**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
2 CFR 200.510(b)(6)  
FOR THE YEAR ENDED JUNE 30, 2020**

**NOTE A – BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award of Worthington City School District's (the District's) under programs' of the federal government for the year ended June 30, 2020. This information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

**NOTE C – INDIRECT COST RATE**

The District has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE D - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

**NOTE E – FOOD DONATION PROGRAM**

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

**NOTE F - TRANSFERS BETWEEN PROGRAM YEARS**

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The District transferred the following amounts from 2020 to 2021 programs:

English Language Acquisition State Grants	84.365	\$	36,660
Improving Teacher Quality State Grants	84.367		41,793
Special Education Grants to States	84.027		214,618

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Worthington City School District  
Franklin County  
200 East Wilson Bridge Road  
Worthington, Ohio 43085

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Worthington City School District, Franklin County, Ohio (the District) as of and for the year ended June, 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 17, 2020, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the District.

### ***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Worthington City School District  
Franklin County  
200 East Wilson Bridge Road  
Worthington, Ohio 43085

To the Board of Education:

### ***Report on Compliance for Each Major Federal Program***

We have audited the Worthington City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the Worthington City School District's major federal programs for the year ended June 30, 2020. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal programs.

### ***Management's Responsibility***

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### ***Auditor's Responsibility***

Our responsibility is to opine on the District's compliance for the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

***Opinion on Each Major Federal Program***

In our opinion, the Worthington City School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal programs for the year ended June 30, 2020.

***Report on Internal Control Over Compliance***

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on the major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

***Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance***

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Worthington City School District (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 17, 2020, wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the District. We conducted our audit to opine on the District's basic financial statements as a whole. The accompanying schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements.

We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole

---

December 17, 2020,

To the Board of Education and the Citizens of the Worthington City School District:

As the Superintendent and the Treasurer of the Worthington City School District (the District), we are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2020. This CAFR is prepared by the Treasurer and in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA). Management is responsible for the contents of this report, and we believe the data presented is complete and accurate in all material respects.

In addition, this report is designed so that a reader can acquire the maximum understanding of the District's financial activity. This report is provided as a way for the District to communicate openly about the District's finances with its stakeholders. It is divided into three sections: Introductory, Financial, and Statistical. The Introductory section includes this letter of transmittal and organizational information. The Financial section includes the Auditor's report, the basic financial statements, which are prepared in accordance with GASB, and supplemental combining individual fund statements and budgetary comparison schedules. The Statistical section provides relevant financial and demographic data over the past ten years.

Management is also required to prepare a narrative introduction and overview of the financial statements in the form of Management's Discussion and Analysis, which can be found on page 5. This letter of transmittal is designed and should be read in conjunction with that analysis. Comments on the report are welcome and requests for additional financial information can be obtained by contacting the Office of the Treasurer.

## **Reporting Entity**

The District is an independent political subdivision of the State of Ohio and operates subject to the provisions of the Ohio Constitution and various sections of the Revised Code. Under such laws, there is no authority for the District to have a charter or adopt local laws. The District is not a part of, nor under the control of, the City of Worthington.

The District encompasses approximately twenty (20) square miles and has an enrollment of 10,600 students in grades pre-K through 12. The District's boundaries include all of the City of Worthington and the Village of Riverlea, and portions of the City of Columbus, as well as unincorporated territory lying within Perry Township and Sharon Township. The District lies entirely within the boundaries of Franklin County.

The District provides a vast range of educational and support services as mandated by State statute and the desires of the community, which include but are not limited to, regular, special

# WORTHINGTON CITY SCHOOL DISTRICT

needs, and vocational educational programs, guidance and support services, co-curricular activities, food service activities, and various community programs.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, and Statement No. 39, *Determining Whether Certain Organizations are Component Units*, in that the basic financial statements include all organizations, activities and functions for which the District is financially accountable. Financial accountability is defined as the appointment of a voting majority of a component unit's board and either (i) the District's ability to impose its will over a component unit, or (ii) the possibility that the component unit will provide a financial benefit or impose a financial burden on the District. On that basis, the reporting entity of the District includes the services of the District only (i.e. there are no component units).

## Organization of the District

An elected five-member Board of Education (the Board) serves as the taxing authority, contracting body, and policy maker for the District and ensures that all general laws of the State of Ohio are followed in the expenditure of the District's tax dollars. It approves the annual appropriation resolution and five-year forecast and also directly approves all personnel-related expenditures. As of June 30, 2020, board members were as follows:

<u>Board Member</u>	<u>Service Began</u>	<u>Term Expires</u>	<u>Position</u>
Nikki Hudson	1/1/18	12/31/21	President
Jennifer Best	1/1/02	12/31/21	Vice President
Amy Lloyd	1/1/20	12/31/23	Member
Sam Shim	1/1/14	12/31/21	Member
Charlie Wilson	2/14/07	12/31/23	Member

The Superintendent is the Chief Executive Officer of the District, responsible to the Board for total educational and support operations. Dr. Trent Bowers accepted that role on July 1, 2015. Dr. Bowers is a proud graduate from Worthington Schools. He has over 25 years of experience in public education and has served students and families as a teacher, coach, dean of students, and the principal of three schools. In addition, he has worked as the Director of Human Resources and Assistant Superintendent for the district. He holds a doctorate in educational leadership from Ashland University, a Masters in school administration from Ohio State University, and a Bachelor's Degree from Taylor University.

The Treasurer is the Chief Financial Officer of the District, responsible to the Board for maintaining all financial records, issuing warrants in payment of liabilities incurred by the District, acting as custodian of all District funds, preparing the District's 5-year forecast, and investing idle funds as permitted by Ohio law. TJ Cusick accepted that role in October 2020. TJ has worked for the district since 2006 and was previously the Assistant Treasurer. Prior to Worthington Schools, TJ was an accountant with a regional firm, Wilson, Shannon and Snow. He received a bachelor's degree in Criminology from Ohio University in 2003. He also became licensed as a Certified Public Accountant, was elected to the Ohio Government Finance Officers Association Board of Trustees and has served from 2016-present. Mr. Cusick is also a recipient of the Ohio Association of School Business Officer's Distinguished Service Award in 2016.

## Economic Outlook

2020 brought challenges never seen before by school districts, both in terms of educational delivery and fiscal uncertainty. The pandemic forced teaching into an entirely remote offering for the end of the 19-20 school year and first few weeks of the 20-21 school year. Almost all sectors of the economy were impacted, and the national economy contracted by a record 31.4% in the second quarter of 2020.

In response to the economic downturn, the Governor reduced state funding to K12 education at the end of the 19-20 school year by \$300 million, which equated to a loss of \$2 million for our district. Based on the most recent economic reports, we project state funding will be frozen at that reduced level for the foreseeable future. We also anticipate a slight increase to property tax delinquencies in the near term, a reduction in investment income, and reduction in other fee for service revenues such as food service sales, all day kindergarten tuition, and extracurricular revenue.

On the expenditure side, we completed the 19-20 school year \$3 million under budget due to closure, and Superintendent Bowers proactively made budget reductions for the 20-21 school year totaling \$2 million. We also experienced a higher number of retirements and lower insurance costs, all of which reduce our projected expenditures \$17 million over the next five years.

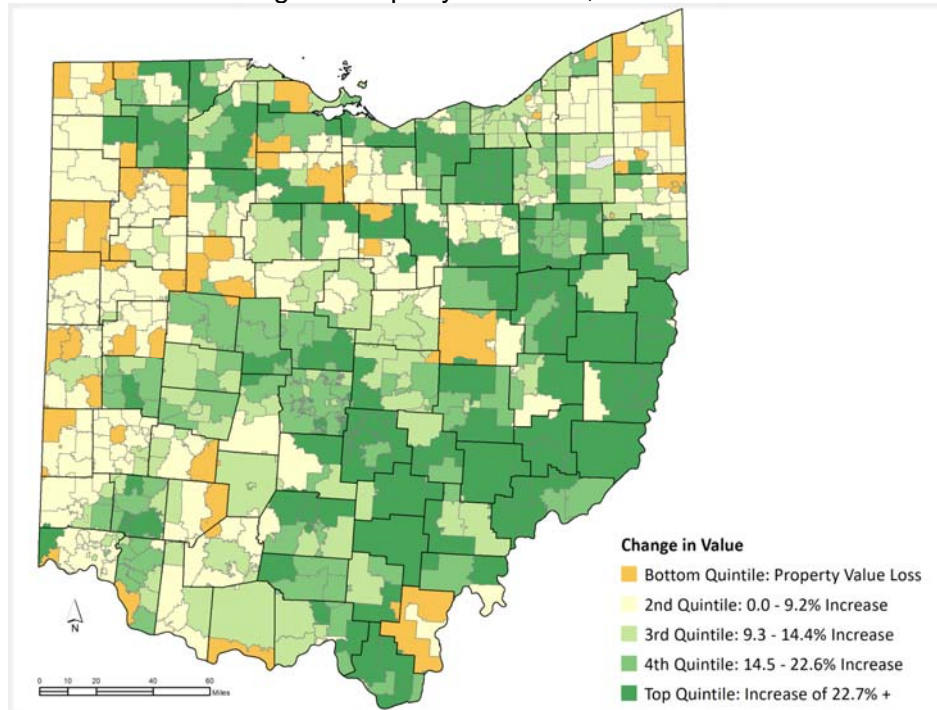

Statewide economic data suggests that the economy is recovering slowly. State revenue collections for the first few months of fiscal year 2021 exceeded original budget estimates prior to the pandemic. While our District only receives about a quarter of total operating revenue from state sources, it is important for our school district to monitor state revenue for two reasons. First, our state funding is directly affected by state revenue collections and the health of the state budget. Second, and more importantly, the same economic forces driving state tax revenues are also generally affecting the underlying economics of most communities across the state, which impacts the ability to collect local property tax revenue.

