CITY OF WOOSTER WAYNE COUNTY

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED DECEMBER 31, 2023

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the City of Wooster (the City) under programs of the federal government for the year ended December 31, 2023. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position, or cash flows of the City of Wooster, Ohio.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C - INDIRECT COST RATE

The City has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) and HOME INVESTMENT PARTNERSHIPS PROGRAM (HOME) GRANT PROGRAMS WITH REVOLVING LOAN CASH BALANCE

The current cash balance on the City's local program income account as of December 31, 2023 is \$23,187.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Wooster Wayne County 538 North Market Street Wooster, Ohio 44691

To the City Council:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Wooster, Wayne County, (the City) as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 28, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Efficient • Effective • Transparent

City of Wooster Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

City of Wooster Wayne County 538 North Market Street Wooster, Ohio 44691

To the City Council:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Wooster's, Wayne County, (the City) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the City of Wooster's major federal programs for the year ended December 31, 2023. The City of Wooster's major federal programs are identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings.

In our opinion, the City of Wooster complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Efficient • Effective • Transparent

City of Wooster
Wayne County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over
Compliance and on the Schedule of Expenditures of Federal Awards
Required by the Uniform Guidance
Page 2

Responsibilities of Management for Compliance

The City's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on a
 test basis, evidence regarding the City's compliance with the compliance requirements referred to
 above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the City's internal control over compliance relevant to the audit in order
 to design audit procedures that are appropriate in the circumstances and to test and report on
 internal control over compliance in accordance with the Uniform Guidance, but not for the purpose
 of expressing an opinion on the effectiveness of the City's internal control over compliance.
 Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Wayne County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over
Compliance and on the Schedule of Expenditures of Federal Awards
Required by the Uniform Guidance
Page 3

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Wooster, Wayne County, (the City) as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our unmodified report thereon dated June 28, 2024. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Citizens of Wooster And Members of Wooster City Council

The Annual Comprehensive Financial Report

We are pleased to present the Annual Comprehensive Financial Report (ACFR) of the City of Wooster, Ohio for the year ended December 31, 2023. The report has been prepared for the stakeholders and all interested parties in the financial affairs of the City.

Ohio Administrative Code Section 117-2-03(B) requires that all cities file annual unaudited financial reports prepared in accordance with Generally Accepted Accounting Principles in the United States of America (GAAP), and Ohio Revised Code Section 117.38 requires cities reporting on a GAAP basis to file an unaudited annual financial report with the auditor of State within 150 days of year end. This report is published to fulfill that requirement.

City Management is fully responsible for the accuracy of the data, the completeness and fairness of the presentation, and for all disclosures. In order to provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Wooster's financial statements in conformity with GAAP. Because the cost of internal controls should not exceed the benefit derived from such controls, the objective of the framework is to provide reasonable, not absolute, assurance that this report is free from any material misstatements. To the best of management's knowledge, the financial and other data contained in this report fairly present the financial position and results of operations of the City. All necessary disclosures to enable the stakeholders and other readers to understand the City's financial activities are included in this report.

The Auditor of State of Ohio has issued an unmodified ("clean") opinion for the City of Wooster's financial statements for the year ended December 31, 2023. The independent auditor's report is located in the front of the financial section of this report on page one.

Management Discussion and Analysis (MD&A) immediately follows the independent auditor's report. The MD&A provides a narrative of the financial statements including an introduction, overview and analysis of the information reported in this document. MD&A, beginning on page five, complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The City of Wooster, incorporated in 1817, is located in the north central part of the State of Ohio. The City's 17.54 square mile area is home to a population of 27,030. Located within Wayne County, Wooster is a home rule municipal corporation under the laws of the State of Ohio and, as such, operates under its own charter. The current charter was adopted in 1972 and has undergone five amendments since that time. The city government consists of a Mayor, a seven-member Council and a Council President. All of these officials are elected for four-year terms. The Mayor, three Council members and the Council President are elected on an at-large basis. The four remaining Council members are elected from their respective wards within the City.

The Director of Administration is responsible for the supervision and operations of all City services, except for those associated with Departments of Law, Finance, and Hospital. The Director of Administration is appointed by the Mayor. The City has a Department of Law, Department of Finance and Department of Administration and divisions of Fire and Police. The Directors of Law and Finance are appointed by the Mayor with the consent of the majority of the members of City Council.

The City provides a full range of municipal services contemplated by its charter. These services include police protection, fire and emergency medical services, health care (Wooster Community Hospital Heath System), street maintenance, recreation programs (including parks), a subsidized transportation program, water and water pollution control programs, storm water management, planning and zoning, and general administrative services.

For financial reporting purposes, the City includes in this report all funds, agencies, boards, and commissions that are controlled by, or dependent on, the City legislative branch. "Controlled by" or "dependent on" the City is determined on the basis of budget adoption, taxing authority, outstanding debts secured by revenues or general taxing authority of the City, and/or the City's obligation to fund any deficits that may occur.

Annual budgets are adopted for all City funds, with the exception of custodial funds. The annual budget serves as the foundation for the City's financial planning and control processes. Under state law, the Mayor is required to submit an annual budget (often referred to as the "tax budget") to Council for consideration and approval no later than July 15. By Charter, the Mayor must submit an annual appropriation ordinance to City Council by the last Council meeting in the November of the preceding year. This ordinance builds upon the tax budget of the previous July and is updated for any estimates or revisions. The legal level of City Council appropriated budgetary control is at the activity level within a fund department.

Local Economy

The Economic Segment Mix and The Change of Economic Segment Mix for the Tax Years 2014 through 2023 as Measured by Total Income Tax Receipts are presented below:

Source: City Finance Department records

Note 1: Tax rate is 1.5% of taxable income as defined by City ordinance

The table displayed above demonstrates past economic trends in the community and provides indications of possible future trends. The Industrial segment continues to lead our economy and has consistently been the largest segment at approximately 36.2% of total income tax receipts. The other 63.8% is diversified over nine other business sectors. This can be attributed to the City's proactive measures to grow diversified businesses. We view this trend as positive and expect this pattern to continue. We anticipate, as indicated by the value of the building permits issued during the last three years, future economic expansion. The dollar value of all building permits issued in 2023 was \$94.6 million. The top 5 projects in 2023 were: Schaeffler Building Addition - \$11.0 million, College of Wooster Douglass Hall - \$10.0 million, City of Wooster Fire Station #1 Reconstruction - \$5.1 million, Daisy Brand Building Additions - \$4.4 million, Merit Drive Medical Office Building - \$3.0 million. The top five projects represent 43% of the value of all construction projects permitted in 2023. There were 45 new single family homes built in Wooster during 2023. This represents a 350% increase over 2022.

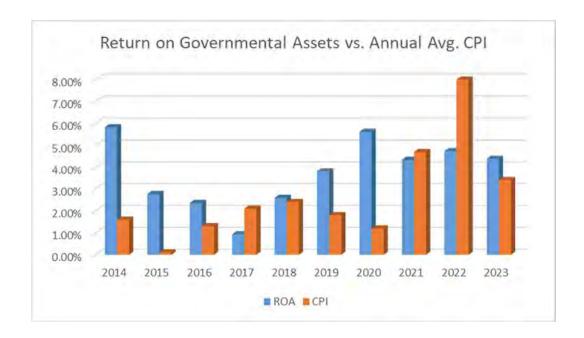

On May 7, 2013, the voters authorized a 0.50% increase in the City's income tax, raising the rate to 1.50% effective January 1, 2014.

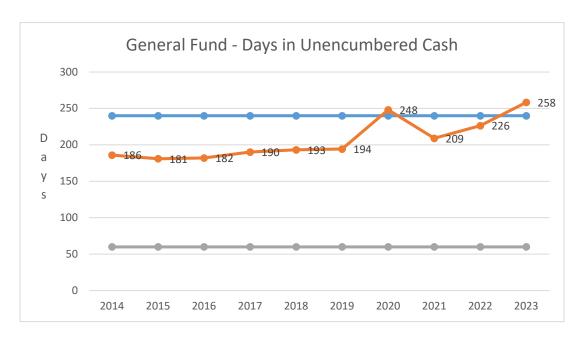

Financial Management Initiatives

On January 17, 1995, and amended in 1999, Council passed and the Mayor approved new financial policies for the governmental funds of the City. In part, the ordinance states:

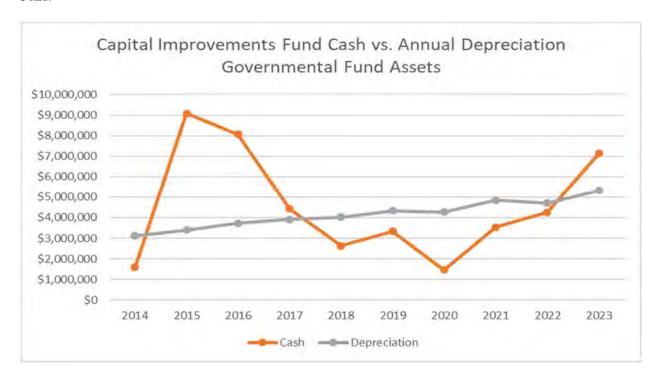

- (1) The governmental funds shall be budgeted to have a rate of return on all assets greater than or equal to the rate of inflation;
- (2) Council will not provide new services unless new revenue is available or there is a cost reduction in another service;
- (3) By 1999, the General Fund shall have an unencumbered cash balance of at least 60 days of expenditures, but no more than 240 days;
- (4) By 2001, the Capital Improvements Fund shall have a cash balance at least equal to the value of the annual depreciation of the governmental fund assets; and,
- (5) If the General Fund cash exceeds the 240-day requirement and the Capital Improvements Fund cash requirement is achieved and the return on assets in the governmental funds is greater than the rate of inflation Council will lower either the property tax rate or the income tax rate.

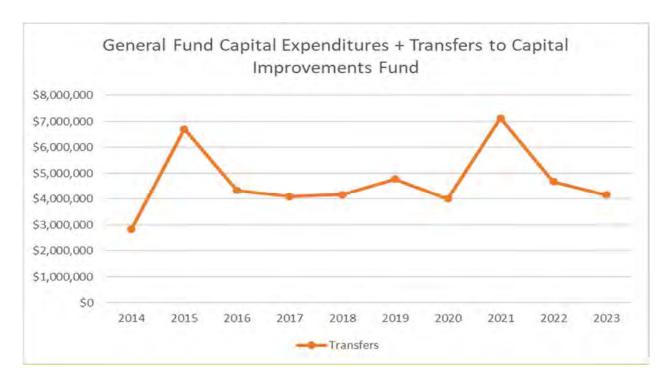

GASB Statement No. 34 financial reporting requirements facilitate monitoring actual results with these City policies. Our positions on each measurable point as of December 31 are presented in the following graphs:

The City's financial management team makes authorized transfers each fiscal year from the General Fund to the Capital Improvements Fund. These transactions ensure that the cash balance in the Capital Improvements Fund remains at levels to support investments in Governmental Fund Assets. Below are two charts, one illustrating cash in the Capital Improvements Fund versus annual depreciation and one illustrating General Fund transfers to the Capital Improvements Fund.

Major Initiatives

Major infrastructure projects initiated during 2023 include 13 projects valued at \$4.4 million for roadways, sidewalks and bike paths, nine projects valued at \$1.0 million for waterlines and water plant improvements, 14 projects valued at \$15.8 million for sanitary sewer lines and plant improvements, and five projects valued at \$460 thousand for storm water system improvements. The City also invested \$6.8 million in lands and buildings representing 12 projects.

Award and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Wooster, Ohio, for its annual comprehensive financial report for the fiscal year ended December 31, 2022. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the dedicated and efficient services of the Finance Department, and the various managers, directors, and employees who contributed to this report. Our sincere appreciation is given not only for their assistance in the preparation of this report, but also for the efforts expended throughout the year in following good financial management in order to maintain sound business practices. We would also like to acknowledge the members of City Council who have consistently supported the City's goals of both excellence and continuous improvement in all aspects of financial management. We wish to dedicate this report to Robert F. Breneman, who proudly served as Mayor of the City from 2008 through 2023.

Respectfully submitted,

Robert J. Reynolds Mayor

Wolst of Regulal

Andrei A. Dordea, CPA Director of Finance

INDEPENDENT AUDITOR'S REPORT

City of Wooster Wayne County 538 North Market Street Wooster, Ohio 44691

To the City Council:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Wooster, Wayne County, Ohio (City), as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Wooster, Wayne County, Ohio as of December 31, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

City of Wooster Wayne County Independent Auditor's Report Page 2

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the City's ability to continue as a going concern for a reasonable period
 of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

City of Wooster Wayne County Independent Auditor's Report Page 3

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, required budgetary comparison schedules, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

City of Wooster Wayne County Independent Auditor's Report Page 4

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 28, 2024, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio

June 28, 2024

As management of the City of Wooster, Ohio, we offer readers of the City of Wooster, Ohio's financial statements this narrative overview and analysis of the financial activities of the City of Wooster, Ohio for the year ended December 31, 2023. Please read this narrative and overview in conjunction with the City of Wooster, Ohio's basic financial statements.

Financial Highlights

- The assets and deferred outflows of resources of the City of Wooster, Ohio exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$309,547,332 (*net position*).
- The City of Wooster, Ohio's total net position increased \$12,245,734 during 2023.
- Net position of business-type activities increased by \$6,640,892. Of these amounts, Wooster Community Hospital's net position increased by \$3,123,267 and the City's utility service funds' net position increased by \$3,517,625.
- At the close of the current fiscal year, the City of Wooster, Ohio's governmental funds reported combined fund balances of \$34,530,954 an increase of \$5,613,018 in comparison with the prior year balance. Approximately 59 percent of this amount (\$20,368,130) is available for spending at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unrestricted fund balance (the total of the *committed*, assigned, and unassigned components of fund balance) for the general fund was \$25,269,276, or approximately 99 percent of total general fund expenditures.
- The City obtained bonds in the amount of \$13,900,000 with \$3,375,000 in the governmental activities and \$10,525,000 in the business-type activities. The City also obtained various improvement notes in the amount of \$4,750,000 with \$720,000 in the governmental activities and \$4,030,000 in the business-type activities.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the City of Wooster, Ohio's basic financial statements. The City of Wooster, Ohio's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Wooster, Ohio's finances, in a manner similar to a private sector business.

The *statement of net position* presents financial information on all of the City of Wooster, Ohio's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Wooster, Ohio is improving or deteriorating.

The *statement of activities* presents information showing how the City of Wooster, Ohio's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused paid leave of absence).

