We have reviewed the *Independent Auditor's Report* of the A+ Children's Academy, Franklin County, prepared by Gueye & Associates, CPA, for the audit period July 1, 2024 through June 30, 2025. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The A+ Children's Academy is responsible for compliance with these laws and regulations.

INDEPENDENT AUDITOR'S REPORT

A+ Children's Academy
Franklin County
2633 Maybury Road
Columbus, OH 43232

To the Board of Education:

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the A+ Children's Academy, Franklin County, Ohio (the Academy), as of and for the fiscal year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Academy's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the A+ Children's Academy, Franklin County, Ohio as of June 30, 2025, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Academy, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter — Going Concern

As discussed in Note 13 to the financial statements, the Academy has suffered recurring operating losses and has a net position deficit of \$1,095,965 as of June 30, 2025. The Academy's cash and cash equivalents decreased from \$278,691 to \$64,182 during fiscal year 2025, and current liabilities of \$250,749 exceed current assets of \$97,470, resulting in a working capital deficit of \$153,279. These conditions raise substantial doubt about the Academy's ability to continue as a going concern.

Management's plans to mitigate these conditions include deferring payments to the Academy's management company, Accel Schools, which has informally agreed to defer fees for payroll, fringe benefits, rent, management fees, and other expenditures while enrollment growth is pursued through marketing efforts. However, no formal written support agreement exists beyond the standard management agreement. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Academy's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Academy's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Academy's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2026, on our consideration of the Academy's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Academy's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Academy's internal control over financial reporting and compliance.

A+ Children's Academy
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2025
(Unaudited)

The discussion and analysis of A+ Children's Academy's (the Academy) financial performance provides an overall review of the financial activities for the fiscal year ended June 30, 2025. The intent of this discussion and analysis is to look at the Academy's financial performance as a whole; readers should also review the basic financial statements and notes to the basic financial statements to enhance their understanding of the Academy's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2025 are as follows:

- Fiscal year 2025 was the thirteenth year of operations for the Academy and we were able to provide services to 98.29 students, which was an increase of 16.14 students from the prior year.
- Total net position of the Academy at June 30, 2025 was a deficit of \$1,095,965 resulting primarily from the recognition of net pension and OPEB liabilities, which amounted to \$855,582.
- The Academy received \$214,095 from federal and state grants which is a decrease of \$579,875 from fiscal year 2024.

Using this Financial Report

This financial report contains the basic financial statements of the Academy, as well as the management's discussion and analysis and the notes to the basic financial statements. The basic financial statements include a statement of net position, a statement of revenues, expenses and changes in net position, and a statement of cash flows. As the Academy reports its operations using enterprise fund accounting, all financial transactions and accounts are reported as one activity, therefore the entity-wide and fund presentation information is the same.

Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, and Statement of Cash Flows

The view of the Academy as a whole looks at all financial transactions and asks the question, "How did we do financially during 2025?" The statement of net position and the statement of revenue, expenses and changes in net position answer this question. These statements include all assets, liabilities, and deferred inflows/outflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting considers all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the Academy's net position and changes in net position. This change in net position is important because it tells the reader whether, for Academy as a whole, the financial position has improved or diminished. The causes of this may be the result of many factors, some financial, some not. Non-financial factors include current laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

The statement of cash flows provides information about how the Academy finances and is meeting its cash flow needs for operations.

Table 1 provides a summary of the Academy's net position at June 30, 2025 as compared to June 30, 2024.

A+ Children's Academy
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2025

Table 1
Net Position

	2025	2024
<i>Assets</i>		
Current and Other Assets	\$158,088	\$418,880
Capital Assets, Net	10,804	65,598
Total Assets	168,892	484,478
<i>Deferred Outflows of Resources</i>	331,759	263,603
<i>Liabilities</i>		
Current and Other Liabilities	250,749	175,004
Noncurrent Liabilities	855,582	888,002
Total Liabilities	1,106,331	1,063,006
<i>Deferred Inflows of Resources</i>	490,285	555,044
<i>Net Position</i>		
Investment in Capital Assets	9,160	57,690
Restricted	85,825	268,238
Unrestricted (Deficit)	(1,190,950)	(1,195,897)
Total Net Position	(\$1,095,965)	(\$869,969)

Total assets decreased \$315,586 due to a decrease in cash and cash equivalents, capital assets, net, resulting primarily from depreciation/amortization expense, and intergovernmental receivables. Deferred outflows of resources increased \$68,156 due to an increase in the actuarially determined amounts related to the Academy's proportionate share of the state-wide net pension liability, which was partially offset by a decrease in OPEB liability. Total liabilities increased \$43,325 due primarily to an increase in the Academy's accounts payable, which was partially offset by a decrease in the proportionate share of the state-wide net OPEB liability. Deferred inflows of resources decreased \$64,759 due to a decrease in the actuarially determined amounts related to the Academy's proportionate share of the state-wide net pension and OPEB liabilities.

Table 2 shows the changes in net position for fiscal years 2025 and 2024.

Table 2
Change in Net Position

(Unaudited)

Table 2
Change in Net Position
(Continued)

	2025	2024
<i>Operating Expenses</i>		
Salaries	\$0	\$1,500
Fringe Benefits	(309,695)	(9,642)
Purchased Services	1,691,267	1,714,798
Materials and Supplies	48,189	110,901
Depreciation	9,832	9,836
Other Expenses	93,319	73,667
Total Operating Expenses	<u>1,532,912</u>	<u>1,901,060</u>
Operating Loss	(383,034)	(711,589)
<i>Nonoperating Revenues (Expenses)</i>		
State and Federal Grants	214,095	793,970
Loss on Disposal of Capital Assets	(56,661)	0
Interest	(396)	(694)
Total Nonoperating Revenues (Expenses)	<u>157,038</u>	<u>793,276</u>
Change in Net Position	(225,996)	81,687
Net Position, Beginning of Year	<u>(869,969)</u>	<u>(951,656)</u>
Net Position, End of Year	<u>(\$1,095,965)</u>	<u>(\$869,969)</u>

The majority of the Academy's revenue comes from the state foundation payments, including allocations for special education, which account for 84% of total revenues. The Academy also receives significant federal and state funding, which account for 16% of total revenues.

Revenues decreased between years due to a decrease in other operating revenues and state and federal grants, which were partially offset by an increase in foundation payments. The Academy experienced a decrease in expenses primarily due to a decrease in fringe benefits as a result of a net gain from pension and OPEB.

