**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE YEAR ENDED DECEMBER 31, 2023**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the City of Mason (the City) under programs of the federal government for the year ended December 31, 2023. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position changes in net position or cash flows of the City.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C – INDIRECT COST RATE

The City has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Mason
Warren County
6000 Mason-Montgomery Road
Mason, Ohio 45040

To the City Council:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Mason, Warren County, (the City), as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated July 26, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

City of Mason
Warren County
6000 Mason-Montgomery Road
Mason, Ohio 45040

To the City Council:

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited the City of Mason's, Warren County, (City) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on the City of Mason's major federal program for the year ended December 31, 2023. The City of Mason's major federal program is identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings.

In our opinion, the City of Mason complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2023.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

The City's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Mason, Warren County, (City) as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our unmodified report thereon dated July 26, 2024. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

INTRODUCTORY SECTION

This page intentionally left blank.

July 26, 2024

Honorable Mayor, Members of Council, and Citizens of Mason:

We are pleased to present the City of Mason’s Annual Comprehensive Financial Report for the fiscal year ending December 31, 2023. While there are no legal requirements for the preparation of this report, it represents a commitment by the City of Mason to conform to nationally recognized standards of excellence in financial reporting.

State law requires that each public office file an annual financial report with the Auditor of State. The financial report must also be in conformity with generally accepted accounting principles (GAAP). The City’s charter requires the City Manager and Finance Director to submit a complete report on the finances of the municipality at the end of each fiscal year to City Council as well as make the report available to the public. The management of the City of Mason, particularly the Finance Director’s Office, assumes full responsibility for both the completeness and reliability of the information contained in this report. The accuracy of the presented data and the completeness and fairness of its presentation is assured through a comprehensive framework of internal control that is established for this purpose. Since the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The Auditor of State has issued an unmodified (“clean”) opinion on the City of Mason’s financial statements for the year ending December 31, 2023. Their report is located at the front of the financial section of this report. Management’s Discussion and Analysis (MD&A) immediately follows the auditor’s

report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE CITY

Mason is considered one of the most desirable places in the Cincinnati region and has earned a reputation as a progressive, innovative community. Centrally located in southwest Ohio, the City is a destination for corporations seeking a thriving business environment and for families desiring attractive neighborhoods and nationally ranked schools.

Rendering depictions of Cincinnati Open Professional Tennis Tournament in Mason, Ohio after the announced expansion project of \$260 million and year-round activation of the 110-acre campus.

Located in the southwest quadrant of Warren County, Mason has a population of 35,520, with opportunity for continued growth. More than 36 miles of interstate highways provide businesses and residents easy access to the metropolitan centers of both Cincinnati and Dayton which fuel the area's

residential growth as well as business expansion. Mason is located between the Cincinnati region's two most vital commerce corridors, Interstates 71 and 75, just north of the I-275 beltway. The City is served by four direct interchanges - two on I-71 and two on I-75.

Several organizations recognize Mason as a great place to live, work, and play. Over the past several years, Mason's ranking continues to grow. In 2022, Fortune ranked Mason 4th Best Place to Live for Families in the United States. WalletHub ranked Mason 4th Best Places to Raise a Family in Ohio and 98th percentile for Best Small Cities to Live in America. Warren County prides itself as "Ohio's Largest Playground" and Mason is the anchor. Mason is home to some of the region's largest attractions including Kings Island amusement park, Great Wolf Lodge, and the annual Western & Southern Open; one of the "super nine" tennis tournaments in the world.

HISTORY AND ORGANIZATION

Originally settled as the village of Palmyra in 1815 by Revolutionary War veteran Major William Mason, the village was renamed in his honor 20 years later. With its population exceeding 5,000 in 1971, Mason became a city, and a charter was created to establish guidelines for its operations. Mason is a home-rule city with a council/manager form of government.

The legislative body of Mason consists of a mayor and six council members who are responsible for the legislative affairs of the City. Council also makes appointments to various statutory and advisory boards and appoints the City Manager, Law Director, and Clerk of Council.

As Chief Executive Officer, the City Manager is responsible for enforcement of all laws and ordinances established by City Council and the efficient delivery of all City services. The City provides many services normally associated with a municipality, including emergency services; street construction and maintenance; full engineering, building, and planning services; recreation space and activities; and business recruitment and retention.

Sanitary sewer, stormwater, solid waste collection and disposal services are provided under an enterprise fund concept, with user charges established by City Council to ensure adequate coverage of operating expenses and payments on outstanding debt. The City also operates a community center and golf course through enterprise funds.

The annual budget for the City of Mason serves as the foundation for the City's financial planning and control. As required by the charter, the City Manager prepares and submits the annual budget and capital program to City Council. After a review and final recommendation from Council's Finance Committee, the budget is legally enacted through passage of the annual appropriation ordinance. Department Heads, with approval from the Finance Director, may transfer resources within each department for the General Fund and within other funds up to the level approved by Council. Only Council, using a supplemental appropriation or re-appropriation ordinance, may approve any increase in appropriation or transfers between legal levels identified in the annual appropriation ordinance before the end of the fiscal year.

LOCAL ECONOMY

Mason's reputation as a competitive business environment is confirmed by a track record of corporate decisions to locate and grow business in the City, through new sites, expansions and consolidations with the transfer of jobs and investment to the City. Mason is also known as a top innovation center across the State of Ohio and the announced projects in the City reflect that position.

Mason continues to attract quality companies that are relocating or expanding. In choosing the City, companies cite prime location along the interstates, availability of land for development within established business parks, rising property values, the established core of high-tech businesses, available talent and workforce, and an exceptional level of support and services with a favorable business environment widely promoted in the region. Tax incentives targeting companies in the bio-health, high-tech, and research and

development sectors in Mason continue to be a focus, as well as companies in advanced manufacturing, aerospace, logistics, and automotive sectors.

Mason developed an economic emphasis on tourism with Warren County’s top industry, and business development. Approximately seventy percent of the County’s tourism activity originates in Mason. 2022 marked a significant year for tourism with Kings Island celebrating its 50th anniversary and associated economic impact hitting a record high of \$1.45 billion. 2023 exponentially added to the strength of Mason’s tourism with the October announcement of a \$260 million investment with the retention and expansion of the newly named Cincinnati Open (formerly Western & Southern Open) international combined men’s and women’s annual tennis tournament. In addition, the announcement expands the 110-acre development to year-round activation that will demonstrate best in class tennis and golf facilities as well as an opportunity to elevate other sports and business-related activity at the site. This monumental public private partnership structured with the City of Mason, Warren County and the State of Ohio contributed 150 million towards the development. The resulting business model is expected to leverage current and future significant private investment, strengthen development along the I-71 corridor as well as deliver an incredible regional recreation amenity.

The year-round campus features pickleball, indoor tennis facilities, golf pro-shop and operations, restaurant and meeting space.

Additionally, the City’s economic strategy has a strong focus on the growth of early and mid-stage

entrepreneurial companies within the target sectors of bio-health, bio-health IT, and digital IT. A collaborative environment between all of these provides added strength to Mason’s business environment and sets it apart within the Region and Midwest.

The City’s 27 business parks and corporate campuses are home to approximately 120 companies in industry sectors of advanced manufacturing, aerospace, IT, biotech, medical devices, and corporate headquarters.

Mason business daytime employment is roughly equivalent to the City’s nighttime population. Five of the top ten largest employers in Warren County provide work for more than 11,000 people and generated more than \$19.4 million in income tax revenue in 2023. Overall, it is estimated that there are more than 800 businesses that operate within Mason’s nineteen square miles.

Procter & Gamble Beauty Innovation Center is home to Global Beauty and Global Health. The 253-acre campus is Mason and Warren County’s largest employer. It houses the largest population of science and technical workforce across the company. This P&G facility is over two million square feet and makes the R&D laboratories in Mason the largest of the global P&G portfolio. The company’s combined employment in Mason is over 3,200.

In the last two decades, Mason has grown its global business base, became home to many domestic and foreign companies, and has one of the region's largest complements of international businesses. As of 2018, the Metropolitan Area ranked twelfth in total exports among U.S. cities. The City of Mason contributes to the Cincinnati region's worldwide impact, being home to a healthy number of the region's approximately 1,000 firms engaged in international trade. Over 450 companies from Japan, Western Europe, and Canada have established facilities within the region.

The diversified tax base in Mason provides for steady investment across industry sectors from automotive to science and research headquarters. New investment in 2023 is reflective of the diversity including new construction, build-to-suit campuses, corporate reinvestment with expansions of existing Mason businesses as well as mergers and acquisitions.

Top investment highlights from the years 2019 through 2023 are a combined \$817 million with 1,300 jobs that demonstrate strength in bio-health and bio related supply chain. These statistics continue to be the value proposition that is fueling new corporate and innovation sector announcements and generating interest from advanced manufacturing to R&D.

Planning for future high-profile technology and advanced manufacturing is robustly underway both facilitating expansions of existing businesses and attracting new in parks like the Innovation Way Business Park and in Mason Research and Development Park. Park development opportunities are represented in the adjacent areas surrounding the Vega campus above.

In 2021, the City acquired additional acres expanding the Park's footprint along the east side adjacent to US 42. This target development area consists of both City and privately-owned land in the northeast of the City totaling over 1,000 acres, now 500-owned directly by the City. This area has been set aside over the past decade with a lens of preserving growth space for Mason's key employers.

The R&D Park is routinely a go-to asset for the Cincinnati Region and State of Ohio when submitting competitive proposals to site consultants to win top projects. It has been through the SiteOhio Site readiness process, meaning it is enhanced by the rigorous standards put in place via a multi-year process by staff and City expenditures to demonstrate readiness.

The diversity of the economic base provided shelter during the pandemic as manufacturing remained an essential operation within a large majority of the portfolio. This same diversity also allowed the City to thrive, reporting continued investment and the announcement of additional projects in early 2021, such as the Western Row Land Development (WRLD) mixed-use development located on the former Western Row Golf Course. Construction began in 2022 on this development now known as Mosaic.

The anchor of Mosaic is Dorothy Lane Market (DLM) will serve as a catalyst business partner to commercial, 103 single family residential units and future 27-acres of City-owned office park.

Anchor Dorothy Lane Market – curated international grocery market complements the international business portfolio, is set to open mid-2025.

The \$156 million development helps the City serve the community. The broad business base, including the international clientele, will leverage a regionally distinct centerpiece in DLM that is anticipated to drive interest in the future office park that can accommodate up to 200,000 square feet of office and 800 jobs.

Efforts continue to focus on growth sectors and emerging markets that bring high rates of return to the City and are the targets of the City's economic

strategy. Mason continues to see a surge in the interest of land sales and new construction in the industrial, manufacturing, and specialty healthcare sectors. Recognizing that the regional market outlook is seeing continued signs of recovering activity into the next several years, Mason has positioned itself to be at the forefront of positive commercial activity. Mason has put significant effort into partnerships and creativity in economic development resulting in successful attention within the business community and the creation of investment and jobs. In addition, the combination of Mason's physical location, municipal facilities, developable terrain, services and utilities, and the progressive attitude and actions of City Council, administration, and citizens are strong assets and support company decisions to build and grow in the City.

German-based VEGA more than doubled its production in 2023 within two-years of its grand opening adding over 120K sf at its Mason North American Headquarters Campus.

LONG-TERM FINANCIAL PLANNING

As part of the annual budgeting process, City administration prepares a capital improvement plan for the next five years. City Council then reviews and prioritizes projects. In addition to the capital improvement plan, the City of Mason uses a financial forecast of both operating and capital expenditures. Using these tools, Council makes policy decisions and allocates financial resources for long-term financial planning.

RELEVANT FINANCIAL POLICIES

In 2012, Mason voters approved a unique funding mechanism for the City's emergency services. Beginning in 2013, fire and EMS services are

supported by a combination of property and income taxes. Rates for each can be adjusted annually as the need rises and falls but cannot exceed the approved maximum amount of five mills for the property tax and .15% for the income tax. The new method of funding replaced an expiring property tax levy and distributes the cost of the services to both the property owners and business employees served by Mason's emergency responders.

The City of Mason continues its policy of using only reliable financial resources when budgeting for operating costs. One-time resources and resources at risk of being eliminated are used for one-time expenditures, capital improvements, or debt reduction. In consideration, the City of Mason continues to decrease its reliance upon decreasing revenue sources for operating expenses. This has minimized the operational impact of the state's further reduction of support to local governments including the elimination of the estate tax.

MAJOR INITIATIVES

Mason's citizens are the City's greatest asset. Therefore, in preparing each year's budget, our residents' needs for services and the safeguarding of their environment in conformity with applicable federal and state standards are the government's greatest priority. Mason's success has been its ability to equitably balance the needs of residents and businesses.

Major projects that occurred in 2023 that position the City for future economic growth and improvement include:

State Route 741 Road Improvement

State Route 741 is a major corridor for the City of Mason that includes interchange access to I-71, access to Kings Island Drive leading to Kings Island Amusement Park, the entrance to the Linder Family Tennis Center and connects to I-75 north of the City via State Route 63.

The northeast portion of the City along State Route 741 includes the Mason Research & Development

Park This multi-phased multi-year improvement project continues to be on-track with completion of the critical intersection at US 42 and Route 741. Over \$17 million of improvements were substantially completed and placed in service. 2024 will see improvements on S.R. 741 between US 42 and Cox-Smith Road along with streetscape improvements on the Kings Mill Road portion of Route 741.

State Route 42 Roundabouts

In 2023, two roundabouts were completed. The \$5.7 million dollar project construction a roundabout at US 42 and Bethany Road and at Us 42 and Mason-Morrow-Millgrove Road. The roundabouts improved the traffic flow while making the area safer. As part of the project, a bike path was constructed along Bethany Road from SR 741 to the Mason Sports Park.

