INDEPENDENT AUDITOR'S REPORT

Symmes Valley Local School District
Lawrence County
14778 State Route 141
Willow Wood, Ohio 45696

To the Board of Education:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Symmes Valley Local School District, Lawrence County, Ohio (School District), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Symmes Valley Local School District, Lawrence County, Ohio as of June 30, 2025, and the respective changes in financial position thereof and the budgetary comparison for the General Fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 4 to the financial statements, during 2025, the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 24, 2026, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Symmes Valley Local School District
Management's Discussion and Analysis
For the Fiscal Year June 30, 2025
(Unaudited)

The discussion and analysis of the Symmes Valley Local School District's (the School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2025. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the financial statements and the notes to the financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2025 are as follows:

- Net position of governmental activities increased \$1,699,952.
- General revenues accounted for \$12,347,031 in revenue or 81 percent of all revenues. Program specific revenues in the form of charges for services, grants, contributions, and interest accounted for \$2,826,044 or 19 percent of total revenues of \$15,173,075.
- The School District had \$13,473,123 in expenses related to governmental activities; only \$2,826,044 of these expenses were offset by program specific charges for services, grants, contributions, and interest. General revenues (primarily taxes and intergovernmental) of \$12,347,031 were adequate to cover the remaining expenses.
- The School District's general fund had \$13,544,459 in revenues and other financing sources and \$13,095,182 in expenditures and other financing uses. The general fund's balance increased \$449,277.
- Total governmental funds had \$15,289,589 in revenues and other financing sources and \$14,932,604 in expenditures and other financing uses. The total governmental fund balance increased \$356,985.

USING THE BASIC FINANCIAL STATEMENTS

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Symmes Valley Local School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities and conditions.

The statement of net position and the statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column.

Reporting the School District as a Whole

Statement of Net Position and Statement of Activities

While this document contains information about the large number of funds used by the School District to provide programs and activities for students, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2025?" The statement of net position and the statement of activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in position. This change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School

Symmes Valley Local School District
Management's Discussion and Analysis
For the Fiscal Year June 30, 2025
(Unaudited)

District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the statement of net position and the statement of activities, all of the School District's activities are reported as governmental including instruction, support services, operation of non-instructional services, debt service, and extracurricular activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multiple of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental fund is the general fund.

Governmental Funds All of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is reconciled in the financial statements.

Tables 1, 2, and 3 on the following pages provide a summary of the School District's changes from fiscal year 2025 compared to 2024. These tables also separately reflect the restatement for changes in accounting principles related to the implementation of GASB Statement No. 101, "Compensated Absences." GASB Statement No. 100, "Accounting Changes and Error Corrections" does not require Management Discussion and Analysis information for years prior to periods presented in the basic financial statements to be restated for changes in accounting principle. The 2024 information does not reflect activity related to the additional compensated absences expenses required under GASB 101, "Compensated Absences." (See additional information in Note 4).

The remainder of this page was intentionally left blank.

Deferred Inflows of Resources	6,179,594	5,830,582
Net Position:		
Net Investment in Capital Assets	7,596,478	7,012,257
Restricted	542,395	625,861
Unrestricted (Deficit)	(1,259,167)	(2,675,896)
Total Net Position	\$6,879,706	\$4,962,222

The net pension liability (NPL) is the largest single liability reported by the School District at June 30, 2025. GASB notes that pension and OPEB obligations, whether funded or unfunded, are a part of the "employment exchange"-that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the employment exchange also knowing that there is a specific, legal limit to its contributions to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination benefits. There is no repayment schedule for the

Symmes Valley Local School District
Management's Discussion and Analysis
For the Fiscal Year June 30, 2025
(Unaudited)

net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State Statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the School District's statements prepared on an accrual basis of accounting include the annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows.

Total assets of governmental activities increased \$617,960. This is the primarily due to increases in cash and cash equivalents and capital assets. Cash and cash equivalents increased due to revenues in excess of expenses. Capital assets increased due to additions in excess of current year depreciation. Deferred outflows of resources changed due to pension and OPEB activity as reported by the state-wide retirement systems.

In total, liabilities decreased \$1,942,740, due primarily to a decrease in net pension and OPEB liabilities.

Deferred inflows of resources changed due to pension and OPEB activity as reported by the state-wide retirement systems.

Table 2 shows the changes in net position for the fiscal years ended June 30, 2025 and 2024.

Net Position at End of Year	\$6,879,706	\$4,962,222

Operating grants and contributions decreased due to the decrease in COVID-related funding. Property taxes made up approximately 25 percent of revenues for governmental activities for the School District. Of the remaining revenues, the School District receives 69 percent from state foundation, federal and state grants, and restricted investment earnings; 2 percent from charges for services; and 3 percent from unrestricted interest, insurance recoveries, and other local sources.

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. As the result of legislation enacted in 1976, the overall revenue generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increases in value is comparable to other property owners) the effective tax rate would become 0.5 mills and the owner would still pay \$35.00.

This legislation helps explain the healthy increase in the School District's taxable value accompanied by only incremental increases in tax revenue. Property taxes and payments in lieu of taxes made up 25 percent of revenues for governmental activities for the School District in 2025. Additionally, increases in property taxes would only have a nominal effect upon the School District's total revenue. This is due to the funding formula in place in Ohio, any increase in property tax revenue would be offset by a corresponding decrease in state funding the School District would receive.

Symmes Valley Local School District
Management's Discussion and Analysis
For the Fiscal Year June 30, 2025
(Unaudited)

The School District experienced fluctuations within various expense functions, which were significantly attributed to the pension and OPEB expense. Approximately 53 percent of the School District's expenses is used to fund instructional expenses. Support services make up 38 percent of expenses and 9 percent is used for interest, extracurricular activities, and non-instructional services.

The statement of activities shows the cost of program services and the charges for services, grants, contributions, and interest earnings offsetting those services. Table 3 shows the total cost of services and the net cost of services. In other words, it identifies the cost of those services supported by tax revenue and unrestricted State entitlements.

Table 3
Governmental Activities

	2025 Total Cost of Services	2025 Net Cost of Services	2024 Total Cost of Services	2024 Net Cost of Services
Instruction:				
Regular	\$4,771,618	\$4,351,253	\$5,307,133	\$3,469,287
Special	2,229,200	1,013,903	2,268,793	1,737,520
Vocational	194,912	151,732	226,986	175,917
Support Services:				
Pupils	464,006	207,762	515,174	244,330
Instructional Staff	58,083	50,594	43,449	39,813
Board of Education	397,862	397,862	328,726	328,726
Administration	630,481	598,752	702,799	685,347
Fiscal	471,290	463,461	422,847	414,775
Operation and Maintenance of Plant	1,411,265	1,402,147	1,524,277	1,518,544
Pupil Transportation	1,245,644	1,245,644	1,290,681	1,290,681
Central	381,850	364,135	372,508	333,755
Operation of Non-Instructional Services	668,561	106,726	711,689	225,293
Extracurricular Activities	543,392	288,149	536,395	271,832
Interest	4,959	4,959	5,596	5,596
Total Expenses	<u>\$13,473,123</u>	<u>\$10,647,079</u>	<u>\$14,257,053</u>	<u>\$10,741,416</u>

The dependence upon tax revenues and state subsidies for governmental activities is apparent. 79 percent of total expenses are supported through taxes and other general revenues.

THE SCHOOL DISTRICT FUNDS

The School District's major funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues and other financing sources of \$15,289,589 and expenditures and other financing uses of \$14,932,604.

The fund balance of the general fund increased \$449,277. The general fund's unassigned fund balance of \$6,485,678 represented 50% of current year expenditures. The general fund's overall revenues and other financing sources remained consistent between years. Special instruction increased due to increased personnel costs and capital outlay increased due to increased expenditures for capital items.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

Symmes Valley Local School District
Management's Discussion and Analysis
For the Fiscal Year June 30, 2025
(Unaudited)

During the course of fiscal 2025, the School District did amend its general fund estimated revenues. The School District uses a modified site-based budgeting technique which is designed to tightly control total site budgets but provide flexibility for site management.

For the general fund, the final budget basis revenues and other financing sources estimate was \$13,505,831, which represented a 1 percent increase from original estimates of \$13,361,303. The final budget basis expenditures and other financing uses estimate of \$13,289,113 represented a 1 percent increase from original estimates of \$13,148,543.

The School District's ending unobligated general fund balance was \$7,509,964.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2025, the School District had \$8,231,741 invested in land, construction in progress, land improvements, buildings and improvements, furniture, fixtures, and equipment, and vehicles. Table 4 shows fiscal year 2025 balances compared to 2024.

Table 4
Capital Assets at June 30
(Net of Depreciation)

Governmental Activities

	2025	2024
Land	\$111,779	\$111,779
Construction in Progress	981,583	409,000
Land Improvements	712,097	621,157
Buildings and Improvements	5,592,269	5,792,590
Furniture, Fixtures, and Equipment	289,833	267,184
Vehicles	544,180	536,165
Total	<u>\$8,231,741</u>	<u>\$7,737,875</u>

For additional information on capital assets, see note 11 to the basic financial statements.

Debt

At June 30, 2025, the School District had energy conservation loans and bonds outstanding. Table 5 shows fiscal year 2025 balances compared to 2024.

Table 5
Outstanding Debt at June 30

Governmental Activities

Total	<u>\$707,542</u>	<u>\$797,897</u>

For additional information on debt, see note 15 to the basic financial statements.

