INDEPENDENT AUDITOR'S REPORT

Crestview Local School District
Columbiana County
44100 Crestview Road Suite A
Columbiana, Ohio 44408

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Crestview Local School District, Columbiana County, Ohio (the District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during 2021, the District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. In addition, as discussed in Note 23 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District. We did not modify our opinion regarding these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis*, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The Schedule of Receipts and Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2022, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Crestview Local School District
Columbiana County, Ohio

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

The discussion and analysis of the financial performance of Crestview Local School District (the District) provides an overall review of the District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2021 are as follows:

In total, net position increased \$988,833 from fiscal year 2020, due to an overall increase in capital assets and revenue. The effects of GASB 68 and 75 distort the comparative analysis to follow in this MD&A due to the significant change in total expenses on a full accrual basis.

General revenues accounted for \$11,996,514, or approximately 68 percent of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$5,697,523 or 32 percent of total revenues of \$17,694,037.

The District's major funds included the General Fund and the Permanent Improvement Capital Projects Fund. On the modified accrual basis, the General Fund had \$14,280,152 in revenues and \$13,333,381 in expenditures. The General Fund's balance increased \$946,771 from the prior fiscal year. The Permanent Improvement Capital Projects Fund had \$1,085,678 in revenues and \$1,134,837 in expenditures. The Permanent Improvement Capital Projects Fund balance increased \$350,841 from the previous fiscal year.

The District's total net pension liability increased to \$14,452,140 from \$13,462,700 and the OPEB liability (net of the OPEB asset) decreased to \$234,215 from \$391,940, or \$831,715 combined increase. For more information on this liability see Notes 14 and 15 to the basic financial statements.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Crestview Local School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* and *Statement of Activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term and what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of Crestview Local School District, the General Fund and the Permanent Improvement Capital Projects Fund are the two major funds of the District and are the most significant.

Reporting the District as a Whole

Statement of Net Position and Statement of Activities

The statement of net position and the statement of activities reflect how the District did financially during fiscal year 2021. These statements include all assets, deferred outflows of resources, liabilities and

Crestview Local School District
Columbiana County, Ohio

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

deferred inflows of resources using the accrual basis of accounting similar to which is used by most private-sector companies. This basis of accounting considers all of the current fiscal year's revenues and expenses regardless of when cash is received or paid.

These statements report the District's net position and changes in that position. This change in net position is important because it tells the reader whether the financial position of the District as a whole has increased or decreased from the prior fiscal year. Over time, these increases and/or decreases are one indicator of whether the financial position is improving or deteriorating. Causes for these changes may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the statement of net position and statement of activities, the District discloses a single type of activity:

Governmental Activities - All of the District's programs and services are reported here including instruction, support services, non-instructional services, and extracurricular activities. These services are primarily funded by property tax revenues and from intergovernmental revenues, including federal and state grants and other shared revenues.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial statements provide detailed information about the District's major funds. While the District uses many funds to account for its multitude of financial transactions, the fund financial statements focus on the District's most significant funds. The District's major governmental funds are the General Fund and the Permanent Improvement Capital Projects Fund. While the District uses many funds to account for its financial transactions, these two are the most significant.

Governmental Funds - Most of the District's activities are reported in the governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year-end for spending in future periods. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs. The relationship (or difference) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities on the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to help make this comparison between governmental funds and governmental activities.

Proprietary Funds - The District maintains a proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District's internal service fund accounts for insurance benefits.

<i>Total Net Position</i>	<u>\$1,414,658</u>	<u>\$425,825</u>	<u>\$988,833</u>

The net pension liability (NPL) is the largest single liability reported by the School District at June 30, 2021 and is reported pursuant to GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The other postemployment benefits (OPEB) liability is also a significant liability reported by the School District. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability/(asset) to the reported net position and subtracting deferred outflows related to pension and OPEB.

Crestview Local School District
Columbiana County, Ohio

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability/(asset)*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability/(asset) to equal the School District's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability/(asset), respectively, not accounted for as deferred inflows/outflows.

Crestview Local School District
Columbiana County, Ohio

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

By comparing assets, deferred outflows of resources, liabilities, and deferred inflows of resources, the overall position of the District has increased as evidenced by the increase in net position of \$988,833. Table 2 reflects the changes in net position for fiscal year 2021 compared to fiscal year 2020.

Table 2
Change in Net Position
Governmental Activities

	2021	(Restated) 2020	Increase (Decrease)
Revenues			
Program Revenues			
Charges for Services and Sales	\$3,459,998	\$3,682,005	(\$222,007)
Operating Grants and Contributions	2,130,516	1,088,776	1,041,740
Capital Grants and Contributions	107,009	185,362	(78,353)
<i>Total Program Revenues</i>	<u>5,697,523</u>	<u>4,956,143</u>	<u>741,380</u>
General Revenues			
Property Taxes	3,533,012	3,224,570	308,442

Intergovernmental	6,613,684	6,539,543	74,141
Investment Earnings	20,859	72,164	(51,305)
Miscellaneous	203,390	88,201	115,189
<i>Total General Revenues</i>	<u>11,996,514</u>	<u>11,231,695</u>	<u>764,819</u>
<i>Total Revenues</i>	<u>\$17,694,037</u>	<u>\$16,187,838</u>	<u>\$1,506,199</u>
Program Expenses			
Instruction	9,608,767	8,590,524	(1,018,243)
Support Services	5,619,414	5,806,252	186,838
Operation of Non-Instructional/Food Services	632,076	612,256	(19,820)
Extracurricular Activities	562,683	555,771	(6,912)
Interest and Fiscal Charges	282,264	270,257	(12,007)
<i>Total Program Expenses</i>	<u>16,705,204</u>	<u>15,835,060</u>	<u>(870,144)</u>
<i>Increase (Decrease) in Net Position</i>	988,833	352,778	1,341,611
Net Position Beginning of Year	425,825	73,047	(352,778)
<i>Net Position End of Year</i>	<u>\$1,414,658</u>	<u>\$425,825</u>	<u>\$988,833</u>

The primary sources of general revenue for governmental activities are derived from grants and entitlements and property and income taxes. These revenue sources represent approximately 67 percent of total governmental revenue. Real estate property is reappraised every six years.

The largest expense of the District is for instruction, which totaled \$9,608,767 or 58 percent of total governmental expenses. Support service expenses totaled \$5,619,414, or 34 percent of total governmental expenses for fiscal year 2021. The effects of GASB 68 and 75 distort this comparative analysis due to the significant impact changes made to cost of living adjustments enacted by the state pension board had on the District's share of the total pension/OPEB liability/(asset).

Crestview Local School District
Columbiana County, Ohio

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

Governmental Activities

Table 3 indicates the total cost of services and the net cost of services for governmental activities. The statement of activities reflects the cost of program services and the charges for services and sales, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax revenues and unrestricted state entitlements.

Table 3
Total and Net Cost of Program Services

	2021		2020	
	Total Cost of Services	Net Cost of Services	Total Cost of Services	Net Cost of Services
Program Expenses				
Instruction	\$9,608,767	\$5,587,111	\$8,590,524	\$5,029,275
Support Services	5,619,414	4,910,342	5,806,252	5,375,770
Operation of Non-Instructional/Food Service	632,076	(48,645)	612,256	41,845
Extracurricular Activities	562,683	276,609	555,771	161,770
Interest and Fiscal Charges	282,264	282,264	270,257	270,257
<i>Total Expenditures</i>	<u>\$16,705,204</u>	<u>\$11,007,681</u>	<u>\$15,835,060</u>	<u>\$10,878,917</u>

The table above reflects how the District funds its programs through program revenues. Instructional services, support services, co-curricular activities, and interest charges rely heavily on general revenues, while non-instructional and food services were completely funded by program revenues during the fiscal year. The large increase in instructional and support services is the byproduct of GASB 68 and 75 as previously discussed. To gain a better understanding of operations, please refer to the fund analysis on the following pages.

