**NOTES TO THE SCHEDULE OF RECEIPTS AND EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE FISCAL YEAR ENDED JUNE 30, 2018**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Receipts and Expenditures of Federal Awards (the Schedule) includes the federal award activity of Kettering City School District (the District's) under programs of the federal government for the year ended June 30, 2018. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles contained in OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments* (codified in 2 CFR Part 225), or the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE E – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE F – ADULT EDUCATION – BASIC GRANTS TO STATES

The District commingles cash receipts from the Ohio Department of Higher Education and the State of Ohio for the Adult Education – Basic Grants to States. When reporting expenditures on this Schedule, the District assumes it expends monies on a first-in, first-out basis.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Kettering City School District
Montgomery County
3750 Far Hills Avenue
Kettering, Ohio 45429

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Kettering City School District, Montgomery County, (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 28, 2018, wherein we noted the District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Therefore, unidentified material weaknesses or significant deficiencies may exist. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings that we consider a material weakness. We consider finding 2018-001 to be a material weakness.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matter we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2018-001.

District's Response to Finding

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and corrective action plan. We did not subject the District's response to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Kettering City School District
Montgomery County
3750 Far Hills Avenue
Kettering, Ohio 45429

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited the Kettering City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Kettering City School District's major federal program for the year ended June 30, 2018. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, Kettering City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2018.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on the major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Receipts and Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Kettering City School District (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 28, 2018, wherein we noted the District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. We conducted our audit to opine on the District's basic financial statements as a whole. The accompanying schedule of receipts and expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements.

The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2018-001

Noncompliance and Material Weakness

Ohio Rev. Code § 133.24 states, in part, debt charges on tax anticipation notes shall be payable only from the proceeds of the tax levy anticipated.

**FINDING NUMBER 2018-001
(Continued)**

In fiscal year 2017, the District issued tax anticipation notes in anticipation of the collection of the proceeds of a voted permanent improvement property tax levy. The District improperly paid the fiscal year 2018 principal and interest payments for the tax anticipation notes from the Bond Retirement Fund rather than the Permanent Improvement Fund. As a result, Debt Service: Principal Retirement and Debt Service: Interest and Fiscal Charges were understated by \$670,000 and \$110,307, respectively, and Cash was overstated by \$780,307 in the Permanent Improvement Fund. Additionally, Debt Service: Principal Retirement and Debt Service: Interest and Fiscal Charges were overstated by \$670,000 and \$110,307, respectively, and Cash was understated by \$780,307 in the Bond Retirement Fund. These errors have been adjusted in the accompanying financial statements and the District's accounting system.

Ohio Rev. Code § 5705.10(I) states, in part, money paid into any fund shall be used only for the purposes for which such fund is established.

In fiscal year 2018, the District issued certificates of participation for the purpose of constructing, renovating, and improving the District's facilities. The District improperly paid the fiscal year 2018 principal and interest payments for the certificates of participation from the Bond Retirement Fund rather than the Permanent Improvement Fund. Further, the District improperly posted the premiums on the certificates of participation to the Bond Retirement Fund rather than the Permanent Improvement fund. As a result, Premium on Certificates of Participation, Debt Service: Principal Retirement, and Debt Service: Interest and Fiscal Charges were understated by \$236,553, \$65,000, and \$325,986, respectively, and Cash was overstated by \$154,433 in the Permanent Improvement Fund. Additionally, Premium on Certificates of Participation, Debt Service: Principal Retirement, and Debt Service: Interest and Fiscal Charges were overstated by \$236,553, \$65,000, and \$325,986, respectively, and Cash was understated by \$154,433 in the Bond Retirement Fund. These errors have been adjusted in the accompanying financial statements and the District's accounting system.

As a result of the audit adjustments noted above, the District improperly overstated Net Position: Restricted for Capital Projects by \$934,740 and understated Net Position: Restricted for Debt Service by the same amount in Governmental Activities. These errors have been adjusted in the accompanying financial statements.

Ohio Rev. Code § 5705.41(B) states, in part, no subdivision or taxing unit shall make any expenditure of money unless it has been appropriated.

Due to the audit adjustments above, the Permanent Improvement Fund's budgetary-basis expenditures of \$19,141,043 exceeded appropriations of \$18,618,715 by \$522,328.

The District should implement procedures to verify that debt payments are made from the proper fund(s). Failure to comply with the terms of the Ohio Revised Code and debt agreements could result in findings for adjustment in future audits and the District using restricted monies for unauthorized purposes.

Officials' Response

Prior incorrect payments will be corrected by moving money to the incorrect fund where the expenditure happened in the previous fiscal year. All current and future payments will be properly expensed with their Debt (002) or Permanent Improvement (003) funds.

TO THE CITIZENS AND BOARD OF EDUCATION
OF THE KETTERING CITY SCHOOL DISTRICT:

We are pleased to present the twenty-fourth Comprehensive Annual Financial Report (CAFR) of the Kettering City School District (the District) for the fiscal year ended June 30, 2018. This report was prepared by the Treasurer's Office, and includes the unmodified opinion of our independent auditors, the Ohio Auditor of State. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. The CAFR conforms to generally accepted accounting principles (GAAP) applicable to government entities.

The Management's Discussion and Analysis (MD&A) provides a narrative introduction, overview and analysis to accompany the basic financial statements. This Letter of Transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Auditor's Report.

Copies of this report will be widely distributed throughout the District. A copy will be sent to all school buildings, the Chamber of Commerce, major taxpayers, the Public Library, Moody's and Standard and Poor's financial rating services, banks, and any other interested parties.

This report includes all funds of the District. The District provides a full range of traditional and non-traditional educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory and vocational levels; a broad range of co-curricular and extracurricular activities; adult and community education offerings; special education programs and facilities and community recreation facilities.

In addition to providing these general activities, the District receives pass-through State funds, which are distributed to private and parochial schools located within the District boundaries. The private school served by the Kettering City School District is the Montessori Center of South Dayton. The parochial schools served by the Kettering City School District are St. Albert the Great Elementary School, St. Charles Borromeo Elementary School, Ascension Elementary School and Archbishop Alter High School. While these organizations share operational and service similarity with the District, each is a separate and distinct entity. Because of their independent nature, none of these organizations' financial statements are included in this report. The District has no component units.

HISTORY AND BACKGROUND

The 2018 school year marked the 177th year of existence for the Van Buren/Kettering City School District. Van Buren Township was established on June 26, 1841, through separation from Dayton. The township was at first divided into small one-room district schools (#1, #6, #9, #10, #11 and #12) and later into Carrmonte, Pasadena, and Fairmont elementary districts. Oakwood and Belmont were originally part of Van Buren Township. Oakwood formed its own district in 1926. Later, the Belmont area was annexed to Dayton.

Kettering City, the third largest public school district in the greater Dayton metropolitan area, lies south of Dayton and Oakwood, north of Centerville/Washington Township and west of Greene County. The City of Kettering and part of the City of Moraine fall under the jurisdiction of the school district.

LETTER OF TRANSMITTAL
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

Three names have been associated with the current Kettering City School District; Van Buren, Kettering and Moraine.

Van Buren Township was named for President Martin Van Buren. In 1803, Montgomery County was created, and four townships were formed. Dayton Township included the area now known as Kettering. Van Buren Township separated from Dayton in 1841 and remained a separate township with its own schools until 1952, when residents voted to become the Village of Kettering.

In 1954, Dayton proposed annexing the Delco facilities. The earlier annexation of Belmont did not sit well with Van Buren Township. Not wanting further erosion of the township, Van Buren countered, applied for, and was granted exempted village status, the last time such status was given in Ohio. Then Superintendent Dwight L. Barnes and Assistant Superintendent J. E. Prass spearheaded this move. The exempted village status precluded the proposed Delco annexation by Dayton and secured the area for Van Buren/Kettering.

A special census conducted in 1954-55 verified that the township had more than 10,000 residents, and in 1955, the township became the City of Kettering.

The City of Kettering and hence the Kettering City School District were named in honor of Charles F. Kettering, the noted inventor of the automobile self-starter and holder of more than 150 patents. Together with Edward A. Deeds, Mr. Kettering formed a partnership in 1909, known as the "Barn Gang" since they, and other engineers, worked in Deeds' barn. The partnership developed into the Dayton Engineering Laboratories Company (DELCO), with Deeds as President and Kettering as Vice-President. In 1916, DELCO was sold to General Motors. During World War I, Deeds and Kettering organized the Dayton Wright Airplane Company and invented "The Bug" a remote-controlled, unmanned aircraft. The war ended before "The Bug" could be used. Charles F. Kettering's other accomplishments included work with leaded gasoline, Freon refrigeration, diesel locomotion, and quick-drying car paint.

Kettering was a very civic-minded man, directing both his efforts and funds into the Sloan-Kettering Institute for Cancer Research, the Kettering Foundation, which works to strengthen the public role in government, educational and science policy, and the Miami Conservancy District, instrumental in flood control.