Both of the government-wide financial statements distinguish functions of the City of Wooster, Ohio that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Wooster, Ohio include general government, public safety, streets and highways, recreation and leisure, and environment and development. The business-type activities of the City of Wooster, Ohio include water, water pollution control, storm drainage, Wooster Community Hospital, and refuse.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Wooster, Ohio, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Wooster, Ohio can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental* activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Wooster, Ohio maintains over 20 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, and the capital improvement fund which are considered to be major funds. Data from the other governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The City of Wooster, Ohio adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with this budget.

Proprietary Funds. The City of Wooster, Ohio maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Wooster, Ohio uses enterprise funds to account for its water, water pollution control, Wooster Community Hospital, storm drainage, and refuse collections. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City of Wooster, Ohio's various functions. The City of Wooster, Ohio uses internal service funds to account for the management of fleet vehicles and equipment, employee benefits, and investments. Because these three functions predominantly benefit governmental rather than business-type functions, they have been included within the governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, water pollution control, Wooster Community Hospital, storm drainage, and refuse collection operations, all of which are considered to be major funds of the City of Wooster, Ohio. Conversely, the three internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds are provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are *not* reported in the government-wide financial statements because the resources of those funds *are* not available to support the City of Wooster, Ohio's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The City of Wooster, Ohio maintains three different custodial funds. These three funds *are custodial funds*, which report resources held by the City of Wooster, Ohio in a custodial capacity for individuals, non-profits, and other governments.

Notes to the financial statements. The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the City of Wooster, Ohio's progress in funding obligation to provide pension and OPEB benefits to its employees as well as budgetary comparison for the General Fund.

Government-wide Overall Financial Analysis

As noted earlier, net position over time, may serve as a useful indicator of a government's financial position. In the case of the City of Wooster, Ohio, assets and deferred outflows of resources exceed liabilities and deferred inflows at the close of the most recent fiscal year.

City of Wooster, Ohio's Net Position

The net pension liability (NPL) is the largest single liability reported by the City at December 31, 2023 and is reported pursuant to GASB Statement 68, Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27. GASB Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, significantly revised accounting for costs and liabilities related to other postemployment benefits (OPEB). For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting net OPEB asset and deferred outflows related to pension and OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *total pension liability* or *total OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability/asset to equal the City's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability/asset, respectively, not accounted for as deferred inflows/outflows.

Over time, net position can serve as a useful indicator of a government's financial position. At December 31, 2023 the City's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$309,547,332. This amounts to \$80,812,993 in governmental activities and \$228,734,339 in business-type activities.

Current assets of governmental activities increased due to increase in governmental fund cash of \$5,722,661 and increased governmental receivable of \$973,590. The increase in cash was largely the result of issuance of debt by the Capital Improvement Fund. Current assets of business-type activities increased by \$23,276,730, mainly caused by an increase in cash as a result of debt issuance for capital projects in the Water Pollution Control Fund.

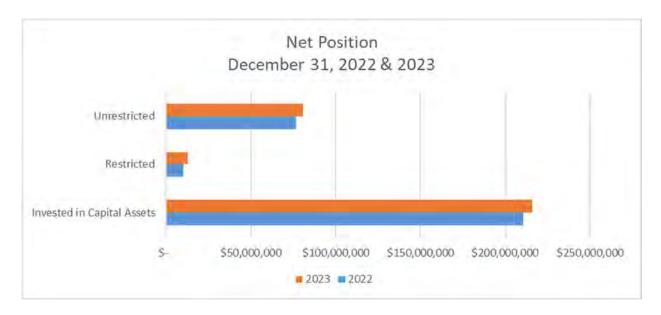

Net capital assets of governmental activities increased due to primarily the result of investment in infrastructure. Net capital assets of business-type activities did not fluctuate much as capital investment kept pace with depreciation.

Current liabilities and due within one year of the governmental activities decreased because of a decrease in unearned revenue caused by current year spending of funds received from the federal government in previous years. Current liabilities and due within one year of the business-type activities increased due to timing of payables.

The fluctuations in pension and OPEB accruals was primarily caused by market conditions of investments. Both retirement systems experienced a net loss from investing activity during the most current measurement period while in the prior measurement period, investing activity resulted in a gain. This was the most significant contributing factor to the increase in unfunded liability for both retirement plans and caused the OPERS' net OPEB asset to revert to a net OPEB liability. These fluctuations are passed through to the City relative to their proportionate share of contributions of all members, which remained relatively constant from prior year for both retirement plans.

By far, the largest portion of the City of Wooster, Ohio's net position reflects its investment in capital assets (e.g., land, buildings, construction in progress, machinery, equipment, vehicles, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City of Wooster, Ohio uses these capital assets to provide a variety of services to its citizens and stakeholders. Accordingly, these assets are not available for future spending. Although the City of Wooster Ohio's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City of Wooster, Ohio's net position (4.2 percent) represents resources that are subject to external restrictions on how they may be used. The remaining unrestricted overall net position was \$80,689,699. A positive balance of unrestricted net position in government-wide may be used to meet the government's ongoing obligations to its citizens and creditors.

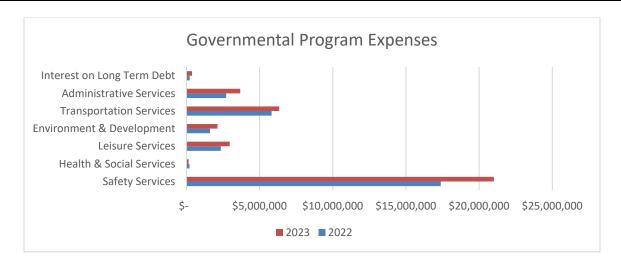

The City of Wooster, Ohio's overall net position increased \$12,245,734 over the prior fiscal year.

Governmental Activities. During the current fiscal year, net position for governmental activities increased \$5,604,842 from the prior fiscal year for a 2023 ending balance of \$80,812,993. This increase is largely the result of spending unearned revenue from 2022 on capital assets and increased collection of income tax revenue in 2023. Income tax revenue increased due to various factors but can primarily be attributed to economic growth and wage increases. The City also experienced an increase in investment earnings from increases in interest rates.

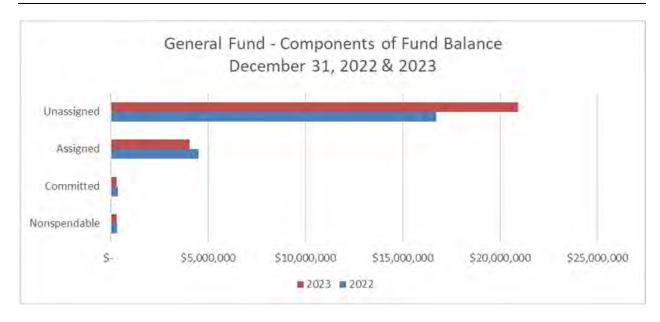

Business-type Activities. For the City of Wooster Ohio's business-type activities, the overall net position increased by \$6,640,892 to reach an ending balance of \$228,734,339. This increase was mainly caused by an increase in investment earnings from rising interest rates and charges for services.

Financial Analysis of Governmental Funds

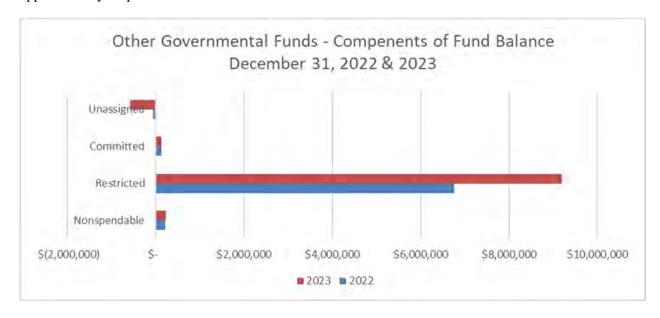

As noted earlier, the City of Wooster, Ohio uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City of Wooster, Ohio's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spending resources. Such information is useful in assessing the City of Wooster, Ohio's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City of Wooster, Ohio itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City of Wooster, Ohio's Council.

At December 31, 2023, the City of Wooster, Ohio's governmental funds reported combined fund balances of \$34,530,954, an increase of \$5,613,018 in comparison with the prior year. Approximately 59 percent of this amount (\$20,368,130) constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of the fund balance is either *nonspendable*, *restricted*, *committed*, *or assigned* to indicate that it is 1) not in spendable form (\$519,810), 2) restricted for particular purposes (\$9,193,742), 3) committed for particular purposes (\$417,086), or 4) assigned for particular purposes (\$4,032,186).

The general fund is the chief operating fund of the City of Wooster, Ohio. At the end of the current fiscal year, unassigned fund balance of the general fund was \$20,950,820, while total fund balance increased to \$25,561,474. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures. Unassigned fund balance represents approximately 69 percent of total general fund expenditures, while total fund balance represents approximately 85 percent of that same amount.

The fund balance of the City of Wooster, Ohio's general fund increased by \$3,675,868 during the current fiscal year. The increase in total fund balance can be attributed to increased interest income and fewer general fund dollars transferred to the capital fund in 2023 versus 2022 due to a decrease in funding need.

The capital projects fund, a major fund, had a \$2,491,166 increase in fund balance during the current fiscal year which put the overall fund balance at \$6,940,190. The primary reason for this increase was the issuance of debt in anticipation of increased capital expenditures.

Enterprise Funds. The City of Wooster, Ohio's enterprise funds provide the same type of information found in the government-wide financial statements, but in more detail.

The Wooster Community Hospital fund, a major fund, had a \$3,123,267 increase in net position during the current fiscal year which put the overall net position balance at \$161,034,406. The increase in net position for the year is the result of \$5,334,826 from interest income.

The water fund, a major fund, had a \$1,790,013 increase in net position during the current fiscal year which put the overall net position balance at \$32,028,758. The increase is the result of increased operating expenses offset by increased interest income and an increase in charges for services.

The water pollution fund, a major fund, had a \$1,658,071 increase in net position during the current fiscal year which put the overall net position balance at \$22,593,228. The increase is the result of planned prudent financial management of the water pollution control plan and related business matters.

The storm drainage fund, a major fund, had a \$76,462 increase in net position during the current fiscal year which put the overall net position balance at \$13,112,284. It is management's intent to ensure sufficient revenues are generated to pay all expenses and reinvest in infrastructure.

The refuse fund, a major fund, had a \$6,921 decrease in net position during the current fiscal year which put the overall net position balance at (\$34,337), due to timing of revenues versus expenses.

General Fund Budgetary Highlights

Final budget compared to actual Revenues for the year came in approximately 13 percent higher than budgeted. Our local economy continues to recover from the Covid-19 pandemic as seen by the revenue growth in most revenue categories. Tax revenues were approximately 11 percent higher than budgeted for the year and 4.8 percent higher than 2022. Fines, Licenses and Permits were up due to increased building activity during the year. Interest income was up due to mark to the increasing interest rate environment.

Expenditures were down in most expenditure category due to prudent financial management. Total expenditures were approximately six percent under budget or \$1,867,209. Expenditures in the transportation services category was down approximately 18 percent because less was spent on snow and ice control as a result of a mile winter season. The City did increase the transfer to the capital fund by approximately seven percent or \$260,000 for road improvements.

Original budget compared to final budget. Most significant changes to the original budget were effected through the carry forward encumbrance for compensated absences and encumbered goods or services from the prior year. The compensated absences encumbrances are to budget for payouts of employee benefits at retirement or termination and caused large increases in almost every function's personal services budgets.

Capital Assets and Debt Administration

Capital assets. The City of Wooster, Ohio's investment in capital assets for its governmental and business-type activities as of December 31, 2023 amounts to \$244,737,455 (net of accumulated depreciation/amortization). This investment in capital assets includes land, land improvements, buildings, machinery, equipment, vehicles, park facilities, roads, bridges, water treatment plant, water pollution control plant, intangible assets and community hospital.

Major capital asset events during the current fiscal year include the following:

- The Wooster Community Hospital Health System invested \$9,483,000 in facilities and equipment during the year.
- The City invested \$6,217,000 in street resurfacing and reconstruction projects.
- The City invested \$2,286,000 in Fire Station #1, the City's oldest station.
- The Police Department expended \$126,590 for vehicles.
- The City invested \$384,000 in storm sewer projects during the year.
- The City invested \$1,489,000 in water infrastructure projects during the year.
- The City invested \$3,600,000 in sanitary sewer infrastructure improvements during the year.

Additional information on the City of Wooster, Ohio's capital assets can be found in Note 6.

Long-term Debt. At the end of the current fiscal year, the City of Wooster, Ohio had a total bonded debt outstanding of \$30,375,004. Of this amount, \$30,375,004 is debt backed by the full faith and credit of the government. The remainder of the City of Wooster, Ohio's long-term debt comprises, Ohio Public Works Commission Loans and Ohio Water Development Authority Loans.

The City of Wooster, Ohio's total debt increased by \$13,525,960, (47 percent) during the current fiscal year. This is the expected result of scheduled debt payments exceeded by issuance of new bonds and notes to finance capital projects.

The City of Wooster, Ohio maintained an "AA" rating from Standard & Poor's for general obligation debt.

Additional information on the City of Wooster, Ohio's long-term debt can be found in Note 15.

Economic Factors and Next Year's Budgets and Rates

The following economic factors affect the City of Wooster, Ohio and were considered in developing the 2024 budget:

- Water rates increased by 3% and sanitary sewer rates increased by 4%.
- Total assessed valuation of the City of Wooster, Ohio increased .65% or \$4,428,080 over 2023.
- The rising interest rate environment will result in higher investment income for the year.
- Income tax receipts continue to trend in a positive direction because of local economic growth.
- The City continues experiencing low unemployment rates. We expect this to continue.
- The City continues to collaborate with our local and regional development agencies to encourage job retention and job creation.
- The City continuously works to limit the cost increases of providing health care insurance in part by plan changes, reinsurance changes, and working closely with our benefits administrator.
- Building permit values for 2023 were \$94,589,091, representing a 27.5% decrease compared to 2022. This was significantly over our rolling 10-year median value of \$89,312,792. We anticipate that the value of building permits will be near our 10-year median value for 2024.

