INDEPENDENT AUDITOR'S REPORT

Madison Local School District
Butler County
1324 Middletown-Eaton Road
Middletown, Ohio 45042

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Madison Local School District, Butler County, Ohio (the School District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District, as of June 30, 2021, and the respective changes in financial position thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 19 to the financial statements, the financial impact of COVID-19 and the continuing emergency measures may impact subsequent periods of the School District. We did not modify our opinion regarding this matter. Also, as discussed in Note 18 to the financial statements, during 2021, the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 84, *Fiduciary Activities*. We did not modify our opinion regarding these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *management's discussion and analysis, required budgetary comparison schedule* and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the School District's basic financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this information to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 13, 2022, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Madison Local School District, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
(Unaudited)

The discussion and analysis of Madison Local School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's performance.

Financial Highlights

Key financial highlights for 2021 are as follows:

- Net position of governmental activities increased \$11,131 which represents a less than 1% increase from 2020.
- General revenues accounted for \$16,672,673 in revenue or 78% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$4,591,631 or 22% of total revenues of \$21,264,304.
- The District had \$21,253,173 in expenses related to governmental activities; \$4,591,631 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$16,672,673 were also used to provide for these programs.

Overview of the Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Government-wide Financial Statements* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. *Fund financial statements* provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The General Fund and Debt Service Fund are the major funds of the District.

Government-wide Financial Statements

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2021?" The Government-wide Financial Statements answer this question. These statements include *all assets and deferred outflows* and *liabilities and deferred inflows* using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

Madison Local School District, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
(Unaudited)

These two statements report the District's net position and changes in the net position. This change in net position is important because it tells the reader that, for the District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Government-wide Financial Statements, the overall financial position of the District is presented as Governmental Activities – All of the District's programs and services are reported as Governmental Activities including instruction, support services, operation of noninstructional services, extracurricular activities, and interest and fiscal charges.

Fund Financial Statements

The analysis of the District's major funds is presented in the Fund Financial Statements. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

Governmental Funds Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Position and the Statement of Activities) and governmental *funds* is reconciled in the financial statements.

Fiduciary Funds Fiduciary Funds are used to account for resources held for the benefits of parties outside the government. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

The District as a Whole

As stated previously, the Statement of Net Position looks at the District as a whole. Table 1 provides a summary of the District's net position for 2021 compared to 2020:

Madison Local School District, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
(Unaudited)

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2021, the District's assets and deferred outflows exceeded liabilities and deferred inflows by \$5,943,853.

At year-end, capital assets represented 54% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture and equipment, and vehicles. Net investment in capital assets at June 30, 2021, was \$13,087,773. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net position, \$4,501,735 represents resources that are subject to external restriction on how they must be used. The external restriction will not affect the availability of fund resources for future use.

Total assets decreased slightly from the prior year mainly due to a decrease in capital assets. Long-term liabilities decreased slightly from the prior year mainly due to the District making regular payments on their long-term debt.

Table 2 shows the changes in net position for fiscal years 2021 and 2020.

Table 2
Changes in Net Position

Madison Local School District, Ohio
Management’s Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
(Unaudited)

The District revenues are mainly from two sources. Property taxes levied for general, debt service and capital projects purposes and grants and entitlements comprised 70% of the District’s revenues for governmental activities.

The District depends greatly on property taxes as a revenue source. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenues generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Thus Ohio districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Property taxes made up 27% of revenue for governmental activities for the District in fiscal year 2021.

Governmental Activities
Revenue Sources

	2021	Percentage
General Grants	\$8,993,542	42.3%
Program Revenues	4,591,631	21.6%
General Tax Revenues	5,813,199	27.3%
Income Taxes	1,286,109	6.0%
Investment Earnings	33,422	0.2%
Other Revenues	546,401	2.6%
Total Revenue Sources	\$21,264,304	100.0%

Instruction comprises 57% of governmental program expenses. Support services expenses were 35% of governmental program expenses. All other expenses including interest and fiscal charges were 8%. Interest expense was attributable to the outstanding bond and borrowing for capital projects.

The District’s overall financial position improved from 2020 to 2021. Grants and entitlements increased due to an increase in grant monies received in fiscal year 2021.

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. These services are mainly supported by tax revenue and unrestricted State entitlements.

Madison Local School District, Ohio
Management’s Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
(Unaudited)

Table 3
Governmental Activities

	Total Cost of Services		Net Cost of Services	
	2021	2020 - Restated	2021	2020 - Restated
Instruction	\$12,211,447	\$11,258,029	(\$8,693,464)	(\$8,458,834)
Support Services:

Central	615,237	470,275	(554,762)	(470,275)
Operation of Non-Instructional Services	809,483	807,457	(116,292)	(180,035)
Extracurricular Activities	524,923	540,793	(445,116)	(442,388)
Interest and Fiscal Charges	249,497	408,634	(249,497)	(408,634)
Total Expenses	<u>\$21,253,173</u>	<u>\$20,613,796</u>	<u>(\$16,661,542)</u>	<u>(\$16,872,514)</u>

The District’s Funds

The District has two major governmental funds: the General Fund and the Debt Service Fund. Assets of the General Fund comprised \$11,643,849 (66%) and the Debt Service Fund comprised \$1,879,414 (11%) of the total \$17,715,669 governmental funds’ assets.

General Fund: Fund balance at June 30, 2021 was \$5,476,371 including \$3,731,137 of unassigned balance. The District had a decrease in fund balance of \$435,865. The decrease in fund balance was due to transfers out during the year.

Debt Service Fund: Fund balance at June 30, 2021 was \$972,076 with a decrease in fund balance of \$842. Fund balance remained relatively stable from 2020 to 2021.

General Fund Budgeting Highlights

The District’s Budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. During the course of the year, the District revised the Budget in an attempt to deal with unexpected changes in revenues and expenditures.

For the General Fund, final budget basis revenue was \$15,938,773, compared to original budget estimates of \$15,938,773.

The District’s unobligated cash balance for the General Fund was \$6,054,755.

Madison Local School District, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
(Unaudited)

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2021, the District had \$22,009,365 invested in land, land improvements, buildings and improvements, furniture and equipment, and vehicles. Table 4 shows fiscal year 2021 balances compared to fiscal year 2020:

Table 4
Capital Assets at Year End
(Net of Depreciation)

	Governmental Activities	
	2021	2020
Land	\$290,152	\$290,152
Land Improvements	2,079,285	2,079,285
Buildings and Improvements	35,894,886	35,826,116
Furniture and Equipment	4,735,899	4,312,388
Vehicles	29,565	29,565
Less: Accumulated Depreciation	<u>(21,020,422)</u>	<u>(19,966,023)</u>
Total Net Capital Assets	<u><u>\$22,009,365</u></u>	<u><u>\$22,571,483</u></u>

Total Net Capital Assets decreased in 2021 as compared to 2020 because depreciation expense was greater than current year additions.

See Note 5 to the Basic Financial Statements for further details on the District's capital assets.

Debt

At June 30, 2021, the District had \$8,781,604 in debt outstanding, \$1,023,000 due within one year. Table 5 summarizes total debt outstanding.