Capital Assets

At June 30, 2025, the Academy had \$10,804 invested in capital assets. Table 3 shows the fiscal year 2025 balances compared to 2024.

Table 3
Capital Assets
(Net of Accumulated Depreciation/Amortization)

	2025	2024
Buildings and improvements	\$0	\$58,377

Note 1 – Description of the Reporting Entity

A+ Children's Academy (the Academy) is a nonprofit corporation established pursuant to Ohio Revised Code, Chapters 3314 and 1702, to address the needs of students in grades kindergarten through five. The Academy qualifies as an exempt organization under section 501(c)(3) of the Internal Revenue Code. The Academy's mission is to cultivate a passion for learning through an engaging standards-based integrated curriculum that addresses students' social, emotional, academic, and cognitive needs. Academy students will be excited about learning, prepared for learning, and supported in their learning. The Academy, which is part of the State's education program, is independent of any school district and is nonsectarian in its programs, admission policies, employment practices, and all other operations. The Academy may sue and be sued, acquire facilities as needed, and contract for any services necessary for the operation of the Academy.

The Academy was approved for operation under contract with the Office of School Sponsorship maintained through the Ohio Department of Education and Workforce for a period of three years commencing July 1, 2022.

The Academy operates under the direction of a five member Board of Directors (the Board). The Board is responsible for carrying out the provisions of the contract with the Sponsor, which include but are not limited to, state-mandated provisions regarding student population, curriculum, academic goals, performance standards, admissions standards and qualifications of teachers. The Academy's Superintendent serves as a non-voting member of the Board. The Board controls the Academy's one instructional/support facility staffed by administrators, teachers, aides, and part time administrative aide who provide services to 98.29 students (FTE).

The Academy contracts with Accel Schools for management services including management of personnel and human resources, the program of instruction, marketing data management, purchasing, strategic planning, public relation, financial reporting, recruiting, compliance issues, budgets, contracts, and equipment and facilities.

Note 2 – Summary of Significant Accounting Policies

The Academy's financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental nonprofit organizations. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Academy's accounting policies are described below.

Basis of Presentation

The Academy's basic financial statements consist of a statement of net position, a statement of revenues, expenses and changes in net position, and a statement of cash flows. The Academy uses enterprise accounting to track and report on its financial activities. Enterprise fund reporting focuses on the determination of the changes in net position, financial position and cash flows.

Measurement Focus and Basis of Accounting

Enterprise accounting uses a flow of economic resources measurement focus. With this measurement focus, all assets, liabilities, and deferred inflows/outflows of resources are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (e.g. revenues) and decreases (e.g. expenses) in total net position. The statement of cash flows reflects how the Academy finances and meets its cash flow needs.

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting is used for reporting purposes. Revenues are recognized when they are earned, and expenses are recognized when they are incurred.

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Budgetary Process

Community schools are statutorily required to adopt a budget by Ohio Revised Code Section 3314.032(C). However, unlike traditional public schools located in the State of Ohio, community schools are not required to follow the specific budgetary process and limits set forth in Ohio Revised Code Chapter 5705, unless specifically provided in the contract between the Academy and its Sponsor. The contract between the Academy and its Sponsor does prescribe an annual budget requirement in addition to preparing a five-year forecast, which is to be updated on an annual basis. Each year, the Academy's Board of Directors, with the assistance of the Academy's designated fiscal officer, is required to adopt an annual budget by the thirty-first day of October using the format and guidelines prescribed by the Ohio Department of Education and Workforce (DEW).

Cash

All monies received by the Academy are accounted for by the Academy's treasurer. All cash received is maintained in accounts in the Academy's name. Monies for the Academy are maintained in checking accounts.

Capital Assets and Depreciation/Amortization

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the date received. The Academy maintains a capitalization threshold of five thousand dollars.

Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

Capital assets are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight line method over the following useful lives:

Description	Estimated Lives
Computers and related equipment	3 years
Office furniture	5 years
Building and building improvements	40 years
Parking lot and landscaping	10 years

Amortization of intangible right to use leased assets is computed using the straight-line method over the shorter of the lease term or the useful life of the underlying asset.

Intergovernmental Revenues

The Academy currently participates in the State Foundation Program and State Special Education Program. Revenues from these programs are recognized as operating revenues in the accounting period in which all eligibility requirements are met.

Grants and entitlements are recognized as non-operating revenues in the accounting period in which all eligibility requirements are met.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the Academy must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the Academy on a reimbursement basis.

Amounts awarded under grants and entitlements and received from the State Foundation for the fiscal year ended June 30, 2025 totaled \$1,149,878.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. The Academy reports deferred outflows of resources in the statement of net position for amounts related to pensions and other postemployment benefits, which will be further discussed in notes 7 and 8.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the Academy, deferred inflows of resources include amounts related to pensions and other postemployment benefits, which will be further discussed in notes 7 and 8.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the financial statements. In general, payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations. However, claims and judgments and lease payable that will be paid from available funds are reported as a liability in the financial statements only to the extent that they are due for payment during the current fiscal year. Net pension/OPEB liability should be recognized to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

Net Position

Net position represents the difference between assets, liabilities and deferred inflows/outflows of resources. Net investment in capital assets, consist of capital assets, net of accumulated depreciation/amortization, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets.

Net position is reported as restricted when there are limitations imposed on their use either through constitutional provisions, or enabling legislation adopted or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Other purposes restricted net position includes various grants and other resources restricted for various purposes. Restricted net position for net OPEB assets represents the corresponding restricted amounts held in trust by the OPEB plans for future benefits, net of related deferred outflows and inflows of resources. The Academy's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Of the Academy's restricted net position, none are restricted by enabling legislation.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activities of the Academy. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the Academy. Revenues and expenses not meeting these definitions are reported as nonoperating.

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Pensions/OPEB

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense (gain), information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

Note 3 - Deposits

At June 30, 2025, the carrying amount of the Academy's deposits was \$64,182 and the bank balance was \$117,346. All of the bank balance was covered by the Federal Depository Insurance Corporation (FDIC).

