The accompanying notes are an integral part of this schedule.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) FOR THE YEAR ENDED JUNE 30, 2023

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the Euclid City School District, Cuyahoga County, Ohio (the District) under programs of the federal government for the year ended June 30, 2023. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C - INDIRECT COST RATE

The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefited from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Euclid City School District Cuyahoga County 651 East 222nd Street Euclid, Ohio 44123

To the Board of Education:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Euclid City School District, Cuyahoga County, Ohio (the District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 27, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Efficient • Effective • Transparent

Euclid City School District
Cuyahoga County
Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Required by Government Auditing Standards
Page 2

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Euclid City School District Cuyahoga County 651 East 222nd Street Euclid, Ohio 44123

To the Board of Education:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Euclid City School District's, Cuyahoga County, Ohio (the District) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of Euclid City School District's major federal programs for the year ended June 30, 2023. Euclid City School District's major federal programs are identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings.

In our opinion, Euclid City School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Efficient • Effective • Transparent

Euclid City School District
Cuyahoga County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over Compliance
and on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance
Page 2

Responsibilities of Management for Compliance

The District's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design
 and perform audit procedures responsive to those risks. Such procedures include examining, on a
 test basis, evidence regarding the District's compliance with the compliance requirements referred
 to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report
 on internal control over compliance in accordance with the Uniform Guidance, but not for the
 purpose of expressing an opinion on the effectiveness of the District's internal control over
 compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Page 4

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Euclid City School District, Cuyahoga County, Ohio (the District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 27, 2023. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Members of the Board of Education and Residents of the Euclid City School District

Dear Board Members and Residents:

We are pleased to submit to you the Annual Comprehensive Financial Report of the Euclid City School District, Ohio. This Annual Comprehensive Financial Report, which includes an unmodified ("clean") opinion from the Auditor of the State of Ohio conforms to generally accepted accounting principles as applicable to governmental entities for the fiscal year ended June 30, 2023.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive frame-work of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Management's discussion and analysis (MD&A) immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A compliments this letter of transmittal and should be read in conjunction with it.

Profile of the School District

Euclid was officially settled in 1797 by eleven families. In 1830, the village meeting minutes indicated that a sum of \$300 was to be paid to the directors of the Euclid City School District. In 1868, a class of six high school pupils was organized. In 1895, the first high school building was erected. The first class graduated from that building in 1897. By 1896, the Euclid City School District was patterned after a School District plan dividing the City into eleven districts. The eleven districts were consolidated into five buildings. At the close of 1918, there were two high schools, Central and Shore.

During the peak enrollment years of the 1960's and 1970's, the School District maintained an enrollment of approximately 11,000 students, precipitating the need for additional buildings to be constructed. As enrollment declined during the 1980's by approximately 5,000 students, three elementary buildings and one junior high building were closed. Subsequent to that, the State of Ohio greatly expanded the Community School Program and the School Voucher Program which resulted in a decline in enrollment for the School District. For fiscal year 2023, the School District's enrollment stands at 4,547 (including preschool) while approximately 2,419 resident students either attend another public school district through open enrollment, community schools, participate in the Ohio Autism/Jon Peterson special needs scholarship, or use a state issued voucher to attend private/parochial schools. The School District currently consists of one high school, one middle school, four elementary schools, a Pre-K/Kindergarten School and an alternative school.

In, 2009, a \$40.3 million bond issue was approved by the voters to build four new elementary schools (replacing six elementary buildings). The School District received a 41 percent match from the State's Ohio Schools Facilities Commission. Those new buildings opened in the fall of 2012. This was the first of two segments of a plan to rebuild the entire School District. In 2016, a \$96.3 million bond issue was passed to complete the second phase, which included the rebuilding of the High School, a construction of a new middle school, a new preschool/kindergarten building and new athletic fields. Again, the States provided a 41 percent match to complete this second phase.

Statutorily, the School District operates under standards prescribed by the Ohio State Board of Education as provided in Division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code, to provide educational services authorized and mandated by State and/or Federal agencies.

The School District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34.* In evaluating how to define the School District for financial reporting purposes, management has considered all agencies, departments, and organizations making up the School District (the primary government) and its potential component units. Excluded from the reporting entity because they are fiscally independent of the School District are the City of Euclid, the Parent Teacher Organizations, Community Schools and the Parochial Schools. The School District is associated with two organizations, the Ohio Schools Council and the Euclid Public Library. The Ohio Schools' Council Association is a jointly governed organization whose relationship to the School District is described in Note 19 to the accompanying financial statements. The Euclid Public Library is a related organization and is described in Note 20 to the accompanying financial statements.

A complete discussion of the School District's reporting entity is provided in Note 1 to the basic financial statements.

The School District uses a team approach to meet today's educational challenges and to make school improvements a reality. This team consists of a five-member Board of Education which serves as the taxing authority, contracting body, and policy developers for the School District. The Board adopts the annual operating budget and approves all expenditures of the School District's monies. The administrative team consists of the Superintendent, who is the Chief Executive Officer of the School District and is responsible for providing educational and administrative management leadership for the total operation of the School District, and the Treasurer, who is the Chief Fiscal Officer of the School District and is responsible for maintaining records of all financial matters, issuing warrants and payment of liabilities incurred by the School District, and who also serves as the Chief Financial Officer of all School District funds and investments, as specified by law.

The remaining administrative team members appointed by the Superintendent/School Board include the following: Assistant Superintendent, Director of Business Operations, Director of Curriculum, Director of Student Services, Director of Human Resources, and Directory of Information Technology. The above six individuals, along with the Superintendent and the Treasurer, constitute the senior leadership team which meets to provide recommendations to the Superintendent and also provides problem-solving and policy implementing management to the School District.

Local Economy and Relevant Financial Policies

The School District has the same boundaries as the City of Euclid. The City is bounded on the west by the City of Cleveland, on the north by Lake Erie, and on the south and east by smaller cities.

The City of Euclid has experienced a deterioration of its commercial property tax base in the past couple of decades only to recover in the last few years. The School District's commercial and industrial real estate assessed valuation has only increased from \$191 million in tax year 1995 to \$196 million in tax year 2021. The total assessed valuation for all property was \$755 million in tax year 1995 compared to \$714 million in tax year 2021. The City of Euclid has enacted a number of programs, including tax incentive programs, to encourage business growth and development.

The City of Euclid was hit particularly hard during the recession of the late 2000's. The County's sexennial reappraisal in 2012 resulted in a loss of total assessed valuation from \$738 million in tax year 2011 to \$587 million in tax year 2012. After a long, slow recovery, the local real estate market and commercial development news has been encouraging. This was evident in the County's last sexennial reappraisal in 2018 which reflected a 15.9 percent increase in assessed valuations over tax year 2017. This increase was one of the largest increases within Cuyahoga County. Additionally, Amazon completed the construction of a 650,000 square foot fulfillment center, which has provided over 1,500 new jobs to the City and added value to the City's commercial tax base.

Of the School District's General Fund budgetary operations, 44 percent of the General Fund cash basis revenue is received from property taxes on residential, commercial, and industrial properties. Shared City income tax accounted for 9 percent. Approximately 42 percent is received from various forms of State aid. The balance represented Federal sources, tuition, interest earnings and miscellaneous receipts.

The State of Ohio's community school and voucher programs have had a negative effect on the School District's state revenues. Students who transfer to community schools or receive vouchers to attend private/parochial schools essentially take their state per pupil funding along with them to those schools.

The funding structure of public education in Ohio is such that school districts receive very little revenue growth as a result of inflationary increases in their tax base. This is a result of House Bill 920 which mandates that any reappraisal property increased results in an approximately equal value decrease in millage. As a result, school districts throughout Ohio must place operating funding issues on the ballot at regular intervals to keep pace with inflation and added programming.

The State of Ohio adopted its 2021/22-2022/23 biennial budget in the summer of 2021. This budget, created a new funding model named the Fair School Funding Plan. This model develops a base cost on a per pupil basis which incorporates four specific components of an adequate education. The current plan is to phase in complete funding over six years. The current budget increased the District's State funding by \$7.5 million between fiscal 2020/21 and 2022/23.

Financial Information

Internal Accounting and Budgetary Control

In developing the School District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes an automated accounting and payroll system as designed by third party vendors. An internal controls system for capital assets is provided by an outside company. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

Prior to the start of each fiscal year, the Board of Education adopts an appropriation measure for that fiscal year. The Board has the ability to adopt temporary appropriations prior to September 30th, if permanent appropriations are not yet available. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Fiscal Officer of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County's Fiscal Officer certifies that the Board of Education's appropriation measures, including any supplements or amendments do not exceed the amount set forth in the latest of those official estimates (See Note 2 for additional budgetary information).

Long-Term Financial Planning

The School District is the only school district in the State of Ohio with an enacted shared City/School income tax. The shared City income tax, enacted in 1994, is 0.85 percent City voted income tax of which 0.47 percent was for the School District and 0.38 percent for the City. The School District and City continue to be partners in redeveloping various industrial sites in the City of Euclid that are currently vacant and/or under-utilized.

In 2004, a 2.5 mill continuing permanent improvement levy was passed by the voters. These funds were intended to be used for costs associated with a School District wide reorganization, which included the reopening of two elementary schools, and ongoing capital improvements.

In November 2008, a ten-year \$5.6 million emergency levy was approved by the voters of the School District. At that time, approximately 6.9 mills was assessed beginning with the 2008 tax year (2009 collection year) and end with the 2017 tax year (2018 collection year). The renewal of this levy in 2018 was vital to the ongoing financial stability of the School District and meet the continued funding challenges created by H.B. 920. This renewal levy attempt failed in November 2018 and the revenue generated by the original levy ceased to be collected beginning in calendar year 2019. The full impact of that revenue loss was felt in fiscal year 2020.

In November 2012, a ten-year \$5.4 million emergency levy was approved by the voters of the School District. At that time, approximately 9.0 mills was assessed beginning with the 2012 tax year (2013 collection year) and end with the 2021 tax year (2022 collection year).

In November 2020, a ten-year \$5.6 million emergency levy was approved by the voters of the School District. At that time, approximately 8.7 mills was assessed beginning with the 2020 tax year (2021 collection year) and end with the 2029 tax year (2030 collection year). This levy is essentially a replacement to the original emergency levy that was not renewed back in November 2018. As mentioned previously, the local community's share of the School District's operating revenue is approximately 45 percent.

Due to the passage of this levy, increased State funding and the overall significant improvement in the District's financial position, the Board of Education allowed the \$5.4 million levy passed in 2012 to expire.

The School District has a comprehensive technology plan for moving into the twenty-first century. The School District is well known for accomplishments in the area of integrating technology into the instructional process. Both students and staff are supported by trained personnel whose main focus is technology support.

The School District is in the midst of finalizing the second and final phase of completely rebuilding its facilities. This was made possible by entering into agreements with the Ohio Facilities Commission and passage of two bond issues previously mentioned. Any long-range planning for the foreseeable future for facilities will focus on maintenance only.

Major Initiatives

In the fall of 2012, our School District established three clear, comprehensive goals that continue to guide our efforts:

- 1. Increase student achievement
- 2. Practice fiscal responsibility
- 3. Improve our credibility in the community

School District administrators craft all programs and initiatives within this framework and regularly report their specific efforts and progress.

In 2016-17, the Euclid City Schools achieved two milestones that will greatly shape the education we provide to our students for years to come. First, the voters of Euclid approved Issue 111 to fund a \$135 million construction project with three major foci:

- Conversion of the facility previously known as Forest Park Middle School to an Early Learning Village that became in the fall of 2019 the home for all School District Kindergarten and Pre-Kindergarten students.
- Construction of a secondary complex on the current Euclid High School campus. This complex will include a new middle school for all School District sixth through eighth grade students, renovations to the athletic and music wings of the current EHS, and construction of new classroom wings for ninth through twelfth grade students.

- Improvements to the School District's athletic facilities directly behind Memorial Park and adjacent to our secondary campus in Memorial Park. These improvements include conversion of the current high school stadium into a smaller facility for middle school athletics, and the construction of a new varsity football stadium.
- Additionally, funds were available at the end of the project to complete some renovations at the Memorial Education Options Center and the District's Administration Building.

In order to help students and educators recover from the coronavirus pandemic academic and socialemotional learning loss, two major initiatives in curriculum and instruction have been prioritized: High quality, consistent teacher training/professional development and a district-wide process for the adoption of high-quality materials.