Franklin County's required triennial update to property taxes resulted in an estimated 16% overall increase to district property values. Residential home sales continue to be strong during the pandemic nationwide, especially strong in our District. The long term impact of COVID on commercial property values and the ability to pay, especially retail and office property, is a

considerable risk. We have increased the projected delinquency rate 1% for the next two calendar years, based on the most recent settlement report from the County, but depending on how fall and winter progress, delinquency could increase further. Increases in property values do not translate into additional property tax revenue for the District. The effective property tax rate is adjusted for the increase to keep collections near the current levels.

## Community Relations

# WORTHINGTON CITY SCHOOL DISTRICT

The Administrative team holds in high regard the involvement of key stakeholders, including students, parents, staff members, businesses, public officials and the community members. Management welcomes participation and feedback from these groups. The Superintendent has created a two-way communication with a variety of key community groups to obtain feedback on key issues.

The District is proud of its many partnership programs including those with Worthington Public Libraries, the Griswold Center, the Worthington Arts Council, the American Cancer Society's Relay for Life Program, the United Way, Worthington AM Rotary, Worthington/Dublin Rotary, the Worthington Chamber of Commerce and the City of Worthington. It is with solid partnerships and community support that an excellent school district is not only created, but maintained.

## **Employee Relations**

The District successfully negotiated long term contracts with both labor unions that extend through fiscal year 2023. The agreements include 2.25% annual base increases along with potential step increases, plan design changes to the employee health insurance program that will reduce costs, and a cap on the District's exposure to potential future health insurance increases. We are confident they are a win-win for the District, taxpayers, and employees.

## **Looking Ahead**

We have much to look forward to here in Worthington Schools, including the completion of our middle school construction projects, transition of our 6<sup>th</sup> graders to middle schools, and our new feeder patterns. All of our staff are doing a tremendous job in their modified roles during the crisis, and together we will get through this. Our community-led master facilities task force will reconvene during 2021 to evaluate and plan phase two of the three phase master facilities plan to renovate and expand district facilities to accommodate projected enrollment growth.

## **Financial Information**

*Internal Controls* - The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. Management believes the internal controls adequately meet the above objectives.

*Budgetary Information* - The District maintains budgetary controls in order to ensure compliance with legal provisions embodied in the annual appropriation resolution approved by the Board of Education. Activities of all funds, with the exception of custodial agency funds, are included in the annual appropriation resolution. The level of budgetary control is established at the object level within the General Fund and at the fund level for all other funds. The District maintains an encumbrance method of accounting to accomplish budgetary control. Unencumbered amounts lapse at year end. The District's most recent award winning comprehensive budget document is available on our website, [www.worthington.k12.oh.us](http://www.worthington.k12.oh.us).

# WORTHINGTON CITY SCHOOL DISTRICT

*Financial Planning and Policies* – As required by Ohio Revised Code, the District adopts a five-year financial forecast annually to ensure long term financial success. It serves as a planning tool to certify if funds are available for future expenditures and to strategize when the District will need to return to voters for additional funds or to reduce expenditures accordingly.

## **Independent Auditors**

The basic financial statements of the District for the year ended June 30, 2020, were audited by the Ohio Auditor of State whose unmodified opinion thereon is included at the beginning of the Financial Section of this report.

## **Awards**

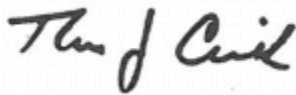

*GFOA Certificate of Achievement* The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Worthington City School District for its Comprehensive Annual Report for the fiscal year ended June 30, 2020. This was the 28<sup>th</sup> consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

## **Acknowledgments**

The preparation of this report was made possible by the diligence of the staff of the entire Financial Services department. Their initiative and conscientious work ensured the integrity of the information contained herein and guaranteed this report's successful completion.

In closing, we would like to thank the Board of Education for their support of the value of quality financial information that makes this report possible. The Board's continued support of absolute excellence will continue to have an exponential impact.

Respectfully submitted,

## INDEPENDENT AUDITOR'S REPORT

Worthington City School District  
Franklin County  
200 East Wilson Bridge Road  
Worthington, Ohio 43085

To the Board of Education:

### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Worthington City School District, Franklin County, Ohio (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Worthington City School District, Franklin County, Ohio, as of June 30, 2020, and the respective changes in its financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

**Emphasis of Matter**

As discussed in Note 18 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. We did not modify our opinion regarding this matter.

**Other Matters**

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, required budgetary comparison schedules and schedules of net pension and postemployment benefit liabilities and pension and postemployment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

*Supplementary and Other Information*

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2020 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion & Analysis  
For the Fiscal Year Ended June 30, 2020  
(Unaudited)

---

As management of the Worthington City School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with our letter of transmittal at the front of this report and the District's financial statements, which follow this section.

**Financial Highlights**

The COVID-19 global pandemic interrupted all aspects of our lives including school operations. Our academic delivery model had to adjust and our fiscal outlook was significantly altered. As the chart on the next page illustrates, expenses exceeded revenues by \$43.5 million, reducing net position at the end of the year to deficit (\$21.1) million. This was predominantly the result of two factors: timing of property tax revenues and changes to pension and other post-employment benefits liabilities.

Franklin County collects property taxes on behalf of the District. In response to the pandemic, the County Auditor delayed the due date of second half 2020 property tax bills, normally June 22nd, to August 5th. In the end, our total collections were not materially impacted, but the amount of property taxes available for advance at June 30 significantly decreased. This created a timing issue and pushed revenue recognition into fiscal year 2021, resulting in a decrease of \$38.9 million in property tax revenue for fiscal year 2020 compared to fiscal year 2019 and a corresponding increase in deferred inflows of resources.

Net Pension and Other Postemployment Benefits Liability combined for an increase of \$6.0 million. This increase is primarily the result of lower investment returns than actuarial projections and changes in actuarial assumptions (changes in healthcare cost and trends), as well as, an increase in the District's proportionate share of the total statewide liability. Deferred Outflows of Resources decreased \$9.7 million. Amortization of prior years' changes in differences of demographics and actuarial assumptions relating to pension exceeded current year additions.

The general fund reported a fund balance of \$104.7 million, \$61.6 million of which is unassigned and available to fund future operations.

Enrollment grew by 249 students and totaled 10,630. This represents an increase of over 1,000 students during the past six years.

**Using this Comprehensive Annual Financial Report**

This comprehensive annual financial report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a whole, and then proceed to provide an increasingly detailed look at specific financial statements.

**Reporting the District as a Whole- Statement of Net Position and Statement of Activities**

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a manner that helps answer this question. These statements include all assets, deferred

**Worthington City School District**

**(Unaudited)**

outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by private sector corporations. All of the current year revenues and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the District's net position and changes in it. The change in net position provides the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base, current property tax laws, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the District.

In the Statement of Net Position and the Statement of Activities, all of the District's activities are reported as governmental including instruction, support, food service, community service, co-curricular student activities, and interest and fiscal charges.

A comparative analysis of fiscal year 2020 to 2019 follows from the Statements of Net Position:

The combination of the net pension and OPEB liabilities represent one the single largest liabilities on the District's financial statements as of June 30, 2020; and are reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of

**Worthington City School District**

**For the Fiscal Year Ended June 30, 2020**  
**(Unaudited)**

GASB Statement 27" and GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB)." These standards require the District to recognize a net pension and OPEB liability (liability minus asset) of \$134.6 million which is nearly \$155.7 million more than the net position reported. For reasons discussed below, users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension/OPEB and the net pension/OPEB liability to the reported net position and subtracting deferred outflows and OPEB asset related to pension/OPEB.

	Governmental Activities 2020	Governmental Activities 2019
Total net position (with GASB 68 and 75)	\$ (21,146,812)	\$ 22,402,510
GASB 68 calculations:		
Add: Deferred inflows related to pension	7,837,158	10,064,189
Add: Net pension liability	166,057,096	158,534,355
Less: Deferred outflows related to pension	(35,298,089)	(42,926,883)
GASB 75 calculations:		
Add: Deferred inflows related to OPEB	15,922,144	15,755,785
Add: Net OPEB liability	14,849,199	16,307,157
Less: Net OPEB Asset	(9,842,794)	(9,152,348)
Less: Deferred outflows related to OPEB	(3,777,400)	(2,706,562)
Total net position (without GASB 68 and 75)	\$ 134,600,502	\$ 168,278,203

Under the standards required by GASB 68 and GASB 75, the pension and OPEB liability equals the District's proportionate share of each plan's collective present value of estimated future pension and OPEB benefits attributable to active and inactive employees' past service, less plan assets available to pay these benefits. However, in Ohio there is no legal means to enforce the unfunded liability of the pension/OPEB plan against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the pension and other postemployment benefit liability. As explained above, changes in pension and OPEB, contribution rates, and return on investments affect the balance of the pension and OPEB liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension and OPEB payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the pension and OPEB liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

Capital assets increased \$9.1 million due to additions mainly associated with the middle school construction/renovations outpacing depreciation. Other long term liabilities decreased \$10.3 million as the result of principal payments on outstanding debt.