The dependence upon property and income tax revenues and unrestricted state entitlements for governmental activities is apparent. 70 percent of all District expenses are supported through income and property taxes and unrestricted grants and entitlements this year. Program revenues supported 34 percent of total expenses, while interest and miscellaneous revenues supported less than 1 percent.

The District's Funds

The District's governmental funds are accounted for using the modified accrual basis of accounting. The District's major governmental funds are the General Fund and the Permanent Improvement Capital Projects Fund. The fund balance of these two funds increased by \$946,771 and \$350,841, respectively, due to revenues outpacing expenditures for the fiscal year.

Total governmental funds had revenues of \$17,751,106 and expenditures of \$17,606,701. The net overall increase in fund balance was \$1,344,405 for the year.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. During the course of fiscal year 2021, the District amended its General Fund budget as needed.

Crestview Local School District
Columbiana County, Ohio

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

The variance between final budgeted and actual revenues was \$55,019, or less than 1 percent. This variance was the result of slightly more than estimated tuition and fees and intergovernmental revenues and was not significant to total revenues collected. The variance between original and final budgeted revenues was \$1,070,631 and was due to a conservative original estimate for collections of property tax and intergovernmental revenues. The variance between original budgeted and actual revenues was \$1,125,650 and was due mostly to higher than estimated collections for property tax, tuition and fees and intergovernmental revenues. This variance is due to a conservative or "worst case scenario" approach applied to the original budget and the sale of land not anticipated at the beginning of the fiscal year.

Final expenditures and other financing sources were budgeted at \$14,276,221 while actual expenditures and other financing uses were \$13,503,935. The \$772,286 difference is primarily due to a conservative "worst case scenario" approach and is less than 6 percent of the total budget. The original budgeted expenditures of \$13,252,392 were increased to \$14,276,221 in the final budget for anticipated increases in total instruction costs. The District over-appropriates in case significant, unexpected expenditures arise during the fiscal year.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2021, the District had \$13,702,773 invested in capital assets (net of accumulated depreciation) for governmental activities. Table 4 shows fiscal year 2021 balances compared to fiscal year 2020:

Table 4
Capital Assets at June 30 (Net of Depreciation)

	<u>2021</u>	<u>2020</u>
Land	\$431,075	\$431,075
Construction in Progress	710,115	465,533
Land Improvements	152,904	157,707
Buildings and Improvements	11,600,399	11,573,672
Furniture, Fixtures and Equipment	380,702	296,922
Vehicles	427,578	412,943
<i>Total</i>	<u>\$13,702,773</u>	<u>\$13,337,852</u>

All capital assets, except land and construction in progress, are reported net of depreciation. As one can see, the District had an overall increase in capital assets of \$364,921. This increase is due to the current year depreciation expense of \$735,443 and net deletions being less than capital asset additions of \$1,100,364.

For further information regarding the District's capital assets, see Note 10 to the basic financial statements.

Debt

As of June 30, 2021, the District's outstanding long-term debt obligations included \$2,450,000 in school construction bonds for the performing arts/auditorium project, a bond anticipation note in the amount of \$800,000 and a lease purchase agreement in the amount of \$382,604. At June 30, 2021, the District's overall legal debt margin was \$11,467,938, with an un-voted debt margin of \$133,326.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
Unaudited

For further information regarding the District's debt, see Note 17 to the basic financial statements.

Current Issues

The District is a small rural community in Northeast Ohio. The District's 2010 population was 6,200. It has a number of small and medium businesses with agriculture having a contributing influence on the economy.

The District is holding its own in the state of a declining economy and uncertainty in State funding. As the preceding information shows, the District relies heavily upon property taxes, school district income tax, the state foundation program and open enrollment.

The District is also currently experiencing a flat resident enrollment. The District adopted an Open Enrollment Policy effective with the 2003 fiscal year. Currently for the 2021-2022 school year the District had a net open enrollment population of approximately 357 students.

The District believes it can eliminate any future deficits through managing costs without seeking approval of additional operating funds from its voters.

The Crestview Local School District is currently eligible for funding from OFCC. The District buildings were evaluated and it was determined that the State will only fund new construction, not renovation of the District facilities. Currently the District is eligible for 88 percent from the State. The estimated cost of the new facilities is approximately \$43,000,000 with a District share of that cost at approximately \$5,200,000. The District placed a 2.84 mil levy on the May 2019 ballot. The issue passed. The District is currently waiting for OFCC to fund the project.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to reflect the District's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to Charlene Mercure, Treasurer, Crestview Local School District, 44100 Crestview Road, Suite A, Columbiana, Ohio 44408.

*Reconciliation of Total Governmental Fund Balances to
Net Position of Governmental Activities
For the Fiscal Year Ended June 30, 2021*

Total Governmental Fund Balances		\$5,084,062
 <i>Amounts reported for governmental activities in the statement of net position are different because</i>		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.		13,702,773
Other long-term assets are not available to pay for current-period expenditures and therefore are reported as unavailable revenue in the funds.		
Property Taxes	78,230	
Income Taxes	105,498	
Total		183,728
An internal service fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.		251,198
In the statement of activities, interest is accrued on outstanding general obligation bonds and leases, whereas in governmental funds, an interest expenditure is reported when due.		(89,862)
The net pension and OPEB liabilities are not due and payable in the current period and, therefore, are not reported in the funds.		
Deferred Outflows - Pension	2,593,278	
Deferred Inflows - Pension	(321,997)	
Net Pension Liability	(14,452,140)	
Deferred Outflows - OPEB	384,566	
Deferred Inflows - OPEB	(1,529,052)	
Net OPEB Liability	(1,059,112)	
Net OPEB Asset	824,897	
Total		(13,559,560)
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds:		
Qualified School Construction Bonds	(2,450,000)	
Unamortized Discount	6,161	
Bond Anticipation Note	(800,000)	
Lease Purchase Agreement	(382,604)	
Compensated Absences	(531,238)	
Total		(4,157,681)

*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2021*

Net Change in Fund Balances - Total Governmental Funds \$1,344,405

***Amounts reported for governmental activities in the
statement of activities are different because***

Governmental funds report capital outlays as expenditures.

However, in the statement of activities, the cost of those assets are allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.

Capital Outlay	1,100,364
Current Year Depreciation	(735,443)

Total 364,921

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property Taxes	(28,033)
Income Taxes	(32,626)

Total (60,659)

Other financing sources in the governmental funds increase

long-term liabilities in the statement of net position.

Bond Anticipation Note Issued	(800,000)
Lease Purchase Agreement Issued	(400,000)

Total (1,200,000)

Repayment of long-term debt and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

1,252,396

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Accrued Interest on Bonds	11,844
Amortization of Discount	(666)
Amortization of Note Premium	5,112

Total 16,290

Contractually required contributions are reported as expenditures in governmental funds; however, the statement of net position reports these amounts as deferred outflows.

Pension	1,022,819
OPEB	30,408

Total 1,053,227

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability are reported as pension/OPEB expense in the statement of activities.

Pension	(1,867,237)
OPEB	43,186

Total (1,824,051)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Compensated Absences	1,566
----------------------	-------

The internal service fund used by management to charge the costs of insurance to individual funds are not reported in the district-wide statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.

40,738

Change in Net Position of Governmental Activities

\$988,833

<i>Net Cash Provided by Operating Activities</i>	<u><u>\$50,516</u></u>

See accompanying notes to the basic financial statements

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 1 – Description of the School District and Reporting Entity

Crestview Local School District (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. Crestview Local School District is a local school district as defined by §3311.22 of the Ohio Revised Code. The District operates under an elected Board of Education (5 members) and is responsible for the provision of public education to residents of the District. The Board oversees the operations of the District's three instructional/support facilities staffed by 44 non-certified and 89 certified full-time teaching personnel who provide services to approximately 1,213 students and other community members.