Symmes Valley Local School District
Management's Discussion and Analysis
For the Fiscal Year June 30, 2025
(Unaudited)

CURRENT ISSUES

The financial future of the School District is not without its challenges. These challenges are external and internal in nature. The internal challenges will continue to exist, as the School District must rely heavily on local property taxes. The School District realized some increases during the current fiscal year based on property revaluations within the County and are hopeful that they will continue to increase. However, due to slow economic growth, the School District does not foresee any substantial growth in revenue from property taxes. Thus management must diligently plan expenses from the modest growth attained, staying carefully within its forecast. Additional revenues from what was estimated must not be treated as a windfall to expand programs but as an opportunity to extend the time horizon of the forecast.

Externally, the School District is largely dependent on state funding sources (approximately 69 percent of the School District's operating funds come from state foundation payments and other federal grants and entitlements). State foundation revenue is fundamentally a function of student enrollment and a district's property tax wealth. The District does not anticipate increases in student enrollment that would offset the increased costs experienced over the last several years.

For fiscal year 2025, School District foundation funding received from the State of Ohio continued to be funded using the Fair School Funding Plan. The School District hopes to see some small increases in future foundation payments based on the phase in percentages of this plan.

As the preceding information shows, the School District continues to depend upon its taxpayers. Although the School District has attempted to keep spending in line with revenues, and carefully watched financial planning, it must improve its revenue to expense ratios if the School District hopes to remain on firm financial footing long term.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions or need additional information, contact Terri Wentz, Treasurer at Symmes Valley Local School District, 14778 State Route 141, Willow Wood, Ohio 45696.

*Reconciliation of Total Governmental Fund Balances to
Net Position of Governmental Activities
As of June 30, 2025*

Total Governmental Fund Balances	\$8,651,358
---	--------------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	8,231,741
---	-----------

Other long-term assets are not available to pay for current period expenditures and therefore are deferred in the funds.

Delinquent Taxes	257,116	
Total		257,116

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.	(218)
--	-------

The net pension and OPEB liabilities (assets) are not due and payable (receivable) in the current period. Therefore, the liabilities (assets) and related deferred inflows/outflows are not reported in governmental funds:

Deferred Outflows-Pension	2,159,976	
Deferred Outflows-OPEB	363,797	
Deferred Inflows-Pension	(1,393,134)	
Deferred Inflows-OPEB	(1,176,619)	
Net Pension Liability	(9,190,477)	
Net OPEB Asset	685,745	
Net OPEB Liability	(453,064)	
Total		(9,003,776)

Long-term liabilities, including bonds, loans, and the long-term portion of compensated absences, are not due and payable in the current period and therefore are not reported in the funds.

Energy Conservation Loan and Bond	(707,542)	
Compensated Absences	(548,973)	
Total		(1,256,515)

Net Position of Governmental Activities	<u><u>\$6,879,706</u></u>

Symmes Valley Local School District
*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Fiscal Year Ended June 30, 2025*

Net Change in Fund Balances - Total Governmental Funds	\$356,985
---	------------------

Amounts reported for governmental activities in the statement of activities are different

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. These are the amounts of capital asset additions and depreciation in the current period.

Capital Asset Additions	1,168,315	
Current Year Depreciation	(674,449)	
Total		493,866

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Grants	(57,891)	
Delinquent Taxes	27,126	
Total		(30,765)

Contractually required contributions are reported as expenditures in governmental funds. However, the statement of net position reports these amounts as deferred outflows.

Pension	994,102	
OPEB	32,329	
Total		1,026,431

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liabilities (assets) are reported as pension/OPEB expense (gain) in the statement of activities.

Pension	(465,932)	
OPEB	206,849	
Total		(259,083)

Repayments of long-term debt are expenditures in the governmental funds, but the repayments reduce liabilities in the statement of net position.	90,355
--	--------

Interest is reported as an expenditure when due in the governmental funds, but is accrued as outstanding debt on the statement of net position.	32
---	----

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:

Compensated Absences	22,131	
Total		22,131

Net Change in Net Position of Governmental Activities	\$1,699,952
--	--------------------

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Note 1 - Description of the School District and Reporting Entity

Symmes Valley Local School District is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected five-member Board form of government and provides educational services as authorized by State statute and federal guidelines. This Board of Education controls the School District's two instructional/support facilities staffed by 35 classified employees and 67 certified teaching and 14 administrative personnel who provide services to 770 students and other community members.

Reporting Entity

A reporting entity is composed of the primary government, component units, and other organizations that are included to ensure the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Symmes Valley Local School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District has no component units.

The School District participates in four organizations, the Metropolitan Educational Technology Association, a jointly governed organization, and the Better Business Bureau of Central Ohio Workers' Compensation Group Retrospective Rating Program, the Ohio School Plan, and the Lawrence County Schools Council of Governments Health Benefits Program, which are defined as insurance purchasing pools. These organizations are presented in notes 17 and 18 to the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government. The statements usually distinguish between those activities that are governmental (primarily supported by taxes and intergovernmental revenues) and those that are

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

considered business-type activities (primarily supported by fees and charges). The School District, however, has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department, and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program; grants and contributions that are restricted to meeting the operational or capital requirements of a particular program; and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The School District utilizes one fund category: governmental.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities plus deferred inflows of resources is reported as fund balance. The following is the School District's major governmental fund:

General Fund - The general fund accounts for and reports all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose, provided it is expended and transferred according to the general laws of Ohio.

The other governmental funds of the School District account for grants and other resources whose use is restricted or committed to a particular purpose.

Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets, liabilities, and deferred inflows/outflows of resources associated with the operation of the School District are included on the statement of net position. The statement of activities accounts for increases (revenues) and decreases (expenses) in total net position.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual bases of accounting arise in the recognition of revenue, the recording of deferred outflows and inflows of resources, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see note 8). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, investment earnings, tuition, grants, student fees, and rentals.

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported in the government-wide statement of net position for pension and OPEB plans. The deferred outflows of resources related to pension and OPEB plans are explained in notes 12 and 13.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position/fund balance that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

resources include property taxes, pension, OPEB plans, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2025, but which are levied to finance fiscal year 2026 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the School District, unavailable revenue generally includes delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the reconciliation of total governmental fund balance to net position of governmental activities found within the basic financial statements. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position (see notes 12 and 13).

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds, except cash held with fiscal agents, all are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "equity in pooled cash and cash equivalents".

During fiscal year 2025, investments were limited to money market mutual funds and the State Treasury Asset Reserve of Ohio (STAROhio).

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

STAR Ohio reserves the right to limit participant transactions to \$250 million per day. Transactions in all of a participant's accounts will be combined for this purpose. Twenty-four hours advance notice to STAR Ohio is appreciated for purchases or redemptions of \$100 million or more. For fiscal year 2025, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund and other governmental funds during fiscal year 2025 amounted to \$377,906, and \$5,836, respectively. The other governmental funds also recognized an increase in fair value of investments of \$4,029.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented as cash and cash equivalents.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventories consist of expendable supplies held for consumption and donated and purchased food.

Capital Assets

All of the School District's capital assets are general capital assets resulting from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the fiscal year. The School District was able to estimate the historical cost for the initial reporting of certain assets by backtrending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful life of the related capital asset. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Land Improvements	20 years
Buildings and Improvements	20 - 50 years
Furniture and Equipment	5 - 20 years
Vehicles	3 - 10 years

Internal Activity

Transfers within governmental activities are eliminated on the government-wide statements. Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities. Payments for interfund services provided and used aren't eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted assets include amounts required by statute to be set-aside by the School District for budget stabilization set-asides and unclaimed monies. See note 20 for additional information regarding set-asides.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Compensated Absences

The School District recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled during or upon separation from employment. Based on the criteria listed, two types of leave qualify for liability recognition for compensated absences – vacation and sick leave.

A liability for compensated absences is recorded as incurred in the government-wide statement of net position using the first-in, first-out flow assumption, where the oldest accumulated leave is the leave used first. A liability for compensated absences is recorded in the governmental funds only if the liability has matured because of employee resignations or retirements. The liability for compensated absences includes salary related benefits, where applicable.

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is more likely than not that the employer will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for all accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits considered more likely than not to be used or settled at termination are recognized as a liability in the financial statements. The amount is based on accumulated sick leave and employee wage rates at fiscal year-end taking into consideration any limits specified in the School District's termination policy.

On the governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employee who has accumulated unpaid leave is paid. The School District did not have any matured compensated absences to report as of June 30, 2025.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year.

Loans and bonds are recognized as a liability on the governmental fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" includes items that are not expected to be converted to cash.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or it is imposed by law through constitutional provisions.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action (resolution) of the Board of Education. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for the use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of Education or a School District official delegated that authority by resolution or State Statute.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report deficit balances.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first, followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which the amounts in any of the unrestricted fund balance classifications can be used.

Interfund Balances

Interfund receivables and payables resulting from short-term interfund loans or interfund services provided and used are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column of the statement of position.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Net Position

Net position represents the difference between assets, liabilities and deferred inflows/outflows of resources. Net investment in capital assets, consist of capital assets, net of accumulated depreciation/amortization, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets.

Net position is reported as restricted when there are limitations imposed on their use either through constitutional provisions, or enabling legislation adopted or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Other purposes restricted net position includes various grants and other resources restricted for various purposes. Restricted net position for net OPEB assets represents the corresponding restricted amounts held in trust by the OPEB plans for future benefits, net of related deferred outflows and inflows of resources. The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available. Of the School District's restricted net position, none are restricted by enabling legislation.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. The School District reported no extraordinary or special items for the year ended June 30, 2025.

Budgetary Process

All funds are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution, and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. The Treasurer has been authorized to allocate appropriations to the function and object levels.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts in the amended certificate in effect when final appropriations for the fiscal year were passed.