Classroom learning time has been maximized in grades 1-3 by dividing full classes into two groups for the ELA block daily in grades 1-3 and math grades 4 and 5. The disruption of learning in the formative years of literacy instruction and a large amount of learning loss for grades four and five in math, support the basis for the grade levels and area selected for the program. The model will also allow teachers to receive consistent on-the-job training and professional development and training without requiring substitute teachers. Teachers have attended monthly training sessions conducted by the district literacy specialist in early literacy with district-purchased resources and materials. District-wide consistent selection of high-quality materials for ELA, math, science and teacher training and administrative training will continue.

Training for social-emotional learning for all staff started in the summer of 2021 and continued through the summer of 2022-23 for grades K-12 for all staff including administrators, teachers and support staff. The district has developed a district-wide curriculum adoption cycle process. The adoption process will include a district-wide materials review process with specific criteria including alignment to Ohio's Standards, rigor, assessment, online components/online text and follows a district-wide pilot of the programs.

The Strategic Planning committee members continue to meet to monitor progress toward our goals and ensure the implementation of action steps.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Euclid City School District for its annual comprehensive financial report for the fiscal year ended June 30, 2020. This was the fourth year that the government has achieved this prestigious award since last receiving the award in fiscal year 2010. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

Acknowledgements

The publication of this report maintains a high level of accountability of the School District to the taxpayers. This accomplishment would not have been possible without the support and efforts of the entire Treasurer's Office and various administrators and employees of the School District. Assistance of the County Fiscal Officer's staff and other outside agencies made possible the fair presentation of the statistical data.

Finally, sincere appreciation is extended to the Board of Education for its interest in and support of this project.

Respectfully submitted,

Stephen A. Vasek, Treasurer

Christopher Papouras, Superintendent

INDEPENDENT AUDITOR'S REPORT

Euclid City School District Cuyahoga County 651 East 222nd Street Euclid, Ohio 44123

To the Board of Education:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Euclid City School District, Cuyahoga County, Ohio (the District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Euclid City School District, Cuyahoga County, Ohio as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General and Elementary and Secondary School Emergency Fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Euclid City School District Cuyahoga County Independent Auditor's Report Page 2

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the District's ability to continue as a going concern for a reasonable
 period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Euclid City School District Cuyahoga County Independent Auditor's Report Page 3

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Euclid City School District Cuyahoga County Independent Auditor's Report Page 4

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we will also issue our report dated December 27, 2023, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Keith Faber Auditor of State Columbus, Ohio

December 27, 2023

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

The management's discussion and analysis of the Euclid City School District's (the "School District") financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2023. The intent of this discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the financial statements and notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2023 are as follows:

- In total, net position increased \$8,562,579 or by 11.21 percent. Net position of governmental activities increased \$8,628,329 which represents a 11.61 percent increase from 2022 to 2023. Net position of business-type activities decreased \$65,750 which represents a 3.20 percent increase from 2022 to 2023.
- General revenues accounted for \$81,666,306 or 71.78 percent of all governmental revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$32,108,516 or 28.22 percent of total governmental revenues of \$113,774,822.
- Total assets of governmental activities experienced an increase of \$5,994,103 as current assets decreased by \$217,473 or .16 percent and capital assets increased by \$4,344,910 or 2.00 percent. Total liabilities of governmental activities increased by \$33,392,236 or 16.0 percent.
- Total deferred outflows of resources for governmental activities increased by \$8,370,605 or 43.74 percent and the deferred inflows of resources for governmental activities decreased by \$27,655,857 or 29.90 percent. Both of these fluctuations can be attributed to significant changes to the actuarial assumptions related to the calculations of the net pension/OPEB liabilities and asset. Refer to Notes 16 and 17 included within for further explanations.
- The School District had \$106,068,048 in expenses related to governmental activities; only \$32,108,516 of those expenses were offset by program specific charges for services and operating grants and contributions. General revenues (primarily taxes and grants and entitlements) of \$81,666,306 was sufficient to fully cover these programs.
- The General Fund had \$87,777,719 in revenues (including other financing sources) and \$80,657,364 in expenditures (including other financing uses). The fund balance of the General Fund increased from \$7,120,355 to \$38,448,460.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities. The *Statement of Net Position* and *Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short term, as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds, with all other nonmajor funds presented in total in one column. In the case of the School District, the General Fund, ESSER Fund, and Bond Retirement Fund are considered to be significant funds.

Reporting the School District as a Whole

Statement of Net Position and Statement of Activities

While this document contains information about the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2023?" The Statement of Net Position and Statement of Activities answer this question. These statements include *all assets and deferred outflows of resources* along with *all liabilities and deferred inflows of resources* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in that position. This change in net position is important because it tells the reader that, for the School District as a whole, the *financial position* of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the Statement of Net Position and Statement of Activities, the School District is divided into two distinct kinds of activities:

- Governmental Activities Most of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant services, pupil transportation, and extracurricular activities.
- Business-Type Activities These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. The School District's food service and customer services are reported as business-type activities.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 14. Fund financial statements provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, ESSER Fund, and Bond Retirement Fund. The School District's three types of funds: governmental, proprietary and fiduciary, use different accounting approaches as further described in the notes to the basic financial statements.

Governmental Funds Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term* view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and Statement of Activities) and governmental funds is reconciled in the financial statements.

<u>Proprietary Funds</u> Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match. The School District uses internal service funds to account for a general rotary fund and self-insurance programs related to workers compensation insurance and medical/dental insurance. The assets, liabilities, and net position of the internal service funds have been included within the governmental activities.

<u>Fiduciary Funds</u> The School District has one custodial fund which accounts for the hosting of Ohio High School Athletics Association Tournaments. The School District's fiduciary activities are reported in the Fiduciary Net Position and Statement of Changes in Fiduciary Net Position – Custodial Funds. We exclude these activities from the School District's other financial statements because the assets cannot be utilized by the School District to finance its operations.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

The School District as a Whole

You may recall that the Statement of Net Position provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net position for 2023 compared to 2022:

Table 1 - Net Position

	Governmen	tal Activities	Business-Type Activities			ctivities	Total		
	2023	2022		2023		2022	2023	2022

The School District has adopted GASB Statement 68, Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27 and (GASB) Statement 75, Accounting and Financial Reporting for Post-Employment Benefits Other than Pensions which significantly revises accounting for pension and other post-employment benefits (OPEB) costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension/OPEB and the net pension/OPEB liability to the reported net position and subtracting deferred outflows related to pension/OPEB and the net OPEB asset. It is important to note that the deficits reported in net position are solely attributed to the net pension/OPEB liabilities.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs under GASB Statement 27 and OPEB under GASB Statement 45 focused on a funding approach. This approach limited pension/OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension/OPEB liability*.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

GASB Statements 68 and 75 takes an earnings approach to pension/OPEB accounting; however, the nature of Ohio's statewide pension systems and the state law which governs those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the standards required by GASB Statements 68 and 75, the net pension/OPEB liability equals the School District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension/OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liabilities of the retirement systems as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement systems are responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension/OPEB liability. As explained above, changes in retirement benefits, contribution rates, and return on investments affect the balance of the net pension/OPEB liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required retirement payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension/OPEB liability is satisfied, these liabilities are separately identified within the long-term liability section of the Statement of Net Position.

In accordance with GASB Statements 68 and 75, the School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension/OPEB liability not accounted for as deferred inflows/outflows.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

As a result of implementing GASB Statements 68 and 75, the School District is reporting a net pension/OPEB liability, net OPEB asset and deferred inflows/outflows of resources related to pensions/OPEB on the accrual basis of accounting.

As the previous narrative explained in further detail, the recognition of the net pension/OPEB liability and the related deferred outflows/inflows distort the true picture of the School District's financial position. To gain a better picture of the School District's net position it is important to focus on the impact of other financial items within the Statement of Net Position. Some key items are as follows:

- Current assets of the governmental activities decreased by \$217,473 or 0.16 percent. The capital assets of the governmental activities increased by \$4,344,910 or 2.00 percent. This is due to additions to construction in progress from the ongoing school facilities construction project.
- The current liabilities of the governmental activities decreased by \$866,566 or 4.84 percent. This is mainly due to the decrease in payables related to the building construction project. Long-term liabilities, excluding the net pension/OPEB liabilities, decreased by \$2,423,358. The decrease is mainly contributed to the principal payments made on long-term liabilities.
- The changes in the governmental activities' deferred outflows of resources and deferred inflows of resources can solely be tied to the effects of GASB Statements 68 and 75 and their changes to actuarial assumptions.
- Current assets of the business-type activities decreased by \$137,290 or 3.46 percent. The decrease in current assets can mainly be attributed to the decrease in the equity in pooled cash, cash equivalents and investment, which was a result of the state providing more funding for food services.
- Total liabilities for the business-type activities increased by \$725,190 or 48.52 percent. The decrease can mostly be attributed to net pension liability and net other post-employment liability.

The net positions of both the governmental and business-type activities are reflecting decreases from the prior fiscal year. Keeping the aforementioned discussions in mind of the impact of the net pension/OPEB liabilities and related deferred outflows/inflows, a more accurate picture of the School District's operations can be provided.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

Table 2 shows the changes in net position for fiscal year 2023 compared to 2022.

Table 2 - Change in Net Position

Transfers	921,555		(921,555)			
Change in Net Position	8,628,329	30,895,395	(65,750)	1,774,571	8,562,579	32,669,96
Net Position - Beginning	74,310,695	43,415,300	2,050,273	275,702	76,360,968	43,691,002
NET POSITION - ENDING	\$ 82,939,024	\$ 74,310,695	\$ 1,984,523	\$ 2,050,273	\$ 84,923,547	\$ 76,360,968

It is important to note that the changes in net pension/OPEB liabilities/asset are reflected as adjustments to current year expenses. The proportionate share of the adjustments has greatly impacted program expenses reflected in the above table. There was a significant change in both liabilities explains why program expenses fluctuate greatly from fiscal year 2022 to fiscal year 2023.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

Governmental Activities

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by the levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become 0.5 mills and the owner would still pay \$35.

Thus, school districts' dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Property taxes are the School District's largest revenue contributor, making up 40.16 percent of revenues for governmental activities in fiscal year 2023. Property taxes decreased by \$5,491,046 or 10.73 percent in fiscal year 2023. Property tax revenue decreased due to a prior emergency levy reaching its limit of 10 years.

The second largest revenue contributor, operating grants and contributions, represented 22.66 percent of the governmental activity revenue in fiscal year 2023. This revenue is generated through state and federal grants along with some of the State Foundation program revenue. The decrease is mainly due to a decrease in federal grants in fiscal year 2023.

The third largest revenue contributor, state aid or grants and entitlements, represented 21.78 percent of the governmental activity revenue in fiscal year 2023. This revenue is solely generated through the State's Foundation program and is budgeted on a biennium by the State's Legislature.

For the governmental activities, current year's program expenses of \$106,068,048 reflect a 21.36 percent decrease from prior year's program expenses of \$87,396,434. As discussed previously, the effects of GASB Statements 68 and 75 on the School District's government-wide statements can create these significant fluctuations and makes it challenging to analysis expenses.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services for 2023 and 2022. Table 3 shows the total cost for services for governmental activities and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Table 3 – Governmental Activities

	Total Cost	of Services	Net Cost o	of Services	
	2023	2022	2023	2022	
EXPENSES					
Program Expenses					
Instruction	\$ 56,488,725	\$ 48,032,549	\$ (42,774,677)	\$ (30,735,932)	
Supporting Services:					
Pupils and Instructional Staff	13,597,403	9,437,868	(3,423,074)	(2,962,698)	
Board of Education, Administration,					
Fiscal Services and Business	10,110,134	7,412,669	(9,282,227)	(6,824,674)	
Operation and Maintenance of Plant Services	8,866,022	5,899,033	(4,003,161)	368,044	
Pupil Transportation	6,091,949	5,724,119	(4,833,655)	(4,413,730)	
Central	2,617,841	3,087,132	(2,617,841)	(2,505,014)	
Operation of Non-Instructional Services	1,208,889	1,103,729	(129,560)	(141,723)	
Extracurricular Activities	1,290,570	924,967	(1,098,822)	(645,300)	
Interest and Fiscal Charges	5,796,515	5,774,368	(5,796,515)	(5,774,368)	
Total Expenses	\$ 106,068,048	\$ 87,396,434	\$ (73,959,532)	\$ (53,635,395)	

The table above reflects how the School District funds its programs through program revenues. Instruction, supporting services, non-instructional services, extracurricular activities, and interest charges rely heavily on general revenues. The decrease in program expenses is a result of GASB Statements 68 and 75, as previously discussed. To gain a better understanding of operations, refer to the fund analysis on the following pages.

