemp Road Beavercreek, Ohio 45431

Report on Compliance for Each Major Federal Program

We have audited Beavercreek City School District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2018. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal* Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated December 14, 2018, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves. and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

BEAVERCREEK CITY SCHOOL DISTRICT GREENE COUNTY

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of Beavercreek City School District (the District) under programs of the federal government for the year ended June 30, 2018. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE D - FOOD DISTRIBUTION PROGRAM

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE E - MATCHING REQUIREMENTS

Certain Federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

Section I – Summary of Auditors' Results

Financial Statements

	Type of auditors' report issued: Internal control over financial reporting:	Unmodified
	 Material weakness(es) identified? Significant deficiency(ies) identified not 	None noted

December 19, 2018

To the Citizens and Board of Education of the Beavercreek City School District:

We are pleased to present the 17th annual Comprehensive Annual Financial Report (CAFR) of the Beavercreek City School District, (the "District"). The information reported is for the fiscal year ended June 30, 2018. The report contains financial statements, supplemental statements and other financial and statistical information to provide complete and full disclosure of all material financial aspects of the District for the 2017-2018 fiscal year.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements. Responsibility for the accuracy, completeness and fairness of this report rests with the District and more specifically, the Office of the Treasurer. To the best of our knowledge and belief, this report and the enclosed data are accurate in all material aspects. Our report is designed to present fairly the financial position of the various funds of the District.

This report includes an unmodified ("clean") audit report regarding the District's financial statements. The audit was conducted by Clark Schaefer Hackett, under contract by the Auditor of State's Office and the District. The Independent Auditors' Report is located at the front of the financial section of this report.

This report is prepared in conformance with accounting principles generally accepted in the United States of America, (GAAP), as set forth by the Governmental Accounting Standards Board (GASB) and other recognized authoritative services, and is representative of the District's continuing commitment to provide meaningful financial information to the citizens of the District.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative, introduction, overview and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

District Profile

The District is located in southwestern Ohio in the heart of Greene County and is approximately 52 square miles. The Beavercreek City School District is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a city district as defined by Section 3311.02 of the Ohio Revised Code. The District operates under a locally elected five-member board and is responsible for the provision of public education to residents of the District.

Within Greene County, the Wright Patterson Air Force Base is the largest employer and the District is the fourth largest employer. The community's population in 2017 (latest estimate available) was 54,230 which encompass the City of Beavercreek and Beavercreek Township and small portions of the City of Fairborn, the City of Kettering, the City of Riverside, and Sugarcreek Township. The population has grown by 5.3% since 2009. The socioeconomic profile of district residents, as measured by income levels and housing values, is substantially above average for the State.

The Beavercreek City School District provided services to 7,784 students during fiscal year 2018. As such, the District provides a full range of educational services including regular, special and vocational instruction for Pre-K through 12th grades, student guidance, extracurricular activities, food service, educational media, student transportation and care and upkeep of buildings. Approximately every two years, the District engages Planning Advocates, Inc. to analyze projected student enrollment for the ensuing decade. Below are the results of the study completed in March 2018 (latest information available). Such studies project student enrollment (an overall student count) as opposed to the average daily membership (ADM) used elsewhere throughout this report.

Projected Student Enrollment Next Ten School Years									
School Year Ending									
2018	2019	2020	2021	2022	2023	2024	2025	2026	2027
8,003	8,078	8,079	8,087	8,156	8,204	8,191	8,214	8,464	8,523

With student enrollment projected to continue at a steady increase over the next 10 years, adequate school facilities continue to be a significant focal point for the District's administrative team. According to enrollment projections prepared by Planning Advocates the district will gain 600 - 1,200 new students over the next decade. To handle expected growth, the District is currently working to update their Master Facilities Plan.

One example of this growth is the Beavercreek Preschool Center which was constructed and put into use for the 2015-16 school year. It has already reached capacity and preschool classrooms are again being used at Parkwood Elementary to alleviate overcrowding at the Preschool Center.

The District realizes the need to continually invest in its school facilities to ensure adequate and up-todate learning environments are available to students for the foreseeable future. With the completion of the master facilities planning process the District will have a plan to deal with the growth while also providing the educational experiences and environments their citizens expect.

School Building	Grade <u>Levels</u>	Year Constructed	Current ADM	Estimated <u>Capacity</u>
Beavercreek High	9-12	1954	1,736	1,980

Trebein Elementary	K-5	2013	758	700
Beavercreek Preschool *	РК	2015	248	144

The table below presents some pertinent information regarding the District's school facilities.

* - ADM based on 1/2 day pre-K student count

Local Economy

The City of Beavercreek is the largest City within Greene County and has accessibility to major highways including I-70, I-75, and I-675. It is also in close proximity to major metropolitan areas such as Dayton, Cincinnati and Columbus. The local economy consists mainly of research-based industries, some manufacturing companies, an extensive retail base, and Wright-Patterson Air Force Base. The tax base is comprised of approximately 70% residential property. Over the past decade, the District's assessed property values have increased from \$1.75 billion in 2009 to over \$1.84 billion in 2018.

Long-term Financial Planning

The District recently updated its Strategic Plan. The process began in January of 2018 and included working with community leaders, parents, staff, and students to develop a plan to provide educational opportunities. Key areas of the plan include student success, financial stability, operational improvements, and clear communication over the next five years.

With this student-focused strategic plan, the Beavercreek School District can improve, expand and enhance current efforts, while continuing to incorporate new components that keep the District at a premier level for their community.

In October 2018, the District completed and adopted its most recent five-year financial forecast as required by the Ohio Department of Education. Prepared for the general operating fund only, this cash basis document forecasts cash receipts and cash disbursements for the next five fiscal years, as well as the ending balance available to carry over to the next fiscal year. This document is important to provide information to decision makers as it shows if available resources are adequate to meet anticipated spending levels.

As with any forecast, the further out amounts are forecasted, the less reliable the projections become. This is particularly true about unrestricted State Foundation funding which is subject to change with each State biennium budget. The current fiscal budget for the State of Ohio runs through June 30, 2019. In addition, the State Foundation is very complex and based on numerous variables which are difficult, at best, to project into the future.

Based on information available at the date the forecast was prepared, total receipts are anticipated to increase by less than 2% over the five-year forecasted period if current district levies continue to renew. Property tax receipts are anticipated to remain relatively flat for the period with the only growth expected from new construction property tax collection for the substitute levy which passed in November 2017. Unrestricted State Foundation funding is projected to increase at 11% over the same period. These two sources of receipts accounted for approximately 86% of the total receipts received by the General Fund in fiscal year 2018.

Expenditures for wages and benefits of personnel were approximately 82% of the total General Fund expenditures for fiscal year 2018. As such, accurately predicting and managing personnel related expenditures are particularly important to provide a reliable forecast. Over the five-year period covered by the forecast, the District anticipates the personnel services expenditures to increase nearly 21% and employee related benefits to increase by approximately 36%. Overall, total operating disbursements of the General Fund are anticipated to increase approximately 5% per year over the five year forecasted period.

Relevant Financial Policies

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records for general governmental operations are maintained on a cash basis system of accounting as prescribed by the Auditor of State. Cash basis of accounting differs from GAAP as promulgated by the Governmental Accounting Standards Board (GASB). GAAP, as more fully described in the notes to the financial statements, provides for a modified accrual basis of accounting for the general fund, special revenue funds, debt service fund, and capital projects fund, and for full accrual basis of accounting for the agency funds.

Internal Controls

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that those objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

Single Audit Act

As a recipient of federal and state financial assistance, the District is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management of the District.

Budgetary Controls

The District maintains its accounts, appropriations and other financial records in accordance with the procedures established and prescribed by the Ohio Auditor of State. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriation resolution approved by the Board of Education. Activities of all funds are included in the annual appropriation resolution. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is at the fund level for all funds of the District. The District also maintains an encumbrance accounting system as a technique of accomplishing budgetary control.

Major Initiatives

The most-recent district report card for Beavercreek City Schools released by the Ohio Department of Education showcases continued excellence and areas for improvement. Beavercreek City Schools received a C for achievement, with a performance index of 82.6 and 64.0% of indicators met. While this is a clear area of needed improvement, it also reflects the significant increase in expected performance level. The district is pleased that nearly all tested areas showed increases in the percentage of students that passed, an indication of improvement. An area of success includes the Progress measure, which looks closely at the growth that all students are making based on their past performances. Beavercreek City Schools earned an A in this area, and received an A in the subcategories of Gifted and the lowest 20% in achievement. Students with Disabilities received a B. Beavercreek City Schools is particularly proud of being one of only 38 districts in the state to meet the Gifted Indicator on the District Report Card, demonstrating a clear pattern of achievement with this subgroup.

Beavercreek City Schools is now a fully 1:1 district with all K-8 students utilizing iPads while 9-12 students incorporate Chromebooks into daily learning. Devices are used in daily instruction, practicing new concepts, intervention and enrichment activities, research, textbook programs, and various vendor products designed to maximize student learning.

BCS has partnered with the Greene County Career Center to incorporate STEM learning at the middle school level with the addition of Project Lead The Way. BCS continues to offer 4 trimester courses of Project Lead The Way courses at the middle school level, and has begun the expansion of these programs at the high school level.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Beavercreek City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2017. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report will conform to the high standards required by the Certificate of Achievement program.

The District also received the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2017. This award certifies that a Comprehensive Annual Financial Report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the ASBO. This award is granted only after an extensive review of the report by an expert panel of certified public accountants and practicing school business officials.

The ASBO certificate is also valid for a period of one year only. The District believes our current report meets ASBO requirements.

The preparation and publication of this 17th annual Comprehensive Annual Financial Report would not have been possible without the support of the entire treasurer's office staff, administrative team, and the Board of Education's commitment to excellence in financial accountability.

Respectfully submitted,

- 00

INDEPENDENT AUDITORS' REPORT

Board of Education Beavercreek City School District 3040 Kemp Road Beavercreek, Ohio 45431

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Beavercreek City School District, Ohio (the "District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Beavercreek City School District, Ohio, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

During fiscal year ended June 30, 2018, the District adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefit Plans Other than Pensions*. As a result of the implementation of GASB Statement No. 75, the District restated net position at July 1, 2017 for the change in accounting principle (see Note 3). Our auditors' opinion was not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules of proportionate share of net pension and OPEB liabilities and pension and OPEB contributions as listed in the tables of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2018 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

Clark, Schaefer, Hackett & Co.

Springfield, Ohio December 14, 2018

THIS PAGE IS INTENTIONALLY LEFT BLANK

Our discussion and analysis of Beavercreek City School District's, (the District), financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

- At June 30, 2018, the District's liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources by \$62,717,793. This reported deficit can be attributed to recognition of the District's proportionate share of net pension and OPEB liabilities.
- The District's net position increased by \$33,816,616, the majority the increase can be attributed to recognizing negative pension and OPEB expense for the current fiscal year.
- As of the close of the current fiscal year, the combined governmental fund balances of the District were \$32,040,051, an 14.1% decrease over the total reported one year prior.
- At the end of the current fiscal year, the unassigned fund balance for the general fund, the District's operating fund, was \$10,084,015 or 11.5% of total general fund expenditures.
- The District's total general obligation debt, including accreted interest and unamortized premiums, decreased by \$4,579,000 or 4.7%.