Moraine took its name from the pre-historic glacier, which deposited vast amounts of sand and gravel over the terrain. Because of concern over police and fire departments services, the west Moraine section voted to become a separate township in 1953. They became a village in 1957 and a city in 1965. Throughout this period, Moraine has retained its ties to the Kettering City School District.

The Kettering City School District currently has a population of about 61,482 and covers 21.3 square miles. The City of Moraine has 6,307 residents and encompasses 9.22 square miles of which approximately 2.9 are within the Kettering City School District.

The official opening enrollment of the District was 7,405 enrolled in eight elementary schools, two middle schools and one high school during the 2017-18 school year; enrollment increased to 7,461 students during fiscal year 2018. The District projects enrollment to remain stable. The District's school buildings range in age from 11 years to 69 years old. Other facilities operated by the District include a maintenance building, a transportation building, and the Central Office Building that had been a high school and junior high school previously. The Central Office Building also houses the District's alternative high school program.

On September 15, 1998 the Kettering City School District Board of Education passed a resolution to change the name of the District from the Kettering-Moraine City School District to the Kettering City School District effective July 1, 1998.

ORGANIZATION OF THE DISTRICT

The Board of Education of the Kettering City School District is a five member body politic and corporate, as defined by Section 3313.02, Ohio Revised Code. The Board serves as the taxing authority, contracting body, policy maker, and ensures that all other general laws of the State of Ohio are followed in the expenditure of the District's tax dollar, and approves the annual appropriation resolution and tax budget.

The Board members on June 30, 2018 were as follows:

Toby Henderson
Jennifer Kane
Julie A. Gilmore
Lori E. Simms-Parks
James T. Ambrose

The Superintendent is the chief executive officer of the District, responsible directly to the Board for all operations. L. Scott Inskeep was appointed as Superintendent effective September 1, 2014.

The Treasurer/CFO is the chief financial officer of the District, responsible directly to the Board for maintaining all financial records, issuing all payments, maintaining custody of all District funds and assets, and investing idle funds as specified by Ohio Law. Daniel Schall was appointed Treasurer effective May 5, 2014.

ECONOMIC CONDITION AND OUTLOOK

Economic Condition and Outlook (Kettering)

The economic environment for Kettering's business community continued to be one of relative stability during 2018.

According to the City of Kettering, although the City has been negatively impacted by the decline in employment in the area, the overall effect was diminished due to the diversity of the employment base. Kettering's business base ranges from some major employers headquartered in Kettering to many midsize companies specializing in technology or professional services and smaller, family-owned businesses. Kettering's largest employers include Kettering Medical Center (KMC), Synchrony Financial, and Reynolds & Reynolds Co. KMC employs 3,570 people and recently completed construction on a new \$49 million state of the art comprehensive cancer care center on vacant land across the street from the main campus. Reynolds & Reynolds Co., a Fortune 1000 company based in Dayton since 1866, continues to employ 1,350 people at its Miami Valley Research Park campus. Synchrony Financial employs 2,000 people and recently invested \$1.5 million for improvements in their facility at the Kettering Business Park (KBP).

In the area of new employment, in late 2017, the City completed the purchase of nearly 300 acres of unimproved land. The City plans to aggressively market the land remaining for development and work with existing tenants to explore expansion opportunities. Alternate Solutions Health Network completed renovation of their 200,000 square foot building at KBP. The company projects growth in employment of more than 340 jobs in the next five years. N12 Technologies, Inc. is a manufacturing company serving the medical, automotive, aviation and space sectors. The company plans to relocate from Massachusetts to Kettering after renovating and upgrading 6,000 square feet of the NCC Building at the KBP. Finally, the City continues to implement the plan developed by the Wilmington Pike Improvement Committee to regenerate investment and spur economic development along the Wilmington Pike corridor.

FOR THE FISCAL YEAR ENDED JUNE 30, 2018

Economic Condition and Outlook (Moraine)

According to the City of Moraine, the City's local economy is showing an improvement over the decline from the past several years. Fuyao's production momentum and investments, which is currently close to \$800 million, have had a resounding impact on the local economy. In total, Fuyao now comprises more than 1.7 million square feet of renewed industrial space at the former GM facility. By the end of 2017, employment at Fuyao reached over 3,400.

During 2017, WinSupply continued their on-going renovations at the former Corporate Tower building, establishing an ever-growing campus setting at their local headquarters. The City also saw the completion of a few local building expansions including Production Control Units (PCU) and Chemstation.

Two significant grand openings occurred in 2017, with MedVets finalizing and occupying their new 20,000 square foot veterinary hospital, and Project Cure becoming the City's second tenant in the Moraine Commerce Park. MetVet's new facility houses nearly 90 employees and offers a plethora of services to assist emergency pet care needs. Project Cure's new 30,000 square foot facility provides regional medical services to those struggling with addiction and has upwards of 30 employees.

Major investments are expected to begin at Shook Construction and the Ohio Department of Transportation (ODOT). Shook Construction will begin occupying the RSM Accounting building and will bring over 70 jobs to the location once renovations are complete in the third quarter of 2018. ODOT recently acquired 10 acres of the former Delphi site on Dryden Road and will construct a new facility in 2019.

The City of Moraine expects to see continued growth along the Dryden Road and Springboro Pike corridors. These two areas have been among the fastest growing revitalization quadrants in the entire Dayton Metropolitan area.

EMPLOYEE RELATIONS

The Board employs 1,096 full-time and part-time employees (including non-teaching personnel). Of the Board's current employees, 623 are certificated by the Ohio Department of Education serving as classroom teachers, education specialists and administrators, all of whom have at least a bachelor's degree.

Five hundred seventy-five (575) of the Board's certificated teachers and educational specialists are members of the Kettering Education Association ("KEA"), which is a labor organization affiliated with the Ohio Education Association. The current contract between the Board and the Association became effective on July 1, 2017 and expires on June 30, 2020.

Three hundred seventy-four (374) of the Board's classified employees are members of the Ohio Association of Public School Employees ("OAPSE") which is a labor organization affiliated with the American Federation of State, County and Municipal Employees ("AFSME"). The current contract between the Board and OAPSE became effective on August 1, 2017 and expires on July 31, 2020.

These agreements marked a continuation of the historical turn in labor relations between the District, KEA, and OAPSE. The collaborative interest-based bargaining approach that involves the exchange of ideas, concerns and mutual problem solving to improve the instruction of students and to address the needs of the District in a cooperative manner was used.

MAJOR INITIATIVES

For the Year...and the Future...

Our mission, in partnership with the family and community, is to guarantee a superior educational learning experience for all students by providing a positive and innovative learning environment, while responsibly utilizing resources.

LETTER OF TRANSMITTAL
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

We are starting to implement our strategic plan that was completed during the summer. The goals for Curriculum and Instruction are to:

- Enhance Academic Performance (RTI, PBIS & Quality Core Instruction).
- Portrait of a Kettering Graduate – Develop skills in Critical Thinking – Lifelong Learning – Communication – Global Citizenship – engaging collaboration.
- Integrate Facilities that will support optimal learning.
- Create a Social Emotional plan for the District.
- Continue to implement legislation from the government, while keeping the whole child at the forefront.

Preparing our students to be ready to meet the challenges of the world is a team effort that promotes collaboration, creativity, perseverance and achievement. We are committed to giving our students the skills needed to be able to analyze and solve problems, communicate effectively and think creatively. These skills will prepare our students to be life-long learners and allow our students to successfully compete in a global economy.

LONG-TERM FINANCIAL PLANNING

The Ohio Department of Education requires school districts to submit a five year forecast in October and May each year. The forecast provides three years of historical financial data and five years of revenue and expenditure estimates. The forecast is a benchmark used by administrators and the Board of Education to determine the current and future costs of existing educational programs and sustainability of proposed educational initiatives.

The need for general permanent improvements is at the forefront of concerns. The recent passage of a new permanent improvement levy will allow the District to plan for the necessary repairs to its buildings and grounds. Building administrators are working closely together to prioritize and develop preventative maintenance plans and refresh schedules so resources are allocated appropriately. Current construction is underway on a new high school performing arts auditorium.

FINANCIAL POLICIES IMPACTING THE FINANCIAL STATEMENTS

During fiscal year 2018, the District issued a total of \$11,530,000 in certificates of participation (COPS). The District used the proceeds from these COPS for construction of a new high school performing arts auditorium.

FINANCIAL INFORMATION

Internal Controls

The Treasurer/CFO of the District is responsible for establishing internal controls designed to ensure that the assets of the District are protected from loss, theft, or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The Management Team is responsible for assisting with the implementation of the established internal controls. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of cost and benefit requires estimates and judgments by management. Management believes the internal controls adequately meet the objective.

Budgetary Controls

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control imposed by the District (the level at which expenditures cannot legally exceed the appropriated amount) is established at the broad object level (first level) for the general fund and at the fund level for all other funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and are not re-appropriated.

