Bowling Green, Ohio 43402

We have reviewed the *Independent Auditor's Report* of Wood County District Board of Health, Wood County, prepared by Perry & Associates, Certified Public Accountants, A.C., for the audit period January 1, 2022 through December 31, 2022. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Wood County District Board of Health is responsible for compliance with these laws and regulations.

INDEPENDENT AUDITOR'S REPORT

Wood County District Board of Health
Wood County
1840 East Gypsy Lane Road
Bowling Green, Ohio 43402

To the Board of Health:

Report on the Audit of the Financial Statements

Opinions

We have audited the cash-basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Wood County District Board of Health, Wood County, Ohio (the District), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective cash-basis financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of December 31, 2022, and the respective changes in cash-basis financial position thereof and the respective budgetary comparison for the General and Federally Qualified Health Center funds for the year then ended in accordance with the cash-basis of accounting described in Note 2.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter - Accounting Basis

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Marietta, OH

St. Clairsville, OH

Cambridge, OH

Wheeling, WV

Vienna, WV

Emphasis of Matter

As discussed in Note 15 to the financial statements, during 2022, the District has elected to change its financial presentation to a cash basis of accounting comparable to the requirements of *Governmental Accounting Standards*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the cash basis of accounting described in Note 2, and for determining that the cash basis of accounting is an acceptable basis for preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted to opine on the financial statements as a whole that collectively comprise the District's basic financial statements.

The Schedule of Receipts and Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is presented for purposes of additional analysis and is not a required part of the financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied to the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 26, 2023, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 1 – Reporting Entity

The Wood County District Board of Health, Wood County, Ohio (the District), is a body corporate and politic established to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. A ten-member Board of Health appointed by the District Advisory Council, Mayor of Northwood, Mayor of Bowling Green, Mayor of Perrysburg, and Mayor of Rossford governs the District. The Board appoints a health commissioner and all employees of the District.

By law, the Wood County Auditor is the fiscal agent of the District.

Primary Government

The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. The District's services include, but are not limited to, communicable disease investigations, a federally qualified health center, immunization clinics, inspections, public health nursing services, the issuance of health-related licenses and permits, environmental health programs, children's health services and emergency response planning.

Joint Ventures and Public Entity Risk Pools

The District participates in a joint venture and a public entity risk pool. Note 7 and Note 13 to the financial statements provide additional information for these entities.

The District's management believes these financial statements present all activities for which the District is financially accountable.

Note 2 – Summary of Significant Accounting Policies

As discussed further in the "Basis of Accounting" section of this note, these financial statements are presented on a cash basis of accounting. This cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. Following are the more significant of the District's accounting policies.

Basis of Presentation

The District's basic financial statements consist of government-wide financial statements, including a statement of net position – cash basis and a statement of activities – cash basis, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government. The statements distinguish between those activities of the District that are governmental in nature and those that are considered business-type activities. Governmental activities generally are financed through taxes, intergovernmental receipts or other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The District has no business-type activities.

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 2 – Summary of Significant Accounting Policies (Continued)

The statement of net position presents the cash balance of the governmental of the District at year end. The statement of activities compares disbursements and program receipts for each program or function of the District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the District is responsible. Program receipts include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and receipts of interest earned on grants that are required to be used to support a particular program. Receipts which are not classified as program receipts are presented as general receipts of the District, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental program is self-financing on a cash basis or draws from the general receipts of the District.

Fund Financial Statements During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the District are presented in one category: governmental.

Governmental Funds Governmental funds are those through which most governmental functions of the District are financed. The following are the District's major governmental funds:

General The general fund accounts for and reports all financial resources not accounted for and reported in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Federally Qualified Health Center Special Revenue Fund This fund accounts for and reports funding received of Medicare, Medicaid, insurance, self-pay and other fees, as well as state and federal revenue for the purpose of operating the health center. The health center provides primary care services, dental services, behavioral health services, and family planning services.

The other governmental funds of the District account for and report grants and other resources whose use is restricted, committed or assigned to a particular purpose.

Basis of Accounting

The District's financial statements are prepared using the cash basis of accounting. Receipts are recorded in the District's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred. Any such modifications made by the District are described in the appropriate section in this note.

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 2 – Summary of Significant Accounting Policies (Continued)

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

Budgetary Process

All funds are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Health may appropriate.