Business Type Activities

Business-type activities include the food service operation and culinary arts customer service operation. These programs had revenues of \$3,734,729 and expenses of \$2,878,924 in fiscal year 2023. During fiscal year 2023, the food service program and culinary arts customer service program experienced an increase in net position. The largest increase in net position can be attributed to the food service activity as a result of increased in state funding.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

The School District's Funds

The School District's governmental funds are accounted for using the modified accrual basis of accounting. These funds are reported in the fund financial statements which reflect the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the School District, the General Fund, ESSER Fund, and Bond Retirement Fund are considered to be significant funds. The School District's governmental funds reported a total fund balance of \$52,030,814. This represents an increase over the fiscal year 2022 total governmental fund balance of \$46,580,435. A closer look into what led to this change in fund balance is provided:

General Fund

When compared to fiscal year 2022, the fiscal year 2023 fund balance of the School District's General Fund increased \$7,120,355. The following table provides a comparison by fiscal year of the revenue categories of the General Fund:

	2023	2022	Change
Revenues:			
Taxes:			
Property	\$ 38,730,943	\$ 41,850,545	\$ (3,119,602)
Income	8,060,783	8,536,475	(475,692)
State aid	36,853,575	35,583,676	1,269,899
Federal aid	686,389	620,530	65,859
Earnings on investments	1,476,874	(1,117,655)	2,594,529
Other revenues	1,967,247	1,514,162	453,085
Total Revenues	\$ 87,775,811	\$ 86,987,733	\$ 788,078

As noted above, property taxes decreased considerably. Property tax revenue decreased due to a previous 10-year emergency levy falling off. Earnings on investments experienced an increase due to the rising interest rates throughout the year. State aid increased due to the changes in the foundation funding structure.

As of June 30, 2023, the expenditures of the General Fund experienced an increase of \$5,786,398 from fiscal year 2022.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

The following table identifies the major expenditure functions of the General Fund and provides a comparison by fiscal year of these expenditures:

	2023	2022	Change
Expenditures:			
Instruction	\$ 45,275,068	\$ 43,756,442	\$ 1,518,626
Supporting services	33,448,612	29,270,687	4,177,925
Community services	169,530	192,844	(23,314)
Extracurricular activities	902,716	789,555	113,161
Debt service	67,608	67,608	<u> </u>
Total Expenditures	\$ 79,863,534	\$ 74,077,136	\$ 5,786,398

General Fund expenditures increased from fiscal year 2022 due to the School District continuous conservative spending approach.

ESSER Fund

The fund balance of the ESSER Fund decreased by \$700,160 compared to fiscal year 2022.

Bond Retirement Fund

The fund balance of the Bond Retirement Fund increased by \$773,624 or 5.63 percent compared to fiscal year 2022.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

The School District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

For the General Fund, the total final budget basis revenue was the same as the original budget estimate of \$88,892,323 (including other financing sources). In total, actual revenues of \$100,998,153 were higher than the final revenues of \$88,892,313.

The final appropriations of \$93,916,419 (including other financing uses) were higher as the original appropriations of \$90,101,045. Actual expenditures came in under the final appropriations.

The School District's ending unobligated cash balance was \$15,169,402 over the final budgeted amount.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2023, the School District had a total of \$221,577,841 invested in land, construction in progress, intangible assets, intangible right-to-use lease – equipment, land improvements, buildings and improvements, furniture and equipment, and vehicles of which, \$221,277,215 represented governmental activities. Table 4 shows fiscal year 2023 balances compared to 2022.

Table 4 - Capital Assets at June 30 (net of depreciation)

	Governmental Activities				Business-Type Activities				Total			
	2023		2022		2023		2022	2023			2022	
Nondepreciable												
Land	\$ 2,340,558	\$	2,340,558	\$	-	\$	-	\$	2,340,558	\$	2,340,558	
Construction in Progress	134,544,730		127,328,034		-		-		134,544,730		127,328,034	
Intangible	44,393		44,393		-		-		44,393		44,393

Depreciable												
Intangible right-to-use lease- equipment	144,936		207,054		-		-		144,936		207,054	
Land improvements	11,628,866		12,552,029		-		-		11,628,866		12,552,029	
Building and improvements	71,236,518		73,421,212		3,675		3,825		71,240,193		73,425,037	
Furniture and equipment	1,285,567		969,738		279,226		329,433		1,564,793		1,299,171	
Vehicles	51,647		69,287		17,725		21,664		69,372		90,951	
Total Depreciable	84,347,534		87,219,320		300,626		354,922		84,648,160		87,574,242	
Total Capital Assets	\$ 221,277,215	\$	216,932,305	\$	300,626	\$	354,922	\$	221,577,841	\$	217,287,227	

Ohio law required school districts to set aside a defined percent of certain revenues for capital improvements. For fiscal year 2023, this amounted to \$984,033 for the set-aside. In fiscal year 2023, the School District had qualifying disbursements or offsets exceeding the requirement. The School District has budgeted to meet this requirement.

Additional information on capital asset policies and activity are contained in Notes 2 and 11 of the basic financial statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

Debt

At June 30, 2023, the School District had \$138,164,847 in debt outstanding with \$2,820,158 due within one year. Table 5 summarizes the School District's bonds and notes outstanding.

Table 5 - Outstanding Debt at Year End

	Governmental Activities				
		2023		2022	
General Obligation Bonds, net:					
Energy conservation bonds	\$	117,300	\$	228,600	
Classroom facilities and school improvements:

Leases Payable		150,562		211,023	
Total Outstanding Debt	\$	138,164,847	\$	140,616,364	

At June 30, 2023, the School District's overall legal debt margin was \$0 with an unvoted debt margin of \$751,651. Section 133.06(I) of the Ohio Revised Code permits a school district to incur net indebtedness in excess of the 9.0 percent limitation when necessary to raise the school district's portion of the basic project cost and any additional funds necessary to participate in a project under Chapter 3318 of the Ohio Revised Code. Since the School District entered into a project under Chapter 3318 of the Ohio Revised Code, this exception was included during the calculation of the overall legal debt margin.

As of June 30, 2023, the School District's credit rating, as provided by Moody's, is A3.

Additional information on debt policies and activity are contained in Notes 2 and 13 of the basic financial statements.

For the Future

The economic downturn that occurred a decade ago presented the School District with financial challenges. Total assessed property values of the School District were reduced by 20.5 percent in the 2012 County sexennial reappraisal. This resulted in a loss in general revenue funds of \$2.1 million annually. Between tax year 2007 and tax year 2017, the total assessed valuation of the School District dropped by 35.8 percent. The County performed its sexennial reappraisal in 2018. As a result of this reappraisal, the Euclid's assessed valuations saw a 16 percent increase over the prior year's assessed valuations. This percentage increase was one of the largest across Cuyahoga County. This was encouraging news that property values are on the increase. The City of Euclid is continuing to pull itself out of the all-time lows experienced from the "Great Recession" and the assessed valuations are expected to improve even more with a county-wide reappraisal in 2024.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2023 (Unaudited)

A number of factors have converged to bring the School District back to fiscal stability. Due to budgetary reductions in fiscal year 20-21, a \$5.6 million emergency operating levy approved by voters in November, 2020, and a new State funding formula enacted in the 21-22 fiscal year, the District has experienced operating surpluses since fiscal 20-21 and continued through the 22-23 fiscal year with an operating surplus of \$14.2 million (cash basis). The 23-24 fiscal year is projected to experience another operating surplus of \$9.2 million.

The second and last phase of the School District's new building project was substantially completed in fiscal 22. This phase built a new high school/middle school complex as well as new outdoor athletic facilities, which included a new football stadium and three artificial turf fields. In fiscal year 2022, the School District renovated our two remaining elementary schools, which are providing special education services and alternative school programs, and the District's Administration Building. These projects were funded largely with federal COVID relief funds and remaining funds from the Phase II project. These facilities were reopened at the beginning of the 2022-23 school year. Operationally, the District Five-Year Financial Forecast shows no need for additional operating funds for at least the next five years.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional information, contact Steve Vasek, Treasurer at Euclid City School District, 651 E. 222nd., Euclid, Ohio 44123 or e-mail at svasek@euclidschools.org.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2023

NOTE 1: DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Euclid City School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The School District is a city district as defined by Section 3311.02 of the Ohio Revised Code. The School District operates under an elected Board of Education (five members) and is responsible for the provisions of public education to residents of the School District.

The School District provides public education from preschool to grade 12. The School District's enrollment as of June 30, 2023 was 4,295. The School District employed 457 certified employees and 314 non-certified employees.

Reporting Entity

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the School District, this includes general operations, food service, and student related activities.

Nonpublic Schools – Within the School District's boundaries, Our Lady of Lake and St. Robert and William schools are operated through the Cleveland Catholic Diocese. Current State legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the School District, as directed by the parochial schools. The activity of these state monies by the School District is reflected in a special revenue fund for financial reporting purposes.

Component units are legally separate organizations for which the School District is financially accountable. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District has no component units.

The School District is associated with two organizations which are defined as a jointly governed organization and a related organization. The Ohio School's Council Association is a jointly governed organization and the Euclid Public Library is a related organization. The jointly governed organization is presented in Note 19 and the related organization is presented in Note 20 to the basic financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Fund Accounting

The more significant of the School District's accounting policies are described below.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the following categories: governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they must be used. Current assets are assigned to the fund from which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets, liabilities and deferred inflows/outflows of resources is reported as fund balance. The following are the School District's major governmental funds:

<u>General Fund</u> – The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Elementary and Secondary School Emergency (ESSER) Fund</u> – This fund accounts for emergency relief grants related to the COVID-19 pandemic. Restrictions include, but are not limited to, providing for coordination of preparedness and response efforts, training and professional development of staff, planning and coordination during long-term closure, and purchasing technology for students.

<u>Bond Retirement Fund</u> – The Bond Retirement Fund is used to account for and report financial resources that are restricted to expenditure for principal and interest.

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed, and assigned to a particular purpose.

Proprietary Funds

Proprietary funds focus on the determination of the changes in net position, financial position and cash flows and are classified as either enterprise or internal service.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Fund Accounting (Continued)

<u>Enterprise Funds</u> – Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The School District's enterprise funds account for the provision of food services and services to the general public financed by user charges (culinary arts restaurant).

<u>Internal Service Funds</u> – Internal service funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the School District, or to other governmental units, on a cost-reimbursement basis. The internal service funds of the School District account for two self-insurance programs and a program for the purchase of services and equipment for internal use. The two self-insurance programs provide medical, drug and dental to employees along with workers' compensation claims.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. The School District has no trust funds. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The School District's only custodial fund accounts for the athletic tournaments.

B. Basis of Presentation

Government-wide Financial Statements – The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. An exception to this general rule is that interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Presentation (Continued)

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program.

Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements – Fund financial statements report detailed information about the School District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary and fiduciary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. The proprietary funds and the fiduciary funds also use the accrual basis of accounting

<u>Revenues – Exchange and Non-Exchange Transactions</u>

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements, and donations. On an accrual basis, revenue from income taxes is recognized in the fiscal year in which the exchange on which the tax is imposed takes place and revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 8). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Deferred Outflows/Inflows of Resources - In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported in the government-wide Statement of Net Position for deferral on refunding and for pensions and other post-employment benefits. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pensions and other post-employment benefits are explained in Notes 16 and 17, respectively.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (CONTINUED)

C. Basis of Accounting (Continued)

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources include property taxes, compensation payments from a tax increment financing (TIF) agreement, pensions, other post-employment benefits and unavailable revenue. Property taxes and the compensation payments from the TIF agreement represent amounts for which there is an enforceable legal claim as of June 30, 2023, but which were levied to finance fiscal year 2024 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period.

For the School District, unavailable revenue includes delinquent property taxes, intergovernmental grants, earnings on investments and other revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pensions and other post-employment benefits are reported on the government-wide Statement of Net Position which is further explained in Notes 16 and 17, respectively.

