INDEPENDENT AUDITOR'S REPORT

City of Fremont Sandusky County 323 South Front Street Fremont, Ohio 43420-3037

To the City Council:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fremont, Sandusky County, Ohio (City), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fremont, Sandusky County, Ohio as of December 31, 2022, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

City of Fremont Sandusky County Independent Auditor's Report Page 2

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the City's ability to continue as a going concern for a reasonable period
 of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

City of Fremont Sandusky County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2023, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

The management's discussion and analysis of the City of Fremont's (the City) financial performance provides an overall review of the City's financial activities for the year ended December 31, 2022. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

Key financial highlights for 2022 are as follows:

- The total net position of the City increased \$2,094,510 or 2.00% from 2021. Net position of governmental activities decreased \$255,119 or 1.01% from 2021 and net position of business-type activities increased \$2,349,629 or 2.95% from 2021.
- ➤ General revenues accounted for \$11,845,060 or 76.60% of total governmental activities revenue. Program specific revenues accounted for \$3,619,360 or 23.40% of total governmental activities revenue.
- ➤ The City had \$15,719,539 in expenses related to governmental activities; \$3,619,360 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily income taxes, property taxes and unrestricted grants and entitlements) of \$11,845,060 were not adequate to support the remaining expenses.
- The General fund had revenues of \$12,421,295 in 2022. This represents a decrease of \$2,074,866 or 14.31% from 2021. The expenditures and other financing uses of the General fund, which totaled \$13,522,143 in 2022, increased \$839,850 or 6.62% from 2021. The net decrease in fund balance for the General fund was \$1,100,848 or 11.27%.
- Net position for the business-type activities, which are made up of the water and sewer enterprise funds, increased in 2022 by \$2,349,629. Charges for services revenues continued to outpace expenses in the water and sewer funds, leading to the increase in net position.
- In the General fund, actual revenues and other financing sources were \$201,320 more than the final budget revenues and other financing sources, and actual expenditures and other financing uses were \$1,070,227 less than the final budget expenditures and other financing uses. Budgeted expenditures and other financing uses increased \$2,078,759 from the original budget to the final budget, primarily due to an increase in budgeted general government, security of persons and property, and economic development and assistance expenditures.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to these statements. These statements are organized so the reader can understand the City as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net position and statement of activities provide information about the activities of the City as a whole, presenting both an aggregate view of the City's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the City's most significant funds with all other nonmajor funds presented in total in one column.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

Reporting the City as a Whole

Statement of Net Position and the Statement of Activities

While this document contains a large number of funds used by the City to provide programs and activities, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during 2022?" The statement of net position and the statement of activities answer this question. These statements include all assets, deferred outflows, liabilities, deferred inflows, revenues and expenses using the accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the City's net position and changes in that position. This change in net position is important because it tells the reader that, for the City as a whole, the financial position of the City has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the City's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required community programs and other factors.

In the statement of net position and the statement of activities, the City is divided into two distinct kinds of activities:

Governmental activities - Most of the City's programs and services are reported here including police, fire and rescue, street maintenance, capital improvements, parks and recreation and general administration. These services are funded primarily by property and income taxes and intergovernmental revenues including federal and state grants and other shared revenues.

Business-type activities - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The City's water and sewer operations are reported here.

Reporting the City's Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Fund financial reports provide detailed information about the City's major funds. The City uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the City's most significant funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

By doing so, the readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains a multitude of individual governmental funds. The City has segregated these funds into major funds and non-major funds. The City's major governmental fund is the General fund. Information for major funds is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances. Data from the other governmental funds are combined into a single, aggregated presentation.

Proprietary Funds

The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water and sewer management functions. All of the City's enterprise funds are considered major funds. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Custodial funds are the City's only fiduciary fund type.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's net pension liability/net pension asset and net OPEB liability/net OPEB asset.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

Government-Wide Financial Analysis

The statement of net position provides the perspective of the City as a whole. The table below provides a summary of the City's net position at December 31, 2022 and December 31, 2021. Certain amounts at December 31, 2021 have been restated as described in Note 3.A.

	Governmental Activities			ctivities	Business-Ty	Total

The net pension liability/asset is reported pursuant to Governmental Accounting Standards Board (GASB) Statement 68, "<u>Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27.</u>" The net other postemployment benefits (OPEB) liability is reported pursuant to GASB Statement 75, "<u>Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.</u>" For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability, and the net OPEB liability to the reported net position and subtracting deferred outflows, the net pension asset, and the net OPEB asset related to pension and OPEB.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability/asset* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability/asset and the net OPEB liability to equal the City's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
- 2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability/asset and net OPEB liability/asset, respectively, not accounted for as deferred inflows/outflows.

Over time, net position can serve as a useful indicator of a government's financial position. At December 31, 2022, the City's assets and deferred outflows exceeded liabilities and deferred inflows by \$106,961,952. At year-end, net positions were \$25,049,712 and \$81,912,240 for the governmental activities and the business-type activities, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

Capital assets reported on the government-wide statements represent the largest portion of the City's net position. At year-end, capital assets represented 76.64% of total assets. Capital assets include land, land improvements, buildings and improvements, machinery and equipment, infrastructure, intangible right to use assets, and construction in progress. The net investments in capital assets at December 31, 2022, were \$23,550,126 and \$57,655,119 in the governmental activities and business-type activities, respectively. These capital assets are used to provide services to citizens and are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the City's net position, \$3,242,264 represents resources that are subject to external restriction on how they may be used. In the governmental activities, the remaining balance of unrestricted net position is a deficit of \$1,742,678. The business-type activities reported a positive unrestricted balance of \$24,257,121.

Assets of the governmental activities decreased \$754,190 or 1.56% from 2021. Current assets of the governmental activities decreased \$329,597 or 1.58% primarily in equity in pooled cash and investments due to current year operations. Capital assets decreased \$424,593 or 1.54% as current year depreciation/amortization expense exceeded additions.

Liabilities of the governmental activities decreased \$815,445 or 3.85% from 2021. Current liabilities of the governmental activities increased \$891,786 due to an increase in unearned revenue related to the American Rescue Plan Act (ARPA) grant money received by the City. The City will report the revenue as expenses are incurred. Long-term obligations of the governmental activities decreased \$1,707,231 or 8.84% due to a decrease in the City's net pension liability and the City paying down its debt obligations.

Assets of the business-type activities decreased \$2,710,448 or 1.60% from 2021. Current assets of the business-type activities increased \$962,429 or 3.38% primarily in cash and investments due to current year operations. The capital assets of the business-type activities decreased \$3,672,877 or 2.62%. This decrease was due depreciation expense of \$4,958,186 exceeding capital asset additions of \$1,553,284.

Liabilities of the business-type activities decreased \$5,186,635 or 5.95% from 2021. Current liabilities of the business-type activities increased \$76,840 due to an increase in accounts payable for expenses incurred, but not yet paid at year-end. Long-term obligations of the business-type activities decreased \$5,263,475 or 6.07% as the City paid principal payments on debt obligations (total approximately \$3.95 million) and saw a decrease in the net pension liability (total approximately \$1.27 million).

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

The table below shows the changes in net position for fiscal years 2022 and 2021.

Change in Net Position

	Governmental Activities 2022	Governmental Activities 2021	Business-type Activities 2022	Business-type Activities 2021	2022 Total	2021 Total
Revenues						
Program revenues:						
Charges for services and sales	\$ 1,319,144	\$ 1,228,309	\$ 17,380,444	\$ 17,132,892	\$ 18,699,588	\$ 18,361,201

Governmental Activities

Governmental activities net position decreased \$255,119 in 2022. The decrease is primarily due to an increase in expenses as a result of rising inflation.

Expenses of the governmental activities increased \$3,010,707 or 23.69%. The increase in expenses is the result of the rising cost of goods and services due to inflation.

Transportation expenses accounted for \$2,830,026 of the total expenses of the City. Transportation expenses represent the cost of building and maintaining the City's streets. Transportation expense increased due to expenses related to Rawson Avenue.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

Security of persons and property, which primarily supports the operations of the police and fire departments accounted for \$7,923,492 of the total expenses of the City. These expenses were partially funded by \$8,080 in direct charges to users of the services.

General government expenses totaled \$2,577,369. General government expenses were partially funded by \$689,622 in direct charges to users of the services.

The state and federal government contributed to the City a total of \$1,421,855 in operating grants and contributions and \$878,361 in capital grants and contributions. These revenues are restricted to a particular program or purpose. The total capital grants and contributions subsidized transportation programs. Of the total operating grants and contributions, \$1,121,034 subsidized transportation programs, \$27,593 subsidized community environment, and \$178,931 subsidized security of persons and property activities. Operating grants increased \$5,210 from the prior year.

General revenues totaled \$11,845,060 and amounted to 76.60% of total governmental revenues. These revenues primarily consist of property and income tax revenue of \$11,883,140. Another primary source of general revenues is grants and entitlements not restricted to specific programs, including local government revenue, making up \$763,929. Investment earnings decreased \$1,066,885 from 2021 due to a decrease in the fair value of the City's investments. The City holds investments to maturity to reduce to the risk in fluctuations of investments.

As can be seen in the graph below, program revenues support only a portion of the City's overall governmental activities expenses. The City is highly dependent upon property and income taxes as well as unrestricted grants and entitlements to support its governmental activities.

Governmental Activities – Program Revenues vs. Total Expense \$16,000,000 \$12,000,000 \$8,000,000 \$4,000,000 \$-Fiscal Year 2022 Fiscal Year 2021

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

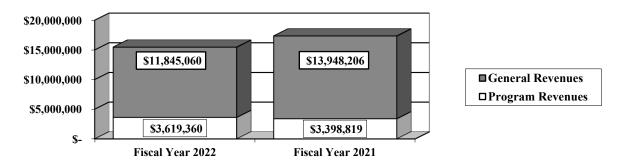

Governmental Activities

	Total Cost of Services 2022		Net Cost of Services 2022		Total Cost of Services 2021		Net Cost of Services 2021

Total	\$	15,719,539	\$	12,100,179	\$	12,708,832	\$	9,310,013

The dependence upon general revenues for governmental activities is apparent, with 76.98% of expenses supported through taxes and other general revenues.

The graph below shows a comparison of the City's general revenues compared to program revenues for the governmental activities.

Governmental Activities - General and Program Revenues

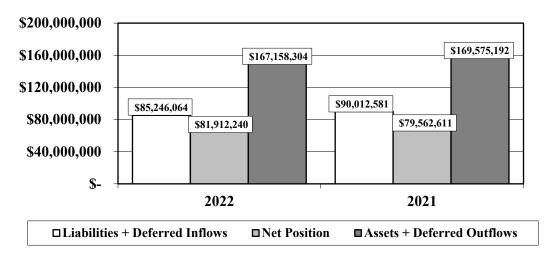

Business-type Activities

Business-type activities include the water and sewer enterprise funds. These programs had program revenues of \$17,380,444, general revenues of \$33,980 and, expenses of \$15,064,795 for 2022. The increase in program revenues can mainly be attributed to the increased charges for services in the water and sewer funds. The increases in water and sewer expenses are primarily due to changes in the net pension/OPEB liability/asset.