Table 5
Outstanding Debt at Year End

	2021	2020
General Obligation Bonds Payable:		
2016 Refunding Bonds	\$6,170,000	\$7,030,000
Premium on 2016 Refunding Bonds	536,604	546,976
Capital Leases Payable:	2,057,000	
Capital Leases OASBO HS	18,000	2,148,000
Capital Leases Copier		54,000
Total Outstanding Debt at Year End	<u><u>\$8,781,604</u></u>	<u><u>\$9,778,976</u></u>

See Notes 6 and 7 to the Basic Financial Statements for further details on the District's obligations.

Madison Local School District, Ohio
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2021
(Unaudited)

Economic Outlook

The 2020 economic outlook was fairly positive and proved to be going in the right direction. But the COVID-19 pandemic changed all that.

In 2018, the unemployment rate dropped to the lowest levels since the 1960's and growth remained strong. In 2019, the positive and healthy momentum continued.

The U.S. unemployment measures the number of people actively looking for a job as a percentage of the labor force. The Unemployment Rate in the United States averaged 5.77 percent from 1948 until 2018, reaching an all-time high of 10.80 percent in November of 1982 and a record low of 2.50 percent in May of 1953. As of June 2019, the US Unemployment rate was down to 3.7%. By February 2020, the national unemployment rate was down to 3.5% and the economy was roaring. The state of Ohio unemployment rate in June 2017 was 4.9%, in June 2018, the state of Ohio unemployment rate was at 4.6%. In June 2019 the Ohio unemployment rate was down to 4.0%. By February 2020 the Ohio unemployment rate was 4.10%. By March 2020, the economy started to take a severe hit due to the COVID-19 pandemic/virus that forced businesses and schools to close and citizens to shelter at home. As a result, by the end of April 2020, the U.S. unemployment rate was 14.7% and the Ohio unemployment rate grew to 17.6%. By June 30, 2020 the business closure restrictions started to lift, the U.S. unemployment rate recovered slightly and stood at 11.1% and the Ohio unemployment rate fell to 10.9%, a notable improvement.

The current Public school district funding is based on a formula that takes into account the student enrollment and the property wealth of the district, local sources such as property taxes, income taxes (in some districts) and federal funds. The amount of state aid funds that the District receives is based on a formula that takes into consideration the student enrollment and property wealth of the district. Payments to the districts are calculated from data reported by the district and are made twice each month according to a schedule published each spring by the Ohio Department of Education. Since the data are updated throughout the year, the annual amount due to the district is calculated for each payment and the district receives approximately 1/24th of the annual amount. Using the district's EMIS data and the USAS coding structure, ODE reports the district revenue per pupil by revenue source. Because not all revenue is expended in the year in which it was received, the district's Total Revenue Sources Per Pupil and Total Annual Spending Per Pupil will not be identical in any given year. These payments were based on provisions of Am. Sub. H. B. 166 of the 133rd General Assembly (the Main Operating, Transportation, Workers' Compensation, and Industrial Commission budget bills) for fiscal years 2020 and 2021. The state aid received by the District comprises approximately 54% of the District's budget. Fiscal Year 2020 state aid revenue for the district decreased from fiscal year 2019 by \$193,185. This was a result of the state having to reduce funding in response to the COVID-19 impact on the state budget.

The District is also heavily dependent on property taxes. Property tax revenue does not increase solely as a result of inflation. New construction and new levies also contribute to growth of this revenue. With the collapse of real estate values in 2009, the District lost its primary source of revenue growth (i.e. inflation of the tax base). In addition, the 2011 reappraisal values resulted in a continued decrease in property values. There was also the reappraisal completed in 2014. The 2014 reappraisal saw an overall net decrease in valuation for the District. The next tax value update was the 2017 Triennial Update. With that update, we saw an overall increase of 5% in total valuation. Residential values increased, but Commercial values and Agriculture values (CAUV) decreased. Public Utilities, though a small percent of total valuation, increased 10%. The most recent assessed valuation certified by Butler County Auditor is

For the Fiscal Year Ended June 30, 2021
(Unaudited)

for 2020 collections which is based off of Tax Year 2019. The total Tax Year 2019 tax base for the district was \$165.5 million, up from \$165.1 million in Tax Year 2018. This is a .24% increase, resulting from of a slight increase in Agriculture, Residential, and Public Utility. There was a decrease in Commercial and Industrial values.

The District also receives a .5% income tax from residents. As of February 2020, the Ohio unemployment rate was 4.10%. As a result of the COVID-19 pandemic/virus, by April 30, 2020 the unemployment rate jumped up to 17.60% and then as people started to get back to work it fell to 10.90% as of June 30, 2020. The District experienced a 1.24% decrease in the income tax revenue in fiscal year 2020 compared to fiscal year 2019. Because the overall economy was impacted by COVID-19 and businesses we forced to close in order to help stop the spread of the virus, the income tax revenue is expected to decline. Economic recovery will be dependent on the severity of the virus and the ability of businesses to re-open.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Treasurer at Madison Local School District, 1324 Middletown Eaton Road, Middletown, Ohio 45042.

See accompanying notes to the basic financial statements.

Madison Local School District, Ohio
 Reconciliation of the Statement of Revenues, Expenditures, and Changes
 in Fund Balance of Governmental Funds to the Statement of Activities
 For the Fiscal Year Ended June 30, 2021

Net Change in Fund Balance - Total Governmental Funds \$686,424

Amounts reported for governmental activities in the
 statement of activities are different because:

Governmental funds report capital asset additions as expenditures.
 However, in the statement of activities, the cost of those assets is
 allocated over their estimated useful lives as depreciation
 expense. This is the amount of the difference between capital
 asset additions and depreciation in the current period.

Capital assets used in governmental activities	492,281	
Depreciation Expense	(1,054,399)	
		(562,118)

Governmental funds report district pension and OPEB contributions as
 expenditures. However in the Statement of Activities, the cost
 of pension and OPEB benefits earned net of employee contributions is
 reported as pension and OPEB expense.

District pension contributions	1,350,466	
Cost of benefits earned net of employee contributions - Pension	(2,504,091)	
District OPEB contributions	48,190	
Cost of benefits earned net of employee contributions - OPEB	21,576	
		(1,083,859)

Revenues in the statement of activities that do not provide
 current financial resources are not reported as revenues in
 the funds.

Delinquent Property Taxes	(32,378)	
Intergovernmental	(10,958)	
Other	81,946	
		38,610

Repayment of bond and lease principal and accretion is an expenditure
 in the governmental funds, but the repayment reduces long-term
 liabilities in the statement of net position. 987,000

In the statement of activities interest expense is accrued when incurred;
 whereas, in governmental funds an interest expenditure is reported
 when due. 1,406

Some expenses reported in the statement of activities do not require the
 use of current financial resources and, therefore, are not reported as
 expenditures in governmental funds.

Compensated Absences	(90,035)	
Amortization of Bond Premium	10,372	
Amortization of Deferred Gain on Refunding	23,331	
		(56,332)

Change in Net Position of Governmental Activities \$11,131

See accompanying notes to the basic financial statements.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 1 - Summary of Significant Accounting Policies

Description of the District

Madison Local School District, Ohio (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is governed by a locally elected five-member Board of Education (the Board) which provides educational services. The Board controls the District's instructional support facilities staffed by 64 noncertified and 106 certified teaching personnel providing education to 1,435 students.