The appropriations resolution is the Board of Health's authorization to spend resources and sets annual limits on disbursements plus encumbrances at the level of control selected by the Board of Health. The legal level of control has been established by the Board of Health at the fund, department, and object level for all funds.

ORC Section 5705.28(C)(1) requires the District to file an estimate of contemplated revenue and expenses with the municipalities and townships within the District by about June 1 (forty-five days prior to July 15). The County Auditor cannot allocate property taxes from the municipalities and townships within the District if the filing has not been made.

ORC Section 3709.28 establishes budgetary requirements for the District, which are similar to ORC Chapter 5705 budgetary requirements. On or about the first Monday of April, the District must adopt an itemized appropriation measure. The appropriation measure, together with an itemized estimate of revenues to be collected during the next fiscal year, shall be certified to the county budget commission. Subject to estimated resources, the Board of Health may, by resolution, transfer appropriations from one appropriation item to another, reduce or increase any item, create new items, and make additional appropriations or reduce the total appropriation. Such appropriation modifications shall be certified to the county budget commission for approval.

The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources in effect when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Board of Health.

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budget reflect the first appropriation resolution that covered the entire year, including amounts automatically carried forward from prior years. The amount reported as the final budgeted amounts represents the final appropriations passed by the Board of Health during the year.

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 2 – Summary of Significant Accounting Policies (Continued)

Cash and Investments

The County Treasurer is the custodian for the District's cash and investments. The County's cash and investment pool holds the District's cash and investments, which are reported at the County Treasurer's carrying amount. As of December 31, 2022, the District's share of the County's cash and investment pool was \$5,933,684. Deposits and investments disclosures for the County as a whole may be obtained from the Wood County Auditor's office, 1 Court House Square, Bowling Green, Ohio 43402, (419) 354-9173.

The District maintains a bank account to hold monies received via EFT and makes regular deposits to the County. The carrying amount of these deposits as of December 31, 2022 was \$1,882. The entire balance was covered by FDIC.

Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

Accumulated Leave

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the District's cash basis of accounting.

Employer Contributions to Cost-Sharing Pension Plans

The District recognizes the disbursement for employer contributions to cost-sharing pension plans when they are paid. As described in Notes 8 and 9, the employer contributions include portions for pension benefits and for other postemployment benefits (OPEB).

Long-Term Obligations

The District's cash basis financial statements do not report liabilities for long-term obligations. Proceeds of debt are reported when cash is received and principal and interest payments are reported when paid. Since recording a capital asset (including the intangible right to use) when entering into a lease or financed purchase transaction is not the result of a cash transaction, neither an other financing source nor a capital outlay expenditure is reported at inception. Lease payments and financed purchase payments are reported when paid.

Net Position

Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for grant programs.

The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted resources are available.

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 2 – Summary of Significant Accounting Policies (Continued)

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans. The District reported no nonspendable fund balances as of December 31, 2022.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of the Board of Health. Those committed amounts cannot be used for any other purpose unless the Board of Health removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District reported no committed fund balances as of December 31, 2022.

Assigned Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the Board of Health or a District official delegated that authority by resolution, or by State Statute. The District reported no assigned fund balances as of December 31, 2022.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 3 – Budgetary Basis of Accounting

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budget Basis presented for the General fund and the Federally Qualified Health Center fund are prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference(s) between the budgetary basis and the cash basis are as follows:

- As part of Governmental Accounting Standards Board Statement No. 54, “Fund Balance Reporting and Governmental Fund Type Definitions,” certain funds that are legally budgeted in separate special revenue funds are considered part of the General fund on a reporting basis. This includes the Environmental Health and Nursing funds. Since these funds are budgeted separately, they are not included in the budgetary presentation for the General fund.

Note 4 – Deposits and Investments

As required by the Ohio Revised Code, the Wood County Treasurer is custodian for the District’s deposits. The County’s deposit and investment pool holds the District’s assets, valued at the Treasurer’s reported carrying amount.

Note 5 – Taxes

Property Taxes

Property taxes include amounts levied against all real and public utility property located in the District. Property tax revenue received during 2022 for real and public utility property taxes represents collections of 2021 taxes.

2022 real property taxes are levied after October 1, 2022, on the assessed value as of January 1, 2022, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2022 real property taxes are collected in and intended to finance 2023.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2022 public utility property taxes which became a lien December 31, 2021, are levied after October 1, 2022, and are collected in 2023 with real property taxes.