The graph below illustrates the City's business-type assets, liabilities, deferred outflows, deferred inflows, and net position at December 31, 2022 and December 31, 2021.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

Net Position in Business-Type Activities

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at year-end.

The City's governmental funds reported a combined fund balance of \$14,564,791 which is \$1,558,777 less than last year's total of \$16,123,568. The schedule below indicates the fund balances and the total change in fund balances as of December 31, 2022 for all major and nonmajor governmental funds.

	Fund Balances 12/31/22	Fund Balances 12/31/21	Change		
Major funds: General	\$ 8,663,146	\$ 9,763,994	\$ (1,100,848)		
Other nonmajor governmental funds	5,901,645	6,359,574	(457,929)		
Total	\$ 14,564,791	\$ 16,123,568	\$ (1,558,777)		

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

General Fund

The City's General fund balance decreased \$1,100,848. The table below compares 2022 versus 2021 revenues.

	2022	2021	% Change
Revenues			
Taxes	\$ 11,937,570	\$ 12,821,688	(6.90) %
Charges for services	46,266	27,125	70.57 %
Licenses and permits	14,496	19,635	(26.17) %
Fines and forfeitures	278,026	272,933	1.87 %
Intergovernmental	736,871	719,971	2.35 %
Investment income	(1,278,006)	(182,228)	601.32 %
Other	686,072	817,037	(16.03) %
Total	\$ 12,421,295	\$ 14,496,161	(14.31) %

Tax revenue represents 96.11% of all General fund revenue. Income tax revenue decreased in 2022 due to decreased collections. Property taxes decreased in 2022 due to decreased collections as well. Investment income decreased as interest rates on applicable investments decreased and the fair value of investments decreased from the prior year.

The table that follows assists in illustrating the expenditures of the General fund.

	2022	2021	% Change
Expenditures			
General government	\$ 2,731,608	\$ 3,094,296	(11.72) %
Security of persons and property	7,761,303	7,290,521	6.46 %
Public health and welfare	4,626	5,638	(17.95) %
Community environment	199,877	179,932	11.08 %
Leisure time activity	973,667	1,015,200	(4.09) %
Economic development	184,812	181,934	1.58 %
Debt service	3,528		100.00 %
Total	\$ 11,859,421	\$ 11,767,521	0.78 %

The most significant increase in dollars in General fund expenditures was in security of persons and property. This line item increased \$470,782 in 2022. This was primarily due to normal wage and benefit increases to police and fire as well as a rise in inflation affecting the costs of goods and services. General government expenditures decreased \$362,688. All other expenditures remained comparable to the prior year or changed an insignificant amount.

Budgeting Highlights

The City's budgeting process is prescribed by the Ohio Revised Code (ORC). Essentially the budget is the City's appropriations which are restricted by the amounts of anticipated revenues certified by the Budget Commission in accordance with the ORC. Therefore, the City's plans or desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity, then the appropriations can be adjusted accordingly.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

Budgetary information is presented for the General fund. The original and final budgeted revenues and other financing sources were \$10,410,900 and \$11,600,900, respectively. Actual revenues and other financing sources of \$11,802,220 were more than final budgeted revenues and other financing sources by \$201,320. The significant change for the General fund was between the final budgeted expenditures and other financing uses and actual expenditures and other financing uses. Actual expenditures and other financing uses came in \$1,070,227 lower than the final budgeted amounts, primarily due to expenditures for general government operations and security of persons and property programs being less than budgeted. The final budgeted expenditures and other financing uses were increased \$2,078,759 from original expenditures and other financing uses of \$11,893,474.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities, except in more detail. The only difference between the amounts reported as business-type activities and the amounts reported in the proprietary fund statements are interfund eliminations between proprietary funds and internal balances due to governmental activities for internal service activities. The only interfund activity reported in the government wide statements are those between business-type activities and governmental activities (reported as internal balances) whereas interfund amounts between various enterprise funds are reported in the proprietary fund statements.

The City's business-type funds reported a combined net position of \$81,912,240, which is \$2,349,629 more than last year's total of \$79,562,611. This increase is primarily due to a decrease in the net pension liability.

Capital Assets and Debt Administration

Capital Assets

At the end of 2022, the City had \$163,835,708 (net of accumulated depreciation) invested in land, land improvements, buildings and improvements, machinery and equipment, infrastructure, intangible right to use assets, and construction in progress (CIP). Of this total, \$27,118,730 was reported in governmental activities and \$136,716,978 was reported in business-type activities. See Note 10 for further description of capital assets.

The capital assets at December 31, 2021 have been restated as described in Note 3. The following table shows 2022 balances compared to 2021:

Capital Assets at December 31 (Net of Depreciation)

	Governmental Activities				Business-Type Activities				Total			
		2022		Restated 2021		2022		2021		2022		Restated 2021
Land	\$	864,955	\$	864,955	\$	977,180	\$	977,180	\$	1,842,135	\$	1,842,135

Construction in progress	_	1,732,328	_	1,258,974	_	37,536	_	37,536		1,769,864	_	1,296,510
Totals	\$	27,118,730	\$	27,543,323	\$	136,716,978	\$	140,389,855	\$	163,835,708	\$	167,933,178

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

In governmental type activities, the City's largest capital asset category is infrastructure which includes roads, bridges, culverts, sidewalks and curbs. These items are immovable and of value only to the City, however, the annual cost of purchasing these items is quite significant. The net book value of the City's infrastructure (cost less accumulated depreciation) represents approximately 48.92% of the City's total governmental capital assets.

In business type activities, the largest capital assets category is buildings and improvements, which includes water and sewer plants. The net book value of the City's buildings and improvements represents approximately 49.20% of the City's total business-type capital assets.

Debt Administration

See Note 12 for further discussion of the City's long-term debt obligations. The long-term debt at December 31, 2021 has been restated as described in 3. The City had the following long-term debt obligations outstanding at December 31, 2022 and 2021:

	Government	al Activities
		Restated
	2022	2021
General obligation bonds	\$ 140,000	\$ 205,000
Bond anticipation notes	1,070,000	1,070,000
Financed purchase note payable	2,190,810	2,364,072
Lease payable	8,140	14,378
Total long-term obligations	\$ 3,408,950	\$ 3,653,450
	Business-typ	e Activities
	2022	2021
General obligation bonds	\$ 1,135,000	\$ 1,780,000
Financed purchase note payable	2,555,785	2,743,260
OPWC loans	135,474	151,915
OWDA loans	75,170,505	78,267,075
Total long-term obligations	\$ 78,996,764	\$ 82,942,250

Economic Conditions and Outlook

Manufacturing continues to be a vital part of our local economy, which is why the city announced plans for a new industrial park. The Harold P. Young Industrial Park is a 150 acre site located off S.R. 412 just north of the Bark Creek Industrial Park. It has been more than 30 years since the city has had a new industrial park. The development of a new industrial park is the most significant goal in our Think Fremont, economic development plan and will be a major contributor toward the growth of our community. The city is partnering with Sandusky County Commissioners, Fremont Development Corporation and the Sandusky County Economic Development Corporation for this venture. The City will break ground on the project in May of 2023.

In April, the city announced the arrival of Mastec Incorporated, an infrastructure construction company that brought 40 well-paying jobs to Fremont with an average salary of \$35.00 an hour. Not only did Mastec bring 40 well playing jobs to Fremont they also occupied an industrial building that has been vacant for several years.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED DECEMBER 31, 2022 (Unaudited)

The city continues to maintain good working relationships is done through our Business, Retention, and Expansion (BR&E) Program. These BR&E visits allow the city to assist in the growth and success of many of many the city's manufacturers. In 2022, the city conducted twenty-six BR&E visits with local companies such as the Freeman Company, Quality Steel, ProMedica Hospital, Green Bay Packaging, International Cushing Company, Beck Supplies, Pixelle, Heinz, Crown Battery, Alkon, Ardagh, Amcor, Christy Machine, Sweeney Warehouses and Total Distribution.

In order to assist many of the city's employers, we launched the Worker Relocation Grant Program. This program was initiated to help address some of workforce concerns of many of city's businesses. The program assists those individuals relocating to Fremont for work by helping them with some of their moving expenses. Helping local companies attract new talent to our community makes Fremont a more vibrant place to work and call home.

We have created out of positive momentum by initiating the Small Business Blitz program, which highlights several small business owners each month. Helping them tell their story, giving some publicity to attract new customers and appreciating their involvement in our community is another way of supporting local business owners that helps create positive energy in Fremont. So far, we have visited more than 30 small business owners and plan to visit at least another 40 businesses before the end of the year. This program allows us to support small businesses which in turn helps the local economy.

Expanding the City's Community Reinvestment Area (CRA) tax abatement program to be city wide has allowed for new growth. This incentive has led to more than 80 new homes being built in the City of Fremont over the past two years with more home construction expected to continue throughout 2023 and 2024. The CRA has also incentivized several businesses to relocate to Fremont as well as help existing businesses to grow. Prior to expanding the CRA in 2019 very few property owners were utilizing this local incentive, now with expanding the area to be city wide and marketing the program there are now 85 certified CRAs in Fremont with several more in the process of being certified. This incentive is one the most significant reasons for renewed interested in Fremont and has sparked a lot of our growth.

The City has partnered with our local civic organizations Kiwanis and Rotary to add some much needed community amenities. The city partnered with Kiwanis to construct a new all-inclusive play park and now the city is partnering with Rotary to construct a new downtown amphitheater. In addition, the Birchard Historic Neighborhood Association (BHNA) is partnering with the city to make neighborhood improvements near the Rutherford B. Hayes Presidential Center including a new fountain, seating and lighting at Maier Park. Great well maintained neighborhoods is one of our goals to help attract new people to our community.

Much of the economic growth and improvements in our community are being recognized throughout the State of Ohio and even the nation. Site Selection Magazine, a national economic development publication, ranked Fremont-Sandusky County as number seven out of their top 550 micropolitans in the country for 2022. Many things are happening in Fremont all in an effort to improve the quality of life, provide new opportunities, increase residents earned income and attract new families to our community.

Contacting the City's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information contact: Mr. Paul Grahl, City Auditor, City of Fremont, 323 South Front Street, Fremont, Ohio 43420-3037.

RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES TO NET POSITION OF GOVERNMENTAL ACTIVITIES ${\tt DECEMBER~31,2022}$

Total governmental fund balances		\$	14,564,791
Amounts reported for governmental activities on the			
statement of net position are different because:			
Comital access wood in accommendal activities are not financial accommen			
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.			27,118,730
and therefore are not reported in the runds.			27,110,730
Other long-term assets are not available to pay for current-period			
expenditures and therefore are deferred inflows in the funds.			
Income taxes receivable	\$ 849,665		
Delinquent property taxes receivable	52,773		
Due from other governments	534,957		
Accrued interest receivable	66,602		
Total			1,503,997
An internal service fund is used by management to charge the costs of			
internal equipment service to individual funds. The assets and liabilities			
of the internal service fund are included in governmental activities			
on the statement of net position.			(35,591)
When consolidating the internal service fund, the portion of the operating			
income or loss allocated to business-type activities is eliminated from			/* ***
the governmental activities and is reported as a component of internal balance.			(1,680)
In the statement of not resition interest is accounted an autotanding hands			
In the statement of net position interest is accrued on outstanding bonds, whereas in governmental funds, interest is reported when due.			(42 725)
whereas in governmental funds, interest is reported when due.			(43,725)
Unamortized premiums on bond issuances are not recognized in the funds.			(599)
The section of the desired section 1.1.1.1.			
The net pension asset and net pension liability are not available to pay for			
current period expenditures and are not due and payable in the current			
period, respectively; therefore, the asset, liability and related deferred			
inflows/outflows are not reported in governmental funds (excludes internal service fund balances).			
Net pension asset	30,675		
Deferred outflows of resources - pension	4,477,595		
Deferred outflows of resources - pension Deferred inflows of resources - pension	(5,386,939)		
Net pension liability	(11,775,938)		
Total	 (11,773,938)		(12,654,607)
1041			(12,03 1,007)
The net OPEB asset and net OPEB liability are not available to pay for			
current period expenditures and are not due and payable in the current			
period, respectively; therefore, the asset, liability and related deferred			
inflows/outflows are not reported in governmental funds (excludes internal			
service fund balances).			
Net OPEB asset	610,503		
Deferred outflows of resources - OPEB	997,572		
Deferred inflows of resources - OPEB	(1,277,223)		
Net OPEB liability	 (1,753,520)		
Total			(1,422,668)
Long-term liabilities, including bonds payable and lease purchase			
obligations, are not due and payable in the current period and therefore			
are not reported in the funds. The long-term liabilities are as follows:			
General obligation bonds	(140,000)		
Bond Anticipation Note	(1,070,000)		
Lease payable	(8,140)		
Lease purchase obligation	(2,190,810)		
Compensated absences	(569,986)

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2022

Net change in fund balances - total governmental funds		\$	(1,558,777)
Amounts reported for governmental activities in the statement of activities are different because:			
Government funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation/amortization expense.			
Capital asset additions	\$ 1,688,329		
Current year depreciation/amortization Total	(2,076,898)		(388,569)
			(300,307)
Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported			
for each disposal.			(36,024)
Revenues in the statement of activities that do not provide current financial			
resources are not reported as revenues in the funds.	(2.052)		
Delinquent property tax revenue Intergovernmental revenue	(2,952) 27,123		
Income tax revenue	8,936		
Investment income	26,379		
Total			59,486
Proceeds of bond anticipation notes are reported as an other financing			
source in the funds, however, in the statement of activities, they are not			
reported as revenues as they increase the liabilities on the statement of net position.			(1,070,000)
Repayment of the general obligation bonds is an expenditure in the governmental			
funds; however, in the statement of activities it is not recorded as an expense			
as it decreases liabilities on the statement of net position.			1,314,500
In the statement of activities, interest is accrued on outstanding bonds, whereas			
in governmental funds, interest is expensed when due. The following items			
resulted in more interest being reported in the statement of activities: (Increase) in accrued interest	(2,833)		
Amortization of bond premiums	314		
Total			(2,519)
Some expenses reported in the statement of activities, such as compensated			
absences, do not require the use of current financial resources and therefore			
are not reported as expenditures in governmental funds.			141,872
Contractually required pension contributions are reported as expenditures in			
governmental funds; however, the statement of activities reports these			1 242 010
amounts as deferred outflows.			1,343,810
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.			(458,985)
			(150,705)
Contractually required OPEB contributions are reported as expenditures in governmental funds; however, the statement of activities reports these			
amounts as deferred outflows.			23,355
Except for amounts reported as deferred inflows/outflows, changes in the net			
OPEB liability are reported as OPEB expense in the statement of activities.			348,842
An internal service fund is used by management to charge the costs of internal			
equipment service and employee benefits to individual funds are not reported			
in the statement of activities. Governmental fund expenditures and the related			
internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund, including internal balance of (\$1,292), is allocated among			
the governmental activities.			27,890
Change in net position of governmental activities		\$	(255,119)
Change in her position of governmental activities		Ψ	(200,117)

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022

NOTE 1 - DESCRIPTION OF THE CITY

The City of Fremont, Sandusky County, Ohio (the City) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The City operates under a Council/Mayor form of government and provides the following services to its residents: public safety, highways and streets, water, sewer, health and social services, culture recreation, public improvements, planning and zoning and general administration services.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements (BFS) of the City have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The most significant of the City's accounting policies are described below.

A. Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards, and agencies that are not legally separate from the City. The City's reporting entity has been defined according to GASB Statement No. 14, "The Financial Reporting Entity", and as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34" and GASB Statement No. 80, "Blending Requirements for Certain Component Units an Amendment of GASB Statement No. 14."

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; or (3) the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the organization's budget, the issuance of its debt or the levying of its taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the City and the organization is such that exclusion by the City would render the City's financial statements incomplete or misleading. Based upon these criteria, the City has no component units but is a member of an insurance pool described in Note 14 and a jointly governed organization described in Note 23.

B. Basis of Presentation - Fund Accounting

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

<u>Government-Wide Financial Statements</u> - The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities. On the statement of activities, interfund services provided and used are not eliminated in the process of consolidation.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

The statement of net position presents the financial condition of the governmental and business-type activities of the City at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental program is self-financing or draws from the general revenues of the City.

<u>Fund Financial Statements</u> - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

C. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows and liabilities and deferred inflows is reported as fund balance.

The following is the City's major governmental fund:

<u>General fund</u> - The General fund is used to account for and report all financial resources not accounted for and reported in another fund. The General fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Other governmental funds of the City are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets, (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects and (c) financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

PROPRIETARY FUNDS

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service.

<u>Enterprise funds</u> - The enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major enterprise funds:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

<u>Water fund</u> - This fund accounts for the provision of water treatment and distribution to its residential and commercial users located within the City.

<u>Sewer fund</u> - This fund accounts for the provision of sanitary sewer service to the residential and commercial users located within the City.

<u>Internal Service fund</u> - The Internal Service fund accounts for the financing of services provided by one fund or department to other funds or departments of the City on a cost-reimbursement basis. The City's internal service fund reports on the operations of the servicing of internal equipment.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The City's only fiduciary funds are custodial funds. The City's custodial funds account for various funds held for Municipal Court activity, including Ohio Highway Patrol portion of Municipal Court fines, and the collections for the County Sewer District.

D. Measurement Focus and Basis of Accounting

<u>Government-Wide Financial Statements</u> - The government-wide financial statements are prepared using the economic resources measurement focus. All assets, all deferred outflows, all liabilities and all deferred inflows associated with the operation of the City are included on the statement of net position.

<u>Fund Financial Statements</u> - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current deferred outflows, current liabilities and current deferred inflows generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary funds and fiduciary funds are accounted for on a flow of economic resources measurement focus. All assets, all deferred outflows, all liabilities and all deferred inflows associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the City's proprietary funds are charges for sales and services. Operating expenses for the enterprise funds include personnel and other expenses related to the operations of the enterprise activities and operating expenses for the internal service fund include personnel costs and administrative expenses. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

E. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows and outflows and in the presentation of expenses versus expenditures.

<u>Revenues - Exchange and Nonexchange Transactions</u> - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, available means expected to be received within sixty days of year end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned (See Note 7). Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: income taxes, charges for services, State-levied locally shared taxes (including gasoline taxes, local government funds and permissive taxes), fines and forfeitures, grants, interest and licenses permits and fees.

<u>Deferred Outflows of Resources and Deferred Inflows of Resources</u> - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. See Notes 15 and 16 for deferred outflows of resources related to net pension liability/asset and net OPEB liability/asset, respectively.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2022, but which were levied to finance 2023 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. Unavailable revenue includes, but is not limited to, income taxes, delinquent property taxes, and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The deferred inflow of resources for leases is related to the lease receivable and is being amortized to lease revenue in a systematic and rational manner over the term of the lease.

See Notes 15 and 16 for deferred inflows of resources related to net pension liability/asset and net OPEB liability/asset, respectively. These deferred inflows of resources are only reported on the government-wide statement of net position.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

F. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations ordinance are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than custodial funds, are legally required to be budgeted and appropriated. The legal level of control has been established at the fund-department and within each department, the amount spent on personal services and all other expenditures for all funds.

Estimated Resources - The County Budget Commission reviews the estimated revenues and determines if the budget substantiates a need to levy all or part of previously authorized taxes. The County Budget Commission certifies its actions to the City by September 1. As part of this certification, the City receives the official certificate of estimated resources, which states the estimated beginning of year fund balance and projected revenue of each fund. On or about December 31, the City must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about January 1, the certificate of estimated resources is amended to include the actual unencumbered fund balances from the preceding year. The certificate of estimated resources may be further amended during the year if the City Auditor determines that revenue to be collected will be greater than or less than prior estimates and the County Budget Commission finds the revised estimates to be reasonable. The amounts set forth in the financial statements represent estimates from the first and final amended official certificate of estimated resources issued during 2022.

<u>Appropriations</u> - A temporary appropriation ordinance to control expenditures may be passed on or about January 1 of each year for the period January 1 to March 31. An annual appropriation ordinance must be passed by April 1 of each year for the period January 1 to December 31. The appropriation ordinance fixes spending authority at the fund, department, and within each department, the amount for personal services and all other expenditures. The appropriation ordinance may be amended during the year as new information becomes available, provided that total fund appropriations do not exceed current estimated resources, as certified. The allocation of appropriations among departments and objects within a fund may be modified during the year by an ordinance of Council. The amounts set forth in the financial statements represent the original and final appropriations approved by City Council during 2022.

<u>Lapsing of Appropriations</u> - At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are reappropriated in the succeeding year.

<u>Encumbrances</u> - As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are encumbered and recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation. On the GAAP basis, encumbrances outstanding at year end are reported as restricted, committed, or assigned classifications of fund balance in the governmental fund financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

G. Cash and Investments

To improve cash management, cash received by the City is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through City records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the basic financial statements.

Cash and cash equivalents that are held separately for the City in segregated accounts and not held with the City Treasurer are recorded on the basic financial statements as "cash in segregated accounts".

During 2022, investments were limited to the Federal Home Loan Mortgage Corporation (FHLMC) securities, Federal National Mortgage Association (FNMA) securities, Federal Farm Credit Bank (FFCB) securities, Federal Home Loan Bank (FHLB) securities, Federal Agriculture Mortgage Corporation (FAMC) securities, negotiable certificates of deposit (negotiable CD's), U.S. Treasury notes, State Treasury Asset Reserve of Ohio (STAR Ohio), and a U.S. Government money market fund. Except for investments in STAR Ohio, the City measures its investments at fair value which is based upon quoted market prices.

During 2022, the City invested in STAR Ohio. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The City measures its investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides NAV per share that approximates fair value.

For 2022, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice for deposits and withdrawals of \$100 million or more is encouraged. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Interest earnings are allocated to City funds according to State statutes, grant requirements, or debt related restrictions. Interest revenue credited to the General fund during 2022 was \$382,347, which includes \$303,529 assigned from other City funds.

For purposes of the statement of cash flows and for presentation on the basic financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the City are considered to be cash equivalents. Investments with an initial maturity of more than three months, and not purchased from the pool, are reported as investments.

H. Loans Receivable

Loans receivable represent the right to receive repayment for certain loans made by the City. These loans are based upon written agreements between the City and the various loan recipients.