Requests for Information

This financial report is designed to provide a general overview of the City of Wooster, Ohio's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, 538 North Market Street, Wooster, Ohio 44691 or by email at financedept@woosteroh.com.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2023

| Net Change in Fund Balances - Total Governmental Funds | \$ 5,613,018 |
|--|-----------------|
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures; however, in the | |
| statement of activities, the cost of those assets is allocated over their | |
| estimated useful lives as depreciation expense: | |
| Capital Asset Additions \$ 9,464,589 | |
| Current Year Depreciation (5,324,427) | 4,140,162 |
| In the statement of activities, certain costs and proceeds associated | |
| with long-term debt obligations issued during the year are accrued | |
| and amortized over the life of the debt obligation. In governmental | |
| funds these costs and proceeds are recognized as financing sources and uses. | |
| Issuance of general obligation bond (3,375,000) | |
| Issuance of bond anticipation notes (720,000) | (4,095,000) |
| Revenues in the statement of activities that do not provide current financial | |
| resources are not reported as revenues in the funds: | |
| Taxes 698,024 | |
| Due from other governments 497,025 | |
| Accounts 23,276 | |
| Special assessments (97,965) | 1,120,360 |
| Some expenses reported in the statement of activities do not | |
| require the use of current financial resources and therefore | |
| are not reported as expenditures in governmental funds: | |
| Decrease in bonds and loans payable 1,083,989 | |
| Change in compensated absences (1) (4,811) | |
| Change in accrued interest payable (28,091) | 1,051,087 |
| Contractually required pension/OPEB contributions are reported as expenditures in governmental | |
| funds; however, the statement of net position reports these amounts as deferred outflows. | |
| Pension 2,212,283 | |
| OPEB 40,999 | 2,253,282 |
| Except for amount reported as deferred inflows/outflows, changes in net pension/OPEB | |
| asset/liability are reported as pension/OPEB expense in the statement of activities. | |
| Pension (4,720,154) | |
| OPEB 76,335 | (4,643,819) |
| The internal service fund used by management to charge the cost of | |
| insurance to individual funds is not reported in the government-wide | |
| statements of activities. Governmental fund expenditures and the related | |
| internal service fund revenues are eliminated. The net revenue | |
| (expense) of the internal service fund is allocated among the | 165 555 |
| governmental activities. | 165,752 |
| Change in Net Position of Governmental Activities | \$ 5,604,842 |

⁽¹⁾ Excludes an increase in compensated absences of \$2,797 for Internal Service fund

CITY OF WOOSTER WAYNE COUNTY, OHIO NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2023

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Reporting Entity

The City of Wooster (City) was incorporated on October 13, 1817 under the laws of the State of Ohio. In 1973 a voter-approved charter became effective. The City provides various services and consists of many different activities and smaller accounting entities. These include a community hospital, an economic development loan program, a police force, a fire fighting and prevention force, a water treatment plant, a sewage treatment plant, a storm water drainage system, a traffic control system, street lighting, a street maintenance force (including construction, repair, and snow and ice removal), a parks and recreation system, a community center, rubbish collection and recycling service, and staff to provide the necessary support to these service providers. All are responsible to the citizens of Wooster and are; therefore, included within the reporting entity.

The criteria used to determine which accounting entities, agencies, commissions, boards and authorities are part of the City's operations include how the budget is adopted, whether debt is secured by general obligations of the City, the City's duty to cover any deficits that may occur, and supervision over the accounting functions. There are no agencies, organizations or activities meeting any of the above criteria that are excluded from the City reporting entity.

Jointly Governed Organization

Wooster-Ashland Regional Council of Governments (WARCOG) The City is a member of the Wooster-Ashland Regional Council of Governments (WARCOG). WARCOG is a regional council of governments formed under Chapter 167 of the Ohio Revised Code. It was formed to plan for, create and operate a joint dispatching system for police, fire, emergency medical services (EMS), and other related public safety services within the WARCOG area and to provide a link between these dispatching systems and the State emergency management services platform. It is currently comprised of four members (the cities of Ashland, Orrville and Wooster and Wooster Community Hospital). It is authorized to perform all functions necessary to improve, maintain and operate the dispatching services including entering into contractual arrangements for necessary services; to employ staff; purchase, lease or otherwise provide for supplies, materials and equipment and facilities; accept and raise public and private funding; and any and all other powers and authorities available pursuant to Chapter 167 of the Ohio Revised Code. A 13 member Board of Directors governs the WARCOG. The Board is composed of one public official from each founding member (3 members); three additional appointed by each founding member (9 members); and one additional rotated between the founding members (1 member). Those subdivisions are the City of Wooster, City of Orrville and City of Ashland. Each member is entitled to one vote. The City of Wooster serves as the fiscal agent. Financial information can be obtained by contacting Andrei Dordea, Treasurer of WARCOG, 538 North Market St., Wooster, OH 44691.

Basis of Presentation - Fund Accounting

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The City's funds are grouped into two broad fund categories and seven generic fund types for financial statement presentation purposes. Governmental funds include the general, special revenue, debt service and capital projects funds. Proprietary funds include enterprise funds and internal service funds. The City has three custodial funds.

CITY OF WOOSTER WAYNE COUNTY, OHIO NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2023

Basis of Accounting

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which primarily rely on fees and charges for support. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Fiduciary funds are also excluded from the government-wide financial statements.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds. The primary effect of the internal service fund activity has been eliminated from the government-wide financial statements. Other activities from interfund services provided and used are not eliminated in the process of consolidation.

The government-wide Statement of Activities presents a comparison between expenses, both direct and indirect, and program revenues for each segment of the business-type activities of the City and for each governmental program. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Indirect expenses for centralized services and administrative overhead are allocated among the programs, functions and segments using a full cost allocation approach and are presented separately to enhance comparability of direct expenses between governments that allocate direct expenses and those that do not. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the City.

Net position should be reported as restricted when constraints placed on their use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other purposes result from special revenue funds and the restrictions on their use.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

FUND FINANCIAL STATEMENTS

Fund financial statements report detailed information about the City. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements.

CITY OF WOOSTER WAYNE COUNTY, OHIO NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2023

GOVERNMENTAL FUNDS

All governmental funds are accounted for using modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

The major governmental funds are:

- <u>General Fund</u> This is the City's primary operating fund. It is used to account for all financial resources except those required to be accounted for in another fund.
- <u>Capital Improvement Fund</u> To account for various capital projects financed by intergovernmental revenues as well as other financing sources.

The other governmental funds of the City account for grants and other resources to which the City is bound to observe constraints imposed upon the use of the resources.

Revenue Recognition

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current year or within one month of year-end and available to pay obligations of the current period). These revenues include investment earnings, income taxes withheld by employers, estate taxes, and fines and forfeitures. Certain state-levied locally shared taxes including motor vehicle license tax and gasoline taxes are considered voluntary non-exchange transactions. Eligibility requirements include time requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis.

Property taxes though measurable, are not available soon enough in the subsequent year to finance current period obligations. Therefore, property tax receivables are recorded as deferred inflows of resources until they become available.

Other revenues, including licenses and permits, certain charges for services, income taxes other than those withheld by employers and miscellaneous revenues, are recorded as revenue when received in cash because they are generally not measurable until actually received.

Expenditure Recognition

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, principal and interest on general long-term debt, which has not matured, are recognized when paid. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

PROPRIETARY FUNDS

All proprietary funds are accounted for using the accrual basis of accounting. These funds account for operations that are primarily financed by user charges. The economic resource focus concerns determining costs as a means of maintaining the capital investment and management control. Revenues are recognized when earned and expenses are recognized when incurred. Allocations of costs, such as depreciation/amortization, are recorded in proprietary funds. Unbilled utility and hospital service receivables are recorded at each year-end.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of all the City's enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and the internal service funds include the cost of sales and services, administrative expenses, and depreciation/amortization on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The major proprietary funds are:

- Wooster Community Hospital Fund To account for the health care services provided by the City owned and operated hospital.
- <u>Water Fund</u> To account for the provision of water treatment and distribution to the residential and commercial users of the City and some residents of the county.
- <u>Water Pollution Control Fund</u> To account for sanitary sewer services provided to the residential and commercial users of the City and some residents of the county.
- <u>Storm Drainage Fund</u> To account for the storm drainage runoff service provided to the residential and commercial users of the City.
- <u>Refuse Fund</u> To account for trash collection services provided to the residential and some commercial users of the City.

The City has three internal service funds:

- <u>Municipal Garage</u> To account for the costs of maintaining automotive equipment used by various City departments. Costs are billed to the departments for labor and materials at actual cost with the elimination of the effect of internal service fund activity adjusted to break even.
- <u>Employee Benefits Fund</u> To account for all premiums collected and paid by the City to Buckeye Ohio Risk Management for health insurance and Lincoln National Life Insurance for dental and vision insurance.
- <u>Investment Fund</u> To accumulate interest earnings from certain pooled investments and to pay expenses incurred in the handling of fiscal matters with third parties until such time as the net proceeds can be distributed to the other funds.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. The City currently has three custodial funds. The City's custodial funds are mainly used for the collection and distribution of taxes, along with serving as the fiscal agent for the Clearing Fund, Wooster Growth and WARCOG. They do, however, use the accrual basis of accounting to recognize receivables and payables. The following three funds are used by the City to account for assets held by the City in a custodial capacity:

- <u>The Wooster Growth Corporation Fund</u> is used to account for the activity of the City's community improvement corporation.
- <u>The Clearing Fund</u> is used to hold monies or proceeds on behalf of certain individuals. Insurance premiums for retired employees or spouses participating in the City's group health insurance program are also reimbursed and paid from this fund.
- <u>The Wooster-Ashland Regional Council of Governments Fund</u> is used to hold monies received from members for services provided by a joint dispatching service for police, fire, emergency medical services (EMS), and other related public safety services.

Deferred Inflows of Resources and Deferred Outflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources are reported on the government-wide statement of net position and statement of fund net position for pension and OPEB. The deferred outflows of resources related to pension and OPEB are explained in Notes 8 and 9.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized until that time. For the City, deferred inflows of resources include property taxes, pension, OPEB and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2023, but which were levied to finance 2024 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes delinquent property taxes, special assessments, income taxes, intergovernmental grants and miscellaneous revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the reconciliation of total governmental fund balances to net position of governmental activities. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position and statement of fund net position. (See Notes 8 and 9).

Cash and Cash Equivalents

To improve cash management, cash received by the City is pooled and invested. Individual fund integrity is maintained through City records. Interest in the pool is presented as "Equity in City Treasury Cash and Investments."

Investments with an original maturity of three months or less at the time of purchase and investments of the cash management pool and are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

Cash and cash equivalents in segregated accounts are held separate from the City treasury and represent the accounts for Bloomington and Wooster Community Hospital Foundation, which are both blended component units to the Wooster Community Hospital.

Investments

Governmental Accounting Standards Board Statement No. 40, *Deposit and Investment Risk Disclosures* was implemented during 2004. This statement addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. The City's policy is to invest public funds in a manner which protects the citizens and the investors from a loss of principal while attaining a competitively high rate of return on investment.

Investments held at December 31, 2023 with original maturities greater than 90 days are stated at fair value. Nonparticipating investment contracts such as nonnegotiable certificates of deposit are reported at cost.

During the year 2023, the City also invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, *Certain External Investment Pools and Pool Participants*. The City measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

For 2023, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours advance notice for deposits and withdrawals of \$100 million or more is appreciated. STAR Ohio reserves the right to limit the transaction to \$250 million per day.

The portfolio is continuously analyzed to attain the following objectives:

- A. Preserve capital and protect investment principal in conformance with federal, state and local requirements.
- B. Maintain sufficient liquidity to meet operating requirements.
- C. Diversify the portfolio to avoid incurring unreasonable risks regarding specific security type or Individual financial institutions.
- D. Attain a market rate of return throughout budgetary and economic cycles.
- E. Protect the principal of lenders.
- F. Encourage community growth.

Receivables

Wooster Community Hospital Fund accounts receivable is stated at billed charges less the difference between billed charges and the amount payable under third-party payor contractual agreements, and net of allowance for doubtful accounts. The \$34,667,523 allowance for uncollectibles represents estimates of uncollectible patient receivables in the accounts (user charge) classification and third party contractual adjustments for hospital fund receivables.

Other receivables at December 31, 2023 consist of property taxes, income taxes, accounts (billings for user charged services, including utility services), due from other governments, special assessment loans, long-term advances, due from other funds and accrued interest on investments. Taxes, interfund, special assessments, utility charges and accrued interest are deemed collectible in full.

Receivables not expected to be collected within the subsequent year include deferred special assessments receivable in the Debt Service fund and Capital Improvement Fund, and long-term receivables in the Water Pollution Control, Economic/Downtown Development Loan, and Economic Development funds.

Reimbursements

Wooster Community Hospital Fund net operating revenues include amounts received or receivable from Medicare, Medicaid, and other third party payors under the provisions of reimbursement agreements. Inpatient services rendered to Medicare and Medicaid program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Outpatient services rendered to Medicare program beneficiaries are paid based on a combination of fee schedules, prospectively determined rates and a cost reimbursement methodology. Outpatient services rendered to the Medicaid program beneficiaries are generally paid based on fee schedules and prospectively determined rates.

Other third party payors may provide for payments at amounts different from established rates. Payment arrangements may include prospectively determined rates per discharge, discounted charges and per diem payments.

Wooster Community Hospital accepts all patients, regardless of their ability to pay. Care is provided without charge, or at amounts less than established rates, to patients who meet certain criteria under a charity care policy. Wooster Community Hospital provided \$1,407,483 in charity care in 2023.

Inventory of Supplies

Inventories are stated at cost, on the first-in, first-out basis. The costs of inventory items are recorded as expenditures in the governmental fund types and expenses in the proprietary fund types when used.

Inventory Held for Resale

Inventory held for sale is presented at net realizable value.

Capital Assets and Depreciation/Amortization

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. General capital assets are long-lived assets of the City as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. The minimum capitalization threshold is any individual item with a total cost greater than \$5,000.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation basis for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are capitalized at acquisition value on the date donated.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows:

Buildings: 5-50 years

Improvements/Infrastructure: streets 10-50 years; water, sewer, storm lines 50 years

Land Improvements: 10-20 years;

Equipment: vehicles 2-6 years; other moveable equipment 10-15 years; fire equipment 12 years.

The City is reporting intangible right to use assets related to subscription assets. These intangible assets are being amortized in a systematic and rational manner over the shorter of the subscription term or the useful life of the underlying asset.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2023, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

Fund Balance

In accordance with Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the City classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed or assigned.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation (City ordinances).