Using this Comprehensive Annual Financial Report

This comprehensive annual financial report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a whole, and then proceed to provide an increasingly detailed look at specific financial activities.

Reporting the District as a Whole

The Statement of Net Position and Statement of Activities

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a manner that helps to answer this question. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting prescribed for governmental entities. All of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid. The financial statements of the District's governmental activities begin on page 17.

These two statements report the District's net position and changes in that position providing the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base, current property tax laws, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the District.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 20 and provide detailed information about the most significant funds – not the District as a whole. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's different types of funds, governmental, proprietary and fiduciary, use different accounting approaches as further described in the notes to the financial statements.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or less financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

Proprietary Fund

The District has two proprietary funds which are internal service funds established to accumulate monies from other funds to pay claims and other expenses associated the District's self-insured medical benefits and workers' compensation coverage. These funds are reported using the accrual basis of accounting, just as the government wide statements, and focus on the determination of operating income, the change in net position, financial position and cash flows (starting on page 25). For government wide financial statements, the assets and liabilities are included within governmental activities and the net revenue or expense of the internal service funds for the year is allocated among the participating functions within the governmental activities.

Fiduciary Funds

The District is the trustee, or fiduciary, for its scholarship programs as well as for various student managed activities. All of the District's fiduciary activities are reported as either private purpose trust fund or agency fund types. Fiduciary fund statements start on page 28. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its' operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements start on page 31 of this report.

The District as a Whole

The statement of net position provides the perspective of the District as a whole. A comparative analysis of fiscal year 2018 to 2017 follows:

		2018	Restated 2017
Assets:	-		
Current and Other Assets	\$	112,707,165	114,732,087
Capital Assets		88,845,924	94,429,314
Total Assets		201,553,089	209,161,401
Deferred Outflows of Resources:			
Deferred Charge on Refundings		9,166,229	9,679,361
Pension and OPEB		41,871,583	32,888,866
Total Deferred Outflows of Resources		51,037,812	42,568,227
Liabilities:			
Current Liabilities		11,288,827	10,393,095
Noncurrent Liabilities:			
Due Within One Year		6,423,020	5,530,829
Due in More than One Year:			
Net Pension Liability		109,576,516	144,199,515
Net OPEB Liability		25,247,728	30,167,659

Unrestricted		(77,738,584)	(115,414,983)
Total Net Position (Deficit)	\$	(62,717,793)	(96,534,409)

TABLE 1NET POSITION JUNE 30

The net pension liability (NPL) is the largest single liability reported by the District at June 30, 2018 and is reported pursuant to GASB 68, "Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement 27". For fiscal year 2018, the District adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions", which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the

District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability or OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 required the net pension liability and the net OPEB liability to equal the District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement systems. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event the contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

As a result of implementing GASB 75, the District is reporting a net OPEB liability and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2017, from (\$66,591,930) to (\$96,534,409).

As noted earlier, increases or decreases in net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$62.7 million at the close of the most recent fiscal year compared with the \$96.5 million restated amount reported at the end of the prior year.

From July 1, 2017 to June 30, 2018, the total assets of the District decreased by 3.6%, or \$7.6 million. Capital assets decreased by \$5.6 million (5.9%) as current year depreciation expense recognized was significantly more than the capital asset additions recorded for the year. At year end, capital assets represented 44.1% of total assets. Current and other asset accounts decreased by \$2.0 million during the year or 1.8%, due exclusively to the decrease in the intergovernmental receivable amount reported at June 30, 2018 compared to that reported one year prior. In the prior year, the District was awarded a \$3.0 million State educational grant, a significant portion of which was utilized during the current fiscal year, thereby significantly reducing the remaining funding available under this grant program.

Total liabilities reported at June 30, 2018 decreased by \$42.8 million (14.9%) from the restated amounts at the beginning of the year. The decrease in the net pension and OPEB liabilities (described above) was \$34.6 million and \$4.9 million, respectively, during the year and combined represents 55.4% of the total liabilities reported by the District compared to 60.9% reported at June 30, 2017. The District's proportionate share of the net pension liability and net OPEB liabilities will fluctuate significantly from year to year primarily based on the return on investments realized by the pension/OPEB plans during the measurement year. Remaining components of total liabilities decreased by \$3.2 million during the year due to the scheduled debt service payments on long-term debt obligations, which was partially offset by increases in accrued wages and benefits and claims payable reported at fiscal year-end.

The changes reported for total deferred inflows and outflows of resources directly relate to the District recording the components of the net pension and OPEB liabilities due to change in proportionate share of the net pension liability and net OPEB liability for fiscal year 2018 compared to the prior year as well as projected earnings and experience costs varying from actual activity reported by the pension/OPEB plans.

Net position at June 30, 2018 was \$33.8 million more than the restated amount at the beginning of the year. Net investment in capital assets decreased as depreciation expense for the year was more than the reduction in capital related debt obligations. Restricted net position decreased as significant resources recognized in the prior year, for the above noted State educational grant, were utilized during the current fiscal year. The unrestricted net position (deficit) increased during the year by 32.6%. However, if the components of recording the net pension and OPEB liabilities are removed from the Statement of Net Positon, the District's ending net position would be a positive \$36.6 million instead of the reported \$62.7 million deficit. We feel this is important to mention as the management of the District has no control over the management of the State-wide pension/OPEB plans or the benefits offered; both of which control the net pension and OPEB liabilities that significantly impacts the District's financial statements.

A comparative analysis of change in net position for fiscal year 2018 and 2017 follows:

			Restated
	_	2018	2017
Revenues:			
Program Revenues:

Net Position (Deficit), Beginning of Year		(96,534,409)	N/A
Net Position (Deficit), End of Year	\$	(62,717,793)	(96,534,409)

The information necessary to restate the 2017 beginning balances and the 2017 OPEB expense amounts for the effects of the initial implementation of GASB 75 is not available. Therefore, 2017 functional expenses still include OPEB expense equal to the contractually required contributions to the plans (GASB 27), which was \$225,180. Under GASB 75, OPEB expense represents additional amounts earned, adjusted by deferred inflows/outflows or resources. The contractually required contribution is no longer a component of OPEB expense. Under GASB 75, the 2018 statements report negative OPEB expense of \$3.4 million. Consequently, in order to compare 2018 total program expense to 2017, the following adjustments are needed.

Total 2018 program expenses under GASB 75	\$ 68,586,054
Negative OPEB expense under GASB 75	3,431,978
2018 contractually required contribution	286,223
Adjusted 2018 program expenses	72,304,255
Total 2017 program expenses under GASB 45	109,663,385
Decreae in program expenses not related to OPEB	\$ (37,359,130)

Governmental Activities

Net position of the District's governmental activities increased during fiscal year 2018 by \$33.8 million; unrestricted net position (deficit) increased by \$37.7 million during that same period. Total governmental expenses of \$68.6 million exceeded program revenues of \$11.3 million, leaving the remaining \$57.3 million to be covered by general revenues. Program revenues supported 16.5% of the total governmental expenses. The primary sources of revenue for governmental activities are derived from property taxes and unrestricted grants and entitlements which are reported as general revenues. These two revenue sources represent 88.3% of total governmental revenue.

The property tax laws in Ohio create the need to periodically seek voter approval for additional operating funds. In general, tax revenues generated from a levy do not increase as a result of inflation. An operating levy is approved for a fixed millage rate, but the rate is reduced for inflation with the effect of providing the District the same amount of tax dollars as originally approved. Therefore, school districts, such as ours, that are dependent upon property taxes as a primary source of revenue must periodically return to the ballot and ask voters for additional resources to maintain current programs. Since the District must rely heavily on voter approval of operating tax issues, management of the resources is of paramount concern to District administration and the voting public. The District utilizes a five-year cash financial forecast to estimate revenues and control expenditures to assure tax levy revenues can maintain operations for a significant period of time.

Operating grants and contributions revenues decreased by \$1.3 million for fiscal year 2018 compared with the prior year due to recognizing the resources associated with a specific State educational grant in the prior fiscal year but utilizing those during the current fiscal year. Charges for services decreased by 4.3% as the District received less tuition from other educational units for services provided to nonresident students during the current fiscal year compared with the prior. Property tax revenue reported for fiscal year 2018 decreased by 6.1% over the prior year due to the significant increase in amounts available for advance reported in fiscal year 2017, compared to other years.

The expenses reported for fiscal year 2018 are \$41.1 million less than those reported for the prior year due to negative expense related to the pension and OPEB plans. For fiscal year 2018, the negative expenses recognized was \$30.9 million and \$3.4 million for pension and OPEB plans, respectively. As noted in the table above, the implementation of GASB 75 accounted for \$3.7 million of the reduction in expenses during the year. Negative pension expense plus deferral of current year pension contributions for fiscal year 2018 account for \$38.4 million of the reduction in expenses.

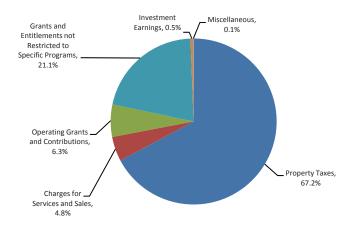

The largest expense of the District is for instructional programs. Instructional expenses total \$30.1 million or 43.9% of the total governmental expenses reported for fiscal year 2018 compared with 57.2% reported for the prior year. Outside of the calculation of pension and OPEB expense components, the District reported general increases related to personnel costs as additional services were provided through the State Straight A's grant during the year, a base salary increase for all employees of 2.0%, step increases increased wages by another 2.5%, and health insurance premiums increased 7.5% comparted with those of the prior year.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The table below reflects the cost of program services and the net cost of those services after taking into account the program revenues for the governmental activities. General revenues including tax revenue, investment earnings and unrestricted State entitlements must support the net cost of program services. Comparisons to 2017 are as follows:

TABLE 3 TOTAL AND COST OF PROGRAM SERVICES FOR THE FISCAL YEAR ENDED JUNE 30,

		2018		202	2017		
	-	Total Cost Net Cost		Total Cost	Net Cost		
		of Service	of Service	of Service	of Service		
Instruction	\$	30,114,070	(24,549,445)	62,768,200	(56,065,079)		
Support Services		29,259,842	(28,162,409)	37,838,206	(36,279,415)		
Operation of Non-Instructional Services		3,596,972	(74,844)	3,366,289	(36,827)		
Extracurricular Activities		2,293,731	(1,147,746)	2,217,741	(995 <i>,</i> 289)		
Interest and Issuance Costs		3,321,439	(3,321,439)	3,472,948	(3,472,948)		
Total Expenses	\$	68,586,054	(57,255,883)	109,663,384	(96,849,558)		

It is apparent from the information presented in Table 3 above, that funding the operation of the District remains heavily reliant on property tax revenues. During fiscal year 2018, property taxes accounted for 67.2% of total revenues for governmental activities. The reliance on general revenues to support governmental activities is indicated by the net services column reflecting the need for approximately \$57.3 million of support to finance the functions. In total, general revenues were needed to cover 83.5% of expenses for the governmental activities. Non-instructional services, primarily food service operations, was the only significant functional area which generated sufficient revenues to cover the majority of the functional expenses.

