Independent Accountants' Report on Applying Agreed-Up Procedures

Ohio Department of Medicaid
50 West Town Street, Suite 400
Columbus, Ohio 43215

RE: Rebecca Brewster, C.N.P. NPI: 1144658527
Program Year 2017: Meaningful Use Stage 2 Year 1

We have performed the procedures enumerated below, which were agreed to by the Ohio Department of Medicaid (ODM), on Rebecca Brewster's (hereafter referred to as the Provider) compliance with the requirements of the Medicaid Promoting Interoperability Program (MPIP) for the year ended December 31, 2017. The Provider is responsible for compliance with the MPIP requirements. The sufficiency of these procedures is solely the responsibility of ODM. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

1. We scanned the encounters during the patient volume attestation period, found no duplicate encounters and noted multiple payer sources. We calculated the Medicaid patient volume and confirmed that the Provider met the 30 percent requirement.
2. We compared the system generated dashboards to the applicable criteria and to the summaries for Meaningful Use Objectives 3 through 9 and the Clinical Quality Measures. We found Objective 6: Patient Specific Education did not meet the applicable criteria. All other reported objectives met the applicable criteria. We also noted variances greater than 10 percent between these reports in the reported percentages for Objective 5: Health Information Exchange; Objective 8, Measure 1: Timely Patient Access; CMS 069: Preventative Care and Screening-Body Mass Index (BMI) Screening and Follow Up; CMS 138: Tobacco Use: Screening and Intervention; and CMS: 160 Depression Utilization of the PHQ -9 Tool. As a result we performed additional procedures.
3. The Provider's location was now using a newer version of the electronic health record (EHR) software reported in the MPIP system. We confirmed that the newer version of the EHR software was approved by the Office of the National Coordinator of Health IT.
4. We obtained the Provider's equipped practice location during the meaningful use period and compared this to the location included in the meaningful use report. We found no exception.
5. We compared supporting documentation for 9 of the 10 objectives to the applicable criteria. The Provider did not submit supporting documentation for Objective 2, Measure 1: Clinical Decision Support. The Provider did not meet the applicable criteria for Objective 6: Patient Specific Education. For those objectives that require only unique patients be counted, we scanned the detailed data for each query and found no duplicates.

Efficient • Effective • Transparent

6. We compared the system generated dashboard for the clinical quality measures to the applicable criteria and found the minimum requirements were met.

This agreed-upon procedures engagement was conducted in accordance with the American Institute of Certified Public Accountants' attestation standards. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Provider's compliance with the requirements of the Medicaid Promoting Interoperability Program. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported.

This report is intended solely for the information and use of the ODM, and is not intended to be, and should not be used by anyone other than the specified party.