The Reporting Entity

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the District. This includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes. The District does not have any component units.

The District is associated with organizations, which are defined as jointly governed organizations and group purchasing pools. These organizations include the Area Cooperative Computerized Educational Service System, Columbiana County Career Center, The Jefferson Health Plan, formerly the Ohio Mid-Eastern Regional Educational Services Agency, and the Ohio Association of School Business Officials Workers' Compensation Group Rating Program. These organizations are presented in Notes 20 and 21 to the basic financial statements.

Note 2 – Summary of Significant Accounting Policies

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following are the more significant of the District's accounting policies.

A. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The statement of net position presents the financial condition of the governmental activities of the District at year-end. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column.

B. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

General Fund - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Permanent Improvement Capital Projects Fund - The Permanent Improvement Capital Projects Fund accounts for all transactions related to the acquiring, constructing, or improving of such permanent improvements as are authorized by Chapter 5705, Ohio Revised Code.

The other governmental funds of the District account for grants and other resources of the District whose uses are restricted, committed or assigned to a particular purpose.

Proprietary Funds

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as enterprise or internal service. The School District has no enterprise funds. The following is a description of the District's internal service fund.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Internal Service Fund - The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the District on a cost reimbursement basis. The District's only internal service fund is a self-insurance fund that accounts for medical, prescription drug, dental and vision claims of the District's employees.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into the following four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that has certain characteristics. The School District has no private purpose trust funds. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The School District has no custodial funds.

C. Measurement Focus

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government. Internal service fund activity is eliminated to avoid "doubling up" of revenues and expenses.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the District are included on the statement of net position.

Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all non-major funds are aggregated into one column.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows associated with the operation of the funds are included on the statement of fund net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenue of the District's internal service fund is charges for services. Operating expenses for the internal service fund include the cost of goods and services and claims expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements for the proprietary fund is prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual bases of accounting arise in the recognition of revenue, the recording of unavailable revenue and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 8). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of net position and balance sheets will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources included pension and OPEB related amounts reported on the government-wide statement of net position. The deferred outflows of resources related to pension and OPEB are explained in Notes 14 and 15.

In addition to liabilities, the statements of net position and balance sheets report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, pension, OPEB and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2021, but which were levied to finance fiscal year 2022 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes delinquent property taxes and income taxes. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position (see Notes 14 and 15).

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgetary Data

All funds are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The primary level of budgetary control is at the fund level for the general fund and all other funds. Any budgetary modifications at this level may only be made by the Board of Education. Budgetary allocations at the function or object level within the General Fund and all other funds are made by the Treasurer.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Board.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

During fiscal year 2021, investments were limited to STAR Ohio. Investments in nonparticipating investment contracts, such as repurchase agreements, are reported at cost.

STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB) Statement No. 79' "Certain External Investment Pools and Pool Participants." The Authority measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For fiscal year 2021, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$50 million, requiring the excess amount to be transacted the following business days(s), but only to the \$50 million limit. All accounts of the participant will be combined for these purposes.

As authorized by Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2021 amounted to \$15,313, \$465 of which was assigned from other District funds.

For presentation of the financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2021, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed. There were no prepaids reported for fiscal year 2021.

H. Inventory

On government-wide financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

On the fund financial statements, inventories of governmental funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as expenditures in the governmental fund types when purchased. Inventories for governmental funds are accounted for using the consumption method on both the fund financial statements and the government-wide financial statements.

On the fund financial statements, reported material and supplies inventory is equally offset by a nonspendable classification in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food and purchased food.

I. Restricted Net Position

Assets are reported as restricted net position when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributor's grantors, or laws of other government or imposed by enabling legislation. See Note 19 for additional information regarding set asides.

J. Capital Assets

General capital assets are those assets not specifically related to activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. The District was able to estimate the historical cost for the initial reporting of assets by back-trending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year.) Donated capital assets are recorded at their acquisition values as of the date received. The District's capitalization threshold is five thousand dollars. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, other than land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land Improvements	15 - 30 years
Buildings and Building Improvements	30 - 50 years
Furniture, Fixtures and Equipment	5 - 20 years
Vehicles	5 - 15 years

K. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities columns of the statement of net position.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

L. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy. The entire compensated absence liability is reported on the governmental-wide financial statements.

M. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported on the government-wide financial statements and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that once incurred, are paid in a timely manner and in full from current financial resources, and are reported as obligations of the funds. However, claims and judgments and compensated absences are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds are recognized as a liability on the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

N. Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes include amounts restricted for non-public schools and community involvement.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

O. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education. Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the District Board of Education.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

P. Internal Activity

Transfers between governmental activities are eliminated on the government-wide financial statements. Internal events that are allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Q. Bond Issuance Discount

On the government-wide financial statements, bond discounts are deferred and amortized over the term of the bonds using the straight line method. On the government-wide financial statements, bond discounts are presented as a decrease of the face amount of the bonds payable. On the fund financial statements, bond discounts are expended in the year the bonds are issued.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

R. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB systems report investments at fair value.

S. Operating Revenues and Expenses

Operating revenues are those that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are charges for services for self-insurance programs. Operating expenses are necessary costs that are incurred to provide the good or service that is the primary activity of the fund. Any revenue or expense not meeting the definition of operating is reported as non-operating.

T. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 – Change in Accounting Principles & Restatement of Prior Year Fund Balance/Net Position

For fiscal year 2021, the School District has implemented Governmental Accounting Standards Board (GASB) Statement No. 83, “Certain Asset Retirement Obligations”, Statement No. 84, “Fiduciary Activities” and related guidance from (GASB) Implementation Guide No. 2019-2, Fiduciary Activities, and Statement No. 88, “Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements”.

GASB Statement No. 83, Certain Asset Retirement Obligations, addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. The implementation of this Statement had no effect on the beginning fund balance/net position of the School District.

GASB Statement No. 84 established specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the School District will no longer be reporting agency funds. The School District reviewed its agency fund and it will not be reported in the new fiduciary fund classification of custodial funds and has been reclassified as a governmental fund. GASB Statement 84 was incorporated into the School District’s fiscal year 2021 financial statements and had the following effect on the beginning fund balance/net position as presented below.

GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements, aims to improve the information that is disclosed in notes to financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement also requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

consequences, and significant subjective acceleration clauses. The implementation of this Statement had no effect on the note disclosure of the School District.

Restatement of Fund Balances and Net Position

The implementation of GASB Statement No. 84 had the following effect on fund balances as of June 30, 2020:

	General	Permanent Improvement	Nonmajor Governmental	Total
Fund Balances at June 30, 2020	\$2,089,281	\$1,012,480	\$587,045	\$3,688,806
Adjustment due to GASB 84	0	0	50,851	50,851
<i>Restated Fund Balances</i> <i>at June 30, 2020</i>	<u>\$2,089,281</u>	<u>\$1,012,480</u>	<u>\$637,896</u>	<u>\$3,739,657</u>

The implementation of GASB Statement No. 84 had the following effect on governmental and fiduciary net position as of June 30, 2020:

	Governmental Activities	Agency
Net Position at June 30, 2020	\$374,974	\$0
Adjustments:		
GASB Statement 84	50,851	0
Assets	0	(55,051)
Liabilities	0	55,051
<i>Restated Net Position</i> <i>at June 30, 2020</i>	<u>\$425,825</u>	<u>\$0</u>

Note 4 – Accountability

Fund balances at June 30, 2021 included the following individual fund deficits:

Nonmajor Governmental Funds:	Deficit
Food Service Fund	\$147,992
District Managed Student Activities	175,102
Title I Fund	35,432

The deficit fund balances in these funds are the result of adjustments for accrued liabilities, except for the Food Service fund, which had negative cash balances at fiscal year-end. The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur.