Revenue Sources	2018 Amount	<u>% of Total</u>
Property Taxes	\$ 68,781,488	67.2%
Charges for Services and Sales	4,857,735	4.8%

Investment Earnings	524,093	0.5%
Miscellaneous	119,093	0.1%
	<u>\$ 102,402,670</u>	<u>100%</u>

The District's Funds

Information about the District's governmental funds begins on page 20. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$103.4 million and expenditures of \$109.2 million. Overall fund balance of governmental funds decreased \$5.2 million over those at June 30, 2017.

The general fund is the primary operating fund of the District. The general fund balance decreased by \$3.6 million during the year compared with a \$2.8 million increase reported in the prior year. General fund revenues decreased by \$3.2 million over those of fiscal year 2017 due to the decrease in property taxes available for advance at the end of the current fiscal year which resulted in lower revenue amounts compared with the prior year. Expenditures of the fund increased by \$3.1 million over those reported in the prior year due to increased cost associated with personnel (wages and benefits) mentioned above. The ending unassigned fund balance of the general fund at June 30, 2018 (\$10.1 million) represents 11.5% of the total expenditures reported by the general fund for the year then ended. The decrease in unassigned fund balance within the general fund resulted for a larger amount of carryover balance being utilized to fund subsequent year appropriations than the amount utilized at the end of the prior fiscal year as well as the results from current year for the fund.

The District's other major fund, the debt service fund, reported a \$306,686 increase its fund balance during the fiscal year. This fund accumulates resources, predominately from property taxes, to repay general obligation debt of the District. Debt service payments during the year totaled \$8.1 million, while property tax related revenues amounted to \$8.3 million. It is anticipated that revenues will approximate the total debt service expenditures over the period the bonds remain outstanding.

General Fund Budget Information

During fiscal year 2018, the District modified the general fund's budget on a few occasions. Revenues, excluding other financing sources, were originally budgeted at \$83.3 million which was increased to \$86.2 million by year-end. Expenditures, excluding other financing uses, were initially budgeted at \$91.2 million but were decreased slightly to \$90.5 million to account for actual spending patterns realized during the fiscal year. Actual budgetary revenues were \$747,595 less than the budgeted revenues while actual budgetary expenditures ended \$3.5 million less than the final budgeted expenditures.

The ending budgetary fund balance of the general fund ended fiscal year 2018 at \$23.9 million, or nearly \$7.6 million more than the original budgeted balance of \$16.4 million. The higher actual budgetary fund balance resulted from lower expenditures than originally anticipated due management's effort to limit operating costs as well as the large, unanticipated return of advance from grant funds during the year. The ending budgetary basis fund balance is carried forward to subsequent year(s) and is available to fund appropriations adopted of those future periods.

The District utilizes the five-year forecast as the original document from which to form the operating budget. After updating of the forecast for changes in revenue and expenditure assumptions the operating budget begins at the school building and department level. Each building and department in the District receives an allocation based on a number of factors including estimated revenue, a historical analysis, projected current need, including enrollment and projected current resources. The building and department budgets are reviewed monthly to ensure management becomes aware of any significant variations during the year.

Capital Assets

At the end of the fiscal year 2018, the District had \$88.8 million invested in land, construction in progress, land improvements, buildings, building improvements, furniture, equipment and vehicles.

During the year, the District reported capital asset additions of \$1.7 million; including construction in progress related to stadium renovations, auxiliary services modular building purchases and various equipment and vehicle purchases. Depreciation expense on all capital assets was \$6.9 million for the fiscal year.

Additional information regarding capital assets can be found in Note 8 of this report.

Table 4 shows the fiscal year 2018 balances compared to fiscal year 2017.

Debt Administration

At June 30, 2018, the District had \$92.7 million in outstanding general obligation bonds, including \$2.3 million of accreted interest on capital appreciation bonds and \$10.4 million of unamortized bond premiums. During the fiscal year, the District paid \$4.5 million in principal on bonds and another \$5.4 million of principal is due to mature within one year.

Detailed information regarding long term debt obligations is included in Note 11 to the basic financial statements.

Contacting the District

This financial report is designed to provide our citizens, taxpayers, creditors and investors with a general overview of the District's financial position and to show the District's accountability for the funds it receives. Should you have any questions about this report or any other financial matter, contact the Treasurer's Office at Beavercreek City School District, 3040 Kemp Road, Beavercreek, Ohio 45431.

Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities June 30, 2018

Total Governmental Fund Balances	Ş	32,040,051
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not current financial resources and therefore are not reported in the funds.		88,845,924
Other long-term assets are not available to pay for current-period expenditures and therefore are reported as deferred inflows of resources in the funds.		
Taxes		232,524
Tuition and Fees		163,346
Intergovernmental Receivable		385,181
Certain items will not be recognized as expenditures for the current period and therefore are reported as deferred outflows of resources in the funds.		
Deferred Charge on Refunding		9,166,229
The net pension and OPEB liabilities are not due and payable in the current period; therefore, the liabilities and related deferred outflows/inflows are not reported in governmental funds. Deferred Outflows - Pension and OPEB Deferred Inflows - Pension and OPEB		41,871,583 (6,412,883)
Net Pension and OPEB Liabilities		(134,824,244)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.		
General Obligation Bonds Accreted Interest on Capital Appreciation Bonds Compensated Absences Unamortized Bond Premium Accrued Interest on Long-Term Debt		(80,045,311) (2,297,130) (4,603,857) (10,365,286) (281,643)
Internal service funds are used by management to accumulate sufficient resources to make premium payments for medical benefits and workers' compensation claims through payroll charges to the funds. The assets and liabilities of the internal service funds are included in the governmental activities in the statement of net position.		3,407,723

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities for the Fiscal Year Ended June 30, 2018

Net Change in Fund Balances - Total Governmental Funds	\$ (5,248,962)
Amounts reported for governmental activites in the statement of activities are different because:	
Governmental funds report capital outlays as expenditues. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeded capital outlay in the current period. Capital asset additions used in governmental activities	1 601 102
Depreciation expense	1,691,102 (6,855,081)
Net book value of capital assets disposed of during year	(419,411)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(1,000,745)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effects of premiums, discounts, deferred loss on refundings when debt is first issued, whereas these amounts are amortized in the statement of activities.	
Repayment of long-term bonds and capital leases	4,609,000
Current year amortization of bond premium	670,275
Current year amortization of deferred charge on refunding	(513,132)
Current year accretion of interest on capital appreciation bonds Bonds issued	(41,409) (540,000)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.	
Accrued interest payable	11,422
Compensated absences	(593,363)
Contractually required pension and OPEB plan contributions are reported as	
expenditures in the governmental funds, however, the statement of activities reports these amounts as deferred outflows.	7,754,164
Except for amounts reported as deferred outflows/inflows, changes in the net pension and OPEB liabilities are reported as negative pension and OPEB expense among the functions in the statement of activities.	34,358,600
Internal service funds are used by management to accumulate sufficient resources to pay medical and workers' compensation claims through payroll charges to the	
funds. The net revenue or expense of the internal service funds is allocated among	
the governmental activities on the statement of activities.	 (65,844)
Change in Net Positon of Governmental Activities	\$ 33,816,616

1. Description of the District and Reporting Entity

The Beavercreek City School District (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a city district as defined by Section 3311.02 of the Ohio Revised Code. The District operates under a locally elected five member board and is responsible for the provision of public education to residents of the District. The Board controls the District's instructional/support facilities staffed by 383 non-certificated staff, 489 certificated staff members and 41 administrative staff to provide services to 7,784 students.

Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading.

The primary government consists of all funds and departments, which provide various services including instruction, student guidance, extracurricular activities, food service, pre-school, educational media and care and upkeep of grounds and buildings. The operation of each of these activities is directly controlled by the Board of Education.

Current State legislation provides funding to parochial schools, as well as the community and Montessori schools within the District boundaries. These monies are received and disbursed on behalf of the non-public school by the treasurer of the District, as directed by the non-public school. The State monies received/disbursed by the District are reflected as a governmental activity for financial reporting purposes.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing body and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations for which the District approves the budget, the issuance of debt or the levying of taxes. The District does not have any component units.

The District is associated with four organizations, which are defined as jointly governed. These organizations include the Southwestern Ohio Educational Purchasing Council (SOEPC), Miami Valley Educational Computer Association (MVECA), the Greene County Career Center, and the Southwestern Ohio Instructional Technology Association (SOITA). These organizations are presented in Note 17 to the basic financial statements.

2. <u>Summary of Significant Accounting Policies</u>

The significant accounting policies followed in the preparation of these financial statements are summarized below. These policies conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's policies are described below.

a. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the District are divided into the categories governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the District are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities and deferred inflows of resources is reported as fund balance. The following are the District's major governmental funds:

<u>General Fund</u> - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Debt Service Fund</u> - The debt service fund is used to account for the accumulation of resources that are restricted for the payment of general long-term debt principal, interest and related costs.

Other governmental funds of the District may be used to account for specific resources that are restricted or committed to specified purposes.

Proprietary Fund

The proprietary fund focuses on the determination of operating income, the change in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service; the District has no enterprise funds.

2. <u>Summary of Significant Accounting Policies</u> (continued)

<u>Internal Service Funds</u> – The internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the District on a cost reimbursement basis. The District has two internal service funds; one used to account for the District's self-insured medical benefits program and the other used to accumulate monies charged to other funds for the payment of future workers' compensation claims and related expenses.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The District's one private purpose trust fund is used to account for scholarship resources for students. Agency funds are purely custodial and thus do not involve measurement of results of operations. The District's agency funds account for student activities, as well as employee payroll withholdings and undistributed state athletic tournament funds that remain unremitted at year-end.

b. Basis of Presentation

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The government-wide statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position. This approach differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational requirements of a particular program. Revenues not classified as program revenues are presented as general revenues.

2. <u>Summary of Significant Accounting Policies</u> (continued)

Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all non-major funds are aggregated into one column. Internal service and fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and liabilities, as well as deferred inflows of resources, are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in current fund balances. Like the government-wide statements, all proprietary and fiduciary funds are accounted for on a flow of economic resources measurement focus.

c. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. The Fund financial statements are prepared using either modified accrual for governmental funds or accrual basis for proprietary and fiduciary funds.

Revenues, Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recognized in the accounting period when they become both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period of the District is sixty days after year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been met. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available for advance, tuition, grants and student fees.