The full tax rate for all District operations for the year ended December 31, 2022, was \$0.50 per \$1,000 of assessed value. The assessed values of real property and public utility tangible property upon which 2022 property tax receipts were based are as follows:

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 5 – Taxes (Continued)

Real Property		\$ 3,397,724,880
Public Utility Personal Property		559,160,880
Total		\$ 3,956,885,760

The County Treasurer collects property taxes on behalf of all taxing districts in the County, including the County. The County Auditor periodically remits to the District its portion of the taxes collected.

Note 6 – Interfund Balances and Transfers

Transfers

During 2022, the following transfers were made:

Transfer to	Transfer from			Total
	Major Funds			
	General	Federally Qualified Health Center	Other Nonmajor Governmental	
Other Nonmajor Governmental Funds	\$ 272,747	-	-	\$ 272,747

The above-mentioned Transfers From/To were used to use unrestricted receipts collected in the General fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Note 7 – Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During 2022, the District contracted with several companies for various types of insurance as follows:

Type of Coverage	Coverage	Deductible
Public Entities Pool of Ohio		
Blanket Property and Contents, Replacement	2,000,000	500
General Liability	3,000,000	1,000
Automobile Liability	3,000,000	-
Public Officials Liability	3,000,000	1,000
Employment Practice Liability	3,000,000	1,000
Computer - Hardware	10,000	-
Computer - Software	10,000	-
Public Employee Dishonesty	50,000	-
Money and Securities	50,000	-

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 7 – Risk Management (Continued)

Settled claims have not exceeded this commercial coverage in any of the past three years and there was no significant reduction in coverage from the prior year.

The District belongs to the Public Entities Pool of Ohio (PEP), a risk-sharing pool available to Ohio local governments. PEP assumes the risk of loss up to the limits of the District’s policy. PEP provides property and casualty coverage for its members.

PEP reported the following summary of assets and actuarially-measured liabilities available to pay those liabilities as of December 31, 2021 (the latest information available):

Cash and investments	\$ 41,996,850
Actuarial liabilities	\$ 14,974,099

AS of December 31, 2021 (the latest information available), the liabilities of PEP include approximately\$15.0 million of estimated incurred claims payable. The assets of PEP include approximately \$13.9 million of unpaid claims to be billed. PEP’s membership increased to 589 members in 2021 (the latest information available). These amounts will be included in the future contributions from members when the related claims are due for payment.

Based on discussion with PEP, the expected rates of PEP charges to compute member contributions, which are used to pay claims as they become due, are not expected to change significantly from those used to determine historical contributions detailed below. By contract, the annual liability of each member is limited to the amount of financial contributions required to be made to PEP for each year of membership.

<u>Contributions to PEP</u>	
2022	\$17,193

After one year of membership, a member may withdraw on the anniversary of the date of joining PEP.

Workers’ Compensation coverage is provided by the State of Ohio. The District pays the State Workers’ Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Note 8 – Defined Benefit Pension Plans

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description – District employees, other than members of the Board of Health, participate in the Ohio Public Employees Retirement System (OPERS). OPERS is a cost-sharing, multiple employer public employee retirement system which administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 8 – Defined Benefit Pension Plans (Continued)

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Group A	Group B	Group C
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 8 – Defined Benefit Pension Plans (Continued)

Plan Description – Ohio Public Employees Retirement System (OPERS) (Continued)

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The amount of a member's pension benefit vests upon receipt of the initial benefit payment.

When a traditional plan benefit recipient has received benefits for 12 months, the member is eligible for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost-of-living adjustment is 3 percent. For those retiring on or after January 7, 2013, beginning in calendar year 2019, the adjustment is based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options and will continue to be administered by OPERS), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Effective January 1, 2022, the Combined Plan is no longer available for member selection.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 8 – Defined Benefit Pension Plans (Continued)

Plan Description – Ohio Public Employees Retirement System (OPERS) (Continued)

	State and Local
2022 Statutory Maximum Contribution Rates	
Employer	14.0 %
Employee *	10.0 %
 2022 Actual Contribution Rates	
Employer:	
Pension **	14.0 %
Post-employment Health Care Benefits **	0.0
Total Employer	14.0 %
 Employee	 10.0 %

* Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.

** These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. For 2022, the District’s contractually required contribution was \$541,591.

Social Security

Members of the District contributed to Social Security. This plan provides retirement benefits, including survivor and disability benefits to participant.

