City Council  
City of Loveland  
120 West Loveland Avenue  
Loveland, Ohio 45140

We have reviewed the *Independent Auditors' Report* of the City of Loveland, Hamilton County, prepared by Clark, Schaefer, Hackett & Co., for the audit period January 1, 2020 through December 31, 2020. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Loveland is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Keith Faber".

Attachment: Comprehensive Annual Financial Report

**This page intentionally left blank.**

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON  
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

**INDEPENDENT AUDITORS' REPORT**

To the City Council  
City of Loveland, Ohio

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Loveland (the "City") as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated June 25, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal controls that we consider to be material weaknesses. However, we did identify a certain deficiency in internal control, described in the accompanying schedule of findings and responses as 2020-001 that we consider to be a significant deficiency.

### **City's Response to the Findings**

The City's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*Clark, Schaefer, Hackett & Co.*

Cincinnati, Ohio  
June 25, 2021

**CITY OF LOVELAND, OHIO**  
**Schedule of Findings and Responses**  
**Year Ended December 31, 2020**

2020-001      **Financial Reporting**

During the course of our audit, we identified a misstatement in the financial statements that was not initially identified by the City's internal control over financial reporting. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. In this case, the internal controls over the preparation and review of the City's financial statements did not operate as designed. The City contracts with a third-party consultant to prepare its year-end financial statements. While the City may rely on the consultant to provide technical assistance and financial statement preparation, it is still the responsibility of the City to review the financials prepared by the consultant for errors and omissions.

An audit adjustment to the financial statements was necessary to correct an error in the Coronavirus Relief Fund due to an overstatement of intergovernmental revenue.

We recommend the City enhance its internal controls over financial reporting with steps such as management's review of conversion documentation for completeness and accuracy and improved communication with hired consultants to ensure the preparation of complete, accurate and reliable financial statements in conformity with generally accepted accounting principles.

***Views of Responsible Officials:*** *The City recognizes that the unspent advanced funding should have been recorded as unearned revenue. As the City continues to support new personnel particularly in the Director of Finance roles, particular attention will be given to the education and training of staff along with instituting the appropriate internal controls to decrease the overall likelihood of a material misstatement.*

**City of Loveland**

## **CITY OF LOVELAND**

**120 West Loveland Avenue • Loveland, Ohio 45140**  
**Mark Medlar, Director of Finance**

phone (513) 683-0150

fax (513) 583-3040

June 25, 2021

To the citizens of the City of Loveland, Ohio:

We are pleased to present the Comprehensive Annual Financial Report for the City of Loveland for the fiscal year ending December 31, 2020. This report has been prepared in conformity with generally accepted accounting principles (GAAP) and guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA).

This report represents the City's commitment to conform to nationally recognized standards of excellence in financial reporting. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the City. We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designated to fairly set forth the financial position and results of operations of the City; and that all disclosures necessary to enable the reader to gain an understanding of the City's financial activity have been presented.

This letter should be read in conjunction with the Management Discussion and Analysis (MD&A) that can be found immediately following the Independent Auditor's Report.

### **THE CITY OF LOVELAND**

The City of Loveland is an energetic southwestern Ohio community uniquely situated within three counties: Clermont, Hamilton, and Warren. The City covers approximately 5.2 square miles and serves a population of 13,485 residents. Both the nationally recognized Little Miami Scenic Bike Trail and the Little Miami State and National Scenic River run through its downtown.

The population of Loveland was estimated at 1,000 by 1876 and its incorporation as a village was accomplished in the same year. City status (population more than 5,000) was achieved in 1960 and adoption of a Home Rule Charter followed in 1961. The City of Loveland is a home rule municipality that operates under a Council-Manager form of government, which combines the political leadership of elected officials with managerial experience of an appointed local government manager. The City's responsibilities and structure are outlined in the revised City Charter, which was approved by the voters in 1991, last amended in 2019.

***Letter of Transmittal  
For the Year Ended December 31, 2020***

---

City Council is comprised of seven members elected from the City at large on a nonpartisan basis to serve overlapping four-year terms. The Mayor is selected from among the Council members to serve a two-year term as presiding officer at City Council meetings and as the official head of the City for legislative and ceremonial purposes. The City Council hires an appointed City Manager to be the City's full-time chief executive officer and they also appoint the Clerk of Council, City Solicitor, and the Director of Finance. The latest amended charter changed the reporting relationship of the Director of Finance to the City Manager. Council retains the power to confirm approval or dismissal of the Director of Finance upon recommendation by the City Manager.

General legislative power lies with City Council as the elected representatives of the citizens. Acting as a whole, the Council is responsible for establishing City goals, adopting an annual budget, and passing other ordinances and resolutions necessary for governing citizens, as well as setting the strategic management direction of City policy. The City Manager is responsible for the overall administration of the City; implementing Council's objectives; preparing the annual budget and administering it upon adoption by Council; executing and overseeing all contracts for services and the purchase of materials, supplies and equipment; and keeping City Council advised on the needs and state of the City.

The City provides a wide range of municipal services, including police, planning and zoning, code enforcement, public works, parks and recreation, and general administration. Fire protection and emergency medical services are provided by the Loveland-Symmes Fire Department, which is a private fire company that contracts with the City of Loveland and nearby Symmes Township.

The City operates a waterworks system and storm water utility. The City contracts, currently with Rumpke, for the provision of curbside waste and recycling services for residents. Sewer service is provided by the Metropolitan Sewer District.

The City Council has established various boards and commissions to help in its many efforts to enhance the City. All of these boards and commissions are staffed by volunteers. The following is a list of City Charter established boards and commissions in Loveland. Council may create other advisory boards, Commissions and Committees as may be deemed necessary.

- Civil Service Commission
- Planning and Zoning Commission
- Board of Zoning Appeals
- Recreation Board
- Finance Commission

**ECONOMIC CONDITIONS AND OUTLOOK**

The City of Loveland is ideally located about 15 miles northeast of the Cincinnati city limits with access along Interstate Highway 275 and State Route 48. The City's economy is diverse with a mix of residential, office, and retail uses. Primary employers include the Loveland City School District, McCluskey Automotive, OneSource Employee Management, Swimsafe Pool Management, Kroger, Sheakley HR LLC, and Robert McCabe Company. The City is also home to many recreational retail outlets that take advantage of the Little Miami State and National Scenic River and Little Miami Scenic Bike Trail.

***Letter of Transmittal  
For the Year Ended December 31, 2020***

---

Management is optimistic about the future of the local economy based on annual income tax revenue growth, through compliance efforts and the relocation or expansion of current businesses, along with economic development efforts throughout the City, particularly in the downtown business district, and industrial park. City administration and City Council remain focused on improving the financial stability of Loveland and developing two-year goals to address economic vitality and infrastructure objectives for the future.

**MAJOR INITIATIVES**

In 2018, the City's downtown district completed the recovery from the devastating fires of May 2017 which severely damaged three commercial buildings in the 200 block of West Loveland. Since the completion of the fire damaged buildings, the downtown district has seen continued growth largely within the hospitality sector. As the popularity of the downtown district continues, the city has begun addressing the lack of parking. This effort includes the purchasing of property for the construction of a new parking facility which is currently in the final planning/design stage. The hope is that the new project will not only assist existing downtown businesses, that it will also serve as an economic development tool for additional business start-ups and new jobs.

The City continues to invest in core infrastructure. As many projects were put on hold in 2020 due to the pandemic, much of the focus of city staff was on budgeting and funding major capital projects or initiatives for 2021 which include:

- **2021 Road Rehabilitation** – The City increased its annual road rehabilitation significantly in the 2021 operating budget with a total funding exceeding \$1,000,000 for the first time in the history of the City.
- The City is preparing for the commencement of a new sanitary sewer collection main which will serve a new subdivision in the Warren County portion of the city. The new development, Chimney Ridge, will host the 2022 Homerama Home Show.

Other soon to commence infrastructure projects include:

- Miamiview Culvert Replacement
- Main and Chestnut Street Water Main Replacement
- West Loveland and Wall Street Traffic Signal Upgrades
- West Loveland Bridge Sidewalk and railing replacement
- New Public Works Office Building

In terms of Economic Development, the City permitted \$6,695,726 in private investment in 2020.

While the year represented a low in new housing starts, 2020 included the approval of two new housing developments totaling 55 new residential units.

***Letter of Transmittal  
For the Year Ended December 31, 2020***

---

During 2020, the City of Loveland was recognized for achievements in a variety of areas and by a diverse group of organizations which included:

- **Certificate of Achievement for Excellence in Financial Reporting:** The City of Loveland was recognized by the Government Finance Officers Association for its 2019 Comprehensive Annual Financial Report. The Certificate of Achievement is the highest form of recognition in the area of government accounting and financial reporting and its attainment represents a significant accomplishment by a government and its management. This was the fifth year the City received this distinction.
- **GFOA Distinguished Budget Award:** The City compiles its annual budget in document form. The budget presents anticipated revenues and expenditures by fund and department by category with additional supporting documentation that explains the budgetary process and individual departmental goals. The City's 2020 budget was submitted to the Government Finance Officers Association (GFOA) and received the Distinguished Budget Presentation Award. This was the fourth year the City received this award.

## **INTERNAL CONTROLS**

### Accounting Controls

The City's budgetary accounting system was designed to provide reasonable assurance that:

1. The City's assets are protected against loss and unauthorized use or disposition; and
2. Reliable financial reports for preparing financial statements and providing accountability for assets are maintained.

The concept of reasonable assurance states that internal controls should be evaluated using the following criteria:

1. The expense associated with providing the internal controls should not exceed the benefits likely to be derived from their implementation; and
2. The evaluation of the offsetting costs and benefits involves estimates and judgment by the City Administration and members of the Finance Department.

All internal control evaluations occur within this framework. It is the belief of the administrative and financial management personnel that the City's financial controls adequately safeguard existing assets and provide reasonable assurance of the proper recording of financial transactions.

***Letter of Transmittal  
For the Year Ended December 31, 2020***

---

Budgetary Control

Budgetary control is maintained within the personnel services and non-personnel categories within each department through the encumbering of estimated purchase amounts prior to the release of formal purchase orders to vendors. Purchase orders which result in an overrun above appropriated balances are not released until additional appropriations are made available via amendments to the annual appropriations ordinance.

**RELEVANT FINANCIAL POLICIES**

It is a goal of the City to develop, maintain, and implement financial accounting policies and procedures and protect and optimize the financial resources of the City. The City makes every reasonable effort to provide a sound accounting system for safeguarding the City's assets through the recording and reporting of financial transactions according to mandated laws and guidelines of the Federal law, Ohio Revised Codes, Generally Accepted Accounting Principles (GAAP), and the Codified Ordinances of the City of Loveland.

