## INDEPENDENT AUDITOR'S REPORT

Lakeview Local School District  
Trumbull County  
300 Hillman Drive  
Cortland, Ohio 44410

To the Board of Education:

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lakeview Local School District, Trumbull County, Ohio (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2020, and the respective changes in financial position thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

### **Emphasis of Matter**

As discussed in Note 22 to the financial statements, during 2020, the District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities, and related guidance from (GASB) Implementation Guide No. 2019-2*. We did not modify our opinion regarding this matter. As discussed in Note 23 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. We did not modify our opinion regarding this matter.

### **Other Matters**

#### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### *Supplementary and Other Information*

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedules are management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated March 23, 2021, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

*Unaudited*

---

It is a pleasure to present to you the financial picture of Lakeview Local School District (the "School District"). Included in these first few paragraphs and tables is the management's view of how our School District is currently performing. It is intended that this presentation be an objective and easily read analysis of the overall financial condition of our School District. Please consider our comments along with the financial statements and notes to fully understand our School District's finances.

**Financial Highlights**

- Net position decreased in fiscal year 2020 due mainly to changes in the net pension liability and the deferred outflows of resources associated with these. The School District's total net position also decreased from current year depreciation reducing overall capital assets with no capitalized additions to offset the reduction.
- Equity in pooled cash and cash equivalents saw a decrease from the prior fiscal year resulting from a \$344,000 cut in State foundation from the COVID pandemic coupled with subsidizing other funds and a decrease in enrollment.
- The School District's enrollment decreased from 1,682 students in fiscal year 2019 to 1,670 students in fiscal year 2020.
- The School District's outstanding long-term obligations consist of the unlimited tax general obligation bonds and capital leases for buses.

**Using This Annual Report**

This annual report consists of a series of financial statements and notes to those statements. The *Statement of Net Position* and the *Statement of Activities* provide information about the activities of the School District as a whole and present a longer-term view of the School District's finances. Fund financial statements provide the next level of detail. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the School District's operations in more detail than the government-wide statements by providing information about the School District's most significant funds. In the case of Lakeview Local School District, the general fund and the bond retirement debt service fund are the most significant funds. The remaining statements provide financial information about activities for which the School District acts solely as a trustee or agent for the benefit of those outside the government.

**Reporting the School District as a Whole (District-Wide)**

*Statement of Net Position and the Statement of Activities*

The only two reports that display School District-wide finances are the Statement of Net Position and the Statement of Activities. Within these statements, we show the School District divided into two kinds of activities:

- Governmental Activities – All of the School District's instructional activities are reported here. Property Taxes, State and Federal Grants and fees finance the majority of activity in this group.

**Lakeview Local School District**  
*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2020*  
*Unaudited*

---

- **Business-Type Activities** – If the Board of Education sets a fee designed to offset the cost of operating a program, then this defines a business-type activity. The School District does not have any of this type of activity.

Analysis of the School District as a whole begins with table 1. While this document contains all of the funds used by the School District to provide programs and activities, the view of the School District as a whole considers all financial transactions. One of the most important issues when analyzing any business enterprise is “How did we do financially during 2020 and are we better off today than we were one year ago?” The two School District-wide documents try to provide and support the answer to these particular questions. These statements include all assets and deferred outflows of resources and liabilities and deferred inflows of resources using the accrual basis of accounting, similar to the accounting method used by most private-sector companies. The most important aspect of accrual accounting is that it takes into account all of the current year’s revenues and expenses regardless of when cash is received or paid out.

These statements also display the net position of the School District and note any changes that occurred during the year. Net position is the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources and they tend to be the lead indicator of financial health. This change in net position is important because it tells the reader whether, for the School District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Financial factors to consider may include changes in property tax values, tax levies and renewals or State funding issues before reaching a final conclusion about our School District’s financial status. Non-financial factors may include the School District’s performance, demographic and socioeconomic factors and willingness of the community to support the School District. It could prove helpful in making the analysis to look at the individual fund conditions to show the composition of the changes.

## **Reporting the School District’s Most Significant Funds**

### ***Fund Financial Statements***

Analysis of the School District’s major funds begins with the discussion of the balance sheet and provides detailed information about each significant fund in contrast to the previously described School District-wide reporting. Most of the funds are required to be established by State law.

***Governmental Funds*** – Most of the School District’s funds are reported as governmental funds. These reports focus on how resources flow into and out of these funds and the balances left at year-end that are available for spending in future periods. These reports are done on a modified accrual basis. Modified accrual accounting measures cash and all other financial assets that can be readily converted into cash. The governmental fund statements provide a detailed, short-term view of the School District’s general government operations and the basic services it provides. There are differences between governmental funds (as reported in this section on a modified accrual basis) and governmental activities as reported in the *Statement of Net Position* and the *Statement of Activities*, which are reported on a full accrual basis. These differences are reconciled in the financial statements.

**The School District as a Whole**

Recall that the *Statement of Net Position* provides the perspective of the School District as a whole. Table 1 provides a summary of net position as of June 30, 2020 as compared to June 30, 2019.

(Table 1)  
Net Position  
Governmental Activities

Other Purposes	603,381	478,787	124,594
Unrestricted (Deficit)	<u>(17,716,858)</u>	<u>(16,010,742)</u>	<u>(1,706,116)</u>
<i>Total Net Position</i>	<u>(\$7,813,282)</u>	<u>(\$6,044,224)</u>	<u>(\$1,769,058)</u>

The net pension liability (NPL) is one of the largest single liabilities reported by the School District at June 30, 2020. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the “employment exchange” – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they

**Lakeview Local School District**  
*Management's Discussion and Analysis*  
*For the Fiscal Year Ended June 30, 2020*  
*Unaudited*

---

received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the School District, total liabilities and deferred inflows of resources exceed total assets and deferred outflows of resources by \$7,813,282 in fiscal year 2020 and \$6,044,224 in fiscal year 2019.