The appropriation resolution is subject to amendment throughout the fiscal year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense (gain), information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB systems. For this purpose, benefit payments (including refunds of the employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB systems report investments at fair value.

Note 3 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Fund Balances	General	Other Governmental Funds	Total Governmental Funds
<i>Nonspendable</i>			
Inventory	\$0	\$1,890	\$1,890
Unclaimed Monies	24,135	0	24,135
Total	24,135	1,890	26,025
<i>Restricted for</i>			
Debt Payments	0	3,143	3,143
Student Activities	0	72,968	72,968

Total	27,578	0	27,578
<i>Unassigned (Deficit)</i>	6,485,678	(6,568)	6,479,110
<i>Total</i>	<u>\$6,954,880</u>	<u>\$1,696,478</u>	<u>\$8,651,358</u>

Note 4 – New Accounting Pronouncement

For fiscal year 2025, the School District implemented GASB Statement No. 101, "Compensated Absences" and GASB Statement No. 102, "Certain Risk Disclosures".

GASB Statement No. 101 provides updated guidance on accounting for and reporting compensated absences, which includes recognizing a liability for leave that is attributable to service already rendered and is more likely than not to be used or otherwise paid or settled. The implementation of GASB Statement No. 101 has the following impact on beginning net position:

	Governmental Activities
Net Position at June 30, 2024	\$4,962,222
Adjustments: GASB No. 101 Implementation	217,532
Restated Net Position at June 30, 2024	<u>\$5,179,754</u>

GASB Statement 102 requires school districts to disclose essential information about risks related to vulnerabilities due to certain concentrations or constraints. A concentration, as defined by Statement 102, is a lack of diversity related to an aspect of a significant inflow or outflow of resources, for example, a small number of companies that represent a majority of employment in a school district's jurisdiction, or a school district that relies on one revenue source for most of its revenue. A constraint is a limitation imposed on a school district by an external party or by formal action of the

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

school district's highest level of decision-making authority, such as a voter-approved property tax cap or a state-imposed debt limit. The School District had no disclosures related to concentrations or constraints. This GASB pronouncement relates to note disclosure only and had no effect on beginning net position/fund balance.

Note 5 – Accountability

At June 30, 2025, the food service nonmajor special revenue funds had a deficit fund balance of \$4,678. The general fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

Note 6 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The statement of revenues, expenditures and changes in fund balance - budget and actual (budget basis) for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP (modified accrual) basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than committed or assigned fund balance (GAAP basis).
4. Advances in and advances out are operating transactions (budget) as opposed to balance sheet transactions (GAAP).
5. Funds treated as general fund equivalents on the GAAP basis are not included on the budget basis.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statement for the general fund.

Net Change in Fund Balance	
	General
GAAP Basis	\$449,277
Adjustments:	
Revenue Accruals	(17,075)
Expenditure Accruals	6,816
Advances	4,627
Perspective Differences	(226,927)
Budget Basis	<u>\$216,718</u>

Note 7 - Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above;
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio); and
8. Certain bankers' acceptances (for a period not to exceed one hundred and eighty days) and commercial paper noted (for a period not to exceed two hundred and seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met. The investment in commercial paper notes of a single issuer shall not exceed in the aggregate five percent of interim monies available for investment at the time of purchase.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Deposits - Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. As of June 30, 2025, the School District's bank balance of \$2,078,423 was either covered by FDIC or collateralized by the financial institution's public entity deposit pool in the manner described below.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the School District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

Investments At June 30, 2025, the School District had the following investments:

Investment Type	Fair Value	Maturity	Credit Rating*	Percentage of Portfolio
STAR Ohio	\$7,868,165	Less than 1 year	AAAm	99.54%
Money Market Mutual Fund	36,136	Less than 1 year	N/A	0.46%
Total	<u>\$7,904,301</u>			<u>100.00%</u>

*Standard & Poor's credit rating.

N/A – Standard & Poor's credit rating not available.

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs. The above table identifies the School District's recurring fair value measurements as of June 30, 2025. As discussed further in note 2, STAR Ohio is reported at its share price. All other investments of the School District are valued using quoted market prices (Level 1 inputs).

Interest rate risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with the investment policy, the School District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio.

Credit risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School District's policy does not address credit risk beyond the requirements of the Ohio Revised Code. The School District limits their investments to money market mutual funds, U.S. Treasury and U.S. government agency securities, municipal bonds, commercial paper, certificates of deposit, repurchase agreements, bankers acceptances, and STAR Ohio.

Concentration of credit risk – Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The School District's investment policy allows investments as allowable per the Ohio Revised Code.

Custodial credit risk – Custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have a policy for custodial credit risk. All of the School District's investments are

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

held in the name of the School District.

Note 8 - Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the school district in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2025 represents collections of calendar year 2024 taxes. Real property taxes received in calendar year 2025 were levied after April 1, 2024, on the assessed value listed as of January 1, 2024, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2025 represents collections of calendar year 2024 taxes. Public utility real and tangible personal property taxes received in calendar year 2025 became a lien December 31, 2023, were levied after April 1, 2024, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Lawrence and Gallia Counties. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2025 are available to finance fiscal year 2026 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real and public utility taxes which are measurable as of June 30, 2025, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows – property taxes.

The amount available as an advance at June 30, 2025, was \$117,666 in the general fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been reported as unavailable revenue.

The assessed values upon which the fiscal year 2025 taxes were collected are:

	2024 Second-Half Collections		2025 First-Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/Residential and Other Real Estate	\$72,766,250	38.78%	\$73,296,850	38.52%
Public Utility Personal	114,891,930	61.22%	116,979,480	61.48%
Total Assessed Value	\$187,658,180	100.00%	\$190,276,330	100.00%
Tax Rate per \$1,000 of Assessed Valuation	\$21.20		\$20.70	

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Note 9 - Receivables

Receivables at June 30, 2025 consisted of property taxes, interfund, and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

All receivables, except delinquent property taxes, are expected to be collected in one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

A summary of the principal items of intergovernmental receivables follows:

<i>Nonmajor Funds:</i>	
Title I School Improvement	\$3,900
Title IV-A	2,559
Title II-A	3,599
Total Nonmajor Funds	<u>10,058</u>
Total All Funds	<u>\$10,058</u>

Note 10 - Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For fiscal year 2025, the School District has joined together with other school districts in Ohio to participate in the Ohio School Plan (OSP), an insurance purchasing pool. Each individual school district enters into an agreement with OSP and its premium is based on types of coverage, limits of coverage, and deductibles that it selects. The School District pays its annual premium to the OSP (see note 18). The types and amounts of coverage provided by the Ohio School Plan are as follows:

Coverage	Deductible	Limits of Coverage
Buildings and Contents – Replacement Cost	\$1,000	\$47,987,654
Vehicles:		
Bodily Injury:		
Per Person	1,000	3,000,000
Per Accident	1,000	3,000,000
Property Damage	1,000	Actual Cash Value
Uninsured Motorist:		
Per Person	1,000	1,000,000
Per Accident	1,000	1,000,000
General Liability:		
Each Occurrence	0	3,000,000
Aggregate Limit	0	5,000,000
Products – Completed Operations Aggregate Limit	0	3,000,000
Fire Legal Liability	0	500,000
Medical Expense Liability – Per Person/Accident	0	10,000
Employers' Liability:		
Each Occurrence	0	3,000,000
Per Disease – Each Employee	0	3,000,000
Per Disease – Aggregate	0	3,000,000
Employee Benefits Liability:		
Each Occurrence	2,500	3,000,000
Aggregate Limit	2,500	5,000,000
Educational Liability:		
Errors and Omissions – Each Occurrence	2,500	3,000,000
Errors and Omissions – Aggregate Limit	2,500	5,000,000

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There has been no significant change in insurance coverage from the prior fiscal year.

For fiscal year 2025, the School District participated in the Better Business Bureau of Central Ohio Workers' Compensation Group Retrospective Rating Program (GRP), an insurance purchasing pool (Note 18). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience, and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate of the GRP rather than its individual rate. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley Uniservice, Inc. Managed Care Organization provides administrative, cost control, and actuarial services to the GRP.

Group Health

The School District participates in the Lawrence County Schools Council of Governments Health Benefits Program to provide employee medical benefits. Rates are set through an annual calculation process. The School District pays monthly premiums to the fiscal agent, which is placed into a Council Fund from which claim payments are made for all participating school districts. The School District pays 80% to 90% of the premium for all employees.

Claims are paid for all participants regardless of claims flow. Upon withdrawal from the program, no further contribution will be made and the school district will be distributed their net pooled share and all claims submitted by covered members of the school district after the distribution will be exclusively the liability of the school district.