In order to further understand what makes up the increase in net position for the current year, the following comparative analysis of fiscal year 2020 and 2019 follows from the statement of activities:

**Worthington City School District**

<b>Net Position End of Year</b>	<b>\$ (21,146,812)</b>	<b>\$ 22,402,510</b>

Total revenue decreased \$42.0 million. Property tax revenue decreased \$38.9 as a result of the timing in amount available for advance at fiscal year end. In Ohio, the portion of property taxes legally available as an advance on the future August real estate settlement, by June 30 is reported as revenue on both the full accrual and modified accrual basis of accounting. Since the County Auditor delayed the due date of property tax bills, the amount available for advance decreased substantially. In the end, the anticipated amount was fully collected and will be recorded as revenue next year. Grant and entitlement revenue decreased as a result of a statewide reduction in school funding implemented by Governor in response to declining state revenues during the COVID shutdown.

Total expenses increased \$30.0 million. As discussed previously, the effects of GASB 68 and 75 (net pension and OPEB liabilities) distort this comparative analysis. The following calculation illustrates the change in net position without the effect of pension /OPEB expense.

**Worthington City School District**  
**Management's Discussion & Analysis**

Total change in net position (without GASB 68 and 75)	<u>\$ (33,677,701)</u>	<u>\$ 12,160,352</u>

Excluding the effect of pension/OPEB expense, the District had a change in net position of (\$33.7) million for the current fiscal year compared to \$12.2 million for the prior fiscal year. The decrease of \$45.8 million is almost entirely attributable to timing of property tax revenue as discussed in the financial highlights section above.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The table below reflects how the District funds its programs through program revenues. General revenues including tax revenue, investment earnings and unrestricted State entitlements must support the net cost of program services, with the exception of Food Services and Community Services which were completely funded through program revenues for the year. The District's reliance on local property taxes is illustrated in the pie graph on the right.

Programs	Total Cost of Services		Net Cost (Benefit) of Services

Balances. These statements provide detailed information about the most significant funds—not the District as a whole. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's three types of funds, governmental, proprietary, and fiduciary, use different accounting approaches as further described in the notes to the financial statements.

*Governmental Funds*

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

*Proprietary Funds*

Proprietary funds use the accrual basis of accounting; the same as on the entity-wide statements. The District uses an internal service fund to account for the Intra-District Services Fund which provides copy and print services to other funds, as well as an internal service fund to account for a self-insurance program for workers compensation insurance and medical insurance. The assets, liabilities, and net position of the internal service funds have been included within the governmental activities.

*Fiduciary Funds*

The District has four fiduciary funds: a Private Purpose Trust Fund and three Agency Funds including a Student Managed Activities, a District Tournament Host fund and a fund to account for community/other school activity within state foundation activity. The District's fiduciary activities are reported in the Statement of Net Position, Fiduciary Funds. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

The District's governmental funds reported a combined fund balance of \$188.8 million, which represents a decrease of \$53.1 million from the prior year. A comparison of total fund balance for each major fund is shown below:

Total	<u>\$ 188,765,304</u>	<u>\$ 241,859,238</u>	<u>\$ (53,093,934)</u>

*General Fund*

The District's General Fund balance decreased \$32.1 million from the prior year. The tables that follow illustrate the financial activities of the General Fund.

Revenues	2020	2019	Change
Property and other local taxes	\$ 73,655,580	\$ 107,539,156	\$ (33,883,576)
Intergovernmental	29,865,513	32,942,320	(3,076,807)
Investment income	2,866,686	4,257,180	(1,390,494)
Other revenue	3,213,051	3,325,206	(112,155)
Total	<u>\$ 109,600,830</u>	<u>\$ 148,063,862</u>	<u>\$ (38,463,032)</u>

Property taxes decreased due to the amount available for advance as previously discussed. Intergovernmental revenue decreased due to steps taken by the Governor reducing foundation funding during the pandemic. Investment Income decreased \$1.4 million due to declining market conditions during the year.

As the table below indicates, the largest portion of General Fund expenditures is for instructional services, primarily for salaries and fringe benefits. The District is a service entity and therefore is labor intensive.

<b>General Fund Expenditures by Function</b>			
	<u>2020</u>	<u>2019</u>	<u>Change</u>
Instructional services	\$ 87,773,194	\$ 83,678,575	4.9%
Support services	49,789,520	48,009,947	3.7%
Community Service	1,040,068	858,767	21.1%
Co-curricular student activities	2,335,524	2,490,745	-6.2%
Capital outlay	251,057	528,804	-52.5%
Total	<u>\$ 141,189,363</u>	<u>\$ 135,566,838</u>	<u>4.1%</u>

Total expenditures increased \$5.6 million, primarily the result of employee wage and benefit increases as well as additional staffing in response to enrollment growth and student needs. Health insurance premiums were increased 9.8 percent on January 1, 2020 to cover rising plan costs.

*Debt Service Fund*

The Debt Service Fund balance decreased \$6.1 million from the prior year. The timing property tax revenue as previously discussed in the general fund analysis also impacted the debt service fund in a similar way.

*Building Fund*

The Building Fund decreased \$14.8 million as a result of the District breaking ground on the Middle School construction and renovations along with capital improvement spending on new school buses, new field turf and completion of 3 roofing projects. The majority of the remaining funds will be spent over the next year on construction of middle school additions and renovations which are set to open in the fall of 2021.

*Other Governmental Funds*

Other governmental funds consist of a capital project fund and special revenue funds. These are mainly grant funds in which proceeds are to be spent timely and revenues generally approximate expenditures.

*Internal Service Funds*

The District has three internal service funds, an Intra-District Services Fund to provide printing and copying services, a Workers Compensation Insurance Fund to account for the worker's compensation self-insurance program, and an Employee Medical Benefits Insurance Fund to account for the medical self-insurance program. Premiums are paid into both insurance funds from the fund in which the employee is paid, and claims, reinsurance, and administrative expenses are paid out of the funds. The combined net position of all internal service funds at the June 30, 2020 was \$10.9 million, an increase of \$0.5 million. Medical claims were on target allowing us an adequate reserve for the self-insurance program.

**Capital Assets**

The District had \$81.5 million invested in capital assets net of accumulated depreciation at the close of fiscal year 2020. Acquisitions totaled \$13.2 million and include completion of roofing projects at Slate Hill, Bluffsvew and Worthington Kilbourne High School, 5 new buses, new turf at Thomas Worthington High School, and \$8.1 million of construction in process relating to additions and renovations of the middle schools. Depreciation for the year totaled \$4.0 million. Detailed information regarding capital asset activity is included Footnote 8 of the notes to the basic financial statements. In addition, the District had numerous construction commitments outstanding at June 30, 2020 as a result of the ongoing capital improvement plan; these commitments are described in Footnote 14 of the notes to the basic financial statements.

**Debt**

On June 30, 2020, the District had \$140.1 million in outstanding notes and bonds. The District paid \$10.0 million in principal and \$5.2 million in interest on existing debt during the year. Detailed information regarding long-term debt is included in Footnote 9 of the notes to the basic financial statements.

**Worthington City School District**  
 Management's Discussion & Analysis

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% (exclusive of any accretion on deep discount debt and certificates of participation) of the total taxable valuation of real and personal property. As of June 30, 2020, the District's general obligation debt was below the legal limit.

**Budget Information**

The District's budget is prepared in accordance with Ohio law and is based on the cash basis of accounting, utilizing cash receipts, disbursements and encumbrances. Changes are made to the budget as changes in revenues and spending patterns are experienced. The most significant budgeted fund is the General Fund, and it is monitored closely, looking for possible shortfalls or overspending by individual departments.

General Fund revenues and other financing sources were originally budgeted for \$144.1 million and actual revenues and other financing sources were \$138.4 million. Actual revenues were less than original budgeted revenues due to timing of property tax revenues as a result of a delay in property tax due dates as well as a reduction in state funding in response to the COVID pandemic.

Expenditures also completed the year under the original estimate. The District engaged in remote learning during the final quarter and many activities did not occur.

The District uses the five-year forecast as the original document from which to form the operating budget. After updating the forecast for changes in revenue and expenditure assumptions, the operating budget begins at the school level. Each school in the District receives a per pupil allocation augmented with resources for special education students in the specific buildings. Budgets are reviewed periodically to ensure management becomes aware of any variations during the year.

The District issues a standalone budgetary document that can be found on our website at [www.worthington.k12.oh.us](http://www.worthington.k12.oh.us) under leadership/treasurer.

**Current Financial and Economic Conditions**

The latest five-year forecast shows a positive cash balance through fiscal year 2025. Forecasted expenditures begin to exceed projected revenues in FY21. Property tax reduction laws in Ohio limit any increases in revenues a school district can receive due to increased property values. This requires school districts to periodically return to voters for additional levies.

The District recognizes that we are living in extremely fragile and uncertain times due to the COVID pandemic. School districts across the state are educating students under various remote, hybrid, and in person delivery models. State and local resources are going to be under extreme stress as we continue through and eventually recover from the pandemic. Based on the most recent economic data from the Ohio Budget and Management Office we do not anticipate another significant reduction in future foundation and property tax revenue, but the possibility remains should the pandemic escalate.