A large portion of the School District's net position reflects "Net Investment in Capital Assets" (i.e. land, construction in progress, buildings, improvements, furniture, fixtures, equipment and vehicles) less any related debt to acquire those assets that are still outstanding. The School District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the School District's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The School District continues to provide the services that the School District residents expect while maintaining the costs of providing those services. The most dramatic changes were decreases to cash and cash equivalents and capital assets offset by decreases to contracts payable and the changes from net pension/OPEB changes noted above. Cash and cash equivalents saw a decrease from the prior fiscal year resulting from a \$344,000 cut in State foundation from the COVID pandemic coupled with subsidizing other funds and a decrease in enrollment. Contracts payable decreased due to the same conclusion of construction on the new facility. Other long-term liabilities decreased by principal payments on debt obligations during the fiscal year.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for fiscal years 2020 and 2019.

***Governmental Activities***

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. It increases as a result of new construction or collection from a new voted levy. Although school districts experience inflationary growth in expenses, tax revenue does not keep pace with the increased expenses due to House Bill 920. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00 and the School District would collect the same dollar value the levy generated in the year it passed. The 10 percent rollback on all residential/agricultural property and the 2.5 percent rollback on all owner occupied homes would reduce the amount of taxes paid.

Thus school districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service.

Revenue is divided into two major components: program revenues and general revenues. Program revenues are defined as fees, restricted grants and charges for services that are program specific. General revenues include taxes and unrestricted grants such as State Foundation support.

Program revenues increased for governmental activities in fiscal year 2020. Operating grants increased due to the School District seeking out restricted grant monies as additional sources of operating revenues along with a new grant specific to student health and wellness. General revenues decreased in fiscal year 2020 resulting from having less cash to invest from the completion of construction resulting in less interest revenue coupled with a decrease in grants not restricted to operations. The decrease in grants and entitlements for fiscal year 2020 was due to a reduction in State Foundation funding due to the COVID-19 pandemic.

Instruction composes the most significant portion of governmental program expenses. The largest component of change in program expenses results from variances in pension and OPEB expenses, the most significant of which being related to STRS OPEB expenses. The School District's OPEB expense related to STRS increased from a negative expense of \$2,269,283 in fiscal year 2019 to a negative expense of \$340,389 for fiscal year 2020. Program expenses were also affected significantly by the conclusion of construction and have less costs associated with preparing the school facility.

The *Statement of Activities* shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

**Lakeview Local School District**

Interest and Fiscal Charges	885,901	885,901	902,598	902,598
<i>Total Expenses</i>	<u>\$20,942,593</u>	<u>\$18,167,409</u>	<u>\$21,820,420</u>	<u>\$19,159,245</u>

The School District's dependence upon general revenues for governmental activities is apparent from Table 3. The majority of expenses are supported through taxes and other general revenues.

**The School District's Funds**

Information about the School District's major funds, the general fund and bond retirement debt service fund, starts with the balance sheet. These funds are accounted for using the modified accrual basis of accounting. The general fund balance decreased from increases to expenditures consisting of changes to salaries made up of base and step increases along with increasing healthcare costs, coupled with transfers to supplement operating costs for other programs. The bond retirement fund saw a decrease in fund balance as the levy proceeds and corresponding homestead and rollback collections were less than the annual payment of principal and interest for the fiscal year.

**General Fund Budgetary Highlights**

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

The forecasted budget presented to the Lakeview Local Board of Education in September was amended throughout the year. For the general fund, the School District made amendments to the original estimated revenue with the final estimated revenue being lower than the original and lower than actual revenues. The change was attributed to adjustments for property taxes and intergovernmental as a clear picture of trends became apparent.

Final budgeted appropriations exceeded the original budgeted appropriations of the general fund as the Administration made needed adjustments to the spending plan. Actual expenditures were under final budgeted appropriations. This change was the result of careful monitoring and budgeting on the School District's part to keep expenditures down.

## **Capital Assets and Debt**

### **Capital Assets**

For fiscal year 2020, the decrease in capital assets consisted of an additional year of depreciation with no current year additions to capitalized purchases. For more information about the School District's capital assets, see Note 11 to the basic financial statements.

### **Debt**

For fiscal year 2020, the School District's debt obligations consisted of the 2015 unlimited tax bonds (maturing in fiscal year 2053) and capital leases maturing in fiscal year 2023. See Notes 12 and 17 to the basic financial statements for additional information on the School District's long-term obligations and leases.

### **Current Issues**

The Lakeview Local School District continues to provide a high level of service to our students, parents and community. The Board of Education and Administration closely monitor revenue and expenditures in accordance with its financial forecast and work diligently to ensure tax dollars are being used efficiently and effectively.

The School District's academic program includes the following attributes, among others:

- The High School offers approximately 60 courses, including several honors courses and approximately 27 College Credit Plus (CCP) courses. Lakeview High School students are able to earn approximately 78 semester hours of college credit without leaving the building. These courses are taught by our own faculty who are also accredited to teach college-level coursework by the Ohio Department of Higher Education.
- CCP is a dual high school/college enrollment program designed to provide both high school and college credit. Over 150 students are enrolled in CCP for the 2019-2020 school year.
- Over the past five years, 79 percent of the School District's students proceeded to college, 12 percent went into the military and 9 percent went into apprentice/career tech programs.
- Comprehensive Special Education Services are provided from Pre-K to age 22.
- The School District offers a Pre-K to Kindergarten transition program (the first in the County).
- The School District offers participation in over 40 teams in 18 sports.
- In 2019, Lakeview High School was named by *Newsweek* to be one of the Top 500 High Schools in the Nation (the only school in Trumbull County and one of only two schools in the tri-county area).

The School District's Administration strives to continue to be excellent stewards of their residents' investment in the School District by continuing their practice of being prudent and frugal in the use of their resources while also seeking new State and Federal funding.

The prestigious U.S. News magazine awarded a Silver Medal to Lakeview High School, ranking it among the top school districts in the State of Ohio.

The School District ranked 33<sup>rd</sup> out of 611 school districts State-wide in gifted performance.