I. Inventories of Materials and Supplies

On the government-wide and fund financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method. On fund financial statements, reported material and supplies inventory is equally offset by a nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

J. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value. The City maintains a capitalization threshold of \$2,500. The City's governmental infrastructure consists of bridges, culverts, curbs, sidewalks, storm sewers and streets. The City's proprietary and business-type infrastructure consists of water and sewer lines. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of proprietary capital assets is also capitalized.

All reported capital assets are depreciated except for land and construction in progress. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities <u>Estimated Lives</u>	Business-Type Activities <u>Estimated Lives</u>
Land improvements	10-50 years	10-50 years
Buildings	25-50 years	25-50 years
Building improvements	5-50 years	5-25 years
Machinery and equipment	3-30 years	5-10 years
Intangible leased assets	5 years	-
Infrastructure - streets, sidewalks,		
and storm sewers	25-50 years	50 years
Infrastructure - bridges and culverts	25-50 years	25-50 years

The City is reporting intangible right to use assets related to leased equipment. The intangible assets are being amortized in a systematic and rational manner of the shorter of the lease term or the useful life of the underlying asset.

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable the City will compensate the employees for the benefits through paid time off or some other means. The City records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at December 31 by those employees who are currently eligible to receive termination payments as well as the sick leave accumulated by those employees expected to become eligible to receive termination benefits in the future. The amount is based on accumulated sick leave and employee wage rates at year end taking into consideration any limits specified in the City's union contracts or administrative ordinance. The City records a liability for accumulated unused sick leave for all employees with 10 or more years of service with the City up to a maximum of 500 hours for all employees except police sergeants, captains, and firefighters, which have a maximum of 600 hours.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

The entire compensated absence liability is reported on the government-wide financial statements.

On governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported. For proprietary funds, the entire amount of compensated absences is reported as a fund liability.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

M. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the BFS. Interfund activity between governmental funds is eliminated for reporting on the governmental statement of activities.

N. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

<u>Restricted</u> - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (ordinance) of City Council (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes, but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the General fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General fund, assigned amounts represent intended uses established by policies of City Council, which includes giving the City Auditor the authority to constrain monies for intended purposes. The City Council has also assigned amounts to cover a gap between estimated resources and appropriations in the 2022 budget.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the General fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

O. Restricted Assets

Customer deposits are held in the Water fund to assure payment of utility bills. At December 31, 2022, the City held \$92,295 in restricted customer deposits. These restricted assets are equally offset by a restricted payable so there is no effect on net position of the Water fund.

P. Bond Issuance Costs, Bond Premiums and Discounts, Accounting Gain or Loss

On both the government-wide financial statements and the fund financial statements, bond issuance costs are recognized in the period in which these items are incurred.

On the government-wide financial statements, bond premiums and discounts are amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds and bond discounts are presented as a reduction to the face amount of the bonds. On the governmental fund financial statements, bond premiums and discounts are recognized in the period in which these items are incurred. The reconciliation between the face value of bonds and the amount reported on the statement of net position is presented in Note 12.

For current and advance refundings resulting in the defeasance of debt reported in the government-wide financial statements and enterprise funds, the difference between the reacquisition price and the net carrying amount of the old debt is amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred inflow of resources or a deferred outflow of resources.

Q. Estimates

The preparation of the BFS in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the BFS and accompanying notes. Actual results may differ from those estimates.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

R. Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, grants or outside contributions of resources restricted to capital acquisition and construction, or capital assets that are purchased by a fund and then transferred to another fund. Capital contributions are reported as nonoperating revenue in the proprietary fund financial statements. During 2022, the City did not report any capital contributions.

S. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. None of the City's net position are restricted by enabling legislation.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

T. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City Administration and that are either unusual in nature or infrequent in occurrence. In 2022, the City had no extraordinary or special items.

U. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability/asset, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

V. Prepayments

Payments made to vendors for services that benefit future periods are recorded as prepayments in both government-wide and fund financial statements. A current asset for the prepaid amount is recorded at the time of purchase, and the expenditure is reported in the year in which services are consumed. Governmental fund balance has been presented as nonspendable equal to the balance of the prepayments at year-end.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For 2022, the City has implemented GASB Statement No. 87, "Leases", GASB Implementation Guide 2019-3, "Leases", GASB Implementation Guide 2020-1, "Implementation Guide Update - 2020", GASB Statement No. 91, "Conduit Debt Obligations", GASB Statement No. 92, "Omnibus 2020", GASB Statement No. 93, "Replacement of Interbank Offered Rates", GASB Statement No. 97, "Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32" and certain paragraphs of GASB Statement No. 99, "Omnibus 2022".

GASB Statement No. 87 and GASB Implementation Guide 2019-3 enhance the relevance and consistency of information of the government's leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources.

These changes were incorporated in the City's 2022 financial statements. The City recognized \$78,164 in governmental activities in leases receivable at January 1, 2022, due to the implementation of GASB 87; however, this entire amount was offset by deferred inflows of resources for leases. The City also recognized \$14,378 in governmental activities in leases payable at January 1, 2022; however, this entire amount was offset by the intangible asset, right to use lease - equipment.

GASB Implementation Guide 2020-1 provides clarification on issues related to previously established GASB guidance. The implementation of GASB Implementation Guide 2020-1 did not have an effect on the financial statements of the City.

GASB Statement No. 91 provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The implementation of GASB Statement No. 91 did not have an effect on the financial statements of the City.

GASB Statement No. 92 enhances comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The implementation of GASB Statement No. 92 did not have an effect on the financial statements of the City.

GASB Statement No. 93 establishes accounting and financial reporting requirements related to the replacement of Interbank Offered Rates (IBORs) in hedging derivative instruments and leases. It also identifies appropriate benchmark interest rates for hedging derivative instruments. The implementation of GASB Statement No. 93 did not have an effect on the financial statements of the City.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

GASB Statement No. 97 is to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The implementation of GASB Statement No. 97 did not have an effect on the financial statements of the City.

GASB Statement No. 99 is to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The implementation of GASB Statement No. 99 did not have an effect on the financial statements of the City.

B. Deficit Fund Balances

Fund balances at December 31, 2022 included the following individual fund deficits:

Nonmajor funds
Local transportation

Deficit

645

The General fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

Monies held by the City are classified by State statute into three categories:

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the City Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that Council has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits in interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim monies may be deposited or invested in the following:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

- 3. Written repurchase agreements in securities listed above provide that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio; and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in items 1 or 2 above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool, the State Treasury Asset Reserve of Ohio (STAR Ohio); and,
- 8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met.

The City may also invest any monies not required to be used for six months or more in the following:

- 1. Bonds of the State of Ohio; and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
- 2. Bonds of any municipal corporation, village, county, township, or other political subdivision of this state, as to which there is no default of principal, interest or coupons; and,
- 3. Obligations of the City.

Protection of the deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

<u>Restricted equity in pooled cash:</u> At year-end, the City had \$92,295 in restricted assets for refundable deposits from customers of the Water fund. This amount is included in the "Deposits with Financial Institutions" below.

A. Cash in Segregated Accounts

At year end, \$10,322 was on deposit in segregated accounts for the Municipal Court and small business checking account. These accounts are included in the total amount of "Deposits with Financial Institutions" reported below; however, this amount is not part of the internal cash pool reported on the statement of net position and the governmental funds balance sheet as "equity in pooled cash and investments".

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

B. Deposits with Financial Institutions

At December 31, 2022, the carrying amount of all City deposits was \$5,525,621 and the bank balance of all City deposits was \$6,093,388. Of the bank balance, \$250,422 was covered by the FDIC and \$5,842,966 was covered by the Ohio Pooled Collateral System.

Custodial credit risk is the risk that, in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. The City has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the City's and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2022, the City's deposits were collateralized through participation in the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the City to a successful claim by the FDIC.

C. Investments

As of December 31, 2022, the City had the following investments and maturities:

								Investment Maturities				
Measurement/	M	leasurement	6	months or		7 to 12		13 to 18		19 to 24	(Greater than
Investment type		Value	_	less	-	months	-	months	_	months	_	24 months
Amortized cost:												
STAR Ohio	\$	1,521,000	\$	1,521,000	\$	-	\$	-	\$	-	\$	-
Fair value:												
FHLMC		987,483		-		-		-		-		987,483
FNMA		2,343,061		-		-		-		-		2,343,061
FHLB		6,607,813		628,360		1,411,745		389,740		-		4,177,968
FFCB		7,263,555		792,524		684,545		368,877		1,511,452		3,906,157
FAMC		324,508		-		-		-		-		324,508
U.S. Treasury Note		9,153,035		1,237,382		1,350,105		-		577,593		5,987,955
Negotiable CD		5,208,492		2,127,758		241,060		2,619,461		-		220,213
U.S. Government Money												
Market Mutual funds	_	42,575		42,575	_		_		_			
Total	\$	33,451,522	\$	6,349,599	\$	3,687,455	\$	3,378,078	\$	2,089,045	\$	17,947,345

The weighted average maturity of investments is 1.40 years.

<u>Fair Value Measurements:</u> The City categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City's investments in U.S. government money market mutual funds are valued using quoted market prices in active markets (Level 1 inputs). The City's investments in federal agency securities and negotiable CDs are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

<u>Interest Rate Risk:</u> The Ohio Revised Code general limits security purchases to those that mature within five years of the settlement date. Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The City's investment policy addresses interest rate risk by requiring the consideration of market conditions and cash flow requirements in determining the term of an investment.

<u>Credit Risk:</u> The City's investments in federal agency securities and U.S. Treasury notes were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. The City's negotiable CD's were not rated but are fully insured by the FDIC. Standard & Poor's has assigned STAR Ohio and the U.S. Treasury money market mutual funds an AAAm money market rating. The City limits its investments to those authorized by State statute.

<u>Concentration of Credit Risk</u>: The City's investment policy addresses concentration of credit risk by requiring investments to be diversified to reduce the risk of loss resulting from over concentration of assets in a specific issue or specific class of securities. The following table includes the percentage of each investment type held by the City at December 31, 2022:

Measurement/	N	leasurement Value	% of Total
Investment type		value	% of Total
Amortized cost:			
STAR Ohio	\$	1,521,000	4.55
Fair value:			
FHLMC		987,483	2.95

FHLB		6,607,813	19.75
FFCB		7,263,555	21.72
FAMC		324,508	0.97
U.S. Treasury Note		9,153,035	27.36
Negotiable CD		5,208,492	15.57
U.S. Government Money			
Market Mutual funds		42,575	0.13
Total	\$	33,451,522	100.00

D. Reconciliation of Cash and Investments to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the note disclosure above to cash and investments as reported on the statement of net position as of December 31, 2022:

Cash and investments per note disclosure	
Carrying amount of deposits	\$ 5,525,621
Investments	33,451,522
Cash in segregated accounts	 10,322
Total	\$ 38,987,465
Cash and investments per statement of net position	
Governmental activities	\$ 13,724,682
Business-type activities	25,201,277
Custodial funds	61,506
Total	\$ 38,987,465

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

NOTE 5 - INTERFUND TRANSFERS

Interfund transfers for the year ended December 31, 2022 consisted of the following, as reported in the fund financial statements:

<u>Transfers from:</u>	General
Nonmajor governmental funds	\$ 1,662,722

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; to move unrestricted revenues collected in the General fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to provide additional resources for current operations or debt service; reclassification of prior year distributed monies, to segregate money for anticipated capital projects; and to return money to the fund from which it was originally provided once a project is completed.