The City has a long-range capital improvement plan, five-year pro forma reports for major funds, and policies creating emergency reserves for the General Fund and other major funds in accordance with Government Finance Officers Association guidelines. The City also has policies regarding investments and debt limitations.

**INDEPENDENT AUDIT**

The basic financial statements of the City of Loveland were audited by Clark Schaefer Hackett. The independent auditors' unqualified opinion has been included in this report.

**CERTIFICATE OF ACHIEVEMENT**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Loveland for its comprehensive annual financial report for the fiscal year ended December 31, 2019. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. The report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City of Loveland has received a Certificate of Achievement for the last eight consecutive years (fiscal years ended 2012-2019). We believe our current report continues to conform to the Certificate of Achievement program requirements, and it will be submitted to the GFOA for consideration.

***Letter of Transmittal  
For the Year Ended December 31, 2020***

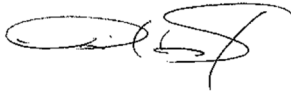

---

**ACKNOWLEDGMENTS**

This report could not have been completed without the assistance of the entire administrative staff of the various departments of the City. We would also like to acknowledge our financial consultants Donald J. Schonhardt & Associates, Inc. for their help in formulating this report.

Our sincere gratitude is also extended to the Loveland City Council and its Finance Commission for their continued interest and support in the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

David Kennedy  
City Manager

Mark Medlar  
Director of Finance

## **INDEPENDENT AUDITORS' REPORT**

To the City Council  
City of Loveland, Ohio:

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Loveland, Ohio (the "City") as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Loveland, Ohio, as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparisons for the General Fund, Paramedic Fund, Fire & EMS Fund and Community Improvement Corporation Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 25, 2021 on our consideration of the City of Loveland's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Loveland's internal control over financial reporting and compliance.

*Clark, Schaefer, Hackett & Co.*

Cincinnati, Ohio  
June 25, 2021

***Management's Discussion and Analysis  
For the Year Ended December 31, 2020***

***Unaudited***

---

The discussion and analysis of the City of Loveland's financial performance provides an overall review of the City's financial activities for the year ended December 31, 2020. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the City's financial performance.

**FINANCIAL HIGHLIGHTS**

Key financial highlights for 2020 are as follows:

- ❑ In total, net position increased \$947,239. Net position of governmental activities increased \$829,479, which represents a 3% increase from 2019. Net position of business-type activities increased \$117,760, or 1% from 2019.
- ❑ General revenues accounted for \$10,227,833 in revenue or 50% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$10,065,699 or 50% of total revenues of \$20,293,532.
- ❑ The City had \$11,873,545 in expenses related to governmental activities; only \$2,479,473 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes) of \$10,223,551 were adequate to provide for these programs.
- ❑ Among major funds, the general fund had \$7,412,652 in revenues and other financing sources and \$6,354,523 in expenditures and other financing uses. The general fund's fund balance increased from \$8,550,530 to \$9,608,659.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of four parts – *management's discussion and analysis*, the *basic financial statements*, *required supplemental information*, and an optional section that presents *combining and individual statements* for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the City:

These statements are as follows:

1. *The Government-Wide Financial Statements* – These statements provide both long-term and short-term information about the City's overall financial status.
2. *The Fund Financial Statements* – These statements focus on individual parts of the City, reporting the City's operations in more detail than the government-wide statements.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

### **Government-wide Statements**

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, liabilities, and deferred outflows/inflows of resources, with the difference being reported as net position. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the City's net position and how it has changed. Net position is one way to measure the City's financial health.

- Over time, increases or decreases in the City's net position is an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the City you need to consider additional nonfinancial factors such as the City's tax base and the condition of the City's capital assets.

The government-wide financial statements of the City are divided into two categories:

- ***Governmental Activities*** – Most of the City's programs and services are reported here including police protection, parks and recreation, planning, zoning, street maintenance and other governmental services.
- ***Business-Type Activities*** – These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. The City's water, sewer, storm water and sanitation services are reported as business-type activities.

### **Fund Financial Statements**

The fund financial statements provide more detailed information about the City's most significant funds, not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

***Governmental Funds*** – Most of the City's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

***Proprietary Funds*** – Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match.

**Management’s Discussion and Analysis  
For the Year Ended December 31, 2020**

**Unaudited**

**Fiduciary Funds** – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City’s own programs. All of the City’s fiduciary activities are reported in a separate Statement of Fiduciary Net Position and Statement of Changes in Fiduciary Net Position.

**FINANCIAL ANALYSIS OF THE CITY AS A WHOLE**

The following table provides a comparison of the City’s net position at December 31, 2020 and 2019:

	Governmental Activities		Business-type Activities		Total	
	2020	2019	2020	2019	2020	2019
Current and Other Assets	\$15,965,864	\$14,431,684	\$3,105,533	\$2,923,508	\$19,071,397	\$17,355,192
Capital Assets, Net	26,182,434	26,421,882	16,624,265	17,004,655	42,806,699	43,426,537
Total Assets	42,148,298	40,853,566	19,729,798	19,928,163	61,878,096	60,781,729
Deferred Outflows of Resources	1,816,908	2,873,771	246,249	427,593	2,063,157	3,301,364
Net Pension Liability	5,516,810	6,897,398	680,734	967,761	6,197,544	7,865,159
Net OPEB Liability	1,841,054	1,637,597	548,864	503,232	2,389,918	2,140,829
Other Long-term Liabilities	5,266,583	5,509,848	8,167,592	8,614,159	13,434,175	14,124,007
Other Liabilities	349,321	410,455	440,263	440,660	789,584	851,115
Total Liabilities	12,973,768	14,455,298	9,837,453	10,525,812	22,811,221	24,981,110
Deferred Inflows of Resources	5,105,285	4,215,365	223,128	32,238	5,328,413	4,247,603
Net Position						
Net Investment in Capital Assets	21,320,995	21,354,268	9,558,275	9,558,726	30,879,270	30,912,994
Restricted	3,267,704	2,738,327	0	0	3,267,704	2,738,327
Unrestricted	1,297,454	964,079	357,191	238,980	1,654,645	1,203,059
Total Net Position	\$25,886,153	\$25,056,674	\$9,915,466	\$9,797,706	\$35,801,619	\$34,854,380

An increase in current assets was the result of an increase in cash, which can be attributed to an overall effort to maintain expense below revenues, as well as refunds received from the Ohio Bureau of Workers’ Compensation. A 9% decrease in liabilities can be attributed to a decrease in the net pension liability, as well as the retirement of long term debt. Fluctuations in deferred outflows and inflows of resources can be attributed to changes in the net pension and net OPEB liabilities, resulting in an overall increase in net position of 3%.

The net pension liability (NPL) is reported by the City pursuant to GASB Statement 68, “Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27.” The net OPEB liability (NOL) is reported by the City pursuant to GASB Statement 75, “Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions,” which significantly revises accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City’s actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB.

***Management's Discussion and Analysis  
For the Year Ended December 31, 2020***

***Unaudited***

---

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*.

GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the City's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

**CITY OF LOVELAND, OHIO**

**Management's Discussion and Analysis  
For the Year Ended December 31, 2020**

**Unaudited**

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

Changes in Net Position – The following table shows the changes in net position for 2020 and 2019:

	Governmental Activities		Business-type Activities		Total	
	2020	2019	2020	2019	2020	2019
Revenues

Transfers	0	8,790	0	(8,790)	0	0
Total Change in Net Position	829,479	3,491,736	117,760	(31,629)	947,239	3,460,107
Beginning Net Position	25,056,674	21,564,938	9,797,706	9,829,335	34,854,380	31,394,273
Ending Net Position	\$25,886,153	\$25,056,674	\$9,915,466	\$9,797,706	\$35,801,619	\$34,854,380

**Governmental Activities**

Net position of governmental activities increased \$829,479, or 3%. A decrease in charges for services can be attributed in part to a decrease in court activity, due to the pandemic. An increase in operating grants was the result of Coronavirus Relief Funding. Refunds received from the Ohio Bureau of Workers' Compensation resulted in an increase in unrestricted intergovernmental revenue.

**CITY OF LOVELAND, OHIO**

**Management’s Discussion and Analysis  
For the Year Ended December 31, 2020**

**Unaudited**

A substantial decrease in security of persons and property expense in the prior year due to a decrease in the police and fire net OPEB liability resulted in a subsequent increase in security of persons and property expense in the current year. An increase in general government expense can be attributed in part to outlays related to the Covid-19 pandemic.

The City receives an income tax, which is based on 1.00% of all salaries, wages, commissions and other compensation and on net profits earned from businesses and residents living within the City.

Property taxes and income taxes made up 30% and 40% respectively, of revenues for governmental activities in 2020. The City’s reliance upon tax revenues is demonstrated by the following graph indicating 71% of total revenues from general tax revenues:

Revenue Sources	2020	Percent of Total
Property Taxes	\$3,835,943	30.20%
Municipal Income Taxes	5,090,110	40.07%
Other Local Taxes	154,846	1.22%
Program Revenues	2,479,473	19.52%
Intergovernmental, Unrestricted	852,651	6.71%
General Other	290,001	2.28%
<b>Total Revenue</b>	<b>\$12,703,024</b>	<b>100.00%</b>

**Business-Type Activities**

Net position of the business-type activities increased \$117,760, or 1%. Revenues and expenses remained consistent with the prior year.

**FINANCIAL ANALYSIS OF THE CITY’S FUNDS**

The City’s governmental funds reported a combined fund balance of \$10,255,647, which is an increase from last year’s balance of \$8,767,208. The schedule below indicates the fund balance and the total change in fund balance as of December 31, 2020 and 2019:

	Fund Balance December 31, 2020	Fund Balance December 31, 2019	Increase (Decrease)
General	\$9,608,659	\$8,550,530	\$1,058,129
Paramedic	531,490	420,092	111,398
Fire and EMS	564,014	546,540	17,474
Community Improvement Corporation	186,428	91,857	94,571
Historic Loveland TIF	(2,022,571)	(2,099,951)	77,380
Nonmajor Governmental	1,387,627	1,258,140	129,487
<b>Total</b>	<b>\$10,255,647</b>	<b>\$8,767,208</b>	<b>\$1,488,439</b>

*General Fund* – The City’s General Fund balance change is due to many factors. The tables that follow assist in illustrating the financial activities and balance of the General Fund:

**CITY OF LOVELAND, OHIO****Management's Discussion and Analysis  
For the Year Ended December 31, 2020****Unaudited**

	2020 Revenues	2019 Revenues	Increase (Decrease)
Property Taxes	\$962,300	\$953,913	\$8,387
Municipal Income Tax	5,054,386	4,811,133	243,253
Intergovernmental Revenue	600,598	364,023	236,575
Charges for Services	88,541	156,231	(67,690)
Licenses and Permits	242,882	266,414	(23,532)
Special Assessments	48,162	3,122	45,040
Fines and Forfeitures	33,803	69,728	(35,925)
All Other Revenue	112,213	246,529	(134,316)
Total	<u>\$7,142,885</u>	<u>\$6,871,093</u>	<u>\$271,792</u>

General Fund revenues increased approximately 4% when compared with the previous year. Federal funding received by private employers as part of the Paycheck Protection Program resulted in increased income tax receipts for the City. An increase in intergovernmental revenue can mostly be attributed to refunds received from the Ohio Bureau of Workers' Compensation.

