Independent Auditor's Report

Bella Academy of Excellence
Cuyahoga County
19144 Bella Drive
Cleveland, Ohio 44119

To the Board:

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Bella Academy of Excellence, Cuyahoga County, Ohio (the Academy), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Academy's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Bella Academy of Excellence, Cuyahoga County, Ohio as of June 30, 2025, and the changes in financial position and its cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Academy, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Academy's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Academy's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Academy's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedules of net pension and other post-employment benefit liabilities (assets) and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 21, 2026, on our consideration of the Academy's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Academy's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Academy's internal control over financial reporting and compliance.

**MANAGEMENT’S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

The discussion and analysis of the Bella Academy of Excellence (the “Academy”) financial performance provides an overall review of the Academy’s financial activities for the fiscal year ended June 30, 2025. The intent of this discussion and analysis is to look at the Academy’s financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the Academy’s financial performance.

Financial Highlights

Key financial highlights for 2025 are as follows:

- In total, net position was deficit \$1,771,625 as of June 30, 2025.
- The Academy had operating revenues of \$1,795,479, operating expenses of \$3,832,599, non-operating revenues of \$2,306,532, and non-operating expenses of \$146,637 for fiscal year 2025.

Using these Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Academy’s financial activities. The *statement of net position* and *statement of revenues, expenses and changes in net position* provide information about the activities of the Academy, including all short-term and long-term financial resources and obligations.

Reporting the Academy’s Financial Activities

Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position and the Statement of Cash Flows

These documents look at all financial transactions and ask the question, “How did we do financially during 2025?” The statement of net position and statement of revenues, expenses and changes in net position answer this question. These statements include all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year’s revenues and expenses regardless of when cash is received or paid.

These two statements report the Academy’s *net position* and changes in net position. This change in net position is important because it tells the reader that, for the Academy as a whole, the *financial position* of the Academy has improved or diminished. The causes of this change may be the result of many factors, some financial, some not.

The statement of cash flows provides information about how the Academy finances and meets the cash flow needs of its operations.

The net pension liability is reported pursuant to Governmental Accounting Standards Board (GASB) Statement 68, "Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement 27." The net other postemployment benefits (OPEB) liability/asset is reported pursuant to GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the Academy's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability, and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability/asset to equal the Academy's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

**BELLA ACADEMY OF EXCELLENCE
CUYAHOGA COUNTY, OHIO**

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" - that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the Academy is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the Academy's statements include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability/asset, respectively, not accounted for as deferred inflows/outflows.

Over time, net position can serve as a useful indicator of a government's financial position. On June 30, 2025, and 2024, the Academy's net position totaled deficits of (\$1,771,625) and (\$1,894,400), respectively.

Current assets represent cash, accounts and intergovernmental receivables. Current liabilities represent accounts and intergovernmental payables for management fees and legal fees. Refer to Notes 2.J, Note 5, Note 11.A and Note 11.B. for detail on the current receivables and payables.

Non-current assets at fiscal year-end include a net OPEB asset reported by the State Teachers Retirement System (STRS) and capital assets (intangible right to use, leased building). See Notes 6 and 9 for more detail.

Long-term liabilities represent the lease liability, net pension liability (see Note 8 for detail) and the net OPEB liability (see Note 9 for detail). Refer to Note 7 for a summary of the changes in the Academy's long-term obligations during fiscal year 2025.

The revenue generated by a community school is almost entirely dependent on per-pupil allotment given by the State foundation and from Federal entitlement programs. During fiscal year 2025, the Academy provided services to 152 students, compared to 175 students in 2024. The decrease in student enrollment resulting in a decrease in State foundation received in 2025.

The Academy relies on State foundation revenues for operations, with 43.77% and 50.38% of total revenues coming from State foundation for fiscal years 2025 and 2024, respectively. Federal and state grants include monies received from the Child Nutrition Cluster, IDEA-B Special Education, IDEA-B Early Childhood, Title I, Title I-A, Title IV-A, Title II-A, Expanding Opportunities for each Child, and Elementary and Secondary Education Emergency Relief. During fiscal years 2025 and 2024, the Academy was designated a Community School of Quality, and was eligible to receive up to \$3,000 in each fiscal year for each pupil identified as economically disadvantaged and up to \$2,250 in each fiscal year for all other pupils. The Academy received \$454,578 and \$537,600 from the Quality Community School support program during fiscal years 2025 and 2024, respectively.