2. <u>Summary of Significant Accounting Policies</u> (continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding, pension, and OPEB. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained further in Notes 12 and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources until that time. For the District, deferred inflows of resources include property taxes, unavailable revenue, pension, and OPEB. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2018, but which were levied to finance fiscal year 2019 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District, unavailable revenue includes delinquent property taxes, intergovernmental grants, and student fees. These amounts are deferred and recognized as an inflow of resources as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position for the position and If the position and If the period to pension and OPEB plans are reported on the government-wide statement of net position and OPEB plans are

Expenditures/Expenses

The measurement focus of governmental fund accounting is on flow of current financial resources. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred except for (1) principal and interest on general long-term debt, which is recorded when due, and (2) the costs of accumulated unpaid vacation and sick leave are reported as fund liabilities to the extent that payments come due each period upon the occurrence of employee resignations and retirements. Allocation of costs, such as depreciation and amortization, are not recognized in governmental funds.

The accrual basis of accounting utilized by the government-wide and proprietary fund financial statements recognize revenues when they are earned, and expenses are recognized at the time they are incurred.

2. <u>Summary of Significant Accounting Policies</u> (continued)

Budgets and Budgetary Accounting

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated, however the District elects to adopt appropriations and budgets for its agency funds. The legal level of control is at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

Advances in and advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing on the following July 1. The budget includes proposed expenditures and means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayer's comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Greene County Budget Commission for rate determination.

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the Certificate is amended to include unencumbered cash balances from the preceding year. The certificate may be further amended during the year if the fiscal officer determines that the revenue collected is greater or less than the current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during fiscal year 2018.

2. Summary of Significant Accounting Policies (continued)

Appropriations

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education at the fund level of expenditures, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at the legal level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriation by fund does not exceed the amounts set forth in the most recent Certificate of Estimated Resources. The budget figures, which appear in the statements of budgetary comparison, represent the final appropriation amounts, including all amendments and modifications.

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. The Ohio Revised Code prohibits expenditures from exceeding appropriations. On the fund financial statement encumbrances are reported within the restricted, committed or assigned fund balances depending on the restrictions placed upon the resources encumbered. For the general fund, encumbrances are reported as a component of assigned fund balance indicating that amount is not currently available. Encumbrances are reported as part of expenditures on a non-GAAP budgetary basis.

Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. Encumbered appropriations are carried forward to the succeeding fiscal year and are not re-appropriated.

d. Cash and Cash Equivalents

The District maintains a cash and investment pool used by all funds. The cash and investment pool has the same characteristics as demand deposits. Each fund type's portion of this pool is displayed in the financial statements as cash and cash equivalents. The District utilizes a financial institution to service bonded debt as principal and interest payments come due. The monies are either maintained in a central bank account or used to purchase legal investments.

2. Summary of Significant Accounting Policies (continued)

The Ohio Revised Code authorizes the District to invest in United States and State of Ohio bonds, notes and other obligations; bank certificates of deposit; bankers' acceptances; commercial paper notes rated prime and issued by United States corporations; and STAR Ohio.

STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted GASB Statement No. 79, "Certain External Investment Pools and Participants". The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides the NAV per share that approximates fair value.

For fiscal year 2018, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance for all deposits or withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business day(s), but only to the \$50 million limit. All accounts of the participants will be combined for these purposes.

The District reports investment at fair value, with the exception of its investment in STAR Ohio and mutual fund which are based on a per share basis. All investments of the cash management pool and those with an original maturity of three months or less when purchased are considered to be cash equivalents.

Under existing Ohio statutes, all investment earnings accrue to the general, food service fund and auxiliary service fund. Interest earnings allocated to the food service and auxiliary service funds are based on average monthly cash balances. Investment income credited to the general fund during the fiscal year amounted to \$522,455, which includes \$181,988 assigned from other District funds.

e. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net position.

f. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2018 are recorded as prepaid items on the government-wide financial statements using the consumption method and recording a current asset for the prepaid amount and reflecting the expenditure in the current year in which services are consumed. Reported prepaid items are reported as a non-spendable component of fund balance.

2. <u>Summary of Significant Accounting Policies</u> (continued)

g. Capital Assets and Depreciation

General capital assets are reported in the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at acquisition values as of the date received. The District follows the policy of not capitalizing assets with a cost of less than \$5,000 and a useful life of less than 1 year. The District does not possess any infrastructure.

All reported capital assets, except for land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	<u>Useful Life</u>
Land Improvements	30
Buildings & Improvements	30
Furniture, Equipment & Vehicles	5-10

h. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employee's right to receive compensation is attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at June 30 by those employees who are currently eligible to receive termination payments and those employees for whom it is probable they will become eligible to receive termination benefits in the future. The criteria for determining the vacation and sick leave liability is derived from Board policy, negotiated agreements, and state laws. The liability is based upon pay rates in effect at the balance sheet date.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employee will be paid.

2. <u>Summary of Significant Accounting Policies</u> (continued)

i. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension and OPEB liabilities should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension and OPEB plans' fiduciary net position is not sufficient for payment of those benefits.

j. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension and OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the fiduciary net position of the pension and OPEB plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension and OPEB plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension and OPEB plans report investments at fair value.

k. Fund Balance

The District reports classifications of fund balance based on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The following categories are used:

<u>Nonspendable</u> – amounts that cannot be spent because they are either (a) not in spendable form or (b) legally required to be maintained intact.

<u>Restricted</u> – amounts that have constraints placed on the use of resources that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> – amounts that can only be used for specific purposes pursuant to constraints imposed by formal action (resolution) of the District's highest level of decision-making authority, the Board of Education.

2. <u>Summary of Significant Accounting Policies</u> (continued)

<u>Assigned</u> – amounts that are constrained by the District's intent to be used for specific purpose, but are neither restricted not committed. Assigned amounts include those approved through the District's formal purchasing procedure by the Treasurer. Through the District's purchasing policy, the Board of Education has given the Treasurer the authority to constrain monies for intended purposes.

<u>Unassigned</u> – residual fund balance within the general fund that is in spendable form that is not restricted, committed or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

The District applies restricted resources first when an expenditure is incurred for purposes for which restricted and unrestricted fund balance is available. The District considers committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

I. Net Position

Net position represents the difference between assets and deferred outflows of resources compared with liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws, regulations or other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

m. Interfund Activity

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements to avoid "doubling up" revenues and expenses. Transfers within governmental activities are eliminated on the government-wide financial statements. Internal allocations of overhead expenses from one function to another or within the same function are also eliminated. Payments for interfund services provided and used are not eliminated.

2. <u>Summary of Significant Accounting Policies</u> (continued)

n. Operating Revenues and Expenses

Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service fund are charges made to other funds for health benefits and workers' compensation premiums and operating expenses are the payments of those claims, premiums and services to process the claims. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

o. Unamortized Bond Premium and Discount/Accounting Gain or Loss

On government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities statement of net position. Bond premiums and discounts, as well as deferred gain or loss on refunding, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Unamortized deferred gain or loss on refunding are reported as a component of deferred inflows of resources or deferred outflows of resources, respectively. Bond issuance costs are reported as current period expense when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

p. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

3. Accountability

a. Change in Accounting Principle

For fiscal year 2018, the District implemented the Governmental Accounting Standards Board (GASB) Statements No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other than Pensions, No. 81, Irrevocable Split-Interest, No. 85, Omnibus 2017, and No. 86, Certain Debt Extinguishment Issues.

3. <u>Accountability</u> (Continued)

GASB Statement No. 75 replaces the requirements of Statement 45 and requires governments to report a liability on the face of the financial statements for the OPEB provided to employees. Statement 75 also requires governments in all types of OPEB plans to provide more extensive note disclosures and required supplementary information (RSI) about their OPEB liabilities. The implementation of GASB Statement No. 75 required the District to restate beginning net position of governmental activities at July 1, 2017.

GASB Statement No. 81 requires the government that receives resources pursuant to an irrevocable split interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. GASB Statement No. 85 establishes accounting and reporting requirements for blending component units, goodwill, fair value measurement and applications, and postemployment benefits (pension and other postemployment benefits). GASB Statement No. 86 establishes standards of accounting and financial reporting for insubstance defeasance transactions in which cash and other monetary assets acquired with only existing resources are placed in an irrevocable trust for the purpose of extinguishing debt. The implementation of these Standards had no effect on the District's financial statements.

b. Deficit Fund Balances

Individual fund deficits reported at June 30, 2018 include the following:

Non-Major Funds	 Deficit
Auxiliary Services	\$ 186,797
Straight A's State Grant	69,571
Other State Grants	4,328
IDEA, Part B Grant	41,375
Title III, Limited English Proficiency Grant	312
Title I Grant	25,131
IDEA Preschool Grant	356
Supporting Effective Instruction State Grant	2,232
Miscellaneous Federal Grants	88,208

These deficit balances resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in these funds and will provide transfers when cash is required, not when accruals occur.

3. <u>Accountability</u> (Continued)

c. Restatement of Net Position

The implementation of GASB Statement No. 75 for fiscal year 2018 had the following effect on the governmental activities net position as reported June 30, 2017:

Net Position at June 30, 2017 as previously reported	\$ (66,591,930)
Adjustments:	
Net OPEB Liability at June 30, 2017	(30,167,659)
Deferred Outflows - Payments Subsequent to Measurement Date	 225,180
Net Position at June 30, 2017 as restated	\$ (96,534,409)

Other than employer contributions subsequent to the measurement date, the District made no restatement for deferred outflows or inflows of resources as the information needed to generate these restatements was not available.

4. <u>Budgetary Basis of Accounting</u>

While the District is reporting financial position, results of operations and changes in fund balance on the basis of GAAP, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances – Budget (Non-GAAP Basis) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- In order to determine compliance with Ohio law, and reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to an assignment of fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis); and,
- Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

4. Budgetary Basis of Accounting (continued)

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund are as follows:

Net Change in Fund Balance		
	_	General Fund
Budget Basis	\$	(340,947)
Adjustments:		
Revenue Accruals		(2,236,903)
Expenditure Accruals		(453,631)
Encumbrances		765,686
Other Financing Sources(Uses)		(1,181,939)
Perspective Budgeting Difference **		(132,388)
GAAP Basis	\$	(3,580,122)

** As part of GASB Statement No. 54, "<u>Fund Balance Reporting</u>", certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the uniform school supply fund, public school support fund, and summer school fund. These funds have legally adopted budgets and have a schedule of revenues, expenditures and changes in fund balance – budget (Non-GAAP basis) and actual presented.

5. Deposits and Investments

State statutes require the classification of monies held by the District into three categories.

Active Monies - Those monies required to be kept in a "cash" or "near-cash" status for immediate use by the district. Such monies must be maintained either as cash in the District Treasury, in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive Monies - Those monies not required for use within the current five year period of designation of depositories. Inactive monies may be deposited or invested as certificates of deposit maturing not later than the end of the current period of designation of depositories, or as savings or deposit accounts including, but not limited to, passbook accounts.

Interim Monies - Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested in legal securities (see Note 2d).