*Reconciliation of the Statement of Revenues, Expenditures and Changes  
in Fund Balances of Governmental Funds to the Statement of Activities  
For the Fiscal Year Ended June 30, 2020*

---

---

**Net Change in Fund Balances - Total Governmental Funds** (\$1,069,944)

*Amounts reported for governmental activities in the  
statement of activities are different because*

Governmental funds report capital outlays as expenditures. However in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current period. (854,236)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Delinquent Property Taxes	18,251	
Intergovernmental	(47,588)	
Tuition and Fees	(11,022)	
Miscellaneous	(47,409)	
Total		(87,768)

Repayment of long-term obligations are expenditures in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position. 628,018

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.

Accrued Interest	3,085	
Amortization of Premium	11,310	
Total		14,395

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Compensated Absences	86,978	
Special Termination Benefits	30,500	
Total		117,478

Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.

Pension	1,419,971	
OPEB	32,444	
Total		1,452,415

Except for amounts reported deferred inflows/outflows, changes in the net pension/OPEB liability (asset) are reported as pension/OPEB expense in the statement of activities.

Pension	(2,285,099)	
OPEB	315,683	
Total		(1,969,416)

*Change in Net Position of Governmental Activities* (\$1,769,058)

*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

**Note 1 - Description of the School District and Reporting Entity**

Lakeview Local School District (the “School District”) is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally elected five-member Board form of government and provides educational services as mandated by State and federal agencies. The Board of Education controls the School District's four instructional/support facilities staffed by 70 classified employees, 109 certificated full and part-time employees, and 10 administrators who provide services to 1,670 students and other community members.

*Reporting Entity*

A reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Lakeview Local School District, this includes the agencies and departments that provide the following services: general operations, food service and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The School District has no component units.

The School District participates in two public entity pools and two jointly governed organizations. These organizations are the Ohio School Boards Association Workers' Compensation Group Rating Program, the Trumbull County School Employees Insurance Benefits Consortium, the Trumbull Career and Technical Center and the Northeast Ohio Management Information Network. These organizations are presented in Notes 13 and 14 to the basic financial statements.

**Note 2 - Summary of Significant Accounting Policies**

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

*Basis of Presentation*

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

***Government-wide Financial Statements*** The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. These statements usually distinguish between those activities of the School District that are governmental and those that are considered business-type. The School District however, has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

***Fund Financial Statements*** During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

***Fund Accounting***

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are two categories of funds: governmental and fiduciary.

***Governmental Funds*** Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds:

***General Fund*** The general fund is the operating fund of the School District and is used to account for and report all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

***Bond Retirement Fund*** The bond retirement fund accounts for and reports property tax revenues that are restricted for payment of principal and interest and fiscal charges on general obligation debt.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

The other governmental funds of the School District account for grants and other resources, whose use is restricted, committed or assigned to a particular purpose.

***Fiduciary Funds*** Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into the following four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that has certain characteristics. Custodial Funds are used to report fiduciary activities that are not required to be reported in a trust fund. The School District's custodial fund accounts for OHSAA tournament activities.

***Measurement Focus***

***Government-wide Financial Statements*** The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

***Fund Financial Statements*** All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (e.g., revenues and other financing sources) and uses (e.g., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

***Basis of Accounting***

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for the fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

***Revenues - Exchange and Non-Exchange Transactions*** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 10). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, fees and rentals.

***Deferred Outflows/Inflows of Resources*** In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for pension and OPEB plans. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 15 and 16.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized until that time. For the School District, deferred inflows of resources include property taxes, pension, OPEB plans and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2021 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, intergovernmental revenues, tuition and fees and miscellaneous revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities fund on page 17. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Notes 15 and 16)

***Expenses/Expenditures*** On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

***Pensions/Other Postemployment Benefits (OPEB)***

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

***Cash and Cash Equivalents***

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the School District's records. Interest in the pool is presented as "equity in pooled cash and cash equivalents". The School District had no investments during the fiscal year or at fiscal year-end.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2020 amounted to \$71,186, which includes \$49,739 assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

***Prepaid Items***

Payments made to vendors for services that will benefit periods beyond June 30, 2020, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which the services are consumed.

***Inventory***

Inventories are presented at cost on a first-in, first-out basis and are expensed/expensed when used. Inventory consists of expendable supplies held for consumption and donated and purchased food held for resale.

***Capital Assets***

The School District's only capital assets are general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The School District's capitalization threshold is \$5,000. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

Description	Governmental Activities Estimated Lives
Land Improvements	20 years
Buildings and Improvements	50 years
Furniture and Fixtures	5 - 30 years
Vehicles	8 years

***Compensated Absences***

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for all employees with more than one year of service.

The entire compensated absence liability is reported on the government-wide financial statements.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the funds from which the employee who has accumulated unpaid leave is paid.

***Accrued Liabilities and Long-term Obligations***

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds are recognized as a liability on the fund financial statements when due. Net pension/OPEB liability (asset) should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

***Bond Premiums***

On the government-wide financial statements, bond premiums are deferred and amortized over the term of the bonds using the straight line method. Bond premiums are presented as an increase of the face amount of the general obligation bonds payable. On the fund financial statements, bond premiums are

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

received in the year the bonds are issued. Under Ohio law, premiums on the original issuance of debt are to be deposited to the bond retirement fund to be used for debt retirement and are precluded from being applied to the project fund.