**Request for Information**

This financial report is designed to provide the citizens, taxpayers, customers, and creditors with a general overview of the District's finances and to show accountability for the money it receives. Questions concerning any information provided in this report or request for additional financial information should be addressed to the Treasurer of the Worthington City School District, TJ Cusick at 200 E. Wilson Bridge Rd. Worthington, Ohio 43085.

### 1. Reporting Entity

The Worthington City School District (the District) is an independent political subdivision of the State of Ohio and operates subject to the provisions of the Ohio Constitution and various sections of the Revised Code. Under such laws, there is no authority for the District to have a charter or adopt local laws. The District is not a part of, nor under the control of, the City of Worthington.

The District encompasses approximately twenty (20) square miles. The District's boundaries include all of the City of Worthington and the Village of Riverlea, and portions of the City of Columbus, as well as unincorporated territory lying within Perry Township and Sharon Township. The District lies entirely within the boundaries of Franklin County.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, Statement No. 39, *Determining Whether Certain Organizations are Component Units*, and Statement No. 61, *The Financial Reporting Entity: Omnibus*, in that the financial statements include all organizations, activities, and functions for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. The District had no component units for the fiscal year ended June 30, 2020.

The Worthington Public Library is a school district library created under Chapter 3375 of the Ohio Revised Code and is located in the City of Worthington. The Board of Trustees of the Library controls and manages the Library and issues its own financial statements. Although the Worthington Board of Education is required to approve appointments to the Board of Trustees and to approve the annual budget, the Board has no authority to reject the Library's recommendations.

The Worthington Educational Foundation (WEF) is a separate legal non-profit organization organized to benefit the citizens of the City of Worthington. The Board of WEF consists of twenty-nine (29) members, four of which are ex officio members that include the Superintendent and a Board Member of the District as well as two District employees. The Board of Trustees of WEF issues its own financial statements. In fiscal 2001 the WEF assisted the Worthington City School District in arranging financing for the purchase of the Worthington Educational and Administrative Building.

The Rockbridge Academy (Academy) is a joint venture consisting of a consortium of four school districts. The joint venture was formed for the purpose of providing alternative education services to at risk students. The initial capital of the Academy was raised through the receipt of a State Grant in the amount of \$375,000. The Governing Board of the Academy consists of six members appointed by each member school. The District does not have an equity interest that is explicit and measurable in the joint venture, however the District does have an ongoing financial obligation to support the Academy in meeting its financial obligations. The Academy is dependent upon continued support of the member schools as it is not independently accumulating adequate financial resources. The Educational Service Center of Central Ohio is

the financial agent for the Academy. Further detailed financial information may be obtained by contacting the ESCCO at 614-445-3750.

The District participates in the Metropolitan Educational Technology Association (META), a jointly governed organization created as a regional council of governments pursuant to Chapter 167 of the Ohio Revised Code. META operates as, and has all the powers of, a data acquisition site/information technology center pursuant to applicable provisions of the Ohio Revised Code. The organization was formed for the purpose of identifying, developing, and providing to members and non-members innovative educational and technological services and products, as well as expanded opportunities for cooperative purchasing. The General Assembly of META consists of one delegate from every member school district. The delegate is the superintendent of the school district or the superintendent's designee. The degree of control exercised by any participating school district is limited to its representation on the General Assembly. The District paid META \$176,031 for services during fiscal year 2020.

## 2. Summary of Significant Accounting Policies

The basic financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles. Beginning July 1, 2002, the District changed its financial reporting to comply with GASB Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*; GASB Statement No. 37, *Basic Financial Statement – and Management's Discussion and Analysis – for State and Local Governments: Omnibus*; and GASB Statement No. 38, *Certain Financial Statement Disclosures*. The District's significant accounting policies are described below.

### a. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all the nonfiduciary activities of the primary government. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements except for interfund services provided and used, which is not eliminated. Internal Service Fund operating activity is eliminated by allocating net revenue/expenses to the appropriate function accounts so as to avoid overstatement of revenues and expenses. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District reports no such business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

#### **b. Measurement focus, basis of accounting, and financial statement presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and private purpose trust fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The agency funds have no measurement focus and do not report revenues, expenses, or net position but rather changes in assets and liabilities are recognized on the accrual basis.

Property taxes are recognized as revenue in the fiscal year for which taxes have been levied, provided they are collected and certified by the county auditor by the fiscal year-end. Additionally, taxes collected within 60 days after fiscal year-end are recorded as a receivable with an offset to deferred inflows of resources-unavailable revenue for amounts not collected and available for advance on June 30<sup>th</sup> by the county auditor. Tuition, grants, fees and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major funds:

*General Fund*, a governmental fund. The General Fund is the District's primary operating fund. It accounts for all financial resources not accounted for and reported in another fund.

*Debt Service Fund*, a governmental fund. The Debt Service Fund is used to account for and report financial resources that are restricted to expenditure for principal and interest.

*Building Fund*, a governmental fund. The *building fund* is used to account for and report financial resources that are restricted to expenditures related to the District's capital bond improvements.

The District's non-major governmental funds include the following fund types:

*Special Revenue Funds*, governmental funds that are used to account for and report the proceeds of specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

## WORTHINGTON CITY SCHOOL DISTRICT

### Notes to the Basic Financial Statements

June 30, 2020

---

*Capital Projects Funds*, governmental funds that are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets.

The District's non-major proprietary funds include the following fund type:

*Internal Service Funds* are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District generally on a cost-reimbursement basis. The District has three such funds, an Intra-District Services Fund that accounts for copying and printing services provided to other funds, a Worker's Compensation Self-Insurance Fund and an employee Medical Self-Insurance Fund.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. Charges for services are the principal operating revenues for the District's internal service funds. Operating expenses for the internal service funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Additionally, the District reports *Fiduciary Funds*. Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. Agency funds, a type of fiduciary fund, are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District has one Private Purpose Trust fund that accounts for money which has been set aside for scholarship purposes from which the income may be expended in accordance with the related trust agreements but the principal must remain intact. The District also has three agency funds that account for student managed activities, hosting state athletic tournaments and community/other school activity within state foundation activity.

#### **c. Deferred Outflows/Inflows of Resources**

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenses/expenditure) until then. For the District, deferred outflows of resources include a deferred charge on refunding and a deferred amount of pension and other postemployment benefits (OPEB) contributions. A deferred charge on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained in Notes 12 and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, unavailable revenue, pensions and OPEB. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2020 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund

## WORTHINGTON CITY SCHOOL DISTRICT

financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District, unavailable revenue includes delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Notes 12 and 13).

#### **d. Unearned Revenue**

Under both the accrual and modified accrual basis of accounting, revenue may be recognized only when it is earned. If assets are recognized in connection with a transaction before the earnings process is complete, those assets must be offset by a corresponding liability for unearned revenue.

Under the modified accrual basis of accounting, it is not enough that revenue has been earned if it is to be recognized as revenue of the current period. Revenue must also be susceptible to accrual (it must be measurable and available to finance expenditures of the current fiscal period). If assets are recognized in connection with a transaction before the earnings process is complete, those assets must be offset by a corresponding liability for unearned revenue.

#### **e. Cash and Investments**

To improve cash management, all cash received by the District is pooled in a central bank account. Monies for all funds are maintained in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through District records. Each fund's interest in the pool is presented as "Cash and Investments" on the balance sheet. At fiscal year-end, investments were limited to STAR Ohio, commercial paper, and federal agency securities. Investment earnings are allocated as authorized by State statute or as governed by Board policy.

Investments are reported at fair value, which is based on quoted market prices.

The District had funds invested in the State Treasury Asset Reserve of Ohio (STAR Ohio) during fiscal year 2020. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investments purposes. STAROhio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

**WORTHINGTON CITY SCHOOL DISTRICT**

Notes to the Basic Financial Statements

June 30, 2020

---

**f. Prepaid Items**

Payments made for services that will benefit periods beyond the current fiscal year are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed. At fiscal year-end, because prepaid items are not available to finance future governmental fund expenditures, the fund balance is nonspendable in the fund financial statements by an amount equal to the carrying value of the asset.

**g. Inventory**

Inventories of supplies are presented at cost determined on a first-in, first-out basis while inventories held for resale are presented at the lower of cost or market. Inventories are recorded as expenditures when consumed rather than when purchased. For all funds, inventories are determined by physical count.

**h. Capital Assets and Depreciation**

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets are reported in the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by proprietary funds are reported on both statement types.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at their acquisition price. The District follows the policy of not capitalizing assets with a cost of less than \$5,000 and a useful life of less than one year. The District does not possess any infrastructure.

All reported capital assets, with the exception of land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Land Improvements	<b>10-20</b>
Buildings & Improvements	<b>20-50</b>
Furniture, Fixtures and Equipment	<b>3-15</b>
Buses, Autos, and Trucks	<b>5-10</b>

**i. Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. On fund financial statements, short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net position.

## WORTHINGTON CITY SCHOOL DISTRICT

Notes to the Basic Financial Statements

June 30, 2020

---

### **j. Compensated Absences**

The District has implemented the provisions of GASB Statement No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at June 30 by those employees who are currently eligible to receive termination payments and those employees for whom it is probable they will become eligible to receive termination benefits in the future. The criteria for determining the vacation and sick leave liability is derived from Board policy, negotiated agreements, and state laws.