The Academy contracted with Imagine Schools, Inc. for management services for fiscal years 2025 and 2024 (see Note 11.B to the notes to the financial statements for detail). The Academy received \$1,942,793 in private contributions from Imagine Schools, Inc. for the payment of direct expenses during fiscal year 2025, compared to \$482,553 in fiscal year 2024.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

Debt

During fiscal year 2025, the Academy entered into a lease agreement to lease three lots of property to provide classroom space for the Academy. The lease payable at June 30, 2025 was \$1,953,130, with \$431,271 due in one year. See Note 7 for detail.

Capital Assets

Capital assets consisted of intangible right to use, leased buildings. See Note 6 for detail.

Restrictions and Other Limitations

The future stability of the Academy is not without challenges. The Academy does not receive any funds from taxes. The primary source of funding is the State foundation program. An economic slowdown in the State could result in budgetary cuts to education, which would have a negative impact on the Academy.

Current Financial Related Activities

The Academy is sponsored by St. Aloysius. The Academy is reliant upon State foundation monies and Federal Sub-Grants to offer quality, educational services to students.

In order to continually provide learning opportunities to the Academy's students, the Academy will apply resources to best meet the needs of its students. It is the intent of the Academy to apply for other State and Federal funds that are made available to finance its operations.

Contacting the Academy's Financial Management

This financial report is designed to provide our clients and creditors with a general overview of the Academy's finances and to show the Academy's accountability for the money it receives. **NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

NOTE 1 - DESCRIPTION OF THE ACADEMY

The Bella Academy of Excellence (the “Academy”) is a nonprofit corporation established pursuant to Ohio Revised Code Chapters 3314 and 1702. The Academy provides students with an academically excellent opportunity by offering challenging curriculum richly infused with math, arts, science and technology and designed to engage all in the learning process; by maintaining a caring learning environment of affirmation; by working with parents and local communities to offer opportunities both in and out of the classroom that further develop the intellect and character of the students who choose to attend the school; and by utilizing innovative teaching techniques delivered by superior faculty in order to prepare all students for success in the ever-growing global community of the future. The Academy may sue and be sued, acquire facilities as needed, and contract for any services necessary for the operation of the Academy.

The Academy was approved under contract with St. Aloysius (the “Sponsor”) commencing on May 15, 2009 and ending on June 30, 2010. On June 28, 2010 the contract was renewed commencing on July 1, 2010 and ending on June 30, 2014. The contract was renewed on June 30, 2014, for a term of one year ending on June 30, 2015. On May 26, 2015 the contract was renewed for a term of one year and will automatically renew for one additional term through June 30, 2017. The contract was renewed for a term of three years commencing July 1, 2017 through June 30, 2020. On June 19, 2020 the contract was renewed for a term of six years commencing on July 1, 2020 and ending on June 30, 2026. The Sponsor is responsible for evaluating the performance of the Academy and has the authority to deny renewal of the contract at its expiration.

The Academy operates under the direction of a Governing Board which must contain at least five Directors who are not owners or employees, or relatives of owners or employees, of any for-profit company that operates or manages the Academy. The Governing Board is responsible for carrying out the provisions of the contract, which include, but are not limited to, State-mandated provisions regarding student population, curriculum, academic goals, performance standards, admission standards and qualification of teachers. The Governing Board controls the Academy’s instructional/support facility staffed by employees of the management company who provide services to 152 students.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements (BFS) of the Academy have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Academy’s significant accounting policies are described below.

A. Basis of Presentation

The Academy’s basic financial statements consist of a statement of net position, a statement of revenues, expenses, and changes in net position, and a statement of cash flows.

The Academy uses a single enterprise presentation. Enterprise reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows.

B. Measurement Focus

Enterprise activity is accounted for using a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the Academy are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (e.g. revenues) and decreases (e.g. expenses) in total net position. The statement of cash flows reflects how the Academy’s finances meet its cash flow needs.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

C. Basis of Accounting

Basis of accounting determines when transactions are recognized in the financial records and reported on the financial statements. The Academy's financial statements are prepared using the accrual basis of accounting. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. Revenue resulting from non-exchange transactions, in which the Academy receives value without directly giving equal value in return, such as grants and entitlements, are recognized in the period in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the period when the resources are required to be used or the period when use is first permitted, matching requirements, in which the Academy must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the Academy on a reimbursement basis. Expenses are recognized at the time they are incurred.

D. Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. See Notes 8 and 9 for deferred outflows of resources related to net pension liability/asset and net OPEB liability/asset, respectively.