Transfers between governmental funds are eliminated on the government-wide financial statements.

NOTE 6 - PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the City. Taxes collected from real property taxes (other than public utility) in one calendar year are levied in the preceding calendar year on the assessed value as of January 1 of that preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revaluated every six years. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Public utility tangible personal property is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2022 public utility property taxes became a lien December 31, 2021, are levied after October 1, 2022, and are collected in 2023 with real property taxes. Public utility property taxes are payable on the same dates as real property taxes described previously.

The County Treasurer collects property taxes on behalf of all taxing districts in the County, including the City of Fremont. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real property taxes, public utility taxes, tangible personal property taxes and outstanding delinquencies which are measurable as of December 31, 2022 and for which there is an enforceable legal claim. In the governmental funds, the current portion receivable has been offset by deferred inflows since the current taxes were not levied to finance 2022 operations and the collection of delinquent taxes has been offset by deferred revenue since the collection of the taxes during the available period is not subject to reasonable estimation. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on a modified accrual basis the revenue is deferred inflow.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

The full tax rate for all City operations for the year ended December 31, 2022 was \$3.20 per \$1,000 of assessed value. The assessed values of real and public utility property upon which 2021 property tax receipts were based are as follows:

Real property	
Residential/agricultural	\$ 168,533,310
Commercial/industrial/mineral	106,391,170
Public utility	
Real	70,760
Personal	26,740,960
Total assessed value	\$ 301,736,200

NOTE 7 - LOCAL INCOME TAX

The City levies and collects an income tax of 1.5 percent based on all income earned within the City as well as on incomes of residents earned outside the City. In the latter case, the City allows a credit of 100 percent of the tax paid to another municipality, not to exceed the amount owed. Employers within the City are required to withhold income tax on employee earnings and remit the tax to the City at least quarterly. Corporations and other individual taxpayers are also required to pay their estimated tax at least quarterly and file a final return annually. Income tax revenue is credited to the General fund and amounted to \$10,987,325 in 2022. The Regional Income Tax Agency administers and collects income taxes for the City. Payments are remitted monthly net of collection fees of approximately three percent.

NOTE 8 - RECEIVABLES

A. Receivables

Receivables at December 31, 2022 consisted of taxes, accounts (billings for user charged services), loans, accrued interest, and intergovernmental receivables arising from grants, entitlements, and shared revenue. All intergovernmental receivables have been classified as "due from other governments" on the basic financial statements. Receivables have been recorded to the extent that they are measurable and available at December 31, 2022.

A summary of the principal items of receivables reported on the statement of net position follows:

	Governmental	Business-Type
Receivables:	Activities	Activities
Income taxes	\$ 2,710,326	\$ -
Property and other local taxes	945,446	-
Accounts	68,742	2,475,022
Loans	1,092,415	-
Accrued interest	115,323	-
Due from other governments	796,654	144,430
Leases receivable	75,088	
Total	\$ 5,803,994	\$ 2,619,452

Receivables have been disaggregated on the face of the basic financial statements. The only receivables not expected to be collected within the subsequent year is the loans receivable, which is collected over the life of the loans (see Note 9) and leases receivable, which is discussed on the following page. \$144,430 of the business-type activities receivable is further described in Note 21.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

B. Leases Receivable

The City is reporting leases receivable of \$75,088 in the General fund. For fiscal year 2022, the City recognized lease revenue of \$4,078, which is reported in rental income, and interest revenue of \$996.

The City has entered into lease agreements for building space rental with the following terms:

	Lease		Lease	
	Commencement		End	Payment
<u>Purpose</u>	Date	Years	Date	Method
Building space	2021	20	2041	Annual

Lease payments will be paid into the General fund. The following is a schedule of future lease payments under the lease agreements:

Fiscal Year]	Principal_	_	Interest	_	Total
2023	\$	2,518	\$	982	\$	3,500
2024		3,051		949		4,000
2025		3,091		909		4,000
2026		3,131		869		4,000
2027		3,172		828		4,000
2028 - 2032		20,067		3,433		23,500
2033 - 2037		23,980		2,020		26,000
2038 - 2041	_	16,078	_	422		16,500
Total	\$	75,088	\$	10,412	\$	85,500

NOTE 9 - LOANS RECEIVABLE

The Fremont City Council created the Revolving Loan Committee and granted them the authority to act on behalf of the City of Fremont in making loans from the City's revolving loan fund to qualified applicants within the revolving loan fund geographic area. At the close of 2022, there were loans to three businesses with a total principal balance of \$235,373. \$20,188 is the amount due within one year and \$215,185 is due in more than one year.

Additionally, the City has entered into an agreement with Sandusky County and the Fremont Development Corporation to loan \$857,042 to a developer to develop land and turn the land into an industrial park. The Developer will repay the loan through money generated by the sale of properties in the industrial park.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

NOTE 10 - CAPITAL ASSETS

Due to the implementation of GASB Statement No. 87 (see Note 3.A for detail), the City has reported capital assets for the right to use leased equipment which are reflected in the schedule below. Capital asset activity for the year ended December 31, 2022 was as follows:

Governmental activities:	Restated Balance 12/31/21	Additions	_Deletions	Balance 12/31/22
Capital assets, not being depreciated/amortized: Land Construction-in-progress	\$ 864,955 1,258,974	\$ - 1,472,659	\$ - (999,305)	\$ 864,955 1,732,328

Construction in progress represents costs of the Water fund relating to a chemical feed building as of December 31, 2022.

Capital Assets related to Ohio Water Development Authority (OWDA) loans include \$940,443 in capitalized interest from years prior to the implementation of GASB Statement No. 89, "<u>Accounting for Interest Cost Incurred before the End of a Construction Period.</u>"

Depreciation expense was charged to the enterprise funds of the City as follows:

Business-type activities:		Depreciation Expense		
Water fund Sewer fund	\$	2,298,860 2,659,326		
Total depreciation expense	\$	4,958,186		

NOTE 11 - FINANCED PURCHASE NOTE PAYABLE

The financed purchase note payable agreements are direct borrowings that have terms negotiated directly between the City and the vendor and are not offered for public sale.

In 2018, the City entered into a financed purchase note payable agreement to finance the purchase of energy efficient equipment. Principal and interest payments are made 46% from the capital improvement fund and 54% from the Water fund. In the event of default, the lessor may declare all rental payments payable by the City and other amounts payable by the City hereunder to the end of the then current original term or renewal term to be immediately due and payable.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

In 2019 and 2020, the City entered into financed purchase note payable agreements to finance the purchases of fitness equipment. Principal and interest payments are made from the public recreation fund (a nonmajor governmental fund).

Principal and interest requirements to retire the financed purchase note payable as of December 31, 2022 are as follows:

Year	Gove	ernmental Acti	vities	Year	Busin	ness-Type Acti	vities		
Ending	Finance	d purchase note	e payable	Ending	Finance	Financed purchase note payable

NOTE 12 - LONG-TERM OBLIGATIONS

A. Governmental activities

Due to the implementation of GASB Statement No. 87 (see Note 3.A for detail), the City has reported obligations for leases payable which are reflected in the schedule below. The City's governmental activities long-term obligations at December 31, 2022 were as follows.

Governmental activities:	Restated Balance 12/31/21	Increases	Decreases	Balance 12/31/22	Amount Due Within One Year
General obligation bonds:	.		. (67.000)		#
Police and fire pension	\$ 205,000	\$ -	\$ (65,000)	\$ 140,000	\$ 70,000
Bond anticipation notes:					
Street improvement	1,070,000	1,070,000	(1,070,000)	1,070,000	1,070,000
Other long-term obligations:

Total	19,301,784	1,426,531	(3,133,448)	17,594,867	1,449,129
Unamortized premium on bonds	913		(314)	599	
Total long-term obligations	\$ 19,302,697	\$ 1,426,531	\$ (3,133,762)	\$ 17,595,466	\$ 1,449,129

Police and Fire Pension General Obligation Bonds

On October 31, 2012, the City issued \$745,000 in general obligation bonds. The proceeds of these bonds were used to retire the police and fire past service liability. The bonds bear interest rates ranging from 1.7% to 2.7%. These bonds are a general obligation of the City, and principal and interest payments will be made from the police and fire debt service fund. These bonds mature on December 1, 2024. The general obligation bonds are supported by the full faith and credit of the City.

Street Improvement Notes

On June 23, 2022, the City issued \$1,070,000 in notes related to governmental activities. The proceeds of these notes were used to pay off the previous street improvement notes. The notes bear an interest rate of 0.195%. These bonds will mature on June 23, 2023. The City entered into a qualifying financing agreement subsequent to year end in the amount of \$1,070,000.

Lease Purchase Agreements

See Note 11 for information on the City's lease purchase agreements.

Compensated Absences

Compensated absences will be paid from the fund from which the employees' salaries are paid, which for the City is primarily the General fund and the street maintenance fund (a nonmajor governmental fund).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Net Pension Liability and Net OPEB Liability

The City pays obligations related to employee compensation from the fund benefitting from their service. See Note 15 and Note 16 for further information.

Leases Payable

The City has entered into lease agreements for the use of right to use equipment. Due to the implementation of GASB Statement No. 87, the City will report an intangible capital asset and corresponding liability for the future scheduled payments under the leases. The lease payments will be paid from the General fund and the recreation nonmajor special revenue fund.

The City has entered into lease agreements for copier equipment at varying years and terms as follows:

	Lease			
	Commencement		End	Payment
Purpose	Date	Years	Date	Method
Copiers	2018-2020	5	2023-2025	Monthly

The following is a schedule of future lease payments under the lease agreements:

Fiscal Year	<u>P</u> 1	rincipal	 Interest	_	Total
2023	\$	5,542	\$ 70	\$	5,612

Series 2012 Water Refunding General Obligation Bond

On October 3, 2012, the City issued \$6,900,000 in general obligation current refunding bonds to refund outstanding general obligation bonds. The balance of the refunding bonds at December 31, 2019 is \$2,415,000. The refunding bonds bear an annual interest rate ranging from 2.00% - 5.00% and will mature in 2024. The general obligation bonds are a general obligation of the City, and the principal and interest payments are paid from the Water fund. A portion of the proceeds of the bonds were used for the advance refunding of the 2003 general obligation bonds. These proceeds were used to purchase state and local government securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of the refunded debt. The balance of the refunded bonds at December 31, 2022 is \$1,300,000; however, this amount is not included in the City's outstanding debt since the City has satisfied its obligations through the advance refunding. The general obligation bonds are supported by the full faith and credit of the City.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Ohio Public Works Commission (OPWC) Loans

The OPWC loans were granted from the Ohio Public Works Commission in 2004 and 2017, and do not carry an interest rate. The OPWC loan granted in 2004 is an obligation of the Sewer fund, and the principal payments are paid out of the Sewer fund. The OPWC loan granted in 2017 is an obligation of the Water fund, and the principal payments are paid out of the Water fund. The OPWC loan proceeds were used for improvements to the sewer plant and facilities and waterlines.