***Internal Activity***

Transfers between governmental activities are eliminated on the government-wide financial statements. Internal events that are allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

***Fund Balance***

Fund balance is divided into five classifications based primarily on the extent to which the School is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

***Nonspendable*** The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

***Restricted*** Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

***Committed*** The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

***Assigned*** Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance includes the remaining amount that is not restricted or committed. These assigned balances are established by the School District Board of Education. In the general fund, assigned amounts represent intended uses established by the School District Board of Education or by State statute. State statute authorizes the Treasurer to assign fund balances for purchases on order provided such amounts have been lawfully appropriated. The Board of Education assigned fund balance for school support and to cover a gap between estimated revenue and appropriations in the fiscal year 2021 budget.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

***Unassigned*** Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

***Net Position***

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for food service operations, instruction, support services, and extracurricular activities.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

***Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

***Budgetary Data***

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. Budgetary modifications at this level require a resolution of the Board of Education. Budgetary allocations at the function and object level are made by the Treasurer.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original and final budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original and final appropriations were adopted.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

**Note 3 – Fund Balances**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Bond Retirement	Other Governmental Funds	Total
<b><i>Nonspendable</i></b>				
Prepaid Items	\$35,006	\$0	\$881	\$35,887
Materials and Supplies Inventory	40,259	0	1,069	41,328
<i>Total Nonspendable</i>	<u>75,265</u>	<u>0</u>	<u>1,950</u>	<u>77,215</u>
<b><i>Restricted for</i></b>				
Athletics and Music	0	0	54,264	54,264
College Scholarships	0	0	19,787	19,787
Food Service	0	0	18,513	18,513
Student Wellness	0	0	86,471	86,471
Student Activities	0	0	73,868	73,868
Debt Service Payments	0	430,378	0	430,378
Capital Improvements	0	0	2,026,111	2,026,111
<i>Total Restricted</i>	<u>0</u>	<u>430,378</u>	<u>2,279,014</u>	<u>2,709,392</u>
<b><i>Assigned to</i></b>				
School Support	27,547	0	0	27,547
Fiscal Year 2021 Operations	1,208,906	0	0	1,208,906
<i>Total Assigned</i>	<u>1,236,453</u>	<u>0</u>	<u>0</u>	<u>1,236,453</u>
<b><i>Unassigned (Deficit)</i></b>	<u>0</u>	<u>0</u>	<u>(62,795)</u>	<u>(62,795)</u>
<b><i>Total Fund Balances</i></b>	<u><u>\$1,311,718</u></u>	<u><u>\$430,378</u></u>	<u><u>\$2,218,169</u></u>	<u><u>\$3,960,265</u></u>

**Note 4 - Budgetary Basis of Accounting**

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

3. Encumbrances are treated as expenditures (budget basis) rather than as a restricted, committed or assigned fund balance.
4. Advances In and Advances Out are operating transactions (budget) as opposed to balance sheet transactions (GAAP).
5. Budgetary revenues and expenditures of the uniform school supplies and public school support funds are classified to the general fund for GAAP reporting.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

Net Change in Fund Balance	
GAAP Basis	(\$1,272,201)
Net Adjustment for Revenue Accruals	64,947
Net Adjustment for Expenditure Accruals	34,856
Advances In	25,000
Advances Out	(25,000)
Perspective Differences:	
Uniform School Supplies	26,362
Public School Support	3,438
Encumbrances	<u>(117,050)</u>
Budget Basis	<u><u>(\$1,259,648)</u></u>

**Note 5 – Accountability**

At June 30, 2020, the title VI-B, title I, Title II-A and miscellaneous federal grants special revenue funds had a deficit balances of \$36,836, \$10,380, \$3,525 and \$12,054, respectively. The deficit balances resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in this fund and provides transfers when cash is required, not when accruals occur.

**Note 6 - Deposits and Investments**

Monies held by the School District are classified into three categories.

Active deposits are public deposits necessary to meet current demands on the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidence by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio).
8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim moneys available for investment at the time of purchase.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

**Note 7 - Interfund Transactions**

*Interfund Transfers* - The general fund made a transfer of \$150,000 to the food service special revenue fund and \$198 to the scholarship special revenue fund to help provide funding for fiscal year 2020.

*Interfund Balances* - The interfund receivable and payable between the general fund and the other governmental funds of \$97,304 is due to the timing of the receipt of grant monies received by the various funds and due to moving unrestricted balances to support programs accounted for in other funds. The general fund provides temporary funding of the program until the grant dollars are received.

**Note 8 – Receivables**

Receivables at June 30, 2020, consisted of taxes, accounts and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables, except for delinquent property taxes, are expected to be collected within one year. Property taxes, although ultimately collectible include some portion of delinquencies that will not be collected within one year.

A summary of the principal items of intergovernmental receivables follows:

	<u>Amount</u>
Foundation Adjustments	\$72,637
Title I Grant	64,820
Part B IDEA Grant	57,031
School Employees Retirement System	24,670
Title II-A Grant	18,006
Miscellaneous Federal Grant	<u>13,590</u>
<i>Total Governmental Activities</i>	<u><u>\$250,754</u></u>

**Note 9 - Contingencies**

*Grants*

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2020, if applicable, cannot be determined at this time.

***School Foundation***

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by the schools throughout the State, which can extend past the fiscal year end. ODE has finalized the impact of enrollment adjustments to the June 30, 2020 foundation funding for the School District. These adjustments were insignificant for the School District.

***Litigation***

The School District is a party to various legal proceedings seeking damages. The School District's administration is of the opinion that ultimate disposition of these claims and legal proceedings will not have a material effect, if any, on the financial condition of the School District.

**Note 10 - Property Taxes**

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2020 represents collections of calendar year 2019 taxes. Real property taxes received in calendar year 2020 were levied after April 1, 2019, on the assessed value listed as of January 1, 2019, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in calendar year 2020 represent the collection of calendar year 2019 taxes. Public utility real and tangible personal property taxes received in calendar year 2020 became a lien on December 31, 2018, were levied after April 1, 2019, and are collected with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The School District receives property taxes from Trumbull County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2020, are available to finance fiscal year 2021 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2020 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations are reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

by a credit to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

The amount available as an advance at June 30, 2020 was \$13,240 in the general fund, \$236 in the classroom facilities maintenance fund, \$2,369 in the bond retirement fund and \$431 in the permanent improvement fund. The amount available as an advance at June 30, 2019 was \$50,261 in the general fund, \$796 in the classroom facilities maintenance fund, \$8,628 in the bond retirement fund and \$1,636 in the permanent improvement fund.