Independent Audit

The State of Ohio requires an annual audit by either the Auditor of State or by an independent public accounting firm. The Auditor of State performed the audit for the fiscal year ended June 30, 2018. The audit has been conducted in accordance with generally accepted auditing standards, generally accepted government auditing standards, and includes a review of internal controls and tests of compliance with Federal and State laws and regulations. The auditor's report on the District's basic financial statements, combining statements, and individual fund statements and schedules is included in the financial section of this Comprehensive Annual Financial Report.

In addition to the financial audit, a single audit was performed as required by the Single Audit Act Amendments of 1996 and the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The single audit report is not included in the CAFR.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Kettering City School District for its comprehensive annual financial report for the fiscal year ended June 30, 2017. This was the twenty-third consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

The Association of School Business Officials (ASBO) of the United States and Canada awarded a Certificate of Excellence in Financial Reporting to the Kettering City School District for its comprehensive annual financial report for the year ended June 30, 2017. This award certifies that a Comprehensive Annual Financial Report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. This award is granted only after an extensive review of the report by an expert panel of certified public accountants and practicing school business officials.

A Certificate of Excellence is valid for a period of one year only. The Kettering City School District has received a Certificate of Excellence for twenty-three consecutive years. We believe our current report continues to meet the Certificate of Excellence Program's requirements, and we are submitting it to ASBO to determine its eligibility for another certificate.

INDEPENDENT AUDITOR'S REPORT

Kettering City School District
Montgomery County
3750 Far Hills Avenue
Kettering, Ohio 45429

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Kettering City School District, Montgomery County, Ohio (the District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Kettering City School District, Montgomery County, Ohio, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during 2018, the District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and *schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions* listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 28, 2018, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(UNAUDITED)**

The management's discussion and analysis of the Kettering City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2018 are as follows:

- The District's net position of governmental activities increased \$48,760,982 which represents a 40.98% increase from 2017's restated net position.
- General revenues accounted for \$98,771,689 in revenue or 84.27% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$18,439,835 or 15.73% of total revenues of \$117,211,524.
- The District had \$68,450,542 in expenses related to governmental activities; \$18,439,835 of these expenses was offset by program specific charges for services and sales, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$98,771,689 were adequate to provide for these programs.
- The District's three major governmental funds are the general fund, bond retirement fund and permanent improvement fund. The general fund had \$96,034,359 in revenues and other financing sources and \$98,729,961 in expenditures and other financing uses. During fiscal year 2018, the general fund's fund balance decreased \$2,693,027 from a balance of \$15,069,881 to \$12,376,854.
- The bond retirement fund had \$7,529,842 in revenues and \$7,475,957 in expenditures. During fiscal year 2018, the bond retirement fund's fund balance increased by \$53,885 from a balance of \$3,948,459 to a balance of \$4,002,344.
- The permanent improvement fund had \$16,229,987 in revenues and other financing sources and \$9,749,409 in expenditures. During fiscal year 2018, the permanent improvement fund's fund balance increased by \$6,480,578 from a balance of \$1,391,847 to a balance of \$7,872,425.

Using these Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader may understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell the reader how services were financed in the short-term, as well as what balances remain for future spending. The fund financial statements also present the District's most significant funds with all other, nonmajor funds presented in one aggregated column. In the case of the District, the general fund, bond retirement fund and permanent improvement fund are the most significant funds and are the only funds considered major funds.

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

While this report contains the large number of funds utilized by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did the District perform financially during 2018?" The statement of net position and the statement of activities answer this question. These statements include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual basis of accounting, similar to the accounting used by most private-sector companies. This basis of accounting considers all of the current year's revenues and expenses, regardless of when cash is received or paid.

These two statements report the District's net position and changes in net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, the governmental activities include the District's programs and services, including instruction, support services, operations and maintenance, pupil transportation, extracurricular activities, and operation of non-instructional services.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions during the year; however, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund, bond retirement fund and permanent improvement fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial resources that can readily be converted to cash. The governmental fund financial statements provide a detailed, short-term view of the District's general government operations and the basic services that it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship between governmental activities (reported in the statement of net position and the statement of activities) and the governmental funds is reconciled in the basic financial statements.

Proprietary Funds

The District maintains proprietary funds. Internal service funds are an accounting device used to accumulate and allocate costs within the District. The District's internal service funds account for a self-funded dental care benefit program and a self-funded health insurance benefit program for employees of the District.

Fiduciary Funds

The District acts in a trustee capacity as an agent for students, individuals, and other entities. These activities are reported in agency funds. All of the District's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities. These activities are excluded from the District's other financial statements because the assets of the fiduciary funds cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's net pension liability and net OPEB liability.

FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(UNAUDITED)**

The net pension liability (NPL) is the largest single liability reported by the District at June 30, 2018 and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." For fiscal year 2018, the District adopted GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions," which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the District's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

**MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(UNAUDITED)**

In accordance with GASB 68 and GASB 75, the District’s statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan’s *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

As a result of implementing GASB 75, the District is reporting a net OPEB liability and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2017, from a deficit of \$84,861,003 to a deficit of \$118,999,057.

Over time, net position can serve as a useful indicator of a government’s financial position. At June 30, 2018, the District’s liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$70,238,075.

At year-end, capital assets represented 51.41% of total assets. Capital assets include land, construction in progress, buildings and improvements, furniture, fixtures and equipment, and vehicles. The District’s net investment in capital assets at June 30, 2018 was \$33,481,779. These capital assets are used to provide services to students and community members and are not available for future spending. Although the District’s net investment in capital assets is reported net of debt related to the acquisition of these assets, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District’s net position, \$8,025,934, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net position was a deficit of \$111,745,788.

The graph below illustrates the District’s governmental activities assets plus deferred outflows, liabilities plus deferred inflows and net position at June 30, 2018 and 2017. The amounts at June 30, 2017 were restated as described in Note 3.A.

(UNAUDITED)**

The information necessary to restate the 2017 beginning balances and the 2017 OPEB expense amounts for the effects of the initial implementation of GASB 75 is not available. Therefore, 2017 functional expenses still include OPEB expense of \$273,347 computed under GASB 45. GASB 45 required recognizing OPEB expense equal to the contractually required contributions to the plan. Under GASB 75, OPEB expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of OPEB expense. Under GASB 75, the 2018 statements report negative OPEB expense of \$3,710,075. Consequently, in order to compare 2018 total program expenses to 2017, the following adjustments are needed:

Total 2018 program expenses under GASB 75	\$ 68,450,542
Negative OPEB expense under GASB 75	3,710,075
2018 contractually required contributions	<u>355,128</u>
Adjusted 2018 program expenses	72,515,745
Total 2017 program expenses under GASB 45	<u>118,997,179</u>
Decrease in program expenses not related to OPEB	<u>\$ (46,481,434)</u>

Overall, expenses of the governmental activities decreased \$50,546,637 or 42.48%. This decrease is primarily the result of the State Teachers Retirement System (STRS) indefinitely suspending the Cost of Living Adjustment ("COLA") and the School Employee Retirement System (SERS) lowering the COLA from 3.00% to 2.50%. On an accrual basis, the District reported (\$36,189,445) in pension expense and (\$3,710,075) in OPEB expense mainly due to these benefit changes by the retirement systems. Fluctuations in the pension expense reported under GASB 68 makes it difficult to compare financial information between years. Pension expense is a component of program expenses reported on the statement of activities. To assess fluctuations in program expenses, the increase or decrease in pension expense should be factored into the analysis. Pension expense, by function, for 2018 and 2017 follows:

Net position of the District's governmental activities increased \$48,760,982. Total governmental expenses of \$68,450,542 were offset by program revenues of \$18,439,835 and general revenues of \$98,771,689. Program revenues supported 26.94% of the total governmental expenses.

The primary sources of revenue for governmental activities are derived from taxes, and grants and entitlements. These revenue sources represent 82.61% of total governmental revenue.

Overall, revenues of the governmental activities increased 3.76%. The largest components of this increase resulted from property taxes.

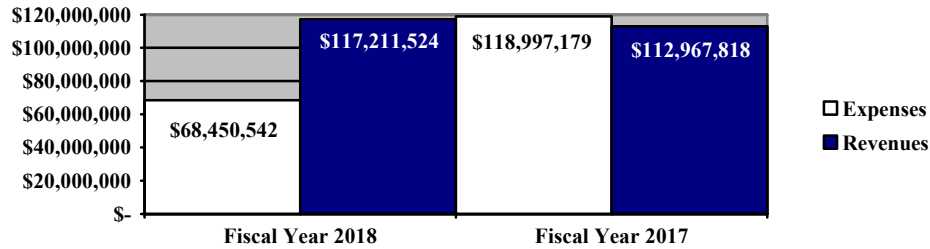

The largest expense of the District is for instructional programs. Instruction expenses totaled \$36,424,424 or 53.21% of total governmental expenses for fiscal year 2018.