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as unearned revenues. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

D. Cash, Cash Equivalents and Investments

Cash received by the School District is pooled for investment purposes. Interest in the pool is presented as "equity in pooled cash, cash equivalents, and investments" on the financial statements. Certain investments have been identified as not part of the School District's internal pool. These investments are presented separately on the financial statements and are related to specific construction projects. Cash held with escrow agents is identified for deposits held for principal and interest payments on certificates of participation and for contract retainage.

Notes to the Basic Financial Statements

June 30, 2023

(Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Cash, Cash Equivalents and Investments (Continued)

During fiscal year 2023, investments were limited to US Bank First American Government Obligation – Class III money market mutual funds, negotiable certificates of deposit, U.S. Government Agency securities, U.S. Treasury notes, commercial paper, and STAR Ohio. Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as nonnegotiable certificates of deposit are reported at cost.

During fiscal year 2023, the School District invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, Certain External Investment Pools and Pool Participants.

The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For the fiscal year 2023, there were no limitation or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$100 million. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. For presentation on the financial statement, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

The School District maintains a cash account held with escrow agent. The account contains funds that have been retained by the School District until the completion of the School District's building project. The amount maintained at June 30, 2023 was \$216,120.

E. Restricted Assets

Restricted assets represent cash and cash equivalents and other current assets whose use is limited by legal requirements. As of June 30, 2023, the School District did not have any restricted assets.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2023 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

G. Inventory

On government-wide financial statements and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the purchase method on the fund statements and using the consumption method on the government-wide statements.

On fund financial statements, reported material and supplies inventory is equally offset by a nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

H. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized/amortized at cost (or estimated historical cost) or at present value of future payments and updated for additions and retirements during the year. Donated capital assets are recorded at the acquisition value. The School District's capitalization threshold for all capital assets is \$5,000. The School District does not possess any infrastructure. Improvements are capitalized/amortized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of capital assets is not capitalized.

All reported capital assets except land, construction in progress and intangible assets are depreciated/amortized. Improvements are depreciated/amortized over the remaining useful lives of the related capital asset. Depreciation/amortization is computed using the straight-line method over the following useful lives:

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Capital Assets (Continued)

	Governmental Activities	Business-Type Activities
Description	Estimated Lives	Estimated Lives
Intangible right-to-use lease - Equipment	5 years	N/A
Land Improvements	20 years	N/A
Buildings and Improvements	10-80 years	N/A
Furniture and Equipment	5-10 years	3-10 years
Vehicles	10 years	N/A

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due from/to other fund". These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for the residual amounts due between governmental and business-type activities, which are presented as internal balances.

J. Compensated Absences

The School District reports compensated absences in accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*. Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned by all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments. The entire compensated absence liability is reported on the government-wide financial statements.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Bond Premiums and Discounts

On the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds using the straight-line method. Bond premiums are presented as an increase of the face amount of the general obligation bonds payable. Bond discounts are presented as a decrease of the face amount of the general obligation bonds payable. On fund financial statements, premiums are receipted and discounts are disbursed in the year bonds are issued.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources.

However, claims and judgments, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current expendable available financial resources. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not spendable in form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Fund Balance (Continued)

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District's Board of Education. Those committed amounts cannot be used for any other purpose unless the School District's Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed.

In the General Fund, assigned amounts would represent intended uses established by the School District's Board of Education or a School District official delegated that authority by State statute.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In the other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

N. Net Position

Net position represents the difference between assets/deferred outflows of resources and liabilities/deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Deferred outflows and inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The School District passed legislation to create a restriction to net position for budget stabilization. This is the only net position restriction imposed through enabling legislation. The net position restricted for state and federally fund programs and student activities have external and internal restrictions imposed by state and federal governments along with the School District's Board of Education. The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

O. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are sales for food service and special services along with charges for services for the School District's two self-insurance programs. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. Any revenues and expenses not meeting the definition of operating are reported as non-operating.

P. Interfund Transactions

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the School District and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during 2023.

R. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

S. Budgetary Accounting

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting.

The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The legal level of budgetary control is at the fund level for all funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. Public hearings are publicized and conducted to obtain taxpayer's comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. The budget includes proposed expenditures and the means of financing for all funds. By no later than January 20, the Board-adopted budget is filed with the Cuyahoga County Budget Commission for rate determination.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

S. **Budgetary Accounting (Continued)**

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District's Treasurer. The amounts reported in the budgetary statement reflect the amounts set forth in the original and final amended certificates of estimated resources issued during fiscal year 2023.

Appropriations

Upon receipt from the County Auditor of an amended Certificate of Estimated Resources based on final assessed values and tax rates or a certification saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education at the fund level for all funds, which is the legal level of budgetary control.

Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission. The total of expenditures and encumbrances may not exceed the appropriation totals at any level of control.

Any revisions that alter the total of any fund appropriation must be approved by the Board of Education. The Board may pass supplemental fund appropriations provided the total appropriations by fund do not exceed the amounts set forth in the most recent Certificate of Estimated Resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant. The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

S. Budgetary Accounting (Continued)

Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Expenditures plus encumbrances may not legally exceed appropriations. On the governmental fund financial statements, encumbrances outstanding at year end are reported as part of the respective fund balance classification for subsequent year expenditures. Encumbrances outstanding at year end are not reported on government-wide financial statements.

Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

T. Pensions and Other Post-Employment Benefits (OPEB)

For purposes of measuring the net pension and OPEB liabilities, net OPEB asset, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension expense, information about the fiduciary net position of the pension and OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. The pension and OPEB plans report investments at fair value.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 3: ACCOUNTABILITY

The following funds had negative fund balances at June 30, 2023:

	Deficit
Major Special Revenue Funds	
Elementary and Secondary School Emergency	\$ 5,048,099
Nonmajor Special Revenue Funds	
Public School Preschool	\$ 112,980
Vocational Education Enhancement	5,264
IDEA, Part B Special Education, Education of	
Handicapped Children	382,469
Project Head Start	283,315
Title I - School Improvement A	23,148
Title I - Disadvantaged Children/Targeted Assistance	727,478
Drug Free Schools Grant	85,860
IDEA, Preschool Grant for the Handicapped	6,128
Improving Teacher Quality	142,375
Total Nonmajor governmental funds	\$ 1,769,017

The fund deficits in the nonmajor special revenue funds resulted from accrued liabilities. The General Fund is liable for the deficits in these funds and will provide operating transfers when cash is required, not when accruals occur.

NOTE 4: CHANGES IN ACCOUNTING PRINCIPLES

During the fiscal year, the School District implemented the following Governmental Accounting Standards Board (GASB) Statements and Guides:

GASB Implementation Guide 2021-1 provides clarification on issues related to previously established GASB guidance. These changes were incorporated in the School District's financial statements; however, there was no effect on the beginning net position/fund balance.

GASB Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The implementation of this Statement did not have an effect on the financial statements of the School District.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs).

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 4: CHANGES IN ACCOUNTING PRINCIPLES (CONTINUED)

The implementation of this Statement did not have an effect on the financial statements of the School District.

GASB Statement No. 96, Subscription-Based Information Technology Arrangements. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The implementation of this Statement did not have an effect on the financial statements of the School District.

GASB Statement No. 99, *Omnibus 2022*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The implementation of this Statement did not have an effect on the financial statements of the School District.

NOTE 5: **BUDGETARY BASIS OF ACCOUNTING**

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Budgetary Basis) for the General Fund and ESSER is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budgetary basis and GAAP basis are as follows:

- 1. Revenues are recorded when received in cash (budgetary basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budgetary basis) as opposed to when the fund liability is incurred (GAAP basis).

Notes to the Basic Financial Statements
June 30, 2023
(Continued)

NOTE 5: **BUDGETARY BASIS OF ACCOUNTING (CONTINUED)**

- 3. Advances in/out are operating transactions (budget) as opposed to balance sheet transaction (GAAP).
- 4. Some funds are included in the General Fund (GAAP basis), but have separate legally adopted budgets (budgetary basis).
- 5. Encumbrances are treated as expenditures (budgetary basis) rather than as a part of restricted, committed, and assigned fund balances (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund and ESSER fund.

Net Change in Fund Balance

The Change in Fund Balance									
		General							
		Fund	ESSER						
GAAP Basis	\$	7,120,355	\$ (700,160)						
Net Adjustments for Revenue Accruals		(154,126)	1,211,818						
Net Adjustments for Expenditure Accruals		440,611	(1,050,510)						
Advances In		13,466,249	3,821,629						
Advances Out		(6,650,624)	(7,238,720)						
Funds with Separate Legally Adopted Budgets		7,364	-						
Adjustment for Encumbrances		(4,084,533)	(1,258,308)						
Budget Basis	\$	10,145,296	\$ (5,214,251)

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 6: **FUND BALANCE**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned which is based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on the fund balances of the major governmental funds and nonmajor governmental funds are presented below:

										Total
						Bond	Nonmajo		G	overnmental
Fund Balances	Gen	eral	ES	SER]	Retirement	Funds			Funds

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 7: **DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury notes, bills, bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to payment of principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, and Federal Home Loan Mortgage Corporation. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above;
- 4. Bonds or other obligations of the State of Ohio or Ohio local governments;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or division (2) of this section and repurchase agreements secured by such obligations;

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 7: <u>DEPOSITS AND INVESTMENTS</u> (CONTINUED)

- 7. The State Treasurer's investment pool (STAR Ohio); and
- 8. Bankers' acceptances and commercial paper, if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

Cash on Hand

At June 30, 2023, the School District had \$10,000 of undeposited cash on hand, which is included on the balance sheet of the School District as part of "Equity in Pooled Cash, Cash Equivalents, and Investments".

Deposits

At June 30, 2023, the carrying amount of the School District's deposits was \$4,790,960 and the bank balance was \$2,567,433. The School District closely monitors its cash flow requirements and can provide necessary funds to cover any outstanding checks when they become due. \$2,987,162 of the School District's bank balance was covered by Federal Depository Insurance, \$2,419,847 was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent but not in the School District's name. The School District's financial institution was approved for a reduced collateral rate of 50 percent through the Ohio Pooled Collateral System, resulting in the uninsured and uncollateralized balance. Although the securities were held by the pledging institution's trust department and all statutory requirements for the investments of money had been followed, noncompliance with Federal requirements could potentially subject the School District to a successful claim by the FDIC.

Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits or collateral securities may not be returned. The School District's policy is to place deposits with major local banks approved by the School District's Board of Education. All deposits, except for deposits held by fiscal and escrow agents, are collateralized with (1) eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102 percent of the deposits being secured or a reduced rate set by the Treasurer of State.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 7: <u>DEPOSITS AND INVESTMENTS</u> (CONTINUED)

Investments

The School District has a formal investment policy and utilizes a pooled investment concept for all its funds to maximize its investment program. The objective of the policy shall be the preservation of capital and protection of principal while earning investment interest. STAR Ohio is measured at net asset value (NAV) per share while all other investments are measured at fair value. The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets.

Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The School District's investments measured at fair value are valued using methodologies that incorporate market inputs such as benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. Market indicators and industry and economic events are also monitored, which could require the need to acquire further market data. (Level 2 inputs). The table presented below identifies the School District's recurring fair value measurement as of June 30, 2023. As previously discussed, Star Ohio is reported at its net asset value. All other investments of the School District are valued using Level 2 inputs.

During fiscal year 2023, the School District has invested the proceeds from previously issued debt that was specifically for the construction of school facilities and other improvements. The proceeds invested are not part of the School District's internal investment pool of funds. The investment of these debt proceeds is separately presented on the financial statements as "Investments" and the earnings on these investments are required to remain with the projects.