Veteran’s Memorial Improvements

The Veteran’s Memorial was originally dedicated November 2003. The 2023 Mason Veterans Memorial Rededication included the Memorial’s newest enhancements and improvements in honor of the Memorial’s 20th anniversary. Improvements to the Memorial include new landscaping, lighting, concrete and the replacement of all existing commemorative bricks. Additionally, a Space Force monument stone, a Golf Star Families Memorial, a Purple Heart Memorial and a Never Forget Garden stone were unveiled to the public for the first time as part of the rededication.

In honor of the Mason Veterans Memorial 20th anniversary, the Memorial was rededicated on Veterans Day, Saturday, November 11, 2023.

Sewer Improvements

In conjunction with the Roundabout project, one million dollars of sewer improvements was completed along US 42 and Mason-Morrow-Millgrove Road. Special assessment sewer lines improvements were completed for the Mosaic development for about one million dollars. Other improvements were made to the water reclamation plant and the Willow Brooke Lift Station.

Looking Ahead to the Future

The City continues to see stable income tax revenue with increases impacted by economic development activity along with minor fluctuations from economic conditions. The City of Mason seeks the opportunity to maintain its level of services while cautiously evaluating where additional service is needed. A core principle of the City’s financial policies is reinvesting into capital assets while maintaining balances to stabilize future economic downturns. This policy continues even as the economic impact is realized through supply chain issues and rising inflation. The City of Mason is prepared for potential national economic uncertainty and changes in state policy that may place pressure on the City budget in 2024 and subsequent years. Investment in long-term economic development activity will continue to be a priority.

Accomplishments to look forward to in 2024 include:

- Securing the Cincinnati Open tennis tournament long-term at its current location in Mason.
- Completion of the \$29 million State Route 741 multiphase improvements.
- Park improvements including Adaptive Ballfields at Makino Park.
- Golf course long-term planning/reinvestment.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Mason for its annual comprehensive financial report for the fiscal year ended December 31, 2022. Mason has been awarded the Certificate of Achievement each year beginning in 1997. To be awarded a Certificate of Achievement, the City had to publish an easily readable and efficiently organized report that

satisfies both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report conforms to the Certificate of Achievement Program requirements. It is being submitted to GFOA to determine its eligibility for an award for another certificate.

Sincerely,

Eric Hansen
City Manager

Our most sincere appreciation is extended to all members of the staff whose efforts have made this report possible, to Assistant Finance Director Mary Mueller, and to the staff of Plattenburg & Associates, Inc., for their dedicated service in the preparation of this annual comprehensive financial report.

INDEPENDENT AUDITOR'S REPORT

City of Mason
Warren County
6000 Mason-Montgomery Road
Mason, Ohio 45040

To the City Council:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Mason, Warren County, Ohio (City), as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Mason, Warren County, Ohio as of December 31, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, required budgetary comparison schedules, schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 26, 2024, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

City of Mason, Ohio
Management's Discussion and Analysis
(Unaudited)
For the Year Ended December 31, 2023

As management of the City of Mason, we offer readers of the City of Mason's financial statement this narrative overview and analysis of the financial activities of the City of Mason for the fiscal year ended December 31, 2023. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

Financial Highlights

The assets and deferred outflows of the City of Mason exceeded its liabilities and deferred inflows at the close of 2023 by \$514,318,981 (net position). Of this amount, \$125,260,201 is considered unrestricted and may be used to meet the government's ongoing obligations to citizens and creditors. The unrestricted balance is 151 percent of the 2023 expenses of \$82,957,918.

- The city's total net position increased by \$35,646,883.
- Net position of the governmental activities (defined below) increased \$28,448,436. Net position of the business-type activities (also defined below) increased \$7,198,447.
- Net depreciable capital assets increased by \$24,082,745 due to the completion of two major road projects.
- Net pension liability was \$53,704,915 for 2023 which is an increase of \$25,699,170 from 2022.
- The total cost of the City's programs increased \$12,744,282, which is a 18.2 percent increase from 2022. The cost of governmental activities increased \$11,161,772 or 22.1 percent, while the cost of business-type activities increased \$1,582,510 or 8.0 percent.
- The charges for services also increased \$2,281,897 or 8.0 percent. This was mainly due to an increase in Community Center revenue and a return of pre-pandemic activities.
- As of the close of the 2023 fiscal year, the city's governmental funds reported combined ending fund balances of \$171,409,434, an increase of \$17,343,332 in comparison with the prior year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the city's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

1) Government-wide financial statements.

The *government-wide financial statements* are designed to provide readers with a broad overview of the city's finances in a manner similar to private-sector business.

The *statement of net position* presents information on all of the city's assets, and deferred outflows and liabilities, and deferred inflows with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the city is improving or deteriorating.

City of Mason, Ohio
Management's Discussion and Analysis
(Unaudited)
For the Year Ended December 31, 2023

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenue and expenses reported in this statement for some items may result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish governmental activities from business-type activities. **Governmental activities** are principally supported by taxes and intergovernmental revenues. These include general government, public safety, leisure time activities, community development, and transportation/street repair. **Business-type activities** are intended to recover all or a significant portion of their costs through user fees or charges. The city includes five enterprise activities under business-type activities: a sanitary sewer system, a storm water system, waste collection system, golf course, and the community center activities.

2) Fund financial statements.

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The city, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the city can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the *governmental fund balance sheet* and the *governmental fund statement of revenues, expenditures, and changes in fund balances* provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The city maintains 28 individual governmental funds. Information is presented separately in the *governmental fund balance sheet* and in the *governmental fund statement of revenues, expenditures, and changes in fund balances* for the three major funds: the general fund, street construction maintenance and repair fund, and the safety fund. Data for the other 25 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

Proprietary funds. The city maintains only one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide

City of Mason, Ohio
Management's Discussion and Analysis
(Unaudited)
For the Year Ended December 31, 2023

financial statements. The city uses enterprise funds to account for its sanitary sewer, stormwater, waste collection, golf course, and community center operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the sanitary sewer, waste collection, stormwater, community center, and golf course funds. Statements for these major and non-major funds are provided elsewhere in this document.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government, such as fines collected by Mason Municipal Court. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the city's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

3) Notes to the financial statements.

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the city's general fund budget, street construction maintenance and repair fund budget, and the safety fund budget. The city adopts an annual appropriation budget for each fund. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplemental information

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The city's assets and deferred outflows exceeded liabilities and deferred inflows by \$514,318,981 at the close of the most recent fiscal year.

The largest portion of the city's net position (65.4 percent) reflects its investment in capital assets (e.g., land, buildings, improvements other than buildings, machinery and equipment, and infrastructure) less any related outstanding debt used to acquire those assets. The city used these capital assets to provide services to citizens; therefore, these assets are not available for future spending. Although the city's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the city's net position (10.2 percent) represents resources that are subject to restrictions as to how they may be used. The remaining balance of unrestricted net position (\$125,260,201) may be used to meet the city's on-going obligations to citizens and creditors. It is

City of Mason, Ohio
Management's Discussion and Analysis
(Unaudited)
For the Year Ended December 31, 2023

important to note that the unrestricted net position of the city's business-type activities (\$36,405,123) may not be used to fund governmental activities.

At the end of the current fiscal year, the city was able to report positive balances in all three categories of net position: for the government as a whole and for its separate governmental and business-type activities.

Overall net position of the city increased \$35,646,883 in 2023. Net position for governmental activities increased \$28,448,436 (see page 10 for information regarding these changes), while net position for business-type activities increased \$7,198,447 (see page 11 for information regarding these changes). The increase in net position for 2023 was \$1,132,365 (3.08 percent) less than the increase in net position for 2022 (\$36,779,248).

City of Mason, Ohio
Management’s Discussion and Analysis
(Unaudited)
For the Year Ended December 31, 2023

Governmental activities. Governmental activities increased the city’s net position by \$28,448,436. Key elements of the changes in net position are as follows:

- Property tax advances were lower than last year.
- Charges for services increased \$1,440,223 (20.2 percent) due to an increase in public safety program revenue.
- Operating grants decreased \$700,217 (11.1 percent) due to the end of the American Rescue Plan Act grant.
- Income tax collection increased \$1,280,589 (2.8%) due to increased payroll taxes.
- Expenses increased by \$11,161,772 (22.1 percent). Increased expense was from a significant increase pension liability.

City of Mason, Ohio
Management’s Discussion and Analysis
(Unaudited)
For the Year Ended December 31, 2023

Business-type activities. Business-type activities increased the city’s net position by \$7,198,447. Key elements of the changes in net position are as follows:

- Charges for services increased \$841,674 (3.9 percent). Most of the increase was from an increase in Community Center revenues received.
- Expenses for overall business-type activities increased \$1,582,510 (8.0 percent). This was mainly due from the increased cost of \$1,792,469 (22.4 percent) in personnel and pension expenses in the Community Center.

Financial Analysis of the Government’s Funds

As noted earlier, the City of Mason uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

City of Mason, Ohio
Management's Discussion and Analysis
(Unaudited)
For the Year Ended December 31, 2023

Governmental funds. The focus of the City of Mason's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Mason's financing requirements. In particular, the *unassigned fund balance* may serve as a useful measure of the government's net resources that are available for spending at the end of the fiscal year. As of the end of the fiscal year, the City of Mason's governmental funds reported combined ending fund balances of \$171,409,434 an increase of \$17,343,332 in comparison with the prior year.

The general fund is the chief operating fund of the city. On December 31, 2023, the unassigned fund balance of the general fund was \$34,331,215, while the total fund balance was \$121,599,209. The city's general fund balance increased by \$15,463,034 during the current fiscal year. Revenues increased by \$7,281,376 (13.2 percent) from increases in investment earnings. Current expenditures increased \$4,952,362 (14.2 percent) due to increased capital outlay.

Street construction, maintenance and repair fund provides for improvement and significant maintenance activity on the street and transportation infrastructure. Capital outlay and related grants decreased in 2023 for roundabout construction and improvement to State Route 741.

The safety fund provides public safety services to the City of Mason using revenue from a charter amendment. In November 2012, a charter amendment was approved by the voters authorizing up to five-mill property tax levy and up to an additional 0.15% income tax to provide funding for safety, fire, and emergency medical services. Council continued the 4.4 mills for 2018 and the total income tax rate of 1.12% including 0.12% that would be transferred for safety services. The fund balance increased by \$1,746,324. Revenue decreased by \$420,463 (4.6 percent) due to property taxes. Expenditures increased \$1,115,912 (12.4% percent) due to operational cost increases. \$3,158,517 was transferred from the General Fund for the additional 0.12% income tax percent.

Proprietary funds. The proprietary fund financial statements provide the same information found in the government-wide financial statements, but in more detail.

Unrestricted net position for the sewer fund at the end of the year amounted to \$27,116,421 with a total increase in net position of \$3,145,664. Unrestricted net position for the storm water utility fund at the end of the year amounted to \$5,543,250, with a growth in net position of \$384,204. Unrestricted net position for the community center fund at the end of the year amounted to \$190,060, but with a total change in net position of \$919,154. Unrestricted net position for other enterprise funds at the end of the year amounted to \$3,555,392 with a change in net position of \$2,749,425. Other factors concerning the finances of these funds have already been addressed in the discussion of the city's business-type activities.

Budgetary Highlights

The schedule comparing the City's original and final budgets and actual results are included in the required supplementary information. The original revenue budgets are very conservative estimates and are adjusted if needed for additional appropriation near the end of the year based on actual revenue. During the year, City Council will re-appropriate funds or provide supplemental

City of Mason, Ohio
Management’s Discussion and Analysis
(Unaudited)
For the Year Ended December 31, 2023

appropriations based on the changes that occurred since the adoption of the original budget. Significant differences between the original and final budgets are as follows:

General fund. During the year 2023, there was a \$16,450,000 increase in appropriations between the original and the final amended budget. The total original appropriations, including those for transfers out, were \$50,244,695 while the final appropriations were \$66,694,695. An additional \$16,000,000 was transferred to the General Capital Improvement Fund for future capital projects from the original budget to the final amended budget. The increase in appropriations was possible because of additional revenues collected which exceeded the conservative estimated revenues. The original estimated revenue was \$45,552,000. The actual revenue received was \$57,462,684. This increase was mainly due to increased income and motel tax collections.

Capital Asset and Debt Administration

Capital assets. The City’s investment in capital assets for its governmental and business-type activities as of December 31, 2023, amounted to \$336,478,602 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, system improvements, machinery and equipment, park facilities, roads, streets, and traffic signals. The increase in the city’s investment in capital assets for 2023 over 2022 was 2.6 percent.

City of Mason, Ohio
Management's Discussion and Analysis
(Unaudited)
For the Year Ended December 31, 2023

Major capital events during the current fiscal year included the following:

- US Route 42 Roundabout construction was completed.
- 741 Weldon to Avalon construction was completed.
- Golf course irrigation improvements were completed.

Additional information on the city's capital assets can be found in note 7 of the notes to the basic financial statements.

Long-term debt. On December 31, 2023, the city had \$49,495,000 of long-term debt outstanding (bonds and certificates of participation). Of this amount, \$44,335,000 comprises debt backed by the full faith and credit of the government. Certificates of participation outstanding (\$4,585,000) on December 31, 2023, are for the community center. Revenue bonds in the governmental activity of \$575,000 are funded through tax increment financing. All figures above and the table below do not include premiums and discounts.

The city continues to maintain the highest rating, "Aaa" from Moody's Investors Service for its general obligation bonds. This rating was reviewed in 2022 when the road improvement bonds were issued.