Note 11 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2025 was as follows:

	Ending Balance 6/30/24	Additions	Deletions	Ending Balance 6/30/25
<i>Governmental Activities</i>				
Capital Assets Not Being Depreciated				
Land	\$111,779	\$0	\$0	\$111,779
Construction in Progress	409,000	572,583	0	981,583
Total Capital Assets Not Being Depreciated	520,779	572,583	0	1,093,362
Capital Assets Being Depreciated				
Land Improvements	1,682,691	142,158	0	1,824,849
Buildings and Improvements	18,431,853	251,509	0	18,683,362
Furniture and Equipment	1,051,061	62,945	0	1,114,006
Vehicles	2,103,449	139,120	0	2,242,569
Total Capital Assets Being Depreciated	23,269,054	595,732	0	23,864,786
Less Accumulated Depreciation				
Land Improvements	(1,061,534)	(51,218)	0	(1,112,752)
Buildings and Improvements	(12,639,263)	(451,830)	0	(13,091,093)
Furniture and Equipment	(783,877)	(40,296)	0	(824,173)
Vehicles	(1,567,284)	(131,105)	0	(1,698,389)
Total Accumulated Depreciation	(16,051,958)	(674,449)	0	(16,726,407)
Total Capital Assets Being Depreciated, Net	7,217,096	(78,717)	0	7,138,379
Governmental Activities Capital Assets, Net	\$7,737,875	\$493,866	\$0	\$8,231,741

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Depreciation expense was charged to governmental functions as follows:

<i>Instruction:</i>	
Regular	\$206,549
Special	86,723
Vocational	8,819
<i>Support Services:</i>	
Pupils	16,502
Instructional Staff	12,389
Administration	33,972
Fiscal	12,389
Operation and Maintenance of Plant	48,588
Pupil Transportation	197,563
Central	6,579
Operation of Non-Instructional Services	24,388
Extracurricular Activities	19,988
Total Depreciation Expense	<u>\$674,449</u>

Note 12 – Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension/OPEB Liability (Asset)

The net pension/OPEB liability (asset) reported on the statement of net position represents a liability to (asset for) employees for pensions/OPEB. Pensions and OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pension/OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension/OPEB liability (asset) represent the School District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium.

State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

are legally enforceable. The Ohio revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients.

The remainder of this note includes the required pension disclosures. See Note 13 for the required OPEB disclosures.

School Employees Retirement System (SERS)

Plan Description – School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost-of-living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. The Retirement Board approved a 2.5 percent COLA for calendar year 2024.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2025, the allocation to pension, death benefits, and Medicare B was 14.0 percent. For fiscal year 2025, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The School District’s contractually required contribution to SERS was \$261,763 for fiscal year 2025. Of this amount, \$22,674 is reported as an intergovernmental payable in the accompanying financial statements.

State Teachers Retirement System (STRS)

Plan Description – School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple employer public employee system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information, and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan, and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. The calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of credited service. Effective August 1, 2023, any member can retire with unreduced benefits with 34 years of services credit at any age; or five years of service credit and age 65. Effective June 1, 2025 - July 1, 2027, any member can retire with unreduced benefits with 33 years of service credit at any age; or five years of service credit and age 65. Effective on or after August 1, 2027, any member can retire with unreduced benefits with 34 years of service credit at any age; or five years of service credit and age 65.

In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent upon a determination by its actuary that it was necessary to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective July 1, 2022, an ad-hoc COLA of 3 percent of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2023 as long as they retired prior to July 1, 2018. Effective July 1, 2023, a permanent 1 percent COLA of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2024 as long as they retired prior to July 1, 2019.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits effective August 1, 2023, can retire with 29 years of service credit at any age; or five years of service credit and age 60. Effective June 1, 2025 - July 1, 2027, retirement eligibility for reduced benefits is 28 years of service credit at any age; or five years of service credit and age 60. Effective on or after August 1, 2027, retirement eligibility for reduced benefits is 29 years of service credit at any age; or five years of service credit and age 60.

The DC Plan allows members to place all their member contributions and 11.09 percent of the 14 percent employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 2.91 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12 percent of the 14 percent member rate is deposited into the member's DC account and the remaining 2 percent is applied to the DB Plan.

Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty and after termination of employment.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The 2025 employer and employee contribution rate of 14 percent was equal to the statutory maximum rates. For 2025, the full employer contribution was allocated to pension.

The School District's contractually required contribution to STRS was \$732,339 for fiscal year 2025. Of this amount, \$122,988 is reported as an intergovernmental payable in the accompanying financial statements.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

The net pension liability (asset) was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportion of the Net Pension Liability			
Current Measurement Date	0.04367310%	0.036152560%	
Proportion of the Net Pension Liability			
Prior Measurement Date	0.04347600%	0.037407420%	
Change in Proportionate Share	<u>0.00019710%</u>	<u>-0.001254860%</u>	
Proportionate Share of the Net			
Pension Liability	\$2,234,140	\$6,956,337	\$9,190,477
Pension Expense	\$185,110	\$280,822	\$465,932

At June 30, 2025, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
<i>Deferred Outflows of Resources</i>			
Differences between expected and actual experience	\$85,297	\$438,068	\$523,365
Changes of assumptions	19,985	320,588	340,573
Changes in proportion and differences between School District contributions and proportionate share of contributions	4,443	297,493	301,936
School District contributions subsequent to the measurement date	<u>261,763</u>	<u>732,339</u>	<u>994,102</u>
Total Deferred Outflows of Resources	<u><u>\$371,488</u></u>	<u><u>\$1,788,488</u></u>	<u><u>\$2,159,976</u></u>
<i>Deferred Inflows of Resources</i>			
Differences between expected and actual experience	\$0	\$3,809	\$3,809
Changes of assumptions	0	241,310	241,310
Net difference between projected and actual earnings on pension plan investments	139,742	598,103	737,845
Changes in proportion and differences between School District contributions and proportionate share of contributions	<u>0</u>	<u>410,170</u>	<u>410,170</u>
Total Deferred Inflows of Resources	<u><u>\$139,742</u></u>	<u><u>\$1,253,392</u></u>	<u><u>\$1,393,134</u></u>

\$994,102 reported as deferred outflows of resources related to pension resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense (gain) as follows:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Fiscal Year Ending June 30:			
2026	(\$107,981)	\$303,734	\$195,753
2027	139,023	(147,855)	(8,832)
2028	(19,967)	(147,859)	(167,826)
2029	<u>(41,092)</u>	<u>(205,263)</u>	<u>(246,355)</u>
Total	<u><u>(\$30,017)</u></u>	<u><u>(\$197,243)</u></u>	<u><u>(\$227,260)</u></u>

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2137.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2024, below:

Inflation	2.4 percent
Future Salary Increases, including inflation	3.25 percent to 13.58 percent
COLA or Ad Hoc COLA	2.0 percent, on or after April 1, 2018, COLAs for future retirees will be delayed for three years following commencement
Investment Rate of Return	7.00 percent net of System expenses
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)

Mortality rates were based on the PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' Statement of Investment Policy. ORC 3309.15 and the SERS Board-adopted Investment Policy govern investment activity. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. As of June 30, 2024:

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (geometric)
Cash	3.00 %	0.97 %
US Equity	22.00	4.68
Non-US Equity Developed	12.00	4.96
Non-US Equity Emerging	6.00	5.66
Fixed Income/Global Bonds	18.00	2.38
Private Equity	14.00	7.10
Real Estate	13.00	3.64
Infrastructure	7.00	4.80
Private Debt/Private Credit	5.00	5.86
Total	<u>100.00 %</u>	

Discount Rate The total pension liability for 2024 was calculated using the discount rate of 7.00 percent. The discount rate determination did not use a municipal bond rate. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 20-year amortization period of the unfunded actuarial accrued liability. The actuarially determined contribution rate for fiscal year 2024 was 14 percent. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.00 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability. The annual money-weighted rate of return, calculated as the internal rate of return on pension plan investments, for fiscal year 2024 was 9.31 percent.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.00 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent), or one percentage point higher (8.00 percent) than the current rate.

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
School District's proportionate share of the net pension liability	\$3,417,924	\$2,234,140	\$1,237,457

Actuarial Assumptions – STRS

Key methods and assumptions used in the June 30, 2024, actuarial valuation are presented below:

Inflation	2.50 percent
Salary increases	From 2.5 percent to 8.5 percent based on service
Investment Rate of Return	7.00 percent, net of investment expenses, including inflation
Discount Rate of Return	7.00 percent
Payroll Increases	3.00 percent
Cost-of-Living Adjustments (COLA)	0.0 percent, effective July 1, 2017

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disable Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024, valuation are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	26.00%	6.90%
International Equity	22.00	7.70
Alternatives	19.00	9.10
Fixed Income	22.00	4.50
Real Estate	10.00	5.10
Liquidity Reserves	1.00	2.40
Total	<u>100.00%</u>	

* Final target weights reflected at October 1, 2022.

** 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.4 percent, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocation should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total pension liability was 7.00 percent as of June 30, 2024. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on pension plan investments of 7.00 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2024.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.00 percent) or one-percentage-point higher (8.00 percent) than the current rate:

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
School District's proportionate share of the net pension liability	\$11,221,790	\$6,956,337	\$3,348,496

Note 13 – Defined Benefit OPEB Plans

See note 12 for a description of the net OPEB liability (asset).

School Employees Retirement System (SERS)

Health Care Plan Description - The School District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. The following types of credit purchased after January 29, 1981, do not count toward health care coverage eligibility: military, federal, out-of-state, municipal, private school, exempted, and early retirement incentive credit. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

The Health Care program is financed through a combination of employer contributions, recipient premiums, investment returns, and any funds received on behalf of SERS' participation in Medicare programs. The System's goal is to maintain a health care reserve account with a 20-year solvency period in order to ensure that fluctuations in the cost of health care do not cause an interruption in the program. However, during any period in which the 20-year solvency period is not achieved, the System shall manage the Health Care Fund on a pay-as-you-go basis.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2025, no allocation was made to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, prorated if less than a full year of service credit was earned. For fiscal year 2025, this amount was \$30,000. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2025, the School District's surcharge obligation was \$32,329.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

The surcharge, added to the allocated portion of the 14 percent employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contractually required contribution to SERS was \$32,329 for fiscal year 2025, which was recorded as an intergovernmental payable in the accompanying financial statements.

State Teachers Retirement System (STRS)

Plan Description – The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Health care premiums were reduced by a Medicare Part B premium credit beginning in 2023. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Medicare Part D is a federal program to help cover the costs of prescription drugs for Medicare beneficiaries. This program allows STRS Ohio to recover part of the cost for providing prescription coverage since all eligible STRS Ohio health care plans include creditable prescription drug coverage.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2025, STRS did not allocate any employer contributions to post-employment health care.