Investments at year end were as follows:

Measurement/Investment Type	Internal Investment Pool	_	Specific nvestments Construction	_	Total air Value of nvestments	Investment Maturities (in Years)	Standard & Poor's Rating
Net Asset Value per Share:							
STAR Ohio	\$ 17,519,564	\$	7,263,143	\$	24,782,707	< 1	AAAm
First American Government							
Obligation Fund	141,734		-		141,734	< 1	AAAm
Fair Value - Level Two Inputs:							
Negotiable CDs	837,724		-		837,724	1 - 3.5	N/A
U.S. Government Agency Securities	20,489,979		-		20,489,979	1 - 3.5	AA+
U.S. Treasury Notes	19,457,909		-		19,457,909	1 - 3.5	N/A
Commercial Paper	 3,372,425		-		3,372,425	< 1	A-1
Total Investments	\$ 61,819,335	\$	7,263,143	\$	69,082,478		

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 7: <u>DEPOSITS AND INVESTMENTS</u> (CONTINUED)

Interest Rate Risk

As a means of limiting its exposure to fair value of losses caused by rising interest rates, the School District's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and the School District's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

Credit Risk

The credit risks of the School District's investments are in the table above. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The School District has no investment policy that would further limit its investment choices.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's investments in money market mutual funds, commercial paper, U.S. Treasury Notes and U.S. Government Agency securities are exposed to custodial credit risk in that it is uninsured, unregistered, and held by the counterparty's trust department or agent but not in the School District's name. The School District's investments in negotiable certificates of deposit were fully covered by Federal Depository Insurance. The School District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk

The School District places no limit on the amount it may invest in any one issuer.

NOTE 8: PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 8: PROPERTY TAXES (CONTINUED)

Property taxes include amounts levied against all real, public utility, and certain tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar year 2023 represents collections of calendar year 2022 taxes. Real property taxes received in calendar year 2023 were levied after April 1, 2022, on the assessed value listed as of January 1, 2022, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are paid annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2023 represents collections of calendar year 2022 taxes. Public utility real and tangible personal property taxes received in calendar year 2023 became a lien December 31, 2022, were levied after April 1, 2022 and are collected in 2022 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Cuyahoga County. The County Fiscal Officer periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2023, are available to finance fiscal year 2023 operations. The amount available to be advanced can significantly vary based on the date the tax bills are sent.

The amount available as an advance at June 30, 2023 was \$3,532,293 in the General Fund, \$776,587 in the Bond Retirement Fund, and \$145,092 in the Permanent Improvement Capital Projects Fund. The amount available as an advance at June 30, 2022 was \$3,640,272 in the General Fund, \$800,327 in the Bond Retirement Fund, and \$149,527 in the Permanent Improvement Capital Projects Fund.

Accrued property taxes receivable includes real property, public utility property, and tangible personal property taxes which are measurable as of June 30, 2023, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 8: PROPERTY TAXES (CONTINUED)

On the full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue. The assessed values upon which fiscal year 2023 taxes were collected are:

	2022 Seco	nd	2023 First					
	Half Collecti	ons		Half Collections				
	Amount	Percent		Amount	Percent			
Agricultural/Residential								
and Other Real Estate	\$ 714,295,220	95.60%	\$	714,603,130	95.07%			
Public Utility	 32,892,320	4.40%		37,047,500	4.93%			
Totals	\$ 747,187,540	100.00%	\$	751,650,630	100.00%			
Tax Rate per \$1,000 of Assessed Valuation	\$ 105.92		\$	94.07				

NOTE 9: SCHOOL DISTRICT INCOME TAXES

Euclid School District is the only school district in the State of Ohio with an enacted shared City/School income tax. The shared income tax, enacted in 1994, is a 0.85 percent voted income tax of which 0.47 percent is for the School District and 0.38 percent for the City of Euclid. Employers are required to withhold income tax on compensation and remit the tax to the City of Euclid. Taxpayers are required to file an annual return with the City of Euclid. The City makes monthly distributions to the School District after withholding amounts for administrative fees and estimated refunds. School District income tax revenue is credited to the General Fund.

NOTE 10: **RECEIVABLES**

Receivables at June 30, 2023 consisted of property taxes, income taxes, compensation payments from a TIF agreement, accounts (rent, billings for user charged services, and student fees), intergovernmental grants and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 10: **RECEIVABLES** (Continued)

A summary of the principal items of intergovernmental receivables follows:

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 13: **LONG-TERM OBLIGATIONS** (**CONTINUED**)

General Obligation Bonds

In 2009, the School District issued \$1,253,000 in energy conservation improvement bonds for a fifteen-year period. The bonds were issued to retire \$1,338,000 in bond anticipation notes that were provided to pay the costs of installations, modifications, and remodeling of school buildings to conserve energy. The bonds will be retired from the Bond Retirement Fund with transfers from the General Fund.

In 2010, the School District issued \$40,299,828 in voted general obligation bonds which comprised of serial, capital appreciation (deep discount), term, and sinking fund bonds in the amount of \$3,235,000, \$499,828, \$21,400,000 and \$15,165,000, respectively. The general obligation bonds were issued for the purpose of building four new elementary school buildings within the Euclid City Schools system. The bonds were issued with a twenty-eight-year period with final maturity on January 15, 2038. As discussed in further detail later, the serial, capital appreciation and term bonds were refunded in fiscal year 2015. The sinking fund bonds remained outstanding at June 30, 2020. The Bond Retirement Fund will fund the annual debt service requirements on these bonds.

\$15,165,000 of the bonds issued on March 4, 2010, consisted of Qualified School Construction Bonds (QSCBs). The QSCBs were authorized by the federal government through the ARRA. These bonds were issued as tax credit bonds under which the bond holders receive federal tax credits in lieu of interest as a means to significantly reduce the issuer's interest cost.

On September 10, 2014, the School District issued term bonds of \$11,815,000 with interest rates ranging from 3.50-3.625 percent; serial bonds of \$9,575,000 with interest rates ranging from 1.00-4.00 percent; and capital appreciation bonds of \$9,996 with an interest rate of 41.48 percent to currently refund the BAB portion of the Classroom Facilities and School Improvement Bonds, Series 2010. The net proceeds from the issuance of the refunding bonds of \$21,532,802 and the School District's contribution of \$181,196 were used to purchase U.S. government securities and those securities were deposited in an irrevocable trust with an escrow agent to provide the debt service requirements until the BABs were called. The current refunding met the requirements of an in-substance debt defeasance and the BABs were removed from the School District's government-wide financial statements. The BABs were called on October 10, 2014, and there is no outstanding balance.

As a result of the current refunding, the School District reduced its total debt service requirements by \$1,455,686, which resulted in an economic gain of (difference between the present value of the debt service payments on the old and new debt) of \$997,026.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 13: **LONG-TERM OBLIGATIONS** (**CONTINUED**)

General Obligation Bonds (Continued)

The QCSBs maturing January 15, 2026 are subject to extraordinary mandatory redemption and extraordinary optional redemption requirements on January 15 in the years (mandatory sinking fund dates) and in respective principal amounts as follows:

Year	Amount
2024	1,340,000
2025	1,370,000
2026	1,385,000
Total	\$ 4,095,000

On March 8, 2017, the School District issued \$86,679,994 in voted general obligation bonds which comprised of serial, capital appreciation (deep discount) and term bonds in the amount of \$15,335,000, \$219,994 and \$71,125,000, respectively. The general obligation bonds were issued for the purpose of building and improving facilities of the School District. The bonds were issued with a thirty-seven-year period with final maturity on January 15, 2054. The Bond Retirement Fund will fund the annual debt service requirements on these bonds.

On March 22, 2017, the School District issued \$9,110,000 in voted general obligation bonds which is comprised of serial and term bonds in the amount of \$7,040,000 and \$2,070,000, respectively. The general obligation bonds were issued for the purpose of retiring short-term bond anticipation notes that matured on April 4, 2017. The bonds were issued with a twenty-nine-year period with final maturity on January 15, 2046. The Bond Retirement Fund will fund the annual debt service requirements on these bonds.

Certificates of Participation

On September 5, 2019, the School District issued \$12,500,000 in Certificates of Participation (COPs) with coupon rates ranging from 3.00 percent to 4.00 percent and maturing on December 1, 2049. The COPs were issued for the purpose of renovating the north wing of the High School.

The School District has the option to purchase any or all of the rights in the leased property by paying the amount necessary to cause all lease payments to be paid or deemed paid. In the event of a default, as defined by the lease agreement, the lessor may retake possession of the leased property at the School District's expense. The lessor also has the option to sell or lease the lessor's interest in the leased property, or sublease the leased property, holding the School District liable for all applicable lease payments and other payments due during the then-current fiscal year to the effective date of such sale, lease, or sublease and for the difference between the purchase price, rental and other amounts paid by the purchaser, lessee or sublessee pursuant to such sale, lease or sublease and the amounts payable by the School District under to the lease during the then-current fiscal year.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 13: LONG-TERM OBLIGATIONS (CONTINUED)

Tax Anticipation Notes

In 2012, the School District issued \$4,185,000 in long-term payable notes to provide for various capital renovations of the school buildings and other School District improvements. These notes will be paid off over a ten-year period of time.

Other Obligations

Compensated absences will be paid from the General Fund and Food Service enterprise fund. See Note 18 for further details on the School District's liability for claims. The net pension and OPEB liabilities recorded on the government-wide financial statements are further explained in Notes 16 and 17, respectively. There are no repayment schedules for the net pension and OPEB liabilities; however, employer pension and OPEB contributions are made from the School District's funds that record the respective salaries and wages. For the School District, this would mainly be from the General Fund, the Food Service Fund and to a smaller extent various special revenue grant funds that have personnel costs.

Legal Debt Margin

At June 30, 2023, the School District's overall legal debt margin was \$0 with an unvoted debt margin of \$751,651. Section 133.06(I) of the Ohio Revised Code permits a school district to incur net indebtedness in excess of the 9.0 percent limitation when necessary to raise the school district's portion of the basic project cost and any additional funds necessary to participate in a project under Chapter 3318 of the Ohio Revised Code. Since the School District entered into a project under Chapter 3318 of the Ohio Revised Code, this exception was included during the calculation of the overall legal debt margin.

Principal and interest requirements to retire the general obligation debt outstanding at June 30, 2023 are as follows:

Fiscal Year	C	ertificates of	Par	ticipation	General Obligation Bonds					Totals			
Ending June 30,	P	rincipal		Interest	Principal		Interest		Principal			Interest	
2024	\$	265,000	\$	461,150	\$	2,757,300	\$	5,117,738	\$	3,022,300	\$	5,578,888

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 14: LEASE PAYABLE

In fiscal year 2021, the School District entered into a lease payable for copiers in the amount of \$269,178. This represents the present value of the minimum lease payments at the time of acquisition. Accumulated amortization as of June 30, 2023, was \$124,242, leaving a current book value of \$144,936. A corresponding liability was recorded in the government-wide financial statements. Principal payments in fiscal year 2023 totaled \$60,461 paid by the General Fund. The lease does not transfer ownership of the copiers to the School District at the end of the lease term.

The following is a schedule the present value of the future minimum lease payments as of June 30, 2023:

Fiscal Year Ending	Principal		_	Ir	nterest	Total		
2024	\$	62,858	_	\$	4,750	\$	67,608	
2025		65,350			2,258		67,608	
2026		22,354			182		22,536	
	\$	150,562	_	\$	7,190	\$	157,752	

NOTE 15: **OTHER EMPLOYEE BENEFITS**

A. Compensated Absences

Employees earn vacation at rates specified under State of Ohio law and based on credited service. Clerical, technical, and maintenance and operations employees with one or more years of service are entitled to vacation ranging from 5 to 25 days. Employees with less than one year of service earn one vacation day per month worked, not to exceed five days. Unused vacation is not cumulative to the next year. Teachers do not earn vacation.

All employees are entitled to a sick leave credit equal to one and one-quarter days for each month of service (earned on a pro rata basis for less than fill-time employees). This sick leave will either be absorbed by time off due to illness or injury or, within certain limitations, be paid to the employee upon retirement. The amount paid to an employee upon retirement is limited to one-quarter of the accumulated sick leave to a maximum payout of 40 to 60 days based on the collective bargaining agreements.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 16: **PENSION PLANS**

A. Net Pension Liability

The net pension liability reported on the Statement of Net Position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost-of-living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 16: PENSION PLANS (CONTINUED)

B. Plan Description – School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing, multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability, and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information, and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources. Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

^{*} Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost-of-living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5% and with a floor of 0.0%. A three-year COLA suspension was in effect for all benefit recipients for calendar years 2018, 2019, and 2020. The Retirement Board approved a 2.5% COLA for calendar year 2023.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund).

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 16: PENSION PLANS (CONTINUED)

B. Plan Description – School Employees Retirement System (SERS) (Continued)

For the fiscal year ended June 30, 2023, the allocation to pension, death benefits, and Medicare B was the entire 14.0 percent.

The District's contractually required contribution to SERS was \$1,882,085 for fiscal year 2023.