The compensated absence liability is reported on the entity-wide financial statements. For governmental fund financial statements, the compensated absence liability is reported only if they have matured and represent the current portion of unpaid compensated absences that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "accrued liabilities" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported. In the proprietary funds, the entire amount of compensated absences is reported as a fund liability.

### **k. Accrued Liabilities and Long-term Debt**

All accrued liabilities and long-term debt is reported in the entity-wide financial statements as well as the proprietary fund financial statements. For governmental fund financial statements, these accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, claims for judgments and compensated absences paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources. Long-term debts paid from governmental funds are not recognized as a liability in the fund financial statements until due. All premiums, and deferred amounts on refunding related to long-term debt are amortized using the straight line method over the life of the debt. Issuance costs are expensed in which the year they are incurred.

### **l. Pensions/OPEB**

For purposes of measuring the net pension/OPEB liability, net OPEB asset, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

### m. Fund Balances

In accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting*, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – resources that are constrained for specific purposes that are internally imposed by the District at its highest level of decision making authority, the Board of Education.

Assigned – resources that are intended to be used for specific purposes as approved through the District's formal purchasing procedure by the Treasurer.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. The General Fund is the only fund that can report a positive unassigned fund balance. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

The District applies restricted resources first when an expense is incurred for purposes which both restricted and unrestricted net position are available. The District considers committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used. Committed fund balances are established, modified and rescinded with the formal action of a board resolution.

The District has a formal minimum fund balance policy. The District recognizes the need to maintain sufficient year-end carry-over balances in its general fund to minimize undesirable programmatic reductions, including staffing reductions. Therefore it is essential to clearly define a fund balance level that triggers a decision to make budgetary adjustments and possibly seek voter approval of new taxes well in advance of a cash shortfall. Further, the District recognizes the value of such a policy with respect to its debt management practices and underlying bond rating. As such, the District defines its minimum unrestricted general fund balance as 1/12 of annual expenditures in the third year of the forecast and will initiate budgetary actions or proposed levy to voters in a timely manner to address projected balances below this level.

The Board has committed \$26.9 million in the General Fund for 2020 as a budget contingency. Formal board resolution appropriating this \$26.9 million must be made in order for it to be spent.

### n. Statement of Cash Flows

For purposes of the statement of cash flows, the proprietary funds consider all highly liquid investments, with a maturity of three months or less when purchased, to be cash equivalents. In addition, all cash and investments are also considered to be cash equivalents, since they are available to the proprietary funds on demand.

**o. Management Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reported period. Actual results could differ from those estimates.

**3. Cash and Investments**

**a. Cash**

The investment and deposit of the District's monies is governed by the provisions of the ORC. In accordance with these statutes, the District is authorized to invest in United States and State of Ohio bonds, notes, and other obligations; bonds, notes and other obligations of political subdivisions of the State of Ohio rated in one of the three highest categories of a nationally recognized rating service and paid from general revenues; bank certificates of deposit; banker acceptances; commercial paper notes rated prime and issued by United States corporations; and repurchase agreements secured by United States obligations. During fiscal year 2020, investments were limited STAR Ohio, commercial paper, and federal agency securities. Earnings on investments are credited to the General Fund except earnings specifically related to the Capital Projects Fund, Food Service Fund, Other Local Sources Fund, Self-Insurance Fund, Private Purpose Trust Fund, and the Auxiliary Service Fund which is in compliance with ORC Section 3315.01. In fiscal year 2020 investment income of \$2.9 million was recorded in the general fund which includes \$529,050 assigned from other District funds. There was \$2.1 million credited to other funds.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the Ohio Pooled Collateral System (OPCS). The OPCS allows for the District's financial institution to pledge collateral to the Ohio Treasurer's Office to secure the District's public deposits. The Treasurer's Office is the sole administrator and monitor of the program

**b. Deposits with Financial Institutions**

At June 30, 2020, the carrying amount of all District deposits was \$100,801,965. Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, as of June 30, 2020, \$46,759,608 of the District's bank balance of \$101,043,158 was not covered by FDIC, while \$54,283,550 was covered by Federal Deposit Insurance Corporation. Bank balances not covered by the FDIC were collateralized through the Ohio Pooled Collateral System (OPCS) or specifically pledged by the institution.

Custodial credit risk is the risk that, in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the OPCS, a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to

secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a reduced rate set by the Treasurer of State.

**c. Investments**

As of June 30, 2020, the District had the following investments and maturities.

Investment Type	Fair Value	Investment Maturities		
		6 Months or Less	7 to 12 Months	13 to 36 Months
FFCB	\$ 3,098,178	\$ -	\$ -	\$ 3,098,178
FHLB	3,048,561	-	3,048,561	-
STAR Ohio	70,418,847	70,418,847	-	-
Commercial Paper	31,485,815	31,485,815	-	-
	<u>\$ 108,051,401</u>	<u>\$ 101,904,662</u>	<u>\$ 3,048,561</u>	<u>\$ 3,098,178</u>

*Interest Rate Risk.* As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the District's investment policy limits investment portfolio maturities to five years or less.

*Credit Risk.* The District's investments in agency securities were rated Aaa and AA+ by Moody's Investor Services and Standard & Poor's, respectively. The District's investment in commercial paper were rated A1/P1 by Moody's Investor Services and Standard & Poor's, respectively. STAR Ohio carries a rating of AAA by Standard and Poor's. The District has no investment policy that would further limit its investment choices other than what has been approved by state statute as described above.

*Concentration of Credit Risk.* The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage to total of each investment type held by the District at June 30, 2020:

Investment Type	Fair Value	Fair Value	
		Hierarchy	% of Total
FFCB	\$ 3,098,178	Level 2	2.87%
FHLB	3,048,561	Level 2	2.82%
Star Ohio	70,418,847	N/A	65.17%
Commercial Paper	31,485,815	Level 2	29.14%
	<u>\$ 108,051,401</u>		<u>100.00%</u>

The District has categorized its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The above chart identifies the District's recurring fair value measurements as of June 30, 2020. All of the District's investments (except STAR Ohio) are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

**4. Property Taxes**

Property taxes are levied and assessed on a calendar-year basis. Distributions from the second half of the calendar year occur in a new fiscal year and are intended to finance the operations of that year, except monies available to be advanced against such distributions which may be appropriated and used in the current fiscal year. Property taxes include amounts levied against all real, public property located in the District.

Real property taxes and public utility taxes are levied after April against the assessed value listed as of the prior January 1, the lien date. Assessed values are established by State law at 35% of appraised value.

Public utility property taxes are assessed on tangible personal property as well as land and improvements. Real property is assessed at 35% of true value and tangible personal property is currently assessed at varying percentages of true value. These taxes attach as a lien against local and inter-exchange telephone companies and are levied January 1 of the current year.

The assessed values for collection in 2020, upon which the 2019 levies were based, were as follows:

Agricultural/Residential Real Estate	\$ 1,563,683,660
Commercial/Industrial Real Estate	471,303,360
Public Utility Real Estate	151,330
Public Utility Tangible	59,498,850
Total	<u>\$ 2,094,637,200</u>

Real property taxes are payable annually or semiannually. If paid annually, the payment is due January 30; if paid semiannually, the payment is due January 30 with the remainder payable by June 30. In response to the COVID-19 pandemic, Franklin County delayed the due date for second half bills to August 5, 2020.

The Franklin County Treasurer collects property taxes on behalf of the District. The County Auditor periodically remits to the District its portion of the taxes collected.

Accrued property taxes receivables represent real property and public utility taxes which were measurable but not available as of June 30, 2020. However, monies legally available as an advance to the District as of June 30, 2020 are recognized as revenue as they are both

	<u>Governmental Activities:</u>
Debt Service Fund	\$ 48,651
All Other Governmental Funds	
Federal	913,039
State	3,288
<b>Total</b>	<b>\$ 964,978</b>

The receivable is a result of federal and state awards not yet received at year end.

**7. Interfund Transactions**

Interfund balances on the fund statements at June 30, 2020 consist of the following receivables and payables:

<u>Fund</u>	<u>Receivable</u>	<u>Payable</u>
General Fund	\$ 338,000	\$ 34,108
All Other Governmental Funds	-	339,819
Internal Service Fund	35,927	-
<b>Totals</b>	<b>\$ 373,927</b>	<b>\$ 373,927</b>

The purpose of the General Fund interfund receivable and \$338,000 of the Other Governmental Funds payable is the result of short-term interfund loans made by the General Fund while the other funds await grant reimbursement and funding. The Internal Service Fund receivable, General Fund payable, and \$1,819 of the Other Governmental Funds payable is the result of Workers Compensation Premiums on wages earned but not yet paid that are due to the self-insurance fund.

Compensated absences consist of accrued but unused sick and vacation leave. The criteria for determining leave benefits are derived from negotiated agreements and State laws. Accumulated unused vacation leave is paid to employees upon termination of employment. Accumulated unused sick leave, up to a maximum number of days depending on negotiated contract, are paid upon retirement. All leave is paid from the fund in which the employee is paid. In fiscal year 2020, the payments were made from the general fund and food service fund. The portion of known severance payable at June 30, 2020 is recorded as a fund liability and classified as Accrued Liabilities (see note 10) while the remaining portion is recorded as a long term liability using the vesting method.