Net OPEB Liability (Asset), OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB liability (asset) was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB gain:

	SERS	STRS	Total
Proportion of the Net OPEB Liability (Asset):			
Current Measurement Date	0.04448370%	0.03615256%	
Prior Measurement Date	0.04462790%	0.03747420%	
Change in Proportionate Share	<u>-0.00014420%</u>	<u>-0.00132164%</u>	
Proportionate Share of the:			
Net OPEB Liability	\$453,064	\$0	\$453,064
Net OPEB (Asset)	\$0	(\$685,745)	(\$685,745)
Net OPEB Gain	(\$55,468)	(\$151,381)	(\$206,849)

At June 30, 2025, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
<i>Deferred Outflows of Resources</i>			
Differences between expected and actual experience	\$0	\$29,812	\$29,812
Changes of assumptions	194,455	84,406	278,861
Net difference between projected and actual earnings on pension plan investments	2,213	0	2,213
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	11,718	8,864	20,582
School District contributions subsequent to the measurement date	<u>32,329</u>	<u>0</u>	<u>32,329</u>
Total Deferred Outflows of Resources	<u>\$240,715</u>	<u>\$123,082</u>	<u>\$363,797</u>
<i>Deferred Inflows of Resources</i>			
Differences between expected and actual experience	\$488,522	\$73,898	\$562,420
Changes of assumptions	208,123	309,259	517,382
Net difference between projected and actual earnings on OPEB plan investments	0	29,444	29,444
Changes in proportionate share and difference between School District contributions and proportionate share of contributions	<u>56,164</u>	<u>11,209</u>	<u>67,373</u>
Total Deferred Inflows of Resources	<u>\$752,809</u>	<u>\$423,810</u>	<u>\$1,176,619</u>

\$32,329 reported as deferred outflows of resources related to OPEB resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability or increase in the net OPEB asset in the fiscal year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense (gain) as follows:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Fiscal Year Ending June 30:			
2026	(\$131,678)	(\$104,494)	(\$236,172)

Thereafter	<u>(109,177)</u>	<u>11,532</u>	<u>(97,645)</u>
Total	<u>(\$544,423)</u>	<u>(\$300,728)</u>	<u>(\$845,151)</u>

Actuarial Assumptions - SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2024, are presented below:

	<u>June 30, 2024</u>
Inflation	2.40 percent
Future Salary Increases, including inflation	3.25 percent to 13.58 percent
Investment Rate of Return	7.00 percent net of investment expense
Actuarial Cost Method	Entry Age Normal (Level Percent of Payroll)
Fiduciary Net Position is Projected to be Depleted	2059
Municipal Bond Index Rate:	
Measurement Date	3.93 percent
Prior Measurement Date	3.86 percent
Single Equivalent Interest Rate,	
Measurement Date	4.88 percent
Prior Measurement Date	4.27 percent
Health Care Cost Trend Rate	
Medical Trend Assumption	
Measurement Date	7.00 to 4.40 percent
Prior Measurement Date	6.75 to 4.40 percent

Mortality rates among healthy retirees were based on the PUB-2010 General Employee Amount Weighted Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females. Mortality among disabled members were based upon the PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females. Mortality rates for contingent survivors were based on PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5 percent for males and adjusted 122.5 percent for females. Mortality rates for actives is based on PUB-2010 General Amount Weighted Below Median Employee mortality table. Mortality rates are projected using a fully generational projection with Scale MP-2020.

The most recent experience study was completed for the five-year period ended June 30, 2020.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

The long-term expected rate of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent study covers fiscal years 2016 through 2020, and was adopted by the Board on April 15, 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00 percent, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. As of June 30, 2024:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (geometric)
Cash	3.00 %	0.97 %
US Equity	22.00	4.68
Non-US Equity Developed	12.00	4.96
Non-US Equity Emerging	6.00	5.66
Fixed Income/Global Bonds	18.00	2.38
Private Equity	14.00	7.10
Real Estate	13.00	3.64
Infrastructure	7.00	4.80
Private Debt/Private Credit	5.00	5.86
Total	<u>100.00 %</u>	

Discount Rate The discount rate used to measure the total OPEB liability at June 30, 2024, was 4.88 percent. The discount rate used to measure total OPEB liability prior to June 30, 2024, was 4.27 percent. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50 percent of projected covered payroll each year, which includes a 1.50 percent payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be depleted in 2059 by SERS' actuaries. The Fidelity General Obligation 20-year Municipal Bond Index Rate was used in the determination of the single equivalent interest rate for both the June 30, 2023, and the June 30, 2024, total OPEB liability. The Municipal Bond Index Rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate was 3.93 percent at June 30, 2024, and 3.86 percent at June 30, 2023.

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability of SERS, what SERS' net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.88%) and higher (5.88%) than the current discount rate (4.88%). Also shown is what SERS' net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.40%) and higher (8.00% decreasing to 5.40%) than the current rate.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

	1% Decrease (3.88%)	Current Discount Rate (4.88%)	1% Increase (5.88%)
School District's proportionate share of the net OPEB liability	\$604,145	\$453,064	\$333,010
	1% Decrease (6.00% decreasing to 3.40%)	Current Trend Rate (7.00% decreasing to 4.40%)	1% Increase (8.00% decreasing to 5.40%)
School District's proportionate share of the net OPEB liability	\$306,255	\$453,064	\$646,034

Actuarial Assumptions – STRS

Key methods and assumptions used in the June 30, 2024, actuarial valuation compared to the prior year are presented below:

	June 30, 2024	June 30, 2023
Projected salary increases	Varies by service from 2.5 percent to 8.5 percent	Varies by service from 2.5 percent to 8.5 percent
Investment Rate of Return	7.00 percent, net of investment expenses, including inflation	7.00 percent, net of investment expenses, including inflation
Payroll Increases	3 percent	3 percent
Discount Rate of Return	7.00 percent	7.00 percent
Health Care Cost Trends		
Medical		
Pre-Medicare	7.50 percent initial 3.94 percent ultimate	7.50 percent initial 4.14 percent ultimate
Medicare	-112.22 percent initial 3.94 percent ultimate	-10.94 percent initial 4.14 percent ultimate
Prescription Drug		
Pre-Medicare	8.00 percent initial 3.94 percent ultimate	-11.95 percent initial 4.14 percent ultimate
Medicare	-15.14 percent initial 3.94 percent ultimate	1.33 percent initial 4.14 percent ultimate

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

Healthy retirees post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110 percent for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95 percent for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024, valuation are based on the results of an actuarial experience study for the period July 1, 2015, through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

Asset Class	Target Allocation *	Long-Term Expected Rate of Return **
Domestic Equity	26.00%	6.90%
International Equity	22.00	7.70
Alternatives	19.00	9.10
Fixed Income	22.00	4.50
Real Estate	10.00	5.10
Liquidity Reserves	1.00	2.40
Total	<u>100.00%</u>	

* Final target weights reflected at October 1, 2022.

* 10 year annualized geometric nominal returns, which include the real rate of return and inflation of 2.4 percent, and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actual rate of return, without net value added by management.

Discount Rate The discount rate used to measure the total OPEB liability was 7.00 percent as of June 30, 2024. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on health care plan investments of 7.00 percent was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2024.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate The following table represents the net OPEB asset as of June 30, 2024, calculated using the current period discount rate assumption of 7.00 percent, as well as what the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current assumption. Also shown is the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
School District's proportionate share of the net OPEB asset	(\$557,556)	(\$685,745)	(\$797,297)

	1% Decrease	Current Trend Rate	1% Increase
School District's proportionate share of the net OPEB asset	(\$804,833)	(\$685,745)	(\$542,527)

Note 14 - Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days vacation per fiscal year, depending upon length of service. Vacation from one fiscal year may be carried forward to future fiscal years. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. There is no limit to the amount of sick leave that may be accumulated. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave to a maximum of 85 days.

Insurance Benefits

OAPSE

The School District provides medical, health, and prescription card coverage through Anthem Blue Cross and Blue Shield. The School District pays 90% of the total monthly premiums for those employees with the School District prior to June 30, 2013, and 80% for those employees hired after June 30, 2013, of \$2,578.16 for family coverage and \$1,043.78 for single coverage through April 2025. Beginning in May 2025, premiums increased to \$2,707.07 for family coverage and \$1,095.97 for single coverage. There is also a higher deductible plan available that some members choose that has a monthly premium cost of \$2,067.64 for a family plan.

The School District provides life insurance and accidental death and dismemberment insurance to certificated and administrative employees through Guardian Insurance Company in the amount of \$45,000.

The School District provides dental insurance through Guardian Insurance Company. The School District pays 75% of the total monthly premium of \$60.76 for family coverage and \$13.45 for single coverage.

The School District provides reimbursement up to two hundred and fifty (\$250) dollars for corrective lenses for full time bargaining unit members per calendar year.

SVEA

The School District provides medical, health, and prescription card coverage through Anthem Blue Cross and Blue Shield. The School District pays 90% of the total monthly premiums for those employees with the School District prior to June 30, 2013, 80% for those employees hired after June 30, 2013, and 75% for those employees hired after July 1, 2022, of \$2,578.16 for family coverage and \$1,043.78 for single coverage through April 2025. Beginning in May 2025, premiums increased to \$2,707.07 for family coverage and \$1,095.97 for single coverage. There is also a higher deductible plan available that some members choose that has a monthly premium cost of \$2,067.64 for a family plan.

The School District provides life insurance and accidental death and dismemberment insurance to certificated and administrative employees through Guardian Insurance Company in the amount of \$45,000.