Note 4 - Receivables

Receivables at June 30, 2025 primarily consist of intergovernmental receivables arising from grants and entitlements. All receivables are considered collectable in full. A summary of the principal items of receivables follows:

School Employees Retirement System	\$10,251
Title I Grant	10,517
Title I School Improvement Grant	12,124
State Foundation	396
Total	<u>\$33,288</u>

Note 5 – Capital Assets

A summary of the changes in capital assets during fiscal year 2025 follows:

	Balance at 6/30/24	Additions	Deletions	Balance at 6/30/25
Capital Assets Being Depreciated/Amortized				
Buildings and Improvements	\$68,647	\$0	(\$68,647)	\$0
Office Furniture and Equipment	34,471	11,699	(5,180)	40,990
Intangible Right to Use Leased Assets	306,651	0	(277,771)	28,880
<i>Total Capital Assets Being Depreciated/Amortized</i>	<u>409,769</u>	<u>11,699</u>	<u>(351,598)</u>	<u>69,870</u>
Accumulated Depreciation/Amortization				
Buildings and Improvements	(10,270)	(1,716)	11,986	0
Office Furniture and Equipment	(34,471)	(2,340)	5,180	(31,631)
Intangible Right to Use Leased Assets	(299,430)	(5,776)	277,771	(27,435)
<i>Total Accumulated Depreciation/Amortization</i>	<u>(344,171)</u>	<u>(9,832)</u>	<u>294,937</u>	<u>(59,066)</u>
<i>Total Capital Assets, Net</i>	<u>\$65,598</u>	<u>\$1,867</u>	<u>(\$56,661)</u>	<u>\$10,804</u>

Of the current year depreciation/amortization total of \$9,832, \$5,776 is related to the Academy's intangible copier assets, which are included as an intangible right to use leased asset. The Academy also leases a building, but this asset was fully amortized as of June 30, 2025. In accordance with Governmental Accounting Standards Board Statement No. 87, "Leases", a lease meeting the criteria of this statement requires the lessee to recognize the lease liability and an intangible right to use asset.

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Note 6 – Risk Management

Property and Liability

The Academy is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For the fiscal year ended 2025, the Academy contracted for the following coverage provided by Philadelphia Insurance Company, which includes deductibles ranging from \$1,000 to \$10,000:

General Liability:	
Per Occurrence	\$1,000,000
Personal Injury	1,000,000
General Aggregate	2,000,000
Rented to You	100,000
Medical Expense (Per Person)	5,000
Educators Professional Liability:	
Per Occurrence	1,000,000
Aggregate	2,000,000

The Academy's management company, Accel Schools, has additional coverage to protect the Academy as it relates to services provided by them.

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant reduction in coverage from last year.

Note 7 – Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension/OPEB Liability (Asset)

The net pension/OPEB liability (asset) reported on the statement of net position represents a liability to (asset for) employees for pensions/OPEB. Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pension/OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the Academy's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the Academy's obligation for this liability to annually required payments. The Academy cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the Academy does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients.

The remainder of this note includes the required pension disclosures. See Note 8 for the required OPEB disclosures.

School Employees Retirement System (SERS)

Plan Description – Academy non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost-of-living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. The Retirement Board approved a 2.5 percent COLA for calendar year 2024.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and Academy is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2025, the allocation to

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2025, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The Academy's contractually required contribution to SERS was \$26,250 for fiscal year 2025. Of this amount, \$3,146 is reported as an intergovernmental payable in the accompanying financial statements.

State Teachers Retirement System (STRS)

Plan Description – Academy licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. The calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of credited service. Effective August 1, 2023, any member can retire with unreduced benefits with 34 years of services credit at any age; or five years of service credit and age 65. Effective June 1, 2025 - July 1, 2027, any member can retire with unreduced benefits with 33 years of service credit at any age; or five years of service credit and age 65. Effective on or after August 1, 2027, any member can retire with unreduced benefits with 34 years of service credit at any age; or five years of service credit and age 65.

On April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent upon a determination by its actuary that it was necessary to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective July 1, 2022, an ad-hoc COLA of 3 percent of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2023 as long as they retired prior to July 1, 2018. Effective July 1, 2023, a permanent 1 percent COLA of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2024 as long as they retired prior to July 1, 2019.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits effective August 1, 2023, can retire with 29 years of service credit at any age; or five years of service credit and age 60. Effective June 1, 2025 - July 1, 2027, retirement eligibility for reduced benefits is 28 years of service credit at any age; or five years of service credit and age 60. Effective on or after August 1, 2027, retirement eligibility for reduced benefits is 29 years of service credit at any age; or five years of service credit and age 60.

The DC Plan allows members to place all their member contributions and 11.09 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 2.91 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2025 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For 2025, the full employer contribution was allocated to pension.

The Academy's contractually required contribution to STRS was \$90,834 for fiscal year 2025. Of this amount, \$5,882 is reported as an intergovernmental payable in the accompanying financial statements.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

The net pension liability (asset) was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Academy's proportion of the net pension liability was based on the Academy's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension gain:

	SERS	STRS	Total
Proportion of the Net Pension Liability			
Current Measurement Date	0.00393670%	0.003195780%	
Proportion of the Net Pension Liability			
Prior Measurement Date	0.00430760%	0.002682600%	
Change in Proportionate Share	<u>-0.00037090%</u>	<u>0.000513180%</u>	
Proportionate Share of the Net			
Pension Liability	\$201,386	\$614,920	\$816,306
Pension Gain	(\$10,924)	(\$3,115)	(\$14,039)

At June 30, 2025, the Academy reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

	SERS	STRS	Total
<i>Deferred Outflows of Resources</i>			
Differences between expected and actual experience	\$7,686	\$38,725	\$46,411
Changes of assumptions	1,801	28,340	30,141
Changes in proportion and differences between Academy contributions and proportionate share of contributions	0	73,411	73,411
Academy contributions subsequent to the measurement date	26,250	90,834	117,084
Total Deferred Outflows of Resources	<u>\$35,737</u>	<u>\$231,310</u>	<u>\$267,047</u>
<i>Deferred Inflows of Resources</i>			
Differences between expected and actual experience	\$0	\$336	\$336
Changes of assumptions	0	21,331	21,331
Net difference between projected and actual earnings on pension plan investments	12,597	52,872	65,469
Changes in proportion and differences between Academy contributions and proportionate share of contributions	87,992	112,721	200,713
Total Deferred Inflows of Resources	<u>\$100,589</u>	<u>\$187,260</u>	<u>\$287,849</u>

\$117,084 reported as deferred outflows of resources related to pension resulting from Academy contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense (gain) as follows:

	SERS	STRS	Total
Fiscal Year Ending June 30:			
2026	(\$58,733)	(\$1,086)	(\$59,819)
2027	(23,122)	(25,004)	(48,126)
2028	(5,539)	(25,005)	(30,544)
2029	(3,708)	4,311	603
Total	<u>(\$91,102)</u>	<u>(\$46,784)</u>	<u>(\$137,886)</u>

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2137.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2024, below:

Inflation	2.4 percent
Future Salary Increases, including inflation	3.25 percent to 13.58 percent
COLA or Ad Hoc COLA	2.0 percent, on or after April 1, 2018, COLAs for future retirees will be delayed for three years following commencement
Investment Rate of Return	7.00 percent net of System expenses
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. ORC 3309.15 and the SERS Board-adopted Investment Policy govern investment activity. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. As of June 30, 2024:

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (geometric)
Cash	3.00 %	0.97 %
US Equity	22.00	4.68
Non-US Equity Developed	12.00	4.96
Non-US Equity Emerging	6.00	5.66
Fixed Income/Global Bonds	18.00	2.38
Private Equity	14.00	7.10
Real Estate	13.00	3.64
Infrastructure	7.00	4.80
Private Debt/Private Credit	5.00	5.86
Total	<u>100.00 %</u>	

Discount Rate The total pension liability for 2024 was calculated using the discount rate of 7.00 percent. The discount rate determination did not use a municipal bond rate. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 20-year amortization period of the unfunded actuarial accrued liability. The actuarially determined contribution rate for fiscal year 2024 was 14 percent. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.00 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability. The annual money-weighted rate of return, calculated as the internal rate of return on pension plan investments, for fiscal year 2024 was 9.31 percent.

Sensitivity of the Academy's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.00 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent), or one percentage point higher (8.00 percent) than the current rate.

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Academy's proportionate share of the net pension liability	\$308,092	\$201,386	\$111,545

Actuarial Assumptions – STRS

Key methods and assumptions used in the June 30, 2024, actuarial valuation are presented below:

Inflation	2.50 percent
Salary increases	From 2.5 percent to 8.5 percent based on service
Investment Rate of Return	7.00 percent, net of investment expenses, including inflation
Discount Rate of Return	7.00 percent
Payroll Increases	3.00 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024, valuation are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation *</u>	<u>Long-Term Expected Rate of Return **</u>
Domestic Equity	26.00%	6.90%
International Equity	22.00	7.70
Alternatives	19.00	9.10
Fixed Income	22.00	4.50
Real Estate	10.00	5.10
Liquidity Reserves	1.00	2.40
Total	<u>100.00%</u>	

* Final target weights reflected at October 1, 2022.

** 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.4 percent, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocation should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total pension liability was 7.00 percent as of June 30, 2024. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on pension plan investments of 7.00 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2024.

Sensitivity of the Academy's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the Academy's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00 percent, as well as what the Academy's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00 percent) or one-percentage-point higher (8.00 percent) than the current rate:

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Academy's proportionate share of the net pension liability	\$991,973	\$614,920	\$295,997

Note 8 – Defined Benefit OPEB Plans

See note 7 for a description of the net OPEB liability (asset).

School Employees Retirement System (SERS)

Health Care Plan Description - The Academy contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. The following types of credit purchased after January 29, 1981, do not count toward health care coverage eligibility: military, federal, out-of-state, municipal, private school, exempted, and early retirement incentive credit. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

The Health Care program is financed through a combination of employer contributions, recipient premiums, investment returns, and any funds received on behalf of SERS' participation in Medicare programs. The System's goal is to maintain a health care reserve account with a 20-year solvency period in order to ensure that fluctuations in the cost of health care do not cause an interruption in the program. However, during any period in which the 20-year solvency period is not achieved, the System shall manage the Health Care Fund on a pay-as-you-go basis.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2025, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2025, this amount was \$30,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2025, the Academy's surcharge obligation was \$1,570.

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The Academy's contractually required contribution to SERS was \$1,570 for fiscal year 2025, which was recorded as an intergovernmental payable in the accompanying financial statements.

State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Health care premiums were reduced by a Medicare Part B premium credit beginning in 2023. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Medicare Part D is a federal program to help cover the costs of prescription drugs for Medicare beneficiaries. This program allows STRS Ohio to recover part of the cost for providing prescription coverage since all eligible STRS Ohio health care plans include creditable prescription drug coverage.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2025, STRS did not allocate any employer contributions to post-employment health care.

Net OPEB Liability (Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The Academy's proportion of the net OPEB liability (asset) was based on the Academy's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB gain:

	SERS	STRS	Total
Proportion of the Net OPEB Liability (Asset):			
Current Measurement Date	0.00385630%	0.00319578%	
Prior Measurement Date	0.00428810%	0.00268260%	
Change in Proportionate Share	<u>-0.00043180%</u>	<u>0.00051318%</u>	
Proportionate Share of the:			
Net OPEB Liability	\$39,276	\$0	\$39,276
Net OPEB (Asset)	\$0	(\$60,618)	(\$60,618)
Net OPEB Gain	(\$21,667)	(\$17,775)	(\$39,442)

At June 30, 2025, the Academy reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
<i>Deferred Outflows of Resources</i>			
Differences between expected and actual experience	\$0	\$2,636	\$2,636
Changes of assumptions	16,857	7,462	24,319
Net difference between projected and actual earnings on pension plan investments	193	0	193
Changes in proportionate share and difference between Academy contributions and proportionate share of contributions	32,138	3,856	35,994
Academy contributions subsequent to the measurement date	1,570	0	1,570
Total Deferred Outflows of Resources	<u>\$50,758</u>	<u>\$13,954</u>	<u>\$64,712</u>
<i>Deferred Inflows of Resources</i>			
Differences between expected and actual experience	\$42,350	\$6,532	\$48,882
Changes of assumptions	18,044	27,340	45,384
Net difference between projected and actual earnings on OPEB plan investments	0	2,604	2,604
Changes in proportionate share and difference between Academy contributions and proportionate share of contributions	102,610	2,956	105,566
Total Deferred Inflows of Resources	<u>\$163,004</u>	<u>\$39,432</u>	<u>\$202,436</u>

\$1,570 reported as deferred outflows of resources related to OPEB resulting from Academy contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability or increase in the net OPEB asset in the fiscal year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (gain) as follows:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Fiscal Year Ending June 30:			
2026	(\$25,970)	(\$8,360)	(\$34,330)