City of Mason's Outstanding Debt
General Obligation and Revenue Bonds Outstanding
(amounts expressed in thousands)

	Governmental Activities		Business-type Activities		Total

Total	\$41,545	\$44,470	\$7,950	\$9,335	\$49,495	\$53,805

The city is within all its legal debt limitations. The Ohio Revised code provides that the net debt (as defined in the Ohio Revised code) of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5% of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5% of the total assessed value for taxation. The statutory limitations on debt are measured by the ratio of debt to tax valuation and expressed in terms of a percentage. On December 31, 2023 the city's total net debt of 3.07% of the total assessed value of all property within the city is within the 10.5% and 5.5% debt limitation for voted and unvoted debt, respectively. The aggregate amount of the city's unvoted debt is also subject to overlapping debt restrictions with other political subdivisions of ten mills. This millage is measured against the property values in each overlapping district. As of the last December 31, 2023, the millage amount was 6.85 mills, of which 3.15 mills were restricted by the City of Mason for unvoted debt.

City of Mason, Ohio
Management's Discussion and Analysis
(Unaudited)
For the Year Ended December 31, 2023

Additional information regarding the city's long-term debt can be found in note 9 of the notes to the basic financial statements.

Economic Factors and Next Year's Budgets

The City of Mason is located in Warren County, which currently has an unemployment rate of 4.2 percent. As of December 31, 2023, the rate was 2.6 percent. The City's current unemployment rate is 4.2 percent. As of December 31, 2023, this rate was 2.5 percent which is lower than the current Ohio rate of 3.7 percent and lower than the national rate of 3.7 percent (not seasonally adjusted). By promoting economic growth in Mason, the city continues to attract desirable commercial enterprises. Intense competition continues to force the city to be aggressive in its economic development objectives of increasing investment, creating employment opportunities, and retaining businesses that have already been established in Mason.

The 2024 budget was prepared in a manner similar to prior years by conservatively estimating revenue while seeking opportunities for cost savings. Based on continued concerns about the loss of state support, every effort is made to reduce expenditures with minimal impact to the current level of services and maintaining capital assets. As part of the budget process, a capital improvement plan was completed and evaluated for 2024 and future years. 2024 continues to be a year where substantial effort and planning occurs for long-term capital improvements especially for roadways while parks and recreational facility improvements continue. The total appropriations budgeted for 2024 including transfers and capital outlay (\$148,436,388) is ten percent higher than the 2023 original appropriations (\$134,378,979) due to capital projects and rising inflationary cost of operations. Stable capital improvements and conservative revenue estimates were also important elements to the budget.

Request for Information

This financial report is designed to provide a general overview of the City of Mason's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Joe Reigelsperger, Finance Director, City of Mason, 6000 Mason-Montgomery Road, Mason, Ohio 45040, or by e-mail to finance@masonoh.org.

City of Mason, Ohio
 Reconciliation of Total Governmental Fund Balance to
 Net Position of Governmental Activities
 December 31, 2023

Total Governmental Fund Balance \$171,409,434

Amounts reported for governmental activities in the
 statement of net position are different because:

Capital assets used in governmental activities are not financial
 resources and, therefore, are not reported in the funds.

Capital assets used in the operation of Governmental Funds 267,497,203

Other long-term assets are not available to pay for current-
 period expenditures and, therefore, are deferred in the funds.

Income Taxes	1,685,271	
Delinquent Property Taxes	189,407	
Interest	447,163	
Intergovernmental	2,617,931	
Other Receivables	1,743,391	
		6,683,163

In the statement of net position interest payable is accrued when
 incurred; whereas, in the governmental funds interest is
 reported as a liability only when it will require the use of
 current financial resources. (107,020)

Some liabilities reported in the statement of net position do not
 require the use of current financial resources and, therefore,
 are not reported as liabilities in governmental funds.

Compensated Absences (2,755,654)

Deferred outflow of resources associated with long-term liabilities
 are not reported in the funds. 502,662

Deferred outflows and inflows or resources related to pensions
 and OPEB are applicable to future periods and, therefore, are not
 reported in the funds.

Deferred outflows of resources related to pensions	16,806,924	
Deferred inflows of resources related to pensions	(1,853,765)	
Deferred outflows of resources related to OPEB	2,884,094	
Deferred inflows of resources related to OPEB	(2,804,971)	
		15,032,282

Long-term liabilities are not due and payable in the current
 period and, therefore, are not reported in the funds.

Bonds	(44,535,895)	
Leases	(733,221)	
Net Pension Liability	(48,052,640)	
Net OPEB Liability	(2,886,607)	
		(96,208,363)

Net Position of Governmental Activities \$362,053,707

See accompanying notes to the basic financial statements.

See accompanying notes to the basic financial statements.

City of Mason, Ohio
 Reconciliation of the Statement of Revenues, Expenditures, and Changes
 in Fund Balance of Governmental Funds to the Statement of Activities
 For the Fiscal Year Ended December 31, 2023

Net Change in Fund Balance - Total Governmental Funds \$17,151,567

Amounts reported for governmental activities in the
 statement of activities are different because:

Governmental funds report capital asset additions as expenditures.
 However, in the statement of activities, the cost of those assets is
 allocated over their estimated useful lives as depreciation
 expense. This is the amount of the difference between capital
 asset additions and depreciation in the current period.

Capital assets used in governmental activities	17,686,458	
Depreciation Expense	<u>(6,255,680)</u>	
		11,430,778

Governmental funds only report the disposal of assets to the
 extent proceeds are received from the sale. In the statement
 of activities, a gain or loss is reported for each disposal. The
 amount of the proceeds must be removed and the gain or loss
 on the disposal of capital assets must be recognized. This is the
 amount of the difference between the proceeds and the gain or loss. (40,282)

Governmental funds report pension and OPEB contributions as
 expenditures. However in the Statement of Activities, the cost
 of pension and OPEB benefits earned net of employee
 contributions are reported as pension and OPEB expense.

Pension Contributions	3,186,786	
Pension Expense	(6,527,020)	
OPEB Contributions	50,212	
OPEB Expense	<u>281,190</u>	
		(3,008,832)

Revenues in the statement of activities that do not provide
 current financial resources are not reported as revenues in
 the funds.

Income Taxes	588,270	
Delinquent Property Taxes	4,396	
Interest	221,883	
Intergovernmental	(17,258)	
Other	<u>(103,633)</u>	
		693,658

Repayments of principal are an expenditure in the
 governmental funds, but the repayment reduces long-term
 liabilities in the statement of net position. 2,947,383

In the statement of activities interest expense is accrued when incurred;
 whereas, in governmental funds an interest expenditure is reported
 when due. 8,555

Some expenses reported in the statement of activities do not require the
 use of current financial resources and, therefore, are not reported as
 expenditures in governmental funds.

Compensated Absences	(286,912)	
Amortization of Bond Premium	262,377	
Amortization of Deferred Charge on Refunding	(146,017)	
Change in Inventory	<u>191,765</u>	
		21,213

Proceeds from the issuance of long-term obligations are an other financing
 source in the funds, but a long-term obligation issue increases long-term
 liabilities in the statement of net position. (755,604)

Change in Net Position of Governmental Activities \$28,448,436

See accompanying notes to the basic financial statements.

Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Note 1 – Description of the City and Reporting Entity

The City of Mason, Ohio (the “City”) was incorporated in 1815, adopted its Charter in 1969 and became a city in 1971. The City is a home-rule municipal corporation created under the laws of the State of Ohio. The City operates under a Council-Manager form of government.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that financial statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City. For the City, this includes; police and fire, parks and recreation, planning, zoning, community development, street maintenance, sewer, stormwater waste collection, community center and golf center. Council and the City Manager have direct responsibility for these activities.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization’s governing board; and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization’s resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organizations. Component units may also include organizations for which the City authorizes the issuance of debt or the levying of taxes, or determines the budget. There are no component units included as part of this report.

The Miami Valley Risk Management Association, Inc. (MVRMA) is a risk sharing insurance pool established for the purpose of enabling the subscribing political subdivisions to obtain liability insurance and providing a formalized, jointly administered self-insurance fund for its members. The members formed a not-for-profit corporation known as Miami Valley Risk Management Association, Inc. for the purpose of administering the pool. The subscribing members of the self-insurance pool include the Cities of Beavercreek, Bellbrook, Blue Ash, Centerville, Englewood, Fairfield, Kettering, Madeira, Mason, Miamisburg, Montgomery, Piqua, Sidney, Springdale, Tipp City, Troy, Vandalia, West Carrollton, Wilmington, and Wyoming, and the Village of Indian Hill. The City has no explicit and measurable equity interest in MVRMA and no ongoing financial responsibility for MVRMA. More information on MVRMA is presented in Note 5.

The City participates in a joint venture called the Liberty Township Joint Economic Development District (JEDD). This joint venture is presented in Note 15.

Note 2 – Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The most significant of the City’s accounting policies are described below.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, and all liabilities and deferred inflows of resources associated with the operation of the City are included on the Statement of Net Position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets, liabilities, and deferred outflows/inflows associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from custodial funds using a flow of economic resources measurement focus.

Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, cash and contributions that are restricted to meeting the operational or capital

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows and liabilities and deferred inflows are reported as fund balance. The following are the City's major governmental funds:

General Fund – The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the City for any purpose provided it is expended or transferred according to the charter of the City and/or the general laws of Ohio.

Street Construction, Maintenance and Repair Fund – This special revenue fund accounts for 92.5% of the City's share of state gasoline taxes and motor vehicle license fees. State law requires that such monies be spent on street construction and maintenance.

Safety Fund – This special revenue fund accounts for expenditures of property tax revenues and other resources authorized by section 10.05 of the City's Charter for safety, fire and emergency medical services.

Proprietary Funds

Proprietary fund reporting focuses on changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service. The City does not have an internal service fund.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Enterprise Funds - Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major enterprise funds:

Sewer Fund - The sewer fund accounts for the provision of sanitary sewer service to the residents and commercial users located within the City.

Stormwater Utility Fund - This fund accounts for provision of stormwater systems within the City.

Community Center Fund - This fund accounts for the community center services provided to the residents of the City and the expansion of the Center.

Additionally, the City reports the following fund types:

The Custodial Fiduciary Funds are used to account for the collection and disbursement of monies by the City on behalf of other individuals, organizations or other governmental entities. The following are the City's custodial fiduciary funds. The Municipal Court Fund to account for amounts held on behalf of other governments and bonds deposited with the court pending final disposition of various causes, the Mason Port Authority Fund to enhance future development opportunities in the City, to support the economic development strategies of the City and to promote participation in activities that will have a positive impact on the general economic wealth of Mason, and the Community Improvement Corporation Fund to account for custodial transactions related to community improvement.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

For the City, available means expected to be received within sixty days of year-end.

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned. Revenue from property taxes is recognized in the year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

which the City must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: income tax, state-levied locally shared taxes (including gasoline tax), fines and forfeitures, interest, grants and fees.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represent a consumption of net assets that applies to a future periods and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources include a deferral on refunding, pension, and other postemployment benefits (OPEB) reported in the government-wide statement of net position. A deferral on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB are explained in Notes 11 and 12.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represent an acquisition of net assets that applies to a future periods and will not be recognized as an inflow of resources (revenue) until that time. On the government wide statement of net position and governmental funds balance sheet, leases, property taxes, and grants and other taxes that are intended to finance future fiscal periods are reported as deferred inflows. In addition, the governmental funds balance sheet reports deferred inflows which arise only under a modified accrual basis of accounting. Accordingly, the items, income taxes, unavailable amounts and special assessments, are reported only in the governmental funds balance sheet. The governmental funds report unavailable amounts for accounts receivable and investment earnings. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows of resources related to pension and OPEB are reported on the proprietary funds statement of net position and the government-wide statement of net position (see Notes 11 and 12).

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Equity in Pooled Cash and Investments

To improve cash management the City's cash and investments are pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through City records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Investments" on the balance sheet.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Investments are reported at fair value. For investments in open-end mutual funds, fair value is determined by the fund's share price.

For purposes of the statement of cash flows and for presentation on the statement of net position/balance sheet, investments with an original maturity of three months or less and investments of the cash management pool are considered to be cash equivalents.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The City measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2023, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Following the Ohio Revised Code and City Ordinance, the City has specified certain funds to receive an allocation of interest earnings. Interest revenues during 2023 amounted to \$5,793,007 in the General Fund, \$866,497 in the Street Construction, Maintenance and Repair Fund, \$1,114,807 in the Safety Fund and \$56,428 in Other Governmental Funds.

Inventory

Inventories are presented at cost on first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption.

Prepaid Items

Payments made for services that will benefit periods beyond December 31, 2023, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

Lease Receivable

Lease receivable is measured at the present value of lease payments expected to be received during the lease term. Under the lease agreement, the City may receive variable lease payments that are dependent upon the lessee's revenue. The variable payments are recorded as an inflow of resources in the period the payment is received.

A deferred inflow of resources is recorded for the lease at the initiation of the lease in an amount equal to the initial recording of the lease receivable. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Lease Asset

A lease asset is a lessee’s right to use an asset over the life of a lease. The asset is calculated as the initial amount of the lease liability, plus any lease payments made to the lessor before the lease commencement date, plus any initial direct costs incurred, minus any lease incentives received. The amortization period of the lease asset is from the lease commencement date to the earlier of the end of the lease term or the end of the useful life of the asset. At the termination of the lease, the lease asset and associated lease liability are removed from the books of the lessee. The difference between the two amounts is accounted for as a gain or loss at that time.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective proprietary funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement should be reported at acquisition value rather than fair value. The City’s infrastructure consists of bridges, culverts, curbs, sidewalks, storm sewers, streets, and water and sewer lines. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset’s life are not. The City uses a \$5,000 capitalization threshold.

All reported capital assets are depreciated except for land and construction in progress. The Land classification includes the City’s right-of-way easements (intangible assets, per GASB 51). Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City’s historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Improvements	15-50 years
Equipment	5-20 years
Infrastructure	25-60 years

Compensated Absences

The City reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences." Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, a liability is recorded only for the portion of unpaid compensated absences that have

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

matured, for example, as a result of employee resignations and retirements. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases and long-term loans are recognized as a liability on the fund financial statements when due.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the City classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Nonspendable – resources that are not in spendable form (inventory) or have legal or contractual requirements to maintain the balance intact.