There is no repayment schedule for the net pension liability and net OPEB liability; however, employer pension and OPEB contributions are made from the fund benefitting from their services which include the general, food service, intra-district services, workers compensation self-insurance, medical self-insurance, district managed student activities, auxiliary services,

(1) Part of a \$37.5 million bond levy passed in November 2006 for construction and improvement of District facilities, technology upgrades, transportation upgrades, and various replacement equipment.

(2) Note agreement with the Columbus Regional Airport Authority relating to the Ohio Association of School Business Official's Expanded Asset Pooled Financing Program authorizing the issuance of revenue bonds by the Airport Authority to assist school districts in financing project costs associated with constructing and installing certain energy conservation measures to existing school buildings and facilities in accordance with House Bill 264. Participating districts enter into a note agreement with the Airport Authority for an approved amount which is deposited into a third party trustee account and a payment and interest schedule is determined.

(3) Part of a \$37.2 million bond levy passed in November 2012 for construction and improvement of District facilities, technology upgrades, transportation upgrades, and replacement equipment.

(4) A \$8.9 million partial refunding of the 2007A and 2007B issuances.

(5) Note agreement with Ohio Development Service Agency, Energy Loan Fund, to finance an energy conservation project in accordance with HB264. Total loan amount of \$2.6 million will be repaid over 10 years with savings from decreased utility payments.

(6) A \$8.8 million partial refunding of the 2008 and 2009 issuances which included \$1.1 million in premium.

(7) Part of a \$88.2 million bond levy passed in November 2018 for construction and improvement of District facilities, technology upgrades, transportation upgrades, and various replacement equipment.

Notes to the Basic Financial Statements  
June 30, 2020

The above bonds include current interest serial bonds, capital appreciation bonds, and current term interest bonds. Included in the amortization above is \$666,455 of premium amortization, which are all being amortized over the life of the bonds.

Interest cost on the qualified school construction bonds will be directly and annually subsidized by the federal government as part of the American Reinvestment and Recovery Act of 2009 and section 54F of the Internal Revenue Code. Subsidy payments received during fiscal year 2020 totaled \$41,244 and an additional \$48,651 has been recorded as a receivable at June 30, 2020. This subsidy represents 92.3% of the annual interest cost of that issue, making the effective annual interest cost 0.38%.

The general obligation debt is a direct obligation of the District for which its full faith, credit and resources are pledged and are payable from taxes levied on all taxable property in the school district. Payments of principal and interest relating to these liabilities are recorded as expenditures in the Debt Service Fund.

The annual maturities of the general obligation bonds and notes, as of June 30, 2020, and related interest payments are as follows (net of \$8,407,763 unamortized premium):

The ORC provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The ORC further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District.

The effects of these debt limitations at June 30, 2020 are a voted debt margin of \$188,517,348 and an unvoted debt margin of \$2,094,637. The aggregate amount of the District's unvoted debt is also subject to overlapping debt restrictions with various governmental entities. As of June 30, 2020, these entities have complied with the requirement that the unvoted overlapping debt must not exceed 1% (10 mills) of the assessed property value. Management believes that the District has complied with all bond covenants.

Total	\$ 8,656,999	\$ 454,716	\$ 9,546,543

**11. Risk Management**

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors, and omissions, injuries to employees and natural disasters. The District contracts with third party insurance carriers for property insurance (including boiler and machinery) and general liability insurance. During fiscal year 2020, the District contracted with the Ohio School Plan, administered by Hylant Administrative Services, for general and professional liability with a \$3 million single occurrence limit and a \$5 million aggregate limit. Automobile bodily and property damage is covered by a \$3 million combined single occurrence limit. Property and vehicles are also protected with a \$1,000 deductible. Settled claims have not exceeded coverage in any of the past three years.

The District provides employee dental benefits through a premium insurance plan. Employee monthly contributions are determined by negotiated agreements with the certificated and non-certificated staff bargaining units. The premium is paid by the fund that pays the salary for the employee.

The District provides medical health insurance coverage for its employees on a self-funded basis and utilizes a third party to manage claims processing. Employee monthly contributions are determined by negotiated agreements with the certificated and non-certificated staff bargaining units. The premium is paid by the fund that pays the salary for the employee. Expenses for claims are recorded on a current basis based on an actuarially determined charge per employee. The District accounts for such activity in an internal service fund in accordance with GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*.

The District purchases excess stop-loss insurance for medical claims exceeding \$200,000 per covered person. The District is a part of the Central Ohio School Stop Loss Organization (COSSO) Regional Council of Governments consortium. COSSO was formed pursuant to Ohio Revised Code Section 167 and enables the District to take advantage of economies of scale to purchase excess reinsurance.

Members currently consist of the school districts of Dublin City, Upper Arlington City, Westerville City, Mansfield City and Worthington City. Future membership is open to any public school district in the state of Ohio upon approval by a majority of all current members of the Governing Board. Members may withdraw at any time after initial two year period provided it notifies each member in writing at least 90 days prior to the renewal of the insurance policy.

**WORTHINGTON CITY SCHOOL DISTRICT**

Notes to the Basic Financial Statements

June 30, 2020

COSSO is managed by a Governing Board consisting of the Treasurer of each of the founding member Districts, for an initial term expiring June 30, 2020. At that point, an election of Governing board representatives will be held and be open to any member District's Treasurer. Additional information regarding COSSO can be obtained by contacting COSSO, 200 East Wilson Bridge Road, Worthington, OH 43085.

The District provides life insurance and accidental death and dismemberment insurance to employees in an amount related to the employee's position, ranging from \$20,000 to \$400,000.

The District is self-insured for workers' compensation coverage and utilizes a third party to manage claims processing. The workers' compensation premium is a fixed rate determined annually based on claims experience. The rate for fiscal year 2020 was 0.4 percent of covered payroll. The premium is paid by the fund that pays the salary for the employee. The District purchases stop-loss insurance for any claims exceeding \$400,000, and also paid into the Self-Insured Employers Guaranty Fund, which guarantees that claims are satisfied should the District become unable to pay them. The District accounts for such activity in an internal service fund in accordance with GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*.

A claims liability of \$67,766 and \$1,529,641 was recorded at June 30, 2020 in the Workers' Compensation and Medical Self Insurance Funds, respectively. The entire amount has been recorded as a current liability on the government-wide statement of net position due to the average maturity being less than one year. This reflects an estimate of incurred but unpaid and unreported claims at year end. Claims liabilities do not include non-incremental claims adjustment expenses. This estimate was calculated based on claims history.

Changes in the fund's claim liability for the past three years are as follows:

**Medical Self Insurance Fund**

<b>Fiscal Year Ending</b>	<b><u>6/30/2020</u></b>	<b><u>6/30/2019</u></b>	<b><u>6/30/2018</u></b>

Claims liability end of year	<u>\$ 67,766</u>	<u>\$ 144,882</u>	<u>\$ 145,953</u>

Claims are accrued based upon estimates of the claims liability made by management and the third party administrator (Actuary) of the District. These estimates are based on past experience and current claims outstanding. Actual claims experience may differ from the estimate. An actuary was used in the determination of the current liability.

**12. Defined Benefit Pension Plans**

***Net Pension Liability***

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

***Net Pension Liability/Net OPEB Liability (Asset)***

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities (assets) within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension/OPEB liability (asset)* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the required pension disclosures. See Note 13 for the required OPEB disclosures.

**Plan Description - School Employees Retirement System (SERS)**

Plan Description –District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

\* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first 30 years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2020, the allocation to pension, death benefits, and Medicare B was 14.0 percent. SERS did not allocate employer contributions to the Health Care Fund for fiscal year 2020.

The District's contractually required contribution to SERS was \$2,810,689 for fiscal year 2020. Of this amount, \$139,188 is reported as an intergovernmental payable.

#### ***Plan Description - State Teachers Retirement System (STRS)***

Plan Description – The District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective August 1, 2017 – July 1, 2019, any member could retire with reduced benefits who had (1) five years of service credit and age 60; (2) 27 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Effective August 1, 2019 – July 1, 2021, any member may retire with reduced benefits who has (1) five years of service credit and age 60; (2) 28 years of service credit and age 55; or (3) 30 years of service credit regardless of age. Eligibility changes will continue to be phased in through August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60. Retirement eligibility for reduced benefits will be five years of service credit and age 60, or 30 years of service credit regardless of age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate goes to the DC Plan and the remaining 2 percent goes to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the

**WORTHINGTON CITY SCHOOL DISTRICT**

Notes to the Basic Financial Statements

same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2020, plan members were required to contribute 14 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2020 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$9,884,057 for fiscal year 2020. Of this amount, \$1,113,109 is reported as an intergovernmental payable.

***Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>

**Actuarial Assumptions - SERS**

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2035.

**WORTHINGTON CITY SCHOOL DISTRICT**

Notes to the Basic Financial Statements

June 30, 2020

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2019, are presented below:

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
COLA or Ad Hoc COLA	2.50 percent, on and after April 1, 2018, COLA's for future retirees will be delayed for three years following commencement
Investment Rate of Return	7.50 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)

For post-retirement mortality, the table used in evaluating allowances to be paid is the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, with 120 percent of male rates and 110 percent of female rates used. The RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years is used for the period after disability retirement.