OPWC loans are direct borrowings that have terms negotiated directly between the City and the OPWC and are not offered for public sale. In the event of default, the OPWC may (1) charge an 8% default interest rate from the date of the default to the date of the payment and charge the City for all costs incurred by the OPWC in curing the default, (2) in accordance with Ohio Revised Code 164.05, direct the county treasurer of the county in which the City is located to pay the amount of the default from funds that would otherwise be appropriated to the City from such county's undivided local government fund pursuant to ORC 5747.51-5747.53, or (3) at its discretion, declare the entire principal amount of loan then remaining unpaid, together with all accrued interest and other charges, become immediately due and payable.

Ohio Water Development Authority (OWDA) Loans

The City has entered into loans with the Ohio Water Development Authority for the construction of the Water Reservoir Phase 1, Water Reservoir Phase 2, Sewer Dam Removal Project, Water Pollution Control Center Expansion and Off Stream Raw Water Supply Phase 2A. The OWDA loans carry interest rates of 2.49% - 4.49% and mature between July 1, 2031 and July 1, 2046. Repayment of these loans will be funded through user charges.

The City has pledged future water and sewer revenues to repay OWDA loans. The loans are payable solely from water and Sewer fund revenues and are payable through a future date which has yet to be finalized. Annual principal and interest payments on the loans are expected to require 57.45 percent of net revenues and 34.39 percent of total revenues. The total principal and interest remaining to be paid on the loans is \$109,143,075. Principal and interest paid for the current year were \$5,987,548, total net revenues were \$10,422,963 and total revenues were \$17,411,291.

OWDA loans are direct borrowings that have terms negotiated directly between the City and the OWDA and are not offered for public sale. In the event of default, the OWDA may declare the full amount of the then unpaid original loan amount to be immediately due and payable and/or require the City to pay any fines, penalties, interest, or late charges associated with the default.

C. Future Debt Service Requirements

Principal and interest requirements to retire the general obligation bonds, the OPWC loans, and the police and fire pension liability as of December 31, 2022 are as follows:

Year	Pension Liability -								
Ending		Police and Fire Pension							
December 31,	_ P	Principal		Principal		Interest		Total	
2023	\$	70,000	\$	3,780	\$	73,780			
2024		70,000		1,890		71,890			
Total	\$	140,000	\$	5,670	\$	145,670

D. Legal Debt Margin

The Ohio Revised Code provides that the net debt of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5% of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5% of the total taxation value of property. The statutory limitations on debt are measured by a direct ratio of net debt to tax valuation and expressed in terms of a percentage. At December 31, 2022, the City's total debt margin was \$31,897,052 and the unvoted debt margin was \$16,595,491.

NOTE 13 - OTHER EMPLOYEE BENEFITS

Compensated Absences

Employees earn vacation and sick leave at different rates which are also affected by length of service. Vacation can be carried over at different rates depending on the department. Police captains, sergeants, patrol officers, dispatchers and record clerks may carry over five days for use during the first six months of the following year. Sick leave accrual is continuous. Overtime worked is always paid, or accrued, to employees on the paycheck for the period in which it was worked.

Upon retirement, police captains and sergeants are paid for 33.33 percent and firefighters are paid for 33.50 percent of their accumulated hours of sick leave, up to 1,800 hours for a maximum payout of 600 hours. All other employees are paid for 42 percent of their accumulated hours of sick leave, up to 1,200 hours for a maximum payout of 500 hours.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Upon retirement, termination, or death of the employee, accrued vacation is paid for time the employees have earned but not yet used.

As of December 31, 2022, the governmental activities liability for compensated absences was \$622,893, the business-type activities liability for compensated absences was \$353,493, and the City's total liability for compensated absences was \$976,386.

NOTE 14 - RISK MANAGEMENT

Property and Casualty Insurance

The City is exposed to various risks of property and casualty losses, and injuries to employees.

The City insures against injuries to employees through the Ohio Bureau of Worker's Compensation.

The City belongs to the Public Entities Pool of Ohio (PEP), a risk-sharing pool available to Ohio local governments. PEP provides property and casualty insurance for its members. American Risk Pooling Consultants, Inc. (ARPCO), is a division of York Insurance Services Group, Inc. (York), functions as the administrator of PEP and provides underwriting, claims, loss control, risk management, and reinsurance services for PEP. PEP is a member of the American Public Entity Excess Pool (APEEP), which is also administered by ARPCO. Member governments pay annual contributions to fund PEP. PEP pays judgments, settlements and other expenses resulting from covered claims that exceed the members' deductibles.

Casualty and Property Coverage

APEEP provides PEP with an excess risk-sharing program. Under this arrangement, PEP retains insured risks up to an amount specified in the contracts. At December 31, 2022, PEP retained \$500,000 for casualty claims and \$250,000 for property claims. Settlements have not exceeded insurance coverage in each of the past three years and there has not been a significant reduction in coverage from the prior year.

The aforementioned casualty and property reinsurance agreement does not discharge PEP's primary liability for claims payments on covered losses. Claims exceeding coverage limits are the obligation of the respective government.

Financial Position

PEP's financial statements (audited by other accountants) conform with generally accepted accounting principles, and reported the following assets, liabilities and net position at December 31, 2022 and 2021:

Casualty & Property Coverage	<u>2022</u>	<u>2021</u>
Assets	\$42,310,794	\$59,340,305
Liabilities	(15,724,479)	(17,071,953)
Net Position	<u>\$26,586,315</u>	<u>\$42,268,352</u>

At December 31, 2022 and 2021, respectively, the liabilities above include approximately \$15.7 million and \$14.9 million of estimated incurred claims payable. At December 31, 2022 and 2021, the assets above include approximately \$14.4 million and \$13.9 million of unpaid claims to be billed. The Pool's membership increased from 589 members in 2021 to 610 members in 2022. These amounts will be included in future contributions from members when the related claims are due for payment. As of December 31, 2022, the City's share of these unpaid claims collectible in future years is approximately \$181,828.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Based on discussions with PEP the expected rates PEP charges to compute member contributions, which are used to pay claims as they become due, are not expected to change significantly from those used to determine the historical contributions detailed below. By contract, the liability of each member is limited to the amount of financial contributions required to be made to PEP for each year of membership.

Contri	ibutions to PEP
2022	\$315,919
2021	\$274,184

After completing one year of membership, members may withdraw on each anniversary of the date they joined PEP. They must provide written notice to PEP 60 days in advance of the anniversary date. Upon withdrawal, members are eligible for a full or partial refund of their capital contributions, minus the subsequent year's contribution. Withdrawing members have no other future obligation to the pool. Also upon withdrawal, payments for all casualty claims and claim expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the withdrawal.

NOTE 15 - DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Asset and Net OPEB Liability/Asset

The net pension liability/asset and the net OPEB liability/asset reported on the statement of net position represents a liability or asset to employees for pensions and OPEB, respectively.

Pensions and OPEB are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions and OPEB are provided to an employee – on a deferred-payment basis – as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability/asset and the net OPEB liability/asset represent the City's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability/asset calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost-of-living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability/asset is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability. Resulting adjustments to the net pension/OPEB liability would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require, the retirement systems to provide health care to eligible benefit recipients.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension/OPEB liability/asset on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in pension and postemployment benefits payable on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the pension disclosures. See Note 16 for the OPEB disclosures.

Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a costsharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Group A	Group B	Group C
Eligible to retire prior to	20 years of service credit prior to	Members not in other Groups
January 7, 2013 or five years	January 7, 2013 or eligible to retire	and members hired on or after
after January 7, 2013	ten years after January 7, 2013	January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements:	Age and Service Requirements:	Age and Service Requirements:
Age 60 with 60 months of service credit	Age 60 with 60 months of service credit	Age 57 with 25 years of service credit

Age 60 with 60 months of service credit

or Age 55 with 25 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30

Traditional Plan Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5%

or Age 55 with 25 years of service credit

for service years in excess of 30 Combined Plan Formula:

1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30

Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Traditional Plan Formula:

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Combined Plan Formula:

1% of FAS multiplied by years of service for the first 35 years and 1.25% for service years in excess of 35

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost—of—living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost of living adjustment is 3 percent. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, current law provides that the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3.00%.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Memberdirected plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Beginning in 2022, the Combined Plan will be consolidated under the Traditional Pension Plan (defined benefit plan) and the Combined Plan option will no longer be available for new hires beginning in 2022.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	State	
	and Local	
2022 Statutory Maximum Contribution Rates		
Employer	14.0	%
Employee *	10.0	%
2022 Actual Contribution Rates		
Employer:		
Pension	14.0	%
Post-employment Health Care Benefits **	0.0	%
Total Employer	14.0	%
Employee	10.0	%

- * This rate is determined by OPERS' Board and has no maximum rate established by ORC.
- ** This employer health care rate is for the traditional and combined plans. The employer contribution for the member-directed plan is 4.00%.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City's contractually required contribution for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan was \$902,693 for 2022. Of this amount, \$104,818 is reported as pension and postemployment benefits payable.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Plan Description - Ohio Police & Fire Pension Fund (OP&F)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.50% for each of the first 20 years of service credit, 2.00% for each of the next five years of service credit and 1.50% for each year of service credit in excess of 25 years. The maximum pension of 72.00% of the allowable average annual salary is paid after 33 years of service credit (see OP&F Annual Comprehensive Financial Report referenced above for additional information, including requirements for Deferred Retirement Option Plan provisions and reduced and unreduced benefits).

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit, surviving beneficiaries, and statutory survivors. Members participating in the DROP program have separate eligibility requirements related to COLA.

The COLA amount for members who have 15 or more years of service credit as of July 1, 2013, and members who are receiving a pension benefit that became effective before July 1, 2013, will be equal to 3.00% of the member's base pension benefit.

The COLA amount for members who have less than 15 years of service credit as of July 1, 2013, and members whose pension benefit became effective on or after July 1, 2013, will be equal to a percentage of the member's base pension benefit where the percentage is the lesser of 3.00% or the percentage increase in the consumer price index, if any, over the twelve-month period that ends on the thirtieth day of September of the immediately preceding year, rounded to the nearest one-tenth of one percent.

Members who retired prior to July 24, 1986, or their surviving beneficiaries under optional plans are entitled to cost-of-living allowance increases. The annual increase is paid on July 1st of each year. The annual COLA increase is \$360 under a Single Life Annuity Plan with proportional reductions for optional payment plans.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

	Police	Firefighters
2022 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %
2022 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	0.50 %	0.50 %
Total Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$924,336 for 2022. Of this amount, \$99,944 is reported as pension and postemployment benefits payable.

In addition to current contributions, the City pays installments on a specific liability of the City incurred when the State of Ohio established the statewide pension system for police and fire fighters in 1967. As of December 31, 2022, the specific liability of the City was \$140,000 payable in semi-annual payments through the year 2035.