Restricted – spendable resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators.

Committed – spendable resources that are constrained for specific purposes that are internally imposed by the government at its highest level of decision making authority, City Council. This is done by ordinance by City Council. Same level of authority (ordinance by City Council) is needed to rescind or amend a commitment.

Assigned – resources that are intended to be used for specific purposes as approved through the City's formal purchasing procedure by the City Manager and Finance Director.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenses for specific purposes exceeding amounts which had been restricted, committed or assigned for said purposes.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Net Position

Net position represents the difference between assets and deferred outflow of resources, and liabilities and deferred inflow of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

The City's Governmental Activities and Community Center fund have restricted net position relative to those resources necessary to comply with various covenants of bond financing agreements. Of the City's \$52,580,178 in restricted net position, none were restricted by enabling legislation.

Operating Revenues and Expenses

The City, in its proprietary funds, distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

As a general rule, the effect of interfund (internal) activity has been eliminated from the government-wide statement of activities. The interfund services provided and used are not eliminated through the process of consolidation.

Gain/Loss on Refunding

On the fund level and government-wide financial statements, the difference between the reacquisition price (funds required to refund the old debt) and the net carrying amount of the old debt (the gain/loss on refunding) is being amortized as a component of interest expense. This deferred amount (deferred charge on refunding) is amortized over the life of the old debt or the life of the new debt, whichever is shorter, using the effective interest method.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 – Equity in Pooled Cash and Investments

Cash resources of several individual funds are combined to form a pool of cash and investments. Each fund type's portion of this pool is displayed on the financial statements as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the City into three categories:

Active Monies - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the City. Such monies must by law be maintained either as cash in the City treasury, in depository accounts payable or withdrawable on demand.

Inactive Monies – Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

Interim Monies – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. The City's investment policy as approved by Council Ordinance permits interim monies to be invested or deposited in the following securities in the Ohio Revised Code:

- (1) Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest.
- (2) Bonds, notes, debentures, or other obligations or securities issued by any federal governmental agency.
- (3) No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

- (4) Interim deposits in the eligible institutions applying for interim monies to be evidenced by time certificates of deposit maturing not more than one year from date of deposit, or by savings or deposit accounts, including, but limited to, passbook accounts.
- (5) Bonds and other obligations of the State of Ohio or subdivision in Ohio.
- (6) Bonds and other obligations of any state or subdivision in the top three highest rating classification by at least one nationally recognized rating agency.
- (7) The Ohio State Treasurer's investment pool (STAR Ohio).
- (8) Commercial paper and banker's acceptances which meet the requirements established by Ohio Revised Code, Chapter 135.
- (9) Under limited circumstances, corporate debt interests in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institution's participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. As of December 31, 2023, \$3,184,745 of the City's bank balance of \$3,675,162 was exposed to custodial credit risk because it was uninsured and collateralized.

The City has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by:

Eligible securities pledged to the City and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105% of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102% of the deposits being secured or a rate set by the Treasurer of State.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Investments

The following is a summary of the fair value hierarchy of the fair value of investments of the City as of December 31, 2023:

Investment Type	Fair Value Measurements Using			Net Asset Value*	Weighted Average Maturity in Years
	Net Asset Value* / Fair Value	Quoted Prices in			
		Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2		
Federal Home Loan Bank	\$45,346,384		\$45,346,384		1.43
Commercial Paper	36,189,108		36,189,108		0.44
Negotiable Certificate of Deposit	31,818,483		31,818,483		1.87
STAR Ohio*	28,919,450			\$28,919,450	0.13
Municipal Bonds	20,730,849		20,730,849		3.13
US Treasury Notes/Bonds	16,223,469	\$16,223,469			1.06

Portfolio Weighted Average Maturity					1.32

The City categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The Hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. The valuation techniques used for Level 2 (fair value measurements) include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are significant unobservable inputs. The above table identifies the City's recurring fair value measurements as of December 31, 2023. STAR Ohio is reported at its share price (Net Asset value per share).

Interest Rate Risk - In accordance with the investment policy, the City manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to two years, unless matched to a specified obligation or debt of the City.

Credit Risk – It is the City's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have the highest credit quality rating issued by nationally recognized statistical rating organizations. The City's investments in Federal Home Loan Bank, Federal Home Loan Mortgage, Federal National Mortgage Association, and Federal Farm Credit Bank were rated AA+ by Standard and Poor's and Fitch ratings and Aaa by Moody's Investors Service. Municipal Bonds were rated Aaa, Aa1, Aa2, Aa3, and A2 by Moody's Investors service and AAA, AA+, AA- and A+ by Standard and Poor's and Fitch ratings. The City's investments in Commercial Paper were rated A-1+ and A-1 by Standard & Poor's ratings and P-1 by Moody's Investment Service. Investments in STAR Ohio were rated AAAM by Standard & Poor's. US Treasury Notes/Bonds, Negotiable Certificate of Deposit and Money Market Funds were not rated. Certificate of Deposit are limited to be fully insured by FDIC.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Concentration of Credit Risk – The City’s investment policy allows investments in Federal Government Securities or Instrumentalities. The City has invested 4.2% of the City’s investments in Federal National Mortgage Association, 7.9% in US Treasury Notes/Bonds, 17.7% in Commercial Paper, 3.5% in Federal Home Loan Mortgage, 14.1% in STAR Ohio, 22.2% in Federal Home Loan Bank, 4.8% in Federal Farm Credit Bank, 10.1% in Municipal Bonds, 15.5% in Negotiable Certificate of Deposit and less than 1% in Money Market Funds.

Custodial credit risk is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the City’s securities are insured and registered in the name of the City, or at least registered in the name of the City.

Note 4 – Receivables

Receivables at year end, consisted primarily of municipal income taxes, property and other taxes, intergovernmental receivables arising from entitlements, shared revenues, special assessments, accrued interest on investments, leases, interfund, and accounts receivable.

No allowances for doubtful accounts have been recorded because uncollectible amounts are expected to be insignificant.

Special assessments expected to be collected in more than one year amounts to \$4,189 in the General Fund, \$1,530,143 in Other Governmental Funds and \$849,549 in the Sewer Fund.

Property Taxes

Property taxes include amounts levied against all real estate and public utility property, and tangible personal property used in business and located in the City. Real property taxes (other than public utility) collected during 2023 were levied after October 1, 2022 on assessed values as of January 1, 2022, the lien date. Assessed values were established by the County Auditor at 35% of appraised market value. All property is required to be revalued every six years. Real property taxes are payable annually or semi annually. If paid annually, payment is due January 31; if paid semiannually, the first payment is due February and the remainder payable in July. Under certain circumstances, state statute permits later payment dates to be established.

Public utility real property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property is currently assessed at 100% of its true value. Public utility property taxes are payable on the same dates as real property described previously.

The assessed values of real and tangible personal property upon which current year property tax receipts were based are as follows:

Real Property	\$1,641,071,520
Public Utility	35,383,800
	<hr/>
Total Valuation	<u>\$1,676,455,320</u>

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Real property taxes are payable annually or semi-annually. If paid annually, the payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

The City receives property taxes from Warren County. The County Treasurer collects property taxes on behalf of all taxing districts in the counties, including the City. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2023, and for which there is an enforceable legal claim. In the funds, a portion of the receivable has been offset by deferred inflows since the current taxes were not levied to finance 2023 operations and the collection of delinquent taxes during the available period is not subject to reasonable estimation. On an accrual basis, collectible delinquent property taxes have been recorded as revenue while the remainder of the receivable is deferred.

Income Taxes

In November 2006, Mason voters approved an amendment to the City's charter that changed the City's Tax Ordinance to allow 100% credit for residents employed in another city.

In November 2012, Mason voters approved an amendment to the City's charter to provide funding of safety services, including fire and emergency services, through a combination of income and property taxes. The amendment allows for an increase of the income tax of up to 0.15%, with an initial rate for 2013 of 0.12%, and up to 5 mills of property tax. The amendment also allows for a credit of the additional income tax for residents who pay property tax.

Employers within the City withhold income tax on employee compensation and remit at least quarterly. Corporations and other individual taxpayers pay estimated taxes quarterly based on an annual declaration and file an annual tax return.

Economic Development Agreements

Economic development efforts include occasional incentive agreements and forgivable loans that are based upon the expansion/retention of existing businesses and attracting new/relocating businesses. These agreements include agreements to provide services that further the City's economic development efforts. Repayment of these agreements may be required if a business fails to meet performance requirements or relocated to another location outside the City. Despite the possible receivable, it is generally believed nothing will be owed or repaid and nothing is recognized as a receivable.

Property Assessed Clean Energy

The City is part of the I-75 Energy Special Improvement District to finance energy improvements for private property owners through a Property Assessed Clean Energy (PACE) program. A special assessment is levied against the private property to pay for the improvements financed through the District. The City is responsible for remitting the special assessments collected to the investor who financed the improvements.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Note 5 - Risk Management

Joint Insurance Pool

The City is one of twenty members of a joint insurance pool, Miami Valley Risk Management Association, Inc. (MVRMA), with the cities of Englewood, Bellbrook and Centerville added in 2004. The pool has been operational since December 1, 1988, and was formed according to Section 2744.081 of the Ohio Revised Code. This joint venture covers all property, crime, liability, boiler and machinery, and public official liability up to the limits stated below. It is intended to provide broad-based coverage up to the various limits with increased emphasis on safety and loss prevention.

MVRMA is a corporation governed by a twenty member board of trustees, consisting of a representative appointed by each of the member cities. The board of trustees elects the officers of the corporation, with each trustee having a single vote. The board is responsible for its own financial matters and the corporation maintains its own book of accounts. Budget and financing of MVRMA is subject to the approval of the board.

Excess insurance coverage will cover additional claims up to the limits listed below:

Liability:

- Personal Injury Liability
- Property Damage Liability
- Public Officials Errors and Omissions
- Employment Practices Liability
- Employee Benefits Liability
- Employer Stop Gap Liability

Limits: \$12,000,000 per occurrence. \$12,000,000 annual aggregate per member for Employment Practices Liability; Public Officials Errors and Omissions and Employee Benefits Liability combined; and Products/Completed Operations.

MVRMA Self-Insured Retention: \$500,000 per occurrence and obtained reinsurance from Government Entities Mutual Inc. (GEM) for \$6.5 million excess of \$500,000, and from Genesis for \$5 million excess of \$7 million.

Property:

- \$1,000,000,000/occurrence
- MVRMA Self-Insured Retention (SIR): \$250,000/occurrence

Coverage excess of SIR provided by Alliant Property Insurance Program (APIP). List of carriers underwriting the coverage provided upon request.

Flood Damage:

- Limits: \$25 million/occurrence and annual aggregate
- Sublimit: Flood Zone A & V - \$5 million/occurrence and annual aggregate
- MVRMA Self-Insured Retention: \$250,000/occurrence – all flood zones

Earthquake Shock:

- Limits: \$25 million/occurrence and annual aggregate
- MVRMA Self-Insured Retention: \$250,000/occurrence

Boiler & Machinery:

- Limits: \$100,000,000/occurrence
- MVRMA Self-Insured Retention: \$25,000-\$500,000/occurrence

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Cyber Liability:

Coverage provided by Lloyds of London – Beazley Syndicate. Excess limits provided by Alliant Property Insurance Program (APIP). List of carriers underwriting the coverage provided upon request.

Aggregate Limit: \$3 million, subject to \$4 million MVRMA pool-wide aggregate

First Party Loss (Limits per Occurrence):

\$1,500,000 Business Interruption Resulting from Security Breach

\$1,000,000 Business Interruption Resulting from System Failure

\$1,500,000 Dependent Business Interruption Resulting from Security Breach

\$200,000 Dependent Business Interruption Resulting from System Failure

\$1,500,000 Cyber Extortion Loss

\$1,500,000 Data Recovery Costs

Liability:

\$5,000,000 each for Data & Network Liability; Regulatory Defense & Penalties; Payment Card Liabilities & Costs; Media Liability

E-Crime:

\$150,000 each for Fraudulent Instructions; Funds Transfer Fraud; Telephone Fraud

Breach Response Costs:

\$1,000,000 (increased to \$2 million if designated breach response provider is used)

Pollution Liability – (claims made and reported policy):

Coverage excess of MVRMA self-insured retention provided by Ironshore Specialty Insurance Company

Limits:

\$25,000,000 Policy Aggregate for all insureds combined

\$2,000,000 Per Pollution Incident

\$2,000,000 Per Named Insured

\$2,000,000 MVRMA Pool-wide Aggregate

Retroactive Date: Policy inception

MVRMA Self-Insured Retention (SIR): \$250,000/pollution condition; \$250,000 Mold;

\$500,000 Sewage Backups; \$750,000-\$1,000,000 underground storage tanks

Crime Coverage:

Coverage excess of MVRMA self-insured retention provided by National Union Fire Insurance Co. of Pittsburgh, PA.

Limits per Occurrence:

\$2,000,000 Employee Theft Per Loss; Forgery or Alteration

\$100,000 Inside & Outside Premises–Theft of Money & Securities, Robbery, Safe Burglary

\$2,000,000 Computer Fraud

\$2,000,000 Funds Transfer Fraud

\$5,000 Money Orders and Counterfeit Paper Currency

MVRMA self-insured retention: up to \$50,000 per loss

Member Deductible per occurrence - \$2,500

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

The Audit of MVRMA’s 2023 financial statements has not been completed yet. Data from the December 31, 2022 financial statements are as follows:

Current Assets	\$4,441,242
Non-current Assets	<u>13,091,357</u>
Total Assets	<u>17,532,599</u>
Deferred Outflows of Resources	73,146
Current Liabilities	5,917,650
Non-current Liabilities	<u>2,097,838</u>
Total Liabilities	<u>8,015,488</u>
Deferred Inflows of Resources	311,582
Net Position	<u>\$9,278,675</u>

Settled claims have not exceeded this commercial coverage in any of the past three years.