FOR THE FISCAL YEAR ENDED JUNE 30, 2018
(UNAUDITED)**

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

For the general fund, original budgeted revenues and other financing sources were \$87,948,949. Final budgeted revenues and other financing sources were unchanged from the original. Actual revenues and other financing sources for fiscal year 2018 were \$95,270,772; this represents a \$7,321,823 increase over final budgeted revenues.

General fund original appropriations and other financing uses totaled \$100,062,087. Final appropriations and other financing uses were increased to \$100,290,087 from the original. The actual budget basis expenditures and other financing uses for fiscal year 2018 totaled \$98,546,559, which is less than the final budget appropriations by \$1,743,528.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2018, the District had \$114,742,715 invested in land, construction in progress, buildings and improvements, furniture, fixtures and equipment, and vehicles. This entire amount is reported in the District's governmental activities. The following table shows the District's net capital asset balances for 2018 and 2017.

Capital Assets at June 30 (Net of Depreciation) - Governmental Activities

	2018	2017
Land	\$ 461,616	\$ 461,616
Construction in progress	5,328,219	1,680,704

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Kettering City School District (the “District”) was originally chartered in 1841 by the Ohio State Legislature. In 1853 State laws were enacted to create local Boards of Education. Today, the District operates under current standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code.

The District operates under a locally elected five-member Board form of government and provides educational services in accordance with the constitution and laws of the State of Ohio and as required by federal agencies. This Board controls the District's instructional and support facilities staffed by 425 classified personnel and 623 certificated teaching and administrative personnel to provide services to students and other community members. The District currently operates one early education center, eight elementary schools, two middle schools (grades 6-8), and one comprehensive high school (grades 9-12).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

A. Reporting Entity

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, “*The Financial Reporting Entity*,” as amended by GASB Statement No. 39 “*Determining Whether Certain Organizations Are Component Units*” and GASB Statement No. 61, “*The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34*”. The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes student instruction (regular, special education, vocational, adult/continuing, and other), student guidance, extracurricular activities, food service, pupil transportation, and care and upkeep of grounds and buildings.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following organizations are described due to their relationships to the District:

JOINTLY GOVERNED ORGANIZATIONS

Metropolitan Educational Technology Association (META) Solutions - The District is a participant in META Solutions which is a computer consortium that resulted from the mergers between Tri-Rivers Educational Computer Association (TRECA), Metropolitan Educational Council (MEC), Metropolitan Dayton Educational Cooperative Association (MDECA), Southeastern Ohio Valley Voluntary Education Cooperative (SEOVEC), and South Central Ohio Computer Association (SCOCA). META Solutions develops, implements and supports the technology and instructional needs of schools in a cost-effective manner. META Solutions provides instructional, core, technology and purchasing services for its member districts. The Board of Directors consists of the Superintendents from eleven of the member districts. During fiscal year 2018, the District paid META Solutions \$112,593 for services. Financial information can be obtained from Dave Varda, who serves as Chief Financial Officer, 100 Executive Drive, Marion, Ohio 43302.

Shared Resources Center Regional Council of Governments - The District participates in the Shared Resources Center Regional Council of Governments (Council), a jointly governed organization consisting of educational entities within Montgomery County. The purpose of the Council is to provide cost effective services to its members and to other entities, enhance and facilitate relationships between stakeholders in the public and private sector, and collaborate on research and development for innovations in education and local government. The Council is governed by a Governing Board, consisting of one individual from each of the seven original members, including the District. The degree of control exercised by any participating educational entity is limited to its representation on the Governing Board. Financial information can be obtained from the Montgomery County Educational Service Center, 200 South Keowee Street, Dayton, Ohio 45402.

PUBLIC ENTITY RISK POOLS

Southwestern Ohio Educational Purchasing Council - The Southwestern Ohio Educational Purchasing Council (SOEPC) is a purchasing council made up of over 139 schools in 18 counties. The purpose of the council is to obtain prices for quality merchandise and services commonly used by schools. All members are obligated to pay all fees, charges, or other assessments as established by the SOEPC. Each member has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SOEPC is held in trust for the members. Any member withdrawing from the SOEPC shall forfeit its claim to any and all SOEPC assets. One year prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member obligations. During fiscal year 2018, the District made no payments to the SOEPC for membership. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Council, Ken Swink, Director, 303 Corporate Center Drive Suite 208, Vandalia, Ohio 45377.

Southwestern Ohio Educational Purchasing Cooperative Employee Benefit Plan - The EPC Benefit Plan Trust (the Plan) is a group purchasing pool consisting of public school districts who are members of the Southwestern Ohio Educational Purchasing Cooperative. The purpose of a group purchasing pool is for members to pool funds or resources to purchase group insurance products to provide health benefits to participants at a lower rate than if the individual districts acted independently. Each district pays a monthly premium to the Trust fund for insurance coverage which is provided by Anthem Blue Cross or United Healthcare. Districts may also contribute monthly to the Trust fund for dental benefits provided through a self-funded dental plan administered by CoreSource. The Plan is governed by a Board of Trustees elected in accordance with the Trust Agreement and voted on by participating EPC member districts. Financial information can be obtained from Doug Merkle, who serves as administrator, at EPC Benefits Office, 303 Corporate Center Drive, Suite 208, Vandalia, Ohio 45377.

FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

B. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as fund balance. The following are the District's major governmental funds:

General fund - The general fund is the general operating fund of the District and is used to account for all financial resources not accounted for and reported in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond retirement fund - This fund is used for the accumulation of resources that are restricted, committed, or assigned for payment of general obligation bond principal and interest from governmental resources.

Permanent improvement fund - This fund is used to account for all transactions related to the acquiring, constructing, or improving of such permanent improvements as authorized by Chapter 5705 of the Ohio Revised Code

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets, and (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector. The following is a description of the District's internal service funds:

Internal service funds - The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District on a cost-reimbursement basis. The dental insurance and health insurance funds are internal service funds of the District, and account for the premiums and claims payments applicable to the employee dental and health plans, respectively. Effective January 1, 2016, the District joined the Southwestern Ohio Educational Purchasing Cooperative Employee Benefit Plan to provide health and dental benefits to employees.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations or other governments and therefore not available to support the District's own programs. The District has no trust funds.

**KETTERING CITY SCHOOL DISTRICT
MONTGOMERY COUNTY, OHIO**

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The District's agency funds account for various student-managed activity programs, deposits to be utilized for background checks, OHSAA tournament monies, and for the employees' cafeteria benefits plan. The agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations.

C. Basis of Presentation and Measurement Focus

Government-wide Financial Statements - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid the "doubling up" of revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District.

The government-wide statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the District are included on the statement of net position.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by fund type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. The internal service funds are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, liabilities, and deferred inflows of resources generally are included on the governmental funds balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e. revenues and other financing sources) and uses (i.e. expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationships between the government-wide statements and the governmental fund financial statements.

Like the government-wide financial statements, the proprietary fund financial statements are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

**KETTERING CITY SCHOOL DISTRICT
MONTGOMERY COUNTY, OHIO**

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's internal service funds are charges for services. Operating expenses for the internal service funds include claims and purchased services expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary funds generally are reported using the economic resources measurement focus; however, agency funds do not report a measurement focus as they do not report operations.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues - Exchange and Nonexchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, payment in lieu of taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 5). Revenue from payment in lieu of taxes, grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, interest, transportation fees, tuition, rental income, grants, student fees, and other local revenues.

Deferred Outflows of Resources and Deferred Inflows of Resources - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, see Notes 14 and 15 for deferred outflows of resources related the District's net pension liability and net OPEB liability, respectively. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

**KETTERING CITY SCHOOL DISTRICT
MONTGOMERY COUNTY, OHIO**

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2018, but which were levied to finance fiscal year 2019 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

See Notes 14 and 15 for deferred inflows of resources related to the District's net pension liability and net OPEB liability, respectively. This deferred inflow of resources is only reported on the government-wide statement of net position.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a corresponding amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year.

All funds other than agency funds are legally required to be budgeted and appropriated; however, only governmental funds are required to be reported. The primary level of budgetary control is at the object level for the general fund and the fund level for all other funds of the District. Supplemental budgetary modifications at or above this level may only be made by resolution of the Board of Education.

1. Tax Budget - Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the County Budget Commission for rate determination. Montgomery County has waived this requirement for the District.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

2. Estimated Resources - Prior to April 1, the Board accepts by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to July 1, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported as the final budgeted amount on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during fiscal year 2018.
3. Appropriations - A temporary appropriation measure to control expenditures may be passed on or about July 1 of each year for the period July 1 through September 30. An annual appropriation resolution must be passed by October 1 of each year for the period July 1 through June 30. The appropriation resolution establishes spending controls at the fund level except for the general fund which is budgeted at the object level. The appropriation resolution may be amended during the year as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources as certified. The allocation of appropriations among departments and objects within a fund may be modified during the year by management. During the year, several supplemental appropriations were necessary to budget the use of contingency funds. Administrative control is maintained through the establishment of more detailed line-item budgets. The budgetary figures which appear in the statement of revenues, expenditures, and changes in fund balance - budget and actual are provided on the financial statement basis to provide a comparison of actual results to the final budget, including all amendments and modifications.
4. Encumbrances - As part of formal budgetary control, purchase orders, contracts and other commitments for expenditures are encumbered and recorded as the equivalent of expenditures in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. However, on the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities.
5. Lapsing of Appropriations - At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be re-appropriated.
6. Budgetary Basis of Accounting - The District's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on a cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting. Encumbrances are recorded as the equivalent of expenditures (budgetary basis) as opposed to a restricted, committed, or assigned designation of fund balance (GAAP basis).