The assessed values upon which the fiscal year 2020 taxes were collected are:

	2019 Second Half Collections		2020 First Half Collections	
	Amount	Percent	Amount	Percent
Residential/Agricultural and Other Real Estate	\$268,128,420	96.30 %	\$268,773,570	96.15 %
Public Utility Personal	10,297,440	3.70	10,760,430	3.85
<b>Total</b>	<b>\$278,425,860</b>	<b>100.00 %</b>	<b>\$279,534,000</b>	<b>100.00 %</b>
Tax rate per \$1,000 of assessed valuation	\$50.85		\$49.95	

**Note 11 – Capital Assets**

Capital asset activity for the fiscal year ended June 30, 2020, was as follows:

	Balance June 30, 2019	Additions	Deletions	Balance June 30, 2020
<b>Nondepreciable Capital Assets</b>				
Land	\$510,300	\$0	\$0	\$510,300

In 1998, the School District issued \$4,465,070 in voted general obligation bonds for the purpose of constructing an auditorium, major renovations and an addition at the Bazetta elementary school. The bonds were issued for twenty-two year periods with a final maturity at December 1, 2019.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

In 2015, the School District issued \$23,815,000 in voted general obligation bonds for the purpose of constructing a new elementary/middle school to replace two existing ones. The bonds were issued for a thirty-seven year period with a final maturity at December 1, 2052.

General obligation bonds will be paid from the debt service fund. Compensated absences will be paid from the general and food service special revenue funds. There are no repayment schedules for the net pension liability and net OPEB liability. However, employer pension and OPEB contributions are made from following funds: the general fund and the food service, title VI-B and title I special revenue funds. For additional information related to the net pension and net OPEB liabilities see Notes 15 and 16. The capital leases are paid from the permanent improvement fund.

The overall debt margin of the School District as of June 30, 2020 was \$2,938,438 with an unvoted debt margin of \$279,534. Principal and interest requirements to retire the general obligation bonds outstanding at June 30, 2020 are as follows:

	<u>General Obligation Bonds</u>	
	<u>2015 Unlimited Tax</u>	
	<u>Principal</u>	<u>Interest</u>
2021	\$310,000	\$884,024
2022	335,000	877,575
2023	340,000	869,975
2024	350,000	861,350
2025	375,000	849,475
2026 - 2030	2,150,000	4,023,375
2031 - 2035	2,740,000	3,569,294
2036 - 2040	3,350,000	3,003,753
2041 - 2045	4,065,000	2,248,503
2046 - 2050	5,075,000	1,235,500
2051 - 2053	3,560,000	217,400
Total	<u>\$22,650,000</u>	<u>\$18,640,224</u>

**Note 13 – Public Entity Pools**

***Insurance Purchasing Pool***

***Ohio School Boards Association Workers’ Compensation Group Rating Program*** The School District participates in the Ohio School Boards Association Workers’ Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP’s business and affairs are conducted by a three member Board of directors consisting of the President, the President-Elect and the Immediate Post President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

***Shared Risk Pool***

***Trumbull County School Employees Insurance Benefits Consortium*** The School District participates in the Trumbull County School Employees Insurance Benefits Consortium. This is a shared risk pool comprised of sixteen Trumbull County School Districts. The Consortium is governed by an assembly which consists of one representative from each participating school district (usually the superintendent or designee). The assembly elects officers for one year terms to serve as the Board of Directors. The assembly exercises control over the operation of the Consortium. Each member's control over the budgeting and financing of the pool is limited to its voting authority and any representation it may have on the Board of Directors. Consortium revenues are generated from charges for services.

**Note 14 - Jointly Governed Organizations**

***Trumbull Career and Technical Center*** The Trumbull Career and Technical Center is a distinct political subdivision of the State of Ohio providing vocational needs of the students. The center is operated under the direction of a Board consisting of one representative from each of the nineteen participating school districts' elected boards, which possesses its own budgeting and taxing authority. The Board exercises total control over the operations of the Trumbull Career and Technical Center including budgeting, appropriating, contracting and designating management. The degree of control exercised by any participating school district is limited to its representation on the Governing Board. To obtain financial information write to the Trumbull Career and Technical Center, Cody Holecko, who serves as Treasurer, at 528 Educational Highway, Warren, Ohio 44483.

***Northeast Ohio Management Information Network (NEOMIN)*** NEOMIN is a jointly governed organization among twenty-nine school districts and two educational service centers in Trumbull and Ashtabula Counties. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. Each of the districts supports NEOMIN based upon a per pupil charge. Lakeview Local School District paid \$118,598 to NEOMIN during fiscal year 2020.

The Governing board consists of ten members: The Trumbull and Ashtabula County superintendents (permanent members), three superintendents from Ashtabula County participating school districts, three superintendents from Trumbull County participating school districts, the fiscal agent (or NEOMIN). The Board exercises total control over the operations of NEOMIN including budgeting, appropriating, contracting and designating management. The degree of control exercised by any participating school district is limited to its representation on the Governing Board. To obtain a copy of NEOMIN's financial statements, write to the Trumbull County Educational Service Center, 6000 Youngstown Warren Road, Niles, Ohio 44446.

---

**Note 15 - Defined Benefit Pension Plans**

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

***Net Pension Liability/Net OPEB Liability (Asset)***

The net pension liability and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions/OPEB are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liabilities (asset) represent the School District's proportionate share of each pension/OPEB plans' collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plans' fiduciary net position. The net pension/OPEB liabilities (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District's obligation for these liabilities to annually required payments. The School District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 both assume the liabilities are solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liabilities (asset). Resulting adjustments to the net pension/OPEB liabilities (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide health care to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a *net OPEB asset* or long-term *net pension/OPEB liabilities* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 16 for the required OPEB disclosures.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

***Plan Description – School Employees Retirement System (SERS)***

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2020, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District’s contractually required contribution to SERS was \$320,138 for fiscal year 2020. Of this amount \$17,583 is reported as an intergovernmental payable.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

***Plan Description – State Teachers Retirement System (STRS)***

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five year of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2020 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2020, the full employer contribution was allocated to pension.