The School District provides dental insurance through Guardian Insurance Company. The School District pays 75% of the total monthly premium of \$60.76 for family coverage and \$13.45 for single coverage. The School District provides vision insurance through Guardian Insurance Company. The School District pays 75% of the total monthly premium of \$29.60 for family coverage and \$11.10 for single coverage.

Symmes Valley Local School District
Notes to the Basic Financial Statements

Total Governmental Activities Long-Term Obligations	\$12,562,159	\$0	(\$1,662,103)	\$10,900,056	\$427,272

The change in compensated absences reported above is a net change.

House Bill 264 Energy Conservation Obligations

On September 19, 2014, the School District entered into a \$555,960 energy conservation loan and entered into a \$145,074 financed purchase agreement for the purpose of improving and reducing energy consumption in each of the School District's instructional facilities. These obligations were issued through a loan and a series of financed purchase agreements and trust indentures in accordance with Section 3313.375 of the Ohio Revised Code.

In accordance with the financed purchase terms, the project assets were leased to US Bank Equipment Finance, and then subleased back to the School District. The financed purchase agreement was issued through a series of annual agreements with an initial term of five years which included the right to renew for five successive one-year terms through December 31, 2018, subject to annual appropriations. To satisfy the trustee requirements, the School District was required to make annual base rent payments, subject to the lease terms and appropriations, semi-annually. The base rent includes an interest component of 2.62%.

In accordance with the energy conservation loan agreement, the lender has the right pursue any one or more of the following remedies on default upon an event of default by the School District: a) termination of obligation of any undisbursed amounts remaining on the loan; b) declaration of all payments under the loan to be immediately due and payable; and c) increase in interest rate on the outstanding balance of the loan up to 10% per annum. In addition, if required reports are not submitted by the School District to the lender, the School District shall pay the lender liquidated damages calculated at a rate of \$250 for each calendar month or part of a month that such information is not received after the respective date said information is to be provided.

On May 18, 2021, the School District issued \$695,700 in limited tax energy conservation general obligation bonds to the Ohio Development Services Agency (ODSA) for the purpose of the acquisition, construction, and equipping relating to the (a) replacement of a chiller, LED lighting retrofit, retro-commission ventilator controls and freezer improvements, boiler replacement, installation of a solar PV system, system commissioning and management, and other energy conservation improvements at various buildings and facilities within the School District as more specifically identified in the energy performance contract for the project, including all costs of such acquisition, equipping, and installation, as well as costs of issuance, design, engineering, installation, and related capital costs and expenses, and (b) pay certain costs of issuance in connection with the issuance of the Series 2021 Bond. These funds will be held by the Director of

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

ODSA and a loan in the amount of \$695,700 may be drawn upon by the School District upon the satisfaction of the conditions of disbursement as set forth in the loan agreement. The School District drew the entire amount during fiscal year 2022. The terms of the repayment of the loan shall be set for in the bond and the School District will make all payments as set forth in the bond when due. The bonds carry an interest rate of 0.25% and a maturity date of December 1, 2034. The bonds are term bonds subject to mandatory sinking fund redemptions in part at 100% of the principal amount so redeemed plus accrued interest to the date of redemption, according to the table below.

Redemption Date	Principal Amount to be Redeemed	Redemption Date	Principal Amount to be Redeemed	Redemption Date	Principal Amount to be Redeemed
12/1/25	\$26,388	12/1/29	\$26,921	12/1/33	\$27,464
6/1/26	26,454	6/1/30	26,988	6/1/34	27,532
12/1/26	26,520	12/1/30	27,055	12/1/34	27,601
6/1/27	26,587	6/1/31	27,123	Total	<u>\$512,817</u>
12/1/27	26,653	12/1/31	27,191		
6/1/28	26,720	6/1/32	27,259		
12/1/28	26,786	12/1/32	27,327		
6/1/29	26,853	6/1/33	27,395		

These bonds are subject to default stipulations. Whenever an event of default shall have occurred and be continuing, any one or more of the following remedial steps may be taken: (a) if the entire loan amount has not been disbursed, the Director of ODSA may terminate any and all of the Director's obligations under the agreement and the commitment; (b) the Director may declare all payments under the bonds to be immediately due and payable, whereupon the same shall become immediately due and payable; (c) the Director may increase the interest rate on the outstanding balance of the loan up to ten percent (10%) per annum, subject to appropriation and applicable debt limitations; (d) the Director may exercise any or all or any combination of the remedies specified in any loan document; (e) the Director may pursue all remedies now or hereafter existing at law or in equity to collect all amounts then due and thereafter to become due under the agreement, the bond or any other loan documents, or to enforce the performance and observance of any other obligation or agreement of the borrower under the loan documents; and (f) upon an event of default occurring as a result of the borrower's failure to deliver the reports required to be delivered to the Director pursuant to Section 4.2 of the agreement, then in addition to any remedies the Director shall have under this agreement, subject to appropriation, the borrower shall pay to the Director liquidated damages calculated at the rate of \$500.00 for each calendar month or part of a month that such information is not received after the respective date said information is to be provided.

Annual base rent requirements to retire the HB264 energy conservation loan and bond outstanding at June 30, 2025, are as follows:

Fiscal Year Ending June 30,	2014 HB264 Energy Conservation Loan		2021 HB264 Energy Conservation Bond	
	Principal	Interest	Principal	Interest
2026	\$38,155	\$1,389	\$52,842	\$2,498
2027	38,537	1,102	53,107	2,233
2028	38,923	811	53,373	1,968
2029	39,314	519	53,640	1,700
2030	39,796	186	53,908	1,432
2031-2035	0	0	245,947	3,086
Total	<u>\$194,725</u>	<u>\$4,007</u>	<u>\$512,817</u>	<u>\$12,917</u>

The energy conservation loan and bond will be repaid from the general fund. There is no repayment schedule for sick leave benefits or net pension and OPEB liabilities. However, employer pension contributions are made from the following funds: general fund, and the food service, title VI-B IDEA, and the title I nonmajor special revenue funds. For additional information related to the net pension liability and net OPEB liability see notes 12 and 13.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

The School District's overall legal debt margin was \$17,128,013, with an unvoted debt margin of \$190,276 at June 30, 2025.

Note 16 - Interfund Activity and Balances

Transfers

During fiscal year 2025, the general fund made transfers to the lunchroom and athletics nonmajor special revenue funds, in the amounts of \$78,249, and \$7,500, respectively. These transfers were used to move unrestricted revenue collected in the general fund to finance the programs accounted for these funds in accordance with budgetary authorizations.

Interfund Balances

Interfund balances at June 30, 2025 arise from the provision of cash flow resources from the general fund until the receipt of grant monies by the nonmajor special revenue funds.

	<u>Receivables</u>	<u>Payables</u>
<i>Major Fund:</i>		
General	\$10,058	\$0
<i>Nonmajor Funds:</i>		
Title I	0	3,900
Title IV-A	0	2,559
Title II-A	0	3,599
Total Nonmajor Funds	<u>0</u>	<u>10,058</u>
Total	<u>\$10,058</u>	<u>\$10,058</u>

Note 17 - Jointly Governed Organization

Metropolitan Educational Technology Association

The School District participates in the Metropolitan Educational Technology Association (META), formed from the merger of the Metropolitan Educational Council (MEC) and the South Central Ohio Computer Association Regional Council of Governments (SCOCARCoG) during fiscal year 2016, which is a jointly governed organization, created as a regional council of governments pursuant to Chapter 167 of the Ohio Revised Code. META operates as, and has all the powers of, a data acquisition site/information technology center pursuant to applicable provisions of the Ohio Revised Code. The organization was formed for the purpose of identifying, developing, and providing to members and nonmembers innovative educational and technological services and products, as well as expanded opportunities for cooperative purchasing. The General Assembly of META consists of one delegate from every member school district. The delegate is the superintendent of the school district or the superintendent's designee. The degree of control exercised by any participating school district is limited to its representation on the General Assembly. The General Assembly exercises total control over the operation of META including budgeting, appropriating, contracting, and designating management. During 2025, the School District paid \$112,754 for services with META. Financial information can be obtained from Metropolitan Educational Technology Association at 100 Executive Drive, Marion, Ohio 43302.

Note 18 - Insurance Purchasing Pools

Lawrence County Schools Council of Governments Health Benefits Program

The School District participates in the Lawrence County Schools Council of Governments Health Benefits Program (Council), a shared risk pool created pursuant to State statute for the purpose of administering health care benefits. The Council is governed by a council, which consists of the superintendent from each participating school district. The council elects officers for one-year terms to serve on the Board of Directors. The council exercises control over the operation of the Council. All council revenues are generated from charges for services received from the participating

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

school districts, based on the established premiums for the insurance plans. The Lawrence County Educational Service Center is the fiscal agent of the council. Each School District reserves the right to withdraw from the plan. If this is done, no further contributions will be made and the school district's net pooled share will be distributed and all claims submitted by covered members of the school district after the distribution will be exclusively the liability of the school district.

Better Business Bureau of Central Ohio Workers' Compensation Group Retrospective Rating Program

The School District participates in the Better Business Bureau of Central Ohio Worker's Compensation Group Retrospective Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of trustees consisting of the President, the Vice President, and the Secretary. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

Ohio School Plan

The School District participates in the Ohio School Plan (Plan), a joint self-insurance pool established under Section 2744.081 of the Ohio Revised Code. The Plan is an unincorporated nonprofit association of its members which enables the participants to provide for a formalized joint insurance purchasing program for maintaining adequate insurance protection and provides risk management programs and other administrative services. The Plan's business and affairs are conducted by a thirteen member board consisting of superintendents, treasurers, and school board members. Stolly Insurance Group is the Plan's administrator and is responsible for underwriting, claim management, risk management, accounting, system support services, sales, and marketing for the Plan. Financial information can be obtained from Stolly Insurance Group, 1730 Allentown Road, Lima, Ohio 45805.