F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the basic financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

During fiscal year 2018, the District's investments included, federal agency securities, U.S. government money market mutual funds, and the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for non-participating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as nonnegotiable certificates of deposit, are reported at cost.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For fiscal year 2018, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$100 million, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Under existing Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2018 totaled \$274,894, which includes \$47,391 assigned from other District funds.

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investments at year end is provided in Note 4.

G. Inventory

On government-wide financial statements, material and supplies inventory is presented at cost, inventory held for resale is presented at the lower of cost or market and donated commodities are presented at their fair value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the purchase method on the fund statements and using the consumption method on the government wide financial statements.

On the fund financial statements, reported material and supplies inventory is equally offset by a nonspendable fund balance in the governmental funds, which indicates that it does not constitute available spendable resources even though it is a component of current assets. Inventory consists of expendable supplies held for consumption, donated food and purchased food.

H. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The original costs of governmental activities capital assets have been determined by identifying historical costs. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates are determined by indexing estimated current costs to the estimated year of acquisition.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The District maintains a capitalization threshold of \$2,500. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset life are not. Interest incurred during the construction of capital assets is also capitalized.

All capital assets except land and construction in progress are depreciated. Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and improvements	80 years
Furniture, fixtures, and equipment and vehicles	5 - 20 years

I. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds; however, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, notes, certificates of participation and capital leases are recognized as a liability on the fund financial statements when due.

J. Issuance Costs, Premiums and Discounts, and Accounting Gain or Loss

On both the government-wide financial statements and the fund financial statements, issuance costs are recognized in the period in which they are incurred.

On the government-wide financial statements, bond and note premiums and discounts are amortized over the term of the bonds and notes using the straight-line method, which approximates the effective interest method. Premiums are presented as an addition to the face amount of the bonds, notes and certificates of participation and discounts are presented as a reduction to the face amount of the bonds, notes and certificates of participation. On the governmental fund financial statements, premiums and discounts are recognized in the period in which these items are incurred. The reconciliation between the face value of bonds, notes and certificates of participation and the amount reported on the statement of net position is presented in Note 12.

For current and advance refundings resulting in the defeasance of debt reported in the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the refunded debt is amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining term of the old debt or the term of the new debt, whichever is shorter, and is presented on the statement of net position as a deferred inflow of resources or a deferred outflow of resources.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

K. Compensated Absences

In accordance with the provisions of GASB Statement No. 16, "*Accounting for Compensated Absences*", a liability for vacation leave is accrued if (a) the employees' rights to payment are attributable to services already rendered; and (b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. The District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service. A liability for sick leave is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at June 30, 2018, by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for sick leave for employees expected to become eligible to retire in the future, all employees with at least 5 years of service were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and sick leave payments has been calculated using pay rates in effect at June 30, 2018 and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments.

Compensated absences accumulated by governmental fund type employees are reported as an expense when earned in the government-wide financial statements. For governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not recorded.

The entire compensated absences liability is reported on the government-wide financial statements.

L. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. These classifications are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable in the general fund.

Restricted - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

**KETTERING CITY SCHOOL DISTRICT
MONTGOMERY COUNTY, OHIO**

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Assigned - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes, but do not meet the criteria to be classified as committed. The Board of Education has by resolution authorized the treasurer to assign fund balance. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

M. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents amounts restricted for a special trust.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

N. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

O. Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets on the balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed.

**KETTERING CITY SCHOOL DISTRICT
MONTGOMERY COUNTY, OHIO**

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

At the fiscal year end, because prepayments are not available to finance future governmental fund expenditures, the fund balance is nonspendable on the fund financial statements by an amount equal to the carrying value of the assets.

P. Interfund Balances

On fund financial statements, receivables and payables resulting from cash deficits among the governmental activities are classified as amounts “due to/from other funds”. On fund financial statements, receivables and payables resulting from short-term interfund loans between governmental funds are classified as “interfund loans receivable/payable.” These amounts are eliminated in the governmental activities column on the statement of net position.

Q. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in the governmental funds and as an adjustment to net position following nonoperating revenues/expenses in the proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Interfund activity between governmental funds is eliminated in the statement of activities.

R. Private/Parochial Schools

The Archbishop Alter High School, Ascension Elementary School, Montessori Center of South Dayton, St. Albert the Great Elementary School, and St. Charles Borromeo Elementary School are private and parochial schools that operate within the District’s boundaries. Current State legislation provides funding to these private and parochial schools. Funds are received and disbursed on behalf of the private and parochial schools by the Treasurer of the District, as directed by these institutions. The fiduciary responsibility of the District for these monies is reflected in a nonmajor governmental fund for financial reporting purposes.

S. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires that management make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

T. Extraordinary and Special items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2018.

U. Fair Value

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

MONTGOMERY COUNTY, OHIO**

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles/Restatement of Net Position

For fiscal year 2018, the District has implemented GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pension", GASB Statement No. 81 "Irrevocable Split-Interest Agreements" GASB Statement No. 85, "Omnibus 2017" and GASB Statement No. 86, "Certain Debt Extinguishments".

GASB Statement No. 75 improves the accounting and financial reporting by state and local governments for postemployment benefits other than pension (OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. The implementation of GASB Statement No. 75 affected the District's postemployment benefit plan disclosures, as presented in Note 15 to the basic financial statements, and added required supplementary information.

GASB Statement No. 81 improves the accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The implementation of GASB Statement No. 81 did not have an effect on the financial statements of the District.

GASB Statement No. 85 addresses practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and OPEB. The implementation of GASB Statement No. 85 did not have an effect on the financial statements of the District.

GASB Statement No. 86 improves consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources - resources other than the proceeds of refunding debt - are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The implementation of GASB Statement No. 86 did not have an effect on the financial statements of the District.

A net position restatement is required in order to implement GASB Statement No 75. The governmental activities at July 1, 2017 have been restated as follows:

	Governmental Activities
Net position as previously reported	\$ (84,861,003)
Deferred outflows - payments subsequent to measurement date	273,347
Net OPEB liability	<u>(34,411,401)</u>
Restated net position at July 1, 2017	<u><u>\$(118,999,057)</u></u>

Other than employer contributions subsequent to the measurement date, the District made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available. The restatement had no effect on fund balances.

B. Deficit Fund Balances

Fund balances at June 30, 2018 included the following individual fund deficits:

<u>Nonmajor funds</u>	<u>Deficit</u>
Pathfinder/preschool	\$ 462,402
Public school preschool	41,785
Vocational education enhancement	6,745
Adult basic education	44,234
IDEA Part B	231,061
Bilingual education	40
Title I	213,459
Preschool grant	32,595
Improving teacher quality	18,694
Other federal programs	1,303

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than five years from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

3. Written repurchase agreements in the securities listed above provided that the fair value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described items in (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by the financial institutions' participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash with Fiscal Agent

At June 30, 2018, \$17,976 was on deposit in the District's debt service clearing account. This amount is not part of the District's internal investment pool and has been excluded from the total amount of deposits reported below. The balance of this account is reported on the financial statements as "cash with fiscal agent".

B. Deposits with Financial Institutions

At June 30, 2018, the carrying amount of all District deposits was \$4,630,127. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2018, \$4,599,553 of the District's bank balance of \$5,099,553 was exposed to custodial risk as discussed below, while \$500,000 was covered by the FDIC.

**KETTERING CITY SCHOOL DISTRICT
MONTGOMERY COUNTY, OHIO**

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Custodial credit risk is the risk that, in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the District's and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2018, the District's financial institutions were approved for a reduced collateral rate of 50 percent through the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the District to a successful claim by the FDIC.

C. Investments

The District's investments at June 30, 2018, were as follows:

Measurement/ Investment type	Measurement value	Investment maturity				
		6 months or less	7 to 12 months	13 to 18 months	19 to 24 months	Greater than 24 months
<i>Fair value:</i>						
FHLB	\$ 2,945,220	\$ -	\$ -	\$ -	\$ 490,685	\$ 2,454,535

At June 30, 2018, the weighted average yield to maturity of the District's investments is 0.84 years.

The District's investments in U.S. Government money market mutual funds are valued using quoted market prices in active markets (Level 1 inputs). The District's investments in federal agency securities are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from changing interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: STAR Ohio and the U.S. government money market carry ratings of AAAm by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District's federal agency securities were rated Aaa by Moody's Investor Services and AA+ by Standard and Poor's. The District has no investment policy that would further limit its investment choices.