Total	<u>(\$113,816)</u>	<u>(\$25,478)</u>	<u>(\$139,294)</u>

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2024, are presented below:

	<u>June 30, 2024</u>
Inflation	2.40 percent
Future Salary Increases, including inflation	3.25 percent to 13.58 percent
Investment Rate of Return	7.00 percent net of investment expense
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)
Fiduciary Net Position is Projected to be Depleted	2059
Municipal Bond Index Rate:	
Measurement Date	3.93 percent
Prior Measurement Date	3.86 percent
Single Equivalent Interest Rate,	
Measurement Date	4.88 percent
Prior Measurement Date	4.27 percent
Health Care Cost Trend Rate	
Medical Trend Assumption	
Measurement Date	7.00 to 4.40 percent
Prior Measurement Date	6.75 to 4.40 percent

Mortality rates among healthy retirees were based on the PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Mortality rates for contingent survivors were based on PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5 percent for males and adjusted 122.5 percent for females. Mortality rates for actives is based on PUB-2010 General Amount Weighted Below Median Employee mortality table. Mortality rates are projected using a fully generational projection with Scale MP-2020.

The most recent experience study was completed for the five-year period ended June 30, 2020.

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2016 through 2020, and was adopted by the Board on April 15, 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. As of June 30, 2024:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (geometric)
Cash	3.00 %	0.97 %
US Equity	22.00	4.68
Non-US Equity Developed	12.00	4.96
Non-US Equity Emerging	6.00	5.66
Fixed Income/Global Bonds	18.00	2.38
Private Equity	14.00	7.10
Real Estate	13.00	3.64
Infrastructure	7.00	4.80
Private Debt/Private Credit	5.00	5.86
Total	<u>100.00 %</u>	

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2024, was 4.88 percent. The discount rate used to measure total OPEB liability prior to June 30, 2024, was 4.27 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be depleted in 2059 by SERS' actuaries. The Fidelity General Obligation 20-year Municipal Bond Index Rate was used in the determination of the single equivalent interest rate for both the June 30, 2023, and the June 30, 2024, total OPEB liability. The Municipal Bond Index Rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate was 3.93 percent at June 30, 2024, and 3.86 percent at June 30, 2023.

Sensitivity of the Academy's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.88%) and higher (5.88%) than the current discount rate (4.88%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.40%) and higher (8.00% decreasing to 5.40%) than the current rate.

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

	1% Decrease (3.88%)	Current Discount Rate (4.88%)	1% Increase (5.88%)
Academy's proportionate share of the net OPEB liability	\$52,373	\$39,276	\$28,869
	1% Decrease (6.00% decreasing to 3.40%)	Current Trend Rate (7.00% decreasing to 4.40%)	1% Increase (8.00% decreasing to 5.40%)
Academy's proportionate share of the net OPEB liability	\$26,549	\$39,276	\$56,005

Actuarial Assumptions – STRS

Key methods and assumptions used in the June 30, 2024, actuarial valuation compared to the prior year are presented below:

	June 30, 2024	June 30, 2023
Projected salary increases	Varies by service from 2.5 percent to 8.5 percent	Varies by service from 2.5 percent to 8.5 percent
Investment Rate of Return	7.00 percent, net of investment expenses, including inflation	7.00 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3 percent
Discount Rate of Return	7.00 percent	7.00 percent
Health Care Cost Trends		
Medical		
Pre-Medicare	7.50 percent initial 3.94 percent ultimate	7.50 percent initial 4.14 percent ultimate
Medicare	-112.22 percent initial 3.94 percent ultimate	-10.94 percent initial 4.14 percent ultimate
Prescription Drug		
Pre-Medicare	8.00 percent initial 3.94 percent ultimate	-11.95 percent initial 4.14 percent ultimate
Medicare	-15.14 percent initial 3.94 percent ultimate	1.33 percent initial 4.14 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

Healthy retirees post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024, valuation are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	26.00%	6.90%
International Equity	22.00	7.70
Alternatives	19.00	9.10
Fixed Income	22.00	4.50
Real Estate	10.00	5.10
Liquidity Reserves	1.00	2.40
Total	100.00%	

* Final target weights reflected at October 1, 2022.

* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.4 percent, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total OPEB liability was 7.00 percent as of June 30, 2024. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on health care plan investments of 7.00 percent was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2024.

Sensitivity of the Academy's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2024, calculated using the current period discount rate assumption of 7.00 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Academy's proportionate share of the net OPEB asset	(\$49,286)	(\$60,618)	(\$70,479)

	1% Decrease	Current Trend Rate	1% Increase
Academy's proportionate share of the net OPEB asset	(\$71,145)	(\$60,618)	(\$47,958)

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Note 9 - Contingencies

Grants

The Academy received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the Academy. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the Academy at June 30, 2025.

State Foundation Funding

Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education and Workforce (DEW) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. Adjustments for fiscal year 2025 have been finalized. A receivable of \$735 has been reported in the accompanying financial statements as a result of these adjustments.

Under Ohio Revised Code Section 3314.08, DEW may also perform an FTE review subsequent to the fiscal year end that may result in an additional adjustment to the enrollment information as well as claw backs of Foundation funding due to a lack of evidence to support student participation and other matters of noncompliance.

In addition, the Academy's contract with its Sponsor requires payment based on revenues received from the State.

Litigation

The Academy is not currently party to legal proceedings.

Note 10 – Purchased Services

For the fiscal year ended June 30, 2025, purchased service expenses were payments for services rendered by various vendors as follows:

Professional and Technical Services	\$1,316,693
Property Services	208,282
Communications	30,013
Utilities	35,609
Other	100,670
Total Purchased Services	<u>\$1,691,267</u>

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Note 11 - Long-Term Obligations

The changes in the Academy's long-term obligations during the fiscal year consist of the following:

	Principal Outstanding 6/30/24	Additions	Reductions	Principal Outstanding 6/30/25	Amount Due Within One Year
Lease Payable	\$7,908	\$0	(\$6,264)	\$1,644	\$1,644
Net Pension Liability	815,713	593	0	816,306	0
Net OPEB Liability	70,645	0	(31,369)	39,276	0
Total	\$894,266	\$593	(\$37,633)	\$857,226	\$1,644

Obligations related to employee compensation will be paid from the program benefitting from their service.