Group Health Insurance Program

The City has a group health insurance program for employees and their eligible dependents. Premiums are paid into the General Fund by all funds having compensated employees based on an analysis of historical claims experience, the desired fund balances and the number of active participating employees. The monies paid into the General Fund are available to pay claims and administrative costs. The plan is administered by a third party administrator, Custom Design Benefits, which monitors all claim payments. The claims liability of \$711,223 reported in the General Fund at year end is based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Changes in the claims liability amounts were as follows:

<u>Fiscal Year</u>	<u>Beginning of Fiscal Year Liability</u>	<u>Current Claims and Changes in Estimates</u>	<u>Claims Payments</u>	<u>End of Fiscal Year Liability</u>
2023	\$629,335	\$5,976,293	(\$5,894,405)	\$711,223
2022	581,071	4,257,014	(4,208,750)	629,335

The City estimates all claims outstanding at the end of the year will be paid off within one year.

Note 6 – Contingent Liabilities

Litigation

The City management is of the opinion that the ultimate disposition of claims and legal proceedings will not have a material effect, if any, on the financial condition of the City.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Federal and State Grants

The City participates in several federally assisted programs. These programs are subject to financial and compliance audits by the grantor or their representative. As of December 31, 2023, the audits of certain of these programs have not been completed. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the City believes such disallowance, if any, would be immaterial.

Note 7 – Capital Assets

Capital asset activity for the current year end was as follows:

	Beginning Balance	Additions	Deletions	Ending Balance
Governmental Activities				
Capital Assets, not being depreciated:				
Land	\$78,965,145	\$2,335,607	\$0	\$81,300,752

Note 8 – Compensated Absences

Accumulated Unpaid Vacation

City employees earn vacation leave at varying rates based upon length of service, subject to certain maximum accruals. In the event of a termination of employment, death, or retirement, employees (or their estates) are paid for unused vacation leave.

Accumulated Unpaid Sick Leave

The City of Mason does not permit advancement of moneys on sick leave accrued.

Sick Leave Conversion at Retirement

- a. Upon retirement, a full-time, regular employee who meets the age and length of service requirements of the Public Employees Retirement System or the Police and Fireman's Disability and Pension Fund, whichever is applicable, and who was also in the service of the City of Mason for a period of ten (10) continuous years prior to retirement from the service of the City of Mason may redeem his or her accumulated sick leave providing all other criteria are met in order to receive the benefits (i.e. age for retirement).
- b. Redemption shall be at a rate of three (3) accumulated sick days exchanged for (1) day of pay for the first two hundred (200) sick days. For the next twenty five sick days the redemption shall be two (2) accumulated sick days exchanged for one (1) day of pay. All remaining sick days the redemption shall be one (1) accumulated sick days exchanged for (1) day of pay. The maximum redemption is limited to two hundred eighty-seven and a half (287 1/2) sick days converted to one-hundred and forty-one and two-thirds (141 2/3) days paid.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

- c. Redemption for union fire employees shall be at a rate of three (3) accumulated sick leave days exchanged for one (1) day of pay with a maximum redemption limited to two-hundred and ten (210) days converted to seventy (70) days paid.
- d. Redemption for teamster employees shall be at a rate of three (3) accumulated sick leave days exchanged for one (1) day of pay with a maximum redemption limited to one-hundred and twenty (120) days converted to forty (40) days paid.
- e. Payment will be based on the employee's base rate of pay at the time of retirement.
- f. The conversion of sick leave to cash will be made as a lump sum payment and will eliminate all sick leave credit accrued by the employee.

Note 9 – Long-Term Debt

A schedule of changes in bonds and other long-term obligations of the City during the current year follows:

Total Business-Type Activities	\$11,395,637	\$4,478,645	(\$1,558,847)	\$14,315,435	\$1,680,728

Compensated Absences will be paid from the fund from which the person is paid. Historically, this is the General Fund, a Special Revenue Fund or an Enterprise Fund. Lease liability will be retired from the General Fund. General obligation bonds will be paid from the General Obligation Bond Retirement Fund, the Special Assessment Bond Retirement Fund, Mason Enterprise Parke TIF Fund, Sewer Fund, Stormwater Utility Fund, Community Center Fund and the Golf Course Fund. The Special Assessment Bonds are backed by the full faith and credit of the City and are repaid from the resources of the Special Assessment Bond Retirement Fund. The City levies an assessment against the effected property owners. There are no repayment schedules for the net pension and net other postemployment benefits (OPEB) liabilities; however, employer pension and OPEB contributions are made from the fund benefitting from their service (this is usually a the General Fund or an Enterprise Fund).

Principal and interest requirements to retire the City's long-term obligations outstanding at year end are as follows:

Year	General Obligation Bonds		Revenue Bonds		Certificate of Participation Bonds	
	Principal	Interest	Principal	Interest	Principal	Interest
2024	\$3,550,000	\$1,325,843	\$55,000	\$33,062	\$720,000	\$108,756
2025	3,655,000	1,105,163	60,000	29,900	735,000	91,678
2026	3,785,000	1,080,632	65,000	26,450	755,000	74,244
2027	3,920,000	944,893	70,000	22,712	775,000	56,335
2028	2,345,000	796,552	75,000	18,688	790,000	37,952
2029-2033	11,965,000	2,717,479	250,000	29,324	810,000	19,213
2034-2038	11,295,000	1,102,270	0	0	0	0
2039-2041	3,820,000	131,190	0	0	0	0
	<u>\$44,335,000</u>	<u>\$9,204,022</u>	<u>\$575,000</u>	<u>\$160,136</u>	<u>\$4,585,000</u>	<u>\$388,178</u>

Recreational Facilities Improvement Bonds

On March 12, 2020 the City issued \$15,000,000 in Recreational Facilities Improvement Bonds, Series 2020A, with an interest rate between 2.00% and 4.00%. The bond was issued for the purpose of constructing a municipal aquatic center. The bond will be paid from the general bond retirement fund and will mature December 1, 2039.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

On March 12, 2020 the City issued \$6,000,000 in Recreational Facilities Improvement Bonds, Series 2020B, with an interest rate between 1.50% and 3.00%. The bond was issued for the purpose of constructing improvements to the municipal golf course. The bond will be paid from the golf course fund and will mature December 1, 2029.

On October 29, 2020 the City issued \$8,000,000 in Recreational Facilities Improvement Limited Tax General Obligation Bonds, Series 2020C, with an interest rate between 1.650% and 4.000%. The bond was issued for the purpose of paying the cost of constructing a competition pool for the municipal aquatic center and to pay certain costs related to the issuance of the bonds. The bond will be paid from the general bond retirement fund and will mature December 1, 2040.

Long Term Special Assessment Bonds

On September 7, 2017 the City issued \$2,000,000 in Special Assessment Bonds with an interest rate of 3.2%. The road and utility improvement special assessment bonds were issued for the purpose of paying the cost of the property owners' share of the construction of road and utility improvements in the Ambleside subdivision. The Bonds will be retired from the Special Assessment Bond Retirement.

Road Improvement Bonds

On October 21, 2021 the City issued \$10,000,000 in Road Improvement Bonds, with an interest rate between 2.00% and 5.00%. The bonds were issued for the purpose of making road improvements to State Route 741. The bond will be paid from the general bond retirement fund and will mature December 1, 2041.

Combined Financing Bonds

On December 1, 2015 the City issued \$9,000,000 in Combined Financing Bonds, with an interest rate between 1.00% and 4.00%. The bonds were issued for the purpose of making road improvements to Western Row Road and the acquisition and improvements of buildings within the City. The bond will be paid from the general bond retirement fund and will mature December 1, 2035.

Certificate of Participation Bonds

On December 1, 2019, the City issued \$7,300,000 in Certificate of Participation Bonds, with an interest rate of 2.372%. The bonds were issued for the purpose of an addition to the City's community center. The bonds will be paid from the community center fund and will mature December 1, 2029.

Lease Liability – Lease Assets

The City has entered into contracts that convey the control of the right to use their nonfinancial assets (the underlying assets) for flock cameras as specified in the contracts for a period of time. The basis and terms of the each contract is 5 years.

During the period, there were no outflows of resources recognized for variable payments not previously included in the measurement of the lease liability. Also, there were no outflows of resources recognized for other payments, such as residual value guarantees or termination penalties, not previously included in the measurement of the lease liability during the period. There were no commitments under leases before the commencement of the lease term. Principal and interest amounts for the next five years and thereafter are as follows:

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Year	Principal	Interest	Total
2024	\$166,040	\$4,109	\$170,149
2025	134,967	26,443	161,410
2026	143,716	20,150	163,866
2027	152,972	13,449	166,421
2028	135,526	6,319	141,845
	<u>\$733,221</u>	<u>\$70,470</u>	<u>\$803,691</u>

Note 10 – Lease – Lessor Disclosure

The City collectively (the “lessor”) entered into an agreement to lease building space and an agreement for cell tower space/land. The lease receivable is measured at the present value of the future minimum lease payments expected to be received during the lease term at various discounted rates.

Details of each lease are presented below:

The lease is as follows for:

Myriad Neuroscience/AssureRx Health (building/office space)

Lease Year	Principal*	Interest	Total
2024	\$180,764	\$14,236	\$195,000
2025	185,457	9,543	195,000
2026	190,273	4,727	195,000
2027	80,732	518	81,250
	<u>\$637,226</u>	<u>\$29,024</u>	<u>\$666,250</u>

*-lease receivable

The lease is as follows for:

TriHealth/Bethesda Hospital (building/office space)

Lease Year	Principal*	Interest	Total
2024	\$608,944	\$462,582	\$1,071,526
2025	627,989	446,732	1,074,721
2026	647,590	430,387	1,077,977
2027	667,774	413,533	1,081,307
2028	688,544	396,153	1,084,697
2029-2033	3,776,148	1,700,604	5,476,752
2034-2038	4,394,250	1,178,035	5,572,285
2039-2043	5,107,463	570,294	5,677,757
2044-2045	1,784,991	38,467	1,823,458
	<u>\$18,303,693</u>	<u>\$5,636,787</u>	<u>\$23,940,480</u>

*-lease receivable

The City recognized \$737,045 in lease revenues and \$496,348 interest revenues from lease activity for 2023.

Note 11 – Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability

Pensions and OPEB are a component of exchange transactions - between an employer and its employees - of salaries and benefits for employee services. Pensions are provided to an employee - on a deferred-payment basis - as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability represents the City’s proportionate share of each pension/OPEB plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan’s fiduciary net position. The net pension/OPEB liability calculation is

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability. Resulting adjustments to the net pension/OPEB liability would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension/OPEB liability on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contribution outstanding at the end of the year is included in accrued wages and benefits on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the pension disclosures. See Note 12 for the OPEB disclosures.

Ohio Public Employees Retirement System (OPERS)

Plan Description

City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS is a cost-sharing, multiple employer public employee retirement system which administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Effective January 1, 2022, new members may no longer select the Combined Plan, and current members may no longer make a plan change to this plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

<u>Group A</u> Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	<u>Group B</u> 20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	<u>Group C</u> Members not in other Groups and members hired on or after January 7, 2013
<u>State and Local</u>	<u>State and Local</u>	<u>State and Local</u>
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Traditional Plan Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Traditional Plan Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Traditional Plan Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35
<u>Public Safety</u>	<u>Public Safety</u>	<u>Public Safety</u>
Age and Service Requirements: Age 48 with 25 years of service credit or Age 52 with 15 years of service credit	Age and Service Requirements: Age 48 with 25 years of service credit or Age 52 with 15 years of service credit	Age and Service Requirements: Age 52 with 25 years of service credit or Age 56 with 15 years of service credit
<u>Law Enforcement</u>	<u>Law Enforcement</u>	<u>Law Enforcement</u>
Age and Service Requirements: Age 52 with 15 years of service credit	Age and Service Requirements: Age 48 with 25 years of service credit or Age 52 with 15 years of service credit	Age and Service Requirements: Age 48 with 25 years of service credit or Age 56 with 15 years of service credit
<u>Public Safety and Law Enforcement</u>	<u>Public Safety and Law Enforcement</u>	<u>Public Safety and Law Enforcement</u>
Traditional Plan Formula: 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25	Traditional Plan Formula: 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25	Traditional Plan Formula: 2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The amount of a member's pension benefit vests upon receipt of the initial benefit payment. The options for Public Safety and Law Enforcement permit early retirement under qualifying circumstances as early as age 48 with a reduced benefit.

When a traditional plan benefit recipient has received benefits for 12 months, the member is eligible for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost-of-living adjustment is 3 percent. For those retiring on or after January 7, 2013, beginning in calendar year 2019, the adjustment is based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member’s contributions plus or minus the investment gains or losses resulting from the member’s investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members’ contributions, vested employer contributions and investment gains or losses resulting from the members’ investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options and will continue to be administered by OPERS), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Funding Policy

The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>State and Local</u>	<u>Public Safety</u>	<u>Law Enforcement</u>
2023 Statutory Maximum Contribution Rates			
Employer	14.0 %	18.1 %	18.1 %
Employee *	10.0 %	**	***
2023 Actual Contribution Rates			
Employer:			
Pension ****	14.0 %	18.1 %	18.1 %
Post-employment Health Care Benefits ****	<u>0.0</u>	<u>0.0</u>	<u>0.0</u>
Total Employer	<u>14.0 %</u>	<u>18.1 %</u>	<u>18.1 %</u>
Employee	<u>10.0 %</u>	<u>12.0 %</u>	<u>13.0 %</u>

* Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.