In addition to liabilities, the statement of net position will report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. See Notes 8 and 9 for deferred inflows of resources related to net pension liability/asset and net OPEB liability/asset, respectively.

E. Budgetary Process

The contract between the Academy and its Sponsor prescribes an annual budget requirement in addition to preparing a 5-year forecast, which is to be updated on an annual basis. Each year, the Academy Governing Board, with the assistance of the Academy's designated fiscal officer, is required to adopt an annual budget by the thirty-first day of October using the format and following the guidelines prescribed by the Ohio Department of Education and Workforce (ODEW). Chapter 5705.39 of the Ohio Revised Code also requires the Academy to prepare a 5-year forecast, update it annually and submit it to the Superintendent of Public Instruction at ODEW.

F. Cash

Cash received by the Academy is reflected as "cash" on the statement of net position. Unless otherwise noted, all monies received by the Academy are pooled and deposited in a central bank account as demand deposits. The Academy did not have any investments during fiscal year 2024.

G. Capital Assets and Depreciation/Amortization

Capital assets are capitalized at cost or estimated historical cost and updated for additions and deletions during the fiscal year. The Academy has established a capitalization threshold of \$10,000. The Academy does not have any infrastructure. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

**BELLA ACADEMY OF EXCELLENCE
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land improvements	10 years
Buildings and additions	40 years
Building improvements	15 years
Furniture, fixtures and equipment	7 years
Automobiles and buses	5 years
Computers	3 years
Software	3 years

The Academy is reporting intangible right to use assets related to a leased building. The intangible asset is being amortized in a systematic and rational manner of the shorter of the lease term or the useful life of the underlying asset.

H. Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. The net position component “net investment in capital assets,” consists of capital assets, net of accumulated amortization, reduced by the outstanding balances of any borrowing or liabilities used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the Academy or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The Academy applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

I. Intergovernmental Revenues

The Academy currently participates in the State Foundation, Student Wellness and Success, Special Education, Disadvantaged Pupil Impact Aid, English Learners, Equity Supplement and Facilities Programs. Revenue received from these programs is recognized as operating revenues. Amounts awarded under these programs for the 2025 school year totaled \$1,795,479.

Grants and entitlements are recognized as non-operating revenues in the accounting period in which all eligibility requirements have been met. Eligibility includes timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the Academy must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the Academy on a reimbursement basis. Federal and State grant revenue received during fiscal year 2025 was \$963,354.

J. Accrued Liabilities and Long-Term Obligations

All payables and other accrued liabilities are reported on the statement of net position. Accrued liabilities include accounts payable (e.g. amounts due to Imagine Schools Inc. as further described in Note 11.B., sponsor fees, and legal fees) and intergovernmental payables (e.g. amount due to School Employees Retirement System (SERS), State Teachers Retirement System (STRS) and ODEW). Long-term obligations are detailed in Note 7 and include lease payable, net pension liability, and net OPEB liability. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan’s fiduciary net position is not sufficient for payment of those benefits.

**BELLA ACADEMY OF EXCELLENCE
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

K. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the Academy. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the Academy. All revenues and expenses not meeting this definition are reported as non-operating.

L. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, net OPEB asset, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

M. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

Change in Accounting Principles

For fiscal year 2025, the Academy has implemented GASB Statement No. 101, "Compensated Absences" and GASB Statement No. 102, "Certain Risk Disclosures".

GASB Statement No. 101 is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The implementation of GASB Statement No. 101 did not have an effect on the financial statements of the Academy.

GASB Statement No. 102 improves financial reporting by providing users with timely information regarding certain concentrations or constraints and related events that have occurred or have begun to occur that make a government vulnerable to a substantial impact. As a result, users will have better information with which to understand and anticipate certain risks to a government's financial condition.

NOTE 4 - DEPOSITS

Custodial credit risk is the risk that, in the event of bank failure, the Academy's deposits may not be returned. The Academy does not have a deposit policy for custodial credit risk. At June 30, 2025, the carrying amount of the Academy's deposits was \$6,897 and the bank balance was \$5,886. The entire bank balance was covered by the Federal Deposit Insurance Corporation (FDIC). There are no significant statutory restrictions regarding the deposit and investment of funds by the non-profit corporation.

NOTE 5 - RECEIVABLES

Receivables at June 30, 2025, consisted of intergovernmental receivables (e.g. grants and entitlements and amounts due from the retirement systems) and accounts receivable from Imagine Schools, Inc. All receivables are considered collectible in full.