Leases Payable

The Academy has an outstanding agreement to lease copiers. Due to the implementation of GASB 87, this lease has met the criteria of a lease under GASB 87 which results in the recognition of a liability by the Academy. A summary of the principal and interest amounts for the remainder of the lease is as follows:

Fiscal Year Ended June 30,	Copier	
	Principal	Interest
2026	\$1,644	\$21
Total	\$1,644	\$21

Note 12 – Contracts

Sponsor Contract – Ohio Department of Education and Workforce

The Academy was under the Ohio Department of Education and Workforce as its sponsor and oversight services as required by law. The Academy pays the Sponsor three percent of State Aid. Sponsorship fees are calculated as three percent of state funds received by the Academy from the State of Ohio. For the fiscal year ended June 30, 2025, sponsorship fees totaled \$35,464.

Management Company and Management Company Expenses

The Academy entered into an agreement with Accel Schools, a management company, to provide legal, financial, and other management support services for fiscal year 2025. The agreement was for a period of three-year period beginning July 1, 2022 and ending June 30, 2025. Management fees are calculated as 15% of the Academy's federal, state, and local revenues received, exclusive of certain funds. The management company will also receive a 1.5% annual bonus for a Performance Index score of ten (10) points above similar schools and/or a rating between three (3) and five (5) stars on the progress component score of the Academy's report card issued by the ODE. The total amount due from the Academy for the fiscal year ending June 30, 2025 was \$153,172 and is included under "Purchased Services" on the Statement of Revenues, Expenses and Changes in Net Position.

Also per the management agreement there are expenses that will be billed to the Academy based on the actual costs incurred by Accel Schools. These expenses include salaries of Accel employees working in at the Academy and other costs related to providing education and administrative services. The total amount billed to the Academy inclusive of management fees during fiscal year 2025 was \$673,649.

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

The following is a summary of the management company expenses during fiscal year 2024 (latest information available at the time of this report):

	Regular Instruction (1100 Function Codes)	Special Instruction (1200 Function Codes)	Support Services (2000 Function Codes)	Total
<i>Direct Expenses:</i>				
Salaries & Wages (100 Object Codes)	\$489,315	\$0	\$163,105	\$652,420
Employees' Benefits (200 Object Codes)	68,945	0	22,982	91,927
Professional & Technical Services (410 Object Codes)	0	0	446,622	466,622
Property Services (420 Object Codes)	0	0	193,180	193,180
Utilities (450 Object Codes)	0	0	46,239	46,239
Supplies (500 Object Codes)	89,307	0	36,429	125,736
Other Direct Codes (All Other Object Codes)	0	0	60,883	60,883
<i>Indirect Expenses:</i>				
Overhead	0	0	61,244	61,244
Total Expenses	\$647,567	\$0	\$1,030,684	\$1,678,251

Accel Schools charges expenses benefiting more than one school (i.e. overhead) are pro-rated based on full time equivalent (FTE) head count as of June 30, 2025 by each school it manages.

Fiscal Services

The Academy is a party to a fiscal services agreement with Michael Ashmore, who is an independent contractor. The agreement may be terminated by either part, with or without cause, by giving the other party ninety days written notice to terminate. The agreement provides that Michael Ashmore will perform the following functions for the Academy: 1) financial management services, 2) treasurer services, 3) payroll/payables services, and 4) submission of project cash requests for CCIP.

Payments to Michael Ashmore during fiscal year 2025 totaled \$55,009.

Note 13 – Going Concern and Management Plan

The Academy's financial statements have been prepared assuming that the Academy will continue as a going concern. As of June 30, 2025, the Academy had a net position deficit of \$1,095,965, including an unrestricted deficit of \$1,190,950. During the fiscal year ended June 30, 2025, the Academy incurred an operating loss of \$383,034 and a decrease in net position of \$225,996. Cash and cash equivalents decreased from \$278,691 to \$64,182, and net cash used for operating activities was (\$467,434). Additionally, current liabilities of \$250,749 exceeded current assets of \$97,470, resulting in a working capital deficit of \$153,279. These conditions raise substantial doubt about the Academy's ability to continue as a going concern.

A significant portion of the net position deficit (\$855,582) is attributable to the recognition of non-cash net pension and OPEB liabilities under GASB Statement Nos. 68 and 75, which is common among Ohio community schools and does not require current cash outflows.

Management has evaluated these conditions and has developed plans to mitigate the going concern doubt. The Academy's management company, Accel Schools, has agreed to defer payments for payroll, fringe benefits, rent, management fees, and other expenditures as needed to maintain the Academy's operations and liquidity. As of March 31, 2026, the Academy's cash balance had increased to \$88,351, and rent and payroll obligations were current.

A+ Children's Academy
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

The largest component of accounts payable is owed to the management company, which is in agreement with the deferred payment arrangement and has the financial ability to continue supporting the Academy's operations. Management is also pursuing enrollment growth through marketing efforts coordinated by Accel Schools. As of March 2026, the Academy was being funded for approximately 82 full-time equivalent students.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Academy be unable to continue as a going concern.

State Teachers Retirement System

Pension

Changes in benefit terms

There were no changes to benefit terms for fiscal years 2016 through 2017. For fiscal year 2018, the cost of living adjustment (COLA) was reduced to 0 percent effective July 1, 2017. There were no changes to benefit terms for fiscal years 2019 through 2025.

Changes in assumptions

There were no changes in assumptions for fiscal years 2016 through 2017.

For fiscal year 2018, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date:

- Inflation assumptions were lowered from 2.75 percent to 2.5 percent.
- Investment return assumptions were lowered from 7.75 percent to 7.45 percent.
- Total salary increases rates were lowered by decreasing merit component of the individual salary increases, as well as by 0.25 percent due to lower inflation.
- Payroll growth assumptions were lowered from 3.5 percent to 3.0 percent.
- Updated the health and disability mortality assumption to the RP-2014 mortality tables with generational improvement scale MP-2016.
- Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

There were no changes in assumptions for fiscal years 2019 through 2021.

For fiscal year 2022, the following was the most significant change of assumptions that affected the total pension liability since the prior measurement date:

- Investment rate of return and discount rate of return assumptions were lowered from 7.45 percent to 7.0 percent.

For fiscal year 2023, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date:

- Updated the health and disability mortality assumption to the PUB-2010 mortality tables with generational improvement scale MP-2020.
- The projected salary increases changed from 12.50 percent at age 20 to 2.50 percent at age 65 to varying by service from 2.50 percent to 8.50 percent.