The Food Service special revenue fund did not comply with Ohio state law, which does not permit a cash basis deficit at year-end. The general fund is liable for the deficit in this fund and provides a transfer when cash is required.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 5 – Budgetary Basis of Accounting

While the District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget (Non-GAAP Basis) and Actual presented for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and fund financial statements are the following:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than restricted, committed or assigned fund balances (GAAP basis).
4. Advances-In and Advances-Out are operating transactions (budget) as opposed to balance sheet transactions.
5. Budgetary revenues and expenditures of the public school support fund are reclassified to the general fund for GAAP reporting.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

Net Change in Fund Balance	
GAAP Basis	\$946,771
Net Adjustment for Revenue Accruals	(587,599)
Net Adjustment for Expenditure Accruals	471,871
Net Adjustment for Funds Budgeted as Special Revenue	(6,663)
Advances Out	(76,288)
Adjustment for Encumbrances	(566,137)
Budget Basis	<u>\$181,955</u>

Note 6 – Deposits and Investments

Monies held by the District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the District Treasury. Active monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Interim monies are those monies that are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the agreement by at least two percent and to be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations provided that investments in securities described in this division are made through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio); and
8. Certain bankers' acceptances (for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim moneys available for investment at the time of purchase.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District and must be purchased with the expectation that it will be held to maturity.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Cash on Hand

At fiscal year end, the District had \$464 in undeposited cash on hand which is included as part of "Equity in Pooled Cash and Cash Equivalents."

At June 30, 2021, the District's internal service fund had a balance of \$393,486 with the Jefferson Health Plan, a claims servicing pool (See Note 12). The balance is held by the claims administrator in a pooled account, which is representative of numerous entities and therefore cannot be included in the risk disclosures reported by the District. Disclosures for the Jefferson Health Plan Self-Insurance Plan as a whole may be obtained from the Plan's fiscal agent, the Jefferson County Educational Service Center. To obtain financial information, write to the Jefferson Health Plan, Treasurer, Jefferson County ESC, 2023 Sunset Blvd. Steubenville, Ohio 43952.

Deposits

At June 30, 2021, the carrying amount of all District deposits was \$2,040,302. Based on the criteria described in GASB Statement No. 40, "Deposits And Investment Risk Disclosures", as of June 30, 2021, \$1,380,000 of the District's bank balance of \$2,171,865 was covered by the Federal Deposit Insurance Corporation, meaning \$791,865 was exposed to custodial risk as discussed below.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

Investments

As of June 30, 2021, the District had the following investment. All investments are in an internal investment pool.

	<u>Fair Value</u>	<u>Maturity</u>
STAROhio	\$3,638,642	Six Months or Less

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Interest Rate Risk - The District has no investment policy that addresses interest rate risk. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and that an investment must be purchased with the expectation that it will be held to maturity. State statute limits investments in commercial paper to a maximum maturity of 180 days from the date of purchase. Repurchase agreements are limited to 30 days and the market value of the securities must exceed the principal value of the agreement by at least 2 percent and be marked to market daily.

Credit Risk: Standard & Poor's has assigned STAR Ohio an AAAM rating. The District's investment policy does not specifically address credit risk beyond the adherence to all relevant sections of the Ohio Revised Code.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investment policy dealing with investment custodial risk beyond the requirement in state statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk - The District places no limit on the amount it may invest in any one issuer. The following is the School District's allocation as of June 30, 2021:

Investment	Percentage of Investment
STAR Ohio	100.00%

Reconciliation of Cash and Investments to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the footnote above to cash and investments as reported on the Statement of Net Position as of June 30, 2021:

<u>Cash and Investments per Note Disclosure</u>		<u>Cash and Investments per Statement of Net Position</u>	
Carrying amount of deposits	\$2,040,302	Governmental Activities	\$6,072,894
Investments	3,638,642		
Cash with fiscal agent	393,486		
Cash on hand	464		
Total	\$6,072,894		\$6,072,894

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 7 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Permanent Improvement	Nonmajor Governmental	Total
<i>Nonspendable</i>				
Inventory	\$39,796	\$0	\$1,999	\$41,795
<i>Restricted for</i>				
Technology Improvements	0	0	4,912	4,912
E-Tech Podcast Grant	0	0	84	84
Other Purposes	0	0	296,537	296,537
Extracurricular Activities	0	0	43,550	43,550
Debt Service Payments	0	0	268,556	268,556
Capital Improvements	0	1,363,321	324,387	1,687,708
<i>Total Restricted</i>	<u>0</u>	<u>1,363,321</u>	<u>938,026</u>	<u>2,301,347</u>
<i>Committed to</i>				
College Scholarships	0	0	105,189	105,189
<i>Assigned to</i>				
Encumbrances	542,361	0	0	542,361
Other Purposes	40,523	0	0	40,523
<i>Total Assigned</i>	<u>582,884</u>	<u>0</u>	<u>0</u>	<u>582,884</u>
<i>Unassigned (Deficit)</i>	<u>2,413,372</u>	<u>0</u>	<u>(360,525)</u>	<u>2,052,847</u>
<i>Total Fund Balances</i>	<u>\$3,036,052</u>	<u>\$1,363,321</u>	<u>\$684,689</u>	<u>\$5,084,062</u>

Note 8 – Property Taxes

Property taxes are levied and assessed on a calendar year basis, while the District's fiscal year runs from July through June. First-half tax distributions are received by the District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the District. Real and public utility property tax revenues received in calendar year 2021 represent the collection of calendar year 2021 taxes. Real property taxes for 2021 were levied after April 1, 2020, on the assessed values as of January 1, 2020, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Public utility property tax revenue received in calendar 2021 represents collections of calendar year 2020 taxes. Public utility real and tangible personal property taxes received in calendar year 2021 became a lien December 31, 2018, were levied after April 1, 2020 and are collected in 2021 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The District receives property taxes from Columbiana County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2021, are available to finance fiscal year 2021 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2021 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset to deferred inflows of resources – property taxes.

The amount available as an advance at June 30, 2021 was \$55,395 in the general fund, \$21,080 in the bond retirement debt service fund and \$18,530 in the permanent improvement capital projects fund. The amount available as an advance at June 30, 2020 was \$52,896 in the general fund, \$20,647 in the bond retirement debt service fund and \$17,788 in the permanent improvement capital projects fund. The difference was in timing and collection by the County Auditor.