Enabling legislation authorizes the City to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the City can be compelled by an external party-such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (ordinance or resolution, as both are equally binding) of the City Council. Those committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action (ordinance or resolution, as both are equally binding) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, the committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by City Council, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the City Council. The City has by resolution authorized the Finance Director to assign fund balance. The City may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. State statute authorizes the Finance Director to assign fund balance for purchases on order provided such amounts have been lawfully appropriated.

Unassigned – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Unpaid Compensated Absences

The City accrues unused portions of vacation pay in the period the liability is incurred. As permitted by Governmental Accounting Standards Board Statement No. 16, the vesting method is used to accrue sick leave liability. The liability is based on the sick leave accumulated at year-end by those employees who are currently eligible to receive termination payments as well as other employees who are expected to become eligible to receive such payments. Even though the City has appropriated, accumulated and earmarked expendable available fund resources for these amounts, the portion not normally expected to be liquidated with expendable available financial resources is not reported as a fund liability in accordance with Interpretation No. 6 of the Governmental Accounting Standards Board –Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements.

Pensions and Postemployment Benefits

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements; and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds, leases, and subscriptions are recognized as a liability on the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

Unearned Revenue

Unearned revenue arises when monies are received before revenue recognition criteria have been satisfied. The unearned revenue reported represents grants received from the American Rescue Plan Act funding.

Net Position

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation/amortization, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. At December 31, 2023, no net position was restricted for enabling legislation.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

NOTE 2 - BUDGETARY DATA

Budget Requirements, Accounting, and Reporting

Requirements for all funds:

A. Annual budgets are adopted for all City funds. Under state law, the Mayor submits an annual budget (a preliminary financial plan often referred to as the 'tax budget') to Council for consideration and approval no later than July 15. Such budget is based on expected expenditures by program within a fund and estimated resources by source for all funds.

- B. By Charter the Mayor must submit an annual appropriation ordinance to City Council. This ordinance builds upon the tax budget of the previous July and is updated for any estimate revisions as well as year-end encumbrances and may include any additional information requested by Council. Council may subsequently amend such ordinance. Amendments to the appropriation ordinance during 2023 were approved by City Council as provided by the Charter.
- C. For day-to-day management control, expenditures plus encumbrances may not exceed budget at the expenditure-type (i.e., personal services, operations and maintenance, capital, etc.) level of each cost center (activity within a program within a fund). The Mayor may transfer unencumbered appropriations within programs within funds.
- D. Appropriation control (City Council appropriated budget) is at the object level (personal services and other) by program (i.e., safety, leisure, health, etc.) within a fund. City Council may, by ordinance, transfer amounts among programs within and between funds. Budgetary comparison schedules are presented in the Supplemental Section as Required Supplemental Information. The budgetary basis is the modified accrual basis of accounting with encumbrances included as actual.

NOTE 3 – INTER-FUND TRANSACTIONS

During the year, the general fund transferred \$3,760,000 to the capital improvement fund to provide capital funding. In a prior year, the general fund advanced \$223,000 to the CDBG fund to provide interim funding. This is not expected to be repaid within one year. In 2023, the general fund advanced \$627,500 to the CDBG fund to provide funding for the fire station renovation, this advance is expected to be returned in 2024 when the funding is received from the State.

NOTE 4 – IMPLEMENTATION OF NEW ACCOUNTING PRINCIPLES AND RESTATEMENT OF NET POSITION

For the year ended December 31, 2023, the City has implemented GASB Statement No. 93, paragraphs 13 and 14, Replacement of Interbank Offered Rates, GASB Statement No. 94, Public-Private and Public-Public Partnerships and Available Payment Arrangements, GASB Statement No. 96, Subscription-Based Information Technology Arrangements, and certain provisions of GASB Statement No. 99, Omnibus 2022.

GASB Statement No. 93, paragraphs 13 and 14, provide an exception to the lease modifications guidance in GASB Statement No. 87, as amended, for certain lease contracts that are amended solely to replace an IBOR as the rate upon which variable payments depend. The implementation of GASB Statement No. 93 paragraphs 13 and 14, did not have an effect on the financial statements of the City.

GASB Statement No. 94 improves financial reporting by establishing the definitions of public-private and public-public partnership arrangements and availability payment arrangements as well as provides uniform guidance on accounting and financial reporting for transactions that meet the definitions. The implementation of GASB Statement No. 94 did not have an effect on the financial statements of the City.

GASB Statement No. 96 improves financial reporting by establishing a definition for subscription-based information technology arrangements (SBITAs) and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. The statement also enhances the relevance and reliability of the financial statements by requiring a government to report a subscription asset and subscription liability for a SBITA and discloses essential information about the arrangement. The note disclosures also allow the users to understand the scale and important aspects of the SBITA activities and evaluate the obligations and assets resulting from the SBITAs. These changes were incorporated into the City's calendar year 2023 financial statements and resulted in the restatement of the City's financial statements (see below).

GASB Statement No. 99 enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The implementation of certain provisions of GASB Statement No. 99 that relate to extension of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, and pledges of future revenues by pledging governments, did not have an effect on the financial statements of the City.

Restatement of Net Position

The implementation of GASB 96 had the following effect on net position as reported December 31, 2022:

| | | nterprise Funds Oster Community Hospital | В | Business-Type Activities | | | |
|---|----|--|----|--------------------------|--|--|--|
| Net position previously reported, December 31, 2022 GASB 96 Implementation | \$ | 157,477,139 434,000 | \$ | 221,659,447 434,000 | | | |

NOTE 5 - DEPOSITS AND INVESTMENTS

Policies and Practices

The City's Charter specifies that the Director of Finance is responsible for selecting depositories and investing idle funds. The Director of Finance also has the authority to choose the types of deposits and investments made by the City. The Federal Deposit Insurance Corporation provides protection of City cash and investments as well as qualified pledged or pooled securities by the institutions holding the assets. The various institutions, or their trustees, including the Federal Home Loan Bank and the Federal Reserve Bank hold such collateral. The City does not enter into reverse repurchase agreements.

The City pools all individual fund cash balances. Each fund's portion of this pool is displayed on the statements of net assets or balance sheets as 'Equity in city treasury cash and investments'. Income is distributed to the funds based on contribution to the pool.

Investment securities purchased by the City will be delivered by either book entry or physical delivery. The purchase and sale of all securities may be on a delivery versus payment basis. The primary agent shall issue a safekeeping receipt to the City listing the specific instrument, rate, maturity and other pertinent information. Deposit type securities (i.e., certificates of deposit) shall be collateralized as required by ORC for any amount exceeding FDIC or FSLIC coverage. Other investments shall be collateralized by the actual security held in safekeeping by the primary agent.

State statutes classify monies held by the City into three categories.

Active deposits are public deposits necessary to meet the current demands on the treasury. Such monies must be maintained either as cash in the City Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that Council has identified as not required for use within the current two-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

The City will diversify the portfolio to avoid incurring unreasonable risks inherent in over investing in specific instruments, individual financial institutions or maturities. Diversification by instrument and the percentage of portfolio cannot exceed the following:

- A. U.S. Treasury Obligations (bills, notes and bonds), 100%.
- B. U.S. Government Agency Securities and Instrumentality's of Government Sponsored Corporations, 100%.
- C. Certificates of Deposit (collateralized), 100%.
- D. Commercial paper notes, 40%.
 - 1. Notes must be rated at time of purchase in the highest classification established by at least two standard rating services.
 - 2. Aggregate value of the note does not exceed 10% of the aggregate value of the outstanding commercial paper of the issuing corporation.
 - 3. Notes mature no later than 270 days after purchase.
- E. Banker's acceptance of banks that are members of the FDIC, 40%.
 - 1. The obligations are eligible for purchase by the Federal Reserve System.
 - 2. The obligations mature no later than 180 days after purchase.
- F. Repurchase Agreements, 25%.
- G. State and Local Government Securities, 25%.
- H. State of Ohio Investment pool, 25%.

Maturity limitations shall depend upon whether the funds being invested are considered short term or long-term funds. All funds shall be considered short term except those reserved for capital projects (i.e., bond sale proceeds), funds to be used in the future for debt service, and special assessment prepayments being held for debt retirement. Except for previously mentioned situations, as directed by the investment officer, investments shall be limited to maturities not exceeding 24 months.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Cash on Hand - At December 31, 2023, the City had \$8,689 in undeposited cash on hand, which is included as part of "Equity in city treasury cash and investments."

Deposits - At year-end, \$25,804,906 of the City's bank balance of \$28,008,389 was uninsured but collateralized. Although the securities were held by the pledging financial institutions' trust department in the City's name and all statutory requirements for the investment of money had been followed, noncompliance with Federal requirements could potentially subject the City to a successful claim by the FDIC.

Custodial Credit Risk Custodial credit risk for deposits is the risk that in the event of a bank failure, the City will not be able to recover deposits or collateral securities that are in possession of an outside party.

The City has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by:

- Eligible securities pledged to the City and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or
- Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS required the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

Investments

As of December 31, 2023, the City had the following investments and maturities:

| | | | | | | Inv | estment | | | |
|------------|--------------------------|----|--------------|---------------------|------------|------|-----------|-------|-----------|---------|
| S&P Global | | N | I easurement | Maturities in Years | | | | | | Percent |

| | Total Investments | \$ | 151,324,836 | \$ | 54,739,324 | \$ 4 | 6,288,058 | \$ 50 |),297,454 | 100.00% |

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the City's recurring fair value measurements as of December 31, 2023. The City's fair value investments are Level 2 since valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. Market indicators and industry and economic events are also monitored which could require the need to acquire further market data.

Interest Rate Risk. As a means of limiting its exposure to fair value losses caused by rising interest rates, the City's investment policy requires that operating funds be invested primarily in short-term investments maturing within two years from the date of purchase and that the City's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

STAR Ohio is an investment pool operated by the Ohio State Treasurer. It is unclassified since it is not evidenced by securities that exist in physical or book entry form. Ohio law requires STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The weighted average of maturity of the portfolio held by STAR Ohio as of December 31, 2023 is 46 days.

Credit Risk. State law limits investments in corporate debt to the top two ratings issued by nationally recognized statistical rating organizations. The City does not have a written policy limiting its corporate debt investments to the top rating.

Concentration of Credit Risk. The City's investment policy limits the amounts it may invest in any one type of instrument. See above chart.

NOTE 6 - CAPITAL ASSETS AND DEPRECIATION/AMORTIZATION

Capital asset activity for the year ended December 31, 2023, was as follows:

| Governmental Activities | Balance 12/31/22 | | Increases | | Decreases | | | Balance 12/31/23 |
|--|---------------------|--------------|-----------|-------------|-----------|-------------|----|------------------|
| Capital Assets, Not Being Depreciated: | | 12, 31, 22 | | <u> </u> | | <u> </u> | | 12/31/23 |

NOTE 7 - PROPERTY TAX

Property taxes include amounts levied against all real and public utility property located in the City. Property tax revenue received during 2023 for real and public utility property taxes represents collections of the 2022 taxes.

2023 real property taxes were levied after October 1, 2023, on the assessed value as of January 1, 2023, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2023 real property taxes are collected in and intended to finance 2024.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statue permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2023 public utility property taxes which became a lien December 31, 2022, are levied after October 1, 2023, and are collected in 2024 with real property taxes.

The full tax rate for all City operations for the year ended December 31, 2023, was \$5.80 per \$1,000 of assessed valuation. The assessed values of real property and public utility tangible property upon which 2023 property tax receipts were based are as follows:

| Category | Assessed Value |
|-----------------------------|----------------|
| Real Property | \$ 660,972,300 |
| Public Utilities - Personal | 26,884,250 |
| Total Assessed Value | \$ 687,856,550 |

The County Treasurer collects property taxes on behalf of all taxing districts within the County, including the City. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real and public utility property taxes and outstanding delinquencies which were measurable as of December 31, 2023, and for which there was an enforceable legal claim. In governmental funds, the portion of the receivable not levied to finance 2023 operations is offset to deferred inflows of resources – property taxes levied for the next year. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

NOTE 8 – DEFINED BENEFIT PENSION PLANS

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability (Asset)

Pensions and OPEB are a component of exchange transactions – between an employer and its employees — of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net pension/OPEB liability (asset) represents the City's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for the liability to annually required payments. The City cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* and *net OPEB liability (asset)* on the accrual basis of accounting. Any liability for the contractually-required pension/OPEB contributions outstanding at the end of the year is included in accrued salaries, wages, and benefits/other accrued liabilities on both the accrual and modified accrual bases of accounting.

The remainder of this note includes the pension disclosures. See Note 9 for the OPEB disclosures.

Plan Description - Ohio Public Employees Retirement System (OPERS)

Plan Description – City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS is a cost-sharing, multiple employer public employee retirement system which administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Effective January 1, 2022, new members may no longer select the Combined Plan, and current members may no longer make a plan change to this plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan. Substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

| Group A | Group B | Group C |
|---|---|--|
| Eligible to retire prior to | 20 years of service credit prior to | Members not in other Groups |
| January 7, 2013 or five years | January 7, 2013 or eligible to retire | and members hired on or after |
| after January 7, 2013 | ten years after January 7, 2013 | January 7, 2013 |
| State and Local | State and Local | State and Local |
| Age and Service Requirements: | Age and Service Requirements: | Age and Service Requirements: |
| Age 60 with 60 months of service credit | Age 60 with 60 months of service credit | Age 57 with 25 years of service credit |
| or Age 55 with 25 years of service credit | or Age 55 with 25 years of service credit | or Age 62 with 5 years of service credit |
| Traditional Plan Formula: | Traditional Plan Formula: | Traditional Plan Formula: |
| 2.2% of FAS multiplied by years of | 2.2% of FAS multiplied by years of | 2.2% of FAS multiplied by years of |
| service for the first 30 years and 2.5% | service for the first 30 years and 2.5% | service for the first 35 years and 2.5% |
| for service years in excess of 30 | for service years in excess of 30 | for service years in excess of 35 |

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The amount of a member's pension benefit vests upon receipt of the initial benefit payment.

When a benefit recipient has received benefits for 12 months, the member is eligible for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those who retired prior to January 7, 2013, the cost-of-living adjustment is 3 percent. For those retiring on or after January 7, 2013, beginning in calendar year 2019, the adjustment is based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

| | State |
|---|-----------|
| | and Local |
| 2023 Statutory Maximum Contribution Rates | |
| Employer | 14.0 % |
| Employee | 10.0 % |
| 2023 Actual Contribution Rates | |
| Employer: | |
| Pension | 14.0 % |
| Post-employment Health Care Benefits | 0.0 |
| Total Employer | 14.0 % |
| Employee | 10.0 % |

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$8,184,643 for 2023. Of this amount, \$1,773,187 is reported as an accrued salaries, wages, and benefits/other accrued liabilities.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description – Full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before after July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit (see OP&F Annual Comprehensive Financial Report referenced above for additional information, including requirements for Deferred Retirement Option Plan provisions and reduced and unreduced benefits).