Lease Payable

The Academy has entered into a lease agreement for the right to use buildings for classroom space. In accordance with GASB Statement No. 87, the Academy reported a capital asset for intangible right to use, leased buildings and a corresponding liability for the future scheduled payments under the lease agreement.

Effective July 1, 2024, the Academy entered into a lease agreement with Charter Schools Development Corporation (CSDC) to lease three lots of property to provide classroom space for the Academy. The term of the lease commenced on July 1, 2024 and ends on June 30, 2029. The base rent is due on the first day of each calendar month during the lease term. The Academy shall also pay additional rent for operating expenses, real property tax and assessments, personal property and other taxes, insurance premiums, and utilities.

Total	<u>\$ 1,953,130</u>	<u>\$ 287,655</u>	<u>\$ 2,240,785</u>

Net Pension Liability: See Note 8 for information on the Academy's net pension liability.

Net OPEB Liability: See Note 9 for information on the Academy's net OPEB liability.

NOTE 8 - DEFINED BENEFIT PENSION PLANS

The Academy has contracted with Imagine Schools, Inc. (see Note 11.B) to provide employee services and to pay those employees. However, these contract services do not relieve the Academy of the obligation for remitting OPEB contributions. The retirement systems consider the Academy as the Employer-of-Record and the Academy ultimately responsible for remitting retirement contributions to the systems noted below.

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability/Net OPEB Liability/Asset

The net pension liability and the net OPEB liability/asset reported on the statement of net position represents a liability or asset to employees for pensions and OPEB, respectively.

Pensions and OPEB are a component of exchange transactions - between an employer and its employees - of salaries and benefits for employee services. Pensions/OPEB are provided to an employee - on a deferred-payment basis - as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the Academy's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

The Ohio Revised Code limits the Academy's obligation for this liability to annually required payments. The Academy cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the Academy does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

**BELLA ACADEMY OF EXCELLENCE
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

NOTE 8 - DEFINED BENEFIT PENSION PLANS - (Continued)

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients.

The remainder of this note includes the required pension disclosures. See Note 9 for the required OPEB disclosures.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension/OPEB liability (asset)* on the accrual basis of accounting. Any liability for the contractually required pension contribution outstanding at the end of the year is included in intergovernmental payable.

Plan Description - School Employees Retirement System (SERS)

Plan Description - The Academy's non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially reduced benefits	Age 60 with 5 years of service credit; or Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017 will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2% for the first thirty years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost-of-living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5% and with a floor of 0%. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. The Retirement Board approved a 2.5% cost-of-living adjustment (COLA) for calendar year 2024.

CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

NOTE 8 - DEFINED BENEFIT PENSION PLANS - (Continued)

Funding Policy - Plan members are required to contribute 10.00% of their annual covered salary and the Academy is required to contribute 14.00% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10.00% for plan members and 14.00% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2025, the allocation to pension, death benefits, and Medicare B was 14.00%. For fiscal year 2025, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The Academy's contractually required contribution to SERS was \$33,702 for fiscal year 2025.

Plan Description - State Teachers Retirement System (STRS)

Plan Description - Licensed teachers and other faculty members participate in STRS, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at www.strsoh.org.

New members have a choice of three retirement plans: a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined (CO) Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. The calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of credited service. Effective August 1, 2023, any member can retire with unreduced benefits with 34 years of services credit at any age; or five years of service credit and age 65. Effective June 1, 2025 - July 1, 2027, any member can retire with unreduced benefits with 33 years of service credit at any age; or five years of service credit and age 65. Effective on or after August 1, 2027, any member can retire with unreduced benefits with 34 years of service credit at any age; or five years of service credit and age 65.

In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent upon a determination by its actuary that it was necessary to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of-living increases are not affected by this change. Effective July 1, 2022, an ad-hoc COLA of 3 percent of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2023 as long as they retired prior to July 1, 2018. Effective July 1, 2023, a permanent 1 percent COLA of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2024 as long as they retired prior to July 1, 2019.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits effective Aug. 1, 2023, can retire with 29 years of service credit at any age; or five years of service credit and age 60. Effective June 1, 2025 - July 1, 2027, retirement eligibility for reduced benefits is 28 years of service credit at any age; or five years of service credit and age 60. Effective on or after Aug. 1, 2027, retirement eligibility for reduced benefits is 29 years of service credit at any age; or five years of service credit and age 60.