The assessed values upon which the fiscal year 2021 taxes were collected are:

	2020 Second Half Collections		2021 First Half Collections	
	Amount	Percent	Amount	Percent
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/Residential and Other Real Estate	\$119,344,860	89.54 %	\$119,190,020	89.40 %
Public Utility Personal	13,941,810	10.46	14,136,450	10.60
Total	<u>\$133,286,670</u>	<u>100.00 %</u>	<u>\$133,326,470</u>	<u>100.00 %</u>
 Tax rate per \$1,000 of assessed valuation	 \$35.54		 \$35.54	

Note 9 – School District Income Tax

The voters of the District passed a 1 percent permanent school district income tax in the November 1989 election that became effective January 1, 1990. School district income tax revenue received by the General Fund during fiscal year 2021 was \$1,658,195 on a modified accrual basis.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 10 – Capital Assets

Capital asset activity for the fiscal year ended June 30, 2021, was as follows:

	Balance 6/30/2020	Additions	Deletions	Balance 6/30/2021
Governmental Activities				
<i>Capital Assets, not being depreciated:</i>				
Land	\$431,075	\$0	\$0	\$431,075
Construction in Progress	465,533	244,582	0	710,115
<i>Total Capital Assets, not being depreciated:</i>	<u>896,608</u>	<u>244,582</u>	<u>0</u>	<u>1,141,190</u>
<i>Capital Assets, being depreciated:</i>				
Land Improvements	218,018	0	0	218,018
Buildings and Building Improvements	22,870,374	639,958	0	23,510,332
Furniture, Fixtures and Equipment	1,128,951	124,831	0	1,253,782
Vehicles	1,316,684	90,993	(162,536)	1,245,141
<i>Total Capital Assets, being depreciated:</i>	<u>25,534,027</u>	<u>855,782</u>	<u>(162,536)</u>	<u>26,227,273</u>
Less Accumulated Depreciation:				
Land Improvements	(60,311)	(4,803)	0	(65,114)
Buildings and Building Improvements	(11,296,702)	(613,231)	0	(11,909,933)
Furniture, Fixtures and Equipment	(832,029)	(41,051)	0	(873,080)
Vehicles	(903,741)	(76,358)	162,536	(817,563)
<i>Total Accumulated Depreciation</i>	<u>(13,092,783)</u>	<u>(735,443)</u>	<u>162,536</u>	<u>(13,665,690)</u>
<i>Total Capital Assets being depreciated, net</i>	<u>12,441,244</u>	<u>120,339</u>	<u>0</u>	<u>12,561,583</u>
Governmental Activities Capital Assets, Net	<u>\$13,337,852</u>	<u>\$364,921</u>	<u>\$0</u>	<u>\$13,702,773</u>

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$273,550
Special	44,834
Vocational	8,040
Support Services:	
Pupil	12,061
Instructional Staff	36,793
Administration	49,016
Fiscal	8,651
Business	856
Operation and Maintenance of Plant	127,064
Pupil Transportation	100,609
Operation of Food Services	12,923
Extracurricular Activities	61,046
Total Depreciation Expense	<u>\$735,443</u>

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 11 - Receivables

Receivables at June 30, 2021, consisted of property taxes, income taxes, accounts, intergovernmental, and accrued interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

A summary of the principal items of receivables follows:

Property Taxes Receivable	\$3,391,273
Income Taxes Receivable	717,528
Intergovernmental Receivable	123,489
Accounts Receivable	7,553
Accrued Interest Receivable	803
Total	\$4,240,646

Note 12 – Risk Management

A. Comprehensive

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2021, the District has contracted with the following insurance companies to provide coverage in the following amounts:

Type of Coverage	Coverage	Deductible
Liberty Mutual		
General Liability:		
Each Occurrence	\$1,000,000	\$0
Aggregate	2,000,000	0
Umbrella Liability:		
Each Occurrence	3,000,000	0
Aggregate	3,000,000	0
Liberty Mutual		
Fleet:		
Comprehensive	1,000,000	1,000
Collision	1,000,000	1,000
Liberty Mutual		
Building and Contents	44,461,582	5,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant reduction in amounts of insurance coverage from fiscal year 2020.

B. Health and Dental Insurance

The District belongs to the Jefferson Health Plan to self-insure its medical claims. Contributions are determined by the consortium’s board of directors and are remitted monthly to the consortium’s fiscal agent, Jefferson County Educational Service Center, who then pays all incurred claims. Thus actual cash “reserves” are held by the fiscal agent. Settlements have never exceeded insurance coverage.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Professional Risk Management (PRM), a Meritain company and third party administrator, services all health/medical claims submitted by employees. An excess coverage insurance policy covers individual claims in excess of \$50,000 per employee consortium wide.

The School District uses an internal service fund to record and report its self-funded health care insurance program. The claims liability of \$142,288, reported in the fund at year end was estimated by the third party administrator and is based on the requirements of GASB Statement No. 10, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported.

Claims in the fund's claims liability during fiscal years 2020 and 2021 were:

Fiscal Year	Beginning Balance	Claims Incurred	Claims Payments	Ending Balance
2020	\$141,652	965,981	978,713	\$128,920
2021	128,920	987,322	973,954	142,288

Postemployment health care is provided to plan participants or their beneficiaries through the respective retirement systems discussed in Note 15. As such, no funding provisions are required by the District.

C. OASBO Group Rating Program

The District participates in the Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool, which was established under Section 4123.29 of the Ohio Revised Code. The Ohio Association of School business Officials Workers' Compensation Group Rating Program (the Program) was established through the Ohio Association of School Business Officials (OASBO) as a group purchasing pool.

The Executive Director of the OASBO, or his designee, serves as coordinator of the Program. Each year, the participating school districts pay an enrollment fee to the Program to cover the costs of administering the Program.

The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating districts is calculated as one experience and a common premium rate is applied to all districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley UniService, Inc. provides administrative, cost control and actuarial services to the GRP.

The District continues to carry commercial insurance for all other risks of loss including liability insurance for all District employees. Settled claims resulting from these risks have not exceeded the commercial insurance coverage in any of the past three fiscal years.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 13 – Interfund Activity

A. Interfund Transfers

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorization. Transfers are also used to close out the funds that are no longer required. During fiscal year 2021, no interfund transfers were made.

B. Interfund Receivable/Payable

At June 30, 2021, interfund receivables/payables consisted of one GAAP basis advance made from the general fund to the food service non-major special revenue fund totaling \$102,577, to cover a negative cash balance.

The general fund advanced \$74,000 to the District Managed student activity non-major special revenue fund and that amount was not returned as of June 30, 2021. The total amount advanced to this fund and not returned was \$228,000 as of June 30, 2021.

The general fund also advanced \$2,288 to the Student Activities non-major special revenue fund and that amount was not returned as of June 30, 2021. The total amount advanced to this fund and not returned was \$6,488 as of June 30, 2021.

Note 14 – Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

A. Net Pension Liability/Net OPEB Liability/(Asset)

The net pension liability and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions-between an employer and its employees-of salaries and benefits for employee services. Pensions/OPEB are provided to an employee-on a deferred-payment basis-as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan’s unfunded benefits is presented as a *net OPEB asset* or long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting. The remainder of this note includes the required pension disclosures. See Note 15 for the required OPEB disclosures.

B. School Employees Retirement System

Plan Description - District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. Established in 1937, SERS provides retirement, disability, and survivor benefits to non-teaching employees of Ohio’s public K-12 school districts. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or Before August 1, 2017*	Eligible to Retire on or After August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2021, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2021, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The District's contractually required contribution to SERS was \$216,266 for fiscal year 2021. Of this amount \$129,204 is reported as an intergovernmental payable.

C. State Teachers Retirement System

Plan Description - District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined (CO) Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The CO Plan offers features of both the DB Plan and the DC Plan. In the CO Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the CO Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

New members who choose the DC plan or CO Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or CO Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2021 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2021, the full employer contribution was allocated to pension.

The District's contractually required contribution to STRS was \$806,553 for fiscal year 2021. Of this amount \$152,520 is reported as an intergovernmental payable.

D. Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportion of the Net Pension Liability			
Prior Measurement Date	0.04747260%	0.04803355%	
Proportion of the Net Pension Liability			
Current Measurement Date	0.04679820%	0.04693586%	
Change in Proportionate Share	-0.00067440%	-0.00109769%	
Proportionate Share of the Net			
Pension Liability	\$3,095,332	\$11,356,808	\$14,452,140
Pension Expense	\$370,687	\$1,496,550	\$1,867,237

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$6,013	\$25,481	\$31,494
Net difference between projected and actual earnings on pension plan investments	196,493	552,282	748,775
Change of Assumptions	0	609,642	609,642
Change in Proportionate Share	8,874	171,674	180,548
District contributions subsequent to the measurement date	216,266	806,553	1,022,819
Total Deferred Outflows of Resources	\$427,646	\$2,165,632	\$2,593,278
Deferred Inflows of Resources			
Differences between expected and actual experience	\$0	\$72,618	\$72,618
Change in Proportionate Share	24,461	224,918	249,379
Total Deferred Inflows of Resources	\$24,461	\$297,536	\$321,997

\$1,022,819 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2022	(\$6,720)	\$457,636	\$450,916
2023	50,216	145,167	195,383
2024	81,902	252,056	333,958
2025	61,521	206,684	268,205
Total	\$186,919	\$1,061,543	\$1,248,462

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2020, are presented below:

Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)
Investment Rate of Return	7.50 Percent Net of Investment Expense, Including Inflation
COLA or Ad hoc COLA	2.50 Percent
Future Salary Increases, Including Inflation	3.50 Percent to 18.20 Percent
Wage Inflation	3.00 Percent

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five-year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

The most recent experience study was completed for the five-year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	2.00 %	1.85 %
U.S. Stocks	22.50	5.75
Non-U.S. Stocks	22.50	6.50
Fixed Income	19.00	2.85
Private Equity	12.00	7.60
Real Assets	17.00	6.60
Multi-Asset Strategies	5.00	6.65
Total	<u>100.00 %</u>	

Discount Rate The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
District's Proportionate Share of the Net Pension Liability	\$4,240,226	\$3,095,332	\$2,134,743

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 Percent
Projected Salary Increases	12.50 Percent at Age 20 to 2.50 Percent at Age 65
Investment Rate of Return	7.45 Percent, Net of Investment Expenses, Including Inflation
Discount Rate of Return	7.45 Percent
Payroll Increases	3.00 Percent
Cost of Living Adjustments (COLA)	0 Percent

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Tables, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2020 valuation are based on the results of the latest available actuarial experience study which is for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation		Long-Term Expected Rate of Return*
Domestic Equity	28.00	%	7.35 %
International Equity	23.00		7.55
Fixed Income	21.00		3.00
Alternatives	17.00		7.09
Real Estate	10.00		6.00
Liquidity Reserves	1.00		2.25
Total	100.00	%	7.45 %

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

*10-Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS Ohio's investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2020.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
District's Proportionate Share of the Net Pension Liability	\$16,170,118	\$11,356,808	\$7,277,929

E. Social Security System

Effective, July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System of Ohio. As of June 30, 2021, certain members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

Note 15 – Defined Benefit Other Postemployment Benefit (OPEB) Plans

See note 14 for a description of the net OPEB liability (asset).

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2021, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2021, this amount was \$19,600. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2021, the District's surcharge obligation was \$30,408.

The surcharge added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$30,408 for fiscal year 2021, all of which was reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B premium reimbursements will be discontinued effective January 1, 2021. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2021, STRS did not allocate any employer contributions to post-employment health care.

OPEB Liabilities/(Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability/(asset) was measured as of June 30, 2020, and the total OPEB liability/(asset) used to calculate the net OPEB liability/(asset) was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability/(asset) was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

	SERS	STRS	Total
Proportion of the Net OPEB Liability (Asset)			
Prior Measurement Date	0.04722030%	0.04803355%	
Proportion of the Net OPEB Liability (Asset)			
Current Measurement Date	0.04873230%	0.04693586%	
Change in Proportionate Share	0.00151200%	-0.00109769%	
Proportionate Share of the Net OPEB Liability (Asset)	\$1,059,112	(\$824,897)	\$234,215
OPEB Expense	\$2,994	(\$46,180)	(\$43,186)

At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	SERS	STRS	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$13,911	\$52,855	\$66,766
Net difference between projected and actual earnings on OPEB plan investments	11,933	28,909	40,842
Change of Assumptions	180,542	13,617	194,159
Change in Proportionate Share	38,145	14,246	52,391
District contributions subsequent to the measurement date	30,408	0	30,408
Total Deferred Outflows of Resources	\$274,939	\$109,627	\$384,566
Deferred Inflows of Resources			
Differences between expected and actual experience	\$538,632	\$164,308	\$702,940
Change of Assumptions	26,677	783,512	810,189
Change in Proportionate Share	11,672	4,251	15,923
Total Deferred Inflows of Resources	\$576,981	\$952,071	\$1,529,052

\$30,408 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Crestview Local School District
Columbiana County, Ohio

Total	(\$332,450)	(\$842,444)	(\$1,174,894)

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2020, are presented below:

Wage Inflation	3.00 percent
Future Salary Increases, including inflation	3.50 percent to 18.20 percent
Investment Rate of Return	7.50 percent net of investment expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	2.45 percent
Prior Measurement Date	3.13 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Measurement Date	2.63 percent
Prior Measurement Date	3.22 percent
Medical Trend Assumption	
Medicare	5.25 to 4.75 percent
Pre-Medicare	7.00 to 4.75 percent

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015 and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The SERS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 12 for details.

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2020 was 2.63 percent. The discount rate used to measure total OPEB liability prior to June 30, 2019 was 3.22 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic pension benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024 and the Fidelity General Obligation 20-year Municipal Bond Index rate of 2.45 percent, as of June 30, 2020 (i.e., municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.63%) and higher (3.63%) than the current discount rate (2.63%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.0% decreasing to 3.75%) and higher (8.0% decreasing to 5.75%) than the current rate.

	1% Decrease (1.63%)	Current Discount Rate (2.63%)	1% Increase (3.63%)
District's proportionate share of the net OPEB liability (asset)	\$1,296,327	\$1,059,112	\$870,527

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

	1% Decrease (6.0 % decreasing to 3.75 %)	Current Trend Rate (7.0% decreasing to 4.75 %)	1% Increase (8.0 % decreasing to 5.75 %)
District's proportionate share of the net OPEB liability (asset)	\$833,970	\$1,059,112	\$1,360,185

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2020, actuarial valuation are presented below:

Projected salary increases	12.50 percent at age 20 to 2.50 percent at age 65
Investment Rate of Return	7.45 percent, net of investment expenses, including inflation
Payroll Increases	3 percent
Discount Rate of Return - Current Year	7.45 percent
Health Care Cost Trends:	
<i>Medical</i>	
Pre-Medicare	5.00 percent initial, 4 percent ultimate
Medicare	(6.69) percent initial, 4 percent ultimate
<i>Prescription Drug</i>	
Pre-Medicare	6.50 percent initial, 4 percent ultimate
Medicare	11.87 percent initial, 4 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2020, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

The STRS health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 14.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Discount Rate The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2020.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2020, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
District's proportionate share of the net OPEB asset	(\$717,714)	(\$824,897)	(\$915,838)
	1% Decrease	Current Trend Rate	1% Increase
District's proportionate share of the net OPEB asset	(\$910,193)	(\$824,897)	(\$720,994)

Note 16 – Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn 2 weeks of vacation per year after 1 year of service, 3 weeks of vacation per year after 8 years of service, and 4 weeks of vacation per year after 15 years of service. The 4 principals, special education supervisor, superintendent and Treasurer do not earn vacation; their contracts are for a specific number of days and the rest of the year are non-contract days. The high school principal is contracted for 240 days, the middle school principal for 235 days, the elementary principal for 220 days, and the superintendent for 240 days. The Treasurer is contracted for 240 days, the special education supervisor for 220 days, and the assistant principal 220 days. Accumulated, unused vacation time is not paid to classified employees and administrators upon termination of employment. Certified employees do not earn vacation.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-quarter days per month. Sick leave may be accumulated up to a maximum of 15 days per year for all personnel. The total lifetime maximum sick leave accumulation for personnel is 235 days for certified employees, and 235 days for classified employees. Upon retirement, payment is made for one-fourth of the accrued, but unused, sick leave balance to a maximum of 47 days for certified employees, and 48 days for classified employees.