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit, statutory survivors and annuity beneficiaries. Members participating in the DROP program have separate eligibility requirements related to COLA.

The COLA amount for members who have 15 or more years of service credit as of July 1, 2013, and members who are receiving a pension benefit that became effective before July 1, 2013, will be equal to 3.0 percent of the member's base pension benefit.

The COLA amount for members who have less than 15 years of service credit as of July 1, 2013, and members whose pension benefit became effective on or after July 1, 2013, will be equal to a percentage of the member's base pension benefit where the percentage is the lesser of 3.0 percent or the percentage increase in the consumer price index, if any, over the twelve-month period that ends on the thirtieth day of September of the immediately preceding year, rounded to the nearest one-tenth of one percent.

Members who retired prior to July 24, 1986, or their surviving beneficiaries under optional plans are entitled to cost-of-living allowance increases. The annual increase is paid on July 1st of each year. The annual COLA increase is \$360 under a Single Life Annuity Plan with proportional reductions for optional payment plans.

Funding Policy – The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

| | Police | Firefighters |
|---|---------|--------------|
| 2023 Statutory Maximum Contribution Rates | | _ |
| Employer | 19.50 % | 24.00 % |
| Employee | 12.25 % | 12.25 % |
| 2023 Actual Contribution Rates | | |
| Employer: | | |
| Pension | 19.00 % | 23.50 % |
| Post-employment Health Care Benefits | 0.50 | 0.50 |
| Total Employer | 19.50 % | 24.00 % |
| Employee | 12.25 % | 12.25 % |

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$1,748,641 for 2023. Of this amount, \$219,076 is reported as an accrued salaries, wages, and benefits/other accrued liabilities.

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2022, and was determined by rolling forward the total pension liability as of January 1, 2022, to December 31, 2022. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

| | OPERS | OP&F | Total |
|--|-------------------|------------------|-------------------|
| Proportion of the Net Pension Liability: | | | |
| Current Measurement Period | 0.376038% | 0.2974633% | |
| Prior Measurement Period | 0.371908% | 0.2731999% | |
| Change in Proportion | 0.004130% | 0.024263% | |
| | _ | _ | |
| Proportionate Share of the Net | | | |
| Pension Liability | \$ 111,081,790 | \$ 28,256,130 | \$ 139,337,920 |
| Pension Expense | \$ 16,859,490 | \$ 3,622,208 | \$ 20,481,698 |

Other than contributions made subsequent to the measurement date and differences between projected and actual earnings on investments; deferred inflows/outflows of resources are recognized in pension expense beginning in the current period, using a straight line method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions, determined as of the beginning of the measurement period. Net deferred inflows/outflows of resources pertaining to the differences between projected and actual investment earnings are similarly recognized over a closed five year period. At December 31, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | OPERS | OP&F | | Total | | |
|---|------------------|------|------------|-------|------------|--|
| Deferred Outflows of Resources | _ | | _ | | | |
| Net Difference between Projected and Actual | | | | | | |
| Earnings on Pension Plan Investments | \$ 31,661,801 | \$ | 4,113,743 | \$ | 35,775,544 | |
| Differences between Expected and | | | | | | |
| Actual Experience | 3,689,672 | | 423,828 | | 4,113,500 | |
| Changes of Assumptions | 1,173,500 | | 2,548,602 | | 3,722,102 | |
| Changes in Proportionate Share and | | | | | | |
| Differences in Contributions | 941,235 | | 1,437,490 | | 2,378,725 | |
| City Contributions Subsequent | | | | | | |
| to the Measurement Date | 8,184,643 | | 1,748,641 | | 9,933,284 | |
| Total Deferred Outflows of Resources | \$ 45,650,851 | \$ | 10,272,304 | \$ | 55,923,155 | |
| Deferred Inflows of Resources | | | | | | |
| Differences between Expected and | | | | | | |
| Actual Experience | \$ - | \$ | 643,757 | \$ | 643,757 | |
| Changes of Assumptions | - | | 550,987 | | 550,987 | |
| Changes in Proportionate Share and | | | | | | |
| Differences in Contributions | 46,010 | | 702,771 | | 748,781 | |
| Total Deferred Inflows of Resources | \$ 46,010 | \$ | 1,897,515 | \$ | 1,943,525 | |

\$9,933,284 reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

| Year Ending December 31: | OPERS | | OP&F | | Total |
|--------------------------|------------------|----|-----------|----|------------|
| 2024 | \$ 5,053,084 | \$ | 730,334 | \$ | 5,783,418 |
| 2025 | 7,537,347 | | 1,488,955 | | 9,026,302 |
| 2026 | 9,319,611 | | 1,678,816 | | 10,998,427 |
| 2027 | 15,510,156 | | 2,554,331 | | 18,064,487 |
| 2028 | - | | 173,712 | | 173,712 |
| Total | \$ 37,420,198 | \$ | 6,626,148 | \$ | 44,046,346 |

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2022, using the following key actuarial assumptions and methods applied to all periods included in the measurement in accordance with the requirements of GASB 67:

| | OPERS Traditional Plan |
|-------------------------------|------------------------------------|
| Wage Inflation | 2.75 percent |
| Future Salary Increases, | 2.75 to 10.75 percent |
| including inflation | including wage inflation |
| COLA or Ad Hoc COLA: | |
| Pre-January 7, 2013 Retirees | 3.00 percent, simple |
| Post-January 7, 2013 Retirees | 3.00 percent, simple through 2023, |
| | then 2.05 percent, simple |
| Investment Rate of Return | 6.90 percent |
| Actuarial Cost Method | Individual Entry Age |

Pre-retirement mortality rates are based on 130 percent of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions. Post-retirement mortality rates are based on 115 percent of the PubG-2010 Retiree Mortality Tables (males and females). Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females). For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five-year period ended December 31, 2020.

During 2022, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was a loss of 12.10 percent for 2022.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric rates of return were provided by the Board's investment consultant. For each major class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2022, these best estimates are summarized below:

| | | Weighted Average |
|------------------------|------------|---------------------|
| | | Long-Term Expected |
| | Target | Real Rate of Return |
| Asset Class | Allocation | (Geometric) |
| Fixed Income | 22.00% | 2.62% |
| Domestic Equities | 22.00 | 4.60 |
| Real Estate | 13.00 | 3.27 |
| Private Equity | 15.00 | 7.53 |
| International Equities | 21.00 | 5.51 |
| Risk Parity | 2.00 | 4.37 |
| Other investments | 5.00 | 3.27 |
| Total | 100.00% | |

Discount Rate The discount rate used to measure the total pension liability for the current year was 6.9 percent. The discount rate for the prior year was 7.2 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the City's proportionate share of the net pension liability calculated using the current period discount rate assumption of 6.9 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (5.9 percent) or one-percentage-point higher (7.9 percent) than the current rate:

| | | Current | | | | | |
|-----------------------------------|----|--------------------|----|-----------------------|----|-------------|--|
| | 1 | 1% Decrease Discou | | iscount Rate 1% Incre | | 1% Increase | |
| City's Proportionate Share of the | | | | | | | |
| Net Pension Liability | \$ | 166,396,816 | \$ | 111,081,790 | \$ | 65,069,616 | |

Actuarial Assumptions - OP&F

OP&F's total pension liability as of December 31, 2022, is based on the results of an actuarial valuation date of January 1, 2022, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered are: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of the payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of January 1, 2022, are presented below.

| Valuation Date | January 1, 2022, with actuarial liabilities |
|----------------------------|---|
| | rolled forward to December 31, 2022 |
| Actuarial Cost Method | Entry Age Normal |
| Investment Rate of Return | 7.50 percent |
| Projected Salary Increases | 3.75 percent to 10.50 percent |
| Payroll Growth | 3.25 percent per annum, |
| | compounded annually, consisting of |
| | Inflation rate of 2.75 percent plus |
| | productivity increase rate of 0.50 percent |
| Cost of Living Adjustments | 2.20 percent simple per year |

For 2022, the mortality for service retirees is based on the Pub-2010 Below-Median Safety Amount-Weighted Healthy Retiree mortality table with rates adjusted to 96.20 percent for males and 98.70 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, mortality for disabled retirees is based on the Pub-2010 Safety Amount-Weighted Disabled Retiree mortality table with rates adjusted by 135 percent for males and 97.9 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, mortality for contingent annuitants is based on the Pub- 2010 Below-Median Safety Amount-Weighted Contingent Annuitant Retiree mortality table with rates adjusted by 108.9 percent for males and 131 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, Mortality for active members is based on the Pub-2010 Below-Median Safety Amount-Weighted Employee mortality table. All rates are projected using the MP- 2021 Improvement Scale.

For 2021, mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

| Age | Police | Fire | | | |
|------------|--------|------|--|--|--|
| 67 or less | 77 % | 68 % | | | |
| 68-77 | 105 | 87 | | | |
| 78 and up | 115 | 120 | | | |

For 2021, mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

| Age | Police | Fire | | | |
|------------|--------|------|--|--|--|
| 59 or less | 35 % | 35 % | | | |
| 60-69 | 60 | 45 | | | |
| 70-79 | 75 | 70 | | | |
| 80 and up | 100 | 90 | | | |

The most recent experience study was completed for the five-year period ended December 31, 2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The assumption is intended to be a long-term assumption (30 to 50 years) and is not expected to change absent a significant change in the asset allocation, a change in the underlying inflation assumption, or a fundamental change in the market that alters expected returns in future years.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2022, are summarized below:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|---------------------------------|----------------------|---|
| Asset Class | Allocation | Real Rate of Return |
| | | |
| Domestic Equity | 18.60 % | 4.80 % |
| Non-US Equity | 12.40 | 5.50 |
| Private Markets | 10.00 | 7.90 |
| Core Fixed Income * | 25.00 | 2.50 |
| High Yield Fixed Income | 7.00 | 4.40 |
| Private Credit | 5.00 | 5.90 |
| U.S. Inflation Linked Bonds* | 15.00 | 2.00 |
| Midstream Energy Infrastructure | 5.00 | 5.90 |
| Real Assets | 8.00 | 5.90 |
| Gold | 5.00 | 3.60 |
| Private Real Estate | 12.00 | 5.30 |
| Commodities | 2.00 | 3.60 |
| | | |
| Total | 125.00 % | |

Note: Assumptions are geometric.

59

^{*} levered 2.5x

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

Discount Rate The total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return of 7.50 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact, the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent), or one percentage point higher (8.50 percent) than the current rate.

| | | | | Current | | |

| | 1% Decrease Discou | | count Rate 1% Inci | | % Increase | |
| City's Proportionate Share of the | | | | | | |
| Net Pension Liability | \$ | 37,275,287 | \$ | 28,256,130 | \$ | 20,758,504 |

NOTE 9 - DEFINED BENEFIT OPEB PLANS

Net OPEB Liability

See Note 8 for a description of the net OPEB liability.

Ohio Public Employees Retirement System (OPERS)

Plan Description – The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan. Substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust. The 115 Health Care Trust (115 Trust or Health Care Trust) was established in 2014, under Section 115 of the Internal Revenue Code (IRC). The purpose of the 115 Trust is to fund health care. Medicare-enrolled retirees may have an allowance deposited into a health reimbursement arrangement (HRA) account to be used toward the health care program of their choice selected with the assistance of an OPERS vendor. Non-Medicare retirees have converted to an arrangement similar to the Medicare-enrolled retirees, and are no longer participating in OPERS provided self-insured group plans.

With one exception, OPERS-provided health care coverage is neither guaranteed nor statutorily required. Ohio law currently requires Medicare Part A equivalent coverage or Medicare Part A premium reimbursement for eligible retirees and their eligible dependents.

OPERS offers a health reimbursement arrangement (HRA) allowance to benefit recipients meeting certain age and service credit requirements. The HRA is an account funded by OPERS that provides tax free reimbursement for qualified medical expenses such as monthly post-tax insurance premiums, deductibles, co-insurance, and co-pays incurred by eligible benefit recipients and their dependents.

OPERS members retiring with an effective date of January 1, 2022, or after must meet the following health care eligibility requirements to receive an HRA allowance:

Medicare Retirees Medicare-eligible with a minimum of 20 years of qualifying service credit

Non-Medicare Retirees Non-Medicare retirees qualify based on the following age-and-service criteria:

Group A 30 years of qualifying service credit at any age;

Group B 32 years of qualifying service credit at any age or 31 years of qualifying service credit and minimum age 52;

Group C 32 years of qualifying service credit and minimum age 55; or,

A retiree from groups A, B or C who qualifies for an unreduced pension, but a portion of their service credit is not health care qualifying service, can still qualify for health care at age 60 if they have at least 20 years of qualifying health care service credit.

Retirees who don't meet the requirement for coverage as a non-Medicare participant can become eligible for coverage at age 65 if they have at least 20 years of qualifying service.

Members with a retirement date prior to January 1, 2022, who were eligible to participate in the OPERS health care program will continue to be eligible after January 1, 2022.

Eligible retirees may receive a monthly HRA allowance for reimbursement of health care coverage premiums and other qualified medical expenses. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are provided to eligible retirees, and are deposited into their HRA account.

Retirees will have access to the OPERS Connector, which is a relationship with a vendor selected by OPERS to assist retirees participating in the health care program. The OPERS Connector may assist retirees in selecting and enrolling in the appropriate health care plan.

When members become Medicare-eligible, recipients enrolled in OPERS health care programs must enroll in Medicare Part A (hospitalization) and Medicare Part B (medical).

OPERS reimburses retirees who are not eligible for premium-free Medicare Part A (hospitalization) for their Part A premiums as well as any applicable surcharges (late-enrollment fees). Retirees within this group must enroll in Medicare Part A and select medical coverage, and may select prescription coverage, through the OPERS Connector. OPERS also will reimburse 50 percent of the Medicare Part A premium and any applicable surcharges for eligible spouses. Proof of enrollment in Medicare Part A and confirmation that the retiree is not receiving reimbursement or payment from another source must be submitted. The premium reimbursement is added to the monthly pension benefit.

The Ohio Revised Code permits but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting https://www.opers.org/financial/reports.shtml, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2023, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2023, OPERS did not allocate any employer contribution to health care for members. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$0 for 2023.