Reporting Entity

In accordance with Governmental Accounting Standards Board [GASB] Statement 14, the financial reporting entity consists of a primary government. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments.

There are no component units combined with the District for financial statement presentation purposes, and it is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing body is financially accountable.

The accounting policies and financial reporting practices of the District conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of its significant accounting policies.

Measurement Focus

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. The District only reports governmental type activities.

The government-wide statements are prepared using the economic resources measurement focus, which differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues,

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

which are not classified as program revenues, are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

Fiduciary funds are reported using the economic resources measurement focus.

Fund Accounting

The accounting system is organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. The various funds are summarized by type in the basic financial statements.

The following fund types are used by the District:

Governmental Funds - These are funds through which most governmental functions typically are financed. The acquisition, use and balances of the District's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of "financial flow" (sources, uses and balances of financial resources). The following are the District's major governmental funds:

General Fund - This fund is the general operating fund of the District and is used to account for all financial resources except those accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund - This fund is used for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Fiduciary Funds – Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The District doesn't have any Fiduciary Funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the actual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, included property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: property taxes available for advance, grants and other taxes.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources includes pension and other post employment benefits. The deferred outflows of resources related to OPEB and pension are reported on the government-wide statements of net position. For more pension and OPEB related information, see Notes 8 and 9.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, OPEB, grants and other taxes, deferred gain on refunding, pension, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2021, but which were levied to finance year 2022 operations. These amounts have been recorded as deferred inflows on both the government-wide statement of net position and the governmental fund financial statements. Deferred gain on refunding has been recorded as deferred inflows on the government-wide statement of net position. Grants and other taxes, and unavailable revenue have been recorded as deferred inflows on the governmental fund financial statements. Deferred inflows of resources related to pension and OPEB are reported on the government-wide statement of net position. For more pension and OPEB related information, see Notes 8 and 9.

Unearned Revenue

Unearned revenue represents amounts under the accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Cash and Cash Equivalents

Cash and cash equivalents includes all demand deposits and investments.

The District pools its cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each fund maintained its own cash and investment account. See Note 2, "Cash, Cash Equivalents and Investments."

Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the District records all its investments at fair value except for nonparticipating investment contracts (repurchase agreement and certificates of deposit) which are reported at cost, which approximates fair value. See Note 2, "Cash, Cash Equivalents and Investments."

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

There were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice is appreciated for deposits and withdrawals of \$25 million or more. STAR Ohio reserves the right to limit the transaction to \$100 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Under existing Ohio statutes, the Board of Education has, by resolution, specified the funds to receive allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2021 totaled \$22,783 and \$10,639 was credited to other funds of the District.

Inventory

Inventory is stated at cost (first-in, first-out) in the governmental funds. The costs of inventory items are recorded as expenditures in the governmental funds when purchased.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond the current fiscal period are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed. There was \$339,348 in prepaid items at June 30, 2021.

Capital Assets and Depreciation

The accounting and reporting treatment applied to capital assets is determined by their ultimate use:

Property, Plant and Equipment - Governmental Activities

Governmental activities capital assets are those not directly related to the business-type funds. These generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost (or estimated historical cost for assets not purchased in recent years). These assets are reported in the Governmental Activities column of the Government-wide Statement of Net position, but they are not reported in the Fund Financial Statements. The District follows the policy of not capitalizing assets with a cost of less than \$5,000.

Contributed capital assets are recorded at fair market value at the date received. The District does not possess any infrastructure. Capital asset values were initially determined by identifying historical costs where such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Depreciation

All capital assets are depreciated, excluding land. Depreciation has been provided using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land Improvements	5 - 50 years
Buildings and Improvements	5 - 50 years
Machinery/Equipment and Furniture/Fixtures	5 - 20 years
Vehicles	5 - 10 years

Long-Term Obligations

Long-term liabilities are being repaid from the following funds:

<u>Obligation</u>	<u>Fund</u>
General Obligation Bonds	Debt Service Fund
Capital Leases	Permanent Improvement Fund
Compensated Absences	General Fund and Food Services Fund

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Compensated Absences

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences," vacation benefits are accrued as a liability when an employee's right to receive compensation is attributable to services already rendered, and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments at termination or retirement.

<u>VACATION</u>	<u>Certified</u>	<u>Administrators</u>	<u>Non-Certificated</u>
How Earned	Not Eligible	0 - 25 days per year	10-20 days for each service year depending on length of service – bonus of maximum 5 days eligible
Maximum Accumulation	Not Applicable	0 – 60 days	Not Applicable
Vested	Not Applicable	As Earned	As Earned
Termination Entitlement	Not Applicable	Used prior to termination	Used prior to termination

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

SICK LEAVE

How Earned	1 1/4 days per month of employment (15 days per year)	1 1/4 days per month of employment (15 days per year)	1 1/4 days per month of employment (15 days per year)
Maximum Accumulation	328 days	328 days	328 days
Vested	As Earned	As Earned	As Earned
Termination Entitlement	1/4 paid upon retirement	1/4 paid upon retirement	1/4 paid upon retirement

Compensated absences accumulated by governmental fund type employees are reported as an expense when earned in the government-wide financial statements. For governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not recorded.

Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Interfund Transactions

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and eliminated in the Statement of Activities. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented on the financial statements.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Restricted - The fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education. Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the District Board of Education.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 2 - Cash, Cash Equivalents and Investments

Cash resources of several individual funds are combined to form a pool of cash, cash equivalents and investments. In addition, investments are separately held by a number of individual funds.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Statutes require the classification of funds held by the District into three categories. Category 1 consists of “active” funds - those funds required to be kept in a “cash” or “near cash” status for immediate use by the District. Such funds must be maintained either as cash in the District Treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of “inactive” funds - those funds not required for use within the current five year period of designation of depositories. Inactive funds may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

Category 3 consists of “interim” funds - those funds which are not needed for immediate use but, which will be needed before the end of the current period of designation of depositories.

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States.
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities.
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met.
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts.
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
7. The State Treasurer’s investment pool (STAR Ohio).
8. Certain bankers’ acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met.

Protection of the District’s deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the District places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Based upon criteria described in GASB Statement No. 3, *“Deposits With Financial Institutions, Investments (including Repurchase Agreements) and Reverse Repurchase Agreements,”* collateral held in single financial institution collateral pools with securities being held by the pledging financial institutions’ agent in the pool’s name are classified as Category 3.

Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. As of June 30, 2021, \$4,989,660 of the District's bank balance of \$5,239,660 was exposed to custodial credit risk because it was uninsured and collateralized.

The District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105% of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102% of the deposits being secured or a rate set by the Treasurer of State.

Investments

As of June 30, 2021, the District had the following investments:

	<u>Value</u>	<u>Fair Value Hierarchy</u>	<u>Weighted Average Maturity (Years)</u>
Federal Home Loan Mortgage	\$150,188	Level 2	0.12
Federal Home Loan Bank	214,810	Level 2	4.82
Federal National Mortgage Association	133,441	Level 2	4.39
Commercial Paper	149,987	Level 2	0.09
Negotiable CDs	4,104,508	Level 2	2.20
U.S. Treasury Notes	154,213	Level 1	4.84
STAR Ohio	567,369	N/A	0.15
Money Market Funds	25,002	N/A	0.00
Total Investment	<u>\$5,499,518</u>		
Portfolio Weighted Average Maturity			2.10

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the District's recurring fair value measurements as of June 30, 2021. STAR Ohio is reported at its share price (Net Asset value per share).