Total Governmental					
Long-Term Obligations	\$18,866,280	\$2,214,500	(\$1,411,847)	\$19,668,933	\$492,232

Qualified School Construction Bonds: On September 29, 2010, the District issued Qualified School Construction Bonds of \$4,800,000 (par value) with interest rates ranging from 4.15 percent to 5.67 percent for the performing arts center project. The Series A bonds mature 9/15/2030 and the Series B bonds mature 9/15/2027. The bonds were issued at a discount of \$13,320 and, after paying issuance costs of \$189,719, the net proceeds were \$4,596,961. The bonds are being repaid from the Permanent Improvement capital projects fund.

Pursuant to Section 133.06 of the Ohio Revised Code, the obligations of these lease-purchase agreements will not be construed as net indebtedness of the District.

Lease Purchase Agreement: On July 9, 2020, the District issued a lease purchase agreement, in the amount of \$400,000 and it matures on August 31, 2030. The proceeds of the lease agreement will be used to renovate various District facilities. The proceeds were placed in the Permanent Improvement capital projects fund which will also make the principal and interest payments.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Bond Anticipation Notes: On October 2, 2019, the District issued a bond anticipation note in the amount of \$1,000,000 at 3.50 percent, maturing on October 1, 2020. The note was issued at a premium of \$20,450, and proceeds will be used in anticipation of general obligation bonds being issued for a new school building. The note will be repaid from the Building capital projects fund.

Bond Anticipation Notes: On September 9, 2020, the District issued a bond anticipation note in the amount of \$800,000 at 1.95 percent, maturing on September 30, 2021. The note proceeds will be used in anticipation of general obligation bonds being issued for a new school building. The note will be repaid from the bond retirement debt service fund.

Compensated absences will be paid from the general fund and the food service special revenue fund.

There is no repayment schedule for the net pension liability and net OPEB liability; however, employer pension and OPEB contributions are made from the General Fund. For additional information related to the net pension liability and net OPEB liability see Notes 14 and 15.

The School District's overall legal debt margin was \$11,467,938 with an unvoted debt margin of \$133,326 at June 30, 2021.

Principal requirements to retire general obligation debt outstanding at June 30, 2021, are as follows:

Fiscal Year Ended	Q.S.C.B.'s, Series 2010 A			Q.S.C.B.'s, Series 2010 B		
	Principal	Interest	Total	Principal	***Interest	Total
2022	\$0	\$34,025	\$34,025	\$235,000	\$224,680	\$459,680
2023	0	34,025	34,025	235,000	224,680	459,680
2024	0	34,025	34,025	235,000	224,680	459,680
2025	0	34,025	34,025	235,000	224,680	459,680
2026	0	34,025	34,025	235,000	224,680	459,680
2027 - 2031	800,000	120,685	920,685	475,000	337,020	812,020
Total	\$800,000	\$290,810	\$1,090,810	\$1,650,000	\$1,460,420	\$3,110,420

Fiscal Year Ended	Lease Purchase Agreement-2020		
	Principal	Interest	Total
2022	\$36,758	\$7,924	\$44,682
2023	37,542	7,140	44,682
2024	38,343	6,340	44,683
2025	39,161	5,521	44,682
2026	39,995	4,687	44,682
2027 - 2031	190,805	10,264	201,069
Total	\$382,604	\$41,876	\$424,480

***Interest payments made on the 2010 Series B Qualified School Construction Bonds are being offset by tax credits received from the Federal government in the approximate amount of \$2,883,543 through 2030. These tax credits will reduce the net amount of interest paid by the District over the life of the bonds to \$1,139,978.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 18 - Set-Aside Calculation

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for capital acquisitions. Disclosure of this information is required by State statute.

	Capital Improvements
Set-Aside Reserve Balance as of June 30, 2020	\$0
Current Year Set-Aside Requirement	219,875
Current year offsets	<u>(1,115,347)</u>
Total	<u><u>(\$895,472)</u></u>
Set-Aside Balance Carried Forward to Future Fiscal Years	<u>\$0</u>
Cash balance as of June 30, 2021	<u><u>\$0</u></u>

Although the School District had qualifying offsets during the fiscal year that reduced the set-aside amount to below zero for the capital acquisition set-aside, this amount may not be used to reduce the set-aside requirement for future years. This negative balance is therefore not presented as being carried forward to future years.

Note 19 – Jointly Governed Organizations

A. Area Cooperative Computerized Educational Service System

The Area Cooperative Computerized Educational Service System/ACCESS Assembly (ACCESS) is a consortium of twenty-six school districts in Mahoning and Columbiana Counties, two educational service centers, nine non-public schools, one Special Education Regional Resource Center and the Public Library of Youngstown and Mahoning County.

The jointly governed organization was formed for the purpose of utilizing computers and other electronic equipment for administrative and instructional functions among member districts. These include educational management information system services, fiscal services, library services, network services and student services.

ACCESS is governed by an Assembly, which makes all decisions regarding programs, fees, budget and policy. The Assembly is composed of the Superintendent of each of the member districts. Assembly members may designate proxy attendees at meetings for voting purposes. The Assembly meets twice per year, once in November and once in May. Budgets and fees are discussed at the fall meeting, while the Board of Directors are chosen at the spring meeting.

While the Assembly has overall governance for ACCESS, the Board of Directors is selected to make the majority of the day to day operational decisions. Everything from equipment purchases, contracts, personnel action and financial oversight is handled by the Board. The Board is made up of two superintendents each from both Mahoning and Columbiana counties, and the superintendents from both the Mahoning County and Columbiana

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

County Educational Service Centers. The ACCESS Executive Director and the Treasurer are also part of the Board of Directors, but are non-voting members.

All ACCESS revenues are generated from charges for services and State funding. Each of the members supports the ACCESS Assembly based upon a per pupil charge. The School District paid a monthly fee to ACCESS during fiscal year 2021. Financial information can be obtained by contacting the Treasurer, Brian Stidham, at 493 Bev Road, Unit 1, Boardman, Ohio, 44512.

B. Columbiana County Career Center

The Columbiana County Career Center is a jointly governed organization, which provides for the vocational and special education needs for the students of participating school districts. The Board of Education members are appointed by the local boards of education from among one of its elected members. The Career Center Board of Education exercises total control over its operations, including budgeting, appropriating, contracting, and the designation of management. All revenues are generated from tax levies, State funding, and fees. Financial information is available from the Columbiana County Career Center, Treasurer's Office, 9364 State Route 45, Lisbon, Ohio 44432.

Note 20 – Group Purchasing Pools

A. Jefferson Health Plan

The District is a participant with several other school districts in an insurance purchasing pool to operate the Jefferson Health Plan (the Plan), formerly known as the Ohio Mid-Eastern Regional Educational Service Agency (OME-RESA). The Plan was formed for the purpose of providing insurance. The Plan is governed by a board of directors consisting of the superintendents of the member school districts. The degree of control exercised by any participating school district is limited to its representation on the board.

B. Ohio Association of Schools Business Officials Workers' Compensation Group Rating Program

The District participates in a group-rating program for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio Association of School business Officials Workers' Compensation Group Rating Program (the Program) was established through the Ohio Association of School Business Officials (OASBO) as a group purchasing pool.

The Executive Director of the OASBO, or his designee, serves as coordinator of the Program. Each year, the participating school districts pay an enrollment fee to the Program to cover the costs of administering the Program.

Note 21 - Contingencies

A. Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2021, if applicable, cannot be determined at this time.

Crestview Local School District
Columbiana County, Ohio

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

B. Litigation

The District is not currently party to any legal proceedings.

C. School District Foundation

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2021 have been finalized, which did not result in a material receivable to, or liability of, the District.