The most recent experience study was completed June 30, 2015.

The long-term return expectation for the investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The asset allocation, as used in the June 30, 2015 five-year experience study, is summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

**WORTHINGTON CITY SCHOOL DISTRICT**

Notes to the Basic Financial Statements

June 30, 2020

**Discount Rate** Total pension liability was calculated using the discount rate of 7.50 percent. The discount rate determination does not use a municipal bond rate. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 25-year amortization period of the unfunded actuarial accrued liability. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefits to determine the total pension liability.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the District's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
District's proportionate share of the net pension liability	\$48,535,236	\$34,634,442	\$22,976,887

**Actuarial Assumptions - STRS**

The total pension liability in the June 30, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 percent
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Discount Rate of Return	7.45 percent
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3.00%
Cost-of-Living Adjustments	0 percent effective July 1, 2017

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

The actuarial assumptions used in the July 1, 2019 valuation, were based on the results of an actuarial experience study for July 1, 2011, through June 30, 2016.

**WORTHINGTON CITY SCHOOL DISTRICT**

Notes to the Basic Financial Statements

June 30, 2020

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Real Rate of Return**
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
Total	100.00 %	

\*Target weights will be phased in over a 24-month period concluding on July 1, 2019.

\*\*Ten year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumes that employer and member contributions will be made at statutory contribution rates of 14 percent each. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2019. Therefore, the long-term expected rate of return on investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
District's proportionate share of the net pension liability	\$192,059,567	\$131,422,654	\$80,090,400

***Plan Description - School Employees Retirement System (SERS)***

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For the fiscal year ended June 30, 2020, SERS did not allocate any employer contributions to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2020, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2020, the District's obligation was \$5,155, which is reported as an intergovernmental payable.

**Plan Description - State Teachers Retirement System (STRS)**

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians’ fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2020. The Plan is included in the report of STRS which can be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2020, STRS did not allocate any employer contributions to post-employment health care.

**OPEB Assets/Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

The net OPEB liability/(asset) was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability/(asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability/(asset) was based on the School District 's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

**Actuarial Assumptions - SERS**

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts

are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2019, are presented below:

Wage Inflation	3.00 percent
Wage Increases	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investments expense, including inflation
Municipal Bond Index Rate	
Measurement Date	3.13 Percent
Prior measurement Date	3.62 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Measurement Date	3.22 Percent
Prior measurement Date	3.70 percent
Medical Trend Assumption	
Medicare	5.25-4.75 percent
Pre-Medicare	7.00-4.75 percent

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were

**WORTHINGTON CITY SCHOOL DISTRICT**

Notes to the Basic Financial Statements

June 30, 2020

combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer time frame. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	1.00 %	0.50 %
US Stocks	22.50	4.75
Non-US Stocks	22.50	7.00
Fixed Income	19.00	1.50
Private Equity	10.00	8.00
Real Assets	15.00	5.00
Multi-Asset Strategies	10.00	3.00
Total	100.00 %	

**Discount Rate** The discount rate used to measure the total OPEB liability at June 30, 2019 was 3.22 percent. The discount rate used to measure total OPEB liability prior to June 30, 2019 was 3.70 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the plan at the contribution rate of 2.00 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2029. However, since SERS' actuaries indicate the fiduciary net position is projected to be depleted at a future measurement date, the single equivalent interest rate is determined as the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion by the Fidelity General Obligation 20-year Municipal Bond Index rate of 3.13 percent, as of June 30, 2019 (i.e., municipal bond rate).

**Sensitivity of the District's Proportionate Share of the OPEB Liability to Changes in the Discount Rate and Changes in Health Care Cost Trend Rates** The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability and what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (2.22 percent) and higher (4.22 percent) than the current discount rate (3.22 percent). Also shown is what the net OPEB liability would be based on health care cost trend rates that are one percentage point lower (6.00 percent decreasing to 3.75 percent) and higher (8.00 percent decreasing to 5.75 percent) than the current rate.

**Actuarial Assumptions - STRS**

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2019, actuarial valuation are presented below:

Inflation	2.50%
Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Payroll Increases	3.00%
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Health care cost trends	
Pre-Medicare	5.87% initial, 4.00% ultimate
Medicare	4.93% initial, 4.00% ultimate
Prescription Drug Cost Trends	
Pre-Medicare	7.73% initial, 4.00% ultimate
Medicare	9.62% initial, 4.00% ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

The actuarial assumptions used in the June 30, 2019 valuation, were adopted by the board from the results of an actuarial experience study for July 1, 2011, through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

**WORTHINGTON CITY SCHOOL DISTRICT**

Notes to the Basic Financial Statements

June 30, 2020

Asset Class	Target Allocation*	Long-Term Expected Real Rate of Return**
Domestic Equity	28.00 %	7.35 %
International Equity	23.00	7.55
Alternatives	17.00	7.09
Fixed Income	21.00	3.00
Real Estate	10.00	6.00
Liquidity Reserves	1.00	2.25
<b>Total</b>	<b>100.00 %</b>	

\*Target weights will be phased in over a 24-month period concluding on July 1, 2019.

\*\*Ten year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was applied to all periods of projected benefit payments to determine the total OPEB liability as of June 30, 2019.

**Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate** The following table represents the net OPEB asset as of June 30, 2019, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB liability as of June 30, 2019, calculated using health care cost trend rates that are one percentage point lower and one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)

**14. Contingencies**

**a. Grants**

The federal and state grants remain subject to review and audit by the grantor agencies or their designees. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the District's administration believes such disallowances, if any, would be minimal.

School District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by Schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments to fiscal year 2020 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2020 financial statements is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of, the District.

**b. Litigation**

The District is party to legal proceedings incidental to operations. As of the date of the financial statements, there are no known substantive items requiring disclosure, and it is anticipated that liability insurance will cover any damages that may result.

**c. Significant Contractual and Other Commitments**

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

<u>Governmental Fund</u>	<u>Encumbrances</u>
General Fund	\$ 3,625,547
Building Fund	52,315,734
Other Governmental Funds	931,482
Total Governmental Encumbrances	<u>\$ 56,872,763</u>

The District is undertaking several construction projects relating to the November 2018 Bond Levy. Below is a list of related outstanding significant commitments at year end, all included in the Building Fund:

**15. Set-Asides**

The District is required by State statute to annually set aside in the General Fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year end or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in year-end set-aside amount for capital acquisition. Disclosure of this information is required by State statute.

**16. Fund Deficits / Accountability**

The following funds had deficit fund balances as of June 30, 2020:

	Deficit Fund Balance
<u>Governmental Funds:</u>	
Special Revenue Funds-	
Elementary and Secondary School Emergency Relief	\$ (172,357)

Special Education Preschool Grants	(1,473)
	\$ (261,857)

The deficit fund balances are the result of the application of generally accepted accounting principles. The General Fund provides transfers to cover deficit fund balances; however, this is done when cash is needed rather than when accruals occur.

**17. Change in Accounting Principles**

For fiscal year ending June 30, 2020, the District has implemented the following:

For the fiscal year ended June 30, 2020, the School District implemented GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. GASB Statement No. 95 postpones the effective dates of certain provisions in the statements that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later.

The following statements are postponed by one year:

- Statement No. 84, *Fiduciary Activities*
- Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*
- Statement No. 90, *Majority Equity Interests*
- Statement No. 91, *Conduit Debt Obligations*

Certain provisions in the following statements are postponed by one year:

- Statement No. 92, *Omnibus 2020*
- Statement No. 93, *Replacement of Interbank Offered Rates*

The following statement is postponed by 18 months:

- Statement No. 87, *Leases*

**18. COVID-19**

The United States and the State of Ohio declared a state of emergency in March 2020 due to the COVID-19 pandemic. The financial impact of COVID-19 and the ensuing emergency measures will impact subsequent periods of the District's operations. However, the impact on the District's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated.

**WORTHINGTON CITY SCHOOL DISTRICT**  
Notes to the Required Supplementary Information  
For the Year Ended June 30, 2020

---

**NOTE A - BUDGETARY DATA**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control is at the fund and 1 level object for the General Fund. All other Funds are budgeted at the fund level. Any budgetary modifications at this level must be made by resolution of the Board of Education.

**Tax Budget:**

Prior to January 15, the Superintendent and the Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Franklin County Budget Commission for rate determination.

**Estimated Resources:**

Prior to March 15, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year do not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the Certificate is amended to include unencumbered cash balances from the preceding year. The Certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final Amended Certificate issued during fiscal year 2020.

**Appropriations:**

Upon receipt from the County Auditor of an amended official certificate of estimated resources based on the final assessed values and tax rates or a certificate stating no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund and 1 level object for General Fund expenditures, and at the fund level for all other funds, which are the legal levels of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the

**WORTHINGTON CITY SCHOOL DISTRICT**  
Notes to the Required Supplementary Information  
For the Year Ended June 30, 2020

---

total of any fund appropriation or alter total function appropriations within a fund, or alter object appropriations within functions, must be approved by the Board of Education. The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent Certificate of Estimated Resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant. The budget figures which appear in the statements of budgetary comparisons represent the original and final appropriation amounts, including all supplemental appropriations.