Net Pension Liabilities/Assets, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability and net pension asset for OPERS was measured as of December 31, 2021, and the total pension liability or asset used to calculate the net pension liability or asset was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2021, and was determined by rolling forward the total pension liability as of January 1, 2021, to December 31, 2021. The City's proportion of the net pension liability or asset was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

	OPERS - Traditional	OPERS - Combined	OPERS - Member- Directed	OP&F	Total
Proportion of the net pension liability/asset prior measurement date	0.04217400%	0.01578400%	0.00169100%	0.15112960%

\$1,827,029 reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of/increase to the net pension liability/asset in the year ending December 31, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial-reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2021, using the following actuarial assumptions applied to all periods included in the measurement in accordance with the requirements of GASB 67. Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of December 31, 2021, are presented below.

Wage inflation	
Current measurement date	2.75%
Prior measurement date	3.25%
Future salary increases, including inflation	
Current measurement date	2.75% to 10.75% including wage inflation
Prior measurement date	3.25% to 10.75% including wage inflation
COLA or ad hoc COLA	
Current measurement date	Pre 1/7/2013 retirees: 3.00%, simple
	Post 1/7/2013 retirees: 3.00%, simple
	through 2022, then 2.05% simple
Prior measurement date	Pre 1/7/2013 retirees: 3.00%, simple
	Post 1/7/2013 retirees: 0.50%, simple
	through 2021, then 2.15% simple
Investment rate of return	
Current measurement date	6.90%
Prior measurement date	7.20%
Actuarial cost method	Individual entry age

In July 2021, the OPERS Board adopted a change in COLA for Post-January 7, 2013 retirees, changing it from 0.50% simple through 2021 then 2.15% simple to 3.00% simple through 2022 then 2.05% simple.

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five-year period ended December 31, 2020.

During 2021, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was a gain of 15.3% for 2021.

The allocation of investment assets within the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of arithmetic real rates of return were provided by the Board's investment consultant.

For each major asset class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2021, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)
Fixed income	24.00 %	1.03 %
Domestic equities	21.00	3.78
Real estate	11.00	3.66
Private equity	12.00	7.43
International equities	23.00	4.88
Risk Parity	5.00	2.92
Other investments	4.00	2.85
Total	100.00 %	4.21 %

Discount Rate - The discount rate used to measure the total pension liability/asset was 6.90%, post-experience study results, for the Traditional Pension Plan, the Combined Plan and Member-Directed Plan. The discount rate used to measure total pension liability prior to December 31, 2021 was 7.20%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Traditional Pension Plan, Combined Plan and Member-Directed Plan was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Sensitivity of the City's Proportionate Share of the Net Pension Liability/Asset to Changes in the Discount Rate - The following table presents the proportionate share of the net pension liability/asset calculated using the current period discount rate assumption of 6.90%, as well as what the proportionate share of the net pension liability/asset would be if it were calculated using a discount rate that is one-percentage-point lower (5.90%) or one-percentage-point higher (7.90%) than the current rate:

			Current	
	1% Decrease	Di	scount Rate	1% Increase
City's proportionate share				
of the net pension liability (asset):				
Traditional Pension Plan	\$10,106,694	\$	3,833,311	\$ (1,386,977)
Combined Plan	(47,687)		(63,908)	(76,558)
Member-Directed Plan	(1,854)		(2,104)	(2,318)

Actuarial Assumptions - OP&F

OP&F's total pension liability as of December 31, 2021, is based on the results of an actuarial valuation date of January 1, 2021, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered were: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2022, are presented below.

Valuation date	1/1/21 with actuarial liabilities rolled forward to 12/31/21
Actuarial cost method	Entry age normal (level percent of payroll)
Investment rate of return	
Current measurement date	7.50%
Prior measurement date	8.00%
Projected salary increases	3.75% - 10.50%
Payroll increases	3.25% per annum, compounded annually, consisting of
	inflation rate of 2.75% plus productivity increase rate of 0.50%
Cost of living adjustments	2.20% per year simple

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

Age	Police	Fire	
67 or less	77%	68%	
68-77	105%	87%	
78 and up	115%	120%	

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Age	Police	Fire
59 or less	35%	35%
60-69	60%	45%
70-79	75%	70%
80 and up	100%	90%

The most recent experience study was completed for the five-year period ended December 31, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy and Guidelines. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2021 are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash and cash equivalents	0.00 %	0.00 %
Domestic equity	21.00	3.60
Non-US equity	14.00	4.40
Private markets	8.00	6.80
Core fixed income *	23.00	1.10
High yield fixed income	7.00	3.00
Private credit	5.00	4.50
U.S. inflation		
linked bonds *	17.00	0.80
Midstream energy infrastructure	5.00	5.00
Real assets	8.00	5.90
Gold	5.00	2.40
Private real estate	12.00	4.80
Total	125.00 %	

Note: assumptions are geometric.

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return and creating a more risk-balanced portfolio based on the relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

Discount Rate - The total pension liability was calculated using the discount rate of 7.50%. A discount rate of 8.00% was used in the previous measurement date. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.00%. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

^{*} levered 2x

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.50%, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%), or one percentage point higher (8.50%) than the current rate.

	Current				
	1% Decrease	Discount Rate	1% Increase		
City's proportionate share					
of the net pension liability	\$14.821.899	\$ 9,994,631	\$ 5,974,709		

NOTE 16 - DEFINED BENEFIT OPEB PLANS

Net OPEB Liability/Asset

See Note 15 for a description of the net OPEB liability/asset.

Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description - The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. Currently, Medicare-eligible retirees are able to select medical and prescription drug plans from a range of options and may elect optional vision and dental plans. Retirees and eligible dependents enrolled in Medicare Parts A and B have the option to enroll in a Medicare supplemental plan with the assistance of the OPERS Medicare Connector. The OPERS Medicare Connector is a relationship with a vendor selected by OPERS to assist retirees, spouses and dependents with selecting a medical and pharmacy plan. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are deposited into an HRA. For non-Medicare retirees and eligible dependents, OPERS sponsors medical and prescription coverage through a professionally managed self-insured plan. An allowance to offset a portion of the monthly premium is offered to retirees and eligible dependents. The allowance is based on the retiree's years of service and age when they first enrolled in OPERS coverage.

Medicare-eligible retirees who choose to become re-employed or survivors who become employed in an OPERS-covered position are prohibited from participating in an HRA. For this group of retirees, OPERS sponsors secondary coverage through a professionally managed self-insured program. Retirees who enroll in this plan are provided with a monthly allowance to offset a portion of the monthly premium. Medicare-eligible spouses and dependents can also enroll in this plan as long as the retiree is enrolled.

OPERS provides a monthly allowance for health care coverage for eligible retirees and their eligible dependents. The base allowance is determined by OPERS.

The health care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Effective January 1, 2022, OPERS discontinued the group plans currently offered to non-Medicare retirees and reemployed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. Current retirees eligible (or who became eligible prior to January 1, 2022) to participate in the OPERS health care program will continue to be eligible after January 1, 2022. Eligibility requirements will change for those retiring after January 1, 2022, with differing eligibility requirements for Medicare retirees and non-Medicare retirees. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information.

The Ohio Revised Code permits, but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS' Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2022, state and local employers contributed at a rate of 14.00% of earnable salary and public safety and law enforcement employers contributed at 18.10%. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2022, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2022 was 4.00%.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$2,920 for 2022. Of this amount, \$339 is reported as pension and postemployment benefits payable.

Plan Description - Ohio Police & Fire Pension Fund (OP&F)

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a new model for health care. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

OP&F contracted with a vendor who assists eligible retirees in choosing health care plans that are available where they live (both Medicare-eligible and pre-65 populations). A stipend funded by OP&F is available to these members through a Health Reimbursement Arrangement and can be used to reimburse retirees for qualified health care expenses.

A retiree is eligible for the OP&F health care stipend unless they have access to any other group coverage including employer and retirement coverage. The eligibility of spouses and dependent children could increase the stipend amount. If the spouse or dependents have access to any other group coverage including employer or retirement coverage, they are not eligible for stipend support from OP&F. Even if an OP&F member or their dependents are not eligible for a stipend, they can use the services of the third-party administrator to select and enroll in a plan. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

OP&F maintains funds for health care in two separate accounts: one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. IRS Code Section 401(h) account is maintained for Medicare Part B reimbursements.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.50% and 24.00% of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.50% of covered payroll for police employer units and 24.00% of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

The Board of Trustees is authorized to allocate a portion of the total employer contributions for retiree health care benefits. For 2022, the portion of employer contributions allocated to health care was 0.50% of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded.

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$21,998 for 2022. Of this amount, \$2,379 is reported as pension and postemployment benefits payable.

Net OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability/asset and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2020, rolled forward to the measurement date of December 31, 2021, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2021, and was determined by rolling forward the total OPEB liability as of January 1, 2021, to December 31, 2021. The City's proportion of the net OPEB liability/asset was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Following is information related to the proportionate share and OPEB expense:

	OPERS	OP&F	Total
Proportion of the net OPEB liability/asset prior measurement date	0.03980300%	0.15112960%	
Proportion of the net

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2020, rolled forward to the measurement date of December 31, 2021.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Wage Inflation

The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

wage inflation	
Current measurement date	2.75%
Prior Measurement date	3.25%
Projected Salary Increases,	
including inflation	
Current measurement date	2.75 to 10.75%
	including wage inflation
Prior Measurement date	3.25 to 10.75%
	including wage inflation
Single Discount Rate:	
Current measurement date	6.00%
Prior Measurement date	6.00%
Investment Rate of Return	
Current measurement date	6.00%
Prior Measurement date	6.00%
Municipal Bond Rate	
Current measurement date	1.84%
Prior Measurement date	2.00%
Health Care Cost Trend Rate	
Current measurement date	5.50% initial,
	3.50% ultimate in 2034
Prior Measurement date	8.50% initial,
	3.50% ultimate in 2035
Actuarial Cost Method	Individual Entry Age Normal

Pre-retirement mortality rates are based on 130% of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170% of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115% of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five-year period ended December 31, 2020.

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2021, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was a gain of 14.3% for 2021.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2021, these best estimates are summarized in the following table:

		Weighted Average
		Long-Term Expected
	Target	Real Rate of Return
Asset Class	Allocation	(Arithmetic)
Fixed Income	34.00 %	0.91 %
Domestic equities	25.00	3.78
Real Estate Investment Trusts (REITs)	7.00	3.71
International equities	25.00	4.88
Risk parity	2.00	2.92
Other investments	7.00	1.93
Total	100.00 %	3.45 %

Discount Rate - A single discount rate of 6.00% was used to measure the total OPEB liability on the measurement date of December 31, 2021. A single discount rate of 6.00% was used to measure the total OPEB liability on the measurement date of December 31, 2021. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on the actuarial assumed rate of return on the health care investment portfolio of 6.00% and a municipal bond rate of 1.84%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through the year 2121. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2121, the duration of the projection period through which projected health care payments are fully funded.

Sensitivity of the City's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate - The following table presents the proportionate share of the net OPEB asset calculated using the single discount rate of 6.00%, as well as what the proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is one-percentage-point lower (5.00%) or one-percentage-point higher (7.00%) than the current rate:

		Current				
	1%	1% Decrease		iscount Rate	1% Increase	
City's proportionate share						
of the net OPEB asset	\$	772,627	\$	1,313,781	\$1,762,948	

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Sensitivity of the City's Proportionate Share of the Net OPEB Asset to Changes in the Health Care Cost Trend Rate - Changes in the health care cost trend rate may also have a significant impact on the net OPEB asset. The following table presents the net OPEB asset calculated using the assumed trend rates, and the expected net OPEB asset if it were calculated using a health care cost trend rate that is 1.00% lower or 1.00% higher than the current rate.