Note 22 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID- 19 pandemic. Ohio's state of emergency ended in June of 2021 while the national state of emergency continues. During fiscal year 2021, the School District received Coronavirus Aid, Relief, and Economic Security (CARES) Act funding. The School District's investment portfolio and the investments of the pension and other employee benefit plans in which the School District participates fluctuate with market conditions, and due to market volatility, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. In addition, the impact on the School District's future operating costs, revenues, and any recovery from emergency funding, either federal or state, cannot be estimated. Additional funding has been made available through the Consolidated Appropriations Act, 2021, passed December 21, 2020 and/or the American Rescue Plan Act, passed by Congress on March 11, 2021.

Note 23 – Subsequent Events

For fiscal year 2022, School District foundation funding received from the state of Ohio will be funded using a direct funding model. Under this new model, community school, STEM school, scholarship, and open enrollment funding will be directly funded by the State of Ohio to the respective educating schools. For fiscal year 2021 and prior, the amounts related to students who were residents of the School District were funded to the School District who, in turn, made the payment to the educating school. For fiscal year 2021, the School District reported revenue and expenditures related to these programs. This new funding system calculates a unique base cost and a unique "per-pupil local capacity amount" for each School District. The School District's state core foundation funding is then calculated. Any change in funding will be subject to a phase in percentage of 16.67 percent for fiscal year 2022 and 33.33 percent for fiscal year 2023.

On September 30, 2021, the District issued a bond anticipation note in the amount of \$600,000 at 1.95 percent, maturing on September 29, 2022. The note proceeds will be used in anticipation of general obligation bonds being issued for a new school building. The note will be repaid from the bond retirement debt service fund.

Net Pension Liability

Changes in Assumptions – SERS

Beginning in fiscal year 2018, an assumption of 2.5 percent was used for COLA or Ad Hoc Cola. Prior to 2018, an assumption of 3 percent was used.

Beginning with fiscal year 2017, amounts reported incorporate changes in assumptions used by SERS in calculating the total pension liability in the latest actuarial valuation. These assumptions compared with those used in fiscal year 2016 and prior are presented below:

	<u>Fiscal Year 2017</u>	<u>Fiscal Year 2016 & Prior</u>
Wage Inflation	3.00 Percent	3.25 Percent
Future Salary Increases, Including Inflation	3.50 Percent to 18.20 Percent	4.00 Percent to 22.00 Percent
Investment Rate of Return	7.50 Percent Net of Investment Expense, Including Inflation	7.75 Percent Net of Investment Expense, Including Inflation

Beginning with fiscal year 2017, mortality assumptions use mortality rates that are based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Amounts reported for fiscal year 2016 and prior, use mortality assumptions that are based on the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables were used for the period after disability retirement.

Changes of Benefit and Funding Terms – SERS

In fiscal year 2019, post-retirement increases in benefits included the following changes:

*Members, or their survivors, retiring prior to January 1, 2018, receive a COLA increase of 3 percent of their base benefit on the anniversary of their initial date of retirement.

*Members, or their survivors, retiring on and after January 1, 2018, receive a COLA increase on each anniversary of their initial date of retirement equal to the annual rate of increase in the CPI-W measured as of the June preceding the beginning of the applicable calendar year. The annual rate of increase shall not be less than 0 percent, nor greater than 2.5 percent. COLAs are suspended for calendar years 2018, 2019, and 2020.

*Members, or their survivors, retiring on and after April 1, 2018, will have their COLA delayed for three years following their initial date of retirement.

Crestview Local School District

Columbiana County, Ohio

*Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2021*

Changes in Assumptions - STRS

Beginning with fiscal year 2018, amounts reported incorporate changes in assumptions and changes in benefit terms used by STRS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2017 and prior are presented below:

	<u>Fiscal Year 2018</u>
Inflation	2.50 Percent
Projected Salary Increases	12.50 Percent at Age 20 to 2.50 Percent at Age 65
Investment Rate of Return	7.45 Percent, Net of Expenses, Including Inflation
Payroll Increases	3.00 Percent
Cost of Living Adjustments (COLA)	0 Percent, Effective July 1, 2017

	<u>Fiscal Year 2017 & Prior</u>
Inflation	2.75 Percent
Projected Salary Increases	12.25 Percent at Age 20 to 2.75 Percent at Age 70
Investment Rate of Return	7.75 Percent, Net of Expenses, Including Inflation
Payroll Increases	3.50 Percent
Cost of Living Adjustments (COLA)	2 Percent Simple applied as follows: For Members Retiring Before August 1, 2013 3 percent per year. For Members retiring August 1, 2013 or later, 2 percent COLA commences on 5th anniversary date

Beginning with fiscal year 2018, post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016.

For fiscal year 2017 and prior actuarial valuation, mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89, and no set back from age 90 and above.

Changes in Benefit Terms - STRS

There were no changes in benefit terms from the amounts reported for fiscal years 2014 - 2017. For fiscal year 2018, STRS decreased the Cost of Living Adjustment (COLA) to zero. There were no changes in benefit terms from amounts previously reported for fiscal years 2019 - 2021.

Crestview Local School District
Columbiana County, Ohio

Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2021

Net OPEB Liability

Changes in Assumptions – SERS

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Municipal Bond Index Rate:	
Fiscal year 2021	2.45 percent
Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent
Single Equivalent Interest Rate, net of plan investment expense, including price inflation	
Fiscal year 2021	2.63 percent
Fiscal year 2020	3.22 percent
Fiscal year 2019	3.70 percent
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent

Changes of Benefit and Funding Terms – SERS

In fiscal year 2019, SERS' funding policy allowed a 2.0 percent health care contribution rate to be allocated to the Health Care fund. The 2.0 percent is a combination of 0.5 percent employer contributions and 1.5 percent surcharge.

In fiscal year 2020, SERS' funding policy allowed a 1.5 percent health care contribution rate to be allocated to the Health Care fund. The 1.5 percent is a combination of 0.0 percent employer contributions and 1.5 percent surcharge.

Crestview Local School District
Columbiana County, Ohio

Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2021

Changes in Assumptions – STRS OPEB

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB)* and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

Changes in Benefit Terms – STRS OPEB

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944 percent to 1.984 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For fiscal year 2021, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2021 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

**CRESTVIEW LOCAL SCHOOL DISTRICT
COLUMBIANA COUNTY**

**NOTES TO THE SCHEDULE OF RECEIPTS AND EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE YEAR ENDED JUNE 30, 2021**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Crestview Local School District (the District's) under programs of the federal government for the year ended June 30, 2021. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement

NOTE C – INDIRECT COST RATE

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE E – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE F - TRANSFERS BETWEEN PROGRAM YEARS

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The District transferred the following amounts from 2020 to 2021 programs:

<u>Program Title</u>	<u>CFDA Number</u>	<u>Amt. Transferred</u>
Title I Grants to Local Educational Agencies	84.010	\$ 12,130

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Crestview Local School District
Columbiana County
44100 Crestview Road Suite A
Columbiana, Ohio 44408

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Crestview Local School District, Columbiana County, (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 28, 2022. We noted the District adopted GASB Statement No. 84, *Fiduciary Activities* and the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the District.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Crestview Local School District
Columbiana County
44100 Crestview Road Suite A
Columbiana, Ohio 44408

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited Crestview Local School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect Crestview Local School District's major federal program for the year ended June 30, 2021. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, Crestview Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2021.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Keith Faber
Auditor of State
Columbus, Ohio

March 28, 2022

**CRESTVIEW LOCAL SCHOOL DISTRICT
COLUMBIANA COUNTY**

**SCHEDULE OF FINDINGS
2 CFR § 200.515
JUNE 30, 2021**

1. SUMMARY OF AUDITOR'S RESULTS