Ohio Police & Fire Pension Fund (OP&F)

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a new model for health care. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements.

OP&F contracted with a vendor who assists eligible retirees in choosing health care plans that are available where they live (both Medicare-eligible and pre-65 populations). A stipend funded by OP&F is available to these members through a Health Reimbursement Arrangement and can be used to reimburse retirees for qualified health care expenses.

Regardless of a benefit recipient's participation in the health care program, OP&F is required by law to pay eligible recipients of a service pension, disability benefit and spousal survivor benefit for their Medicare Part B insurance premium, up to the statutory maximum provided the benefit recipient is not eligible to receive reimbursement from any other source. Once OP&F receives the necessary documentation, a monthly reimbursement is included as part of the recipient's next benefit payment. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

OP&F maintains funds for health care in two separate accounts: one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. IRS Code Section 401(h) account is maintained for Medicare Part B reimbursements.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.5 percent and 24 percent of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5 percent of covered payroll for police employer units and 24 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

The Board of Trustees is authorized to allocate a portion of the total employer contributions for retiree health care benefits. For 2023, the portion of employer contributions allocated to health care was 0.5 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded.

The OP&F Board of Trustees is also authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contractually required contribution to OP&F was \$40,999 for 2023. Of this amount, \$5,120 is reported as an accrued salaries, wages, and benefits/other accrued liabilities.

Net OPEB Liability (Asset), OPEB Expense, and Deferred Outflows/Inflows of Resources Related to OPEB

The net OPEB liability and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2021, rolled forward to the measurement date of December 31, 2022, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2022, and was determined by rolling forward the total OPEB liability as of January 1, 2022, to December 31, 2022. The City's proportion of the net OPEB liability was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

| | OPERS | OP&F | Total |
|---------------------------------------|-------------------|-----------------|-------------------|
| Proportion of the Net OPEB Liability: | | | |
| Current Measurement Period | 0.387147% | 0.2974633% | |
| Prior Measurement Period | 0.382615% | 0.2731999% | |
| Change in Proportion | 0.004532% | 0.0242634% | |
| Proportionate Share of the Net | | | |
| OPEB Liability | \$ 2,441,036 | \$ 2,117,853 | \$ 4,558,889 |
| OPEB Expense | \$ (4,836,693) | \$ 201,029 | \$ (4,635,664) |

At December 31, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | OPERS | OP&F | Total |
|---|-----------------|-----------------|-----------------|
| Deferred Outflows of Resources | | | |
| Net Difference between Projected and Actual | | | |
| Earnings on OPEB Plan Investments | \$ 4,847,982 | \$ 181,649 | \$ 5,029,631 |
| Differences between Expected and | | | |
| Actual Experience | - | 126,381 | 126,381 |
| Changes of Assumptions | 2,384,215 | 1,055,424 | 3,439,639 |
| Changes in Proportionate Share and | | | |
| Differences in Contributions | 69,527 | 244,430 | 313,957 |
| City Contributions Subsequent | | | |
| to the Measurement Date | <u>-</u> | 40,999 | 40,999 |
| Total Deferred Outflows of Resources | \$ 7,301,724 | \$ 1,648,883 | \$ 8,950,607 |
| Deferred Inflows of Resources | | | |
| Differences between Expected and | | | |
| Actual Experience | \$ 608,891 | \$ 417,601 | \$ 1,026,492 |
| Changes of Assumptions | 196,182 | 1,732,228 | 1,928,410 |
| Changes in Proportionate Share and | | | |
| Differences in Contributions | 9,541 | 102,135 | 111,676 |
| Total Deferred Inflows of Resources | \$ 814,614 | \$ 2,251,964 | \$ 3,066,578 |

\$40,999 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction/addition of the net OPEB liability in 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ending December 31: | OPERS | | OP&F | | Total | |
|--------------------------|-----------------|----|-----------|----|-----------|--|
| 2024 | \$ 859,317 | \$ | (4,141) | \$ | 855,176 | |
| 2025 | 1,774,056 | | 11,890 | | 1,785,946 | |
| 2026 | 1,511,757 | | (75,969) | | 1,435,788 | |
| 2027 | 2,341,980 | | (36,948) | | 2,305,032 | |
| 2028 | - | | (165,271) | | (165,271) | |
| Thereafter | - | | (373,641) | | (373,641) | |
| Total | \$ 6,487,110 | \$ | (644,080) | \$ | 5,843,030 | |

Actuarial Assumptions – OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members. The total OPEB liability was determined by an actuarial valuation as of December 31, 2021, rolled forward to the measurement date of December 31, 2022.

The actuarial valuation used the following key actuarial assumptions and methods applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

| | December 31, 2022 | December 31, 2021 | | |
|-----------------------------|--------------------------------|--------------------------------|--|--|
| Wage Inflation | 2.75 percent | 2.75 percent | | |
| Projected Salary Increases, | 2.75 to 10.75 percent | 2.75 to 10.75 percent | | |
| | including wage inflation | including wage inflation | | |
| Single Discount Rate | 5.22 percent | 6.00 percent | | |
| Investment Rate of Return | 6.00 percent | 6.00 percent | | |
| Municipal Bond Rate | 4.05 percent | 1.84 percent | | |
| Health Care Cost Trend Rate | 5.50 percent, initial | 5.50 percent, initial | | |
| | 3.50 percent, ultimate in 2036 | 3.50 percent, ultimate in 2034 | | |
| Actuarial Cost Method | Individual Entry Age | Individual Entry Age | | |

Pre-retirement mortality rates are based on 130 percent of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions. Post-retirement mortality rates are based on 115 percent of the PubG-2010 Retiree Mortality Tables (males and females). Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females). For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five-year period ended December 31, 2020.

During 2022, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for eligible members. Within the Health Care portfolio, if any contributions are made into the plans, the contributions are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made. Health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was a loss of 15.6 percent for 2022.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric rates of return were provided by the Board's investment consultant.

For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2022, these best estimates are summarized in the following table:

| | | Weighted Average |
|------------------------------|------------|---------------------|
| | | Long-Term Expected |
| | Target | Real Rate of Return |
| Asset Class | Allocation | (Geometric) |
| Fixed Income | 34.00% | 2.56% |
| Domestic Equities | 26.00 | 4.60 |
| Real Estate Investment Trust | 7.00 | 4.70 |
| International Equities | 25.00 | 5.51 |
| Risk Parity | 2.00 | 4.37 |
| Other Investments | 6.00 | 1.84 |
| Total | 100.00% | |

Discount Rate A single discount rate of 5.22 percent was used to measure the OPEB liability on the measurement date of December 31, 2022; however, the single discount rate used at the beginning of the year was 6 percent. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.00 percent and a municipal bond rate of 4.05 percent (Fidelity Index's "20-Year Municipal GO AA Index"). The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2054. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2054, and the municipal bond rate was applied to all health care costs after that date.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate The following table presents the City's proportionate share of the net OPEB liability calculated using the single discount rate of 5.22 percent, as well as what the City's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (4.22 percent) or one-percentage-point higher (6.22 percent) than the current rate:

| | Current | | | | | |
|-----------------------------------|---------|------------|----|-------------|----|-------------|
| | 1 | % Decrease | Di | scount Rate | 1 | % Increase |
| City's Proportionate Share of the | | | | | | |
| Net OPEB Liability (Asset) | \$ | 8,308,174 | \$ | 2,441,036 | \$ | (2,400,311) |

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability or asset. The following table presents the net liability or asset calculated using the assumed trend rates, and the expected net OPEB liability or asset if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2023 is 5.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

| | | Current | | | | |
|-----------------------------------|----|------------|----|------------|----|------------|
| | 19 | % Decrease | 7 | Trend Rate | 1 | % Increase |
| City's Proportionate Share of the | | | | | | |
| Net OPEB Liability | \$ | 2,288,039 | \$ | 2,441,036 | \$ | 2,613,242 |

Actuarial Assumptions – OP&F

OP&F's total OPEB liability as of December 31, 2022, is based on the results of an actuarial valuation date of January 1, 2022, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, are presented below.

Valuation Date January 1, 2022, with Actuarial Liabilities

Rolled Forward to December 31, 2022

Actuarial Cost Method Entry Age Normal Investment Rate of Return 7.50 Percent

Projected Salary Increases 3.75 Percent to 10.50 Percent

Payroll Growth 3.25 Percent

Blended Discount Rate:

Current Measurement Date 4.27 Percent Prior Measurement Date 2.84 Percent

Cost of Living Adjustments 2.20 Percent Simple per Year

Projected Depletion Year of

OPEB Assets 2036

For 2022, mortality for service retirees is based on the Pub-2010 Below-Median Safety Amount-Weighted Healthy Retiree mortality table with rates adjusted by 96.2 percent for males and 98.7 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, mortality for disabled retirees is based on the Pub-2010 Safety Amount-Weighted Disabled Retiree mortality table with rates adjusted by 135 percent for males and 97.9 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, mortality for contingent annuitants is based on the Pub- 2010 Below-Median Safety Amount-Weighted Contingent Annuitant Retiree mortality table with rates adjusted by 108.9 percent for males and 131 percent for females. All rates are projected using the MP-2021 Improvement Scale.

For 2022, mortality for active members is based on the Pub-2010 Below-Median Safety Amount-Weighted Employee mortality table. All rates are projected using the MP- 2021 Improvement Scale.

For 2021, mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

| Age | Police | Fire |
|------------|--------|------|
| 67 or less | 77 % | 68 % |
| 68-77 | 105 | 87 |
| 78 and up | 115 | 120 |

For 2021, mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

| Age | Police | Fire |
|------------|--------|------|
| 59 or less | 35 % | 35 % |
| 60-69 | 60 | 45 |
| 70-79 | 75 | 70 |
| 80 and up | 100 | 90 |

The most recent experience study was completed for the five-year period ended December 31, 2021.

The long-term expected rate of return on OPEB plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expected. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes.

Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2022, are summarized below:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|---------------------------------|----------------------|---|
| | | |
| Domestic Equity | 18.60 % | 4.80 % |
| Non-US Equity | 12.40 | 5.50 |
| Private Markets | 10.00 | 7.90 |
| Core Fixed Income * | 25.00 | 2.50 |
| High Yield Fixed Income | 7.00 | 4.40 |
| Private Credit | 5.00 | 5.90 |
| U.S. Inflation Linked Bonds* | 15.00 | 2.00 |
| Midstream Energy Infrastructure | 5.00 | 5.90 |
| Real Assets | 8.00 | 5.90 |
| Gold | 5.00 | 3.60 |
| Private Real Estate | 12.00 | 5.30 |
| Commodities | 2.00 | 3.60 |
| | | |
| Total | 125.00 % | |

Note: Assumptions are geometric.

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on the relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

^{*} levered 2.5x

Discount Rate For 2022, the total OPEB liability was calculated using the discount rate of 4.27 percent. For 2021, the total OPEB liability was calculated using the discount rate of 2.84 percent. The projection of cash flows used to determine the discount rate assumed the contribution from employers and from members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return of 7.5 percent. Based on those assumptions, OP&F's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, for 2022, the long-term assumed rate of return on investments of 7.50 percent was applied to periods before December 31, 2035, and the Municipal Bond Index Rate of 3.65 percent was applied to periods on and after December 31, 2035, resulting in a discount rate of 4.27 percent. For 2021, a municipal bond rate of 2.05 percent at December 31, 2021, was blended with the long-term rate of 7.5 which resulted in a blended discount rate of 2.84. The municipal bond rate was determined using the Bond Buyers General Obligation 20-year Municipal Bond Index Rate.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate Net OPEB liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net OPEB liability calculated using the discount rate of 4.27 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.27 percent), or one percentage point higher (5.27 percent) than the current rate.

| | Current | | | | | |
|-----------------------------------|---------|------------|----|-------------|----|------------|
| | 19 | 6 Decrease | Di | scount Rate | 1 | % Increase |
| City's Proportionate Share of the | | | | | | |
| Net OPEB Liability | \$ | 2,607,936 | \$ | 2,117,853 | \$ | 1,704,096 |

NOTE 10 - OTHER EMPLOYEE BENEFITS

Compensated Absences

Accumulated Unpaid Vacation and Compensatory Time

Each bargaining unit and the management staff earn vacation at different rates, which are based upon length of service. Vacation accumulation is limited to two and three years, respectively. Any unused excess is eliminated from the employee's leave balance. In the case of death, termination, or retirement an employee (or his estate) is paid for his unused vacation to a maximum of the above limitations. The total obligation for vacation and compensatory time accrual for the City and Hospital amounted to \$5,123,732 at December 31, 2023.

Accumulated Unpaid Sick Leave

Each bargaining unit and the management staff earn sick leave at different rates. Employees in police and fire bargaining units with at least 10 years' service upon retirement are paid for 33 percent (City) and 25 percent (Hospital, City management and WEA) of their accumulated sick leave, not to exceed various ceilings depending on bargaining unit or management staff status. This obligation amounted to \$4,149,795 for the City and Hospital at December 31, 2023, for those employees who are eligible, or are expected to become eligible, to retire with at least 10 years of service at retirement. Employees are expected to become eligible after 7 or 10 years of service depending on bargaining unit. Employees are expected to become eligible after 7 or 10 years of service depending on bargaining unit, the City's portion is \$1,423,123.

NOTE 11 - OTHER COMMITMENTS

City Construction Commitments

<u>Fire Station #1 Renovations:</u> Designed by Mull & Weithman, this bid was awarded to Adena Corporation at a winning price of \$5,091,300. Construction began in 2023 and is expected to be complete in late 2024.

Oak Hill Road Sanitary Sewer Extension: Bid in June of 2022 by Wenger Excavating at a price of \$1,759,779, this project is expected to be complete in early 2024.

Melrose Lift Station Improvements: Bid in February 2023 by Bogner Construction Company, at \$392,729, this project is expected to be complete in November 2024.

Wooster Community Hospital Construction Commitments

<u>Patient Access & Emergency Center</u>: Bid in July 2023 by the Ruhlin Company, at \$28,679,000 (including guaranteed maximum price amendment #4 dated April 2024) this project is expected to be completed February 2026.

<u>Endo Expansion:</u> Bid in January 2022 by Rycon Construction, at a price of \$2,257,000, this project is expected to be completed June 2024.

Wound Center Relocation: Bid in December 2022 by Simonson Construction, at a price of \$1,100,000, this project is expected to be completed July 2024.