Interest Rate Risk - In accordance with the investment policy, the District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to three years.

Credit Risk – It is the District's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have the highest credit quality rating issued by nationally recognized statistical rating organizations. The District's investments in Federal National Mortgage Association, Federal Home Loan Mortgage, Federal Home Loan Bank, Treasury Notes were rated AAA by Standard & Poor's and Fitch ratings and Aaa by Moody's Investors Service. Commercial paper was rated A-1+ by Standard & Poor's ratings and P-1 by Moody's Investor's Service. Investments in Star Ohio were rated AAAM by Standard and Poor's. Investments in Money Market Funds and Certificates of Deposit were not rated.

Concentration of Credit Risk – The District's investment policy allows investments in U.S. Agencies or Instrumentalities. The District has invested 2% in Federal National Mortgage Association, 3% in Federal Home Loan Mortgage, 4% Federal Home Loan Bank, 75% in Certificates of Deposit, 3% in Treasury Notes, 10% in Star Ohio, 3% in Commercial Paper, and less than 1% in Money Market Funds.

Custodial Credit Risk – The risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the District's securities are either insured and registered in the name of the District or at least registered in the name of the District.

Note 3 – Taxes

Property Tax

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the District. Real property tax revenue received in calendar 2021 represents collections of calendar year 2020 taxes. Real property taxes received in calendar year 2021 were levied after April 1, 2020, on the assessed value listed as of January 1, 2020, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2021 represents collections of calendar year 2020 taxes. Public utility real and tangible personal property taxes received in calendar year 2021 became a lien December 31, 2012, were levied after April 1, 2015 and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The District receives property taxes from Butler County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2021, are available to finance fiscal year 2021 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

The assessed values upon which the fiscal year 2021 receipts were based are:

	<u>Amount</u>
Agricultural/Residential and Other Real Estate	\$184,747,460
Public Utility Personal	<u>6,756,520</u>
Total	<u><u>\$191,503,980</u></u>

Income Tax

The District also receives a voted tax of 0.5 percent for general operations on the income of residents and of estates. Taxpayers are required to file an annual return. The State makes quarterly distributions to the District after withholding amounts for administrative fees and estimated refunds. Income tax revenue is credited to the General Fund.

Note 4 – Receivables

Receivables at June 30, 2021 consisted of taxes, accounts, intergovernmental and interfund receivables.

Note 5 - Capital Assets

Summary by category of changes in governmental activities capital assets at June 30, 2021:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>
Governmental Activities				
<i>Capital Assets, not being depreciated:</i>				
Land	\$290,152	\$0	\$0	\$290,152
<i>Capital Assets, being depreciated:</i>				
Land Improvements	2,079,285	0	0	2,079,285
Buildings and Improvements	35,826,116	68,770	0	35,894,886
Furniture and Equipment	4,312,388	423,511	0	4,735,899
Vehicles	<u>29,565</u>	<u>0</u>	<u>0</u>	<u>29,565</u>
Totals at Historical Cost	<u>42,537,506</u>	<u>492,281</u>	<u>0</u>	<u>43,029,787</u>
Less Accumulated Depreciation:				
Land Improvements	1,874,958	75,063	0	1,950,021
Buildings and Improvements	14,446,476	864,502	0	15,310,978

Vehicles	<u>10,676</u>	<u>2,956</u>	<u>0</u>	<u>13,632</u>
Total Accumulated Depreciation	<u>19,966,023</u>	<u>1,054,399</u>	<u>0</u>	<u>21,020,422</u>
Governmental Activities Capital Assets, Net	<u><u>\$22,571,483</u></u>	<u><u>(\$562,118)</u></u>	<u><u>\$0</u></u>	<u><u>\$22,009,365</u></u>

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Depreciation expenses were charged to governmental functions as follows:

Instruction:	
Regular	\$675,221
Special	6,082
Vocational	2,528
Support Services:	
Pupils	6,375
Instructional Staff	15,410
School Administration	92,619
Fiscal	2,268
Operations & Maintenance	199,196
Central	3,164
Operation of Non-Instructional Services	27,155
Extracurricular Activities	24,381
Total Depreciation Expense	<u>\$1,054,399</u>

Note 6 - Long-Term Debt and Other Obligations

Detail of the changes in long-term debt and other long-term obligations of the District for the year ended June 30, 2021 are as follows:

	<u>Interest Rate</u>	<u>Beginning Balance</u>	<u>Issued</u>	<u>Retired</u>	<u>Ending Balance</u>	<u>Due in One Year</u>
Governmental Activities:						
<u>Bonds</u>						
2016 Refunding Bonds	1.50-3.00%	\$7,030,000	\$0	\$860,000	\$6,170,000	\$910,000
Premium on 2016 Refunding Bonds		546,976	0	10,372	536,604	0
Subtotal Bonds		<u>7,576,976</u>	<u>0</u>	<u>870,372</u>	<u>6,706,604</u>	<u>910,000</u>
<u>Capital Leases</u>						
Capital Leases OASBO		2,148,000	0	91,000	2,057,000	95,000
Capital Leases Copier		54,000	0	36,000	18,000	18,000
Compensated Absences		204,897	111,604	21,569	294,932	25,647
Subtotal Bonds and Other Amounts		<u>9,983,873</u>	<u>111,604</u>	<u>1,018,941</u>	<u>9,076,536</u>	<u>1,048,647</u>
<u>Net Pension Liability</u>

SERS		4,231,397	515,516	0	4,746,913	0
Subtotal Net Pension Liability		<u>16,424,631</u>	<u>2,140,885</u>	<u>0</u>	<u>18,565,516</u>	<u>0</u>
<u>Net OPEB Liability</u>						
STRS		0	0	0	0	0
SERS		1,819,340	0	202,426	1,616,914	0
Subtotal Net OPEB Liability		<u>1,819,340</u>	<u>0</u>	<u>202,426</u>	<u>1,616,914</u>	<u>0</u>
Total Long-Term Obligations		<u>\$28,227,844</u>	<u>\$2,252,489</u>	<u>\$1,221,367</u>	<u>\$29,258,966</u>	<u>\$1,048,647</u>

On September 28, 2016 the District issued \$8,805,000 in Current Interest Bonds with an interest rate between 1.50% and 3.00% which was used to advance refund \$7,408,587 of the outstanding 2006 General Obligation Bonds with an interest rate between 4.00% and 4.05% and \$1,690,000 of the outstanding 2007 General Obligation Bonds with an interest rate between 4.00% and 4.125%. The net proceeds of \$9,406,409 (after payment of underwriting fees, insurance and other issuance costs) were

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

used to purchase U.S. government securities. Those securities were deposited into an irrevocable trust with an escrow agent to provide all future debt service payments on the three bond issues. As a result, \$7,408,587 of the 2006 General Obligation Bonds and \$1,690,000 of the 2007 General Obligation Bonds are considered to be defeased and the related liability for those bonds have been removed from the Statement of Net Position.