There were no changes in assumptions for fiscal years 2024 or 2025.

OPEB

Changes in benefit terms

There were no changes to benefit terms for fiscal year 2017.

For fiscal year 2018, STRS has the following changes in benefit terms since the previous measurement date:

- The HealthSpan HMO plans were eliminated.

A+ Children's Academy
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

- The subsidy multiplier for non-Medicare benefit recipients was reduced to 1.9 percent per year of service from 2.1 percent.
- Medicare Part B premium reimbursements were discontinued for survivors and beneficiaries who were age 65 by 2008 and either receiving a benefit or named as a beneficiary as of January 1, 2008.
- The remaining Medicare Part B premium reimbursements will be phased out over a three-year period.

For fiscal year 2019, the following was the most significant change in benefit terms that affected the total OPEB liability since the prior measurement date:

- The subsidy multiplier for non-Medicare benefit recipients increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements were scheduled to be discontinued beginning January 1, 2020, though the STRS Board voted in June 2019 to extend the current Medicare Part B partial reimbursement for one year.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For fiscal year 2021, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

For fiscal year 2022, the non-Medicare subsidy percentage was increased effective January 1, 2022 from 2.055 percent to 2.1 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2022. The Medicare Part D Subsidy was updated to reflect it is expected to be negative in calendar year 2022. The Part B monthly reimbursement elimination date was postponed indefinitely.

There were no changes to benefit terms for fiscal years 2023 through 2025.

Changes in assumptions

There were no changes in assumptions for fiscal year 2017.

For fiscal year 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB 74.
- The long-term rate of return was reduced to 7.45 percent.
- Valuation-year per capita health costs were updated.
- The percentage of future retirees electing each option was updated based on current data.
- The assumed future trend rates were modified.
- Decrement rates including mortality, disability, retirement, and withdrawal were modified.
- The assumed percentage of future disabled retirees assumed to elect health coverage was decreased from 84 percent to 65 percent, and the assumed percentage of terminated vested participants assumed to elect health coverage at retirement was decreased from 47 percent to 30 percent.

A+ Children's Academy
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

- The assumed salary scale was modified.

For fiscal year 2019, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The discount rate increased from a 4.13 percent blended discount rate to 7.45 percent.
- The health care trend assumption rate changed from 6 to 11 percent initial, 4.5 percent ultimate to:
 - Medical Medicare – 5 percent initial, 4 percent ultimate
 - Medical Pre-Medicare – 6 percent initial, 4 percent ultimate
 - Prescription Drug Medicare – -5.23 percent initial, 4 percent ultimate
 - Prescription Drug Pre-Medicare – 8 percent initial, 4 percent ultimate

For fiscal year 2020, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The health care trend assumption rate changed as follows:
 - Medical Medicare – from 5 percent to 4.93 percent initial, 4 percent ultimate
 - Medical Pre-Medicare – from 6 percent to 5.87 percent initial, 4 percent ultimate
 - Prescription Drug Medicare – from -5.23 percent to 9.62 percent initial, 4 percent ultimate
 - Prescription Drug Pre-Medicare – from 8 percent to 7.73 initial, 4 percent ultimate

For fiscal year 2021, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The health care trend assumption rate changed as follows:
 - Medical Medicare – from 4.93 percent to -6.69 percent initial, 4 percent ultimate
 - Medical Pre-Medicare – from 5.87 percent to 5 percent initial, 4 percent ultimate
 - Prescription Drug Medicare – from 9.62 percent to 11.87 percent initial, 4 percent ultimate
 - Prescription Drug Pre-Medicare – from 7.73 percent to 6.5 initial, 4 percent ultimate

For fiscal year 2022, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The discount rate increased from 7.45 percent to 7.0 percent.
- The health care trend assumption rate changed as follows:
 - Medical Medicare – from -6.69 percent initial, 4 percent ultimate to -16.18 percent initial, 4 percent ultimate
 - Prescription Drug Medicare – from 11.87 percent initial, 4 percent ultimate to 29.98 percent initial, 4 percent ultimate

For fiscal year 2023, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The health care trend assumption rate changed as follows:
 - Medical Pre-Medicare – from 5.00 percent initial, 4 percent ultimate to 7.50 percent initial, 3.94 percent ultimate
 - Medical Medicare – from -16.18 percent initial, 4 percent ultimate to -68.78 percent initial, 3.94 percent ultimate
 - Prescription Drug Pre-Medicare – from 6.50 percent initial, 4 percent ultimate to 9.00 percent initial, 3.94 percent ultimate
 - Prescription Drug Medicare – from 29.98 percent initial, 4 percent ultimate to -5.47 percent initial, 3.94 percent ultimate
- Updated the health and disability mortality assumption to the PUB-2010 mortality tables with generational improvement scale MP-2020.

A+ Children's Academy
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

- The projected salary increases changed from 12.50 percent at age 20 to 2.50 percent at age 65 to varying by service from 2.50 percent to 8.50 percent.

For fiscal year 2024, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The health care trend assumption rate changed as follows:
 - Medical Pre-Medicare – from 7.50 percent initial, 3.94 percent ultimate to 7.50 percent initial, 4.14 percent ultimate
 - Medical Medicare – from -68.78 percent initial, 3.94 percent ultimate to -10.94 percent initial, 4.14 percent ultimate
 - Prescription Drug Pre-Medicare – from 9.00 percent initial, 3.94 percent ultimate to -11.95 percent initial, 4.14 percent ultimate
 - Prescription Drug Medicare – from -5.47 percent initial, 3.94 percent ultimate to 1.33 percent initial, 4.14 percent ultimate

For fiscal year 2025, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The health care trend assumption rate changed as follows:
 - Medical Pre-Medicare – from 7.50 percent initial, 4.14 percent ultimate to 7.50 percent initial, 3.94 percent ultimate
 - Medical Medicare – from -10.94 percent initial, 4.14 percent ultimate to -112.22 percent initial, 3.94 percent ultimate
 - Prescription Drug Pre-Medicare – from -11.95 percent initial, 4.14 percent ultimate to 8.00 percent initial, 3.94 percent ultimate
 - Prescription Drug Medicare – from 1.33 percent initial, 4.14 percent ultimate to -15.14 percent initial, 3.94 percent ultimate

School Employees Retirement System

Pension

Changes in benefit terms

There were no changes to benefit terms for fiscal years 2016 through 2017.