** This rate is determined by OPERS' Board and has no maximum rate established by ORC.

*** This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.

**** These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension; however, effective July 1, 2022, a portion of the health care rate is funded with reserves.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Employer contribution rates are actuarially determined within the constraints of statutory limits for each division and expressed as a percentage of covered payroll.

For 2023, the City's contractually required contribution was \$1,482,984, of this amount \$199,598 is reported in accrued wages and benefits.

Ohio Police & Fire Pension Fund (OP&F)

Plan Description

City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit (see OP&F Annual Comprehensive Financial Report referenced above for additional information, including requirements for Deferred Retirement Option Plan provisions and reduced and unreduced benefits).

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit, statutory survivors and annuity beneficiaries. Members participating in the DROP program have separate eligibility requirements related to COLA.

The COLA amount for members who have 15 or more years of service credit as of July 1, 2013, and members who are receiving a pension benefit that became effective before July 1, 2013, will be equal to 3.0 percent of the member's base pension benefit.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

The COLA amount for members who have less than 15 years of service credit as of July 1, 2013, and members whose pension benefit became effective on or after July 1, 2013, will be equal to a percentage of the member’s base pension benefit where the percentage is the lesser of 3.0 percent or the percentage increase in the consumer price index, if any, over the twelve-month period that ends on the thirtieth day of September of the immediately preceding year, rounded to the nearest one-tenth of one percent.

Members who retired prior to July 24, 1986, or their surviving beneficiaries under optional plans are entitled to cost-of-living allowance increases. The annual increase is paid on July 1st of each year. The annual COLA increase is \$360 under a Single Life Annuity Plan with proportional reductions for optional payment plans.

Funding Policy

The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>Police</u>	<u>Firefighters</u>
2023 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %
 2023 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	<u>0.50</u>	<u>0.50</u>
 Total Employer	<u>19.50 %</u>	<u>24.00 %</u>
 Employee	<u>12.25 %</u>	<u>12.25 %</u>

Employer contribution rates are expressed as a percentage of covered payroll. The City’s contractually required contribution to OP&F was \$2,141,958 for 2023, of this amount \$258,980 is reported as accrued wages and benefits.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F’s total pension liability was measured as of December 31, 2022, and was determined by rolling forward the total pension liability as of January 1, 2022, to December 31, 2022. The City’s proportion of the net pension liability was based on the City’s share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share of the City’s defined benefit pension plans:

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

	OPERS		
	Traditional Plan	OPF	Total
Proportionate Share of the:			
Net Pension Liability	\$19,130,723	\$34,574,192	\$53,704,915
Proportion of the Net Pension Liability:			
Current Measurement Date	0.06476200%	0.36397600%	
Prior Measurement Date	0.06106000%	0.36324230%	
Change in Proportionate Share	0.00370200%	0.00073370%	
Pension Expense	\$3,259,755	\$4,402,641	\$7,662,397

At December 31 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	OPERS		
	Traditional Plan	OPF	Total
<u>Deferred Outflows of Resources</u>			
Differences between expected and actual experience	\$635,442	\$518,597	\$1,154,039
Changes in assumptions	202,103	3,118,473	3,320,576
Net difference between projected and actual earnings on pension plan investments	5,452,857	5,033,577	10,486,434
Changes in employer proportionate share of net pension liability	563,394	120,684	684,078
Contributions subsequent to the measurement date	1,482,984	2,141,958	3,624,942
Total Deferred Outflows of Resources	\$8,336,780	\$10,933,289	\$19,270,069
<u>Deferred Inflows of Resources</u>			
Differences between expected and actual experience	\$0	\$787,702	\$787,702
Changes in assumptions	0	674,186	674,186
Changes in employer proportionate share of net pension liability	0	391,877	391,877
Total Deferred Inflows of Resources	\$0	\$1,853,765	\$1,853,765

\$3,624,942 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Year Ending	OPERS		
December 31:	Traditional Plan	OPF	Total
2024	\$1,177,503	\$718,305	\$1,895,808
2025	1,400,062	1,621,237	3,021,299
2026	1,605,041	1,829,258	3,434,299
2027	2,671,190	2,834,270	5,505,460
2028	0	(65,504)	(65,504)
Total	\$6,853,796	\$6,937,566	\$13,791,362

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Actuarial Assumptions – OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2022, using the following key actuarial assumptions and methods applied to all periods included in the measurement in accordance with the requirements of GASB 67:

	<u>OPERS Traditional Plan</u>
Wage Inflation	2.75 percent
Future Salary Increases, including inflation	2.75 to 10.75 percent including wage inflation
COLA or Ad Hoc COLA:	
Pre-January 7, 2013 Retirees	3.0 percent, simple
Post-January 7, 2013 Retirees	3.0 percent, simple through 2023, then 2.05 percent, simple
Investment Rate of Return	6.9 percent
Actuarial Cost Method	Individual Entry Age

Pre-retirement mortality rates are based on 130 percent of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170 percent of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115 percent of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five year period ended December 31, 2020.

During 2022, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 12.1 percent for 2022.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric rates of return were provided by the Board’s investment consultant. For each major class that is included in the Defined Benefit portfolio’s target asset allocation as of December 31, 2022, these best estimates are summarized below:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Geometric)
Fixed Income	22.00%	2.62%
Domestic Equities	22.00	4.60
Real Estate	13.00	3.27
Private Equity	15.00	7.53
International Equities	21.00	5.51
Risk Parity	2.00	4.37
Other investments	5.00	3.27
Total	100.00%	

Discount Rate

The discount rate used to measure the total pension liability for the current year was 6.9 percent for the traditional plan and the combined plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the traditional pension plan, combined plan and member-directed plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the City’s proportionate share of the net pension liability calculated using the current period discount rate assumption of 6.9 percent, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (5.9 percent) or one-percentage-point higher (7.9 percent) than the current rate:

	1% Decrease (5.90%)	Current Discount Rate (6.90%)	1% Increase (7.90%)
Proportionate share of the net pension liability	\$28,657,185	\$19,130,723	\$11,206,416

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Actuarial Assumptions – OP&F

OP&F’s total pension liability as of December 31, 2022, is based on the results of an actuarial valuation date of January 1, 2022, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F’s actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered are: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of January 1, 2022, are presented below.

Valuation Date	January 1, 2022, with actuarial liabilities rolled forward to December 31, 2022
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	7.5 percent
Projected Salary Increases	3.75 percent to 10.5 percent
Payroll Growth	3.25 percent per annum, compounded annually, consisting of Inflation rate of 2.75 percent plus productivity increase rate of 0.5 percent
Cost of Living Adjustments	2.2 percent simple per year

For 2022, mortality for service retirees is based on the Pub-2010 Below-Median Safety Amount-Weighted Healthy Retiree mortality table with rates adjusted by 96.2 percent for males and 98.7 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, mortality for disabled retirees is based on the Pub-2010 Safety Amount-Weighted Disabled Retiree mortality table with rates adjusted by 135 percent for males and 97.9 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, mortality for contingent annuitants is based on the Pub-2010 Below-Median Safety Amount-Weighted Contingent Annuitant Retiree mortality table with rates adjusted by 108.9 percent for males and 131 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, Mortality for active members is based on the Pub-2010 Below-Median Safety Amount-Weighted Employee mortality table. All rates are projected using the MP- 2021 Improvement Scale.

For 2021, mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Age	Police	Fire
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

For 2021, mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed for the five-year period ended December 31, 2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The assumption is intended to be a long-term assumption (30 to 50 years) and is not expected to change absent a significant change in the asset allocation, a change in the underlying inflation assumption, or a fundamental change in the market that alters expected returns in future years.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2022, are summarized below:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	18.60 %	4.80 %
Non-US Equity	12.40	5.50
Private Markets	10.00	7.90
Core Fixed Income *	25.00	2.50
High Yield Fixed Income	7.00	4.40
Private Credit	5.00	5.90
U.S. Inflation Linked Bonds*	15.00	2.00
Midstream Energy Infrastructure	5.00	5.90
Real Assets	8.00	5.90
Gold	5.00	3.60
Private Real Estate	12.00	5.30
Commodities	2.00	3.60
Total	125.00 %	

Note: Assumptions are geometric.

* levered 2.5x

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

Discount Rate

For 2022, the total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return of 7.50 percent. Based on those assumptions, the plan’s fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact, the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
Proportionate share of the net pension liability	\$45,610,030	\$34,574,192	\$25,400,099

Note 12 – Postemployment Benefits

Net OPEB Liability

See Note 11 for a description of the net OPEB liability.

Ohio Public Employees Retirement System (OPERS)

Plan Description

The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust. The 115 Health Care Trust (115 Trust or Health Care Trust) was established in 2014, under Section 115 of the Internal Revenue Code (IRC). The purpose of the 115 Trust is to fund health care for the Traditional Pension, Combined and Member-Directed plans. Medicare-enrolled retirees in the Traditional Pension and Combined plans may have an allowance deposited into a health reimbursement arrangement (HRA) account to be used toward the health care program of their choice selected with the assistance of an OPERS vendor. Non-Medicare retirees have converted to an arrangement similar to the Medicare-enrolled retirees, and are no longer participating in OPERS provided self-insured group plans.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

With one exception, OPERS-provided health care coverage is neither guaranteed nor statutorily required. Ohio law currently requires Medicare Part A equivalent coverage or Medicare Part A premium reimbursement for eligible retirees and their eligible dependents.

OPERS offers a health reimbursement arrangement (HRA) allowance to traditional pension plan and combined plan benefit recipients meeting certain age and service credit requirements. The HRA is an account funded by OPERS that provides tax free reimbursement for qualified medical expenses such as monthly post-tax insurance premiums, deductibles, co-insurance, and co-pays incurred by eligible benefit recipients and their dependents.

OPERS members enrolled in the Traditional Pension Plan or Combined Plan retiring with an effective date of January 1, 2022, or after must meet the following health care eligibility requirements to receive an HRA allowance:

Medicare Retirees - Medicare-eligible with a minimum of 20 years of qualifying service credit

Non-Medicare Retirees - Non-Medicare retirees qualify based on the following age-and-service criteria:

Group A - 30 years of qualifying service credit at any age;

Group B - 32 years of qualifying service credit at any age or 31 years of qualifying service credit and minimum age 52;

Group C - 32 years of qualifying service credit and minimum age 55; or,

A retiree from groups A, B or C who qualifies for an unreduced pension, but a portion of their service credit is not health care qualifying service, can still qualify for health care at age 60 if they have at least 20 years of qualifying health care service credit.

Retirees who don't meet the requirement for coverage as a non-Medicare participant can become eligible for coverage at age 65 if they have at least 20 years of qualifying service.

Members with a retirement date prior to January 1, 2022, who were eligible to participate in the OPERS health care program will continue to be eligible after January 1, 2022.

Eligible retirees may receive a monthly HRA allowance for reimbursement of health care coverage premiums and other qualified medical expenses. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are provided to eligible retirees, and are deposited into their HRA account.

Retirees will have access to the OPERS Connector, which is a relationship with a vendor selected by OPERS to assist retirees participating in the health care program. The OPERS Connector may assist retirees in selecting and enrolling in the appropriate health care plan.

When members become Medicare-eligible, recipients enrolled in OPERS health care programs must enroll in Medicare Part A (hospitalization) and Medicare Part B (medical).

OPERS reimburses retirees who are not eligible for premium-free Medicare Part A (hospitalization) for their Part A premiums as well as any applicable surcharges (late-enrollment fees). Retirees within this group must enroll in Medicare Part A and select medical coverage, and may select prescription coverage, through the OPERS Connector. OPERS also will reimburse 50 percent of the Medicare Part A premium and any applicable surcharges for eligible spouses. Proof of enrollment in Medicare Part A and confirmation

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

that the retiree is not receiving reimbursement or payment from another source must be submitted. The premium reimbursement is added to the monthly pension benefit.

The health care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

The Ohio Revised Code permits but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy

The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2023, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2023, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and beginning July 1, 2022, there was a two percent allocation to health care for the Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2022 was 4.0 percent; however, effective July 1, 2022, a portion of the health care rate was funded with reserves.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$0 for 2023.

Ohio Police & Fire Pension Fund (OP&F)

Plan Description

The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a new model for health care. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

OP&F contracted with a vendor who assists eligible retirees in choosing health care plans that are available where they live (both Medicare-eligible and pre-65 populations). A stipend funded by OP&F is available to these members through a Health Reimbursement Arrangement and can be used to reimburse retirees for qualified health care expenses.

Regardless of a benefit recipient's participation in the health care program, OP&F is required by law to pay eligible recipients of a service pension, disability benefit and spousal survivor benefit for their Medicare Part B insurance premium, up to the statutory maximum provided the benefit recipient is not eligible to receive reimbursement from any other source. Once OP&F receives the necessary documentation, a monthly reimbursement is included as part of the recipient's next benefit payment. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

OP&F maintains funds for health care in two separate accounts: one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. IRS Code Section 401(h) account is maintained for Medicare Part B reimbursements.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy

The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.5 percent and 24 percent of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5 percent of covered payroll for police employer units and 24 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

The Board of Trustees is authorized to allocate a portion of the total employer contributions for retiree health care benefits. For 2023, the portion of employer contributions allocated to health care was 0.5 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded.