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's federal agency securities are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty's trust department or agent, but not in the District's name. The District has no investment policy dealing with investment custodial risk beyond the requirements of State statute.

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2018:

FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 5 - PROPERTY TAXES - (Continued)

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2018 represent the collection of calendar year 2017 taxes. Real property taxes received in calendar year 2018 were levied after April 1, 2017, on the assessed values as of January 1, 2017, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2018 represent the collection of calendar year 2017 taxes. Public utility real and personal property taxes received in calendar year 2018 became a lien on December 31, 2016, were levied after April 1, 2017, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Montgomery and Greene Counties. The County Auditors periodically advance to the District their portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2018, are available to finance fiscal year 2018 operations. The amount available as an advance at June 30, 2018 was \$4,111,018 in the general fund, \$423,974 in the bond retirement fund and \$247,915 in the permanent improvement fund. This amount is recorded as revenue. The amount available for advance at June 30, 2017 was \$2,954,407 in the general fund, \$327,831 in the bond retirement fund and \$199,040 in the permanent improvement fund. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2018 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

The assessed values upon which the fiscal year 2018 taxes were collected are:

	2017 Second Half Collections		2018 First Half Collections	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/residential and other real estate	\$ 1,115,070,750	90.37	\$ 1,190,723,510	90.30

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 6 - PAYMENT IN LIEU OF TAXES

The District has entered into tax incremental financing agreements with local companies. These companies were granted reductions or exemptions from property tax obligations to encourage economic development in the area; however, as part of these agreements, the companies make payments in lieu of taxes to the District to compensate the District for its portion of the reduction in property tax receipts. On the governmental fund financial statements, payment in lieu of taxes receipts totaled \$238,478 in the general fund during fiscal year 2018.

NOTE 7 - RECEIVABLES

Receivables at June 30, 2018 consisted of taxes, accounts, accrued interest, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs and the current year guarantee of federal funds. A summary of the principal items of receivables reported on the statement of net position follows:

Governmental activities:

Property taxes	\$ 70,038,466
Accounts	17,433
Accrued interest	41,638
Intergovernmental	<u>1,360,512</u>
Total	<u>\$ 71,458,049</u>

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within the one year.

NOTE 8 - INTERFUND TRANSFERS

Following is a summary of transfers in and out for all funds at June 30, 2018:

<u>Fund</u>	<u>Transfers in</u>	<u>Transfers out</u>
General fund	\$ 840,219	\$ 18,500
Nonmajor governmental funds	18,500	-
Health insurance internal service fund	-	<u>840,219</u>
Total	<u>\$ 858,719</u>	<u>\$ 858,719</u>

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Since the District is no longer self-insured for employee health insurance, a transfer of \$840,219 was made from the health insurance internal service fund to the general fund. This amount represents the closure of the health insurance internal service fund.

Interfund transfers between governmental funds are eliminated on the statement of activities.

NOTE 9 - INTERFUND BALANCES

Interfund balances at June 30, 2018, as reported on the fund statements, consist of the following individual short-term interfund loans receivable and payable:

<u>Receivable fund</u>	<u>Payable fund</u>	<u>Amount</u>
General fund	Nonmajor governmental funds	<u>\$ 460,700</u>

The primary purpose of the interfund balance is to cover costs in various funds where revenues were not received by June 30. The interfund balance will be repaid once the anticipated revenues are received. The interfund balance is expected to be repaid within one year.

Interfund balances between governmental funds are eliminated on the government-wide financial statements.

NOTE 11 - CAPITAL LEASES - LESSEE DISCLOSURE

During fiscal year 2017, the District entered into a capitalized lease for copier equipment. Capital lease payments have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. These expenditures are reported as function expenditures on the budgetary statements.

Capital assets consisting of equipment have been capitalized in the amount of \$729,093. This amount represents the present value of the minimum lease payments at the time of acquisition. A corresponding liability is recorded in the government-wide financial statements. Principal payments in fiscal year 2018 totaled \$133,109 paid by the general fund. Accumulated depreciation as of June 30, 2018 was \$291,637 leaving a current book value of \$437,456.

E. Capital Lease Obligation

The District's capital lease obligation is described in Note 11.

F. Tax Anticipation Notes

2016A tax anticipation notes - On August 17, 2016, the District issued \$2,500,000 in 2016A tax anticipation notes to finance various permanent improvements. The notes are payable only from the receipts of the 3.4 mill permanent improvement property tax levy approved by District voters on March 15, 2016. The notes bear interest rates ranging from 1.25% to 3.00% with interest payments due on June 1 and December 1 of each year until final maturity at December 1, 2021. Debt service payments are made from the permanent improvement fund.

2016B tax anticipation notes - On August 17, 2016, the District issued \$2,500,000 in 2016B tax anticipation notes to finance various permanent improvements. The notes are payable only from the receipts of the 3.4 mill permanent improvement property tax levy approved by District voters on March 15, 2016. The notes bear interest rates ranging from 1.25% to 4.00% with interest payments due on June 1 and December 1 of each year until final maturity at December 1, 2026. Debt service payments are made from the permanent improvement fund.

G. Certificates of Participation

On August 15, 2017, the District issued \$11,530,000 in certificates of participation (COPs) for the purpose of construction, renovating and improving District facilities, including, but not limited to, the demolition of existing auditorium space and the construction of a new 950 seat auditorium at Kettering Fairmont High School. The COPs were issued for a thirty-year period with final maturity in fiscal year 2047. The COPs were issued through a series of lease agreements and trust indentures in accordance with Ohio Revised Code Section 3313.375. In accordance with the lease terms, the project assets are leased to the Ohio School Building Leasing Corporation, and then subleased back to the District. The COPs were issued through a series of annual leases with the initial lease beginning on August 15, 2017 and expiring on June 30, 2018. The lease may be renewed for successive one-year terms each beginning on July 1 and terminating on June 30, except that the final renewal period will terminate on December 1, 2046. Renewals of the lease are subject to annual appropriations. To satisfy the trustee agreements, the District is required to make annual base rent payments, subject to the lease terms and appropriations, semi-annually. The base rent includes an interest component of 2.00-4.00 percent. The District has the option to purchase the renovations on any lease payment date by paying the amount necessary to defease the indenture. The COPs will be paid from property taxes from the permanent improvement fund. At June 30, 2018, \$6,776,152 of COPs proceeds remains unspent.

H. General Obligation Bonds

At June 30, 2018, the District had seven outstanding general obligation bond issuances. These bonds were used to finance the construction and/or renovation of the District's buildings, to finance renovations to reduce the District's energy consumption, and to advance refund previous issuances. These general obligation bonds are direct obligations of the District for which its full faith, credit, and resources are pledged and payable from taxes levied on all taxable property in the District. Payments of principal and interest related to these bonds are recorded as expenditures of the bond retirement fund, except for the 2013 energy conservation bonds, which are paid from the general fund.

The following is a schedule of activity of the District's general obligation bonds:

	Balance 6/30/17	Additions	Reductions	Balance 6/30/18

Interest payments on the current interest serial refunding bonds are due on June 1 and December 1 of each year until final maturity at December 1, 2022; current interest serial refunding bonds maturing through December 1, 2013 and 2014 bore interest rates of 0.7% and 0.8%, respectively, and current interest serial refunding bonds maturing December 1, 2015 through 2022 bear an interest rate of 3.0%. Debt service payments are made from the bond retirement fund.

The capital appreciation refunding bonds mature on December 1, 2020 at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date at a stated approximate yield to maturity of 2.7%. The accreted value at maturity for the capital appreciation bonds is \$540,000. Total accreted interest of \$219,044 has been included in the statement of net position.

The reacquisition price exceeded the net carrying amount of the old debt by \$535,868. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt.

2013 school improvement - On August 22, 2013, the District issued \$413,000 in 2013 school improvement general obligation bonds to finance new construction and renovations of the District's facilities. The bonds bear an interest rate of 1.78% with a final maturity on December 1, 2018. These bonds are retired from the bond retirement fund.

2013 energy conservation - On November 7, 2013, the District issued \$2,410,000 in 2013 Energy Conservation general obligation bonds to finance the cost of energy conservation measures undertaken throughout the District. The bonds bear interest rates ranging from 1.25% to 4.00% with a final maturity on December 1, 2028. These bonds are retired from the general fund.

2016 school improvement refunding - On September 6, 2016, the District issued 2016 school improvement refunding general obligation bonds to advance refund the District's 2006 school improvement general obligation bonds. The issuance proceeds of \$9,487,185 were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt, the outstanding balance of which totaled \$9,275,000 at June 30, 2018, is considered defeased (in-substance) and, accordingly, has been removed from the statement of net position.

The issue is comprised of current interest refunding bonds, par value \$8,375,000. The interest rate on the current interest refunding bonds is 4.0% with interest payments due on June 1 and December 1 of each year until final maturity at December 1, 2030. Debt service payments are made from the bond retirement fund.