For fiscal year 2018, the following were the most significant changes in benefit that affected the total pension liability since the prior measurement date:

- The cost-of-living adjustment was changed from a fixed 3.00 percent to a cost-of-living adjustment that is indexed to CPI-W not greater than 2.5 percent with a floor of 0 percent beginning January 1, 2018. In addition, with the authority granted the Board under HB 49, the Board has enacted a three-year COLA suspension for benefit recipients in calendars 2018, 2019, and 2020.

There were no changes to benefit terms for fiscal years 2019 through 2021.

For fiscal year 2022, the following was the most significant change in benefit that affected the total pension liability since the prior measurement date:

- The cost-of-living adjustment was changed from 2.5 percent to 2.0 percent.

A+ Children's Academy
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

For fiscal year 2023, the following was the most significant change in benefit that affected the total pension liability since the prior measurement date:

- The cost-of-living adjustment was changed from 2.0 percent to 2.5 percent.

There were no changes to benefit terms for fiscal years 2024 or 2025.

Changes in assumptions

There were no changes in assumptions for fiscal years 2016 through 2017.

For fiscal year 2018, the following changes were made to the actuarial assumptions as identified. These new assumptions compared with those used in fiscal year 2016 and prior are presented below:

- Assumed rate of inflation was reduced from 3.25 percent to 3.0 percent
- Payroll Growth Assumption was reduced from 4.0 percent to 3.5 percent
- Assumed real wage growth was reduced from 0.75 percent to 0.5 percent
- Investment rate of return was reduced from 7.75 percent to 7.5 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members was updated to the following:
 - RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. The above rates represent the base rates used.
- Mortality among service retired members, and beneficiaries was updated to the following:
 - RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates.
- Mortality among disabled member was updated to the following:
 - RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

There were no changes in assumptions for fiscal years 2019 through 2021.

For fiscal year 2022, the following changes were made to the actuarial assumptions as identified. These new assumptions compared with those used in fiscal year 2021 and prior are presented below:

- Assumed rate of inflation was reduced from 3.0 percent to 2.4 percent
- Payroll Growth Assumption was reduced from 3.5 percent to 3.25 percent
- Investment rate of return was reduced from 7.5 percent to 7.0 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among members was updated to the following:
 - PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females.
- Mortality among disabled members was updated to the following:
 - PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females.

There were no changes in assumptions for fiscal years 2023 through 2025.

OPEB

Changes in benefit terms

There were no changes to benefit terms for fiscal years 2017 through 2025.

A+ Children's Academy
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

Changes in assumptions

For fiscal year 2017, the following was the most significant change of assumptions that affected the total OPEB liability since the prior measurement date:

- Assumed rate of inflation was reduced from 3.25 percent to 3.0 percent
- Payroll growth assumption was reduced from 4.0 percent to 3.5 percent
- Assumed real wage growth was reduced from 0.75 percent to 0.5 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members was updated to the following:
 - RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females.
- Mortality among service retired members, and beneficiaries was updated to the following:
 - RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates.
- Mortality among disabled members was updated to the following:
 - RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

For fiscal year 2018, the following was the most significant change of assumptions that affected the total OPEB liability since the prior measurement date:

- The discount rate was increased from 2.98 percent to 3.63 percent.
- The municipal bond index rate increased from 2.92 percent to 3.56 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation increased from 2.98 percent to 3.63 percent.

For fiscal year 2019, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The discount rate was changed from 3.63 percent to 3.70 percent.
- The municipal bond index rate increased from 3.56 percent to 3.62 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation increased from 3.63 percent to 3.70 percent.
- The medical trend assumption rate changed as follows:
 - Medicare – 2018 – 5.50 to 5.00 percent, 2019 – 5.375 to 4.75 percent
 - Pre-Medicare – 2018 – 7.50 to 5.00 percent, 2019 – 7.25 to 4.75

For fiscal year 2020, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The municipal bond index rate decreased from 3.62 percent to 3.13 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation decreased from 3.70 percent to 3.22 percent.
- The medical trend assumption rate changed as follows:
 - Medicare – 2019 – 5.375 to 4.75 percent, 2020 – 5.25 to 4.75 percent
 - Pre-Medicare – 2019 – 7.25 to 4.75, 2020 – 7 to 4.75 percent

For fiscal year 2021, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

A+ Children's Academy
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

- The municipal bond index rate decreased from 3.13 percent to 2.45 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation decreased from 3.22 percent to 2.63 percent.

For fiscal year 2022, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The inflation rate decreased from 3.0 percent to 2.4 percent.
- Projected salary increases decreased from 3.5 percent to 3.25 percent.
- Investment rate of return decreased from 7.5 percent to 7.0 percent.
- The municipal bond index rate decreased from 2.45 percent to 1.92 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation decreased from 2.63 percent to 2.27 percent.
- The medical trend assumption rate changed as follows:
 - Medicare – 2020 – 5.25 to 4.75 percent, 2022 – 5.125 to 4.4 percent
 - Pre-Medicare – 2020 – 7 to 4.75 percent, 2022 – 6.75 to 4.4 percent
- Mortality among members was updated to the following:
 - PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females.
- Mortality among disabled members was updated to the following:
 - PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females.

For fiscal year 2023, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The municipal bond index rate increased from 1.92 percent to 3.69 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation increased from 2.27 percent to 4.08 percent.

For fiscal year 2024, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The municipal bond index rate increased from 3.69 percent to 3.86 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation increased from 4.08 percent to 4.27 percent.
- The medical trend assumption decreased from 7.00 percent to 6.75 percent.

For fiscal year 2025, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The municipal bond index rate increased from 3.86 percent to 3.93 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation increased from 4.27 percent to 4.88 percent.
- The medical trend assumption increased from 6.75 percent to 7.00 percent.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

A+ Children's Academy
Franklin County
2633 Maybury Road
Columbus, OH 43232

To the Board of Education:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the A+ Children's Academy, Franklin County, (the Academy) as of and for the fiscal year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Academy's basic financial statements and have issued our report thereon dated March 31, 2026, which includes an emphasis-of-matter paragraph regarding the Academy's ability to continue as a going concern.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Academy's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Academy's internal control. Accordingly, we do not express an opinion on the effectiveness of the Academy's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Academy's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Academy's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Academy's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Academy's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