Principal and Interest Requirements

A summary of the District’s future long-term debt funding requirements, including principal and interest payments as of June 30, 2021 follows:

Fiscal Year Ending June 30	General Obligation Bonds		
	Principal	Interest	Total
2022	\$910,000	\$156,413	\$1,066,413
2023	935,000	135,563	1,070,563
2024	980,000	106,838	1,086,838
2025	1,095,000	79,819	1,174,819
2026	1,130,000	50,550	1,180,550
2027	1,120,000	16,800	1,136,800
Total	<u>\$6,170,000</u>	<u>\$545,983</u>	<u>\$6,715,983</u>

There is no repayment schedule for the net pension liability and net OPEB liability; however, employer pension and OPEB contributions are made from the fund benefitting from their service.

Note 7 - Capital Lease Commitments

The District is obligated under five leases accounted for as capital leases. The cost of the leased assets (buses, computers, copiers, administration building and high school project) are accounted for in the Governmental Activities Capital Assets and the related liability in the Governmental Activities Long-Term Liabilities. The original cost of the assets under capital lease was \$3,761,509.

The following is a schedule of the future minimum lease payments under the capital leases together with the present value of the net minimum lease payments as of June 30, 2021:

This Space Intentionally Left Blank

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Fiscal Year Ending June 30	Capital Leases
2022	\$216,489
2023	198,468
2024	198,189
2025	197,653
2026	197,834
2027-2031	983,932
2032-2036	972,844
Total Minimum Lease Payments	\$2,965,409
Amount Representing Interest and Additional program cost component	(890,409)
Present Value of Minimum Lease Payments	<u>\$2,075,000</u>

Note 8 - Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represent the District’s proportionate share of each pension/OPEB plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan’s fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the District’s obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees’ services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

The remainder of this note includes the required pension disclosures. See Note 9 for the required OPEB disclosures.

Plan Description - School Employees Retirement System (SERS)

Plan Description

District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost of living adjustment (COLA) on the first anniversary date of the benefit. Beginning April 1, 2018, new benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. A three-year COLA suspension is in effect for all benefit recipients for the years 2018, 2019, and 2020. Upon resumption of the COLA, it will be indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent.

Changes in Benefits between Measurement Date and the Fiscal Year End

In September 2020, the Board of Trustees approved a 0.5 percent cost-of-living adjustment (COLA) for eligible retirees and beneficiaries in 2021. The effects of these changes are unknown.

Funding Policy

Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2021, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2021, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The District's contractually required contribution to SERS was \$336,106 for fiscal year 2021. Of this amount \$43,049 is reported as accrued wages and benefits.

Plan Description - State Teachers Retirement System (STRS)

Plan Description

District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Eligibility changes will be phased in until August 1, 2026, when retirement eligibility for unreduced benefits will be five year of service credit and age 65, or 35 years of service credit and at least age 60.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023, when retirement eligibility will be five years of qualifying service credit and age 60, or 30 years of service credit at any age.

The DC Plan allows members to place all their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy

Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2021 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For fiscal year 2021, the full employer contribution was allocated to pension.

The District's contractually required contribution to STRS was \$1,014,360 for fiscal year 2021. Of this amount \$169,060 is reported as accrued wages and benefits.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability	\$4,746,913	\$13,818,603	\$18,565,516
Proportion of the Net Pension Liability:			
Current Measurement Date	0.07176840%	0.05711006%	
Prior Measurement Date	<u>0.07072160%</u>	<u>0.05513708%</u>	
Change in Proportionate Share	0.00104680%	0.00197298%	
Pension Expense	\$653,873	\$1,850,218	\$2,504,091

At June 30 2021, reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

	SERS	STRS	Total
<u>Deferred Outflows of Resources</u>			
Differences between expected and actual experience	\$9,221	\$31,005	\$40,226
Changes of assumptions	0	741,792	741,792
Net difference between projected and actual earnings on pension plan investments	301,333	672,000	973,333
Changes in employer proportionate share of net pension liability	70,826	505,786	576,612
Contributions subsequent to the measurement date	336,106	1,014,360	1,350,466
Total Deferred Outflows of Resources	<u>\$717,486</u>	<u>\$2,964,943</u>	<u>\$3,682,429</u>
<u>Deferred Inflows of Resources</u>			
Differences between expected and actual experience	\$0	\$88,361	\$88,361
Changes in employer proportionate share of net pension liability	0	10,460	10,460
Total Deferred Inflows of Resources	<u>\$0</u>	<u>\$98,821</u>	<u>\$98,821</u>

\$1,350,466 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Fiscal Year	SERS	STRS	Total
Ending June 30:			
2022	\$56,416	\$601,632	\$658,048
2023	105,019	375,091	480,110
2024	125,602	488,928	614,530
2025	94,343	386,111	480,454
Total	<u>\$381,380</u>	<u>\$1,851,762</u>	<u>\$2,233,142</u>

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2020, are presented below:

Inflation	3.00%
Future Salary Increases, including inflation	3.50% - 18.20%
COLA or Ad Hoc COLA	2.50%
Investment Rate of Return	7.50% net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. Mortality among service retired members, and beneficiaries were based upon the RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates. Mortality among disabled members were based upon the RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement. The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating an arithmetic weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalanced uncorrelated asset classes.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	2.00%	1.85%
US Stocks	22.50%	5.75%
Non-US Stocks	22.50%	6.50%
Fixed Income	19.00%	2.85%
Private Equity	12.00%	7.60%
Real Assets	17.00%	6.60%
Multi-Asset Strategies	5.00%	6.65%
Total	100.00%	

Discount Rate

The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.50 percent). Based on those assumptions, the plan's fiduciary net position was

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease 6.50%	Current Discount Rate 7.50%	1% Increase 8.50%
Proportionate share of the net pension liability	\$6,502,691	\$4,746,913	\$3,273,782

Changes in Actuarial Assumptions between Measurement Date and the Fiscal Year End

Based on a new experience study for the five years ending June 30, 2020, the SERS Board lowered the investment rate of return from 7.50 percent to 7.00 percent, lowered inflation from 3.00 percent to 2.40 percent, reduced wage inflation from 3.50 percent to 3.25 percent, reduced COLA from 2.50 percent to 2.00 percent, along with certain other changes for the actuarial valuation as of June 30, 2021. The effects of these changes are unknown.

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2020, actuarial valuation are presented below:

Inflation	2.50%
Projected salary increases	12.50% at age 20 to 2.50% at age 65
Investment Rate of Return	7.45%, net of investment expenses, including inflation
Discount Rate of Return	7.45%
Payroll Increases	3.00%
Cost-of-Living Adjustments (COLA)	0%, effective July 1, 2017

Post-retirement mortality rates for healthy retirees are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. Pre-retirement mortality rates are based on RP-2014 Employee Mortality Table, projected forward generationally using mortality improvement scale MP-2016. Post-retirement disabled mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the July 1 2020, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Asset Class	Target Allocation	Long-Term Expected Rate of Return *
Domestic Equity	28.00%	7.35%
International Equity	23.00%	7.55%
Alternatives	17.00%	7.09%
Fixed Income	21.00%	3.00%
Real Estate	10.00%	6.00%
Liquidity Reserves	1.00%	2.25%
Total	100.00%	

*10 Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25%, but does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate

The discount rate used to measure the total pension liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on pension plan investments of 7.45 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2020.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.45 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.45 percent) or one-percentage-point higher (8.45 percent) than the current rate:

	1% Decrease 6.45%	Current Discount Rate 7.45%	1% Increase 8.45%
Proportionate share of the net pension liability	\$19,675,284	\$13,818,603	\$8,855,553

Changes in Actuarial Assumptions between Measurement Date and the Fiscal Year End

The STRS Board approved a change in the discount rate from 7.45 percent to 7.00 percent for the June 30, 2021 valuation. The effect on the net pension liability is unknown.