C. Plan Description – State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing, multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. Eligibility changes will be phased in until August 1, 2023, when retirement eligibility for unreduced benefits will be five years of service credit and age 65, or 35 years of service credit and at any age. Eligibility changes for DB plan members who retire with actuarially reduced benefits will be phased in until August 1, 2023 when retirement eligibility will be five years of qualifying servicer credit regardless of age.

The DC Plan allows members to place all of their member contributions and 9.53 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.47 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 16: PENSION PLANS (CONTINUED)

C. <u>Plan Description – State Teachers Retirement System (STRS)</u> (Continued)

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12.0 of the 14.0 percent member rates goes to the DC Plan and the remaining 2.0 percent goes to the DB plan. Member contributions to the DC plan are allocated among investment choices by the member, and contributions to the DB plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity after termination of employment at age 50 or later.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options in the GASB 68 schedules of employer allocation and pension amounts by employer.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy — Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2023, plan members were required to contribute 14 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2023 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contributions to STRS was \$5,603,667 for fiscal year 2023.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 16: PENSION PLANS (CONTINUED)

D. <u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred</u> Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	 SERS	 STRS	 Total
Proportion of the Net Pension Liability			
Prior Measurement Date	0.2624183%	0.26199596%	
Proportion of the Net Pension Liability			
Current Measurement Date	 0.3250866%	 0.28542631%	
Change in Proportionate Share	 0.0626683%	0.02343035%	
Proportionate Share of the Net Pension			
Liability	\$ 17,583,213	\$ 63,450,628	\$ 81,033,841
Pension Expense	\$ 1,132,607	\$ 6,670,829	\$ 7,803,436

At June 30, 2023, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS		STRS		Total

Total		\$ 2,178,242	\$	5,435,843	\$	7,614,085	

E. Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67 as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 16: PENSION PLANS (CONTINUED)

E. <u>Actuarial Assumptions – SERS</u> (Continued)

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2022, are presented below:

Wage Inflation
Future Salary Increases, including inflation
COLA or Ad Hoc COLA

Investment Rate of Return Actuarial Cost Method 2.40 percent
3.25 percent to 13.58 percent
2.0 percent, on and after April 1, 2018, COLA's for future retirees will be delayed for three years following commencement
7.00 percent net of System expenses
Entry Age Normal

Mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females. Mortality among disable members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed June 30, 2020.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	2.00 %	(0.45) %
US Equity	24.75	5.37
Non-US Equity Developed	13.50	6.22
Non-US Equity Emerging	6.75	8.22
Fixed Income/Global Bonds	19.00	1.20
Private Equity	11.00	10.05
Real Estate/Real Assets	16.00	4.87
Multi-Asset Strategies	4.00	3.39
Private Debt/Private Credit	3.00	5.38
Total	100.00 %	

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 16: PENSION PLANS (CONTINUED)

E. <u>Actuarial Assumptions – SERS</u> (Continued)

Discount Rate The total pension liability was calculated using the discount rate of 7.00 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.00 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.00 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent), or one percentage point higher (8.00 percent) than the current rate.

	Current					
	1% Decrease Discount Rate		1% Increase			
		(6.00%)		(7.00%)		(8.00%)
School District's proportionate share						
of the net pension liability	\$	25,881,649	\$	17,583,213	\$	10,591,892

F. Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the July 1, 2022, actuarial valuation.

Inflation 2.50 percent

Projected salary increases Varies by service from 2.5% to 8.5%

Investment Rate of Return 7.00 percent, net of investment expenses, including inflation

Discount Rate of Return 7.00 percent Payroll Increases 3 percent Cost-of-Living Adjustments 0.0 percent

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 16: PENSION PLANS (CONTINUED)

F. Actuarial Assumptions – STRS (Continued)

Post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2022 valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021. STRS Ohio's investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Real Rate of Return **
Domestic Equity	26.00 %	6.60 %
International Equity	22.00	6.80
Alternatives	19.00	7.38
Fixed Income	22.00	1.75
Real Estate	10.00	5.75
Liquidity Reserves	1.00	1.00
Total	100.00 %	

^{*} Target allocation percentage is effective as of July 1, 2022. Target weights were phased in over a 3-month period concluding on October 1, 2022.

^{** 10-}Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25% and does not include investment expenses. Over a 30-year period, STRS Ohio's investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 16: PENSION PLANS (CONTINUED)

F. <u>Actuarial Assumptions – STRS</u> (Continued)

Discount Rate The discount rate used to measure the total pension liability was 7.00 percent as of June 30, 2022. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2022. Therefore, the long-term expected rate of return on pension plan investments of 7.00 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2022.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00 percent) or one-percentage-point higher (8.00 percent) than the current rate:

	Current					
	1% Decrease		Discount Rate		1% Increase	
		(6.00%)		(7.00%)		(8.00%)
School District's proportionate share						
of the net pension liability	\$	95,850,800	\$	63,450,628	\$	36,050,114

Assumption and Benefit Changes Since the Prior Measurement Date - Demographic assumptions were changed based on the actuarial experience study for the July 1, 2015, through June 30, 2021. STRS approved a one-time 1.00% cost-of-living adjustment to eligible benefit recipients effective July 1, 2023.

G. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2022, one member of the Board of Education had elected Social Security. The Board's liability is 6.2 percent of wages paid.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 17: **POST-EMPLOYMENT BENEFITS**

A. Net Other Post-Employment Benefits (OPEB) Liability/Asset

The net OPEB liability and net OPEB asset reported on the statement of net position represents a liability or asset to employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability and net OPEB asset represent the School District's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability and net OPEB asset calculations are dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost-of-living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio revised Code permits, but does not require the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability and net OPEB asset. Resulting adjustments to the net OPEB liability and net OPEB asset would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net OPEB liability* on the accrual basis of accounting. Any liability for the contractually-required OPEB contribution outstanding at the end of the year is included in *intergovernmental payable* on both the accrual and modified accrual bases of accounting.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 17: POST-EMPLOYMENT BENEFITS (CONTINUED)

B. Plan Description – School Employees Retirement System (SERS)

Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage.

Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2023, there was no contribution made to health care. A health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2023, this amount was \$25,000,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 17: POST-EMPLOYMENT BENEFITS (CONTINUED)

B. Plan Description – School Employees Retirement System (SERS)

The surcharge, is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$238,297 for fiscal year 2023. This amount is reported as an intergovernmental payable.

C. Plan Description – State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Medicare Part B monthly reimbursement elimination date was postponed indefinitely. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2023, STRS did not allocate any employer contributions to post-employment health care.

D. <u>OPEB Liabilities, OPEB Asset, OPEB Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB</u>

The net OPEB liability and net OPEB asset were measured as of June 30, 2022, and the total OPEB liability and asset used to calculate the net OPEB liability and net OPEB asset were determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability and net OPEB asset were based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

Notes to the Basic Financial Statements June 30, 2023 (Continued)

Total	\$ (3,511,239)	\$	(6,082,249)	\$ (9,593,488)

E. <u>Actuarial Assumptions – SERS</u>

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 17: POST-EMPLOYMENT BENEFITS (CONTINUED)

E. <u>Actuarial Assumptions – SERS</u> (Continued)

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2022, are presented below:

Wage Inflation 2.40 percent

Future Salary Increases, including inflation

3.25 percent to 13.58 percent
Investment Rate of Return

7.00 percent net of investments
expense, including inflation

The most recent experience study was completed for the five-year period ended June 30, 2020.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 17: POST-EMPLOYMENT BENEFITS (CONTINUED)

E. <u>Actuarial Assumptions – SERS</u> (Continued)

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2015 through 2020, and was adopted by the Board in 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Cash	2.00 %	(0.45) %
US Equity	24.75	5.37
Non-US Equity Developed	13.50	6.22
Non-US Equity Emerging	6.75	8.22
Fixed Income/Global Bonds	19.00	1.20
Private Equity	11.00	10.05
Real Estate/Real Assets	16.00	4.87
Multi-Asset Strategy	4.00	3.39
Private Debt/Private Credit	3.00	5.38
Total	100.00 %	

Discount Rate - The discount rate used to measure the total OPEB liability at June 30,2022 was 4.08 percent. The discount rate used to measure total OPEB liability prior to June 30, 2022 was 2.27 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the state statute contribution rate of 1.50 percent of projected covered employee payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to become insufficient to make future benefit payments of current System members by SERS actuaries.

Notes to the Basic Financial Statements June 30, 2023 (Continued)

NOTE 17: POST-EMPLOYMENT BENEFITS (CONTINUED)

E. <u>Actuarial Assumptions – SERS</u> (Continued)

The Municipal Bond Index Rate is used in the determination for the SEIR for both the June 30, 2022 and the June 30, 2021 total OPEB liability. The Municipal Bond Index rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index rate is 3.69% at June 30, 2022 and 1.92% at June 30, 2021.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.08%) and higher (5.08%) than the current discount rate (4.08%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.40%) and higher (8.00% decreasing to 5.40%) than the current rate (7.00% decreasing to 4.40%)

NOTE 17: POST-EMPLOYMENT BENEFITS (CONTINUED)

F. Actuarial Assumptions – STRS

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results used in the June 30, 2022, actuarial valuation is presented below:

Projected salary increases	Varies by service from 2.5 percent to 8.5 percent			
Investment Rate of Return	7.00 percent, net of investment expenses, including inflation			
Payroll Increases	3 percent			
Cost-of-Living Adjustments	0 percent			
Discount Rate of Return	7.00 percent			
Health Care Cost Trends	Initial	Ultimate		
Medical				
Pre-Medicare	7.50 percent	3.94 percent		
Medicare	-68.78 percent	3.94 percent		
Prescription Drug				
Pre-Medicare	9.00 percent	3.94 percent		
Medicare	5.47 percent	3.94 percent		

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For healthy retirees the post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2022, valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021.

Notes to the Basic Financial Statements
June 30, 2023

NOTE 17: POST-EMPLOYMENT BENEFITS (CONTINUED)

F. <u>Actuarial Assumptions – STRS</u> (Continued)

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board.

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	26.00 %	6.60 %
International Equity	22.00	6.80
Alternatives	19.00	7.38
Fixed Income	22.00	1.75
Real Estate	10.00	5.75
Liquidity Reserves	1.00	1.00
Total	100.00 %	

^{*} Target allocation percentage is effective July 1, 2022. Target weights were phased in over a 3-month period concluding October 1, 2022.

Discount Rate The discount rate used to measure the total OPEB liability was 7.00 percent as of June 30, 2022. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on health care plan investments of 7.00 percent was used to measure the total OPEB liability as of June 30, 2022.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2022, calculated using the current period discount rate assumption of 7.00 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

^{** 10} year annualized geometric nominal returns, which include the real rate of return and inflation of 2.25 percent and does not include investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

Notes to the Basic Financial Statements

NOTE 17: POST-EMPLOYMENT BENEFITS (CONTINUED)

F. <u>Actuarial Assumptions – STRS</u> (Continued)

		Current	
	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
School District's proportionate share of the net OPEB asset	\$ 6,832,449	\$ 7,390,638	\$ 7,868,772
	1% Decrease	Current Trend Rate	1% Increase
School District's proportionate share of the net OPEB asset	\$ 7,665,888	\$ 7,390,638	\$ 7,043,200

NOTE 18: **RISK MANAGEMENT**

A. Property and Liability

The School District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During fiscal year 2023, the School District contracted with Liberty Mutual Insurance Company for fleet and liability insurance, boiler and machinery, property and inland marine coverage. Coverages provided were as follows:

Building, Contents, Boiler and Machinery Contents	
(\$5,000 deductible)	\$ 283,083,661
Crime Insurance (\$1,000 deductible)	1,000,000
Automobile Liability (\$1,000 Comprehensive deductible/	
\$1,000 Collision deductible)	1,000,000
Uninsured Motorists	500,000
General Liability (per occurrence)	1,000,000
General Liability (total per year)	2,000,000
Commercial Umbrella Limit	10,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant change from prior year's coverage.

B. Self-Insurance Program

The self-insurance program for health care has been administered by Medical Mutual of Ohio since January, 2001. Medical Mutual of Ohio began administering the program in January, 2001. Payments are made to Medical Mutual of Ohio for the actual amount of claims processed, monthly stop-loss premiums, and administrative charges. Operating revenues of the fund consist of payments from other funds and are based on self-insurance losses, policy stop-loss premiums, and other operating expenses.