5. **Deposits and Investments** (continued)

Interim monies may be deposited or invested in the following securities:

United States Treasury Notes, Bills, Bonds or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;

Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2% and be marked to market daily, and that the term of the agreement must not exceed thirty days;

Bonds and other obligations of the State of Ohio;

No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;

The State Treasurer's investment pool (STAR Ohio);

Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from purchase date in an amount not to exceed 25% of the interim monies available for investment at any one time, and under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of table notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless <u>matched</u> to a specific obligation of or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

5. **Deposits and Investments** (continued)

Deposits

The carrying amount of all District deposits was \$2,284,770 including cash on hand. Based on the criteria described in GASB Statement 40, "<u>Deposits and Investment Risk Disclosures</u>", \$401,288 of the District's bank balance of \$3,150,415 was exposed to custodial risk as discussed below, while \$2,749,127 was covered by Federal Deposit Insurance Corporation.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. The District's policy for deposits is that any balance not covered by depository insurance will be collateralized by the financial institution with pledged securities. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

Investments

As of June 30, 2018 the District had the following investments and maturities:

	Μ	easurement	Maturity (in years)					
Investment Type		Value	le	ss than 1	1 to 3			4 to 5
U.S. Agencies								
Federal Home Loan								
Mortgage Corp. (FHLMC)	\$	2,813,106	\$	-	\$	2,813,106	\$	-
Federal National Mortgage								
Association (FNMA)		5,731,469		466,748		5,264,721		-
Federal Farm Credit								
Bank (FFCB)		530,501		530,501		-		-
Negotiable CDs		6,371,553		1,487,941		4,883,612		-
Mutual Fund		1,095,176		1,095,176		-		-
Commercial Paper		8,077,892		8,077,892		-		-
STAROhio		14,777,453		L4,777,453		-	_	-
Total	\$	39,397,150	\$ 2	26,435,711	\$	12,961,439	\$	-

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

5. **Deposits and Investments** (continued)

Credit Risk

The District's investment in securities of Federal agencies were rated Aaa by Moody's and AA+ by Standard & Poor's; commercial paper held was rated P-1 by Moody's; and the mutual fund and STAR Ohio were rated AAAm by Standard & Poor's. Negotiable Certificates of Deposits (CDs) were fully insured by FDIC. The District has no policy limiting investments based on credit risk other than those established by ORC.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District's investment policy does not specifically address custodial credit risk beyond the adherence to those investments permitted by the ORC. Requirements in State statute prohibit payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Concentration of Credit Risk

The District places a limit on the percentage of the portfolio that may be held in the form of commercial paper, other than this stipulation, the District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2018:

Investment Type	Measurement Value	% of Portfolio
U.S. Agencies	\$ 9,075,076	23.04%
Negotiable CDs	6,371,553	16.17%
Mutual Fund	1,095,176	2.78%
Commercial Paper	8,077,892	20.50%
STAROhio	14,777,453	37.51%
Total	\$ 39,397,150	

Fair Value Measurement

The District's investments measured and reported at fair value are classified according to the following hierarchy:

- Level 1 Investments reflect prices quoted in active markets.
- Level 2 Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered to be active.
- Level 3 Investments reflect prices based upon unobservable sources.

5. **Deposits and Investments** (continued)

The categorization of investments within the hierarchy is based upon the transparency of the instrument and should not be perceived as the particular investment's risk. The District had the following reoccurring fair value measurements as of June 30, 2018:

Investment Type	Total	Identical Assets (Level 1)	Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
U.S. Agencies	\$ 9,075,076	\$ -	\$ 9,075,076	\$ -
Negotiable CDs	6,371,553	-	6,371,553	-
Commerical Paper	8,077,892	-	8,077,892	
Total	\$ 23,524,521	<u>\$</u> -	\$ 23,524,521	\$ -

Investments classified in Level 2 of the fair value hierarchy are valued using pricing sources provided by the investment managers.

6. <u>Property Taxes</u>

Property taxes are levied and assessed on a calendar year basis. Distributions from the second half occur in a new fiscal year and are intended to finance the operations of that year. Property taxes include amounts levied against all real, public utility and tangible personal (used in business) property located in the District. All property taxes are collected on behalf of the District by the auditors of Greene and Montgomery Counties. Greene County collects approximately 98% and Montgomery County collects approximately 2% of the District's taxes. Taxpayers remit payment to their respective county, Greene or Montgomery, which then distributes funds to the District on settlement dates that vary each year.

Real property taxes and public utility taxes are levied in April on the assessed value listed as of the prior January 1, the lien date. Assessed values for real property taxes are established by State law at 35% of appraised market value. All property is required to be revalued every six years. Real property taxes are payable annually or semi-annually. If paid annually, payment is due January 20; if paid semi-annually, the first payment is due January 20 with the remainder payable by June 20. Settlement dates for real property taxes generally occur during the months of February and August but on occasion run into the following month. Amounts certified by the County Auditor prior to June 30 are available to the District as an advance and should therefore be recognized as revenue in the current fiscal year. The District's policy is not to take an advance on these taxes, as they are budgeted for the next fiscal year.

Public utility property taxes are assessed on tangible personal property at 25% of true value (with certain exceptions) and on real property at 35% of true value. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes.

6. <u>Property Taxes</u> (Continued)

The assessed values upon which fiscal year 2018 taxes receipts were based on are as follows:

	2018 First Half Collections	2017 Second Half Collections
Real Estate		
Residential /Agricultural	\$ 1,335,577,410	\$ 1,247,737,900
Commerical / Industrial	467,100,610	461,030,990
Public Utility Property	41,177,570	39,757,570
Total	\$ 1,843,855,590	\$ 1,748,526,460

Accrued property taxes receivable represents delinquent taxes outstanding and real property, personal property and public utility taxes which became measurable as of June 30, 2018, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to deferred inflow of resources for that portion not intended to finance current year operations. On the accrual basis, total delinquent property tax amounts existing at year end have been recorded as revenue.

7. <u>Receivables</u>

Receivables at June 30, 2018 consisted of taxes, accounts (tuition and student fees), and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds. A summary of the District's intergovernmental receivables follows:

Governmental Activities:	Amount			
General Fund	 			
Tuition owed by other districts	\$ 152,293			
Non-Major Governmental Funds				
Straight A's State Grant	74,722			
Other State Grants	27,685			
IDEA, Part B Federal Grant	362,816			
Title III Federal Grant	18,729			
Title I Federal Grant	184,240			
IDEA Preschool Federal Grant	23,368			
Supporting Effective Instruction State Grant	52,711			
Miscellaneous Federal Grants	 2,819			
Total	\$ 899,383			

8. <u>Capital Assets</u>

A summary of capital asset activity during the fiscal year follows:

	Balance at 7/1/2017		Additions		Deductions		Balance at 6/30/2018	
Capital Assets, not being depreciated:								
Land	\$	6,996,584	\$	-	\$	-	\$	6,996,584
Construction in Progress		-		265,300		-		265,300
		6,996,584		265,300		-		7,261,884
Capital Assets, being depreciated:								
Land Improvements		3,844,432		25,984		-		3,870,416
Buildings		125,328,246		503,226		405,000		125,426,472
Building Improvements		1,911,614		664,052		-		2,575,666
Furniture and Equipment		4,093,383		197,889		69,981		4,221,291
Vehicles		7,193,847	34,651		68,807			7,159,691
		142,371,522		1,425,802		543,788		143,253,536
Less: Accumulated Depreciation:								
Land Improvements		1,174,256		151,532		-		1,325,788
Buildings		44,211,372		5,960,832		-		50,172,204
Building Improvements		743,659		72,114		-		815,773
Furniture and Equipment		2,966,342		360,054		61,858		3,264,538
Vehicles		5,843,163		310,549		62,519		6,091,193
		54,938,792		6,855,081 *		124,377		61,669,496
Capital Assets, being depreciated, net		87,432,730		(5,429,279)		419,411		81,584,040
Total Capital Assets, net	\$	94,429,314	\$	(5,163,979)	\$	419,411	\$	88,845,924

* - Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$ 42,458
Special	4,237
Support Services:	
Instructional Staff	9,410
Administration	5,113
Operation and Maintenance of Plant	74,426
Pupil Transportation	268,622
Central	6,396,058
Non-Instructional Services	10,344
Extracurricular Activities	 44,413
Total Depreciation Expense	\$ 6,855,081

9. <u>Risk Management</u>

The District is exposed to various risks of loss related to torts, theft or, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters.

During fiscal year 2018, the District contracted with the Merkel Insurance Company for general liability insurance, property and vehicle coverage. General liability insurance has coverage of \$1 million single occurrence limit and a \$3 million general aggregate. Property insurance is at blanket value and generally has a \$5,000 deductible. Certain scheduled items (computers, software, cameras, instruments, etc.) have a \$500 deductible. The vehicle coverage has \$1 million injury property damage, \$1 million of uninsured/underinsured and a comprehensive and collision deductible of \$1,000. In addition, the District has an umbrella liability policy that provides an additional \$5 million limit. The District also has \$1 million public employee dishonesty coverage. The superintendent, treasurer and board president are all bonded separately. Settled claims have not exceeded this coverage in any of the past three years. There have been no significant reductions in insurance coverage from last two years.

The District provides employee medical benefits through a self-insured program in which claims are processed by Anthem, the third-party administrator. The District purchases stop loss insurance coverage to cover catastrophic medical claims which exceed \$175,000 for individual claims and \$14.6 million in the aggregate with an additional \$2.0 million maximum on the aggregate coverage. The Board picks up 85% of medical and 90% of dental monthly premiums for certified employees and a scaled percentage based on hours worked for classified employees. Life insurance coverage is provided through fully insured coverage from Assurant.

The following table summarizes the actuarially determined medical benefit claims payable for the past two fiscal years.

Fiscal Year	Beginning Claims Payable		Current Claims			Claims Payments	Ending Claims Payable
2018 2017	\$	897,460 919,000	•	13,770,161 12,057,743	\$	13,461,621 12,079,283	\$ 1,206,000 897,460

The District is self-insured for workers' compensation claims. Prior to January 1, 2014, the District participated in the traditional Ohio Bureau of Workers' Compensation coverage. Essentially, the District has assumed all responsibility of paying all compensation and medical expenses for claims incurred during the policy year. Excess insurance coverage was purchased to cover catastrophic claims which exceed \$400,000. There is no aggregated annual claim coverage or limit in the program. The District pays an assessment of \$0.31 per dollar on every dollar of paid compensation.

9. <u>Risk Management</u> (continued)

The following table summarizes workers' compensation claims payable based on the reserves established by the administrator for the past two fiscal years.

			Curr	ent Claims				
	Be	eginning	and	Change in			I	Ending
	(Claims	Provision of		Claims			Claims
Fiscal Year	F	Payable	Prior Claims		Payments		Payable	
2018	\$	12,363	\$	82,068	\$	48,655	\$	45,776
2017		68,202		(12,556)		43,283		12,363

10. Interfund Transactions

Interfund balances on the fund statements at June 30, 2018 consist of the following receivables and payables:

Fund		eceivable	Payable		
General Fund	\$	812,309			
Other Governmental Funds:					
Non-Major Special Revenue Funds:					
Auxiliary Services			\$	352,547	
Straight A's State Grant				187,449	
Other State Grants Fund				19,894	
IDEA, Part B Grant Fund				103,158	
Title III - Limited English Proficiency Grant Fund				15,000	
Title I Grant Fund				20,131	
IDEA Preschool Grant Fund				18,158	
Supporting Effective Instruction State Grants Fund				22,195	
Miscellaneous Federal Grants Fund				73,777	
	\$	812,309	\$	812,309	

The interfund receivables and payables resulted from the general fund advancing monies to individual grant funds to cover deficits until grant funding was received in the subsequent fiscal year.