Note 19 - Contingencies

Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2025, if applicable, cannot be determined at this time.

Litigation

The School District is not currently party to any legal proceedings.

School Foundation

School district foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. The Ohio Department of Education and Workforce (DEW) is legislatively required to adjust/reconcile funding as enrollment information is updated by schools throughout the State, which can extend past the fiscal year end. DEW adjustments for fiscal year 2025 have been finalized, and the School District has recorded an intergovernmental payable of \$419 in the accompanying financial statements as a result of these adjustments.

Note 20 - Set-Aside Calculations

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future years. In prior fiscal years, the School District was also required to set aside money for budget stabilization and textbooks.

Symmes Valley Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

Effective April 10, 2001, through Amended Substitute Senate Bill 345, the requirements for school districts to establish and appropriate money for the budget stabilization was deleted from law. A school district may still establish reserve balance accounts consistent with Section 5705.13, Revised Code, if it so chooses; however, the requirement is no longer mandatory. In addition, any money on hand in a school district's budget reserve set-aside as of April 10, 2001, may at the discretion of the board of education be returned to the school district's general fund or may be left in the account and used by the board to offset any budget deficit the district may experience in future years. The bill placed special conditions on any Bureau or Workers' Compensation monies remaining in the budget reserve. During fiscal year 2002, the Board of Education passed a resolution to maintain only the refunds from the Bureau of Workers' Compensation in the budget reserve pursuant to State Statute and at June 30, 2025, this is all that continues to be set aside.

The following cash basis information describes the changes in the fiscal year end set-aside amounts for capital acquisitions. Disclosure of this information is required by the State statute.

	Capital Improvements	Budget Reserve
Set-Aside Balance as of June 30, 2024	\$0	\$42,941
Current Fiscal Year Set-Aside Requirement	169,442	0
Current Fiscal Year Off-Sets	(34,560)	0
Current Fiscal Year Qualifying Expenditures	(134,882)	0
Total	\$0	\$42,941
Set-Aside Balance as of June 30, 2025	\$0	\$42,941
Required Set-Aside Balance Carried Forward to Fiscal Year 2026	\$0	\$42,941

The School District has qualifying disbursements and offsets during the fiscal year that reduced the capital improvements set-aside amount below zero. The excess in the capital maintenance set-aside may not be carried forward to reduce the set-aside requirement in future fiscal years. Therefore, qualified disbursements have been limited to reduce the requirement to zero.

Note 21 – Change in Reporting Entity

For fiscal year 2025, the capital projects fund presentation changed from major to nonmajor.

Symmes Valley Local School District
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

State Teachers Retirement System

Pension

Changes in benefit terms

There were no changes to benefit terms for fiscal years 2016 through 2017. For fiscal year 2018, the cost of living adjustment (COLA) was reduced to 0 percent effective July 1, 2017. There were no changes to benefit terms for fiscal years 2019 through 2025.

Changes in assumptions

There were no changes in assumptions for fiscal years 2016 through 2017.

For fiscal year 2018, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date:

- Inflation assumptions were lowered from 2.75 percent to 2.5 percent.
- Investment return assumptions were lowered from 7.75 percent to 7.45 percent.
- Total salary increases rates were lowered by decreasing merit component of the individual salary increases, as well as by 0.25 percent due to lower inflation.
- Payroll growth assumptions were lowered from 3.5 percent to 3.0 percent.
- Updated the health and disability mortality assumption to the RP-2014 mortality tables with generational improvement scale MP-2016.
- Rates of retirement, termination and disability were modified to better reflect anticipated future experience.

There were no changes in assumptions for fiscal years 2019 through 2021.

For fiscal year 2022, the following was the most significant change of assumptions that affected the total pension liability since the prior measurement date:

- Investment rate of return and discount rate of return assumptions were lowered from 7.45 percent to 7.0 percent.

For fiscal year 2023, the following were the most significant changes of assumptions that affected the total pension liability since the prior measurement date:

- Updated the health and disability mortality assumption to the PUB-2010 mortality tables with generational improvement scale MP-2020.
- The projected salary increases changed from 12.50 percent at age 20 to 2.50 percent at age 65 to varying by service from 2.50 percent to 8.50 percent.

There were no changes in assumptions for fiscal years 2024 or 2025.

OPEB

Changes in benefit terms

There were no changes to benefit terms for fiscal year 2017.

For fiscal year 2018, STRS has the following changes in benefit terms since the previous measurement date:

- The HealthSpan HMO plans were eliminated.

Symmes Valley Local School District
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

- The subsidy multiplier for non-Medicare benefit recipients was reduced to 1.9 percent per year of service from 2.1 percent.
- Medicare Part B premium reimbursements were discontinued for survivors and beneficiaries who were age 65 by 2008 and either receiving a benefit or named as a beneficiary as of January 1, 2008.
- The remaining Medicare Part B premium reimbursements will be phased out over a three-year period.

For fiscal year 2019, the following was the most significant change in benefit terms that affected the total OPEB liability since the prior measurement date:

- The subsidy multiplier for non-Medicare benefit recipients increased from 1.9 percent to 1.944 percent per year of service effective January 1, 2019. The non-Medicare frozen subsidy base premium increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements were scheduled to be discontinued beginning January 1, 2020, though the STRS Board voted in June 2019 to extend the current Medicare Part B partial reimbursement for one year.

For fiscal year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.

For fiscal year 2021, there was no change to the claims costs process. Claim curves were updated to reflect the projected fiscal year ending June 30, 2021 premium based on June 30, 2020 enrollment distribution. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984 percent to 2.055 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1 percent for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.

For fiscal year 2022, the non-Medicare subsidy percentage was increased effective January 1, 2022 from 2.055 percent to 2.1 percent per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2022. The Medicare Part D Subsidy was updated to reflect it is expected to be negative in calendar year 2022. The Part B monthly reimbursement elimination date was postponed indefinitely.

There were no changes to benefit terms for fiscal years 2023 through 2025.

Changes in assumptions

There were no changes in assumptions for fiscal year 2017.

For fiscal year 2018, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The discount rate was increased from 3.26 percent to 4.13 percent based on the methodology defined under GASB 74.
- The long-term rate of return was reduced to 7.45 percent.
- Valuation-year per capita health costs were updated.
- The percentage of future retirees electing each option was updated based on current data.
- The assumed future trend rates were modified.
- Decrement rates including mortality, disability, retirement, and withdrawal were modified.
- The assumed percentage of future disabled retirees assumed to elect health coverage was decreased from 84 percent to 65 percent, and the assumed percentage of terminated vested participants assumed to elect health coverage at retirement was decreased from 47 percent to 30 percent.

Symmes Valley Local School District
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

- The assumed salary scale was modified.

For fiscal year 2019, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The discount rate increased from a 4.13 percent blended discount rate to 7.45 percent.
- The health care trend assumption rate changed from 6 to 11 percent initial, 4.5 percent ultimate to:
 - Medical Medicare – 5 percent initial, 4 percent ultimate
 - Medical Pre-Medicare – 6 percent initial, 4 percent ultimate
 - Prescription Drug Medicare – -5.23 percent initial, 4 percent ultimate
 - Prescription Drug Pre-Medicare – 8 percent initial, 4 percent ultimate

For fiscal year 2020, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The health care trend assumption rate changed as follows:
 - Medical Medicare – from 5 percent to 4.93 percent initial, 4 percent ultimate
 - Medical Pre-Medicare – from 6 percent to 5.87 percent initial, 4 percent ultimate
 - Prescription Drug Medicare – from -5.23 percent to 9.62 percent initial, 4 percent ultimate
 - Prescription Drug Pre-Medicare – from 8 percent to 7.73 initial, 4 percent ultimate

For fiscal year 2021, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The health care trend assumption rate changed as follows:
 - Medical Medicare – from 4.93 percent to -6.69 percent initial, 4 percent ultimate
 - Medical Pre-Medicare – from 5.87 percent to 5 percent initial, 4 percent ultimate
 - Prescription Drug Medicare – from 9.62 percent to 11.87 percent initial, 4 percent ultimate
 - Prescription Drug Pre-Medicare – from 7.73 percent to 6.5 initial, 4 percent ultimate

For fiscal year 2022, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The discount rate increased from 7.45 percent to 7.0 percent.
- The health care trend assumption rate changed as follows:
 - Medical Medicare – from -6.69 percent initial, 4 percent ultimate to -16.18 percent initial, 4 percent ultimate
 - Prescription Drug Medicare – from 11.87 percent initial, 4 percent ultimate to 29.98 percent initial, 4 percent ultimate

For fiscal year 2023, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The health care trend assumption rate changed as follows:
 - Medical Pre-Medicare – from 5.00 percent initial, 4 percent ultimate to 7.50 percent initial, 3.94 percent ultimate
 - Medical Medicare – from -16.18 percent initial, 4 percent ultimate to -68.78 percent initial, 3.94 percent ultimate
 - Prescription Drug Pre-Medicare – from 6.50 percent initial, 4 percent ultimate to 9.00 percent initial, 3.94 percent ultimate
 - Prescription Drug Medicare – from 29.98 percent initial, 4 percent ultimate to -5.47 percent initial, 3.94 percent ultimate
- Updated the health and disability mortality assumption to the PUB-2010 mortality tables with generational improvement scale MP-2020.