Encumbrances

The City utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed or assigned classifications of fund balance. At year end, the City's commitments for encumbrances in the governmental funds were as follows:

| Fund | Amount | | |
|--------------------------|---------------|--|--|
| General | \$ 2,825,988 | | |
| Capital Improvement Fund | 7,534,927 | | |
| Other Governmental | 638,812 | | |
| | \$ 10,999,727 | | |

Contractual commitments identified above may or may not be included in the outstanding encumbrance commitments previously disclosed in this note. Reasons for this may include timing of when contracts are encumbered and contracts paid from enterprise funds, which are not required to disclose encumbrance commitments.

NOTE 12 - CONTINGENCIES

Enterprise and Special Assessment Bonded Debt

Certain general obligation bonds are being retired by use of revenues generated by the General, Street Maintenance, Street Permissive Tax, Capital Projects, Water, Water Pollution Control, Storm Drainage, and Special Assessment Debt Service Funds. These bonds are general obligation issues backed by the full faith and credit of the City. Management does not foresee any circumstance that would change the current source of funding for these obligations.

Litigation

During 2023 the City carried a policy of general liability coverage as a member of the Ohio Plan. The maximum exposure to the City is a deductible of \$25,000 per case for the defense of claims which fall within the scope of the policy.

The City is occasionally named as a defendant in foreclosure actions, usually as a result of either unpaid utility charges (water, sewer, storm water) that have been certified to the county auditor as liens on the tax duplicate, or mortgages that are issued in connection with the loan of governmental Community Housing Improvement Program ("CHIP") funds. In the case of unpaid utility charges the amounts are frequently recovered in the foreclosure process. In the case of CHIP funds the loss, if any, involves grant monies from the state or federal government, and not from local sources. In either event, it is not anticipated that such cases will have a material adverse impact on City finances.

In all such cases the claims will be vigorously defended. It is not anticipated that any of cases will have a material adverse impact on the finances of the City or the Wooster Community Hospital.

Settlement Monies

Ohio has reached settlement agreements with various distributors of opioids, which are subject to the OneOhio memorandum of understanding. The original settlement was reached in 2021 with annual payments anticipated through 2038. For 2023, distributions of \$119,780 are in the OneOhio Opioid Settlement Special Revenue Fund.

Contingencies under Grant Provisions

The City participates in several federally assisted programs and is a recipient of several grants. These programs and grants are subject to financial and compliance audits by the grantors or their representatives. As of December 31, 2023, the audits of these grants and programs were not complete through 2023. On February 2, 2024 a monitoring review was conducted on the City's prior year 2020 Ohio State-administered Community Development Block Grant Allocation Program. No findings or advisories were issued. The City's compliance with applicable requirements has been established. The City does not expect any disallowance of other grant expenditures.

Other Contingencies

Wayne Metropolitan Housing Authority (WMHA) and Community Crossroads, Incorporated collectively manage fifteen properties to be made available to low and moderate income housing under grant provisions approved by the Secretary of Housing and Urban Development (HUD). Thirteen properties are owned and managed by WMHA and two are owned and managed by Community Crossroads, Incorporated. The property deeds carry the restriction that the properties must be used for the intended purpose (low and moderate income housing). If the properties are no longer used for the intended purpose, the properties will be transferred back to the City or such other agency as the City determines.

NOTE 13 - CONDUIT DEBT OBLIGATIONS

From time to time, the City has issued certain limited-obligation revenue bonds on behalf of private sector and nonprofit entities for the acquisition and construction of facilities deemed to be in the public interest. The bonds are secured by the property and revenues of those entities, and are payable solely from the resources of those entities. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of December 31, 2023, there was one series of Health Care Facilities Revenue Bonds, Series 2019, outstanding with a principal amount payable of \$19,227,255.

NOTE 14 - RISK MANAGEMENT

Risk Pool Membership

The City belongs to the Ohio Plan Risk Management, Inc. (the "Plan"), a non-assessable, unincorporated non-profit association providing a formalized, jointly administered risk management program and other administrative services to over 773 Ohio governments ("Members"). The Plan is legally separate from its member governments.

Pursuant to Section 2744.081 of the Ohio Revised Code, the Plan is a separate legal entity. The Plan provides property, liability, errors and omissions, law enforcement, automobile, excess liability, crime, surety and bond, inland marine and other coverages, modified for each Member's needs. The Plan pays judgments, settlements and other expenses resulting from covered claims that exceed the Member's deductible.

The Plan issues its own policies and reinsures the Plan with A- VII or better rated carriers, except for the casualty and the property portions the Plan retains. The Plan retains the first \$250,000 of casualty losses and the first \$200,000 of property losses. Individual Members are only responsible for their self-retention (deductible) amounts, which vary from member to member.

Plan members are responsible to notify the Plan of their intent to renew coverage by their renewal date. If a member chooses not to renew with the Plan, they have no other financial obligation to the Plan, but still need to promptly notify the Plan of any potential claims occurring during their membership period. The former member's covered claims, which occurred during their membership period, remain the responsibility of the Plan.

Settlement amounts did not exceed insurance coverage for the past three fiscal years. The Plan's audited financial statements conform with generally accepted accounting principles, and reported the following assets, liabilities and retained earnings at December 31, 2022 and 2021 (the latest information available):

| | 2022 | 2021 |
|-----------------|------------------|------------------|
| Assets | \$ 21,662,291 | \$ 21,777,439 |
| Liabilities | (18,158,351) | (15,037,383) |
| Members' Equity | \$ 3,503,940 | \$ 6,740,056 |
| | | |

You can read the complete audited financial statements for The Ohio Plan Risk Management at the Plan's website, www.ohioplan.org.

Buckeye Ohio Risk Management Association

The Buckeye Ohio Risk Management Association Pool, Inc. (BORMA) Benefits Pool (the Pool) is for employee benefits and includes life insurance, accidental death and dismemberment insurance, health insurance, and prescription drug insurance. Plan options and levels of coverage are established independently by each Pool member for its employees. Premiums paid into the Pool by each member are based on the level of coverage within each respective plan. The Pool includes fourteen public entities in the State of Ohio. Member contributions are calculated annually to produce a sufficient sum of money within the Pool to fund administrative expenses and to create reserves for claims.

As of November 30, 2023, the Pool had total reported assets of \$6,491,886. The 2023 monthly premiums paid by the City including employee and employer portions per covered employee for Standard Plan 1 were \$2,540 for family coverage, \$1,720 for two party coverage with spouse, \$1,475 for two-party coverage with child/children, and \$819 for single coverage. The 2023 monthly premiums paid by the City including employee and employer portions per covered employee for Standard Plan 3 were \$2,417 for family coverage, \$1,637 for two party coverage with spouse, \$1,403 for two-party coverage with child/children, and \$780 for single coverage. The cost of coverage for premiums is paid out of each respective fund and division that pays the salary of the individuals covered under the plan. Employees contribute a portion of each monthly premium through payroll withholding. During 2023, the City paid \$4,580,028 into the Pool for all covered benefits. The amount of risk retained by the Pool in 2023 was \$325,000 per individual; coverage in excess of this amount was provided by Optum.

BORMA Benefits Pool has the ability to require member entities to make supplemental payments in the event reserves are not adequate to cover claims. The probability of this occurring is considered remote due to the adequacy of the reserves and premium levels. Therefore, no additional amounts have been disclosed in the basic financial statements. Audited financial statements are maintained by the pool.

Self-Insured Health Care

Hospital employees are provided traditional health care insurance that covers hospitalization and major medical expenses within specified limits. The plan is self-funded by the Hospital and administered by a third-party administrator. The Hospital pays the administrator a monthly fixed fee for various claim administration services on a per enrolled employee basis.

The Hospital pays all claims. The third-party administrator submits weekly funding requests for all processed claims. The Hospital issues payment to the plan administrator who in turn issues individual claim checks. The Hospital carries stop-loss insurance against catastrophic losses. The premiums for these policies are billed monthly by the third-party administrator on a per enrolled employee basis. Third party administrators estimated the claims liability reported in the fund at December 31, 2023. It is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported.

As of December 31, 2023, the outstanding claims liability was \$2,121,896 of which is attributed to the Hospital.

Changes in the fund's claims liability amounts 2022 to 2023 are:

| | 2022 | 2023 |
|------------------------------|-----------------|------------------|
| Balance at beginning of year | \$ 1,964,234 | \$ 2,544,730 |
| Current year claims | 12,161,794 | 12,873,893 |
| Claim payments | (11,581,298) | (13,296,727) |
| Balance at end of year | \$ 2,544,730 | \$ 2,121,896 |

NOTE 15 – LONG-TERM LIABILITIES

Governmental Activities

The internal service funds predominantly serves the governmental funds. Accordingly, long-term liabilities for compensated absences related to internal services are included in governmental activities.

All special assessment debt is paid through the Debt Service Fund. In the event and to the extent that special assessments are not collected and to pay the debt charges on the bonds representing the City portion, there shall be levied on all the taxable property in the City, in addition to all other taxes, a direct tax annually during the period the bonds are outstanding in an amount sufficient to pay the principal and interest on the bonds when due. The remaining general portion of bonds and notes are liquidated by General, Special Revenue, and Capital Project fund types.

There are no repayment schedules for the net pension liability and net OPEB liability; however, employer pension and OPEB contributions are primarily made from the general fund, Wooster Community Hospital, water, water pollution control and storm drainage. For additional information related to net pension liability and net OPEB liability see Notes 8 and 9.

Compensated Absences

For all employees, except for those that have separated employment as of December 31, 2023, the estimated sick leave payable upon termination is recorded as a long term liability. Compensated absences are reported as a governmental fund liability only if they have matured. Compensated absences are considered to be mature when an employee retires prior to the end of the fiscal period but has not yet been paid for accumulated leave balances as of year-end. Vacation accrual in excess of one year is also considered a long-term liability. The General fund, Permissive Tax fund, and Street Construction Maintenance and Repair fund have been used to liquidate compensated absences of governmental activities in the past.

Debt Service Requirements to Maturity

Principal and interest requirements to retire the City's long-term obligations are as follows:

General Obligations Bonds

General obligations bonds are direct obligations of the City for which its full faith and credit are pledged for repayment. The general obligation bonds will be retired from the general fund and sewer fund. The general obligation bonds outstanding as of December 31, 2023 are to be repaid from both voted and unvoted property taxes levied on all taxable property located within the City, municipal income taxes, and transfers from the sewer fund for exempt properties. Exempt properties include organizations exempt from taxation, such as colleges and churches, as well as property outside the City's jurisdiction who are provided water services from the City. The City assesses these exempt properties through a surcharge on their water bills to pay for the debt. The premium of issuance on these bonds were insignificant amounts that have been recognized in the year of issuance and will not be amortized.

2010 Various Purpose Refunding Bonds

In October 2010, the City issued \$7,975,000 general obligation bonds, \$2,625,000 of which were issued to partially refund \$2,595,000 (\$1,185,000 within enterprise funds and \$1,410,000 within governmental funds) of outstanding general obligation bonds and finance issuance costs. The balance was used to retire outstanding bond anticipation notes. \$2,625,000 of these bonds were issued for an eight year period and matured December 1, 2018. The remaining \$5,350,000 matures December 1, 2030. At the date of the refunding, \$2,645,946 (\$1,208,259 within enterprise funds and \$1,437,687 within governmental funds) was deposited in an irrevocable trust to provide for all future payments on the partially refunded bonds. A portion of the 2010 refunding bond was matured in 2020 with a new refunding bond.

The premium of issuance on these refunded bonds were insignificant amounts that have been recognized in the year of issuance and will not be amortized. The issuance resulted in a difference between the reacquisition price and the carrying amount of the old debt was immaterial and expensed in the year of the refunding. The issuance resulted in an economic gain of \$181,542.

2020 Various Purpose Improvement and Refunding Bonds

In June 2020, the City issued \$14,895,000 general obligation bonds, \$12,870,000 of which were issued to partially refund \$9,715,000 (\$7,465,000 within enterprise funds and \$5,805,000 within governmental funds) of outstanding general obligation bonds and finance issuance costs. The net present value benefit to the City was \$1,232,461. Included were various improvement bonds for streets, park and a parking lot of \$2,025,000.

The premium of issuance on these refunded bonds were insignificant amounts that have been recognized in the year of issuance and will not be amortized. The issuance resulted in a difference between the reacquisition price and the carrying amount of the old debt was \$39,844, which was expensed in the year of the refunding.

2023 Various Purpose Improvement Bonds

In June 2023 the City issued general obligation bonds for fire station and sewer improvements. The bonds maturing on or after December 1, 2048, are subject to optional redemption by the City beginning December 1, 2024. Term bonds are subject to mandatory sinking fund redemption at a redemption price equal to 100 percent of the principal amount redeemed plus interest accrued to the redemption date.

The premium of issuance on these bonds were insignificant amounts that have been recognized in the year of issuance and will not be amortized.

OPWC

In the event of default, as defined by each OPWC loan agreement, the amount of default will be subject to 8 percent interest on all amounts due from date of default. Additionally, the Lender may declare all amounts immediately due and payable or direct Wayne County to pay the amount of any default from the funds which would otherwise be appropriated to the City from the County's undivided local government fund. The lender will also be entitled to collect any cost incurred in the event of default.

OWDA

In the event of default, as defined by each OWDA loan agreement, the lender may declare the full amount of the unpaid Project Participation Principal amount immediately due and payable and require the County to pay any fines or penalties incurred with interest.

Improvement Loan - Bloomington

In February 2021, the Hospital entered into a loan agreement with 3M Associates for renovations. This loan matured during 2023.

Notes Payable

In 2023, the City issued \$4,750,000 in various purpose improvement notes in anticipation of bonds, for the purpose of paying the property owners' portion of special assessments for improving City streets, and expanding the sanitary sewerage system, at an interest rate of 4.5 percent. These notes mature June 2024; however, the City secured financing to fund the entire amount of the outstanding notes. (See Note 17)

Subscription Liability

The City has outstanding subscription-based information technology arrangements. Due to the implementation of GASB 96, existing prior year subscription-based information technology arrangements have met the criteria of subscription liabilities thus requiring them to be recorded by the City. The future subscription payments were discounted based on the interest rate implicit in the lease or by using the City's incremental borrowing rate. This discount is being amortized using the straight-line method over the life of the arrangements.