The School District's contractually required contribution to STRS was \$1,099,833 for fiscal year 2020. Of this amount \$130,072 is reported as an intergovernmental payable.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the Net Pension Liability:			
Prior Measurement Date	0.06679290%	0.06484567%	
Current Measurement Date	<u>0.06549110%</u>	<u>0.06508865%</u>	
Change in Proportionate Share	<u>-0.00130180%</u>	<u>0.00024298%</u>	
Proportionate Share of the Net			
Pension Liability	\$3,918,448	\$14,393,965	\$18,312,413
Pension Expense	\$511,921	\$1,773,178	\$2,285,099

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
<b>Deferred Outflows of Resources</b>			
Differences between expected and actual experience	\$99,364	\$117,191	\$216,555
Changes of assumptions	0	1,690,849	1,690,849
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	0	83,144	83,144
School District contributions subsequent to the measurement date	<u>320,138</u>	<u>1,099,833</u>	<u>1,419,971</u>
Total Deferred Outflows of Resources	<u>\$419,502</u>	<u>\$2,991,017</u>	<u>\$3,410,519</u>
<b>Deferred Inflows of Resources</b>			
Differences between expected and actual experience	\$0	\$62,309	\$62,309
Net difference between projected and actual earnings on pension plan investments	50,298	703,499	753,797
Changes in proportionate share and Difference between School District contributions and proportionate share of contributions	<u>74,928</u>	<u>394,049</u>	<u>468,977</u>
Total Deferred Inflows of Resources	<u>\$125,226</u>	<u>\$1,159,857</u>	<u>\$1,285,083</u>

\$1,419,971 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Fiscal Year Ending June 30:	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
2021	\$49,721	\$627,245	\$676,966
2022	(100,762)	89,787	(10,975)
2023	(3,347)	(73,439)	(76,786)
2024	<u>28,526</u>	<u>87,734</u>	<u>116,260</u>
Total	<u>(\$25,862)</u>	<u>\$731,327</u>	<u>\$705,465</u>

**Actuarial Assumptions – SERS**

SERS’ total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented as follows:

Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
COLA or Ad Hoc COLA	2.5 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

**Discount Rate** The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

**Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
School District's proportionate share of the net pension liability	\$5,491,146	\$3,918,448	\$2,599,543

**Actuarial Assumptions – STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2019, actuarial valuation are presented as follows:

Inflation	2.50 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Discount Rate of Return	7.45 percent
Payroll Increases	3 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
<b>Total</b>	<b>100.00 %</b>	

\* Target weights will be phased in over a 24-month period concluding on July 1, 2019.

\*\* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2019.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

***Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate*** The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of the net pension liability	\$21,035,174	\$14,393,965	\$8,771,839

**Note 16 – Defined Benefit OPEB Plans**

See Note 15 for a description of the net OPEB liability (asset).

***Plan Description – School Employees Retirement System (SERS)***

Health Care Plan Description – The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides health care benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2020, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer’s SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge.

For fiscal year 2020, the School District’s surcharge obligation was \$32,444.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District’s contractually required contribution to SERS was \$32,444 for fiscal year 2020, which is reported as an intergovernmental payable.

***Plan Description – State Teachers Retirement System (STRS)***

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians’ fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

***OPEB Liabilities (Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB***

The net OPEB liability (asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability (asset) was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportion of the Net OPEB Liability/Asset:			
Prior Measurement Date	0.06786300%	0.06484567%	
Current Measurement Date	<u>0.06652340%</u>	<u>0.06508865%</u>	
Change in Proportionate Share	<u>-0.00133960%</u>	<u>0.00024298%</u>	
Proportionate Share of the:			
Net OPEB Liability	\$1,672,924	\$0	\$1,672,924
Net OPEB (Asset)	\$0	(\$1,078,024)	(\$1,078,024)
OPEB Expense	\$24,706	(\$340,389)	(\$315,683)

At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
<b>Deferred Outflows of Resources</b>			
Differences between expected and actual experience	\$24,557	\$97,731	\$122,288
Changes of assumptions	122,188	22,660	144,848
Net difference between projected and actual earnings on OPEB plan investments	4,016	0	4,016
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	0	24,175	24,175
School District contributions subsequent to the measurement date	<u>32,444</u>	<u>0</u>	<u>32,444</u>
Total Deferred Outflows of Resources	<u>\$183,205</u>	<u>\$144,566</u>	<u>\$327,771</u>
<b>Deferred Inflows of Resources</b>			
Differences between expected and actual experience	\$367,530	\$54,846	\$422,376
Changes of assumptions	93,746	1,181,927	1,275,673
Net difference between projected and actual earnings on OPEB plan investments	0	67,707	67,707
Changes in proportionate share and Difference between School District contributions and proportionate share of contributions	<u>78,444</u>	<u>55,034</u>	<u>133,478</u>
Total Deferred Inflows of Resources	<u>\$539,720</u>	<u>\$1,359,514</u>	<u>\$1,899,234</u>

\$32,444 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

Fiscal Year Ending June 30:	SERS	STRS	Total
2021	(\$121,513)	(\$267,674)	(\$389,187)
2022	(62,764)	(267,675)	(330,439)
2023	(61,586)	(240,539)	(302,125)
2024	(61,778)	(231,021)	(292,799)
2025	(56,468)	(211,376)	(267,844)
Thereafter	<u>(24,850)</u>	<u>3,337</u>	<u>(21,513)</u>
Total	<u><u>(\$388,959)</u></u>	<u><u>(\$1,214,948)</u></u>	<u><u>(\$1,603,907)</u></u>

**Actuarial Assumptions – SERS**

The total OPEB liability is determined by SERS’ actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2019, are presented as follows:

Inflation	3.00 percent
Wage Increases	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	3.13 percent
Prior Measurement Date	3.62 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Measurement Date	3.22 percent
Prior Measurement Date	3.70 percent
Medical Trend Assumption	
Medicare	5.25 to 4.75 percent
Pre-Medicare	7.00 to 4.75 percent

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 15.