Symmes Valley Local School District
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

- The projected salary increases changed from 12.50 percent at age 20 to 2.50 percent at age 65 to varying by service from 2.50 percent to 8.50 percent.

For fiscal year 2024, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The health care trend assumption rate changed as follows:
 - Medical Pre-Medicare – from 7.50 percent initial, 3.94 percent ultimate to 7.50 percent initial, 4.14 percent ultimate
 - Medical Medicare – from -68.78 percent initial, 3.94 percent ultimate to -10.94 percent initial, 4.14 percent ultimate
 - Prescription Drug Pre-Medicare – from 9.00 percent initial, 3.94 percent ultimate to -11.95 percent initial, 4.14 percent ultimate
 - Prescription Drug Medicare – from -5.47 percent initial, 3.94 percent ultimate to 1.33 percent initial, 4.14 percent ultimate

For fiscal year 2025, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The health care trend assumption rate changed as follows:
 - Medical Pre-Medicare – from 7.50 percent initial, 4.14 percent ultimate to 7.50 percent initial, 3.94 percent ultimate
 - Medical Medicare – from -10.94 percent initial, 4.14 percent ultimate to -112.22 percent initial, 3.94 percent ultimate
 - Prescription Drug Pre-Medicare – from -11.95 percent initial, 4.14 percent ultimate to 8.00 percent initial, 3.94 percent ultimate
 - Prescription Drug Medicare – from 1.33 percent initial, 4.14 percent ultimate to -15.14 percent initial, 3.94 percent ultimate

School Employees Retirement System

Pension

Changes in benefit terms

There were no changes to benefit terms for fiscal years 2016 through 2017.

For fiscal year 2018, the following were the most significant changes in benefit that affected the total pension liability since the prior measurement date:

- The cost-of-living adjustment was changed from a fixed 3.00 percent to a cost-of-living adjustment that is indexed to CPI-W not greater than 2.5 percent with a floor of 0 percent beginning January 1, 2018. In addition, with the authority granted the Board under HB 49, the Board has enacted a three-year COLA suspension for benefit recipients in calendars 2018, 2019, and 2020.

There were no changes to benefit terms for fiscal years 2019 through 2021.

For fiscal year 2022, the following was the most significant change in benefit that affected the total pension liability since the prior measurement date:

- The cost-of-living adjustment was changed from 2.5 percent to 2.0 percent.

Symmes Valley Local School District
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

For fiscal year 2023, the following was the most significant change in benefit that affected the total pension liability since the prior measurement date:

- The cost-of-living adjustment was changed from 2.0 percent to 2.5 percent.

There were no changes to benefit terms for fiscal years 2024 or 2025.

Changes in assumptions

There were no changes in assumptions for fiscal years 2016 through 2017.

For fiscal year 2018, the following changes were made to the actuarial assumptions as identified. These new assumptions compared with those used in fiscal year 2016 and prior are presented below:

- Assumed rate of inflation was reduced from 3.25 percent to 3.0 percent
- Payroll Growth Assumption was reduced from 4.0 percent to 3.5 percent
- Assumed real wage growth was reduced from 0.75 percent to 0.5 percent
- Investment rate of return was reduced from 7.75 percent to 7.5 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members was updated to the following:
 - RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females. The above rates represent the base rates used.
- Mortality among service retired members, and beneficiaries was updated to the following:
 - RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120 percent of male rates, and 110 percent of female rates.
- Mortality among disabled member was updated to the following:
 - RP-2000 Disabled Mortality Table, 90 percent for male rates and 100 percent for female rates, set back five years is used for the period after disability retirement.

There were no changes in assumptions for fiscal years 2019 through 2021.

For fiscal year 2022, the following changes were made to the actuarial assumptions as identified. These new assumptions compared with those used in fiscal year 2021 and prior are presented below:

- Assumed rate of inflation was reduced from 3.0 percent to 2.4 percent
- Payroll Growth Assumption was reduced from 3.5 percent to 3.25 percent
- Investment rate of return was reduced from 7.5 percent to 7.0 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among members was updated to the following:
 - PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females.
- Mortality among disabled members was updated to the following:
 - PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females.

There were no changes in assumptions for fiscal years 2023 through 2025.

OPEB

Changes in benefit terms

There were no changes to benefit terms for fiscal years 2017 through 2025.

Symmes Valley Local School District
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

Changes in assumptions

For fiscal year 2017, the following was the most significant change of assumptions that affected the total OPEB liability since the prior measurement date:

- Assumed rate of inflation was reduced from 3.25 percent to 3.0 percent
- Payroll growth assumption was reduced from 4.0 percent to 3.5 percent
- Assumed real wage growth was reduced from 0.75 percent to 0.5 percent
- Rates of withdrawal, retirement and disability were updated to reflect recent experience.
- Mortality among active members was updated to the following:
 - RP-2014 Blue Collar Mortality Table with fully generational projection and a five year age set-back for both males and females.
- Mortality among service retired members, and beneficiaries was updated to the following:
 - RP-2014 Blue Collar Mortality Table with fully generational projection with Scale BB, 120% of male rates, and 110% of female rates.
- Mortality among disabled members was updated to the following:
 - RP-2000 Disabled Mortality Table, 90% for male rates and 100% for female rates, set back five years is used for the period after disability retirement.

For fiscal year 2018, the following was the most significant change of assumptions that affected the total OPEB liability since the prior measurement date:

- The discount rate was increased from 2.98 percent to 3.63 percent.
- The municipal bond index rate increased from 2.92 percent to 3.56 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation increased from 2.98 percent to 3.63 percent.

For fiscal year 2019, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The discount rate was changed from 3.63 percent to 3.70 percent.
- The municipal bond index rate increased from 3.56 percent to 3.62 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation increased from 3.63 percent to 3.70 percent.
- The medical trend assumption rate changed as follows:
 - Medicare – 2018 – 5.50 to 5.00 percent, 2019 – 5.375 to 4.75 percent
 - Pre-Medicare – 2018 – 7.50 to 5.00 percent, 2019 – 7.25 to 4.75

For fiscal year 2020, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The municipal bond index rate decreased from 3.62 percent to 3.13 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation decreased from 3.70 percent to 3.22 percent.
- The medical trend assumption rate changed as follows:
 - Medicare – 2019 – 5.375 to 4.75 percent, 2020 – 5.25 to 4.75 percent
 - Pre-Medicare – 2019 – 7.25 to 4.75, 2020 – 7 to 4.75 percent

For fiscal year 2021, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

Symmes Valley Local School District
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

- The municipal bond index rate decreased from 3.13 percent to 2.45 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation decreased from 3.22 percent to 2.63 percent.

For fiscal year 2022, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The inflation rate decreased from 3.0 percent to 2.4 percent.
- Projected salary increases decreased from 3.5 percent to 3.25 percent.
- Investment rate of return decreased from 7.5 percent to 7.0 percent.
- The municipal bond index rate decreased from 2.45 percent to 1.92 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation decreased from 2.63 percent to 2.27 percent.
- The medical trend assumption rate changed as follows:
 - Medicare – 2020 – 5.25 to 4.75 percent, 2022 – 5.125 to 4.4 percent
 - Pre-Medicare – 2020 – 7 to 4.75 percent, 2022 – 6.75 to 4.4 percent
- Mortality among members was updated to the following:
 - PUB-2010 General Employee Amount Weight Below Median Healthy Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20 percent for males and set forward 2 years and adjusted 81.35 percent for females.
- Mortality among disabled members was updated to the following:
 - PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3 percent for males and set forward 3 years and adjusted 106.8 percent for females.

For fiscal year 2023, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The municipal bond index rate increased from 1.92 percent to 3.69 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation increased from 2.27 percent to 4.08 percent.

For fiscal year 2024, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The municipal bond index rate increased from 3.69 percent to 3.86 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation increased from 4.08 percent to 4.27 percent.
- The medical trend assumption decreased from 7.00 percent to 6.75 percent.

For fiscal year 2025, the following were the most significant changes of assumptions that affected the total OPEB liability since the prior measurement date:

- The municipal bond index rate increased from 3.86 percent to 3.93 percent.
- The single equivalent interest rate, net of plan investment expense, including price inflation increased from 4.27 percent to 4.88 percent.
- The medical trend assumption increased from 6.75 percent to 7.00 percent.

The notes to the schedule of expenditures of federal awards are an integral part of this schedule.

Symmes Valley Local School District
Notes to the Schedule of Expenditures of Federal Awards
2 CFR 200.510(b)(6)
For the Fiscal Year Ended June 30, 2025

Note 1 – Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) is a summary of the activity of the School District's federal award programs. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position or changes in net position of the School District.

Note 2 – Summary of Significant Accounting Policies

Expenditures reported on the schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

Note 3 – Indirect Cost Rate

The School District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 4 – Child Nutrition Cluster

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this schedule, the School District assumes it expends federal monies first.

Note 5 – Food Donation Program

The School District reports commodities consumed on the schedule at the entitlement value. The School District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Symmes Valley Local School District
Lawrence County
14778 State Route 141
Willow Wood, Ohio 45696

To the Board of Education:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Symmes Valley Local School District, Lawrence County, Ohio (the School District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated March 24, 2026, wherein we noted the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Symmes Valley Local School District
Lawrence County
14778 State Route 141
Willow Wood, Ohio 45696

To the Board of Education:

Report on Compliance for the Major Federal Program

Opinion on the Major Federal Program

We have audited Symmes Valley Local School District's, Lawrence County, Ohio (the School District) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on Symmes Valley Local School District's major federal program for the year ended June 30, 2025. Symmes Valley Local School District's major federal program is identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings.

In our opinion, Symmes Valley Local School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2025.

Basis for Opinion on the Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

The School District's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the School District's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