Note 9 - Defined Benefit OPEB Plans

See Note 8 for a description of the net OPEB liability (asset).

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description

The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy

State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2021, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2021, this amount was \$23,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2021, the District's surcharge obligation was \$48,190.

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$48,190 for fiscal year 2021.

Plan Description - State Teachers Retirement System (STRS)

Plan Description

The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Funding Policy

Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2021, STRS did not allocate any employer contributions to post-employment health care.

Net OPEB Liabilities (Assets), OPEB Expense (Income), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability (asset) was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate Share of the Net OPEB Liability	\$1,616,914	\$0	\$1,616,914
Proportionate Share of the Net OPEB (Asset)	0	(1,003,709)	(1,003,709)
Proportion of the Net OPEB Liability/Asset:			
Current Measurement Date	0.07439810%	0.05711006%	
Prior Measurement Date	<u>0.07234560%</u>	<u>0.05513708%</u>	
Change in Proportionate Share	0.00205250%	0.00197298%	
OPEB Expense	\$30,348	(\$51,927)	(\$21,579)

At June 30 2021, reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
<u>Deferred Outflows of Resources</u>			
Differences between expected and actual experience	\$21,236	\$64,314	\$85,550
Changes of assumptions	275,628	16,568	292,196
Net difference between projected and actual earnings on OPEB plan investments	18,219	35,177	53,396
Changes in employer proportionate share of net OPEB liability	168,602	37,584	206,186
Contributions subsequent to the measurement date	<u>48,190</u>	<u>0</u>	<u>48,190</u>
Total Deferred Outflows of Resources	<u>\$531,875</u>	<u>\$153,643</u>	<u>\$685,518</u>
<u>Deferred Inflows of Resources</u>			
Differences between expected and actual experience	\$822,314	\$199,924	\$1,022,238
Changes of assumptions	40,726	953,356	994,082
Changes in employer proportionate share of net OPEB liability	<u>0</u>	<u>4,086</u>	<u>4,086</u>
Total Deferred Inflows of Resources	<u>\$863,040</u>	<u>\$1,157,366</u>	<u>\$2,020,406</u>

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

\$48,190 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (adjustment to net OPEB asset) in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ending June 30:	SERS	STRS	Total
2022	(\$71,887)	(\$251,430)	(\$323,317)
2023	(70,569)	(227,620)	(298,189)
2024	(70,784)	(219,268)	(290,052)
2025	(76,300)	(212,745)	(289,045)
2026	(65,216)	(44,618)	(109,834)
Thereafter	(24,599)	(48,042)	(72,641)
Total	<u>(\$379,355)</u>	<u>(\$1,003,723)</u>	<u>(\$1,383,078)</u>

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2020, are presented below:

Investment Rate of Return	7.50% net of investment expense, including inflation
Municipal Bond Index Rate:	
Measurement Date	2.45%
Prior Measurement Date	3.13%
Single Equivalent Interest Rate, net of plan investment expense, including price inflation:	
Measurement Date	2.63%
Prior Measurement Date	3.22%
Medical Trend Assumption:	
Medicare	5.25% to 4.75%
Pre-Medicare	7.00% to 4.75%

Mortality rates were based on the RP-2014 Blue Collar Mortality Table with fully generational projection and Scale BB, 120 percent of male rates and 110 percent of female rates. RP-2000 Disabled Mortality Table with 90 percent for male rates and 100 percent for female rates set back five years.

The most recent experience study was completed for the five year period ended June 30, 2015.

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2010 through 2015, and was adopted by the Board on April 21, 2016. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.50 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class, as used in the June 30, 2015 five-year experience study, are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	2.00%	1.85%
US Stocks	22.50%	5.75%
Non-US Stocks	22.50%	6.50%
Fixed Income	19.00%	2.85%
Private Equity	12.00%	7.60%
Real Assets	17.00%	6.60%
Multi-Asset Strategies	<u>5.00%</u>	6.65%
Total	<u>100.00%</u>	

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Discount Rate

The discount rate used to measure the total OPEB liability at June 30, 2020 was 2.63 percent. The discount rate used to measure total OPEB liability at June 30, 2019, was 3.22 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 2.00 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and 0.50 percent of contributions from the basic benefits plan. Based on these assumptions, the OPEB plan’s fiduciary net position was projected to become insufficient to make future benefit payments during the fiscal year ending June 30, 2025. Therefore, the long-term expected rate of return on OPEB plan assets was used to present value the projected benefit payments through the fiscal year ending June 30, 2024, and the Fidelity General Obligation 20-year Municipal Bond Index rate of 2.45 percent, as of June 30, 2020 (i.e. municipal bond rate), was used to present value the projected benefit payments for the remaining years in the projection. The total present value of projected benefit payments from all years was then used to determine the single rate of return that was used as the discount rate. The projection of future benefit payments for all current plan members was until the benefit payments ran out.

Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates

The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.63%) and higher (3.63%) than the current discount rate (2.63%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.75%) and higher (8.00% decreasing to 5.75%) than the current rate.

	1% Decrease (1.63%)	Current Discount Rate (2.63%)	1% Increase (3.63%)
Proportionate share of the net OPEB liability	\$1,979,063	\$1,616,914	\$1,329,007
	1% Decrease (6.00% decreasing to 3.75%)	Current Trend Rate (7.00% decreasing to 4.75%)	1% Increase (8.00% decreasing to 5.75%)
Proportionate share of the net OPEB liability	\$1,273,197	\$1,616,914	\$2,076,552

Changes in Actuarial Assumptions between Measurement Date and the Fiscal Year End

Based on a new experience study for the five years ending June 30, 2020, the SERS Board reduced the wage growth assumption from 3.50 percent to 3.25 percent and increased the health care rate of return from 5.25 percent to 7.00 percent. The effects of these changes are unknown.

Actuarial Assumptions - STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2020, actuarial valuation are presented below:

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Inflation	2.50%
Projected salary increases	12.50% at age 20 to 2.50% at age 65
Investment Rate of Return	7.45%, net of investment expenses, including inflation
Payroll Increases	3.00%
Discount Rate of Return	7.45%
Health Care Cost Trends:	
Medical	
Pre-Medicare	5.00% initial, 4% ultimate
Medicare	-6.69% initial, 4% ultimate
Prescription Drug	
Pre-Medicare	6.50% initial, 4% ultimate
Medicare	11.87% initial, 4% ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the mortality rates are based on the RP-2014 Annuitant Mortality Table with 50 percent of rates through age 69, 70 percent of rates between ages 70 and 79, 90 percent of rates between ages 80 and 84, and 100 percent of rates thereafter, projected forward generationally using mortality improvement scale MP-2016. For disabled retirees, mortality rates are based on the RP-2014 Disabled Mortality Table with 90 percent of rates for males and 100 percent of rates for females, projected forward generationally using mortality improvement scale MP-2016.