Notes to the Basic Financial Statements June 30, 2023 (continued)

NOTE 18: **RISK MANAGEMENT** (**CONTINUED**)

B. **Self-Insurance Program** (Continued)

The claims liability of \$1,269,555 reported in the fund at June 30, 2023 was estimated by the third-party administrator and is based on the requirements of GASB Statement No. 30, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be reported.

The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses (GASB Statement No. 30). Changes in the fund's claims liability amount for the fiscal years ended June 30, 2022 and 2021 were:

	Beginning Current Claim						
	of Year	Year Claims	Payments	End of Year			
June 30, 2022	\$ 941,630	\$8,726,619	\$ (8,374,449)	\$1,293,800			
June 30, 2023	1,293,800	9,118,276	(9,142,974)	1,269,102			

C. Workers' Compensation Program

The School District participates in the State Workers' Compensation group retrospective rating and payment system. The plan involves the payment of a minimum premium for administrative services and stop loss coverage plus the actual claim costs for employees injured from 2004 through 2011. The program for workers' compensation is administered by Comp Management Inc. Payments are made directly to the Ohio Bureau of Workers' Compensation for actual claims processed. Operating revenues of the fund consist of payments from other funds and earnings on the investing of these funds that are based on self-insurance losses, policy stop-loss premiums, and other operating expenses.

For fiscal year 2023, the School District participated in the Ohio SchoolComp Group Retrospective Rating Program, which is administered by Comp Management, a third-party administrator. The Group Retrospective Rating Program offers an opportunity for school districts that may not qualify for Group Rating or only qualify for a low discount and have an increased emphasis on safety and claims management. Through the program, school districts are grouped together to achieve premium refunds based on the performance of the group. However, school districts continue to pay their own individual merit-rated premium to the Ohio BWC and depending on the performance, the participating school districts can receive either a retrospective premium refund or assessment (maximum assessment selected per group). Retrospective refunds are achieved when the standard premium of the group exceeds the developed claims costs.

Notes to the Basic Financial Statements June 30, 2023 (continued)

NOTE 19: JOINTLY GOVERNED ORGANIZATIONS

Ohio Schools' Council Association (Council) – The Council is a jointly governed organization among 249 members in 34 counties. The jointly governed organization was created by school districts for the specific purpose of saving dollars through volume purchases. Each school district supports the Council by paying an annual participation fee. Each school district member's superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board meets monthly September through June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board.

In fiscal year 2023, the School District paid \$7,431 to the Council. Financial information can be obtained by contacting William J. Zelei, the Executive Director of the Ohio Schools' Council at 6393 Oak Tree Boulevard, Suite 377, Independence, Ohio 44131.

The School District participates in the natural gas purchase program. This program allows the School District to purchase natural gas at reduced rates. Constellation New Energy (formerly Compass Energy) has been selected as the supplier and program manager. There are currently more than 170 participants in the program. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). School Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and school districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

NOTE 20: **RELATED ORGANIZATION**

<u>Euclid Public Library</u> – The Euclid Public Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the Euclid City School District's Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the School District for operational subsidies. Although the School District serves as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate, and the purpose are discretionary decisions made solely by the Library's Board of Trustees. Financial information can be obtained from the Euclid Public Library at 631 East 222nd Street, Euclid, Ohio 44123.

Notes to the Basic Financial Statements
June 30, 2023
(continued)

NOTE 21: **CONTINGENCIES**

A. Grants

The School District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2023, if applicable, cannot be determined at this time.

B. Litigation

The School District is not party to legal proceedings.

C. State Foundation Funding

School District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education (ODE) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. As of the date of this report, all ODE adjustments for fiscal year 2023 are finalized.

NOTE 22: INTERFUND TRANSACTIONS

A. Due from/to Other Funds

On June 30, 2023, interfund balances on fund financial statements consist of the following:

R	Receivable		Payable		
\$	6,650,624	\$	-		
			3,821,629		
	-		2,266,495		
			562,500		
\$	6,650,624	\$	6,650,624		
	\$ \$	- -	\$ 6,650,624 \$		

Monies were advanced from the general fund to various nonmajor governmental funds to cover operating expenditures until additional monies are received. These interfund balances will be repaid once the anticipated revenues are received.

Notes to the Basic Financial Statements
June 30, 2023
(continued)

NOTE 22: <u>INTERFUND TRANSACTIONS</u> (CONTINUED)

B. Interfund Transfers

On June 30, 2023, interfund transfers on fund financial statements consist of the following:

	Transfers In	Transfers Out			
Major Governmental Funds					
General	\$ -	\$ 793,830			
Bond Retirement	586,830	480,000			
Total Major Governmental Funds	586,830	1,273,830			
Nonmajor Governmental Funds					
Special Revenue Funds	300,000	-			
Capital Projects Funds	6,787,558	5,479,003			
Total Nonmajor Governmental Funds	7,087,558	5,479,003			
Nonmajor Proprietary Funds					
Enterprise Fund		921,555			
Total Interfund Transfers	\$ 7,674,388	\$ 7,674,388			

Transfers were made to provide additional resources for current operations. The interfund transfers between governmental activities were eliminated on the entity-wide financial statements.

NOTE 23: **SET-ASIDE REQUIREMENTS**

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years. In prior years, the School District was also required to set aside money for budget stabilization. At June 30, 2023, only the unspent portion of certain workers' compensation refunds continues to be a required set-aside. As a result of the implementation of GASB Statement No. 54, the School District's budget stabilization amount has been classified as unassigned fund balance. This fund balance classification is necessary since the School District does not provide specific circumstances and these circumstances could occur routinely. The following cash basis information describes the changes in the fiscal year end set-aside amounts for capital acquisition and budget stabilization.

Notes to the Basic Financial Statements
June 30, 2023
(continued)

NOTE 23: **SET-ASIDE REQUIREMENTS** (Continued)

Disclosure of this information is required by State statute.

	Capital	Budget
	Improvements	Stabilization
Set-Aside Constraint Balance as of June 30, 2022	\$ -	\$ 476,511
Current Year Set-Aside Requirements	984,033	-
Qualifying Disbursements	(116,949)	-
Current Year Offsets:		
Permanent Improvement Levy-related Proceeds	(867,084)	
Totals		476,511
Set-Aside Balance Carried Forward to Future		
Fiscal Years	\$ -	\$ 476,511
Set-Aside Constraint Balance as of June 30, 2023	\$ -	\$ 476,511
	\$ - \$ -	

Although the School District had qualifying disbursements or current year offsets during the year that reduced the capital improvements set-aside amount below zero, these extra amounts may not be used to reduce the set-aside requirement in future fiscal years.

NOTE 24: OTHER COMMITMENTS

The School District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end are components of fund balance for subsequent year expenditures and may be reported as part of restricted, committed, or assigned classifications of fund balance. As of June 30, 2023, the School District's commitments for encumbrances in the governmental funds were as follows:

	Encumbrances
Fund	Outstanding
General Fund	\$ 3,371,125
ESSER Fund	1,258,308
Nonmajor Governmental:	
Special Revenue Funds	1,377,614
Capital Project Funds	1,496,798
Total	\$ 7,503,845

Notes to the Basic Financial Statements
June 30, 2023
(continued)

NOTE 25: **TAX ABATEMENTS**

As of June 30, 2023, the School District had forgone tax revenue in the form of property taxes as a result of tax abatement agreements entered into by another government (the City of Euclid). The City provides tax abatements through Community Reinvestment Area programs. Pursuant to Ohio Revised Code Chapter 5709, the City established six Community Reinvestment Area Program districts targeting specific portions of the City for development and redevelopment. The City provides administrative approval of tax abatement for qualifying investments. The amount of the abatement is deducted from the recipient's property tax bill. For fiscal year 2023, the School District's value of the property taxes forgone amounted to \$2,800,252 (tax year 2022).

Net Pension Liability

Changes of benefit terms- SERS

There were no changes in benefit terms from the amounts reported for fiscal years 2014-2017 and 2019-2023.

The following changes were made to the benefit terms in 2018 as identified: The COLA was changed from a fixed 3.00% to a COLA that is indexed to CPI-W not greater than 2.5% with a floor of 0% beginning January 1, 2018. In addition, with the authority granted the Board under HB 49, the Board has enacted a three-year COLA suspension for benefit recipients in calendar years 2018-2020.

Changes in assumptions- SERS

There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2014-2016 and 2018-2021. For fiscal year 2017, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the assumed rate of inflation was reduced from 3.25% to 3.00%, (b) payroll growth assumption was reduced from 4.00% to 3.50%, (c) assumed real wage growth was reduced from 0.75% to 0.50%, (d) Rates of withdrawal, retirement and disability were updated to reflect recent experience, (e) mortality among active members was updated to RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females, (f) mortality among service retired members, and beneficiaries was updated to the following RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates and (g) mortality among disable member was updated to RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement (h) change in discount rate from 7.75% to 7.5%. For fiscal year 2022, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) the assumed rate of inflation was reduced from 3.00% to 2.40%, (b) assumed real wage growth was reduced from 0.% to 0.85%, (c) Cost-of-Living-Adjustments was reduced from 2.50% to 2.00% (d) Rates of withdrawal, retirement and disability were updated to reflect recent experience, (e) mortality amount active members, service retirees and beneficiaries, and disabled members were updated (i) change in discount rate from 7.50% to 7.00%. For fiscal year 2023, Cost-of-Living-Adjustments were increased from 2.00% to 2.50%.

Changes in benefit terms – STRS

There were no changes in benefit terms from the amounts reported for fiscal years 2014-2023.

Changes in assumptions – STRS

There were no changes in methods and assumptions used in the calculation of actuarial determined contributions for fiscal years 2014-2017 and 2019-2021. For fiscal year 2018, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) inflation assumption lowered from 2.75% to 2.50%, (b) investment return assumption lowered from 7.75% to 7.45%, (c) total salary increases rates lowered by decreasing the merit component of the individual salary increases, as well as by 0.25% due to lower inflation, (d) payroll growth assumption lowered to 3.00%, (e) updated the healthy and disable mortality assumption to the "RP-2014" mortality tables with generational improvement scale MP-2016, (f) rates of retirement, termination and disability were modified to better reflect anticipated future experience.

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2023

For fiscal year 2022, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) investment return assumption lowered from 7.45% to 7.00%, (b) discount rate of return reduced from 7.45% to 7.00%. For fiscal year 2023, the following changes of assumptions affected the total pension liability since the prior measurement date: (a) projected salary increases changed from, 12.50% at age 20 to 2.50% at age 65, to, varies by service from 2.50% to 8.50% (b) post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020. Preretirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Net OPEB Liability

Changes of benefit terms- SERS

There were no changes in benefit terms from the amounts reported for fiscal years 2018-2023.

Changes in Assumptions – SERS

Amounts reported for fiscal years 2018-2023 incorporate changes in key methods and assumptions used in calculating the total OPEB liability as presented below:

Municipal Bond Index Rate:	
Fiscal year 2023	3.69 percent
Fiscal year 2022	1.92 percent
Fiscal year 2021	2.45 percent
Fiscal year 2020	3.13 percent
Fiscal year 2019	3.62 percent
Fiscal year 2018	3.56 percent
Fiscal year 2017	2.92 percent
Single Equivalent Interest Rate, net of plan investment	nent expense,
including price inflation	-
Fiscal year 2023	4.08 percent
Fiscal year 2022	2.27 percent
Fiscal year 2021	2.63 percent
Fiscal year 2020	3.22 percent
Fiscal year 2019	3.70 percent
Fiscal year 2018	3.63 percent
Fiscal year 2017	2.98 percent
Medicare Trend Assumption	
Medicare	
Fiscal year 2023	7.000 percent decreasing to 4.40 percent
Fiscal year 2022	5.125 percent decreasing to 4.40 percent
Fiscal year 2020	5.250 percent decreasing to 4.75 percent
Fiscal year 2019	5.375 percent decreasing to 4.75 percent
Fiscal year 2018	5.500 percent decreasing to 5.00 percent
Pre – Medicare	
Fiscal year 2023	7.00 percent decreasing to 4.40 percent
Fiscal year 2022	6.75 percent decreasing to 4.40 percent
Fiscal year 2020	7.00 percent decreasing to 4.75 percent
Fiscal year 2019	7.25 percent decreasing to 4.75 percent

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2023

Fiscal year 2018

7.50 percent decreasing to 5.00 percent

Changes in Assumptions – STRS

For fiscal year 2018, the discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB) and the long term expected rate of return was reduced from 7.75 percent to 7.45 percent. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trend rates were modified along with the portion of rebated prescription drug costs.