The DC Plan allows members to place all of their member contributions and 11.09% of the 14% employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 2.91% of the 14% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

**BELLA ACADEMY OF EXCELLENCE
CUYAHOGA COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025

NOTE 8 - DEFINED BENEFIT PENSION PLANS - (Continued)

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12% of the 14% member rate is deposited into the member's DC account and the remaining 2% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50 and after termination of employment.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service, who is determined to be disabled, may qualify for a disability benefit. New members, on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2025 employer and employee contribution rate of 14% was equal to the statutory maximum rates. For fiscal year 2025, the full employer contribution was allocated to pension.

The Academy's contractually required contribution to STRS was \$100,188 for fiscal year 2025.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Academy's proportion of the net pension liability was based on the Academy's share of contributions to the pension plan relative to the contributions of all participating entities.

Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportion of the net pension liability prior measurement date	0.01221730%	0.00498995%	
Proportion of the net pension liability current measurement date	<u>0.00831480%</u>	<u>0.00495753%</u>

FOR THE FISCAL YEAR ENDED JUNE 30, 2025

NOTE 8 - DEFINED BENEFIT PENSION PLANS - (Continued)

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2137.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2024 and June 30, 2023, are presented below:

	June 30, 2024	June 30, 2023
Inflation	2.40%	2.40%
Future salary increases, including inflation	3.25% to 13.58%	3.25% to 13.58%
COLA or ad hoc COLA	2.00% on or after April 1, 2018, COLAs for future retirees will be delayed for 3 years following commencement	2.00% on or after April 1, 2018, COLAs for future retirees will be delayed for 3 years following commencement
Investment rate of return	7.00% net of system expenses	7.00% net of system expenses
Actuarial cost method	Entry age normal (level percent of payroll)	Entry age normal (level percent of payroll)

In 2024, mortality rates were based on the following:

Service Retirement: PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

Disabled Retirement: PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

Contingent Survivor: PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5% for males and adjusted 122.5% for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

In the prior measurement date, mortality rates were based on the PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. Ohio Revised Code Section 3309.15 and the Board-adopted Investment Policy govern investment activity at SERS. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

As of June 30, 2024:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return (geometric)</u>
Cash	3.00 %	0.97 %
US Equity	22.00	4.68
Non-US Equity Developed	12.00	4.96
Non-US Equity Emerging	6.00	5.66
Fixed Income/Global Bonds	18.00	2.38
Private Equity	14.00	7.10
Real Estate	13.00	3.64
Infrastructure	7.00	4.80
Private Debt/Private Credit	5.00	5.86
Total	<u>100.00 %</u>	

Discount Rate - Total pension liability for 2024 was calculated using the discount rate of 7.00%. The discount rate determination did not use a municipal bond rate. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 20-year amortization period of the unfunded actuarial accrued liability. The actuarially determined contribution rate for fiscal year 2024 was 14%. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return, 7.00%. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability. The annual money-weighted rate of return, calculated as the internal rate of return on pension plan investments, for fiscal year 2024 was 9.31%.

Sensitivity of the Academy's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%), or one percentage point higher (8.00%) than the current rate.

NOTE 8 - DEFINED BENEFIT PENSION PLANS - (Continued)

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation*	Long-Term Expected Real Rate of Return **
Domestic Equity	26.00 %	6.90 %
International Equity	22.00	7.70
Alternatives	19.00	9.10
Fixed Income	22.00	4.50
Real Estate	10.00	5.10
Liquidity Reserves	1.00	2.40
Total	100.00 %	

* Final target weights reflected at October 1, 2022.

**10-Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.40% and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with the rates described previously. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on pension plan investments of 7.00% was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2024.

Sensitivity of the Academy's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following table represents the proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current assumption:

	1% Decrease	Current Discount Rate	1% Increase
Academy's proportionate share of the net pension liability	\$ 1,538,822	\$ 953,909	\$ 459,173

Assumption and Benefit Changes Since the Prior Measurement Date - The discount rate remained at 7.00% for June 30, 2024 valuation.

Retirement rates were extended to younger ages intended to ensure that the ranges in retirement eligibility impacted participants at such ages.

Demographic assumptions were changed based on the actuarial experience study for the period July 1, 2015 through June 30, 2021.

NOTE 9 - DEFINED BENEFIT OPEB PLANS

The Academy has contracted with Imagine Schools, Inc. (see Note 11.B) to provide employee services and to pay those employees. However, these contract services do not relieve the Academy of the obligation for remitting OPEB contributions. The retirement systems consider the Academy as the Employer-of-Record and the Academy ultimately responsible for remitting retirement contributions to the systems noted below.