NOTE 16 – FUND BALANCE

Fund balance can be classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in governmental funds.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented as follows:

| | General Fund | Capital provement Fund | Go | Other Governmental Funds | | Total |
|--|---------------------|------------------------------|----|--------------------------------|----|------------|
| Nonspendable for: | | | | | | |
| Inventory | \$ 69,198 | \$ - | \$ | 227,612 | \$ | 296,810 |
| Advances to Other Funds | 223,000 | | | | | 223,000 |
| Total Nonspendable | 292,198 | - | | 227,612 | | 519,810 |
| Restricted for: | | | | | | |
| Street Construction Maintenance and Repair | - | - | | 436,673 | | 436,673 |
| State Highway | - | - | | 66,838 | | 66,838 |
| Permissive Tax | - | - | | 289,023 | | 289,023 |
| Debt Service | - | - | | 1,103,579 | | 1,103,579 |
| Capital Projects | - | 6,940,190 | | - | | 6,940,190 |
| Other Purposes | | | | 357,439 | | 357,439 |
| Total Restricted | - | 6,940,190 | | 2,253,552 | | 9,193,742 |
| Committed to: | | | | | | |
| Economic Development | - | - | | 130,816 | | 130,816 |
| Capital Projects | 286,270 | | | | | 286,270 |
| Total Committed | 286,270 | - | | 130,816 | | 417,086 |
| Assigned for: | | | | | | |
| Safety | 2,120,309 | - | | - | | 2,120,309 |
| Leisure Services | 89,531 | - | | - | | 89,531 |
| Environment and Development | 15,300 | - | | - | | 15,300 |
| Transportation Services | 92,355 | - | | - | | 92,355 |
| Administrative Services | 508,493 | - | | - | | 508,493 |
| Subsequent Year Appropriations | 1,206,198 | | | | | 1,206,198 |
| Total Assigned | 4,032,186 | - | | - | | 4,032,186 |
| Unassigned (Deficit) | 20,950,820 | _ | | (582,690) | | 20,368,130 |
| Total Fund Balance | \$ 25,561,474 | \$ 6,940,190 | \$ | 2,029,290 | \$ | 34,530,954 |
| | | | | | | |

As of December 31, 2023, the community development block grant had a deficit fund balance of \$582,690.

Deficits in the proprietary funds are as follows:

Business Type Activities

Refuse \$ 34,337

Internal Service Fund:

Municipal Garage Fund \$ 353,082

These deficits were caused by the application of generally accepted accounting principles. The general fund provides transfers to cover deficit balances in other funds; however, this is done when cash is needed rather than when accruals occur.

NOTE 17 – SUBSEQUENT EVENT

On June 6, 2024, the City issued General Obligation Bonds for \$17,710,000 at 4.069 percent to pay off outstanding bond anticipation notes of \$4,750,000 maturing June 7, 2024, and for street and wastewater treatment plant improvements.

CITY OF WOOSTER WAYNE COUNTY, OHIO NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED DECEMBER 31, 2023

NOTE 1 - NET PENSION LIABILITY

Changes in Assumptions – OPERS

Amounts reported beginning in 2022 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in prior years are presented below:

| | 2022 | 2019 | 2018 and 2017 | 2016 and prior |
|-------------------------------|-----------------|-------------------|-----------------|-----------------|
| Wage Inflation | 2.75% | 3.25% | 2.75% | 2.75% |
| Future Salary Increases, | | | | |
| including wage inflation | 2.75% to 10.75% | 3.25% to $10.75%$ | 3.25% to 10.75% | 4.25% to 10.05% |
| COLA or Ad Hoc COLA: | | | | |
| Pre-January 7, 2013 Retirees | 3.00%, simple | 3.00%, simple | 3.00%, simple | 3.00%, simple |
| Post-January 7, 2013 Retirees | see below | see below | see below | see below |
| Investment Rate of Return | 6.90% | 7.20% | 7.50% | 8.00% |
| Actuarial Cost Method | Individual | Individual | Individual | Individual |
| | Entry Age | Entry Age | Entry Age | Entry Age |

The assumptions related to COLA or Ad Hoc COLA for Post-January 7, 2013, retirees are as follows:

| 2022 | 3.00%, simple through 2022, |
|----------------|-----------------------------|
| | then 2.05%, simple |
| 2021 | 0.50%, simple through 2021, |
| | then 2.15%, simple |
| 2020 | 1.40%, simple through 2020, |
| | then 2.15%, simple |
| 2017 - 2019 | 3.00%, simple through 2018, |
| | then 2.15%, simple |
| 2016 and prior | 3.00%, simple through 2018, |
| | then 2.80%, simple |
| | 5.50% to 5.00% |

Changes in Benefit Terms - OPERS

There were no significant changes in benefit terms.

Changes in Assumptions – OP&F

For 2022, the single discount rate changed from 8.00 percent to 7.50 percent.

For 2018, the single discount rate changed from 8.25 percent to 8.00 percent.

Changes in Benefit Terms - OP&F

There were no significant changes in benefit terms.

CITY OF WOOSTER WAYNE COUNTY, OHIO NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED DECEMBER 31, 2023

NOTE 2 - NET OPEB LIABILITY (ASSET)

Changes in Assumptions - OPERS

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented as follows:

| Assumption | <u>2023</u> | <u>2022</u> | <u>2021</u> | <u>2020</u> | <u>2019</u> | <u>2018</u> |
|-----------------------------|-------------|-------------|-------------|-------------|-------------|-------------|
| Wage Inflation | 2.75% | 2.75% | 3.25% | 3.25% | 3.25% | 3.25% |
| Discount Rate | 5.22% | 6.00% | 6.00% | 3.16% | 3.96% | 3.85% |
| Municipal Bond Rate | 4.05% | 1.84% | 2.00% | 2.75% | 3.71% | 3.31% |
| Health Care Cost Trend Rate | 5.50% | 5.50% | 8.50% | 10.50% | 10.00% | 7.50% |

For calendar year 2019, the investment rate of return decreased from 6.50 percent to 6.00 percent.

Changes in Benefit Terms – OPERS

On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in 2021.

Changes in Assumptions – OP&F

Amounts reported incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented as follows:

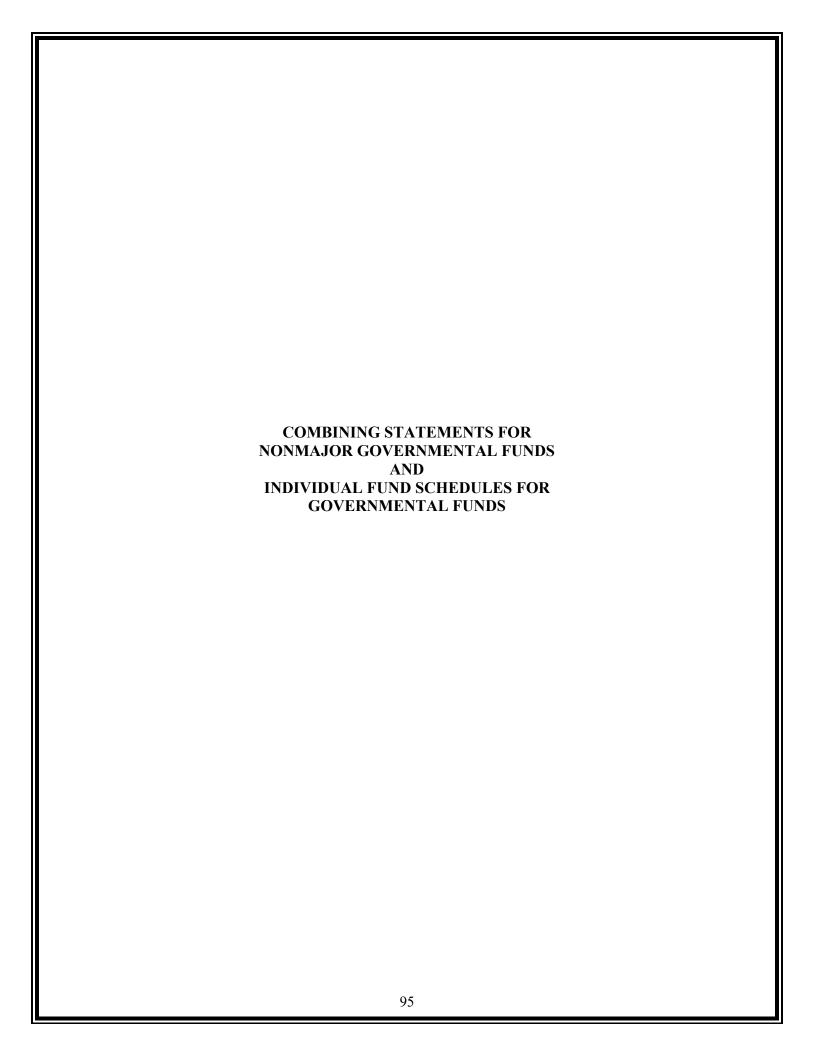

| Assumption | <u>2023</u> | <u> 2022</u> | <u>2021</u> | <u>2020</u> | <u>2019</u> | <u>2018</u> |
|-----------------------|-------------|--------------|-------------|-------------|-------------|-------------|
| Blended Discount Rate | 4.27% | 2.84% | 2.96% | 3.56% | 4.66% | 3.24% |
| Municipal Bond Rate | 3.65% | 2.05% | 2.12% | 2.75% | 4.13% | 3.16% |

Changes in Benefit Terms - OP&F

Beginning January 1, 2019 OP&F changed its retiree health care model to a stipend-based health care model. A stipend funded by OP&F will be placed in individual Health Reimbursement Accounts that retirees will use to be reimbursed for health care expenses.

NONMAJOR SPECIAL REVENUE FUNDS

Special revenue funds are used to account for the proceeds of specific revenue sources (other than debt service or capital project funds) legally restricted or committed to expenditure for specified purposes.

STREET CONSTRUCTION MAINTENANCE AND REPAIR – Required by the Ohio Revised Code to account for that portion of the state gasoline tax and motor vehicle registration fees restricted for maintenance of streets within the City.

STATE HIGHWAY – This fund is required by the Ohio Revised Code to account for that portion of the state gasoline tax and motor vehicle registration fees which are to be used for maintenance of state highways within the City.

PERMISSIVE TAX – This fund is required by the Ohio Revised Code to account for that portion of motor vehicle registration fees allocated to assist in maintaining those city streets designated as contributing to the effective and efficient flow of traffic through and within the county.

ENFORCEMENT AND EDUCATION – This fund accounts for monies from the Municipal Court used to enforce drunk driving laws and related educational programs.

MANDATORY DRUG FINES - This fund is used to account for monies from the Municipal Court allocated to subsidize each agency's law enforcement efforts that pertain to drug offenses.

COMMUNITY DEVELOPMENT BLOCK GRANT— This fund is used to account for monies received from the federal government under the Community Development Block Grant program for providing decent housing and a suitable living environment, and expanded economic opportunities principally for persons of low and moderate income and the allowable administrative costs associated with those projects.

ECONOMIC DEVELOPMENT (Hotel Tax) – This fund is used to account for the portion of the transient occupancy tax to be used for promoting economic development within the City.

LAW ENFORCEMENT TRUST – This fund is used to account for receipts and expenditures of funds from sale of contraband. These funds can only be expended to pay the costs of protracted or complex investigations or prosecutions, to provide reasonable technical training or expertise, to provide matching funds to obtain federal grants to aid law enforcement, or for such other law enforcement purposes that Council determines to be appropriate.

POLICE PENSION – This fund is used to accumulate property taxes levied for the partial payment of the current and accrued liability for police disability and pension. Amounts collected for the police disability and pension are periodically remitted to the State operated Police and Firemen's Disability and Pension Fund.

FIRE PENSION – This fund is used to accumulate property taxes levied for the partial payment of the current and accrued liability for firemen's disability and pension. Amounts collected for the firemen's disability and pension are periodically remitted to the State operated Police and Firemen's Disability and Pension Fund.

FEDERAL EQUITABLE SHARING – This fund is used to account for the City's portion of federally forfeited property resulting from the Wooster Police Department's participation with a federal agency, which resulted in forfeiture of property.

CDBG CHIP HOME REVOLVING LOAN – This fund is used to account for the loans, repayments, and subsequent loans provided for economic development purposes and downtown revitalization.

ECONOMIC/DOWNTOWN LOAN – This fund is used to account for the loans, repayments, and subsequent loans provided for economic development purposes and downtown revitalization.

LAW ENFORCEMENT PROFESSIONAL TRAINING – This fund accounts for the receipt and disbursement of funds for continuing professional education for the Police Division, which participates in the state law enforcement assistance fund.

LILLIAN LONG ESTATE – This fund is used to account for a bequest from the estate of Lillian Long for the purpose of acquiring additional land for use as a part of Wooster Memorial Park and/or making improvements to that park.

RECREATION SUPPLEMENT – This fund is used to account for financial donations from individuals and organizations that wish to specify that their gifts and donations support recreational opportunities for underprivileged youth in the community.

CHRISTMAS RUN PARK RESTORATION – This fund is used to collect donations intended for the restoration of Christmas Run Park necessitated by the damage done from the November 2003 tornado.

CARES ACT – To account for federal emergency relief grants related to the Coronavirus (COVID-19) pandemic.

ONEOHIO OPIOID SETTLEMENT – accounts for revenue and expenditures related to the OneOhio settlement with national opioid distributors.

AMERICAN RESCUE PLAN ACT – To provide eligible local governments with substantial infusion of resources to meet pandemic response needs and rebuild a stronger, and more equitable economy as the country recovers.

NONMAJOR DEBT SERVICE FUND

DEBT SERVICE – This fund is used to accumulate revenues collected by the County Treasurer and remitted to the City by the County Auditor for payment of special assessment principal and interest.

CUSTODIAL FUNDS

Custodial funds are used to account for assets held by the City in a custodial capacity or as an agent for individuals, private organizations, or other governmental units.

HOLDING ACCOUNT – This fund is used to hold monies received from insurance premiums or proceeds on behalf of non-employees.

WOOSTER GROWTH CORPORATION – This fund is used to account for revenues and expenditures of the City's community improvement corporation, Wooster Growth Corporation. The City serves as fiscal agent for the Corporation. The corporation's purpose is advancing, encouraging and promoting the industrial, economic, commercial and civic development of Wooster, Ohio.

WOOSTER-ASHLAND REGIONAL COUNCIL OF GOVERNMENTS – This fund is used to hold monies received from members for services provided by a joint dispatching service for police, fire, emergency medical services (EMS), and other related public safety services.

Note 1 - Maintenance and Engineering employees are allocated to transportation services, water,

water pollution control and storm drainage based on estimated time worked in that activity.

Note 2 - The City contracts with a private waste hauler for refuse collection and disposal and therefore there are no city employees for that service.