The reacquisition price exceeded the net carrying amount of the old debt by \$917,774. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt.

2017 school improvement refunding - On March 7, 2017, the District issued 2017 school improvement refunding general obligation bonds to advance refund a portion of the District's 2007 school improvement general obligation bonds. The issuance proceeds of \$35,197,862 were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt, the outstanding balance of which totaled \$31,420,000 at June 30, 2018, is considered defeased (in-substance) and, accordingly, has been removed from the statement of net position.

NOTE 12 - LONG-TERM OBLIGATIONS - (Continued)

The issue is comprised of current interest refunding bonds, par value \$30,815,000. Interest rates on the current interest refunding bonds range from 4.25% to 5.00% with interest payments due on June 1 and December 1 of each year until final maturity at December 1, 2025. Debt service payments are made from the bond retirement fund.

The net carrying amount of the old debt exceeded the reacquisition price by \$1,029,847. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt.

NOTE 12 - LONG-TERM OBLIGATIONS - (Continued)

J. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2018, are a voted debt margin of \$61,013,502 (including available funds of \$4,002,344), an unvoted debt margin of \$1,318,568, and an energy conservation debt margin of \$10,022,114.

NOTE 13 - RISK MANAGEMENT

A. Property and Liability Insurance

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2018, the District contracted with Ohio Casualty through Brower Insurance Agency for general liability insurance with a \$1,000,000 per occurrence limit and a \$2,000,000 aggregate. Property is protected by Ohio Casualty through Brower Insurance Agency and holds a \$5,000 occurrence deductible.

The District's vehicles are insured under a policy by Ohio Casualty through Brower Insurance Agency which carries a \$500 deductible and a \$1,000,000 combined single limit on any accident.

The District has earthquake (\$5,000,000 limit) and flood (\$1,000,000 limit) insurance with Ohio Casualty through Brower Insurance Agency. The District also has a \$10,000,000 limit umbrella policy with Ohio Casualty through Brower Insurance Agency.

Settled claims have not exceeded insurance coverage during the last three years, and there have been no significant reductions in insurance coverage during the fiscal year.

B. Workers' Compensation

The District pays the Ohio Bureau of Workers' Compensation a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

C. Employee Benefits

The District provides life insurance and accidental death and dismemberment insurance to most employees through Sun Life Insurance Company.

The District offers a Section 125 Plan for employee liabilities arising in connection with the Employee Benefits Self-Insurance Program. This program is also accounted for as an agency fund. The District records liabilities for the Employee Self-Insurance Fund for incurred but not reported claims, which represent employee out-of-pocket expenses processed but not paid.

NOTE 13 - RISK MANAGEMENT - (Continued)

The District was self-insured for employee dental care benefits and health insurance benefits until December 31, 2015. The dental program was administered by CoreSource, which provided claims review and processing services. The health program was administered by United Health Care, which provided claims review and processing services. Both of the self-insurance programs are accounted for in the District’s internal service funds.

Effective January 1, 2016, the District joined the Southwestern Ohio Educational Purchasing Cooperative Employee Benefit Plan to provide health and dental benefits to employees. As of June 30, 2018, the District transferred all remaining funds in the self-insurance health fund to the general fund. The remaining balance in the self-insurance dental fund will be depleted in a future fiscal year using “dental holidays”.

The claims activity of the District’s dental care self-insurance program for fiscal years 2018 and 2017 are as follows:

Fiscal Year	Beginning Balance	Claims & Changes in Estimates	Claims Payments	Ending Balance
2018	\$ -	\$ -	\$ -	-
2017	-	2,484	(2,484)	-

NOTE 14 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

The Ohio Revised Code limits the District’s obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees’ services in exchange for compensation including pension.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *pension and postemployment benefits payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Plan Description - The District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire after August 1, 2017
Full benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially reduced benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2018, the allocation to pension, death benefits, and Medicare B was 13.5 percent. The remaining 0.5 percent of the employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$2,235,580 for fiscal year 2018. Of this amount, \$95,159 is reported as pension and postemployment benefits payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description - Licensed teachers participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. Effective July 1, 2017, the cost-of-living adjustment was reduced to zero. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 26 years of service, or 31 years of service regardless of age. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

NOTE 14 - DEFINED BENEFIT PENSION PLANS - (Continued)

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For fiscal year 2018, plan members were required to contribute 14 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2018 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$6,301,780 for fiscal year 2018. Of this amount, \$1,170,272 is reported as pension and postemployment benefits payable.

Net Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2017, are presented below:

Wage inflation	3.00 percent
Future salary increases, including inflation	3.50 percent to 18.20 percent
COLA or ad hoc COLA	2.50 percent
Investment rate of return	7.50 percent net of investments expense, including inflation
Actuarial cost method	Entry age normal (level percent of payroll)

Prior to 2017, an assumption of 3 percent was used for COLA or Ad Hoc COLA.

For 2017, the mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members was based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Equity	22.50	4.75
International Equity	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	<u>100.00 %</u>	

Discount Rate - The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
District's proportionate share of the net pension liability	\$ 40,466,401	\$ 29,159,927	\$ 19,688,449

For the July 1, 2017, actuarial valuation, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For the July 1, 2016 actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

Actuarial assumptions used in the July 1 2017, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016. Actuarial assumptions used in the June 30, 2016, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

STRS Ohio's investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

*10-Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate - The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2017. The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2016. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2017. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2017.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

NOTE 15 - DEFINED BENEFIT OPEB PLANS

Net OPEB Liability

The net OPEB liability reported on the statement of net position represents a liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability represents the District's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

The Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in *pension and postemployment benefits payable* on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

NOTE 15 - DEFINED BENEFIT OPEB PLANS - (Continued)

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2018, .5 percent of covered payroll was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2018, this amount was \$23,700. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2018, the District's surcharge obligation was \$272,329.

The surcharge added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$355,128 for fiscal year 2018. Of this amount, \$275,853 is reported as pension and postemployment benefits payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description - The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy - Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2018, STRS did not allocate any employer contributions to post-employment health care.

Net OPEB Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2017, are presented below:

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

Discount Rate - The discount rate used to measure the total OPEB liability at June 30, 2017 was 3.63 percent. The discount rate used to measure total OPEB liability prior to June 30, 2017 was 2.98 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.56 percent, as of June 30, 2017 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates - The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.63%) and higher (4.63%) than the current discount rate (3.63%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.5% decreasing to 4.0%) and higher (8.5% decreasing to 6.0%) than the current rate.

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2017, actuarial valuation are presented below:

Inflation	2.50 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment rate of return	7.45 percent, net of investment expenses, including inflation
Payroll increases	3 percent
Cost-of-living adjustments (COLA)	0.0 percent, effective July 1, 2017
Blended discount rate of return	4.13 percent
Health care cost trends	6 to 11 percent initial, 4.5 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2017, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

Also since the prior measurement date, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2019. Subsequent to the current measurement date, the date for discontinuing remaining Medicare Part B premium reimbursements was extended to January 2020.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

*10-Year geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate - The discount rate used to measure the total OPEB liability was 4.13 percent as of June 30, 2017. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was not projected to be sufficient to make all projected future benefit payments of current plan members. The OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2037. Therefore, the long-term expected rate of return on OPEB plan assets was used to determine the present value of the projected benefit payments through the fiscal year ending June 30, 2036 and the Bond Buyer 20-year municipal bond rate of 3.58 percent as of June 30, 2017 (i.e. municipal bond rate), was used to determine the present value of the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The blended discount rate of 4.13 percent, which represents the long-term expected rate of return of 7.45 percent for the funded benefit payments and the Bond Buyer 20-year municipal bond rate of 3.58 percent for the unfunded benefit payments, was used to measure the total OPEB liability as of June 30, 2017. A blended discount rate of 3.26 percent which represents the long term expected rate of return of 7.75 percent for the funded benefit payments and the Bond Buyer 20-year municipal bond rate of 2.85 percent for the unfunded benefit payments was used to measure the total OPEB liability at June 30, 2016.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount and Health Care Cost Trend Rate - The following table represents the net OPEB liability as of June 30, 2017, calculated using the current period discount rate assumption of 4.13 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.13 percent) or one percentage point higher (5.13 percent) than the current assumption. Also shown is the net OPEB liability as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

NOTE 16 - CONTINGENCIES

A. Grants

The District receives financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds; however, in the opinion of management, any such disallowed claims will not have a material, adverse effect on the overall financial condition of the District at June 30, 2018.

B. Litigation

The District is not a party to any legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects as of June 30, 2018.

C. Foundation Funding

District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2018 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2018 financial statements is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of, the District.

NOTE 18 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenues, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to an assigned or committed portion of available fund balance for outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis); and,
- (e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

	<u>General fund</u>
Budget basis	\$ (3,275,787)
Net adjustment for revenue accruals	1,223,865
Net adjustment for expenditure accruals	(487,641)
Net adjustment for other sources	(1,055,048)
Funds budgeted elsewhere	135,214
Adjustment for encumbrances	763,795
GAAP basis	<u>\$ (2,695,602)</u>

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. These include the uniform school supplies fund, the rotary special services fund, the public school support fund, and the special enterprise fund.