Actuarial assumptions used in the June 30, 2020, valuation are based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2016.

Since the prior measurement date, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation	Long-Term Expected Rate of Return*
Domestic Equity	28.00%	7.35%
International Equity	23.00%	7.55%
Alternatives	17.00%	7.09%
Fixed Income	21.00%	3.00%
Real Estate	10.00%	6.00%
Liquidity Reserves	1.00%	2.25%
Total	100.00%	

*10 Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25%, but does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Discount Rate

The discount rate used to measure the total OPEB liability was 7.45 percent as of June 30, 2020. The projection of cash flows used to determine the discount rate assumes STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan’s fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2020. Therefore, the long-term expected rate of return on health care plan investments of 7.45 percent was used to measure the total OPEB liability as of June 30, 2020.

Sensitivity of the Proportionate Share of the Net OPEB (Asset) to Changes in the Discount and Health Care Cost Trend Rate

The following table represents the net OPEB asset as of June 30, 2020, calculated using the current period discount rate assumption of 7.45 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.45 percent) or one percentage point higher (8.45 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.45%)	Current Discount Rate (7.45%)	1% Increase (8.45%)
Proportionate share of the net OPEB (asset)	(\$873,292)	(\$1,003,709)	(\$1,114,362)
	1% Decrease	Current Trend Rate	1% Increase
Proportionate share of the net OPEB (asset)	(\$1,107,494)	(\$1,003,709)	(\$877,282)

Note 10 - Contingencies

Grants

The District receives financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2021.

Litigation

The District is currently party to legal proceedings which seek damages or injunctive relief but are generally incidental to its operations and pending projects as of June 30, 2021.

Note 11 - Jointly Governed Organization

The Southwest Ohio Computer Association (SWOCA), a jointly governed organization, was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. Each of the member schools of the four county consortium supports SWOCA based upon a per pupil charge dependent upon the

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

software package utilized. SWOCA is governed by a Board of Directors consisting of one representative from each four districts plus one representative from the fiscal agent. The degree of control exercised by any participating school district is limited to its representation on the Board. During the 2020 fiscal year the District paid \$99,953 to SWOCA for services. To obtain financial information, write to the Southwestern Ohio Computer Association, at 3611 Hamilton-Middletown, Hamilton, Ohio 45011.

Note 12 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District carries commercial general liability insurance against these risks and all other risks of loss, including workers compensation and employee health and accident insurance. There has been no significant reduction in insurance coverages from coverages in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverages in any of the past three fiscal years.

Note 13 – Compliance and Accountability

Fund Deficits

The fund deficits at June 30, 2021 are listed below:

<u>Fund</u>	<u>Deficit</u>
Other Governmental Funds:	
IDEA, Part B Special Education	\$10,061
Title I	22,131
Drug-Free Schools	406

Special revenue funds arise from the recognition of expenditures on the modified accrual basis, which are greater than expenditures recognized on the budgetary basis. The deficits do not exist under the budgetary/cash basis of accounting. The General Fund provides transfers when cash is required, not when accruals occur.

Note 14 - Statutory Reserves

The District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the fiscal year end set aside amount for capital acquisition. Disclosure of this information is required by State statute.

This Space Intentionally Left Blank

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

	Capital Acquisition
Set Aside Reserve Balance as of June 30, 2020	\$0
Current Year Set Aside Requirements	270,804
Qualified Disbursements	<u>(306,636)</u>
Set Aside Reserve Balance as of June 30, 2021	<u>(\$35,832)</u>
Restricted Cash as of June 30, 2021	<u>\$0</u>
Carried Forward as of June 30, 2021	\$0

While the qualifying disbursements during the fiscal year reduced the capital improvement set-aside amount to below zero, this amount may not be used to reduce the set-aside requirements of future fiscal years.

Note 15 - Interfund Balances

Following is a summary of interfund receivables/payables for all funds at June 30, 2021:

	Interfund	
	Receivable	Payable
General Fund	\$22,118	\$0
Other Governmental Funds	<u>4,721</u>	<u>26,839</u>
Total All Funds	<u>\$26,839</u>	<u>\$26,839</u>

The interfund balances represent amounts due between funds resulting from timing differences.

Note 16 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

This Space Intentionally Left Blank

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 17 – Contingencies

School Foundation

The District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, additional ODE adjustments for fiscal year 2021 are not finalized. As a result, the impact of future FTE adjustments on the fiscal year 2021 financial statements is not determinable, at this time. Management believes this may result in either an additional receivable to, or a liability of, the District.

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 18 – Implementation of New Accounting Principles and Restatement of Net Position/Fund Balance

New Accounting Principles

For fiscal year 2021, the District implemented GASB Statement No. 84, Fiduciary Activities and related guidance from (GASB) Implementation Guide No. 2019-2, Fiduciary Activities, and GASB Statement No. 90, Majority Equity Interests – An Amendment of GASB Statements No. 14 and GASB Statements No. 61.

GASB Statement No. 84 established specific criteria for identifying activities that should be reported as fiduciary activities and clarifies whether and how business type activities should report their fiduciary activities. Due to the implementation of GASB Statement No. 84, the District will no longer be reporting agency funds. The District reviewed its agency funds and certain funds will be reported in the new fiduciary fund classification of custodial funds, while other funds have been reclassified as governmental funds. If applicable, fund reclassifications resulted in the restatement of the District’s financial statements.

GASB Statement No. 90 improves consistency in the measurement and comparability of the financial statement presentation of majority equity interests in legally separate organizations. This Statement also provides guidance for reporting a component unit if a government acquires a 100 percent equity interest in that component unit. The implementation of GASB Statement No. 90 did not have an effect on the financial statements of the District.

Restatement of Fund Balance/Net Position

The implementation of GASB 84 had the following effect on fund balance as reported at June 30, 2020:

	Other Governmental Funds
	<u> </u>
Fund Balance, June 30, 2020	\$2,230,656
Adjustments-Presentation Changes:	
GASB Statement No. 84	<u>50,988</u>
Restated Fund Balance, June 30, 2020	<u><u>\$2,281,644</u></u>

The implementation of the GASB 84 pronouncement had the following effect on the net position as reported at June 30, 2020:

	Governmental Activities
	<u> </u>
Net Position, June 30, 2020	\$5,881,734
Adjustments-Presentation Changes:	
GASB Statement No. 84	<u>50,988</u>
Restated Net Position, June 30, 2020	<u><u>\$5,932,722</u></u>

Madison Local School District, Ohio
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2021

Note 19 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio's state of emergency ended in June of 2021 while the national state of emergency continues. During fiscal year 2021, the District received Coronavirus Aid, Relief, and Economic Security (CARES) Act funding. Additional funding has been made available through the Consolidated Appropriations Act, 2021, passed by Congress on December 21, 2020 and/or the American Rescue Plan Act, passed by Congress on March 11, 2021.