Retiree health care valuations use a health care cost trend assumption with changes over several years built into that assumption. The near-term rates reflect increases in the current cost of healthcare; the trend starting in 2022 is 5.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health care cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50% in the most recent valuation.

	Current Health				
	Care Trend Rate				
	1% Decrease	Assumption	1% Increase		
City's proportionate share					
of the net OPEB asset	\$ 1,327,979	\$ 1,313,781	\$1,296,939		

Actuarial Assumptions - OP&F

OP&F's total OPEB liability as of December 31, 2021, is based on the results of an actuarial valuation date of January 1, 2021, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

Valuation Date	January 1, 2021, with actuarial liabilities rolled forward to December 31, 2021
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)
Investment Rate of Return	
Current measurement date	7.50%
Prior measurement date	8.00%
Projected Salary Increases	3.75% to 10.50%
Payroll Growth	3.25%
Single discount rate:	
Current measurement date	2.84%
Prior measurement date	2.96%
Cost of Living Adjustments	2.20% simple per year

Mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120%.

Age	Police	Fire		
67 or less	77%	68%		
68-77	105%	87%		
78 and up	115%	120%		

Mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35%	35%
60-69	60%	45%
70-79	75%	70%
80 and up	100%	90%

The most recent experience study was completed for the five-year period ended December 31, 2016.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2020, are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return				
Cash and cash equivalents	0.00 %	0.00 %				
Domestic equity	21.00	3.60				
Non-US equity	14.00	4.40				
Private markets	8.00	6.80				
Core fixed income *	23.00	1.10				
High yield fixed income	7.00	3.00				
Private credit	5.00	4.50				
U.S. inflation						
linked bonds *	17.00	0.80				
Midstream energy infrastructure	5.00	5.00				
Real assets	8.00	5.90				
Gold	5.00	2.40				
Private real estate	12.00	4.80				
Total	125.00 %					

Note: assumptions are geometric.

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

Discount Rate - For 2021, the total OPEB liability was calculated using the discount rate of 2.84%. For 2020, the total OPEB liability was calculated using the discount rate of 2.96%. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return 7.50%. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payment of current plan members. Therefore, a municipal bond rate of 2.05% at December 31, 2021 and 2.12% at December 31, 2020 was blended with the long-term rate of 7.50%, which resulted in a blended discount rate of 2.84%.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate - Net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 2.84%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.84%), or one percentage point higher (3.84%) than the current rate.

		Current					
	1% Decrease	Dis	count Rate	1% Increase			
City's proportionate share							
of the net OPEB liability	\$ 2,204,213	\$	1,753,520	\$ 1,383,048			

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate - The total OPEB liability is based on a medical benefit that is a flat dollar amount; therefore, it is unaffected by a health care cost trend rate. An increase or decrease in the trend rate would have no effect on the total OPEB liability.

^{*} levered 2x

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

NOTE 17 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the General fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Investments are reported at fair value (GAAP basis) rather than cost (budget basis); and,
- (e) Some funds are included in the General fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements (as reported in the fund financial statements) to the budgetary basis statements for all governmental funds for which a budgetary basis statement is presented:

Net Change in Fund Balance

	General fund
Budget basis	\$ (1,099,786)
Net adjustment for revenue accruals	(1,650,525)
Net adjustment for expenditure accruals	795,989
Net adjustment for other sources/uses	(1,105)
Funds budgeted elsewhere	75,370
Adjustment for encumbrances	779,209
GAAP basis	\$ (1,100,848)

Certain funds that are legally budgeted in separate special revenue funds are considered part of the General fund on a GAAP basis. This includes the unclaimed monies fund, the recreation trust fund and the municipal income tax fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

NOTE 18 - CONTINGENCIES

A. Grants

The City receives significant financial assistance from numerous federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the City at December 31, 2022.

B. Litigation

The City is a party to several legal proceedings seeking damages or injunctive relief generally incidental to its operations. The City management is of the opinion that the ultimate disposition of various claims and legal proceedings will not have a material adverse effect, if any, on the financial condition of the City.

NOTE 19 - OTHER COMMITMENTS

The City utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the City's commitments for encumbrances (not already included in payables) in the governmental funds were as follows:

	Year-End
<u>Fund</u>	Encumbrances
General fund	\$ 711,160
Other governmental	1,412,584
Total	\$ 2,123,744

NOTE 20 - TAX ABATEMENTS

As of December 31, 2022, the City provides tax abatements through two programs: Community Reinvestment Area (CRA) and Enterprise Zone (Ezone). These programs relate to the abatement of property taxes.

<u>CRA</u> - Under the authority of Ohio Revised Code (ORC) Section 3735.67, the CRA program is an economic development tool administered by municipal and county governments that provides real property tax exemptions for property owners who renovate existing or construct new buildings. CRA's are areas of land in which property owners can receive tax incentives for investing in real property improvements. Under the CRA program, local governments petition to the Ohio Development Services Agency (ODSA) for confirmation of a geographical area in which investment in housing is desired. Once an area is confirmed by the ODSA, local governments may offer real property tax exemptions to taxpayers that invest in that area. Property owners in the CRA can receive temporary tax abatements for renovation of existing structures and new construction in these areas. Property owners apply to the local legislative authority for approval to renovate or construct in the CRA. Upon approval and certification of completion, the amount of the abatement is deducted from the individual or entity's property tax bill.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

Ezone - Under the authority of ORC Sections 5709.62 and 5709.63, the Ezone program is an economic development tool administered by municipal and county governments that provides real and personal property tax exemptions to businesses making investments in Ohio. An Ezone is a designated area of land in which businesses can receive tax incentives in the form of tax exemptions on qualifying new investment. An Ezone's geographic area is identified by the local government involved in the creation of the zone. Once the zone is defined, the local legislative authority participating in the creation must petition the OSDA. The OSDA must then certify the area for it to become an active Enterprise Zone. The local legislative authority negotiates the terms of the Enterprise Zone Agreement (the "Agreement") with the business, which may include tax sharing with the Board of Education. Legislation must then be passed to approve the Agreement. All Agreements must be finalized before the project begins and may contain provisions for the recoupment of taxes should the individual or entity fail to perform. The amount of the abatement is deducted from the business's property tax bill.

The City has entered into agreements to abate property taxes through these programs. During 2022, the City's property tax revenues were reduced as a result of these agreements as follows:

		City
Tax Abatement Program	Tax	es Abated
CRA	\$	12,833
Ezone		10,800
Total	\$	23,633

NOTE 21 - DAM REMOVAL PROJECT

The City reports a due from other governments receivable that began in 2018 for grants and expenses related to the removal of the Ballville dam (the "Dam"). The City received a \$2 million U.S. Fish and Wildlife grant to assist with the removal costs. The remaining costs are financed through participation in the Water Resource Restoration Sponsor Program (WRRSP). The Ohio Environmental Protection Agency (Ohio EPA), in conjunction with the Ohio Water Development Authority (OWDA), administers the Water Pollution Control Loan Fund (WPCLF) and the Water Supply Revolving Loan Account (WSRLA). The WRRSP advances interest monies from the WPCLF sponsor projects to fund preservation and restoration of the state's water resources. In conjunction with the WRRSP, the City has reported a \$144,430 due from other governments receivable in both the Water fund and business-type activities related to reimbursable costs incurred by the City during 2022 and prior years and scheduled for reimbursement in 2022. The City did not report any new activity for 2022 related to the receivable or expenses incurred. In 2022, the City received reimbursements in the amount of \$3,817,737.

THIS SPACE INTENTIONALLY LEFT BLANK

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

NOTE 22 - FUND BALANCE

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund balance		General	Go	Other vernmental Funds	Total Governmental Funds		
Nonspendable:							
Materials and supplies inventory	\$	_	\$	224,013	\$	224,013	
Prepayments		57,980		7,999		65,979	
Total nonspendable	_	57,980		232,012	_	289,992

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2022 (Continued)

NOTE 23 – JOINTLY GOVERNED ORGANIZATION

The Regional Income Tax Agency (RITA) is a regional council of governments formed to establish a central collection facility for the purpose of administering the income tax laws of the members and for the purpose of collecting income taxes on behalf of each member. RITA currently has approximately 350 members in the council of governments. Each member has one representative to the council of governments and is entitled to one vote on items under consideration. RITA is administered by a nine member board of trustees elected by the members of the council of governments. The board exercises total control over RITA's operation including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the council. For 2022, the City paid RITA \$324,888 for income tax collection services.

OTHER POSTEMPLOYMENT BENEFITS (OPEB)

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM (OPERS)

Changes in benefit terms:

- ⁿ There were no changes in benefit terms from the amounts reported for 2017.
- ¹¹ There were no changes in benefit terms from the amounts reported for 2018.
- ¹ There were no changes in benefit terms from the amounts reported for 2019.
- ^a There were no changes in benefit terms from the amounts reported for 2020.
- For 2021, the following were the most significant changes in benefit terms since the prior measurement date: the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care Plan. These changes are effective January 1, 2022 and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in the December 31, 2020 measurement date health care valuation. These changes significantly decreased the total OPEB liability for the measurement date December 31, 2020.
- ^o There were no changes in benefit terms from the amounts reported for 2022.

Changes in assumptions:

- There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for 2017.
- For 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date: (a) reduction in the actuarially assumed rate of return from 4.23% down to 3.85%.
- For 2019, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.85% up to 3.96%, (b) The investment rate of return was decreased from 6.50% percent down to 6.00%, (c) the municipal bond rate was increased from 3.31% up to 3.71% and (d) the health care cost trend rate was increased from 7.50%, initial/3.25%, ultimate in 2028 up to 10.00%, initial/3.25% ultimate in 2029.
- For 2020, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was decreased from 3.96% up to 3.16%, (b) the municipal bond rate was decreased from 3.71% up to 2.75% and (c) the health care cost trend rate was increased from 10.00%, initial/3.25%, ultimate in 2029 up to 10.50%, initial/3.50% ultimate in 2030.
- For 2021, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) the discount rate was increased from 3.16% up to 6.00%, (b) the municipal bond rate was decreased from 2.75% up to 2.00% and (c) the health care cost trend rate was decreased from 10.00%, initial/3.50%, ultimate in 2030 down to 8.50%, initial/3.50% ultimate in 2035.
- For 2022, the following were the most significant changes of assumptions that affect the total OPEB liability since the prior measurement date: (a) wage inflation changed from 3.25% to 2.75%, (b) projected salary increases, including inflation changed from 3.25%-10.75% to 2.75%-10.75%, (c) the municipal bond rate was changed from 2.00% to 1.84% and (d) the health care cost trend rate was changed from 8.50% initial, 3.50% ultimate in 2035 to 5.50% initial, 3.50% ultimate in 2034.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Fremont Sandusky County 323 South Front Street Fremont, Ohio 43420-3037

To the City Council:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Fremont, Sandusky County, Ohio (the City) as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated October 31, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

City of Fremont
Sandusky County
Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Required by Government Auditing Standards
Page 2

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