Employees contributed 6.2 percent of their gross salaries. The District contributed an amount equal to 6.2 percent of participants’ gross salaries. The District has paid all contributions required through December 31, 2022.

Note 9 – Postemployment Benefits

Ohio Public Employees Retirement System

Plan Description – The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 9 – Postemployment Benefits (Continued)

Ohio Public Employees Retirement System (Continued)

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement (HRA) to qualifying benefit recipients of both the traditional pension and the combined plans. Currently, Medicare-eligible retirees are able to select medical and prescription drug plans from a range of options and may elect optional vision and dental plans. Retirees and eligible dependents enrolled in Medicare Parts A and B have the option to enroll in a Medicare supplemental plan with the assistance of the OPERS Medicare Connector. The OPERS Medicare Connector is a relationship with a vendor selected by OPERS to assist retirees, spouses and dependents with selecting a medical and pharmacy plan. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are deposited into an HRA. For non-Medicare retirees and eligible dependents, OPERS sponsors medical and prescription coverage through a professionally managed self-insured plan. An allowance to offset a portion of the monthly premium is offered to retirees and eligible dependents. The allowance is based on the retiree's years of service and age when they first enrolled in OPERS coverage.

OPERS provides a monthly allowance for health care coverage for eligible retirees and their eligible dependents. The base allowance is determined by OPERS. For those retiring on or after January 1, 2015, the allowance has been determined by applying a percentage to the base allowance. The percentage applied is based on years of qualifying service credit and age when the retiree first enrolled in OPERS health care. Monthly allowances range between 51 percent and 90 percent of the base allowance. Those who retired prior to January 1, 2015, will have an allowance of at least 75 percent of the base allowance.

The health care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

Effective January 1, 2022, OPERS discontinued the group plans currently offered to non-Medicare retirees and re-employed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60. Members in Group A are eligible for coverage at any age with 30 or more years of qualifying service. Members in Group B are eligible at any age with 32 years of qualifying service, or at age 52 with 31 years of qualifying service. Members in Group C are eligible for coverage with 32 years of qualifying service and a minimum age of 55. Current retirees eligible (or who became eligible prior to January 1, 2022) to participate in the OPERS health care program will continue to be eligible after January 1, 2022. Eligibility requirements change for those retiring after January 1, 2022, with differing eligibility requirements for Medicare retirees and non-Medicare retirees. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information.

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 9 – Postemployment Benefits (Continued)

Ohio Public Employees Retirement System (Continued)

The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS Board of Trustees, a portion of each employer’s contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2022, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2022, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2022 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The District’s contractually required contribution was \$0 for the year 2022.

Note 10 – Debt

The District’s long-term loan activity for the year ended December 31, 2022, was as follows:

	(Restated) Outstanding 12/31/21	Issued	Retired	Outstanding 12/31/22	Due Within One Year
Governmental Activities					
Wood County - Boiler/HVAC	\$ 120,800	\$ -	\$ 22,800	\$ 98,000	\$ 23,400
Total Governmental Activities	\$ 120,800	\$ -	\$ 22,800	\$ 98,000	\$ 23,400

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 10 – Debt (Continued)

In 2016, the District entered into an agreement with the Wood County Commissioners for the replacement of the boiler and HVAC system. The total amount financed by the Wood County Commissioners was \$268,438, to be paid back in biannual payments over a 10-year period. During 2022, the Wood County Commissioners funded the payment of the debt for the District. The principal and interest amount due of \$26,424 in 2022 were paid in full by the Wood County Commissioners.

The following is a summary of the District’s future annual debt service requirements for governmental activities:

Year	Loans	
	Principal	Interest
2023	\$ 23,400	\$ 2,940
2024	24,100	2,238
2025	24,900	1,515
2026	25,600	768
Total	<u>\$ 98,000</u>	<u>\$ 7,461</u>

Note 11 – Construction and Contractual Commitments

The District entered into a contract with Mel Lanzer Co., Inc. (the Contractor) for \$528,050 to complete interior renovations to the federally qualified health center beginning on October 25, 2022 with an expected completion date on or before August 31, 2024. This contract will be paid with grant funds awarded from the HRSA grant in the amount of \$517,105 and supplemental local funds of \$10,945. The contract is to be paid in partial payments based on the completion of work and paid in full within forty-five days after the Contractor’s substantial completion of the contract to the satisfaction of the District.