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$50,212 for 2023.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Net OPEB Liability

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2021, rolled forward to the measurement date of December 31, 2022, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2022, and was determined by rolling forward the total OPEB liability as of January 1, 2022, to December 31, 2022. The City's proportion of the net OPEB liability was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share:

	OPERS		
	Traditional Plan	OP&F	Total
Proportionate Share of the:			
Net OPEB Liability	\$418,999	\$2,591,404	\$3,010,403
Proportion of the Net OPEB Liability:			
Current Measurement Date	0.06645300%	0.36397600%	
Prior Measurement Date	0.06237400%	0.36324230%	
Change in Proportionate Share	<u>0.00407900%</u>	<u>0.00073370%</u>	
OPEB Expense	(\$863,964)	\$330,410	(\$533,554)

At December 31 2023, reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	OPERS		
	Traditional Plan	OP&F	Total
<u>Deferred Outflows of Resources</u>			
Differences between expected and actual experience	\$0	\$154,639	\$154,639
Changes in assumptions	409,246	1,291,413	1,700,659
Net difference between projected and actual earnings on pension plan investments	832,146	222,264	1,054,410
Changes in employer proportionate share of net OPEB liability	28,052	271,185	299,237
Contributions subsequent to the measurement date	0	50,212	50,212
Total Deferred Outflows of Resources	<u>\$1,269,444</u>	<u>\$1,989,713</u>	<u>\$3,259,157</u>
<u>Deferred Inflows of Resources</u>			
Differences between expected and actual experience	\$104,515	\$510,973	\$615,488
Changes in assumptions	33,673	2,119,556	2,153,229
Changes in employer proportionate share of net OPEB liability	0	77,082	77,082
Total Deferred Inflows of Resources	<u>\$138,188</u>	<u>\$2,707,611</u>	<u>\$2,845,799</u>

\$50,212 reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending December 31, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Year Ending December 31:	OPERS		Total
	Traditional Plan	OP&F	
2024	\$164,458	\$81,441	\$245,899
2025	305,312	78,712	384,024
2026	259,490	(117,241)	142,249
2027	401,996	(66,990)	335,006
2028	0	(224,082)	(224,082)
Thereafter	0	(519,950)	(519,950)
Total	<u>\$1,131,256</u>	<u>(\$768,110)</u>	<u>\$363,146</u>

Actuarial Assumptions – OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2021, rolled forward to the measurement date of December 31, 2022. The actuarial valuation used the following key actuarial assumptions and methods applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation	2.75 percent
Projected Salary Increases,	2.75 to 10.75 percent including wage inflation
Single Discount Rate	5.22 percent
Prior Year Single Discount Rate	6.00 percent
Investment Rate of Return	6.00 percent
Municipal Bond Rate	4.05 percent
Prior Year Municipal Bond Rate	1.84 percent
Health Care Cost Trend Rate	5.5 percent, initial 3.50 percent, ultimate in 2036
Actuarial Cost Method	Individual Entry Age

Pre-retirement mortality rates are based on 130 percent of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170 percent of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115 percent of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

The most recent experience study was completed for the five year period ended December 31, 2020.

During 2022, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, if any contribution are made into the plans, the contributions are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made. Health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was 15.6 percent for 2022.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric rates of return were provided by the Board's investment consultant. For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2022, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Geometric)
Fixed Income	34.00%	2.56%
Domestic Equities	26.00	4.60
Real Estate Investment Trust	7.00	4.70
International Equities	25.00	5.51
Risk Parity	2.00	4.37
Other investments	6.00	1.84
Total	100.00%	

Discount Rate

A single discount rate of 5.22 percent was used to measure the OPEB liability on the measurement date of December 31, 2022; however, the single discount rate used at the beginning of the year was 6 percent. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 4.05 percent (Fidelity Index's "20-Year Municipal GO AA Index"). The projection of cash flows

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2054. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2054, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following table presents the City’s proportionate share of the net OPEB liability calculated using the single discount rate of 5.22 percent, as well as what the City’s proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (4.22 percent) or one-percentage-point higher (6.22 percent) than the current rate:

	1% Decrease (4.22%)	Current Discount Rate (5.22%)	1% Increase (6.22%)
Proportionate share of the net OPEB Liability	\$1,426,081	\$418,999	(\$412,009)

Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate

Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net liability or asset calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2023 is 5.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

	1% Decrease	Current Health Care Cost Trend Rate Assumption	1% Increase
Proportionate share of the net OPEB liability	\$392,737	\$418,999	\$448,558

Actuarial Assumptions – OP&F

OP&F’s total OPEB liability as of December 31, 2022, is based on the results of an actuarial valuation date of January 1, 2022, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F’s actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, salary increases, disabilities, retirements and

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee’s entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

Valuation Date	January 1, 2022, with actuarial liabilities rolled forward to December 31, 2022
Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	7.5 percent
Projected Salary Increases	3.75 percent to 10.5 percent
Payroll Growth	3.25 percent
Blended discount rate:	
Current measurement date	4.27 percent
Prior measurement date	2.84 percent
Cost of Living Adjustments	2.2 percent simple per year
Projected Depletion Year of OPEB Assets	2036

For 2022, mortality for service retirees is based on the Pub-2010 Below-Median Safety Amount-Weighted Healthy Retiree mortality table with rates adjusted by 96.2 percent for males and 98.7 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, mortality for disabled retirees is based on the Pub-2010 Safety Amount-Weighted Disabled Retiree mortality table with rates adjusted by 135 percent for males and 97.9 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, mortality for contingent annuitants is based on the Pub- 2010 Below-Median Safety Amount-Weighted Contingent Annuitant Retiree mortality table with rates adjusted by 108.9 percent for males and 131 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, mortality for active members is based on the Pub-2010 Below-Median Safety Amount-Weighted Employee mortality table. All rates are projected using the MP- 2021 Improvement Scale.

For 2021, mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

<u>Age</u>	<u>Police</u>	<u>Fire</u>
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

For 2021, mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

<u>Age</u>	<u>Police</u>	<u>Fire</u>
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

The most recent experience study was completed for the five year period ended December 31, 2021.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2022, are summarized below:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	18.60 %	4.80 %
Non-US Equity	12.40	5.50
Private Markets	10.00	7.90
Core Fixed Income *	25.00	2.50
High Yield Fixed Income	7.00	4.40
Private Credit	5.00	5.90
U.S. Inflation Linked Bonds*	15.00	2.00
Midstream Energy Infrastructure	5.00	5.90
Real Assets	8.00	5.90
Gold	5.00	3.60
Private Real Estate	12.00	5.30
Commodities	2.00	3.60
Total	<u>125.00 %</u>	

Note: Assumptions are geometric.

* levered 2.5x

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

OP&F’s Board of Trustees has incorporated the risk parity concept into OP&F’s asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on the relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate

For 2022, the total OPEB liability was calculated using the discount rate of 4.27 percent. For 2021, the total OPEB liability was calculated using the discount rate of 2.84 percent. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return of 7.5 percent. Based on those assumptions, OP&F’s fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, for 2022, the long-term assumed rate of return on investments of 7.50 percent was applied to periods before December 31, 2035, and the Municipal Bond Index Rate of 3.65 percent was applied to periods on and after December 31, 2035, resulting in a discount rate of 4.27 percent. For 2021, a municipal bond rate of 2.05 percent at December 31, 2021, was blended with the long-term rate of 7.5 which resulted in a blended discount rate of 2.84. The municipal bond rate was determined using the Bond Buyers General Obligation 20-year Municipal Bond Index Rate.

Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

Net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 4.27 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.27 percent), or one percentage point higher (5.27 percent) than the current rate.

	1% Decrease (3.27%)	Current Discount Rate (4.27%)	1% Increase (5.27%)
Proportionate share of the net OPEB liability	\$3,191,070	\$2,591,404	\$2,085,131

Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate

The total OPEB liability is based on a medical benefit that is a flat dollar amount; therefore, it is unaffected by a health care cost trend rate. An increase or decrease in the trend rate would have no effect on the total OPEB liability.

Note 13 – Interfund Transactions

Interfund transactions at year end, consisted of the following individual interfund receivables, interfund payables, transfers in and transfers out:

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Fund	Interfund		Transfers	
	Receivable	Payable	In	Out
General Fund	\$5,000,000	\$0	\$0	\$8,217,211
Safety Fund	0	0	3,158,517	0
Other Governmental Funds	0	0	1,603,414	3,414
Community Center Fund	0	5,000,000	0	0
Golf Course Fund	0	0	3,458,694	0
Total All Funds	\$5,000,000	\$5,000,000	\$8,220,625	\$8,220,625

Interfund balance/transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate and to return money to the fund from which it was originally provided once a project is completed.

\$5 million was previously advanced to the Community Center Fund from the General Fund. The agreement between the City and the Mason City Schools requires the Community Center to be self-sufficient.

The transfer out of the Municipal Court Indigent Driver IDAM Fund (Other Governmental Funds) to the Indigent Driver Fund (Other Governmental Funds) of \$3,414 was for indigent driver programs.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed in all funds. On the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities. Outstanding encumbrances as of December 31, 2023 were as follows:

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Fund	Amount
General	\$32,253,231
Street Construction, Maintenance and Repair	9,609,932
Safety	3,054,106
Sewer	1,246,287
Stormwater Utility	805,246
Community Center	777,981
Nonmajor Funds	6,025,373
Total	\$53,772,156

Note 15 – Joint Venture

Liberty Township, the City of Mason, and the City of Middletown contracted to create the Liberty Township Joint Economic Development District (JEDD) for the purpose of facilitating economic development to create jobs and employment opportunities and to improve the economic welfare of the people in the State of Ohio and in the area of the contracting parties through facilitating economic development along the corridor of Interstate 75, Cincinnati Dayton Road and State Route 129. For more information and a copy of the financial statements, contact the City of Middletown.

A 1.5% income tax was enacted for the JEDD. Imposition of tax began on October 1, 2006 and terminates December 31, 2045, with two ten year extensions.

Mason’s use of funds provide for the improvement of the transportation network within the City, including the improvements of Bethany and Mason Roads.

Distribution of Gross Tax:

- 5% Service Fee for Middletown to collect the income
- 1% Escrow payment for refunds
- 94% Net distribution

Net Distribution:

- 83% Liberty Township
- 2% Middletown
- 15% Mason

Note 16 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

Note 17 – Tax Abatements

As of December 31, 2023, the City provides tax abatements through the Community Reinvestment Area (CRA) program. The Ohio Community Reinvestment Area program is an economic development tool administered by the City that provides real property tax exemptions for property owners who renovate existing or construct new buildings. Under Ohio Revised Code section 3765 to 3735.70, city, village or county can petition the Ohio Department of Development to confirm that investment in a particular geographical area. Once the Department has confirmed the investment in the area, the community may offer real estate tax exemptions to taxpayers who are willing to invest in the area. Up to 12 years may be exempt for commercial and industrial remodeling and up to 15 years may be exempt for new construction. State law requires reimbursement agreements with school districts for tax revenue losses for CRA in place after 1994. It is the City’s policy to have reimbursement agreements with school districts for any CRA prior to 1994. Payments in lieu of taxes paid by the property owner directly to the school districts as required by the agreement are not reduced from the total amount of taxes abated.

<u>City of Mason Tax Abatement Program</u>	<u>Total Amount of Taxes Abated (in thousands)</u>	<u>City of Mason Share of Taxes Abated (in thousands)</u>
Community Reinvestment Area	\$4,129	\$423

Note 18 – Asset Retirement Obligations (ARO)

Ohio Revised Code Section 6111.44 requires the City to submit any changes to their sewage system to the Ohio EPA for approval. Through this review process, the City would be responsible to address any public safety issues associated with their wastewater treatment facilities. At this time, due to limitations associated with the existing plant’s age and building materials within the plant, the engineer consulted would not have a reasonable estimate to calculate a liability for this year.

Note 19 – Implementations of new Accounting Principles

For fiscal year 2023, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, GASB Statement No. 96, Subscription-Based Information Technology Arrangements.

GASB Statement No. 94 sets out to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. The implementation of GASB Statement No. 94 did not have an effect on the financial statements of the City.

City of Mason, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2023

GASB Statement No. 96 provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended. The implementation of GASB Statement No. 96 did not have an effect on the financial statements of the City.

Note 20 – Subsequent Event

In October 2022, Beemok Capital acquired the rights to the Western and Southern Open from the United States Tennis Association. Shortly after, the company began evaluating opportunities for keeping the tournament at its current home in Mason or relocating it to Charlotte North Carolina. The City, along with Warren County, Regional and State advocates launched a successful campaign to retain the tournament rebranded as the Cincinnati Open to be held in Mason for at least another 25 years. Project investment is estimated to be approximately \$260 million to build out the year-round Mason sports campus utilizing both public and private funding. In March 2023, the City entered into a grant agreement with Ohio Department of Development for \$22.5 million towards the improvements for the tennis stadium. In June 2024, Ohio House Bill 2 authorized an additional \$27.5 million towards the tennis stadium from funding for One Time Strategic Community Investments.

City of Mason, Ohio
Notes to the Required Supplementary Information
For The Fiscal Year Ended December 31, 2023

Note 1 – Budgetary Process

All funds, except custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation ordinance, all of which are prepared on the budgetary basis of accounting.

The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount Council may appropriate. The certificate of estimated resources may be amended during the year if projected decreases in revenue are identified by the Finance Director. To maintain the original estimate where possible to maintain conservative estimates, amendments for increases occur only if additional an appropriation is needed by Council action. The amounts reported as the budgeted amounts for revenue on the budgetary statement reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted revenue on the budgetary statements reflects the amounts on the final amended certificate of estimated resources issued during the year.

In Ohio, municipal corporations have certain powers granted to them in Article XVIII of the Ohio Constitution that exist outside authority found in the Ohio Revised Code. Because these powers originate in the Constitution, law passed by the General Assembly that interfere with them may be invalid as applied to municipal corporation unless those laws are sanctioned by other provisions of the Constitution. These powers, granted by the Constitution and known as “home rule” powers, include the power of local self-government, the exercise of certain police powers, and the ownership and operation of public utilities.