11. Long-Term Obligations

The activity of the District's long-term obligations during fiscal year 2018 was as follows:

	Restated Balance 7/1/2017	Balance		•	Decrease		Balance 6/30/2018		Amount Due Within One Year	
Governmental Activities:										
General Obligation Bonds:										
2018 Athletic Facility Construction										
and Improvement Taxable Bond:

Total Governmental Activities	\$ 275,783,2	61	\$ 2,096,	501	\$	(45,744,034)	\$	232,135,828	\$	6,423,020

a. General Obligations Bonds

On December 13, 2006, the District issued general obligation bonds (Series 2006 Refunding Bonds) to refund the callable portion of the Series 1995 general obligation bonds. The balance of the refunded bonds was \$12,880,000 at June 30, 2017. The refunding issue is comprised of current interest bonds, par value of \$22,435,000. The interest rates on the refunding ranges from 3.5% to 5% and the bonds mature on December 31, 2020. Interest and principal payments are due each June 1 and December 1.

11. Long-Term Obligations (continued)

In fiscal year 2009, the District issued approximately \$84 million in school improvement bonds. The school improvement bonds will be used for the construction of two new school buildings as well as for the improvement or repair current District school buildings. A portion of these bonds were refunded in fiscal year 2015. This bond issue will be paid through the debt service fund from property taxes collected by the County Auditor. The balance of the bonds was \$3,715,000 at June 30, 2018 and will mature on December 1, 2019.

On March 10, 2015, the District issued general obligation bonds (Series 2015 Refunding Bonds) to refund the callable portion (\$65.9 million) of the Series 2009 general obligation bonds. The refunding issue totaled \$65,929,980; consisting of \$58,200,000 current interest bonds (rates 2.5%-5%) maturing in 2034, \$7,450,000 current interest term bond (3.25%) maturing in 2036, and \$279,980 capital appreciation bonds which mature in fiscal years 2016 through 2021.

The capital appreciation bonds have a total maturity value of \$4,115,000 (\$1,730,000 which matured during fiscal years 2016 through 2018 and \$2,385,000 maturing in fiscal years 2019 through 2021) and were issued at \$3,882,384. These bonds are not subject to redemption prior to scheduled maturity. Accretion on the remaining capital appreciation bonds outstanding at the end of the current fiscal year amounted to \$2,297,130.

The following is a summary of the District's future annual debt service requirements to maturity for general obligation bonds payable:

Fiscal					
Year	Principal	Interest	Total		
2019	\$ 4,980,258	\$ 3,606,043	\$ 8,586,301		
2020	5,215,036	3,369,264	8,584,300		
2021	4,080,017	4,490,108	8,570,125		
2022	3,150,000	2,620,075	5,770,075		
2023	3,235,000	2,491,950	5,726,950		
2024-2028	21,290,000	9,947,425	31,237,425		
2029-2033	23,225,000	4,766,500	27,991,500		
2034-2037	14,330,000	1,040,924	15,370,924		
Total	\$ 79,505,311	\$ 32,332,289	\$ 111,837,600		

b. Taxable Athletic Facilities Construction and Improvement Bonds

On May 31, 2018, the District issued \$540,000 in taxable athletic facilities construction and improvement bonds to finance improvements to the District's stadium. The interest rate on these bonds is 4.75% which fully mature on December 1, 2022.

11. Long-Term Obligations (continued)

The following is a summary of the annual debt service requirements to maturity for the taxable improvement bonds:

Fiscal			
Year	Principal	Interest	Total
2019	\$ 100,000	\$ 23,346	\$ 123,346
2020	105,000	18,406	123,406
2021	110,000	13,301	123,301
2022	110,000	8,075	118,075
2023	115,000	2,731	117,731
Total	\$ 540,000	\$ 65,859	\$ 605,859

c. Compensated Absences, Net Pension Liability, and OPEB Liability

The District pays obligations related to employee compensation (compensated absences and pension and OPEB contributions) from the fund benefitting from their service which include the general fund, food service fund, auxiliary service fund, other State grants fund, IDEA Part B grant fund, Title III-Limited English Proficiency grant fund, Title I grant fund, IDEA Part B preschool fund and miscellaneous Federal grant fund.

d. Defeased Debt Outstanding

As of June 30, 2018, \$65,930,000 of 2009 school improvement general obligations bonds defeased in a prior period remains outstanding. These bonds have a call date of December 1, 2019. Funds have been placed into an irrevocable trust to satisfy the debt service requirements until that call date.

12. <u>Pension Plans</u>

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

12. <u>Pension Plans</u> (continued)

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the way pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB Statement No. 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for contractually-required pension contributions outstanding at the end of the fiscal year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description – District non-teaching employees participate in SERS, a cost-sharing multipleemployer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

12. <u>Pension Plans</u> (continued)

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 **	Eligible to retire on or after August 1, 2017
Full benefits	Age 65 with 5 years of service credit; or any age with 30 years of service credit	Age 67 with 10 years of service credit; or age 57 with 30 years of service credit
Actuarially reduced benefits	Age 60 with 5 years of service credit; or age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or age 60 with 25 years of service credit

** - Members with 25 years of service credit as of August 1, 2017 will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2% for the first 30 years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-ofliving adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10% for plan members and 14% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2018, the allocation to pension, death benefits, and Medicare B was 13.5%. The remaining 0.5% of the 14% employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$1,873,806 for fiscal year 2018. Of this amount, \$218,037 is reported as an intergovernmental payable.

12. <u>Pension Plans</u> (continued)

Plan Description - State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <u>www.strsoh.org</u>.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by 2% of the original base benefit. For members retiring August 1, 2013, or later, the first 2% is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with 5 years of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5% of the 14% employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5% of the 14% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12% of the 14%-member rate goes to the DC Plan and 2% goes the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with 5 years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

12. <u>Pension Plans</u> (continued)

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB Statement No. 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2018, plan members were required to contribute 14% of their annual covered salary. The District was required to contribute 14%; the entire 14% was the portion used to fund pension obligations. The fiscal year 2018 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was approximately \$5,594,135 for fiscal year 2018. Of this amount, \$826,262 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources for Pensions

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the projected contributions of all participating entities.

12. <u>Pension Plans</u> (continued)

Following is information related to the proportionate share and pension expense:

	SERS			STRS	Total	
Proportionate share of the net pension liability	\$	24,974,194	\$	84,602,322	\$	109,576,516
Proportion of the net pension liability Change in proportionate share		0.4179936% 0.0036429%		0.3561421% 0.0159491%		
Pension (negative) expense	\$	(763,982)	\$	(30,162,640)	\$	(30,926,622)

At June 30, 2018 the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS		STRS		 Total
Deferred Outflows of Resources:					
Differences between expected and					
actual experience	\$	1,074,803	\$	3,266,945	\$ 4,341,748
Change in assumptions		1,291,434		18,503,456	19,794,890
Change in District's proportionate share					
and difference in employer contributions		300,382		8,122,671	8,423,053
District contributions subsequent					
to the measurement date		1,873,806		5,594,135	 7,467,941
Total	\$	4,540,425	\$	35,487,207	\$ 40,027,632
Deferred Inflows of Resources:					
Differences between expected and					
actual experience	\$	-	\$	(681,860)	\$ (681,860)
Net difference between projected and actual					
earnings on pension plan investments		(118,547)		(2,791,975)	 (2,910,522)
Total	\$	(118,547)	\$	(3,473,835)	\$ (3,592,382)

\$7,467,941 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the year ending June 30, 2019. Other amounts reported as deferred outflows and inflows of resources related to pension will be recognized in pension expense as follows:

12. <u>Pension Plans</u> (continued)

	SERS		 STRS	 Total
Fiscal Year Ending June 30:				
2019	\$	1,129,903	\$ 6,354,849	\$ 7,484,752
2020		1,599,092	10,152,896	11,751,988
2021		401,277	7,497,599	7,898,876
2022		(582,200)	 2,413,893	 1,831,693
	\$	2,548,072	\$ 26,419,237	\$ 28,967,309

Actuarial Assumptions – SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will consider the employee's entire career with the employer and take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2017, are as follows:

12. <u>Pension Plans</u> (continued)

Wage inflation	3.00 percent
Future salary increases, including inflation	3.50 percent to 18.20 percent
COLA or Ad Hoc COLA	2.50 percent
Investment rate of return	7.50 percent of net investments expense, including inflation
Actuarial cost method	Entry Age Normal

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

The actuarial assumptions used were based on the results of an actuarial experience study for the period ending July 1, 2010 to June 30, 2015 adopted by the Board on April 21, 2016.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00%	0.50%
US stocks	22.50%	4.75%
Non-US stocks	22.50%	7.00%
Fixed income	19.00%	1.50%
Private equity	10.00%	8.00%
Real assets	15.00%	5.00%
Multi-asset strategies	<u>10.00%</u>	3.00%
Total	<u>100.00%</u>	

12. <u>Pension Plans</u> (continued)

Discount Rate – Total pension liability was calculated using the discount rate of 7.5%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.5%). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.5%, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.5%), or one percentage point higher (8.5%) than the current rate.

	Current							
	1	% Decrease	Di	iscount Rate	1% Increase			
		(6.50%)		(7.50%)		(8.50%)		
District's proportionate share of								
the net pension liability	\$	34,657,691	\$	24,974,194	\$	16,862,290		

Actuarial Assumptions - STRS

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Assumptions	July 1, 2017 Valuation	July 1, 2016 Valuation and Prior
Inflation	2.50%	2.75%
Salary increases	12.50% at age 20 to 2.50% at age 65	12.25% at age 20 to 2.75% at age 70
Investment rate of return, including inflation	7.45%, net of investment expenses	7.75%, net of investment expenses
Payroll increases	3.00%	3.50% per annum compounded annually for the next two years, 4.00% thereafter

12. <u>Pension Plans</u> (continued)

	July 1, 2017	July 1, 2016
Assumptions	Valuation	Valuation and Prior
Cost-of-living	0.00% effective	2.00% simple for members
adjustments (COLA)	July 1, 2017	retiring August 1, 2013, 2% per
		year; for members retiring August
		1, 2013 or later, 2% COLA
		commences on 5th anniversary
		of retirement date
Mortality tables	RP-2014	RP-2000

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50% of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disability mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2014 Employee Mortality Table, projected forward generationally, using mortality improvement scale MP-2014.