***Discount Rate*** The discount rate used to measure the total OPEB liability at June 30, 2019 was 3.22 percent. The discount rate used to measure total OPEB liability prior to June 30, 2019, was 3.70 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13 percent, as of June 30, 2019 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

***Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates*** The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.22%) and higher (4.22%) than the current discount rate (3.22%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
For the Fiscal Year Ended June 30, 2020

	1% Decrease (2.22%)	Current Discount Rate (3.22%)	1% Increase (4.22%)
School District's proportionate share of the net OPEB liability	\$2,030,612	\$1,672,924	\$1,388,519

  

	1% Decrease (6.00 % decreasing to 3.75%)	Current Trend Rate (7.00 % decreasing to 4.75%)	1% Increase (8.00 % decreasing to 5.75%)
School District's proportionate share of the net OPEB liability	\$1,340,351	\$1,672,924	\$2,114,167

**Actuarial Assumptions – STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2019, actuarial valuation are presented as follows:

Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3 percent
Discount Rate of Return	7.45 percent
Health Care Cost Trends	
Medical	
Pre-Medicare	5.87 percent initial, 4 percent ultimate
Medicare	4.93 percent initial, 4 percent ultimate
Prescription Drug	
Pre-Medicare	7.73 percent initial, 4 percent ultimate
Medicare	9.62 initial, 4 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2019, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 15.

**Discount Rate** The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2019.

**Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate** The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
School District's proportionate share of the net OPEB asset	(\$919,879)	(\$1,078,024)	(\$1,210,987)

  

	1% Decrease	Current Trend Rate	1% Increase
School District's proportionate share of the net OPEB asset	(\$1,222,430)	(\$1,078,024)	(\$901,162)

**Note 17 – Capital Leases**

In fiscal years 2016, 2017 and 2018, the School District entered into capital leases for the purchase of school buses. The lease obligation meets the criteria of a capital lease and has been recorded on the government-wide statements. The original amounts capitalized for the capital lease and the book value as of June 30, 2020 follows:

	Amounts
Asset:	
Vehicles	\$242,666
Less: Accumulated Depreciation	(85,927)
Current Book Value	\$156,739

The following is a schedule of the future long-term minimum lease payments required under the capital lease and present value of the minimum lease payments is as follows:

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

Year ending June 30,	Capital Lease
2021	\$52,374
2022	35,188
Total Minimum Lease Payments	87,562
Less: Amount Representing Interest	(4,865)
Present Value of Minimum Lease Payments	\$82,697

**Note 18 - Other Employee Benefits**

***Compensated Absences***

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time. Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated to a maximum of 320 days for all personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of 85 days for classified employees, teachers and administrators. Employees are given three days of personal leave at the beginning of the fiscal year. Upon retirement, all unused personal leave is converted to sick leave.

***Life Insurance Benefits***

The School District provides life insurance and accidental death and dismemberment insurance of \$50,000 to all full time employees through the ReliaStar Life Insurance Company.

***Retirement Incentives***

Per the negotiated agreement, employees who are eligible to retire under STRS or a comparable retirement system shall receive a \$2,500 bonus provided the employee submits a letter of retirement by October 1. The bonus will be reduced to \$2,000 if the employee submits a letter of retirement between October 2 and November 1. The bonus will be reduced to \$1,000 for any employee who submits a letter of retirement after November 1. Employees retiring during the fiscal year 2018 - 2021 agreement will receive a \$15,000 bonus instead of the aforementioned amounts should the employee elect to retire the first year in which he or she is eligible under STRS or a comparable retirement system. A limit of twenty percent of the bargaining unit employees during each year of this contract shall be eligible for this bonus. The retirement incentive bonus will be placed in the mutually agreed upon 403(b). In fiscal year 2020, three employees qualified for the \$15,000 bonus with all three employees remaining to be paid after fiscal year end.

**Note 19 - Risk Management**

***Employee Health Benefits***

The School District has contracted with the Trumbull County School Employees Insurance Benefits Consortium to provide employee medical/surgical, dental, and prescription drug benefits. The Trumbull County School Employees Insurance Benefits Consortium is a shared risk pool comprised of sixteen

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

---

Trumbull County school districts. Rates are set through an annual calculation process. The Lakeview Local School District pays a monthly contribution which is placed in a common fund from which claim payments are made for all participating school districts. Claims are paid for all participants regardless of claims flow. The board of directors has the right to return monies to an exiting district subsequent to the settlement of all expenses and claims. The School District pays medical/surgical/prescription drug premiums of \$1,903.95 for family coverage, \$1,155.97 for employee/children, \$1,427.96 for employee/spouse coverage, and \$679.98 for single coverage per employee per month for the PPO Plan #1, and premiums of \$1,709.74 for family coverage, \$1,038.06 for employee/children coverage, \$1,282.31 for employee/spouse coverage, and \$610.62 for single coverage per employee per month for the PPO Plan #2. Full time employees are responsible for 10 percent of the cost. Employees that work less than twenty hours per week are responsible for 50 percent of the cost. Premiums for dental coverage are \$70.82 monthly for family coverage and \$22.54 monthly for single coverage. Premiums for vision coverage are \$4.36 for family coverage and \$1.65 for single coverage. The plan utilizes a \$10.00 prescription deductible. If the School District were to withdraw from the consortium, there would be no liability because premium levels fund a reserve for subsequent claim payments.

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from last year.

***Worker's Compensation***

For fiscal year 2020, the School District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 13). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP.

A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Comp Management, Inc. provides administrative, cost control and actuarial services to the GRP.

***Property and Liability***

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year 2020, the School District contracted for the following insurance coverage:

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

Coverage	Amount
<b>Coverage provided by Ohio School Plan</b>	
Building and Contents - replacement cost (\$2,500 deductible)	\$66,831,982
Boiler and Machinery (\$2,500 deductible)	No limit
Automobile Liability (\$1,000 deductible on comprehensive) (\$1,000 deductible on Bus Collision) (\$500 deductible on Other Collision)	3,000,000
Auto Medical Payments - Per occurrence	5,000
General Liability	
Per occurrence (\$0 deductible)	3,000,000
Total per year	5,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from last year.

**Note 20 - Set Asides**

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the fiscal year end set aside amount for capital acquisition. Disclosure of this information is required by State statute.