Net OPEB Liability/Asset

See Note 8 for a description of the net OPEB liability (asset).

Plan Description - School Employees Retirement System (SERS)

Health Care Plan Description - The Academy contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. The following types of credit purchased after January 29, 1981, do not count toward health care coverage eligibility: military, federal, out-of-state, municipal, private school, exempted, and early retirement incentive credit. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

The Health Care program is financed through a combination of employer contributions, recipient premiums, investment returns, and any funds received on behalf of SERS' participation in Medicare programs. The System's goal is to maintain a health care reserve account with a 20-year solvency period in order to ensure that fluctuations in the cost of health care do not cause an interruption in the program. However, during any period in which the 20-year solvency period is not achieved, the System shall manage the Health Care Fund on a pay-as-you-go basis.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14% of covered payroll to the Health Care Fund in accordance with the funding policy. For the fiscal year ended June 30, 2025, SERS did not allocate any employer contributions to post-employment health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2025, this amount was \$30,000. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2025, the Academy's surcharge obligation was \$1,409.

The surcharge added to the allocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The Academy's contractually required contribution to SERS was \$1,409 for fiscal year 2025 and is reported as intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

Plan Description - The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Health care premiums were reduced by a Medicare Part B premium credit beginning in 2023. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Medicare Part D is a federal program to help cover the costs of prescription drugs for Medicare beneficiaries. This program allows STRS Ohio to recover part of the cost for providing prescription coverage since all eligible STRS Ohio health care plans include creditable prescription drug coverage.

Funding Policy - Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For the fiscal year ended June 30, 2025, STRS did not allocate any employer contributions to post-employment health care.

Net OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability/asset was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability/asset was determined by an actuarial valuation as of that date. The Academy's proportion of the net OPEB liability/asset was based on the Academy's share of contributions to the respective retirement systems relative to the contributions of all participating entities.

NOTE 9 - DEFINED BENEFIT OPEB PLANS - (Continued)

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2024 and June 30, 2023 are presented below:

	June 30, 2024	June 30, 2023
Inflation	2.40%	2.40%
Future salary increases, including inflation	3.25% to 13.58%	3.25% to 13.58%

Actuarial cost method	Entry Age Normal (Level Percent of Payroll)	Entry Age Normal (Level Percent of Payroll)
Fiduciary net position is projected to be depleted	2059	2048
Municipal bond index rate	3.93%	3.86%
Single equivalent interest rate, net of plan investment expense, including price inflation	4.88%	4.27%
Medical trend assumption	7.00 to 4.40%	6.75 to 4.40%

In 2024, the following mortality assumptions were used:

Healthy Retirees - PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females.

Mortality Projection - Mortality rates are projected using a fully generational projection with Scale MP-2020.

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term expected rate on plan assets of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent five-year experience study was performed for the period covering fiscal years 2016 through 2020, and was adopted by the Board on April 15, 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

NOTE 9 - DEFINED BENEFIT OPEB PLANS - (Continued)

Discount Rate - The discount rate used to measure the total OPEB liability at June 30, 2024, was 4.88%. The discount rate used to measure total OPEB liability prior to June 30, 2024, was 4.27%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50% of projected covered payroll each year, which includes a 1.50% payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position is projected to be depleted in 2059 by SERS' actuaries. The Fidelity General Obligation 20-year Municipal Bond Index Rate was used in the determination of the single equivalent interest rate for both the June 30, 2023 and the June 30, 2024 total OPEB liability. The Municipal Bond Index Rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate was 3.93% at June 30, 2024 and 3.86% at June 30, 2023.

Sensitivity of the Academy's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates - The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the proportionate share of the net OPEB liability, what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.88%) and higher (5.88%) than the current discount rate (4.88%). Also shown is what the proportionate share of the net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.40%) and higher (8.00% decreasing to 5.40%) than the current rate (7.00% decreasing to 4.40%).

NOTE 9 - DEFINED BENEFIT OPEB PLANS - (Continued)

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For the June 30, 2024 actuarial valuation, for healthy retirees the post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For the prior measurement date, for healthy retirees the post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024 valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

Assumption Changes Since the Prior Measurement Date - The discount rate remained unchanged at 7.00% for the June 30, 2024 valuation.