The actuarial assumptions were based on the results of an actual experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return **
Domestic equity	28.00%	7.35%
International equity	23.00%	7.55%
Alternatives	17.00%	7.09%
Fixed income	21.00%	3.00%
Real estate	10.00%	6.00%
Liquidity reserves	<u>1.00%</u>	<u>2.25%</u>
Total	<u>100.00%</u>	<u>6.84%</u>

** 10-year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

12. <u>Pension Plans</u> (continued)

Discount Rate – The discount rate used to measure the total pension liability was 7.45% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2017. Therefore, the long-term expected rate of return on pension plan investments of 7.45% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2017.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45%) or one-percentage-point higher (8.45%) than the current rate:

	Current					
	1	L% Decrease		1% Increase (8.45%)		
		(6.45%)				(7.45%)
District's proportionate share of						
the net pension liability	\$	121,274,548	\$	84,602,322	\$	53,711,467

13. <u>Postemployment Benefits Other than Pension (OPEB)</u>

Net OPEB Liability

The net OPEB liability reported on the statement of net position represents a liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

13. Postemployment Benefits Other than Pension (OPEB) (Continued)

The net OPEB liability represents the District's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments, health care cost trend rates and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB Statement No. 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net OPEB liability* on the accrual basis of accounting. Any liability for contractually-required OPEB contributions outstanding at the end of the fiscal year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description—The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB Statement No. 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population.

13. Postemployment Benefits Other than Pension (OPEB) (Continued)

For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy—State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14% of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2018, 0.5% of covered payroll was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2018, the minimum compensation amount was \$23,700. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2018, the District's surcharge obligation was \$216,823.

The surcharge, added to the 0.5% allocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$286,223 for fiscal year 2018. Of this amount \$8,075 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description—The State Teachers Retirement System of Ohio (STRS) administers a costsharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting <u>www.strsoh.org</u> or by calling (888) 227-7877.

13. Postemployment Benefits Other than Pension (OPEB) (Continued)

Funding Policy—Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For the fiscal year ended June 30, 2018, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	SERS	STRS	Total
Proportionate share of the net OPEB liability	\$ 11,352,377	\$ 13,895,351	\$ 25,247,728
Proportion of the net OPEB liability Change in proportionate share	0.4230063% 0.0029188%	0.3561421% 0.0159491%	
OPEB (negative) expense	\$ 686,282	\$ (4,118,260)	\$ (3,431,978)

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	 SERS	 STRS		Total
Deferred Outflows of Resources: Differences between expected and actual experience	\$ -	\$ 802,128	\$	802,128
Change in District's proportionate share and difference in employer contributions	24,491	731,109		755,600
District contributions subsequent to the measurement date	 286,223	 -	_	286,223
Total	\$ 310,714	\$ 1,533,237	\$	1,843,951 (continued)

Beavercreek City School District, Ohio

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

13. Postemployment Benefits Other than Pension (OPEB) (Continued)

	 SERS	 STRS	 Total
Deferred Inflows of Resources: Net difference between projected and actual			
earnings on OPEB plan investments	\$ (29,980)	\$ (593,920)	\$ (623,900)
Change in assumptions	 (1,077,283)	 (1,119,318)	 (2,196,601)
Total	\$ (1,107,263)	\$ (1,713,238)	\$ (2,820,501)

\$286,223 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2019. Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	 SERS	STRS		Total		
Fiscal Year Ending June 30:						
2019	\$ (388,942)	\$	(79,493)	\$	(468,435)	
2020	(388,942)		(79,493)		(468,435)	
2021	(297,393)		(79,493)		(376,886)	
2022	(7,495)		(79 <i>,</i> 493)		(86,988)	
2023	-		68,987		68,987	
2024	 -		68,984		68,984	
	\$ (1,082,772)	\$	(180,001)	\$	(1,262,773)	

Actuarial Assumptions – SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

13. Postemployment Benefits Other than Pension (OPEB) (Continued)

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will consider the employee's entire career with the employer and take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation, prepared as of June 30, 2017, are presented below:

Investment rate of return	7.50% net of investment expense, including inflation
Wage inflation	3.00%
Future salary increases, including inflation	3.50% to 18.20%
Municipal bond index rate: Prior measurement date Measurement date	2.92% 3.56%
Single equivalent interest rate, net of plan investment expense, including price inflation: Prior measurement date	2.98%
Measurement date	3.63%
Municipal bond index rate: Pre-Medicare Medicare	7.50% - 5.00% 5.50% - 5.00%

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120% of male rates and 110% of female rates. PR-2000 Disabled Mortality Table with 90% for males rate and 100% for female rates set back five years.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial fiveyear experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the longterm rate of return assumption, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

13. Postemployment Benefits Other than Pension (OPEB) (Continued)

The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected

to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00%	0.50%
US stocks	22.50%	4.75%
Non-US stocks	22.50%	7.00%
Fixed income	19.00%	1.50%
Private equity	10.00%	8.00%
Real assets	15.00%	5.00%
Multi-asset strategies	<u>10.00%</u>	3.00%
Total	<u>100.00%</u>	

Discount Rate – The discount rate used to measure the total OPEB liability at June 30, 2017 was 3.63%. The discount rate used to measure total OPEB liability prior to June 30, 2017 was 2.98%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and SERS at the state statute contribution rate of 2.00% of projected covered employee payroll each year, which includes a 1.50% payroll surcharge and 0.50% of contributions from basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2017 (i.e., municipal bond rate) was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

13. Postemployment Benefits Other than Pension (OPEB) (Continued)

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and the Health Care Cost Trend Rates – The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability calculated using the discount rate of 3.63%, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.63%) and one percentage point higher (4.63%) than the current rate.

				Current	
	1	% Decrease	D	iscount Rate	1% Increase
		(2.63%)		(3.63%)	 (4.63%)
District's proportionate share					
of the net OPEB liability	\$	13,709,441	\$	11,352,377	\$ 9,484,981

The following table presents the net OPEB liability calculated using current health care cost trend rates, as well as what the District's net OPEB liability would be if it were calculated using health care cost trend rates that are one percentage point lower (6.5% decreasing to 4.0%) and one percentage point higher (8.5% decreasing to 6.0%) than the current rates.

				Current		
	19	% Decrease		Trend Rate	-	1% Increase
	(6.5	0% decreasing	(7.	50% decreasing	(8.	50% decreasing
		to 4.00%)		to 5.00%)		to 6.00%)
District's proportionate share						
of the net OPEB liability	\$	9,211,603	\$	11,352,377	\$	14,185,728

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2017 actuarial valuation are presented below:

Inflation	2.50%
Salary increases	12.50% at age 20 to 2.50% at age 65
Payroll increases	3.00%
Blended discount rate of return	4.13%
Investment rate of return	7.45%, net of investment expenses, including inflation
Health care cost trends	6.00% - 11.00% initially, 4.50% ultimate
Cost-of-living adjustments	0.00% effective July 1, 2017

13. Postemployment Benefits Other than Pension (OPEB) (Continued)

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70% of rates between ages 70 and 79, 90% of rates between ages 80 and 84, and 100% of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90% of rates for males and 100% of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2017, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return **
Domestic equity	28.00%	7.35%
International equity	23.00%	7.55%
Alternatives	17.00%	7.09%
Fixed income	21.00%	3.00%
Real estate	10.00%	6.00%
Liquidity reserves	<u>1.00%</u>	2.25%
Total	<u>100.00%</u>	<u>6.84%</u>

** 10-year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Since the prior measurement date, the discount rate was increased from 3.26% to 4.13% based on the methodology defined under GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75% to 7.45%. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

13. Postemployment Benefits Other than Pension (OPEB) (Continued)

Also since the prior measurement date, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1% to 1.9% per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. Subsequent to the current measurement date, the date for discontinuing remaining Medicare Part B premium reimbursements was extended to January 2020.

Discount Rate – The discount rate used to measure the total OPEB liability was 4.13% as of June 30, 2017. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was not projected to be sufficient to make all projected future benefit payments of current plan members. The OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2037. Therefore, the long-term expected rate of return on OPEB plan assets was used to determine the present value of the projected benefit payments through the fiscal year ending June 30, 2036 and the Bond Buyer 20-year municipal bond rate of 3.58% as of June 30, 2017 (i.e. municipal bond rate), was used to determine the present value of the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The blended discount rate of 4.13%, which represents the long-term expected rate of return of 7.45% for the funded benefit payments and the Bond Buyer 20-year municipal bond rate of 3.58% for the unfunded benefit payments, was used to measure the total OPEB liability as of June 30, 2017. A blended discount rate of 3.26% which represents the long term expected rate of return of 7.75% for the funded benefit payments and the Bond Buyer 20-year municipal bond rate of 2.85% for the unfunded benefit payments was used to measure the total OPEB liability at June 30, 2016.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and the Health Care Cost Trend Rates – The following table presents the District's proportionate share of the net OPEB liability calculated using the current period discount rate assumption of 4.13%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.13%) and one percentage point higher (5.13%) than the current rate. Also shown is the net OPEB liability as if it were calculated using health care cost trend rates that are one percentage point lower and one percentage point higher than the current health care cost trend rates:

				Current		
	1	% Decrease	D	iscount Rate	1	1% Increase
		(3.13%)		(4.13%)		(5.13%)
District's proportionate share						
of the net OPEB liability	\$	18,654,286	\$	13,895,351	\$	10,134,237

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2018

13. Postemployment Benefits Other than Pension (OPEB) (Continued)

	% Decrease Trend Rates	7	Current Frend Rates	1% Increase Trend Rates
District's proportionate share of the net OPEB liability	\$ 9,653,894	\$	13,895,351	\$ 19,477,604

14. <u>Commitments - Encumbrances</u>

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end may be reported as part of restricted, committed or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

		Year-End
Fund Type	Ene	cumbrances
General fund	\$	789,557
Other nonmajor governmental funds		1,447,460
Total	\$	2,237,017

15. <u>Statutory Reserve</u>

The District is required by State statute to annually set aside, in the general fund, an amount based on a statutory formula for the acquisition or construction of capital improvements. Amounts not spent by the year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for this same purpose in future years.

The following cash basis information describes the change in year-end set aside amounts. Disclosure of this information is required by State statute.

	A	Capital cquisition
Set-aside cash balance as of June 30, 2017	\$	-
Current year set-aside requirements		1,377,029
Current year offset - PI Levy		(2,722,955)
Total	\$	(1,345,926)
Set-aside cash balance as of June 30, 2018	\$	-

15. <u>Statutory Reserve</u> (Continued)

Although the District had current year offsets which exceeded the current year set-aside requirement, the excess amount may not be used to reduce the set-aside requirements of future fiscal years. Therefore, the excess is not presented as being carried forward to the next fiscal year.

16. <u>Contingencies</u>

a. Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits should become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2018, if applicable, cannot be determined at this time.

b. Full-Time Equivalency Review

The District's State funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment is updated by schools throughout the State, which can extend past the end of the fiscal year. As of the date of this report, additional ODE adjustments for fiscal year 2018 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2018 financial statements is not determinable, at this time. However, management does not believe any future adjustments will be significant to the District.

c. Litigation

It is the opinion of management that any potential claims against the District, which would not be covered by insurance, would not materially affect the financial statements based on the information currently available.