	2020 Expenditures	2019 Expenditures	Increase (Decrease)
Current:			
Security of Persons and Property	\$3,411,143	\$3,155,047	\$256,096
Leisure Time Activities	489,150	588,387	(99,237)
Community Environment	243,260	228,504	14,756
General Government	2,005,078	2,808,302	(803,224)
Debt Service:			
Principal Retirement	20,915	0	20,915
Interest and Fiscal Charges	3,125	0	3,125
Total	<u>\$6,172,671</u>	<u>\$6,780,240</u>	<u>(\$607,569)</u>

General Fund expenditures decreased \$607,569, or 9% from the prior year. Increases in security of persons and property included increases in salaries and benefits, supplies, and equipment. An increase in general government in the prior year due to the purchase of land to be used for a public parking facility resulted in a subsequent decrease in the current year. Reduced recreational activity due to the pandemic resulted in a decrease in leisure time activities.

*Paramedic Fund* – The Paramedic Fund reported an increase in fund balance of \$111,398. Revenues and expenditures were consistent with the prior year.

*Fire and EMS Fund* – The Fire and EMS Fund balance increased \$17,474. Revenues and expenditures were consistent with the prior year.

*Community Improvement Corporation Fund* – The Community Improvement Corporation Fund balance increased from \$91,857 to \$186,428. This fund reported \$261,100 of proceeds from the sale of land, most notably, the White Pillars historic homestead. \$148,516 of the sale proceeds were transferred to the General Fund.

***Management's Discussion and Analysis  
For the Year Ended December 31, 2020***

***Unaudited***

*Historic Loveland TIF Fund* – The Historic Loveland TIF Fund balance increased \$77,380. An interfund loan payable reported on the balance sheet is the primary factor causing a negative year end fund balance of \$2,022,571. Completion of the Loveland Station Development has resulted in increased property values within the Historic Loveland TIF District, and increased tax revenues in this fund.

The City's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. During the course of 2020 the City amended its General Fund budget several times.

For the General Fund, original and final revenue estimates were not materially different. Actual budget basis revenues were 5% higher than final estimates due mostly to an increase in income tax revenues and refunds. Original and final appropriations were not materially different. Actual budget basis expenditures were 8% less than final budget estimates due to controlled costs across all General Fund departments. The General Fund had an adequate fund balance to cover expenditures.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

***Capital Assets***

At the end of 2020 the City had \$42,806,699 net of accumulated depreciation invested in land, buildings, improvements, infrastructure, equipment and vehicles. Of this total, \$26,182,434 was related to governmental activities and \$16,624,265 to the business-type activities. The following tables show 2020 and 2019 balances:

	Governmental Activities		Increase (Decrease)
	2020	2019	
Land	\$6,828,136	\$7,163,136	(\$335,000)
Construction In Progress	97,924	1,556,658	(1,458,734)
Buildings	9,776,035	8,456,615	1,319,420
Improvements Other than Buildings	1,662,509	1,662,509	0
Machinery and Equipment	4,685,486	4,367,030	318,456
Infrastructure	23,285,161	22,462,661	822,500
Less: Accumulated Depreciation	(20,152,817)	(19,246,727)	(906,090)
Totals	<u>\$26,182,434</u>	<u>\$26,421,882</u>	<u>(\$239,448)</u>

	Business-Type Activities		Increase (Decrease)
	2020	2019	
Land	\$920,027	\$920,027	\$0
Construction in Progress	71,775	481,138	(409,363)
Buildings and Improvements	5,512,711	5,512,711	0
Utility Structures in Service	22,381,322	21,870,325	510,997
Machinery and Equipment	903,157	899,549	3,608
Less: Accumulated Depreciation	(13,164,727)	(12,679,095)	(485,632)
Totals	<u>\$16,624,265</u>	<u>\$17,004,655</u>	<u>(\$380,390)</u>

***Management's Discussion and Analysis  
For the Year Ended December 31, 2020***

***Unaudited***

---

In governmental activities capital assets, additions included police department vehicles and equipment, as well as a park play set. Additions to buildings consisted of improvements to the safety center. Infrastructure additions were the result of routine street improvements. Construction in progress included downtown parking garage construction.

Business-type capital asset activity included water line improvements at State Route 48 and Miamiville Road, SCADA system upgrade, and water department vehicles. For additional information on the City's capital assets see Note 7.

***Debt and Other Long-Term Obligations***

The following table summarizes the City's debt and other long-term obligations as of December 31, 2020 and 2019:

	<u>2020</u>	<u>2019</u>
Governmental Activities:		
General Obligation Bonds	\$3,297,894	\$3,573,343
Special Obligation TIF Bonds	550,000	550,000
Capital Leases Payable	1,074,340	1,083,428
Compensated Absences	344,349	303,077
Total Governmental Activities	<u>\$5,266,583</u>	<u>\$5,509,848</u>
Business-Type Activities:		
General Obligation Bonds	\$4,668,043	\$4,974,582
Ohio Public Works Commission Loans	3,437,616	3,582,798
Compensated Absences	61,933	56,779
Total Business-Type Activities	<u>8,167,592</u>	<u>8,614,159</u>
Totals	<u>\$13,434,175</u>	<u>\$14,124,007</u>

Under current state statutes, the City's general obligation bonded debt issues are subject to a legal limitation based on 10.5% of the total assessed value of real and personal property. At December 31, 2020, the City's outstanding debt was below the legal limit. Additional information on the City's long-term debt can be found in Note 11.

**ECONOMIC FACTORS**

Economic development remains a priority for City staff. In February of 2020, City Council adopted two-year strategic goals including a continuing effort to build and promote a vibrant downtown. The City will also strive to advance economic health through balanced business expansion, retention, attraction, incubation, and placement of businesses to advance an environment conducive to maintaining the quality of life to which our residents and business communities have become accustomed.

***Management's Discussion and Analysis  
For the Year Ended December 31, 2020***

***Unaudited***

---

Despite the pandemic that dominated attention during most of 2020, management is optimistic about the future of the local economy based on income tax revenue growth, through compliance efforts and the relocation or expansion of current businesses, along with economic development efforts throughout the City, particular in the downtown and the industrial park.

**REQUESTS FOR INFORMATION**

This financial report is designed to provide citizens, taxpayers, investors, creditors and any other stakeholders with a general overview of the City's finances and to show the City's fiscal accountability for revenues received. If you have questions about this report or would like additional financial information please contact the Department of Finance, City of Loveland, 120 West Loveland Ave., Loveland, Ohio 45140.

***Reconciliation of the Statement of Revenues, Expenditures  
and Changes in Fund Balances of Governmental Funds  
to the Statement of Activities  
For the Year Ended December 31, 2020***

---

<b>Net Change in Fund Balances - Total Governmental Funds</b>		\$ 1,484,115
<i>Amounts reported for governmental activities in the statement of activities are different because</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.		
Capital Outlay	1,026,767	
Depreciation Expense	<u>(926,323)</u>	100,444
The statement of activities reports losses arising from the disposal of capital assets. Conversely, the governmental funds do not report any loss on the disposal of capital assets.		
		(339,892)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Increase in Property Tax Revenue	14,831	
Increase in Income Tax Revenue	35,724	
Decrease in Intergovernmental Revenue	(10,534)	
Increase in Special Assessments Revenue	<u>1,613</u>	41,634
Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows:		
Pension	473,700	
OPEB	<u>8,314</u>	482,014
Except for amounts reported as deferred inflows/outflows, changes in the net pension and OPEB liabilities are reported as pension/OPEB expense in the statement of activities:		
Pension	(872,239)	
OPEB	<u>(330,762)</u>	(1,203,001)
The issuance of long-term debt provides current financial resources to governmental funds, but has no effect on net position.		
Capital Lease Issuance		(112,055)

Repayment of bond and loan principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

General Obligation Bond Principal Payment	272,428	
Deferred Loss on Bond Refunding	(917)	
Capital Lease Payment	121,143	
Premium Amortization	3,021	395,675
	<u>          </u>	

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.

587

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.

Compensated Absences	(24,366)	
Change in Inventory	4,324	(20,042)
	<u>          </u>	<u>          </u>

***Change in Net Position of Governmental Activities***

\$ 829,479

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Reporting Entity**

The City of Loveland, Ohio (the "City") is a home-rule municipal corporation created under the laws of the State of Ohio. The City operates under its own Charter. The current Charter, which provides for a Council-Manager form of government, was adopted on July 25, 1961.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (the "GASB") Statement No. 14, *"The Financial Reporting Entity,"* as amended by GASB Statement No. 39, *"Determining Whether Certain Organizations Are Component Units"* and GASB Statement No. 61, *"The Financial Reporting Entity; Omnibus"* in that the financial statements include all organizations, activities, functions and component units for which the City (the primary government) is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either (1) the City's ability to impose its will over the organization, or (2) the potential that the organization will provide a financial benefit to or impose a financial burden on the City.

Based on the foregoing, the City's financial reporting entity includes all funds, agencies, boards and commissions that are part of the primary government, which include the following services: police protection, parks and recreation, planning, zoning, street maintenance, and other governmental services. The City also provides refuse collection services (on a contractual basis) and owns and operates a water treatment and distribution system, a wastewater treatment and collection system and a storm water collection system, each of which is reported as an enterprise fund. In addition, the City has included the Community Improvement Corporation of Loveland (CIC) as a blended component unit.

The Community Improvement Corporation of Loveland (CIC), a non-profit organization, is a five-member board comprised of two elected or appointed officials of the City to be appointed by the Mayor and confirmed by Council, and three residents, business owners, or property owners of the City to be appointed by the Mayor and confirmed by Council. Although it is legally separate from the City, the CIC is reported as if it were part of the primary government due to the City being the primary source of debt retirement funding for the CIC. The CIC is responsible for research and development of the City, including the assurance that mortgage payments will be made to foster such development, the acquisition, construction, equipment and improvement of buildings, structures and other properties, the acquisition of sites for such development, the lease, sale and subdivision of such sites and incurring of debt in order to carry out such development, and to make loans to any individual or business entity in order to carry out such development purpose for the City. Funding to finance the CIC comes from the sale of properties owned by the CIC and contributions from the City and private sources.