Benefit Term Changes Since the Prior Measurement Date - Healthcare trends were updated to reflect emerging claims and recoveries experience as well as benefit changes effective January 1, 2025. The larger Medicare trends for Years 2027 and 2028 reflect the assumed impact of the expiration of current Medicare Advantage contract on December 31, 2028.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation*	Long-Term Expected Real Rate of Return **
Domestic Equity	26.00 %	6.90 %
International Equity	22.00	7.70
Alternatives	19.00	9.10
Fixed Income	22.00	4.50
Real Estate	10.00	5.10
Liquidity Reserves	1.00	2.40
Total	<u>100.00 %</u>	

* Final target weights reflected at October 1, 2022.

**10-Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.40% and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

NOTE 9 - DEFINED BENEFIT OPEB PLANS - (Continued)

Discount Rate - The discount rate used to measure the total OPEB liability was 7.00% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on health care plan investments of 7.00% was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2024.

Sensitivity of the Academy's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate - The following table represents the net OPEB asset as of June 30, 2024, calculated using the current period discount rate assumption of 7.00%, as well as what the proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current assumption. Also shown is the proportionate share of the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

NOTE 11 - CONTRACTS

A. Sponsor Contract

The Academy entered into a sponsorship contract commencing on May 15, 2009 and ending on June 30, 2010 with St. Aloysius Orphanage (the "Sponsor") for its establishment. On June 28, 2010 the contract was renewed commencing on July 1, 2010 and ending on June 30, 2014. The contract was renewed on June 30, 2014, for a term of one year ending on June 30, 2015. On May 26, 2015 the contract was renewed for a term of one year and will automatically renew for one additional term through June 30, 2017. The contract was renewed for a term of three years commencing July 1, 2017 through June 30, 2020. On June 19, 2020 the contract was renewed for a term of six years commencing on July 1, 2020 and ending on June 30, 2026. The Sponsor shall carry out the responsibilities established by law, including:

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

NOTE 11 - CONTRACTS - (Continued)

- Monitor the Academy's compliance with the laws applicable to the Academy and with the terms of this contract;
- Monitor and evaluate the academic and fiscal performance and the organization of the Academy on at least an annual basis;
- Provide reasonable technical assistance to the Academy in complying with this contract and with applicable laws (provided, however, the Sponsor shall not be obligated to give legal advice to the Academy);
- Take steps to intervene in the Academy's operation to correct problems in the Academy's overall performance, declare the Academy to be on probationary status under Ohio Revised Code Section 3314.073, suspend operation of the Academy pursuant to Ohio Revised Code Section 3314.072, or terminate or non-renew this contract pursuant to Ohio Revised Code Section 3314.07, as determined necessary by the Sponsor;
- Establish and/or require a plan of action to be undertaken if the Academy experiences financial difficulties or losses before the end of the school year; and
- Abide by the requirements of its contract with ODEW, even should those requirements affect the Academy.

The Academy paid the Sponsor \$53,747 for services during fiscal year 2025. At June 30, 2025, the Academy reported \$45 in accounts payable to the Sponsor (reimbursement for the net amount receivable from ODEW for fiscal year 2025 FTE reviews), in accordance with the sponsorship contract.

B. Management Contract

The Academy entered into a management contract with Imagine Schools, Inc. for management consulting services. Imagine Schools, Inc. is required to provide the following services:

- Personnel & human resources administration
- Program of instruction
- Purchasing & contracts
- Budgeting, financial reporting and audit preparation
- Compliance issues
- Curriculum research and development
- Marketing and publicity
- Equipment and facilities
- Grant preparation and management

For the services listed above, the Academy is required to pay a fee to Imagine Schools, Inc. The fee is equal to approximately 80 percent of the total per pupil allowance received from the State of Ohio and 100 percent of State and/or Federal grant funds received by the Academy for the creation and operation of its school. Payments to Imagine Schools, Inc. amounted to \$3,155,202 during fiscal year 2025.

At June 30, 2025, the Academy reported accounts payable to Imagine Schools, Inc. in the amount of \$93,896. This payable consists of intergovernmental receivables (grants and amounts due from STRS and SERS) to be transferred to Imagine Schools, Inc. to cover expenses incurred by Imagine Schools, Inc. on the Academy's behalf, in accordance with the operating contract.

At June 30, 2025, the Academy had accounts receivable of \$1,409 from Imagine Schools, Inc. to cover the intergovernmental payable related to the SERS surcharge liability, in accordance with the operating contract.

NOTE 13 - CONTINGENCIES

A. Grants

The Academy received financial assistance from Federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability. However, the effect of any such disallowed claims on the overall financial position of the Academy at June 30, 2025, if applicable, cannot be determined at this time.