Note 12 – Contingent Liabilities

The District has been named by the defendant in litigation proceedings. Although management cannot presently determine the outcome of the litigation, they believe the resolution of these matters will not materially adversely affect the District’s financial condition.

Amounts grantor agencies pay to the District are subject to audit and adjustment by the grantor, principally the federal government. Grantors may require refunding any disallowed costs. Management cannot presently determine amounts grantors may disallow. However, based on prior experience, management believes any refunds would be immaterial.

Note 13 – Joint Ventures

Public Health Services Council of Ohio, Defiance County, Ohio (PHSCO) is a Regional Council of Governments pursuant to Chapter 167 of the Ohio Revised Code. The Council was created with the adoption of By-Laws on August 7, 2017 and is comprised of a seven-member board, appointed by the member counties. The purpose of PHSCO is to provide a mechanism for coordination of the powers and duties of the member health departments to better serve and benefit public health in each of PHSCO’s counties. PHSCO includes Defiance, Fulton, Henry, Paulding, Putnam, Williams and Wood counties.

Wood County District Board of Health
Wood County
Notes to the Basic Financial Statements
For the Year Ended December 31, 2022

Note 13 – Joint Ventures (Continued)

As PHSCO is a new council of governments, the services provided, and the funding options are continually being evaluated and explored. In 2020, PHSCO entered contracts for strategic planning and accreditation coordination. PHSCO had previously received funding through an Ohio Department of Health grant to support startup of shared services approaches and will continue to pursue any possible grants.

Note 14 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Federally Qualified Health Center Fund	Other Governmental Funds	Total
Restricted for				
Community Health	\$ -	\$ 1,436,092	\$ -	\$ 1,436,092
Environmental Health	-	-	100,310	100,310
Health Promotion	-	-	78,655	78,655
Children's Health	-	-	88,481	88,481
<i>Total Restricted</i>	-	1,436,092	267,446	1,703,538
Unassigned	4,232,028	-	-	4,232,028
<i>Total Fund Balances</i>	\$ 4,232,028	\$ 1,436,092	\$ 267,446	\$ 5,935,566

Note 15 – Change in Basis of Accounting and Restatement of Beginning Balance

Last year the District reported fund financial statements by fund type using the regulatory basis of accounting as prescribed by the State Auditor’s Office. This year the District has implemented the cash basis of accounting described in Note 2. The fund financial statements now present each major fund in a separate column with nonmajor funds aggregated and presented in a single column, rather than a column for each fund type.

For 2022, the District reclassified certain funds as required by the revised fund classification guidance in GASB Statement No. 54, “Fund Balance Reporting and Governmental Fund Type Definitions”. The change in classification of funds has the following effect on fund balance previously reported:

Note 16 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio’s state of emergency ended in June 2021 while the national state of emergency continues. During 2022, the District received COVID-19 funding. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the District. The impact on the District’s future operating costs, revenues, and additional recovery from funding, either federal or state, cannot be estimated.

WOOD COUNTY DISTRICT BOARD OF HEALTH
WOOD COUNTY
Notes to the Schedule of Receipts and Expenditures of Federal Awards
For the Year Ended December 31, 2022

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Receipts and Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Wood County District Board of Health, Wood County, Ohio (the District) under programs of the federal government for the year ended December 31, 2022. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position or changes in net position, of the District.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under Uniform Guidance.

NOTE C - MATCHING REQUIREMENTS

Certain Federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY *GOVERNMENT AUDITING STANDARDS***

Wood County District Board of Health
Wood County
1840 East Gypsy Lane Road
Bowling Green, Ohio 43402

To the Board of Health:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (Government Auditing Standards), the cash-basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Wood County District Board of Health, Wood County, (the District) as of and for the year ended December 31, 2022 and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated June 26, 2023, wherein we noted the District uses a special purpose framework other than generally accepted accounting principles.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purposes of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Wood County District Board of Health
Wood County
1840 East Gypsy Lane Road
Bowling Green, Ohio 43402

To the Board of Health:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited **Wood County District Board of Health’s, Wood County,** (the District) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the District’s major federal programs for the year ended December 31, 2022. The Wood County District Board of Health’s major federal programs are identified in the *Summary of Auditor’s Results* section of the accompanying schedule of audit findings.

In our opinion, the Wood County District Board of Health complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor’s Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

The District's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