Formal budgetary integration is employed as a management control device during the year for all funds, including the Debt Service Fund, consistent with statutory provisions.

**Encumbrances:**

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the Non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at year-end are reported in their respective category as restricted, committed, or assigned.

**Lapsing of Appropriations:**

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

***NOTE B - RECONCILING BUDGET BASIS AND GAAP***

The District prepares its budget on a basis of accounting that differs from generally accepted accounting principles (GAAP). The actual column presented on the Budgetary Comparison Schedule – General Fund is prepared in accordance with the budget basis of accounting.

The major differences between the budgetary basis of accounting and GAAP are that:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- B. Expenditures are recorded when encumbered (budget basis) as opposed to when the liability is incurred (GAAP basis);
- C. Encumbrances are recorded as the equivalent of expenditures (budget basis) as opposed to a reservation of fund balance (GAAP basis); and
- D. Investments are recorded at cost (budget basis) as opposed to fair value (GAAP basis).
- E. Some funds are included in the General Fund (GAAP basis) but have separate legally adopted budgets (budget basis). See note D below

**WORTHINGTON CITY SCHOOL DISTRICT**  
Notes to the Required Supplementary Information  
For the Year Ended June 30, 2020

---

A reconciliation of the General Fund results of operations at the end of the year on the GAAP basis to the budget basis follows:

Net Change in Fund Balance (GAAP Basis)	\$ (32,092,371)
Adjustments:	
Due to Revenues	31,302,348
Due to Expenditures and Encumbrances	(3,601,319)
Due to Other Financing Sources	(270,000)
Funds Budgeted Elsewhere (See Note D)	71,698
Net Change in Fund Balance (Budget Basis)	\$ (4,589,644)

**NOTE C – SIGNIFICANT VARIANCES**

Property tax receipts were \$4.1 million lower than expected mainly due to the District not receiving a \$5 million advance normally received in prior years. Additionally, investment income was \$1.0 million lower due to declining market conditions relating to the pandemic.

**NOTE D – FUNDS BUDGETED ELSEWHERE**

As part of Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting*, certain funds that are legally budgeted in separate special revenue funds are considered part of the General Fund on a GAAP basis. This includes the Uniform School Supplies Fund, Special Rotary Fund, Public School Support Fund and the Kindergarten Plus Program Fund.

**NOTE E – NET PENSION LIABILITY**

**School Employees Retirement System**

***Changes in benefit terms:***

With the authority granted to the Board under SB 8, the Board enacted a three-year COLA delay for future benefit recipients commencing on or after April 1, 2018.

For fiscal year 2018, the cost-of-living adjustment was changed from a fixed 3.00 percent to a cost-of-living adjustment that is indexed to CPI-W not greater than 2.50 percent with a floor of zero percent beginning January 1, 2018. In addition, with the authority granted the Board under HB 49, the Board has enacted a three-year COLA suspension for benefit recipients in calendar years 2018, 2019 and 2020.

***Changes in assumptions:***

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc COLA. Prior to 2018, an assumption of 3.0 percent was used.

**WORTHINGTON CITY SCHOOL DISTRICT**  
Notes to the Required Supplementary Information  
For the Year Ended June 30, 2020

---

For fiscal year 2017, the SERS Board adopted the following assumption changes:

- Assumed rate of inflation was reduced from 3.25 percent to 3.00 percent
- Payroll Growth Assumption was reduced from 4.00 percent to 3.50 percent
- Assumed real wage growth was reduced from 0.75 percent to 0.50 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females.
- Mortality among service retired members, and beneficiaries was updated to RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates.
- Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

### **State Teachers Retirement System**

#### ***Changes in benefit terms:***

For fiscal year 2018, the cost-of-living adjustment (COLA) was reduced to zero.

#### ***Changes in assumptions:***

For fiscal year 2018, the Retirement Board approved several changes to the actuarial assumptions in 2017. The long term expected rate of return was reduced from 7.75 percent to 7.45 percent, the inflation assumption was lowered from 2.75 percent to 2.50 percent, the payroll growth assumption was lowered to 3.00 percent, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25 percent due to lower inflation. The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

### ***NOTE F – NET OPEB LIABILITY***

## WORTHINGTON CITY SCHOOL DISTRICT NON-MAJOR GOVERNMENTAL FUNDS

---

Capital Projects Funds are used to account for financial resources and report financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

**Permanent Improvement** – A fund provided to account for and report financial resources that are restricted, committed, or assigned to expenditures related to the acquiring, constructing, or improving of such permanent improvements as authorized by Section 5705 of the Ohio Revised Code.

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

**Food Service** – A fund used to record the financial transactions related to the district's food service operation.

**Other Local Sources** – A fund used to account for specific local revenue sources received from various contributors that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures generally include community services.

**Uniform School Supplies** – A rotary fund provided to account for the purchase and sale of school supplies as adopted by the Board of Education for use in the schools of the district. Profit derived from such sale is to be used for school purposes or activities in connection with the school. This fund is legally budgeted separately but included in the General Fund on a GAAP basis.

**Special Rotary** – A rotary fund provided to account for the income and expenditures in connections with (1) supplemental education classes, (2) a special education preschool program, (3) a life enrichment program, and (4) facility rentals. This fund is legally budgeted separately but included in the General Fund on a GAAP basis.

**Public School Support** – A fund used to account for specific local revenue sources, other than taxes or expendable trusts (i.e., profits from vending machines) that are used for various operating purposes at each department's discretion. This fund is legally budgeted separately but included in the General Fund on a GAAP basis.

**Grants-Local Sources** – A fund used to account for specific local revenue sources, other than taxes (i.e., profits from vending machines, sales of pictures, etc.), that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases.

**District Managed Student Activities** – A fund provided to account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund would usually include athletic programs but also could include the band, cheerleaders, flag corps, and other similar types of activities.

## WORTHINGTON CITY SCHOOL DISTRICT NON-MAJOR GOVERNMENTAL FUNDS

---

**Auxiliary Services** – A fund used to account for monies which provide services and materials to pupils attending non-public schools within the school district. For generally accepted accounting principles, this fund is accounted for as a special revenue fund.

**Data Communications Support** – A fund provided to account for monies appropriated from the State of Ohio for Ohio Educational Computer Network Connections.

**Student Wellness and Success** - A fund used to account for monies to support students' academic achievement through mental health counseling, wraparound services, mentoring, and after-school programs.

**Other State Grants** - A fund provided to account for various monies received from state agencies which are not classified elsewhere. A separate special cost center must be used for each grant and be approved by the Auditor of State.

**Elementary and Secondary School Emergency Relief** – A fund provided to account for monies received to be used for expenses directly related to the COVID-19 pandemic as well as other activities that are necessary to maintain the operation of continuity of services.

**Special Education Part B IDEA Grants** - A fund provided to account for monies received to assist states in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

**Vocational Education Grants** – A fund provided to account for monies received for vocational education, primarily those passed through the State of Ohio Department of Education related to the Carl D. Perkins Vocational and Applied Technology Act of 1990.

**Title III Immigrant/LEP Grants** – A fund provided to account for the Foreign Language Grant program at the elementary schools, which is funded with U.S. Department of Education grant monies.

**Title I Grants** – A fund which accounts for federal funds used to meet the special needs of educationally deprived children.

**Special Education Preschool Grants** – A fund provided to address the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

**Title IIA Grants Supporting Effective Instruction** – A fund used to account for federal funds for improving teacher effectiveness and quality of instruction.

**Other Miscellaneous Federal Grants** – A fund used to account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere. A separate special cost center must be used for each grant and be approved by the Auditor of State.

## WORTHINGTON CITY SCHOOL DISTRICT INTERNAL SERVICE FUNDS

---

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and to other government units on a cost-reimbursement basis.

**Intra-District Services** – A fund provided to account for operations that provide goods or services to other governmental units on a cost-reimbursement basis. For budgetary purposes, the Kindergarten Plus Program has been included in the amounts. However, the Kindergarten Plus Program has been included in the General Fund for GAAP purposes.

**Workers Compensation Self Insurance** – A fund provided to account for money received from other funds as payment for providing workers compensation insurance. Payments are made to a third party administrator for claims payments, claims administration, and stop-loss coverage.

**Medical Self Insurance** – A fund provided to account for money received from other funds as payment for providing medical insurance. Payments are made to a third party administrator for claims payments, claims administration, and stop-loss coverage.

## WORTHINGTON CITY SCHOOL DISTRICT FIDUCIARY FUNDS

---

Trust funds are used to account for assets held by the district in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds.

Agency funds are used to account for assets held by the district as an agent for individuals, private organizations, other governments, and/or other funds.

**Private Purpose Trust** – A trust fund used to account for money which has been set aside for scholarship purposes. The income from such funds may be expended in accordance with the related trust agreement, but the principal must remain intact.

**Student Activity Agency** – An agency fund provided to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

**District Tournament Host Agency** – An agency fund provided to account for those tournaments hosted by the District on behalf of various athletic associations. The revenues and expenses are accounted for by the District with any excess funds being returned to the appropriate athletic association.

**Community/Other School Agency** – An agency fund provided to account for state foundation revenues related to resident students attending community schools or electing state scholarship opportunities per ORC 3314.08, ORC 3326.33, ORC 3310, and ORC 3313. According to the current state funding formula these funds are allocated to the resident district but paid directly to the respective school of attendance.