Note 20 – Subsequent Events

For fiscal year 2022, District foundation funding received from the state of Ohio will be funded using a direct funding model. Under this new model, community school, STEM school, and scholarship, and open enrollment funding will be directly funded by the State of Ohio to the respective educating schools. For fiscal year 2021 and prior, the amounts related to students who were residents of the District were funded to the District who, in turn, made the payment to the respective educating school. For fiscal year 2021, the District reported \$873,804 in revenues and expenditures/expenses related to these programs. Also during fiscal year 2021, the school district reported \$465,970 in tuition and fees from the resident school districts which will be direct funded to the District as the educating entity in fiscal year 2022. This new funding system calculates a unique base cost and a unique "per-pupil local capacity amount" for each School District. The District's state core foundation funding is then calculated. Any change in funding will be subject to a phase in percentage of 16.67 percent for fiscal year 2022 and 33.33 percent for fiscal year 2023.

Madison Local School District, Ohio
Notes to the Required Supplementary Information
For The Fiscal Year Ended June 30, 2021

Note 1 - Budgetary Process

All funds, except custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriations resolution and the certificate of estimated resources which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the Board of Education may appropriate. The appropriation resolution is Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Board. The legal level of control has been established by Board at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the fiscal year 2021.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Board during the year.

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Basis) presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as an assignment of fund balance for governmental fund types and expendable trust funds (GAAP basis).
4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.
5. Some funds are reported as part of the general fund (GAAP basis) as opposed to the general fund being reported alone (budget basis).

Madison Local School District, Ohio
Notes to the Required Supplementary Information
For The Fiscal Year Ended June 30, 2021

The following table summarizes the adjustments necessary to reconcile the GAAP basis to the budgetary basis.

Net Change in Fund Balance	
	General Fund
GAAP Basis	(\$435,865)
Revenue Accruals	12,392
Expenditures Accruals	317,142
Advances In	84,428
Encumbrances	(547,893)
Budget Basis	(\$569,796)

Note 2 - Net Pension Liability

School Employees Retirement System (SERS)

Changes in Benefit Terms:

2020-2021: There were no changes in benefit terms from the amounts reported for this fiscal year.

2019: With the authority granted the Board under Senate Bill 8, the Board has enacted a three year COLA delay for future benefit recipients commencing benefits on or after April 1, 2018.

2018: SERS changed from a fixed 3% annual increase to a Cost of Living Adjustment (COLA) based on the change in the Consumer Price Index Index (CPI-W), with a cap of 2.5% and a floor of 0%.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

Changes in Assumptions:

2018-2021: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2017: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.25% to 3.00%,
- (2) Payroll growth assumption was reduced from 4.00% to 3.50%,
- (3) Assumed real wage growth was reduced from 0.75% to 0.50%,
- (4) Rates of withdrawal, retirement and disability were updated to reflect recent experience,
- (5) Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females,
- (6) Mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates,
- (7) Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement, and
- (8) The discount rate was reduced from 7.75% to 7.50%.

Madison Local School District, Ohio
Notes to the Required Supplementary Information
For The Fiscal Year Ended June 30, 2021

2014-2016: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

State Teachers Retirement System (STRS)

Changes in Benefit Terms:

2019-2021: There were no changes in benefit terms from the amounts reported for these fiscal years.

2018: STRS decreased the Cost of Living Adjustment (COLA) to zero.

2014-2017: There were no changes in benefit terms from the amounts reported for these fiscal years.

Changes in Assumptions:

2019-2021: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

2018: The following changes of assumptions affected the total pension liability since the prior measurement date:

- (1) The long term expected rate of return was reduced from 7.75% to 7.45%,
- (2) The inflation assumption was lowered from 2.75% to 2.50%,
- (3) The payroll growth assumption was lowered to 3.00%,
- (4) Total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation,
- (5) The healthy and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016, and
- (6) Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

2014-2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for these fiscal years.

Note 3 - Net OPEB (Asset)/Liability

School Employees Retirement System (SERS)

Changes in Benefit Terms:

2017-2021: There were no changes in benefit terms from the amounts reported for these fiscal years.

Changes in Assumptions:

2021: Amounts reported for the fiscal year incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

- (1) Discount Rate:

Prior Measurement Date	3.22%
Measurement Date	2.63%
- (2) Municipal Bond Index Rate:

Prior Measurement Date	3.13%
Measurement Date	2.45%
- (3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:

(3) Single Equivalent Interest Rate, net of plan investment expense, including price inflation:	
Fiscal Year 2018	3.63%
Fiscal Year 2017	2.98%

2017: The following changes of assumptions affected the total OPEB liability since the prior measurement date:

- (1) The assumed rate of inflation was reduced from 3.25% to 3.00%,
- (2) Payroll growth assumption was reduced from 4.00% to 3.50%,
- (3) Assumed real wage growth was reduced from 0.75% to 0.50%,
- (4) Rates of withdrawal, retirement and disability were updated to reflect recent experience,

Madison Local School District, Ohio
Notes to the Required Supplementary Information
For The Fiscal Year Ended June 30, 2021

- (5) Mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females,
- (6) Mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates, and
- (7) Mortality among disabled members was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

State Teachers Retirement System (STRS)

Changes in Benefit Terms:

2021: There was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year end 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

2020: There was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

2019: The subsidy multiplier for non-Medicare benefit recipients was increased from 1.900% to 1.944% per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020. The Board is extending the current Medicare Part B partial reimbursement program for one year. Under this program, benefit recipients currently enrolled in the STRS Ohio Health Care Program and Medicare Part B receive \$29.90 per month to reimburse a portion of the Medicare Part B premium. The reimbursement was set to be reduced to \$0 beginning January 1, 2020. This impacts about 85,000 benefit recipients.

2018: The subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2019.

2017: There were no changes in benefit terms from the amounts reported for this fiscal year.

Changes in Assumptions:

2021: There were changes in assumptions during the measurement year, which decreased the total OPEB liability by approximately \$0.26 billion. The assumption changes included changes in healthcare costs and trends.

2020: There were changes in assumptions during the measurement year, which increased the total OPEB liability by approximately \$0.04 billion. The assumption changes included changes in healthcare costs and trends.

Madison Local School District, Ohio
Notes to the Required Supplementary Information
For The Fiscal Year Ended June 30, 2021

2019: The discount rate was increased from the blended rate of 4.13% to the long-term expected rate of return of 7.45% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB). Valuation year per capita health care costs were updated.

2018: The discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

2017: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for this fiscal year.

BUTLER COUNTY**

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE YEAR ENDED JUNE 30, 2021**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Madison Local School District (the District) under programs of the federal government for the year ended June 30, 2021. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position of the District

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE E – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE F - MATCHING REQUIREMENTS

Certain Federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Madison Local School District
Butler County
1324 Middletown-Eaton Road
Middletown, Ohio 45042

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Madison Local School District, Butler County, (the School District) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated May 13, 2022 wherein we noted the financial impact of COVID-19 and the continuing emergency measures which may impact subsequent periods of the School District. We also noted that the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) No. 84, *Fiduciary Activities*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the School District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the School District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the financial statements. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Madison Local School District
Butler County
1324 Middletown-Eaton Road
Middletown, Ohio 45042

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited Madison Local School District's (the School District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect Madison Local School District's major federal program for the year ended June 30, 2021. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the School District's major federal program.

Management's Responsibility

The School District's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the School District's compliance for the School District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the School District's major program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on the Major Federal Program

In our opinion, Madison Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2021.

Report on Internal Control Over Compliance

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the School District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the School District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