The appropriations ordinance is Council’s authorization to spend resources and set annual limits on expenditures plus encumbrances at the level of control selected by Council. As a power of local self-government, the legal level of control has been established by Council so that appropriation measures shall be classified so as to set forth separately the amounts appropriated for each department within the General Fund. All other funds are maintained at the fund level. The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation ordinance for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Council after any supplemental or re-appropriation during the year.

While the City is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Budgetary Basis) presented for the general fund, street construction, maintenance and repair fund, and the safety fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).

City of Mason, Ohio
Notes to the Required Supplementary Information
For The Fiscal Year Ended December 31, 2023

3. Encumbrances are treated as expenditures (budget) rather than as an assignment of fund balance (GAAP).
4. Unreported cash represents amounts received but not included as revenue on the budget basis operating statements. These amounts are included as revenue on the GAAP basis operating statement.
5. Some funds are reported as part of the general fund (GAAP basis as opposed to the general fund being reported alone (budget basis)).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund, the street construction, maintenance and repair fund and the safety fund.

Net Change in Fund Balance

	General	Street Construction, Maintenance and Repair	Safety
GAAP Basis	\$15,272,646	(\$478,705)	\$1,744,947
Revenue Accruals	(5,027,516)	(896,088)	313,573
Expenditure Accruals	8,774,235	525,224	208,774
Issuance of Debt	(755,604)	0	0
Proceeds of Capital Assets	(58,472)	0	0
Transfers (Out)	(17,191,306)	0	0
Encumbrances	(6,494,212)	(9,609,932)	(3,054,106)
Budget Basis	<u>(\$5,480,229)</u>	<u>(\$10,459,501)</u>	<u>(\$786,812)</u>

Note 2 – Net Pension Liability

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM CHANGES IN BENEFIT TERMS AND ASSUMPTIONS

Changes in assumptions:

2023: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for this period.

2022: The following were the most significant changes of assumptions that affected total pension liability since the prior measurement date

- Reduction in actuarial assumed rate of return from 7.20% to 6.90%
- Decrease in wage inflation from 3.25% to 2.75%
- Change in future salary increases from a range of 3.25%-10.75% to 2.75%-10.75%

2021-2020: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for this period.

2019: OPERS Board adopted a change in the investment return assumption, reducing it from 7.50% to 7.20%.

2018: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions.

City of Mason, Ohio
Notes to the Required Supplementary Information
For The Fiscal Year Ended December 31, 2023

2017: The following were the most significant changes of assumptions that affected total pension liability since the prior measurement date

- Reduction in actuarial assumed rate of return from 8.00% to 7.50%
- Decrease in wage inflation from 3.75% to 3.25%
- Change in future salary increases from a range of 4.25%-10.02% to 3.25%-10.75%

2016-2014: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions.

Changes in benefit terms:

2023-2014: There were no changes in benefit terms for this period.

OHIO POLICE AND FIRE PENSION FUND CHANGES IN BENEFIT TERMS AND ASSUMPTIONS

Changes in assumptions:

2023: Mortality for service retirees is based on the Pub-2010 Below-Median Safety Amount-Weighted Healthy Retiree mortality table with rates adjusted by 96.2 percent for males and 98.7 percent for females. All rates are projected using the MP-2021 Improvement Scale. Mortality for disabled retirees is based on the Pub-2010 Safety Amount-Weighted Disabled Retiree mortality table with rates adjusted by 135 percent for males and 97.9 percent for females. All rates are projected using the MP-2021 Improvement Scale. Mortality for contingent annuitants is based on the Pub-2010 Below-Median Safety Amount-Weighted Contingent Annuitant Retiree mortality table with rates adjusted by 108.9 percent for males and 131 percent for females. All rates are projected using the MP-2021 Improvement Scale. Mortality for active members is based on the Pub-2010 Below-Median Safety Amount-Weighted Employee mortality table. All rates are projected using the MP- 2021 Improvement Scale.

2022: The following were the most significant changes of assumptions that affected total pension liability since the prior measurement date.

- Reduction in actuarial assumed investment rate of return from 8.00% to 7.50%

2021-2019: There have been no OP&F pension plan amendments adopted or changes in assumptions used in the calculation of actuarial determined contributions.

2018: The following were the most significant changes of assumptions that affected total pension liability since the prior measurement date.

- Reduction in actuarial assumed rate of return from 8.25% to 8.00%
- Decrease salary increases from 3.75% to 3.25%
- Change in payroll growth from 3.75% to 3.25%
- Reduce DROP interest rate from 4.5% to 4.0%
- Reduce CPI-based COLA from 2.6% to 2.2%
- Inflation component reduced from 3.25% to 2.75%

2017-2014: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions.

Changes in benefit terms:

2023-2014: There were no changes in benefit terms for the period.

Note 3 - Net OPEB Liability (Asset)

OHIO PUBLIC EMPLOYEES RETIREMENT SYSTEM CHANGES IN BENEFIT TERMS AND ASSUMPTIONS

Changes in assumptions:

2023: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate decreased from 6.00% to 5.22%.
- The municipal bond rate increased from 1.84% to 4.05%.

2022: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The municipal bond rate decreased from 2.00% to 1.84%.
- The initial health care cost trend rate decreased from 8.50% to 5.50%.
- Decrease in wage inflation from 3.25% to 2.75%.
- Change in future salary increases from a range of 3.25%-10.75% to 2.75%-10.75%.

2021: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate increased from 3.16% to 6.00%.
- The municipal bond rate decreased from 2.75% to 2.00%.
- The initial health care cost trend rate decreased from 10.50% to 8.50%.

2020: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate decreased from 3.96% to 3.16%.
- The municipal bond rate decreased from 3.71% to 2.75%.
- The initial health care cost trend rate increased from 10.00% to 10.50%.

2019: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate increased from 3.85% to 3.96%.
- The investment rate of return decreased from 6.50% to 6.00%.
- The municipal bond rate increased from 3.31% to 3.71%.
- The initial health care cost trend rate increased from 7.50% to 10.00%.

2018: The single discount rate changed from 4.23% to 3.85%.

Changes in Benefit Terms:

2023: There were no changes in benefit terms for the period.

2022: Effective January 1, 2022, OPERS discontinued the group plans currently offered to non-Medicare retirees and re-employed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses.

2021: There were no changes in benefit terms for the period.

City of Mason, Ohio
Notes to the Required Supplementary Information
For The Fiscal Year Ended December 31, 2023

2020: On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and pre-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for pre-Medicare retirees with monthly allowances, similar to the program for Medicare retirees.

2019-2018: There were no changes in benefit terms for the period.

OHIO POLICE AND FIRE PENSION FUND CHANGES IN BENEFIT TERMS AND ASSUMPTIONS

Changes in assumptions:

2023: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The single discount rate changed from 2.84% to 4.27%
- The depletion year of OPEB assets is projected in year 2036
- Mortality for service retirees is based on the Pub-2010 Below-Median Safety Amount-Weighted Healthy Retiree mortality table with rates adjusted by 96.2 percent for males and 98.7 percent for females. All rates are projected using the MP-2021 Improvement Scale. Mortality for disabled retirees is based on the Pub-2010 Safety Amount-Weighted Disabled Retiree mortality table with rates adjusted by 135 percent for males and 97.9 percent for females. All rates are projected using the MP-2021 Improvement Scale. Mortality for contingent annuitants is based on the Pub-2010 Below-Median Safety Amount-Weighted Contingent Annuitant Retiree mortality table with rates adjusted by 108.9 percent for males and 131 percent for females. All rates are projected using the MP-2021 Improvement Scale. Mortality for active members is based on the Pub-2010 Below-Median Safety Amount-Weighted Employee mortality table. All rates are projected using the MP- 2021 Improvement Scale.

2022: The following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- Reduction in actuarial assumed rate of return from 8.00% to 7.50%
- The single discount rate changed from 2.96% to 2.84%

2021: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions. The single discount rate changed from 3.56% to 2.96%.

2020: There were no changes in methods and assumptions used in the calculation of actuarial determined contributions. The single discount rate changed from 4.66% to 3.56%.

2019: Beginning January 1, 2019 OP&F changed its retiree health care model and the current self-insured health care plan is no longer offered. In its place will be a stipend-based health care model. OP&F has contracted with a vendor who will assist eligible retirees in choosing health care plans from their marketplace (both Medicare-eligible and pre-Medicare populations). A stipend funded by OP&F will be placed in individual Health Reimbursement Accounts that retirees will use to be reimbursed for health care expenses. As a result of changing from the current health care model to the stipend based health care model, management expects that it will be able to provide stipends to eligible participants for the next 15 years. Beginning in 2020 the Board approved a change to the Deferred Retirement Option Plan. The minimum interest rate accruing will be 2.5%. The single discount rate increased from 3.24% to 4.66% and the municipal bond rate from 3.16% to 4.13%.

2018: The single discount rate changed from 3.79% to 3.24%

City of Mason, Ohio
Notes to the Required Supplementary Information
For The Fiscal Year Ended December 31, 2023

Changes in benefit terms:

2023-2020: There were no changes in benefit terms for the period.

2019: See above regarding change to stipend-based model.

2018: There were no changes in benefit terms for the period.

COMBINING STATEMENTS AND INDIVIDUAL FUND SCHEDULES

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establishes that one or more specific restricted or committed revenues should be the foundation for a special revenue fund.

Debt Service Funds

The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated (i.e. debt payable from property taxes). Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

Capital Projects Funds

The Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Nonmajor Special Revenue Funds

Fund Descriptions

State Highway Improvement – This special revenue fund accounts for the remaining 7.5% of the City’s share of state gasoline taxes and motor vehicle license fees. State law requires that such monies be spent on state highways construction and improvements.

Street Subdivision - To track fees paid by developers that may only be used for subdivision street improvements.

American Rescue Plan Act - This fund accounts for grants received through the Coronavirus State and Local Fiscal Recovery Funds (SLFRF), a part of the American Rescue Plan. Grants are restricted for various purposes designated by the Department of the Treasury.

Parks and Recreation - This fund accounts for monies received from residential building permits and other sources collected for the purpose of providing funds for recreational capital improvements.

Police Crime Prevention - This fund is used to account for donations received for the prevention of crime within the City.

Drug Law Enforcement - To account for monies designated to be used for drug law enforcement.

Law Enforcement and Education - To account for monies received from court fines imposed for drivers convicted of driving under the influence of drugs and alcohol. Monies generated under this fund shall be used for enforcement and education of the public of such dangers.

Indigent Driver - This fund is used to account for fees collected in conjunction with DUI offenses. Revenues received are used, by the court, for treatment and education of drug and alcohol offenders.

Municipal Court Computer Costs - To account for monies received from court fines. Monies generated under this fund shall be used for computer related expenses of the Court.

Municipal Court Computer Education - This fund is used to account for a \$2.00 fee assessed in conjunction with court costs. Revenues collected are used for computer education and training within the Municipal Court.

Municipal Court Improvement - This fund is used to account for a \$5.00 fee assessed in conjunction with court costs. Revenues collected are used for improvements to the Municipal Court facilities.

Vehicle Immobilization Fee - This fund is used to account for reimbursements received from the State of Ohio for costs incurred with the Court ordered immobilization of a vehicle.

Nonmajor Special Revenue Funds

Fund Descriptions (Continued)

Municipal Court Probation Services - To account for monies received from court fines. Monies generated under this fund shall be used for probation services provided by the Court.

Municipal Court Indigent Driver IDAM - To account for fees collected in conjunction with DUI offenses. Revenues received are used, by the court, for treatment and education of drug and alcohol offenders.

Central Parke TIF - This fund is used to account for the financial resources and expenditures related to the development of the Central Park business park.

Mason Enterprise Parke TIF - This fund is used to account for the financial resources and expenditures related to the development of the Mason Enterprise business park.

Tylersville Road TIF - This fund is used to account for the financial resources and expenditures related to the development of the Tylersville Crossing business park.

I-71 Corridor TIF - This fund is used to account for the financial resources and expenditures related to the development and improvements to the I-71 Corridor.

Everybody's Farm TIF - This fund is used to account for the financial resources and expenditures related to the development and improvements to Everybody's Farm.

Subdivision Inspection - This fund is used to account for the revenues received and expenses incurred for inspection services rendered in the City of Mason.

Oak Park West TIF - This fund is used to account for the financial resources and expenditures related to the development and improvements to Oak Park West business park.

One Ohio Opioid - To account for revenues and expenditures related to settlement dollars to be used to prevent, treat and support recovery from addiction including opioids and/or any other co-occurring substance use and/or mental health conditions which are all long-lasting (chronic) diseases that can cause major health, social, and economic problems at the individual, family and/or community level.

Other General Funds

With the implementation of GASB Statement No. 54, certain funds that the City prepares legally adopted budgets for no longer meet the definition to be reported as Special Revenue funds and have been included with the General Fund in the governmental fund financial statements. The City has only presented the budget schedules for these funds.

Fund Descriptions

General Capital Improvement – To account as a separate division of the General Fund to reserve resources for capital improvements identified through the City’s capital improvement plan and to reserve funds for payment of short-term debt.

General Economic Sustainability – To account for funds for budget stabilization and leveling out future budget/economic cycles by maintaining healthy fund balances during an economic downturn without disruption of public services.

Employee Medical Insurance – To account for resources and expenditures for employee health, life, and disability benefits.

Unclaimed Monies – To account for funds not claimed by the owner of the funds. Most unclaimed funds is the result of outstanding checks issued by the City of Mason.

STATISTICAL SECTION

This page intentionally left blank.

Statistical Section

This part of the City's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents

Financial Trends - These schedules contain trend information to help the reader understand how the City's financial position has changed over time.

Revenue Capacity - These schedules contain information to help the reader understand and assess the City's most significant local revenue sources, income tax and property tax.

Debt Capacity - These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Economic and Demographic Information - These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.

Operating Information - These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources

Unless otherwise noted, the information in these schedules are derived from the annual comprehensive financial reports for the relevant year.