**B. Basis of Presentation - Fund Accounting**

The City uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain City functions or activities.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**B. Basis of Presentation - Fund Accounting (Continued)**

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The following fund types are used by the City:

***Governmental Funds*** - are those funds through which most governmental functions of the City are financed. The acquisition, use and balances of the City's expendable financial resources and the related liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of "financial flow" (sources, uses and balances of financial resources). The following are the City's major governmental funds:

General - This fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. Principal sources of revenue are municipal income taxes and shared tax revenues. Primary expenditures are for police protection, community environment and general government.

Paramedic - This fund is used to account for the City's paramedic services, which are funded by property taxes and fees.

Fire and EMS - This fund is used to account for costs primarily related to facility maintenance, insurance, utilities, dispatching and debt service for Fire and EMS services, which are funded by property taxes.

Community Improvement Corporation - This fund is used to account for the activities of the Loveland Community Improvement Corporation (CIC). The CIC of Loveland serves an economic development agency by advancing, encouraging, and promoting the industrial, economic, commercial, and civic development of the City. Funding comes from the sale of properties owned by the CIC and contributions from the City and private sources.

Historic Loveland TIF - This fund is used to account for the TIF monies being collected for the redevelopment of the Historic Loveland area.

***Proprietary Funds*** - The proprietary funds are accounted for on an "economic resources" measurement focus. This measurement focus provides that all assets, liabilities, and deferred outflows/inflows of resources associated with the operation of the proprietary funds are included on the balance sheet. The proprietary fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net position.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**B. Basis of Presentation - Fund Accounting (Continued)**

Enterprise Funds - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, in which the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The following are the City's major enterprise funds:

Water - This fund is used to account for the operation of the City's water treatment and distribution systems.

Sewer - This fund is used to account for the operation of the City's sewage treatment and collection systems.

Stormwater - This fund is used to account for the operation of the City's stormwater system.

Sanitation - This fund is used to account for the operation of the City's refuse collection system.

***Fiduciary Funds***

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and custodial funds. Fiduciary funds are used to account for assets the City holds in a trustee capacity or as an agent for individuals, private organizations, other governments, and other funds. The City's fiduciary fund is a custodial fund which accounts for the activity of the mayor's court.

**C. Basis of Presentation - Financial Statements**

**Government-wide Financial Statements** - The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

Interfund receivables and payables between governmental and business-type activities have been eliminated in the government-wide statement of net position. Interfund services provided and used are not eliminated through the process of consolidation.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**C. Basis of Presentation – Financial Statements (Continued)**

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the City and for each function or program of the City's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

**Fund Financial Statements** – Fund financial statements report detailed information about the City. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets, current liabilities, deferred outflows/inflows of resources and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary and fiduciary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets, liabilities, and deferred outflows/inflows of resources associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

**D. Basis of Accounting**

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**D. Basis of Accounting (Continued)**

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the City is 60 days after year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt which is recognized when due.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, grants, entitlements and donations. Revenue from income taxes is recognized in the period in which the income is earned and is available. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied and the revenue is available. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis.

Revenue considered susceptible to accrual at year end includes income taxes, interest on investments, and state levied locally shared taxes (including motor vehicle license fees, gasoline tax, and local government assistance). Other revenue, including licenses, permits, certain charges for services, and miscellaneous revenues are recorded as revenue when received in cash because generally these revenues are not measurable until received.

Special assessments receivable which are measurable but not available are recorded as deferred inflows of resources. Property taxes which are measurable at December 31, 2020 but which are not intended to finance 2020 operations and delinquent property taxes, whose availability is indeterminate, are recorded as deferred inflows of resources. Property taxes are further described in Note 4.

The accrual basis of accounting is utilized for reporting purposes by the government-wide statements, proprietary funds, and the custodial fund. Revenues are recognized when they are earned and expenses recognized when incurred.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Budgetary Process**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriation ordinance, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation ordinance are subject to amendment throughout the year.

All funds other than custodial funds are legally required to be budgeted and appropriated; however only governmental funds are required to be reported. The primary level of budgetary control is at the personal services and non-personal services object level within each fund. Budgetary modifications may only be made by ordinance of the City Council.

**1. Tax Budget**

By July 15, the Manager submits an annual tax budget for the following fiscal year to City Council for consideration and passage. The adopted budget is submitted to the County Auditor, as Secretary of the County Budget Commission, by July 20 of each year for the period January 1 to December 31 of the following year.

**2. Estimated Resources**

The County Budget Commission reviews estimated revenue and determines if the budget substantiates a need to levy all or part of previously authorized taxes. The Budget Commission then certifies its actions to the City by September 1 of each year. As part of the certification process, the City receives an official certificate of estimated resources stating the projected receipts by fund. Prior to December 31, the City must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year do not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about January 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statements reflect the amounts in the final amended official certificate of estimated resources issued during 2020.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Budgetary Process (Continued)**

**3. Appropriations**

A temporary appropriation ordinance to control expenditures may be passed on or about January 1 of each year for the period January 1 through March 31. An annual appropriation ordinance must be passed by April 1 of each year for the period January 1 through December 31. The appropriation ordinance establishes spending controls at the personal services and non-personal services object level within each fund. The appropriation ordinance may be amended during the year as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources as certified. The allocation of appropriations among departments and objects within a fund may be modified during the year by an ordinance of City Council. The budgetary figures which appear in the "Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual for the General Fund and Major Special Revenue Funds" are provided on the budgetary basis to provide a comparison of actual results to the final budget, including all amendments and modifications.

**4. Encumbrances**

As part of formal budgetary control, purchase orders, contracts and other commitments for expenditures are encumbered and recorded as the equivalent of expenditures in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Encumbrances outstanding at year end, however, are not reported as expenditures in the accompanying basic financial statements.

**5. Lapsing of Appropriations**

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be reappropriated.

This space intentionally left blank

**Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**E. Budgetary Process (Continued)**

**6. Budgetary Basis of Accounting**

The City's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on a cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting. Encumbrances are recorded as the equivalent of expenditures on the budgetary basis.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the "Statement of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual" for the General Fund and the Major Special Revenue Funds:

	Net Change in Fund Balance			
	General Fund	Paramedic Fund	Fire and EMS Fund	Community Improvement Corporation Fund
GAAP Basis (as reported)	\$1,058,129	\$111,398	\$17,474	\$94,571
Increase (Decrease):				
Accrued Revenues at December 31, 2020 received during 2021	(954,758)	(50,263)	(71)	0
Accrued Revenues at December 31, 2019 received during 2020	869,082	37,997	15	0
Accrued Expenditures at December 31, 2020 paid during 2021	142,402	1,323	51,894	106
Accrued Expenditures at December 31, 2019 paid during 2020	(296,101)	(2,042)	(13,618)	(1,100)
2020 Prepays for 2021	(25,241)	0	0	0
2019 Prepays for 2020	25,096	0	0	0
Change in Interfund Balances	(32,467)	0	0	0
Outstanding Encumbrances	(297,945)	(374)	(44,016)	(5,000)
Perspective Difference:				
Activity of Funds Reclassified for GAAP Reporting Purposes	21,725	0	0	0
Budget Basis	\$509,922	\$98,039	\$11,678	\$88,577

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**F. Cash and Cash Equivalents**

Cash and cash equivalents include amounts in demand deposits and the State Treasurer's Asset Reserve (STAR Ohio). STAR Ohio is considered a cash equivalent because it is a highly liquid investment with an original maturity date of three months or less.

The City pools its cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each fund maintains its own cash and investment account. For purposes of the statement of cash flows, the proprietary funds' share of equity in pooled deposits and investments are considered to be cash equivalents. See Note 3 "Cash, Cash Equivalents, and Investments."

**G. Investments**

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. The City allocates interest among certain funds based upon the fund's cash balance at the date of investment. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools" and GASB Statement No. 72, "Fair Value Measurement and Application," the City records all its investments at fair value except for nonparticipating investment contracts which are reported at cost, which approximates fair value. All investment income, including changes in the fair value of investments, is recognized as revenue in the operating statements.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. See Note 3 "Cash, Cash Equivalents, and Investments".

The City's investment in the State Treasury Asset Reserve of Ohio (STAR Ohio) is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company and is recognized as an external investment pool by the City. The City measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value. For fiscal year 2020, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$100 million, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

**H. Inventory**

On the government-wide financial statements inventories are presented at cost on a first-in, first-out basis and are expensed when used. Inventories of governmental funds are stated at cost. The cost of inventory items is recorded as an expenditure in the governmental funds when purchased.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**I. Capital Assets and Depreciation**

Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life threshold of three or more years.

**1. Property, Plant and Equipment - Governmental Activities**

Governmental activities capital assets are those not directly related to the business type funds. These generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost (or estimated historical cost for assets not purchased in recent years). These assets are reported in the Governmental Activities column of the Government-wide Statement of Net Position, but they are not reported in the Fund Financial Statements.

Contributed capital assets are recorded at their acquisition value as of the date received. Capital assets include land, improvements to land, buildings, building improvements, machinery, equipment and infrastructure. Infrastructure is defined as long-lived capital assets that normally are stationary in nature and normally can be preserved for a significant number of years. Examples of infrastructure include roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems. Estimated historical costs for governmental activities capital asset values were initially determined at December 31, 1987 by identifying historical costs when such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

**2. Property, Plant and Equipment – Business-Type Activities**

Property, plant and equipment acquired by the proprietary funds are stated at cost (or estimated historical cost), including interest capitalized during construction and architectural and engineering fees where applicable. Contributed capital assets are recorded at their acquisition value as of the date received. These assets are reported in both the Business-Type Activities column of the Government-wide Statement of Net Position and in the respective funds.

**3. Depreciation**

All capital assets are depreciated, excluding land and construction in progress. Depreciation has been provided using the straight-line method over the following estimated useful lives:

Description	Governmental and Business-Type Activities Estimated Lives (Years)
Land Improvements	20
Buildings	25 – 50
Building Improvements	20 – 30
Infrastructure	10 – 20
Machinery, Equipment, Furniture, Fixtures and Vehicles	3 – 30

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**J. Long-Term Obligations**

Long-term liabilities are being repaid from the following funds:

<u>Obligation</u>	<u>Fund</u>
General/Special Obligation Bonds	General Bond Retirement Fund Water Fund, Stormwater Fund
Ohio Public Works Commission Loans	Water Fund, Stormwater Fund
Capital Leases	Fire and EMS Fund
Compensated Absences/Net Pension Liability/Net OPEB Liability	General Fund Street Maintenance Fund Water Fund Sewer Fund Sanitation Fund Stormwater Fund

**K. Compensated Absences**

In accordance with GASB Statement No. 16, "*Accounting for Compensated Absences*," vacation and compensatory time are accrued as liabilities when an employee's right to receive compensation is attributable to services already rendered and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments at termination or retirement. Leave time that has been earned but is unavailable for use as paid time off or as some other form of compensation because an employee has not met the minimum service time requirement, is accrued to the extent that it is considered to be probable that the conditions for compensation will be met in the future.