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 19 - SET-ASIDES

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

During fiscal years 1998, 2003, 2014, 2017 and 2018, the District issued \$120,943,000 in capital related school improvement bonds, tax anticipation notes and certificates of participation. These proceeds may be used to reduce capital acquisition to zero in future years. The District is responsible for tracking the amount of the bond and note proceeds that may be used as an offset in future periods, which was \$120,943,000 at June 30, 2018.

The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

	Capital Improvements
Set-aside balance June 30, 2017	\$ -
Current year set-aside requirement	1,300,617
Current year qualifying expenditures	(527,921)
Current year offsets	(4,414,559)
Total	\$ (3,641,863)
Balance carried forward to fiscal year 2019	\$ -

Although the District had offsets and qualifying disbursements during the year that reduced the capital improvements set-aside amount to below zero, the excess of current year offsets and qualifying disbursements over the set-aside requirement may not be used to reduce the set-aside requirements of future years. This negative amount is therefore not presented as being carried forward to the next fiscal year.

NOTE 20 - OTHER COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. To the extent of available balances, encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

Fund	Year-End Encumbrances
General fund	\$ 342,210
Bond retirement fund	14,596
Permanent improvement fund	7,798,762
Nonmajor governmental funds	153,982
Total	\$ 8,309,550

NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2018

NOTE 21 - TAX ABATEMENTS ENTERED INTO BY OTHER GOVERNMENTS

The City of Kettering and the City of Moraine provide tax abatements through two programs - Enterprise Zone Agreements and Community Reinvestment Area (CRA) Agreements. Under the agreements, various businesses receive the abatement of property taxes to bring jobs and economic development to the Cities. The agreement affects the property tax receipts collected and distributed to the District. Under the agreements, the District property taxes were reduced by \$509,917 during fiscal year 2018.

NOTE 22 - CONTRACTUAL COMMITMENTS

As of June 30, 2018, the District has commitments with the following companies for the auditorium project:

Contractor	Contract Amount	Amount Paid as of June 30, 2018	Amount Remaining on Contract
Shook Touchstone, Inc.	\$ 11,000,000	\$ 2,980,709	\$ 8,019,291
Ruetschle Architects	891,094	748,815	142,279
Total	<u>\$ 11,891,094</u>	<u>\$ 3,729,524</u>	<u>\$ 8,161,570</u>

In addition to the amounts paid above, the District has recorded contracts payable in the amount of \$1,491,417 for costs incurred prior to fiscal year end on the various project. Costs incurred by fiscal year end (including contracts payable) have been recorded as construction-in-progress in the District's capital assets (See Note 10).

NOTE 23 - SUBSEQUENT EVENT

On November 6, 2018, the District's voters approved an additional 5.99 mill current expenses levy. This levy commences in calendar year 2019.

*Combining and Individual Fund
Statements and Schedules*

The following combining statements and schedules include the major and nonmajor governmental funds, internal service funds, and agency funds.

KETTERING CITY SCHOOL DISTRICT
MONTGOMERY COUNTY, OHIO

**KETTERING CITY SCHOOL DISTRICT
MONTGOMERY COUNTY, OHIO**

FUND DESCRIPTIONS - GOVERNMENTAL FUNDS

Major Funds

General Fund

The general fund is the general operating fund of the District and is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio. The general fund's activities include, but are not limited to, instruction, support services, operations and maintenance, pupil transportation, and operation of non-instructional services.

Bond Retirement Fund

The bond retirement fund is used to account for the accumulation of resources that are restricted, committed, or assigned for the payment of general obligation bond principal and interest from governmental resources.

Permanent Improvement Fund

This fund is provided to account for all transactions related to the acquiring, constructing, or improving of such permanent improvements as are authorized by Chapter 5705 of the Ohio Revised Code.

Nonmajor Special Revenue Funds

The special revenue funds are used to account for the proceeds of specific revenue sources (other than amounts relating to expendable or nonexpendable trusts, or amounts restricted, committed, or assigned to expenditure for the purposes of debt service or capital projects) that are legally restricted to expenditure for specified purposes or committed for specified purposes by formal resolution by the Board of Education. The title of each special revenue fund is descriptive of the activities accounted for therein. The nonmajor special revenue funds are as follows:

Food Service Fund

This fund accounts for the financial transactions related to the food service operations of the District.

Special Trust Fund

This fund accounts for assets held in a trustee capacity to support District programs.

Pathfinder/Preschool Fund

This fund accounts for receipts and expenditures in conjunction with preschool activities.

Athletic Fund

This fund accounts for revenues supporting athletic and other extracurricular activities managed by the District.

Auxiliary Services Fund

This fund accounts for funds which provide services and materials to pupils attending non-public schools within the District.

Public School Preschool Fund

This fund accounts for programs for early childhood education for disadvantaged children between four and five years of age.

Data Communications Fund

This fund is used to account for monies received for the maintenance of the Ohio Educational Computer Network connections.

Alternative Fund

This fund accounts for the District's alternative education challenge grant.

Other State Funds Fund

This fund accounts for State monies to provide support and education to parents of children with disabilities, to provide the opportunity for parents to participate in regularly scheduled support groups, and to provide for the use of the productivity improvement challenge program to expand, enhance and upgrade career programming for students in southern Montgomery County school districts.

FUND DESCRIPTIONS - GOVERNMENTAL FUNDS

Nonmajor Special Revenue Funds (Continued)

Adult Basic Education Fund

This fund accounts for federal monies used to provide programs in reading, writing and math competency for adults that do not have a high school diploma.

Improving Teacher Quality Fund

This fund accounts for transactions to strengthen instruction in science, mathematics, modern foreign languages, English, the arts, and computer learning.

Individuals with Disabilities Education Act, Part B (IDEA Part B) Fund

This fund accounts for federal funds to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full education opportunities to handicapped children at the preschool, elementary, and secondary levels. This fund was previously reported as the Education for Economic Security Act (ESSA Title VI-B) Fund.

Carl D. Perkins Fund

This fund accounts for the provision of funds to boards of education, teacher training institutions, and the state administering agency for cooperating in development of vocational education programs in the following categories: post-secondary, adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, construction of area vocational schools, research, advisory committees, and work-study projects, including sex equity grants. Funds are administered by the Ohio Department of Education, Division of Vocational and Career Education.

Bilingual Education Fund

This fund accounts for the provision of funds to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

Title I Fund

This fund accounts for federal monies used to assist the District in meeting the special needs of educationally deprived children.

Preschool Grant Fund

This fund is provided to account for the District's preschool grant activities.

Other Federal Programs Fund

This fund accounts for the activities of systemic grants, classrooms reduction grant, America Reads program, and school to work program.

Vocational Education Enhancement Fund

This fund accounts for funds used to expand or upgrade the District's vocational education programs.

FUND DESCRIPTIONS - GOVERNMENTAL FUNDS

Nonmajor Special Revenue Funds (Continued)

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis). These funds are not included in the combining statements for the nonmajor special revenue funds as they are reported in the general fund (GAAP basis); however, the budgetary schedules for these funds are presented in this section.

Uniform School Supplies Fund

This fund accounts for the purchase and sale of school supplies for use in the District. Profits derived from such sales are used for school purposes or activities connected with the school.

Rotary Special Services Fund

This fund is provided to account for income and expenses made in connection with goods and services provided by the District.

Public School Support Fund

This fund supports the various needs of the school such as supplies and equipment for use in the school, and for support and recognition of school activities as deemed appropriate by the building principal.

Special Enterprise Fund

This fund accounts for the financial transactions related to morning and afternoon supervision child care program. This fund also accounts for building rental revenue associated with Trent Arena.

Nonmajor Capital Projects Funds

The capital projects funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary or trust funds.

Building Fund

This fund is used to account for the receipts and expenditures related to all special bond funds in the District. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

Replacement Fund

This fund is provided to account for monies used in the rebuilding, restoration or improvement of property which has been totally or partially destroyed due to any cause.

Nonmajor Permanent Fund

The permanent fund is used to account for the financial resources that are legally restricted in that only the earnings, not the principal, may be used to support the District's programs.

Permanent Fund

This fund is used to account for money, securities, or lands which have been set aside as an investment for public school purposes. The income from such a fund may be expended, but the principal must remain intact.

Notes:

Presented on a calendar year basis because that is the manner in which the information is maintained by the Counties.

Delinquent tax collections are available only by collection year rather than the year in which they were levied; therefore, the percentage of total tax collections collections to tax levy exceeds 100 percent in some years. The District will continue to work with the County Auditors to retrieve this information in the future.

- (1) Taxes levied and collected are presented on a cash basis.
- (2) State reimbursements of rollback and homestead exemptions are included; December 2008 settlement estimate included.
- (3) Penalties and interest are included, since by Ohio law they become part of the tax obligation as assessment occurs.