	Capital Improvements
Set-Aside Balance as of June 30, 2019	\$0
Current Year Set-aside Requirement	308,212
Current Year Offsets	(1,480,642)
Qualifying Disbursements	(50)
Total	(\$1,172,480)
Set-aside Balance Carried	
Forward to Future Fiscal Years	\$0
Set-aside Balance as of June 30, 2020	\$0

While the offsets during the fiscal year reduced the capital improvement set-aside amount to below zero, this amount may not be used to reduce the set-aside requirements of future fiscal years.

**Note 21 – Encumbrances**

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year end the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

General	\$117,050
Other Governmental Funds	19,443
Total Governmental	\$136,493

**Note 22 – Change in Accounting Principle and Restatement of Fund Balances and Net Position**

*Change in Accounting Principles*

The Governmental Accounting Standards Board (GASB) recently issued GASB Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance. The School District evaluated implementing these certain GASB pronouncements based on the guidance in GASB 95.

For fiscal year 2020, the School District implemented GASB Statement No. 84, Fiduciary Activities, and related guidance from (GASB) Implementation Guide No. 2019-2, Fiduciary Activities.

For fiscal year 2020, the City also implemented the Governmental Accounting Standards Board’s (GASB) Implementation Guide No. 2018-1. These changes were incorporated in the School District’s 2020 financial statements; however, there was no effect on beginning net position/fund balance.

GASB Statement No. 84 established specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the School District will no longer be reporting agency funds. The School District reviewed its agency funds and certain funds will be reported in the new fiduciary fund classification of custodial funds, while other funds have been reclassified as governmental funds. These fund reclassifications resulted in the restatement of the School District’s financial statements.

*Restatement of Fund Balances and Net Position*

The implementation of GASB Statement No. 84 had the following effect on fund balance as of June 30, 2019:

	General	Bond Retirement	Other Governmental Funds	Total Governmental Funds
Fund Balance at June 30, 2019	\$2,583,919	\$535,039	\$1,843,546	\$4,962,504
Adjustment:				
GASB 84	0	0	67,705	67,705
Restated Fund Balance at June 30, 2019	\$2,583,919	\$535,039	\$1,911,251	\$5,030,209

**Lakeview Local School District**  
*Notes to the Basic Financial Statements*  
*For the Fiscal Year Ended June 30, 2020*

The implementation of GASB Statement No. 84 had the following effect on net position as of June 30, 2019:

	Governmental Activities
Net Position at June 30, 2019	(\$6,111,929)
Adjustment:	
GASB 84	67,705
Restated Net Position at June 30, 2019	(\$6,044,224)

The implementation of GASB Statement No. 84 had the following effect on fiduciary net position as of June 30, 2019:

	Fiduciary Funds Agency
Net Position June 30, 2019	\$0
Adjustments:	
Assets	(67,705)
Liabilities	67,705
Restated Net Position June 30, 2019	\$0

**Note 23 –COVID-19**

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures may impact subsequent periods of the City. The City’s investment portfolio and the investments of the pension and other employee benefit plans in which the City participates have incurred a significant decline in fair value, consistent with the general decline in financial markets. However, because the values of individual investments fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the City’s future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

**Net Pension Liability**

**Changes in Assumptions – SERS**

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc Cola. Prior to 2018, an assumption of 3 percent was used.

Beginning with fiscal year 2017, amounts reported incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. These assumptions compared with those used in fiscal year 2016 and prior are presented below:

	Fiscal Year 2017	Fiscal Year 2016 and Prior
Wage Inflation	3.00 percent	3.25 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent	4.00 percent to 22.00 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation	7.75 percent net of investments expense, including inflation

Beginning with fiscal year 2017, mortality assumptions use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

**Changes in Assumptions - STRS**

Beginning with fiscal year 2018, amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2017 and prior are presented below:

	Fiscal Year 2018	Fiscal Year 2017 and Prior
Inflation	2.50 percent	2.75 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65	12.25 percent at age 20 to 2.75 percent at age 70
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation	7.75 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3.5 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA commences on fifth anniversary of retirement date.

Beginning with fiscal year 2018, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuity Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward

**Lakeview Local School District, Ohio**  
*Notes to Required Supplementary Information*  
*For the Fiscal Year Ended June 30, 2020*

---

generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

### **Net OPEB Liability**

#### **Changes in Assumptions – SERS**

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Municipal Bond Index Rate:	
Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Fiscal year 2020	3.22 percent
Fiscal year 2019	3.70 percent
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent

#### **Changes in Assumptions – STRS**

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under *GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

**Lakeview Local School District, Ohio**  
*Notes to Required Supplementary Information*  
*For the Fiscal Year Ended June 30, 2020*

---

**Changes in Benefit Terms – STRS OPEB**

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

**LAKEVIEW LOCAL SCHOOL DISTRICT  
TRUMBULL COUNTY**

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
2 CFR 200.510(b)(6)  
FOR THE YEAR ENDED JUNE 30, 2020**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Lakeview Local School District (District's) under programs of the federal government for the year ended June 30, 2020. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position of the District.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

**NOTE C – INDIRECT COST RATE**

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE D - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

**NOTE E – FOOD DONATION PROGRAM**

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

# OHIO AUDITOR OF STATE KEITH FABER

Conference Center, Suite 154

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Lakeview Local School District  
Trumbull County  
300 Hillman Drive  
Cortland, Ohio 44410

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Lakeview Local School District, Trumbull County, (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 23, 2021. We also noted the District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84 and the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the District.

### ***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Keith Faber  
Auditor of State  
Columbus, Ohio

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Lakeview Local School District  
Trumbull County  
300 Hillman Drive  
Cortland, Ohio 44410

To the Board of Education:

### ***Report on Compliance for the Major Federal Program***

We have audited the Lakeview Local School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Lakeview Local School District's major federal program for the year ended June 30, 2020. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

### ***Management's Responsibility***

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

### ***Auditor's Responsibility***

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

***Opinion on the Major Federal Program***

In our opinion, the Lakeview Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2020.

***Report on Internal Control Over Compliance***

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