For fiscal year 2019, the discount rate was increased from the blended rate of 4.13 percent to the long-term expected rate of return of 7.45.

For fiscal years 2020 and 2021, the health care cost trend rates were modified.

For fiscal year 2022, the discount rate was decreased from 7.45 percent to 7.00 percent. The health care cost trend rates modified.

For fiscal year 2023, projected salary increases changed from, 12.50% at age to 2.50% at age 65, to, varies by service from 2.50% to 8.50%. The health care cost trend rates were modified.

Changes in Benefit Terms – STRS

For fiscal year 2018, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1 percent to 1.9 percent per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 2020.

For fiscal year 2019, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.

For fiscal year 2020, claims curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984 per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1,2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For fiscal year 2021, Claim curves were updated to reflect the projected fiscal year end 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

There were no benefit term changes from the amounts reported for fiscal year 2022 and 2023.

SUPPLEMENTAL DATA

Fund Descriptions Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

Special Revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. Descriptions of the School District's nonmajor special revenue funds follow:

Special Trust – This fund accounts for monies used for purposes that are beneficial to the overall operation of the School District.

<u>Public School Support</u> - This fund is used for the general support of the school building, staff, and students. Due to the implementation of GASB Statement No. 54, this fund was combined with the General Fund on the governmental fund financial statements but remained a separate fund in the budgetary schedules because it has a separate legally adopted budget.

<u>Other Grants</u> - This fund is used to account for the proceeds of specific revenue sources, except for State and Federal grants that are legally restricted to expenditures for specified purposes.

<u>Classroom Facilities Maintenance</u> – This fund is used to account for the proceeds of a levy for the maintenance of facilities. The School District utilizes the equivalent of 0.5 mill from its on-going Permanent Improvement Levy for 23 years.

<u>Termination Benefits</u> – This fund accumulated funds to pay termination benefits to eligible employees. Due to the implementation of GASB Statement No. 54, this fund was combined with the General Fund on the governmental fund financial statements but remained a separate fund in the budgetary schedules because it has a separate legally adopted budget.

<u>Student Managed Activity</u> - This fund is used to account for those student activity programs which has student participation in an activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer and faculty advisor.

<u>District Managed Student Activity</u> - This fund is used to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund includes all athletic programs, except supplemental coaching contacts, and accounts for revenues and costs of the School District's athletic programs and other district managed student activities.

<u>Auxiliary Services</u> – This fund accounts for monies which provide services and materials to pupils attending non-public schools within the School District.

<u>Student Wellness and Success</u> – This fund accounts for services to students meeting the needs of the whole child, including mental health services. This fund did not have any activities in fiscal year, therefore there is no budgetary.

<u>Public School Preschool</u> – This fund accounts for monies which assist the School District in paying the cost of preschool programs for three- and four-year-olds.

Fund Descriptions Nonmajor Governmental Funds

<u>Agriculture Education</u> – This fund accounts for monies that are used to support the Urban Agriculture CTE program.

<u>Miscellaneous State Grants</u> – This fund accounts for various monies received from state agencies which are not classified elsewhere.

<u>21st Century</u> – This fund accounts for monies to restricted for community learning centers that provide academic enrichment opportunities during non-school hours for students who attend high-poverty and low-performing schools.

<u>IDEA, Part B Special Education, Education of Handicapped Children</u> - The purpose of this Federal program is to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least-restrictive, alternative service patterns, and provision of full educational opportunities to handicapped children at the elementary and secondary levels.

<u>Project Head Start</u> – This fund accounts for monies restricted to promote school readiness by enhancing social and cognitive development of low-income children through the provision of comprehensive health, educational, nutritional, social and other services.

<u>Title I School Improvement Stimulus A</u> – This fund accounts for monies restricted to help schools improve the teaching and learning of children failing, or most at risk of failing to meet challenging State academic achievement standards.

<u>Title III – Limited English Proficiency</u> – This fund accounts for monies restricted to develop and carry out elementary and secondary school programs, including activities at the preschool level, to meet the educational needs of children of limited English proficiency.

<u>Title I – Disadvantaged Children/Targeted Assistance</u> - This fund is used to provide financial assistance to state and local educational agencies to meet the special needs of educationally deprived children.

<u>Drug Free School Grant</u> – This fund accounts for monies used to strengthen programs that prevent the illegal use of alcohol, tobacco, and drugs and coordinate with related Federal, State and community efforts and resources.

IDEA Preschool Grant for the Handicapped – The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for handicapped children ages three through five years.

<u>Improving Teacher Quality</u> - This fund is used to account for monies to hire additional classroom teachers in grades 1 through 3 so that the number of students per teacher will be reduced.

<u>Miscellaneous Federal Grants</u> - This fund is used to account for various monies received through state agencies from the Federal government or directly from the Federal government. The School District utilizes this fund to account for monies restricted for the Safe Routes to School grant passed through from the Ohio Department of Transportation.

Fund Descriptions
Nonmajor Governmental Funds

Nonmajor Capital Projects Fund

Capital Projects funds are used to account for and report financial resources that are restricted, committed or assigned for the acquisition or construction of major capital facilities and other capital assets. Descriptions of the School District's nonmajor capital projects funds follow:

<u>Permanent Improvement</u> – This fund is used to account for all transactions relating to the acquiring, constructing, or improving such permanent improvements as are authorized by Ohio Revised Code, Chapter 5705.

<u>Building</u> – The Building Fund is used to account for financial resources that are restricted to expenditures related to the special bonds for capital facilities.

<u>Replacement</u> – This fund exists for the replacement of equipment and other items not covered by the School District's building and contents insurance.

<u>Classroom Facilities</u> – The Classroom Facilities Fund is used to account for financial resources in connection with contracts entered into by the school district and the Ohio Facilities Construction Commission (OFCC) for the building and equipping of classroom facilities.

Fund Descriptions Nonmajor Enterprise Funds

Enterprise funds are established to account for operations that are financed and operated in a manner similar to private sector businesses where the intent is that the expense (including depreciation) of providing goods or services primarily or solely to the general public, be financed or recovered primarily through user charges.

Food Service – This fund accounts for the provision of food service to the School District.

<u>Customer Services</u> – This fund accounts for services provided primarily to the general public which are financed or recovered through user charges.

Fund Descriptions Internal Service Funds

Internal Service funds are used to account for the financing of services provided by one department or agency to other departments or agencies of the School District or to other school districts on a cost reimbursement basis.

<u>General Rotary</u> – This fund provides for the purchase of services and equipment by internal persons and organizations.

<u>Health Insurance</u> – This fund is to account for the receipt and expense of funds for medical and dental claims for employees.

<u>Workers' Compensation</u> – This fund accounts for the claims and premiums paid to the State for workers' compensation insurance.

Statistical Section

This part of the School District's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

Contents	Page(s)
Financial Trends These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.	S2 – S15
Revenue Capacity These schedules contain information to help the reader assess the School District's most significant local revenue sources and property taxes.	S16 – S22
Debt Capacity These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.	S23 – S27
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the School District's financial activities take place.	S28 – S29
Operating Information These schedules contain service data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.	S30 – S41

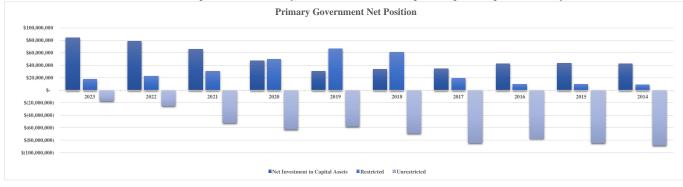

Sources: Unless otherwise noted, the information in these schedules is derived from the basic financial statements for the relevant year.

Notes:

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated actual value. The assessed value of public utility personal property ranges from 25 percent of the actual value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax began phasing out in 2006 and was completely phased out in 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed that year. For the real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed. Beginning in 2006 collection year, the 10 percent rollback for commercial/industrial property has been eliminated.

Notes:

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.

Real property tax rates for voted levies are reduced so that inflationary increases in value do not generate additional revenue.

Overlapping rates are those of local and county governments that apply to property owners within the School District.

Notes:

- (1) Includes Homestead/Rollback taxes assessed locally, but distributed through the State and reported as Revenues from State Sources: Unrestricted Grants-in-Aid.
- (2) The County does not maintain delinquency information by tax year see General Note below.

General Note:

The County is aware of the requirement to report delinquent tax collections by levy year rather than by collection year. The County's current computer system tracks levy amounts by either current levy or delinquent levy. Once amounts become part of the delinquent levy, the ability to track information by levy year is lost. This presentation will be updated as new information becomes available from the County.

Sources:

- School District Financial Records
- Office of the Fiscal Officer, Cuyahoga County, Ohio

Notes:

- (1) Ohio Bond Law sets a limit of 9.0% for overall debt and $1/10^{th}$ of 1.0% for unvoted debt.
- (2) The debt reflects only the principal balance outstanding. Any unamortized premiums, discounts or other adjustments are not included in this amount.
- (3) Section 133.06(I) of the Ohio Revised Code permits a school district to incur net indebtedness in excess of the 9.0 percent limitation when necessary to raise the school district's portion of the basic project cost and any additional funds necessary to participate in a project under Chapter 3318 of the Ohio Revised Code. Since the School District entered into a project under Chapter 3318 of the Ohio Revised Code, this exception was included during the calculation of the overall legal debt margin.

Sources:

- (1) Obtained from the School District's Governmental Fund Financial Statement.
- (2) Based upon EMIS information provided to the Ohio Department of Education
- (3) Information provided to the Ohio Department of Education from the Euclid City School District's Food Service Department. In 2018, the School District became eligible for the Community Eligibility Provision (CEP). This allows the School District to serve breakfast and lunch at no cost to all enrolled students without collection of household applications.

Notes:

Phase I of the School District's Classroom Facilities project commenced during fiscal year 2010 and ended in fiscal year 2013. Phase II began in late fiscal year 2017. The significant expenditure fluctuations in those years can mainly be attributed to the construction projects.

Notes:

The State's education community experienced unprecedented changes during the 2019-20 school year due to the coronavirus (COVID-19) pandemic. As a result and in line with legislative action allowing schools to forego certain state reporting, limited data is available for the 2019-20 school year.

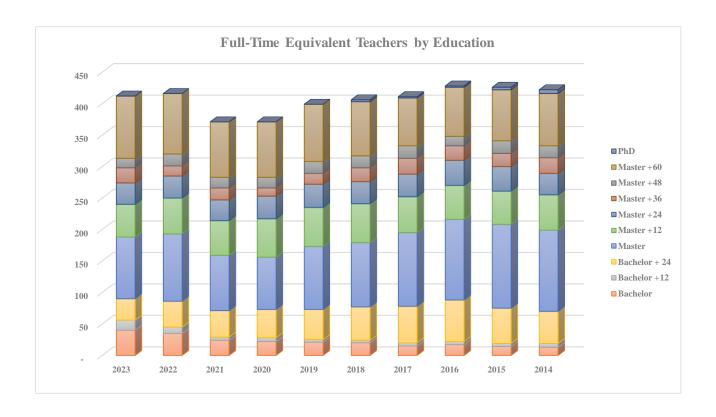

The 4 and 5 year graduation rates look at the percent of students who successfully finished high school with a diploma in four or five years.

Notes:

- (1) At the beginning of the 2020/21 school year, the new High School Middle School Complex was opened. This facility includes a partially renovated/partially new High School and new Middle School all in the same building. The former Central Middle School was demolished and its land transferred to the Cleveland Metropark System.
- (2) These elementary school buildings were completed and functional for the start of the 2012/2013 school year.
- (3) Due to declining enrollment and structural issues, the Euclid City School District closed this building after the 2015/2016 school year. After some abate and demolition work, renovations and new construction, this school building has been repurposed as the new Early Learning Village. Starting in 2019/2020 school year, this building now educates the preschool and kindergarten students.
- (4) Starting in the 2016/2017 school year, students in grades 6 and 7 were placed in Central Middle School and the students in grade 8 were placed in the High School building.
- (5) Starting in the 2019/20 school year, this building was vacated by students and the District Administration moved into this location.
- (6) This school building was leased to another legal entity.