17. Jointly Governed Organizations

a. Southwestern Ohio Educational Purchasing Council (SOEPC)

The Southwestern Ohio Educational Purchasing Council (SOEPC) is a purchasing council made up of 126 public school districts in 18 counties in southwestern Ohio. The purpose of the council is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC. Each member district has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SOEPC is held in trust for the member districts. Any district withdrawing from the SOEPC shall forfeit its claim to any and all SOEPC assets. One year prior notice is necessary for withdrawal from the group.

17. Jointly Governed Organizations (Continued)

During this time, the withdrawing member is liable for all member obligations. Payments to SOEPC are made from the general fund. During fiscal year 2018, the District paid \$26,998 to SOEPC. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Council, Ken Swink, who serves as Director, 303 Corporate Center Drive, Suite 208, Vandalia, Ohio 45377.

b. Miami Valley Educational Computer Association (MVECA)

The District is a member district in the Miami Valley Educational Computer Association (MVECA) which is a Council of Governments. MVECA is an association of 24 school districts from Clark, Clinton, Greene, Highland, Fayette and Madison counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts.

The governing board of MVECA consists of seven members. The government board consists of not less than two Superintendents and not less than two Treasurers of member school districts. The District paid MVECA \$748,708 for services provided during the year. Financial information can be obtained from Thor Sage, Executive Director, at 330 East Enon Road, Yellow Springs, Ohio 45387.

c. Greene County Career Center

The Greene County Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the seven participating school districts elected boards, which possesses its own budgeting and taxing authority. To obtain financial information, write to the Greene County Career Center, 2960 West Enon Road, Xenia, Ohio 45385-9545.

d. Southwestern Ohio Instructional Technology Association

The Southwestern Ohio Instructional Technology Association (SOITA) is a non-profit corporation organized to serve the educational needs of the area through television programming for the advancement of educational programs. The Board of Trustees is comprised of twenty-one representatives of SOITA member schools or institutions. Nineteen representatives are elected from within the counties by the qualified members within the counties, i.e. Auglaize, Butler, Champaign, Clark, Clinton, Darke, Fayette, Greene, Hamilton, Logan, Mercer, Miami, Montgomery, Preble, Shelby, and Warren. Montgomery, Greene and Butler Counties elect two representatives per area. All others elect one representative per area. One at-large non-public school SOITA members from the State assigned SOITA service area. One at-large higher education representative is elected by higher education SOITA members from within the State assigned SOITA members from within the State assigned SOITA members from within the State assigned SOITA members from the State assigned SOITA members from within the State assigned SOITA members from within the State assigned SOITA members from the State assigned SOITA members from within the State assigned SOITA members from the State assigned SOITA members from within the State assigned SOITA members from the State assigned SOITA members from within the State assigned SOITA members from the State assigned SOITA members from within the State assigned SOITA area.

17. Jointly Governed Organizations (Continued)

All member districts are obligated to pay all fees, charges or other assessments as established by SOITA. Upon dissolution, the remaining net position shall be distributed to the federal government, or to a state or local government, for a public purpose. The District did not pay any monies to SOITA during fiscal year 2018. To obtain financial information, write to the Southwestern Ohio Instructional Technology Association, Gary Greenberg, who serves as the Executive Director, at 1205 East Fifth Street, Dayton, Ohio 45402.

(1) - Information Prior to 2016 is not available. The District will continue to present information for years available until a full ten-year trend is presented.

(2) - In addition to the allocation of employer contribution, SERS assesses a surcharge on employers for employees earning less than an actuarially determined minimum compensation amount, which is pro-rated if less than a full year of service credit is earned.

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2018

1. Pension Plans:

School Employees Retirement System of Ohio:

Change in assumptions. In 2017, changes in assumptions were made based upon an updated experience study that was completed for the five-year period ended June 30, 2015. Significant changes included a reduction of the discount rate from 7.75% to 7.50%, a reduction in the wage inflation rate from 3.25% to 3.00%, a reduction in the payroll growth assumption used from 4.00% to 3.50%, reduction in the assumed real wage growth rate from 0.75% to 0.50%, update of the rates of withdrawal, retirement and disability to reflect recent experience, and transition from the RP-2000 mortality tables to the RP-2014 mortality tables for active members and service retired members and beneficiaries.

State Teachers Retirement System of Ohio:

Change in assumptions. In 2018, changes in assumptions were made based upon an updated experience study that was completed for the five-year period ended June 30, 2016. Significant changes included a reduction of the discount rate from 7.75% to 7.45%, the inflation assumption was lowered from 2.75% to 2.50%, the payroll growth assumption was lowered to 3.00%, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0/25% due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

Change in benefit terms. Effective July 1, 2017, the COLA was reduced to zero.

2. Other Postemployment Benefit (OPEB) Plans:

School Employees Retirement System of Ohio:

Change in assumption. Amounts reported for fiscal year 2018 incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Municipal Bond Index Rate:	
Fiscal Year 2018	3.56%
Fiscal Year 2017	2.92%

Single Equivalent Interest Rate, net of plan investment

expense, including price inflation:

Fiscal Year 2018	3.63%
Fiscal Year 2017	2.98%

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2018

2. Other Postemployment Benefit (OPEB) Plans: (Continued)

State Teachers Retirement System of Ohio:

Change in assumption. For fiscal year 2018, the discount rate was increased from 3.26% to 4.13% based on the methodology defined under GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)*, and the long-term expected rate of return was reduced from 7.75% to 7.45%. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

Also for fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 % to 1.9% per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

THIS PAGE IS INTENTIONALLY LEFT BLANK

COMBINING STATEMENTS AND INDIVIDUAL FUND SCHEDULES

Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditure for specified purposes.

Food Service Fund

To account for the financial transactions related to the food service operation of the District.

Lida Ferguson Land Fund

To account for donations received and expenditures made for the upkeep of the Lida Ferguson Land Lab.

Uniform School Supply Fund

To account for the purchase and sale of instructional supplies as adopted by the Board of Education for us in all buildings throughout the District. This fund is included with the general fund for GAAP reporting as it does not have restricted or committed revenue source, therefore only Budget (Non-GAAP Basis) information is presented within this section.

Public School Support Fund

To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e., sale of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs. This fund is included with the general fund for GAAP reporting as it does not have restricted or committed revenue source, therefore only Budget (Non-GAAP Basis) information is presented within this section.

Other Grant Fund

To account for funding provided from local and state sources which are provided to assist the District with various educational programs.

Summer School Fund

To account for tuition/fees received for the operation of summer school. This fund is included with the general fund for GAAP reporting as it does not have restricted or committed revenue source, therefore only Budget (Non-GAAP Basis) information is presented within this section.

District Managed Student Activity Fund

To account for local funds generated to assist student activities, which are managed by District personnel.

Auxiliary Services Fund

To account for state funds which provide services and materials to students attending nonpublic schools within the boundaries of the District as provided by state law.

Special Revenue Funds (continued)

Data Communication Fund

To account for state funds appropriated for the Ohio Educational Computer Network Connections.

Straight A's State Grant Fund

To account for state funds awarded to districts based on applications submitted to finance new initiatives aimed at meeting one or a combination of the following outcomes 1) meeting the learning needs of students, 2) reduce the cost of running a school or district, or 3) increase classroom funding.

Other State Grants Fund

To account for state funds provided for miscellaneous state programs.

IDEA, Part B Grant Fund

To account for federal funds received for the purpose of assisting in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternate service patterns, and provision of full educational opportunities to handicapped children.

Title III - Limited English Proficiency Grant Fund

To account for federal funds used to meet the educational needs of children of limited English proficiency.

Title I Grant Fund

To account for federal funds used to meet the special needs of educationally deprived children.

IDEA Preschool Grant Fund

To account for revenues and expenditures made in conjunction with early childhood activities.

Supporting Effective Instruction State Grants Fund

To account for monies received under a federal grant to provide training and professional development for professional staff members.

Miscellaneous Federal Grants Fund

To account for federal funds provided for miscellaneous federal programs.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for and the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the District is obligated in some manner for the payment.

Since there is only one Debt Service Fund and it is considered a major fund included in the Basic Financial Statements, only Budget (Non-GAAP Basis) information is presented here.

Capital Projects Funds

The Capital Projects funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings and additions to existing buildings, or for major renovation projects.

Permanent Improvement Fund

The account for all transactions related to acquiring, constructing or improving such permanent improvements as are authorized by Chapter 5705 of the Ohio Revised Code.

Building Fund

To account for all transactions related to special bond funds in the District. Proceeds from the sale of bonds, except premium and accrued interest, are paid into this fund.

Internal Service Funds

Internal service funds are used to account for services provided to the various departments and functions throughout the District on a cost-reimbursement basis

Self-Insured Medical Benefits

The account for all transactions related to operating the District's self-insured medical benefits program including premium charges allocated to fund paying employee payroll, claims expense, stop loss coverage, and administration.

Self-Insured Workers' Comp Benefits

The account for all transactions related to operating the District's self-insured workers' comp benefits program including premium charges allocated to fund paying employee payroll and payment of future workers' compensation claim related expenses.

Fiduciary Funds

Fiduciary are used to account for assets held by the District in a trustee capacity or as an agent for individuals, organizations, other governmental units, and/or other funds. The District's Fiduciary Funds are limited to a Private Purpose Trust Fund and Agency Funds.

Private Purpose Trust Fund

Beavercreek High School Scholarship Fund

The funds in this account will be expended on scholarships, as directed by these outside entities, to District student recipients. As this is the District's only private purpose trust fund, no combining statements are included for this fund type.

Agency Funds

Student Managed Activities Fund

To account for the resources that belongs to the various student groups in the District.

Payroll Withholding Fund

To account for withholdings from employees pay which are not paid each pay-period.

OHSAA Tournaments Clearing Fund

To account for funds received in conjunction with hosting Ohio High School tournament games until those funds are properly disbursed.

FRONTSIDE OF BACK COVER

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents	Page
Financial Trends	119-125
These schedules contain trend information to help the reader	
understand how the District's financial performance and well- being	
have changed over time.	
Revenue Capacity	126-129
These schedules contain information to help the reader assess the	
District's most significant local revenue source, the property tax.	
Debt Capacity	130-133
These schedules present information to help the reader assess the	
affordability of the District's current levels of outstanding debt and	
the District's ability to issue additional debt in the future.	
Demographic and Economic Information	134-135
These schedules offer demographic and economic indicators to help	
the reader understand the environment within which the District's	
financial activities take place.	
Operating Information	136-141
These schedules contain service and infrastructure data to help the	
reader understand how the information in the District's financial	
report relates to the services the District provides and the activities	
it performs.

Note: In prior years the District presented operating expenses as defined by the Ohio Department of Education. This information is no longer available and therefore expenses per this schedule have been adjusted to the amounts reported by the District for the respective years as noted in Schedule 2.

(1) - Decrease in reported expenses resulted from recognizing significant negative pension and OPEB expense for the year.