Sick leave is accrued using the vesting method, whereby the liability is recorded on the basis of leave accumulated by employees who are eligible to receive termination payments as of the balance sheet date, and on leave balances accumulated by other employees who are expected to become eligible in the future to receive such payments. For governmental funds, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. For governmental funds, that portion of unpaid compensated absences that is expected to be paid using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected in the account "Compensated Absences Payable." In the government-wide statement of net position, "Compensated Absences Payable" is recorded within the "Due within one year" account and the long-term portion of the liability is recorded within the "Due in more than one year" account.

Compensated absences are expensed in the water and stormwater enterprise funds when earned. The related liability is reported within the fund.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**L. Restricted Assets**

Certain cash and cash equivalents are classified as restricted on the balance sheet because these funds are being held by a trustee, an agent or by the City for specified purposes.

**M. Intergovernmental Revenues**

In governmental funds, grants awarded on a non-reimbursement basis, entitlements and shared revenues are recorded as intergovernmental receivables and revenues when measurable and available. Reimbursable grants are recorded as intergovernmental receivables and revenues when the related expenditures are made.

Grants received for proprietary fund operations are recognized as revenues when measurable and earned. Such resources restricted for the construction of capital assets are recorded as contributed capital.

**N. Pension/OPEB**

The provision for pension/OPEB cost is recorded when the related payroll is accrued and the obligation is incurred. For purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB systems report investments at fair value.

**O. Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented in the financial statements.

**P. Prepaid Items**

Payments made to vendors for services that will benefit periods beyond December 31, 2020 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Q. Fund Balances**

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components – nonspendable, restricted, committed, assigned and unassigned.

*Nonspendable* – Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form or legally contractually required to be maintained intact.

*Restricted* – Restricted fund balance consists of amounts that have constraints placed on them either externally by third parties (creditors, grantors, contributors, or laws or regulations of other governments) or by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the City to assess, levy, charge or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement (compelled by external parties) that those resources be used only for the specific purposes stipulated in the legislation.

*Committed* – Committed fund balance consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the City’s highest level of decision making authority. For the City, these constraints consist of ordinances passed by City Council. Committed amounts cannot be used for any other purpose unless the City removes or changes the specified use by taking the same type of action (ordinance) it employed previously to commit those amounts.

*Assigned* – Assigned fund balance consists of amounts that are constrained by the City’s intent to be used for specific purposes, but are neither restricted nor committed. The City has no formal policy authorizing a body or official to assign amounts for specific purposes.

*Unassigned* – Unassigned fund balance consists of amounts that have not been restricted, committed or assigned to specific purposes within the General Fund as well as negative fund balances in all other governmental funds.

When both restricted and unrestricted resources are available for use, it is the City’s policy to use restricted resources first, then unrestricted (committed, assigned and unassigned) resources as they are needed.

**R. Net Position**

Net position represents the difference between assets, liabilities, and deferred outflows/inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**S. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The City reports deferred outflows for the deferred charge on debt refunding and for deferred pension/OPEB amounts. The deferred charge on debt refunding is reported in the government-wide statement of net position and proprietary funds statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred outflows of resources are reported for pension/OPEB amounts on the government-wide and proprietary funds statement of net position. See Notes 8 and 9.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. On the government-wide statement of net position and governmental funds balance sheet, property taxes that are intended to finance future fiscal periods are reported as deferred inflows. In addition, the governmental funds balance sheet reports deferred inflows which arise only under a modified accrual basis of accounting. Accordingly, the item, *unavailable amounts*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable amounts for delinquent property taxes, income taxes, special assessments, and state levied shared taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows of resources related to pension/OPEB are reported on the government-wide and proprietary funds statement of net position. See Notes 8 and 9.

**T. Operating Revenues and Expenses**

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for water treatment and distribution, wastewater collection and treatment, storm water collection and refuse collection. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**U. Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City and that are either unusual in nature or infrequent in occurrence. The City had no special or extraordinary items to report during 2020.

For the Year Ended December 31, 2020***

---

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**V. Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

This space intentionally left blank

**Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020**

**NOTE 2 – FUND BALANCE**

**A. Classification**

Fund balance is classified as nonspendable, restricted, committed, assigned, and unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General Fund	Paramedic Fund	Fire and EMS Fund	Community Improvement Corporation Fund	Historic Loveland TIF Fund	Nonmajor Governmental Funds	Total Governmental Funds
Nonspendable:							
Interfund Loans Receivable	\$2,477,710	\$0	\$0	\$0	\$0	\$0	\$2,477,710
Supplies Inventory	0	0	0	0	0	64,860	64,860
Prepaid Items	25,241	0	0	0	0	2,217	27,458
<b>Total Nonspendable</b>	<b>2,502,951</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>67,077</b>	<b>2,570,028</b>
Restricted:							
Fire and EMS Services	0	531,490	564,014	0	0	176,652	1,272,156
Street Maintenance	0	0	0	0	0	736,220	736,220
Law Enforcement	0	0	0	0	0	19,215	19,215
Coronavirus Relief	0	0	0	0	0	151,843	151,843
Court Computer Improvements	0	0	0	0	0	12,252	12,252

**B. Stabilization Arrangements**

Resolutions have been passed by City Council establishing emergency reserves for the General Fund, Fire and EMS Fund, and Stormwater Fund. The General Fund emergency reserve balance shall not be less than 15% of regular General Fund operating revenues. The emergency reserve balance in the Fire and EMS Fund shall be a minimum of 5% of normal operating expenditures. The Stormwater Fund emergency reserve shall be a minimum of 10% of normal operating expenses. In cases of fiscal emergency, expenditures from the reserves shall be made pursuant only to a resolution of City Council.

At December 31, 2020, emergency reserve balances for the General Fund, Fire and EMS Fund, and Stormwater Fund were \$1,081,897, \$148,886, and \$37,000, respectively. The General, Fire and EMS, and Stormwater Fund reserves are reported in the General Fund.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 3 - CASH, CASH EQUIVALENTS, AND INVESTMENTS**

Cash resources of several individual funds are combined to form a pool of cash, cash equivalents and investments.

Statutes require the classification of funds held by the City into three categories. Category 1 consists of “active” funds - those funds required to be kept in a “cash” or “near cash” status for immediate use by the City. Such funds must be maintained either as cash in the City Treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of “inactive” funds - those funds not required for use within the current five year period of designation of depositories. Inactive funds may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

Category 3 consists of “interim” funds - those funds which are not needed for immediate use but, which will be needed before the end of the current period of designation of depositories. Interim funds may be invested or deposited in the following securities:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Interim deposits in eligible institutions applying for interim funds;
- Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions, and
- The State Treasury Asset Reserve of Ohio (STAR Ohio).

**Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020**

**NOTE 3 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)**

**A. Deposits**

Custodial credit risk is the risk that in the event of bank failure, the City’s deposits may not be returned to it. The City has no deposit policy for custodial risk beyond the requirements of State statute.

Ohio law requires that deposits be either insured or be protected by eligible securities pledged to the City and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

At year end the carrying amount of the City’s deposits was \$4,855,238 and the bank balance was \$5,558,532. Federal depository insurance covered \$2,234,804 of the bank balance and \$3,323,728 was exposed to custodial risk and was collateralized with securities held in the Ohio Pooled Collateral System.

**B. Investments**

The City's investments at December 31, 2020 were as follows:

	Fair Value	Credit Rating	Fair Value Hierarchy	Investment Maturities (in Years)		
				less than 1	1-3	3-5
STAR Ohio <sup>3</sup>	\$4,513,538	AAAm <sup>1</sup>	NA	\$4,513,538	\$0	\$0
Money Market Fund <sup>3</sup>	2,900	AAAm <sup>1</sup>	NA	2,900	0	0
Marketable CD's	<u>1,712,232</u>	AAA <sup>2</sup>	Level 2	<u>495,084</u>	<u>969,473</u>	<u>247,675</u>
Total Investments	<u>\$6,228,670</u>			<u>\$5,011,522</u>	<u>\$969,473</u>	<u>\$247,675</u>

<sup>1</sup> Standard & Poor’s

<sup>2</sup> All are fully FDIC insured and therefore have an implied AAA credit rating

<sup>3</sup> Reported at amortized cost

*Interest Rate Risk* – The Ohio Revised Code generally limits security purchases to those that mature within five years of settlement date, the City has no policy beyond that of the Ohio Revised Code.

*Concentration of Credit Risk* – The City places no limit on the amount that may be invested in one issuer.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 3 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (Continued)**

**B. Investments** (Continued)

*Custodial Credit Risk* – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Of the City’s investment in repurchase agreements, the entire balance is collateralized by underlying securities pledged by the investment’s counterparty, not in the name of the City.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Level 2 inputs are significant other observable inputs. Investments classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities’ relationship to benchmark quoted prices. Level 3 inputs are significant unobservable inputs.

**NOTE 4 - TAXES**

**A. Property Taxes**

Property taxes include amounts levied against all real estate and public utility property located in the City. Real property taxes (other than public utility) collected during 2020 were levied after October 1, 2019 on assessed values as of January 1, 2019, the lien date. Assessed values are established by the County Auditor at 35% of appraised market value. All property is required to be revalued every six years. The last revaluation was completed for tax year 2020 for Clermont County, 2018 for Warren County, and 2017 for Hamilton County. Real property taxes are payable annually or semi-annually. The first payment is due January 20; the remainder is payable by June 20.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property is currently assessed at 100 percent of its true value. Public utility property taxes are payable on the same dates as real property described previously.

The County Treasurers collect property taxes on behalf of all taxing districts in the counties including the City of Loveland. The County Auditors periodically remit to the City its portion of the taxes collected.

**Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020**

**NOTE 4 – TAXES (Continued)**

**A. Property Taxes (Continued)**

The assessed values upon which the 2020 property tax receipts were based were as follows:

	County		
	Hamilton	Clermont	Warren
Real Property:			
Residential/Agricultural	\$230,891,320	\$79,960,470	\$42,535,270
Personal Property:			
Public Utility Personal Property	6,970,230	1,558,250	363,870
Total Assessed Value	<u>\$237,861,550</u>	<u>\$81,518,720</u>	<u>\$42,899,140</u>
Tax Rate/Assessed Value	\$12.10/\$1,000	\$11.65/\$1,000	\$11.82/\$1,000

**Tax Abatements**

In 1989, the City of Loveland via Resolution 1989-62 and in conjunction with sections 3735.75 through 3735.70 of the Ohio Revised Code, established a Community Reinvestment Area (CRA) tax incentive program. The City’s CRA program is a competitive tax incentive program which based on the adoption date the program is classified as a “pre-1994” program. “Pre-1994” programs allow for the most attractive terms. Businesses may receive 100% abatement on real property tax improvements for up to 15 years. The following determines if a project will get the full abatement value:

1. The business may receive one year of tax abatement for each \$250,000 invested in the building, up to a five year maximum.
2. The business may receive one year of tax abatement for each ten (10) new employees to be employed in the building, up to a five year maximum.
3. The business may receive one year of tax abatement for each \$200,000 of new payroll in the new building, up to a five year maximum.

If an abatement lasts four (4) or more years, the City requires that the business make a payment-in-lieu-of-taxes to the Loveland City School District equal to 15% of the value of the tax abatement. Thus, in the fourth and subsequent years, the actual value of the abatement is 85% of the real estate taxes that would have been paid on the value of the improvements.

Below is information relevant to the disclosure of these programs for the year ending December 31, 2020.

<u>Tax Abatement Program</u>	<u>Total Amount of Taxes Abated For the year 2020</u>
<i>Community Reinvestment Area (CRA)</i>	
Manufacturing/Industrial	\$32,344
	<u>\$32,344</u>

**Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020**

---

**NOTE 4 – TAXES (Continued)**

**B. Income Tax**

The City levies a tax of 1.00% on all salaries, wages, commissions and other compensation and on net profits earned within the City as well as on incomes of residents earned outside the City. In the latter case, the City allows a credit of 100% of the tax paid to another municipality to a maximum of the total amount assessed.

Employers within the City are required to withhold income tax on employee compensation and remit the tax to the City either monthly or quarterly, as required. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually. For 2020, all income tax proceeds were recorded in the General Fund.

**NOTE 5 - RECEIVABLES**

Receivables at December 31, 2020 consisted of property and income taxes, payment in lieu of taxes, accounts receivable, special assessments, interest, and intergovernmental receivables arising from shared revenues.

**NOTE 6 – TRANSFERS AND INTERFUND LOANS**

**A. Transfers**

Following is a summary of transfers in and out for all funds for 2020:

<u>Fund</u>	<u>Transfers In</u>	<u>Transfers Out</u>
Governmental Funds:		
General Fund	\$148,516	\$181,852
Fire and EMS Fund	0	116,193
Community Improvement Corporation Fund	0	148,516
Historic Loveland TIF Fund	0	181,348
Nonmajor Governmental Funds	558,611	79,218
Totals	<u>\$707,127</u>	<u>\$707,127</u>

Transfers are used to move revenues from the funds that statute or budget requires to collect them to the funds that statute or budget requires to expend them; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed.

The General Fund, Fire and EMS Fund, Historic Loveland TIF Fund, and Nonmajor Governmental Funds provided transfers to the Debt Service Fund during the year for debt retirement. The General Fund provided transfers to the Street Maintenance and Special Projects Funds for capital improvements. The Community Improvement Corporation Fund transferred \$148,516 to the General Fund, which was proceeds from the sale of land.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 6 – TRANSFERS AND INTERFUND LOANS (Continued)**

**B. Interfund Loans**

Interfund balances at December 31, 2020 consist of the following individual fund receivables and payables:

<u>Fund</u>	<u>Interfund Loans Receivable</u>	<u>Interfund Loans Payable</u>
Governmental Funds:		
General Fund	\$2,477,710	\$0
Historic Loveland TIF Fund	0	2,051,967
Nonmajor Governmental Funds	<u>210,967</u>	<u>636,710</u>
Totals	<u>\$2,688,677</u>	<u>\$2,688,677</u>

The interfund loan receivable and payable balances result from the General Fund and Special Projects Fund advances of monies to other funds to assist with cashflow.

**NOTE 8 – DEFINED BENEFIT PENSION PLANS**

***Net Pension Liability***

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City’s obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

***Plan Description – Ohio Public Employees Retirement System (OPERS)***

Plan Description - City employees other than full-time police officers participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS’ traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

**Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020**

---

**NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)**

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS’ fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS comprehensive annual financial report referenced above for additional information, including requirements for reduced and unreduced benefits):

<b>Group A</b>	<b>Group B</b>	<b>Group C</b>
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other Groups and members hired on or after January 7, 2013
<b>State and Local</b>	<b>State and Local</b>	<b>State and Local</b>
<b>Age and Service Requirements:</b> Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	<b>Age and Service Requirements:</b> Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	<b>Age and Service Requirements:</b> Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
<b>Formula:</b> 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	<b>Formula:</b> 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	<b>Formula:</b> 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final average Salary (FAS) represents the average of the three highest years of earnings over a member’s career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member’s career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3.00% simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.00%.

Benefits in the Combined Plan consist of both an age-and-service formula benefit (defined benefit) and a defined contribution element. The defined benefit element is calculated on the basis of age, FAS, and years of service. Eligibility regarding age and years of service in the Combined Plan is the same as the Traditional Pension Plan. The benefit formula for the defined benefit component of the plan for State and Local members in transition Groups A and B applies a factor of 1.00% to the member’s FAS for the first 30 years of service.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)**

A factor of 1.25% is applied to years of service in excess of 30. The benefit formula for transition Group C applies a factor of 1.0% to the member’s FAS and the first 35 years of service and a factor of 1.25% is applied to years in excess of 35. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit. The defined contribution portion of the benefit is based on accumulated member contributions plus or minus any investment gains or losses on those contributions. Members retiring under the Combined Plan receive a 3.00% COLA adjustment on the defined benefit portion of their benefit.

Defined contribution plan benefits are established in the plan documents, which may be amended by the OPERS’s Board of Trustees. Member-Directed Plan and Combined Plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the Combined Plan consists of the member’s contributions plus or minus the investment gains or losses resulting from the member’s investment selections. The amount available for defined contribution benefits in the Member-Directed Plan consists of the members’ contributions, vested employer contributions and investment gains or losses resulting from the members’ investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20% each year. For additional information, see the Plan Statement in the OPERS comprehensive annual financial report.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>State and Local</u>
<b>2020 Statutory Maximum Contribution Rates</b>	
Employer	14.0 %
Employee	10.0 %
<b>2020 Actual Contribution Rates</b>	
Employer:	
Pension	14.0 %
Post-employment Health Care Benefits	<u>0.0</u>
Total Employer	<u>14.0 %</u>
Employee	<u>10.0 %</u>

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City’s contractually required contribution was \$226,382 for 2020.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)**

***Plan Description – Ohio Police & Fire Pension Fund (OPF)***

Plan Description - City full-time police officers participate in Ohio Police and Fire Pension Fund (OPF), a cost-sharing, multiple-employer defined benefit pension plan administered by OPF. OPF provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OPF issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OPF fiduciary net position. The report that may be obtained by visiting the OPF website at [www.op-f.org](http://www.op-f.org) or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OPF may retire and receive a lifetime monthly pension. OPF offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OPF benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either 3.00% or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to 3.00% of their base pension or disability benefit.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

**NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)**

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>Police</u>
<b>2020 Statutory Maximum Contribution Rates</b>	
Employer	19.50 %
Employee:	
January 1, 2020 through December 31, 2020	12.25 %
<b>2020 Actual Contribution Rates</b>	
Employer:	
Pension	19.00 %
Post-employment Health Care Benefits	<u>0.50</u>
Total Employer	<u><u>19.50 %</u></u>
Employee:	
January 1, 2020 through December 31, 2020	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City’s contractually required contribution to OPF was \$315,950 for 2020.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

The net pension liability for OPERS was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OPF’s total pension liability was measured as of December 31, 2019, and was determined by rolling forward the total pension liability as of January 1, 2019, to December 31, 2019. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>OPERS</u>	<u>OP&amp;F</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability	\$2,245,380	\$3,952,164	\$6,197,544
Proportion of the Net Pension Liability-2020	0.011360%	0.058668%	
Proportion of the Net Pension Liability-2019	<u>0.011294%</u>	<u>0.058461%</u>	
Percentage Change	<u><u>0.000066%</u></u>	<u><u>0.000207%</u></u>	
Pension Expense	\$425,563	\$554,066	\$979,629

**Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020**

**NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)**

At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>OPERS</u>	<u>OP&amp;F</u>	<u>Total</u>
<b>Deferred Outflows of Resources</b>			
Changes in assumptions	\$119,929	\$97,015	\$216,944
Differences between expected and actual experience	0	149,603	149,603
Change in proportionate share	70,159	187,898	258,057
City contributions subsequent to the measurement date	<u>226,382</u>	<u>315,950</u>	<u>542,332</u>
Total Deferred Outflows of Resources	<u>\$416,470</u>	<u>\$750,466</u>	<u>\$1,166,936</u>
<b>Deferred Inflows of Resources</b>			
Net difference between projected and actual earnings on pension plan investments	\$447,904	\$190,921	\$638,825
Differences between expected and actual experience	28,389	203,827	232,216
Change in proportionate share	<u>0</u>	<u>88,794</u>	<u>88,794</u>
Total Deferred Inflows of Resources	<u>\$476,293</u>	<u>\$483,542</u>	<u>\$959,835</u>

\$542,332 reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending December 31:	<u>OPERS</u>	<u>OP&amp;F</u>	<u>Total</u>
2021	\$17,752	(\$7,896)	\$9,856
2022	(144,653)	16,546	(128,107)
2023	18,546	125,884	144,430
2024	(177,850)	(166,091)	(343,941)
2025	<u>0</u>	<u>(17,469)</u>	<u>(17,469)</u>
Total	<u>(\$286,205)</u>	<u>(\$49,026)</u>	<u>(\$335,231)</u>

**Actuarial Assumptions - OPERS**

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

**NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2019 and December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	December 31, 2019
Wage Inflation	3.25 percent
Future Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation
COLA or Ad Hoc COLA (Pre 1/7/13 retirees)	3 percent simple
COLA or Ad Hoc COLA (Post 1/7/13 retirees)	1.4 percent simple through 2020. 2.15 percent simple, thereafter
Investment Rate of Return	7.2 percent
Actuarial Cost Method	Individual Entry Age
	December 31, 2018
Wage Inflation	3.25 percent
Future Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation
COLA or Ad Hoc COLA (Pre 1/7/13 retirees)	3 percent simple
COLA or Ad Hoc COLA (Post 1/7/13 retirees)	3 percent simple through 2018. 2.15 percent simple, thereafter
Investment Rate of Return	7.2 percent
Actuarial Cost Method	Individual Entry Age

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 17.2% for 2019.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

**NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)**

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2019 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	25.00 %	1.83 %
Domestic Equities	19.00	5.75
Real Estate	10.00	5.20
Private Equity	12.00	10.70
International Equities	21.00	7.66
Other investments	13.00	4.98
Total	100.00 %	5.61 %

**Discount Rate** The discount rate used to measure the total pension liability was 7.2 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the City’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** The following table presents the City’s proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.2 percent, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.2 percent) or one-percentage-point higher (8.2 percent) than the current rate:

	1% Decrease (6.20%)	Current Discount Rate (7.20%)	1% Increase (8.20%)
City's proportionate share of the net pension liability	\$3,703,360	\$2,245,380	\$934,701

**Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020**

**NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)**

**Actuarial Assumptions – OPF**

OPF’s total pension liability as of December 31, 2019 is based on the results of an actuarial valuation date of January 1, 2019, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OPF’s actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered were: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of January 1, 2019, compared with January 1, 2018, are presented below.