B. Ohio Department of Education and Workforce Enrollment Review

Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. However, there is an important nexus between attendance and enrollment for Foundation funding purposes. Community schools must provide documentation that clearly demonstrates students have participated in learning opportunities. ODEW is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end.

Under Ohio Rev. Code Section 3314.08, ODEW may also perform a FTE review for the fiscal year that may result in an additional adjustment to the enrollment information as well as claw backs of Foundation funding due to a lack of evidence to support student participation and other matters of noncompliance.

As a result of the fiscal year 2025 reviews, the Academy is due a net amount of \$502 from ODEW. This amount has been recorded as an intergovernmental receivable at June 30, 2025.

C. Litigation

The Academy is not involved in any litigation that, in the opinion of management, would have a material effect on the financial statements.

NOTE 14 - FEDERAL TAX STATUS

The Academy was approved under § 501(c)(3) of the Internal Revenue Code as a tax exempt organization on November 3, 2010. Management is not aware of any course of action or series of events that might adversely affect the Academy's tax exempt status.

NOTE 15 - MANAGEMENT PLAN

The Academy had an increase of \$122,775 in net position during fiscal year 2025 and deficit net position of \$1,771,625 at June 30, 2025. The deficit net position is primarily due to the net pension liability of \$1,379,259, net OPEB liability of \$85,124, net OPEB asset of \$94,035, deferred outflows of resources and deferred inflows of resources related to the net pension liability and net OPEB liability/asset of \$434,023 and \$766,414, respectively at June 30, 2025. The net pension liability, net OPEB liability and related deferred outflows of resources and deferred inflows of resources are required to be reported in accordance with GASB Statements No. 68 and 71, as described in Note 8 and GASB Statement No. 75, as described in Note 9. Management intends to continue to increase Academy enrollment and improve operating efficiencies.

Independent Auditor's Report On Internal Control Over Financial Reporting And On Compliance and Other Matters Required By *Government Auditing Standards*

Bella Academy of Excellence
Cuyahoga County
19144 Bella Drive
Cleveland, Ohio, 44119

To the Board:

We have audited, in accordance with the auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the Bella Academy of Excellence, Cuyahoga County, Ohio (the Academy) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Academy's basic financial statements and have issued our report thereon dated August 21, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Academy's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Academy's internal control. Accordingly, we do not express an opinion on the effectiveness of the Academy's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Academy's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of findings as item 2025-001 through that we consider to be a material weakness.

Academy's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Academy's response to the finding identified in our audit and described in the accompanying schedule of findings. The Academy's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Academy's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Academy's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Academy's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Findings Related to the Financial Statements Required to be Reported in Accordance With GAGAS
--

Finding Number 2025-001

Financial Reporting

In our audit engagement letter, as required by AU-C Section 210, *Terms of Engagement*, paragraph .06, management acknowledged its responsibility for the preparation and fair presentation of their financial statements; this responsibility includes designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements free from material misstatement, whether due to fraud or error as discussed in AU-C Section 210 paragraphs .A14 & .A16. Governmental Accounting Standards Board (GASB) Cod. 1100 paragraph .101 states a governmental accounting system must make it possible both: (a) to present fairly and with full disclosure the funds and activities of the governmental unit in conformity with generally accepted accounting principles, and (b) to determine and demonstrate compliance with finance-related legal and contractual provisions.

A material error was identified in the Academy's financial statement preparation process for the year ended June 30, 2025. Due to insufficient internal controls over the preparation and review of the financial statements, \$631,342 of Federal and State Grants revenue, although properly recorded in the underlying accounting records, was omitted from the financial statements. As a result, Federal and State Grants revenue was understated and the offsetting Private Contributions revenue was overstated. Management approved the necessary audit adjustment to correct the error.

Failure to establish, document, and consistently apply appropriate financial reporting procedures increases the risk of material misstatements in the financial statements. Such misstatements could result in the Academy and financial statement users making decisions based on inaccurate information, including misjudging the Academy's financial position, operating results, and available resources.

Management should review the financial statements to ensure they are supported by sufficient documentation, reconciled to the underlying accounting records, free of obvious errors or omissions, and consistent with expected results before they are issued. Implementing these procedures can reduce the risk of material financial statement errors and promote accurate financial reporting.

Officials' Response:

The annual financial report is completed by an outside accounting firm contracted by the school board. The school management has brought the reportable finding to the accounting firm's attention. They have assured the school that the issue will be taken care of going forward with the annual financial reports.