	January 1, 2019	January 1, 2018
Valuation Date	January 1, 2019, with actuarial liabilities rolled forward to December 31, 2019	January 1, 2018, with actuarial liabilities rolled forward to December 31, 2018
Actuarial Cost Method	Entry Age Normal	Entry Age Normal
Investment Rate of Return	8.0 percent	8.0 percent
Projected Salary Increases	3.75 percent to 10.5 percent	3.75 percent to 10.5 percent
Payroll Growth	Inflation rate of 2.75 percent plus productivity increase rate of 0.5	Inflation rate of 2.75 percent plus productivity increase rate of 0.5
Cost of Living Adjustments	3.00 percent simple; 2.2 percent simple for increases based on the lesser of the increase in CPI and 3 percent	3.00 percent simple; 2.2 percent simple for increases based on the lesser of the increase in CPI and 3 percent

For the January 1, 2019 valuation, mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

Age	Police	Fire
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

For the January 1, 2019 valuation, mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

**Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020**

**NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)**

Age	Police	Fire
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed for the five year period ended December 31, 2016. The prior experience study was completed December 31, 2011.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OPF’s target asset allocation as of December 31, 2019 are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash and Cash Equivalents	0.00 %	1.00 %
Domestic Equity	16.00	5.40
Non-US Equity	16.00	5.80
Private Markets	8.00	8.00
Core Fixed Income *	23.00	2.70
High Yield Fixed Income	7.00	4.70
Private Credit	5.00	5.50
U.S. Inflation Linked Bonds *	17.00	2.50
Master Limited Partnerships	8.00	6.60
Real Assets	8.00	7.40
Private Real Estate	12.00	6.40
Total	<u>120.00 %</u>	

\* levered 2x

OPF’s Board of Trustees has incorporated the “risk parity” concept into OPF’s asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 8 – DEFINED BENEFIT PENSION PLANS (Continued)**

**Discount Rate** For 2019, the total pension liability was calculated using the discount rate of 8.00 percent. The discount rate used for 2018 was 8.00 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.00 percent. Based on those assumptions, the plan’s fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

**Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.00 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.00 percent), or one percentage point higher (9.00 percent) than the current rate.

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
City's proportionate share of the net pension liability	\$5,477,560	\$3,952,164	\$2,676,319

This Space Intentionally Left Blank

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 9 - DEFINED BENEFIT OPEB PLANS**

***Net OPEB Liability***

The net OPEB liability reported on the statement of net position represents a liability to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability represents the City’s proportionate share of each OPEB plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan’s fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the City’s obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which OPEB are financed; however, the City does receive the benefit of employees’ services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

***Plan Description – Ohio Public Employees Retirement System (OPERS)***

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. This trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or refund, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' comprehensive annual financial report referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, health care is not being funded.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2020, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. The portion of employer contributions allocated to health care for members in the Traditional Pension Plan and Combined Plan was 0 percent during calendar year 2020. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2020 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$0 for 2020.

***Plan Description – Ohio Police & Fire Pension Fund (OP&F)***

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a new model for health care. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements.

A retiree is eligible for the OP&F health care stipend unless they have access to any other group coverage including employer and retirement coverage. The eligibility of spouses and dependent children could increase the stipend amount. If the spouse or dependents have access to any other group coverage including employer or retirement coverage, they are not eligible for stipend support from OP&F. Even if an OP&F member or their dependents are not eligible for a stipend, they can use the services of the third-party administrator to select and enroll in a plan. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at [www.op-f.org](http://www.op-f.org) or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.5 percent of covered payroll for police employer units. The Ohio Revised Code states that the employer contribution may not exceed 19.5 percent of covered payroll for police employer units. Active members do not make contributions to the OPEB Plan.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

OP&F maintains funds for health care in two separate accounts. There is one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. An Internal Revenue Code 401(h) account is maintained for Medicare Part B reimbursements.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. For 2020, the portion of employer contributions allocated to health care was 0.5 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$8,314 for 2020.

***OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB***

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2019, and was determined by rolling forward the total OPEB liability as of January 1, 2019, to December 31, 2019. The City's proportion of the net OPEB liability was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

	<u>OPERS</u>	<u>OP&amp;F</u>	<u>Total</u>
Proportionate Share of the Net OPEB Liability	\$1,810,415	\$579,503	\$2,389,918
Proportion of the Net OPEB Liability-2020	0.013107%	0.058668%	
Proportion of the Net OPEB Liability-2019	<u>0.012337%</u>	<u>0.058461%</u>	
Percentage Change	<u>0.000770%</u>	<u>0.000207%</u>	
OPEB Expense	\$323,326	\$91,017	\$414,343

**CITY OF LOVELAND, OHIO**

**Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020**

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>OPERS</u>	<u>OP&amp;F</u>	<u>Total</u>
<b>Deferred Outflows of Resources</b>			
Changes in assumptions	\$286,565	\$338,799	\$625,364
Differences between expected and actual experience	49	0	49
Change in proportionate share	49,276	189,799	239,075
City contributions subsequent to the measurement date	0	8,314	8,314
Total Deferred Outflows of Resources	<u>\$335,890</u>	<u>\$536,912</u>	<u>\$872,802</u>
<b>Deferred Inflows of Resources</b>			
Net difference between projected and actual earnings on OPEB plan investments	\$92,185	\$26,668	\$118,853
Changes in assumptions	0	123,498	123,498
Differences between expected and actual experience	165,575	62,320	227,895
Change in proportionate share	1,775	35,985	37,760
Total Deferred Inflows of Resources	<u>\$259,535</u>	<u>\$248,471</u>	<u>\$508,006</u>

\$8,314 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending December 31:	<u>OPERS</u>	<u>OP&amp;F</u>	<u>Total</u>
2021	\$92,477	\$52,387	\$144,864
2022	23,204	52,387	75,591
2023	75	57,856	57,931
2024	(39,401)	49,231	9,830
2025	0	53,628	53,628
2026	0	9,780	9,780
2027	0	4,858	4,858
Total	<u>\$76,355</u>	<u>\$280,127</u>	<u>\$356,482</u>

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

***Actuarial Assumptions - OPERS***

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2018, rolled forward to the measurement date of December 31, 2019. The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation	3.25 percent
Projected Salary Increases, including inflation	3.25 to 10.75 percent including wage inflation
Single Discount Rate:	
Current measurement date	3.16 percent
Prior Measurement date	3.96 percent
Investment Rate of Return:	
Current measurement date	6.00 percent
Prior Measurement date	6.00 percent
Municipal Bond Rate:	
Current measurement date	2.75 percent
Prior Measurement date	3.71 percent
Health Care Cost Trend Rate:	
Current measurement date	10.5 percent initial, 3.5 percent ultimate in 2030
Prior Measurement date	10.0 percent, initial 3.25 percent, ultimate in 2029
Actuarial Cost Method	Individual Entry Age Normal

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five year period ended December 31, 2015.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2019, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was 19.7 percent for 2019.

The allocation of investment assets with the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2019 and the long-term expected real rates of return:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	36.00 %	1.53 %
Domestic Equities	21.00	5.75
Real Estate Investment Trust	6.00	5.69
International Equities	23.00	7.66
Other investments	14.00	4.90
Total	100.00 %	4.55 %

**Discount Rate** A single discount rate of 3.16 percent was used to measure the OPEB liability on the measurement date of December 31, 2019. A single discount rate of 3.96 percent was used to measure the OPEB liability on the measurement date of December 31, 2018. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 2.75 percent.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

***Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate*** The following table presents the City's proportionate share of the net OPEB liability calculated using the single discount rate of 3.16 percent, as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (2.16 percent) or one-percentage-point higher (4.16 percent) than the current rate:

	1% Decrease (2.16%)	Current Discount Rate (3.16%)	1% Increase (4.16%)
City's proportionate share of the net OPEB liability	\$2,369,221	\$1,810,415	\$1,362,997

***Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate*** Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2020 is 10.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

	1% Decrease	Current Health Care Cost Trend Rate Assumption	1% Increase
City's proportionate share of the net OPEB liability	\$1,756,993	\$1,810,415	\$1,863,160

***Changes between Measurement Date and Reporting Date***

On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and pre-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for pre-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are not reflected in the current year financial statements but are expected to decrease the associated OPEB liability.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

***Actuarial Assumptions – OP&F***

OP&F’s total OPEB liability as of December 31, 2019, is based on the results of an actuarial valuation date of January 1, 2019, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F’s actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee’s entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

Valuation Date	January 1, 2019, with actuarial liabilities rolled forward to December 31, 2019	January 1, 2018, with actuarial liabilities rolled forward to December 31, 2018
Actuarial Cost Method	Entry Age Normal	Entry Age Normal
Investment Rate of Return	8.0 percent	8.0 percent
Projected Salary Increases	3.75 percent to 10.5 percent	3.75 percent to 10.5 percent
Payroll Growth	Inflation rate of 2.75 percent plus productivity increase rate of 0.5	Inflation rate of 2.75 percent plus productivity increase rate of 0.5
Single discount rate	3.56 percent	4.66 percent
Cost of Living Adjustments	3.00 percent simple; 2.2 percent simple for increases based on the lesser of the increase in CPI and 3 percent	3.00 percent simple; 2.2 percent simple for increases based on the lesser of the increase in CPI and 3 percent

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

<u>Age</u>	<u>Police</u>	<u>Fire</u>
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

<u>Age</u>	<u>Police</u>	<u>Fire</u>
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed for the five year period ended December 31, 2016. The prior experience study was completed December 31, 2011.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2019, are summarized below:

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash and Cash Equivalents	0.00 %	1.00 %
Domestic Equity	16.00	5.40
Non-US Equity	16.00	5.80
Private Markets	8.00	8.00
Core Fixed Income *	23.00	2.70
High Yield Fixed Income	7.00	4.70
Private Credit	5.00	5.50
U.S. Inflation Linked Bonds*	17.00	2.50
Master Limited Partnerships	8.00	6.60
Real Assets	8.00	7.40
Private Real Estate	12.00	6.40
Total	120.00 %	

\* levered 2x

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

**Discount Rate** For 2019, the total OPEB liability was calculated using the discount rate of 3.56 percent. For 2018, the total OPEB liability was calculated using the discount rate of 4.66 percent. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return of 8 percent. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, a municipal bond rate of 2.75 percent at December 31, 2019 and 4.13 percent at December 31, 2018, was blended with the long-term rate of 8 percent, which resulted in a blended discount rate of 3.56 percent for 2019 and 4.66 percent for 2018. The municipal bond rate was determined using the Bond Buyers General Obligation 20-year Municipal Bond Index Rate. The OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments until 2034. The long-term expected rate of return on health care investments was applied to projected costs through 2034, and the municipal bond rate was applied to all health care costs after that date.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 9 - DEFINED BENEFIT OPEB PLANS (Continued)**

***Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate*** The net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 3.56 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.56 percent), or one percentage point higher (4.56 percent) than the current rate.

	1% Decrease (2.56%)	Current Discount Rate (3.56%)	1% Increase (4.56%)
City's proportionate share of the net OPEB liability	\$718,546	\$579,503	\$463,967

***Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate*** The total OPEB liability is based on a medical benefit that is a flat dollar amount; therefore, it is unaffected by a health care cost trend rate. An increase or decrease in the trend rate would have no effect on the total OPEB liability.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 10 – COMPENSATED ABSENCES**

All full-time City employees earn sick leave at the rate of 10 hours per calendar month of active service, up to a limit of 1,424 hours. Upon retirement from the City any employee, with 15 years of active service, receives one hour of monetary compensation for every two hours of unused sick leave. A retiring employee’s payout may not exceed 1,248 hours of unused sick leave. The monetary compensation is the hourly rate of compensation of the employee at the time of retirement.

All full-time City employees earn vacation at varying rates based upon length of service. An employee may carry forward up to one year of vacation credit, plus six days, to the next year. Upon separation from the City, the employee (or his estate) is paid for his accumulated unused vacation leave balance, which is not to exceed the carryover for one year.

In the government-wide statement of net position, “Compensated Absences Payable” is recorded within the “Due within one year” account and the long-term portion of the liability is recorded within the “Due in more than one year” account. The amount increased from a beginning of year balance of \$303,077 to a year-end balance of \$344,349.

At December 31, 2020 the total accumulated unpaid time recorded in the Governmental Activities was as follows:

	<u>Hours</u>	<u>Amount</u>
Sick Leave	3,894	\$159,299
Vacation/Compensatory	<u>4,956</u>	<u>185,050</u>
Total	<u>8,850</u>	<u>\$344,349</u>

Compensated absences attributable to the Enterprise Funds of \$61,933 have been recorded within the Enterprise Funds and are not included in the above figures.

**NOTE 12 - CAPITAL LEASE COMMITMENTS**

The City leases various public safety vehicles and related equipment. The cost of the leased assets and the related liability are accounted for in the Governmental Activities capital assets and long-term debt accounts. The original cost of the assets under capital lease is \$1,576,678.

The following is a schedule of the future minimum lease payments under the capital lease together with the present value of the net minimum lease payments as of December 31, 2020:

<u>Year Ending December 31,</u>	<u>Governmental Capital Leases</u>
2021	\$183,422
2022	183,422
2023	183,422
2024	161,481
2025	120,513
2026-2029	<u>425,472</u>
Minimum Lease Payments	1,257,732
Less: Amount representing interest at the City's incremental borrowing rate of interest	<u>(183,392)</u>
Present value of minimum lease payments	<u><u>\$1,074,340</u></u>

For the Year Ended December 31, 2020***

---

**NOTE 13 - INSURANCE AND RISK MANAGEMENT**

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Medical coverage is offered to employees through a self-funded insurance plan. The plan is offered to local governments state-wide through the Jefferson Health Plan (JHP) in Steubenville, Ohio and administered by United Healthcare of Ohio. The City makes payments to the Risk Management Agency based on actuarial estimates of the amounts needed to pay claims and actual amounts needed to pay fixed costs (premiums for stop-loss coverage and medical conversion and administrative fees and services). Effective August 2015, the JHP modified its bylaws, which eliminated the liability for claims-run out. In addition, withdrawing members waive all claims and rights to any reserve or surplus balance held by the benefits pool.

The City also pays unemployment claims to the State of Ohio as incurred.

The City continues to carry commercial insurance for other risks of loss through the Public Entities Pool (PEP) of Ohio. There has been no significant reduction in insurance coverages from coverages in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverages during the past three years.

Workers' Compensation claims are covered through the City's participation in the State of Ohio's program. The City pays the State Workers' Compensation System a premium based upon a rate per \$100 of payroll. The rate is determined based on accident history and administrative costs.

**NOTE 14 - COMPLIANCE AND ACCOUNTABILITY**

The fund deficits of \$2,022,571 in the Historic Loveland TIF Fund and \$630,392 in the Recreation Land TIF Fund (capital projects funds) arose from the recognition of interfund loans payable in the individual fund balance sheet.

**NOTE 15 - CONTINGENCIES**

The City is a party to various legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects. The City's management is of the opinion that the ultimate disposition of various claims and legal proceedings will not have a material effect, if any, on the financial condition of the City.

***Notes to the Basic Financial Statements  
For the Year Ended December 31, 2020***

---

**NOTE 16 – SIGNIFICANT COMMITMENTS**

At December 31, 2020 the City had encumbrance commitments in the Governmental Funds as follows:

<u>Fund</u>	<u>Encumbrances</u>
General Fund	\$297,945
Paramedic Fund	374
Fire and EMS Fund	44,016
Community Improvement Corporation Fund	5,000
Historic Loveland TIF Fund	10,500
Other Governmental Funds	279,374
Total Governmental Funds	<u>\$637,209</u>

The City had the following contractual commitments at December 31, 2020:

<u>Project</u>	<u>Remaining Contractual Commitment</u>	<u>Expected Date of Completion</u>
Broadway Street Stabilization	\$3,860	June 2021
Butterworth Road Sewer Extension	25,360	June 2021
Parking Garage Design	230,966	September 2021
	<u>\$260,186</u>

2018: The single discount rate changed from 3.79% to 3.24%.

2019: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate changed from 3.24% to 4.66%.

2020: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate changed from 4.66% to 3.56%.

*COMBINING AND INDIVIDUAL FUND  
STATEMENTS AND SCHEDULES*

---

*THE FOLLOWING COMBINING STATEMENTS AND SCHEDULES  
INCLUDE THE MAJOR AND NONMAJOR GOVERNMENTAL FUNDS.*

***Nonmajor Governmental Funds***

---

---

***Special Revenue Funds***

---

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than amounts relating to trusts or major capital projects) that are legally restricted or committed to expenditures for specified purposes.

**Sick Leave Reserve/Escrow Fund**

To account for reserve balances set aside for budget stabilization as well as for payouts to retirees for sick, vacation and compensatory time accrued through their employment with the City. (The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are not presented because this fund is reported as part of the General Fund on a GAAP basis.)

**Street Maintenance Fund**

To account for revenues distributed by the State from the motor vehicle registration and gasoline tax. Expenditures may only be used for City street construction, maintenance and repair.

**Coronavirus Relief Fund**

This fund is used to account for Coronavirus Relief funds received through passage of the CARES Act. These funds can be used for necessary expenditures incurred due to the Covid-19 public health emergency.

**Enforcement and Education Fund**

To account for resources used to educate the public regarding laws governing the operation of motor vehicles while under the influence of alcohol.

**FEMA Fund**

To account for federal resources used for emergency management of disasters.

**Permissive Motor Vehicle License Tax Fund**

To account for permissive auto license taxes levied for street construction, maintenance and repair.

**Fire Protection Fund**

To account for the activities provided by the City's fire protection service funded by property taxes.

**State Highway Fund**

To account for revenues distributed by the State from the motor vehicle registration and gasoline tax designated for construction, maintenance and repair of State highways located within the City.

**Mayors Court Computer Fund**

To account for the assessment fee charged to each issued citation to be used only for the purchase and maintenance of computerizing the Mayor's Court operations.

***Special Revenue Funds (Continued)***

---

**Lighting District Fund**

To account for assessments to be used for electric utility charges.

***Debt Service Funds***

---

The Debt Service Funds are used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources and special assessment levies when the government is obligated in some manner for payment.

**General Bond Retirement Fund**

This fund is used to account for the accumulation of resources to be used for the retirement of general obligation debt.

**Debt Retirement Sinking Fund**

To account for the accumulation of resources for retirement of the special obligation tax increment financing bonds.

***Capital Projects Funds***

---

The Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities.

**Recreation Land TIF Fund**

To account for service payments (in lieu of taxes) as a result of a tax increment financing agreement. Proceeds from the Christman Land TIF bond issuance were used to purchase land in the TIF district which will be developed into a City park.

**Training Tower Building Fund**

To account for debt proceeds used to construct a fire training tower for the Loveland-Symmes Fire Department.

**Special Projects Fund**

To account for the accumulation of resources for the City's various capital projects.

---

---

## *STATISTICAL TABLES*

---

This part of the City’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City’s overall financial health.

### *Contents*

---

<b>Financial Trends</b>	S 2 – S 13
These schedules contain trend information to help the reader understand how the City’s financial position has changed over time.	
<b>Revenue Capacity</b>	S 14 – S 16
These schedules contain information to help the reader understand and assess the factors affecting the City’s ability to generate its most significant local revenue source, the income tax.	
<b>Debt Capacity</b>	S 18 – S 25
These schedules present information to help the reader assess the affordability of the City’s current levels of outstanding debt and the City’s ability to issue additional debt in the future.	
<b>Economic and Demographic Information</b>	S 26 – S 29
These schedules offer economic and demographic indicators to help the reader understand the environment within which the City’s financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	
<b>Operating Information</b>	S 30 – S 35
These schedules contain service and infrastructure data to help the reader understand how the information in the City’s financial report relates to the services the City provides and the activities it performs.	
<b>Sources Note:</b>	
Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.
